## MOORE about... EASTLAND by Virgil E. Moore

Mrs. Ben Hamner says there is not enough money in Eastland to buy her yellow cat.

Mrs. Hamner has received a lot of criticism about the cat from her husband—Ben calls it the ugliest cat in Eastland—but she has always maintained that Smith was an exceptional cat.

Even Ben was willing to admit to Sister Smith's value Saturday morning. During the night the cat killed eight huge rats and neatly piled them on the Hamner's steps for all to see.

What with all the mice and rats in town these days, a good cat is worth a lot of dough.

We hate to ruin Travis Hilliard's sure way of getting attention of students, but just have to.

Travis, superintendent of Olden schools, claims he has always been successful in getting his students' attention by rushing into the room and exclaiming: "I just read about the most remarkable thing. A man has invented a device which allows you to walk right through a wall."

With his students on the edge of the seat, Mr. Hilliard then switches their attention to lesser things by explaining the invention is a door.

Speaking of cats, does anyone know how we can impress upon our three-year-old son that the proper way to address a pretty cat is "kitty kitty" and not "catty catty?"

We think he must have his Mother in mind!

Ruby Mae Pledger, who operates the Greyhound Bus terminal, claims she is getting the cricket situation under control. The bus station has been about the hardest hit target of the crickets this year, but Mrs. Pledger claims she can take a broom, hit a cricket in the back of the station a good lick and knock it out a two inch opening at the front door.

We misquoted the facts the other day when we said afternoon workouts of the football team would be at 4:30. The correct time is 4 p.m. Coach Carroll Shelton said his boys better not try to use the Telegram as an excuse. "It just won't work," he says.

Earl Bender wouldn't believe us when we told him that the temperature dropped to 59 degrees Sunday night. Earl said it just doesn't get that cold in Eastland in August.

We told ourself the same thing about 3:30 a.m. Monday when we were getting the quilts out of cedar chest.

That courthouse crew is doing all the good. Last year they got a nice 10 percent pay increase (which was warranted) and now comes the announcement they will go on a five day week.

We mentioned this to one of our banker friends, saying they were going to have banking hours, but he corrected us immediately. "They aren't going to stay open Friday night," he explained.

We hate to cut this thing short, but honestly speaking, there's just not any "Moore" to talk "About."

## Bond Sales In County Continue To Lead In Area

For the seventh straight month, Eastland County came in second in the district and led the Fort Worth area in percentage of E & H Savings Bonds sales, according to July sales report.

July sales of \$56,667 brought the cumulative sales up to \$465,300—a figure representing 91.8 percent of the goal for the year (set at \$507,000).

First in the district in amount of sales, was Taylor County—with sales totaling \$106,785. Ranking third was Stephens County with sales totaling \$47,244.

Running second, in the area, percentage-wise, is Clay County—with 91.5 percent of its goal completed.

Sales in Texas for the first seven months were \$103,806,066 which was 3.9 percent greater than the same period in 1957.

Bond sales in this district totaled \$362,490 in July bringing cumulative sales up to \$2,684,685, representing 66 percent of the goal.

## Softball Action Slated Thursday

The Eastland Independents edged the Rogues 8-7 Monday night in a softball game played at Firemen's Field.

The two teams will play again Thursday night at 8 p.m.

Walter Maynard was the winning pitcher and J. D. Ables was charged with the loss.

## Two Are Injured In Three Auto Crashes

Two persons were injured and property damage was heavy in three separate Eastland County highway accidents over the weekend.

Eastland County Highway Patrolmen investigated the last of the three wrecks Monday morning. A 1953 Chevrolet owned by the State Highway Department and driven by Johnny Beauford Jesse of Eastland, was in collision with a 1957 Pontiac driven by Jesse David Harris Sr., 40, of Lamesa, four miles west of Eastland on Highway 80.

Both the truck and the car were traveling east. Patrolmen said the driver of the truck was making a left hand turn off the divided highway, and the car skidded into it. The right side of the Pontiac was smashed in, but the truck was not damaged.

A passenger in the car, 14-year-old John Harris, suffered lacerations of the arm and some 25 stitches were needed to close the wound. He received emergency treatment at Eastland Memorial Hospital and was then released.

