JOHN SCHOOLFIELD ... two sons outrank him

Youth Has A Pal In John Schoolfield

By ED NASH Pampa News Staff Writer John Schoolfield, who has always been interested in kids and sports, keeps active nowadays in the Pampa Optimist-Boys Club baseball and boxing programs, in the Boy Scouts and in the Pampa Rifle Club.

Death Cause Questioned In Sheppard Trial

CLEVELAND, Nov. 8—UP—Not who—but what—killed Marilyn Sheppard was the courtroom topic Monday as the murder trial of her osteopath—surgeon husband entered its fourth week.

Chief defense counsel William J. Corrigan pecked away at the premise the state's medical examiner who made the post mortem examination of the body got it all wrong when he reported Mrs. Sheppard was killed by a series of skull-cracking blows from a heavy instrument.

Aly's Custody Plea Rejected

WHITE PLAINS, N. Y., Nov. 8—UP—The Westchester county children's court Monday turned down the application of Moslem Prince Aly Khan to re-open the question of custody of his daughter, Yasmin. The child is now with her mother, Rita Hayworth.

Children's Court Judge George W. Smyth announced that he had denied Aly's motion to discuss the care, upbringing, education and custody of his four-year-old only daughter.

McCarthy Expects Defeat As Senate 'Trial' Begins

Moscow Sent Sharp Protest

Russ Down U.S. Bomber Over Japan; One Killed

TOKYO, Nov. 8—UP—The pilot of an American B-29 shot down by Soviet MIGs Sunday with the loss of one life drew a sharp rebuke Monday from his commanding officer for not shooting back.

Feith's commanding officer, Col. Albert Welch of Dalton City, Ill., said "These boys are to fire if fired upon. There must have been some misunderstanding. I believe that future incidents of this sort will be given a different reaction. We (Welch and Feith) are going to have a talk."

The State Department dispatched a sharp protest to the U. S. embassy in Moscow late Sunday for delivery to the Soviet foreign office. Although the contents were not revealed, it was presumed the United States asked for an explanation and demanded damages.

Denon County, but came by way of Oklahoma (Wilson) to Pampa where he was reared and has stayed ever since.

Calling himself a salesman for Lynn Boyd Lumber Co.—others say he is the office manager—Schoolfield, a dark-haired man who wears glasses and checkered shirts, manages to set aside time for coaching kid boxing teams, being acting president of the PONY League and serving as Explorer Post 14 committee chairman and rifle club vice president—all of them having to do with Pampa's boys.

A Scouting Family Schoolfield, who played trombone in the first Pampa Harvester Band (1930), should be used to boys. He's got three of his own: John, Jr., 19, Bob, 18, and Lynn, 11.

And, to top it off, though his three sons all play musical instruments in school bands, none of them plays a trombone like his father. John, Jr., plays clarinet, Bob, the bass; and Lynn, trumpet.

Boost The Girls, Too One of his most remembered experiences was taking the all-star PONY League team to Hobbs, N. M., last summer. "We lost two games by one run," he recalls.

Street Light Repairs Made A Southwestern Public Service Company crew was at work early this morning repairing a defective portion of a "series" circuit which Sunday caused street lights on the south side of Cuyler to "act up."

Gordon Lyons, company manager, said the trouble lay between two "grounds," which explains why the lights were on in the north and south parts of Cuyler's east side—only the mid-section was out. When the lights were on dim, that was caused by only one "ground" being out of operation, he added.

sun and sent the four-engine plane down in flames. 10 Parachute to Safety Ten of the 11 crewmen aboard parachuted to safety. One unidentified American was found dead. It was believed he was injured fatally when he fell against a cliff.

Gen. John E. Hull, supreme American commander in the Far East, denounced Sunday's MIG attack. "Any claim by the Soviet attackers that the plane was over what they consider their territory is completely negated by the fall of the plane and of the survivors who parachuted from it on Hokkaido soil," Hull said.

The attack occurred shortly before Soviet Premier Georgi M. Malenkov, at a lavish reception for foreign diplomats in Moscow, spoke of peace and of friendship with the United States.

AEC Decides Dixon-Yates Fate Today

WASHINGTON, Nov. 8—UP—The controversial Dixon-Yates contract went before the Atomic Energy Commission Monday for final approval and possible signing after months of heated dispute.

Chairman W. Sterling Cole (R-N.Y.) called the Senate House Atomic Energy committee into secret session to receive a report from Adm. Lewis L. Strauss, chairman, on the commission's action.

The congressional committee planned to resume hearings later Monday if the commission comes up with a final, legally binding contract.

500 Baptist Women In Conference Here

Some 500 District 10 members of the Women's Missionary Union met today in the Junior High School Auditorium to celebrate their organization's 75th anniversary in the state of Texas, and hear state WMU president, Mrs. R. L. Mathis, speak on the subject, "We Must Prevail."

Rev. Winifred Moore, pastor of the First Baptist Church, Borger, delivered an address on the 75th jubilee's second theme, "They Did Not Fall." Presiding over the meeting was the district president, Mrs. Tom Carmichael, Amarillo.

