

# Kickoff Breakfast Early Wednesday Will Get United Fund Drive Underway

**TREAT FOR CROP**—Rising Star young people will have a special trick or treat celebration Halloween night—but the treats will go to CROP instead of to the boys and girls. Pictured above are some of the clergy in charge of CROP supplies in Yugoslavia. They are inspecting flour sent by the Christian Rural Overseas Program to relieve famine conditions in their country. The Eastland County young people will call on homes Halloween night asking for donations.

## Moore... ABOUT Eastland

By Virgil E. Moore

Okay, okay, so we forgot to tell you! Never have we been asked one question so much. How much yardage did Pullman make Friday night? We think, perhaps, that we have told everyone at least twice, but in case we missed you, here are the pertinent facts:

Saul carried the ball 15 times during the ball game. On only one of those carries did he fail to gain. All in all the lumbering Mav full-back made 179 yards, for an overall average of 12 yards a try. Pullman had runs of 51, 45, 32 and 13 yards, plus a lot of other 7, 5 and 4 yard gains. He had his best game of his career, and there's no one around to deny it.

But let's take a look around that Maverick backfield. We thought that the Mav backs played together better than ever before. And, of course that had a lot to do with Pullman's great showing.

Jimmy Martin, a boy who is learning how to run harder a little more everyday, was the work-horse of the night. Martin got the call from Quarterback Harvey Lewis 20 times, and he responded with a 4.5 yard average, bulging his way 89 yards.

P. A. Cox ran with the ball 10 times, and made 50 yards, for a five yard average, and Lewis, while mixing his plays better than the little woman can mix a box-bought cake in a brand new mixer, added 25 more yards in 10 tries for a 2.5 average. Back to P. A. again, remember that he had a 35 yard gallop to the three called back.

Don't ask us where we came up with that Rising Star-Cross Plains game score. Don't tell anyone, but the two teams didn't even play. Cross Plains, the team that downed the Mavs 7-6 earlier in the season, and the eleven we will probably meet in bi-district play, downed Santa Anna, 26-0.

Rev. W. E. Hallenbeck is still trying to get over a blunder he pulled the other day. Rev. Hallenbeck was in Dallas or Fort Worth and he stopped for a bite to eat in one of those fancy eating spots. When he came out, he climbed into "his car" and started it. Then he remembered that the car hadn't raised the hood and so he got out, adjustment on the carburetor. He climbed back in under the wheel, and then spotted a woman's purse. That's when he realized he wasn't in the right car!

Look for a new and louder than in the past scream from Ranger. The Eastland National Bank has put up another large sign, east of Olden this time, boasting about Eastland and Lake Leon. The sign has a large painting of Lake Leon on it, and should cause another blistering front page rebuttal in the Ranger Times. But then again, maybe Norman (the scribbling scribe) Wright will still be trying to eat the football the Mavs gave him last year and won't have time to condemn Eastland's selfish actions.

We hate to be a "we told you so" boy but we think it only fair to remind you that last Saturday we predicted this rain.

For years now we have been wondering why they called this outfit the Ground Observer Corps, when they spend their time looking into the sky all the time. We made the mistake of asking Sgt. Alfred Buchalter, who does the instructing around here, that question, and did we ever get an answer. The sergeant had a lot of nice things to say about the Eastland unit, too.

FOR— Fine Furniture, Floor Coverings, G. E. Appliances, It's Coats Furniture & Carpet, Eastland Free Delivery and Convenient Terms. Good Trade-Ins, too!

## 'SUPPORT IS GROWING FOR AMENDMENT FOUR' -- SIEBERT

"Support is growing for Constitutional Amendment No. 4, the teacher retirement amendment on the Nov. 6 general election ballot, as the public is given the facts," Wendell Siebert, superintendent of Eastland schools, said today.

"This effort of Texas teachers to attract and hold good teachers is one of the most unselfish, public-spirited movements ever seen in the interest of good education for Texas children," Siebert declared.

Local school teachers, working with their local and state associations and in cooperation with local Parent-Teacher Association groups, have spearheaded the drive for adoption of the amendment.

Amendment No. 4 will improve the Teacher Retirement System created in 1937, a depression year. The system covers all employees

of public schools and state-supported institutions of higher learning.

Increased benefits, Siebert feels, will encourage teachers now leaving the classrooms to remain in the teaching profession. Approximately 7,000 experienced teachers are lost each year to the school. The program would also help attract some of the 3,800 new teachers needed each year to instruct the 100,000 new children who jam Texas classrooms annually.

The new program, as passed by the Texas Legislature last year—unanimously in the Senate and with only two dissenting votes in the House—would work like this:

A teacher would pay into the retirement fund each year six percent of his salary (present rate five percent), and would earn a retirement based upon these deposits.

In addition, the amendment adds some benefits which are common in the retirement plans of private industry but have not been included in the teacher retirement system heretofore.

These are: (a) benefits for teachers who become unable to work because of disability; (b) death and survivor benefits for the family of a teacher who dies in school employment; and (c) a guaranteed minimum retirement payment for teachers now retired and for those who retire in the future. This minimum of \$100 per month would go only to those who had at least 20 years service and who reached the age of 60.

