

Shots Ring Out as Longshoremen Go on Strike

That reminds me...

Defying every decent law abiding citizen of the nation, one John Dillinger, surrounded with a gang of cut-throats, and another unknown kidnaper also possibly surrounded with a gang of child murderers, have the nation gasping every moment in fear of coming under the scope of machine gun fire, or that their loved ones will be snatched away at any moment to be tortured and possibly murdered. And this is not counting the lesser immediate likelihood of arrests of crime offenders who are just as dangerous and among them even worse than a Dillinger or a Clyde Barrow. Advocating anything but respect for law seems like treason. However there is a serious question no doubt going on in the minds of the citizenry that something is likely to be done about it. When that happens there is no chance for escape of criminals from the hands of a law-abiding mob of people whose determination know no interference. There was a time in several sections of the state way back yonder many days gone by when cattle stealing was as promiscuous as meal eating. The law just couldn't handle the thing. First thing how it was that any one knew that something was amiss and things unusual were going on was that early every day there would be one or two at a time being hand dangled by their necks from some big convenient tree, that stopped cattle stealing at that particular time. And the thing about it is that every evidence indicated that they got the light man every time. They were one of that before they went after him. They didn't suspect anything—they knew. If it ever happened again that the citizenry would go so far as to take the matter of dealing with criminals in their own hands, they will get the right ones, and know they have them. —But there will be no trials. Unless we are badly mistaken, if the government from the lowest branches to the highest can't set up a more substantial protective angle for the safety and peace of its citizens, something is going to pop loose. If we know our American ideals and the principles of law abiding people as we think we do, this crime wave has gone just about far enough.

COMMUNISTS OF WORLD RIOTING ON MAY DAY

Police Seek Man Who Abducted a Man at Cisco

Japan Cannot Be 'A Mere Spectator' Minister Declares

Last Touhy Aide Under Arrest

Last of the Touhy gang wanted for the Factor kidnaping and the \$110,000 Charlotte, N. C., mail robbery, Ludwig Schmidt is shown here, handcuffed, after his arrest in a Chicago rooming house. Schmidt was with Gerald Chapman and "Dutch" Anderson when they made their sensational Atlanta prison escape.

Class Presents Three Act Plays At 8:00 Tonight

"Not Such a Goose," "Fancy Free," and "Business and So Forth," one-act plays, will be presented tonight, 8 p. m., by the Eastland high school public speaking class, receipts of which will be employed to defray expenses incurred by school representatives who will participate at the state interscholastic league meet in Austin, May 14 and 15.

C. of C. Directors Meet Wednesday

Chamber of Commerce directors will meet Wednesday, 2:30 p. m., at the offices of the commerce body to take up matters concerning representation of Eastland at the West Texas Chamber of Commerce convention in San Angelo, May 14-16.

Plan To Improve Welch Ball Field

It is expected that work will begin in the next few days improving Welch field.

SERVICES AT FLATWOOD

Brother Ed Sanford will preach on "The Signs of the Second Coming of Christ," on May 6. Everyone is invited to hear him at 11 o'clock and also at 8 o'clock.

Opposition Grows To Bishop Cannon

JACKSON, Miss., May 1.—The emphatic announcement of Bishop James Cannon, Jr., before delegates to the conference of the Methodist Episcopal church, South, that he did not intend to retire, today served to intensify his opponent's campaign to revise church laws.

SOFT BALL

Mechanics won their game with the Barbers, Monday, score was 23 to 9.

Strike; No Gas; So Hay Runs Auto

It was a horse laugh on filling station strikers when this equipment moved on the streets of downtown Cleveland and amazed onlookers who saw that they heard Dubbin snicker as he paraded serenely along. When the gas tank ran dry, with stations closed, the truck owner turned to hay power and went calmly on with his business.

Air Line May Be Discontinued If Contract Not Let

FORT WORTH, May 1.—American Air Lines, successor to American Airways, will cease all activities in Fort Worth at once unless the company is awarded air mail contracts to be granted this week in Washington. It was announced today.

Philippine Session Of Legislature Votes For Independence

MANILLA, P. I., May 1.—The Philippine legislature today took the first formal step toward island independence by accepting the Tydings-McDuffie freedom plan, approved by the Congress of the United States.

Oil Field Workers To Meet on Friday

A mass meeting of oil field, gas well and refinery workers has been called for Wednesday night, May 2, at the Odd Fellows Hall in Ranger. The meeting will start at 8:30.

Border Patrol to Have Armored Cars

JUAREZ, Mex.—Mexican customs guards along the Rio Grande in the future will travel in machine gun equipped armored cars, Alejandro Bernal, customs chief, has announced.

TAKES DAILY WALK OF TWELVE MILES

LANCASTER, Mass.—Francis H. Sawyer, friend of Henry Ford, who recently celebrated his 85th birthday anniversary, keeps in trim by walking 12 miles daily. It has been his habit for half a century.

JUNE ROBLES TO BE RELEASED BY KIDNAPERS

TUCSON, Ariz., May 1.—June Robles, 6, granddaughter of a wealthy retired cattle man, will be released by her kidnapers in two or three days upon the payment of \$15,000 ransom, the United Press was informed today.

Hearing In Armory Robbery Case to Be Held In Dallas

DALLAS, May 1.—James Mulren was to be given a hearing before U. S. Commissioner Lee Smith late today on charges of possession of stolen government property.

New Cotton Blight Found In Arizona

WASHINGTON, May 1.—After years of rigid quarantine restrictions designed to keep the boll weevil of the southern states out of the cotton regions of Arizona, entomologists of the Department of Agriculture announce the discovery in that state of a "brother" of the planter's nemesis.