The missionary message was given by Mrs. John Parker, Fort Worth, on the progress of missionary work in Chile. A pageant was presented by 12 women in period costumes of the 1880s depicting the early days of the group, with Mrs. Frank Ellis portraying Mrs. Fannie Breedlove Davis, one of the group's founders.

U.S. senators in Washington, Senate Republican leader William F. Knowland, who has called for a diplomatic break with Russia, said there will be more American planes shot down unless more drastic action is taken. Feith said he was "certain" the MIGs flew into Japanese territory to attack his plane.

Co-pilot 1st Lt. David N. Oliver, Corvallis, Ore., backed up Feith's statement. He said at one time the MIGs were 15 miles from their own territory. Radar trackings confirmed their charges.

President Waxes Optimistic Concerning World Tranquility

BOSTON, Nov. 8—UP—President Eisenhower said Monday the possibility of a lasting world peace "is more promising than at any time in recent years."

Mr. Eisenhower made his optimistic appraisal on the chances for peace before the National Council of Catholic Women meeting here. The President flew to Boston from Washington Monday morning and planned to return immediately after his appearance.

He spoke from a prepared text which apparently was written prior to the news that two Russian MIG fighters shot down an American B-29 photo-mapping plane Sunday off northern Japan.

Defective Heater Causes 10 Deaths

NEW YORK, Nov. 8—UP—Health department officials Monday blamed a defective water heater for the deaths of 10 persons, including six children.

Jerome Trichter, assistant health commissioner, said the second-hand water heater in the three-room apartment where the victims died Sunday had generated enough poisonous fumes "to kill a squad of men in half an hour."

Trichter said the possibility of "negligence" would be referred to the district attorney's office.

Washington, Nov. 8—UP—The Senate launched its historic session on Sen. Joseph R. McCarthy's censure Monday with the senator predicting his own defeat because Democrats and liberal Republicans are "out to get me."

McCarthy said he expects the Republican leadership to side with him in the fateful debate over his conduct as a senator. But in his opinion this won't stop the censure drive. He charged that the session will definitely be a "lynching bee."

A key Senate source said Monday that he doesn't know of any Democrats who will vote against censure when the showdown comes. And McCarthy's friends said he expects only about 19 votes.

Senate Republican leader William F. Knowland called the upper chamber to order at noon to swear in new senators, to receive a formal committee recommendation that McCarthy be censured, and in general to organize for what is expected to be one of the most spectacular debates in Senate history.

Cotton Crop Estimate Up

WASHINGTON, Nov. 8—UP—The Agriculture Department Monday estimated farmers will produce a 13,206,000-bale cotton crop this year, up 895,000 bales from last month's forecast.

The estimate, based on conditions on Nov. 1 when the crop was almost all picked, compares with production last year of 16,465,000 bales and 10-year average output of 12,488,000 bales.

Head Start on Arguments The censure argument got off to a head start Sunday when Sen. McCarthy, Francis Case (R-S. D.) and Edwin C. Johnson (D-Colo.), A. S. Mike Monroney (D-Okla.), and Everett M. Dirksen (R-Ill.) sounded off in various television interviews.

McCarthy said he has received "no commitments from any Republican" but "I don't think the Republican leadership is going to go along with this. I hope not..." Knowland said Monday, "I refuse to commit myself." He indicated (See TRIAL, Page 3)

Says Session Is A 'Lynching Bee'

WASHINGTON, Nov. 8—UP—The Senate launched its historic session on Sen. Joseph R. McCarthy's censure Monday with the senator predicting his own defeat because Democrats and liberal Republicans are "out to get me."

McCarthy said he expects the Republican leadership to side with him in the fateful debate over his conduct as a senator. But in his opinion this won't stop the censure drive. He charged that the session will definitely be a "lynching bee."

A key Senate source said Monday that he doesn't know of any Democrats who will vote against censure when the showdown comes. And McCarthy's friends said he expects only about 19 votes.

Senate Republican leader William F. Knowland called the upper chamber to order at noon to swear in new senators, to receive a formal committee recommendation that McCarthy be censured, and in general to organize for what is expected to be one of the most spectacular debates in Senate history.

To Meet Briefly The Senate planned to meet only briefly Monday and to spend Tuesday—eulogizing four senators who died recently. The full-fledged censure debate will get underway Wednesday.

Sen. Arthur V. Watkins (R-Utah) chairman of a special censure committee, arranged to present the issue to the Senate formally Monday by introducing a resolution recommending McCarthy's rebuke.

The resolution is based on a 68-page report in which the bipartisan, six-man committee unanimously urged McCarthy's censure.

His "contemptuous" refusal to explain whether he misused anti-Communist funds, his refusal to appear before a subcommittee investigating his finances in 1951-52, his "contumacious" treatment of a subcommittee member—Sen. Robert C. Hendrickson (R-N. J.), and his "reprehensible" treatment of Brig. Gen. Ralph W. Zwicker.

As the special session got underway, five new senators elected Tuesday or appointed after the Senate recessed in August lined up to be sworn in. Seven lame ducks who will not be back in January also were present. Despite the new faces, however, the standings remained as they were before the election: 49 Republicans, 46 Democrats, one Independent.

