Increased Utility Connections Show Town's Growth

Population of City Increases in 1957

Eastland's population increased by about 56 persons in the past year. That's the indication of a check of local utility companies, all which reported customer gains during 1957.

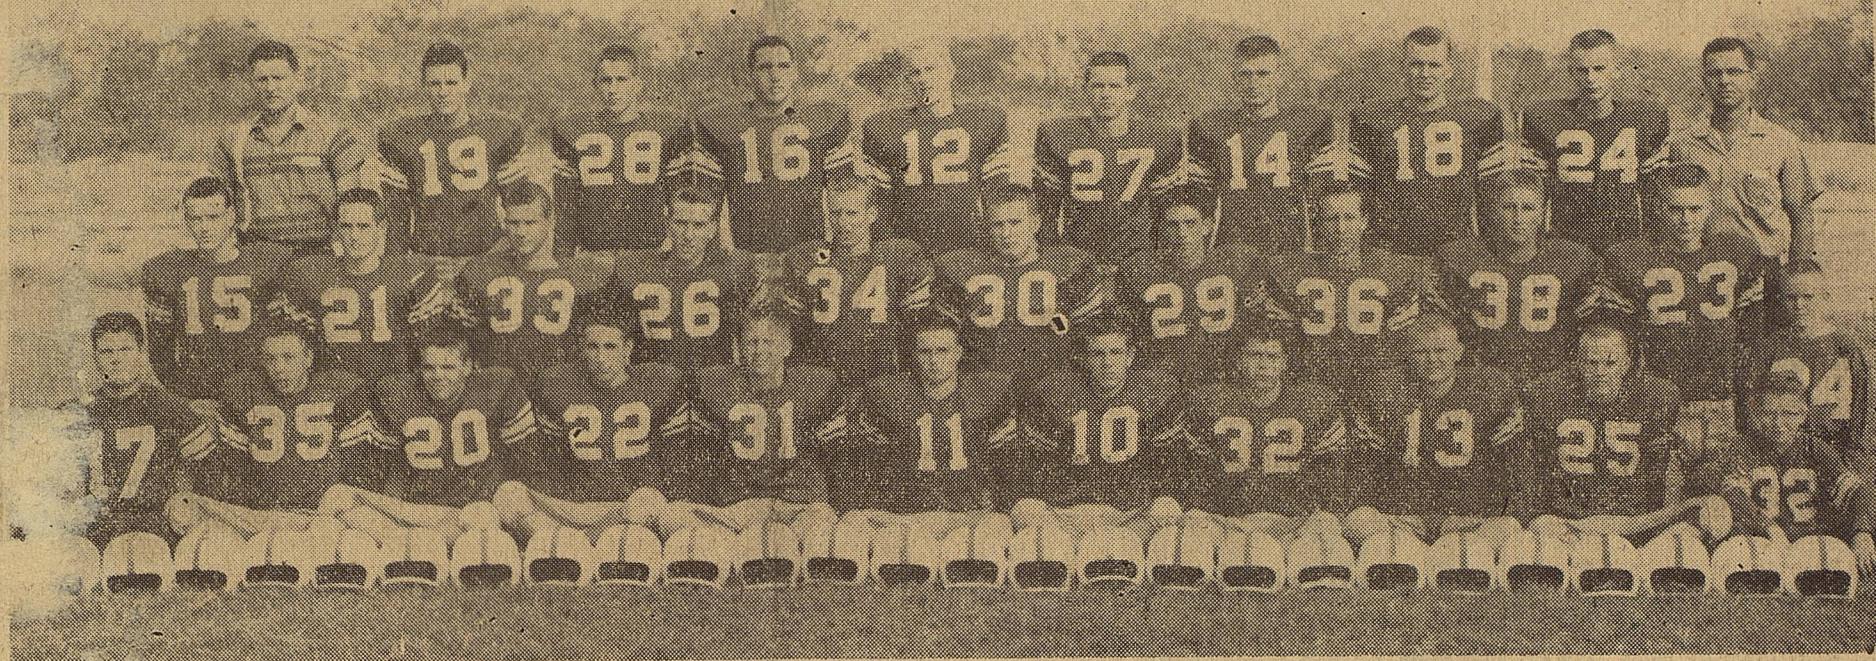

Texas Electric Service Co., Lone Star Gas Co., the City of Eastland Water Department and Southwestern Bell Telephone Co. all reported increases in number of connections. In fact, Southwestern Bell, which plans to construct a new building and convert to dial this year, showed an all-time high of 1833 customers. That's a gain of 16 connections during the year. At the beginning of 1957, the company 1817 customers and on Jan. 1, 1955 less than 1800 phones were in Eastland.

