

Ref Bond Bids Requested by Commission

Contempt May Be Charged If Allred Name Certified

By United Press
AUSTIN, Sept. 27.—Attorney Joe Burkett of San Antonio today notified Secretary of State W. W. Heath that contempt proceedings will result if the secretary certifies James V. Allred as democratic candidate for governor.

Heath had telegraphed Burkett he was going to certify the name on Sept. 30 or Oct. 1.

Burkett notified Heath the district court injunction against certification is still in force. The fourth court held the injunction invalid, but Burkett pointed out the appeals court ruling does not become final for 15 days because a rehearing may be asked within that time.

NRA BOARD PERSONAL IS BEING NAMED

By United Press
WASHINGTON, Sept. 27.—President Roosevelt will announce within 24 hours the personnel of a board of five to head the revised NRA, the White House announced today.

It was possible that the announcement would be ready before he left his desk late today.

Observers of the reorganization situation expected the board would be charged with other phases of the recovery picture.

No indication was given as to the men the president has in mind for the five jobs. The questions as to whether Bernard Baruch, New York financier, would be a member it was said that such an appointment appeared unlikely. The same applied also to Donald Richberg, chief NRA counsel.

W. E. Hallenbeck Led Songs, Prayer

By United Press
NEW YORK, Sept. 27.—President Roosevelt's address before the conference on current problems tonight will be broadcast over a national radio hookup.

Singing and prayer was led by W. E. Hallenbeck Jr., at the Church of God young people's meeting last Sunday.

Rev. E. W. Barnett, the pastor, explained the difference between the Jewish Sabbath and the Christian's Lord's Day.

Next Sunday the young people will debate on the following subject: "Resolved, that Sixteenth Century worship was easier than present day worship, or that it was easier to live a Christian life than it is now." Debaters for the affirmative, W. E. Hallenbeck Jr. and Milton; negative, Misses Ollus Cox and Frances Hunter.

Work in Progress At Welch Field

Work on Welch field in the form of erection of fences and stands is in progress, a school official said Thursday.

The field will be the scene of the first football ever played on the grounds this year. During the summer it was the home of the Eastland Horned Frogs, baseball team.

Application to the Texas Relief Commission for further improvement on the field has been made by the Eastland school board and advice from their headquarters is awaited.

Officers Believe Couple Was Slain

By United Press
ATHENS, Texas, Sept. 27.—Henderson county officers today inclined to the theory the death of an aged farm couple in flames that destroyed their home, was a case of murder.

It was learned W. T. Sherman, 75, and his 75-year-old wife, who lived alone near Stockard, had approximately \$200 in the house before it was burned Tuesday night. Officers considered robbery a motive for foul play.

OFFICERS SEEK PRISONERS OF OKLAHOMA PEN

By United Press
M'ALESTER, Okla., Sept. 27.—Scores of officers with bloodhounds today trailed seven convicts who escaped from the Oklahoma prison today by tunneling from the tubercular ward under the walls.

A negro convict who was forced to accompany them returned later after escaping the band and told officers they had fled with a Mexican accomplice.

Four of the seven convicts were said by Warden Sam Brown to be suffering from tuberculosis in advanced stages. Officers did not believe they could continue their flight.

Settler of Carbon Buried Wednesday

By United Press
VERNON, Texas, Sept. 27.—Earl Williams, one of the seven convicts who escaped from the Oklahoma prison today, is charged with robbery with firearms and kidnaping here.

Williams is accused of being one of a quartet who looted a cafe here on the night of Jan. 14 and kidnaped an employe and customer.

Funeral services for J. A. (Uncle Joe) Hearn, one of the earliest settlers of Carbon, father of A. M. Hearn, north of Eastland, former tax collector of the county, were held Wednesday afternoon at the Carbon Baptist church with burial in Bear Springs cemetery, east of Carbon.

Mr. Hearn had gone to his melon patch Tuesday for a watermelon when a heart attack occurred. As he stooped to pick up the melon he fell and when reached was dead.

Besides A. M. Hearn, he is survived by his wife and a daughter, Mrs. Elmer Gilbert of Roby. Another son, J. Porter Hearn, died several years ago. Former District Judge Elzo Been is a nephew.

As a coincidence, "Uncle Joe," 60 years ago, helped dig the first grave in the cemetery in which he was to be buried.

