Reported Taking Arms Cargo

With 30 carloads totalling 1440 tons of war munitions reported enroute to Vera Cruz from Mexico City for the return trip to Spain, the liner Magallanes (above), confiscated by the Spanish government, became a menace to the peace of Europe since the shipment of arms threatened the European neutrality pact.

**Name of Project
Youths Are Listed**

Names of 13 boys who have given definite promises to participate in a cooperative Eastland County project at the Agricultural and Mechanical College in College Station this year were announced Wednesday by County Agent Cook.

For the house which will accommodate 20 boys at Bryan the agent is seeking others. He advised other youths who wish to participate in the project which will slash costs of attending school to send a deposit to Jack W. Morris at Ranger.
Boys who are signed up are: Claude Chastain, Rising Star; Bart Watson, Ranger, Rt. 1; Billy Jake Joyce, Rising Star; Jack Gray, Rising Star, Rt. 1; Andy Taylor, Eastland; Jack Gourley, Eastland; Clarence Rino, Eastland, Rt. 2; Wesley Lane, Eastland; Jack Morris, Ranger; W. Carl Robert, Freer; Cleo Key, Eastland; Alfred Wiginton, Gillett and R. A. Henderson, Eastland.

At 8 p. m. last night the attractive doctor was charged with the slaying of her husband, Ross Turner, 51, in her office. A short time later she was released on \$3,000 bond in order that she might attend a woman patient. Early today Dr. Hood was present at the birth of the woman's seven and a half pound son.

**Election Contest
Based On Closing
Hour For Polls**

CLEBURNE, Aug. 26.—Because citizens of the Seventh Day Adventist colony at Keene voted after sundown, F. E. Hunter prepared today to contest his defeat by John Russell for state representative.
Russell had an 11-vote margin. His victory was attributed to votes cast in the Keene box, which remained open until 9 p. m. because the adventists observe a sabbath lasting from sunset Friday until sunset Saturday. Election laws require that polling places close at 7 p. m.

**Grapevine WPA
Job Is Halted**

Expiration of work on the Grapevine WPA road improvement project Tuesday and the shift of several of the workers to a Cisco job was announced Wednesday by officials.
Workers of the Grapevine project will be shifted within 10 days, it was understood, to a project for the improvement of the Staff road.
Officials stated a new project application must be submitted before the Grapevine job can be started. It is estimated 30 days' work is necessary for the completion.

**15 More Drought
Counties Bring the
Total Up to 922**

WASHINGTON.—The list of emergency drought counties approached the thousand mark today when 15 counties in 3 States—Arkansas, Missouri and Nebraska—were added to the official drought territory by Department of Agriculture Drought Committee.
The emergency list now includes 932 counties in 22 States.
Eight counties in Arkansas, 4 in Missouri, and 3 in Nebraska were certified today.
With the new designation, the drought areas total 23 counties in Arkansas, 107 in Missouri, and 85 in Nebraska. All but seven counties in Missouri and 8 counties in Nebraska are now within the official drought territory. In only three States, North Dakota, South Dakota and Oklahoma, have all counties within the State been certified as emergency drought areas.

TAKEN ON A
STEADY PACE**

By United Press
Two Administration stalwarts, running in their home states on the New Deal issue, were returned to the United States Senate today.
Sen. Pat Harrison of Mississippi led by nearly two to one in nearly complete returns.
In South Carolina Sen. James Byrnes had almost seven times the vote of his two anti-Administration opponents.

BUFFALO, N. Y., Aug. 26.—Gov. Alf Landon checked over eastern campaign developments today and was assured by Republican chiefs that the prospects of carrying the east are good.
"We're going fine now in every state and will carry both New York and Pennsylvania," Rep. Joseph Martin, eastern campaign manager, said.
SAN FRANCISCO, Aug. 26.—Eleven congressional candidates favorable to the Townsend Old Age Pension plan apparently were nominated in yesterday's primary, returns showed today.

**Department Store
Sales On Increase**

AUSTIN, Tex.—Sales by Texas department stores during July were well above those of the like month last year and the seasonal decline from June to July was less than the average of the past several years, the University of Texas Bureau of Business Research has reported.
Records from 89 representative Texas establishments show an increase in July sales of 21.6 per cent over a year ago and a decline of 21.3 per cent from the preceding month. For the first seven months aggregate sales of these stores exceeded those of the corresponding period last year by 16.1 per cent.

