COVERING EASTLAND COUNTY

EASTLAND, TEXAS, SUNDAY, MARCH 20, 1955

## Stock Show Parade Plans Made Thursday

Plans for the parade which will kick off the Annual Eastland County Livestock Show were made Thursday night by members of the Sheriff's posse at a meeting held in the Eastland County courthouse.

A special trophy will be awarded the best entry in the parade, Mr. Hoffman said. The trophy will be awarded to the entry judged best by judges from Eastland, Ranger, Cisco, Rising Star and Gorman.

## Eastland Echoes

Thought for Today: "Life is too short to be little." — (Disraeli).

Where and when this started, we haven't the slightest idea, but even if you've heard it before, you probably will get a kick out of it again: "It's a Hard Life—B u t Don't Be Discouraged"—Did it ever occur to you that a man's life is full of crosses and temptations? He comes into the world without his consent and goes out against his will, and the trip between is exceedingly rocky.

James Rutledge Stationed At Fort Richardson

Wayne Hudson, proprietor of Wayne Motors, says that his first impression concerning Eastland was that it is a friendly town. And that's a mighty good reputation for a town to build up, isn't it?

Former Sheriff Frank Tucker, who has gone into the gasoline and oil sales business, wholesale and retail, at Carbon, has been quite pleased that a number of friends from various points about the county have already begun dropping by to see him at his place of business.

Neighbor Benny Butler, Rising Star editor and publisher, dropped in to see us the other day but, we deeply regret we were out at the time. We have numerous mutual friends and hope he'll call back soon so that we may become acquainted.

## Youths Lead Officers In 100 Mile Hour Chase Roadblock Is Run; Bullets Stop Pair

A 100-mile an hour automobile chase, which included officers from Eastland and Ranger, ended three miles out of Eastland Thursday night when Eastland police fired a series of shots at a 1954 Chevrolet driven by an Eastland man, forcing the driver to come to a halt.

Charges of speeding and reckless driving were filed against two young Eastland men, one 22 and the other 23 years old. The driver of the car was fined \$50 in Eastland corporation court and the other \$25.

Chief Laney said his officers were forced to risk their lives in the speeding chase. "My men all have families and it isn't any fun to have to take their lives in their hands because a couple of boys act that way," he said.

## Eastland Hi-Y Club Will Be Organized

Eastland students will organize a Hi-Y and Tri-Hi-Y club here Thursday at a special meeting at 10 a.m., Mrs. Arthur Murrell, president of the YMCA committee, announced Saturday.

Mrs. Murrell urged all parents interested in "the youth of our city" to attend the meeting, to be held in the High School auditorium.

Judge Cecil Collins will preside over the meeting. Mrs. Murrell said it is hoped that a large number of Eastland parents and others interested in the city's youth will be present to show the students that they are interested.

## Attend Wedding At Athens

Mr. and Mrs. Jack Carothers and son, Michael, went to Athens to spend the weekend and attend the wedding there of Miss Lillie Beth Gaunt and Gerald Tidmore, both of Athens.

## Listings On 'Band' Calendar Completed

Listings of birthdays, wedding anniversaries and club meeting dates for the Eastland Band Boosters' Community Birthday calendar has been completed and the names have been turned over to Mr. and Mrs. Wayne Caton to be assembled, Mrs. L. R. Lusk Jr., chairman, announced Saturday.

## Officers Here Attend F B I School Friday

A large number of Eastland law enforcement officers and other interested persons attended the FBI "stick-up" school in Mineral Wells Friday.

Those attending included Eastland Police Chief Ray Laney, M. N. Seabourn, Allen Squires, Art Bedford, Jimmy Young, Russell Hill, Sheriff J. B. Williams, Deputy Sheriff Johnny Boyd, Justice of the Peace J. M. Boggus and others.

Local officers termed the school highly interesting. Stick-ups and hold-ups were discussed by FBI officers and several of the nation's top law enforcement men spoke.