## HAMILTON CARRIES COUNTY

# Bennett and Lamb Victors

Eastland County voters gave a booming majority vote to Judge Robert W. Hamilton Saturday in the second Democratic primary.

Bennett was re-elected commissioner of Precinct 2 (Gorman-Carbon) and Lamb won a first term as Precinct 4 (Cisco) commissioner. Only in the 11 voting precincts which cast votes in the commissioners' races was interest high.

Voting apathy in Eastland, Ranger and Rising Star was the most noticeable. With only the Supreme Court race to vote on, Eastland cast only 77 votes, Ranger just 45 and Rising Star only 18. All three towns have two voting boxes.

Hamilton received 1644 votes to 796 for Smith in complete but unofficial returns tabulated by County Auditor Earl O'Brien and County Clerk Johnson Smith.

Bennett won by a margin of 638 votes to 325 and Lamb outpolled Pippin 754 to 535.

Statewide, Hamilton, who was regarded as the Conservative candidate, got 293,835 votes to 244,693 for Smith, who the Associated Press said was tagged as the Labor-Liberal candidate.

Hamilton carried Eastland by a 64-13 margin, Ranger 31-14, Cisco 798-321, Gorman 349-178, Carbon 110-48, Desdemona 44-37 and Olden 12-3. Only the Romney voting precinct was carried by Smith (7-1), but three other precincts, West Rising Star, Alameda and Staff, gave the candidates equal numbers of votes.

Here's how voting went in the two commissioners' races:

Precinct 2		Precinct 4	
Thurman	Bennett	Pippin	Lamb
Alameda	21	126	135
Kokomo	30	357	553
Carbon	87	22	9
Gorman	137	18	3
Staff	18	6	11
Desdemona	28	6	43
Absentee	4	6	43
Totals	325	638	754

**Blowout Ruled Cause**  
A blowout was ruled the cause on a one-car smash-up a half mile west of Eastland on Highway 80 Saturday at 4:31 a.m.

A 1950 Mercury driven by Charles William Davis, 28, of Fort Myer, Va. overturned, officers said, when a tire blew out. Davis was not injured, but the car was badly damaged.

**Overturns Twice**  
The first of the series of accidents took place at 12:50 a.m. Saturday. A 1957 Chevrolet, driven by Edgar Thurman Childress, 30, of DeLeon overturned 2 1/2 times on State Highway 16, some 500 feet north of Highway 80 and 3.3 miles south of Strawn.

Childress was traveling south and failed to make a sharp curve. He was admitted to Ranger General Hospital with cuts and bruises.

**Eastland Stores Plan to Observe Holiday Monday**  
Monday will be an official holiday in Eastland. H. J. Tanner, chamber of commerce manager, reminded local citizens today.

Tanner said that Labor Day is one of the regular holidays observed by Eastland businessmen.

# Pipe Line to Austin To Carry County Gas

## Contract Let For Sixteen-Inch Line

Contract for a 16-inch pipeline to carry natural gas from nine West-Central Texas counties, including Eastland County, to Austin was let this week by Mid-Texas Gas Co. of Dallas.

Successful bidder was the N. A. Saigh Pipeline Contracting Co. of San Antonio. Gas will be gathered from Eastland, Erath, Stephens, Hamilton, Palo Pinto, Parker, Coleman, Brown and Comanche counties and transported to Austin.

Surveying for the right-of-way for the line is being done at the present time and construction is due to begin in the immediate future. Delivery of gas at Austin is expected by mid-winter or early spring.

The main line will come into the county from Strawn and will closely follow Highway 80 through Ranger and into Eastland. At Eastland the line will turn south-east, passing near Carbon, to the Comanche County line. This course was revealed by a highly reliable source.

Feeder lines will spread all through the area, bringing gas to the main line. An oilman very familiar with the plan said landowners, producers and consumers will benefit directly from this venture and business and industry over the entire state will benefit indirectly. He predicted Eastland County would see thousands of dollars come into the area as a result of the work.

The line will supply the city of Austin with natural gas on a contract basis. The Mid-Texas Gas Co., a Texas corporation, is headed by John G. Pundit, R. Jacques T. Dupont, E. J. Wynne, William P. Fouike, James P. Roszel and F. D. Thomas are all vice presidents, and Curtis B. Ball is secretary-treasurer.