The new program would cost teachers, through increased deposits into the fund, \$4,500,000 annually. The state will match these funds.

No additional tax will be needed, Siebert emphasized, either at the local or state level. He explained it this way:

(1) The local school district pays no part of the retirement deposit, so local school taxes could not be affected. (2) Increased industrialization and population of Texas are producing more tax revenue, enough additional each year under existing tax laws to pay several times the state's \$4,500,000 share of the retirement program. Thus, the causes of the present school situation will help pay for its solution.

"It is true, of course," he stated, "that if the program were not adopted the Legislature would have an additional \$4,500,000 to spend for some other purpose. But it would be most difficult to find any State service that would be of more value than supplying teachers for Texas children."

## Mingus Youth Dies As Auto Hits Culvert

Funeral services were held at 2:30 p.m. Monday in the Mingus Baptist Church for Alton Wayne Foster, 19-year-old Mingus youth, who was killed instantly about 1:30 a.m. Sunday when the car in which he was riding ran into a culvert on Highway 80 about 20 miles east of Ranger.

Rev. J. W. Blackwell and the Rev. Howard Foreman officiated at the services and burial was in Mount Marion Cemetery at Strawn.

Foster was a 1956 graduate of Gordon High School where he played football, basketball and baseball. He was an employee of the Lone Star Gas Company and a member of the Baptist Church.

The accident occurred near Gordon when a tire on the automobile reportedly blew out causing the car to hit the culvert and overturn several times. Foster, who was driving, was thrown clear of the car and killed instantly. Only other occupant of the car, Rayburn Dickson of Gordon, received minor cuts and bruises and was treated at Ranger hospital and released.

Foster's survivors include his mother, Mrs. Ruth Simmons of Eastland; one brother, Lindell Lee and one sister, Carolyn Ruth Foster, both of Mingus; two half-brothers, Richard L. and Nelson Ray Campbell, both of Eastland; and two grandmothers, Mrs. Lee Dyer and Mrs. Emma Foster, both of Mingus.

The youth's father was killed in World War II.

## Eastland County Scouts to Join Thousands of Others at Jamboree

A number of Eastland County Scouts will be among the 50,000 Scouts and leaders from all parts of the nation and its territories who will go to Valley Forge, Penn. for their Fourth National Jamboree next July 12 to 18, Troy Boone, Scout executive, revealed today.

They will erect a 1,500-acre tent city on historic ground where General George Washington held together his 10,000 ragged, frozen, and hungry troops during the winter of 1777-1778. His success there in the darkest hour of the American Revolution led to making the United States possible.

"The nation's newest temporary city of 50,000 will team with excitement," Boone said. "Boys from all walks of life, of all races and creeds will live together, exchanging skills, swapping hometown products and learning about the customs and traditions of many sections of the nation."

"The National Jamboree will

**W. L. Latch Is Taken By Death**

Funeral services for W. L. Latch of Cisco will be held in the Methodist Church in Cisco today at 2 p.m.

Mr. Latch, a former engineer was a courthouse employee for many years.

## Reminder of Importance of Large Vote For Demo Governor Is Given

All Democratic precinct and county chairmen have been reminded by Jim Lindsey, chairman of the State Democratic Executive Committee of the importance of a large vote for the Democratic candidate for governor to assure a strong voting strength in the Democratic conventions of 1958.

Lindsey sent the following letter to all chairmen in Eastland County:

"In connection with the General Election on November 6, I take the liberty of reminding you of the importance of a large vote for the Democratic candidate for Governor. As you know, your voting strength in the Democratic conventions of 1958 will be based on the number of votes cast in your precinct and county for the Democratic candidate for Governor in the General Election this year.

"Article 13.34 of the Texas Election Code provides that the county convention shall be com-

posed of one delegate from each precinct in such county, for each 25 votes. . . . cast for the party's candidate for Governor in such precinct at the last preceding general election. . . . which county convention shall elect one delegate to the State Convention for each 300 votes. . . . cast for the party's candidate for Governor at the last preceding general election. . . ."

"It is important to get out as large a vote as possible on general election day for the entire Democratic ticket, especially for our Party's candidate for Governor. For every 25 Democrats who vote for another Party's nominee or for a write-in candidate or who simply fail to vote for our Democratic nominee for Governor, your precinct will lose one vote in your next county convention, and your county will lose proportionately in the next State Convention.

"I urge you to encourage all who voted in the Democratic primaries to keep their solemn written pledges to support the nominees of those primaries. I know that each of you will understand our problems and will be sympathetic with our efforts to maintain a strong Democratic Party in our State. We cannot do this without spending every effort to secure as large a vote as possible for all of our candidates, but especially our candidate for Governor, on November 6. Please try to get this word circulated throughout your precincts and county through statements in your local newspapers and by every other means possible.

"I sincerely appreciate your cooperation and assure you that I will cooperate with you in every possible way, and I hope that you will call upon me whenever the occasion arises."

## Humble Names New Manager For Station

Jessie Gobin is new manager of the Humble Service Station, located at 802 West Main.

Gobin took over his new duties this week. He moved here from Abilene, where he has been attending a Humble training school for the past three months.

Married, Gobin is the father of three children, Carolyn, 6, and Janice and Dennis, both four. The Gobins make their home at 505 South Basset.

