

Nine Jurors Selected in Hauptman Trial

ANDERSON IS SELECTED ON ONE ALL-STATE

Aaron Anderson, quarterback and captain of the 1934 Ranger Bulldogs and an all-district selection in the Oil Belt for three consecutive years, was placed on the all-state high school football team selected by the Associated Press...

Bill Parker, Associated Press sports writer, commented on the selections of sports writers as follows: The 1934 Texas Interscholastic league football marathon produced an excellent crop of young gridiron stalwarts...

The champion Amarillo Golden Sandies furnished four players, Fort Worth Masonic Home contributed two and one each was selected from the Corsicana, San Antonio Thomas Jefferson, Corpus Christi, Ranger and Greenville teams.

John Peterson of Amarillo and Ed Mitchell of Thomas Jefferson landed the wing positions. Peterson, outstanding throughout the season, gave a splendid demonstration of his all-state ability Saturday when his mates won the championship by beating Corpus Christi 48 to 0...

Masons at Tackle Robert Cook and Allie White of Masonic Home easily won the two tackle positions. Coaches, critics and players agree that Cook and White stand alone as the best of Texas interscholastic league tackles...

John L. Sullivan of Amarillo won the center position from Ki Aldrich of Temple. Sullivan polled two more votes than Aldrich. The

Napoleon's Letters To Empress Sold

PARIS, Jan. 2.—Napoleon's hitherto unpublished letters to Empress Louise have been sold to the United Feature syndicate. The ministry of education, which recently acquired title to the absorbing and romantic documents, awarded publication rights to the American syndicate after spirited bidding by newspapers, magazines and publishers throughout the world.

Authorities, working feverishly to decipher the letters, written from horseback, from battlefields, from headquarters and camps from Paris to Moscow, agreed in declaring it the greatest Napoleonic find in modern history.

Eastland Man Begins 80th Year Tuesday

Tuesday, New Year's, marked the beginning of his 80th year for F. P. Dunnam of Eastland.

Mr. Dunnam is in good health, is active and glasses are only used when reading the daily papers. He writes his wife came to the county from Alabama approximately 12 years ago.

Rabbit and pigeon raising and playing "42" are his chief interests.

District Judge Is Named By Governor

AUSTIN, Jan. 2.—Judge Andrew Power of Fort Worth was appointed judge of the 96th district court at Fort Worth by Governor Ferguson today.

An hour later A. B. Curtis of Fort Worth, assistant secretary of state, announced he will contest for the place in the next democratic primary.

Both Power and Curtis have been staunch Ferguson supporters.

that reminds me...

All set for 1935—holidays are over and there is lots of work ahead... gathering from all sources the past week has meant lots of happiness for many folks... everybody wants to see everybody have a happy and prosperous new year... that being the case the responsibility is on each individual to see that every body does... that comes through cooperation and the golden rule... Practically every line of business report gains over the previous year and many had the best since 1929... that's enough to spur anybody on to greater achievements.

All interest will soon be focused on Washington where the big Congress will convene... and on Austin where the State legislature will get down to business... predictions come thick and fast as to what is going to happen... some put it mild... others place it in the excitable class... regardless of which... we believe that the people are doing more thinking than ever before and if things get haywire contrary to the best interests of all people then things will pop sure enough... here's hoping however that the business of the government will be handled constructively and consistently economically.

The heaviest frost of the winter season blanketed this community this morning with clear skies overhead... and the briskness of atmosphere which makes folks feel better. The much needed rain petered out... but as it always has rained and always will we'll probably get it to our liking soon... Farmers are busy plowing getting the land in shape when it does come.

Eastland National Bank shows over a quarter of a million in deposits on its statements of December 31st. This is without question a most gratifying and substantial showing of what a bank in Eastland is worth to the community. Only in business less than two months... starting with a bare

Connelllee Hotel Leased, Managed By Ft. Worth Man

The Connellee Hotel in Eastland, of late operated and managed by W. E. Lafon, Jr., has been leased and is now managed by Ben F. Scott of Fort Worth.

Lease of the hotel was obtained from the Jesse H. Jones interests of Houston, owners of the hostelry. Sunday the new operator assumed management of the hotel. Former hotel connections of the new manager include the Bristol hotel, Houston; Scott hotel, Dallas; Plaza hotel, Fort Worth.

Asked of his impression of Eastland and the outlook for the new year, Scott replied, "I am very favorably impressed by Eastland, which appears a substantial town, and its fine people. The outlook should please all of us as we are getting along better. The new year should be a successful one," he concluded.

Mr. and Mrs. W. E. LaFon will leave for Mesa, Ariz., Thursday, where his father, W. E. LaFon, operates the El Portales hotel.

Mrs. Scott and children were expected to arrive in Eastland today where they will make their home.

Jap Is Released In Photographing Case

ST. PETERSBURG, Fla., Jan. 2. Yoshito Matsuda, Japanese naval officer who was arrested taking waterfront pictures here, was released today by immigration officers.

Matsuda left for New York, planning to report to his country's embassy at Washington, en route.

NO SPEED LIMIT

MOBERLY, Mo.—This town is temporarily without an effective speed law. A stenographer who copied the ordinance two years ago failed to insert the paragraph specifying a penalty. The omission was discovered in an ordinance violation trial.

GOVERNMENT UPHELD IN ITS MULLOY CASE

KANSAS CITY, Jan. 2.—Efforts to block introduction of a statement made to the government by Frank Mulloy, Kansas City gambler, in the Union Station massacre failed when Judge Merrill Otis overruled defense objections. Mulloy, one of seven on trial in connection with the plan to free Frank Nash—the plan that resulted in the slaying of Nash and four officers—was questioned by Leon Turrou, special agent of the bureau of investigation, department of justice. When Turrou was called the defense objected, charging the Mulloy statement was obtained by duress.