According to information received here, none of the producers of gas who sell their product to Mid-Texas Gas Co. will come under the jurisdiction of the Federal Power Commission since the company is an intrastate organization, doing business only in Texas.

Several hundred workers are expected to be needed for the job.

## 'Deathless Days' Set for Holidays

Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, made a personal appeal to Texas motorists today urging them to join an all-out attempt to make Labor Day a historical event free of traffic deaths.

In his statement, Garrison said that he was talking personally to each driver when he asked them to join the DPS, Gov. Price Daniel, and business and civic organizations throughout the state in a drive to make Labor Day a yet unobtainable deathless holiday. He said such a traffic record for a holiday in Texas would be recorded in the history books.

"I would like for every driver to realize that his chance of becoming a motorist this holiday is greater than he would imagine. On an average throughout the 72-hour Labor Day period, we estimate that one fatality will occur in Texas every two-and-a-half hours; a traffic accident will occur every two-and-a-half minutes. This will be the rate of our accidents and fatalities if records of past holidays hold true."

Earlier the Texas Department said that 29 persons would become motorist during the three-day Labor Day holiday extending from 12:01 a.m. Aug. 30 through 11:59 p.m. Sept. 1. The state police organization has planned an extensive traffic law enforcement program for the holiday weekend, alerting all available patrolmen for an around-the-clock vigil.

The Texas DPS has labeled its program "Operation Motorcade" and will run its usual count of traffic fatalities.

Operation Motorcade will be bolstered by a "Deathless Days" campaign conducted by the Texas Association of Broadcasters, "Crusade Child Safety" during September conducted by the Dairy Institute of Texas and special safety programs conducted by Kiwanis clubs throughout the state.

Here is the prepared statement released by officials: "At a meeting of all county officials Monday, Aug. 25, it was unanimously decided to close the courthouse on each Saturday starting Saturday, Aug. 30, which custom will be in keeping with State and Federal Departments, as well as many banks and private businesses.

# Gray Matter

By JOE GRAY

One of Virgil Moore's more intellectual friends has told me off as the who said, "Out of the mouth of babes comes wisdom." In fact, he chided me about not knowing off hand who the great man who made the statement.

Moore's buddy told me almost everybody that ever listens to the radio ought to have known that it was Arthur Godfrey who made the statement. He heard the radio performer when the statement was made, so Moore's friend said.

I found out a longtime ago when the question came up as to the origin of a statement it was best to first see if it was in the Bible. Then if it isn't in the Bible look at Shakespeare. It ought to either be in one or the other. If it is anything that isn't in either the Bible or Bill Shakespeare's writings, it hasn't been said yet.

So I've looked for the statement about wisdom coming out of the mouths of babes in the Bible. This statement is not in the Bible in the form I quoted. However, in Matthew 21:16 we find Christ saying this to some Jews at Jerusalem: "Out of the mouth of babes and sucklings thou has perfect praise." This is the King James version of Christ's statement.

In the Revised Standard Version of the Bible this statement is translated as this: "... Out of the mouth of babes and sucklings thou has brought perfect praise."

In Psalms 8:2 there is a statement concerning infants and babes and infants, thou has founded a bulwark because of thy foes, to still the enemy and the avenger."

Neither of these two quotations from the Bible, however, completely fill the bill for the quotation I used the other day. But I wouldn't be surprised if the man who was the first to give the quote I gave didn't get his idea for the quote from the Bible itself. He merely made it more exactly express what he wanted to express than the original biblical statement.

I've been fighting off a rumor for two or three months now and just as I thought I had the thing licked for another year, it rose up this week and smote me like Moses of old smoting the Egyptian. It knocked me flatter than a bride's biscuits.

Last June when I went to the Annual Conference of the Methodist Church at Fort Worth I then heard a rumor that Richard Smith was not coming back to Eastland for another year. The rumor had it that he was going to Georgetown to First Church there, which would be some sort of a promotion for him. Of course, I'm not against his getting a promotion as long as he doesn't have to leave Eastland. I first heard this thin rumor the first night of the Conference. I heard it from a former pastor of our church, whose name I won't mention, and he seemed to be rather definite about it as if Richard's moving to another church for the coming year was a forgone conclusion.

