### Tax Reform Bill Heads Into Trouble

WASHINGTON, April 7 —UP—The administration tax reform bill headed Wednesday into a cross-fire of sniping from Senate critics demanding priority either for a balanced budget or for personal income tax relief.

The Senate Finance committee opened hearings on the massive measure Wednesday morning with Treasury Secretary George M. Humphrey as the first witness.

The bill, already approved by the House, would postpone a cut in corporation taxes, ease dividend taxes, provide some relief for working widows and people with heavy medical expenses, and liberalize depreciation allowances.

The big fight is expected to come on a Democratic move to strike out the dividend relief and instead boost income tax exemptions to provide a general tax cut.

Sen. Walter F. George (Ga.) senior Democrat on the finance committee, is the chief sponsor of a plan to increase exemptions from \$600 to \$800 this year and to \$1,000 in 1955.

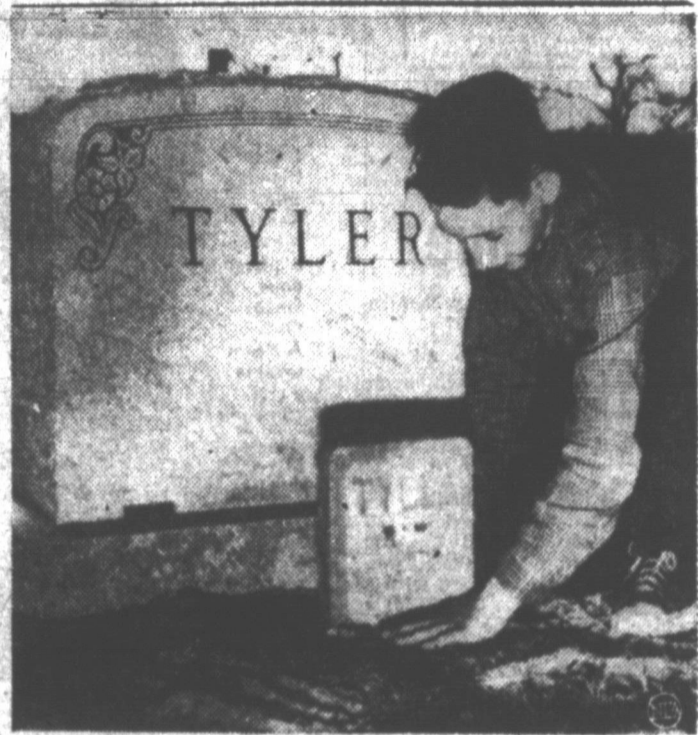

House Democrats failed in an effort to lift the exemption to \$700. But a very close vote is expected in the Senate.

Aside from the fight over the George amendment, the tax revision sections face some opposition for various reasons, including their cost, which is estimated at \$1.6 billion for the first year.

Sen. A. Willis Robertson (D-Va.) proposed that Congress vote the one-year extension of the corporate tax rates but sidetrack the general overhaul until next year.

He said 10 years of service on the House Ways and Means committee taught him the need for an overhaul. But he expressed doubt that any senator could understand all the implications of the 875-page bill in the time available.

If it comes from a hardware store we have it, Lewis Hardaway, Adv.

**END OF TROUBLE** — Ten-year-old Clarence Tyler places a homemade tombstone on his baby brother's grave in Tulsa, Okla. Clarence started the project several months ago using a linoleum cutting tool and poplar sticks because his family was having trouble finding the child's grave. Family's trouble is now over—the large stone in the background was donated by a monument company when they heard the story. (NEA Telephoto)

### 'Deadliest' Weapon Can Now Be Made

NEW YORK, April 7 —UP—The most deadly weapon yet conceived by man which could annihilate all life on earth can now be made successfully, a dispatch in the New York Times said Wednesday.

The cobalt bomb — a hydrogen bomb encased in a cobalt shell — passed from the realm of the theoretical during the recent hydrogen blasts at the Eniwetok proving grounds in the Pacific, New York Times science writer William L. Laurence said in a two-column story in the Times.

The story said the explosion of a cobalt bomb would produce a radio-active cloud 320 times more powerful than radium. The cloud, carried by prevailing winds, could travel thousands of miles destroying all life in its path.

Prof. Harrison Brown, nuclear chemist at the California Institute of Technology said if a cobalt bomb were set off 1,000 miles west of California "the radio-active dust would reach California in about a day and New York in four or five days, killing most life as it traverses the continent," according to the newspaper.

"Similarly," the Times quoted Brown, "the western powers could explode hydrogen-cobalt bombs on a north-south line about the longitude of Prague that would destroy all life within a strip 1,800 miles wide, extending from Leningrad to Odessa, and 3,000 miles deep from Prague to the Ural mountains.

The recent hydrogen tests at Eniwetok virtually proved that the cobalt bomb can be made by any power possessing the know-how of the hydrogen bomb.

### Ike Discounts Value Of Communist Talk

WASHINGTON, April 7 —UP—President Eisenhower said Wednesday the United States will go as far as prudence will allow in seeking a negotiated agreement with the Communists on Asia but will not accept mere words at the Geneva conference.

The chief executive told his news conference he could not say exactly what the United States will do in the Indo-China crisis or other Asian matters, because these things are being discussed now with the leaders of Congress and the news conference.

Mr. Eisenhower said he knew his own convictions on what he would do, but until Congress and the Allies have reached an agreement it would be impossible to say what future actions might be taken. He said it is a matter which must not be handled by one nation alone but calls for concerted decision.

Secretary of State John Foster Dulles, meanwhile, called for freedom-loving nations to express a "united will" to keep the Communists from dominating southeast Asia.

If this is forthcoming, he said, the United States will be ready to keep the Communists from dominating Indo-China.

Plans From Democrats

Eisenhower faced his weekly press conference under mounting Democratic pleas that he personally report to Congress on the Indo-China crisis.

Sen. Henry M. Jackson (D-Wash.) made the suggestion late Tuesday as the Senate plunged into a full-dress debate on what the United States and the free world should do to save southeast Asia from Communism.

Sen. J. William Fulbright (D-Ark.), a member of the Foreign Relations committee, endorsed the proposal as "a very good idea" in an interview Wednesday.

Work on Dozen Fronts

The United States and its allies are working vigorously on a dozen fronts to build a plan of action for checking the admittedly grave Communist threat. The latest developments:

1. British Prime Minister Winston Churchill placed before his cabinet a U.S. proposal for a joint allied warning to Red China against intervention in Indo-China. British officials urged caution. (See FACT, Page 3)

### Senate May Appoint Counsel To Replace Sears By Evening

WASHINGTON, April 7 —UP—The Senate investigating subcommittee may hire a new counsel Wednesday to conduct the delayed hearings on Sen. Joseph R. McCarthy's row with the Army.

Samuel P. Sears of Boston, appointed only last Thursday, quit Tuesday. He had been under fire from the outset for failing to tell the subcommittee about his record of pro-McCarthy statements dating back to 1952.

Acting Chairman Karl E. Mundt (R-S.D.) called a subcommittee meeting Wednesday to interview "one or more attorneys as potential choices" for the delicate job.

Sen. John L. McClellan (D-Ark.) said "it is not improbable" that the new counsel will be selected Wednesday.

The departure of Sears, who didn't last long enough to get on the payroll or even discuss finances with the subcommittee, probably will delay for several days the actual start of the long-awaited hearings. They had been scheduled to begin early next week but Mundt said "foggy weather may delay them a little."

### Approval Of 'Anti-Traitor' Bill Expected

WASHINGTON, April 7 —UP—The House was expected to approve the administration's "anti-tyrant" bill Wednesday to permit wire-tap evidence to be used in the prosecution of subversives.

The principle of the bill has widespread support among both Democrats and Republicans. And the only fight was expected over a provision to authorize the use of evidence obtained "heretofore or hereafter" with the written approval of the attorney general.

A number of Democrats insist that use of wire-tap evidence should be permitted only by a federal court order. They also object to the "retroactive" features.

Wiretapping itself is legal now. But the Supreme Court has ruled that evidence so obtained cannot be used in federal crime cases. The administration measure would let the government use evidence obtained by tapping telephone lines in the prosecution of alleged traitors, spies, saboteurs and seditious.

Rep. Kenneth B. Keating (R-N.Y.), predicted passage of the bill with the provision giving the attorney general power to authorize wire-tap evidence. He sponsored the measure after earlier backing the federal court procedure.

### Japan's 'Peace' Envoy Succumbs

TOKYO, April 6 —UP—Saburo Kurosu, Japan's special "peace" envoy to Washington at the time of the Pearl Harbor attack, died Wednesday at his home.

Kurosu, 68, had been partially paralyzed by a series of cerebral strokes.

He always insisted he knew nothing about the Pearl Harbor attack when he delivered a new Japanese note to Secretary of State Cordell Hull on the afternoon of Dec. 7, 1941.

WASHINGTON SCENE—Jonathan Mitchell, left, former Washington magazine writer, appeared before the Senate Internal Security subcommittee which has resumed its inquiry into the Harry Dexter White case. Mitchell was expected to tell his experiences with former Treasury Secy. Henry Morgenthau and White, long a key official in the Treasury Dept. Sen. Robert S. Kerr (D-Okla.), right, told Washington reporters Tuesday President Eisenhower had failed to make adequate use of his great power to check "intemperance" of some Congressional Red-baiters. Senator Kerr praised "magnificent courage" of the President's Monday night address. (NEA Telephoto)

### Truman Says H-Bomb Was 'Expedited'

KANSAS CITY, April 7 —UP—Former President Truman said Wednesday the order to go ahead with the hydrogen bomb was issued "as soon as the scientists were ready to go to work."