Judge Otis sent the jury from the room and heard statements by Turrou and Mulloy. Turrou denied he had used force to obtain the statement.

Habeas Corpus Is Expected Today In The Henry Case

Filing of writ of habeas corpus for discharge of defendants Raymond Henry and wife, charged with murder in connection with the mysterious death of H. L. McKee, was expected to be made today by J. Frank Sparks, counsel.

Hearing on the writ will be the following day after the writ is filed, courthouse attorneys said.

Basketball Will Start In Oil Belt Next Friday Night

First Oil Belt basketball games of the 1935 season will be played next Friday night at Eastland, Elaville and Graham. Engaging Eastland's quintet will be the Breckenridge Buckaroos; Elaville will entertain Mineral Wells; and the Ranger Bulldogs will be Graham's visitors.

The six teams are beginning on a schedule that will end February 12. Each of the six clubs will meet the other five crews twice, once at home and once away.

Because the Bulldog gymnasium is still under construction, Ranger will first play all the teams in their own gyms, with the expectation of having its gym ready to entertain the opponents in the second engagements.

Only three games have been played by the Breckenridge Buckaroos. They won in Breckenridge from Bryson and Woodson and lost at Bryson.

Organization of Extension Course In Drama Slated

Organization of an extension course in modern drama will be made Tuesday evening at Eastland high school, it has been announced.

Miss C. Craven, Denton teachers college, who Tuesday concluded instructing an extension course in literature, will be instructor for the new course.

College credit can be obtained in the work.

Holiday Deaths Show Big Total

Traffic accidents, fires, shootings and suicides led the list of New Year fatalities, a nation-wide survey revealed today. Recorded deaths due to accidents totaled 124. Auto fatalities, the greatest, totaled 60; fires, 12; suicides, 9; shootings, 9; train accidents, 2; alcohol, 2; frozen, 1; miscellaneous, 1. Slippery streets and the usual heavy holiday traffic combined to account for about half the deaths.

CONGRESS IS COMING Doorkeeper Gives Welcome

These big main doors of the House Chamber in Washington will swing open for returning legislators Jan. 3, when Congress reconvenes. Col. J. J. Sinnott, doorkeeper of the House, is shown as he tests them to assure himself of their smooth operation.

SENATE CRIME COMMITTEE SAYS FEE RACKETEERING IS HINDERANCE TO STATE

AUSTIN, Tex., Jan. 2.—Racketeering constables and other fee-grabbing officers are creating an unsavory reputation for Texas among motorists of other states, the Senate Crime Investigating Committee asserted today in the first completed section of its report.

"While all Texans are urged to think, talk and write the Texas Centennial, these fee-grabbers are discriminating against those very persons we are inviting to Texas—out-of-State motorists—in an enforcement of road laws absolutely uncomplimentary by the Legislature," the report said.

The report was based upon an investigation of numerous so-called "speed traps" in various sections of Texas.

One instance was cited of a justice of the peace who had tried more than 1,000 traffic cases in 18 months and collected fines ranging from \$13.50, upwards, in each case, the justice collecting a trial fee of \$2.50 in each case.

Another instance was a constable-special ranger whose "take" averaged \$500.00 per month.

The effect of such practices, the committee commented, is reflected in correspondence from one Tennessee man—one of many from whom letters were received. Enraged at an unwarranted arrest while in Texas, this man cut short a vacation in Galveston. "I'm a confirmed 'stay out of Texas' booger," he wrote.

Grand Jury action against the officers forming the speed-traps was recommended.

The traps are directed particularly at truck drivers, the report stated. The usual procedure was described as follows: The truck driver is hailed by uniformed men in a passenger car, who may be hi-jackers or officers. They motion the driver to stop, usually blowing a whistle. If he fears hi-jackers and runs, they shoot off his tires. When the trucker is stopped, a printed list

produced of possible violations, numbering about twenty. The truck is checked from bumper to differential. Numerous papers must be displayed by the driver. If nothing wrong is found, the driver is booked for speeding. A speeding ticket is the last resort since the fine for speeding is less than for the numerous other offenses set up by Railroad Commission regulations.

Brought before a justice of the peace, the driver is told the amount of the fine, usually without being given a chance to plead his guilt or innocence. The minimum fine is \$13.50. That includes \$2.00 for arrest, 75 cents each for subpoenaing four witnesses, \$1.00 for release, \$1.00 for commitment, 1.50 for making bond, \$2.50 for trial fee, and \$5.00 for the county attorney.

"It apparently does not matter," said the report, "whether there were actual witnesses to the alleged offense; whether subpoenas were actually served on these witnesses; whether anyone was committed; whether bond was made. The costs are added to the fine regardless of circumstances. As for the county attorney's fee of \$5.00 he is usually miles from the scene and never hears of the case."

Rather than attempt to assert his rights, the motorist, in a strange town, among strange people, usually pays. He is threatened with what one witness termed spending the night in "your lousy jail"; he faces indefinite delay; the expense of employing an attorney. Moreover, if he is a truck driver, he is carrying to meet; possibly is carrying perishable merchandise.

Among the fee-grabbers were found these officers: constables, justices of the peace, "special rangers" and special deputy sheriffs who obtained their badges solely for the purpose of setting up a

(Continued on page 3)

UNEMPLOYABLE TO BE PUT ON THE STATE ROLL

AUSTIN, Jan. 2.—The estimated 300,000 unemployable relief clients to be taken off federal relief rolls in Texas Feb. 1, will get state aid under a plan announced here today subject to federal approval.

