CITY ORDERS ALLEYS NEAR THE SQUARE PAVED

Business Men Urge City To Do More Paving

Commission Has Plans For Additional Street Improvement Under Advisement.

More than thirty representative business men appeared before the Eastland city commission at its session Monday afternoon to urge that the city, at an early date, put on a big street paving program, according to City Manager H. O. Tatum.

While the city has had the matter under advisement for some time, no definite plans for such a program has been made, Mr. Tatum said.

The commission did, however, pass an ordinance requiring all of the alleys bordering on the public square to be paved full width. This order affects the alley on West Main and West Commerce streets; the alley on the south side that opens on South Seaman and South Lamar streets; the alley on the north side that opens on North Lamar and North Seaman streets, and those alleys behind the Globe grocery store, south of Bills Tailoring company and north of the Connellee Hotel.

Jack Dempsey's Life Threatened

HOLLYWOOD, Cal., June 4.—Jack Dempsey, former heavy-weight champion, made light today of purported threats to end his life, although he admitted knowledge of telephone calls made to his secretary, Leonard Sacks, who disclosed the asserted plot.

"Yes," Dempsey said, "Sacks had some phone calls that threatened me but I'm not paying any attention to them. I think the whole thing is a bunch of hokum and either the calls came from some crank or else someone was trying to have fun with Sacks and me."

"There isn't anyone who wants to kill me and I'm not worrying." "Someone called me," Sacks said, "and told me, 'Dempsey is not dealing with Jack Kearns now, he is dealing with somebody else, you can't get away with it.'"

The day of the call Dempsey had gone to Wilmington, Del., and had stopped off for luncheon in Philadelphia and there was a report that Jack had received a call or two in Philadelphia, although this could not be verified. Sacks said he was not with Jack at the time so knew nothing of any Philadelphia calls.

Immediately after returning to New York, Jack came to Chicago. He went directly from the train to one hotel, later he was registered at another and still later he entertained a few newspapermen in another. He arrived around 10 p. m. and departed at 6 the same afternoon.

Sacks admitted that Dempsey carried a revolver close to him but said, "Jack most always does that."

Dempsey last week broke off promotional interests with Humbert Fugazy and Edward Cole after he allegedly had received \$40,000 as advance payment for his work.

"Jack was to have been provided a place to promote within 60 days," Sacks said. "The place was not forthcoming when the contract was up on May 25, and Jack figured he was free to do as he pleased."

The state indicated the death penalty would be sought for Goerner.

Mr. and Mrs. J. E. Bell of Los Angeles, Calif., arrived on the Sunshine today to visit Mr. and Mrs. J. A. Caton as few of their friendship dates back to a time when they were neighbors in Clarksville, Texas.

GEO. W. DAKAN EASTLAND CO. PIONEER. DEAD

Died Monday Night at Christoval. Body Being Shipped Here for Burial Wednesday.

Geo. W. Dakan, pioneer Eastland county attorney, died Monday night at Christoval, near San Angelo, according to a message received in Eastland early this morning from his son, C. B. Dakan. Acute indigestion was given as the cause of death.

Judge Dakan, who was 78 years of age, his wife and son, C. B. (Clint) Dakan, left Eastland last Tuesday to go to Christoval where they had a summer home and where for the past several years they have spent their summers. At that time Judge Dakan was apparently in the best of health for a man of his years.

According to information telephoned relatives in Eastland, the body is being shipped to Eastland by rail and is expected to arrive here early Wednesday morning. Funeral arrangements cannot be announced at this time, it is stated.

Mrs. Dakan left Christoval this morning by automobile and is expected to reach Eastland late this afternoon or early Wednesday morning.

George Dakan came to Eastland county many years ago, settling first near Desdemona. He later moved to Eastland and engaged in the practice of law, at one time being a partner with Judge D. K. Scott, now of Cisco. He served the county and as county judge and for many years was active in county and state democratic party affairs.

After living in Eastland for a number of years Judge Dakan moved to Stamford and made that city his home for ten or more years, moving back to Eastland with the advent of the oil boom in this section.

He is survived by his widow, who is his second wife, and three sons, H. C. Dakan of San Antonio, C. B. Dakan of Eastland and Barry Dakan of Dallas.

Fairbanks-Crawford Wedding Solemnized

NEW YORK, June 4.—Douglas Fairbanks, Jr., and Joan Crawford have been married despite their assertions they were much too busy making motion pictures to consider matrimony before 1930.

They did it yesterday afternoon at St. Malachi's Roman Catholic church, where they were still breathless from issuing denials that they had any intention of marrying while on a brief vacation here from Hollywood studios.

Fairbanks' mother, Beth Sully, the first wife of Douglas Fairbanks, was at the ceremony. The younger Fairbanks, who is 19 years old, said he had received a telegram from his father, in which parental blessings and congratulations were combined. The youthful bridegroom added that his two-year love affair with Miss Crawford had been "romantic and a sweet one."

Men Suspected Of Crime Are Held In the Dallas Jail

DALLAS, June 4.—Eight of the thirteen men arrested by police and city detectives Monday in connection with recent robberies and hijackings were still in jail today, the other five having been released for lack of evidence to convict.

Police officials said the men now held are suspected of being the leaders in a movement to compel Dallas bootleggers to form a strong association, thus to better defy the law.

Police records of four of the men show that they have been implicated in counterfeiting plots in other parts of the country. One of them was tried in another state for buying liquor and giving counterfeit money in payment for it, officers said.

WILL TEACH MUSIC
Mrs. Joseph B. Leonard has been appointed by the school board to the post of teacher of music at the high school studio.

Mrs. Leonard is a very gifted musician and has been associated with the school in this capacity for some years.

Held in \$75,000 Robbery

Mrs. Minnie Ravi, right, socially prominent widow of 55, whose home is Hutchinson, Kas., was detained by police at Oklahoma City in connection with the \$75,000 holdup of a bank messenger in Oklahoma City. Police said she drove into Hutchinson with more than \$10,000 of the stolen money in her auto. Above, left, is C. W. "Doc" Thompson, brother of Mrs. Ravi, who is said to have been identified as one of the robbers, and below is Mrs. R. B. Thompson, wife of Thompson's stepson, both under arrest.

Admits Murdering 6-Year-Old Child

UKIAH, Cal., June 4.—Thomas Lelew, 32, swarthy woodsman of the Northern California Redwood country, confessed today that he attacked and murdered 6-year-old Teresa Johnson in the woods near her home the afternoon of May 23.

The confession followed five days' grilling by Sheriff Byrnes of Mendocino county and related in detail the crime which so enraged the entire county that the whereabouts of Lelew was kept secret for several days.

Lelew made the confession in the county jail and signed it in the presence of four witnesses. He said he waited in the dense underbrush near the Johnson home, in the vicinity of Mendocino City, when Teresa returned from school he seized her and grabbed her into the bushes.

