NO. 102

Organization Senior CC Furthered

and by-laws of the Chamber of Commerce of Eastland were adopted unanimously at a meeting held last night at the Texas Hotel.

Voting April 2 To Be Test Of Reform For Kansas City

KANSAS CITY, Mo.—The Democratic machine, humbled by the fall of Thomas J. Pendergast and other leaders, faces its stiffest test April 2 in a special city election that may oust the organization from the city hall.

More names Thought To Be Forged Upon Communists' Cards

WASHINGTON, March 26.—Chairman Martin Dies of the committee investigating un-American activities, reported today that evidence had been found that names of other famous Americans, in addition to that of President Roosevelt, had been used as aliases by members of the communist party.

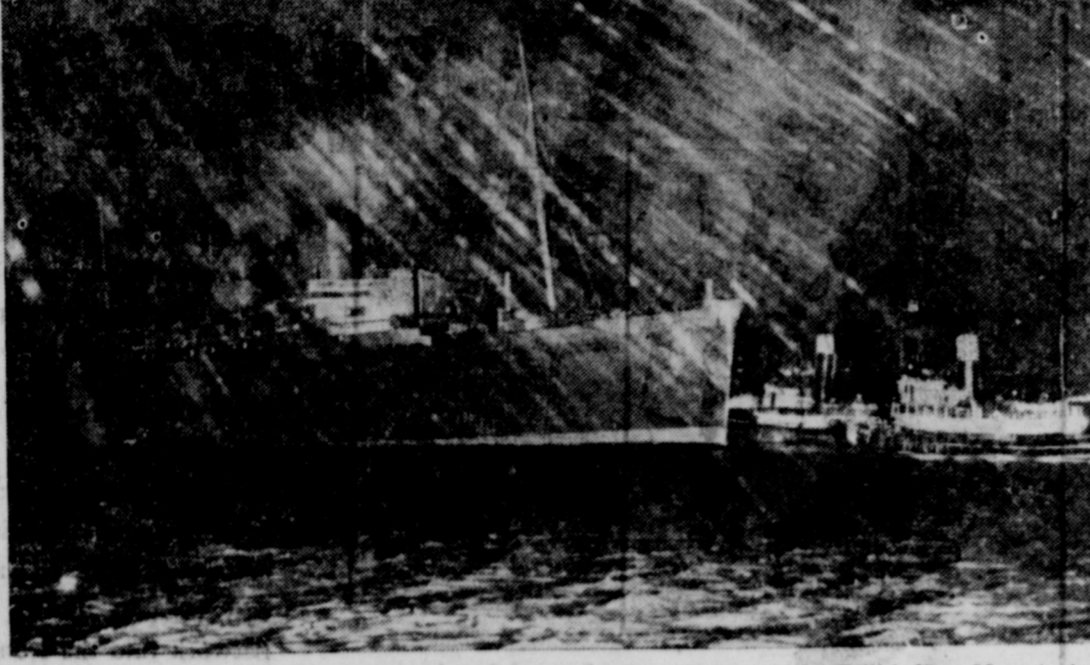

Gas In Water Line Cause Of Blasts

BATON ROUGE, La., Mar. 26.—Residents of Baton Rouge were warned, early today, not to take a bath until a checkup had been made of the city's water lines, after two explosions of gas in bathrooms.

Club Holds Regular Meeting

Home Demonstration Wednesday, March 20, of Mrs. Opal Lowry, business being completed, the recreation period followed, after which the subject was turned over to Miss Lowry, home demonstration subject was Home and Repairs on the

Nature Dramatizes Mauretania's New Job

Blacked out, except for running lights, ghostly in her warship gray paint, the British liner Mauretania now is on the open sea after leaving her New York berth for the perils of war-duty "under sealed orders." With pelting rain, thunder and flashes of lightning, nature provided a dramatic orchestration for the luxury ship's abandonment of safe haven.

