"OLD RIP" MISSING FROM HIS TOMB

Two Gangsters Are Killed In Battle Over Still

ATHLETICS TAKE SECOND GAME BY 6 TO 1 SCORE

Two Others Are Injured When Rivals Clash

Officers Believe More May Have Been Less Seriously Hurt.

By United Press
WATERLOO, Ill., Oct. 2.—Two gangsters were shot to death and two others wounded in a battle between rival bootlegging gangs near here today.

Pete McGuire and William Boone, members of the notorious Skook gang of St. Louis, were killed by the sheriff's office today.

Joe Mocerri and Sam Therman were wounded seriously. Officers believe they may have been less seriously wounded. Therman fled the fight when he staggered into a St. Louis hospital with bleeding wounds in both hips. Officers said the men involved in the fight at Valmeier were trying to dominate bootlegging in southwestern Illinois. Valmeier is about 30 miles south of St. Louis.

Therman told police that several men attacked a still, he and several other moonshiners were operating. The attackers used machine guns but were driven off, Therman said, after several minutes fighting.

Ex-Legislator Trapped In Fraud

Sought for seven years on charges of embezzling \$60,000 from a company in Trenton, N. J., "Shuffling Jim" Hammond, former New Jersey state senator, is shown at the right as he was arraigned before Judge Rogan in Albany, N. Y., after he had surrendered. The former legislator and Anti-Saloon League worker was recognized by a former schoolmate, the wife of a detective, who remembered his peculiar shuffling gait. He is faced by five indictments.

Four Students Leap To Safety Through Flames

By United Press
SAN MARCOS, TEX., Oct. 2.—Trapped on a second floor and forced to leap through smoke and flames, four students of the southwest Texas State Teachers' College narrowly escaped death when fire destroyed two gymnasiums early today.

H. A. Nelson discovered the blaze and went to arouse three men he knew to be sleeping in the men's gymnasium. The four barely made their escape. The flames spread to the women's gymnasium nearby, and both large frame structures were razed.

Damage was estimated at \$25,000 by college officials. The loss was partially covered by insurance.

No explanation of the origin of the fire was given as officials began an investigation this morning. The blaze was first sighted in the men's gymnasium.

The early morning flames marked the first fire at the San Marcos college in 27 years.

Maple Jury Is About Completed

By United Press
HOUSTON, TEX., Oct. 2.—Jesse D. Maple, world war veteran of the "Rattlesnake" Division, listlessly watched the picking today of the last juror to try him for the murder of motorcycle officer E. D. Fitzgerald.

Without once speaking to his attorney, F. O. Fuller, after he had refused to aid the lawyer in picking the jury, Maple saw eleven of the twelve jurors, whom he expected to send him to the electric chair, seated in the jury box.

He said that he expects "the cap" and wants it.

Fitzgerald and W. B. Phares, his fellow officer, were slain when they attempted to arrest Maple on a charge of holding up a furniture store.

Cisco District Meeting To Be Held At Carbon

The general round up meeting of all the preachers of the Cisco district will be held at Carbon, Oct. 6. Carbon was selected for this meeting because of its being almost centrally located. Murder Theory Discredited In Finding of Body

By United Press
HOUSTON, TEX., Oct. 2.—A theory of murder gave way to one of suicide here today, following identification of a decomposed body found in the woods by Mexican woodcutters last Saturday.

Mrs. M. Patterson identified the body as that of her son, Carl Patterson, 18, who disappeared April 24. The boy was sickly and moribund, and had threatened to take his life.

Cochrane Leads Attack With a Homer In First

Earnshaw Kent Cardinals Hitting Easy Flies and Was Never In Trouble.

By FRANK GETTY
Sports Editor—United Press
SHIBBS PARK, Philadelphia, Oct. 2.—George Earnshaw kept the unhappy St. Louis Cardinals popping easy flies this afternoon and the Philadelphia Athletics won the second game of the world series 6 to 1. The Athletics opened up early against Flint Ehem, driving him to the showers in the fourth after scoring all their runs. Jim Lindsey and Sylvester Johnson finished for the Cards and were effective, but too late.

The St. Louis line run came on abomber by George Watkins in the second inning.

Mickey Cochrane led the Athletics' attack with a homer in the first followed by solid hits by Simmons and Fox which added another run and put the game on ice.