The state proposes to retain the proceeds from \$1,500,000 relief bonds to be sold for February, instead of placing it in a general relief pot with federal funds. The legislature can issue the remaining \$3,500,000 possible relief bonds. Both sums would be available for direct relief to unemployables.

The plan would take care of unemployables for the next several months. The legislature is expected to work out a permanent relief problem.

It was estimated two-thirds of the persons on relief rolls would be self supporting except for the drouth. It was estimated by May or June new crops will reduce the relief rolls due directly to drouth.

Eastland Officers Kept Down Crime During Holidays

Eastland city officers foiled the only reported attempted theft, usually prevalent during the holidays.

In less than ten minutes after four "michevious" inebriated Carbon youths allegedly attempted to enter the Eastland Drug, they were caught in the west end of Eastland.

The youths caught and placed in jail at the Eastland city hall Sunday have been bound over for action of the grand jury which convenes Jan. 7.

The four allegedly threw a concrete rock through the east door of the drug store and then scampered. Investigation by the officers showed that the front door had been tampered.

Method employed by the vigilant Chief Bill Mead and his assistants was that of notation of the car license in which the youths fled. A quick chase brought the youths in custody.

The youths, this their first offense and run-in with the law, from Carbon were aided by many residents of that town who came to Eastland to attempt to aid the youths.

Besides foiling the only reported theft in the town, not any actual loss was sustained by merchants or residents who are usually visited by thieves during holidays.

Hilton Kuykendall, Bill Mead, J. M. Nunn and Bob Ball served as officers during the holidays. Kuykendall Nunn were extra help.

Mrs. O.M. Foster Rites Held Tuesday

Funeral services of Mrs. Ollie May Foster, who resided about ten miles northwest of Eastland, and who died Monday evening, were held Tuesday at Eastland cemetery.

Mrs. Foster, a widow, was 63 years of age.

Hammer Undertaking Company of Eastland was in charge of arrangements.

Preliminary Work For Farm Census Task Underway

Questionnaire sheets for use of census enumerators were being shipped out to various counties this morning in Eastland at district headquarters.

E. E. Woods of Eastland is census supervisor for district No. 8, which comprises the following counties: Callahan, Comanche, Eastland, Erath, Fisher, Hamilton, Jones, Nolan, Palo Pinto, Shackelford, Stephens, and Taylor.

DALLAS NEW HOME Mr. and Mrs. W. A. Whitley left Tuesday for Dallas, where they will make their home.

Byrns Is Named Speaker of House of New Congress

WASHINGTON, Jan. 2.—House democrats selected Joseph W. Byrns of Tennessee for speaker of the 74th congress.

Byrns succeeded the late Henry Rainey, democrat, Illinois, and will be inducted at the opening of congress tomorrow.

His selection was a formality at the opening of the caucus of the 322 new democratic members. As his only powerful opponent, Rep. William Bankhead, Alabama, and Sam Rayburn, Texas, withdrew several weeks ago.

Every indication pointed to selection of Bankhead as majority floor leader. Despite protests from northern representatives against both speakership and leadership going south, Pennsylvania's 23 democratic members threw over the sectional issue and started the Bankhead band wagon movement by pledging him their unanimous support.

Cold Wave Sweeps Into Eastern States

CHICAGO, Jan. 2.—Snow-laden clouds and a cold wave moved into the eastern third of the country today while northern and mid-western states were granted relief from the most severe weather in years.

Temperatures dropped to zero and below in every northern state east of the Rockies before the storm swirled over the Great Lakes.

Snow fell over a vast area between Idaho and New York and the storm's tag ends carried rain clouds as far south as San Francisco, Galveston and New Orleans. Thermometers dropped sharply in the east today following the course of western readings 24 hours before.

Sixty Miners In A Suicide Strike

WARSAW, Jan. 2.—Sixty miners deliberately faced death in the pit of the Bobrowa coal fields today in a suicide strike by which they hoped to obtain two months' back pay.

They remained in the galleries while water flowed in at the rate of 250 cubic feet a second, and refused to leave until their demands were met.

A crisis was expected today as the water neared the mine shaft. In addition to their demands for back pay the miners want the owners to promise them the mine will not be closed. If closed and the pumps stopped, the mine would be ruined by water.

The fourth juror was chosen quickly. He is Charles Snyder, a farmer.

Pennsylvania Solons To Support Bankhead

WASHINGTON, Jan. 2.—Pennsylvania's democratic house delegation of 23, voted today to support Rep. William Bankhead of Alabama, for the house majority leadership.

The decision, reached less than two hours before the scheduled caucus, was believed by supporters of Bankhead as certain to clinch the leadership. The break in northern ranks was a blow to efforts of northern candidates to keep the leadership from going south.

Eastland to Take Part in National President's Ball

Eastland, as other cities of the nation, will participate in the national President Roosevelt's ball. The date of the ball is Jan. 30.

The general chairman of the event will be announced this week, it is understood.

Donald Kinnaird, chairman of the last year's ball, steered the affair successfully and nearly \$300 was raised.

MEANEST THIEF LONG LANE, Mo.—While William Hutchinson, federal relief recipient, was attending funeral services for his wife, a thief broke into his house and stripped it of all loose furnishings and food. Hutchinson has a number of small children to care for.

Two men and two women sat in the jury box in Flemington's century-old courthouse today when the first day of the trial of Bruno Hauptmann for the murder of the Lindbergh baby was recessed at noon.

They are four of the 12 who will hold in their hands the life or death of Hauptmann. The defendant strolled into the courtroom today, neatly shaved, a necktie around his collar for the first time in months. Three minutes after he was escorted to his chair behind the defense counsel's table. Col. Charles A. Lindbergh, a towering figure in gray, walked past Hauptmann and sat at the prosecution table.

