dentist Shot By

Two Farm Buyers

By United Press

EL DORADO, Ill., June 18.—Homer Myers, prominent and healthy dentist, who was reported snatched last night, today was shot to death on a farm he was attempting to sell to a stranger.

The body was found by a deputy sheriff, a photographer and a newspaper reporter who went to the farm in search of clues.

Myers was shot twice in the neck, according to a report to the sheriff's office.

He was believed kidnapped yesterday when he had an appointment with two men who wanted to buy the farm.

Man Wants Term In County Jail

By United Press

AMARILLO, Texas.—A self-acquainted vagrant is spending 23 days in the Potter county jail because of the willingness of Justice J. V. Pottenger to grant the man's wishes.

The man explained to Justice Pottenger he had "been on dope," was a vagrant and wanted to be locked up where he couldn't get the "stuff."

The justice obliged with a \$50 fine and costs, which it will take 23 days to "lay out."

## Pollard Indicted in Counterfeit Stamp Plot

### COMMITTEE TO KEEP AT WORK BANK PLANS

Unanimous In This Decision: Final Success or Failure Depends On Depositors Not Yet Signed.

day afternoon the depositors committee, from the club, the Rotary club and the Chamber of Commerce met to report on the progress of the plan of getting a bank for Eastland. Up to the business Saturday night depositors had signed the report and approximately \$250,000 was represented of the deposits of \$250,000 due the depositors at the close of the Texas Bank in 1932. With this report before them the assembly was unanimous in their opinion that the work should be continued to gain the necessary for completion. It is the general voice that those depositors who have not yet signed do so when it becomes their responsibility to get the plan in on them. It is decided to keep the temporary open across from the in the Conery building and every effort will be made by the members of the committee to get each with every depositor and know just how near they are to reaching the required number.

Every depositor who comes in their fellows from here on are simply putting more into cash in their own pockets brought out by the Depositors Committee.

Members J. A. Beard, P. L. Parked Jess Williams are members of the Depositors Committee. As they in their work are J. Johnson, T. E. Richardson and Speed of the Rotary club. George Harper, F. M. Kenny and O. Butler of the Lions club. Bendor, H. C. Davis, E. E. Grady Pipkin and Frank Williams of the Chamber of Commerce.

Set of signatures of Depositors was State Bank, signed since Friday, June 14 and to Saturday, June 16th.

L. Amis, R. M. Bridges; East-Abstract Co.; Exchange Bldg. G. L. Gillespie, D. L. Harber; Bert Iron; Harris Isbell; Mrs. D. McGlamery; Louise E. Mcwell; Marrison Baptist church; S. M. E. Overton; J. W. Stinegar; Sibyl Truly; W. B. White, Ola, Lease Aect., W. B. White, O. H. Doss; W. B. Ferrell, O. McFadden; R. J. Rains; Lula Burton; J. E. Hickman, Berry Williams.

### Dentist Shot By Two Farm Buyers

EL DORADO, Ill., June 18.—Homer Myers, prominent and healthy dentist, who was reported snatched last night, today was shot to death on a farm he was attempting to sell to a stranger.

The body was found by a deputy sheriff, a photographer and a newspaper reporter who went to the farm in search of clues.

Myers was shot twice in the neck, according to a report to the sheriff's office.

He was believed kidnapped yesterday when he had an appointment with two men who wanted to buy the farm.

### Man Wants Term In County Jail

AMARILLO, Texas.—A self-acquainted vagrant is spending 23 days in the Potter county jail because of the willingness of Justice J. V. Pottenger to grant the man's wishes.

The man explained to Justice Pottenger he had "been on dope," was a vagrant and wanted to be locked up where he couldn't get the "stuff."

The justice obliged with a \$50 fine and costs, which it will take 23 days to "lay out."

### They're Named America's Ten Most Beautiful

With only two film actresses among them, these 10 women have been named the most beautiful in the United States by a committee of judges, from nominations made by prominent artists and photographers in a dozen large cities. In the top row, from left, Mrs. John H. Goodwin, Kansas City, Mo., with daughter Ann; circle, Norma Shearer, Hollywood screen star; top center, Mrs. Florence H. Plamondon, St. Louis; top right, Dolores del Rio, Hollywood cinema star. Below, left to right, are Mrs. Potter Palmer, Boston, Mass.; Miss Avery Wright, Toledo, O.; Princess Anna Ilynski, formerly Audrey Emery, wife of Grand Duke Dmitri of Russia; Mrs. George Grant Mason, New York; Mrs. Constant Bilicke, Los Angeles; and Miss Honore White, Chicago.

### STEEL UNIONS TO SEND PLAN TO PRESIDENT

PITTSBURGH, Pa., June 18.—Steel union labor leaders will hand the administration a four-point strike settlement ultimatum tomorrow.

It will emphasize the demands for collective bargaining, declare for appointment of a three-party industrial board, insist on immediate election to establish the union right to bargain for workers and stipulates final decision on worker's grievances rest with the board.

### Moral Paralysis Charged In Talk At Dry Meeting

HOUSTON, June 18.—Paralysis of the moral conscience of American citizens is worse than the wave of banditry, murder and gambling, Dr. Joseph N. Dawson of Waco said here today.

Dr. Dawson addressed approximately 200 delegates to the state-wide convention of the anti-saloon league, the W. C. T. U., the emergency dry committee and the United Forces for Prohibition.

### Rev. F. M. Scott To Preach At The Nazarene Church

The Rev. T. M. Scott, evangelist of Gilbert, Ariz., will preach at the Eastland Nazarene church each evening this week at 8:00 o'clock. He is recognized as a forceful speaker and an old time preacher of the gospel.

The general public is extended a cordial invitation to hear him.

### John Newton Pleads Guilty to Robbing Bank at Coleman

COLEMAN, June 18.—John Newton, 31, Chickasha, Okla., pleaded guilty today to charges of robbery with firearms in connection with the robbery of the First Coleman National Bank. The bank was robbed Feb. 2, of \$23,700 by three handits.

Newton's two alleged companions have been arrested. The state will not ask the death penalty, it was announced.

### Two Men Stabbed Sunday in Ranger

Two men, one a Mexican and the other a white man, were stabbed Sunday in Ranger in two attacks, one in the early morning and the other in the afternoon.

