Football Magazine Gives 8-AA Summary In Edition Just Out

Dave Campbell's popular 1968 edition of TEXAS FOOTBALL says this of:

DISTRICT 8-AA—Thirty-nine have tried and 35 have failed in the grim business of trying to beat GRANBURY in the 1965, 1966 and 1967 seasons. A time of hope is near again, but with the Pirates' treasure chest of 18 letterman (5 offensive, 7 defensive starters from a 10-1-1 of a year ago), derailment of the three-time champions hardly appears a sure thing. Coach Victor Prince may have depth and experience problems at several spots but size and a wealth of exceptional young talent count as strong plus factors. Some exceptional old talent—tackle Steve Davis (6-2 220), fullback Ike Thomas (6-3, 210) both all-state material—lurks, too.

Prince calls Thomas as good a blocker as there is in Texas schoolboy ranks, and notes that Davis averaged over 15 tackles per game as a nose guard. But the talent roster also includes end Dwayne Burdette (190), guard Marvin Porter, tackle Jerry Brewer (225), split end Danny Reed (190), QB Jerry Hodges and WB Robert Thomas. Among the young hands, keep an eye on tackle Jesse Fant (240), guard Charles Porter (190), and TB Harvey Boulanger.

EASTLAND finished a good second a year ago, and now has 7 offensive and 5 defensive veterans returning from an 8-2. It has speed and the hard core experience needed to win the big ones. HB Steve Wilson is a runner of all-state potential and tackle Terry Grimes is a defensive demon. End Bill Hoffmann and also guard David Cagle lend firm line support and HB George Simms and QB Eddie Kincaid add enough backfield class for a strong contender.

COMANCHE third a year ago at 7-3, isn't writing itself off—not with 6 offensive and 5 defensive veterans and all-state candidates in FB Rex Plumlee (6-1, 195) Guard Ken Cattles (195) Guard Freddy Rogers and end Jim Armsstrong are good talents, too, and QB Bill Williams knows a thing or two about moving the team. Tackle David Tankersley (6-3, 220), center Kim Cockerham (6-3, 210), and HB Ronnie Stanley are other credits in a possible title bid.

HAMILTON slipped to 3-7 last year amid a rash of injuries and now bases comeback hopes on 6 offensive and 7 defensive returnees. HB Gary Tyson and QB Chris Wood are the backfield gems, while guard Jack Sauer, tackle Rick Stephens (6-3, 220), end Jack Massingill head the line. Tackles Howard Pierson and Tom Pierce (220), guard Sam Todd and backs Jerry Zschiesche and Dudley Kelm are other strong rebuilding keys.

THE CISCO kids endured a 2-8 log in '67 and have a backlog of 16 lettermen (10 offensive, 7 defensive regulars). Speed the Lobos have, in backs Sam Fletcher and David Smith and ends Jerry Martindale and Mike Farnsworth. Center Al Heyser, guard Dave Turner and tackle Steve Linebarger are other solid linemen, and the presence of tackle Tommie Lee, guard Randy Honea, linebacker Jack Hailey and back Lorenzo Chriesman should help. Clyde, dazed by a 0-to-10, counts on 7 offensive and 7 defensive returnees for balm this time but lacks speed and

size. QB Jim Galusha and HB Tim Copeland key the offense, while tackles Stoney Allen, Bill Galusha and Rick Young are line hubs, along with guards Steve Kniffen and Danny Fleming and end Joe Gray.

Green hospital. They are members of Calvary Baptist Church here. Both Mr. and Mrs. Cook grew up in the Carbon community of Eastland County and are graduates of Carbon High School. HELICOPTER PILOT REPORT ON LIFE IN VIETNAM WAR AREA

(Editor's note: This is an excerpt from a letter Mr. and Mrs. Rabb Steddum received

from their son, SP4 Clifton B. Steddum, who is a Helicopter Crew Chief in Viet Nam.)

"I share my hootch with around 18 guys, which is not bad because we are all real good buddies anyway. Life in Viet Nam can be awfully demanding at times, and yet it can still turn into a monotonous routine.

In the 167th Assault Helicopter Company, the men are out flying every day, spending as much as 16 hours in the air. They are always vulnerable to enemy fire. Often, around-the-clock work is required from the maintenance personnel to keep the helicopters flying.

If the Charlies are in hiding and can't be found from the air, my day starts around 7:30 a. m. I get up (I am already dressed) and go to chow. After I somehow manage to get chow down, I go to my hootch, get my towel, soap, toothbrush, toothpaste and go to the shower room. I guess what I do there. You are wrong. Well, partly wrong anyway. I do get to brush my teeth and shave each day. But I only get to take half of a shower most days. Our shower has a bad habit of letting you get all soaped up good and then it just quits for no reason at all. It really is hard to get all that soap off without water. Oh, yes, I can now shave and shower in four minutes.