Lindbergh did not look at Hauptmann, and the prisoner, charged with the murder of the aviator's son, did not look at Lindbergh.

The jurors selected from a panel of 48, looked what they are—a typical cross section of the population of Hunterdon county. Charles Walton, a machinist who lives down the road in High Bridge was the first man accepted by both sides. He had put on his Sunday suit for the trip, washed the grease out of the pores of his hands, and brushed back his graying hair.

Walton was asked if he had any children of his own. He said he had four.

Mrs. Rosie Pili, who gave her occupation as housewife, was the second juror. She was sworn in when she decided she would vote to send Hauptmann to the electric chair if the evidence indicated he was guilty.

Another ample housewife, who filled the witness chair, was Mrs. Verna Snyder. She had put on her best coat and a gingham dress peeped out beneath it. She became Juror No. 3 when she said she guessed her son could get along by himself while she was serving.

The burden rests upon the State of New Jersey to show that Hauptmann had

(a) Guilty knowledge of the crime.

(b) That he participated in its profits.

(c) That he plotted or took an active part in the crime that resulted in the Lindbergh baby's death.

The circumstantial evidence must be so overwhelming, to obtain a conviction, that 12 jurors will be convinced "beyond a reasonable doubt" that the prisoner on trial is linked to the crime through the three methods outlined above.

The state will produce three material objects which will play a spectacular part in its attempt to prove by logic that Hauptmann was the kidnaper—hence, under the law, the murderer—of the child.

In the order of their importance these objects are:

First, the note left in the crib on the night of the kidnapping, demanding \$50,000 ransom, and the subsequent series of ransom notes.

(Continued on page 3)

TWO WOMEN AND TWO MEN IN JURY BOX

Lindbergh In Court As The Case Is Begun In Flemington.

FLEMINGTON, N. J., Jan. 2.—The jury for the murder trial of Bruno Hauptmann was being completed with amazing speed today. At 3 p. m. it seemed that before night 12 men and women would be found acceptable to the prosecution and the defense.

Nine jurors, of whom three are women, were seated within an hour after court convened for the afternoon and defense and prosecution lawyers were making rapid decisions as the talesmen were brought forward.

FLEMINGTON, N. J., Jan. 2.—Two men and two women sat in the jury box in Flemington's century-old courthouse today when the first day of the trial of Bruno Hauptmann for the murder of the Lindbergh baby was recessed at noon.

They are four of the 12 who will hold in their hands the life or death of Hauptmann. The defendant strolled into the courtroom today, neatly shaved, a necktie around his collar for the first time in months. Three minutes after he was escorted to his chair behind the defense counsel's table. Col. Charles A. Lindbergh, a towering figure in gray, walked past Hauptmann and sat at the prosecution table.

Lindbergh did not look at Hauptmann, and the prisoner, charged with the murder of the aviator's son, did not look at Lindbergh.

The jurors selected from a panel of 48, looked what they are—a typical cross section of the population of Hunterdon county. Charles Walton, a machinist who lives down the road in High Bridge was the first man accepted by both sides. He had put on his Sunday suit for the trip, washed the grease out of the pores of his hands, and brushed back his graying hair.

Walton was asked if he had any children of his own. He said he had four.

Mrs. Rosie Pili, who gave her occupation as housewife, was the second juror. She was sworn in when she decided she would vote to send Hauptmann to the electric chair if the evidence indicated he was guilty.

Another ample housewife, who filled the witness chair, was Mrs. Verna Snyder. She had put on her best coat and a gingham dress peeped out beneath it. She became Juror No. 3 when she said she guessed her son could get along by himself while she was serving.

The fourth juror was chosen quickly. He is Charles Snyder, a farmer.

FLEMINGTON, N. J., Jan. 2.—The case against Bruno Richard Hauptmann rests entirely upon circumstantial evidence. No witness will be able to say he saw the Bronx carpenter climb the ladder into the Lindbergh nursery on the night of March 1, 1932. No witness can be found who will say he saw Hauptmann fleeing with Charles A. Lindbergh, Jr., whom he is accused of murdering.

The burden rests upon the State of New Jersey to show that Hauptmann had

Political Machine Endangers Hopes For Federal Aid

The times are as full of signs and portents as a beehive is full of bees, if you take the trouble to look for them, and one of the most noteworthy is the flurry recently caused by New York City's attempt to get some lower rates on its electric light bills.

Mayor LaGuardia of New York felt that the utilities were gouging New York. So he went to Washington and got from President Roosevelt the promise that the federal government would loan the city enough money to build a municipal electric light plant.

By running this plant and selling electricity to taxpayers at a low rate, the mayor believes the city can force the utilities to cut their charges.

Now there is nothing especially new about this, so far. The PWA has been specifically authorized to make loans to cities for such purposes, and so far some 30 cities have started to buy or build power plants with Uncle Sam's money.

The catch in all this comes from the simple fact that New York is—well, it's New York; and it nourishes in its bosom an outfit known as Tammany Hall, which, as the toastmaster says, needs no introduction.

Heartily as the average citizen may approve of federal loans for municipal power plants—and it is fairly evident that majority sentiment does approve of it—there is apt to be a different reaction to the idea of putting a program like this out where Tammany can get its hands on it.

To be sure, Tammany is not in power just now. New York has its most honest and efficient city government in years, under LaGuardia. The LaGuardia government can be trusted to handle a proposition of this kind with intelligence and integrity.

But Tammany never stays dead. Sooner or later Tammany will put on a comeback; and the way in which Tammany would operate a \$100,000,000 electric power plant is a thing to make the imagination reel.

Mention was made, a moment ago, of signs and portents. The particular sign and portent arising from this situation is the warning that the kind of city government provided by the typical political machine is both an over-expensive luxury and an actual source of danger in this modern era.