Traffic court judges, he said, must protect their courts from becoming a "dumping ground for watered-down DWI cases." The conference, attended by justices of the peace, county judges and county attorneys, municipal judges and city attorneys, is sponsored by eight organizations, including the American Bar Association, the attorney general's department, the League of Municipalities and the Texas Department of Public Safety.

Absenteeism Delays County Vote Canvass

The Gray County Commissioners' Court, which was to have canvassed Tuesday's general election results this morning, has recessed until 10 a.m. Wednesday.

Only two of the five men on the court—Commissioners W. E. (Billy) Jarvis and O. L. Tibbets—were on hand this morning in the County Courtroom for the canvass which the 1954 Texas Election Laws state should be held Monday after the election.

A quorum, of course, must be present to hold an official court session. County Judge J. B. McGuire, Jr., and Commissioners Paul Bowers and Arlie Carpenter today were reported out of town.

Also on the Wednesday court agenda is the payment of bills, which this time will include an estimated 175 checks for election officials who worked the 18 voting precincts in the county.

Drunk Driver Jailing Urged

AUSTIN, Nov. 8—UP—Attorney General John Ben Sheppard urged Monday that traffic courts not become "a legal dentist's office for pulling the teeth" from the driving while intoxicated law.

Sheppard, addressing a statewide conference on traffic courts, pointed out that under a recent appeals court ruling a jail sentence is mandatory in DWI cases. He expressed fear that where the jail sentence is not sought by prosecuting authorities, drunk drivers would be charged merely with reckless driving.

McCarthy said he has received "no commitments from any Republican" but "I don't think the Republican leadership is going to go along with this. I hope not..." Knowland said Monday, "I refuse to commit myself." He indicated (See TRIAL, Page 3)

Actor Humphrey Bogart, left, and two technicians received cuts from flying glass. Actor Frederic March is next to Mrs. Roosevelt, and Production Chief Don Hartman is in background.

Violent Deaths Total 27 Over Week End In Texas

By UNITED PRESS The week end toll of violent deaths in Texas mounted to at least 27 Monday, with traffic and fires costing the most lives. Traffic smashups over the state accounted for at least 21 deaths, while fires took the lives of five. A 50-year-old Negro and his wife, Mr. and Mrs. Wilbert Melenson, were burned to death when fire destroyed their home near Liberty early Sunday. Two small children died in a fire that destroyed their home Friday at Brazoria, and a Beach Grove man died of burns received when his car crashed and caught fire. Houston recorded its 76th traffic fatality of the year with the death of George Freeman, 52, who was hit by a car as he crossed the street near his home. At Dayton, Tex., Mrs. Agnes Savoy, 53, of Cameron, La., was fatally injured in a head-on crash of two vehicles. Two persons died from gunshot wounds over the weekend and a four-year-old boy and his one-year-old sister were burned to death at Brazoria when fire destroyed their home. One of the latest traffic deaths reported was that of James Freeman, 27, of Gatesville, who was killed Monday night when his car went into a ditch south of Georgetown. Two separate automobile accidents killed three persons each. One killed Piesantoni, Tex., Friday night killed Frank Riedelacker, 59, and Mr. and Mrs. Harry E. Dain, 70 and 69 respectively, all of San Antonio; the other early Sunday morning took the lives of George Xerakias, 61, Charles Welshans 50, both of San Antonio, and Robert A. Daugherty of Brooks Air Force Base. Bobby Pruett, 30, of Beach Grove, Tex., was burned to death when his car overturned on a curve near Jasper early Sunday. His companion, Margie Reeves, 17, of Hemphill, Tex., was so badly burned she was given little chance to live. By an ironic twist of fate, Pruett rescued a man from a burning gasoline truck four years ago only to die in an accident of the same kind. He was a helper on the truck, and pulled the driver from the vehicle after it caught fire. The worst series of accidents occurred in Bexar county where six deaths were attributed to four separate traffic crashes. The six brought Bexar county's death toll to 82 so far this year, more than double that of the same period in 1953. In Dallas, traffic officials warned that the city appeared to be heading for its worst traffic fatality record in history. More than 50 persons have been killed in Dallas city limits this year — eight more than in the same period of 1953 when the worst record of 60 deaths was established. Two persons died from gunshot wounds over the weekend and a four-year-old boy and his one-year-old sister were burned to death at Brazoria when fire destroyed their home. One of the latest traffic deaths reported was that of James Freeman, 27, of Gatesville, who was killed Monday night when his car went into a ditch south of Georgetown. Two separate automobile accidents killed three persons each. One killed Piesantoni, Tex., Friday night killed Frank Riedelacker, 59, and Mr. and Mrs. Harry E. Dain, 70 and 69 respectively, all of San Antonio; the other early Sunday morning took the lives of George Xerakias, 61, Charles Welshans 50, both of San Antonio, and Robert A. Daugherty of Brooks Air Force Base. Bobby Pruett, 30, of Beach Grove, Tex., was burned to death when his car overturned on a curve near Jasper early Sunday. His companion, Margie Reeves, 17, of Hemphill, Tex., was so badly burned she was given little chance to live. By an ironic twist of fate, Pruett rescued a man from a burning gasoline truck four years ago only to die in an accident of the same kind. He was a helper on the truck, and pulled the driver from the vehicle after it caught fire.