The lineup for the second game starting at 1:30 p. m. today was:

Athletics
Bishop, 2b; Dykes, 3b; Cochrane, c; Simmons 1f; Fox, 1b; Miller, rf; Haas, cf; Boley, ss; Earnshaw, p.

Cardinals
Dought, cf; Adams, 3b; Frisch, 2b; Bottomley, 1b; Hafey, 1f; Watkins, rf; Mancuso, c; Gelbert, ss; Rhem, p.

Umpires—At the plate: Rigler, 1st base; Geisel, second base; Reardon; third base, Moriarty.

First inning—Cardinals; Douthitt popped to Dykes. Adams flied to Simmons. Frisch got a long hit to center, establishing a new world record for him. Bottomley flied to Haas. No runs, one hit, no errors.

Athletics—Bishop lined out to Douthitt. Dykes out, Adams to Bottomley. Cochrane hit a home run over the right field wall. Simmons singled to center. Fox hit first base ball for a double, scoring Simmons. Miller out Bottomley, unassisted. Two runs, three hits no errors.

Second inning—Cardinals; Hafey popped to Bishop. Watkins hit a home run over the right field wall. Mancuso singled. Gelbert singled through the box, Mancuso to third. Rhem fanned. Douthitt popped to Bishop. One run, three hits, no errors.

Athletics—Haas fanned. Boley popped to Frisch. Earnshaw flied to Hafey. No runs, no hits, no errors.

Third inning—Cardinals; Adams flied to Miller. Frisch safe on Boley's error. Bottomley fanned. Frisch stole second and went to third on Cochrane's wild throw. Hired fanned. No runs, no hits, two errors.

Athletics—Bishop out to Bottomley, unassisted. Dykes fanned. Cochrane safe on Frisch's error. Simmons doubled, scoring Cochrane. (Continued on page 2)

Buck Forced To Land At Glenrio

AMARILLO, TEX., Oct. 2.—Motor trouble forced Robert Buck, 16, aviator attempting to set a new junior transcontinental flight record, to descend near Glenrio, 70 miles west of here, today.

He made a safe landing, and the plane was not damaged, he reported here. A plane left English field here to assist in repairing the motor.

Buck took off for Albuquerque N. Mex. at 8:30 a. m. today.

The exact nature of his difficulty was not revealed in a long distance call.

He expected to resume his flight as soon as the motor was repaired.

Buck spent the night here after a hazardous flight from Wichita, Kansas, in a windstorm yesterday.

Character Building Development Of Character Is Scout Objective

AN EDITORIAL
"The Scout method of developing character is not by preaching. It is through the Scout path and Law, the daily Good Turn and the system of "Learning by Doing." Scouting gives the boy opportunities to express himself through directed activity, responsibility, and a program that appeals to the man in him. It develops a high regard for integrity by reason of its appeal to his imagination. This is done through the Scout Oath and the Scout Law. The Scout feels he is a successor to the high-principled knights of chivalry, the pioneer scout who made our country's early history.

The Boy Scouts of America creates and maintains conditions so that boys intensely desire to be Scouts. In proportion to the intensity of this desire of the Boy to be a Scout does he by self-expression by self-discipline, impose upon himself the obligation to be true to those principles which are involved in his right to think of and call himself a Scout."

Hamilton Is "No Billed" By The Grand Jury

Johnnie Hamilton, federal prohibition officer who was charged with the fatal shooting of Virgil Day at Cisco on Wednesday, Sept. 17, was not-billed by the 88th district court grand jury, which recessed late Wednesday afternoon.

Thirty-two felony indictments were returned by the grand jury at its present session. It had recessed last Monday and recessed subject to call of the court.

Hall Tire Co. Is Robbed By A Bold Bandit

Officers this morning were running down clues as to the identity of a well dressed young man who, about 9:30 last night, took \$40 from the cash register at the Hall Tire Company's station here at White and North Seaman streets.

According to employees they were fixing a tire for a customer at the front of the station and about fifteen feet from the door leading into the station. They heard the cash register ring and saw, through the plate glass, the form of a man whom they mistook for the moment as the company manager. On further observation however, they discovered the man was a stranger. By this time the bandit was walking out of the station and as he reached the driveway he broke into a run. The employees gave chase, but soon lost sight of their quarry.