A better showing than the average for the State in comparison with July, 1935, was made in the following cities: Beaumont, Corsicana, Dallas, Fort Worth, Galveston, San Antonio, and Temple.
"There was practically no change in the percentage of credit sales in relation to net sales, but the percentage of outstanding credit accounts collected during July was greater than it was in the corresponding month last year," the Bureau's report said.

**Business Woman

CISCO, Aug. 26.—Fire of undetermined origin damaged the Texas theatre fixtures and building Tuesday morning.
Fire Marshal Gustafson reported an approximate damage of \$400 to the building which belongs to Mrs. Charley Gray, Sr., of Dallas, and about \$100 to the fixtures. The equipment was not damaged by fire, only by water, he said.

**Bull Bellows Alarm;
Chicken Theft Fails**

AVON, Conn.—Answering unusual squawks of chickens, a bull at Oliver Thompson's farm bellowed at 3.30 in the morning.
Thompson, awakened, rushed out in time to see a motor car drive away. He called state police. Three persons were arrested. In their car were 12 of Thompson's chickens.

**PRESIDENT IS
LEARNING OF
BIG DROUGHT**

By United Press
ABOARD ROOSEVELT SPECIAL, Aug. 26.—President Roosevelt conferred with drought relief officials aboard his "dust bowl special" today, enroute to the parched northwest for a series of conferences.
WASHINGTON, August 26.—Federal officials, headed by President Roosevelt, went to the farmers today to learn first hand of drought problems and to discuss a 1937 farm program.
While President Roosevelt sped to the northwest, AAA officials met with farmers at Enid, Okla., and Amarillo, Texas. Other conferences will be held later throughout the drought belt.
Congress will be asked at the next session to make available additional crop production loans, Mr. Roosevelt said.
The Department of Agriculture is negotiating for seed corn loans expected to total \$12,000,000.
AAA officials are expected to urge on congress a revision of the soil conservation program to deal with crop surpluses and drought problems.

**LEFTISTS FATE
HINGES UPON
NEW OFFENSE**

By United Press
News from Spain today indicated that the leftist government is in a precarious position and its fate is in the balance.
Rebel forces were on the aggressive, especially in the far north west of Madrid. Despite optimistic government statements the rebels appeared to be making some gains.
The position of San Sebastian and Irun on the north coast adjoining France, was one of extreme danger.
The city was bombarded from the air and by artillery with considerable damage and casualties.
Heavy fighting also was in progress at Oviedo, the important center near the northwest coast where capture would release rebel forces for use at San Sebastian and the drive on Madrid.
BIRIATOU.—French-Spanish frontier.—Shells fell into French territory today, endangering the lives of the inhabitants as rebel artillery and loyalist forces engaged in a fight for possession of Irun.
PARIS.—Europe today engaged in a dress rehearsal for war. Military maneuvers on varying scales were in progress in France, Germany, Czechoslovakia, Yugoslavia, Roumania, Hungary, Bulgaria, Austria, Italy and Russia.
GIBRALTAR.—The Seville radio station today announced that the northern rebel army had captured the Lovoya River region in the mountains, Madrid's main source of water supply.

**Lack of Mules and
Horses In Nation
Also Hits Texas**

Neglect to breed mares between 1925 and 1933 has left the United States with an excess of horses and mules over 10 years and not enough between 3 and 10 years of age. As a result, there will be a national shortage of about 175,000 horses and 325,000 mules when the 1937 work season opens up, according to information County Agricultural Agent Cook has just received from Wayne Dinsmore, Secretary of the Horse and Mule Association of America.
"Wanted — Stud Horses and Jackasses" is the name of the new leaflet (No. 225) which gives complete information about the horses and mules in every state. Extra copies may be obtained free, from County Agent Cook. It is an interesting little leaflet, full of worth-while information for every farmer.
Dinsmore's figures show that Texas will have to import about 8,500 work horses and approximately 47,900 work mules, from other states, for replacements alone before the 1937 work season starts; that is, colts raised in Texas in 1934 will fall short that number of equalling losses by death in 1936. This means that over \$9,230,000 in cash will have to be paid out by Texas farmers, for work animals, many of which they might easily have raised.
Breeding is increasing, and it is estimated there will be about one million horse and mule colts foaled and raised this year, but death losses in 1936 will be around 1,200,000; so there will be much need for more good sires for some years to come.
Farmers who are interested may obtain a copy of this leaflet (No. 225) by leaving a request for it with the County Agricultural Agent.