## Conservationist Says Strip Cropping Is Valuable In County

Wind erosion is a serious hazard in this area, particularly on land planted to peanuts, an Eastland Soil Conservation Service worker pointed out Thursday.

Best results are obtained when strips are planted on the contour of across the prevailing winds using not less than two rows of close growing strips, such as sudan grass, and not more than eight rows of clean tilled crops, or not less than four rows of grain sorghum or guar and not more than eight rows of peanuts.

## Eastland Red Cross Drive 63% Complete

Mrs. E. E. Freyschlag, Eastland County Red Cross fund campaign chairman, said Saturday that the reports coming in from all parts of the county were "very encouraging."

The Eastland quota of \$1,900 is over the half way mark. Friday Eastland workers for the Red Cross had 63 per cent of their goal.

Their early report for the coming week will find it further along, but it's still a long way to March 31 and the top," Mrs. Freyschlag said.

Mr. H. Perry, business district chairman, stated that \$800 had been given today, but that some of the business section workers had not yet had time to work their areas. He urged all of his workers to "please hurry so that their obligation would be complete."

Mrs. Earnest Schaefer, rural division chairman, explained that she knew many of the community chairmen had completed their areas but had not had a chance to turn in the money. A total of \$102 has been given to the treasurer.

Olden under the chairmanship of Mrs. Vernon Red has already collected \$66.15. They have exceeded their quota by \$26.15.

Mrs. Claude Stubblefield of Carbon said she had not finished her area. Money received there remains the same as midweek, \$24.50. A late report from Gorman had not been received, however, they had a little over \$100 early this week. It is felt that they have achieved their quota of \$500 by this time.

Mrs. Freyschlag praised the very fine spirit and hard work of the many volunteers assisting in the campaign. She went on to say, "You do not have to be sold on Red Cross. Its efficient, unselfish service, in war and peace, in stress and disaster, is a familiar story. But workers do have to make their contacts. Help them reach the goal."

## Tucker's Carbon Station Is Now Open For Business

Frank Tucker, owner of Tucker's Premiere Station in Carbon, announced Saturday that he is now open for business.

## More Rain Due After .35 Inches Falls

Slightly more than .35 inches of priceless rain fell over this area Friday as a cold front lining up in the mid-west held promises of more rain to come Sunday.

A general but light rain fell over most of the state with some localities getting as much as two inches of moisture.

A low pressure area north of here was drawing moist Gulf air over a cold dome which had moved into this area Friday morning.

The outlook for the weekend was cloudy and continued mild in the Eastland County area.

Dark clouds ranged over most of the state Friday, with only parts of west Texas—including Amarillo, Lubbock, and El Paso—reporting clear skies.

A stretch six miles east of Tascala and Orala reported the heaviest rainfall with two inches. Winters and Throckmorton each reported .80 inches. Baird got .65

## Eastland Student Typed Her Way Into Medical Technology

Miss Farr entered North Texas State college in Denton. Although it is possible to become an efficient technician just by practical experience, she wanted to study because she felt:

"Doing things and knowing why you do them are two different things." She wanted to know the "why" in medical technology.

Although Miss Farr claims she could not punctuate a sentence until she was in high school, she enjoys her undergraduate English in college. When her professor asked whether she had ever considered a major in English, she exclaimed:

## Court Redistricting Hearing March 28th

A hearing pertaining to Eastland, Callahan, Shackelford, Taylor and Stephens counties — involving a redistricting of district courts — is set for hearing Monday, March 28 at 7:30 p.m., Rep. Paul Brashear, Cisco, told the Telegram Saturday.

"I will appreciate your assistance in notifying the people of your area as this will be their opportunity to appear for or against this bill," Mr. Brashear said.

Mr. Brashear explained that House Bill 536, by Rep. Yancy of Houston, known as the Judicial Redistricting Bill of the entire state, will be heard in sections.

A bill introduced by Rep. Brashear and Rep. Mack Allison of Mineral Wells, House Bill 32, would increase the 91st District Court of Eastland County in size by adding Callahan County. The Bill would also make a fulltime Taylor County court out of the 42nd District Court and would add Shackelford County to the 90th District Court.