Examination of the cash register showed that the bandit had pushed the "paid out" key and took the amount of cash in the machine.

A short time ago the Hall Tire company's station at Ranger was robbed. Two men are being held for that job.

Complaint Filed Today Against C. F. Shepperd

Chamber of Commerce Is Making Investigation and Word Is Sent Out to Apprehend Man.

Eastland chamber of commerce officials and many of the citizens of the town are up in arms.

"Old Rip," the city's famous horned frog that slept for 31 years in the cornerstone of the old Eastland county courthouse, has been stolen, according to chamber of commerce officials. The frog disappeared from its resting place in a specially prepared tomb in the lobby of the county courthouse sometime Tuesday.

John Mouser, president of the Eastland chamber of commerce, and Dr. H. B. Tanner, secretary of the local commercial organization, were investigating every clue this morning in an effort to run down the person who took the frog and to restore the frog to its place in the courthouse.

"The chamber of commerce has spent several hundred dollars erecting signboards and printing literature advertising the fact that "Old Rip" may be seen at the Eastland county courthouse and if he is not there it will reflect to the discredit of the chamber of commerce, and to the city of Eastland," Mouser and Tanner declared this morning.

As a result of the investigation made by those interested in the matter, a complaint charging "Old Rip" was filed against Charles Shepperd, elevator operator in the county courthouse with stealing the frog, was sworn out this morning before Justice of the Peace Jim Steele by Dr. H. B. Tanner. A warrant has been issued for Shepperd, who, it is stated, is enroute to California, and officers are said to be looking for him along the Bankhead highway between Eastland and El Paso. It is feared, however that Shepperd has been informed by friends in Eastland that the warrant was out for him and that he may change his course and leave the country.

Guards Seeking Escaped Insane Prison Inmate

By United Press
LANSDING, IOWA, Oct. 2.—Guards from Kansas state prison searched surrounding country today for Gerald Dykes, insane convict who escaped after a companion was wounded and captured.

Dykes and Kenneth Thomas, his cellmate in the ward for insane criminals, used an improvised key to escape from their cell block last night. A ladder fashioned from his bed slats helped them to scale the 16 foot walls.

Thomas was wounded by wall guards and was captured. Dykes escaped, and was believed hiding on the banks of the Missouri river near here.

Suit Decided In Favor Of Bank

In the case of the First National Bank of Gorman vs. C. V. Wright, et al, tried Wednesday in the 88th district court, the jury rendered a verdict in favor of the bank. The suit was on a note, which the defendants alleged had been blank when they signed it, but which had been filled out for a greater sum than they understood it was to be drawn for after they affixed their signatures. The bank denied that the note was signed by the defendants in blank.

OIL NEWS

BY UNITED PRESS

HENDERSON, Tex., Oct. 2.—Final test on the Joiner No. 3 wildcat, was expected to be made today as crowds packed the highways of Henderson and Rusk county anticipating the blowing in of the big well.

Oil men from all sections of the country watched the crew ball out the hole and start drilling a cement plug set in the bottom of the hole 10 days ago following a drill stem test of Sept. 5, when a clear showing of oil testing 38 degrees gravity was made.

Two thousand people milled about the well this morning, as another two thousand jammed the streets of this little town. Leases and royalties were being traded at fancy figures.

SAN ANGELO, Tex., Oct. 2.—In seven counties of the Permian basin, 11 tests for oil were completed last week, six of which were rated producers at 1,922 barrels daily. The remainder were dry holes.

SAN ANTONIO, Tex., Oct. 2.—Considerable interest was aroused here when the Frio county wildcat test of Wray and Dunbar made a gas strike. The hole bridged over after a blowout at 2,368 feet. There were no indications of oil. Workmen were attempting to drill out the bridge today.

May Broadcast Plea For New Amendments

FORT WORTH, Tex., Oct. 1.—Radio stations here and elsewhere will be asked to donate time to speakers advocating the four constitutional amendments to be voted on in November. This aid must be voluntary and unpaid. Tarrant County Representative Walter Beck declared, because here is no available public or private fund for such help.

The four amendments would: in 60 to 120 days; provide for continuous sessions of the supreme court; tax oil lands of the state university; permit investment of university funds on a wider scale.

