No. 9

## MOORE about... EASTLAND

by Virgil E. Moore

C. I. James handed us a puzzle the other day which he claimed could be worked. Maybe it can, but we haven't solved it. See if you can.

It seems a guy got on a streetcar and handed the conductor a dollar to take out his 5c fare (now understand, this was some time ago.) The conductor said he couldn't make change for the \$1, but could give the man change for a \$5. The problem, of course, is how could he make change for \$5 if he couldn't for \$1?

Bernard Hanna says there are two things that men just will not tell the truth about: How many fish they caught and how many miles per gallon their car gets.

That Quarterback Club meeting tonight is a rather important one and certainly all members should plan to attend. We plan to use our limited influence to see that you guys that don't come get on a committee!

Once again we would like to stress that the Telegram does not charge for printing news. In fact, we are mighty happy to get it. We make this statement every so often because folks keep asking us what the charge for running a story will be.

If you are wondering about that look on W. J. Broussard's face in Sunday's Telegram, we might tell you that those red snappers he was holding hadn't had their teeth removed. When we were taking the picture he didn't tell us he was in pain. But believe us, he was.

Erza Taft Benson didn't bat an eye when he turned down the request for an increase in peanut acreage for this area. It seems about the only farmer that Mr. Benson can hear when he makes a plea is the corn producer. Those boys can do no wrong.

We are still holding our letter from Atlas Wilson. The tale is really worthy of printing, but we feel that we must know the writer's true name before publishing it. We will honor Mr. Wilson's request to use a pen name, and will keep his real name in strict confidence, but since our policy calls for not publishing unsigned works, we must ask for a phone call at least.

Someone said we failed to mention the Lake Leon Boat Club in our report of the recent drowning at Ringling Lake. If we did we certainly should not have, for Boat Club members did more than their part and proved they are an efficient group.

The Livestock Association is busy on their new show grounds and we have been told that the Stock Show will definitely be held at the show grounds next year.

Here's a deal. Mrs. Claude says she has plenty of porter tomato plants... and she's willing to give them away. In fact, she said if you will give her a call (she's in the book) she will bring them to you.

See you Thursday.

**Post Office to Close May 30**

The Eastland Post Office will close May 30 for Memorial Day. Mrs. Marene Johnson, announcer today.

Mrs. Johnson said there would be no mail delivery that day.

**FREYSLAG INSURANCE AGENCY** presents the

## Brashear Says Tax Increase Around Corner

Paul Brashear told Eastland Rotarians Monday that the next Legislature would come face to face with the problem of finding new tax revenue.

Brashear said he could practically promise anyone that the next Legislature would raise taxes. Where the new tax money would come from, Brashear said, he did not know. He said there was talk of both an income tax and a sales tax, but pressure from "back home" would make lawmakers think twice before passing such laws.

Brashear asked for question from the floor and got one in a hurry: "Why not reduce spending?" Brashear indicated that was easier said than done.

## All Candidates Put Down Cash Before Deadline

All candidates paid their filing fees by the Saturday midnight deadline and the Democratic July primary ballot is now being readied for the printer, Jay Blevins, county chairman, said today.

Blevins said just less than \$5800 was paid in by the candidates. He said it was possible that a rebate may be made, depending on the cost of holding the primaries.

## Tom Gilbreath Final Services Slated Today

Funeral services will be held this afternoon at 2 for Tom Gilbreath at the Harmony Baptist Church at Morton Valley.

Mr. Gilbreath died in Lubbock Monday.

## Murray Cox to Speak to West Texas Ranchers

Members of the West Texas Ranchers Association will hold their annual social meeting Wednesday at 8 in the Cisco Junior College auditorium.

President Sam Kimmell said Murray Cox, WFAA farm director, would show pictures of last summer's tour of the northwestern states as the program feature. Musical entertainment has been planned and refreshments will be served.

## Virgil Love Is Elected County Clerk at Hobbs

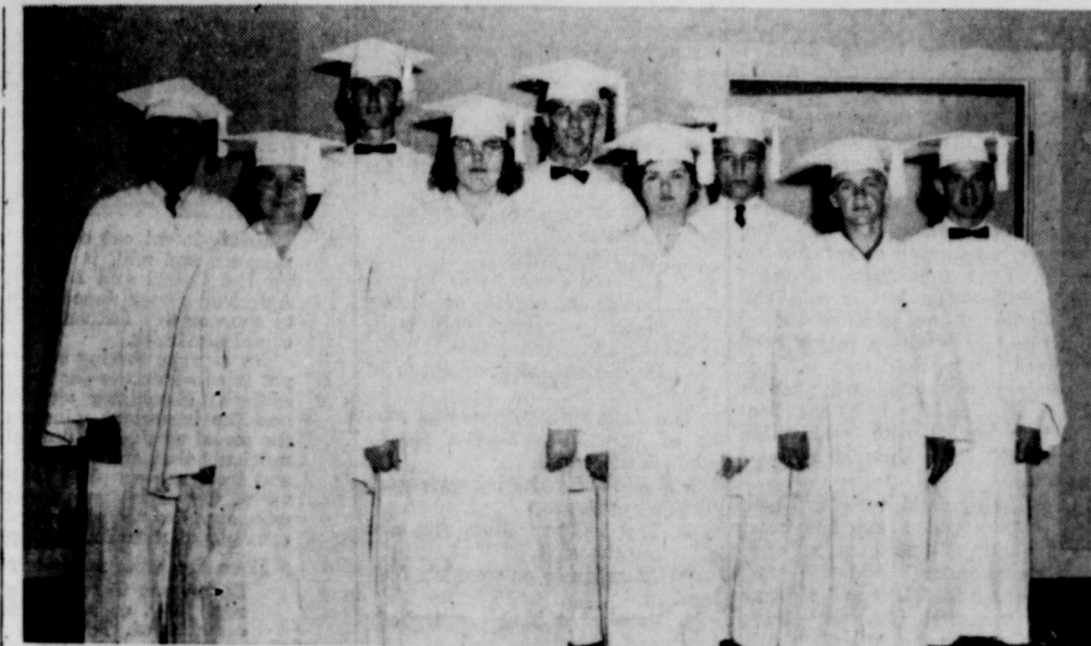

Former Eastland County Clerk Virgil Love has won the Democratic nomination for the same office in Love County, N. M.

