Shifting Insurance Burdens -

has long been an American custom, and it's a good custom. Don't try to carry the load of financial risks yourself against the hazards of these modern times, but shift it to your local agent and let Insurance do it. Your losses may to hours or years away but meanwhile Insurance will give you peace of mind and financial protection that is worth far more than it costs. Your first thought is that Chevy is a good looking pickup ...

Here are some second thoughts:

work truck

We could add hobby hauler to the list. Chevy trucks are great for rock hounding. Collecting antiques. Etcetera.

The point is: They're as versatile as anything on the road. Or off. Especially, four-wheel drive versions. They go anywhere.

playmate

Wherever you go, you go in style. Sleek front end features a new aluminum grille. In back, there's a new 81/2-ft. box on some models. Great for big campers.

Great under the hood, too. Six or V8. Standard on V8 models is a big 307 cubic-incher.

second car

Under the rugged chassis, coil springs take care of bumps. Inside, thick foam seats take care of you.

There's a lot more. And more you can order. Like: power steering and air conditioning. See your Chevrolet dealer for all the facts and the good word on low price.