REALITY WAS LESSON AT SCIENCE CHURCH

"Reality" was the lesson-sermon subject in all Churches of Christ, Scientist, Sunday, September 28. The golden text was from John 8:12: "Then spake Jesus again unto them, saying, I am the light of the world; he that followeth me shall not walk in darkness, but shall have the light of life."

The service included the following passages from the Bible: "I am the Lord, and there is none else, there is no God beside me: I grieved thee, though thou hast not known me: That they may know from the rising of the sun, and from the west, that there is none beside me"—Isaiah 45:5, 6.

The following citations from "Science and Health with Key to the Scriptures," by Mary Baker Eddy, were also included in the lesson-sermon: "There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed

from this great and only cause" (p. 207). "Material sense does not unfold the facts of existence; but spiritual sense lifts human consciousness into eternal Truth." (p. 95).

OLDER PEOPLE Must watch bowels Constantly!

As we grow older the bowels become more sluggish. They don't get rid of all the waste. Some days they do not move at all. So older people need to watch their bowels constantly. Only by doing this can they hope to avoid the many forms of sickness caused by constipation.

When your bowels need help remember a doctor should know what is best for them, and get a bottle of Dr. Caldwell's Syrup Pepsin from your drug store. Syrup Pepsin is a doctor's prescription for lagging bowels, good for all ages.

No restriction of habits or diet is necessary while taking Syrup Pepsin. Made from fresh, laxative herbs, pure pepsin and other valuable ingredients, it is absolutely safe. It will not gripe, sicken or weaken you.

Take a spoonful next time your tongue is coated, or you have a bad taste in your mouth. It clears up a bilious, headachy, dull, weak, gassy condition every time. When you see how good it tastes and how nice it acts, you'll know why Dr. Caldwell's Syrup Pepsin is the world's most popular laxative for every member of the family.

Herb and Homers Runs Fail To Make Crowd Cheer

PHILADELPHIA, Oct. 2.—Unless Louis can stir up something, it has to be recorded that a lot of color and glamor has departed from that typical American in-cision known as the World's Series.

There was no rooting section. A few people did break down now and then and clap their hands delicately. There was no brass band. Instead music came from phonograph records played over an amplifier. Even "Hail the Chief," played when Mr. Hoover entered, and the "Star Spangled Banner," which brought all those thousands of people to their feet, heads bare, were around out by a talking machine.

The old pennant raising ceremony was missing. When it came time to raise the pennant some ground keeper just went out and ran it up the flag pole. No one cheered.

Not half the people in the park knew anything was happening when President Hoover teased out the first ball. Most of them saw it bending across the field and thought it just another ball rolling around. Mr. Hoover smiled and seemed to do his best to liven things up but not even the President could do it.

Beer-Drinking Champ Wins By a Lap

Here you are, ladies and gentlemen, the high-speed beer-drinking champion of the world. J. A. Dent, 40, El Paso, Tex., business man, won the title and a \$20 gold piece as a prize in a contest with 31 others at a cafe in Juarez, Mexico, just across the border, the other day, by gulping a half gallon of beer in 22 3-5 seconds. P. B. Bradley, El Paso, was second, his time being 28 4-5 seconds, and won a \$10 hat, while Mrs. May Armstrong, only woman contestant was leading, but was disqualified by the judges for spilling beer. Here you see the start of the race, Dent being on the left and Bradley on the right with Mrs. Dent, his "trainer," between them. At the top at the right, Dent is shown in action and, below at the finish—not his own, but that of the race.

Upset Not Serious If Bowels Get This Help

When you're out-of-sorts, head-ache, dizzy, bilious, with coated tongue, bad breath, no appetite or energy—don't worry. It's probably constipation.

Take a candy Cascaert tonight and see how quickly your troubles clear up. No more headache; no gas on stomach or bowels. Appetite improves; digestion is encouraged. Take another tomorrow night and the next night. Get every bit of the souring waste out of your system. Then see how bowel action is regular and complete.

Cascaerts are made from cascarin, which doctors agree actually strengthens bowel muscles. Ten cents at all drug stores.

HOKK AND SLIDES

Henry I. Farrell

Don't Say!
DM LIEB, who coached the Notre Dame line last year and led the team during the illness of the Bald Eagle, made an interesting remark out on the Pacific coast the other night, the radio. Lieb is now coach at Loyola, Los Angeles, and are a few of the burdens he had on his manly chest:

Notre Dame will go through eastern schedule this year unscathed. Southern California is two weeks in the west. When we meet Dec. 6 on the coast, Southern California will hand the Bend lads a lacing.