If government, local and federal, is to do more for its citizens in the future than ever before—and apparently it is—then it is absolutely essential that government be scrupulously honest and at least reasonably efficient.

All of which is just another way of saying that we

THE PATRIOT

can't hope to make this or any other new deal work unless we provide a permanent exile for municipal machines like Tammany Hall.

Census Workers Begin Enumeration of Nation's Farms

WASHINGTON, Jan. 2.—Approximately 25,000 census employees today began the huge task of enumerating the more than six million farms and ranches of the United States in what is probably the most important agricultural census in the nation's history...

of the Agricultural Adjustment Administration to the Federal Emergency Relief and Farm Credit Administrations. Indeed, the benefits expected to be derived from this census are incalculable and will have a marked influence in the future welfare of agriculture and the country as a whole.

"Due to the splendid cooperation of newspapers, farm publications, radio broadcasting stations, state and county farm agencies and organizations and educational institutions in disseminating information concerning the importance of this farm census more than a million copies of the sample schedule have been distributed to farmers.

"The bureau desires to call attention to the law which provides that the individual return made by each farmer is an absolutely confidential government report and to emphasize the fact that no individual figures will be used for taxation purposes nor given to any tax official.

"Enumerators are legal residents of the districts which they canvass. Some, if not all, of the farmers residing in an enumeration district will know the enumerator personally and they will do well to see that an accurate report is returned for their district.

WHO WAS FIRST IN AMERICA

By Joseph Nathan Kane Author of "Famous First Facts"

FIRST WATER POWER MILL ESTABLISHED AT SOUTH BERWICK, ME., 1620. GEORGE C. BUCKENSDERFER PATENTED FIRST PORTABLE TYPEWRITER, 1836. FIRST NATIONAL ANTI-TRUST ACT PASSED JULY 2, 1890.

Ferdinando Gorges obtained a grant from England, which required him to develop the territory, from sea to sea, lying between 40th and 45th latitudes, and to develop water power on the land.

The Newfangles (Mom 'n' Pop) By Cowen

Lovable By Mary Raymond

ANN HOLLISTER breaks her engagement to TONY MICKLE the same day that PETER RICHARD tells VALERIA BENNETT, his fiancee, that everything is over between them. Ann thinks she still loves Tony and Peter believes he still cares for Valeria, but when chance brings the two together and Peter asks Ann to marry him she agrees.

Peter, desperately in love with her, grows lonelier as the weeks pass. His efforts to locate Ann are fruitless. She has found work as governess in the home of MRS. TRACY, an artist, ALAN VINCENT, Mrs. Tracy's brother, is attentive to Ann.

MRS. WAINWRIGHT turned about and faced her niece "Peter's had time enough to get a divorce," she said. "It's three months since his wife left him. I saw him on the street yesterday and he looked like a ghost."

"Oh, Peter mustn't let that darling place go!" Valeria's voice was sharp with anxiety. Mrs. Wainwright thought Valeria sounded more like herself than she had for a long time.

Crime Committee

Continued from page 1

It was noted, the Committee said, that in no event does one of these racketeering officers arrest a citizen voting in his precinct. He seldom arrests a citizen of his county. Only infrequently are Texas cars stopped, except trucks; and the greater number of arrests, by far, are out-of-State motorists.

In addition to the general practice of arresting solely for fees, the Committee discovered other practices said to have the " earmarks of Criminality" such as holding roadside courts, with the fine collected by the arresting officer at the spot where he makes the arrest; and impersonation of officers when constables or special officers represent themselves to be the "high sheriff" or bona fide rangers.

"We do not mean to imply," the Committee said, "that the Texas traffic laws should not be enforced. But, in eight out of ten cases, conservatively, which we investigated, there was serious doubt as to whether any violation actually occurred. The traffic and truck laws presumably were written for the protection of the traveling public, not for the purpose of furnishing a questionable means of livelihood for unscrupulous officers.

Hauptmann Trial

(Continued from page 1)

directed to Col. Lindbergh and Dr. John F. Condon (Jafise); Second, \$30 found in the physical possession of Bruno Hauptmann and directly traced to the ransom payment, together with \$14,590 more of the ransom bills found hidden below ground and in hiding places within Hauptmann's garage;

Third, a ladder constructed in three sections, and left behind in the Lindbergh grounds on the night of the kidnaping.

THE OLD IRON CHANCELLOR OF GERMANY, HAD A CURIOUS SENSE OF HUMOR. TO AWAKEN LATE SLEEPING GUESTS, HE FREQUENTLY SHOT OUT WINDOWS IN THEIR ROOMS.

THE PLANET MARS HAS A MOON WHICH RISES IN THE WEST AND SETS IN THE EAST!

MARS has two moons, Deimos and Phobos. The latter is so near to the planet that it revolves completely around the moon in seven hours 39 minutes. This is less than one-third the time of the planet's rotation on its axis; consequently, it rises in the west and sets in the east.

### Petticoat Rule Is Adopted By A Georgia Town

OAK PARK, Ga.—Petticoat rule has come to this town of 500, for the mayor and all the council members are women.

The town doesn't seem so surprised at the result of the recent election as did the outside world. In fact, it was a group of men who suggested that the women be candidates after Mayor H. H. Strange, the retiring official, declined to be a candidate for re-election after he had met with little success in obtaining reforms which he had thought would improve the town.

Mrs. Solomon S. Youmans, wife of the town's only physician, is the new mayor. The women council members are: Mrs. J. D. Tyson, Mrs. G. C. Corbin, Mrs. J. J. Powell, Mrs. G. C. Williamson and Miss Ada Belle Thompson.