Special Session Is Problematical Says Wilbourne B. Collier

Likelihood of a special session of the legislature is problematical, Senator W. B. Collier of Eastland, representative from the 23rd district, said Thursday. The Senator returned to Eastland Wednesday night after the termination of the special session Wednesday morning.

Eastland county representative O. F. Chastain of Eastland has also returned to his residence.

Sholess Quarter Star at Pecos

By United Press
PECOS, Texas.—Now comes a rival to the famous "Sholess" Joe Jackson, former major league baseball star who in his amateur days played barefoot.

Jackson's rival is diminutive Quarterback Kelton of the Pecos high school football team. And Kelton does a good job of it. In a game with the arch-rival McCamey team, Kelton weaved his way through a broken field 32 yards for his team's winning touchdown.

OHIO OCTOGENARIAN ENJOYS HUNTING

By United Press
MEDINA, O.—Oscar Freyberg, 81, of Mallet Creek, near here, who hunts squirrels, rabbits and pheasants and reads without glasses, was among those issued a hunting license here recently. Freyberg puffs constantly on a pipe.

TWIN GIRLS ARE BORN ON DIFFERENT DAYS

By United Press
LEBANON, O.—Mr. and Mrs. Walter Ellis are parents of new twin girls, but the babies will never have the same birthdays. Just before midnight a daughter was born. A few minutes later, after midnight, a second one followed.

Spurs Jingle Toward Congress

Judge P. L. Gassaway looks as if he were ready for a rodeo, but he's aiming at a higher prize—election to Congress from the Fourth Oklahoma district—and voters there count on him to spur on some excitement if he arrives. The judge is an expert roper and rider, as well as politician.

State Democratic Chairman's Error Had Hickman's Name Off State Ticket

Eastland county democratic chairman Earl Conner Jr., Thursday vanished the idea that Judge J. E. Hickman, chief justice 11th Court of Civil Appeals and 23rd district, was on the state ticket because of an inadvertent mistake in the state chairman's office, but had been corrected.

Hickman polled a vote of 5,699 in Eastland county in the July primary.

Cleburne Man Is Given 27 Years In Tolar Bank Theft

By United Press
STEPHENVILLE, Sept. 27.—Stine Weathered, 28, of Cleburne, today faced a 27 year prison term for robbery of the Commercial State Bank of Tolar, Hood county.

A district court jury late yesterday found Weathered guilty of the \$4,400 holdup after eye witnesses identified him as one of two men who robbed the bank last July 16.

The defense moved for a new trial and announced it would appeal if the motion was not granted.

President Frank Curl of the bank, the assistant cashier, and three other witnesses pointed out Weathered as the man who entered the bank with a sawed-off shotgun. An alleged accomplice, not yet indicted, is in custody in Fort Worth.

Former Mayor of Olney Files Appeal

By United Press
AUSTIN, Sept. 27.—Charles S. Richardson, former mayor of Olney, today appealed from a 99-year sentence for the slaying of his son, Elza, 20, last Jan. 1.

This is the second time the case has been carried to the court of criminal appeals here. A life sentence was assessed at his first trial. The appellate court reversed the case. The second 99-year sentence was assessed by a Wilbarger county jury to which the case was taken on a change of venue.

Two Are Killed In Bus Strike War

By United Press
CHICAGO, Sept. 27.—Two deaths were recorded today as a result of violence in Chicago's six weeks old bus strike.

Miss Mary Kinnard, 65, died two hours after being struck on the head by a steel ball bearing hurled through a bus window. James Kelly, 49, dispatcher for the motor coach company, died of bullet wounds and a beating inflicted by paid sluggers.

LINDBERGH IS SURE PRISONER WAS KIDNAPER

By United Press
NEW YORK, Sept. 27.—Col. Charles A. Lindbergh, disguised in gray cap and horn-rimmed glasses studied the face of Bruno R. Hauptmann for 10 minutes today, and, a few hours later, District Attorney Samuel Foley was quoted as saying he was convinced Hauptmann was one of the actual kidnapers.

Lindbergh's action in confronting Hauptmann was at his own request and came as a dramatic prelude to the prisoner's arraignment in Bronx county court on charges of extortion. Hauptmann was held in bail of \$100,000 after a plea of not guilty.