Judge Turner Collier of the 91st District Court has expressed support of Mr. Brashear's plan. He cited the growth of Abilene and the expected growth of Taylor County to 100,000 in the immediate future, as reason for making the 42nd fulltime in Taylor County.

Judges Collier said the arrangement is desirable to all justices affected and "90 percent of the attorneys in the five counties."

### ABOUT SPORTS

By VIRGIL E. MOORE

Eastland will have two Junior Teenage boys' teams this year. That's what we learn from conversations with James Wright and Care Townsend, who were in Cisco early this week to meet with Club members there to organize an official league.

Wright and Townsend said representatives were also present from Moran at the Cisco meeting. A tricity league composed of teams from Eastland, Cisco and Moran was organized. In all there will be six teams involved. Three will be in Cisco, two in Eastland and one in Moran. Last year Cisco had four teams and Eastland had only one. The towns got together so that a sanctioned league could be organized.

Under the new set-up, the champion of the league will represent this area in regional play. The Teenage League, which is composed of boys 13 through 15, goes all the way to a national playoff. Wright tells us that Don Pierson Olds-Cadillac will again sponsor one of the teams. The other sponsor is almost assured, too, he said.

Two managers are needed, however. Sgt. Grady Hoyle, who managed the team last year, has been transferred, and so Wright and Townsend will have to locate two new coaches.

Play is due to start the last of May. A meeting is to be held here in the near future.

See you again Tuesday.

### Military Modes:

## ARMY'S BEST SOLDIERS GET REWARD — THE BLUES

WASHINGTON — Sixty of the Army's sharpest soldiers have the blues — and they're happy! The blues are the Army's snappy blue dress uniforms, and the most outstanding soldiers at Army posts in the United States have been chosen to model them.

Wearing of the Army blues is recognition of outstanding service. It's also a test of the new uniform by the Army Quartermaster Corps. The handsome new Army blue is a far cry from the present olive drab uniform which most soldiers shuck in favor of civilian attire the moment they are off duty.

The coat is dark blue with brass buttons. Piping of shoulder loops, chevrons and service stripes is gold.

Trousers are sky blue, cuffless, and have a gold stripe about an inch and one-half wide running from the waistband to the bottom of the trouser leg. The cap is dark blue with an outside gold band one-half inch wide. The cap's visor and chin strap are of black patent leather rather than the current Army rayon.

Shoes, socks and tie also are black. White shirt and white cloth gloves make the uniform complete.

The Quartermaster Corps is seeking answers to several questions before the Army blues are made available to all soldiers, and the sixty enlisted men and 20 officers now wearing the striking uniform will provide the answers with monthly reports. Questions to be answered include:

1. Do the soldiers like the uniform for off-duty wear?
2. Is it comfortable?
3. Is it durable?
4. Will it hold its shape?
5. Which material, and which weight of cloth, is most desirable?
6. Does the ornamentation tarnish?
7. Will it still look like the uniform of a soldier after numerous dry cleanings?

The uniforms will be returned to the QM Research and Development laboratories at Natick, Mass., for a thorough going-over after being worn for nine months. Most of these questions should be answered at that time. Incidentally, after the laboratory check, the uniforms will be returned to the soldiers and they may keep them. Three different materials for the uniform are being tested — 10-ounce tropical worsted, 11-ounce wool gabardine and 15-ounce barbathea. Three different gold-colored materials also are being tested for the ornamentation — gold bullion, nylon and rayon.

Blue uniforms for soldiers are as old as the Army itself. They first were worn more than a year before the Declaration of Independence. During the War Between the States, officers and enlisted men alike wore Army blue. Cavalrymen who helped to win the West also wore blue-clad and enlisted men were wearing dress blue until World War II. Under unification, the Army is happy to share its traditional blue with its sister services.