Sunday afternoon John Ames, who was attending a rodeo about three miles from Ranger on the Breckenridge road, was stabbed about the abdomen and was taken to the City-County hospital, where his wounds were dressed. It was reported today that he had been badly cut, but that he was doing nicely and was expected to recover unless complications set in.

Just before dawn Sunday morning Chief of Police Jim Ingram was called to a Mexican dance, where a fight had ensued, and arrested Felix Gonzales, a Mexican, who was charged with fighting. The name of the other Mexican was not obtained, though it was reported that he was cut about the throat with a pocket knife.

### Depression Helps Professor Claims

FORT WORTH.—The popular idea that a business depression injures the country is a fallacy, believes Dr. R. H. Montgomery, professor of economics at the University of Texas.

"A depression hurts some but it helps others," Dr. Montgomery explained to members of the Woman's Club here.

For instance, he said, 25 commodities have not declined in price during the depression and some actually have gone higher.

### JOE PALMER IS IN HUNTSVILLE PRISON TODAY

HUNTSVILLE, June 18.—Joe Palmer, fugitive from Eastham prison farm, who was recaptured at St. Joseph, Mo., was brought back to the Texas penitentiary today.

Palmer said he had not had a moment of pleasure since he, Raymond Hamilton, and three other convicts escaped from the prison last Jan. 16.

Palmer told questioners at Dallas he attended the funeral of Clyde Barrow, the outlaw who engineered the Eastham delivery. He said he watched the burial unrecognized by officers seeking him.

Walker county officials said they will attempt to send him to the electric chair.

### Bank Deposits Bill Is Signed

WASHINGTON, June 18.—President Roosevelt Saturday signed a bill providing for a one year extension of temporary insurance of bank deposits and raising the amount guaranteed in full from \$2,500 to \$5,000.

The permanent law would guarantee deposits up to \$10,000 and partially insure bigger accounts.

Under a compromise between the House and Senate on bank "payoff" legislation, the law will authorize the Reconstruction Finance Corporation to lend more liberally on the assets of closed banks, or purchase them.

Jose Jones, RFC chairman, estimated to congressional conferees the corporation had a fund of \$1,000,000,000 available for this purpose, but indicated it would be used cautiously.

Other provisions of the law will: Authorize the RFC to lend \$250,000,000 to the Federal Deposit Insurance Corporation on demand of the latter.

Give banks until July 1, 1937, instead of July 1, 1936, to become members of the Federal Reserve System in order to remain in the Deposit Insurance Corporation.

Extend the deposit insurance to Hawaii and Alaska.

### CLEANING UP AIR CORPS IS BEING URGED

WASHINGTON, June 18.—A house-cleaning in the army air corps, beginning with removal of Major General Benjamin Foulois as head of the flying personnel, was demanded by a house committee today in a report filled with charges of inefficiency and law violation.

The acid worded document, bristling with denunciations of Foulois for favoring negotiated plane contracts and for his attitude for the army flying the air mail was construed as a challenge to the war department to overhaul the corps.

The committee report is the result of a four-month investigation into army plane purchase methods.

### Lon A. Smith Is Eastland Visitor

Lon A. Smith, present member of the Texas Railroad commission and a candidate for re-election, was an Eastland visitor Saturday for an short time.

Commissioner Smith formerly opened his campaign for re-election some ten days or two weeks ago, but due to the fact that a member of the commission has been critically ill he found it necessary to remain much of the time in the office and the visit through this section was the first campaign trip he has made.

### SENATE VOTES DEFICIENCY BILL THIS MORNING

WASHINGTON, June 18.—The senate today adopted the conference report on the \$1,117,000,000 deficiency bill, removing one of the obstacles to adjournment.

The bill carries \$525,000,000 for drought relief and a potential \$2,000,000,000 for relief under guidance of the President. It now goes to the President.

Senate leaders beat down a filibuster against adjournment today as the house adopted a resolution to bring the 23rd congress to an end.

The senate shutdown came on a vote to consider final legislative action on emergency deficiency bills. Twenty-three democrats deserted the administration by the proposal squeezed through 41 to 39.

The house resolution did not establish the day of adjournment. It stipulated adjournment should come at the "end of this legislative" day, but by parliamentarian device the current legislative day could be continued indefinitely without regard to the calendar.

### State Auditors Say Relief Distribution Is "Questionable"

AUSTIN, June 18.—State auditors today said it was "questionable" if relief funds have been fairly distributed over the state after completing a report on Texas relief for three months ending Feb. 28, 1934.

The report showed the amount expended for direct relief per destitute person varied by population groups.

"Due to the fact that relief applications from counties are not all compiled on a uniform basis and are inflated in many instances, it is difficult to allocate relief funds so all relief subjects over the state will receive the same proportionate amount of their needs, it was pointed out.

An oral of \$6,413,791 was allocated and advanced to Texas counties for relief during the three months.

### Are You Pushing or Pulling?

(An Editorial)

Imagine any man or woman sitting indifferently and nonchalantly by when their very vital individual monetary interests are at stake; imagine a committee of their fellows working literally night and day for the very interests of those who have thus far seen fit to ignore the appeals of more than 400 depositors of the Texas State Bank, now in liquidation, for relief and at the same time placing a financial structure, in the shape of a new National Bank, in Eastland whereby the community can continue to prosper under its influence. It is unbelievable that a citizenship would treat such a universal need with sarcastic and doubtful indifference. The question of a bank for Eastland and the placing of cash dividends in the hands of the depositors is entirely up to the depositors that have not joined in the movement whether there is only a few cents or more than a thousand dollars involved. If they do not come in now and join with those who have already done so, then the entire efforts of the committee and all others who have worked so faithfully to the end that this community will be benefited as well as each individual depositor, will have been for naught. Frankly, the responsibility rests upon the shoulders of those depositors who, thus far have not co-operated.

More than \$140,000 of the \$250,000 due the depositors has been signed up. This as every one can see is over half the amount required... yet not enough to make the plan possible. ARE THOSE DEPOSITORS GOING TO MISS THIS OPPORTUNITY... THE FIRST THEY HAVE HAD TO GET ACTION ON THEIR MONEY WHICH HAS BEEN IDLE SO LONG... GOING TO FALL DOWN ON THEIR FELLOWS NOW? The answer is with them!

