She died Saturday night in Dublin Hospital. Mrs. Caraway was born Oct. 7, 1899 and married William Homer Lancaster in 1918. Four children were born to them. She married Mr. Caraway in 1936.

She was a member of the Primitive Baptist Church. A longtime teacher in the Dublin school system, Mrs. Caraway was instrumental in organizing the Future Teachers of America chapter, which bears her name. She was very active in school extracurricular activities and held many student-bestowed honors. She was sponsor of the school's annual for many years and it was dedicated to her several times.

Survivors include two daughters, Mrs. Emmett Davis of Oklahoma City and Mrs. Joe Pool of Graham; two sons, Homer Lancaster of Fort Worth, Paul Lancaster of Tioga, North Dakota; two step-daughters, Mrs. Lee Redman and Mrs. Charles Williams, both of San Diego, Calif.; two sisters, Mrs. Rachel Holcomb of Ramona, California, Mrs. W. C. Garner of Dublin; one brother, R. L. Bradley of Indianapolis, Indiana; 11 grandchildren and one great grandchild.

GETTING READY FOR CONTEST — Eastland Junior High School band students are busy practicing for the area contest to be held in Eastland Saturday. It's Ground-Hog Day and Some Thoughts on Theory

Today is Feb. 2 and American tradition claims this is "Ground Hog Day". This is when the ground hog is supposed to come looking for signs of spring. If he sees his shadow (that is, if the sun is shining) he goes back into hibernation and the weather will be bad for six weeks. If the ground hog

doesn't see his shadow, the next six weeks will see good weather.

Do people believe this weather "sign" or other such signs?

The Telegram asked some residents of the Hickman Nursing Home about this. Here are their answers.

Mr. H. L. Jackson lives at 205 S. Connelley, but visits daily with his wife, who lives at the home. Mr. Jackson, 88 years old, said, "I'm not one-bit superstitious and that is all this ground hog business is. What is a ground hog here saw his shadow and one a few miles from here didn't? What would you believe then?"

Mrs. Wessie Mae Johnson said she had always talked about the day, but was not sure she ever really believed it. Mrs. Lela Hayes stated

flatly she never believed it and Mrs. Faye Wilson said, "I never saw a ground hog or trusted one to tell me anything."

Mrs. Fannie Nash doesn't believe it. Mrs. Hattie Ragsdale admitted she had "always heard that was true."

Mrs. Ruth Claborn said, "Yes, that's true. There's a place between Carbon and Okra where they come out. I've gone there and watched them. I've seen lots of them. And it's true that if it rains on Easter, it will rain for seven Sundays. I've counted that off several times."

Miss Sallie Day, 96, agreed that the "rain on Easter" is a sure sign. She said, "I've heard about Ground Hog Day all my life. My family believed it."

Mrs. Hattie Sawyers said, "Yes, I sure do believe in the ground hog. I've never watched them come out, but when I was a little girl, I called up plenty of doodle-bugs. Children always like to call up doodle-bugs."

Mr. Billy Reed, 94, said he had only seen one ground hog in his life and didn't think that one knew anything about the weather. He agreed with Mr. Jackson that the theory isn't reliable because too many ground hogs are in too many places.

Mr. R. C. Admas, 89, said, "No, I don't believe it. I've seen lots of folks who did believe, but they were mostly old folks."

THE GORDON SPOT

By DeMarquis (Dee) Gordon
 Eastland County Extension Agent

"When is it going to rain?" joints, rapid breathing and staggering, are some more symptoms.

Many cattlemen have bulls with their herds now and are breeding for next year's calf crop. Vitamin A deficiency can seriously affect reproduction performance of cattle, according to some research reports.

In recent test at Texas A & M University 35 heifers were injected with vitamin A. In this group only one calf was lost at calving time. Another group of 35 heifers received no vitamin A injections. In this group seven calves were lost at calving time.

The source of Vitamin A is carotene, which comes from green vegetation. In dry years such as this one mother cows may be deprived of green vegetation for several months before the calf is born. This caused two conditions. First, the vitamin A supply of the mother cow may be depleted, thus limiting her reproduction performance. Also a limited supply of Vitamin A in the newly born calf may result. This is made worse by the fact that there will be little vitamin A in the cow's milk since her supply of the vitamin is low.