**MAVERICKS**

The Ag class has been fairly busy this week. Thursday they went around town and gave all the business men cards and programs of the Eastland County Livestock Show. The show will be held next Friday and Saturday at the old Eastland airport. If you like to see good stock and progressive future farmers, come out and look around. You are guaranteed to see good stock.

The tract team met with Cisco today in a practice meet. From the rumor I got, Eastland came out ahead.

The band is still progressing. Mr. Woodard commented that he thought the band could do good next year at the concerts. It is too late this year for them to do much good.

The kids are really chirping up here. There are just 49 more school days.

Tony Johnson is a well fitted Ag boy this year. He is second vice president of the chapter farmers. Tony is raising 130 broilers for his project this year. He has five rabbits too. His project for last year was 50 laying hens. He profited of about \$30 from his hens.

He plans to feed out two South Down ewes for next year's project. He will feed them for the Abilene Stock Show and the Eastland Show. Tony plans to start into sheep business. Tony plans to raise his own feed next year, so he should come out ahead.

**DESTINATION DISASTER!**  
One of the most dangerous of all motoring hazards is fire. The engine of your automobile becomes overheated and all of a sudden, poof! you're in the middle of nowhere and burning up. It's a wise motorist who prepares against disaster. A pound package of baking soda in your glove compartment is all it takes. When a small fire ignites just throw handfuls of soda over the blaze... presto. The fire's out the car is saved. Baking soda, when heated by a fire, creates carbon dioxide, which settles around a flame, cutting off the supply of oxygen necessary for combustion. Baking soda is more effective than sand, salt or dirt and will not damage the engine of your car.

## Magnificent Record

March—Red Cross Month—is two-thirds gone now, and it is well that all who wish to see it move forward successfully in the fine service it performs join up in the designated period.

While the extreme usefulness of the Great Mother is generally acknowledged, we want to point out several of its accomplishments. During the past year, here in Texas, it has

- assisted in 30 major disasters.
- collected 35,146 units of blood for defense and civilian needs.
- trained 34,771 persons in first aid, 40,472 persons in water safety and 8,966 in home nursing.
- helped 149,109 persons or families in service to the armed forces, and veterans, and their families.
- directed 6,090 trained volunteers who gave 375,184 hours of service to individuals and to community activities in addition to making 14,198 garments, surgical dressings, and comfort items for hospitalized servicemen and veterans.
- sponsored the activity of 918,195 Texas boys and girls who are members of Junior Red Cross.
- performed countless other beneficial services which cannot be reduced to statistics.

For the foregoing, none other than Gov. Allan Shivers is the source.

To our way of thinking, the service performed by the Red Cross is the action "which speaks louder than words." It is a privilege to back such an agency.

### 'Our Part' Will Be Sermon Topic At Presbyterian Church Sunday

The sermon on the fourth Sunday in the church's season of Lent at the First Presbyterian Church will be entitled "Our Part," the Rev. Eugene H. Surface, minister, announced Saturday. Three previous sermons of the series have been entitled, respectively, "Our Need of God," "The Great Obstacle — Sin," and "God's Provisions for our Need."

Following the morning worship service on last Sunday, a brief congregational meeting was held, and Tom Wilson and Don Hart were elected Elders. These Elders

will be ordained and installed this next Sunday, at morning worship. A goodly number attended the first session of the church study group last Sunday evening. This group study — now "Christian Beliefs," will meet one week from Sunday. This Sunday evening at 7:30, Church School leaders will meet to plan for the teaching of the coming months.

The Minister has been moving into the church study this past week. He plans to be in the study during the mornings (except Mondays). A telephone will soon be installed. Conferences and calls are welcome, he said.

The Presbyterian Church is joining with most of the other branches of the Universal Church in "The World Day of Sharing," a special offering this Sunday for the world's need.

### Christian Science Lesson-Sermon To Be 'Matter' Here

How spiritual understanding of God brings freedom and happiness will be brought out at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon entitled "Matter" will include the account of Moses' call from God to free the children of Israel from bondage.

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (200:4): "Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind."

The Golden Text is from John (6:63): "It is the spirit that quickeneth; the flesh profiteth nothing."