Port Arthur Union Vote Is Wednesday

HOUSTON, Nov. 8 — UP — Employees of five picketed Port Arthur, Tex., stores involved in a year-long retail strike will vote Wednesday on whether or not they want Sabine Industrial Union, Local 1814 (CIO) to represent them. Date and time of the collective bargaining elections was announced here Monday by Clifford W. Potter, director of the Houston sub-regional National Labor Relations Board office. The stores involved are Woolworth's, C. R. Anthony Co., Mayfair Dress Shop, Franklin's McLean's department stores, stores. The five firms, and 13 other stores, have been picketed since they were struck a year ago by the Distributive, Processing and Office Workers Union which later was replaced by Local 1814 after the original union was attacked as "Communist-led." Potter said he did not believe the election results, if unfavorable to the union, would have any legal effect in halting picketing of the stores. George Cowart, director of Local 1814, said a negative vote by the employees would not mean that the stores could no longer be picketed. He said it was up to national CIO headquarters to decide.

Mainly About People

Pampa firemen Sunday made two grass-fire runs. One was at 11:40 a.m. to the Cecil Holmes lease, five miles south of Pampa. The other was at 1:15 p.m. to the 300-block of South Finley. There was no damage in either case. See the Table Setting Contest Nov. 12, Pampa Field House, 1:30 to 8:30 p.m. Admission, Adults, \$1.00, Students, 35c. Lynn Boyd and B. D. Robison, Pampa's two directors in the Canadian River Municipal Water Authority, were in Plainview today for the monthly meeting of the board of directors. City commissioners meet at 9 a.m. Tuesday in the City Commission Room of City Hall to buy a new fire truck and 3,000 feet of fire hose. Rev. Porter Brooks, Gray County chairman for the American Cancer Society, will lead a discussion panel from 9:30 a.m. to 2:30 p.m. Tuesday in Amarillo at the annual fall meeting of Cancer District 3-North. Also expected to be on hand are Mrs. W. A. Spoonmore, Joe Tooley, Mrs. Marjorie Magee and C. E. Jeffries. The Spanish group of Pampa's adult education program meets at 8 p.m. today in the Pampa Public Library in the basement of City Hall. The American Heritage group of the Pampa adult education program will meet at 8 p.m. Tuesday in the Pampa Public Library in the basement of the City Hall. The Pampa community United Fund total in the 1954 drive late this morning stood at \$41,488.19. Goal is \$45,150. Asst. County Agent Jerry Mobly will meet with the Grandview 4-H Club Tuesday at 2:30 p.m. in the grade school, Faye Burns, assistant county-home demonstration agent, will meet at the same time with the girl's group. E. O. Wedgeworth, chamber of commerce manager, and his office staff attended the West Texas Managers Association conference today in Dumas. Mr. and Mrs. Cecil Holmes, Bor-

Farm Bureau Meet Started

GALVESTON, Oct. 8 — UP — The annual convention of the Texas Farm Bureau opened Monday with drouth relief and cotton price supports expected to be the two top subjects up for discussion. The State Farm Bureau group represents 55,570 farmers in Texas. Registration for the four-day convention began Sunday with some 475 delegates from 183 counties, representing 13 districts, expected to attend. J. Walter Hammond of Tye, Tex. is president of the group. Other officers include J. Harrel West of Bishop, secretary-treasurer, and C. H. DeVaney of Coahoma, Tex., vice president. Resolutions passed at the state meeting will be presented to the American Farm Bureau at its national meeting in New York Dec. 12-16. Among state problems to be discussed are the sales tax on gasoline and the tractor gas refund. A Miss Texas Farm Bureau will be selected Monday night from one of the 13 state districts. U. S. Sen. James O. Eastland of Mississippi will speak to the group Tuesday on the surplus program. Howard Hill, president of the Iowa Farm Bureau, second largest in the nation, also will speak Tuesday on the subject: "Farming is My Business."

Ag Department On-The-Farm Aid Expanded

WASHINGTON, Nov. 8 — UP — The Agriculture Department is expanding its on-the-farm advisory service in an attempt to save many young farm families from bankruptcy. Farming is now "cash business and big business," and farmers must be good business managers to survive in a day of increasingly commercialized operations, Paul V. Kepner, deputy administrator of the Federal Extension Service, said Sunday night. Young farmers are on especially shaky financial ground because many are operating under heavy loads, Kepner said. To help them boost efficiency and income the Agriculture Department and co-operating state extension services this year are expanding their on the farm advisory service across the country. "You can reasonably assume that in time, all farm families who need and want this more individual, tailor-made kind of assistance will have the chance to get it." Extension Administrator Clarence F. Ferguson said. Under the program farm families get expert advice on when to buy and sell crops and supplies, what crops to grow and how to grow them, livestock management and marketing, improved home-making methods—everything involved in farming. Under the extension program in force in most counties, farm agents representing the extension service have to help so many farmers and suburban dwellers with such a wide range of problems that they have no time for personal, overall service to individual families. Congress last summer added \$7 million to the Federal Extension Service budget for expansion of the personal advisory service. Results in the form of higher incomes for farmers aided by the service can be expected to show up within a year, Kepner predicted, although it may take longer for farmers who have to make gradual changes in crop rotation and livestock programs.