Choking her into insensibility, Lelew attacked the child and then killed her. He threw the body back into the bushes and returned to his job of cutting wood.

Five Fatalities Within 38 Hours

Five persons are dead as the result of drownings, shootings, automobile accidents and storms in Texas during the past 48 hours.

Two soldiers, Private Heeley and Corporal Boston of Fort Ringgold were drowned in the Rio Grande river a few hours of each other. The body of Boston was recovered from the water but searchers had been unsuccessful Monday in their efforts to locate the body of Heeley.

A. P. Bradford, insurance agent and former Methodist minister, was killed in an automobile collision at San Antonio. The same accident resulted in injuries to two others. Bradford formerly lived in Houston.

Gunshots, caused the death of R. E. Gooch, 63, at Ennis. At Richland Springs, San Saba county, Jesse Ransom Munsell, 20, was killed when he came in contact with a high tension wire during an electrical storm.

SIX-HOUR WORK DAY PROPOSED

FORT WORTH, June 4.—Unemployment will be solved by the proposed six-hour working day for union labor in the opinion of A. F. Whitney, Cleveland, O., president of the Brotherhood of Railroad Trainmen.

Whitney spoke here Monday night and the city recreation hall. He left later for Galveston where he will address the state convention of the organization.

TWISTER AT LANCASTER

LANCASTER, Tex., June 4.—A small cyclone which struck this section of Dallas county Monday afternoon blew down several outbuildings and ripped off the roof of a barn on the Lawrence Henry farm. Citizens fled to storm cellars when they saw the cyclone coming. It disappeared after dipping at the Henry farm.

MOODY WILL SOUND CALL FOR ECONOMY

Is Alarmed at Fiures of State Appropriations Bills Offered by House and Senate.

A call for economy will be made by Governor Moody in his address to the legislature. He is alarmed at the \$57,000,000 appropriation bills of the senate and the \$40,000,000 appropriations of the house either of which will require a full 35 cent tax rate. That is the highest tax possible under the constitution.

The senate skirmish over the public utility bill was marked by bitter charges. Senator Walter Woodward charged that the press of the state is giving little publicity to public utility regulation. He charged that attorneys for two of the leading utilities (unnamed) had conferred in Austin on which committee the utility bill should go. He charges also that representatives of utilities had been on the floor in the senate during the session endeavoring to "thwart the will of the people."

"You want to put this bill in a committee where you can choke it to death," said Woodward to those favoring the state affairs committee. "I intend to do all in my power to keep you from doing it."

Senator Ed Westbrook on the other hand charged that there were "rumors" that it had been planned to take advantage of the absence of the lieutenant governor to have the utility bill introduced and referred to another committee than the state affairs committee. He refused to give source of the rumor.

Penitentiary legislation also had a skirmish in the senate. Senator McFarlane proposed appointment of a legislative committee of 15 to visit the prisons and ascertain the extent of flood conditions. Senator Edgar Witt opposed this as a reflection on the prison board.

Senator Joe Moore declared that an illustrated report on flood conditions is being prepared and charged that the committee movement was unnecessary. No action was taken.

The house spent the morning discussing the proposed rural school aid bill. It proposes to appropriate \$2,500,000 a year for two years for the purpose.

The total number of bills introduced in both branches was raised to 83 today.

Among the new ones offered today are the utility bill, a bill to put teeth in the present law regulating automobile lights, a bill to tax malt syrup, an income tax bill, and a group of bills to guard against theft of automobiles and parts.

The state sanitary code bill and the blue sky bill which failed to pass at the first called session were again introduced.

A bill in course of preparation will provide a new system for collection of franchise taxes from foreign corporations. The present law is said to be under attack from large companies on the ground that it is discriminatory.

Senator Williamson has also in preparation a bill for establishment of a state highway police force. He offered a bill today to permit motorcycles to wear blue uniforms or grey ones. Grey ones alone are permitted.

GRIEF STRICKEN WOMAN SUICIDES

PORT ARTHUR, Tex., June 4.—While her little nephew was happily planning to celebrate his eleventh birthday a few hours later, Mrs. J. F. Elder, 35 of Crowley, La., took her life in the boy's home late Monday.

Locking herself in a bathroom of her brother's home, Mrs. Elder fired a .38 calibre pistol bullet through her neck. She died almost instantly. She came here about two months ago from the Louisiana town, according to relatives, grieving over the death of her husband at Crowley about a year ago.

Moody Grants P. W. Howard Reprieve

AUSTIN, June 4.—P. W. Howard, under sentence to die in the electric chair after midnight for alleged murder of I. V. Nixon, El Paso chauffeur, was granted 60 days reprieve by Governor Moody today.

Three Brunets Beauty Queens

The trend seems to be back toward brunets, according to recent choices of several college queens. These three brunets were chosen by Rolf Armstrong, nationally known beauty expert, as the most beautiful girls at the University of Arkansas. They are, top to bottom, Mildred Fletcher of Little Rock, Wilma Glover of Lonoke, and Bonnie Mintum of Fayetteville.

BIBLE SCHOOL ENROLLS MANY

The Bible school now in progress in the Presbyterian church, every morning except Saturday and Sunday, from 8:30 to 11 a. m., under the general supervision of Rev. James Ross, pastor of the church, opened its doors Monday, with a registration of 17 children in the kindergarten, thirty lads and lasses in the primary section, 27 in the junior department and 16 in the intermediate section, making a total for the opening registration of 90 students, with eleven teachers, a grand total of 101 in all.

Music for the kindergarten and primary departments will be played by Mrs. J. J. Tablaman and pianist for the junior and intermediate will be Mrs. H. B. Clifton of Olden.

Two more teachers were added to the staff, Mrs. Bond and Mrs. Harry Stone.

Any child between the ages of four to 14 is welcome to enter.

Bonds Forfeited On Murder Charge

LUFKIN, Tex., June 4.—Ed McGaughey, charged with murder of Clomon McClain in the court-house at Groveton, failed to appear when his case was called in district court Monday. District Attorney Townsend asked for a forfeiture of bond, which was allowed by Judge C. A. Hogdes. A warrant was issued for the defendant.

The action was taken despite the fact that Judge Hogdes had received a telegram from McGaughey saying he was ill at West Columbia and could not appear for trial.

CHICAGO HOSPITAL BURNS

CHICAGO, June 4.—Eighteen patients were rescued from the blazing Chicago General hospital early today when fire broke out in the boiler room and spread quickly to the four-story building. A check-up revealed no one was injured.

W. P. CROSSLEY IS DEAD IN OGDEN, UTAH

Body Being Shipped to Eastland. Will be Buried at Rising Star.

W. P. (Penn) Crossley, son of Mrs. P. G. Crossley of Eastland, and brother of Ross and Arthur Crossley, also of Eastland, died Saturday night at his home in Ogden, Utah, according to a message received by relatives in Eastland. Mr. Crossley at one time lived in Eastland.