Stanford will give Minnesota a football lesson Oct. 11.

The big shots in the Big Ten year are Purdue, Illinois and Western.

Names Twomey
The lineman that Notre Dame really will miss this year is Cannon, who was an All-America guard last season, but Twomey, the tackle who played for him.

Last year Notre Dame eleven a better aggregation than Four Horsemen of the year.

The best man on the Notre team last year was not Cannon, Eider or Cannon. It was tackle Twomey. And no one gave him a tumble. The All-America pickers needed a quarter-back so they chose Carideo. Candidates wear a headguard, and got him the All-America job. If Howard Jones still wants to who broke up his plays at Chicago, here is the answer: Twomey. It was Twomey who broke line, smeared the opposition gave Cannon a chance to tie the game with the ball."

Blains Saunders' Run
EB praised the blocking that enabled Russ Saunders to run a kickoff 95 yards through open field to score a touchdown against Notre Dame.

DID YOU KNOW THAT—

PENN has only to beat Notre Dame to go through the season unbeaten and get the Rose Bowl assignment for New Year's Day. (his said. . . . Yep, that's all. . . . With Gene McEver on the sidelines with a twisted knee, Tennessee still has hopes of knocking off the Southern Conference title. . . . The Vols have lost only three games in five years. . . . When Oregon crossed St. Mary's goal line late last year, it was the only touchdown scored against Slip Madigan's lads. . . . Somebody with a flair for analysis reports that only 27 per cent of the Top 10 touchdowns of 1929 were scored via the air route. . . . and 65 per cent of the scores resulted from running with the ball. . . . Jimmy Phelan ran into a mess of woe when Jenkins, not his butter, but his star halfback, was ruled ineligible the other day because of discrepancies in his arithmetic.

"That run didn't amount to anything," said Lieb. "He could have walked through there, the way his mates took out the opposition. You or I could have carried that ball to a touchdown. It weighs only 18 ounces.

"We were snoozing on the job when Saunders made his dash. The ball was kicked clear to the goal line, but not a Notre Dame man got inside the 39-yard line. They were all working on the theory of 'Let George do it.'"

"Saunders could have run into the next county without hindrance from Notre Dame. I don't pay ball carriers much. The boys who do the blocking win the ball games."

Wherewith, gentle reader, consider yourself instructed.

CRACKS IN THE DOME
By the Political Analyst
AUSTIN, Oct. 2.—Texas democrats were quick to see the significance of U. S. Sen. Thomas J. Walsh's definite return to the political spotlight this week. They saw in it the long range jockeying on the national stage for position in the 1932 presidential race.

It takes 50 hours' work a day to keep the big building shipshape. Forty-five students are given two hours a day employment to do it. This helps them pay their way through college.

Weds Girl To Give Her Home

GRAZ, Austria, Oct. 2.—Stanislaus Destal, now serving a four-year sentence in the Graz penitentiary for theft, was allowed by the warden to marry a Viennese girl after he had explained that only as a married woman would his sweetheart be allowed to continue living in the flat which she now occupies.

The marriage ceremony was performed in the penitentiary chapel. Destal requested a week's "vacation" imposed by the federal government. He has not tackled the cases as a fire-eater. Rather, he admits that in some cases the administrators probably elected simply to pay the higher amounts to the federal government than to go through litigation over the assessment. Still, the estates save little or nothing in paying the state's small tax and the government a larger one, since the state tax is deducted from the federal settlement.

He has been in office only a few months, but he is going to review the records, in co-operation with State Auditor Moore Lynn, for a long way back, to see that the state shall not be penalized, his present inquiry indicates.

OCTOBER 9TH

Sterling Will Make Two Big Appointments

AUSTIN, Tex., Oct. 1.—Selection of two members of the State Highway commission will be the first major test of the new state administration, if Ross S. Sterling, Democratic nominee, wins in the November election for governor.

By becoming governor, Sterling will vacate the chairmanship of the State Highway Commission. The term of Cone Johnson of Tyler also expires next January.

The situation is being watched with more than usual interest in political circles, for in naming his highway commissioners, Sterling will have to meet the challenge of opponents in the recent campaign, who declared for an elective instead of an appointive highway commission. His task is to select a commission that will be as acceptable as one elected.