Mr. Truman had "no comment" on a charge by Sen. Joseph R. McCarthy Tuesday night that our nation "may well die" because of an 18-month delay in hydrogen bomb research. McCarthy implied Communists in Mr. Truman's government caused the delay.

The former President mentioned no names. He said he got an appropriation of \$1 billion to start the hydrogen project and "work proceeded as promptly as possible."

Mr. Truman said there was much construction work involved in getting the project started. Work began about two years after the British turned over their atomic bomb efforts to the U.S., he said, and the H-bomb took about as long to get going as did the atomic bomb.

Mr. Truman said he frankly did not remember dates of the hydrogen program. The British turned over their atomic program to us in August, 1943, at the Roosevelt-Churchill conference in Quebec.

Regarding the Quebec agreement which Mr. Truman said Tuesday was still in effect, he commented briefly on a declaration by Sen. Bourke B. Hickenlooper (R-Iowa), that the wartime agreement was dead.

### State Rests In Helton Case

WHEELER — (Special) — The state rested its case here today in the 31st District court trial of Mrs. Hazel V. Helton, Shamrock, who is charged with the murder of her husband, Michael C. Helton, Shamrock farmer-rancher.

Shortly after District Judge Lewis M. Goodrich opened today's session at 10 a.m., the prosecution rested its case and the defense began presenting its witnesses.

Mr. Nicholas, Shamrock businessman, testified as to his purchase from Mrs. Helton of a second lien note, and the 12-year-old daughter of Mrs. Helton also testified.

Several other defense witnesses were expected to be placed on the stand this afternoon. Informed sources said. All testimony in the case was expected to be completed today, after which opposing attorneys will begin the summary of the case.

The case probably will go to the jury sometime Thursday, it was believed.

Other witnesses took the stand as testimony in the trial opened, chief of whom was Ben A. Skidmore, Shamrock banker who was on the stand more than an hour.

Judge Goodrich called a night session when the prosecution indicated that it could complete its case within another two hours. However, attorneys for the prosecution were not able to do so and, at the request of state attorneys, the judge allowed the defense to present its character witnesses out of turn.

Skidmore, under questioning of District Attorney Tom Braly, said (See STATE, Page 3)

### Dust, Cool Spell Looms

Summer-like weather, which prevailed in the Pampa area for the past two or three days, was replaced today by a cool front that moved into the Panhandle.

Blowing dust entered the area Tuesday, but had settled this morning. However, more dust was expected here this afternoon.

There still is no likelihood of any moisture being received as a result of the cool front, forecasters reported, and the five-day forecast is for little or no moisture.

The highest recorded temperature of the year was reached here Tuesday as the mercury rose to a very warm 90 degrees, according to Radio Station KPDM.

ANSWERED — Edward R. Murrow (above) alloted Sen. Joseph R. McCarthy time on his televised show Tuesday night to answer a recent attack he made on the senator. McCarthy mentioned the commentator frequently during the speech accusing him of "following implicitly the Communist line." (NEA Photo)

### McCarthy Says . . . H-Research Delay May Prove Costly

NEW YORK, April 7 —UP—Sen. Joseph R. McCarthy said Tuesday night our nation "may well die" because of an 18-month delay in hydrogen bomb research which he implied was caused by Communists in the government of former President Truman.

"If there were no Communists in our government, why did we delay for 18 months — delay our research on the hydrogen bomb?" he said. "Our nation may well die because of that 18-month deliberate delay."

(1) Ask you who caused it? Was it loyal Americans or was it traitors in our government?"

The Wisconsin senator said the delay was deliberate and brought about even though our intelligence agencies "were reporting day after day, that the Russians were feverishly pushing their development of the hydrogen bomb."

Answer to Murrow

He made the charge during a filmed appearance on a CBS television program. The time was allotted him by CBS commentator Edward R. Murrow to answer a previous attack against McCarthy by Murrow.

McCarthy's statement stimulated immediate reaction in Washington.

Rep. W. Sterling Cole, chairman of the House Senate Atomic Energy committee, said this country took a long time deciding to build the hydrogen bomb "but that does not mean there was anything sinister about it."

Rep. Chet Holifield (D-Calif.), a member of the committee, said "I don't know what he's referring to."

The same puzzled reaction was expressed by Sen. John O. Pastore (D-R.I.), another committee member.

Sen. Strauss Won't Comment

Lewis L. Strauss, chairman of the Atomic Energy Commission, said he did not hear McCarthy's remarks and therefore should not comment.

A chief argument against development of the H-bomb was that A-bombs were sufficient. Some objected to H-bombs on grounds they would hasten a civilization - destroying war.

A few scientists questioned McCarthy's statement.

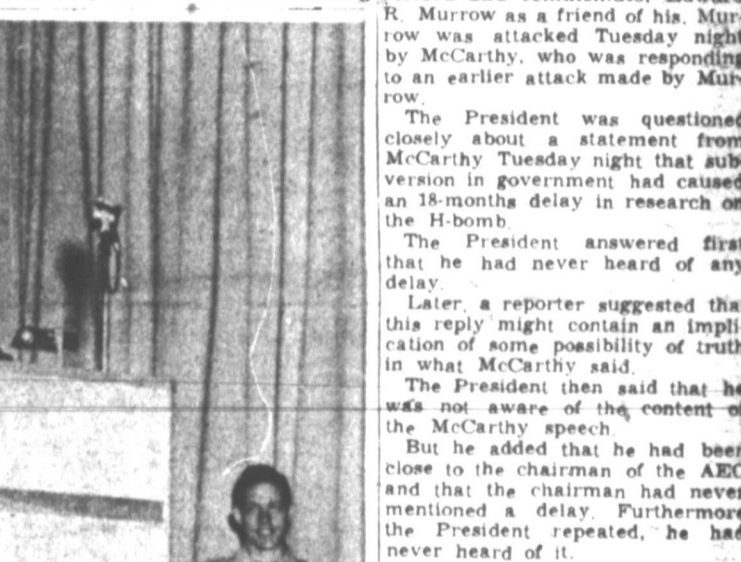

(See RESEARCH, Page 3)

### GIs Quizzed On A-Bomb

FULDA, Germany, April 7 —UP—Two U. S. soldiers kidnapped and held overnight by Russian "invaders" said Wednesday their Soviet captors questioned them about the atomic bomb before setting them free.

Sgt. William J. Young, 22, of Rochester Mills, Pa., and Pvt. Luther G. Woods, 27, of Winona, W. Va., said the Reds also tried to persuade them to stay in Soviet Germany "or take a nice trip to Moscow."

The two Americans said they returned a firm "no" to all suggestions that they turn traitor.

INDUSTRIAL WEEK ENDS — Industrial Week was to end today with a program at the luncheon meeting of the Pampa Rotary club. Dean J. W. Dillard of Frank Phillips college, Borger, pictured above, was speaker at an assembly program at Pampa High School this morning. His talk dealt with industrial potentialities of the area. Musical entertainment was provided by the Plainsmen, a musical group from the college. Shown at right in the picture is James Phippen, president of the Pampa Student council. (News Photo)

### Israelis Accused Of Invasion

JERUSALEM, April 7 —UP—Jordan charged Wednesday that a strong, heavily armed Israeli force Tuesday night and a 217 Wednesday twice invaded Jordan but were driven back in two sharp engagements.

The first attack, which the Jordan government said was carried out by a force of 100 or more Israelis allegedly was aimed at the Jordanian border village of Husan.

Wednesday's angry Jordan announcement said the first of the new attacks was made at midnight with machine guns and hand grenades and was repulsed after a blazing two-hour battle with the Arab legion and Jordanian national guardsmen.

The second Jewish attack, Jordan said, occurred at 2:30 a.m. It was beaten back after a 35-minute battle with Jordan security forces. The Jordan account of the incident said it was believed the second Israeli raiding party was attempting to recover and carry back to Israel territory casualties inflicted in the earlier engagement.

### Texas Voting Roundup Record Numbers Turn Out To Ballot In Port Arthur

By UNITED PRESS

A strike controversy brought out a record 12,000 voters at Port Arthur, fear of violence posted deputies at polling places in Donna and a total of 13 votes re-elected a mayor and five aldermen in another of the scores of Texas municipal elections Tuesday.

At Paducah, population 2,000, a surprised Elsie Jones was elected mayor with 233 write-in votes. There were no candidates listed on the ballot and Jones didn't campaign.

It was in the Tarrant county community of Richland Park that incumbent Mayor C. A. Burn and five aldermen each polled 13 votes, the total number cast.

Most of the municipal and special issue elections were in Texas' smaller municipalities. But larger cities included Port Arthur, Wichita Falls, Abilene and Texas City.

Twenty-five Tarrant county towns held elections; 14 in Dallas county.

At Rotan, the heaviest voter turnout in many years used up the supply of ballots 300 — by 3:40 p.m. Election officials were forced to round up typists, who typed up an extra supply of ballots. The final vote was 649. Polls were kept open a half-hour past regular closing time, because of time lost in typing up extra ballots.

Rotan's pre-election campaign also was heated. Results showed two incumbent city councilmen re-elected.

Record votes also were cast at (See VIOLENCE, Page 3)

### Vice Figure Attempts Suicide

HOUSTON, April 7 —UP—A second witness in the current investigation of prostitution in Harris county tried to kill himself Tuesday night and the jury Wednesday renewed its "look see" at alleged vice in the neighboring city of Baytown.