Arthur Goldston, manager of

Lone Star Gas Co., said his firm now serves 1399 customers in Eastland. That does not include customers outside the city limits. That's a gain of nine connections during the year and a sizable increase over two years ago when just 1375 connections were on the books here.

Texas Electric Service Co. reported a net gain of 15 new customers. Frank Sayre, district manager, said TESCO now serves 1463 customers, compared to 1448 at the start of 1947 and 1430 two years ago.

Definite figures were not available on the number of water connections, but City Manager J. Young said there definitely has been a good increase over the 1420 connections as of Jan. 1, 1957. Two years ago just 1385 customers were served here. The figures paint a bright picture. The national average for per-capita by each utility connection (water-gas-lights) is 3 1-2 per cent. Using that figure it would indicate that the city's population is about 5026. Dropping down three persons per connection the city's population would fall at 4308. Somewhere between those two figures is believed to be accurate.

Gilstrap Is Main Speaker

The annual Eastland Quarterback Club Football banquet, honoring the Mavericks of 1957, will be held tonight at 7:30 in the Fellowship Hall of the First Methodist Church with Claude (Chena) Gilstrap, Arlington State College head football coach and athletic director, as the main speaker.

M. H. Perry will serve as master of ceremonies for the affair, which will give Eastland fans their last opportunity to pay praise to the Eastland High football team of 1957.

In Gilstrap the local Quarterback Club has secured one of the most sought after athletic speakers in the nation. Gilstrap has drawn praise all over the nation for his coaching and speaking ability.

For the last two years the former Schreiner Institute and Texas University end, has carried his TSC Rebels to the Little Rose Bowl in Pasadena, Calif., winning both games. Four times he has been named junior college coach of the year, two of those honors coming in the past two seasons. He won the honor again while coaching Paris Junior College in 1949 and again at Arlington in 1954.

Gilstrap's teams at Arlington State have won 44 games, lost seven and tied one. This year his team won 11 games in a row. His 1953 team won the Pioneer Conference championship. In 1954 the Rebels finished in a tie for third. They were runner-up to champion San Angelo in 1955. In 1956 they

MOORE about... EASTLAND by Virgil E. Moore

The fact that our neighbors to the west did get a lot of snow was brought home to us the other day when we looked up to watch an east bound freight train pass by. Every car was still covered with several inches of snow.

The David Frys were the only Eastlanders that we have heard about who got caught in the heavy snow. Mr. and Mrs. Fry were visiting relatives in Tulia. David said he joined a small caravan of cars that worked their way successfully over highways which were covered with snow. They made it home okay.

Former County Commissioner Henry Carter of Rising Star was by the office one day this week. Henry says he is missing getting together with the other members of the Court, but said he still hasn't caught up on his fishing. When he announced he would not seek re-election some two years ago Mr. Carter told us he was going to spend at least 90 percent of his time fishing. He confessed that he hadn't been able to do that yet, but said he had a deal working at Lake Brownwood.

With that much of an excuse to talk about politics we can't help but mention that the word around town is that there will definitely be a number of contested races this year. Lots of politicking going on around here not to have had any more hats officially thrown in the ring than we have.

We got to watching the Texas Electric crew taking down the Christmas lights the other day and discovered that it's a lot of hard work. We imagine the crew is a lot happier after that job is done. It's a good thing those lights are not left up to us because they probably would just stay up there all year long.

The Rotary Club's new cleanup project sounds like a wonderful thing to us. We have already

TAX MAN SAM SEZ

Now is a good time to prepare your income tax return for 1957.

If you are not going to prepare your tax return before January 15 and you made income of more than \$100 outside of your salary on which tax was withheld during the last quarter of the year, you may be required to file an estimated tax return, that is, in case you haven't made one last April 15.

There are a lot of folks who have income tax nightmares from January 1 until April 14. These same folks often find that when they figure their tax at 11:00 p.m. on April 15, that they have a refund coming instead of owing additional tax.