Love beat out two opponents, according to the Hobbs Daily News-Sun. The News-Sun termed the outcome "upset. The former Countian polled 2855 votes to his nearest opponents 2327.

**CARBON HONOR STUDENTS**—Ann Mangum, daughter of Mrs. O. A. Mangum is valedictorian of the Carbon High School Class of 1958 and Marvin Lee, son of Mr. and Mrs. H. R. Harle is salutatorian. Baccalaureate services will be held Sunday at Carbon with Commencement exercises Monday.

**OLDEN GRADUATES**—Here are the nine members of the Olden High School Class of 1958. Baccalaureate services were held Sunday for the class and Commencement exercises are scheduled Friday. From left to right, front row, are Wilma Edwards, Tommie Lunde Sharpe, Mozelle Price and Steve Fox. Back row, left to right are: Stanley Cook, Eddie Munn, Jack Hilliard, Gary Woods and Ray Rodgers.

## Mrs. J. B. Johnson Dies Here Suddenly

Funeral services for Mrs. J. B. Johnson, 516 South Daugherty, Eastland, were still pending this morning following her sudden death Monday afternoon in her home.

Mrs. Johnson died about 6 p.m. Two physicians were on hand at the time of her death. Dr. T. E. Payne, one of the attending physicians, said this morning that the cause of her death was still undecided. Dr. Payne said he and Dr. H. J. Bulgerin, who was also on hand at the time of death, expect to reach a decision sometime today.

The two doctors worked over Mrs. Johnson's body for more than two hours before she died. She was found sitting up on the side of the bed by a neighbor, Mrs. Milton Day. Mrs. Day's daughter, Mrs. Stanley Harris, is employed by Mrs. Johnson at Modern Dry Cleaners. Mrs. Harris said Mrs. Johnson left the store shortly after noon saying she did not feel well. She earlier had given Mrs. Harris a list of relatives a n d friends.

Mrs. Harris attempted to phone Mrs. Johnson several times during the afternoon. She became alarmed and phoned her mother, asking her to go across the street and check on Mrs. Johnson. Mrs. Day failed to get an answer at the door and went inside, where she found Mrs. Johnson on the side of the bed.

Mrs. Johnson had been a long-time resident of Eastland. She and her husband had owned an operated Modern Dry Cleaners for many years. Mr. Johnson died some four years ago.

Survivors include one daughter, Mrs. Stanley Hake of Midland, and a grandson, Stephen Hake, 4. Mrs. Johnson had returned Saturday from a trip to Midland where she visited her daughter.

## Top Carbon Students Are Mangum and Lee

The four ranking students of the 1958 graduating class of Carbon High School as announced by Bob Browder, superintendent of Carbon school, are Ann Mangum, Marvin Lee, Wanda May and Lyndall Morrow.

Ann Mangum, daughter of Mr. and Mrs. O. A. Mangum of Carbon, is valedictorian with a four year average of 91.61. She has taken part in various activities during her four years in high school. She was vice-president of the class in her sophomore year and treasurer of her class both her junior and senior years. She served on the annual staff three years.

Wanda May, daughter of Rev. and Mrs. B. A. May of Postville, Eastland, ranked third high with an average of 89.69. She is vice-president of the senior class. She was elected class favorite her senior year. She was captain of the basketball team and an all-district team her senior year. She lettered in basketball all four years. She was assistant cheer leader her junior year, and was cheer leader her senior year. She participated in both the junior and senior plays.

Lyndall Morrow, son of Mr. and Mrs. J. L. Morrow of Route One, Gorman, was named fourth, with an average of 87.79. Lyndall is secretary of the senior class.

He served on the annual staff three years. He ran track two years and was district champion both years. He has played basketball four years, and was captain his senior year. He was an all-district team and made the second all-district team his senior year. He participated in both the junior and senior plays.

## Jess D. Morgan Dies Monday

Jess D. Morgan, 64, died Monday afternoon in Ranger General Hospital.

Funeral services will be held Wednesday at 2:30 p.m. in the Second Baptist Church with Rev. Ed Scarborough officiating. Burial will be in Evergreen Cemetery under the direction of Killingsworth's Funeral Home.

Born Aug. 23, 1893, in Stephenville, Morgan lived in Ranger 12 years. He was employed by the Texas Co. as a foreman. Morgan married Jettie Mae Spindle July 26, 1920 in Eastland.

Survivors include his wife of Ranger; two daughters, Mrs. Frank C. Couch of El Paso and Mrs. Murry A. Peterson of Eastland; one brother, L. E. Morgan of Noble, Okla.; two sisters, Mrs. S. C. Hill of Brewton, Ala.; and Mrs. C. C. Tompkins of Oklahoma City; three grandchildren.

Pallbearers will be T. C. Weaver, Bill Ewing, E. E. Ford, Carl White, Bill Bradshaw and J. D. Nichols.

## Gray Matter

**By JOE GRAY**  
Henry Fullman got the army to discharge him in Dallas although he actually had enlisted from Amarillo. While in Dallas he got busy and got himself married.

Leaving Dallas with a new wife on his arm, a new discharge in his hip pocket, and a new blessing from the rabbi on his head, he set out for Amarillo by way of Eastland. It seems his new father-in-law had some property he wanted Henry to look over for him in Eastland.

One hot summer day in 1923 Henry pulled up to the Eastland courthouse square after a hot, dusty, rough, and tiresome trip by Model T from Dallas.

In those days the road from here to Dallas wasn't paved and it was quite a trip to make it by auto, at least it took all day to cover the distance.

Henry says one of the things that impressed him about Eastland at that time was the large number of wagons coming to town and filling up with groceries to take back to the farm or to the oil camp.