Gobin is a graduate of Crowell High School and a Navy veteran. The Gobins are Baptists.

## LOCAL RAIN TOTALS .68

An appreciated .68 of an inch of rain fell here early this morning.

The rainfall was scattered over Eastland County, and unofficial measurements here were listed as high as 1.18 inches. Most gauges recorded about seven-tenths of an inch, however.

## AIRCRAFT FLASH! Ground Observers Have Important Job

"Aircraft Flash! Two low flying planes have just passed, traveling west. This is Golf Charlie 1-2 Black."

That's the signal that may some-

## Season Opening for Waterfowl Is November 2

Prospects for the waterfowl season opening in Texas at one half hour before sunrise November 2, have been described as "promising" by the Executive Secretary for the Game and Fish Commission.

He said the situation represented strange angles since the migrating duck and geese population "seems to be tremendous" but that the flocks may not be able to occupy many favorite wintering areas because of fresh water shortage.

"The most acutely dry area now," said the Executive Secretary "is the Upper Texas Gulf Coast where unfortunately there is such a great concentration of hunters. If we can get some substantial rains right away, the incoming birds will stop at their old haunts because feed there is reported adequate."

He said "the back country hunter" apparently will get some breaks since recent rains filled ponds, tanks and small streams "which are always irresistible to touring ducks and geese."

The duck and geese seasons open simultaneously this fall, with the sixty day goose season closing on December 31, while the duck shoot comprising seventy five days continues through January 15.

Regulations otherwise are identical with last year—five ducks a day, ten in possession; five geese a day and five in possession; daily hunting from one half hour before sunrise to sunset.

day have an important part in your life. In fact, it could be the signal that saved this area from an attack by enemy planes.

It is such a signal that one of Eastland's 39 Civil Defense volunteers might send over their direct telephone line to the Dallas Filter Center. These 39 men and women are being trained to serve where ever radar can not do the job.

Golf Charlie 1-2 Black is the code signal for the local post. It's not just a name someone made up. The Golf Charlie and the numbers indicate where Eastland is located on the Civil Defense map.

Sgt. Alfred Buchalter, of the Dallas Filter Center, is conducting the local classes. He praised Eastland for its fine turnout, and pointed out that the volunteers would not only serve during periods of danger from any enemy, but during severe weather as well.

Judge John Hart serves as county supervisor. Billy Jack Johnson heads the local post. H. L. Ferguson is in charge of the Cisco post, and there are 15 volunteers there. In Desdemona, E. J. Greenhaw is in charge, and there are also 15 volunteers under him. Rising Star has 14 volunteers and William Button is post commander. Ranger will hold an organizational meeting tonight at 7:30.

Besides Johnson, there are 38 other volunteers here. Mrs. Jack Frost is chief observer. Other volunteers are Freddie Taylor, Carl Truss, David Carothers, Wayne Phillips, Anne Pittman, Sidney Seal, Mrs. L. B. Reed, Mrs. Sidney Seal, Rosemary Jones, Barbara Hightower, Sylvia Latham, Jane Jordan, Marianne Mynick, Jean Whitten.

Barbara Dalton, Betty Westfall, Frances Walters, Mrs. J. B. Johnson, Mrs. Herman Hassel, Mrs. H. C. Westfall, Mrs. Don Parker, Mrs. Elvie Sheppard, S. (Continued on Page Two)

## Texas Tech Homecoming To Attract Eastland County Exes

Several scores of ex-students from Eastland County are scheduled to journey to Lubbock this week - end for the traditional "giant" of all West Texas Homecomings which will take place Friday and Saturday, Nov. 2, 3, at Texas Tech.

The campus will glow with more than 2,000 Spanish lanterns (candles in sand filled paper sacks) Friday night as an 8,055 student body and staff of more than 1,300 welcomes returning ex-students and friends with Homecoming Queen coronation and pep rally in the Science Quadrangle.

The biggest day will be Saturday, with a downtown parade of floats and bands at 10:30 a.m., free buffet luncheon at noon in the

Gymnasium, Tech-Oklahoma A&M football game at 2 p.m. and Homecoming Ball at 8 p.m. in the Lubbock Coliseum.

The famed Third Herd of Woody Herman will play for the Ball.

Tech students will vote Wednesday in a campus-wide election to pick the Homecoming Queen. Nominees chosen by the Double-T Assn. of varsity lettermen and Tech vets are: Lucinda Birtchell, Lovell and Shirley DuPriest, Waco; (Continued on Page Two)

## Band Boosters To Hold Meeting

An important meeting of the Band Boosters club will be held tonight at 7:30 at the band hall. Howard Gill, bandmaster, revealed today.

Gill urged all parents of band members and everyone else to attend the short meeting.

### H. L. Lane Is Honored On His 77th Birthday

Mr. and Mrs. H. J. Lane, 306 South Madera Street were pleasantly surprised when a number of relatives and friends arrived at their home Sunday for a surprise birthday dinner honoring Mr. Lane on his 77th birthday.