Five Baytown officials, including Mayor R. H. Pruett, a former mayor and the city manager, were scheduled to appear as witnesses Wednesday in what a spokesman has claimed was an "unpleasant" situation in the east Harris county town.

The Baytown situation apparently wasn't the only one on tap for Wednesday's hearing, though, since a Houston officer, Lt. J. M. LeVrier, and some bank officials in Houston, were also to testify.

Officer F. W. Turbiville, who investigated an auto-pedestrian injury Tuesday night, said that Otto Bodry, 28, night clerk at the notorious Ayres hotel had stepped into the path of the vehicle, apparently in a suicide attempt.

Officer Turbiville said while Bodry was being taken to a hospital for treatment of a minor foot injury, he tried to strangle himself with a belt. Once at the hospital Bodry tried to choke himself, using his knotted shirt sleeves, the officer said.

Bodry, who refused to discuss the incidents, was being held in jail for psychiatric examination Wednesday.

The Ayres hotel where Bodry worked is the alleged bawdy house which ex-District Attorney William Wednesbury investigated last year. (See SUICIDE, Page 3)

### Boy Chemist Dies In Agony

TULSA, April 7 —UP—A 13-year-old boy died in agony Tuesday night, 30 minutes after drinking a mixture he made from a toy chemistry set.

The boy, Burdett Watts, son of Mrs. Frances Ferrall, died in Oklahoma Osteopathic hospital about 9 p.m. His mother took him to the hospital when he was unable to swallow an antidote of raw eggs and milk. She said he screamed in pain after drinking the potion he had mixed while playing alone with his chemistry set.

W. A. Lang, Tulsa county investigator, said the boy probably had formed a cyanide mixture. The contents of his stomach were to be analyzed.

### French Hit By New Drive

HANOI, Indo - China, April 7 —UP—New and violent fighting erupted Wednesday in widely separated areas of Indo - China.

Communist forces in southern Laos thrust across the Mekong River and were battling French defenders 40 miles from the Thailand frontier. Sharp engagements also were reported in the vital Red River delta.

The sudden expansion of the war on new fronts overshadowed, for the moment, the savage struggle for the besieged French fortress of Dien Bien Phu where outnumbered French defenders braced for an attack by 20,000 Red reinforcements reported pouring southward from the Red Chinese frontier.

A sudden tropical rainstorm which drenched the valley in which Dien Bien Phu is situated restricted action there.

But the Communists uncorked a surprise punch in Laos.

The Reds struck unexpectedly near the point where Laos, Cambodia and Thailand meet.

### Civil Defense Organization Existed Only On Paper In '51

Editor's Note: This is the second of four dispatches on America's ability to cope with an H-bomb attack. The first dispatch told of the nation's military defenses against air assault. This report deals with civil defense.

By JOHN L. CUTLER  
WASHINGTON, April 7—UP—The U.S. Civil Defense Administration, which existed only on paper three years ago, would swing into action with the greatest first aid operation in history if H-bombs fall on American cities.

Administrator Peterson is the first to admit that his organization is woefully short of men, money and materials. And even if it had unlimited resources, it could not prevent an H-bomb attack from causing hideous damage and tens of thousands, perhaps millions, of casualties.

But Peterson is satisfied that civil defense—even in its present inadequate state—can save many lives that would otherwise be lost, and help to restore at least some semblance of order from the chaos that would follow any atomic raid.

In two more years Peterson believes he can have a system which would greatly reduce the loss of life by getting a good many people out of danger areas before the bombs fall. It hinges on a future radar system that would give at least two hours warning of an impending attack and a tremendous program of training people to walk (yes, walk) swiftly and orderly out of town.

A Short Warning Now  
At present, civil defense officials feel they can count on no more than 15 minutes warning of an attack. Of course there is no hope of conducting even a partial evacuation of a big city in that time.

As for underground shelters, Peterson and his aides don't believe they could be built big enough, deep enough or quick enough to provide any real degree of protection for city-dwellers against H-bomb attack.

Under these grim circumstances, about all that civil defense can do is to prepare for a gigantic first aid and disaster relief operation—something like the Red Cross conducts after an earthquake but on an infinitely greater scale.

These preparations while far from complete, are already further advanced than many citizens realize. Officials estimate that 4.5 million persons are now enrolled in the civil defense organization and assigned to specific duties.

The figure includes thousands of police, firemen, doctors, nurses and other "professionals, but the vast majority are civilian volunteers. Most of them have received, or are receiving, special training as aircraft observers, wardens, rescue workers, fire-fighters or medical corpsmen.

More Volunteers Needed  
Peterson is proud of his growing corps. But he could use three or four times as many volunteers in most fields.

Civil defense also is making progress, slowly, in stockpiling the supplies and equipment that would

be needed for first aid and disaster relief in the wake of an H-bomb attack.

They are bought with federal and state funds and stored in strategically located warehouses.

The latest (1953) civil defense report lists nine warehouses and five other storage locations with a total of nearly 930,000 square feet of storage space. This space is scattered from Massachusetts to California and the other one is in Honolulu.

Medical supplies and equipment are one of the big items. The total on order, up to last Dec. 1, was nearly \$100 million.

"These stockpile items will provide basic medical supplies and equipment for the care of two million casualties for a period of three weeks," according to the report.

They include blood plasma, antibiotics, sulfadiazine, atrophine injections, and 25 million doses of various vaccines and antitoxins.

Series of First Aid Stations  
The planning table also calls for about 8,000 first aid stations and at least 8,000 improvised hospitals of 200 beds each. Present estimates are that only 10 to 25 per cent of the casualties could be cared for in existing hospitals.

Fire trucks and hose, portable pumps, portable generators, water purification units and "engineering equipment" also are in the federal stockpiling program.

The federal government has helped local communities buy 1,373 fire trucks during the last two years, along with nearly three million feet of hose, 324 electric floodlight generators.

Peterson and his aides would like to see all of these figures multiplied by several times. But they are reconciled to the fact that President Eisenhower asked Congress for \$68 million for civil defense in fiscal 1954, a cut of \$6 million from this year's spending and only a fraction of the sum that some civil defense officials consider necessary.

Thursday: How new factories and military headquarters are being dispersed for safety.)

"Tell me, Herkimer, what's meant by the expression, 'behind the eight-ball?'"

### Ex-Con Admits 'Fresh' Crime

OKLAHOMA CITY, April 7—UP—Royal Cullley, 58, Corpus Christi, Tex., confessed Tuesday to a crime so recent it hadn't been reported, then asked officers to "please send me back to prison."

Cullley who said he had spent all but two of the last 33 years in prisons in Oklahoma, Texas, Kansas and Arkansas, wanted to go to prison for seven years for forging a \$30 check.

He explained he thought he could stop drinking if he was locked up for that period, and he would also be eligible for an old age pension.

Prosecutor Jack Wells filed charges of second degree forgery, recommending a seven year term, and Cullley pleaded guilty before Judge Clarence Mills.

But Mills refused to go all the way with Cullley and sentenced him to only five years. Cullley "guessed" he was satisfied with the result.

Three Killed in Collision  
BIG SPRING, Tex., April 7—UP—Two sisters-in-law and the son of one of them were killed Tuesday when their car collided with a loaded gasoline truck. Sheriff Jess Slaughter identified the victims as Mrs. Willard M. Anderson, 39, La. mesa, Tex.; her son, Willard III, 18 months, and Mrs. Charles Anderson, Tyler.

"We just stopped to say hello for a day or two. Amy—George has a new job in Chicago, and we have to be there by the first of July!"

### Allies Offer Russia Another Chance To Ban A And H-Bombs

By CHARLES M. MCCANN  
United Press Staff Correspondent

The United States, Great Britain and France have called a meeting of the United Nations disarmament commission to give Soviet Russia another chance to say whether it really wants to ban A-bomb and H-bomb warfare.

The meeting was called also to quiet fears all over the world, from London to Tokyo—not to mention New York to San Francisco—that a holocaust might result from a third world war.

The disarmament commission meets at UN headquarters in New York Friday. Its job will be to make a sub-committee which will seek a basis for agreement on disarmament, and especially on the prohibition of nuclear weapons.

Vishinsky for Russia  
Soviet Russia will be the key nation. Its representative will be, as he has been so many times in the past, Andrei Y. Vishinsky, its chief UN delegate.

There is no reason to believe that Russia is ready to permit the one thing that would make a ban on the A-bomb and the H-bomb possible. That is, inspection of Russian facilities by teams of UN experts.

Whatever Vishinsky says in the disarmament commission will come from Moscow direct. He is a voice, not a policy maker.

Will he be silky and outwardly conciliatory? Will he be vicious in attacks on "warmongering" nations? Will he be boastful?

Vishinsky was boastful when he said in a UN speech last November that Russia has the A-bomb and the H-bomb and added that "other countries do not have

everything in this field of atomic and other weapons the Soviet Union already has."

A Blunt Man  
Vishinsky at 70 is still the sharp-tongued prosecutor of the grim Moscow purge trials of the 1930's. He is one of the few judges and prosecutors who have not been purged themselves. He is not a polished diplomat but a blunt man by nature.

Vishinsky is plump, with thinning white hair—once red. He has a tiny mustache. His complexion is pink and white. He wears horn-rimmed glasses and favors black suits which are not, apparently worn in mourning for the old comrades he has helped send to a shameful death.

In debate, Vishinsky is still as fiery as he was in the purge trials. "Vishinsky accuses," "Vishinsky warns," "Vishinsky denounces," "Vishinsky admonishes" those are the headlines that usually follow his speeches in the UN.