In 1923 Eastland was in a sort of slump. The first flush of the oil boom had died down and some people thought oil was on its very out. Henry's father-in-law had told him before he left Dallas to dispose of the Eastland property he had here at whatever price he could get for it. The old gentleman had lost all the money he intended to in Eastland, so Henry wanted to hear of Eastland again.

Henry went a few days just to see the situation over and was back to Dallas to have a talk with his father-in-law.

The old gentleman was all at the same condition as before. He said that staff in Eastland had a change now and had for it. Henry says he had to leave. He said that a professional man, who with a Mr. Dalton, had led him to think this might be a profitable deal. Henry went on into the expense business. He and Mr. Dalton (who, I think, is Mr. Eastland National Bank) decided

## Comets Grab Lead In Little League

The Comets jumped out front in Eastland Little League play last night with a 14-2 blasting job of the previously undefeated Rotary Bulldogs. The Lions, meanwhile, rose up to a tie for second place via a 7-4 win over the Medics.

Jodie Cooper hurled one-hit ball for the Comets, and both of the runs were unearned. His teammates meanwhile, got eight hits off of J. Moylan.

Hayden Wilson was the winning Lions Club pitcher. He scattered four hits for the victory. Weldon Broussard pitched three hit ball himself, but got some loose support and issued too many free bases.

Here are the standings:

Team	W	L	GB
Comets	2	0	0
Bulldogs	1	1	1
Lions	1	1	1
Medics	0	2	2

## Seaberry Will Speak At Legal District Meet

Lawyers of 17 area counties will assemble in Meridian Saturday (May 24) for a legal institute sponsored jointly by the 52nd Judicial District Bar Association and the State Bar of Texas.

The one-day study, involving a variety of legal topics, will be held in the Meridian School auditorium. A list of prominent speakers include the State Bar president, Virgil T. Seaberry Sr. of Eastland, who will deliver the luncheon address.

Registration will begin at 8:30 a.m. in the school lobby, with the first address scheduled for 9 a.m. Speakers and their topics a r e: Dean Abner V. McCall, Baylor University Law School, "Problems Relating to Motions for New Trials," Acting Dean M. K. Woodward, University of Texas L. A. W. School, "Title Examination Standards," Austin attorney Thomas Gee, "Everyday Practice Under the Texas Probate Code," and Fort Worth attorney Atwood McDonald, "Adoption."

District Judge E. J. Cross of Gatesville will preside over the morning session and George H. Brooks of Meridian, District Bar president, will preside in the afternoon. The institute committee, headed by Brooks, includes Judge Cross and Byron Metcalf, both of Gatesville; Andy Campbell and Truman Roberts of Hamilton; Jim C. Hill of Brewton, Ala.; and Mrs. C. C. Tompkins of Oklahoma City; three grandchildren.

Pallbearers will be T. C. Weaver, Bill Ewing, E. E. Ford, Carl White, Bill Bradshaw and J. D. Nichols.

**YARD PET**—J. D. Lasater, 104 Hillcrest, isn't exactly admiring the rattlesnake he killed in his back yard. The snake had seven rattlers. Doyle first shot it with a shotgun, then completed the kill with a hoe. "I definitely prefer my snakes in the zoo," Lasater said. (Staff Photo)

## Four Eastland County Students Up For Degrees

Four Eastland County students are among 517 seniors who have applied for bachelor's degrees to be awarded in spring graduation at North Texas State College.

Baccalaureate services for the degree candidates will be held Sunday, May 25, in the main auditorium. Degrees will be awarded in commencement exercises at Fouts Field Friday, May 30.

Degree applicants from Eastland County are:

Cyrus Burette Miller, son of Mr. and Mrs. Cyrus B. Miller Sr., Eastland, bachelor of science in education.

Clements H. Neuhaus, a 1951 graduate of Cisco High School, bachelor of arts in English.

Ben M. Nix, son of Mr. and Mrs. James Marvin Nix, Gorman, bachelor of science in education.

Patricia A. Morrison, daughter of Mrs. Floy F. Morrison, Winkler and Hall, Gorman, bachelor of science in education.

## Q-Back Club to Meet Tonight

Eastland Quarterback Club members will meet tonight in the High School gymnasium to make plans for a carnival.

President James Smith urged all members of the organization to attend the meeting.

**HOT? SAVE \$91 FROM LIST!**  
Be cold in 40 seconds with the largest and best refrigerated auto air conditioner. Installed in 3 hours, any make or model car or truck — ONLY \$259.95.

Don't Ethelred  
Don't Ethelred  
Don't Ethelred

Spring is here and appetites call for some changes from foods that have been favorites all winter. Salad for instance, may need to be varied a bit.

For a cool refreshing salad, Pineapple Sour Cream Salad is ideal. It even looks cool. Add 1 cup hot water to 1 package lime gelatin. Add 1-2 teaspoon salt and stir until dissolved. Stir in 1-4 cup cold water, 2 tablespoons lemon juice and 1 cup heavy sour cream. Beat until well blended. Pour into freezing tray and place in freezing section of refrigerator until mixture is firm about 1 inch from edge but is still soft in center. Pour mixture into a bowl and beat with a rotary beater until fluffy. Fold in 1-2 cups drained canned crushed pineapple. Pour into mold which has been oiled or rinsed with cold water. Chill until firm. Unmold on salad greens.

Use lime gelatin too, for Emerald Relish. Add 1 cup hot water to 1 package lime gelatin. Add 1-4 teaspoon salt and stir until dissolved. Add 3-4 cup vinegar. Stir to mix well. Chill until thickened. Combine 1-4 teaspoon salt, dash of pepper, 1-2 teaspoon grated onion, 2 tablespoons prepared horseradish and 2 cups drained chopped cucumber. Fold cucumber mixture into thickened gelatin. Pour into small individual molds which have been oiled or rinsed with cold water. Chill until firm. Unfold on serving plate or on salad greens arranged on salad plate. Makes 12 servings and goes especially well with fish and cold meats.