One signed answer came back in the mail Saturday from a widow. It said: "That was all the money I had. God knows I hope that the other depositors will

### State Lets Capitol and Grounds Run Down While Credits Are Not Kept In Businesslike Condition

GORDON K. SHEARER, United Press Staff Correspondent  
AUSTIN, June 18.—Texas would have a poor rating with a credit bureau if it were treated like the citizen who runs bills.

Take the matter of rewards. Clyde Barrow, Bonnie Parker and Ray Hamilton were so badly wanted that the state offered payment for them. Dead or alive the state wanted them. Clyde and Bonnie are dead. Hamilton has been captured alive. Have the rewards been paid?

Late last week they had not. The private citizen who insisted on having 3 per cent knocked off his bill if he paid it, would find that demand chalked up against his credit rating. But state employees, with the exception of a few, paid from special funds, have had to discount their pay warrants for many months in order to cash them.

When national guard appropriations became exhausted by Gov. Ross Sterling's use of citizen-soldiers in the East Texas oil field, I. O. U.'s with his signature and that of the then adjutant general were issued to owners of property used for national guard armories.

The legislature recognized justness of the claims for payment of the I. O. U.'s. It authorized their payment and made an appropriation for the purpose. Whether the legislature had the authority to take this action still is in litigation.

Texas returning from visits in other states complain of the "run-down" condition of the Texas state capitol and its grounds. Denver's spotless Colorado capitol, and Sacramento's beautifully kept capitol grounds frequently are cited in contrast.

Here is the alibi. Penurious legislatures have failed to provide a tenth of the amount architects estimated would be needed for proper up-keep of the capitol, which was the world's seventh largest building when completed.

B. E. Giesecke repeatedly has made estimates for the state board of control on costs to put the building in good shape. Legislators always postponed the repairs.

The delay has run the needs to a staggering cost. "It would take about \$120,000 to replace the worn tiling on the capitol's acres of floors," Giesecke said in illustrating the cost involved.

Needed repairs and fireproofing were estimated at \$1,000,000 when a PWA loan for the purpose was proposed.

Capitol grounds extend three blocks in one direction and two

### SAYS A WRONG WAS DONE BY GRAND JURY

Former Attorney General Asks The Indictment Be Quashed By Courts.

AUSTIN, June 18.—Former attorney general Claude Pollard, indicted on a charge of consenting to the sale of counterfeit cigar stamps today denounced the charge as unjust and a great wrong done him.

The charge grew out of his representing a wholesale tobacco jobbing organization.

State Comptroller George Sheppard was notified of the grand jury action by telephone.

"If the comptroller does the right thing he will go to the district attorney and ask the charge be quashed," Pollard said.

"I was engaged as attorney to represent the wholesale tobacco jobbers in enforcement of the stamp tax act.

"Some time ago a San Antonio member of the organization came to me. The state comptroller's forces had charged him with selling cigars with counterfeit stamps.

"Later this client told me he had bought the stamps from someone connected with the association. I upbraided him for not telling me all when he first came to me to be represented.

"I declined to represent him further," Pollard said.

Charles Specht, head of the cigar tax enforcement division, declined to make any statement about the matter until the return of Comptroller Sheppard.

Earlier it had been reported that the state's plate for printing cigar stamps had been taken to St. Louis and counterfeit printed there. It was pointed out, however, that if the state owned plates were used it would have been impossible to detect the counterfeit.

### PWA Planning To Put Millions Into Circulation

WASHINGTON, June 18.—The Public Works Administration, already credited with re-employment of 2,000,000 workers, planned to put additional millions in circulation today in a new drive for national recovery.

Diminished by allotment which exhausted the original \$3,300,000,000 of PWA purse was expected to be replenished to the extent of \$500,000,000,000 as a result of congressional approval of the deficiency bill.

Such a fund, if authorized by President Roosevelt, would permit grants to political subdivisions for public works amounting to about \$350,000,000. The measure allows the RFC to hold \$250,000,000 of bonds offered to PWA as securities for previous loans.

### Cuban Killings May Cause a War

HAVANA, June 18.—President Carlos Mendieta was consolidated in his office today after one of the strangest and bloodiest Sundays of Cuba's recent history.

In a sudden clash between government supporters and gunmen of the extremist political group, 10 loyalists were shot down and killed and at least 90 injured. Four of the gunmen paid with their lives for the outrage shortly afterwards.

There was some fear that the outbreak would inaugurate a civil war.

### GOLF PRACTICE COST \$18

CONNEAUT, O.—An 18-year-old boy's first spring golf practice cost him \$18. That was the amount of fine and costs assessed him for throwing a golf ball at Patrolman Stephen P. Stoffa when the officer broke up a gang of dance hall rowdies. The patrolman was struck on the head by the ball as a parting reminder that the youth resented interference.

### The Horned Frogs Buff Bluffdalers

CHAS. E. LAFON  
The Horned Frogs regained their winning stride Sunday afternoon at Welch Field, when they humbled the Bluffdale Buffs 12 to 3. It was a very loosely played game and a free hitting contest on the part of the Frogs who have hit their stride under the new managerial reins of Buddy Brothers. The club as a whole did not seem to be weakened any by the change in policy.

Onus Dick pitched his first full game since he injured his arm in an early season contest. Dick pitched very effective ball keeping the Buffs eight hits well scattered. He seems to have regained his old form and will be in there bearing down the rest of the season for the Frogs.

The game started off with all appearances of being a good ball game, each side being retired minus runs in the first two innings but the Frogs got to the slants of Hall, the Buffs pitcher for three runs in the third inning. The Frogs scored three more in the fifth and sixth innings, putting the game on ice for the Frogs.

N. Day, who relieved A. Wallace at third for the Frogs in the 7th was the shining light in the fans' eyes, hitting a triple out of one trip to the plate, also handing a very hard hit ball that was a delight to all present. Slim Pope, the wiry first sacker of the Frogs pulled the fielding stunt of the day when he let a ground ball get by unmolesed and unnoticed for a base hit, much to the amusement of the fans.

