H. C. Davis, Friday night at a meeting of representatives of members of the New Deal baseball league tendered the resignation of Eastland from the league...

The meeting was presided over by Dave Perry of Cisco, president of the league, who called the meeting at the beginning of the meeting...

The text of the resignation, according to Davis, was as follows: "Mr. President and members of the New Deal league, the primary purpose was for the promotion of good fellowship of towns in this section."

We have enjoyed every game that we have played with members of this league. We can say that we enjoyed the sportsmanship that you have shown and we tried and have done our best to make you feel the same toward Eastland.

We think that for the best interests of baseball and the New Deal league that we should resign tonight. I assure you that we have no ill feelings toward anyone or anyone and want no ill feeling to exist toward Eastland. With these thoughts in mind we hereby tender our resignation.

BOLIVIA AND PARAGUAY ARE READY FOR WAR

Buenos Aires, Argentina, May 12.—Bolivia and Paraguay prepared today to wage their Gran Chaco war with a ferocity unapproached since the days of the World war.

Airplane bombing of defensive cities, use of poison gas, reprisals on prisoners of war were threatened as the contending armies massed munitions and men for a winter campaign in the jungles of the Chaco.

League of Nations officials, trying vainly to halt the war charged that back of it lay an ugly cloud of international intrigue, into which entered a fight for munitions business and for the supposedly dream-like oil wealth of the territory.

Both sides were massing men in the Chaco region for what each hoped would be decisive victory. Airplanes roared over the lines, machine gunning and bombing at close range were reported.

Paraguay was reported preparing to use poison gas.

Commissioner Completes a Road To Cross Roads

Henry Davenport, commissioner of Ranger and Eastland precinct, has recently completed a one and one-half mile stretch of road that serves the Cross Roads community and school.

This road ties in with approximately five miles of other roads that enables the people to have a road system that connects with the Bankhead highway and this road is one of the best in this section.

Before Mr. Davenport started the work it was almost impossible to travel the Cross Roads road in rainy weather. The people along the route are well satisfied with the work and each one of them co-operate with the commissioner in seeing the work finished.

The road was built with CWA labor under the supervision of Mr. Davenport and Bob Hise, and the Jack Phillips estate donated the right-of-way for the project.

There are in the neighborhood of 50 children being served by the new road to the Cross Roads school who are carried each day by bus to their studies. C. D. Ervin is the driver.

### MERRIMAN

Mr. and Mrs. Wayne Wemiss of Rotan were week-end visitors of Mr. and Mrs. J. T. Brewer and Mr. and Mrs. Dewitt Young.

Miss Alvis Roper and Mr. Paul Johnson were honored with a picnic dinner at the Webb park, the occasion being their birthday. Those present were Mrs. Roper and children, Mrs. Paul Johnson and children, Mr. and Mrs. J. T. Brewer, Mr. Gerald and Mr. Mavis Webb, Mr. David Johnson, Miss Loma Johnson, Mr. and Mrs. M. M. Brewer and children, Mr. and Mrs. Dewitt Young and children.

Mr. Bryant is visiting in Haskell, the guest of his daughters.

Miss Huberta Mitchell is on the sick list.

The officers for Merriman Parent-Teacher association were installed by Mrs. J. S. Reynolds, after which "42" and bridge were enjoyed. Ice cream and cake was served to members and friends.

Mr. and Mrs. H. D. Smith and family have as their guest Mrs. Smith's mother of Oklahoma. Mother Smith has been a visitor several times at Merriman.

Since Dolly Madison introduced ice cream at a presidential cabinet dinner at the white house in 1811, its popularity has grown until today it is considered our national dessert. And no wonder! It is deliciously cooling on warm spring and summer days. It is sweet, but not cloyingly so. It has such a wide variety of flavors... in fact, it forms a perfect ending for a meal. And what's more it is very simple to prepare, especially in an electric refrigerator.

The secret in using the electric refrigerator to make the same kind of smooth-textured ice cream that grandmother used to make in her churn-type freezer, lies in incorporating enough air in the mixture before it is frozen. This may be done in two ways, either by using a base of stiffly beaten egg whites or by adding whipped cream to a custard base. If this is done, and the mixture is frozen quickly, the result will be a delectably smooth, airy ice cream. The very simplest method of making ice cream in your refrigerator is by using a meringue of egg whites and jelly as a base. We recently discovered this easy, practically failure-proof method in the Kelvin kitchen in Detroit and are passing these recipes on to you. They are brought to you through the courtesy of Killingsworth, Cox & Co., local Kelvinator dealers, who will be happy to supply you with other refrigerator recipes.

### Labor Conference To Meet June 4

By STEWART BROWN  
United Press Staff Correspondent  
GENEVA.—Problems vitally affecting workers in every part of the world will be considered at the annual conference of the International Labor Office opening on June 4, it was announced here today.

Fifty nations will send delegations. The United States, it is reported authoritatively, will be represented by an official group of "observers" representing labor, capital and the government.

**Attack on Japan**  
There is section of the I. L. O. which fears Japan may withdraw at the coming conference if her formidable trade offensive is violently attacked during the session. Japanese quarters do not deny such a possibility.

Criticism of Japanese wages, led probably by British labor delegates, may come at the opening of the conference when the delegates are permitted to make general speeches on the work of I. L. O. Otherwise there is nothing on the agenda which could lead to an attack of Japan.

**Unemployment Problem**  
Measures to combat world unemployment will be given principal consideration on the agenda. The I. L. O. realizing that Great Britain spent 107,000,000 pounds and the United States \$1,000,000,000 last year on unemployment wishes to reduce this evil by shortening hours to 40 per week and stimulating the construction of public works on a gigantic scale.

Supporters of an International 40-hour week will push the final reading of a draft treaty to that effect. The treaty has been considered before, but because of British opposition it is not believed it will pass. Labor experts point out that such a treaty is in harmony with the new American law. It is expected, therefore, the United States delegation will support the proposal, although it has NO right to vote.

### Hints For Homemakers

By Jane Rogers

To give an unusually delicious flavor to your summer beverages, add to a base of sweetened lemonade, tart jellies of different varieties, beaten until syrupy. The brightly colored jellies are as valuable for their color effects as they are for the distinctive flavors they impart. Two or three teaspoons to a large glass is about the right proportion.

When hanging recently washed curtains, if you have a trying time running the rod through the hem, put a thumb on the end of the rod. Then you'll have no trouble getting it through, even though the hem is stiff and stuck together. Best of all, you'll eliminate the risk of tearing delicate fabrics.

Taxes is now due. They must be paid between now and June first, otherwise they will become delinquent and penalty and interest will be added according to the statutes of law which provides for this additional expense.

Naturally every citizen realizes the importance of paying their city taxes because it takes money to run a city decently and consistently. Eastland is enjoying one of the most economical city governments in this entire section. The men who are in charge of city affairs are conservative in their applications towards expenses... and have the peoples welfare at heart in all their activities. The people can show their faith in those whose duty it is to see that the taxpayer gets value received for their money by going down and paying their taxes promptly. Its your town and our town and is entitled to the full consideration of every citizen.

sented the guest speaker, Miss Mann.

"Daughters," the theme of Miss Mann's address, opened with the statement "that since the early Hebrew nation it was stressed that daughters honor parents."

The sponsoring of the drive for payment of school taxes, which the school board acknowledged as a fine and successful accomplishment. The numerous benefits and their financial success for the upkeep of the library was quoted.