Attending from out of town were: Mrs. Estell Lane, Mr. and Mrs. G. M. Sawyer, Mr. and Mrs. Jack Townsend, Mr. and Mrs. Murray Sheppard, Mrs. Lon Sanders and Miss Mary Lane all of Breckenridge; William Carey and Mr. and Mrs. S. A. Davis of Caddo; Mrs. Mae Jones of Gorman; Mrs. Nellie Sewell of Abilene; Mr. and Mrs. C. B. Lane, of Odessa; Mr. and Mrs. L. J. Lane of Fort Worth; Robert Lane of Sweetwater; Rev. and Mrs. J. E. Black and son Carter Ray of Denton; Mr. and Mrs. Dean Sutton of Lubbock. Attending from Eastland were: E. L. Hare and Mary Thompson; Mr. and Mrs. Roy L. Lane and family.

The group decided to set the fourth Sunday in October each year as the date for the annual Lane reunion.

### TRADE WITH YOUR HOME-TOWN MERCHANTS

**SCENE - STEELER** — Sparkling new addition to the Manhattan skyline is this 45-story Socony Mobil Building, first and world's largest stainless steel skyscraper. Recently dedicated, the building has a "cornersteel" in which is sealed a time capsule, holding messages from President Eisenhower, Governor Harriman and Mayor Wagner, as well as copies of New York newspapers and documents detailing construction of the unusual building.

### Rummage Will Be Taken At Bldg. Thursday

The reception committee of the Eastland Memorial Hospital Auxiliary Thrift Sale will be at the Pullman building Thursday to take any articles you may have to donate to the sale. The sale is scheduled for Friday and Saturday.

On hand to take the items will be Mes. Jack Carothers, Bob King and Jack Frost. The women will be there from 9 a.m. until 4 p.m.

Everyone is urged to gather up anything around the house they may not need any more and bring it down to the building, or if transportation is needed, call Mrs. L. E. McGraw, O. H. Dick or Samuel Butler.

The purpose of the sale is to raise money for the up-keep and improvements of the hospital grounds.

### Papers, Rags and Magazines Still Wanted for Camp

The paper drive for the diabetic Camp, Camp Sweeney at Gainsville, is still under way. Another box has been placed at the fire station in which to put magazines, papers and old rags.

The project is sponsored by Beta Sigma Phi and will last indefinitely. Papers and rags may be placed in either box, at the courthouse or the fire station.

Everyone is urged to gather up their old papers and rags and take them to the boxes to help these diabetic children.

### How To Make A Christmas Ribbon Wreath

It's simple to make a perfectly shaped wreath which can be kept indefinitely. Use it at Christmas and through the holidays. Keep it till next year, if you like.

For doors, windows, mantles or as a table centerpiece, it's as decorative as it is fun to make. The only materials you need are a piece of cardboard—a laundry shirt stiffener will do—12 very full pompons and a yard of 1 1/2 inch red Satintone ribbon for the large bow topping the wreath. For a 12-inch wreath, cut cardboard ring as shown in the diagram: 11 inches diameter overall, with a band 1 1/2 inches wide. The band may be narrower if the cardboard is very heavy.  
Notch the ring evenly on the inside and outside of the rim, the notches directly opposite each other. Make 12 notches at this size wreath.  
Tie the finished pompons to the cardboard ring at the notches covering the entire ring. Top the wreath with a large ribbon bow—and hang it just about anywhere in your home for a bright Christmas note throughout the season.

# ANNOUNCING 1957 DESOTO

## Most exciting car in the world today!

**New Beauty**  
For 1957 De Soto presents Flight-Sweep '57—the new shape of motion. Incredibly low the new De Soto is barely knee high to a parking meter. Yet, you'll find plenty of headroom and stretchroom thanks to De Soto's new steel-cradle frame.

**Exciting New Torsion-Aire Ride**  
Standard equipment on every 1957 De Soto. The smoothest, softest ride you have ever experienced. Unequaled for safety and control De Soto's new Torsion-Aire Ride eliminates nose-dive stops, even from high speeds. Takes corners like a sports car without lean or sway.

**Completely New For 1957**  
• New Advanced Design V-8 Engines  
• Three exciting new power giants to choose from  
• New Push-Button TorqueFlite  
• The finest automatic transmission ever built  
• New Lower Price  
De Soto Fireflite priced just above the lowest

**SOMEBODY GOOFED**—All propped up and nowhere to go, this car dangles from a hydraulic lift after it slipped from the rack at a Washington, D.C., service station. The driver had driven the car onto the lift, but made one mistake—he forgot to put on the brakes. In jiggling the car to make it squeak while on the lift, he caused the auto to come tumbling down. Lift lowered, the embarrassed driver drove squeakingly away.

## River Oaks Village Opens Near Abilene

ABILENE, Oct. 30—The \$2 million River Oaks Village Shopping Center, located on U. S. Highway 277 (the Bronte Highway) one mile west of McMurry College in Abilene, will stage a formal opening celebration Oct. 31 through Nov. 3.

Merchants located in the center, which will house more than 30 businesses, will celebrate the opening by giving away prizes valued at more than \$25,000.

These prizes include two 1957 Plymouth automobiles, a foreign-made sports car, 24 bicycles, two all-expense paid trips to Havana, Cuba, for two persons each, an all-expense paid trip to Paris, France, for two persons, a complete GE all-electric kitchen, and a Cris-Craft inboard runabout.