Then a day or so later Richard himself told me that it looked as if he was going to be sent to Georgetown; he had just come from a conference with the Bishop's Cabinet, which is the appointing authority in our church. His transfer at that time seemed to depend, however, on the Bishop's being able to find a good man to replace him while here in Eastland. Apparently, a good man wouldn't be found at that time who was enthusiastic about coming to our Eastland church. We're such a bunch of sinners all the boys would be happier to go somewhere else.

As it turned out, Richard's transfer at that time fell through. And I for one was as pleased as punch about it. Richard has only been here three years, and as I told him, he ought to stay at least another year. Well, anyway, Richard was reassigned to our church for another year, as until the 1959 Conference of next June.

Then that old rumor popped up again. I went to the Central Texas Conference Layman's Retreat at Glen Rose a week ago. Right in the big middle of the retreat I heard that the pastor of First Church, Ballinger, had resigned from the ministry, and that the pastor of Georgetown Church was going to that vacancy and that Richard would take the Georgetown pastorate. Frankly, I'm not sure I didn't believe it.

Dear Friends:  
Through the ever courteous auspices of the Eastland Telegram I would like to take this rare opportunity to address you and all our neighbors in Eastland County.

As one who has had the opportunity to live in more than one place in past years I have found this community and area to have more than the usual virtues necessary for what could be called "the good life".

You are friendly people. It has been a wonderful privilege to be associated with folks who cross the barriers of sectarianism, provincialism, prejudice, and other such social curtains in order that they may share with others the full and wholesome community life.

Those attending the funeral were Mr. and Mrs. Doyle Linder and son of Abilene, Mr. and Mrs. Weldon Linder and children of Roswell, New Mexico, Mr. and Mrs. Farley Linder of Fort Worth, Mr. and Mrs. Roe Linder and son, Glen, Mrs. Roy Furlow of Loraine, Mr. and Mrs. Herman Crockett and Joe Hastings of Hamlin and Orbie Roe Linder of Colorado City.

Gray Matter

(Continued from Page One)

because the man had just been reassigned to our church and it looked to me like this was just one of those rumors that don't amount to anything.

Just as soon as I got back to Eastland from the Glen Rose camp I asked Richard about it. He said he had heard the same rumor as I had but there wasn't anything official about it until the bishop's cabinet met in Fort Worth the next day, which was last Monday.

Going back to Fort Worth late Monday I stopped by the preacher's house to see of he had heard anything but the baby was asleep, or something, so I didn't make enough noise with the doorbell to arouse anyone. I went back to Fort Worth without finding out if he had, or had not, heard anything about moving.

The next morning the Star-Telegram carried a story about a change in pastoral appointments in the conference brought about by Mr. Lavender's resignation from the ministry. At no place did the story mention Richard's name nor did it mention our church as being involved in the transfer of

preachers at all. In fact, the story as appearing in that great catalogue of misinformation, the Star-Telegram, said James Campbell was being transferred from the First Church, Taylor, to First Church, Georgetown. That, to my mind, then settled it. Not moving my pastor left me as satisfied as a kitten that had just drunk a warm bowl of milk.

So all last week I lived in ignorant bliss not knowing my pastor had been transferred. If the Star-Telegram hadn't fouled up on this story I would have gotten the truth from one of the two district superintendents living in Fort Worth. If the paper there had omitted the story completely I would have been better off as I then would have gotten the information straight from the horse's mouth.

I relied, however, on the Star-Telegram story and didn't find out the truth till five days later. Last Saturday after I drove in from Fort Worth I found out that Richard Smith was going to Georgetown. I finally found it out a week after I first heard it and almost a week after I read otherwise in another paper. The moral of this is don't believe anything you read

in the newspapers. (Ed's Note: Joe, we suggest you start reading the Eastland Telegram. We carried the correct story Tuesday.)

With the Smith's go our love and affection.

But how about this fellow who's taking his place? What sort of fellow is he. I've met the guy. He's a West Texas boy, a native of Plainview. He's about the same age as Richard and a real live-wire himself.