### Methodist Sermons Announced

"Operation L-O-V-E" will be the morning sermon topic of Rev. Jackson Oglesby Sunday at the First Methodist Church. Church School begins at 9:45 and morning worship at 10:50.

The choir will bring the anthem, "God So Loved the World," directed by Mrs. Art Johnson. Miss Rhelda Reed is organist.

Methodist Youth Fellowship meets at 6:45. Seniors will have Ruan Owen as leader and her subject is "The World's the Work Shop." The Intermediates will meet at the same hour. Mrs. A. F. Taylor and Mrs. M. H. Perry will be hostesses for the youth after the evening service.

The evening service starts at 7:30 the pastor bring the message on "New Discoveries On An Old Trail." Wendell Siebert is Youth Choir Director.

The "Fill the Pew Plan," started two weeks ago, has greatly increased the evening attendance. You are invited to come and help fill a pew.

The Woman's Society of Christian Service will meet at the church Monday afternoon at 2:30 for the program with Mrs. George Lane leader. Mrs. Art Johnson will have a part on the program.

Monday evening at 7 a.m. the Hubert Some Sub-district will meet in Caddo for the program on "Methodist Youth Fund."

Wednesday evening at 7:30 the choir will meet for rehearsal. They are working on the Easter music and will give an Easter Concert Sunday evening April 10.

A nursery is maintained downstairs during both morning and evening services.

... is a tragic reminder to those who are unfortunate in losing their worldly possessions without adequate insurance protection. Years of effort, savings and accomplishment, wiped out in a single catastrophe. It may be only an explosion, a fire, a tornado, or something worse if we can imagine such a thing. It can happen anywhere, any time, to any one, without warning. Insurance is the only answer. So why be unprepared when the cost is so reasonable?

## Moore... ABOUT SPORTS

by VIRGIL E. MOORE

Eastland will have two Junior Teenage boys' teams this year. That's what we learn from conversations with James Wright and Carl Townsend, who were in Cisco early this week to meet with Club members there to organize an official league.

Wright and Townsend said representatives were also present from Moran at the Cisco meeting. A tri-city league composed of teams from Eastland, Cisco and Moran was organized. In all there will be six teams involved. Three will be in Cisco, two in Eastland and one in Moran. Last year Cisco had four teams and Eastland had only one. The towns got together so that a sanctioned league could be organized.

Under the new set-up, the champion of the league will represent this area in regional play. The Teenage League, which is composed of boys 13 through 15, goes all the way to a national playoff.

Wright tells us that Don Pierson Olds-Cadillac will again sponsor one of the teams. The other sponsor is almost assured, too, he said.

Two managers are needed, however. Sgt. Grady Hoyle, who managed the team last year, has been transferred, and so Wright and Townsend will have to locate two new coaches.

Play is due to start the last of May. A meeting is to be held here in the near future.

See you again Tuesday.

**HOLD UP?**—No robbery. Just a routine "sweep" with a personnel monitoring system to detect possible radiation. It's the kind of check-up given all of the 5,000 soldiers who are in the forward area during an atomic detonation while participating in the U.S. Army's Exercise Desert Rock VI in Nevada this spring. Private First Class Clyde J. Satriano of Denver, Colo., is sweeping Captain Rollin W. Kapp of Setauket, L.I. N. Y., radiological safety team member.

### Military Modes: ARMY'S BEST SOLDIERS GET REWARD — THE BLUES

WASHINGTON — Sixty of the Army's sharpest soldiers have the blues — and they're happy!

The blues are the Army's snappy blue dress uniforms, and the most outstanding soldiers at Army posts in the United States have been chosen to model them.

Wearing of the Army blues is recognition of outstanding service. It's also a test of the new uniform by the Army Quartermaster Corps.

The handsome new Army blue is a far cry from the present olive drab uniform which most soldiers shuck in favor of civilian attire the moment they are off duty.

The coat is dark blue with brass buttons. Piping of shoulder loops, chevrons and service stripes is gold.

