EASTLAND, TEXAS, TUESDAY, FEBRUARY 19, 1957

Moore... Six Selected Eastland For Crawford

We found out that Eastland County is a mighty wet place while we were down in Del Rio for the West Texas Press Association meeting. We, of course, are talking about the weather, not drinking conditions. Del Rio, during the past year, recorded only a fraction above five inches of rain. That compares to out 17.47 inches ir 1956, and if you remember,

While we were in the border city, we are pleased to report, it rained every minute. A stach of marijuana had been found in the shack and we were waiting for the peddler to show up. Finally the "big" arrest was made and the police carried their captive back to jail. There we decided it would be a smart deal to take a picture of the suspect along with a couple of of-ficers in back of a table where we spelled out "Marijuana peddler captured in Del Rio," using the marijuana cigarettes to spell out the words. We got back with our picture just in time to make front page. We sat back at our desk waiting for words of praise Fred Davenport from the editor, when suddenly the roof fell in. We had mispell-

On information received from George W. Busby, chief of the de-partment's Motor Vehicle Inspection Division, the state police di-rector said only one-third of the state's four million vehicle owners have obtained their 1957 inspection stickers to date. He urged motorists to have their cars and trucks inspected now, as means of saving time for themselves and to avoid a last minute congestion at inspection stations throughout Texas.

Last year, as was true in most preceeding years, vehicles over-Mrs. Sue Hamelton of Dallas crowded inspection stations during visiting her parents, Mr. and the last week of the inspection period. There's a record supply of canned sweet corn on hand in retail stores. This makes for a good time to purchase a large pantry shelf supply of this versatile food. Canned sweet corn knows no season, it fits into menus the year round. Just heat and season or give it a special dress by making the alltime favorite, old fashioned corn pudding.

Corn fritters or corn pancakes served with melted butter or margarine, hot syrup and sausage make a delicious supper for the family and guests. Just add a cup of well drained whole kernel corn to a fritter or pancake recipe that makes four servings. Corn waffles

International Synonym for "Achievement"!

Mention the name "Cadillac" wherever you willand in whatever part of the civilized world you might be-and you will find a common meeting-ground of understanding.

It is, in brief, a world-wide synonym for personal achievement!

And this is, we think, entirely logical. For over the years, the Cadillac car has played a vital role in the lives of so many of the leading citizens of every community where motor cars are seen.

of those who choose without restriction. This, of course, is not to say that a motorist need necessarily possess an abundance of this

world's goods in order to enjoy the great and un-

duplicated satisfactions of Cadillac ownership.

Cadillac is, in fact, the almost predictable choice

Consider, for instance, the economy of buying a Cadillac. Several models are actually priced competitively with much smaller, lighter cars.

Consider the practical aspects of driving a Cadillac. The car is remarkably economical from a standpoint of both maintenance and operation.

And lastly, think of the wisdom of owning a Cadillac. Year after year, Cadillac returns a greater share of its owner's original investment. than any other motor car in the land.

In other words, wisdom and practicality can lead you to the "car of cars" just as surely as prominence and prosperity.

We suggest that you come in soon-that your spend an hour at the wheel-and that you delay no longer in making the magic move to Cadillac. We'll be looking for you-soon.

CHEVROLET TESTS GAS TURBINE TRUCK

Chevrolet Motor Division has unveiled an experimental gas turbine truck which it has been road testing for six months. Developed cooperatively with the General Motors Research Staff, the Turbo-Titan contains an experimental 200-horsepower engine, examined here by Chevrolet's Chief Engineer H. F. Barr, left, and W. A. Turenen, head of GM's gas turbine research. "Among gas turbine advantages over piston truck engines," Barr said, "are better hill-climbing abilities, less maintenance, wide fuel choice, and easier cold-weather starting," Chevrolet has no immediate production plans.

What does the Duval story mean to the State of Texas?

My colleague, Franz Rosenwald,

SAN DIEGO. Tex.-Things are different in Duval County.

No matter how brightly the lust for liberty burns, it takes a little know-how to jump in and operate know-how most assentiage to their jobs in Oilton and Falfurnas and Alice because nobody would hive them in George First, they don't just fizzle by themselves. They have to be helped along by people who are fed up with them Second, there's coming home. Anow-now to jump in and operate to sundown, six days a week Now the government according to the Constitution. Before the "clean-bad their government run for them since before World War One, and unashamedly admitted they were rusty as the nails in the Ark. They obtained and circulated elementary textbooks on other and fall in love because one there his curve, now and sundown, six days a week Now they with them Second, there's not much hope for people who get rid of one dictator and fall to lock the door against the next one. Under the Texas Constitution there's not likely to be a dictator they were rusty as the nails in other and fall in love because one they were rusty as the nails in other and fall in love because one other his curve, now and another his curve, now and another they're coming home they're all been hay had there is always a next one.