The body is being shipped to Eastland and upon its arrival here will be taken to Rising Star where interment will be made beside Mr. Crossley's first wife.

Other brothers surviving Mr. Crossley are Virgil of Carbon, Geo. of Crane City and Pitt of Plainview.

Flood Damage In Southwest Heavy

KANSAS CITY, June 4.—Parts of five Southwestern states set about today to remedy untold damage caused by floods during the last week.

While a bright sun warmed most of Nebraska, Kansas, Oklahoma and Texas, farmers and workmen in Northern Missouri were striving to prevent the break of dikes along the Grand river which is overflowing into bottom lands between Pattsburg and Brunswick.

The Grand already has washed parts of the Rock Island and Wash-bash railroads out.

Flood conditions were said to be improved in Southeastern Nebraska. The Missouri river was reported rising at Falls City and was steadily rising in Kansas City early today, as the government issued flood warnings.

With damage variously estimated at from \$10,000,000 to \$18,000,000, Kansas farmers are hoping for a clear spell in order that they might harvest a part of the heavy crop of grain in the state.

Houston and Beaumont, Texas, reported conditions much improved there today with waters continuing to recede. Oklahoma flood conditions were said to be satisfactory with the Arkansas and Verdigras receding.

Man Is Attacked; Left on Railroad

BIG SPRING, Tex., June 4.—After being attacked by two men who offered him a ride in their car, G. S. Coleman of Lubbock, was thrown onto a railroad track and left there to die. Coleman regained consciousness and managed to crawl from the tracks in time to escape being hit by a train.

Two men suspected of being his assailants were arrested a short time later and are held in jail.

PRIME MINISTER BALDWIN QUILTS

WINDSOR, Eng., June 4.—King George today accepted the resignation of Stanley Baldwin as Prime Minister of Great Britain. This announcement was made to the United Press shortly after a conference between the king and Baldwin.

Baldwin tendered his resignation because of the recent defeat of the conservative party in the British general elections.

Confederate Veterans Meeting In Charlotte

CHARLOTTE, June 4.—The rapidly thinning ranks of a once mighty host which tramped, fought and bled for "The Lost Cause" were here today for the formal opening of the 39th and possibly last annual reunion of United Confederate veterans.

More than 75,000 visitors—including as many of the remaining veterans as could make the trip—jammed the streets of Charlotte and overtaxed all hotel accommodations. A tent colony is caring for the over-flow.

RAYMONDSVILLE, TEX. EXPLOSION

RAYMONDSVILLE, Tex., June 4.—Explosion of a gasoline engine on the La Jarita ranch, 20 miles southeast of here today probably fatally burned James F. Parker. He was repairing the engine when the explosion occurred.

AUSTIN, Tex., June 4.—
Texas will have a state Hague
if a bill offered by Rep. C. S.
McCombs of Dallas becomes a
law. It authorizes a voluntary
arbitration status for all dis-
putes similar to that now used
by grain dealers and some other
organizations to avoid court litiga-

THIS "SCIENTIFIC DETECTIVE"
SURELY KNOWS HIS BULLETS

Microscope Helps Solve Chicago Murders. All Guns Leave
Tell-Tale Mark, Says Expert.

Major Calvin Goddard is shown
above with his "comparison micro-
scope" and at the right are micro-
scope views of a bullet and a
cartridge used in the Chicago
gang massacre of St. Valentine's
Day. Top, halves of a test bullet
and a fatal bullet are pieced to-
gether to show they were fired
from the same gun. Notice how the markings match us. Below, a
test cartridge and a fatal cartridge compared.

By JOE LOVE, NEA Service Writer
CHICAGO—Every body is familiar with the detective
slueth, who solves murders by twiddling microscopes
and picking up specks of dust with tweezers.
In real life such detectives aren't so common. The average
police force would shoot a slueth of that nature on sight.

Major Calvin Goddard, however, who helps solve Chi-
cago's gang murders, is one
of the detective story stand-
ards.

He uses methods that
smack of fiction—including
microscopes. And he has solved
many a murder which had the po-
lice completely baffled.

Sherlock Holmes could look at
a corpse and announce that the
murderer was a six-foot Italian
with a black mustache and a cast
in his left eye, who came to the
scene in a cab drawn by a black
horse that was lame in his right
front foot.

Links Gun and Bullet
Major Goddard can't do that.
But he can point to a revolver
and say, beyond the possibility of
a doubt, "there is the gun with
which the man was killed."

"No two guns are alike," he
says. "Any gun inevitably leaves
tell-tale marks on a bullet."
Major Goddard is known as the
foremost ballistic expert in
America. His method of opera-
tion, briefly, is this: every gun
makes characteristic scratches on
its bullets—marks that no other
gun can duplicate. All bullets
fired from the same gun have
identical marks. Given the gun
of a suspect and the bullet found
in the body of a murdered man,
a test bullet is fired. If its mark-
ings coincide with the markings of
the bullet from the dead man's

**GOVERNOR TAKES
HAND IN BOXING**

The strong arm of a new con-
tender appeared today to be van-
quishing all before it from one
corner of Texas to the opposite.
The strong arm was that of Gov-
ernor Dan Moody.

Making his debut in boxing
circles by winning over Young
Stribling and Jack McAuliffe at
Fort Worth, Moody today contin-
ued a veritable winning streak.

With aid of his seconds, Texas
sheriffs and scouts, cities in scat-
tered parts of the state were feel-
ing Moody's blows. Acting under
orders from the governor, Sheriff
R. E. Kirk of Galveston county
stopped the scheduled Al Walker-
Long Tom Hawkins fight as 1,000
fans were clamoring at the doors
for admittance.

Down in the Rio Grande the
fight at Donna between Kid Aza-
vache, bantam champion of Mex-
ico, and Johnny Cruz, San Antonio,
was "postponed," as the promo-
toters called it. Attorney Gen-
eral Claude Pollard called their
attention, however, to the state
law forbidding paid attendance.

The fight scheduled for tonight
at San Antonio between Bud
Doyle of San Jose, Cal., and
Maxie Pelz of Portland, Ore., was
cancelled on orders of Owen Kil-
day, chief of police.

Only in one part of the state
does Governor Moody appear to
be losing. The regular monthly
boxing cards on the military reser-
vations at Fort Sam Houston,
Camp Bliss and Camp Crockett
will continue unhampered.

**COMMISSION 220
2ND LIEUTENANTS**

COLLEGE STATION, Tex.,
June 4.—The officers reserve corps
of the United States army was
augmented today by the addition
of 220 second lieutenants, this
number having been awarded com-
missions and certificates of eligi-
bility for commission by Brig-
Gen. Jacob F. Wolters, of the
Texas National guard Monday.

It was pointed out that the
young officers are sufficient in
number to officer a quarter of a
division of troops.

C. O. LANEY DIES

DALLAS, Tex., June 4.—C. O.
Laney, former member of the
Legislature, died at his home here
Monday as the result of drinking
poison. He succumbed a few min-
utes after a physician arrived.