Then I go back to my hootch, finish dressing, and go down to operations to see if my ship has a mission for the day. I find we always have a mission for the day. I find out where we are going and write out a report on the condition of my ship before take-off. Then I make sure all my guns are working properly and that the ship is full of fuel. It is bad news to run out of gas in a helicopter. After I see that everything is O.K., the pilot starts to rev up the motor. In about 15 minutes, we are off into the wild blue.

We go first to a compound to load up the troops and then to the landing zone. That's when things get hot. We drop the troops off while the Viet-congs are trying to knock us down. After we drop the troops, we head back home to patch up our bullet holes, get a snack to eat, write letters or maybe get some sleep.

This may sound rough to you, Mom and Dad, but it could be a lot worse for everyone. At least, we do get food every day. It is never like home cooking, but whatever we have is good for us and what we need. When we drop

Deadline Is Near For County Farmers To File Crop Report

The date, August 1, is drawing close in Eastland County concerning farmers who have peanuts, cotton and feed grain. Farm operators must certify (report) their acreages in the county ASCS office by Aug. 1 to be eligible for payments, price support, and history credit on peanuts, cotton, feed grain, and diverted acres.

As of July 22, approximately 250 farms had not filed a report of acreage, according to Jesse G. Meredith, county office manager of the Eastland County ASCS office. He went on to state that the certification was about 75 percent complete. He urged all

producers who have not reported to do so immediately. This includes farmers who requested measurement service. Mr. Meredith expressed his thanks on behalf of the county committee and office staff for the fine cooperation received from the county farmers this year on this new procedure of crop reporting.

"Failure to report," stated Mr. Meredith, "could cause the difference of receiving only \$0.4 a pound instead of \$1.1 a pound for peanuts." He further states, "Feed grain and cotton participating farms will lose payments and price support if they fail to report their acreages."

Non-allotment farms that have planted 1.0 acre of peanuts must also report to be eligible for price support. Farms that have a peanut or cotton allotment, but have not planted should also report.

DRAWING TOWARD GOD

The Art and Inspiration of JACK HAMM

Introduction By CHARLES SCHULZ Creator of "PEANUTS"

DRAWING TOWARD GOD is a book designed to apply scriptural truths to everyday living. By means of some 50 full-page drawings interspersed in the text, the reader is led to reflect with the artist-author on the great issues of life. Over a dozen impressions of Jack Hamm's religious art have been printed in the U. S. and foreign countries. For the first time he sets down his reasons behind the drawing. Winner of four national cartooning awards, Hamm contends that the nature of art and man's nature need to be, and can be, related one to the other.

"Jack Hamm has a way of using his brush, crayon, and words to cut through to some of the great theological truths that concern us all. This is a marvelous book for individual meditation, or for any group of dedicated people who wish to have a guide to promote inspirational discussion. Jack has a rich imagination and a fine sense of fundamentals. We have been blessed in our world with many great editorial cartoonists, but I know of no other man who has been able to turn his talents to interpreting religious truths as has Jack Hamm."

From the Introduction By CHARLES M. SCHULZ Creator of "Peanuts"

"I like the work of Jack Hamm. He has a great gift for picturing, and therefore making simple, important truths that would be difficult to express so explicitly in words."
DR. NORMAN VINCENT PEARL

"A fine artistic portrayal... bringing the inspirational Word of God into American homes."
J. EDGAR HOOVER Director of F. B. I.

"The most difficult task for a cartoonist is to sustain a point of view over a long period of time, even when the subject is the Word of God. Jack Hamm has kept his work in such sharp focus that it sustains the believers among his readers and most certainly gives hope to those who need it."
MILTON CANIFF Creator of "Steve Canyon"

"Jack Hamm is helping to create a moral and spiritual atmosphere throughout the United States."
BILLY GRAHAM

"How better to reach people of all ages than with the timeless scriptures retold in timely pictures."
PAUL HARVEY

Fashion Shop In Cisco Reports Good Opening

The Grand Opening Friday and Saturday at Lorraine's Fashions, Avenue D, in Cisco, has been declared a gigantic success, according to Owner-Managers, Theo and Lorraine Cox.

The new fashion center welcomed visitors both days with refreshments and preview modeling of the newest fall fashions.

"Our reception here has been very warm," Mr. Cox said, "and we want to express our appreciation to one and all who have been so nice to us in the opening of our shop. We appreciate the many flowers, complimentary words and kind expressions during our opening."

"We will strive to serve this area to the very best of our ability with the latest in fashions, and will appreciate the public's support," he said.