Trousers are sky blue, cuffless, and have a gold stripe about an inch and one-half wide running from the waistband to the bottom of the trouser leg.

The cap is dark blue with an outside gold band one-half inch wide. The cap's visor and chin strap are of black patent leather rather than the current Army brown.

Shoes, socks and tie also are black. White shirt and white cloth gloves make the uniform complete.

The Quartermaster Corps is seeking answers to several questions before the Army blues are made available to all soldiers, and the sixty enlisted men and 20 officers now wearing the striking uniform will provide the answers with monthly reports. Questions to

- be answered include:
1. Do the soldiers like the uniform for off-duty wear?
  2. Is it comfortable?
  3. Is it durable?
  4. Will it hold its shape?
  5. Which material, and which weight of cloth, is most desirable?
  6. Does the ornamentation tarnish?
  7. Will it still look like the uniform of a soldier after numerous dry cleanings?

The uniforms will be returned to the QM Research and Development laboratories at Natick, Mass., for a thorough going-over after being worn for nine months. Most of these questions should be answered at that time. Incidentally, after the laboratory check, the uniforms will be returned to the soldiers and they may keep them.

Three different materials for the uniform are being tested — 10-ounce tropical worsted, 11-ounce wool gabardine and 15-ounce barbathea. Three different gold-colored materials also are being tested for the ornamentation — gold bullion, nylon and rayon.

Blue uniforms for soldiers are as old as the Army itself. They first were worn more than a year before the Declaration of Independence. During the War Between the States, officers and enlisted men alike wore Army blue. Cavalrymen who helped to win the West also wore blue-clad and enlisted men were wearing dress blue until World War II.

Under unification, the Army is happy to share its traditional blue with its sister services.

**MAVERICKS**

The Ag class has been fairly busy this week. Thursday they went around town and gave all the business men cards and programs of the Eastland County Livestock Show. The show will be held next Friday and Saturday at the old Eastland airport. If you like to see good stock and progressive future farmers, come out and look around. You are guaranteed to see good stock.

The tract team met with Cisco today in a practice meet. From the rumor I got, Eastland came out ahead.

The band is still progressing. Mr. Woodard commented that he thought the band could do good next year at the concert. It is too late this year for them to do much good.

The kids are really chirping up here. There are just 49 more school days.

Tony Johnson is a well fitted Ag boy this year. He is second vice president of the chapter farmers. Tony is raising 130 broilers for his project this year. He has five rabbits too. His project for last year was 50 laying hens. He profited of about \$30 from his hens.

### DESTINATION DISASTER!

One of the most dangerous of all motoring hazards is fire. The engine of your automobile becomes overheated and all of a sudden, poof! you're in the middle of nowhere and burning up. It's a wise motorist who prepares against disaster. A pound package of baking soda in your glove compartment is all it takes. When a small fire ignites just throw handfuls of soda over the blaze... presto, the fire's out the car is saved. Baking soda, when heated by a fire, creates carbon dioxide, which settles around a blaze, cutting off the supply of oxygen necessary for combustion. Baking soda is more effective than sand, salt or dirt and will not damage the engine of your car.

### Magnificent Record

March—Red Cross Month—is two-thirds gone now, and it is well that all who wish to see it move forward successfully in the fine service it performs join up in the designated period.

While the extreme usefulness of the Great Mother is generally acknowledged, we want to point out several of its accomplishments. During the past year, here in Texas, it has

- assisted in 30 major disasters.
- collected 35,146 units of blood for defense and civilian needs.
- trained 34,771 persons in first aid, 40,472 persons in water safety and 8,966 in home nursing.
- helped 149,109 persons or families in service to the armed forces, and veterans, and their families.
- directed 6,090 trained volunteers who gave 375,184 hours of service to individuals and to community activities in addition to making 14,198 garments, surgical dressings, and comfort items for hospitalized servicemen and veterans.
- sponsored the activity of 918,195 Texas boys and girls who are members of Junior Red Cross.
- performed countless other beneficial services which cannot be reduced to statistics.