Registration for the prizes will begin at the shopping center on opening day, Oct. 31, and will continue through the eight-week period during which drawings are scheduled. One top prize will be given away each Saturday night, beginning Nov. 3, for eight weeks, with three bicycles to be given away each Friday night, beginning Nov. 2, for eight weeks. Winners do not need to be present at the drawings and registrants do not need to buy anything.

The gigantic shopping center, largest between Fort Worth and Los Angeles, was developed by Thomas Enterprises of Abilene.

Located in Wychwood at So. 14th and Willis Street, the shopping center occupies 25 acres of land and has buildings housing 150,000 square feet of floor space.

These buildings are surrounded by 16 acres of paved parking, sufficient to park 1,750 automobiles. Architectural design of the center is modified contemporary, and the buildings are of masonry and structural steel.

The center shopping area is designed around a mall—or shaded courtyards—which is landscaped with grass, live oak trees, surface beds, raised brick planters, ever-

greens, shrubs, walks and benches. Raymond Thomason Jr. of Thomason Enterprises has announced that to date 23 firms have signed for locations in the center.

## Texas Sport Stars Featured In Magazine

The current issue of Sport magazine turns its attention to Texas, partner, with no less than three Lone Star Staters getting the profile treatment. Bobby Morrow, of Abilene Christian, is the coverage on this issue and is featured in an Olympic story that points to him as "the world's fastest human, our top hope in both the 100 and 200 meter sprints at Melbourne."

Kyle Rote, erstwhile S M U great and currently a sensation with the New York Giants in the National Football League, is featured in a story by veteran sportswriter Frank Graham and Jim Swink, whom they're comparing with the Granges, the Doak Walkers and just about everybody else you can think of, is the third Texan highlighted in Sport, which is at newsstands now.

**MARINE, NOT MARTIAN**—A new specially designed diving suit, called the "Galeazzi," is demonstrated by Italy's ace diver, Capt. Raimondo Bucher. Exploring the Gulf of Naples, Bucher has reached depths of about 820 feet, in contrast to the limit of 360 feet in ordinary diving suits.

**Step into the wonderful world of AUTODYNAMICS**

A low-slung beauty with Flight-Sweep style: Swept-Wing '57 Dodge Custom Royal Lancer 2-Door.

It unleashes a hurricane of power  
It breaks through the vibration barrier  
It is swept-wing mastery of motion

**SWEPT-WING '57 Dodge**

How do you describe a car so daring in concept, so revolutionary in features and advances, so rewarding in beauty and performance? How do you explain its newness when everything about it is new? On display today is just such a car—the Swept-Wing '57 Dodge that steps you into the wonderful world of Autodynamics. What is this wonderful world of Autodynamics? It is a world where everything is new from road to roof to achieve absolute mastery of motion.

Here's what it does in the Swept-Wing Dodge:

- It unleashes a hurricane of power from a thundering new aircraft-type Super Red Ram V-8 engine that's a spitfire in action!
- It tames a tornado of torque with a new TorqueFlite Push-Button Drive for the greatest get-away on the road!

- It breaks through the vibration barrier with a revolutionary new rubber-mounted suspension system—Dodge Torsion-Aire—that features race car torsion-bars. You ride in a "Realm of Silence," isolated from vibration, noise and road shock.
- It is swept-wing mastery of motion in a sleek, low-slung beauty barely 4½ feet high that has no equal in the way it corners, handles and rides.

You have never seen, felt or owned any car that compared with this new Swept-Wing Dodge. See and drive it today... now at your Dodge dealer's!

Decorator's Notebook  
by Alicia Joyce

It's HOME FASHION TIME, Sept. 29-Oct. 8. This is the time of year the new home furnishings styles are introduced to the home-maker. Most retail furniture stores are holding open house so that you can see these new fashions. The new fashions for your home are elegant and tasteful. The dining room shown is typical of today's trend. Furniture is scaled for the smaller dining area, yet styled for the more formal setting. This particular group is a classic contemporary version of Italian provincial styling. Circular dining tables have found a return to popularity and it is not difficult to see why. This use is truly elegant, as well as functional. Note the casters for easy mobility. Generously proportioned, the drop leaf serving cart has many purposes. It may be used as a bar cart, a room divider, or a living room console. It too, is on casters. The entire surface, including the drop leaves, is of a white formica to insure permanent luster.

Walnut wood has been used for this grouping. This is highlighted with brass trim seen in medallions on the table apron, in the lovely loop drawer pulls, and the tiny orb on the chair back. To unify the setting, wall-to-wall carpeting is used. During HOME FASHION TIME you can preview these new fashions for your home.

County Dairymen Hear Feed Specialiser

"A good cow can still make money for dairymen," E. R. Eudaly, feeding specialist of Fort Worth, told a group of Eastland County dairymen at a meeting at the Ranger Chamber of Commerce last week. "It may be a good idea to cull your herd of the poor producers," he told them. "Today a three-gallon cow will not make

Bible Comment: Religion Too Often Used for Selfish Ends

CHRISTIANITY made such progress in the ancient city of Ephesus that the worshippers of Diana became alarmed. The alarm particularly concerned those who were making a commercial business out of religion. These craftsmen could not have had much success if they had said to the public, "These men are endangering our business." Their self-interest would have been made altogether too apparent. Instead they aroused the great cry that the worship of Diana was being endangered, and they started up mob violence with the rallying slogan, "Great is Diana of the Ephesians."