Score by Innings  
Bluffdale 000 100 011—3 8 4  
Frogs 003 233 012—12 15 2  
Barretties: Horned Frogs: Amis and O. Dick; Bluffdale: Ator and Hall.

### JOE PALMER IS IN HUNTSVILLE PRISON TODAY

HUNTSVILLE, June 18.—Joe Palmer, fugitive from Eastham prison farm, who was recaptured at St. Joseph, Mo., was brought back to the Texas penitentiary today.

Palmer said he had not had a moment of pleasure since he, Raymond Hamilton, and three other convicts escaped from the prison last Jan. 16.

Palmer told questioners at Dallas he attended the funeral of Clyde Barrow, the outlaw who engineered the Eastham delivery. He said he watched the burial unrecognized by officers seeking him.

#### FACTS AND FIGURES WHICH THE PEOPLE SHOULD KNOW

There is a campaign on in Texas—one of the most important of the years. Major and minor posts will be filled. A legislature will be elected. Judges of major and minor courts will be chosen by the people. There is a lot of rot distributed in all campaigns. There is a lot of "wild talk and wild guessing." There is a lot of "mis-information" handed out to the voters of the commonwealth. Well, Texans should be told the truth. They should be given the real facts as to law enforcement and the records established by those who serve them in high or low place. This newspaper seeks to place all the facts and figures before the public. This editorial is placed in the files as well as in the records and spread before the people. The law requires that each clerk report to the attorney general the number of criminal cases filed in the various district courts of the state and the disposition made of the cases. In addition the attorney general is required by law to prepare and publish in his biennial report the information obtained through the reports of the clerk.

In the biennial report for the period beginning Sept. 1, 1930, and ending Aug. 31, 1932, at pages 126-134 there is tabulated and printed the information that came to Attorney General James V. Allred. He made a splendid job of it, according to well informed lawyers and laymen of Texas. In the summary of the report, at page 134, it appears that during the period mentioned there were 10,780 trials, 10,117 convictions and 633 acquittals. It also appears from the report that the total number of indictments filed were 20,403, of which 9625 were dismissed in the district courts, leaving as above stated 10,780 cases tried. Of the cases tried 8 per cent reached the court of criminal appeals, leaving as above stated 10,780 cases tried. During the same period mentioned above there were filed in the court of criminal appeals 1733 cases, appeals from the trial courts, of which appeals 1271 were decided in favor of the state, either by affirmation or by dismissal of the appeal, and 462 cases were reversed and returned to the trial courts for retrial.

A summary of the figures is to the effect that of the appeals filed in the court of criminal appeals for the two years mentioned "26 per cent were reversed for new trial." The total reversals compared with the number of convictions in the trial courts during the period of comparison amounted to two and one-half per cent, which is vastly different from the impression conveyed to the public from many sources—"that most cases of conviction are reversed." The figures also show that such 26 per cent of the reversals of the cases appealed amounted to two and one-half per cent of the cases in which there were convictions in the lower courts.

"Justice is sacred and not the judge." And the facts and the figures given in this news editorial should be read and then thoroughly digested by the voters of the commonwealth. "Justice is sacred" and accuracy should be the thing on the part of lawyers and laymen and practical politicians "who are peddlers of promises" as well as those of the fourth estate who spread information for the edification as well as the education of the reading public.

### DID YOU EVER STOP TO THINK

By EDSON R. WAITE, Shawnee, Oklahoma

R. W. ANGUS, Editor of the Chatham (Ontario) News, says:

"Did you ever stop to think what would happen if newspapers appeared without advertising?"

"The first impression of the male members of the family is that it would be great—as it would provide more space for sport and financial news and other information and views so eagerly sought from day to day.

"But what about the thrifty housewife? Surveys prove that women constitute the vast majority of newspaper readers, and what would they do if there were no advertisements?"

"They would lose both time and money, for which there would be no possibility of compensation.

"They would have to personally visit every store in their city to find goods to satisfy their needs. They would have to spend practically all of their time in the shops and, as they wouldn't be able to get around to all of them, they would be in constant danger of missing the opportunities offered to thrifty buyers. They wouldn't know what they wanted to buy, and there would be only a lip-tipt chance to discover their desires in this respect because newspaper advertising not only informs people where to buy, but also what to buy.

"And the male members would not escape. Women are the big buyers—and the wise man is perfectly content that this should be so—and with no advertisements to study in the evenings, the whole household would suffer.

"The primary business of a newspaper is the publishing of news, but if the advertisements were left out, the most valuable news of the day would be missing."

Open-handed dealings should be employed on all publications, large and small, which may arise.

### OUT OUR WAY

WHY MOTHERS GET GRAY

### Old Silk Dresses Are Still Wearable

MANCHESTER.—Silk dresses manufactured before 1870 are sound today as they were then, whereas those made since that date are extremely short-lived. This, at any rate, is the discovery made by those who are getting up an exhibition here of women's clothes since 1650. They have borrowed from the London Museum several gowns worn by royalty. The silk dresses belonging to Queen Victoria and dating before 1870 still are serviceable, whereas the silk dresses made for Queen Alexandra in the '80's of the last century are officially pronounced "untouchable" and must be kept in a glass case.

### FROWNED ON NUDE ART

BUFFALO, N. Y.—New York State's liquor board frowns on the display of nude art in post-appeal liquor dispensing houses. Commissioner James P. B. Duffy made known the board's views at a hearing here.

If Great Britain doesn't find a way out of paying the installments on its debt to the United States pretty soon, the United States will have to find one.

### Bill Cummings Plans Active Race Season

Fresh from his victory in "the 500" at the Indianapolis speedway, Bill Cummings is already busy with plans for carrying out a strenuous program of racing for the balance of the season at the various tracks. For nothing dims the ardor of this youthful veteran for the motor racing game!

Discussing his victory after the race, Cummings said, "thirty-three drivers started the Indianapolis classic this year... scoring the bricks over that 2½-mile track. For 200 grueling laps... nearly five hours of it... we kept up the blistering race. I had to average 104.863 miles an hour, the new world's record for 'the 500'... sometimes hitting it up to over two miles a minute... to win. Four hours and 46 minutes of this wrings the vitality out of a man and you can bet that I felt pretty well played out at the end of the race."