For the foregoing, none other than Gov. Allan Shivers is the source.

To our way of thinking, the service performed by the Red Cross is the action "which speaks louder than words." It is a privilege to back such an agency.

### 'Our Part' Will Be Sermon Topic At Presbyterian Church Sunday

The sermon on the fourth Sunday in the church's season of Lent at the First Presbyterian Church will be entitled "Our Part," the Rev. Eugene H. Surface, minister, announced Saturday. Three previous sermons of the series have been entitled, respectively, "Our Need of God," "The Great Obstacle — Sin," and "God's Provisions for our Need."

Following the morning worship service on last Sunday, a brief congregational meeting was held, and Tom Wilson and Don Hart were elected Elders. These Elders

will be ordained and installed this next Sunday, at morning worship. A goodly number attended the first session of the church study group last Sunday evening. This group study — now "Christian Beliefs," will meet one week from Sunday. This Sunday evening at 7:30, Church School leaders will meet to plan for the teaching of the coming months.

The Minister has been moving into the church study this past week. He plans to be in the study during the mornings (except Mondays). A telephone will soon be installed. Conferences and calls are welcome, he said.

The Presbyterian Church is joining with most of the other branches of the Universal Church in "The World Day of Sharing" — a special offering this Sunday for the world's need.

### Christian Science Lesson-Sermon To Be 'Matter' Here

How spiritual understanding of God brings freedom and happiness will be brought out at Christian Science services Sunday.

Scriptural selections in the Lesson-Sermon entitled "Matter" will include the account of Moses' call from God to free the children of Israel from bondage.

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (200:4): "Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind."

The Golden Text is from John (6:63): "It is the spirit that quickeneth; the flesh profiteth nothing."

### Carbon Church of Christ Services Are Announced

CARBON (TNS) — Morning worship services at the church of Christ in Carbon begin at 11 a.m. Jimmy Shearer, minister, will officiate.

Bible study begins at 10 a.m. and the Lord's Supper at 11:40. Young People's Class meets at 6:30 p.m. and evening services at 7:30.

Mr. and Mrs. Roy Brickman of Holcomb Ranch, northeast of town, visited in Eastland Thursday.

Years to Build, Seconds to Destroy—  
... is a tragic reminder to those who are unfortunate in losing their worldly possessions without adequate insurance protection. Years of effort, savings and accomplishment... wiped out in a single catastrophe. It may be only an explosion, a fire, a tornado, or something worse if we can imagine such a thing. It can happen anywhere, any time, to any one, without warning. Insurance is the only answer. So why be unprepared when the cost is so reasonable?

arrest report for the recent legal shooting period.

The compilation included the case of a Central Texas man fined for shooting a sandhill crane, a large, slate-colored marsh bird. He was fined \$25.00 and costs.

"This poor fellow could have been color blind," said the Director. "Otherwise, I can see no excuse for shooting this beautiful specimen."

He pointed out that sometimes persons charged with shooting large white birds explain that they mistook the target for snow geese.

"But a sandhill crane," said the Director, "has so many distinctive characteristics besides a color unlike anything else in the large bird category. For one thing, the giant crane flies with its long neck extended and, in a more conspicuous way, carries its long legs straight out behind."

The report emphasized the many prosecutions for night hunting. Two Houston men were fined a total of \$400.00 and court costs for shooting a doe deer after dark. Another Houston man paid \$150 plus costs on charges of hunting from a car and hunting with an artificial light.

## NEWS FROM DESDEMONA

By Mrs. Ethel Keith

A nice shower fell in this community Saturday night, but much more is needed.

Among the teachers from here to attend the T.S.D.A. convention at Wichita Falls Friday and Saturday were Roger Murry, superintendent and Mrs. Chas. Maitoy, Mrs. Escar Singleton and Mrs. Beaty.

Joe Henry, brother of Tip Henry, was here visiting with Tip and other friends, including Mrs. Katie May.

Mr. and Mrs. Hugh Abel and their daughter, Mrs. S. W. Walker and children, visited in Fort Worth with Mr. McDermatt, who underwent surgery there several days ago.