Insult Official Attempts Suicide

CHICAGO, May 1.—W. C. Sharp, 56, former vice president of the Middle West Utilities company, insult enterprise, was hurried to the county hospital today after what police described as a suicide attempt.

Substitute Air Mail Bill Is Approved

WASHINGTON, May 1.—A substitute for the air mail bill passed by the senate last Saturday, was approved today by the house post office committee, calling for one-year contracts to carry mail and a five-man commission to study the entire aviation field and make recommendations for permanent legislation.

Foils Kidnapers, Frees Victim

Two kidnapers are in jail because Mrs. Dock McKee, shown above, ready for action, marched out of her husband's filling station at Winfield, Texas, put the gangsters to rout with her gun, and then freed Charles Kella, Fort Worth, after she heard him beating on the rumble seat where he was imprisoned. A posse later captured the pair.

ONE SEVERELY WOUNDED AND SEVERAL HURT

Lake Charles Is Scene of Battle and Strife Among Workers.

Extensive Changes In Oil, Gas Setup

CISCO, May 1.—Extensive changes in the set-up of the oil and gas division of the Texas railroad commission go into effect today, it was learned here.

ROAD RELIEF WORK IS STILL BEING BLOCKED

AUSTIN, May 1.—Texas' quest for an \$8,000,000 emergency road relief fund for drought and hurricane-stricken counties, was still blocked by conflicting federal, state and highway requirements today.

Stock Exchange Firms Made Huge Profits A Survey Reveals

WASHINGTON, May 1.—The 600 firms trading on the New York Stock Exchange made average profits of \$1,333,333 in the period beginning in 1928 and running through the 1929 boom as well as the lean days that followed, figures submitted to the senate banking committee today revealed.

Test Tube Babies Cause Comment

NEW YORK, May 1.—Childless married couples and young men sought information today regarding New York's test tube babies and doctors discussed the possibility of a laboratory to further the practice of artificial impregnation.

Lone Bank Bandit Believed Surrounded

GARWOOD, May 1.—The bandit who yesterday took \$4,000 from the Garwood State Bank in a lone daylight holdup, was believed surrounded in the Colorado River bottom lands in Colorado county.

DEVELOPMENT OF NATIONAL ADVERTISEMENT FIELD

Encouraging developments in the newspaper national advertising field were noted at the annual convention of the Newspaper Publishers association. Three symptoms of improved conditions of American newspapers were contained in the 21st annual report of the A.N.P.A. bureau of advertising. High points of the report disclosed the first quarter of 1934 continued the increase in national advertising volume that began last year, with an average gain of 21.6 per cent over the same three months of 1933.

Earnings are higher in the motor car industry, according to the annual report of General Motors corporation. Common stock on General Motors earned 63 cents a share in the first quarter of the year, compared with 11 cents a share earned in the first quarter of 1933. Money is the loudest talker of all. An unprecedented volume of bank cash reserve was stressed by the federal reserve board "as a factor favorable to business recovery," but new authority was asked to prevent its use in "production speculative inflation."

Is this revolution or evolution? Is it a sweeping restoration of public confidence or it is a wild nightmare? Well, think of conditions in 1932 and then make the comparison with nationwide conditions as they are in the closing days of April—1934.

The advertising columns of the newspapers lead the world as the get-together place for the buyer and seller.

Every city is just as sound as the citizens who comprise it make it.

FRECKLES and HIS FRIENDS—By Blosser

OUT OUR WAY

BORN THIRTY YEARS TOO SOON.

Walled Kingdom of Kennedy to Have Its First Highway

SARITA, Tex.—The Walled Kingdom of Kennedy soon will have its first highway, the Duke of Duval has promised and in the Rio Grande Valley the duke's word is his bond.

Kenedy county's barbed wire enclosed acres have never been traversed by a highway. Residents of the lower valley have fought for years to get a road through the county which became known as the Walled Kingdom.

But, the owners of the King Ranch, which spreads over nine counties wanted their Kenedy county domain intact. Senator Archie Parr, the Duke of Duval county, fought every effort to force a highway through Kenedy. "I and the owners of Kenedy county are ready for the road to be built," Parr announced recently at Raymondville. "We want it done without delay. We will help you all we can."

To the people of the valley that is assurance enough. In the past Parr's promises have been gilt edge.

With that simple announcement a 24-year battle ended.

Robert J. Kleberg, manager and part owner of the King Ranch for 47 years, opposed the cutting up of the county by highways. When he died in 1932 his son, Robert J., Jr., carried his father's desires as manager of the ranch.

Parr was a friend of the elder Kleberg and that friendship continued into the new generation. Whatever the Klebergs desired was Parr's legislative program.

That devotion to the Kleberg family goes back nearly half a century when Parr, now 73, came to the main land from his Matagorda Island home and staked his savings in cattle. Drought ruined his grazing land and his cattle were starving.

The Klebergs saw Parr's plight and invited him to bring his stock on their Kenedy county pasture where the cattle remained during the two-years drought.

The Klebergs had many reasons for wanting their virgin lands untraversed. It is the only county in Texas unincumbered with debts, it has the lowest taxes in the state and its acres are showing profits.

With roads through the county the solitude of the 1,335 square miles would be broken, motorists would frighten the cattle and throw out cigarette stubs that might set the grazing lands afire; wild game would be shot and there would be competition from buses for the railroad in which the Klebergs own an interest.

During the long years residents of the lower valley have driven 50 miles out of their way in going to or returning from Houston—around the Walled Kingdom of Kenedy.