Friday Vishinsky will be in the spotlight again. What he says in the UN may still further dim, and may just possibly raise, hope of removing the H-bomb threat from the world.

"I've memorized the speech, Miss Kibbie—now bring me that list of people I'm supposed to call by their first names!"

### Cullen Won't Retract Invite To McCarthy

HOUSTON, April 7—UP—Oilman and philanthropist Hugh Roy Cullen refused Tuesday to retract an invitation to Sen. Joseph R. McCarthy (R-Wis.) to speak at a patriotic meeting April 21.

Cullen, on behalf of the Sons of the Republic of Texas, had invited McCarthy to make the principal speech on San Jacinto Day at the ballground of that name east of Houston where Texas won its independence from Mexico in 1836.

A petition signed by 1,571 students at the University of Texas asked Cullen to withdraw the invitation.

"My mind's made up," Cullen said, when the petition was presented. "In the invitation I asked him to make such a patriotic and non-political speech that even his worst enemies would have difficulty finding fault with it."

### Southwest Military Building Planned

WASHINGTON, April 7—UP—Projects in the Southwest included in the Defense Department's request to Congress for a \$896,796, 600 military construction program included:

ARKANSAS  
Air Force—Little Rock Air Force Base, \$12,338,000.

KANSAS  
Army—Fort Riley, \$7,413,000; Atchinson storage facility, Atchinson, \$1,155,000.

Air Force—Forbes Air Force Base, Topeka, \$7,553,000; Smoky Hill Air Force Base, Salina, \$304,000; Wichita Air Force Base, Wichita, \$2,479,000; Topeka Air Force Depot, Topeka, \$194,000.

MISSOURI  
Air Force—Sedalia Air Force Base, Knobloster, \$1,291,000.

OKLAHOMA  
Army—Fort Sill, \$2,592,000.  
Air Force—Altus Air Force Base, Altus, \$1,463,000; Tinker Air

Force Base, Oklahoma City, \$5,953,000.

TEXAS  
Army—Beaumont Army Hospital, \$391,000; Brooks Army Medical Center, \$1,129,000; Fort Bliss, \$13,453,000; Fort Hood, \$10,182,000; Navy—Alice, \$151,000; Naval Auxiliary Air Station, Chase Field, \$241,000; Naval Air Station, Corpus Christi, \$242,000; Naval Auxiliary Air Station, Kingsville, \$988,000; Farris Island, \$80,000.

Air Force—Abilene Air Force Base, \$14,075,000; Biggs Air Force Base, El Paso, \$1,144,000; Matagorda Island Air Force Range, \$607,000; Perrin Air Force Base, Sherman, \$432,000; Brooks Air Force Base, San Antonio, \$707,000.

Rep. Lloyd M. Bentsen Jr. (D-Tex.) reported the Air Force also wanted to spend \$2,035,000 at the Harlingen and \$489,000 at the Laredo Air Force Bases in South Texas. The construction was previously authorized by Congress but was re-programmed.

## City Council PTA Plans To Host District Convention Here April 12-17

**WHITE DEER** — (Special) — Mrs. C. L. Nicholson was hostess for the Busy Bee Home Demonstration Club in her home recently for a program on "House Plans," of which she was leader. Mrs. Gene McCormick had charge of the business meeting during which Mrs. Jay Phillips gave a report from the Finance Committee, giving suggestions for adding funds to treasury. Mrs. Phillips also gave a report on plans for the Community Pie Supper which will

be held here this Friday at 7:30 Entertainment and advertising were discussed by the group. Mrs. Dale Burch was recipient of the cup towels which are exchanged at each meeting. Most unusual towel was brought by Mrs. B. O. Bertrand, whose towel featured the April Fool. Mrs. Gene McCormick read the history of the Busy Bee Club. The history, which was compiled by Mrs. Richard Barnes and Mrs. Jay Phillips will be sent to "The Messenger," which is the official publication of the Texas Home Demonstration Association, and will be submitted at the county meeting in Panhandle, April 22.

Pamphlets and magazine articles were distributed by the program leader prior to the general discussion on "House Plans." Each member gave a brief summary of her article. Members present were Mrs. James Stroope, Jr., Jay Phillips, L. A. Puckett, Richard Barnes, Joe Wheeler, Carol Fearson, B. O. Bertrand, and the hostess, Mrs. Nicholson.

## Sausage Dish Fits Many Occasions

Sausage shortcake is one of those handy recipes that fits many occasions. Serve it for breakfast when you're having week-end guests or feature it for brunch. It's hearty enough to serve as the main dish for your evening meal too.

To make this shortcake, two layers of corn bread are put together with hot sausage between and on top. It's served with a cream gravy. The sausage is prepared in the usual way, or it may be cooked in your oven.

If cooked on top of your range, place the sausage links in a heavy frying-pan. Add 2 or 3 tablespoons of water, cover and cook slowly for about 10 minutes. At the end of this time, uncover and brown the sausages on all sides. To cook in the oven, use a roasting pan with a fitted rack. Place the sausages on the rack and cook in a 350 degree F. oven for about 25 minutes. Cooked by this method, turning the sausages is not necessary.

For another serving, the sausage links are added to a corn bread pudding. Serve this for a luncheon or for brunch. Prepare a corn bread batter and pour the mixture in a shallow well-greased baking dish. Place the sausage links on top and bake in a moderate oven, 350 degrees F. for 40 to 45 minutes. Serve with a fresh fruit salad for lunch, with baked apples for breakfast.

Because sausage links create a homelike atmosphere, look them over for numerous other servings. For instance, combine them with well-seasoned baked beans. With this you might have buttered spinach, a green pepper and cabbage salad, corn sticks and lemon meringue pie. Other combinations include sausages and apple wedges or rings, lima beans, omelet, whipped sweet potatoes or scalloped potatoes.

- Sausage-Corn Bread Shortcake**
- 2 pounds pork sausage links
  - 2 tablespoons water
  - 6 tablespoons flour
  - 3 cups milk
  - Salt and pepper
  - Corn Bread
- Place sausage links and water in frying-pan. Cover and cook slowly 8 to 10 minutes. Remove cover, continue cooking until sausage links are browned. Remove links. (Slice half of links about 1/4 inch thick to place between layers of hot corn bread.) Pour off all but 6 tablespoons of the drippings. Stir into drippings, add milk and cook, stirring constantly, until thickened. Season.
- Arrange sliced sausage links between layers of corn bread and pour half of gravy over sausage. Place whole sausage links on top second corn bread layer. Pour remaining gravy over links, 8 servings.
- Corn Bread
- 1 1/2 cups sifted enriched flour
  - 2 tablespoons sugar

By GAYNOR MADDOX  
NEA Food and Markets Editor

Try this beautiful cake for your Easter dinner dessert. Mrs. Floyd Larkin of Eatonville, Wash., showed us how to make it. She says it's "the Mayor's favorite" (Floyd Larkin is the mayor). He and his wife are also co-publishers of the local newspaper, the "Eatonville Dispatch" — except, of course, when Mrs. Larkin isn't baking a cake for his honor.

**Pineapple Refrigerator Cake**  
(Yield: 12 servings)

Three tablespoons cornstarch, 3/4 cup canned pineapple juice, 4 1/2 cups sifted confectioners' sugar, 3/4 cup margarine (1 1/2 sticks), 1/2 teaspoon grated lemon rind, 1/4 teaspoon salt, two 8-inch layer sponge cakes, 1 package ladyfingers, 1 cup drained, crushed pineapple; 1/2 cup heavy cream, whipped.

Mix cornstarch with pineapple juice. Cook until very thick, stirring constantly. Stir in 1/2 cup of the confectioners' sugar. Cream margarine until fluffy. Add the remaining confectioners' sugar alternately with the cooked mixture. Beat in lemon rind and salt.

Split the sponge cakes to make 4 layers. Place a layer in an 8 1/2-inch spring-foam pan. Line sides of the pan with ladyfingers, standing them between the cake and the sides of the pan. Spread the cake layer with 1/4 of the creamed pineapple mixture. Sprinkle with 1/3 cup of the drained, crushed pineapple.

2 tablespoons baking powder  
1 teaspoon salt  
1 1/2 cups corn meal  
3 eggs  
1 1/2 cups milk  
6 tablespoons melted lard or drippings

Grease two 7 x 11-inch baking pans. Sift together flour, sugar, baking powder, and salt; stir in corn meal. Add eggs, milk and melted lard. Beat just until smooth. Bake in a hot oven (425 degrees F.) 20 to 25 minutes.

ONE OF SPRING'S EARLY BIRDS (plus nest and candy eggs) was perched among the blossoms of the centerpiece at the Twentieth Century Club's guest-day coffee yesterday morning in the James Evans home at 1200 Charles. Shown at the table above are, left to right, Mrs. J. W. Graham Jr., Bill Davis and Mrs. Evans. President, Mrs. Jim Leverich, served approximately 35 people. Co-hostesses were Mrs. James Evans, Bill Davis, Malcolm Wyatt, John Frisby and Robert Karr. The club will have one more meeting, in the home of Mrs. Bill Davis, April 20, before the final activity of the season, a spring luncheon May 4, in the home of Mrs. Charles Hickman Jr. (News photo)

## With Frozen Dinners, Women In Kitchen May Have Frostbite Instead Of Burns

By CLAIRE COX  
NEW YORK —UP—Housewives all over the nation are thawing out dinner, instead of cooking it. The consumption of frozen foods — even whole frozen dinners on disposable plates — is growing so rapidly that frosted fingers soon may replace burns as a kitchen hazard.