### RECIPE OF THE WEEK

**Olive Cucumber Slaw:** Combine 3 cups shredded cabbage, 1 cup well drained grated cucumber, 1-2 cup thinly sliced stuffed olives, 1 teaspoon salt and dash of pepper. Sprinkle with 2 tablespoons lemon juice. Mix with enough mayonnaise to moisten thoroughly, about 1-2 cup. Chill. Makes four servings.

Every person who lives at your house is a member of your family group. Each one is a member of the family firm and all matters that concern the whole group can be handled by the group—if each member is willing to take time and have patience to work things out with the others. The unity and harmony which can result from such a family practice is a source of real strength for the family.

### QUALITY USED CARS

- 1956 Ford Fairlane town sedan, Fordmatic and loaded with all other Ford accessories including air conditioner, new white tires. Going at only \$1550.
- 1955 Buick century fordor hardtop has everything including factory air conditioner and new tires. Yours for just \$1550.

Eastland

together today perhaps more than ever before. They talk together, make plans together, decide together on family jobs, family spending, family fun and family worship. Some families have informal group meetings where family plans and problems are put "on the table" and everyone has a chance to help, as he is able, in the decisions that need to be made.

In solving problems and making plans together family groups may find a "Pattern for Solving Problems and Planning Together" of real help.

A pattern consists of the following steps:  
1. Face the problem  
2. Look at the causes of the problem  
3. Pretend you are the other persons involved.  
4. Set some goals  
5. List the choices you have.  
6. Decide on a plan of action.  
7. Check your plan with your goals.

The following suggestions may be of help in making a family council successful.  
1. Begin, if possible, with very simple problems.  
2. Try to have some fun and pleasure out of it.  
3. Concentrate on people's feelings.  
4. Remember that everybody has good ideas.  
5. Avoid meaningless arguments.  
6. Don't take yourself too seriously.  
Counseling, planning, working and sharing together in the family can result in stronger family and community life as it builds a more unified family through agreement of its members rather than by authority of the head, and it provides basic training for citizenship in a democracy.

### BUILDING YOUR HOME

When you are ready to build, you will find that the law helps in many ways to make your home enjoyable and secure.

Have you decided on the type house you want and the amount you want to spend? If so, then let's get on to details!

1. **Your lot:** Junior's school or your church may be nearby, but find out—  
(a) Whether they are planning to run a highway through the area or nearby, or make any improvements for which you can be assessed.  
(b) What "covenants" or restrictions run with the land? To protect residents, the plats or basic deeds of some neighborhoods call on you to build a certain size or type of house. Do you want to and can you afford to?  
(c) Easements. Either you or your neighbors may need to run pipes, or string wires over each other's land or to share a driveway. Have the abstract checked carefully to disclose any easements.

2. **Zoning Ordinances:** For your protection the local government frequently zones some areas, for example, for single houses only, for multiple dwellings; for retail stores, for manufacturing, etc. Unless the local governing body changes its zoning ordinance, no filling station, for instance, can go up next to you in a residential area. Neither could you turn your home into a store. In any case, you should find out what your neighborhood zoning rules are.

3. **Building Codes:** Be certain that the plans and construction will meet the requirements of the local building code as to size, location and structure. Municipal ordinances usually impose strict standards for the building, the plumbing and electrical wiring. In many cases only licensed building tradesmen are permitted to make the installations.

4. **Financing:** Financing contracts protect both you and the lender. Unless you pay cash, you will use credit to pay for your house, most likely a deed of trust or a land contract. Your installments often include principal, interest, insurance and taxes. Under a land contract the lender holds title to your house until you pay for it. If you fall behind, the holder can take the house back. With a deed of trust, the lender

## New Cereal-Milk-Fruit Combos

Ready-to-eat cereal served parfait style with cinnamon applesauce and milk is but one of many delicious combos developed for the Cereal and Milk Spring Festival. For the fifth year the American Dairy Association and the Cereal Institute have joined to sponsor this festival during April to promote the food value of cereal and milk.

An average serving of cereal and milk costs less than five cents, yet it provides top-quality protein, quickly available food energy, essential B-complex vitamins (thiamine, riboflavin, and niacin), and the important minerals (calcium, phosphorus, and iron). In the cereal serving, the cereal and milk supplement each other. The nutrients that are in smaller amounts in the milk, such as niacin and iron, are supplied in larger amounts by the cereal and vice versa. Cereal is low in calcium and riboflavin, for instance, and example of nutritional supplementation.

Here are some newly-tested cereal-milk-fruit combos:  
Spoon one to two tablespoons of orange marmalade, current jelly, or spiced cherry preserves into a large sized cereal bowl. Top with your choice of ready-to-eat cereal and serve with milk.

Let your own creative ability take away and make up your own favorite cereal-milk-fruit combos.

## New Soil Program In Palo Pinto

Palo Pinto county has been designated as one of the counties in the Great Plains Conservation Program.

The supervisors of the Palo Pinto district met in a called meeting Friday, May 9 and made formal request to have the county activated.

The program includes cost sharing up to 80 percent credit and technical assistance in soil and water conservation, crop insurance, weather studies, research and education. Based on a conservation plan worked out by the farmer or rancher the programs approved by the contracting agency.

It includes changes in land use, wind and water erosion control measures, such as terracing, re-seeding, brush control, cross fencing, water development and management practices. Plans of operation will include needed land use changes, needed cropping and grazing systems, soil and water conservation measures. The plan will call for carrying out all measures in a period not to exceed 10 years, however the contract with the secretary of agriculture cannot be less than 3 years.

The contracting officer of the Soil Conservation Service will certify all performance and the ASC committee will make all payments. The contract is binding and if the place sells the contract goes with the place, or refunds will be made by the government.

Under the plan crop land acreage allotments will not be decreased by any action in carrying out the program. Contact your local Soil Conservation Service or Bill Sanders, Metcalf Gap, W. A. Edwards, Santo, A. L. Cranford, Perrin, J. T. Hubbard, Huckabay and W. O. Dawson, Ranger, for further information regarding this new program.