At the last regular session of the legislature a bill was introduced to force a road through the county. The bill passed the house but was killed in the senate when Parr passed word along to his friends.

That action cost Parr many votes, residents of the valley declared.

Because they do not want to hurt their friend politically and because they had rather give the land than have it taken away from them the Klebergs canged their minds.

And so the Walled Kingdom of Kenedy, last stronghold of solitude in the 1,200,000-acre King Ranch, will be opened to public travel.

The next move is a connecting

highway in Mexico. A 192-mile road from Matamoros to Victoria, Mexico, would save 142 miles between Houston and Mexico City, one group supporting the road pointed out. But the road would not go through Monterrey and would take the traffic from the Laredo and San Antonio highway. Another battle looms with the close of the old Kenedy county war.

OLD LOCOMOTIVES TO GO

EUREKA, Cal.—Two locomotives which were puffing from Humboldt County's redwood forests 50 years ago, hauling logs from which early Californians hewed a great western empire, are

about to fall before the march of progress. The locomotives, constructed in 1880 by the Baldwin Locomotive Works, will end their periods of service as scrap steel to be used in reinforcing the mammoth San Francisco Bay Bridge, wrecking company officials announced.

SHINGLE NAIL HELD BONE

VACAVILLE, Cal.—A shingle nail held Frank Weber's ankle bone together for 24 years after it was broken in 1908. It was disclosed here recently when Dr. Middleton P. Stansbury performed an operation to remove the nail. Weber was forced to seek medical attention when the nail caused an ulcer to begin, he said.

Foundation Pattern

Miss Malta Turner, wardrobe demonstrator for the Peak home demonstration club, gave the foundation skirt pattern making demonstration to the club at the home of Mrs. P. C. Larkin.

Materials for Making Foundation Pattern

New unbleached or bleached domestic should be used to get the best result when making foundation patterns is the experience of Mrs. D. M. Jacobs in the demonstrations.

Foundation Pattern School

A foundation pattern is a simple pattern which fits the individual as perfectly as possible. Nineteen home demonstration club women, clothing demonstrators of the clubs of the county, met in Eastland Monday and Tuesday, in the basement of the Methodist church and made the foundation patterns.

the women divided into pairs and made patterns for themselves, measuring and fitting each other. These patterns were later checked by Mrs. Barnes for corrections before they were completed by the demonstrators.

As a result of the school the nineteen women will have dresses that will fit and will be able to make the dresses in much shorter time because they will not have to take the time on the fitting they have to do when using a different pattern for every dress.

Romney, Mrs. H. H. Harrelson, Mrs. Gil Walker.

Carbon, Mrs. L. J. Hazlewood, Mrs. Overton Stone.

Peak, Miss Malta Turner, Mrs. Erwin.

Bullock, Mrs. Ellis Cooper, Mrs. B. R. LaManche.

North Star, Mrs. D. M. Jacobs, Mrs. Lee Burkhead.

Reich, Mrs. Elbert Ezzell, Mrs. W. E. Morris.

Word, Mrs. C. M. Britain, Mrs. C. E. Graves.

Flatwood, Mrs. Burl Turner.

Sabano, Mrs. Edwin Erwin, Mrs. J. S. Erwin.

Elm, Mrs. Young Gregg, Mrs. J. R. Files.

Friendship, Mrs. E. M. Oney.

Miss Blanche Brown, Harpersville; Miss Fontilla Johnson, home demonstration agent, Sweetwater; Miss Emma Gunter, home demonstration agent, Colorado; Mrs. Dora R. Barnes, College Station, Texas.

These demonstrators are to give foundation pattern making demonstrations in their clubs and help the club members with the making on the individual patterns.

Lindbergh points out that he made less than half a million since his famous flight—and now he might wonder why he didn't accept the million-dollar offer of the movies and not become so famous.

Cabinet Closeups

CLAUDE A. SWANSON, Secretary of the Navy

CLAUDE A. SWANSON

By WILLIS THORNTON

NEA Service Staff Correspondent WASHINGTON.—The secretary of the navy, in these modern days, needn't be personally a sailor, for the navy, like the army, has aspects of big business that are not less important than going to sea.

Secretary Swanson, though not a sailor, has always had an interest in the navy, as all good Virginians have. The great base at Hampton Roads makes naval affairs a home problem to Virginia.

And when you rise through the House of Representatives to the governorship and into the Senate in Virginia politics, you know something of naval affairs, especially if you add long service on the naval affairs committee, as Swanson did.

Little time need be devoted to the regular extra assignment to the Smithsonian Institution and the Arlington Memorial Amphitheater Commission, but the navy sec-

retary's assignment to the Council of National Defense and the Executive Council entails more definite responsibilities.

In these days of oil-burning ships, it is natural that the navy's civilian head should be a member of the Federal Oil Conservation Board.

Two dependencies, Guam and American Samoa, which are navy-administered, fall under the secretary's jurisdiction, as do the Naval Observatory and the Hydrographic Office, which makes maps and surveys which aid navigation.

Perhaps even more than the army, because of its great mass of expensive equipment, the navy is a business job. The huge ships and dockyards, the maintenance and repair of the great battle fleet and the supplying of its needs, as well as the experimenting and planning for future ships, all must be carried on under the eye of the secretary of the navy.

Old-fashioned and courtly in manner, Swanson was born in Swansboro, Va., 71 years ago.

ANIMAL FOR EACH PERSON

LOS ANGELES, Cal.—One animal for every inhabitant, or about 5,741,000 were slaughtered in California during 1933 the State Department of Agriculture revealed.

