cated on school owned property. 4. Two regulation football fields and a newcinder quartermile track with corrective curbs.

Two asphalt tennis courts. 4. Are taxes higher in Eastland than in Olden

It would be virtually impossible to give a yes or no answer to this question without making a comprehensive survey of both districts and actually comparing property in both districts. Both the Rate and the Property Value must be considered if an accurate comparison is to be made. One of the best ways to make this comparison would be to pick out property in each district that is comparable in value and compare them on the separate tax rolls of the two school districts involved.

15. Would the consolidated district be more expensive on local taxpayers?

No. The cost of operating the proposed consolidated district would be less than operating the districts separately as is now done.

16. How would such a consolidation give the average taxpayer in the district any protection against additional tax increases in the future.

in 1968 the Texas Legislature passed a law that is commonly referred to as the Incentive Air Law. This law makes a "Bonus" cash payment available to a newly consolidated school district over and above their usual influence voters of the Olden District., financial allocation as an encouragement to get small districts to merge with larger districts. This incentive aid money is paid to a newly created district over a ten year period. Although these funds can be used only for the purpose of paying for new buildings or facilities, it would simply mean that moneys currently being used to retire bonds could be used in the operation fund for day to day expenses of operation. In short, this means that the State Government would make your debt service payments for ten years, and such moneys as would normally be used by the local districts for this purpose could be used for daily operational expense.

17. How much would the Incentive Air payment be to of the board of directors for

the newly created district? The Texas Education Agency has estimated that if member of the Liort Club the Olden and Eastland District merge, the new district since 1960 and has served that would be eligible for an amount in excess of \$26,000.00 organization as director, first per year for ten years. This amount might be more or less depending upon the organization of the new district. The most reliable estimates are that the incentive aid payment to the new District would run as high as \$35,000.00 to \$38,000.00 annually for ten years. This would amount to a total of from \$350,000.00 to \$380,00.-00 over the ten year period. All of this would be made in addition to the usual funds the district would be eligible for based on the average daily attendance. This amount could only be reduced if the attendance in the newly created district dropped below the 1967-68 average daily attendance. IIf this occured, the Amount of the Incentive Aid for that year would be reduced in proportion to the percent of the drop in attendance. The final amount the district would receive would not be determined until bus routes and vocational teacher teaching units were allocated by the Texas Education Agency during the

1968-69 school year. 18. If the Districts do not consolidate, are the chances good that both districts will be faced with additional taxes in the near future?

Yes. If present plans affecting public education in Texas are carried into law during the next session of the Texas Legislature, there is little doubt that local school districts throughout Texas will be hard pressed for additional moneys. It is highly probable that both the Eastland and Olden Districts will have to make adjustments to meet these increased demands prior to the beginning of the 1969-70 school year unless the Districts are consolidated

19. What would happen to the Olden teachers and auxiliary employes if the voters decide to consolidate the districts on Aug. 24th.

Such teachers and employes would automatically become employes of the newly consolidated district.

20. Is it true that the Olden school property would be

sold if the districts consolidate? It is reasonable to assume that some of this property might eventually be disposed off, but it is also reasonable to assume that the Board of the consolidated district would highly favor the retention by the community of Olden (properly organized) to retain any of the present school properties that they felt they had a need for, for

21. Would all of the Olden students be eligible for bus transportation?

community purposes.

Yes. Any student that lives in two miles or more from the school he attends is eligible for bus transportation. This would mean that any student now living in the Olden District would be eligible for bus service.

# Will Register

School Superintendent Wendell Siebert has announced that registration for students in grades 1 through 8 will be held at the Elementary School between 2 and 7 p. m. Monday, August 19.

Siebert said it is extremely important that parents cooperate in registering their children on the date set in order to adequately plan teacher assignments, and to equally divide the classes.

A child entering first grade must be six years of age on or before September 1, 1968, have a valid birth certificate, and proof of smallpox vaccination.

High School students registered before school closed in May. Those high school students who are new in Eastland High may register at the school this month.

Don't let this special low price fool you. The sleek Yamaha Campus 60 is a small bike that thinks big. Its one-cylinder, rotary valve engine puts out an honest 60cc's. Not enough to win with the super Yamahas at Daytona - but sufficient to whisk you along all day at an effortless 50-55 mph. Now add up these other advantages of the Campus 60, and you'll appreciate why it's called the "best buy bike." Such as waterproof/dustproof brakes and a sm 4-speed transmission that make the 60 so easy to handle even a beginner can ride it. Convenient Autolube oil injection. Up to 180 miles per gallon on regular gas. And a stubbern refusal to wear out that has made it a legend among the cycle set.

Why not come in today and let the Campus 60 speak for itself? Or any of Yamaha's 20 Exciters - f the little Newport 50 to the mighty Grand Priz 350.

Maintenance Chief Mutt Lewis and his crews certainly have had a summer working on the Cisco-Eastland stretch of Highway 80. Looks like they've just about re-topped it inch for inch. Heavy spring rains get the blame for the highway deterioation, Mr. Lewis says. A local man who makes the trip often says the workers recognize his car because they see it so often and suspect that he's an inspector or some-

In a message to Agriculture Secretary Orville Freeman Texas Farmers Union President Jay Naman of Waco stated that the recently announced peanut price support increase of \$13.25 per ton is a "step in the right direction."

Farmers Union has been urging Secretary Freeman to increase the support price on peanuts which has not been raised since 1961. The announced increase raises the loan value from 75 to 77 percent of parity. The farm leader commended Secretary Freeman for the increase but urged that he take the steps necessary to provide peanut growers 100 percent of parity price assurances.

Mrs. Ethel Simmons, EHS annual advisor, has reported that all 206 Maverick annuals which were printed have been claimed, sold or spoken for The annuals were distributed to the students Thursday morning at the high school.

This year's annual is 126 pages an has a gold and black cover. The annual is dedicted to "Our Town," Estland.

THANKS TO THE PEOPLE OF EASTLAND . . . The Jaycees have completed work on the runway at the Eastland Airport, President Wade Freeman announced. Freeman said the work was made possible by the people of Eastland who supported Jaycee projects designed to finance the work. The Jaycees plan several events to earn money to complete payments on the runway.
