In War Or Traffic, Innocents Still Die

Americans read with horror the lurid stories from Spain of a conflict taking an average of perhaps 1000 lives a day. At least 30,000 are dead in Spain in the death struggle that is now more than a month old.

Horrible! Yet in the last seven months 18,560 Americans have also been killed, violently, their blood crimsoning the pavements, their mutilation and agonies no less sickening and sharp.

They are just as dead as their Spanish brothers, without even such satisfaction as there may be in dying for a cause.

They are the traffic victims. If their toll increases during the latter part of the year, as it usually does, then the casualty list will be higher this year than ever before. Last year 37,000 died, probably a greater cost in life than the Spanish revolt told to date.

This in spite of widespread safety drives and a mass of publicity for highway safety that has not been equaled in many years.

Get what solace you can from the thought that this increased toll probably is due primarily to more cars on the roads. Gasoline consumption was up 10 per cent in May as compared to a year ago, and traffic is probably up in proportion. Your own observation of tourists and traffic in town will verify this.

Statistical sharks figure that the deaths per 10,000,000 gallons of gasoline used have actually lessened somewhat, which is hopeful. But the fact that certain states have made marked reductions in their traffic toll augurs badly for the others.

New Hampshire, for instance, reports a 31 per cent reduction. That means that somebody else is falling down on the job.

Tentative figures do tend to show that states which have rigid drivers' license laws have been leaders in reducing their auto toll, since those laws make it easier to get obviously dangerous drivers off the streets.

But, in the long run, the law won't settle the problem. It can't. Nobody can make a genuine dent in the slaughter of the innocents except you, and you, and you. The man behind the wheel is the one who holds in his hands life and death, not only for himself, but for others.

There have been few campaign speeches so far, so Mother Nature must accept full blame for all that hot air.

HOPKINS, Minn., claims the title of "raspberry capital of the nation." In recent months, we thought Washington, D. C., had a monopoly on the crop.

Parents Brave Deadly Germs in Fight to Save Son

With his parents acting as "living test tubes" in a desperate battle to save him from death by streptococci infection of the specific viridans type, almost always fatal, Philip Levitt, 7-year-old Chicago boy, is shown here as his sister, Floralee, reads to him. The parents underwent inoculation with the death-dealing germs and the serum from their blood will be introduced into the lad's veins. Only antidote for the ailment, declares Dr. Morris Fishbein, health writer for NEA Service and this newspaper, is blood from a newly recovered victim, and these are rare, as the infection has a very high mortality rate.

TODAY IS OURS

by NARD JONES © 1936 NEA Service, Inc.

BEGIN HERE TODAY

JUDITH HOWARD, engaged to STEPHEN FOWLER for four years, breaks the engagement because Stephen is unwilling to marry her and she is unwilling to have her job. Judith is encouraged in this move by her friend, VIRGINIA BENT.

Lonely and unhappy, Judith goes for a walk and steps in front of an approaching automobile. To avoid hitting her, the driver swerves, and strikes a fire hydrant. He is injured and taken to a hospital. Judith, feeling responsible, goes along.

At the hospital young DR. EDEN HARRIS tells her the motorist's injuries are not serious. Later Dr. Harris takes her home. In a burst of confidence Judith tells him about her broken engagement.

Next day Judith goes to the office of FRANCIS JARVIS, the injured man, to apologize for her thoughtlessness. Several days pass and Dr. Harris invites Judith to dinner. Later he is obliged to break the engagement.

Judith learns that Steve has leased a big contract and bought a new car.

Francis Jarvis comes to see her. He has been drinking and Judith is wondering entirely in Judith's company. When the Bents dropped in, an hour later, they found the two in the kitchen king candy.

And when Harris had gone, Virginia whispered to Judith, "Darling, I like that man!"

"So do I," Judith admitted slowly. "I... like him, too."

With the realization that she'd found a staunch friend in Eden Harris, Judith's dark philosophy changed as the days went by. Virginia Bent noticed it almost at once; and she told Bob, "Judith's coming out of it now. I was afraid for a while that she wouldn't. Du, he is!"

She would never have let on so optimistic if she had known that on this very day Steve telephoned Judith, asked her to meet him for luncheon, and that she had accepted.

AND it was indeed a different Steve who met Judith Howard in the little restaurant around the corner from the building where she worked. He wore a new suit—a better suit than he had owned for a long time. He seemed utterly sure of himself now, and much more like the Steve Fowler who had, so long ago, offered to see that her ice skates were sharpened properly.

"It's been a long time," he said, looking at her across the table.

"Yes," Judith said, avoiding his direct gaze. "I know it has, Steve."

"Why did you let me see you today when all the other times you refused?"

She looked up at him. "Because it'd been such a long time. I thought we could talk now—soberly and sensibly."

"Do you know why I wanted to see you?"

"I don't know," she said. "The question startled her. What reason would there be, except