TEC Fills 50 Jobs In 8 Days

An estimated 50 jobs have been filled since the first of the month in the Pampa office of the Texas Employment Commission. Bill Ragdale, local TEC manager, today said that relatively high number of job placements was normal for this time of year, one of the two "peaks" during the year. There were 27 more jobs available late this morning in the employment, office too, Ragdale said. They include bookkeeper, salesman, service station attendant, stenographers, automotive machinist, maid, housekeeper and car hop. Generally, Ragdale pointed out, the late fall and late spring are the two times during the year when job activity is at a "peak."

Livestock Market

The following is a report from the Fort Worth Livestock market, giving prices paid in the early business conducted today. FORT WORTH, Nov. 8 — UP — USDA — Livestock: Cattle 7,000, slow, few sales on slaughter cattle weak to 50c lower; most bids off more; high grade stockers steady; others lower; commercial and good slaughter steers and yearlings, 15-21; few choice 22-23.50; utility, 13 down; few utility cows, 8.5-10; canners and cullers, 5-8; bulls, 6-12; most bids 11.50 down; medium and good stockers and feeders, 12-18; load choice yearlings, 19.50, stocker cows, 7-11; few over 11. Calves 2,800. Few slaughter calves and high-grade stockers weak; spots lower; others unevenly lower; good and choice killers, 13-17; few choice early, 17.50-18; utility and commercial, 9-12.50; culls, 6-8; medium to choice steer calves, 12-19. Hogs 500, butcher hogs 50c to 75c higher than Friday; sows steady; choice 190-260 lbs., 20-choice 280-400 lbs., 18-19.50; sows, 15-18. Sheep 4,700. Very slow. Slaughter lambs steady to 25c lower; aged wethers 50c to 1 dollar; other classes fully steady; good and choice wooled slaughter lambs, 18-20; good and choice shorn slaughter lambs, 17-18.50; latter price for No. 1 pelts; cull and utility slaughter lambs 10-16; utility and good slaughter yearlings, 13; good and choice yearlings held at 15; few utility and good aged wethers, 11; some held higher; cull and utility slaughter ewes, 4.50-5.75; medium and good feeder lambs, 13-18.50.

Father of Pampan Dies Sunday

William G. Bass, 87, father of a Pampan, died at 4 p.m. Sunday in Claude. Funeral arrangements are pending with the Duengel-Carmichael Funeral Home. Mr. Bass, father of Mrs. C. M. Jeffries, Pampa, was born Nov. 22, 1866, in Neosho, Mo., and lived in Oklahoma and New Mexico before moving to Claude three years ago. Surviving, in addition to Mrs. Jeffries, are three other daughters, Miss Avery Bass, Corpus Christi, Mrs. Sheldon Dart, Nampa, Idaho, and Mrs. R. L. Jeffries, Evansville, Ind.; six grandchildren; and four great-grandchildren. Congress last summer added \$7 million to the Federal Extension Service budget for expansion of the personal advisory service. Results in the form of higher incomes for farmers aided by the service can be expected to show up within a year, Kepner predicted, although it may take longer for farmers who have to make gradual changes in crop rotation and livestock programs.

Clouds Keep Cold Away

By UNITED PRESS Cloudiness spread over the lower Rio Grande Valley Monday, moving northward as far as San Antonio, Junction and Austin. The cloud cover was expected to spread over much of the state and keep temperatures fair and mild for the next day or so. The clouds, however, weren't expected to produce much rain, although a sprinkle was reported at San Antonio. An early morning ground fog was reported at College Station, Lufkin, Beaumont and Houston. Only one overnight freezing temperature was reported in the state — 25 degrees at Dalhart for the night's low. The readings ranged on up to 67 degrees at Corpus Christi and Brownsville. Other readings included Lubbock and Salt Flat 36, Amarillo 40, El Paso 41, Lufkin 42, Midland 44, Marfa 45, Beaumont 47, Fort Worth 48, Houston 49, Waco and Dallas 50, Abilene 51, Wichita Falls 52, and Laredo 64.

Housewives Purchasing More Butter

WASHINGTON, Nov. 8 — UP — The Agriculture Department has announced that housewives bought more butter and less margarine in September for the sixth successive month. The national consumer panel of the Market Research Corporation of America has been making a check on purchases for the department since last April, the month that dairy price supports were cut and butter prices fell about eight cents a pound. In a weekend report, the department said housewives bought over 60 million pounds of butter during September, up 5 million pounds or 10 per cent from the same month last year. Retail prices averaged 64 cents a pound. At the same time, it said household purchases of margarine were close to 88 million pounds, down about 3 million pounds or 4 per cent from September last year. Retail prices of the vegetable spread averaged 28.8 cents a pound. The report said that in the six months that ended in September, household purchases of butter showed a 7 per cent gain from last year and margarine purchases a 4 per cent decline. The report said only 43 per cent of all families bought butter during September, compared with 46 per cent a year ago. Those buying the high-priced spread stepped up the volume of their purchases.

