MOORE about... EASTLAND by Virgil E. Moore

Willard Griffin, Coats Furniture manager, is still laughing about what happened down at his place the other day. Griffin took a big window cooler in on trade, or something, and when he got it to the store he decided to plug the thing up and see if it would work. When he tried to plug the cooler into the juice the cooler started making a terrible noise, but as Willard raced over to turn it off, out shot a cat out of the cooler. The poor cat came out with a hole in its back and out it went. The last Willard saw of it was when it hit the floor.

There's a Ranger man who will just about fight for Bill Walters. And well he should, Bill, who several years ago took up skin diving as a hobby, was called on by the man to go down in 15 feet of water at Lake Leon and hunt for a \$2000 diamond ring which he had dropped.

Walters, who works for Bell Telephone Co. when he isn't busy diving, got the ring real quick, and while down recovered a boat motor propeller for Frank Williamson.

For a long time Bill didn't charge anything for his services. Finally, however, he was spending a lot of his money helping other folks. It costs Bill several dollars every time he goes down.

"I'm just going to have to start charging," he said this week, "or throw the diving rig away."

We never have quite figured out the importance of getting one's name first, and or last, on the ballot, but you can bet the professional politicians pay a lot of attention to it.

About the only thing of importance that we can see is getting the most votes. And of course that's what all the boys seeking office are after. Somehow, however, it has become a popular belief that it's important to get your name listed first on the ballot. Seems to us that gives the voters an earlier shot at scratching you out, but maybe not.

The only thing bad about politics is that there is just one winner in each race. We have long maintained that a win, place and show ribbon should be awarded in each contest, so as to make the runner-up and third place man feel a little better anyhow.

Speaking of politics... we had a local office holder suggest not long ago that we seek public office someday. He wasn't interested in seeing us serve the public, he just wanted us to find out the hardships of campaigning so we would quit trying to be funny about what is a mighty serious situation to the candidates.

What that guy doesn't know is that we already have a rough idea of how we would come out. You can bet your bottom dollar we aren't going to run for an office in Eastland County, where our own Mother doesn't reside. It would be mighty discouraging to not get a single vote.

While on the subject, we might as well get the Liberals and Conservatives down on us. We are in a sad shape, it seems. We can't stand the Liberals and displease the Conservatives. There's got to be a happy medium in there somewhere.

One of our old neighbors, George Nicks, is running for the office of lieutenant governor. We don't know if he is liberal or conservative, but we do remember our big sister saying he was mighty bashful. Of course that was 15 or 20 years ago and old George may have snapped out.

Lake Leon Dam Road Is Making Headlines Again

Dont look now, but the Lake Leon dam road issue is showing again.

A petition being circulated in Ranger and at Lake Leon calling for the paving of the road over Lake Leon dam has been signed by more than 200 persons, and another petition by Kokomo farmers opposing the paving has been mailed to the Eastland County Commissioners Court.

The Ranger Chamber of Commerce is spearheading the petition urging the paving of the four mile stretch of road, and Joe McNeely of the Kokomo community is backing the attack against the road.

Six copies of the petition prepared in the Eastland chamber of commerce, but H. J. Tanner, manager, this morning said that today no one in Eastland has signed the petition.

"Our Highway Committee voted to stay in the background on this," Tanner said. "The petitions are in the office, however, if anyone does want to sign them."

Cisco Skeleton Rattles Again In Fort Worth

The woman who identified a skeleton found in Cisco as her husband earlier this year has been charged by her husband of one month with trying to kill him in Fort Worth.

Mrs. Norma L. Mann of Hurst, who buried the skeleton found in Cisco after identifying it as Angelo Caruso, was jailed in Fort Worth. Caruso had been missing since October 11, 1957 when his wife claimed the skeleton was his.

Mrs. Mann's husband claimed she fired a shot at him from a .22 caliber rifle. When arrested, the woman had a black eye, which she told officers her husband gave her. She denied firing the rifle.

Registration Starts Monday For Skiers

Registration for area participants entering July 4th ski contests at Lake Leon will start Monday at Eastland and Ranger Chamber of Commerce.