After the arraignment, Foley resumed questioning of witnesses, including Miss Anita Lutzenberg, a friend of Hauptmann's, and officials in the district attorney's office said Foley was convinced of Hauptmann's participation in the abduction as well as the ransom negotiations.

For the first time Foley declared his belief more than one was involved in the case.

"Hauptmann was not a lone wolf," he said. "It was known federal agents were seeking an alleged accomplice."

Streamlined Toys Favored by Santa

By PAUL F. ELLIS
PHILADELPHIA.—Streamlined skates, with a spare roller and a tail light—that is what Santa Claus is going to bring many good kiddies this Christmas.

Toys, according to a preview the United Press had at Santa's workshop at the North Pole, will be more realistic and more durable.

Toy automobiles will have stream-lined effects, "Pants" over the wheels and really be a miniature model of the real thing.

Little Sister's dolls will not be so large, but will have real human hair, flirting eyes and smooth, flesh-colored bodies. Some will eat and drink. Her stove will be electric and there will be a separate switch for the coils in the oven.

Bicycles, scooters, wagons and velocipedes, too, are following the trend of stream-lined. In addition to all those improvements, the new wagons, scooters and other toy vehicles will have pneumatic tires.

The toy makers have done big things for the kindergarten youngsters. Toys this year will have more educational features than ever. Small dumbbells have just enough weight to give the youngster good muscle building as he swings them.

Several new adult games are being brought out. One of the most popular is expected to be "Monopoly" in which four to 14 may play; "Sorry" an English game, "Igo" from Japan and "Harelm" are other adult games on the market. Backgammon is due for a comeback.

Due to changes in the money exchange, there will be fewer imported toys. Christmas tree ornaments may cost more because few are made in the United States. The same holds true with miniature glass dolls, according to workers in the North Pole Toy Shops.

Bullock Will Have Services On Sunday

Following the Sunday school at Bullock, which meets at 10 o'clock Sunday morning, there will be regular preaching services at 11 o'clock. The order of the service will include a song, the Apostles' Creed, a prayer, special welcome to new members, communion, Scripture lesson and the sermon, "Lifting Stumbling Blocks in the Way of the Kingdom," followed by the invitation and benediction.

A cordial invitation is extended to everyone to attend the Sunday school and church services at Bullock Sunday.

Fall Pastures at Quanah Assured

By United Press
QUANAH, Texas.—Farmers and cattlemen of this section are assured of early and plentiful fall pasturage as the result of frequent rains following the breaking of the summer's drought. Wheat and barley stands are fast improving and will furnish an abundance of grazing for cattle.

Galveston to Have Seven Conventions

GALVESTON.—Seven conventions are scheduled to be held here before the end of the year. They are the Intercoastal Canal association of Texas, Oct. 5 and 6; the Texas Association of Obstetricians and Gynecologists, Oct. 13; Texas Bus Owners association, Oct. 19; the Texas State Teachers association, Oct. 29 and 30 and Dec. 1; the Texas Woodwork association, date to be selected, and the Southern Ports Freight committee of southwestern railroads, Nov. 13.

Discrimination Is Still Charged In Textile Mills

By United Press
ATLANTA, Ga., Sept. 27.—Increasing charges of discrimination against returning textile strikers gave warning of a fresh crisis today.

In the Carolinas and Georgia union leaders accused mill owners of effecting a "wholesale lockout" of organized textile workers.

By United Press
WASHINGTON, Sept. 27.—President Roosevelt acted speedily today to meet a rising chorus of complaints of discrimination against returning strikers of the textile industry. The president named a new national textile labor relations board composed of the same personnel as the steel labor relations board.

TESTIMONY IS COMPLETED IN BRITAIN TRIAL

By United Press
SEYMOUR, Texas, Sept. 27.—The case of Miss Ruby Britain, 39, charged with murder in the fatal shooting of Horace E. Nichols, Seymour banker, Aug. 15, is expected to go to the district court jury this afternoon.

Testimony was completed shortly before noon. There was practically no rebuttal testimony offered. The state failed to gain ground in cross-examining the defendant.

Miss Britain today told the jury of the great love she bore the man she is accused of slaying.

"He was everything in the world to me," Miss Britain said.

Miss Britain on the stand admitted an "affair" with Nichols and said it had run about a year when she learned he was "going with young girls."

The state will ask the death penalty for Miss Britain, whose attorneys are attempting to build their case on self-defense.