Cummings' first request after the race was for a Camel. "Any time I'm 'all in'," he explained, "Camels give me a 'lift' in energy. I smoke them steadily." In view of the known preference for Camels of champions in various fields of sports, such as Cummings, Ellsworth Vines Jr., Bill Horn, winner of the Gold Cup

Speedboat event, Miss Helene Madison, Olympic champion swimmer and holder of many world swimming records, and others whose endurance and energy is constantly tested to the limit, Camel advertising now stresses the "energizing effect" in Camels which has been experienced by millions of smokers, and recently carried out by scientific studies performed in a famous New York research laboratory.

### ROBINS CLOSE FRONT DOOR

CLEVELAND.—The back door is the front door nowadays at George Bartholeme's home. A pair of robins, taking a liking to the front screen door, built a nest there. Now, four young robins peer out from their oddly located nursery. The Bartholemes, who have one more child than the robins, use the back door.

### HOLSTEIN SETS NEW RECORD

KINGSTON, Ont.—A new North American milk and butter record has been set by a six-year-old Holstein cow bred and owned by Byron Rath, of Mossley, Ont. The cow produced 28,138 pounds of milk containing 1,311.25 pounds of butter during the period May 2, 1933, to May 2, 1934.

BILL CUMMINGS FOUGHT OFF a fast field of daring drivers for over 4½ exhausting hours of nerve-racking, record-breaking speed to take the 500-mile classic at the Indianapolis Speedway. Press wires flashed: "Cummings, after stretching himself, first requested a cigarette." It was a Camel! For Bill is a Camel smoker of 12 years' standing, and knows that smoking a Camel gives you a quick "snap-back" in energy!

### TRY THIS EXPERIENCE in increasing energy quickly when worn out

If you have ever tried to clock 300 or 400 miles in one day's drive you can imagine the terrific output of energy a racing driver crowds into "the 500" at Indianapolis. As Bill Cummings said himself after the race: "For 200 grueling laps... I had to average 104.863 miles an hour, the new world's record for 'the 500'... sometimes hitting it up to over 2 miles a minute... to win. 4 hours and 46 minutes

of this wrings the vitality out of a man. I felt pretty well played out at the end of the race. My mechanic and I turned to Camels for the first luxurious smoke that always chases that tired feeling away. Any time I'm 'all in' I know that Camels will give me a 'lift' in energy. I smoke them steadily, too, because I know that Camels will never jangle healthy nerves."

This "energizing effect" in Camels, long recognized by Camel smokers, has recently been studied and confirmed by a famous research laboratory in New York. It is harmless, refreshing. You'll like Camels—a matchless blend of costlier tobaccos. You can "get a lift with a Camel" as often as you wish. Camels never get on your nerves, no matter how many you smoke.

**CAMEL'S Costlier Tobaccos never get on your Nerves**

Camels are made from finer, MORE EXPENSIVE TOBACCOS—Turkish and Domestic—than any other popular brand

### Cut Is As Well In kee Comes In

**By United Press**  
**ON.**—Will the discovery of northern Cherokee county production another vast field that will further price of oil, which at held up shakily by ex- ration measures? And the new Rusk oil pool? are two questions that worry to the oil indus- siderable expense to ers since Dick Young and d brought in a wildcat Rusk recently.

Men are sure of one at is that another field near the size of the East d would be a serious oil business.

The field of that size would the petroleum industry hly competitive, low-pro- s that would demand gment supervision than ed by the state railroad on or the proposed, but d, federal oil control bill, agreed.

ists, paleontologists, pe- engineers and old-style n" who believe drilling is solution to the oil prob- ate when asked to fore- type of field struck by on operators.

reluctantly admit, how- only answer to these is some 5,000 feet un- in Cherokee county.

little is known of the ound well. And very little has been produced from that which has been pro- 40 degree grauity and ame greenish, foul-odored comes from the Woodbine of the East Texas field, nearly one-fourth of the daily oil supply is pro- duced from this field.

Experts said the field could be size, since only two di- are limited—the south- west.

Cranfill & Reynolds com- pleted a dry hole to 5,170 e miles west of the discov- ery.

Mustang Oil company drill- ings south of the discov- ery and the Woodbine at 5, ent, but reported the well

st surveys made by geolog- ists the trend to be north- west. Operators said the Wood well conceivably e the southwest corner and d could exceed the size of at Texas pool, the largest covered.

### Beer Boycott Said To Be Effective

**By United Press**  
**FORT WORTH.**—Members of the Morris Sheppard chapter of the W. C. T. U. here say their boycott against beer-selling merchants in Rosen heights residential sector has been highly success- ful.

A year ago the 45 members of the chapter signed a resolution that they would patronize no merchant who sold beer.

"Most places that sell beer have signs up," the president of the chapter said. "If we don't see any

### Kerrville Operates \$20,000 Natatorium

**By United Press**  
**KERRVILLE, Texas.**—To supply an extra diversion for vacationists and campers, the City of Kerrville this summer is operating a \$20,000 concrete swimming pool. The pool not operated last year, is privately owned, and was opened after no other promoter sought it. Labor by regular city workmen and water from the city-owned water works reduce the upkeep cost. A chlorinating and filtering plant keep the water purified.

### Donna of the Big Top by Beulah Poynter

**BEGIN HERE TODAY**  
**DONNA GABRIEL, circus performer, falls from the trapeze and is injured. Her partner, MADLINE SIDDAL, Donna goes to Madeline's home to recuperate and decides to marry her. She is ashamed of the deception but keeps it up, even when BILL SIDDAL, Madeline's cousin, asks her to marry him. Bill and Donna are married.**

**MRS. PLANTER, housekeeper discharged by Donna, is her enemy.**  
 Madeline who has married CON DAVID, animal trainer, is killed. Con knows of Donna's deception and decides to blackmail her. He comes to the nearby town and Donna meets him secretly. Con threatens to cause trouble for her. Mrs. Planter learns of the meeting and writes Bill an anonymous letter.