### AS IT LOOKS FROM HERE

By OMAR BURLESON  
17th District

WASHINGTON, D. C. The Congress and the Executive Department show no indication of tackling the real cause of the so-called recession. Thus far, all action taken is a treatment of the symptoms rather than the disease.

The Congress itself is busy bailing water out of the boat, but is doing nothing to repair the leaks.

The big question mark appears after "when" rather than "whether" the Administration will soon request Congress to raise the ceiling on the national debt.

When it comes, it will be the sixth time the Administration has made such a request since it took office in 1945.

Less than two and one-half months ago, Congress voted to lift the ceiling from \$275 billion to \$280 billion. At that time most every informed economist knew that the \$5 billion increase was not enough to carry the Treasury through this calendar year.

The Treasury has not yet decided how much of an increase to ask for, and its decision can not be made until it is known whether there will be a tax cut, and if so how much. It must also know whether the corporate and excise taxes due to expire June 30 will be extended.

No one is talking about the debt limit increase at the present time, but before the month is out, it is predicted it will be making news.

If no changes in the Tax laws are to be made, it may be necessary for the President to request an increase of only \$5 billion to \$7 billion to enable the Treasury to squeeze through until Congress returns next January. If, on the other hand, a tax cut of any size is made, the Treasury may be forced to request a ceiling almost as high as the \$300 billion top of World War II.

Both Political Parties in Washington seem to believe that there is only one way to cure unemployment, and that is by bigger and bigger doses of inflation. The Congress, with the blessing of the Administration, makes our paper money cheaper and more plentiful. This will result in a huge deficit "to increase purchasing power."

The Only Points at Difference are exactly how big this deficit should be, and whether it should be brought about mainly by more spending or by a tax cut.

When It Comes to Tackling the basic causes of our economic difficulties, Washington is deaf, dumb and blind.

The Real Cause of the business slump is the fact that the industrial East and North have priced their goods out of a market. Labor likewise is pricing itself out of work.

The Experts Predict that the cost of living is likely to level off by August, but we need something lower than the present level. If this "leveling off" comes, it will be partly because of lower meat prices and larger supplies of fresh vegetables.

On The Other Hand, the nine cent an hour increase in steel wages is scheduled for July 1, under the escalator living-cost clause in the Union Contract. This is likely to result in a \$4 a ton average increase in the price of steel. When steel prices increase, the cost of practically everything we buy increases.

Perhaps When We First Started

Talking about parity for farmers, which in theory is the price the farmer receives for his products related to the cost of manufactured goods, the application should have been reversed. Suppose we applied parity to wages, and the cost of manufactured goods to the price received for farm commodities. Obviously, it would not work, since every segment of business and labor would be government controlled, but the comparisons would be fantastic.

Imagine the Price of an automobile, tractor or a television set under this arrangement.

WASHINGTON, D. C.—In 1930 the International Association of Chiefs of Police recognized the need for a nation-wide report on crime and for statistics connected with problems of law enforcement.

Among other things, the Police of our nation want to know: (1) How much crime there is; (2) Its geographical distribution; (3) Whether it is on the increase or decrease; (4) Different types of offenses; (5) The success by the Police in their investigations.

As a former F. B. I. agent, I have been interested in these annual reports. Since 1930 the F. B. I. has been the clearing house for the data sent in by the Police Chiefs and Sheriffs all over the United States.

When received, the F. B. I. classifies the offenses committed by: (1) The nature of the crime; (2) Place and time the offense occurred; (3) Age of the offender, sex and race and other details.

When the Uniform Crime Reports are finally compiled, it presents an accurate picture of the crime situation as it exists in the U. S.

The latest such Report has just been released to those interested. Figures can become pretty dry, and most are not long remembered. However, there are some which should impress us.

First, the 1957 crime rate is up 9.1 percent above 1956. It is up 23.9 per cent above the average for the past five years.

In terms of volume alone, crime has risen 56.2 percent above the 1950 level and has risen four times as fast as the population.

Percentage changes from year to year indicate the arrests of persons under 18 years of age have increased 55 per cent since 1952. During the same period the population in the 10-17 age group has increased only 22 percent.

Persons under 18 years of age were arrested in 10.3 per cent of all arrests for crimes against the person such as murder, negligent manslaughter, rape and aggravated assaults. For crimes against property, such as robbery, burglary, auto thefts and other larcenies, young people under 18 represented 5.1 percent of all arrests. In cases of automobile theft, the under 18 category represented 67.6 percent of all arrests.

It is interesting to note that the crimes of murder, rape and aggravated assault tend to occur more frequently in the warmer months. Other crimes against the person and crimes against property tend to increase in the cooler months of the year.

Police limited number of cities reported recovery of 58c for every dollar's worth of property stolen. Over 93 percent of all the stolen cars were recovered.

The crime problem in areas outside cities is about one-half that inside cities, per unit of population. At the same time, areas outside the limits of towns and cities of less than 2,500 inhabitants increased 11.1 per cent in major crimes. Consideration, however, is given to the fact that many suburban areas of cities come within this classification.

The F. B. I. Report cautions against comparing the rate of crime between cities and between areas. Such comparisons are not necessarily significant because of the wide variety of factors involved.

Some of these factors are, however, very significant and include such things as the composition of the population with references to age, sex and race. Also affecting the circumstances are economic conditions, climate, education, recreation and religious facilities.

The standards governing the efficiency of the Police in certain areas are also an important factor. In comparing some cities and communities there is no question but that the crime rate is lower in those places where there is a strong attitude and consciousness on the part of citizens for law

enforcement. Crime is lower in those places where qualifications for Police and other law enforcement officers are higher.

It obviously follows that when the community attitudes is good in opposing crime, law enforcement is going to be more effective, resulting in lowering the rate of crime. This brings the responsibility directly down to the citizen.