Radio Agent For Medicine

By United Press
PHILADELPHIA.—Radio, or short waves, will play an invaluable part in medicine of the future—as important an agent as the X-ray—it was predicted by Dr. Disraeli Kobak, of the Rush Medical Hospital, Chicago, before the American Congress of Physical Therapy here.

"The possibility of application of radiotherapy to medicine is unlimited," Dr. Kobak said, "and has extended the application of high frequency therapy into realms of medical practice heretofore considered inaccessible with diathermy."

Dr. Kobak listed sinus abscesses, carbonicles, bone and joint diseases, including arthritis, as affections which can be remedied by application of short waves.

"It is not only germicidal, but experiments have shown that it relieves pain in such conditions as headaches and in certain cases improves the tissue like the dilatation of blood vessels," Dr. Kobak asserted.

Declaring that the short wave treatments are not a cure-all, Dr. Kobak stressed them as an "agent with great potentiality in the treatment of diseases which almost has passed beyond the experimental stage."

Explaining how the applications are given, Dr. Kobak said the "parts treated must be in contact with the electrodes, insulated with rubber, air or some other insulation material to prevent contact effect."

Crowds Flock to Blacklisted Movies

By United Press
EL PASO.—Reform campaigns to "clean up" the motion picture industry have failed to decrease box office receipts, says James R. Herndy, Chicago Motionnews magazine secretary.

"Crowds in the east flock to the blacklisted shows," he said while in the Boston navy yards.

ONLY A PART ARE OFFERED ON FIRST CALL

County Board Members No Longer Useful Asked To Retire.

By United Press
AUSTIN, Sept. 27.—The state bond sale commission today called for bids to be opened Saturday, Oct. 6, on the first \$1,000,000 worth of relief bonds issued by the recent session of the legislature.

Relief bond bidders were asked to bid in the interest rate, provided the amount does not exceed 4 1/2 per cent, the rate limit set by the legislature.

The board of control was asked to advertise for bids on printing the bonds.

At the same time the board of control demanded efficiency and harmony in the state-wide relief setup.

"County board members and relief employes whose usefulness has ceased because of friction, inability or misunderstanding, should graciously patriotically retire, the board declared."

County welfare boards and relief organizations will be retained where effective service is being rendered. "Worth and efficient" employes will be retained, regardless of political, church or other affiliations, the board said.

Leathernecks and Gobs Welcomed On Houston Visit

HOUSTON, Tex.—The fleet was in at Houston and gobs and leathernecks from the Cruiser Houston shared the city's hospitality during their six-day visit.

Most of the sailors and marines were given 48-hour leave when the ship docked in the turning Basin late Saturday; others were to get their leave sometime before the city's namesake departs for salt waters sometime Friday.

By the time the last sailor and marine reports back to the Uncle Sam's newest battleship, 500 sailors and half as many marines will have had their leave.

The whites and blues of sailors and the khaki of marines were to be seen at every turn. The city seemed infested with them.

The sailors on shore-leave stayed shy of their comrades who sported the insignia "SP" on their left arms, and carried night sticks that looked like belying pins and army pistols dangling at their thighs. Those were the unwelcome lads who are detailed to keep shore-leave sailors "toeing the mark."

The city's nightclubs were swamped with gobs and leathernecks the first night the ship President Franklin D. Roosevelt chose to carry him on his recent trip to the Hawaiian islands docked.

Dance halls did a capacity business and taxi dancers were sure the depression was over before the sailors' first 24 hours shoreleave was ended.

Other gobs and leathernecks that didn't get shore-leave leaned on well-painted parts of the battleship and talked freely with girls who came to the docks to view the ship.

Postmaster Retires After 27 Years

By United Press
CANYON, Texas.—When Guy Harp assumed duties of the local postoffice as acting postmaster he succeeded Oscar Hunt, who had served under every republican administration since 1907.

Hunt had served at Canyon longer than any postmaster in this section of the state and was the only postmaster in Texas confirmed by the U. S. senate near the end of President Taft's administration.

THIRTEEN RATTLES ARE UNLUCKY FOR SNAKE

By United Press
THE DALLES, Ore.—Thirteen rattles proved unlucky for a 4 1/2-foot rattlesnake. It was killed by Warner Rogers in the residential section.