Laney was vice president and
general manager of the Prudential
Building & Loan association, pres-
ident of the Southern Investment
corporation and president of the
Martin-Laney Turkey farm at Jake
June.

PLAYERS TRANSFERRED

AUSTIN, Tex., June 4.—Capt.
Meredit Hopkins of the Universi-
ty of Texas baseball team left
today for New York for a confer-
ence with Yankee officials.
Dusty Rhoads also left today for
Fort Smith, Ark., to join the
Independence, Kas., team of the
Western association. Arvie Walk-
er goes to Big Spring in the
West Texas league.

LOST JEWELS FOUND

NEW YORK, June 4.—The New
York Sun today reports that black
diamonds valued at \$25,000 lost in
air mail transit when a plane
crashed in a swamp near Moline,
Ill., several weeks ago have been
recovered and that 29 other black
diamonds, valued at \$5,000 are still
being sought.

The jewels are reported to have
been sent by Adolph Hirsch & Co.,
diamond cutters, New York, to a
client in El Paso, Texas, for ap-
proval and were being returned to
the Hirsch concern.

COURT MARTIAL ORDERS

NEW YORK, June 4.—The gen-
eral court martial trial for Colonel
Berkeley Enochs, former chief of
staff at Governor's Island, will be
started Monday, June 10 at Gov-
ernor's Island, it was announced
today.

The court martial charges
against Enochs filed by Major
General Hanson B. Ely, command-
ant of the Second Corps Area, who
said the charge was based on
Enochs' failure to carry out orders.

AUTOMOBILES EXPORTED

WASHINGTON, June 4.—Ameri-
can automobile manufacturers ex-
ported during the first four
months of this year passenger cars
and trucks valued at \$254,134,917,
which exceeded by \$89,000,000 for-
eign sales for the corresponding
period in 1928, the commerce de-
partment announced today.

CLEVELAND EXPLOSION

CLEVELAND, O., June 4.—
Death of an employee of the Cleve-
land Clinic today, nearly three
weeks after the disaster, brought
the death toll to 128.

Miss Barbara Merwin, a clinic
secretary, died at Massillon clinic
hospital where she had been a pa-
tient for more than two weeks.
Previously Miss Merwin had been
discharged but returned several
days ago for further treatment.

**Urges Enactment of Law
Creating Public Utility Com-**
mission.

AUSTIN, Tex., June 4.—Enact-
ment of a law creating a public
utility commission to "protect the
people from a utility trust," was
urged on the legislature by Gov.
Dan Moody in an address this at-
ternoon.

"There is no more important
topic before the public today than
public utility regulation," Gov.
Moody said. "The time has come
when we ought to tell the people
them longer in the dark regarding
utility costs and operation or pro-
vide them with a body that can
protect them."

Disclosures at Washington were
cited by Gov. Moody, particularly
the charges that men connected
with utilities have been active in
gaining control of newspapers.

"It used to be the idea that
competition was a good thing,"
said Moody, "but it seems to be
forgotten now. I do not attempt
to say that the anti-trust laws are
violated but there are going on
consolidations and absorptions and
at prices that are significant."

**SELECTING JURY IN
STALLWORTH TRIAL**

AMARILLO, Tex., June 4.—
Examination of prospective jur-
ors for service in the trial of
Mrs. Levi P. Stallworth of Ama-
rillo and her mother-in-law, Mrs.
E. M. Stallworth of Ft. Worth was
resumed in district court here to-
day. Ten jurors had been accept-
ed at noon.

The women are charged with
murder in the slaying of Mrs.
Grace Morrison of Plainview, in
front of a downtown hotel here on
May 13.

Mrs. Stallworth, wife of an Am-
arillo railroad man, is said to have
fired three shots into Mrs. Mor-
rison's body. The elder woman is
charged with holding Mrs. Mor-
rison when she attempted to es-
cape.

**Relief from Gas
Stomach Pains
Dizziness**

The doctors tell us that 90 per-
cent of all sickness is due to stom-
ach and bowel troubles. You can't
be well if your digestion is bad;
you are likely to get sick unless you
relish food and digest it properly.

Tanlac has a wonderful record
as a relief from digestive troubles,
even those of years' standing.

Mr. James F. Campbell, of 1012
W. Fifth St., Little Rock, Ark.,
says: "I had bloating after eating.
My rheumatism was so bad I could
hardly raise my arms. Now I can
eat anything and do a good day's
work."

If you suffer from gas, pains in
the stomach or bowels, dizziness,
nausea, constipation, or torpid
liver; if you have no appetite, can't
sleep and are nervous and all run
down, you need Tanlac. It is good,
pure medicine, made of roots,
herbs and barks. Get a bottle from

different medicines, but the most
they ever did was to give slight

"Then I decided to try the Sar-

out the slightest trace of indigestion.
Then, I slept soundly at
nights, felt greatly benefited and
refreshed in the mornings, and ev-

but better than everything else,
—every neuritis pain is gone! I
have taken four bottles, have gain-

John Curtis Morgan... CHAPTER XIII

Evans, the grumpy mid-law clerk, to keep on the sleeping child, whom he made comfortable on a cot in his father's private office...

He will be found guilty! I thought of that all night...

She could stand no more. And if Morgan caught sight of her she would have to congratulate him...

She did not stop until she reached the crowded shopping district, and then only because traffic compelled her to do so.

Her face cleared somewhat. She was amazingly glad to see him. He had missed him...

It was nice to have him opposite her at table again, nice to have him thinking of her, waiting on her...

Mr. Morgan that I must see immediately, she ordered. He's with the judge, I believe...

There were a few cheers, quick-off by the sharp rap of a gavel. A moment later he had adjourned...

FIRE DAMAGE

LIGHT IN CITY FOR APRIL, MAY

RANGER, Texas, June 4.—On only four occasions was the local fire department called into service in the city during the month of April and May...

Loss from fire to a building in the Lackland addition was damaged to the extent of \$900, with insurance covering most of the damage.

An automobile fire at the intersection of Mesquite and South Rusk streets resulted in slight damage, April 14.

Loss from fire to a building owned by H. G. Adams at 1120 Blackwell road amounted to \$750, and two automobiles were damaged.

Slight damage to a building at 410 Cypress resulted from a fire May 9.

MINISTER

The distinction of being the minister chosen to wed Colonel Charles A. Lindbergh and Anne Morrow fell to Dr. William Adams Brown, professor of systematic theology at Union Theological seminary and long a friend of the family of Ambassador Dwight F. Morrow.

Dr. Brown is widely known as a writer on religious themes and although a liberal, he is a sympathetic critic of the fundamentalist belief.

30 BAPTISED AT THE CLOSE OF REVIVAL

Others Will Unite With the First Baptist Church Later.

RANGER, Texas, June 4.—Fifteen days of steady service and results that were highly pleasing is the history of the Coffman and Rucker meeting at First Baptist church.