Police Net Spread For 'Daddy' Of All Con Men

CHICAGO, Nov. 8 — UP — Federal agents searched Monday for a bosomy redhead and a gorgeous brunette they hoped they could give clues to the whereabouts of a man known as "Mr. Five-by-Five" who is suspected of fleecing victims of \$5 million to \$10 million. "Mr. Five-by-Five" is Harry Lester, alias Hy Calvert, a former New Yorker who gained the pseudonym, during months of freespending in north side drinking lounges, because of his blocky 280-pound shape. Lester, 42, disappeared Oct. 25 after he was last seen leaving a car in the Loop. A theory was advanced Monday that he may have fallen victim to the underworld. It was reported that Lester had told a friend in Buffalo, N. Y., that he was flying there with \$700,000 he wanted to cache. Investigators said hoodlums may have gotten to him and the money before he could board a plane. Lester, it is reported, is in trouble with Chicago's crime syndicate anyway because he allegedly disappeared owing bookmakers thousands of dollars placed on bad bets. The FBI joined the search for "Mr. Five-by-Five" on the complaint of a Buffalo bank that he obtained \$30,000 on a fraudulent loan before coming to Chicago to start his fabulous spending and borrowing spree. Two New York businessmen have filed bankruptcy proceedings in U. S. District court at Buffalo. They placed claims of \$1,154,000 against Lester but he has not been found.

Pampan Cited In Accident

Jerald Dean Sims, 25, of 1130 1/2 Christie, and Samuel Hampton Dooley, 59, of Gainesville, were involved in an automobile collision at 4:50 p.m. Sunday on the Clarendon highway, about a mile south of Pampa. Sims was given a citation for speeding; the highway patrol reported today. Sims was headed toward Pampa, and Dooley toward U. S. Hwy. 66, when Sims was reported to have hit his brakes, skidded across the center-line, and collided with the Dooley car. There were no injuries.

Anthony Employs To Attend Clinic

James E. Briscoe, manager, of the local C. R. Anthony Co. store, will attend along with two staff members, Emory Morris and Forrest Stafford, a clothing clinic tonight in Amarillo, conducted by the company and Brookfield clothes Inc., New York. M. B. Galloway, Anthony's merchandise manager, and Herman Soifer, president of Brookfield will direct the dual-purpose clinic to be attended by some 100 executives, buyers and sales people of the multi-state C. R. Anthony organization.

Police Net Spread For 'Daddy' Of All Con Men

CHICAGO, Nov. 8 — UP — Federal agents searched Monday for a bosomy redhead and a gorgeous brunette they hoped they could give clues to the whereabouts of a man known as "Mr. Five-by-Five" who is suspected of fleecing victims of \$5 million to \$10 million. "Mr. Five-by-Five" is Harry Lester, alias Hy Calvert, a former New Yorker who gained the pseudonym, during months of freespending in north side drinking lounges, because of his blocky 280-pound shape. Lester, 42, disappeared Oct. 25 after he was last seen leaving a car in the Loop. A theory was advanced Monday that he may have fallen victim to the underworld. It was reported that Lester had told a friend in Buffalo, N. Y., that he was flying there with \$700,000 he wanted to cache. Investigators said hoodlums may have gotten to him and the money before he could board a plane. Lester, it is reported, is in trouble with Chicago's crime syndicate anyway because he allegedly disappeared owing bookmakers thousands of dollars placed on bad bets. The FBI joined the search for "Mr. Five-by-Five" on the complaint of a Buffalo bank that he obtained \$30,000 on a fraudulent loan before coming to Chicago to start his fabulous spending and borrowing spree. Two New York businessmen have filed bankruptcy proceedings in U. S. District court at Buffalo. They placed claims of \$1,154,000 against Lester but he has not been found.

East-West Water Pipeline Talked

FORT WORTH, Nov. 8 — UP — The day will come when water will be piped from the heavy rainfall areas of East Texas to dry West Texas, J. B. Thomas, chairman of the governor's water conservation commission, believes. Thomas said the state's needs for water are far outstripping the facilities. He said that bold and expensive actions are needed to solve Texas' water problem. He said he believes piping of water to West Texas will be needed eventually to assure continued growth of the state.

Fourth Slab Poured At Bridge

Workmen at the site of the Canadian River Bridge, between Pampa and Perryton, late this morning were laying the fourth of 100 concrete slabs. Resident highway engineers also reported a field party was setting construction stakes this morning on the U. S. Hwy. 66 improvement job. The Hwy. 66 job — widening and toppling — is between the point where the present four-lane highway ends and Jericho.

Saboteurs Active In North Africa

ALGIERS, Nov. 8 — UP — Terrorist saboteurs cut the underground cable which carries all telephone and telegraphic traffic between Algeria and Morocco early Monday, cutting off communications between the two most important parts of French North Africa. The cable was severed in the department of Oran between Marina and Tuzune, near the Moroccan border. Police said it was "unquestionably" an act of sabotage. At the same time police seized the entire press run of the newspaper Alger Republicain (Algiers Republican) which lists itself as "independent." No immediate explanation was made. The cable-cutting was by far the most serious act of sabotage committed in the outbreak of nationalist violence in Algeria. It indicated organizers of the uprising were not striking in haphazard fashion.

