Winning Essay . . .

Thee we need & thee we will serve

By ANDREA RHODES
What does a community need in order to grow? There are many points of view, from different people. Some prefer the large, smoky cities to little spots in the landscape. The majority of the people would and could admit their feelings if they had a place to turn to make the life of their family a more healthy and cleaner one. As a teenager of Eastland, this is my point of view that we Eastlandites can offer. I have spent seventeen years here, and of these years this is my life and home. Here is West Central Texas, the County Seat of East-

land County. The population is about 3500 and there is still room to grow in, an airy-clean space of land located on the major Highway 30 that goes from coast to coast.

The atmosphere starts with the friends and neighbors, and their business to serve "Thee." This little town probably has more to offer than any other town of its size. This varies from school to churches. Please let me introduce Eastland to you, a teenager's point of view.

SCENE ONE: RECREATION
This is the first thing any normal child would look for first. Well, take your pick! There could be swimming, bowling, golfing, skiing, hunting, tennis, and dancing during the summer. During the winter and fall there is not so much variety but this keeps us teenagers out of trouble. There are hunting, dancing, snows, bowling, football, basketball games, and last but not least, the old gatherings at the Dairy King.

Reports are that bids in excess of \$100 have already been offered for the first copy. Distribution of the book will begin immediately with a nationwide advertising and direct mail campaign. Date and time for the Jaycee Auction are to be announced soon.

Rain Brightens Hope Of Area

The amount of rain last week varied from one half to three inches in different parts of Eastland County. It was enough to brighten the hopes of Eastland County farmers and ranchers.

Most areas of the county did not get enough rain to add water to the stock tanks. Many of the tanks are low or completely dry.

The welcomed moisture was a big help to the small grains, but very little yields are expected from the grain because of the lack of rain last fall and winter.

Land is being prepared for peanuts and other summer crops. The recent rains provided moisture for the planting of some of these crops. One area near Gorman got as much as three inches of rain last Monday night.

Pasture and range grasses were helped most by the rain. This will provide increased grazing for livestock. Farmers and ranchers are glad to see this because many of them had to feed livestock throughout the winter.

"As It Looks From Here"

SMAR BURLISON
Congressman
17th District

WASHINGTON, D. C. That painful day of April 15 is upon us again. (Out of great generosity, we extended two days for Income Tax reporting since the 15th falls on Saturday.)

It is at about this time that many people are concerned about the spending policies of their Government. Anguished cries go up from Miami to Honolulu, from Maine to California. This is the time for direct complaint because we know where the pain is, but it should come at about every time an appropri-

ation bill is passed. One of the big troubles comes about by reason of piecemeal appropriations. There are about 12 principal appropriation bills, plus others from time to time for specific purposes and others called "supplemental". Supplemental appropriations simply means additional money to run to the end of the Fiscal Year. Each Department, Agency, Commission and Bureau has its friends and supporters. To these supporters of projects and activities, it is the most important and, hence, it is difficult to see it all as a total except in the President's Budget, which is always misleading. Actually, there are three Budgets and great misunderstanding of all of them.

The fact is that Budgets have not been balanced but a very few times in the last three decades.

Fiscal sanity can only be

brought about by a rising tide of public opinion. Individuals, organizations and areas of the Country favor certain spending programs. In fact, it is obvious that every expenditure is favored by large parts of some segment of our population, or it would not be enacted. This certain segment feels that this is the most important expenditure, and by each separate appropriation having its support, all of them are passed. Here again no one sees the total.

Already this year the Congress has increased the National Debt Limit by \$6 billion. In the months just ahead, it is likely that a request from the Executive will be made to increase the Debt by another \$2 billion to \$4 billion. Somewhere, sometime, there has got to be a stop. The assets of the Federal Government are sufficient to maintain its faith and credit, but if the time ever comes when faith and confidence are shaken in the Government's ability to pay, it will be a time of real trouble.

There are those who say that the obligations of the Federal Government are meaningless because we owe the debt to ourselves. This may be a good theory, but there is not very much which the Government has that we, as individuals, would want to buy, even with the inflated money itself creates. In reality, it comes down to the proposition of confidence in the ability of the Government to make its credit good.

Meanwhile, domestic spending is not being adjusted to bring the Budget into balance. The cost of the war in Viet Nam places a burden upon the financial resources of our Country. This is an expense which must and can be met, but should require sacrifices of some other things which may, in themselves, be good, but should be put off until we can better afford them. We do this as individuals, and our Government is the people.

Since 1961, defense expenditures have risen by almost \$30 billion. During the same period, non-defense spending has risen by more than \$43 billion. Currently, \$5 and one half billion is called for in Defense spending over last year, compared to more than \$6 billion increase in non-defense expenditures for the same period.

The many demands upon the treasury of the United States, and consequently, upon the American taxpayer, require that an order of priorities be established on spending.

The day will come when our government can not continue to go deeper in debt while levying excessive taxes on its people and continue to enjoy economic health and stability.

WSCS Will Meet On Tuesday To Hear Reports

The WSCS of the First Methodist Church will hear a report of the delegates to the annual meeting next Tuesday. The Rev. J. L. Davenport will explain the meaning of the Evangelical United Brethren movement, which will be considered at the next general conference.

Women of the WSCS are interested in a project of service in the community and are to further explore needs and how they may be met.

Last Tuesday, Mrs. Ed Willman presented an interest devotion on "What is the Church?" She emphasized that the church is not a building or symbol; not a program nor promotion scheme; not a club nor social organization; and not an insurance policy to get members to Heaven.

She reminded members that the church is the body of

Christ and "you are its members". Mrs. Willman explained that the church is a unique organization, being the only one devoted to spreading the message of God's redeeming love.

Mrs. J. L. Davenport led the last session of the mission study. Mrs. Turner Collier gave the concluding chapter, explaining some of the action being taken by the Methodist Church to alleviate poverty. Mrs. Joe Stephen told of some of the programs of the United States to help the poor of the world on an international level. She mentioned that our country has 7 per cent of the world's population and 40 per cent of the world's income.

Mrs. Joe Frances and Mrs. I. C. Heck presented a skit, "The Giver and the Receiver."

Present were Meses. Davenport, Heck, Willman Collier, Stephen, H.J. Bulgerin, Francis, A. E. Cushman, W. F. Davenport, Carl Elliott, Ed Ethridge Tom Haley, Milburn Long, O. O. Mickle, J. M. Perkins and Grady Pipkin.

The afternoon was spent oil painting, following a business meeting conducted by the president, Mrs. G. M. Hargus.

The May meeting will be in the home of Mrs. W. W. Walters. This will be the last meeting before the club dismisses for the summer months. Meetings will resume in September.

Mrs. Poe served pecan pie with ice cream, chips and dips, olives, coffee and Cokes.

Present were Meses. Hargus, Francis Urban, Walters, Homer White, E. E. Layton, Daniel and Poe.