Mr. Cox, a 20-year veteran with Sears and his wife moved to Cisco from Abilene, and they plan to build a new home in Cisco soon.

Crowds were heavy for the opening house, he said.

Ward's Event Is Big Success

A good crowd was on hand Friday evening to witness the first annual Antique Show and Sale at the Montgomery Ward & Co. store in Ranger.

Antique enthusiasts from throughout the Ranger region saw displays of China dolls that were over 100 years old. Old toys also were displayed.

One antique dealer, Mrs. Madge Key of Dublin, displayed an amethyst glass that was of considerable interest. The glass was black in color, when held up to a bright light the color was a beautiful purple. Mrs. Key also displayed a picture, named "Alone." The picture was a print by the George Harris Company of New York in 1870.

Other antique items on display were milk glasses, coffee cups, that were over a hundred years old, mustash cups, souvenir spoons, and antique candle holders.

Also displayed at the show was the pistol that was used in the famous Santa Claus bank robbery in Cisco.

Don Baird and his friend, Dexter, of Eastland were on hand to entertain the customers at the show.

Ranger Could Be Without Hospital

Mrs. Dortha Harris, administrator of the Ranger Hospital said the Department of Health and Welfare has notified the Ranger General Hospital that action has been taken to terminate the Medicare Provider Funds.

One of the reasons given was that the hospital building does not qualify under the terms of the Medicare Law.

Several weeks ago Johnny Bates, chairman of the Hospital Board, appeared before the City Commission and enumerated the needs of the institution.

On June 18, a called meeting of interested citizens was held during which a committee, appointed and approved by the City Commission and the Hospital Board, was instructed to study the feasibility of a new hospital. Members of the committee are F.

Right-of-Way Is Obtained by City

The old M-K-T Railway overpass, which was built on Highway 80 in Cisco in the mid-1930s, probably will be removed before the end of the year, according to information here today.

The city commission, holding its regular semi-monthly meeting last Tuesday night, was advised by City Attorney W. B. Wright that deeds to the M-K-T property have been conveyed to the city by Charles S. Sandler and S&M Supply Company.

The State Highway Department's district engineer, E.M. Pritchard of Brownwood, requested the city to obtain right-of-way across the old railway tracks several weeks ago. He said that if the city would provide the right-of-way, the state would remove the viaduct. It is too narrow for modern traffic requirements.

Mr. Wright suggested that the city advise Mr. Pritchard that they now have the right-of-way.

The State Highway Department's county office at Eastland told The Press that details of the project would be handled by them and that the work would be done out of local improvement funds and would not require a bid letting. It was understood that regular employees of the Eastland highway office would do the work.

Several weeks probably will be required to complete the necessary paper work.

The highway office reported that planning work is moving along on schedule for the Highway 183 widening project from IH-20 intersection just south of Cisco to Rising Star. A contract probably will be let on this job before the year ends.

The highway department has requested the City of Cisco to join them in a condemnation proceeding to acquire needed right-of-way inside the city limits on Highway 183.

Camp Held This Week At Park

Sixty 4-H Club youths from four counties and some 15 adult leaders attended the annual two-day camp at Lake Cisco Park on Monday and Tuesday, July 22-23. The camp was a good success from all standpoints, according to County Agent DeMarquis Gordon.

Opening at 10 a. m. Monday, the day's program included swimming, track events softball and other events. Curly Hays of Abilene, farm director for West Texas Utilities Co., assisted with the sporting events and directed a program of the value of physical education Monday night.

County agents and 4-H Club youths were present as follows: Ralph Lindsey, Palo Pinto County; Jerry Lackey, Callahan County; Chuck Callahan and Mr. Gordon, Brown County; and Mr. Gordon and Bob Cohen, Eastland County.

Mr. and Mrs. Floyd McBee, who have served as camp cooks for more than 20 years, were present again this year. The camp has been an annual summer event for 4-H Club youths at Lake Cisco for some 25 years.

Coleman Reports Screwworms 225 Cases Reported in Texas

Texas recorded 225 cases of screwworms in 41 counties during the two-week period of June 30 through July 13, it was reported by the Texas Agricultural Extension Service. Of the cases reported, one was in Coleman County, two in Concho, one in Lampasas, and three in McCulloch.

All livestock owners in the area are urged to hold off surgical operations on their animals and to treat all wounds immediately to help halt the spread of screwworms. Spraying of herds also is recommended to help check outbreaks.

Producers moving or handling livestock for any reason should examine all animals

carefully, inspect for larvae wounds and send to the Mission Station laboratory for identification. Animals with wounds should be removed from the area pending shipment.

Outbreaks of this spring begin from Mexico, but other conditions have made them worse. Some observers believe some cases reported in Texas are third generation. The situation has developed worse than any in 1963, officials say.