Nude Dash Across Street Gets Student In Hands of Law

STEPHENVILLE.—A quick dash across the street and back caused a John Tarleton College football star to be dismissed from college and to be faced with court charges.

The gridster, who would have been eligible to play on the Plowboy team this fall, took a shot at winning \$3, but the naked truth of the thing got him out of college and into court. He ran across the street in front of his boarding house with as little clothes on as a nudist would wear in August.

Residents of the neighborhood objected, the landlady objected, the college authorities objected.

Taking a group of students on a wager, the star athlete undressed, slipped on a robe and went down stairs. On the porch he left his robe, and he not back in the robe until he had taken a mad dash across the street and back.

Officers said charges of indecency had been filed, but they would not disclose the student's name.

62,388 Units Were Delivered In April By Chevrolet Co.

A total of 62,388 units were delivered by Chevrolet dealers during the first twenty days of April according to W. E. Holler, general sales manager of Chevrolet Motor Company. Sales for the year through this period total 235,332 units as compared to 154,526 units in the same period of 1933, making the period 152 per cent of the corresponding period in 1933.

Sales reported for the twenty days of April are more than 180 per cent of the corresponding 1933 April figure of 34,354 units.

Retail deliveries of commercial cars and trucks continue to gain; 16,224 trucks were delivered during the April period, which triples the 1933 figure of 5,304 units for the same period. Sales in the commercial field have shown steady increases, Mr. Holler pointed out, and at the close of this April period had reached a record figure of 73,619 units for 1934.

FREEZE AIDED SUGAR

CHARDON, O.—A sudden shift of temperature to the below-freezing point, after farmers had thought warm spring weather was definitely here, brought maple sugar producers \$50,000 worth of additional sap because of the "freeze."

German Recalls Origin of Bock Beer In Spring

HOUSTON.—Bock beer signs with goat heads, to old imbibers the first real harbinger of spring, derived from a German glass manufacturer's name and not from any drinking habit of goats.

That is the explanation of Frantz Brogniez, Belgium brewmaster here whose formula for making beer has been handed down from father to son for two centuries.

European brewers made their beer in the late fall and winter months, Brogniez explained, taking the first off draught about May—the first beer of spring. Some called it "May beer."

The dark, heavy beer was served in conical glasses made by the Bock Glass company, Brogniez recalled. Hence many called it Bock beer or simply "boch."

In Germany the word "boch" means "goat," he explained. Consequently it became the custom to tie a goat outside beer gardens to advertise that bock beer season had arrived.

Substitution of the "k" for the "h" in the spelling is an American variation, Brogniez said.

TRY A WANT AD

Garden and Yard Hints From Club Women of County

Canning Equipment Canning equipment must be in fact order to obtain the desired results in canning is the experience of Mrs. Lee Burkhead, farm supply cooperator of the Star Demonstration club.

Both the cooker and seal-should be kept in good condition at all times. The check should be made on both often enough to know that you will have trouble. If you do not know way to check up on the equipment, see the merchant you purchased from, an experienced demonstration club member or the home demonstration agent.

idents are caused by neglect and carelessness on the part of the person operating the equipment, never know all about operation, let others tell you profit by their knowledge. I operated the pressure cooker and tin can sealer for the last years and have had no trouble any way. The women of the Star Club have done the demonstrations are given time to time during the by club members or the home and should be attended by women using the equipment.

is danger in any thing if proper methods are not used. pressure cooker is safe. ask the equipment today or get one to do it for you so that may know the points to at all times.

to Use for Preserving Food Mrs. Lula James, farm food cooperator of the Ranger workers' club gives this information on the use of different of cans for different products. Many people still feel they should use the enamel cans for products. The sanitary enamels are not been baked on the can high enough pressure to the long processing needed the long vegetables such as and peas and when used will off into the product. If you enamel cans for these products the C-Enamel, which is

Nebraska G.O.P. Booms McCarl As Presidential Hope

MCCOOK, Neb.—Old guard republicans here are booming J. Raymond McCarl, former mayor in the McCook "home-town quartette" and controller general of the U. S. treasury, as a prospective leader to carry the party banner in the 1936 presidential elections.

Although more than a year has yet to elapse before the country once again elects its national executive, Nebraska republican leaders are on the alert for evidence that McCarl might be considered. Advertisements from Washington and the east, in their estimation, have signified that McCarl's prospects are not remote.

Nebraska old line republicans have received trumpet blasts of Oden Mills with noticeable coolness. The "pleasure trip" of the former President Hoover through the midwest, while not reaching Nebraska, failed to stir up any enthusiasm here.

Mention of McCarl's name, however, usually is well received. His supporters here point to his mention recently in industrial control reports, issued by the James True Associates at Washington, as indicating that his name actually is being considered.

Citizens here, who were intimately acquainted with McCarl through his liberal attitude to his long association with Senator George W. Norris, leading exponent of the liberal gospel in the United States senate. After his graduation from the University of Nebraska school of law in 1903, McCarl returned to his home here to try his first case before the then Judge Norris. The trial formed the basis for a long friendship.

When Norris went to congress as a representative for the first time, he took McCarl with him as secretary. The young man's flair for politics soon was discovered and utilized by his party leaders in the capital. In 1920 he was named by the republican national committee to direct the party's national congressional campaigns. The returns from the congressional elections that year was a smashing victory for the republicans, consolidated McCarl's position.

Largely as a reward for these services, he was summoned by President Harding after the general accounting division had been created and the position of controller general was established for the first time. McCarl accepted the president's offer of the position and began his 15-year term in 1921. Full extent of his power in official Washington is indicated by the fact that no president is empowered to remove him from office no matter how many official toes he may step on in his authority to "blue pencil" all expenditures, large or small, in the federal services.