A majority of the women are in favor of the female regime, which they hope will be able to produce a better town. But there were some who apparently were dissenters, for the night before the election the town jail was soaked with gasoline and burned.

The women were entered in the race by the men themselves. The day before the election arrived and no candidates had filed to take the place of Mayor Strange and his councilmen. So some of the men decided to pick out a group of women who were known for their executive ability and ask them to run.

As the women came to town to do their shopping, they were asked whether they would be candidates. They were amused, and consented. One woman, however, didn't get to town that day and she didn't know she was a candidate until the day of the election.

The new mayor is the mother of three daughters, ranging in age from three to 15 years. She is president of the Parent-Teachers association and is a prominent member of the Baptist church. On occasions she acts as office nurse for her husband, answers the telephone and keeps tab on his appointments.

Mrs. Williamson was postmistress here and her husband was her assistant for several years until about 18 months ago. Then she relinquished her position in his favor. Miss Thompson keeps house for her father, a widower, who has farming interests.

The husband of Mrs. Corbin owns a grocery store. Mrs. Tyson, youthful blonde, was a school teacher until her marriage a year ago. Her husband owns a grocery store and filling station. Mrs. Powell assists her husband in operating a cafe in connection with his filling station.

### School Authorities Say "Scarlet" Feud Just Foolishness

DALLAS—The traditional "scarlet" feud between the engineers and the pre-med students at Southern Methodist university is "a lot of foolishness" as far as school authorities are concerned.

Every year, Dean A. C. Zumbrennen said, the school is put to considerable expense to repaint the water tower which rival factions have decorated with gaudy colors.

"In addition to the cost and nuisance of the thing, some of the student climbing the tower might fall and then we'd have a law suit on our hands," Dean Zumbrennen said.

He proposed that a tug-of-war between the two groups be held to settle the rivalry in a more orderly manner.

### Boys High School Club Studies Manners

CLINTON, Mass.—A club for the study of good manners has been formed by the senior boys of Clinton high school.

Lewis Gordon, submaster, will instruct them in good manners and social customs a la Emily Post, but will emphasize the male angle.

The students, most of whom are athletes, are making plans for formal affairs where they can put into practice what they learn. They wish to learn what is the proper thing to do without having to bother with any frills and have agreed to make the instruction part of their everyday lives.

### AUTO TO CHASE RABBIT

GAYLORDSVILLE, Conn.—Birt Anderson chased a 17 1/2 pound jack rabbit a half mile in his automobile and then ran over the animal. The jar caused him to lose control of his car which climbed an embankment, damaging the radiator and fenders.

Huey Long may be a great grandstand quarterback for the Louisiana State university team, but you'll notice he never offered to buck the line himself.

### Planetarium Is Made Sound Proof

NEW YORK.—"A Midsummer Night's Dream" will come true in the Hayden Planetarium now nearing completion at the American Museum of Natural History through the use of rock cork sound-deadening insulation, according to Dr. Clyde Fisher, head of the department of astronomy and curator of the planetarium.

"Although the room is enclosed entirely," stated Dr. Fisher, "one feels that he has been suddenly transplanted under a clear night sky."

For years scientists have been baffled by the presence of walls in the attempt to complete the illusion of being out under the stars," continued Dr. Fisher. "The rock cork eliminates all reverberations, echoes and noises, and at the same time makes possible a light, self-supporting dome, several inches of rock cork being equal to 11 feet of solid stone in insulation value.

"One of the unique features in the planetarium is that there can be no windows. The rock cork, which also is an insulator against temperature changes, combines with air-conditioning to keep the temperature constant; otherwise it

### Muddy Missouri Spoiled Plans

PIERRE, S. D.—Veteran rivermen sat on the banks of a frozen "mud puddle" today and bemoaned the days last summer when they started—some north to Fort Peck, others south to New Orleans—to negotiate the once swift flowing Missouri River in boats.

The Indian meaning of the word "Missouri"—muddy waters—was croneous this year, rivermen testify. It should have been: "Watery mud."

Two new \$60,000 government tugboats with crews of 18 men spent most of the summer getting as far as Moberge, S. D., pulling their boats over mud flats on skids

### Muddy Missouri Spoiled Plans

while 260 horsepower Diesel engines churned mud.

The tugboats are high and dry on the banks at Moberge. Their captains—optimists both—are idling away the winter. Captain W. L. "Steamboat Bill" Heckman and Captain Walter Maulding predict they will get to the Fort Peck dam site when the river opens up next spring. Their tugboats are for use in constructing the government dam.

Also idling away the winter amidst South Dakota snow banks is patriarchal Ed Johnson, who set out in a four-ton house-boat last summer with the intention of basking in the tropical sun this winter.

Johnson, like that famed Biblical ark builder, constructed his boat on dry land seven miles from water. Without Noah's floods to aid him, Johnson carted the 24-

J. M. Barnett, Carbon, 1934 Chevrolet coach.

**DIVORCED BY ERASER**  
SPRINGFIELD, Mo.—Mary Thomas Keyer wanted to change husbands, so she chose the easiest way. She used some inkremover to obliterate the name of Frank Keyer from her marriage license and inserted that of Everett Baker, also changing the date of the marriage from 1932 to 1934. An observant city detective broke up the romance by placing Mrs. Keyer and her second husband in jail.

### How Texas Cities Got Their Names

Nacogdoches, a tribe of Indians, gave the name Nacogdoches, to the town, in 1690 with the establishment of a frontier mission. The mission's duties were manifold: to carry Catholicism to the Indians, to extend the Spanish domain, and to keep the French of Louisiana from overstepping their boundaries. Later the French-Spanish dispute subsided and the military garrison left Nacogdoches. Most settlers went with it, but became homesteads and returned with leader Gily Barbo from San Antonio.