**Bill goes to see Con and during his absence Grandfather Sid has committed bigamy, tells her she is a scoundrel you are, Con David! I didn't know a man could be so vile! And you knew that I loved him. You knew—I'm going back to tell him the truth—all of it! He'll kill you for this!**

**SHE sprang to her feet, but the lurch of the train flung her back into the chair.**  
 "Wait a minute," Con said quickly. "You can't go back—not for some time, at least. There's no stop for 100 miles, and I wouldn't advise you to jump off the train. Another fall might not prove as fortunate as the last one. They might take you back in a box. Reason this out, Donna. I didn't tell him you were my wife. He jumped to that conclusion himself. Up to that time he thought that he was a deceived husband and I was your lover. That riled! Where would you be if you should go back? What good could it do you? In the first place, you haven't a chance of convincing him you're really his wife. He saw the certificate."

**"But the date—"**  
 "Evidently he didn't look at it. He saw the names and that was enough. That and the fact that you came running when I called. Probably he's kidding himself that you loved him so much you were willing to commit a crime to marry him. That should set a lot better than believing that I was your lover."

**"You'll give me that certificate," Donna said tensely, "and I'll prove to him that you lied."**  
 "Oh, no, my dear, I won't give it to you! That's my most valuable asset at the moment—not only to prove I'm Amos Siddal's heir, but as a trump card to make you do what I want you to."

**"And that is—"**  
 "Keep up the masquerade. Get the farm, divorce the farmer, and marry me."

She laughed scornfully. "I'd starve before I'd do that. And, if

### GOT DEGREE AFTER 60 YEARS

**By United Press**  
**WOOSTER, O.**—Forced to leave college by financial depression 60 years ago, C. W. Patterson, Findlay, O., business man, returned to Wooster College commencement June 11 to receive his Bachelor of Arts degree.

The active life of an oyster is said to be 10 years. How long it lasts after that only the taste of your stew can tell.

### ALLEY OOP

### Aged Man Takes A Daily Swim Over Two Miles

**By United Press**  
**FORT WORTH.**—Sixty-four-year-old Ben Harris takes a two-mile swim in Lake Worth daily "just for exercise."

Some days, when he "feels the urge," he stretches his exercise to six miles. He is employed at the Lake Worth Casino and the Lake is convenient, he explained.

"Nothing to it," he said. "I've been swimming for 55 years."

Harris once held the world's record for the 15 mile swim, he said. His time was four hours, forty-seven and one-half minutes.

Before coming here in 1917, he was a Red Cross life saver at Galveston, where he also dived for oysters in 100 feet of water "on the side."

Harris is the only Red Cross life saver here who is exempt from taking a yearly examination. He also was the first swimmer to pass the Red Cross examination in Tarrant county.

### 1,000,000 Loaned by Federal Land Bank of Houston

**By United Press**  
**HOUSTON.**—Loans totaling \$1,400,000 have been closed in 18 months from June 13, 1933 to June 14, 1934, by the Federal Land Bank of Houston for itself and as agent for the Land Bank of Dallas, according to A. C. Sims, president. This amount represents 26,897 loans and is 16 times the total of loans closed by the bank in 1932.

More loans can be made, Mr. Sims pointed out, the farms as security must be appraised by a land bank appraiser appointed by the Land Bank of Dallas, Washington, D. C. The amount of appraisal in all cases is normal value of the land for cultural purposes and its earning power for agricultural purposes is a principal factor.

Land bank loans may not exceed 50 per cent of the appraised value of the land mortgage and 20 per cent of the appraised value of the permanent improvements thereon.

The amount of the mortgage to land bank commissioner, together with all prior mortgages or prior evidences of indebtedness secured by the farm property may not exceed 75 per cent of the appraised value thereof.

Since the passage of the Emergency Farm Mortgage Act in May, Mr. Williams declared, the forces of the various units of the Farm Credit Administration in Houston have been doubled and in order to keep up with the large volume of applications, 194 land bank appraisers are now in the field.

### Smallest Graduate Finishes At T. C. U.

**By United Press**  
**FORT WORTH.**—Miss Bertrude Coleman of Hufsmith, Texas, has become the smallest person ever to graduate from Texas Christian University. She received her degree this spring.

Miss Wiedman is only four feet five inches tall. She weighs 85 pounds.

There seems to be an unusual number of coins of all denominations says Secretary Morgensthan.

### Martha Dorcas Class Presents Program

"Father's Day" was impressively observed Sunday by the 9:49 Bible class of the Methodist church, through its guest Bible class program, especially arranged for this observance by the Martha Dorcas class.

The host class opened at the usual hour Sunday morning in the auditorium of the church with Earl Bender presiding.

A song service led by A. E. Her-ring, with Mrs. T. J. Haley at the piano, was followed with prayer offered by W. C. Campbell.

The Martha Dorcas class then opened their program, with their president, Mrs. H. O. Satterwhite, presiding, and introducing the "dads" of the class present.

The Dragoo octet, Misses Alma Williamson, Clara June Kimble, Eda Lindsay, Jennie Tolbert, Jo Earl Utz, Margaret Hart, Wil-da Dragoo, director, played the beautiful numbers, "Serenade to the Moon," and "Andantino."

Ralph Mshon Jr. offered a fine tribute to fathers, and Mrs. Grady Pipkin sang "The Prayer Perfect," with Mrs. Haley at piano.

Mrs. J. J. Mickle Jr., a missionary to Japan, home on vacation, presented a marvelous talk on Japan and its ways, and a description of the life and work of a convert, Kagarava, and others of the Japanese nation engaged in work for Christ. Color was brought to the talk by the Japanese costume worn by Mrs. Mickle.

The meeting closed with the Martha Dorcas class prayer in unison.

The members of the Booster class attended the Father's Day program, of which the 9:49 class numbered 93 members present.

**Home Makers Class**  
The Home Makers class of the Baptist church had a most inter-

esting lesson at their meeting Sunday morning, following the devotional for the general assembly led by Mrs. T. L. Amis.

Mrs. S. D. Phillips, president, opened the class meeting with a short talk arousing interest of former members in the Home Makers class work.

The lesson, text, "The Risen Lord," taught by their teacher, Mrs. Ray Larnor, brought out the point of the truth that Jesus was the Son of God, and His resurrection proves this, and that the differences in the story as told by the four writers of the Gospel makes it a richer story for posterity. That everything since Christ's death points back to the truth that Jesus was the Son of the Messiah, John 3:1. Another highlight emphasized that Christ requires active allegiance to Him.