Each registrant will be given a number painted on sign cloth. These numbers will be called over the public address system on the Fourth, and the participant is expected to be ready.

Skiers may register for any or all events, including one and two-ski performances. Prizes will be awarded to the best trick skier, the best all-around skier, and to the best men and women skiers performing on single and double skis.

Numbers, on the sign cloth, were prepared by Bill Stevenson, of Ranger, manager of Montgomery Ward's store. Cloth was furnished by Jimmy Smith, of L. & J.

Supply Co. of Ranger.

A ski course was marked out on the lake Friday night with anchored yellow innertubes. A mimeographed sheet will be furnished for participants, showing the ski course.

Joe Collins, James Cockle, Stevenson, Smith, and James Townzen—all of Ranger, anchored the tubes.

Eastland skiers will receive odd numbers and Ranger registrants even numbers.

Registration will continue through 2 p.m. on July the Fourth.

Water Sports Make Safety Big Problem

The main summer pastime in Eastland County undoubtedly are water sports.

Swimming, boating, skiing, and fishing are the things in this county, which has numerous lakes, ponds and swimming pools.

With the emphasis on water sports, there also needs to be more emphasis on water safety, the Red Cross believes.

The Red Cross, hoping to make this a safer summer, as well as a pleasant one, have put out a list of safety precautions.

With two drownings already on the county death list this year, the following 10 rules should attract extra attention:

The following 10 safety precautions will prevent most drownings:

1. Learn to swim. To save your life, you can't think of a better sport.

2. Always swim with another person. Make sure someone is nearby to help if you get into trouble.

3. Swim in a safe place. The presence of lifeguards usually indicates the area is safe for swimming.

4. Know the area. Before diving, make sure the water is deep enough and that there are no hidden objects such as submerged rocks.

circulated by proponents of the road and the one mailed to the Commissioners Court by McNeely is given below:

Opposing Petition
We, the residents of Kokomo Community, want to protest the movement made by the Ranger Chamber of Commerce in regard to a farm to market road being built from F. M. 570 over Lake Leon Dam to connect F. M. 2214.

The road over the dam would not help the farmers of Kokomo Community. It would help us more by spending money on our present roads as they are almost impassable in rainy weather.

When we get our F. M. 2214 on pavement, now it seems that this project over the dam is for sportsmen and sightseers mostly and could be built after other necessary road construction is completed.

We need a road to F. M. 2214 by Kokomo and on to Gorman. Then we could carry our produce to market and could get to hospitals and doctors when necessary.

"We appreciate the fine road program that the Highway Department, Commissioners Court and our county commissioner has promoted in Eastland County. However, we do feel that the above road is an unnecessary expense of money when other roads are so badly needed.

Petition Favors Road
To The Commissioners Court of Eastland County
State Highway Commission, Austin, Texas:

We, the undersigned citizens of Eastland County, and people from out of the state and county, who have traveled the road from Farm Road 570 at Lake Leon, across the dam at Lake Leon, to Farm Road 2214, and have spent time and money seeking recreation at this new resort, hereby earnestly petition the Commissioners Court of Eastland County and the State Highway Commission to take the necessary steps for taking over and paving this road.

Comets, Lions Continue Lead With Victories

The Lions beat the Medics, 8-3, and the Comets smashed the Bulldogs, 16-2, in Little League action Thursday night.

The victories kept the Comets and Lions running in one and two order in second half play, and kept the two teams even for the season.

Hayden Wilson was the winning Lion pitcher. He scattered four hits in limiting the Medics to three runs. Perry Treadwell held the Lions scoreless for two full innings, but three errors and three walks gave the Lions four runs and then winning margin in the third. Treadwell got relief work from Gary Graham after running into trouble in the fourth inning.

Jodie Cooper was the winning Comet pitcher and Mace was charged with the loss for the Dogs. By BOYCE HOUSE

To a friend of mine who is an executive in the field of finance, I made a remark about the Spanish prisoner swindle and to my amazement he said: "I never heard of it." The scheme is one of the oldest. In its original form, the prisoner was in Spain; in more recent years, he is in Mexico but the "con game" is still known to the authorities as the Spanish prisoner.