Indian Mounds Found at Shiloh

WASHINGTON.—On the Civil War battlefield of Shiloh, an expedition of CWA workers, directed by Dr. Frank H. H. Roberts Jr., of the Bureau of American Ethnology, Smithsonian Institution, has unearthed a group of Indian mounds of marked historic interest.

Located on a high bluff above the Tennessee river, the group is believed to have constituted an ancient refuge and ceremonial center. Within a radius of two miles, it was pointed out, are sites of six once-populous aboriginal villages.

Well protected on three sides by high bluffs and on the fourth by a palisade fence, the group is believed to have been a center for worship, refuge from floods, and civic government. Remains of what probably was an ancient temple were uncovered on one building site.

Larger mounds, Dr. Roberts said, disclosed no artifacts or skeletal material of a distinct peculiarity. However, under smaller mounds, traces were found of approximately 30 houses and, Roberts added, one small mound contained the flexed remains of 30 skeletons.

Date or identity of the tribal inhabitants has not been determined, although it is believed they were proto-Muskogean, from whom evolved the highly cultured Indians encountered by the first white explorers in the Gulf states.

Artists Send Gifts To the President

HOUSTON.—Grateful artists and artisans in the recreation department of the Civil Works Administration classes here expressed their appreciation in gifts to the presidential family.

An original lineoleum block for personal bookplates, made by a young woman graduate of an exclusive Southern women's college, was sent to Mrs. Roosevelt. A Mexican craftsman chipped an artistic design in glass to frame the president's picture was sent to Mr. Roosevelt.

Even "Stie" and "Buzzie" Dall, grandchildren of President and Mrs. Roosevelt are remembered. A dainty hand-beaten silver bracelet bore the engraving, "Stie," and an elaborately correct airplane model bore the name, "Buzzie."

A young woman artist painted Texas bluebonnets, state flower, on the wrapping paper for the collection.

Revision of School Curriculum Is Task Of Many Teachers

HOUSTON.—Revision of high school curriculum to prepare children for a world in which leisure will be a major consideration is the task before educators, according to Dr. Edison Ellsworth Oberholtzer, new president of the department of superintendence of National Education association.

Dr. Oberholtzer, superintendent of Houston schools for the past 10 years, looks upon his election to the highest office of N. E. A. with great concern.

Pioneering has past, he said, and it will be the duty of high schools to prepare children for wise use of the leisure time that will become such an important part in living.

Public school training may be lengthened, Oberholtzer ventured, to meet the new economic situation. Thus educated men and women would enter the field of competitive business much later and be in it a shorter time, taking several years from social readjustment to leisure time.

"It will be more and more our high responsibility to help prepare the future men and women for this new world of labor and leisure, with the latter taking more and more time," Dr. Oberholtzer said. "We need culture more than ever."

He believes children should be trained to think more in terms of helpful work for the common social good and less in terms of material success.

Necessary as this change is, he said, those who make the new school program are "betwixt the devil and the deep blue sea." On the one hand is the need for the new curriculum to adjust children to the new world of greater leisure, and on the other hand is an economic pressure demanding curricular change of the very activities introduced to meet the social demand.

Dr. Oberholtzer has two courses for high school students here. One is for those who plan to continue their education at institutions of higher learning. The other is for those who will end their training with a high school diploma. The latter is a general course, designed to round out an education as nearly as possible during the four years.

But, he said, in face of the fact that only 50 of every 1,000 high school graduates ever enter college it is difficult to induce students to take the general course offered.

Parents must become aware, he declared, of their changing conditions and of the new world into which their children will be turned.

Afraid to Take Job in Films

Just because she's afraid, June Grabner, above, won't sparkle in the films. That's the reason the winsome daughter of Harry Grabner, secretary of the Chicago White Sox baseball club, gave up refusing an offer of a contract to play feature roles on the screen.

Prisoners In Jail Must Grow Beards

VICTORIA, Tex.—Bearded prisoners will inhabit the Victoria county jail hereafter.

Sheriff R. S. Weisiger has instructed that no more razor blades be given men incarcerated in the jail. Jailer Richard A. Rogan discovered a hole cut through a steel wall next to a box that contains levers which operate the outside cell doors. The hole was cut, Weisiger said, with safety razor blades.

That Reminds Me

and the utilities are the only ones that can solve the issues that may be offensive or undemocratic as to business operations. A candidate stumping the state for the office of governor can't settle it; in fact any idea that may be made a basis to get votes may go all haywire within six months in this day of fast changing times. Perhaps utilities could give a good reason as to why rates should not be lowered in Eastland. In all fairness to them we would give them reasonable space of news content to give the people their views of they cared to do so.

There is one thing certain. The proflig of the gas operators in this community and the electric industry is such that it is a major factor of monetary exchanges. It deserves every consideration of conservative and fair tactics to bring about a better understanding. Utility heads are not the only ones affected by upheavals brought about by class or discriminating complaints. There are thousands of employees who are spending their money in this community that are also affected. Every thing must be considered when we take issue with any kind of business. It is the only way that a satisfactory solution can be arrived at. At this particular time of recovery we cannot "damn" any business. It is better to work with business and help them solve their problems. Nothing is ever gained by dissension and price wars.

Next War Will Be Like the World War

PORT WORTH.—Despite the general opinion, the next war will be very much like the World War, believes Major General William R. Smith, former superintendent of West Point military academy and now superintendent of the Seva (Tenn.) military academy.