Last year for example, nearly 3,500,000 pounds of frozen food were processed. This included every-day dishes like mashed potatoes, peas and carrots, and hamburgers; but there also were pink lemonade, caviar hors d'oeuvres, french toast and soup — just like mother's.

Southerners now can buy frosted crockneck squash, collard, mustard and turnip greens andokra out of season. Young housewives afraid to try their hands at fancy desserts can thaw out delicious eclairs and cheese or chocolate cake.

Or a homemaker can go global in her tastes with German fish filets, Danish trout, Pakistan turtle meat, Colombian and Peruvian shrimp, breaded fish sticks cooked in England, and smoked Scotch kipper.

With married women holding more than half the 19,000,000 jobs held by women and television becoming more popular every day, the Frozen Food Institute believes it has a gold mine in its quickly prepared dinners.

These include a turkey dinner for four, which can be thawed out and served between television programs. There even is a pat of butter on each slab of sweet potato in the package and frozen sliced tomatoes in the salad.

Chicken in parts for frying or broiling has been on the market for a long time, but an institute spokesman pointed to something new: frozen chicken parts for soup — necks, wings, backs, gizzards and hearts.

Tuna fish pot pie is one of the latest frozen foods, and there also are well-frozen pike, buttered beefsteak, pan-dressed catfish and frog legs fresh from Japan.

## RUTH MILLET

A harried housewife asks: "What can a woman do when her whole family are 'savers' — never wanting to part with anything from old clothes to old junk? Our house is bulging at the seams with the pet accumulations of a husband and three children who never want to part with anything."

A lot of housewives have that problem and if the truth were known most of them probably handle it in a somewhat sneaky but practical way. They put up with their family's saving ways as long as they can stand it. Then one day when they have the house to themselves they go on a throwing-away binge. The accumulated "junk" is disposed of before their families know what has happened.

That is probably the easiest — if not the most honorable — way out.

If you are too softhearted for that kind of drastic action you might try giving your family a deadline — by which time each member of the family would sort out and throw away — or else. The "or else" being that if the job wasn't done individually by that date, you would take the matter into your own hands.

There is one flaw to that plan, as you have probably already perceived.

That is, that even if the sorting is done, very little will eventually wind up in the trash can. As each article is appraised by its owner will come the thought, "That's still in pretty good shape" or "I'll find a use for that sometime" and back it will go in a drawer or on a shelf.

That's why most women eventually come to those throw-away programs — carefully picking a day when there's not a member of

## MATURE PARENT

By MRS. MURIEL LAWRENCE  
Mrs. F. is a member of a local club. Some days ago she promised its secretary to type a report. Then she forgot. When the secretary phoned, she made profuse apologies. But instead of accepting them, the secretary angrily criticized Mrs. F.'s "irresponsibility" — and hung up on her.

Mrs. F. is terribly upset. "Criticism always throws me," she writes, "and I've mullered over this one for days. I want to overcome this sensitivity to criticism for my children's sake."

Let's begin with some questions. Didn't Mrs. F. criticize herself for forgetfulness when she apologized to her club officer? Didn't she express her own indignation with it? Then why is she disturbed by someone else's condemnation of the very fault she herself condemned? That's pretty inconsistent, I think.

If I am right, we have in Mrs. F. a young woman who has been trained to falsify herself for others' approval. No wonder the secretary's attack has upset her.

If we have been taught to expect others' acceptance in exchange for our self-abasement, it is disturbing to discover that we have wallowed to no purpose. In such circumstances, we are bound to feel cheated of our rights.

How do we develop such sensitivity to criticism? Well, a child can accept his faults quietly only if we do. Suppose he lies. If we blast him with rage until he abases himself, our rage becomes far more important to him than truthfulness.

By the rage, we involve him, not in quiet, thoughtful realization of his fault, but in terror of falling to regain our good opinion. He apologizes, not because of genuine regret for his fault, but because he can't live with contempt.

So, if Mrs. F. is sensitive to criticism, I'd say it's because she's been infected by somebody's horror of her faults. As a result, she's probably been pretending that she hasn't any. And dealt with criticism by evading it with superficial apologies.

Now they're all. Criticism insists on her faultiness — and in response to it, up floods all her old, childish, helpless fear and contempt for faults.

We better get at this childish fear, lest we attract more criticism. Because we are pretty angry, I expect.

And not daring to accept this additional fault in ourselves, either, we express it in indirect ways that make constant trouble for us — such as in the kind of aggressive "forgetfulness" by which we were able to inconvenience our club secretary.

### Canadian PTA Will Present Play This Friday In High School

CANADIAN — (Special) — The Canadian Parent-Teachers Association will present its annual play Friday night, April 9, at the High School Auditorium. The play is titled "January Thaw," and is under the direction of Mrs. Mary Haddock. Prices for admission are 75 cents for adults and 50 cents for students. Reserved seat tickets will be \$1. The performance will begin at 8 p.m.

Those to appear in the performance are Dick Madson, Jennie Walters, Lyndell Hill, Barbara Hobby, Lois Carol King, School Superintendent A. H. Brazzale, Tess Wilkinson, J. B. Reid Jr., Cleo Coffey Jr., Bessie Mae Hext, J. C. Benson, Abe Haddock, and Nay Benich.

### Club Learns About Ball Point Painting

"New materials on the market," was given in answer to roll call at the meeting this week of the Southwesterners at the home of Mrs. Norman Fishery, 852 Crane. New materials, dycron, orlon celanese and boxer elastic were discussed. Following a business meeting, Mrs. Evert Revard gave a ball point painting demonstration. "This type of painting," she said, can be used on wood, glass, leather and plastic plus numerous other materials. It is simple, colorful and will not wash off. Each member participated in painting a scarf for the speaker.

Refreshments were served to Mrs. Buck Moore, Leonard Husted, Evert Revard, Olin Bridges, Murray Sealey, Kenneth Hamon, Herman Topper, Leon Moore, Otis Calcutt, Floyd Lassiter, Omer Bybee and Brooks Hubbard.

### Art And Civic Club Models Spring Outfits

Mrs. Ed Bryan was hostess to Lefora Art and Civic Club recently when "Spring Fashions" was the topic of study. Mrs. Marion Brown, leader, introduced Mrs. Raymond Jordan, who spoke on "Famous Labels," and Mrs. Maurice Upham who spoke on "New Fashions."

Roll call was answered by modeling a Spring outfit.

A letter of thanks was read for the club's donation to Girlstown. A donation was also given for the Heart Fund and Cancer Drive. Secret gifts were exchanged and a refreshment table served to Mrs. H. E. Arledge, Bob Brown, James Goetche, Earl Adkinson, Errol Truman, L. W. McLaughlin, R. H. Barron, Maurice Upham, L. R. Spence, Roy Boyd, Bob Casey, C. H. Keston, Jr., Archie Roberts, Howard Archer, J. E. Carter, Raymond Jordan, Marion Brown, Bill Watson and Bud Cumberland.

## SOCIAL CALENDAR

- WEDNESDAY
- 9:30—Circles one and two of First Methodist church meet in church parlor.
  - 9:30—Circles five and six of First Methodist church meet with Mrs. Doyle Osborne, 2017 N. Russell.
  - 2:30—Circle seven meet with Mrs. George Casey, 116 N. Houston.
  - 2:30—Circle eight meets in First Methodist Church parlor.
  - 7:00—O.E.S. Study Club meets with Miss Corlene Landrum, 1025 Mary Ellen.
  - 8:00—V.F.W. Auxiliary meets in VFW Hall.
- THURSDAY
- 10:00—Opening meeting of Amarillo district Presbyterial in sanctuary of First Presbyterian church.
  - 1:15—Woodrow Wilson Parent-Teachers Executive board meets in principal's office.
  - 1:30—Afternoon meeting of Presbyterial, at church.
  - 2:00—Woodrow Wilson P-TA meets in school auditorium.
  - 7:30—Night meeting of Presbyterial at church.
  - FRIDAY
  - 9:30—Closed meeting of Presbyterial in First Presbyterian church.

### Bell HD Members Learn Apron Making

Mrs. D. W. Swain and Mrs. T. D. Anderwald gave the Bell Home Demonstration club some tips on apron-making at its recent meeting in the home of Mrs. Lloyd Collins, west of town.

"In making aprons," Mrs. Swain said, "be sure to permit free action and keep them cool. For safety do not have pockets so large that they will catch on things. An apron should also be easy to put on and take off."

The training school on basket weaving, April 19, in the home of Miss Helen Dunlap and the district HD meeting in Panhandle the 22nd were announced. The club's next meeting will be held April 23 with Mrs. Nolan Cole.

The hostess served ice cream and cake to Mrs. Carl Smith, Ernest McKnight, T. B. Anderwald, D. W. Swain, Herabel Kelly and Roland Duer.

Most mothers have trouble teaching their infants to eat from a spoon. One way to make this easier is occasionally to feed Baby water on a spoon when he is only a few weeks old. Then the spoon will never seem strange to him. You may find a demitasse spoon more satisfactory than a regular baby spoon for early feedings.