Many still believe that Sterling will resign from the highway commission if his election as governor is clinched in the November general election. That would let Gov. Dan Moody name his successor. Sterling would have only one place to fill in January, then, instead of two.

There are no less than six applicants to Governor Moody for the place. He declines to indicate who they are, but it is known it would be difficult for him to turn down any five of them. If Sterling does not resign, Moody will escape considerable embarrassment.

Strategists, however, point out that Sterling has all to gain, politically, by letting Governor Moody make one appointment. If he does not resign, Sterling will have to appoint a majority of the highway commission. He will then be held directly responsible for things the commission does to which people or communities may object. If he names only one member, the majority of the commission will have been named by Governor Moody, who would then bear the responsibility.

By serving until January, Sterling, as a highway commissioner, will also have to make promises and adopt plans which as governor, he may later be asked to insist that succeeding commissioners carry out. That might destroy the independence of the highway commission. Former governors have been wrecked politically largely through the highway department.

Geographically, the highway commission is supposed to be scattered. Now there is a commissioner from Houston, Abilene and Tyler. With the governor from Houston, Sterling could not well select a commissioner from Houston also, which has had its turn at the place in him. San Antonio, El Paso, Fort Worth and Dallas all will be seeking one of the places.

Whether the continuance of W. R. Ely of Abilene on the board will kill El Paso's chance remains to be seen. If Con Johnson is not reappointed, East Texas will be claiming the right to one of the places. San Antonio, which played a big part in Sterling's election, also will be clamoring.

The governor has also to please the senate, which confirms his appointments.

Much of the success of Sterling's administration will depend on his highway commission. Austin is waiting to see if he will take the full responsibility or divide it with Governor Moody.

State Moneys Not Kept In Lump Sum

AUSTIN, Tex., Oct. 1.—State money is kept in 31 distinct funds with the state treasury. Only the money in one of these can be used for more than one specific purpose. That is designated as the "general fund." From it are paid the various items for which general appropriations are made by the legislature.

It is generally a fund of millions except near the end of the year. Then it dwindles until fresh tax money comes in. Other big funds are the state highway fund, the highway gasoline tax fund, the available school fund. These are all million-dollar funds at most periods. The smallest fund in the treasury at the last report was a social hygiene fund. It had a balance of \$130.

Bears And Banquets On Moody Schedule

AUSTIN, Tex., Oct. 1.—October will be a visiting month for Gov. Dan Moody. Beginning his schedule of trips is one to San Antonio, where he will speak at the banquet given there in honor of Dieudonne Coste and Maurice Bellonte for their Paris-to-Dallas flight.

Strangely enough, Governor Moody was one of those who expressed Texas' admiration for Col. Chas. Lindbergh. Governor Moody was in St. Louis at a dinner given the American flyer upon his return from Paris.

On Oct. 7 and 8 he is scheduled to visit Brownsville when President Pascual Ortiz Rubio is to come to Texas.

It is expected that the governor will also start on his promised bear hunt in Mexico during October. Invitations for the hunt were extended several months ago and have been accepted.

Boy Forced To Drink Poison, Dies

ST. PAUL, Minn., Oct. 1.—Apparently a victim of rat poison he was forced to drink ten days ago, John Winsery, 16, died last night from "intestinal poisoning."

Last week the youth told police that they regarded as a fantastic story of how he was made to buy rat poison by two men and then forced to drink it. Examination by a police physician at that time failed to show any traces of poison. He lapsed into unconsciousness and died last night.

John said the two men robbed him of \$32 while he was unconscious from drinking the poison.

Aurora Borealis May Interfere With Radio Today

CHICAGO, Oct. 1.—If your radio "sputters and crackles" today when the Athletics and Cardinals are in the midst of an exciting play—just blame it on the aurora borealis.

Aurora borealis, arch enemy of radio fans, described by scientists as a magnetic disturbance in the ether, now is at its best or worst, depending upon whether you are one of the scientists or one of the fans.

The combination of aurora borealis, sun spots and vacuum tube effect in the northern sky every 27 days influence radio and telegraph by causing strong electrical or magnetic storms.