Members present, Mmes. S. D. Phillips, W. M. Shirriffs, T. L. Amis, V. E. Vessels, E. Harkrider, Charles Frost, S. W. Taft, Eddie Cantrell, Marshall Sterling, S. C. Walker, H. C. Davis, and Ray Larnor.

**The Truth Seekers**  
The Truth Seekers Bible class of the Baptist church had their session opened by their president, Mrs. L. G. Rogers, with the Lord's Prayer in unison, followed by a brief business session.

Mrs. Clyde L. Garrett, class teacher, presented a virile and fine lesson on the commission Christ gave His disciples, that command, that holds good with His disciples today. "Go ye forth and teach the gospel."

Class members present, Mr. and Mrs. Howard Gaston, Mr. and Mrs. O'Brien, Mr. and Mrs. L. G. Rogers, Mr. and Mrs. Ishman, Mmes. Ufelman and Clyde L. Garrett and three visitors.

### Booster Class Attends Father's Day Program

The Booster class of the Methodist church assembled for a brief devotional and registration at their meeting Sunday morning in the Methodist church and then adjourned in a body to attend the Father's Day program of the Men's 9:49 Bible class.

The session was opened by their president, Mrs. Ed F. Willman, in a song service, "All Hail the Power of Jesus' Name" and "Take the Name of Jesus With You," led by Cecil Hibbert, Mrs. W. W. Kelly, pianist.

A special number, a reading by Doris Lawrence, "My Dad," was followed with prayer offered by Ed F. Willman.

### Presbyterian Church Goes Hear Interesting Sermon

Rev. L. R. Hogan, field man for Presbyterial, gave an inspirational talk of a semi-informal order from the pulpit of the Presbyterian church Sunday morning that was in the nature of a more or less intimate message to the church membership, and churchgoers.

The sermon subject, "Come, Tarry, Go," brought a group of three magnificent spiritual activities, that reached the hearts of the hearers.

"Come to Christ; learn of His work; carry it to others; tarry and become familiar with the teachings of Christ, for whatever you are associated with and work for, will be a success, but not so if you do not work and sustain the activities of the church and carry out the commands of your Savior.

"Go" ye forth and preach the gospel; by influence, you take with you from your church background, teach your church thoughts, ideas and beliefs to others. Carry on, carry on, Christ's work, was his theme.

A fairly large sized group attended the service, all of whom extended a glad welcome to their former pastor.

### Dragoo Studio Other Guests Entertained

Wilda Dragoo was hostess to her studio in violin and piano, and a number of friends, parents or relatives of the students, Saturday afternoon, entertaining with a delightful outing at Cisco lake, at 4 o'clock, those from Eastland assembling at the Dragoo residence and making the trip in a body.

Some 10 or 12 cars were used and nearly all of the 56 students attended.

Everything in the world delicious to eat was carried by the crowd, and spread on a long table in buffet fashion, the hostess serving ice cream and cake the last course.

Before supper nearly everyone went in swimming and had a glorious time.

### Dragoo Recital Friday Night

The second of the group of Dragoo violin and piano recitals, which closed the Dragoo studio, winter and spring season, was an outstanding success from a musical, artistic and attendance viewpoint.

Each number on the program as

co-operate with the committee. I need whatever I get out of it so badly." That's the appeal that those who have failed to co-operate are ignoring.

To brand the efforts of the depositors committee as one of a selfish nature is unkind, and we don't hesitate to say that it is preposterous propaganda not deserving of the fine citizenship of this community. We have heard several who have been approached say, "I want my money now. I don't want anything to do with a bank. I'm not going to let those fellows take my money and juggle it around to suit themselves." In the first place how can one get any money unless they co-operate to get it? In the second place banks are the most essential necessities in any community and any man or woman can well be proud of the connection of bringing it into existence. In the third place any one that thinks that the committee would do anything but carry out the plan as presented are simply laboring on a most false impression and should get that out of their system. It is just the kind of statements quoted above that have been expressed, or, are in the minds of those depositors who have not signed that is endangering the very interests of themselves and every other depositor, and at the same time blocking the possibilities of a bank for Eastland. Now is the time to get behind this movement and get down to common sense and reason. It is the time to come off the objectionable "perch" and be not only fair to yourself but to every other individual who has been the victim of the unfortunate circumstances of a closed bank.

A committee of Eastland business men met Sunday afternoon, the decision to carry on was unanimous. Each expressed themselves as confident that no depositor would fail at this crucial time. That kind of confidence deserves the consideration of their fellow depositors. Big depositors and little ones alike hold the key to success or failure. It would be a shame and a pity to fail now. It would be a God send if successful. Surely God will not let such a sincere purpose go unheeded and will place in the minds of those who have doubted their fellow men an attitude of fellowship that will inspire them to come forward with a feeling of confidence and faith. God knows that there never was a more honest effort put forward for the interests of our people and community than this move for dividends and a bank.

published in Eastland Telegram was perfectly presented.

The Methodist church auditorium was filled to the doors with an interested and appreciative audience.

The decorations were novel and colorful in a table lamp, around altar, encircled with roses, gladioli, marigold and ferns, with a rich scarf across the table, bringing out the color tones of the flowers.

Fifty-one pupils were presented on the program, these, however, not including all of the studio.

### Popular Young People Marry

A lovely home wedding at 2 o'clock Saturday afternoon united in marriage William Vawter, and Miss Faye Crossley, with wedding rites spoken by Rev. E. R. Stanford.

The ceremony took place at the home of the bride's sister, Mrs. James R. King Jr., in Eastland, and was attended only by immediate friends and relatives.

The bride and groom entered arm in arm and took their places before the mantel in the large living-room, banked with ferns and pink and white roses, an improvised altar, very charming in effect.

The impressive ring ceremony was used. The bride wore a shell pink ensemble with a pink and orchid, sweetpeas and rose corsage.

After the ceremony, iced fruited punch was served by Mrs. Morgan Myers and Mrs. John Burke from a big silver bowl on a lace-laid table, decorated in pink and white roses.

The bride's going away suit was a black and white crepe romanse, with white accessories and a white hat.

The happy couple left immediately in their car for a two weeks honeymoon with visits in Dallas, Paris and Fort Worth.