I think we'll be well satisfied with our new preacher. I think he'll do our community a lot of good. I think he knows how to get along with West Texas folks and how to make West Texas folks get along with him. I think he's a really dedicated man in the service of his God.

I have never heard him preach but I've talked with him and to him for a good long time. I've heard him say, "Please pass the fried chicken."

He'll do. James Campbell will.

Quail Need Ample Cover

Austin, August—Texas' bumper crop of quail may not lead to good hunting in some areas unless sufficient winter cover has already been provided, reports the Director of Wildlife Restoration of the Game and Fish Commission.

If farmers and ranchers have not taken steps to supply the quail with some sort of permanent woody cover and food, they can expect to find fewer birds this winter than are in their areas now.

The natural fall shifting will account for some of the movement. At Springs, Commission Wildlife Biologist, said, "but the first freeze will cause quail to begin searching for new places with protection from predators and the weather."

Some brush pile cover added now might help keep quail, Springs added, but attention should have been given to this phase of quail management earlier for a good fall hunt.

Reports over the state still indicate this will be the best quail season in several years. The season is from Dec. 1 through Jan. 16, except in special regulatory areas. The law provides a bag limit of 12 a day and not more than 35 a week or in possession.

"Proper wildlife land management is the only presently known method of keeping quail in an area," the Director said.

Now Is the Time To File for Rate

COLLEGE STATION — Texas farmers have until Sept. 26 to file a request with their county Agricultural Stabilization and Conservation Committee for a maximum rate for their farm under the 1959 conservation reserve phase of the Soil Bank program.

Then, after the maximum farm rate is determined, farmers have until Oct. 17, 1958, to apply for a conservation reserve contract, according to I. H. Lloyd, who has charge of the Soil Bank program in the State ASC office. Lloyd and the State ASC Committee emphasized that under present legislation, there will be no acreage reserve program in 1959, and they urge farmers to become familiar with the conservation reserve.

Lloyd said 15 meetings were held in Texas during the week of August 11-15 for the purpose of training county ASC personnel in handling the 1959 program. Since these meetings have been completed, county officers are ready to accept applications from farmers for establishing the maximum conservation reserve rates for their farms. Rates will average \$12 per acre in Texas.

Bulletin Ready On Fish Pond

College Station, August 20—Fishing is one of the most popular forms of outdoor recreation in the United States. Surveys show that a fisherman will spend large sums of money and travel far to enjoy the sport, regardless of the number of fish he catches.

A properly managed farm pond can provide excellent fishing at home at a reasonable cost. As a family project, the pond and surrounding area can be made into a beautiful recreational area providing swimming, boating, camping and other activities.

The Texas Agricultural Extension Service recently released a bulletin entitled "Improve Your Farm Fish Pond." The author is Edwin H. Cooper, extension wildlife conservation specialists.

This bulletin not only advises improving your pond, but also gives information on how it can be done. It discusses such topics as location, size and depth, desirable kinds of fish food supply, fertilizers and many other related topics.

This 19-page publication can be obtained from local county agents or from the Agricultural Information Office, College Station, Texas. Ask for B-213.

### Three Maple Flavored Marvels!

Smart hostesses have discovered that maple and cream combine perfectly for year 'round desserts. Pour maple-blended syrup over a dish of ice cream... sprinkle with nuts... and enjoy a "bit 'o heaven!" Maple Sherbet is another "easy" dessert; just mix a cup of maple-blended syrup with a cup of buttermilk, about a tablespoon of lemon juice and a dash of salt. Freeze about 2 hours, then beat until smooth, but not melted. Fold in one cup of whipped cream and freeze again. Serve with more maple-blended syrup—optional!

#### Maple Freeze

1 cup maple-blended syrup 1 cup whipping cream  
3 egg yolks, well beaten 1 teaspoon vanilla  
Few grains of salt Chopped canned salted nuts  
3 egg whites

Heat syrup in top of double boiler. Pour hot syrup slowly into beaten egg yolks, stirring constantly. Return to double boiler and cook over hot water until mixture is thickened and will coat a silver spoon. Remove from heat. Cool to room temperature. Meanwhile add salt to egg whites and beat until stiff but not dry. Fold egg whites into syrup mixture. Whip the cream; add vanilla. Add to syrup mixture. Pour into freezing trays of refrigerator and freeze until firm. Serve with salted nuts as garnish, if desired. Makes 8 servings.