The sooner you figure your tax, the sooner you can dream of more pleasant things.

ordered paint to touch up the front of the Telegram, and we call your attention to our new sign. Actually, we have found, it doesn't take a great lot of work to make a placelock a lot better.

A lot of Eastland businessmen got the jump on the club and have already fixed up their store fronts. Most notables, of course, is Beskov's Jewelry. Of course, Beskov's went all the way. Not all stores will feel they can go that far, but just a little painting will go a long way.

We think that Eastland could really take some big steps by doing some planting downtown. Lots of room for window boxes and what have you. Pretty flowers are hard to beat, and while they were once out of place downtown, folks have decided that cement is not nearly so pretty as a tree or flowers. Fort Worth and other larger towns are starting drives to beautify their downtown areas

Winter Care Important To Poultry Flock

COLLEGE STATION — Now is the time for poultrymen to check their management to make sure they are ready for the winter weather that lies ahead, advises Ben Wormeli, extension poultry husbandman.

Ventilation is one of the main things to check, says Wormeli. Poor ventilation can cause trouble in laying houses. Careful attention to weather reports will enable poultrymen to adjust the poultry house ventilators before severe weather hits during sudden winter weather changes.

Draft-free circulation of fresh air is necessary to keep the litter and dry litter necessary to keep down the number of dirty eggs. The cleaning of dirty eggs requires a lot of extra labor and may seriously damage the interior quality.

Provide at least two and one-half square feet of floor space per adult bird, says the husbandman. Be sure each bird has at least four inches of feeder space and one inch of watering space. Each 100 birds will consume about six gallons of water per day.

Operators should provide 25 individual nests or three community nests, two by six feet, for each 100 birds. Fill them with a three inch layer of clean straw or other available litter. Replace any portion of the nest litter as soon as it becomes soiled.

in such a fashion. We here in Eastland could get a million dollars worth of good publicity out of an all-out effort.

What we would like to see is some other clubs join in the drive. The Rotary Club certainly would welcome any help it can get, and a united effort will get this thing across.

KEEPING POSTED

By MARENE JOHNSON
Eastland Postmaster
Less than two life-times ago, if you mailed a letter in the Eastland Post Office addressed to a

city in Australia, it might have cost 5, 33, 45, 55, 60 or 120 cents. In those days the good will of individual mailer meant little. Rates in international mail depended largely on the ships available and the routes they took. Besides the inconsistency in rates, many countries, realizing the financial possibilities of excessive mail charges, took advantage of postal for extra revenue. An example, a single letter from Eastland and addressed to a foreign state might have been subjected to some 1200 different postal rates due to the foreign charges. Even veterans of mail service were unable to clearly fathom and accurately calculate the fee for a letter going through several countries. As a result, letters were delayed for hours—sometimes days—at border stations while postage rates were being figured on various pieces of mail. Intense international rivalries created additional discord and confusion and it was not until Montgomery Blair, postmaster general under President Abraham Lincoln, initiated steps to bring order out of this confusion that the problems of international

mail were first discussed by representatives of foreign postal administrations. On May 11, 1863, in Paris France, 15 representatives adopted articles which served as a nucleus for the first "Treaty Concerning the Formation of a General Postal Union." From this meeting more than 94 years ago, has come today's Universal Postal Union made up of the representatives of 96 nations. The U.P.U., with headquarters in Bern, Switzerland, cut through the welter of conflicting rates, political distrusts and international rivalries and established an orderly flow of international understanding in postal affairs. Overseas mail from the Eastland Post Office now arrives at its final destination with the maximum of

I GIVE YOU TEXAS

By **BOYCE HOUSE**

You hear some man say, "I'm a self-made man." I don't believe there is any such person. Unless we were left orphans in infancy, we all owe much to our parents for their care and love. Then we are indebted to grandparents, uncles and aunts. And to school teachers and to ministers and to doctors.

We owe a debt of gratitude to society for providing schools, libraries and parks. And there are many people who do things for us just for the pleasure of it. Maybe it's only a handshake and a word of encouragement when you were blue and about to give up; perhaps it is a loan at a timely time; or suggest-

ing your name to someone who is looking for someone for a job.