In face of recent inventions and the increasing usage of the airplane, the next war will not be "fought in the air," General Smith said. General Smith was a commander in the World War.

"Men must meet me face to face on the battlefield before one army can defeat another," he said. "When men are confronted with too powerful a force, they dig in. The only way to route them is to send other men to dig them out."

General Smith gave his views on the next war during a visit here recently in the interest of the institution which he heads.

PLAN TO EXPLORE CAVE

MACKINAC ISLAND, Mich.—Skull Cave, located here and believed to contain skulls of mysterious origin, is to be explored by scientists under the direction of the Island State Park commission. Belief that human bones are buried in the dark recesses of the cave is based on the writings of Alexander Henry, famous fur trader, who hid there from the Indians in 1763. He wrote that "human bones and skulls covered the floor." Modern historians believe they may be remains of Chippewa Indians killed in a raid by the Hurons, a rival tribe.

BUT THE SHOW WENT ON

CINCINNATI.—In full view of a packed auditorium at a patriotic performance of a Shrine circus here, Mickey King, 20, feminine aerialist, of Buffalo, plunged 15 feet to the stage when the rope she was climbing to reach a trapeze broke. Though Miss King was seriously injured, the performance was not halted, continuing without her.

A Montreal physician says any one who wishes could live 10 years. But when he gets there, he probably would wish he hadn't.

The long Garbo bob is no longer in style, say hairdressers. Now let us hear from the foot specialists.

Crosswise Grave Is Always Well Kept

STEPHENVILLE.—A grave, the mound of which is north and south, is well kept in the Duffau cemetery, the oldest burial ground in Erath county. The crosswise grave is an old one, but it was worked and kept in good shape along with more recent graves because of the incident that caused it to be turned the wrong way.

Shortly before the man who occupies the grave died, he requested that his head be turned north instead of west when he was buried, explaining that he always had been crosswise with the world and that he thought it appropriate to be buried that way. So his head was turned north; and his grave, although unmarked by a tomb, is well taken care of.

MATE IS BACCALAUREATE

JACKSON, Ohio.—When Oak Hill high school seniors hear their baccalaureate address here April 29, a member of their own class will be the speaker. Glendon Herbert, 17, who is studying for the ministry and who has preached in several Jackson County churches, was chosen for the honor by his classmates.

Inouldn't pose for any but American photographers, believing in patronizing home industries, even to the jails.

ISLE TO HAVE RAILROAD

DETROIT, Mich.—A survey for a proposed miniature railroad on Belle Isle, haven of recreation in the Detroit River has been begun by John Ross, chief engineer for the Detroit Street Railways. The proposed six-mile route would follow a course through the middle of the island, which stops at the zoo and other places of interest. Engineering problems involved include a number of road and canal crossings.

HOUSTON HOME LOAN OFFICE VERY BUSY

HOUSTON, Tex.—Four times as many loans are being closed by the office of the Home Owners Corporation than the average of the 200 offices of the nation, Manager Brady Steele has announced.

The office here set a new record for loans closed with 65 in April 24 for 184,859.

To April 24 the Houston office had closed 2,548 loans amounting to 6,821,168, since it was organized last fall.

SEEKS WIFE AT 112

OMAHA, Neb.—William Everitt, who recently celebrated his 112th birthday here, is still looking for a wife. The search now is in its fourth year. Everitt, a carpenter until his retirement a few years ago, was fitted at 106.

Tow Sacks Used to Make Chic Ensemble

STEPHENVILLE, Tex.—Tow sacks, the kind that hold peanuts, barley, corn etc., have scored one on cellophane. Mrs. W. G. Carter of Stephenville has appeared on the street in something entirely new in the fashion world.

It is a chic suit, one that is unusually good to look at—but it was made from three corn sacks. Mrs. Carter made the dress suit of the grass sack material and dyed it black. On the sleeves and yolk she crocheted orange trimming.

DAILY BIBLE READING

GALION, Ohio.—Craven County W. C. T. U. members gone on record favoring legislation requiring the daily reading of Bible in both homes and schools.

Seven hundred ways have been found in which people kill themselves in America. Lister there 700 of the 701st way of killing time.

MORE THAN 50% LONGER NON-SKID MILEAGE IN THE NEW Firestone HIGH SPEED TIRE FOR 1934

THE new Firestone High Speed Tire for 1934 is the greatest tire Firestone has ever built. With its wider, flatter tread, greater thickness, deeper non-skid, more and tougher rubber, and greater non-skid contact with the road, you get more than 50% longer non-skid mileage.

This new development is made possible by the Firestone patented process of Gum-Dipping, whereby the cotton fibers inside the high-stretch cords are soaked and coated with pure liquid rubber. This provides greater strength, safety and blowout protection.

Firestone engineers pioneered and developed the first successful balloon tire in 1923, and it is only natural that Firestone would lead in the further development of tire construction to meet the demands of the high-powered high-speed cars of today.

The TAIL of a COMET

DO NOT THINK THAT THE EARTH COULD PASS THROUGH IT AND NO ONE BUT THE ASTRONOMERS WOULD REALIZE IT.

IF QUINNAT SALMON PRODUCED NORMALLY FOR FIFTY YEARS, WITH EVERY EGG HATCHING AND PRODUCING FISH, THE WATERS OF THE EARTH WOULD NOT BE ABLE TO HOLD THEM ALL.

THE earth has been known to pass through the tail of a comet, with no serious results, but there are some people who believe it very probable that the earth some day will meet a comet headon, and the entire population will be destroyed.