SECY. ICKES HAS HIS SAY

Secy. Harold Ickes had his say Tuesday on the proposition that the federal government should control the oil industry down to the last well and the last royalty-right. "The difficulty is Texas and has been Texas," the square-jawed federal officer told the Cole investigating committee. "In spite of the Texas state laws, producers there are bootlegging oil out of the state. The man willing to steal his neighbor's oil is willing to find a way to market it and will be able to find 'fences' to take that oil."

Artfully he suggested that he had tried to cooperate with Texas enforcement agencies and leave the impression the Texas railroad commission has not cooperated with him. This essentially is a straddle, with a prayer that the committee not know too much about the Texas situation.

But Rep. Cole's committee has been to Texas, and is coming back. It has seen the East Texas oil field, and in November will hear testimony at Dallas from many oil men. The committee already has learned that Texas railroad commission has made much progress in controlling oil in Texas.

Texas has fought its way through two or three years of trial and error oil regulation. The state commission is better prepared than ever before to deal with Texas problems. Mr. Ickes, starting from law, would face the two-or-three year unsatisfactory trial and error sifting period. Texas doesn't want that—it wants to continue as a sovereign state in oil matters, and Rep. Cole's committee already knows it.

BACK TO CONGRESS

If the higher courts uphold the federal judge in Baltimore who ruled the Frazier-Lemke farm mortgage moratorium act unconstitutional, the coming Congress is apt to feel a sharp repercussion from the farm belt.

Whatever may be said about the wisdom or the workability of this act, it was a measure passed in response to insistent demands from the farm belt—demands arising from the terrific pressure which deflationary processes had put upon farm debtors.

The act itself may be knocked out by the court ruling—but the pressure of the debt load remains, and if it cannot be eased in this way, some other way will have to be found. And you may depend upon it that the farm belt will let Congress know about it in no uncertain terms.—Brownwood Bulletin.

Right now would be a good time for a lot of our politicians to take a long vacation—the longer the better.

"OUT OUR WAY" By Williams

Rain Making is Old Story Among People of Texas

EDINBURG.—Efforts to blow rain from the Texas skies high explosives were made many years before James A. Boze conducted his recent and fatal attempt by airplane, according to T. S. Simmons, resident of South Texas for more than 40 years, who saw the rainmaker at work in 1890.

White Corpus Christi was enjoying a boom period in that year, he relates, a severe drought began to cause much damage and relief was sorely needed.

Farmers and citizens finally held a meeting to decide upon a course of action. One of the number heard of a Major Dryanforth whose rain-making experiments had been reported successful in other sections of the country. A purse was raised and the Major brought to Corpus Christi, along with a corps of assistants, special balloons and time bombs.

The balloon ascended properly and the heavens were torn by numerous explosions, but no rain fell. Then a group of cattlemen in Duval county, also sorely afflicted by the drought, heard of the Major's failure at Corpus Christi and decided the cattle country might be a better setting for the experiment. Another purse was raised and Major Dryanforth moved to the South Texas ranges with his bulky equipment and numerous assistants.

He bombed the heavens almost continually for hours but produced not a shower. After waiting in vain for moisture, the Major left the country, taking his entourage and several thousand dollars — and leaving the ranges as dry as when he came.

Two Students To Tour World

SEATTLE.—Boyhood dreams will materialize for two youths when they start on a two to four year "round-the-world cruise in a 32-foot ketch, the "Idle Hour." Sails unfurled, but with atrocious marine engine below deck for emergency, the ketch will slip from the harbor soon for San Francisco, first leg of the globe-girdling adventure. At the wheel will be Dwight Long and Jack Lowry, 20-year-old University of Washington students.

Unmindful of the perils, the two bubbled with enthusiasm as they told of their contemplated conquest. "I've studied navigation in my spare time and I think we'll get by all right," said Lowry. "We'll sail first to San Francisco," explained Long, owner of the craft. "Then we may go south some distance before turning west, but our next definite destination will be Honolulu."

The craft, "Idle Hour," has had plenty of brine washed along her beam. Built in Tacoma 11 years ago, the ketch was in service in Arctic and Alaskan waters. It grosses twelve tons and has space for 60 gallons of gasoline for the auxiliary motor.

NOTICE Notice is hereby given that on Monday, Oct. 1, 1936, at 2 p. m., there will be held a public hearing at the courthouse of Eastland, Texas, in the commissioners' court room, on the county budget as required by law. C. L. (Clyde) GARRETT, County Judge.