A part of this consciousness is a willingness to pay decent salaries to law enforcement officers and then demand the highest possible efficiency. Law enforcement officers are the best friends any community can have. They want and need the support of every citizen and can only do their job if they have the individual citizen's highest respect and cooperation.

Science Develops New Tablet:

### Relieves Painful Monthly Cramps For 3 out of 4 Women Tested! Gives Greater Relief Than Aspirin!

New promise of relief from tortures of monthly cramps, nervous tension is found in an amazing new tablet! Developed especially to relieve this female discomfort, it offers greater relief than aspirin!

For 3 out of 4 tested by doctors, pain and cramps were stopped or strikingly relieved. Even on the first day, many had no nagging headaches, no backaches or other functional distress!

The new tablet contains a unique combination of medicines.

That's why it offers so much more relief than plain aspirin! Acts on the cause of distress to calm uterine contractions. Also works through a woman's sympathetic nervous system.

Called "Lydia Pinkham's Tablets," they're sold at all drug-stores. Easy to take, contain blood-building iron. So don't suffer needlessly. Take Pinkham's Tablets yourself. See if you don't escape much irritability and discomfort—before and during your period!

All druggists, today, also have the famous Lydia E. Pinkham's Vegetable Compound.

### Carbon School News

By LINDA COLLINS  
Telegram School Reporter

This is a busy week for the seniors and their sponsor. They are continuing to work on their autobiographies and they also received their caps and gowns this week (graduation plans are really getting underway).

The high school baccalaureate services will be held Sunday morning, May 25, at 11 a.m. at the Carbon Methodist Church. Rev. Richard R. Smith III, pastor of the First Methodist Church in Eastland, will hold the services. Rev. Roger Butler, pastor of the Carbon Baptist Church, will give the invocation; and Mitchell Embury, minister of Carbon Church of Christ, will give the benediction.

Mrs. Grover Hallmark, accom-

panied by Mrs. Charles Alkinson, will sing "Spirit of God." Mittie Rone and Maxine Stacy, both juniors, will play the processional and recessional, respectively.

Betty Bond, Zelma Hendricks, Pat Guy and Mickey Rodgers, juniors, will be ushers for the service.

Graduation exercises for high school will be held Monday evening, May 26, at 8 p.m. in the Carbon School auditorium. Glenn Justice, president of Carbon School board, will give the invocation and Rev. B. A. May will present the benediction.

Marvin Lee, salutatorian, will present the salutatory and Ann Mangum, valedictorian, will give the valedictory address. The salutatorian's average was 89.72 and Miss Mangum had the average of 91.61.

Lee is the son of Mr. and Mrs. Henry Harle. Mr. and Mrs. Owen Mangum are the parents of Miss Mangum. Each have attended Carbon High School for four years.

Ronald Services, school principal, will present certificates and awards and Bob Browler superintendent, will present the diplomas to the graduates.

Jerry Clower, president of the junior class, will preside at the candle lighting ceremony.

Ushers for the graduating exercises will be Kathy Underwood, Mary Butler, Kenneth Tucker and Jerry Clower.

The grade school graduation exercises will be held Friday evening, May 23 at 8 p.m. in the

Carbon School auditorium. Rev. Butler, and Rev. Lee Fields, pastor of the Mangum Baptist Church, will give the invocation and benediction.

Nora Jordan and Linda Hallmark will be the pianist for the exercise. The class will sing "Now Is the Hour."

The salutatory will be given by Larry Morrow. He is the son of Mr. and Mrs. J. L. Morrow. Mary Been, daughter of Mr. and Mrs. Truman Been, is valedictorian of the class. The class history will be given by the historian, Mary Rone, who is the third highest in the class. She is the daughter of Mr. and Mrs. O. B. Rone.

The girls plan to dress in blue dresses and the boys will wear dark blue trousers and white shirts.

Those exercises will conclude the school year and the eighth grade will be entering high school (what a thrill.) The seniors will be out of school wondering which road to take to the future.

Most of the seniors are already making plans for the future. Dorothy Simmons plans to work in Cross Plains or Abilene during the summer and attend airline school in Fort Worth. Ann Mangum plans to work during the summer months and attend college in the fall. Nancy Norris also plans to work this summer and is uncertain about going to college. Wanda May is planning to be a June bride.

Robert Norris and Delbert say they just don't know. Ray Thompson plans to join the Air Force. Donald Cook is going to work in the grain harvest this summer and then attend college in the fall at Howard Payne to begin his career as a preacher.

James Wyatt is undecided but says he will probably "become Uncle Sam's boy." Bob Hogan is planning to work in Abilene and he says that there "definitely" he no college for him. Marvin Lee plans to work and attend college in the fall.

Wilbur Lewis is planning to work and has no intention of going to college. Larry Greer is

planning to go to Pueblo, Colo., as soon as school is out, to work. Lydall Morrow is planning to go to college this fall, but is undecided what he will do this summer.

Some of the boys went to Mr. Mosier's ranch last week and they seemed to have a good time. One of the boys said, "We killed a snake, went fishing and saw girls." That was his way of saying they had a good time.

I suppose that's it for this week. See you next week.

### NEWS FROM DESDEMONA

Mr. and Mrs. Joe Pool and daughter, Beckie, of Eastland visited Thursday with his mother, Mrs. Maggie Pool.

Mrs. Myrtle Reed left Thursday for Alvin for a week's visit with her son and daughter-in-law, Mr. and Mrs. Phill Reed.

Mr. and Mrs. H. C. Abernathy and daughter, Mr. and Mrs. Jessie Sparkman spent Monday of last week in Fort Worth with their daughter and son-in-law, Mr. and Mrs. Leon Alread.

Miss Peggy Sue Snider of Cisco spent last week here with the Hubert Rainey's.

Mrs. Edyth Wright spent last week here with her sister and brother-in-law Mr. and Mrs. John Arnold.

**Vets Have Two Years to Apply for Loans**

Veterans of World War II have two more years — until July 25, 1960 — to apply for GI loans under the Veterans Administration guaranty program.