Governors' Powers Strictly Limited

AUSTON.—A governor may be the "chief executive" in name but has surprisingly little to do with the actual running of state affairs, it was brought out in recent court arguments here.

It was during trial of the quo warranto suit over who is entitled to sit as a state relief commissioner. The President's power to remove at will was cited. Then it was pointed out that there is a wide difference in the federal and state set-up.

The President is really a "chief executive." Federal departments

Texas Editor Makes 'All-American' Team

By United Press

MISSION, Texas.—Ralph G. Bray, editor of the Mission Times, has been given a place on the 1933-34 All-American Weekly Newspaper eleven, according to information received by the Times from John H. Casey, professor of journalism and advertising in the University of Oklahoma at Norman. Professor Casey selects his team each year.

Bray was placed on the "team" of American weekly editors for his "outstanding work in agricultural journalism," according to the letter from Professor Casey. He is

Fight Fans Praise Herrera for Signing To Fight Jackson

By W. WINSTON COPELAND

ated Press Staff Correspondent

FORT WORTH, Tex.—Fight fans are lauding the daring of Tony Herrera in signing for a fight with Pete Jackson, Pacific coast negro terror, but they are doubting his sagacity.

The El Paso boy, Texas' most outstanding contribution to the sport game, has nothing to win in a fight with Jackson, followers point out. Jackson is no set-up—anything that in fact, he is very likely brush off the aspiring young Mexican in one-two-three fashion. Jackson has everything a fighter could have and can do anything in either hand. He puts them on their backs.

At present Herrera might have a chance at the world's junior heavyweight crown if Jimmy McEmin stamps out Barney Ross, titleholder, in New York this month. But if Jackson lands a couple of hard ones on Tony's nose, which he is capable of doing, the birdies will chant a requiem to Tony's championship aspirations.

Both Ross and McLarnin have offered a wide course around Jackson. If that's the fight game, in Herrera should emulate Ross and McLarnin, his admirers believe.

Jackson, according to sporting news, was "handcuffed" in his two appearances, purposely seeking poor showings in an effort

to trick Ross into a fight. The trick did not work.

That Jackson is no "slouch" is verified by the fact he knocked out Lew Massey, a top-notch, in two rounds. Massey stayed 10 rounds with Herrera.

Jackson is a popular fighter on the Pacific Coast and the fight, to be held in San Francisco, doubtlessly will draw a large crowd. The prospect of a fat purse may be one of the reasons for Tony's signing.

But, Herrera has earned his try for the crown, his supporters maintain, and his ability is attested by the recent evasion of a title fight by Ross. So, why risk a chance at the title? they ask. Tony is fast and clever; Jackson is fast and tough.

However, they admire the clean-cut young Texas fighter's fair play and nerve and wish him the best of luck—believing he'll need a lot of it when he steps into the ring against Jackson.

Border Smuggling Fight Is Started

By United Press

EL PASO, Tex.—Well-laid plans to break the ring of border smugglers using fast airplanes to cross the Rio Grande will illicit goods have been cancelled as a result of the U. S. Customs department's transfer of its planes to Florida.

Customs officials estimated that thousands of dollars worth of narcotics, silks, liquor and other contraband is being smuggled across the border by planes that fly across the unguarded desert sections.

SISTER MARY'S KITCHEN

BY MARY E. DAGUE

NEA Service Staff Writer

JUNIOR appetites are apt to wane with the coming of warm weather; then Sister or little sister develops a tendency to gain off pounds and what will she do then, poor thing? Well, if she's wise, she won't be worrying. But she will settle on some intensive planning. If the results, if she's lucky will mean so tempting that no child will turn away from them in listless boredom.

The child from eight to ten can eat a wide range of food—in fact, almost any well-balanced, suitable adult meal is suitable for her. And speaking of adults, in a while Father may be to blame for Junior's slinkiness.

Discussions about food by older persons—fathers particularly—do much to influence young ones, and the opinions of grown-ups concerning the palatability of some foods should not be aired emphatically in the presence of youngsters. If father suggests certain vegetable of impeccable reputation tastes like grass, really young hopeful will immediately succumb to the power of suggestion.

Quart of Milk Daily

The practice of providing a quart of milk a day for each child should never be neglected, but the milk may be used in soups, creamed vegetables, cereals and beverages to give variety. Tea and coffee should not be permitted until children reach years of discretion. Meat, fish, raw and cooked vegetables, and cooked fruits, cereals and desserts can be served in a variety of ways.

It's of utmost importance that vitamins and minerals be supplied in abundance, the caloric value of food must not be forgotten. The amount of food a child

Tomorrow's Menu

• BREAKFAST: Baked rhubarb, cereal, cream, broiled bacon, shirred eggs, muffins, milk, coffee.

• LUNCHEON: Mushrooms on toast, sliced tomatoes, chocolate brownies, milk, tea.

• DINNER: Mock duck with brown gravy, steamed spinach, cabbage and raisin and grape fruit salad, rice custard pudding, milk, coffee.

needs at this age has been estimated as between 1700 and 2000 calories a day. The protein calories should be between 10 and 15 per cent of the whole amount. A working knowledge of the caloric value of the more common foods is helpful.

Calories Per Meal

The following menu for a day has been worked out to show the number of calories in each dish.

Breakfast: One large orange (100), 2-4 cup cooked cereal (100), 4 tablespoons cream (100), 1 soft cooked egg (70), 1 slice toast (50), 2 teaspoons butter (70), 1 glass milk, about 3-4 cup (125). Total calories, 615.