Doses of synthetic vitamin A either injected or fed in concentrates would help both of these conditions.

Parade of American Music Is Theme Of Program At Eastland Club Meet

Each president of the National Federation of Music Clubs has been a staunch supporter of American music, but none more so than Mrs. Ada Hojding Miller, who made "At Least one American Composer on every recital program" a slogan in 1955.

The Parade of American Music was started in February of that year. Mrs. Miller, who has made the recognition of creative American musical talent a cause, also spearheaded the Federation's drive for funds for MacDowell Colony. This money, designated for the continuing upkeep of the Colony, was presented at a birthday gift for the late Mrs. MacDowell, who was 85 years old in 1952.

Eastland Music Study Club met Wednesday morning in the home of Mrs. Joseph M. Perkins, who was a personal friend of the late Mrs. MacDowell. For the Club's 12th observance of Parade of American Music, Mrs. Perkins spoke on her intimate recollections of Edward MacDowell and the Colony.

Mrs. Perkins has visited the Colony and Hillcrest, the MacDowell home there, many times. Last summer, she observed the colony in full operation. The memorial buildings at the New Hampshire Colony are dedicated to authors, artists, and musicians, many of whom have had inspiration in the quiet retreat in the wooded sanctuary, preserved by the late Mrs. MacDowell.

Mrs. Perkins described Peterborough, New Hampshire, as the place where MacDowell found ideal conditions for his work. Here, in a log cabin which afforded com-

plete privacy, he worked without interruption from dawn to dusk on the compositions which caused "the name Edward MacDowell to be known throughout the world synonymous with a high point in American culture."

In 1907, the MacDowells decided to the Edward MacDowell Association their farmhouse and the famous log cabin, in an effort to give others the same atmosphere for creative work.

Today, the Colony consists of more than 600 acres, with 24 studios, each with a fireplace and porch. There are also three dormitories besides Colony Hall, where breakfast and supper are served and luncheon prepared. The lunches are placed on the doorsteps of the studios and may be eaten at the occupant's pleasure. The Colony is open to creative workers—composers, painters and writers—for four months in the year. Many of America's most distinguished creative works, including more than 20 which have won Pulitzer prizes, have originated here.

An exhibit of American Music, which was mounted on a screen by Mrs. Perkins, was used at the Wednesday meeting and is now on display in the window of the store building next to Eastland National Bank. The Music Club has also placed posters around the square.

Charles Kiker, pianist, presented three Edward MacDowell compositions, "To a Water Lily," "From an Indian Lodge," and "From Uncle Remus"; and other selections.

Great Plains Project Underway In County

By John O. Simpson
Soil Conservationist

Farmers and Ranchers are beginning to apply their Great Plains Conservation Program for the 1967 program year.

Gordon Woods and Hood King both have completed some 700 acres.

Their brush was tree-dozed and seeded in the disturbed areas; and with favorable weather conditions, they can expect the same results that W. F. Volkman had from

treatment done in 1965.

Pictured is Eddie Simms, soil conservationist, examining a seeding of King Ranch bluestem and side-oats grama, seeded on the Volkman ranch, twelve miles southeast of Ranger.

This area was covered with mesquite trees; they were tree-dozed and hand seeded in the disturbed areas.

Now side-oats grama and King Ranch bluestem have occupied areas once shaded by mesquite.

Mr. P. studied hard — and, well, as any husband can tell you, it doesn't always work out the way it's planned. Once Mrs. MacDowell learned that he was a geologist, all she wanted to talk about was the straw area and the T&P Coal and Oil Co. The MacDowells owned property there and the conversation never did get around to music.

IF YOU were to ask an Eastland County 4-H'er "What time is it" chances are good that your answer would be "Stockshow time." HOMEMAKERS' HINTS

By JANET MEYERS
Home Demonstration Agent

Many of us are afraid of color. Many homemakers feel it is an expert to choose a color scheme and carry it out in a room. It is true that few people have an instinctive sense of color — what is right together, what clashes, how much to use, and so on. However, there is a simple way to select and combine colors effectively in a room, and it doesn't take a decorating course to do it.

Many new decorator fabrics are inexpensive, yet well designed. So if you are not sure of yourself when it comes to choosing a color scheme, you can follow the fabric designer's lead.