**CCC Enrollments
To Be Accepted**

There will be an enrollment for young men to attend the CCC camps during the first two weeks of October, in order to fill camps to their normal capacity for the winter.
Young men between the ages of 17 and 29 will be eligible, providing members of their family are now receiving relief in some form or other. However, only one boy who is physically fit for hard labor and who has been out of camp by honorable discharge for at least one year will be accepted from each family.
It will be necessary to furnish figures to the Government before September 15 showing the actual number available in each county, and those boys desiring to go are asked to call immediately to either their county welfare case worker or the Texas Relief Commission case worker in their respective counties. Those who have already made application and have been called are asked to call and advise the case workers if they still desire to go. Both white and colored persons will be listed at this time.
Young men who are members of Rural Resettlement families are eligible if they are not needed at the farm and meet other requirements. Those who wish to re-enroll are requested to bring their discharge papers with them, so the dates may be correct and no delay occasioned by any omission. A certificate should be brought from a doctor showing that, after examination, the applicant is found free from all diseases which are contagious, and able to do manual labor without danger of injury to himself.
Even though one or more members of a family are working on a WPA project, and there is a balance available to enroll, he will be accepted.

**Florida Youth Is

HOUSTON, Aug. 26.—R. B. Harrison, 24, arrested because an officer saw his photograph in a detective magazine, left here today in custody of Florida officers to face charges of murdering his sweetheart and a man in Bartow, Florida.
Harrison is charged with murdering Miss Betty Lynd and Barney Bass as the couple sat in an automobile last March 26.

**Final Community
Agri Meet Is Due
At Nimrod Tonight**

The last of a series of community agricultural meetings sponsored by the county agent's office will be held tonight at 8 o'clock at Nimrod.
Trench silos, organization of a community agricultural association and a community fair was scheduled for discussion, according to announcement this morning by County Agent Cook.

**Father of Ranger
Man Dies Suddenly**

Word was received in Ranger Wednesday of the sudden death of T. M. Ralston, 65, father of Jake Ralston of Ranger, of Mullhull, Okla. His death occurred in Guthrie, according to the telegram and funeral services are to be conducted at Crescen, Okla., Thursday afternoon.
The decedent is survived by his widow, his son in Ranger, a brother in Mullhull and a sister in Topeka, Kan.
Jake Ralston and his son, Jake, Jr., are to attend the funeral services.

**Woman Is Shot
By Her Husband**

VICTORIA, Aug. 26.—Mrs. Ruby Price was in a serious condition here today with a pistol wound in the stomach, inflicted by her estranged husband, R. D. Price, 34, of Chicago, who committed suicide. The shooting occurred in a rooming house here last night.

**Higher Tax Rate
Vote Is Called
In Cross Roads**

Acting on a petition of over 30 citizens of Cross Roads who complained that transfer of students and money to other districts projects the prospect of a five-month school term. County Judge Clyde L. Garrett Tuesday called an election for Sept. 26 on a proposal to raise the ad valorem tax rate on personal and real property from 50 cents to \$1 on the \$100 valuation.

Ralph Hise was named presiding judge for the election.
Petitioners for the increased rate of taxation were L. A. Eudy, Mrs. M. L. Eudy, Tom Young, Everett Young, J. Young, Mrs. Tom Young, Joe Young, B. D. McGraw, W. E. Walton, W. M. Road To Championship Is Far From Sporting

Now that the Olympic Games victors have been duly cheered, bemedaled, and banqueted, it might be a good thing for us to devote a little time to the question, What does the amateur sports champion get out of it all, anyway?

He gets medals, of course, and headlines, and sometimes he is able to get a fair living out of it—as long as his legs hold up. But he generally has to pay a good deal for these things, and he must sometimes wonder if they are worth all they cost.

To be superlatively good at anything, you have to devote your life to it—whether it be athletics, music, crime detection, or the making of terra cotta busts. The champion has to work at his job everlastingly; he has to eat and sleep his calling, so to speak, between all performances.

There are callings in which the result is infinitely worth the price—and there are callings in which it is not.