Briefly, here's the way it operates: An American who is well-to-do receives a letter. The letter declares its writer is a rich man who has been imprisoned by enemies—(sometimes, it is political foes; sometimes, it is grasping relatives

necessary lest the prisoner's oppressors learn of the plan and move him to another stronghold. "So say nothing to anyone but come alone—and at once. Time is of the essence." The letter is written in bold handwriting and the English is excellent although the phrases are in courtly Spanish such as one would expect from a well-educated Mexican.

If the American follows the plan, he is met by a lovely senorita who conducts him to two friends. The procedure varies but he is asked to show the money; he is then asked to wrap it in plain brown paper and tie it with red string, which they provide. Soon, they make an appointment to meet him at a little cafe for breakfast next day and from there they will proceed to the town where the prisoner is held.

Next morning, the American is at the little cafe but his new friends are not there. He waits half the morning still they do not appear. He returns to his hotel room, locks the door and opens the package. It contains pieces of newspaper. An already-prepared package had been substituted for the one with the money.

That, in brief, is the Spanish prisoner story. If you receive such a letter, it is suggested that you keep it as a souvenir but that you also keep your \$5,000 even though this will mean that you do not get to meet the beautiful senorita.

Fashions in Franks

Easy-to-fix foods make the best choice for picnic menus. For your next picnic or beach party, have stuffed frankfurters, baked beans, relishes, fruit and cookies . . . they're easy to pack and easy to serve.

Frankfurters have been said to have originated in Germany but is there anything quite so American as a bun wrapped around a juicy, sizzling hot dog which has been generously covered with relishes?

Each year, picnickers still seem to rate frankfurters first or second on their list of favorite picnic foods. Why? Probably because in addition to tasting good they're easy to pack and easy to cook and serve. Since frankfurters are completely cooked, ready to eat, they need only to be heated through if you like to roast them for eating hot, comments Reba Staggs, meat expert.

Picnic time is right now so perhaps you'd like a few frank-

furter suggestions. In this special picnic menu, frankfurters are featured by splitting them down the center, inserting a strip of cheese and wrapping the frankfurter in a slice of bacon. Depending on the tastes of the family or group, use either sharp or mild cheese. Grill the frankfurters over glowing coals.

Franks may also be cut in 1-inch pieces and alternated on a metal skewer with olives, onions, fruits, mushrooms, etc. This is called a kabob. Kabobs are popular picnic suggestions.

If you're planning a breakfast picnic, tiny slices of frankfurters cooked with scrambled eggs make a delightful flavor combination.

It's Not Just an Accident-

. . . that Eastland enjoys a good fire record year after year. Usually it is the fire department or the City Commission, or both, that get the credit and they deserve all the credit they get. But without the co-operation of the individual no town would have a good fire record. Elimination of the common fire hazards such as defective wiring, faulty flues, greasy rags and mops, weeds and grass, and the worst of all, the careless smoker, among others, is a direct result. Do you have any of these hazards in or near your home?

HD Club Program Is Presented by 4-H Club Girls

The program for the Flatwood Demonstration Club was presented by two 4-H club girls Thursday when the club met in the home of Mrs. Ona Pogue on the Ringland Lake road.

Nance Benton and Letha Faye Mathews presented a demonstration on "how to make fruit sandwiches." The sandwiches were served to the group.

Mrs. Olive McCain was appointed to attend the THDA meeting in Austin in August.

The club also voted to sell "goodies" at the political rally in the Eastland Park on June 27.

The club adjourned to meet with Mrs. Beulah Turner on the Carbon highway on July 3.

of it by now. He's not talking like a bashful man, and that's for sure. Why would he be afraid Ben Ramsey would be ringing our doorbell if we said some of the things old George has. But then Ben hasn't been too kind, in his remarks either.

That's enough about politics, however. What we really should be talking about is the growing shortage of words. About this time of year we find that words to put in the Telegram are hard to come by. In fact, in many cases, this column being a good example, we just have to start writing and hope for the best.