## Actually Fade Premature Dry Skin Crow's-Feet

Make your dry skin much, much softer and you'll see those dry-skin crow's-feet at the corners of your eyes become much less noticeable. This you do with penetrating Lanolin Plus Liquid, the wonder-working concentrate of pure lanolin that is giving softer, younger looking skins to millions of women every day. Lanolin Plus Liquid performs its miracle by helping to replenish your skin's constantly diminishing supply of natural cholesterol, esters and other vital lubricants. So quickly effective is Lanolin Plus Liquid, you'll find your skin softer, and those unwanted, dry-skin wrinkles softened the very next morning after your first use of it. For an improved skin tomorrow, start with Lanolin Plus Liquid tonight. It's \$1 (plus tax) at all cosmetic counters.

\* If you spend \$1,000, you could not get more beauty help than you get from a \$1 (plus tax) bottle of Lanolin Plus Liquid.

## Lanolin Plus Liquid

- Lanolin Plus Liquid Make-Up \$1.00

### He's Hard To Figure, But ... Porfirio Rubirosa Is Not Much Of A Man By Hank's Standard

By HENRY McLEMORE  
It is high time that someone analyzed Porfirio Rubirosa. Either that or shoot him with a churn up to 100 on the straight-pencil.

Not being the owner of a 30-30 and being a bad shot in the bargain, I'll settle for analyzing him. If you ask what right I have to analyze him, to dissect his character and emotions, please let me point out that I was ranked third in my class in psychology as a sophomore, and once spent an hour on a psychiatrist's couch.

Before I began to analyze Porfirio I made quite a study of his quoted remarks and it is in them that he reveals himself. He was particularly frank as to his likes and dislikes in an article I read only a few days ago which dealt with why he and Barbara Hutton hadn't been able to make their marriage last even to the 90-day or wovon-place-mats anniversary. He said, as best as I can remember, that he was just wild about Barbara, thought she was beautiful, sweet, and had every chance of becoming one of the world's leading and most influential women, but that he placed racing automobiles and polo ponies

Titan, the largest satellite of Saturn, is the only moon in the solar system known to have an atmosphere. Titan's atmosphere is composed chiefly of methane gas.

away, has a low center of gravity, takes corners well, and has a nice outline and color, then he is of a lady who has only to add a night-watchman to be a mint.

Just from that I must judge him completely unlike most of heaven's male creatures. Did he ever think when he was charming Miss Barbara with his poise, his magnificent clothes, and his gentle wooing words, of putting wheels and a steering gear on Miss Hutton? Miss Hutton's actions in the past few years would indicate (to me, anyway) that she would put up with anything. So why didn't she Rubi make a racing machine of Miss Hutton? It is obvious that he didn't marry her to make a com-panion and a wife of her. Many birds, sandpiper, poison ivy, and

men treat their wives like dogs. So why not Rubi treating her as a racing machine? Now the polo part. Rubi's love for that means he is simply overwhelmed by the out-of-doors. If he isn't up when the dew is on the grass, when the rooster is yawning, when the leaves are first turning their faces toward the new sun, he is desperately unhappy.

No matter how the lady he chose for life feels about it, he has got to hot-foot it out of the house and breathe deeply of the fresh air.

Monday an 18-year-old girl came to the studio and Jigger barked again. This time, studio manager Robert Kent saw the girl and questioned her. Another man at the studio called police, who said the girl finally admitted she had taken the purses of five girls while they trained to become instructors.

The suspect, identified as Roseanne Sowards, said she had spent most of the money during a four-day hotel stay here.

Jigger, sent here by Cugat as a mascot, will henceforth be known, instead as the studio watchdog.

all the rest of Nature's wonderland. But we would give it up, even if it gave us the pailor of an undertaker's unwashed gloves, for the delight of being in such close company with millions and millions of dollars.

We'd fade away until our ribs stuck out like umbrella ribs just for the privilege of enjoying our nature in a dark bank, close to the cashier's cage. The leaves of trees are green, but they don't have the sweet greenness of dollars. But Rubirosa could still get up at dawn to leave for the bank. Just take a roundabout route that would get him there when the place was open for business. Actually, he is not my idea of much of a man. Not unless the world gets a new yardstick for judging the male of the species. He will always fight at 135, which is the lightweight weight.

### Skellytown Personals

By MRS. CLIFTON HANNA  
Mr. and Mrs. Willis Puckett fished at Conchas dam last week. Mr. and Mrs. Joe Wedge of the Crawford camp fished at Lake McClellan Sunday.

Mr. and Mrs. Walter Barrett, Monahans, have a new son. He is the grandchild of Mr. and Mrs. L. Barrett of the Skelly Schafer camp.

Harold Barrett left Saturday on a business trip to Omaha, Neb. J. C. Karlin, son of Mr. and Mrs. L. F. Karlin, visited his parents enroute to Amarillo to visit his wife who is in a hospital there.

Mr. and Mrs. Al Shubring and daughter, Myrna, accompanied Mrs. Shubring's parents, Mr. and Mrs. John Headquist, as far as Salina, Kan., on their return home to North Dakota.

Mr. and Mrs. Ben Lick and Mr. Kenneth Tietz were guests of the A. V. Beckworths at Surrency Saturday.

Guests of the J. M. Chapins Friday were Mrs. Chapin's brother and family, Mr. and Mrs. Ralph Jackson, of Borger.

Mr. and Mrs. W. L. Aubert Sr. of Sayre, Okla., were guests Friday of their son and family, Willis

### Two-Headed Tot Continues Gain

INDIANAPOLIS, April 7—UP—Indiana's two-headed baby has been out of an oxygen tent more than 24 hours and his condition is "satisfactory," a hospital spokesman revealed Tuesday.

The baby may be taken soon to its home in Petersburg, Ind., where it contracted pneumonia in its one-lunged weaker side several weeks ago.

Removal of the child from the oxygen tent indicated the baby "is improving steadily," the spokesman for Riley hospital said. Continued improvement would doubtless mean the infant will be taken home, he added.

A new work — "Televac" — is making its bid for inclusion in the "dictionary of Army terms," it refers to members of the Women's Army Corps specializing in communications.

FOR SAFE KEEPING—Anthony Congello, a state liquor store clerk, in Wheeling, W. Va., was locked in the store safe for two hours. The door accidentally locked while he was cleaning the safe. It took expert locksmith Alek Baranowski to free the "imprisoned" clerk.

## Choppy Locks Newest Hair Style Craze

NEW YORK, April 7—UP—The newest beauty craze is a choppy hair cut. The jagged, close-cropped locks adopted by Audrey Hepburn as the warty heroine in "Ondine" and by explosive Renee Jeanmaire, the French ballet dancer starred in "The Girl in Pink Tights," threaten to become a national fad. Hair stylists say the "little boy" cut is being forced on them by popular demand. The trick, from a stylist's viewpoint, is to make the cut look as if the customer had done it herself with the hedge clippers.

every other week by Michel, a leading hair stylist, and washes it herself every day, dousing it liberally with baby oil while still wet so it lies flat and shiny. Michel Surprised "I didn't dream it would start a trend," sighed Michel, a man who takes pride in making his customers look beautiful. "We try to vary it with other women. So many come in now asking to copy Jeanmaire."

few curls around her face if she wishes. She usually appears with the bangs brushed forward in a straight, jagged fringe, however. Her cut also is brushed forward from the crown of her head to give that new, flat-topped look. Men have been overheard to describe haircuts copied from these two young Broadway sensations as "peeled onions, barber school bobs and hatchet jobs." It's only undoubted advantage is seasonal. It's real cool.

"When he eats alone he always calls me 'Toots'—today it's 'young lady!'"

Miss Hepburn, a remote and independent beauty who won the year's two top dramatic awards, does cut her hair herself. Her academy award winning performance as a princess in "Roman Holiday" was filmed when she had fluffy bangs and a soft bob. Then she came East to star in "Ondine," a part that won her the Antonette Perry Award as the year's top stage actress, and off went the curls. Renee Jeanmaire gets the credit (or the blame, depending on one's point of view) for getting there first with the least hair. She cut hers off four years ago to dance the unconventional and sexy little role in "Carmen" in Roland Petit's Ballet de Paris. "Now I don't want to let it grow," Jeanmaire said. "I am recognized by my haircut."

SUBMARINE SHERIFF—Al Locke, Lyon County, Mo., sheriff, hugs the bottom of the swimming pool at Emporia State Teachers College during a recent demonstration of his new springboard suit. The suit, which is an underwater rescue or body recovery device, includes a face mask, a tank of compressed air to serve the diver, goggles, weight belt, and "frogman" fins for the feet. Sheriff Locke demonstrated the outfit in eight feet of water to Emporia firemen and Emporia State students. The device will be used to rescue swimmers in distress and to recover bodies.

## Ford's Idea Of Soybean Auto Was Never Realized

DETROIT, April 7—UP—Henry Ford tried for years to make an automobile out of soybeans, but the chemist he hired to do it has turned them into whipped cream instead. Ford, who died seven years ago Wednesday, sank millions of dollars into a research project aimed at making car bodies out of a soybean plastic. From his laboratories he got soybean milk, soybean pudding, soybean ice cream, soybean "wood," and a host of other concoctions. But no plastic fenders. One chemist who mashed, cooked and squeezed soybeans for years under Ford's direction finally made the project pay off. He now runs a \$1 million a year business putting up soybean "whipped cream" in pressurized cans. Started in 1928 The chemist, Robert Smith, 41, estimates that Ford spent between \$5 million and \$10 million in direct research on soybeans. He started late in the 1920's, boldly predicting he would "grow automobiles from the soil." By 1935, Ford had 12,000 acres of Michigan farmland planted in soybeans. He wanted his scientists to have a plentiful supply. By mixing soybean mash with formaldehyde, chemists came up with a durable plastic. It was used for a few electrical insulation parts in automobiles, but the soybean body remained a dream.