### War Orphans Program Will Draw about 10,000

Between 9,000 and 10,000 young men and women are expected to apply for schooling this fall under the two-year old War Orphans Education program, Edward P. Onstot, manager of the Veterans Administration Regional Office in Dallas, said today.

The education program for sons and daughters of deceased war veterans became effective in October, 1956. War Orphan students generally must be between 18 and 23 years of age, Onstot said. They either must have completed or have been a pupil in a regular high school. They may receive up to 36 months of education with VA paying an allowance of up to \$110 a month for each month they are at school.

Before they start school, they will be given vocational counseling to help them select a goal and the proper course leading to the goal. To be eligible, Onstot said, their veteran parent must have died from a wartime - incurred disability.

### Winter Pastures Reduce Cost of Wintering Stock

Colleg Station, August—Most of Texas has had a good pasture year, but winter pastures will still be needed to supply green grazing while summer grasses are dormant, reminds E. M. Trew, extension pasture specialist.

Winter pastures reduce the cost of wintering livestock and help maintain growth and production, points out Trew. He says many dairymen have reported net returns of \$25 to \$50 per acre from winter temporary pastures.

Winter pastures pay off from the soil standpoint, too, says the specialist. They cover the soil and prevent washing and blowing and the roots add organic matter.

Trew advises planting at the regular time in the fall, even if it is necessary to dust the crop in. He points out that operators who have dry planted in the past were ahead when rain did come, because the plants came up, grew off and gave grazing much sooner than where seed were not sown until after the rain.

### ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M.D., Commissioner

Is your child starting to school this year for the first time? If so, is he ready for it? There is still some time left before school begins, and now is the time to prepare him for his exciting adventure.

rect any defects not found in the past before school begins. Most likely your child has already been immunized against polio, diphtheria, tetanus, whooping cough (pertussis) and small pox, but if he hasn't, have these immunizations started immediately for his own protection and that of his class mates. And by all means don't wait until school starts for those polio shots. Even if all immunizations have been done, be sure to check with your doctor about necessary booster shots.

get along well at school.

But there are other factors too. Not enough sleep can make him tired and edgy. He may need from ten to 12 hours a night to build up his energy. If you haven't already begun, now is the time to see that your child has plenty of sleep regularly.

As parents, you will play the leading role in the development of your child's character and personality. His future depends more than anything else on your support and encouragement in his outside activities.

### Shrinks Hemorrhoids Without Surgery

Science finds healing substance that relieves pain—Shrinks Hemorrhoids. For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called *Preparatio H.* At all drug counters—money back guarantee.

Your child should have escaped these "childhood" diseases by early and correct immunization while he was still in the protective atmosphere of his home, but once he starts school, he will be exposed to conditions that he is unfamiliar with and may not be able to cope with if he is not protected. Be sure and learn how his school handles sudden illness or accidents and your role in avoiding them.

He should know how to wash his face and hands, how to comb his hair, and how to use a handkerchief or tissue, not only for blowing his nose, but for covering a cough or sneeze.

Perhaps the most important part of your child's preparation for school is his mental and emotional outlook. Learning to give and take, to get along with others, will be necessary at school—and throughout life. If he has felt secure in your affection, has learned to take his place in the family group, shared in small responsibilities and learned to do some things on his own—if he has played with children of his own age, the chances are that he will

The use of fertilizer can't be overlooked, for it will pay big dividends when needed, says Trew. A soil test is the best fertilizer dollar can be spent, for this is the best way to determine the type and amount of fertilizer that is needed.

If the crop has to be dusted in the specialist advises putting down the fertilizer, too. He says it won't be lost, because if rain doesn't come for the winter pasture, the fertilizer will still be there for use by the succeeding crop.

Varieties of plants to use varies with different sections of the state. Trew advises contacting the local county agricultural agent for this and other information about pastures. They also have copies of L-258, "Winter Temporary Pastures", which is loaded with information on the subject.