When I was a senior in Central High School in Memphis, Tenn., I obtained a job on a statistical daily, after school hours and on Saturdays. I copied the births and deaths, marriage licenses, building permits and listed new lawsuits—(all this information was obtained in various offices in the Courthouse.) Then I visited the nearby offices of three justices of the peace to list their newly-filed cases. Half a dozen blocks away was the fire station where I copied a report of each fire of the previous

24 hours.

Then I was through except for visiting the hotels—the Chisca, the Gayoso, the Peabody, the Gaston and the Fransioli—and copying the names of all the new arrivals.

For doing this—the rounds consumed several hours daily—I received \$5 a week, which figured out less than a dollar a day. But this was much more than it sounds like now—in purchasing power it would likely equal \$20 a week today.

Mr. Rowe was the publisher. He was short and fat, with a stubbly red mustache, and he moved about nervously all the time. He would talk fast, stop in the middle of a sentence—then start a new sentence. I was always afraid he was going to fire me, and so I would hesitate to approach him for my "salary." When I did, he would count out five one-dollar bills.

But one day he counted out six. He said, in his disjointed form of sentence, "Your work is—so—a raise."

The job did not call for actual writing but it was the next thing to being a reporter for it brought me into contact with public offices, which were news sources, and with the atmosphere of clicking linotype mats and the rumble of a cylinder press.

Soon after getting my high school diploma, I got a job on the Commercial Appeal as a reporter.

But I might not ever have become a full-fledged newspaperman had it not been for that apprenticeship on the Daily Recorder.

And I don't even know who suggested my name to Mr. Rowe for the job.

Even if one doesn't achieve much success, he would not have achieved even that much if someone—yes, lots of someones—hadn't helped.

to the community clubhouse where they had hot dogs, cookies, Fritos, later chips and hot coffee. Some of the older folks did not take a

part in the hunt.

Sharon Donham, Dinah Groce and Judy Lewis, Rising Star 4-H'ers, are feeding out lambs

and looking forward to showing them at the county show and then selling them at the annual auction. The girls seem happy with

their projects. They will likely do a good job with the lambs as most girls in the past have done so.

Nearly all of the Nimrod 4-H boys and a part of the dads, mothers and sisters took part on a coon hunt on the Herman Schaefer and Oliver Harrelson farms Saturday night, Dec. 28. AROUND RANGER COLLEGE CAMPUS

By Ranger College Journalism Class

School is slowly settling down to the normal on the Ranger College campus after a sixteen-day Christmas vacation. All students and faculty members have returned, though a few were delayed by unusual weather conditions. Judson Hardy, head of the mathematics department, was marooned with his family in Lubbock by the heavy snow, and Gilbert Barnett was unable to return from his home in El Paso because of the snow. Forrest Hall, who lives in Sinton, was delayed by high water conditions in South Texas. The last day of school before the Christmas holidays began was a festive day, for several classes enjoyed informal coffees. Mr. and Mrs. Lonnie Branam entertained the nine o'clock typing class with a coffee in their home, and the ten o'clock typing class went to El Rancho for coffee. Mrs. Hamrick's Spanish class enjoyed "merienda" at El Rancho. Mr. Hardy's algebra and calculus classes celebrated by working puzzle problems instead of routine problems. Santa was very generous with some of the good boys and girls on the campus. Jim Bacaus and Butch

Kalinec have brand-new '58 Fords, and Louis Caveness, Lawrence Clayton, and Forrest Hall came back with new cars. Roger Flowers has a new Hi-Fi set, and many students received new wrist watches. It does pay to be good, so it seems.

The annual staff met Tuesday to select the cover for the "1958 Ranger". Staff members are hard at work preparing layouts to meet their second deadline January 15.

The girls in the dormitory did not have a regular devotional Monday evening, but enjoyed an informal sing-song and popped corn.

Several students traveled long distances to go home for Christmas. Ronnie McPherson went to San Diego, Calif.; Glenn Schmanke to Topeka, Kansas; Charlotte and Charles Clark to Mosquero, New Mexico; and Gilbert Barnett to El Paso.

Mrs. Price R. Ashton has been in Brownwood this week with her father who is ill with pneumonia.

won eight, lost one and tied one in regular season play, then climaxed the year with an upset 20-13 victory over Compton College of California in the famous Junior Rose Bowl, giving the West Coast team its first licking in 37 games. The Rebels this year downed Cerritos Junior College of Sorwalk, Calif. 21-12 for their second Rose Bowl win in a row.