By-products began to flow—initially—from the laboratories. The first soybean "milk" made a big hit with Ford. "It was Mr. Ford's idea that it would be cheaper to by-pass the cow than go through her," Smith said. "In some ways he was right." To prove his point the auto magnate would drink nothing but soybean milk with his meals. During World War II, chefs in Ford caterias used 150 gallons of soybean milk a day. In Ersatz Ice Cream — Ford employees were dished up 400 pounds a day of an ersatz ice cream made out of soybeans. In 1943, Smith discovered that soybean milk could be whipped into a tasty substitute for whipped cream. With Ford's approval he formed the "Delsoy" company with two dairymen, Eric Swanson and Harvey Whitehouse, and they went into production. Business limped along for several years before the product caught the public fancy. Now the soybean topping is distributed throughout the Midwest and the company plans to open a branch in Los Angeles. Before his death, Ford did build a plastic car. But it was made of phenol plastic, extracted from coal tar. The only soybeans that got near the car were the oil used for thinner in the paint job.

## A&P Forecasts Coffee Price Rise

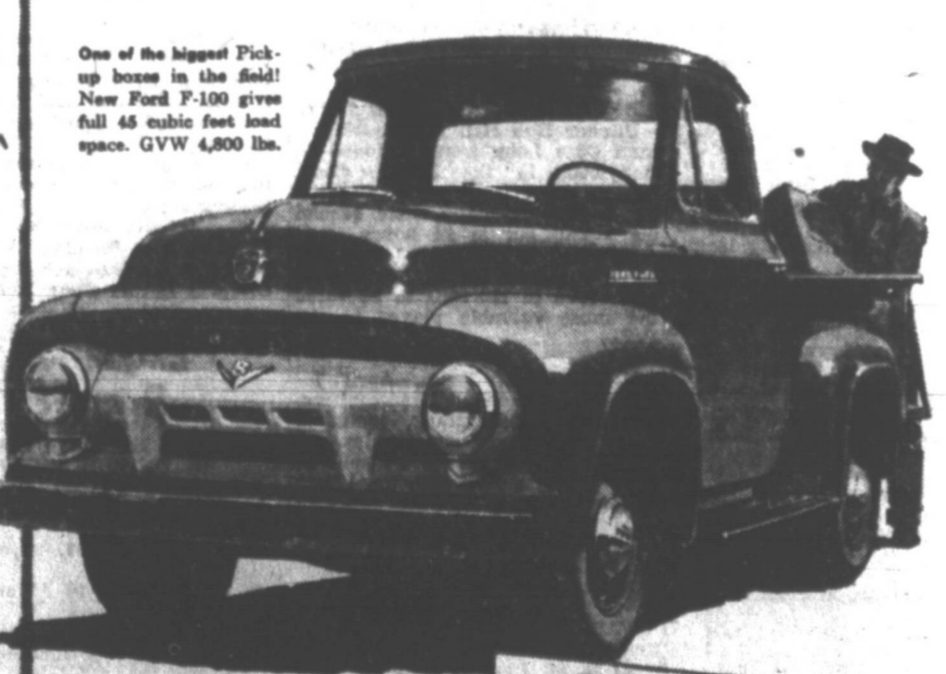

WASHINGTON, April 7—UP—The Atlantic & Pacific Tea Co. Tuesday forecast "further substantial" increases in coffee prices which will raise the price of the cheapest grade above \$1.30 a pound against \$1.09 now. Francis M. Kurtz, director of A&P subsidiaries, made the prediction before a Senate banking subcommittee. A&P announced Monday it was raising coffee prices five cents a pound. Meanwhile, another of the nation's large retail food chains — Safeway Stores, Inc. — reported consumer resistance against soaring coffee prices with coffee sales off 18 per cent in March. Representatives of A&P, Safeway and Kroger Co. said their retail coffee prices have not jumped as fast as the price of green coffee beans from South America. These higher green bean prices presumably would be felt fully at the consumer level when present roasting stocks are exhausted. Make wallpaper easier to apply, and also prevent the hardening that causes it to crack and peel, by adding a small amount of soap to the paste bucket.

## Texas Grocery Chain Announces Milk Price Drop

By UNITED PRESS A chain grocery Tuesday announced one-cent-a-quart milk price reductions at 113 of its retail outlets in Texas, in line with a reduction of prices being paid North Texas producers. East Cliff, division manager for Safeway stores, said at Dallas the new retail prices will be effective in the chain's 48 retail outlets in the Dallas - Fort Worth area, Wednesday, and the remaining 65 stores in the division on Thursday. The rest of the Safeway division is bounded by Texarkana, Jacksonville, Taylor, Austin, Abilene and San Angelo. "The (retail) reduction will pass along to the consumer the announced reduction to the producer under the North Texas federal milk marketing order," Cliff said at Dallas. Dairy farmers in the area were getting a cent a quart less because of a federal milk marketing order setting April prices at \$5.26 a hundred pounds. Byford Bain, North Texas milk market administrator, said the price would drop another penny a quart next month as a result of a cut in partly supports of milk products.

# Smoothest handling, easiest working Pickup ever built — new FORD!

- NEW POWER BRAKES!**  
Only Ford 1/2-tonners have them! Stop up to 25% easier! New Ford vacuum-boosted Power Braking is available at worthwhile extra cost in all Ford 1/2-tonners!
- NOW FORDOMATIC DRIVE!**  
Fully automatic—no clutching! Faster getaway! Cuts time on stop-go jobs! Now available at low extra cost in Ford Pickups and all Ford light duty series through one-tonners! Takes over 90% of the work out of driving!
- Or, choose Ford Overdrive—maintains road speed at lower engine speed. Gas savings up to 15%!
- NEW CONCENTRATED POWER!**  
V-8 or Six! New Overhead-Valve, Low-Friction design! World's most powerful Pickup! With new 130-h.p. Power-King V-8, the new Ford F-100 Pickup is the most powerful low-cost pickup ever built!
- Or, choose new 115-h.p. Cost-Clipper Six—world's most efficient 6-cylinder truck engine in its class!
- NEW DRIVERIZED CAB!**  
Adds driver comfort, cuts driver fatigue, for faster, safer working! New Ford Driverized Cabs have new woven plastic seat upholstery—longer-wearing, "breathes" like cloth for year-round comfort! King-size door openings. Exclusive seat shock absorbers iron out bumps.

One of the biggest Pickup boxes in the field! New Ford F-100 gives full 48 cubic feet load space. GVW 4,800 lbs.

Why drive a "down payment"? Trade for a new Triple Economy Truck!

COME IN TODAY!

**TRIPLE ECONOMY!**  
Only FORD gives you so much in all these essentials of lower-cost trucking!  
1. Only Ford gives you gas-saving Low-Friction, overhead-valve, high-compression, deep-block engines in ALL truck models! Five great engines in 115 to 170 h.p. V-8's and Six 2. New time and money every trip! 3-man Driverized Cab! 3. Low curb weights, big payload capacities! New Ford-built, 6-wheeler giants, new Ford Cab Forward Rig ages!

Emergency Spending Bill Awaits Shivers' Signing

AUSTIN, April 7—UP—All parts production tax, boosted from 5.75 per cent of the wellhead to 8.05 per cent of the wellhead...

San Diego, Tex., April 7—UP—Observers said Wednesday the groundwork had been laid for an immediate and direct appeal of the dismissal of the Duval county grand jury by temporary 7th District Judge A. S. Broadfoot.

The administration lacked only one vote in the Senate Tuesday to pass the tax bill on final reading. The tally was 24 to 7, but it took a four-fifths majority to suspend the rules and thus final passage of the bill was delayed for a day.

County Judges Name Officers

FORT WORTH, April 7—UP—Judge Dale Harbin of Stephenville was elected president of the West Texas County Judges and Commissioners Association Tuesday.

Attorneys W. J. Baldwin and Bruce Volaw appeared Tuesday before Broadfoot to ask for an immediate hearing on their motion for re-instatement of the jurors and the jury commission which selected them. The 26-page motion was filed Monday.

Trio Killed Hanging Wash

FORT WORTH, April 6—UP—Three persons—including a mother and her married daughter—were found shot to death Tuesday in the backyard of their North Side Fort Worth home where they were putting out a washing.

House Rapidly Approves Shivers' Spending Bills

AUSTIN, April 7—UP—The House gave rapid-fire approval Tuesday to Gov. Allan Shivers' spending proposals providing pay raises for teachers and state employees, and an \$11 million state building improvement program.

Teach Cancer Facts If cancer is detected while limited to a single area, the patient usually can be saved, the American Cancer Society points out.

# 'Home Of Safety' Built In Cleveland

CLEVELAND — UP— There's a home in suburban Cleveland where you can't fall downstairs, slip on an icy driveway, crack your head against an open cabinet door or fall out the window.

"Home of Safety" is what its builders call it.

"They've done everything possible to eliminate hazards, which the National Safety Council estimates takes 35,000 lives each year.

When Expan-Homes Inc. planned the house, management tried to get rid of everything that would trip, stab, shock or burn the housewife and her family.

"They started with the stairs. Or rather, they started without them. The H. O. S. doesn't have a step in it. There's no basement and the front door is at the end of a ramp.

The ramp would have created a fine slide for the children in the winter and also a skid row for unwitting guests. So the builders skid-proofed the walk by roughing up the surface and ice-proofed it by burying electric heating cables in it and in the driveway.

