

Moore... ABOUT EASTLAND

by Virgil E. Moore

H. R. (Pop) Garrett, the county school superintendent, has a hobby that he doesn't even admit is a hobby. Dr. Garrett has a stack of go-for matches on his desk which is constantly expanding. He claims it isn't a hobby with him, he just keeps the matches for his friends. And unlike some collectors, he is just as pleased to see a friend take a box of the matches as he is to see someone put down a new box. Anyhow, if you ever get stuck in the courthouse without a match the County School Superintendent's office is a good place to go.

You noticed we called Pop Dr. Garrett. That's a title he doesn't really prefer to be called by, but indeed he deserves the honor due a Ph.D. a degree which he does hold.

It wasn't James Reid who said: "Just to prove Santa Claus never lets a fellow down, I know a boy who asked for a Marine uniform and 15 years later he got it."

Now that the weather has cooled off a bit, we asked Sheriff J. B. Williams the other day if the county ever got around to paying him for that air conditioner for the jail. You probably remember the situation. The Sheriff went before the court and asked permission to buy the unit for the jail kitchen. The jailer's wife does the cooking for the prisoners, and any woman can tell you things get pretty hot on top of a range (despite what some of the advertisements say to the contrary).

Well, we were saying, the Sheriff asked permission to buy the unit and got it. The only "if" connected with the okay was "if we can buy it out of the permanent improvement fund." Well it turned out, several weeks later, that the unit couldn't be purchased that way. In the meantime the air conditioner was purchased and installed. When the word came back from the Attorney General's office that the unit could not be paid for out of the permanent improvement fund the Commissioners Court ruled no go on the whole deal.

By this time, of course, the jailer's wife had forgotten about the hot kitchen she once had to work in. Things were nice and cool. J. B. thought the situation over and decided he wasn't going to tell her the cooler had to go. Instead he reached in his own back pocket and pulled out the cash to pay for the unit.

That's how things stand as now. Of course, like we said, the weather is cooler now and the unit isn't being used. But still J. B. has his money tied up when the cooler was purchased. The county's general fund was mighty low. It still isn't well, but it's getting healthy. Just speaking as an individual (and J. B. will probably have us in jail by nightfall for mentioning the situation again), we sure would like to see the county go ahead and pay for that cooler. We can't think of anyone who would have a howl coming.

Donald Kinnaird, the youngest member of the Eastland Lions Club, each year presents a number of friends with those calendar booklets. Real nice, they are. This year he gave both the county home demonstration agents one. Instead of putting their entire names on the front in gold, Donald just put "Sandra" and "Nancy." Why? "Those home demonstration girls always get married and change their names before they have been here a year," he asserted. True, true.

Jim Horton showed films of his trip to Iceland at the Rotary Club Monday. Jim pointed out that Icelanders don't think "Russians have horns on their heads" like we do. He says that the U. S. gives the

Post Office Open Late On Saturday

Windows at the Eastland post office, which normally close at noon on Saturdays, will remain open this Saturday as "long as business warrants," Mrs. Marene Johnson, postmaster, announced Tuesday.

Mrs. Johnson said the move was being made to give local citizens every opportunity to get their

Christmas mailing done as early as possible. Local postmen this past week distributed mailing tags marked "local" and "out of town" for use in tying up Christmas cards. The local postmaster urged that citizens cooperate by using the tags.

She also cautioned that putting off mailing Christmas cards and parcels until the last moment results in an extremely heavy burden being placed on postal employees and postal facilities and slows up the processing of mail.

Every facility of the local post office, she added, will be pressed into maximum service again this year so that the post office will be cleared of all Christmas mail that has been deposited in time for delivery by Dec. 25.

There are still some people who retain the mistaken idea that a gift or card arriving on Christmas Eve has a special significance," the Postmaster noted. "It is the thought behind the gift or card, not the time of arrival which is the important consideration."

In an appeal to all citizens of the community, the Postmaster praised the fine cooperation that has been extended by many local groups in past years when record mail were processed and delivered and he asked that this same cooperation again be extended this year.

"By following such simple suggestions as mailing early, wrapping carefully, plainly printing the addresses and return addresses and using zone numbers, the citizens of Eastland will be assured of the safe and timely arrival of their Christmas mail," Postmaster Johnson added.

DEAR SANTA

Don't Forget Mom Needs New Dress

One of the nicest things about children is that for the most part they can think of someone besides themselves.

Letters to Santa always prove this point. And Mother is always of the first rememberers, alongside with the "and don't forget my little sister" sentences.

Here's that the kids don't want Santa (or Dad, either) to forget Mother:

Dear Santa Claus, I would like to have a watch and camera. And my sister Marsha who is in the fifth grade would like a billfold. We all wish for a new car.

Love, Debra White

Dear Santa Claus, Will you bring me a doll? I like dolls. My brother wants a gun. Will you bring him a gun please!