We know you want to be too happy with this system, but if you'd get out and hoe those peanuts like you should, you wouldn't have so much time to criticize.

WEEKEND FISHING PARTY

A weekend fishing party was held for S-P3 Willis R. Rainwater at Leisure Lodge at Lake Leon.

Those present were Dr. and Mrs. R. C. Ferguson of Eastland, Steve Timmons and Charles Perrino of Fort Worth, Mr. and Mrs. Dan Tabor, Mrs. Willis Rainwater, and Mr. and Mrs. B. R. Rainwater.

The largest fish caught weighed about 5 pounds. A total of 15 pounds of fish were caught.

S-P3 Rainwater is here on leave. He is stationed in Hawaii.

Steve and Charles are visiting their grandparents, Dr. and Mrs. Ferguson.

four-mile section of road.

Many of us would like to visit Lake Leon more often and spent more money in this area if the above mentioned road was paved and the hazards eliminated for transporting boats to and from the Lake. The road is rough and dusty and disagreeable to travel in dry weather, and almost impassible in wet weather.

Also, there are 60 or 70 farm families who live South of the lake who would be greatly benefited by being able to get their products to market and their families to hospitals for medical care. The road is also a route for school buses and rural mail delivery.

At the present time there are about 75 privately-owned cabins around the shoreline, in addition to four commercial lodges and boat docks. The county and state tax valuation are increasing every day, and we feel that money derived from gasoline tax alone, of local and out-of-county people should soon pay the cost of the road, due to its increased travel by people seeking recreation.

A cut flower arrangement of pink roses and gardenias centered the lovely table with a miniature bride and groom. White tapers in crystal candleholders flanked the centerpiece arrangement.

Approximately 20 were registered in Miss Hightower's white bride's book.

LOOK WHAT HAPPENS WHEN YOU BUY FROM THE...

"WHOLESALE" CATALOGUE

You may pay more...

- A wholesale firm is one which sells in quantities to a retailer who intends to re-sell the merchandise to his individual customers.
- The reason the wholesaler can sell at wholesale is because he does sell in quantities — and does not have to deal directly with each individual retail customer.
- A good question to ask then is: How can a wholesaler print and distribute thousands of catalogues to individual consumers, stand the cost of each sales transaction and still sell at "wholesale" prices?

The answer is: He can't. He is mis-using the word "wholesale."

By actual comparison, the cost of some merchandise listed in such catalogues is even higher than that charged for comparable items by the retailer.

CAUTION - CHECK THE PRICES IN THE "Wholesale" Catalogue YOU MAY SAVE MONEY!

There is no such thing as "Wholesale" prices to the buying public, because...

...no merchant can stay in business consistently selling merchandise at the same price he pays for it.

Christian Science
"Is the Universe, Including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon at Christian Science services Sunday.

Matthew's account of Christ Jesus' healing of the man "possessed with a devil, blind, and dumb" (Matt. 12) will be included in the readings from the King James Version of the Bible.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be read the following (180:25): "When man is governed by God, the ever-present Mind who understands all things, man knows that with God all things are possible. The only way to this living Truth, which heals the sick, is found in the Science of divine Mind as taught and demonstrated by Christ Jesus."

The Golden Text is from Hebrews (1:10) "Thou, Lord, in the beginning hast laid the foundation of the earth; and the heavens are the works of thine hands."

First Christian Sermon Topics Are Announced

The following activities are scheduled for this week at the First Christian Church:

"Wasting God Given Strength" based on Joshua, chapter 13 through 16 will be the topic for discussion during the 9:45 a. m. Bible School Hour. Classes for all ages are provided in "The Art of Christian Living."

"From a Preacher's Holiday" is the sermon topic chosen by pastor Ray Heckendorn for the 11 a. m. worship service. His text will be from Acts 17:16-34.

The sermon topic for the Evening Vespers, beginning at 7:30 P. M., will be "Peter's Shadow."

"Those who are without a church home in the Eastland community are invited to worship with the First Christian Church where the welcome mat is always out," a spokesman said.