Upper New York Has Worst Snow Storm Since 1888 Blizzard

NEW YORK, Mar. 26.—Snow quit falling today as upper New York and southeastern Canada began digging out of the worst storm since the famous blizzard of 1888.

Mauretania Goes Through Panama to The Pacific Coast

COLON, Canal Zone, Mar. 26.—The Mauretania, which left New York last week on a secret voyage, today began passing through the Panama Canal at 4:45, her destination still unknown.

Roosevelt To Speak To Young Democrats

WASHINGTON, Mar. 26.—President Roosevelt will speak to Young Democratic Clubs of America on April 20, it was announced today. It is believed likely that the president might reveal his third term policies at that time.

Ad For Gold Mine Brings In Answers

SILVER CITY, N. M.—The power of newspaper want ads—a Silver City newspaper published an advertisement reading "Wanted: A gold mine," and was swamped with replies, but no gold.

Labor Unions Not Exempt Under Law

WASHINGTON, March 26.—The United States District Court here today ruled that labor unions were not exempt from prosecution under the anti-trust laws.

THE WEATHER
WEST TEXAS: Cloudy tonight and Wednesday with occasional rain in Southeast portion tonight and north portion Wednesday. Warner south portion tonight. Colder north portion.

NO LOSSES OF ALLIED SHIPS FELT IN WEEK

LONDON, Mar. 26.—The British Admiralty announced today that not a single allied or British vessel had been sunk by the Germans in the past week, setting a new record since the beginning of the war last September.

Bolivian Capitol Guarded As Revolt Believed Put Down

LA PAZ, Bolivia, Mar. 26.—Tanks and machine guns today guarded the governor's palace and the Bolivian capitol after a rebellion of troops had been frustrated.

Two Children Are Burned To Death In Cleburne Home

CLEBURNE, March 26.—Two children were burned to death here today after their two-year-old brother poured kerosene into a stove in their home.

From Murder Clue Believed Located

EL PASO, March 26.—Night-watcherman W. S. Bennett, whose hobby is searching for clues in the death of Mrs. Weston Frome and her daughter, Nancy, near Van Horn two years ago, said today he had sent a piece of satin cloth to the Department of Public Safety at Austin to see whether it was bloodstained.

Slight Decline Is Seen In Production In United States

TULSA, Okla., March 26.—The Oil and Gas Journal today reported that Illinois retained the third position among oil producing states last week despite a decline of 9,000 barrels daily. The Illinois daily production was reported at 446,521 barrels.

Champion Baker Barred From Show

CLEVELAND, O.—Plump, motherly Mrs. Mary E. Luman has been barred from baking contests at the Cleveland Food Show because her luscious pies, cakes, muffins and home-made bread are considered "too professional."

Bird Fights Image In a Shiny Car

BAY CITY, Texas—Mickey's car is only slightly damaged but he is wondering how the bill of a certain cardinal feels after the "battle." The cardinal, upon seeing his reflection in the car, lit on the running board and started battling it viciously.

College Girls Hang Out "Shingles"

In order to make the hunt for their "blind dates" easier for the Flying Cadets at 500 Stephens College girls descended on Randolph Field at San Antonio, Texas, en route to Mexico City, officials erected these signs with "A" for Adams and "H" for Harmon over the names of the chaperones of the tea dance held for the visitors.

Funeral Rites for Mrs. C. B. O'Brien, Pioneer Resident, To Be Wednesday

Mrs. Charlotte Belle O'Brien, 84, wife of the late Charles H. O'Brien, died Tuesday morning at Eastland.

Fish Fry Tonite At Pythian Meet

A fish fry for members of the Eastland Knights of Pythias is scheduled for tonight at a meeting starting at 7:30 at Castle Hall, it was announced this morning by officials.

Air Liners Set A New Safety Record

NEW YORK, Mar. 26.—The nation's 20 major airlines today completed a full year without an accident or the loss of life of any pilot, stewardess or passenger, a record for safety never before equaled.