One of the designers gashed his head on an open kitchen cabinet door in his home one evening and thereupon decided that only sliding cabinet doors would be installed. And so they were.

Shock-proof heated glass in the ceiling keeps room and occupants warm by radiation. The natural principle that heated air rises is likely to be confusing — but the builders say their system has nothing to do with air movement.

The children, of course, are more adept at getting into trouble than their elders. But the builders say it would take a mighty effort for the youngsters to fall out a window. Windows are set high enough to be practically out of reach of children and they swing out instead of sliding up.

An agile child can take a tumble but he'll have to work hard at it. You can still have accidents in the home of safety. The bottom of

## Rodeo Directors To Plan '54 Event

The Top of Texas Rodeo association board of directors will meet at 7:30 p.m. Thursday in the Chamber of Commerce office to make preliminary plans for this year's rodeo, according to Paul Crouch, president.

A contract already has been consummated with "Goat" Mayo, Fort Worth, for furnishing show stock Aug. 2-7. This will be the tenth consecutive year Mayo has provided stock.

The Kid Pony show, slated for Aug. 2, will be held both afternoon and night. Preliminaries will be run off in an afternoon performance, with the finals set for that night, Crouch said.

## Bayou Queen Is Legend Among Louisiana Oilmen

By JEAN LIPSCOMB  
NEW ORLEANS — UP— A legend about a "Bayou Queen" is spreading through the marshlands of Louisiana.

This queen is different. Her usual attire is a pair of jeans. And her "subjects" are the bristly bearded he-men of the oil barges and rigs.

The queen is Pat O'Neal, a striking blonde of 25, doing a bang-up job in a man's world. In three years she has parlayed a \$3,000 oil supply business into one ready to be incorporated at \$25,000.

The oilmen themselves have named the five-foot, three-inch blonde queen of the Bayous.

Jeanne Well Fitted  
She usually dresses in a well-fitted pair of blue jeans, a colorful cotton blouse, wide belt and low shoes. She never wears a hat on her pony-tail hair-do, now her trademark from the Harvey Canal west of New Orleans to the tip of Delta country.

Pat is the sole owner of a company which supplies paints, filters, batteries and even warehouses.

A native of Montgomery, Ala., Pat grew up in Hawaii with her aunt and uncle, an Army officer. She copped two beauty titles before she returned to the states—

## Suzan Ball Hopes To Keep Promise

By ALINE MOSBY  
HOLLYWOOD, April 7—UP—Actress Dick Long picked out striped trousers for his wedding Sunday and, whether or not the bride wears crutches, "it will be the happiest day in our lives."

Beautiful Suzan Ball, who lost her leg to cancer three months ago, said she hoped to walk down the aisle without a limp on her new artificial limb.

But she conservatively added, "she may have the new leg or she might have to go on crutches."

"She might not be well enough trained to walk down the aisle," he explained. "But it doesn't matter."

"It was an unfortunate thing. It's a tragedy she lost her leg, but you can't make a tragedy out of it."

"It doesn't make any difference how I feel about her. When people have sincere feeling about one another, they prove it by their actions."

Suzan will wear a traditional white wedding gown with a long veil. The couple will repeat their marriage vows at the picturesque Monte-Cito Presbyterian church near Santa Barbara, 100 miles north of the cinema city. A small group of friends and relatives were invited to the double-ring ceremony and a nuptial banquet.

Long said they plan a honeymoon in San Francisco.

Katherine Biddle, Suzan's nurse during her recuperation from the amputation, will be matron of honor. Long's brother, student Philip Long, will be best man.

Dick, 26, and Suzan, 26, have planned the marriage since before her operation, he said. They met at Universal-International Studio, where both are under contract.

"I've never seen Suzan any other way but this," he said. "She's always had this trouble with her leg ever since I knew her. It was never a clear-cut issue, even when we met, whether she would keep the leg."

## Shrine Play Slated Tonight

"A Rose Upon the Altar," a play presented by the Khiva Shrine degree team of Amarillo, is scheduled at 7:30 p.m. today in the Pampa Masonic lodge.

An estimated 200 persons are expected to be on hand for the affair, according to E. E. Shelhamer, worshipful master. Area members have been invited.

"It's something every Mason should see," Shelhamer said today.

## Execution Stayed

AUSTIN, April 7 —UP—White Lee Gage, convicted of rape and sentenced to the electric chair in Fort Worth, won 15-day stay of executive Tuesday from Gov. Allan Shivers.

Shivers, acting on a recommendation by the Board of Pardons and Paroles, moved Gage's execution at the Huntsville State Prison from April 8 to April 23, so his attorneys could carry out an appeal.

## Farm Federation Plans TV Information Shows

WASHINGTON, April 7—UP—The nation's largest farm organization is thinking about moving to the television screen to "get our story before the people."

A spokesman for the American Farm Bureau Federation, said President Allan B. Kline is "quite enthusiastic" about the possibilities of beaming AFBF policies on nationwide TV programs.

He said the TV idea, now under study in the AFBF Washington staff, will be taken up with the bureau's board of directors at a meeting "before the year is out."

The move could provide the

## 'Lindy' Named To AF Study Commission

WASHINGTON, April 7—UP—Air Secretary Harold E. Talbot Tuesday named Charles A. Lindbergh and two other civilians to a five-member commission which will propose a site for the new Air Force Academy.

The other civilian members of the commission are Virgil M. Hancher, president of the University of Iowa, and Merrill C. Meigs, vice president of the Hearst Corp., Chicago, and World War II consultant on aviation to the War Production Board.

Military members of the commission, whose names already had been made public, are Gen. Carl Spaatz, retired, first chief of staff of the Air Force, and Lt. Gen. Hubert R. Harmon, special assistant to Gen. Nathan F. Twining, air chief of staff, on Air Force Academy matters.

Lindbergh, who has been a frequent adviser to the Air Force was confirmed by the Senate last week as a brigadier general in the air reserve, a post to which President Eisenhower recently nominated him.

Under a law signed by Mr. Eisenhower last week, the new air academy will be selected by the air secretary and the selection will not be subject to congressional approval.

Twenty-three of 41 persons from the Adobe Walls Scout Council expected to be on hand for the annual Region 9 meeting in Houston this month at Pampa.

Session is slated for April 23-24, according to E. E. Shelhamer, promotion chairman. Region 9 includes Texas, Oklahoma and New Mexico.

Five planes have been donated for the trip. Shelhamer said today. Donators are Haliburton Oil Well Cementing Company, Southwestern Public Service, Cabot Companies, Shamrock Oil and Gas Corporation and Panhandle Lumber Company.

Pampans scheduled to fly down for the meeting are Mr. and Mrs. Don Cain, Mr. and Mrs. W. B. Weathered, E. Roy Smith, Mr. and Mrs. George Newberry, Dr. and Mrs. J. L. Chase, Dr. and Mrs. J. B. Vesle Jr., John Campbell, Mr. and Mrs. Paul Beisenherz, Mr. and Mrs. Joe Gordon, Mr. and Mrs. Frank Fala, Mr. and Mrs. Rufe Jordan, Mr. and Mrs. Shelhamer and C. A. (Lefty) Huff.

## West Texas Pastures In Bad Way

DALLAS, April 7—UP—The pasture situation in West Texas is "bleak," and drought conditions along the lines of the Texas and Pacific Railway generally are worse now than they were a year ago.

C. B. Senter, agricultural agent for the T&P reported Tuesday the only exceptions to the dismal picture were in certain areas of East Texas, where there has been enough rain.

Senter said only good, soaking rains could bring the pastures back to life.

Meanwhile, at Fort Worth, the West Texas County Judges and Commissioners Association called on state and federal authorities to give what aid is needed in the western part of the state.

The association's resolutions committee considered, but rejected, a detailed request for specific types of drought aid.

The crop report said most Texas

## Americanization Class To Recess

The Pampa Lions club's Americanization class will recess for four months this summer.

Homer Craig, course instructor late this morning made the announcement, pointing out that the recess would last from the end of May till Oct. 1.

## Pampa Contingent To Scout Meeting Tops Region Nine

WASHINGTON, April 7—UP—Air Secretary Harold E. Talbot Tuesday named Charles A. Lindbergh and two other civilians to a five-member commission which will propose a site for the new Air Force Academy.

The other civilian members of the commission are Virgil M. Hancher, president of the University of Iowa, and Merrill C. Meigs, vice president of the Hearst Corp., Chicago, and World War II consultant on aviation to the War Production Board.

Military members of the commission, whose names already had been made public, are Gen. Carl Spaatz, retired, first chief of staff of the Air Force, and Lt. Gen. Hubert R. Harmon, special assistant to Gen. Nathan F. Twining, air chief of staff, on Air Force Academy matters.

Lindbergh, who has been a frequent adviser to the Air Force was confirmed by the Senate last week as a brigadier general in the air reserve, a post to which President Eisenhower recently nominated him.

Under a law signed by Mr. Eisenhower last week, the new air academy will be selected by the air secretary and the selection will not be subject to congressional approval.

Twenty-three of 41 persons from the Adobe Walls Scout Council expected to be on hand for the annual Region 9 meeting in Houston this month at Pampa.

Session is slated for April 23-24, according to E. E. Shelhamer, promotion chairman. Region 9 includes Texas, Oklahoma and New Mexico.

**2-Way RELIEF for Dry Eczema Itch**

When itching persists due to lack of natural skin oils, Resinol Ointment gives quick relief. Rich in lanolin, it oils and softens dry skin as its size medicants soothe itchy itching. 2-Way relief that brings long-lasting comfort.