Local--Eastland--Social

PHONE 681 TELEPHONES RESIDENCE 288

Tonight... Christian character, and ways in which character may be strengthened.

Thursday... Ladies Aid Society... With the exception of the Ladies Aid society which met in the Christian church Monday afternoon, the day was a blank one so far as church societies were concerned.

9:49 Class Features... The entire young people's department of the Methodist church; Mr. Milton Newman's Sunday school class of boys; H. C. Davis' class of boys, and the college students, were the featured guests of the Men's 9:49 Bible class held in the Methodist church Sunday morning.

Miss Gwendoline Jones presented a group of reading, "Why the Chimes Ring," and "Mother's Day of Rest."

An interesting report was turned in by T. M. Collier, chairman of the Christmas committee, who stated that 10 baskets of food and clothing had been distributed, and \$83.34 expended in charity.

Prayer was offered by J. J. Mickle, and hymns prefaced the splendid lesson by Judge J. E. Hickman, on subject, "The Right Conception of Life."

The highlight brought that to accomplish anything in life is to have the right conception. That for one to think the world owes one a living is a wrong conception. That one has to work for everything they get in life. The good Samaritan was looking for an opportunity to help someone, and found it and did it.

College students introduced were Misses Bernice Johnson, Florence Perkins, Gwendoline Jones, Ellen Pearson, Opal Harrell; Randolph Bailey, Joe Gray, Marshall Coleman, Richard White, Bob McGlamery, Fred Davenport Jr., George Brogdon, and Judge Hickman's nephew and guest, Forest Markham. Other visitors presented were Mr. and Mrs. Francis Jones, now of Eastland, and Rev. C. H. Malloy of Brownwood.

There were 67 members present.

Week-End Ranch Party... Mrs. E. D. Townsend of Eastland, Mr. and Mrs. John Kinberg of Ranger, Dr. and Mrs. E. Roy Townsend of this city, Mr. and Mrs. Henry Zweifel and family of Fort Worth, and Mr. and Mrs. A. B. Crawford formed a congenial and jolly house party from Friday over the New Year's eve at the "Abby" ranch, near Glenrose.

Thursday Afternoon Club Elects Officers Tomorrow... The Thursday Afternoon club will hold their regular meeting following their Christmas vacation, tomorrow afternoon at 3 o'clock in community clubhouse.

A brief program entitled "Federal and Parliamentary," will precede the election of officers, to be held.

A playlet, "The Visit," following the election, will be directed by Mrs. Leslie Gray.

The officers to be elected will be installed at the last meeting of the club year, and will take their places in September, at the opening of the Thursday Afternoon club season.

Building Owners To Hold Meeting... HOUSTON, Dec. 26.—Building owners and managers of eight states will meet here Feb. 22-23 for the fifth annual meeting of the Southwest Conference of Building Owners and Managers.

States to be represented include Arkansas, Arizona, Colorado, Louisiana, Missouri, New Mexico, Oklahoma, and Texas. B. E. Kenyon, Houston, is president of the conference.

Sidney Franklin, American fighter, sues a movie firm because one of its films referred to him as a bull thriver. And he wasn't even an insurance agent.

TRY A WANT AD... Hire Her? Sure!

A lucky beauty is Dolores Casey, above. She wasn't looking for a movie job when she posed for a New York commercial photographer, but a sharp-eyed film talent scout saw the picture, liked it, and rushed around to sign her up. So now she's in Hollywood, ready for her career.

Association of Baptist Training Union Meets Here... The Eastland Baptist Training union at their regular meeting reported the convention here Sunday afternoon, in Baptist church, of the Association of Baptist Training union composed of the counties of Eastland, Stephens and Shackelford, representing 47 churches, almost all of these sending delegates.

Miss Louis Karkalits of this city is president of the association. In her absence the session was called to order by Terrell Coleman, president of the local organization.

Curtis Terrell was featured on the program, in his subject, "Christian Citizenship," in which he won second place in the state oratorical contest of B. T. S. convention at Lubbock.

The devotional was led by Miss Irene Williams, and special music, violin, was contributed by Miss Evelyn Long of Ranger.

The inspirational sermon delivered by Rev. E. S. James of Cisco, brought the hopes and plans for the new year in Christian work.

There were 75 from out of town in attendance, in addition to the 65 members of the local union.

Young People's Epworth League... The recent session of the Young People's Epworth league held in the Methodist church was opened by their president, who turned the session over to the program chairman, John Hart, who gave a fine preface to the subject for discussion, "Strengthen the Arm of the Church."

The first topic by Parker Brown developed the thought that even a small group could keep up interest in church work.

The second topic, "Bringing Brotherhood Into Church Work," was ably discussed by Clyde Chaney, and Billy Satterwhite summarized the topics in his talk.

Forest Markham, nephew of Judge J. E. Hickman, presented the spiritual topic in a wonderful talk, "Religion Gives Purpose to Life."

The league has been re-named the Co-Ed class.