Negro Convict Is Sought By Officers

SAN ANTONIO, March 26.—Ira Stanford, negro convict who escaped from Florida officers last night while being transferred from California to Florida, was recaptured here today without resistance.

Eastland Troop To Note Birthday In Park Program

William Jessop, scoutmaster of Eastland Boy Scout troop six, announced today details of a program to be held Wednesday evening at the City Park marking the sixth anniversary of the troop.

RANGER AND STRAWN TOP 4-WAY MEET

Ranger High School defeated Strawn, Olden and Alameda in a four-cornered track meet Monday afternoon with Ranger accounting for 69 1-2 points, Strawn 33 points, Olden 23 1-2 points and Alameda eight points.

Results of the individual events were tabulated as follows:
100-yard dash: Arms, Strawn, first; Bourdeau, Ranger, second; Brown, Ranger, third. Time 10.7 seconds.
100-yard low hurdles: Bourdeau, Ranger, first; Gray, Ranger, second; Garner, Olden, third. Time 13.5 seconds.

Oil Hearing Will Be Held In Abilene On Tuesday, Apr. 2

AUSTIN, Mar. 26.—The State Railroad Commission will hold a public hearing Thursday, April 2, at the Hilton Hotel in Abilene, starting at 10 o'clock a. m., for the purpose of considering the adoption of special field rules to apply to drilling operations in the shallow fields of the West-Central Texas district.

NYA Youth Given a Junior Foremanship

C. R. Squires, project supervisor for the National Youth Administration in Ranger, announced today that one of the youths who has been studying in the radio shop has secured a promotion that will bring an increase in salary.

Trading Pan American Culture

Fifty years of Pan Americanism will be celebrated April 14, and the peoples of 21 republics in North and South America will pause briefly to reflect on the importance of string alliances as protecting bonds among countries in the Western Hemisphere. Commemorative exercises will be held throughout the United States during the week of April 8-15, and, by presidential proclamation, Sunday, April 14, has been set aside as Pan American Day.

This may be a pretty good time to consider what we can get out of swapping ideas and culture with Latin America. We in the United States have always been a little egotistical about our way of life, and it is good that we should be so. We are firmly convinced that ours is the best civilization on the face of the earth—and it is, of course, for us. But we must be careful not to try to impose our own ideas on countries south of the border. We must appreciate the fact that both our culture and our political system may be wholly unadaptable for South or Central American nations.

It's all right for us to like the music of Paul Whiteman. But so is it all right for South Americans to like Julio Martinez Oyanguren's guitar music. We think highly of Victor Herbert but Brazilians are just as proud of their opera composer, Carlos Gomez.

Basically, we're satisfied with the kind of government we have and with the way we handle social problems. The Latin American members of the Pan American Union are democracies, and that's all that is important. Their forms of democracy may look different from ours, but they have been evolved to meet the conditions and needs of the people. When better forms of government become apparent, they will be adopted. Our co-operation with Latin America doesn't depend upon our virtually annexing the other republics.

Just as we have always traded ideas with Europe, so we can do it with the countries to the south. But it must be trading—on an equal basis. It must not be done as a missionary venture. We must recognize the fact that even the most primitive colony in the remotest part of the world has a civilization of its own that is entirely satisfactory to its people. There's a lot we can get from South America. There's a good deal we can give. It is to this give-and-take process we should dedicate ourselves fully in our ensuing relations with our neighbors.

Adolphe Menjou is scheduled to play the leading role in a film based on John Barrymore's life. Maybe Barrymore himself just isn't the type.

A southern mailman had a hard time finding the post-office and no one would tell him where it was. This is the season for resenting questions asked by government representatives.