Kingsford Smith Seeks Air Record On a Long Flight

MELBOURNE. — Sir Charles Kingsford Smith, the Australian air ace, will try to make a double job of the England-Australia speed record between now and the end of October. Not content with matching himself against some of the world's best pilots in the London-Melbourne race, he is setting out to have the record for a flight in the reverse direction just as a muscle loosener before the race begins. The east-west record he is hoping to smash in his Lockheed Altair machine is the 8 days, 20 hours one set up by James A. Mollison in 1931. Kingsford Smith bought the Lockheed Altair specially for the London-Melbourne race. It is mainly to test the efficiency of controls in the race that he is planning the flight from Melbourne to London in September. The actual date of his departure from here is not yet determined. The machine in which Mollison established the present Australia-England record three years ago was a small Gipsy Moth, with a cruising speed of less than 100 miles an hour and a range of approximately 2,000 miles. The speed and range of Kingsford Smith's plane will be almost double that of Mollison's. It is believed, in fact, that Kingsford Smith will have the fastest machine entered in the London-Melbourne race. Its speed can be judged from the fact that recently he flew from Sydney to Melbourne in one hour, 43 minutes. The normal time taken for this 403 mile trip is four hours. If everything goes according to plans Kingsford Smith should be able to cover the first lap on his "muscle-stretching" flight to England—from Melbourne to Charlesville, a distance of 787 miles—in a little over four hours. From here he could make the next hop of 1,330 miles to Darwin in seven hours. He is planning to make a single jump over the shark-ridden Timor Sea and the Dutch East Indian archipelago to Singapore in about ten hours. This stretch is 2,000 miles. His next stopping points, coinciding with the checking stations on the London-Melbourne air race route will be Allahabad and Baghdad. In the final 2,500-mile stretch from Baghdad to London he will have to go out of his way to avoid flying over Turkish territory, owing to the ban placed on him by the Turkish authorities as a result of his making a forced landing there in 1932 while he had no permit. By flying via Aleppo, in Syria, and Rome, the trip would be lengthened to 2,800 miles. He hopes to be able to make it in about 14 hours non-stop. Single Sea Jump. He is planning to make a single jump over the shark-ridden Timor Sea and the Dutch East Indian archipelago to Singapore in about ten hours. This stretch is 2,000 miles. His next stopping points, coinciding with the checking stations on the London-Melbourne air race route will be Allahabad and Baghdad. In the final 2,500-mile stretch from Baghdad to London he will have to go out of his way to avoid flying over Turkish territory, owing to the ban placed on him by the Turkish authorities as a result of his making a forced landing there in 1932 while he had no permit. 200 JOBS PER DAY

HELENA, Mont.—More than 200 jobs in Montana during the past year, according to Walter T. Bridges, assistant state director of the national re-employment service. In the period between Aug. 18, 1933, and Sept. 1, 1934, the national re-employment service found work for 82,000 Montanans, according to Bridges.

PENN STAR TO BE COACH

ALLENTOWN, Pa.—Paul Murphy, former University of Pennsylvania star, has become backfield coach for the Muhlenberg college football team. Murphy, after his graduation from Penn in 1929, coached at the University of Kansas.

ACTRESS GETS BREAK

Claudette Colbert won her first prominent stage part as a result of speaking three lines in a play convincingly.

BEACH CLUB GIRL MARI McELIOTT. BEGIN HERE TODAY. BOOTS RAEBURN, IN, elopes with HILLYN, a blond, in a motorboat. Boots gets a job in a book store and goes home to live in order to help her parents financially. Mary repeatedly urges her to marry her and finally she agrees. On Christmas Day they go for a walk in the fog. Edward is found having saved her from a reckless driver. DENIS came over to talk to Boots about Edward that night. "I ought to telephone him," she fretted, "but when I call the nurse says he's resting comfortably and that's all. Don't you think the doctor ought to let me go down there? I want to."