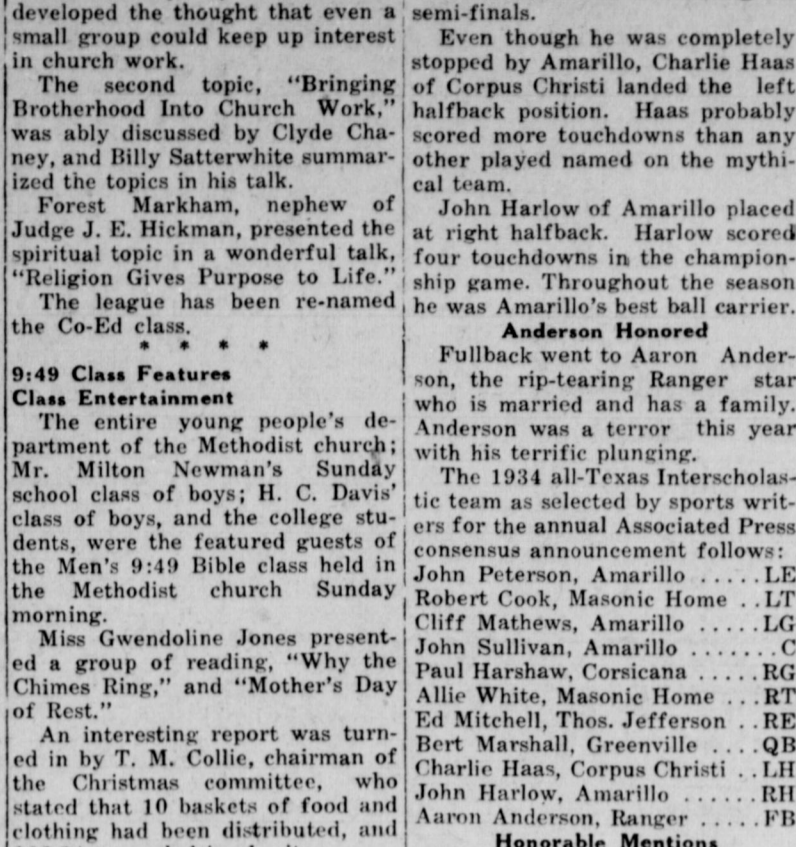

Anderson Is—... Continued from page 1

Amarillo center played sound football, and Coach Blair Cherry called him the most dependable lineman on the team.

Cliff Mathews of Amarillo and Paul Harshaw of Corsicana received the nod as guards. Mathews waltzed around his competition but Harshaw got a close fight from Hinnant of Corpus Christi and Underwood of Amarillo.

Marshall Repeats... Bert Marshall of Greenville who won last year's quarterback position took the same honors again

WITH A SKY OF DEATH ABOVE

Fear haunts his dreams at night. Yet in the arms of the girl he adores, Warner Baxter finds solace. Conchita Montenegro appears opposite the Fox Film star in the gripping screen story, "Hell in the Heavens."

That Reminds Me

Continued from page 1

forty-thousand . . . and here it is over a quarter of a million dollars . . . This speaks words of commendation for the confidence of the people in the Eastland National Bank and volumes for the able and efficient officers and directors of the bank. Congratulations to everybody for this excellent showing . . . and by the next called statement on March 31st, by the National Banking Department the Eastland National Bank can show with the cooperation of the people a deposit of over a half-million dollars . . . Its your community and your community.

duced in Hollywood. It tells a story of daring men—not afraid of death but afraid of fear; desperate for life, yet each day braving destruction in the skies.

Preview audiences in Hollywood have voted "Hell in the Heavens" the most powerful picture Warner Baxter has had in seasons, and all advance reports indicate that it is a film of unusual dramatic quality.

John Blystone, famous for many a screen success, directed "Hell in the Heavens." It is his sixty-third picture for Fox. He is a director who never fails to deliver a punch production.

Conchita Montenegro, who appeared with Warner Baxter in the memorable Fox film, "The Cisco Kid," is once more his leading woman in "Hell in the Heavens."

Other notable members of a large cast are Russell Harrie, young Broadway leading man who recently has chalked up several screen hits in quick succession; Herbert Mundin, Andy Devine, William Stelling and the always dependable Ralph Morgan.

Being a "Wanter"

Blamed For Most Of Unhappiness

LA PORTE, Tex. — Thomas Franklin, 69, condemned to death by doctors 13 years ago because he "didn't sleep enough," today claimed he has found the secret of happiness. He learned not to be a "wanter."

He lives along a 52-acre domain called Snake Island, located on Galveston Bay, where he sails in his hand-made boat when he feels like traveling.

Franklin lived at Austin, Tex., 13 years ago, and prospered with a machinery maintenance business. But "foolishly," he said, he was trying to do too much. He didn't get enough sleep.

He was ordered to rest because he didn't have more than three months to live. He started toward Florida where he owned property, but he got only as far as La Porte.

"I liked it so much that I stayed," he said. "I'd always liked boats and sailing, so I started building a boat—this one right here," he said, pointing to a vessel pulled up onto the shore.

"Man, was I weak," he said ruefully. "I was so weak I couldn't lift the planks into place over the frames and lie on them to hold them in place while I nailed them."

Sometimes since then he has worked for the government spreading storm warnings to fishermen in out-of-the-way places. But mainly he has just done nothing.

More than anything else he objects to the hurry of everyday life.

"There's not a thing out there I want," he said, waving toward the horizon. "I loved the world as it was about 1900. Now I don't understand it and I don't understand the people. I don't know what they are striving for that makes them so unhappy. It must be perfection. If that's so, they'll never find it. Nothing is perfect."

"I wouldn't trade what I have here for anything you could give me out there. You see, I'm not a 'wanter.'"

Franklin isn't an idler by nature. He sold grapes on Wall street as a boy, was a railroad surveyor in South Texas, operated a contracting business in Mexico, prospected for silver in New Mexico and once was an engineer for the Niagara power industries.

China's deficit being only \$16,600,000, how can it become a member of the great family of nations where deficits are in billions and debts are in arrears?

BABY BOASTS TOOTH

MANHATTAN, Kan. — Parents of Harold Dean Perry are holding him up with his mouth open so admirers can see the tooth which the eight-day-old lad cut recently. Generally, seven to eight months is required to cut the first tooth, but babies have been born with teeth, doctors say.