No higher type of evangelists have ever visited our city, declared the crowds who attended.

The sweet message of love has been delivered in sermon and song. The good accomplished can never be computed in this life.

Last evening, the pastor, W. H. Johnson, had the pleasure of baptizing 30 converts and nearly as many more to come at a later day.

Many united in other forms. The orchestra under the leadership of Brother Lee Maddox did much for the service, while Miss Satterwhite's skill at the piano was of the highest character.

WASHINGTON LETTER

BY ROBERT DUTCHER NEA Service Writer

WASHINGTON — Most Americans appear to be opposed to killing bootleggers. Even when they try to escape and are shot down, there are few to cheer the policemen and prohibition agents who do the job.

Congressman Charles H. Brand of Athens, Ga., is now convinced of that. It was Brand who, after letting dry all his life, arose in the House to assert that the killing of a feeling prohibition law violator by an officer of the law was actually murder.

In saying that, Brand was defying the powerful Bishop James Cannon of the Methodist Episcopal church, South, who had publicly bestowed his benediction on dry congressmen who had applauded the killing of a supposed Washington bootlegger by a policeman and had referred to the upstate as the "healthiest sign to had observed in a long time."

Brand is surprised. But Bishop Cannon has been left almost alone, with his little group of cheering congressmen, while nearly everyone else who has had anything to say about it has piled onto Brand's side.

Your correspondent found Brand, a small, mild-mannered former superior court judge, more or less smothered with letters and newspaper editorials endorsing his stand he took on prohibition killings. He had received more personal congratulations from his fellow members than the ordinary congressman is likely to get here in ten years of service.

Judge Brand is also considerably astonished at the fact that not one word of criticism has reached his office. Naturally, he expected some. He was wondering what the folk down home would say when he returned to...

use sweet words and ego as a substitute.

Congress should be aware that neither a politician nor a land or sea officer, whose ideas are wholly colored by his education and the needs of his own particular branch of defense, is qualified to judge the air freely and impartially.

Congress should create a new and separate line of defense with its own chiefs and officers—men schooled to the air, to whom it is their whole existence. It is in this specialization that power lies.

Perhaps also when this happens the few favored members of the aeronautical trust who are attempting to hog the industry for their own personal benefit will sell their paraphernalia under a little stricter competition.

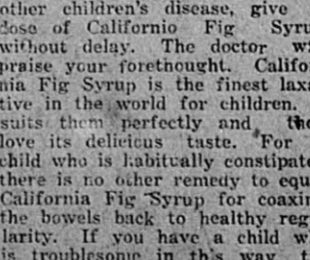

The people of America should force Congress to act upon this matter before it gets so balled up with the military, naval and swivel-chair forces that nothing short of disaster could change it.

RANGER "HOME BEAUTIFUL" IS PROGRESSING

Work Steadily Going Forward—Home Attracts Much Attention.

RANGER, Texas, June 4.—Beautiful and distinctive features will grace the new home being constructed for Dr. J. A. Shackelford on West Main street.

A new type of roofing in a light green tint was imported from Belgium by the Pickering Lumber company for use on the Shackelford home. The roofing is made in a single pattern, and is of a durable asbestos composition.

The Walanaeu wainscoting used for the structure is also of very unusual nature, incorporating a distinctive and more durable quality than is ordinarily found in wainscoting.

Of the eight entrance archways, the main entrance arch is constructed of Luder's stone; the other seven are of face brick.

Work was begun on the building five weeks ago by E. T. Walton, contractor, and will be completed in about two weeks.

These trees have made tremendous growth and one in particular is very thrifty and is now bearing. I believe this tree has averaged much more than an inch a year and that is considered mighty good. I can now, I feel sure, take a Johnson grass meadow, a regular bottom meadow, and set it out in pecan trees, never plow it and at the same time manage the trees so they will likely grow more than an inch a year.

MAJOR LEAGUES

Philadelphia's hero—Lefty Grove, who allowed only one hit in 13 innings and was the first pitcher to beat Uhl, Fitzer mound ace, today. Uhl lost game by forcing a man out in the 13th walking with the bases full, for that spelled a 3 to 2 win.

Philadelphia of the New York Yankees in another pitcher, holding the Chicago Sox to two hits and winning for Ted Lyons, losing allowed only six hits.

Philadelphia scored four runs in the Washington to pave the way for a 6 to 4 victory over the Senators over the Yankees, 10 to 9, but were unable to make their blows as effective.

Pittsburgh Pirates defeated Philadelphia Phillies with ease, behind the pitching of Grimes, who won his 9th. Grimes held the Phils to

WHAT ABOUT BALL PLAYERS' GOLF???

SAM RICE
OF THE SENATORS
GOLFS IN THE SEVENTIES
AND BATS OVER '300

ARNOLD STUTZ, FORMER CUB AND ROBIN, WAS BASEBALL'S GREATEST GOLFER, BUT HE COULDN'T STICK IN THE MAJORS BECAUSE HE LACKED THE BATTING EYE.

TOMMY ARMOUR, GOLF PRO, HIT THE FIRST BASEBALL EVER PITCHED TO HIM FOR A HOMERUN.

IT WAS IN A FRIENDLY CONTEST WITH CARL MAYS, AND HE DIDN'T EVEN TOUCH THE NEXT TWENTY FIVE BALLS.

THERE'S NOTHING WRONG WITH THE BATS BATTING AND HE'S A GOLF HOUND.

THIS PROVES NOTHING, BUT—

EVERY year about this time someone generally brings up the subject of what effect golf has on a ball player's batting eye. The subject gets discussed more and more each season, but a definite conclusion is as far removed as ever.

Managers of big league ball clubs differ in their opinions and both factions can offer plenty of argument. Some enforce rigid prohibition of golf for their players while others even encourage it. With John McGraw's Giants, the game is taboo. Miller Huggins is an enthusiastic golfer himself and if the Yanks want to play, it's Jake with Miller, provided the boys don't overdo it.

Both sides of the argument have concrete examples to present. Sam Rice, best golfer in the major leagues, plays at every opportunity and

he has always been one of the most consistent batters in baseball. Arnold Stutz, who gave promise of being a great outfielder, is said to have ruined his batting with the golf swing. He was good enough golfer to play in major tournaments but he didn't make good with the Cubs or Robins because he forgot how to pickle a baseball.

It is interesting to reverse the idea and see what a professional golfer can do with a ball bat. Several years ago, Tommy Armour, former National Open champion, in an argument with Pitcher Carl Mays, decided to prove that hitting baseballs was pie for a good golfer.

They went out to the Polo grounds and after Carl warmed up with a catcher, Armour stepped to the plate. He hit the first ball Carl served him out of the park. But he didn't even touch 25 subsequent pitches.

UNIQUE STUDIO BEING PLANNED

RANGER, Texas, June 4.—New progress in vocal reproduction has been made with the completion of a device to record the voice upon a permanent, non-breakable record the instant after words are spoken, and the installation of a reproduction station employing these devices is being contemplated for Ranger.