Homer Stiffler et ux to R. H. McIntosh, deed of trust; Mose Tarver to Prudence Tarver, warranty deed; Joe F. Tow et ux to A. C. Williams, trustee, deed of trust; U. S. vs. Wade Clark et al, certified copy of judgment; V. A. Weatherby to Mrs. R. T. Montgomery, warranty deed; W. H. Wilson to W. T. Stubblefield, partial release; Tom Yonker to F. G. Yonker, bill of sale and agreement.

Health, Clean-up Week Is Planned For Entire State

AUSTIN, Tex.—Observance of Texas Health, Clean-up and Safety Week will be marked by scores of community celebrations throughout the state the week of March 31 to April 7, according to Dr. Geo. W. Cox, State Health Officer.

The Texas State Health Department, The Texas Fire Insurance Commission, and the Texas Department of Public Safety are co-sponsors of the week.

The annual observance of this Health, Clean-up and Safety Week gives each locality an opportunity to take precautions against the spread of disease, disabling sickness, and property loss through fire in accidents on the highways. Success of the week is dependent on the cooperation of each individual citizen who taken collectively make up local observances of the week.

In the interest of better public and personal health, it is suggested that Texans ask themselves:

1. Is my family immunized against diphtheria, smallpox, typhoid?
2. Is my home protected against disease-carrying flies by screens in good condition, removal of fly-breeding spots, proper garbage disposal?
3. Is my home free from mosquito-breeding places?
4. Is my water supply bacteriologically safe and pure?
5. Do I have safe sewage disposal, either through connection to city sewers, use of approved septic tanks, or sanitary toilet?
6. Is my plumbing in good repair and without leakage which may spread disease?
7. Have I checked my home for hazards which contribute to accidents and removed these hazards? Is it safe from fire?
8. Is the area adjacent to my home free from potential harbors of rats, flies, and mosquitoes? Is it free from ragweed and will it be kept that way as an aid to hay fever sufferers? Are standing pools of water drained filled, or oiled as an aid to mosquito control?
9. Has my family had an annual physical examination by our family physician as a check against potential illness?

BOTANICAL FREAKS SHOWN
by United Press

CAMDEN, Cal.—To prove the richness of the soil on his farm two miles southeast of here, Rudolph E. Jublet has on display two giant botanical freaks. One of the plants was a 150-foot grapevine which Jublet said produces approximately one-half ton of fruit annually, and the other a 9 1/2-foot sunflower which shows as many as 55 blossoms at one time.

ELECTRICITY GIVES HER WORKLESS WASHDAYS!

● Of all the boons of electric service, few are as greatly appreciated by women as the freedom electricity gives her from the weekly drudgery of washing the family's clothes.

New and more efficient electric washers and speedy electric ironers have cut down the amount of work of washing and ironing to minutes instead of hours. Electricity has reduced the amount of work to be done to such simple easy tasks as turning a switch or feeding flatwork into the ironer.

Drop by a store which sells electric washers and ironers and see for yourself how you too have "workless washdays." And when you purchase this new equipment, you'll find that a few minutes a week is all it costs for electricity to do the backbreaking work formerly done by hand.

Electricity MAKES Her from this Job

● About 1/4 cent an hour is all it costs for electricity to operate a washer, which saves clothes and does better work than is possible to do by hand.

Electricity MAKES Ironing Easier, Faster and Better

● An electric ironer takes all the hand work out of this weekly job. You sit down and let tireless electricity do all the hard work.

\$15 A WEEK

BY LOUISE HOLMES

COPYRIGHT, 1940, NEA SERVICE, INC.

YESTERDAY: Steve begs Ann to marry him, even quite drinking. She is tempted, but her love for Paul cannot be denied.

CHAPTER XXX

ANN ran up the familiar stairs of Mrs. Follet's rooming house. She wore a slim little dress and short fur jacket.

Clara flew from the bedroom. She threw both arms around Ann. "You sweet old thing," she squealed.

"I can't stay, Clara. It's getting late, dinner is at 7."

"Have you got a good job?" "Yes, I work for the Temples."