Mrs. Nora Lane attended church at the First Baptist Church in Eastland Sunday.

Mrs. Maggie, together with her son and daughter-in-law, Mr. and Mrs. Joe Pool of Eastland, motored to Dallas Sunday and enjoyed the day with a son and brother and his wife, Mr. and Mrs. James Pool.

Mrs. Lora Abel spent several days in Odessa last week with Mr. and Mrs. S. W. Walker.

Mr. and Mrs. H. O. Fien and son, David, spent the weekend here with Mr. Fien's mother, Mrs. Ollie Fien.

Mrs. Eula Northeatt and Eva and Mrs. Ethel Keith visited Friday in Dublin with Mrs. Keith's mother, Mrs. N. S. Partain, who is ill.

Lt. Bobby Burleson of Fort Sill, Okla. was home for the weekend.

Mr. and Mrs. Robert Miers of Fort Worth was home for the weekend.

Mr. and Mrs. Anse Brown spent the weekend in Dallas with their daughter and son-in-law, Mr. and Mrs. Herc Ficklen and Mollie Bess. The occasion was in celebration of the third birthday of little granddaughter Mollie Bess.

The Floyd Moores spent the weekend of last week in Seagraves with Mr. and Mrs. Virgil Branham and children.

Mr. and Mrs. R. H. Abel visited Sunday afternoon with Mrs. Flossy Coan in DeLeon.

Mr. and Mrs. Ott Ragland spent Friday in Breckenridge with Mr. and Mrs. Whit Richards and Billy.

I have received an anonymous letter. It follows:

"It seems that someone here hates dogs and several dogs have been poisoned — some in their owners' yards.

"Now take notice Mr. Dog Hater. What if some little child should have eaten your poisoned sandwich? Then their blood would be on your hands.

"Stop! Think and think. Besides all this, do you realize all this is against the law and is punishable by law."

That's because a headache is not an ailment itself, but a symptom of something else. That "something else" may be as simple a problem as too much food and excitement the night before; it may, on the other hand, be a serious threat to bodily health. In either case, it is a warning that you should act immediately, in the one case by slowing down the tempo of your social life, in the other by seeking the advice of your physician.

Headaches can be caused by fatigue, by infection, by allergy, by injury or by emotional disturbance. But all of them fall into three categories: mechanical, toxic and functional.

A headache from eyestrain, overwork or inflammation of the sinuses is a mechanical one; headache caused by too much acid in the body, by constipation, by over-indulgence in alcohol, by inhaling certain gas fumes, all of which

slow up the blood circulation, are toxic headaches. Functional headaches include the oft-mentioned migraine and those caused by high blood pressure.

Most headaches need not cause over-alarms. If they occur infrequently, the trouble is often the "morning after" type, which should, of course, call for the obvious remedy — eliminate the night before. Or is your office or bedroom improperly ventilated? That could be the cause of the trouble.

If headaches recur frequently and under the same conditions, and in the same areas of the head, heed the danger signal your own body is giving you. Consult your physician. And don't lean too heavily on the support of aspirin and similar patent remedies. Their aid is only temporary at best and does nothing to affect the real seat of your trouble.

**NEWS FROM STAFF**

By Mrs. M. O. Hazard

A revival meeting will begin at the Staff Baptist Church Thursday, March 31 and run through the following Sunday night. Services will begin each evening at 7:30. The Rev. Dixie Clements of Gorman will do the preaching. The public is cordially invited to attend these services.

**A Tribute To Our Churches**

We bring this message to all the churches of our city. It is a message of deep appreciation for your services and for your faithful consecration to the life of Him who died on the cross. The church is the spiritual gathering place for those who would worship in reverent communion and prayer. It is the cathedral of contemplation, whether it be an impressive edifice or a humble meeting house. Here we have churches of many denominations . . . and God lovingly invites you to attend the one of your choice. Let's all go to church every Sunday. Let's pray for the redemption of the world.