A letter explaining the nature of the recording device has been received by Wayne C. Hickey, secretary of the Ranger Chamber of Commerce, and interest in the plan of instituting a station here is growing. The place of manager is open.

The phonographic device, the manufacture of which is rapidly increasing, records music, voice, or any other sound in the same manner employed in making the usual phonograph record. The record is completed instantly after words or other sounds are transmitted through a microphone into the recording machine.

Dramatic societies, literary and debating clubs, teachers of expression, musical conservatories, glee clubs, schools and colleges, sales managers, etc., are finding recording of this nature a valuable aid to progress.

Greetings may be sent by record instead of by letter or card when this recording device is employed. Words of children may be preserved by parents for future years. And the cost of reproduction is said to be little more than the price of an ordinary phonograph record.

Records of varying sizes, covering short or lengthy periods, may be made.

Rifle and Pistol Experts to Shoot

AUSTIN, June 3.—Crack pistol and rifle shots from all over Texas will shoot it out for state honors at Camp Mabry June 10-16.

J. W. Palmquist of Austin, present rifle champion, will defend his title in the series of matches which will be shot on the range of the National Guard of Texas. Many of the guardsmen will enter as individuals. The 142nd motor transport company of the 36th Division, may enter a team. Request for entry blanks indicate there will be a large number of entries from U. S. army detach-

By the Way . . .

Prospects of the Abilene Eagles winning the state gridiron championship next fall received a terrific jolt the other day. Two bright prospects for the team "flunked" in exams. This reduces the number of candidates for the team to 98, instead of the original 100.

An end towering six feet, four inches is one of the lads who failed to meet scholastic requirements. Groseclose was in action in some of the games last season. Then there is a tackle named Pete Barber who will be unable to play because of his grades. Pete, we presume, is a younger member of the family of which Perry and Truett Barber were well known members.

Next fall, it will be a case of Abilene against the field. Strenuous efforts will be made by all the other teams to end the two-year supremacy of the Eagles. The keenest rivals will join in that sentiment. There are various reasons for this case of "many hearts beating as one." One reason is sufficient however—the good of the district. It was a great thing for Texas football when Waco fell by the wayside last year. It will be a splendid thing for oil belt football if the Eagles' wings can be clipped. Whether this can be achieved is something that no one can tell, of course. It will be a difficult undertaking. But Dempsey was whipped. Tilden fell from the heights. Cobb and Speaker are out of the big leagues. Perhaps—

They're talking about splitting the season in the Texas league. Why? The old alibi of the magnates was that a runaway race was a bad thing and the teams ought to start all over again. But that's bunk of the purest ray serena this year. The owners will have to be louder and funnier.

Just a day or two ago there was half a game between the first and second place teams and only one game difference between second and third position teams. Fort Worth, in fourth place, was only two and a half games out of first and Houston, in fifth position, was two games back of the Cats. Down in sixth position was Wichita Falls trailing Houston by one game. And San Antonio in seventh was half a game back of the Spudders. The Alamo city team, although next to the bottom, was only five and a half games out of first place and beaumont, in the cellar, could—by winning seven games while the top team was losing six—tie in the standing.

When nearly 50 games have been played and only six and a half games separate first and eighth place, brother, you've got a hoos race.

Personally, if they split the season, we never expect to attend another Texas league ball game.

We never went to but one, anyway.

And it wasn't much.

Old Folks Say Doctor Caldwell was Right

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known to druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle of Dr. Caldwell's Syrup Pepsin will last a family several months, and all can use it. It is good for the baby because pleasant to the taste, gentle in action,

and free from narcotics. In proper dose, given in the directions, it is equally effective at all ages. Elderly people will find it especially ideal. All drug stores have the generous bottles.

Do get it a trial, to prove how much Dr. Caldwell's Syrup Pepsin can mean to you and yours.

EASTLAND AND ALBANY GOLF PLAYERS BATTLE TO A TIE

The Eastland and Albany Golf clubs played a hotly-contested match to a tie Sunday afternoon on the local golf course, the result of the match not being determined until the last pair of players came in from the 19th hole.

It took extra holes to decide four of the matches and one of these, that between Roy Mathews and Lonnie King, required 21 holes. The feature game of the day was between Roy Fagan of Albany and S. J. Barnett of Eastland, Barnett winning with a medal score of 3 under par. The results follow:

Proven Relief For Stomach Troubles.

This remedy has afforded hundreds of people relief from biliousness of the stomach, gas on the stomach, indigestion, and other chronic ailments. It tones up the stomach, restores a normal healthy condition, allowing normal digestion to take place. Every person suffering in the least from stomach disorders should use PEPBIL—LESS STOMACHAL to relieve their condition. A neglected stomach ailment may, if not attended to by proper treatment, lead to serious complications. This remedy is especially beneficial in the treatment of biliousness of the stomach.

I wish to tell you how much PEPBIL LESS STOMACHAL has helped me. I had been troubled for four years with acute indigestion and could eat very little solid food. I have taken two bottles of PEPBIL LESS STOMACHAL and I am entirely cured and can eat anything I wish. I earnestly recommend this remedy to anyone troubled with stomach ailments.

MISSIONARY SOCIETY OF CHRISTIAN CHURCH MEETS

The Missionary Society of the Christian church witnessed a very beautiful installation ceremony at their meeting yesterday afternoon in the church conducted by Mrs. Fred Davenport, in the absence of the retiring president, Mrs. M. L. Smitham.

The program opened with the hymn, "Open Mine Eyes," those installed were Mrs. D. J. Fiensy, president; Mrs. Eugene (re-elected) vice president; and Mrs. H. B. Meek, secretary-treasurer.

Following a prayer by the presiding officer, Mrs. Davenport delivered a very beautiful address to both the new and retiring officer, with the gift of an immense vase, each with its silver stem and frilled lace cuff.

The Society gave their pledge in unison, in support of the new officials, the period closing with the hymn, "Have Thine Own Way Lord," and silent prayer of consecration.

Announcement was made that the annual election of officers would be held in the Aid Society next Monday.

The officers of the Missionary Society of the Methodist church in an all day study meeting in the church for next Monday, under the direction of Mrs. S. P. Rumph, their teacher, who will finish the balance of the study this six chapters of "Spiritual Adventuring."

At noon a catered luncheon will be served. There was no meeting held yesterday on account of the absence of the president, Mrs. Luther Bean, and other officers who were unavoidably detained.

CLASS IN EVANGELISM

The Auxiliary of the Church of Christ enjoyed a magnificent lesson, presented by the Rev. H. W. Wrye, with subject the last four Beatitudes, demonstrated with charcoal drawings.

The study for next week will show a diagram for the foundation of the Beatitudes, and the Kingdom of Heaven.