How true is this to every age! Consider the profiteers from every form of commercialism, be it worthy and legitimate, or some unworthy and vicious thing. When profits are endangered, those whose interests are affected almost always hide behind some pretense of principle or conviction.

It may be a plea of personal liberty; it may be patriotism; it may be some form of religious profession or prejudice. But examine closely, and you will find self-interest at the heart of the thing.

Fortunately, it has not always been so. There have been great occasions in history when individuals and groups have been able to rise above self-interest, and see issues in terms of social and moral reality.

It is those who manifest the spirit of true religion. A man's religion ceases to be worthy the moment his motive to make a profit from his faith becomes paramount.

Let us beware lest the noble ideal of religious conviction be tarnished by those who say "our religion" when they mean "ourselves." There is nothing finer than saying "our religion" when we mean it and when our devotion matches our profession.

a dairyman money. It's going to take a four-gallon cow to do the job now," he stated. Mr. Eudaly spoke to a group of about 20 dairymen, and outlined in detail for them a balanced feeding program. He told the dairymen that it was very important to know the relative value of roughage, its vitamin, protein content, etc. in order to mix a balanced feed.

Eudaly said it was very important also to check six things: see that the cows have plenty of roughage, the protein in feed must be balanced, they must have plenty of good clean water, they need minerals, especially salt, calcium, and phosphorus. An adequate supply of vitamin A is a must and correct milking procedure gives the best milk production.

Norman Richardson of Ranger, president of the Eastland County Dairy Association, presided at the meeting and Marshall Berry, secretary of the organization gave a report on the last meeting and activities. The program arrangements were made by Beverly S. Dudley Jr., Ranger vocational agriculture teacher, who introduced the speaker.

The Agricultural and Livestock committee of the Chamber of Commerce served coffee and cookies to the group.

Present at the meeting were: Tommy Toland of Cisco; Homer Northen of Austin; Morris Underwood of Ranger; D. J. West of Eastland; N. E. Richardson, Ranger; A. F. Beck, Eastland, Rt. 2; B. G. England, Ranger; Marshall Berry of Carbon; Ernest Reich of Cisco; W. J. Davis, Ranger; Keith McDonald, Ranger; Walter Rice and E. R. Eudaly of Fort Worth and R. V. Galloway.

1000 Victims Die Each Year By Electricity

Nearly 1,000 innocent victims walk "the last mile" to death by electric shock every year in the United States.

A miscarriage of justice—not at all, for they are victims not of a jury's verdict, but of their own or someone else's lack of knowledge. They lose their lives not in the electric chair but in whatever everyday pursuits electric power is a factor, and though they are guilty of no crime, these unfortunates are just as dead as though they had been strapped in the electric chair and the current turned on.

Nearly every day we read or hear about someone who has committed unpremeditated suicide by ignoring the inexorable laws of electricity that separate the quick from the dead.

Recently a young woman in Chicago was electrocuted when she picked up the cord of an electric fan while mopping a floor. The cord was frayed and the floor was wet—a deadly combination.

Every year a few unthinking citizens decide to enjoy the convenience of a radio, hair-dryer or sun-lamp while taking a bath. And every year some of them have their lives snuffed out when the appliance falls into the bathtub. For when a person is standing or sitting in water, an electric shock is hundreds of times more powerful than on a dry surface, according to L. C. Meyer, electric system specialist for Employers Mutuals of Wausau.

Quick thinking can often mean the difference between life and death when electric power is running wild, Meyer says. Recently four young men in the midwest were riding in an automobile when a live power-line fell across the top of the car. One by one the group jumped clear of the car, being careful not to be in contact with the vehicle and the ground at the same time. This action saved their lives, for if they had stepped from the auto to the ground they would have been instantly killed.

One of the most popular forms

EASY THERE, BIG FELLOW — Which one of the two attractive lasses is Doberman pinscher drooling over? The poodle, of course, though the biped female is nothing to be sneezed at. This photo, taken in San Antonio, Tex., won top prize of \$500 in the Gaines Dog Research Center's 1956 Dog Photo Contest.

of home entertainment today is television—a harmless pastime if you observe a few common-sense safety rules.

First, Meyer cautions, never erect a tall television antenna close to a power line. Several deaths have occurred to date while towers were being erected. In addition, an installed antenna could hit a power line if weakened supports gave way in a windstorm.

A more important precaution, and one too often overlooked, is the admonition "Don't touch the back of your TV set!" Do-it-yourself activities fare fine in some phases of home life, but leave your TV set to an experienced repairman. Even when a set is disconnected

and has been turned off for hours, there is often a strong enough charge left in the instrument to cause serious and even fatal shock, Meyer explained.

"Electric power has helped make America the most prosperous nation in the world," the Employers Mutuals of Wausau electrical system specialist pointed out. "Properly used, electricity provides us with the comfort and luxuries our forefathers never dreamed would one day be a reality, but electricity, like the genie in Aladdin's lamp, must be controlled in order for it to be a useful and harmless servant."