Scott B. Harrington, manager of the VA regional office in Dallas, today said the extension is authorized by Public Law 85-364. He explained the July 25, 1960, deadline for guaranteed loans means that VA must receive the lender's loan guaranty application by that date.

VA has up to one year after July 25, 1960, for processing GI loan application received before that date, he said.

The 1960 deadline does not apply to VA-guaranteed loans to Korean conflict veterans, who have until January 31, 1965 to use that benefit, Harrington pointed out.

**Take the wheel... get the Swept-Wing feel!**

You spend a lot of time in your car—driving to work, shopping, taking trips. How your car rates on the road is important to you. So all we ask before you invest in a new car is this: Come in and take a "road rate" drive in a Swept-Wing 58 Dodge. Really compare it thoroughly on every count. We honestly believe it rides better, handles easier, responds quicker than any other car you've ever driven. But we'll leave the verdict entirely up to you. You be the judge.

**YOU BE THE JUDGE! THINGS TO NOTICE IN THE SWEPT-WING 58:**

- The feel behind the wheel—You feel different because you sit differently. Low and snug and secure, completely in control, almost a part of the car.
- The ease of push-button driving—Once you try Dodge Push-Button TorqueFlite you'll never be happy with outmoded lever types. Ladies love it.
- A ride that's a glide—There's no sway on curves, no dip at stops. Torsion-Aire is standard equipment, too.
- This power steering is different—No power steering is like Dodge power steering. It works full time, yet leaves you the feel of the road.
- Horsepower and stopping power—You get up to 320 hp. You get new-design Total-Contact Brakes.

## Henry Van Geem Is Honored with Supper Friday

Mr. and Mrs. Henry Van Geem honored their son, Henry Jr. who will be a June graduate, with a fried chicken supper Friday evening at 7 p.m. at their home 1601 West Main.

The table was set for eight places. The centerpiece was a three tiered lazy Susan filled with flowers. The top tier held light pink sweetheart roses. The middle tier was filled with dark pink small roses and the bottom with scarlet red roses.

Narrow ribbon was tied into the brass ring at the top of the Lazy Susan and extended to each place and was tied around white paper to resemble diplomas—on the outside was the name and inside was a fortune.

After supper the boys took pictures, watched T. V. and went to the show.

Those present were: David Carothers, Juan Jay Smith, Charles Thompson, Mike Reese, Johnny McMahon, Ronald Robertson, Kenneth Watson and Henry Van Geem Jr. Another guest, Saul Pullman, was unable to attend.

## Kay Morton Is Elected as Head Of Jr. Tri-Hi-Y

Kay Morton was elected to serve as president of the Junior Tri-Hi-Y for the incoming year. She was elected at a meeting Friday night in the Y building.

Others officers elected were Wanda Arthur, vice-president; Julie Frost, secretary; Judy Seaberry, treasurer; Carol McClesky, reporter; and Toni Horton, chaplain.

During the meeting a spudnut and coffee sale was planned for Thursday, May 29, from 9 to 11 a.m. at the Y building.

For Justice of the Peace Precinct 1 C. E. OWEN  
County Treasurer MRS. ELLEN JUSTICE  
County School Superintendent H. R. (Pop) GARRETT (Re-Election)  
District Clerk ROY L. LANE (Re-Election) RICHARD COX

## AROUND RANGER COLLEGE CAMPUS

By Ranger College Journalism Class

### Personality Of The Week

Gail Bagley, daughter of Mr. and Mrs. W. D. Bagley of Rusk, steps into the spotlight as Personality of the Week at Ranger College. A sophomore business major, this attractive young lady graduated from Rusk High School with honors in 1956. During her four years in high school, she was a very popular student taking an active part in many school functions and activities. She was a member of both the high school band and choir for four years and was an all-state choir member her junior year. She served on the annual staff and student council

### Lydia Group Is Hosted by Mrs. Watson Monday

Mrs. J. W. Watson was hostess to the Lydia Group of the Christian Women's Fellowship of the First Christian Church Monday afternoon in the home of her aunt, Mr. C. M. Oakley.

Mrs. E. H. Clifton, chairman, opened the meeting with prayer and presided. Mrs. L. C. McNatt presented the devotional which was entitled "First Things First". The lesson on "We Have the Mind of Christ" was given by Mrs. Watson.

After the closing benediction refreshments of cake, ice cream and coffee were served by Mrs. Watson and Mrs. Oakley. Members present were Mmes. Clifton, Watson, McNatt, T. L. Cooper, Cyrus Miller, R. L. Carpenter and Jim Gilbreath. Mmes. Roy Turner, Edna Turner and C. M. Oakley were guests of the group.

### Shrinks Hemorrhoids Without Surgery

Science finds healing substance that relieves pain—Shrinks Hemorrhoids  
For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne\*)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H.\* At all drug counters—money back guarantee. \*\$

and lettered on the girl's basketball team. She was also a member of the FHA and Footlite Club, drama club; and she participated in the sophomore, junior, and senior plays. In her senior year, Miss Bagley did a pantomime number which won several first places and appeared on television. Her senior year, she received the honor of being FFA Sweetheart and was voted Best-All-Around Girl by the student body. She was a duchess of the Rodeo Queen the summer following graduation.

At Ranger College, this versatile young lady has been a participant in various school activities. She is typist on the annual staff, a member of the Debs, girl's social club and the International Relations Club. A talented musician, she is a member of the college choir, R. C. Singers, and the Triple Tones, girls' trio. She is also pianist of the college dance band.

Before entering Ranger College, Miss Bagley attended Stephen F. Austin State College at Nacogdoches, Texas, where she plans to continue her education. Charming and vivacious, she has a winning personality. She has a keen sense of humor and a capacity for friendship. She is popular, interesting, and efficient.

### Luncheon to Be Final Meeting of Music Study Club

### ABOUT YOUR HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. NOLLE, M.D., Commissioner

Suppose your youngster swallows a substance you know is poisonous. The label is missing and you don't know the antidote. All you know is the name of the product. Grim supposing? Yes, but it happens every day to adults as well as children. How would you react? You should call your doctor at once, but what would he do? He must know exactly how much of what is in the poison before he acts. And time is all-important.