The attendance was small, owing to much illness, and included Meses, Shelby J. Smith, Tom Harrell, Harry Wood, A. Craig, S. G. Roper, H. W. Wrye, C. F. Fchl, A. C. Craig, R. L. Rowe.

Cisco Woman's Suffering of Several Years Now Ended

Mrs. Stubblefield Declares Orgatone Has Done Her More Good Than Anything Else.

"Orgatone has certainly worked wonders in my case," said Mrs. H. S. Stubblefield, 1807 Avenue V, Cisco, Texas, recently. Mrs. Stubblefield is the wife of a well known employe of the Texaco Oil company and has many friends and relatives in this section of Texas.

"For several years," continued Mrs. Stubblefield, "I have suffered with indigestion and dyspepsia and during the past two years especially, I have tried everything imaginable with no results until I got Orgatone. My stomach would cramp and bloat something terrible after eating and sometimes even liquid diet did me the same way. My suffering was awful and I got so I was actually afraid to eat anything. A few months ago my nerves seemed to give way and I have been unable to get sufficient sleep and rest."

"My daughter induced me to try Orgatone and now after taking two bottles I can truthfully say I feel better than I have in many years. My sleep is sound and restful and, oh! it is such a relief to be able to eat what I want without suffering those terrible pains afterwards. I feel very grateful and am only too glad to tell others about the medicine that has done so much for me."

Genuine Orgatone is not a so-called patent or secret remedy, but a new scientific bile treatment, and is sold in Eastland exclusively by Tombs & Richardson Drug Store, who are direct laboratory agents.

Lifting 360-Ton Arch an Hour's Job for Engineers

One of the most intricate feats of engineering ever attempted was completed without a hitch in an hour the other day at the new Goodyear-Zeppelin hangar at the municipal airport, Akron, Ohio. When the immense arch, weighing 360 tons, was finally slipped into place, 200 feet above the ground, officials of the Goodyear-Zeppelin Corporation and the American Bridge Company had completed the hardest part of the stupendous engineering job. The huge arch is shown to the left, and at the right is a closeup of one end showing how the tremendous span was lifted by means of hoists and 78-ton counter-hangar in which two dirigibles will be built for the United States navy.

NEW BAPTIST CHURCH IS ACCORDED SPLENDID WELCOME

By MRS. W. K. JACKSON

The opening of the new Baptist church Sunday, June 2, was an outstanding feature of the church history of Eastland in, not only this addition of this handsome edifice to the city, but the immense concourse of people which attended both morning and evening services. Very beautiful and impressive services with a distinct artistic and musical churchy program.

Flowers of every hue banked the wide Cirsacian rail about the choir loft and below, the pulpit embedded in its lovely foliage, was circled about the curving rostrum with roses in every shade, and larkspur. Tall floor shades of roses, carnations and gerberas were gaily up, by graduating plants, which formed the post or finish at the rim of the choir loft.

Every classroom in the church was hostess by its teacher and each room massed with lovely blossoms for the occasion.

There was an attendance of six hundred an almost capacity house Sunday morning. The sermon by Rev. W. T. Turner, the pastor, was built about faith and its visible evidence in the lives of people.

The address was very fine, and along the line of the pastor's usual finished style.

The two wide entrances to this church had hall decorations of tall floral baskets at either side. Deacons, Thomas J. Pitts, Clyde L. Garrett, John F. McWilliams, J. Carlisle, P. L. Parker, Ed T. Cox, Frank Lovett and J. C. Allison, received the incoming congregation for both morning and evening services at the entrances.

The Fidelis Matron class received in the early morning in their own assembly room, on the first floor.

The music for the morning service was provided by the usual choir, with violin and piano by Miss Dorothy McCandless, and Mrs. Thomas J. Pitts, with the anthem directed by A. M. Hearn.

The "Thanks to God," was beautifully rendered. Miss Hixie Beth Green gave a delightful voice solo, "Beautiful Garden of Prayer," and Miss McCandless, a violin solo.

In the evening, it was impossible to seat all those who desired to enter as the church was crowded and many people were turned away.

There was an audience of more than 750 people. The music was augmented by the addition of an organ, the three instruments forming a beautiful composite, piano, Mrs. Joe Gibson; organ, Mrs. T. J. Pitts, and violin, Miss McCandless.

Rev. W. T. Turner gave a sweet and unassuming talk, a charge to his flock, attempting no formal sermon, but an address that dealt with human aspirations and yearnings and the christian's reliance on the higher things of life with the results of this belief.

The talk dealt largely with harmony, and the true balance and proportions in the religious life, a magnificent and rhythmic valuation of earthly time, and spiritual matters.

The long line of choristers marched up the double aisles in single file, to the choir loft, singing as they marched, "Onward, Christian Soldiers," a magnificent effect and most harmonizing some of the best voices in the city augmenting the choir, pleasing within itself.

After the single forceful verse of the hymn, the choir swung into "All Hail the Power of Jesus' Name," with the congregation joining.

This was the introduction to the famous mass by Gounod, than which none more harmonious musical and victorious was ever composed, "St. Cecilia."

Divided into six groups or phrases, the first "Kyrie" had

magnificent chorus effects, and a trio by Mrs. Joseph B. Leonard, soprano; A. M. Hearn, tenor, and Dr. Vandeverter, bass.

In "Gloria," Mrs. Leonard had a magnificent solo, Dr. Vandeverter a solo of equal value, and Mr. Trimble a delightful tenor solo.

This section closed with a trio, by the above artists, assisted by a chorus of 20 voices.

"Credo" had an outstanding chorus, with the full strength of the choir and a trio, every harmonious, Mrs. Lynn Hilburn, A. M. Hearn, Dr. Vandeverter.

"Sanctus," section, held three outstanding solos, bass, A. M. Hearn, tenor, Mr. Trimble, and soprano, Mrs. Leonard, terminating in a magnificent and solemn chorus.

"Benedictus," presented a solo, unusually well delivered by Miss Oral Hunt, whose full tones were heard to good advantage in the high registers, the solo closing with a finely balanced chorus.

"Agnus Dei" as the culmination of the grand mass, carried solo, ably interpreted by Mrs. Leonard, and Mr. Trimble, with heavy chorus epic intervening and the climax a crashing of thrilling meaning, strength and harmony, that held the audience tense and spellbound.

Prof. Thomas B. Reid, director of the Conservatory of Music of the Randolph college of Cisco, was the director for this presentation. His work was a wonderful conclusion of his experience and ability in matters musical.

The production took 40 minutes for presentation, and no little credit for the beauty may be given the little orchestra of piano, organ and violin, and their talented players.

Rev. and Mrs. W. T. Turner were here, there and everywhere, after the services, meeting the members of the church, and guests, and inviting them to attend the revival service now in progress, and where they will find splendid preaching, good music, good friends and happiness.

OIL NEWS

TULSA, Ok., June 4.—A general increase of 41,263 barrels of crude oil and a light oil increase of 42,494 barrels was noted in the Oil & Gas Journal report issued today.