Play Equipment For the Pre-School Child Important

Play, to the child, is more than what we call a means of keeping him out of mischief. It is his business, just as is the office his father's business, and it is his work. The family should consider it so. In regard to proper place and equipment, the family should consider very intelligently. A carefully planned playground is the development of a child both mentally and physically. The two, three, and sometimes the four-year-old likes to play with blocks. The younger will place the blocks together and try to walk them. The older ones will try to bring definite designs into the blocks. This is more of an inside play. Children from two to five and even older need a backyard playground. These are very simple, and if the person is smart, cost very little. For instance, a packing box stood on end and a plank inclined against it offers much pleasure. A sand box is every child's delight. He can make mud pies, fields, mountains, and make lakes. The sand box is composed of a square, built of boards, about

A.C.C. Establishes Education Center At Ranger College

Unusual opportunities are offered teachers and students of this section to get either advanced or non-advanced courses in college this session and for the future. President James E. Cox of Abilene Christian College together with other members of the faculty met with members of the faculty of Ranger Junior College and a group of interested teachers and others and organized classes in the History of Education, Advanced American History, English Literature, and other work to be given on Saturday morning from 8:00 to 12:00. It was assured that other work will be organized in English, Physical Education, Education and Social Science. Some of these courses will be offered at night sessions to suit the convenience of the group. Any one interested in Saturday classwork is urged to be present Saturday morning at R. J. C. The schedule as outlined for this coming Saturday, Sept. 29, is as follows: 8:00 to 10:00 Elgin Literature and History of Education. 10:00 to 10:30 Assembly to organize other courses. 10:00 to 12:00 American History and Problems in Curriculum (Ed.). Anyone interested in Chemistry, Mathematics, Foreign Language, Government, Economics, or first or second year education to be given either on Saturday morning or some night in the week is also urged to be present at the meeting Saturday morning or notify H. S. Von Roeder, Dean, regarding their preference both as to courses and time of meeting. All of the courses offered are to be given under regulations of the Association of Texas Colleges governing such work and give regular college credits which are transferable at full value to other colleges and universities.

Wanted!

MARY BRIGGS, prettily brunette, called herself a hitch-hiker. Within 24 hours police were searching for her as the key witness in a sensational mystery. Read her story in the exciting new serial, "The Clew of the Forgotten Murder." It begins

WASH OUT 15 MILES OF KIDNEY TUBES

Win Back Pop... Vigor... Vitality. Medical authorities agree that your kidneys contain 15 MILES of tiny tubes or filters which help to purify the blood as you keep your healthy. If you have trouble with too frequent bladder passages with scanty amount causing burning and discomfort, the 15 MILES of kidney tubes need washing out. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and vitality, getting up nights, lumbago, swollen feet and ankles, rheumatic pains and dizziness. If kidneys don't empty 4 times every day and get rid of 4 pounds of waste matter, your body will take up these poisons causing serious trouble. It may knock you out and lay you up for many months. Don't wait. Ask your druggist for DOAN'S PILLS... a doctor's prescription... which has been used successfully by millions of kidney out-of-better health. They give quick relief and will help to wash out the 15 MILES of kidney tubes. But don't take chances with strong drugs or so-called "kidney cures" that claim to do you up in 15 minutes for they may seriously injure and irritate delicate tissues. Insist on DOAN'S PILLS... the old reliable renal cleanser. Do not get DOAN'S PILLS from a drug store. Get DOAN'S PILLS from a pure supply. © 1934, Foster-McClellan Co.

Made Counterfeit Money In Infirmary

EMBREEVILLE, Pa. — Two men were inmates of the Chester County Infirmary, but they did a thriving—counterfeiting business. Arrest of the pair followed an investigation of more than two months. Officials said the men left the home early in the morning, presumably to work in the fields, but went to a hide-out in a wooded area where they moulded the bogus coins—nickles, quarters and half dollars. More than \$5 in bad coins were found in their possession, officials said.

RAN FOR SAME OFFICE TWENTY-ONE YEARS

LEONARDTOWN, Md.—If not rewarded with public office, Milton Joy, St. Mary's county resident, at least merits a medal for his unyielding perseverance. Joy recently filed for county sheriff on the republican ticket. He says he has run for the office for 21 years and intends to continue until elected.

Skin Torment

Itching, roughness, cracking, easily relieved and improved with soothing Resinol.

STUDENTS ATTENTION

Keep up with your home-town news—there is no better way of being posted on what is happening back home than to read the home news. Telephone the Circulation Manager today! In order to cooperate with students who will attend school in the various colleges in Texas we are making a special rate for the nine months term of— \$2.00