A youngster who can swim, or run, or jump, or heave a 16-pound ball of lead faster and farther than anybody else does not get that way solely through the bounty of nature. He must have the gift to begin with, of course, but unless he works like a trooper to develop and perfect it, he will never get his picture in the papers.

This writer recently saw a junior swimming meet. A young lady of some 14 summers put on a truly marvelous display of aquatic prowess. People who watched her said: "Ah—there goes a future Olympic champion."

Well, that is what the young lady's mother thinks, too. She has thought so for a long time—and, as a result, this girl has averaged 2 1/2 hours practice in the pool every day for several years.

Some day, possibly, she will be an Olympic champion, and we all know her name and her contours very well indeed; and we can only hope that she will then feel repaid for all those hours of practice.

Our own private hunch is that some day she will decide that she was sold down the river for the sake of a little fame; and when she makes that decision her dotting mother will not be a lady to be envied.

At any rate, this swimmer is a sample case—a cross-section, so to speak, of the amateur champion as a child. And the way she is driven to sport, as a slave is driven to the mines, is an indication that something is profoundly wrong with our whole conception of sport.

Sport is supposed to be a means of recreation, or relaxation. You go down to the corner to bowl, or out in the country to play golf, or over into the vacant lot to tuck into a bit of softball, because you get a kick out of it.

That's all sport is—except, of course, for the professionals. By glorifying the champions, we turn sport from fun into hard work. And it is the very champion whom we glorify who is apt to suffer most of all.

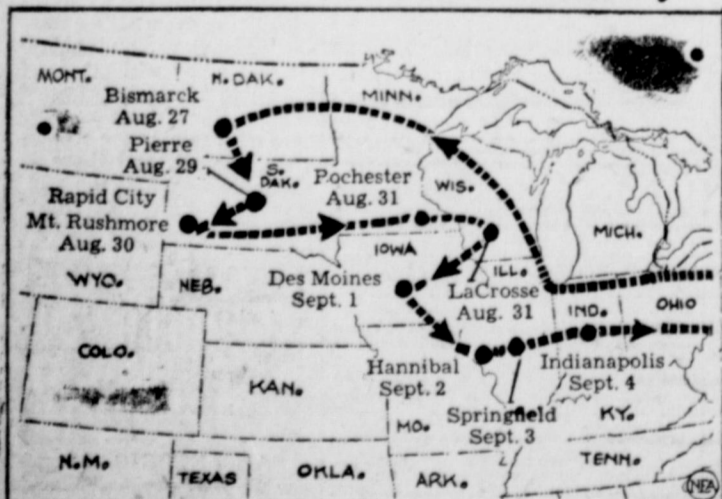

A western farmer was caught in the rain without an umbrella, and was he mad with glee.

A Hume, Mo., physician estimates he has saved \$800 by not having had a shave in 52 years. It seems reasonable; consider what he has saved in ties alone.

A new beer, according to the ads, "picks you up." Just the thing to take, then, after the eighth or tenth whiskey.

We never realized how scarce crime was becoming in this country until we read of the rumor that the federal secret service men were investigating the G-men.

Route of Roosevelt's Journey

Itinerary of President Roosevelt into the drouth area, with a halt for flood control discussion on his return east, is shown on the above map. Within 10 days the president will confer with 16 governors and several U. S. senators on acute problems confronting their states, visit Mt. Rushmore, dedicate a bridge at Hannibal, Mo., and return to Hyde Park, N. Y. In Bismarck, Roosevelt will meet the governors of North Dakota and Montana and in Pierre the governor of South Dakota and Wyoming senators. From a visit to Gov. Floyd Olson of Minnesota in Mayo's Rochester hospital, the president will go to LaCrosse to meet Gov. Phil LaFollette of Wisconsin and from there to Des Moines for a parley with Governor Landon and the chief executives of Iowa, Nebraska, Missouri, and Oklahoma. The bridge dedication at Hannibal will be followed by the Springfield meeting with the governors of Indiana, Ohio, Michigan, and Kentucky on flood control.

