## Moore About—

(Continued From Page One)

that is.) The person sending it to us didn't sign his or her name, but did mark off parts of the story which they felt we should read.  
Very cleverly written, the column concerned itself with the average fisherman's refusal to admit that he fishes with worms. The writer also suggested that a bait the worm fisherman can keep his worm bait in the refrigerator where they will stay in a state of suspended animation for two weeks. He also advised, however, that "so will your wife."  
We are suspecting that the person mailing the clipping to us is suggesting that we are a worm fisherman. In defense we would like to state that while we have been spotted up at 1 a.m. in the back yard hunting worms, we were doing it merely for the sake of getting something to bait our "bait line" with. Perch dearly love worms and catfish dearly love perch and we dearly love catfish so there you are.

We'll have some fresh fruit for you Sunday. See you then.

**Judge Hamilton Files for Place On Texas Court**

A three-way contest for one of the positions on the Texas Supreme Court was revealed with the passing of the filing deadline last week.

First to file for Place 1, which will be vacated by St. John Garwood who is not a candidate for re-election, was the Chief Justice of the Eight Court of Civil Appeals.

He is Judge R. W. Hamilton a 58 year old former school teacher-turned-lawyer who once coached a

state championship football team. Upon release from military service in 1919 after World War I, Hamilton took up teaching and coaching and in the 6 years that followed, taught at Fairview—

where his team won state honors in 1919—also at Sonora, San Marcos, and finally back at Tyler near his family farm at Troup where he was reared.

Judge Hamilton is basing his campaign entirely upon his 31 years experience as lawyer and judge.

His law practice began at Tyler in 1927. In 1929 he was County Attorney at Martin County. In 1933 he was District Attorney of the 70th Judicial District. He engaged in general practice at Midland from 1935 until 1950, when he was elected Judge of the 70th Judicial District which he had

formerly served as District Attorney.

In 1953 he was appointed Chief Justice of the Eighth Court of Civil Appeals and was elected in 1954 without opposition to a full term

of that office which he is now serving.

Mrs. Hamilton is the former Lois Rogers of San Antonio. The Hamiltons have two daughters, Emily and Ann, both attending the

University of Texas, and a son, Robert, Jr., attending A & M College.

### It's Almost Unbelievable—

... but statisticians tell us that we Americans go more places in our cars and trucks nowadays than ever before, with an increase of 30 million vehicles since 1948. Every extra mile is a hazard and the chance for another accident. In 1957, insurance companies lost 279 million dollars on automobile insurance underwriting. Since the driving public determines the insurance rates it must pay, higher rates are inevitable. Better revise your budget now to include the high cost of driving in modern '58.

**PLYMOUTH SAVES YOU MONEY ON GAS...  
MOBILGAS ECONOMY RUN VICTORY PROVES IT!**

New "Fuel-Saver" Choke that helped clinch title is standard equipment on all Plymouth V-8s

Pound for pound, Plymouth uses less gasoline than either of the "other two" cars in the low-price "3"! This was proved beyond doubt when a 1958 Plymouth V-8 was officially declared winner of the low-price car competition in the 1958 Mobilgas Economy Run. Plymouth's competitors also entered cars with 6-cylinder engines (supposedly more economical) but Plymouth beat every car in its class—V-8s and 6s alike!

This title-winning Plymouth is exactly the same Belvedere V-8 with TorqueFlite Automatic Transmission that you can buy right off your Plymouth dealer's floor.

These tests prove that every Plymouth has built-in economy features not found in the "other two". For in-

stance—one of the most important factors in Plymouth's smashing win is the new "Fuel-Saver" Choke that you get at no extra cost on all Plymouth V-8s. This ingenious device employs a triple-stage vacuum piston and a new thermostatic element to reduce the amount of fuel you use in warming up the engine. So it can save you even more on short-distance drives—the kind most people make.

Among the many other savings Plymouth gives you is the \$140 you save on standard-equipment Torston-Aire Ride. The "other two" charge up to that much extra for their best suspension systems.

So if you are dollar-conscious, better hustle over and talk terms and trade with your Plymouth dealer. He wants your business, and he'll go all out to get it!