Call Benny Ormson To Do All Automotive Repairing

Benny Ormson is a young man who fell in love with the automobile when he was a toddler and never fell out of love with it. That's why he has devoted most of his life to making automobiles run, and why he operates Ormson's Garage at 1309 Alcock (telephone 4-7622).

The hum of an engine, the smooth movement of a transmission, the sharp flash of an electrical system are to Ormson what sounds of an orchestra are to a musician.

All those are the reasons Ormson likes his work so well. Also those are reasons Pampa motorists have found Ormson's work on their cars is so successful.

Knows Autos

He knows automobiles. In fact he has "grown up" in this mechanical age with automobiles. He has concentrated on them all of his adult life (excepting three years as an automatic rifleman for Uncle Sam in World War II, he studied them, has worked on them exclusively for about 18 years.

For five years before he opened his own garage this summer, he worked in Pampa garages. Before that he did garage work in the Midwest.

His knowledge and long years of experience are your assurance that the work you have done at Ormson's Garage will be done right, that there will be no "labor" lost—no time spent wondering what should be done.

Transmission Work

Have Benny Ormson check the transmission of your car; he knows them—

Conventional—Let Ormson adjust the transmission. He can save you a major bill by setting everything right.

Overdrive—Ormson knows the Overdrive system. Let his knowledge pay off for you in more miles of service, greater economy in gasoline and oil, more pleasure in your motoring.

Hydraulic—Although Ormson specializes in hydraulic repairs, he also does all types of automotive work. Save your time, prolong the life of your car, have Ormson check your car and hydraulic transmission.

Guarantees Work

Ormson is a garage owner who does all his own work, and who guarantees all the work he does.

Call on him for front end, engine, brake, electrical as well as for hydraulic and conventional transmission work. For such automotive or truck work you can depend on Ormson because—well, he is one of those mechanics you see flinch on the street when a passing car sounds "out of tune" or clashes as the driver shifts.

Stop in, have Ormson check your car at 1309 Alcock. Or phone him at 4-7562.

British Up Trade With China

By CHARLES M. MCCANN
United Press Foreign Analyst
British industrialists are about to make their biggest bid to date to increase their trade with Communist China.

A 33-man delegation is to leave for Peking this week to study the possibilities of increasing exports to and imports from the "people's republic."

The delegation represents more than 100 companies which cover a wide field of British industry. In its negotiations, the delegation will be bound by the British government's commitments against the export of strategically valuable goods to Red China.

But the mission has the blessing of the foreign office and the board of trade, which in Britain is a government department.

Increased Trade

There seems to be a strong feeling in both industry and the government that British-Chinese trade can be increased materially without violating the strategic goods ban.

The present mission stems from last summer's conference in Geneva which brought the end of the war in Indo-China. Negotiations were conducted there between representatives of British industry and members of the Chinese Red delegation.

The Peking government has said that it is interested in getting both machinery of all sorts and consumer goods. It gives priority to any supplies which will help it in its ambitious five-year plan of industrialization.

Although Bermuda no longer excludes the automobile, the popular Atlantic resort island restricts gasoline transportation. Speeds are limited to 20 miles an hour in open country, 15 in town. No family may own more than one automobile. Visitors must remain 30 days before being allowed to drive. Cars more than five years old may not be sold for driving on public roads.

Iowa is called "the largest cornfield on earth." The State grows better than half a billion bushels in an average year, one-sixth of the entire United States crop.

SHOP AT NIGHT — Come to friendly B & B Pharmacy in the evening, see the tremendous selection of gift items, select the ones you like for Christmas layaway. Come in after the rush of the day, when you have leisure for shopping. Shop anytime, weekdays and Sundays to 10:30 p.m.

Shop Conveniently, Lay Away Christmas Gifts At B & B

B & B Pharmacy will keep your secrets.

Those secrets are the reasons the air is electric with hush-hush anticipation, and the reasons B & B clerks and customers are bustling on their very confidential missions.

B & B Pharmacy, Ballard at Browning, (telephone 4-5788) is Santa Claus' headquarters for Christmas giving. Now Santa is making his lists, setting aside gifts to be delivered Dec. 25. At B & B he is laying away the very nicest presents for the very nicest persons.

B & B has thousands of gift suggestions stocked up in the large gift department. There are "just the things" for Him, Her, Mother, Daddy, Aunt, Uncle, Cousin.

Visit Store
And B & B is so well organized every one can shop easily, conveniently. There really are two shopping ways:

You can visit B & B, the friendly, neighborhood drug store with the down-town location, any time from 8 a.m. to 10:30 p.m. week days and Sundays. See the gift ideas, select the ones you like, have a friendly clerk place it in lay-away for you.

Shopping Service
Or you can call B & B shopping service. Just pick up your telephone, dial 4-5788, ask for shopping service. One of the courteous clerks at B & B will help you. She will pick out the exact gift you describe, or she will help you choose the right gift from the thousands of gift suggestions in the store.