## Shivers Asked What About Tidelands Now

Republican campaigners in Texas, who have been attempting to inject the tidelands issue into a four-year-old prespective at every opportunity, have suddenly got themselves between an offshore reef and a hard place called Brownell.

Senator Lyndon Johnson let the GOP have its tidelands issue this week. He challenged Governor Shivers to get a yes or no answer from the Republican Attorney General Herbert Brownell on whether Brownell — after the Nov. 6 election — will sue Texas for two-thirds of its tidelands. Brownell has already done this in Louisiana, challenging that state's right to claim its boundaries as 10 1/2 miles into the sea. Brownell claims the state's right is only three miles.

Johnson asked Shivers what his "frequent weekend guest," Brownell, plans to do about suing for federal control of a substantial part of the Texas tidelands. "Texans are entitled to know before Nov. 6," he said. "If the tidelands issue is resurrected, Shivers and Brownell will be the ones who do it, and I want them to have full credit for it."

Slide Sheet Metal With Tipped Mallet

HOBBYISTS who work with sheet metal will be interested in a safety tip given by *Popular Mechanics*. Craftsmen are aware that large metal sheets are difficult to pick up and move around on a workbench or squaring shears. They often inflict cuts and bruises.

A time saver and injury preventative, the magazine suggests that a mallet handle be fitted with a rubber crutch or cane tip and used to slide the sheet to the desired position. Little effort is required to move the sheet, as sufficient friction is created by the soft rubber.

Another idea from this source: For a two-wide door, it's better to plane the hinge side, as it is much simpler to relevel the hinge screw holes than it is to

## Eastland County

(Continued from Page 1)

scout executive of the Boy Scouts of America, "is to strengthen the program of the individual unit and to provide an opportunity for boys to be associated with Scouts from all parts of their own country."

"This living together in a spirit of brotherhood and friendship is one of the continuing objectives of our movement and the basis upon which we undertake this gigantic task. I look on this great gathering of Scouts from all corners of our nation as an unusually fine opportunity for us to instill in the hearts and minds of all America the values that come to our nation as a result of our moving 'Onward for God and My Country.'"

Providing ample food for a city of 50,000, an adequate water supply, fire and police protection, medical facilities, a telephone exchange, trading posts, intracamp bus transportation, parking, and other facilities calls for planning with great care.

Every night, radio-controlled trucks will deliver fresh dairy products, meat, fruit, and vegetables to the commissary refrigerators. Scout units will get their food and cooking supplies before

each meal at sectional commissary tents. Food will be cooked by the Scouts over charcoal fires.

Scouts and Explorers eligible to take part in the jamboree will need to have previous Scout camping experience either at short-term camps or summer camp.

To be eligible, Scouts need to be at least Second Class in rank at the time of the jamboree and at least 12 years of age by Jan. 1, 1957.

Twelve dollars and twenty-five

cents must be in the Council Office not later than Dec. 1, to insure a Scout Reservation in the Comanche Trail Council. The cost of the entire trip is \$220. This includes all meals, round trip train fare and such trips to Niagara Falls, New York City, Washington D.C. and Philadelphia and perhaps Detroit with the possibility of seeing a National League Baseball game. The train will leave Brownwood July 6 and return July 21.

Potatoes Are Good with Everything

**BROILED CHICKEN AND BAKED POTATOES**  
 Select chicken 2 1/2 to 3 pounds. Have backbone removed, hind split to half (for quarters) and major joints broken. (Cook backbones with giblets for gravy.) Wash chicken with butter or margarine. For even broiling, place spits flat on broiling rack, skin side down. Place rack in oven so chicken is about 6 inches below heat, and broil at 325° F. until tender and well browned, from 25 to 40 minutes, depending on weight of bird. While broiling, two chickens about every 15 minutes and brush with additional melted fat, butter and olive oil.

**← SAUSAGE 'N' CORN BREAD WITH POTATO PUFFS**  
 Bake Pork Sausages in a 400° F. oven in an open pan for about 20 or 30 minutes. Turn once to brown. Make your own sausage corn bread recipe or use a ready prepared mix. It will bake in approximately the same time as the sausage links.

**POTATO PUFFS**  
 Yield: 18 puffs  
 1 cup mashed potatoes  
 1 egg  
 1 teaspoon double acting baking powder  
 1/4 cup milk  
 1/2 cup chopped green pepper  
 1/2 teaspoon salt  
 2 tablespoons flour  
 1 teaspoon onion juice (optional)  
 Shortening for frying  
 Mix all ingredients together thoroughly. Shape into fingers or drop by teaspoonfuls into shortening heated to 400° F. Deep fat fry until golden brown, 2 to 5 minutes. Serve immediately.

**VEAL FRICASSEE IN POTATO NESTS**  
 Fry 2 ounces of salt pork, cut in small pieces, in deep frying pan until crisp and brown. Remove from pan. Flour 1 1/2 pounds cubed veal, breast or shoulder, and brown in salt pork fat. Add browned salt pork, 1/4 teaspoon salt and 2 cups water. Cover and simmer for 1 1/2 hours. Thicken with 2 tablespoons flour mixed with a little cold water to make a smooth paste. Serve in nests of mashed potatoes, 6 servings.