Plan your decor around the colors in the fabric. For instance, select one pretty print for curtains or slip covers. Use the predominant background color in the print for walls and rug, the largest room areas.

Choose two or three of the other colors in the fabric, and repeat them in chair covers, painted tables, or other room furnishings. The print may have small touches of a vivid accent color, like red, electric blue, even white. You can pick up this accent color in small accessories — pillows, flowers, or lamps.

Fabrics are the high point in furniture fashion this season. The total upholstery look is prevalent in many lines.

Designers have placed emphasis on color, texture, patterns and weave in their upholstery materials. The plush look is achieved with velvets, fake furs, corduroys, and velveteens. The hand-woven look, raised design, and embroidered effect are popular as are rough, sturdy tweeds, twills, and chambrays. Antique satins, quilted damasks, and iridescent pure silks are popular in formal settings. Vinyl is seen extensively also. The soft glove-like vinyl called "Kidd" appears in at least one top line where it is combined with polished aluminum for a high-fashion look. The "wet look" obtained by using black vinyl treated to resemble patent leather is shown by some furniture designers.

Feb. 9 Is Deadline For Animals Entry In County Show

The deadline for livestock entries in the Eastland County Livestock Show is set for Feb. 9, 1967. All livestock which are to be shown in the county show, either open or junior shows, must be entered on or before this date.

The entry fees are as follows:
Sheeps, lambs, goats, and hogs — \$5.00
Steers, heifers, cows — \$1.00

There has been a change in the rules to the effect that no refunds of entry fees will be made after the exhibitor enters his animal or animals in the stock show.

All individuals wishing to enter livestock in the county show should notify their chapter advisor or the Assistant County Agent or the General Livestock Superintendent, H. L. Ferguson.

FARM BUREAU WEEK — Governor John Connally (center) presents proclamation designating Feb. 6-18 as "Farm Bureau Membership Week" to Texas Farm Bureau President C. H. DeVaney of Coahoma. Looking on is TFB Queen Julia Fair Wells of Eagle Lake. In his proclamation, the Governor cited our "efficient agricultural industry" for helping assure our citizens of the "highest standard of living in the world."

FB Week Proclaimed 2 Attend State Meet

Gov. John Connally has designated the week of Feb. 6-18 as "Farm Bureau Membership Week" in Texas. During this special observance, thousands of volunteer membership workers in nearly 300 organized counties will be asking their fellow farmers and ranchers to join Farm Bureau.

Three big area membership rallies this week launched the statewide enrollment drive. Meetings were held Jan. 30 in Lubbock and Dallas and Jan. 31 in San Antonio.

Eastland County Farm Bureau President Jack Cozart and County Membership Chairman E. T. Graham attended the Dallas meeting Monday. Both men are from Cisco.

In his proclamation Gov. Connally pointed out that agriculture is essential to the economy of our state and nation. He noted that about 40 percent of all Texans receive their livelihood either directly or indirectly from agriculture.

"The abundance of food and fiber, produced ever more economically by an increasingly efficient agriculture, help assure our citizens of the highest standard of living in the world," the Governor's proclamation states.

The TFB ended its 1966 membership year with 100,926 member families, highest in its 33-year history. The Texas organization is fourth largest Farm Bureau in the nation (behind Illinois, Indiana and Iowa).

Membership goal for 1967 in Texas is 105,000 members.

AMERICAN HISTORY MONTH

During the month of February, we, the American people, will celebrate American History Month. The observance of American History was initiated in 1932 by the Daughters of the American Revolution, and has grown in popularity ever since.

For many years, the Governors of most of the States, and the Mayors of more than a thousand cities, and towns have proclaimed February as American History Month. This year, for the first time, February has been officially designated as American History Month by a law passed last fall by the United States Congress.

In co-operating with this American History Month laws, the Daughters of American Revolution, through its National Committees, fifty state organizations, and over 3,000 local chapters, have arranged for many different observances to encourage the study and appreciation of our great American History.

Today, February 1, 1967, we celebrate the 177th anniversary of the first meeting of the United States Supreme Court, with Chief Justice John Jay presiding.

Won't you, as patriotic citizens, join with the Charles Crawford Chapter and other chapters throughout the Nation in proclaiming February as American History Month?