No use telling Clara the whole truth, no use jogging her out of her happy little rut. "How's Roy?" she asked.

"Oh, swell. He went to the drugstore for a pint of ice cream. We always have ice cream on Sunday." She spoke with satisfied pride.

Clara asked, "What about you, Ann? How do you like being somebody's flunky?"

Ann said, "I like my work."

WHAT would Clara think, she wondered, if she knew that Ann was one of the Temple family, that she had definitely decided to marry Steve Claybourne.

What's more, it would be simple for the committee to get at this information, inasmuch as the Justice Department isn't at all averse to letting Smith go ahead with the job.

Suddenly Clara jumped upon her chair, exclaiming, "Gee whizz—I've been holding two letters for you ever since you went away—Where did I put those letters?"

Paul—It had never occurred to her that he might write. He had gone away to rid himself of her. Paul—involuntarily her hands went out for the letters.

Clara was scrambling through an untidy dresser drawer. "I put them here somewhere—it's been so long—where in the dickens—Oh—!" Triumphant she produced them.

Ann's eager fingers closed on the envelopes. They were postmarked, "Moline." One was dated June 2, the other June 25.

Almost four months since Paul had written them.

Ann was wild to be off. "I must run along," she said. "Tell Roy that I'm sorry to have missed him." She kissed Clara warmly.

"Goodbye, dear," she said.

THE autumn dusk was falling and Ann drove swiftly home. The letters were like living things beside her.

She turned the car over to the chauffeur and ran to her room. Her heart fluttered and sang. What had Paul written so long ago? She sat down under a lamp, not stopping to remove her hat and jacket.

With trembling fingers she opened the first letter. "Ann darling," it began and she caught her breath.

Then the clipped voice of the operator, "You are connected with the Y. M. C. A. in Moline, Miss Temple. They are paging Mr. Hayden." And, after a heart-breaking wait, "He isn't in, Miss Temple. I'll keep trying."

Ann stood up, she paced back and forth. "I can't wait," she murmured frantically. "It may be hours—I can't wait."

She ran down the stairs. Mr. Temple and Irene met her in the lower hall.

"Is something wrong, darling?" she asked.

Ann burst into tears and Mr. Temple put his arm around her.

"What's all this?" he asked worriedly.

"It's Paul," Ann sobbed. "He wrote me four months ago—I just got the letters today—"

She cried stormily. "He asked me to marry him—the sweetest letter—he said he'd hold his breath till the postman brought a letter—and I didn't answer—I didn't answer—"

"Call him—right now," Irene suggested practically.

"I did. He isn't in. Oh, dear—"

She leaned her head on Mr. Temple's shoulder. He held her gently.

"Who is this Paul somebody?" she asked.

"Paul Hayden," Ann explained more clearly. "He was only making \$25 a week. He went away—I thought he went away because he didn't care for me. That was before I came here. I stopped this afternoon to see a girl where I used to live and she gave me the letters. She raised her head. Her eyes were shining. 'I'd rather marry Paul than own the world—and I didn't answer his letter.'"

"Where is he?" her uncle asked.

"Where does he work?" "He's a floor man in the 10-cent store."

Mr. Temple rubbed his chin. "That's not a bad berth," he said. "The smart ones work up to managements at good salaries. What kind of a man is he, Ann?"

"He's wonderful," she said simply.