OLIVE BRANCHES

Life of the Saint Of the Day

By REV. S. E. BYRNE

St. Zephyrinus, a native of Rome, succeeded Victor as Pope, in the year 202, in which year Severus raised the fifth most bloody persecution against the Church, which continued not for two years only, but until the death of that emperor in 211. Under this furious storm this holy pastor was the support and comfort of the distressed flock of Christ, and he suffered by charity and compassion what every confessor underwent. The triumphs of the martyrs were indeed his joy, but his heart received many deep wounds from the fall of apostates and heretics. It was also the sorrow of this Saint to see she fall of Tertullian, which seems to have owing partly to his pride. Eusebius tells us that his holy Pope exerted his zeal so strenuously against the blasphemous of the heretics that they treated him in a most contumelious manner; but it was his glory that they called him the principal defender of Christ's divinity. St. Zephyrinus filled the pontifical chair seventeen years, dying in 219. He was buried in his own cemetery, on the 26th of August. He is, in some Martyrologies, styled a martyr, which title he might deserve by what he suffered in the persecution, though he perhaps did not die by the executioner.

Softball Teams to Enter Tournament Late This Month

EDITOR'S NOTE: This is the second of a series of three articles on softball in Texas.

BY RICHARD M. MOREHEAD
United Press Staff Correspondent
FORT WORTH—Best teams from the 1,000 engaged in organizing Texas softball leagues will meet in district tournaments this month to determine which will battle for the Amateur Softball Association of America state title.

The ASAA state championship both for men and women will be decided in Fort Worth Sept. 4-7. The winning team—both for men and women, will compete in the national meet at Chicago, Sept. 12-14.

ASAA is one of two statewide leagues operated in Texas. The second and older conference is the Texas Amateur Athletic Federation, whose state tournament for men will be held in Austin Aug. 21-22. The same dates are set for the women's tournament at San Antonio.

District eliminations for the ASAA will be held as follows: Pampa, Aug. 19-20; Childress, Aug. 25-27; Littlefield, Aug. 25-29; Big Spring, Aug. 25-29; El Paso, Aug. 20-23; San Angelo, Aug. 17-19; Breckenridge, Aug. 19-22; Wichita Falls, Aug. 23-29; Mineral Wells, Aug. 19-22; Fort Worth, Aug. 26-29; Dallas, Aug. 19-23; Overton, Aug. 25-29; Taylor, Aug. 25-26; and Port Arthur, Aug. 19-20.

One district tournament, the one at San Antonio, already has been played. On Aug. 15 thirty

Throckmorton Is Downed by Girl Team Tuesday

The Eastland girls softball team knows now how Commodore Perry felt when he sent his famous message, "We have met the enemy and they are ours." Smarting under the memory of what they believe to be an unwarranted defeat by Throckmorton in the district play off, they thrilled a grand stand full of fans Tuesday night by beating the district champions by a score of 3 to 0. It was a pitchers battle throughout, with Walsh standing 6 for Eastland and 4 for Throckmorton. Dorothy Walsh's home run in the second inning stood out as the batting triumph of the evening and on the mound she turned in one of the best pitching jobs she has shown this season. Babe Roark, the clever pitcher for the Breckenridge Advertisers, was on the mound for Throckmorton and turned in almost as good a performance as did Walsh, pitching a game that will win three out of four games any time. But against the steady pitching and clever field play of the Eastland girls last night she didn't have a chance. The game went nine innings and in five of them only three batters faced Walsh. Throckmorton threatened seriously in only one inning, the first, when with one out they loaded the bases on Eastland's only errors and a hit, but Pee Wee took Wilkinson's grounder and threw the runner out at the plate and then took the next one to get the batter a first.

License Bureau For Auto Drivers Functions Nicely

AUSTIN — The Drivers' License Bureau, newest branch of the State Department of Public Safety, is functioning smoothly, Chief L. G. Phares of the highway patrol announced here.

Since operations were begun on Feb. 14, the bureau has filed approximately three million drivers and chauffeurs licenses. Two files are kept. County clerks who issue the licenses make three copies. One is given to the driver, and two are sent to the bureau to be filed by county and by number.

Of greater service, and a boon to the men who must supervise highway traffic in a state as large as Texas, is the accident map and file kept by the bureau. Chief Phares said. On this map is indicated the exact spot on a Texas highway where an accident has occurred. The color of the dots locating the accident indicates whether it was fatal or non-fatal.

The map serves two purposes, Chief Phares said. It indicates the trouble or danger spots on the highways, and allows shifting of men from one danger spot to others. If there are too many red dots—the color employed to indicate death—on a certain road, more patrolmen can be ordered to that area to supervise traffic.

In conjunction with the map is a cross filing system of accident reports. In these cabinets is the name of every person who has participated in an accident reported to the bureau—and more than 800 are being reported each month. Each report is also classified as to county.