Hopkins County Fair Is Opened

SULPHUR SPRINGS, Tex., Oct. 1.—The second annual Hopkins county fair got off to a successful start yesterday and will continue through Saturday.

Dance Promoters Sought By Police

SAN ANGELO, Tex., Oct. 1.—Officers today are seeking W. F. Warns and W. F. Lockmiller who promoted a marathon dance which ended abruptly here Tuesday.

They are charged with contributing to the delinquency of a minor by giving Ina Deemer, 17, whiskey as a stimulant to keep her going.

Ina says the whiskey only made her sleepy and put her out of the dance. The contest started a week ago.

Officers, acting on a tip, kept the promoters from leaving town and forced them to pay of \$50 to each couple in the contest.

Burned Dead Husband's Body

After a post mortem examination showed poison in the body of her husband, J. E. Arnot, former Glasgow (Mont.) banker, Mrs. Anna Arnot, above, was charged with first degree murder. Arnot died a month ago, supposedly of burns and suffocation. Mrs. Arnot told police her husband had taken poison by mistake and that she, fearing the story would not be believed, had tried to burn his body in the basement of her home so that it would be destroyed.

The charges were filed after the pair had left town.

Talbot's Taking G. O. P. Flag Is Of Much Concern

AUSTIN, Tex., Oct. 1.—Announcement that the Republicans will not put up a real fight to elect Col. W. E. Talbot governor over Ross S. Sterling is giving the Democratic leaders some concern.

While most of them scoff at the likelihood of Col. Talbot's election, it is not an impossibility. It is no secret that Ferguson leaders are making appeals to all who voted for Mrs. Ferguson in the second primary to vote for the Republican nominee. If they are successful in this, it would take only 90,000 more votes to elect Talbot.

Republicans here say there is a normal Republican vote of at least 150,000 in Texas.

WASHINGTON.—An unprecedented amount of effort and money is being spent in attempts to guide the great American appetite. If the campaigns were all as successful as their sponsors would like, the country would be suffering from a terrific stomach ache.

Headquarters of some of the more important "eat-more-of-our-stuff" drives are in Washington. One finds that producers of food are going after 120,000,000 people through newspaper advertising, press-agent propaganda, radio, speeches and lectures, skywriting and many other avenues of publicity. This sort of thing is known as institutional promotion, being the pushing of commodities rather than of individual brands.

What do with an agricultural surplus such as the American farmer's wheat? Eat it! The Brazilian coffee surplus? Drink it! Such are the current slogans. And there are various extensive campaigns to dispel popular prejudices against certain types of food such as pink salmon and canned goods in general.

One of the most vigorous campaigns now being waged is the "Back to Bread" movement promoted by the millers and the bakers. The argument is that plain white bread is cheaper than any other food and more nutritious than most others. Restoration of the pre-war American per capita consumption of wheat would provide a market for 130,000,000 more bushels, which is most of the annual wheat surplus. Eat more bread and you'll be stronger. Whole wheat bread is just a valueless fad. Let's get back to normal eating and enjoy ourselves. White bread is the only kind that mops up gravy effectively.

Pecan Shortage Threatens In Central Texas

AUSTIN, Tex., Sept. 30.—Pecans which play such a prominent part in Christmas candy and cakes, promise to be high priced and scarce this year.

Extremely cold weather last winter, followed by drought in many pecan sections have made the crop about a third of normal. In Denton county the crop has been made shorter by case bearers. There have also been more case bearers in Fannin county, which expects two-thirds of a crop despite damage from them and dry weather. Tarrant county reports there will be no crop there.

Smith county reports no insect damage, but says dry weather has reduced its pecan crop. In Brown county the insects did much damage. There was no frost damage, but dry weather increased the early shedding of nuts. This celebrated pecan section is said to have the shortest crop in ten years. Eastland county reports the weather and case bearers have lightened the crop. Insects and late freezing destroyed most of the pecans in Tom Green county. There

has also been insect and squirrel damage.

Ellis county reports a short crop and general condition not good. In Johnson county, hail, insects and dry weather have caused a short production. Limestone county had too much rain when the trees were in bloom and the crop is very short. In McLennan county case bearers has practically taken the crop. Dry weather has caused summer shedding in Cherokee, Freestone and Leon counties. In Gonzales the crop is very short. Late frosts killed the early blooms and there have been many insects. Lack of rainfall retarded growth in Jefferson county.