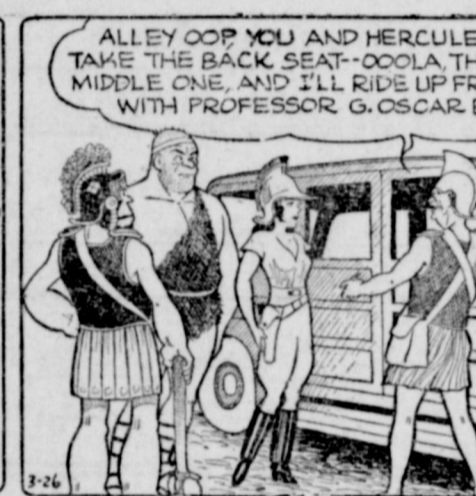

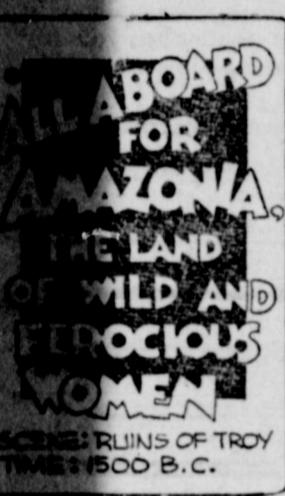

Mr. Temple shook his head, bewildered. "You never can tell about girls," he said. "I thought it was Steve."

Ann looked at him, her eyes like twin stars. "May I go to Moline, Uncle John—tonight? I've got to see Paul."

BEFORE A COLD GETS A REAL START VICKS VA-TRO-NOL

There is a Difference in Gasolines! AND YOU'LL AGREE WHEN YOU TRY THESE TWO IMPROVED HUMBLE PRODUCTS. Humble and Esso logos and text describing the benefits of their gasoline products.

Cooking School Starts April 4th

Your home today is not equipped with coal-oil lamps, or wood cooking stoves. Your home is modern with every modern convenience and yet many women are serving at their tables, meals that were in vogue when oil lamps and wood stoves were considered modern conveniences.

In these same homes, the menus have not been changed for a long time, new methods in home-management have been ignored. . . . Don't you think it is time that your table becomes a modern as your home?

The Eastland Telegram and Weekly Chronicle know that just such homes exist today, and for this reason they will present the famous Home Economist, Mrs. Gertrude Burbank who will conduct the Happy Kitchen Cooking School Thursday, Friday and Saturday, April 4-6 on the roof of the Connellee hotel.

Mrs. Burbank will give sparkling new menus which will show how a balanced meal is planned, which every healthy American home should serve to keep the family physically fit for modern living.

Another feature will be the discussion of marketing, giving many economical ways to do it. New recipes will be presented which are brimful of vitamins and which changes the old order of menus to a variety of foods that every member of the family will relish.

The arrangement of your kitchen to save labor and make the task of each meal a pleasure will be discussed. Perhaps you need different equipment to enable you to run your home efficiently. . . . and so many hints on how to save money. . . . to save work and to make each day's tasks enjoyable.

May we suggest that you bring a note book so you may take notes to refer to many times for help.

Let us urge you to come every

Fueling Device To Give Airplanes A Higher Ceiling

By JOHN F. FRANKISH
United Press Staff Correspondent
CLEVELAND, O.—A revolutionary new fuel system, developed secretly by an Army Air Corps sergeant and a Cleveland concern, will enable United States military planes to fly for great distances at altitudes above 20,000 feet, out of the range of anti-aircraft fire.

Experimental flight data on American military airplanes disclosed that they could not be depended upon to maintain consistently high altitudes. One plane might be able to fly at 22,000 feet today and at only 18,500 tomorrow.

The reason for this varying performance is known to aeronautical engineers as "vapor lock," and results from an uneven flow of fuel because of the varying atmospheric pressure in the "thin air" of the sub-stratosphere. At certain altitudes high test gaso-

MODERN MENUS

BY MRS. GAYNOR MADDOX
NEA Service Staff Writer

BUNNY without candy eggs is no more Easter than a bowl without lilies.

BUNNY'S EASTER EGGS
(About 25 Eggs)

Two-thirds cup sweetened condensed milk, 1 teaspoon vanilla, 4 cups sifted confectioners' (4x) sugar, dipping chocolate.

Blend sweetened condensed milk and vanilla. Add confectioners' sugar gradually and continue mixing until smooth and creamy. Form into eggs. Chill thoroughly and dip one end of each egg into melted chocolate. Place the chocolate-dipped eggs on waxed paper.