National daily average was 2,719,725 barrels. Midcontinent field daily average was 1,520,675 barrels, an increase of 21,489 barrels. California climbed from 765,000 to 783,000 barrels. Oklahoma declined 4,240 barrels last week to 686,310 barrels.

PAMPA, Tex., June 4.—An initial production record for Gray county was broken in the last 24 hours when the Operator's Oil company's No. 7 Jackson flowed 14,500 barrels. Three flow lines were necessary to carry the oil. Pay was reached at 2,963 feet.

FORT WORTH, Tex., June 4.—The Texas Railroad commission had before it today a proposal to allow increase of 30,000 barrels daily production in the Yates pool of Pecos county.

The proposal, which would increase the daily total to 130,000 barrels, was approved yesterday by Pecos operators meeting here. The increase would start after July 1. Approval by the commission is expected since the outlet is

FIRST PLACE IN 'AD' INFLUENCE TO NEWSPAPERS

By United Press.
NEW YORK.—Newspaper advertising influences a greater portion of the buying public than all other advertising media combined, according to a survey conducted by Dean Robert A. Johnson of the College of Business Administration, Marquette University, results of which are made public in the current issue of Sales Management magazine.

The results show that the public regards newspaper advertising the undisputed leader in effectiveness, with magazines second, billboards third, mail communications fourth and radio fifth. Car cards, motion pictures, hand bills and other media received scattering mention.

Selecting the most influential advertising medium, 144 persons named newspapers, 76 voted for magazines, 12 for direct advertising, 8 for billboards, and 7 for radio.

Magazine Second
Asked to name the second most effective medium, 97 voted for magazines, 54 for newspapers, 30 for billboards, 20 for radio, and 16 for mail communications.

The survey figures also reveal what this group thinks of advertising as it affects the quality, price, production and selling costs and standards of living of the consumer.

Advertising, in the opinion of 83 per cent of those interviewed is a dominant factor in American industry because it makes people work harder in order to get money to buy the things they see advertised.

Fifty-five per cent of those interviewed believe advertised goods are higher in price than unadvertised goods, but 86 per cent vote that advertised products are also higher in quality.

Approximately 10 out of 20 of the buyers admit that advertising makes it easier for them to decide what they need, to improve their living standards, and to compare the goods offered both in price and quality before buying, the Sales Management article points out.

Will Receive Bids For Sanitary Work

RANGER, Texas, June 4.—Contract will be awarded this month for sanitary work in Ranger until 8 p. m., June 18, by the city secretary and bids will be opened by the city commission that night. Bids must be filed on the unit basis.

Further information may be obtained from J. C. Smith, sanitary commissioner.

MARKETS

NEW YORK, June 4.—Heavy July liquidation and Southern selling on an extensive scale brought trading on the local cotton exchange today. Opening prices showed declines of about 15 points on the active months.

WEST TEXAS increased from 364,337 to 371,462 barrels. North Central Texas averaged 137,060 barrels, an increase of 461 barrels. Eastern Texas fields averaged 115,500 barrels.

The Texas Panhandle increased from 63,945 barrels to 81,308 barrels. Kansas continued its climb, going to 11,410 barrels.

AMERICAN FILM fans en masse to acclaim the most beautiful screen has thus far.

GIRLS SMOKE CIGARETTES BECAUSE IT SEEMS STYLISH

AUSTIN, Tex., June 4.—Girls smoke cigarettes because it seems so stylish, up-to-the-minute to do it, because it depicts their making use of modern equality and in response to alluring appeals to beauty and charm, according to University of Texas and Austin overers.

Few co-eds or women smoke because they like it, half a dozen civic, health and educational workers said here. All admit that the smoking habit is acquired in time, but the original incentive is "to be a good sport," rather than a desire for nicotine, they believe.

As cigarette advertising for the first time openly depicts women smoking, and as the Women's Christian Temperance union has raised the demand that laws be enforced prohibiting minors, boys and girls, from being sold tobacco, Austin people admit that smoking has come to be widespread among girls.

An attitude of "aloof observation" is adopted at the university though smoking is forbidden by rules of each of the girls' dormitories.

College boys drink, when they drink, principally just because it seems to be "the thing to do" in the opinion of Dean V. I. Moore. And it's the same way with girls smoking, he believes. It seems the stylish, modern thing to do.

So far as Dean Moore is concerned—and he expressed a personal sentiment identical with that voiced by others—he doesn't like to see women smoke, and he wouldn't permit his daughter to smoke. But girls and cigarettes mingle pretty freely, even in Austin, it is admitted.

Girls now smoke in restaurants without any pretense of hiding it. Many women may be seen in cigarettes, nonchalantly puffing away at cars.

It is the type of modern, stylish young women who smoke now that spreads the habit, in Dean Moore's opinion. In the old days, the ancient women in the Kentucky hills could be seen puffing on clay or corncob pipes, he pointed out; but they didn't set a fashion or weren't followed for style.

On the "social equality" side Mrs. Beas Ledbetter, president of the Altira club, pointed out a woman has the same moral right to smoke as a man. She says smoking is a health problem for young women; that smoking all ways is injurious physically.

wouldn't start a vicious habit myself," she added, "but I admit a woman has the same moral right to smoke as a man." It was treated as a health problem in training in social hygiene at Columbia, which she took, Mrs. Ledbetter pointed out.

Mrs. Virginia Leberman, president of the Business and Professional Women's clubs, vigorously disagrees with the necessity for a woman to smoke to be considered "au fait." "I take the stand," she said, "that it is not good for a woman to smoke, because of its influence upon younger women, and because of its bad effect upon health. To get the best out of life, one should be in the best health. I wouldn't advise any woman to smoke."

Mrs. Claude de Van Watts, president of the W. C. T. U., has declared her organization is dead against women smoking, against the sale of tobacco to any minor. "It is an insult to womanhood," she said, "to have those appeals put before them, appeals to beauty and such things, as an incentive to smoke."

And Dean Moore believes too that the instinct of good sportsmanship is aptly appealed to by cigarette makers in making it appear in good form to smoke.

At any rate, Austin girls are well ahead of the books of social usage and etiquette. These volumes have not yet chapters to tell them how to smoke at ease in various public gatherings, or when to smoke and when not to smoke.

Emily Post, indeed, reflects a modern trend. She dismisses the whole subject of women smokers in one well-bred "aside," spoken from behind decorous palm. She says a "gentleman" may smoke under the following circumstances, in the presence of ladies, especially in the presence of those who smoke themselves. She lets the whole subject go at that.

Della Thompson Lutes, another etiquette authority, whose book was written a few years earlier, had nothing to say about women smokers, but she included the dictum that "A man who would let the smoke" of his cigar or cigarette blow into the face of a woman "is simply not a gentleman."

Mrs. O. Gideon, better known as Mayme Tom Matthews Gideon of Wichita Falls, is the guest of her mother Mrs. John Matthews.