To eliminate guesswork, each accident report as to county is marked with the exact time at which it occurred. This, Chief Phares explained, determines the hours certain highways are danger spots. Action is then taken to provide competent traffic super-

Latin America Stages a Tourist Drive Over World

WASHINGTON — The great cities of South America, with a quick perception of the possibilities of air transport, have set out to tell the entire world of the many tourist attractions on the southern continent. This fact is apparent after a 16,000-mile air tour by the correspondent.

Rio, B. A. (as the Argentine capital is affectionately known to travelers), Santiago, Lima, Bogota and a host of other cities have supplemented their civic and natural attractions with a new appeal to air passengers.

Piano-tops in hotel lobbies are laden with literature of airlines; the American "Panair" on the east coast and "Panafira" on the west coast blazon the speedy passage to and from the United States; Santiago boasts that its Miral service to Europe is faster than the present trans-Atlantic mail service from New York, and routelette castings, pre-Incan ruins, Andean hunting trips lend themselves to the tourist lure.

Ocean Service Awaited
All South America awaits establishment of regular airplane travel across the North Atlantic; for the west coast it will mean travel via New York to Europe at a speed never dreamed in history; for the east coast it means a great Atlantic triangle with Rio at the Vanadium apex, easily accessible to the large cities of Argentina, Uruguay and Chile as well as Brazil.

In the new rivalry for tourists, South America offers to give as well as take. A stream of travel by air is rapidly developing through Miami, Fla., and Mexican frontier points to mid-western and Pacific coast cities of the

Film Protested By Panhandle Is Seen by Officials

The film that evoked the criticism and efforts of citizens of the Panhandle to halt its showing was viewed by Robert W. Fisher, regional supervisor of the Resettlement Administration, and agricultural agents of the county at the Connelley Theatre in Eastland, Wednesday morning.

The film, "The Plow That Broke the Plains," in three reels shows the desolation wrought to once productive land in the dust bowl by wind and the sun and the efforts of the Resettlement Administration to rehabilitate that section.

The picture was protested by some as an inaccurate condition of the land in the Texas Panhandle.

The film has been praised by officials and critics of the coun-

try. It was produced by the Resettlement Administration.

The film is booked Sunday at the Connelley Theatre.

CARD OF THANKS

In the events of life and the enjoyment of the many blessings, there come sorrows to sadden our hearts.

In the passing of our daughter and sister, Virginia Stone, we are made to realize and appreciate the value and extent of true and enduring friendships.

Virginia had such friends in Eastland and other places where she had lived and served and to all those who have administered to her need and care during her life time, and particularly during her illness, and who so tenderly assisted and mourned with us in the last services, then we, her family, are most grateful.

We humbly implore the mercies of our Heavenly Father on you,

"THE CALL TO ATTACK"

The common cold germ is marshalling his forces for the annual attack. Soon this insidious enemy will prepare to live up to his reputation as America's greatest enemy to good health. Each year more than two hundred million "common colds" undermine the health of the nation and often pave the way for such serious illnesses as pneumonia, bronchitis, influenza, tuberculosis, and other health-wrecking respiratory diseases.

Leading doctors tell us that fifty per cent of all disabling diseases start with a "common cold." And the invisible but dangerous cold germ finds one of his best opportunities in homes where occupants are most liable to sudden changes of temperature. Therefore, it is a wise precaution to avoid the possibility of sudden changes of temperature in your home this coming winter by providing a constant circulation of pure warm air throughout the house.

Use your home to the fullest this winter as you have during the summer. It will assist you to fight the common cold germ, the leading threat to good health.

LONE STAR GAS COMPANY.

According to government statistics, diseases of our breathing apparatus are responsible for about one death in every five. Don't gamble with a cold.

"Where Did You Get It?"

Sometimes, in a friend's house, you see a particularly handsome rug or lamp, a new vacuum cleaner, an attractive chair or table. Or perhaps it's a new coat or dress, or some delicious new food-product.

You ask: "Where did you get it?" Your friend says: "I got it at Blanks." You don't ask: "How did you know Blanks had it?"

There is no need to ask; there is no mystery about that. You know your friend reads the advertisements in this paper. You merely sight enviously, and think: "I must have missed reading the ads that day."

Make it a habit to read the advertising pages of this newspaper regularly, carefully.