To dip eggs, cut dipping chocolate into small pieces and melt slowly in upper part of double boiler, having bottom part three-quarters full of lukewarm water (110 degrees F.). Do not let temperature of chocolate register above 90 degrees F.

Strawberry tints for the dessert remind you of spring's flowers.

STRAWBERRY JAM CREAM
(Six Servings)

One egg white, unbeaten; 1/2 cup strawberry preserves or jam, 3 tablespoons cornstarch, 1/2 cup cold milk, 1/4 teaspoon salt, 1 1/4

cup milk, scalded; 1/2 teaspoon grated orange rind.

Beat egg white and jam together 3 to 5 minutes, or until stiff and creamy. Blend cornstarch, cold milk and salt. Add small amount of scalded milk, blend, return to double boiler. Cook until thickened and smooth, stirring constantly. Cover and cook 10 minutes longer, stirring occasionally. Strain, add orange rind, and fold in egg mixture. Chill. Serve plain or with whipped cream.

Easter Menu

BREAKFAST: Fresh strawberries with powdered sugar, scrambled eggs, broiled sausages, fried tomatoes, clover leaf rolls, coffee, milk.

EASTER DINNER: Grapefruit with fresh mint, roast saddle of spring lamb, parsley new potatoes, green peas, curried pineapple, watercress, scallion and dandelion salad, lemon French dressing, strawberry jam cream, sponge cakes, coffee, milk.

SUPPER: Sliced cold spiced ham, molded vegetable salad, hot biscuits, fruit compote, frosted golden cup cakes, tea, mints, soda pop.

lock" that Sergt. Ralph E. Gray and the Pump Engineering Service Corporation of Cleveland carried on a series of experiments at

Fish Hatcheries' Output Increased During Past Year

SAN ANTONIO, Tex.—Output of Texas fish hatcheries has been increased annually by 18,098,000 fingerlings as a result of WPA construction of 22 hatcheries and enlargement of nine others, according to a report issued today by State Work Projects Administrator H. P. Drought.

Drought's report, the last in a series of four statements summarizing physical accomplishments during four and one-half years of WPA activity, detailed results of miscellaneous projects operated by the Federal agency.

Alongside Texas roads, the statement continued, WPA workers have built 2,400 miles of fence and have improved an additional 6,899 miles of fencing. Other items of work completed were listed as follows:

Ranging from water conservation and flood control dams to soil erosion check dams, there have been 11,711 dams constructed by WPA in Texas.

Additional conservation work includes the building of 119,095 linear feet and improvement of 17,974 linear feet of retaining walls and revetments. Riprap stone work has been added to 432,566 square yards of surface and an additional 17,766 square yards of stone surface has been improved. WPA workers have built 45,953 linear feet of levees and embankments and have improved 199,725 feet of levees.

Texas streams and rivers have received the benefit of 15 miles of river bank and shore improvement and 375 miles of streambed improvement. There have been built seven miles of ditch, canal and pipe and 110 miles of such irrigation facilities have been improved, extending improved irrigation to 42,628 acres of farm land.

Largest single area included in the 1,010,649 acres of miscellaneous drainage work completed by WPA workers was the San Jacinto Battle Grounds park near Houston. This project also accounted for much of the item covering 1,367 acres of miscellaneous landscaping and beautification. In addition to the work done by WPA at San Jacinto, six other historic Texas sites were improved by the Federal agency.

In order to drain more than one million acres of land in Texas, WPA workers constructed 43 miles of ditch and 22 miles of pipe and added improvements to 394 miles of existing ditch.

Finally, the report included such diverse activities as:

Reconstruction of 5,236 feet of usable waterfront docks;

Beautification of four cemeteries;

Construction of eight tunnels and improvement of one, including three for the use of pedestrians in the vicinity of public schools;

Building and improving of 21,218 linear feet of bulkheads;

Planting of 1,000 trees in a single reforestation project;

Killing of 1,856,900 rodents in a pest eradication program.