Luncheon: One-half cup baked macaroni with tomato sauce (100), 1-4 head lettuce (12), 2 teaspoons French dressing (66), 1 whole slice whole wheat bread (100), 1 teaspoon butter (35), 2-3 cup apple sauce (100), 1 glass milk (125). Total calories, 538.

Dinner: One half round steak ground (100), 1 baked sweet potato (150), 1-2 cup creamed peas and carrots (60), 1-3 cup fruit salad (130), 3 tablespoons brown Betty with 1 tablespoon whipped cream (200), 1 slice bread and butter (135), 1 glass milk (125). Total calories, 900. Total calories for the day, 2043.

New Tire Gives 50 Per Cent Longer Non-Skid Mileage

A new High Speed tire is announced by Firestone Tire & Rubber Company and is now on display, featuring an increase of more than 50 per cent in non-skid mileage, according to Roy Speed, local Firestone dealer.

The Firestone developments embodied in this new tire have been proven by constant testing on Firestone's fleet of test cars, day in and day out, 24 hours a day, over all kinds of roads and highways throughout the country, 12 months in the year.

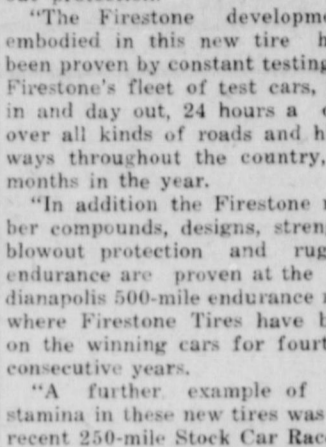

"In addition the Firestone rubber compounds, designs, strength, blowout protection and rugged endurance are proven at the Indianapolis 500-mile endurance race where Firestone Tires have been on the winning cars for fourteen consecutive years.

"A further example of the stamina in these new tires was the recent 250-mile Stock Car Race at Los Angeles, where "Stubby" Stubbfield and Al Gordon, who finished first and second, completed the race without a stop, pounding over uneven ground and tearing around the curves at 90 miles per hour. They showed the ability of these new tires to stand the terrific punishment and give them protection from skidding. The tires were the same kind that we have on display for the safety of motorists.

"The improvements of the new Firestone Tires also apply to the new Firestone Air Balloon," Mr. Speed concluded, "bringing maximum traction and riding

Likely Choice As Moderator

Next moderator of the Presbyterian church may be the Rev. Herbert Booth Smith, pastor of Immanuel Presbyterian church of Los Angeles, shown above. He is regarded as one of the leading candidates at the May 24 election in Cleveland, during the session of the general assembly.

comfort with low-slung style. Firestone supplies the tires with wheels in colors to match your car in these balanced Air Balloon units.

OWNED GUN MADE IN 1250
By United Press
SANDUSKY, O.—A carved gun, made in 1250 A. D., belonging to an inmate of the county infirmary, here, is in the keeping of Theodore A. Hilt, a hotel manager. The owner, who refuses to give his name to infirmity officials, says the weapon was handed down from generation to generation until it came into his possession. Hilt was asked to "keep" the gun, the owner explaining that although for a time he slept with it, he is afraid it will be stolen.

THE star performer were having trouble in the cook tent when Donna arrived at the circus tent. Madeline was sitting alone at the head of a long table. She called out airily, "Hello!" and Donna sat down beside her.

"Well, how did you get along?" Madeline asked.
"All right. I don't think they suspected anything."
"Still crazy about farm life?" Donna did not answer.
"How's the good-looking cousin on further acquaintance?"

"It's good and happy if he were a relative of mine, but I'm too tired to talk about him or anything else."
Madeline shrugged her shoulders. "Of course you were bored, poor darling. Has the price of hogs gone up? How many quarts of milk does old Daisy give now?"

"A wisp of a girl had made him the laughing stock of his crew! At one glance from the animal trainer Madeline had thrown him over. Trafford was sure Con David would never marry her; everyone knew Con was crazy about Donna. What a life that was! Big Ned Trafford would show her she couldn't make a fool of him.

"The two girls drew nearer and Trafford moved slightly, obstructing their entrance to the tent. "Pardon me," Madeline said lightly. Donna gave a little gasp at what she read in the man's glowering face. "I want to talk to you," he mumbled, looking down at Madeline. "Sorry, but I can't stop now, Ned. Got to dress."

Saints Room to Be Made Into Chapel

ROME—The room where now stand the remains of the founder of the Salesian Order, founded when here, is to be turned into a chapel. The forms part of the church of Sacred Heart in Via Marsala, the Chapel, which will take place, will form a reliquary of the personal memories of Don Bosco. The Church of the Sacred Heart in Via Marsala was founded by Don Bosco, and built according to the design of the architect Ignazio Bossi.

DONNA of the BIG TOP by BEULAH POYNTER

THE cage of lions and tigers was holding the center of the arena. "Madeline!" Donna cut in. "Oh, he makes me sick! You want a scene do you?" she flung at him. "Well, after the bar act is over you can make as big a scene as you please but count me out of it. I'm through with you. Now call it a day."

SHE brushed past him into the tent with the air of a tragedy queen. Trafford spat viciously, jammed his hands into his pockets and started towards the big tent. Donna called after him, "Ned! He paused. "You made her sore, but she didn't mean all she said. You mustn't take it to heart."

"I know where I stand all right," he muttered and continued on his way. Donna, frowning and far more perturbed than she liked to admit, followed the other girl to their dressing room. Madeline was sitting before the mirror, rocking with peals of laughter. "Can you tie that? Because I spent the day with Con—"

"Shut up!" Donna rasped. "I warned you! Over and over I warned you. That man has your life in his hands and—"