With love, Joan Hensley

I have not been reporting the
out come of Carbon's basketball

the games I will give the scores

this year. The boys' basketball

There will be a game at Carbon
Friday night. We will play Des-
demona at 7 p.m. This game will
probably be a good one so you had
better not miss it.

Basketball is about all that is
going on around C.H.S. We did
enjoy a two day holiday for
Thanksgiving last week. And
now it won't be long until we can
enjoy a longer vacation at Christ-
mas. Most of us are just waiting
for it to get here.

In my last column you probably
read about the banquet. I hope
that you enjoyed reading about it
half as much as we enjoy the ban-
quet. We all had a wonderful time
and the credit goes to the pep
squad sponsor, Mrs. Ed Willman.
She is a mighty fine one too. We
had a good dinner also and that
credit goes to the mothers of the
squad. We all say "Thanks" to the
mothers.

The juniors are beginning to
work on their junior play. A defi-
nite date has not been set for the
play. I will let you know as soon
as it is set.
That is about it for this time.

WEEKEND VISITORS

Mr. and Mrs. Claud Boles were weekend visitors in the home of their son and daughter-in-law, Mr. and Mrs. Winston Boles, Bill and Randy, of Athens.

'Religion' Is Topic of Program For Thursday Afternoon Club

"Religion" was the theme of the program for the Thursday Afternoon Club when it met Thursday in the Woman's Club. Mrs. Iral Inzer, president, presided during the business meeting. Mrs. Inzer reminded members that the next meeting will be a social meeting honoring husbands at a Christmas dinner on the evening of Dec. 19, at the Woman's Club. Mrs. Frank Sayre, secretary, read the minutes of the previous meeting and called the roll. Each member brought gifts and wrappings to fill a Christmas box for patients at the Wichita Falls State Hospital. Mrs. Inzer, turned the program over to Mrs. W. P. Leslie, program leader, who said the most appropriate program for Advent season would be Christian Religion. Mrs. Cyrus Frost, Sr., read the scripture from the Chapter of John. Mrs. Leslie introduced Rev. Eugene H. Surface as the guest speaker. Rev. Surface, minister of the First Presbyterian Church of Eastland, gave a most interesting talk on "Great Religions of the World."

Yvonne Green Is Elected as New Co-Ed President

Yvonne Green was elected as the new president of the Co-Ed Club in their meeting Wednesday afternoon in the home of Sandra Pogue. This meeting was to be held in the home of Rita Trout but was changed to Sandra Pogue's home. Other officers elected were Willie O'Steen, vice-president; Alice Frazer, secretary; Suzanne Butler, treasurer; Glenda Johnson, reporter; Patsy Hollis, historian and chaplain, Sandra Pogue. Kathie Jones, president, presided over the meeting. The secretary read the minutes of the previous meeting. "ALMOST, BUT NOT ENOUGH" is our verdict on how close competitive cars have come to matching the Swept-Wing 58. Take style. Other new cars are "almost" as low in inches, but still seem high and boxy in looks. Some of them are "almost" going to fins, but not enough to really make a difference. Then take performance. None of the

other 1958 cars have anything to match the sway-free, dip-free, vibration-free ride of Torsion-Aire. (It's standard equipment.) Most of them still don't even have push-button driving! So after you've seen the "almost" cars, come in and drive a Swept-Wing 58. You'll see why we say: They're catching on, but they can't catch up.

Atomic power in Caesar's day?

Certainly!
 It was there, in the ground, in the air and water. It always had been. There are no more "raw materials" today than there were when Rome ruled the world.
 The only thing new is knowledge . . . knowledge of how to get at and rearrange raw materials. Every invention of modern times was "available" to Rameses, Caesar, Charlemagne.
 In this sense, then, we have available today in existing raw materials the inventions that can make our lives longer, happier, and inconceivably easier. We need only knowledge to bring them into reality.
 Could there possibly be a better argument for the strengthening of our sources of knowledge—our colleges and universities? Can we possibly deny that the welfare, progress—indeed the very fate—of our nation depends on the quality of knowledge generated and transmitted by these institutions of higher learning?
 It is almost unbelievable that a society such as ours, which has profited so vastly from an accelerated accumulation of knowledge, should allow anything to threaten the wellsprings of our learning.

Yet this is the case.
 The crisis that confronts our colleges today threatens to weaken seriously their ability to produce the kind of graduates who can assimilate and carry forward our rich heritage of learning.
 The crisis is composed of several elements: a salary scale that is driving away from teaching the kind of mind most qualified to teach; overcrowded classrooms; and a mounting pressure for enrollment that will double by 1967.
 In a very real sense our personal and national progress depends on our colleges. They must have our aid.
 Help the colleges or universities of your choice. Help them plan for stronger faculties and expansion. The returns will be greater than you think.
 If you want to know what the college crisis means to you, write for a free booklet to: HIGHER EDUCATION, Box 36, Times Square Station, New York 36, New York.