The bride is the daughter of Mr. and Mrs. J. R. Crossley, unable to attend the wedding on account of her father's serious illness, having just left the sanitarium in Temple, where he still is recuperating with his wife in attendance.

Mr. Vawter came here from Paris about 18 months ago, as an employe of the Lone Star Gas company.

Congratulations of a host of friends are extended the happy couple.

### Eastland Personals

Dr. W. S. Poe and Dr. T. E. Payne are on a two weeks vacation and will be out of the city during the next two weeks.

Senator T. J. Holbrook and wife of Galveston are visiting Senator Holbrook's mother, Mrs. H. B. Holbrook, 710 South Bassett street, and other relatives.

Mrs. W. F. Gilbreath of near Dublin, arrived Sunday for a visit with her son, J. R. Gilbreath, and family. Her husband is expected to join her here within a few days.

Mrs. H. S. Howard, her son, Bill, and mother, Mrs. Fuller of McAlester, and niece, Miss Jean Ful-

## Lyric Now Playing

These six darling damsels, along with 300 others, are members of the Busby Berkeley dancing chorus which appears in "Wonder Bar" coming to the Lyric.

### BEAUTIES OF EVERY SIZE AND COLOR IN BERKELEY CHORUSES

If you are looking for beauty, seeing is believing.

"I can't tell you what feminine beauty is," explains Busby Berkeley, "but when you see it you don't need to be told."

Berkeley creator and director of the musical dance ensembles of the First National musical drama, "Wonder Bar," now showing at the Lyric Theatre, was at the time assembling another of his remarkable collections of feminine allure for the chorus ensembles.

For the fourth time in a single year he was on a still hunt for beauty.

"There is no set rule to follow," he declared. "Sometimes selection depends upon how a girl enters a room, what that first impression is, her poise, her grooming, the combination of a hundred indefinite qualities that spell personality."

"So, you see, I can't tell you what feminine beauty is. It's something you know when you see. And a girl who may appear beautiful to me might be only plain

to someone else. We try to please everybody when we gather a chorus together.

"We try to make sure that each girl is beautiful in her way. That isn't always my way or your way—but it's a way that is certain to be pleasing to some members of every audience. That's why any man gathering a beauty chorus should have the help and advice of at least three people. We don't all see women through the same eyes."

Berkeley's choruses are famous for their beauty, nevertheless. They are not the matched choruses that were so popular a few years ago on the stage. The present chorus of 300 includes big girls and little girls, plump girls and slim girls, brunettes and blondes, red heads and in-betweeners; flashing beauty, pensive beauty, girls that are typed as languorous, cute, peppy or statuesque.

There is an all star cast in "Wonder Bar" which includes Al Jolson, Kay Francis, Dolores Del Rio, Ricardo Cortez, Dick Powell, Hal LeRoy, Guy Kibbee, Ruth Donnelly, Hugh Herbert, Louise Fazenda, Fifi D'Orsay and Merna Kennedy.

Lloyd Bacon directed the production from the screen play by Geza Herczeg, Karl Farkas and Robert Katscher.

### 17 Congresses Pick Stockholm

By United Press STOCKHOLM. — The Swedish capital will be the seat this summer of no less than 17 congresses, most of them international in character.

The subjects to be discussed range from higher mathematics and good seed to Esperanto. At the same time space has been reserved in the harbor for 27 tourist steamers.

On account of its picturesque situation on a group of islands and its cool summer climate, as well as its excellent equipment in the way of hotels, restaurants, telephone service and means of transportation, Stockholm has for years been known as a favorite European city of congresses.

The first international congress, that of the telephone division of the International Telephone congress, meets June 14. Then follow several religious meetings, including the Swedish section of the Salvation Army, and July 20-26 comes the fifteenth World Congress of the White Ribbon. To the great international Esperanto congress, beginning Aug. 4, 2,000 delegates are expected.

A week later begin the meetings of the Medical Women's International association and at the end of the month the Scandinavian child specialists will have their sixth congress. Then come meetings of mathematicians and international track games, etc., not to mention a number of special conferences of various types.

### FUNDS HALTED OIL CELEBRATIONS

By United Press TOMBALL, Tex.—Discovery of oil a year ago brought riches to this section of the state. Citizens of Tomball and vicinity planned an anniversary celebration this month. Announcement was made that the celebration had been called off indefinitely because the citizens' committee was unable to raise money.

Dr. W. S. Poe and Dr. T. E. Payne are on a two weeks vacation and will be out of the city during the next two weeks.

Senator T. J. Holbrook and wife of Galveston are visiting Senator Holbrook's mother, Mrs. H. B. Holbrook, 710 South Bassett street, and other relatives.

Mrs. W. F. Gilbreath of near Dublin, arrived Sunday for a visit with her son, J. R. Gilbreath, and family. Her husband is expected to join her here within a few days.

Mrs. H. S. Howard, her son, Bill, and mother, Mrs. Fuller of McAlester, and niece, Miss Jean Ful-

der, will spend another week in Galveston.

Mrs. Griswold and daughter of Roswell, N. M., arrived Friday for a several days visit with Mrs. P. Brelsford Jr.

Rev. L. R. Hogan was the guest from Saturday over Sunday of Mrs. J. LeRoy Arnold, and the noon dinner guest Sunday of Mr. and Mrs. J. L. Cottingham.

Mrs. Wanda Dragoo Beall of San Angelo is visiting her parents and sister, Mr. and Mrs. Fred L. Dragoo, and Miss Wilda Dragoo.

# VACATION DAYS are here

ARE YOU all ready for your vacation? All set to go? Have you figured out how much you will have to pay for railroad or bus fare—or steamer? Have you arranged for a place where you are to stay and how much the accommodations will cost?

Don't let these matters go until the last moment. Do your planning now. Read the advertisements for news of tours and rates. Send for booklets telling about the vacation spots you'd like to visit. And then, be sure you have everything you'll need for the trip.

The stores are full of vacation necessities at attractive prices. Dresses, lingerie, sportswear, shoes, hats, bathing suits, tennis racquets, golf clubs and balls, cosmetics, etc., etc. Make up a list of the things you need—then watch the advertisements. They tell you where to get quality goods at savings that will give you extra money for your vacation.