Wright Field, Dayton, O., and developed the new fuel system, which is being produced exclusively for army and navy planes.

Secretary of War Harry H. Woodring recently wrote Gray congratulating him "for this development which is the product of your ingenuity, skill, zeal and enthusiasm."

All engineering details of the new fuel system have been kept secret, but it was disclosed that "vapor lock" was overcome by placing the fuel pump at a point remote from the heat of the motor and at a level more equal to that of the gasoline tank and fuel supply.

Altitude Not Consistent

Military aircraft using conventional fuel systems have been able in the past to approach 20,000 feet altitude, but have been unable to operate consistently above that level.

All statistics of the experimental flights with the new system at Wright Field have been kept secret by army officials, but it has been revealed that it has made possible long flights at much higher altitudes.

Aeronautical engineers believe that the secret development will give American bombing, reconnaissance and pursuit planes a great advantage over those of other nations, more vulnerable to anti-aircraft guns.

Dentists To Meet

At San Antonio

DALLAS, Tex.—When Dr. T. G. Duckworth of San Antonio, president of the Texas State Dental Society pounds the gavel bringing the organization's sixtieth annual convention to order at the Adolphus Hotel here April 8, more than 1500 dentists from all parts of the state will be on hand.

The convention program will bring to Texas many noted speakers and clinicians including Dr. Arthur H. Merritt, of New York City, president of the American Dental Association and F. V. Meriwether of Washington, D. C., of the Farm Security Administration.

Owner Will Raze General Sherman's Old Homestead

LANCASTER, O.—The birthplace of Gen. William Tecumseh Sherman, whose march "from Atlanta to the sea" was a decisive factor in subduing the South, is to be demolished.

Ed Schleicher, who has owned and lived in the house where Sherman was born for 43 years, said he had decided to raze it and build an apartment house on the site.

Legislation for the purchase of the property by the state failed in the last session of the Ohio general assembly, and a proposal that it be made a national memorial was rejected in Congress.

Sherman's boyhood days were spent largely in the residence of Thomas Ewing, one-time senator from Ohio, who reared both Sherman boys, William Tecumseh and his brother, John, later a congressman and secretary of the treasury, after the death of their parents. The Ewing residence is still standing and is an object of interest to visitors here. It is considered one of the better examples of early residential architecture in Ohio.

SICK, NERVOUS CRANKY "EVERY MONTH"?

Read WHY Lydia E. Pinkham's Vegetable Compound is Real "Woman's Friend"

Some women suffer severe monthly pain (cramps, backache) due to female functional disorders while others tend to become upset and they get cross, restless, jittery and moody.

Why not take Lydia E. Pinkham's Vegetable Compound made especially to help tired, run-down, nervous women to go smiling thru "difficult days." Pinkham's Compound contains no opiates or habit-forming ingredients. It is made from nature's own beneficial roots and herbs—each with its own special purpose to HELP WOMEN. Famous for over half a century. Try it!

The way to a man's heart

(YES, THROUGH HIS STOMACH, AS THE OLD SAW SAYS)

A man truly belongs to the animal kingdom when he sits down to a well-set table!

There's that aroma rising from an oozing roast. And the smoke-steam from hot biscuits and melting butter. And the bright colors of fresh vegetables and the tart salad. And—sure—a challenging mountain of fluffy, white mashed potatoes with brown, rich gravy to crawl over it!

Back of this invitation to hearty eating is the story of two sharp eyes. They belong to the housewife who planned and prepared the meal. She practiced considerable wizardry in the kitchen, of course. But long before the food even reached her house she had assured the success of her meal.

She read the food advertisements in this newspaper. She selected each item of her meal with studied care. And she set a table fit for a king—on an every-day allowance! By reading the advertisements she served well . . . and saved money!