**HAM AND POTATO CASSEROLE**  
 2 cups cubed ham  
 1 can condensed mushroom soup  
 1/2 cup milk  
 1/2 cup chopped green pepper  
 1 cup peas  
 1/2 teaspoon salt  
 1/4 teaspoon pepper  
 2 1/2 cups mashed potatoes  
 Combine soup and milk to make a thick sauce. Add meat, green pepper, peas and seasonings. Place in a greased 2 quart casserole dish and top with mashed potatoes. Bake in a moderate oven (350°) for 25 minutes or until potatoes are lightly browned.

When you buy potatoes see that they're firm and hard and have relatively smooth skin. Avoid them if they seem to be turning green. Best to buy them in paper bags with a mesh window such as those made by Union Bag & Paper Corporation. The paper shields the potato from light which causes the green coloring; the window allows you to see their color and quality.

Twenty-Third Psalm Subject Of 9:49 Lesson

When the psalmist wrote, "The Lord is my shepherd, I shall not want..." he said it all. There's not much more that can be said about a Christian and his relationship to God, Frank Sparks told the Men's 9:49 Bible Class Sunday. The attorney was speaking on the general subject of the Twenty-Third Psalm, this week's subject in the International Sunday School lesson series.

The Twenty-Third Psalm, familiar to all, metaphorically refers to God as a shepherd. This figure of speech had special interest to men of the ancient Near East. But its meaning certainly is not lost to those of us of the Western World.

The distinguishing quality of the shepherd is his tender, loyal and protective devotion to his flock. So it is with God and His Christian people.

Class president Travis Harrell announced that all men either in the class or out who were interested would meet for a fellowship meeting in the Methodist Church Monday Nov. 5, the evening before the election. There will be refreshments at this meeting and a fellow can feel at home if he should come to meet with the other fellows. All he has to do is come in and sit a spell. If he gets rested up real good he might even rock a bit, and by that time perhaps some fellow will get out the dominoes.

Next Sunday, continuing study under the general heading of "Great Passages of the Bible," Frank Sparks will follow the International Lesson series for discussion of "Wounded for Our Transgressions." The lesson finds text in Isaiah 52: 13 through 53: 12 and class president Harrell suggests all members read over this part of the Old Testament before coming to class next Sunday if they want to get the most benefit possible from this Scripture.

For the coming week, as a starter, the class decided that all members would pray, silently or otherwise, wherever they may be

How to Furnish With Large House Plants

The luxury look comes quickly and easily when you invest your time or money in suitable plants of the large sizes.

The secret is choosing the right container, placing the plant correctly, and either contrasting the plant with walls and backgrounds or letting it melt into other furnishings, according to an article in the November issue of Better Homes & Gardens magazine.

To bring life to an important corner, choose a schefflera of good size and use a large pot of simple design. Schefflera needs good strong light but not necessarily sun. It grows slowly and will stand considerably cold which makes it a good choice for a spot next to a large window.

For something green that's tall and graceful but not very wide, the magazine suggests dwarf palms. They will continue to look handsome in filtered and reflected light. They tolerate the drier air of an air-cooled room, but the soil must be kept moist about their roots.

Rubber plants are just the thing for contemporary rooms. Give them good looking pots and keep their leaves clean with a mild soap.

Always a graceful plant is the Birdsnest Fern which keeps its or whatever they may be doing at the time, at noon each day.

Harrell also announced he wished to invite all men not in Sunday School to come out and join the 49ers in Bible study next Sunday morning. He said, "See you next Sunday at the 9:49."

beauty for months. It should be placed below eye level. The article says this is a good choice where you have a spot in the strong light and where shadows can fall on a plain wall.

When you've lots of space, banish any feeling of barrenness more quickly with large philodendrons. Ask your florist for Monstera deliciosa or Philodendron pertusum,

or just say Swiss-cheese - plant. To get solid leaves, ask for Philodendron hastatum. All need plenty of water and will get along in spots almost chilly. Be sure to stake them firmly, advises the article.

Young plants of Rex begonias have gentile tones that fit delightfully into the newest decorating color schemes featuring violet

and the blue-reds. Keep the plants out of direct sunlight, the magazine says.

Scuff marks can leave shiny, hard-to-brush-away spots on the nap of suede shoes. Sand away the matted down nap with the fine side of an emery board, says Better Homes & Gardens. Use a circular motion.

drop the hook, Mac...

and hear this from a bathtub sailor!

"My name's Bud. And from what the Old Man tells me, the U. S. Navy is all right. Besides having the biggest ships and the best equipment, he says the men of the U. S. Navy are the finest in the world. (Three guesses what he wants me to be when I grow up.)"

The U. S. Treasury is proud to join Bud in saluting the Navy as well as all the Armed Services that guard and protect our country. Many Service men and women are not only helping to preserve peace and prosperity for the land they love, but are also helping to insure happiness and security for themselves and their families by investing regularly in U. S. Savings Bonds.

This spirit of loyalty and forethought is a typical characteristic of the more than 40,000,000 Americans who now own more than \$10,000,000,000 in Savings Bonds. Do you own your share?

Safe as America—U. S. Savings Bonds

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