If your community had a poison control center, the problem would be much simplified. By checking a master index the center could give your doctor a quick run-down on ingredients in the substances. If necessary the child could be rushed to the center for emergency treatment with special equipment.

Unfortunately there was only

one complete local center in Texas, operating in Austin's Brackridge Hospital, until Galveston, Houston, and Fort Worth established poison information centers more recently.

This clearly is a dangerous situation. The State Department of Health, through its Division of Occupational Health, for over a year has been seriously intent on encouraging formation of poison control centers wherever there is local willingness.

The Department will furnish free an index information file, together with periodic supplements. Additionally, the Department offers counsel in organizing a center, and will make the resources of its extensive toxicological available. The Division itself serves as a poison information

center on an around-the-clock basis.

A complete local poison control center does three things:

1. It keeps information instantly available on compositions of poisonous materials, together with antidotes. It keeps up to date with a reference library on toxicology, and maintains a master index of poisons.
2. It maintains all emergency drugs, oxygen equipment, catheters, tubes, syringes, needles etc., for immediate life-saving use in treating poisoning cases. A treatment center is usually located in a local hospital emergency room.
3. It conducts continuous public education on the hazards of literally thousands of poisonous agents available on today's market. Educational activities might be handled by persons other than the information or treatment staff.

For maximum usefulness, information and treatment should be initiated 24 hours a day, and visited by a competent physician.

There you have it—a realistic, inexpensive plan for coping with the ever constant danger of accidental poisoning. Your town deserves the advantages that come with having a poison control center.

### Gray Matter—

(Continued From Page One)

into the grocery business. First he took over 25 feet in the 100-foot building and started to sell staples and no meat. Later he switched to meats, produce and all sorts of staples found around a grocery.

He started advertising and it wasn't any time at all until he and one of the larger grocery businesses in town, he later ran the drug store out of the building that was his neighbor in the 100-foot building he acquired from his father-in-law and took over the entire 100-foot front.

Henry sold groceries there like nobody's business. One day he ran a special on P and G soap and the factory sent a man out here to find out what he was doing with all the soap he was buying.

When Henry ran a special it was something special. The street in front of his store was not then paved and sometimes people would have to wear boots to wade through all the mud to his store but Henry had them a mud scraper, a discount on snuff, and sold them enough groceries to last another week.

It was at Fullman's place that I got to loving pickle and butter on cracker. I used to pass his store now and then on the way to my grandmother's house. I always stopped at Henry's store and he always let me have a pickle out of the pickle jar (koshers of course) and a cracker out of the cracker barrel. I'd put a little of grandmother's homemade butter on the cracker when I got to her house and had a real feast.

In talking about old times with a friend the other day I found out that everybody doesn't like pickle and butter on a cracker. I guess people's tastes do differ. I understand that there are people alive on this earth who don't like blackeyed peas. I've heard of these people but I haven't seen any of them yet.

Eating with Henry like I did as a little fellow I grew fond of kosher pickles. Actually I was in high school before I found out that there were other types of pickles.

I always considered the two items to go together. On that score I was a little like the boy

who first heard of "white cotton." His first question was: "What other colors of cotton are there?" By not going to cotton as something white I thought there must be another type of cotton that wasn't white. If there was he wanted to find out about that too. That's about the way I was with pickles. I thought all of them were kosher, I didn't know other types were for sale at a grocery store.

Last year, or was it the year before that, Henry Pullman bought the town its coffee for a day in celebration of his 30 years in the scrap metal business. When he left the grocery business to go into the scrap metal business we referred to it then as the "junk" business. It hardly seems that he's been in the junk business 30 years. It seems only yesterday that he was peddling pickles on West Main.

### RETURNS HOME

Mrs. Clara Bisbee has returned home from a visit with her son and daughter-in-law, Mr. and Mrs. H. A. Bisbee and family of Hutchinson, Kan. She also visited with daughters in Fort Worth.

**Immediate Relief!**

A few drops of OUTGRO® bring blessed relief from tormenting pain of ingrown nail. OUTGRO® loosens the skin underneath the nail, allows the nail to be cut and thus prevents further pain and discomfort. OUTGRO® is available at all drug counters.

### It's Almost Unbelievable—

... but statisticians tell us that we Americans go more places in our cars and trucks nowadays than ever before, with an increase of 30 million vehicles since 1948. Every extra mile is a hazard and the chance for another accident. In 1957, insurance companies lost 279 million dollars on automobile insurance underwriting. Since the driving public determines the insurance rates it must pay, higher rates are inevitable. Better revise your budget now to include the high cost of driving in modern '58.

### Residents Urged To Be Informed On Payments

Residents of Eastland county were urged recently by R. R. Tuley, Jr., district manager, to get in touch with the Abilene office of the Social Security Administration for information regarding payments under the old-age and survivors insurance program.

Tuley stated that his office encounters numerous instances of applicants for benefits who have relied on erroneous or misleading advice received from friends or relatives. As a result they have mistaken ideas about requirements for social security payments and the amount of the payments which they will receive. In several recent cases, failure to obtain correct information before reaching retirement age has had serious effects on the applicant's plans for retirement, he added.

The Abilene office of the Social Security Administration receives all applications for retirement and survivors payments from residents of 15 counties. In addition the office receives applications in and around Taylor county for disability payments from qualified workers 50 years of age or more and applications to "freeze" the wage records of disabled workers under age 50. As of May 8, in 1958, the Abilene office had forwarded 2513 applications for retirement or survivors payments and 279 applications for disability payments.

Informational material regarding all phases of the social security insurance program is available and a representative of the office is normally available to meet with groups desiring a speaker.

Tuley suggested that all students who plan to work during the summer vacation, and who have not obtained a social security card, do so immediately. Application blanks for cards can be obtained at the Abilene office or at the post office nearest their homes.