Then B & B will gift-wrap your present and deliver it to you by B & B's city-wide, free delivery service.

Use B & B's gift department and shopping service all year long as well as at Christmas. You can depend on B & B for gifts for all occasions. And shopping at B & B is both easy and convenient.

Yule Ideas
Look at some of B & B's gift suggestions:

In the toy department there are the educational miniature oil painting sets for the young artist, the clay modeling set for the young sculptor; the Sunbake rubber doll which cries, drinks, winks, blows bubbles, sleeps and which comes with her own soap tray, teething ring, formula bottle, bubble pipe, hot water bottle and bib.

There is the cardboard replica of the White House which has the floor plan, history of the mansion, 16 detail parts and 52 major parts. Of course there are the famous Saucy Walker dolls, with the Sarah hair which washes, combs, waves and curls; puzzles, wheeled toys, trains, carving sets, sketching sets, educational toys.

France Denney Cosmetics
Visit B & B's cosmetic department which features the nationally famous France Denney toiletries. SHE will love the Viva Cream and other features. This line is carried exclusively in Pampa by B & B. SHE also will love the famous Revlon cosmetics B & B carries. For her you will find the nail enamels, creams, lotions, deodorants.

HE will appreciate a good bill-fold, cigarette lighter, pipe and tobacco pouch.

For Baby, Home
BABY can't say what she wants, but we know she will smile her liking for those bottle sterilizers, soaps, night lights, lotions and oils, toys and little learning aids.

Joe To Keep Hospital Vigil With Marilyn

HOLLYWOOD, Nov. 8 —UP—Marilyn Monroe was scheduled to go under the knife for a minor operation Monday while Joe DiMaggio, her fiercely-devoted husband, waited faithfully outside her hospital room door.

The ball player, although given the legal boot by the shapely blonde in a divorce court two weeks ago, stayed all night at Cedars of Lebanon hospital so he could be on hand when Marilyn was wheeled to the operating room.

Dr. Leon Krohn explained the gynecological operation was needed to correct a female ailment from which the curvaceous blond had suffered for years.

Marilyn revealed shortly after she and DiMaggio separated that she planned to undergo the operation, but Sunday she said the surgery had nothing to do with the breakup.

She said she had put off the operation, "overdue for years," until the end of shooting "The Seven Year Itch" because her co-star Tom Ewell, had to return to New York in the "show-must-go-on" tradition, the actress finished work on the picture Sunday at 20th Century Fox studio.

GLANCING BACKWARD

(From the Files of The Pampa Daily News)

ONE YEAR AGO TODAY
Father's Night was held at the Parent-Teacher Association meeting in the Sam Houston School. Bob Andis was acting president and Rex Rose, leader.

A visual education clinic for the schools of Hutchinson and Carson counties was held at White Deer under the supervision of Jo Battle, librarian for the two counties.

FIVE YEARS AGO TODAY
The Macedonia Baptist Church choir presented Ollie J. Jackson, lyric tenor, in a concert at the church auditorium.

George J. Rony addressed the meeting of the Top of Texas Knife and Fork Club in the High School Cafeteria.

TEN YEARS AGO TODAY
Gray County, like the remainder of Texas, voted President Franklin D. Roosevelt in for a fourth term. The vote here was 3,967 for Roosevelt, and 1,739 for Thomas E. Dewey.

The Bell Home Demonstration Club met in the home of Mrs. H. H. Keahney. Plans were made for the Victory Roundup Day which was to be held at the home of Mrs. Conner O'Neal.

ACCURACY, EXPERIENCE
The Unseen Ingredients
Into each prescription we compound the unseen ingredients — accuracy and experience. Unseen... but as essential to your health as the drugs your doctor has prescribed.

Man Has Atom To Look To When Coal, Iron Are Gone

EDITOR'S NOTE: The history of modern man is also the history of man's search for energy. Present power sources, chiefly coal and oil, won't always suffice. Therefore the atomic nations are trying to harness the atom's forces to their machines. Scientists also are trying to tap the radiant energy of the sun. They even dream of landing the H-bomb for peacetime power. Following is the first of three dispatches on possible power sources of the future.

By JOSEPH L. MYLER
WASHINGTON, Nov. 8 —UP—Peacetime atomic power is on the way, but...
The experts don't know when it will arrive. They do a lot of guessing. Five years, 10, 25. But they don't know.

Abundant Fuels
But radioactive fuels — uranium and thorium — are abundant enough to last at least 175 years, according to Putnam's calculations.

So, on the theory that man will do whatever necessary to get energy for his gadgets and industries, experts believe atomic power certainly is on the way.

But the atom is obstreperous. It does not give up its energy easily. The engineering difficulties of harnessing its forces both safely and economically are enormous.

Child Born To Cerebral Palsy Couple

LOS ANGELES, Nov. 8 —UP—Michael Thomas Millman, who was one week old Monday, is a very special baby — special because he is completely normal and will be cared for by his parents, both of whom are severe cerebral palsy cases.

Michael's mother, JoAnn, 24, gave birth after four hours' labor at Queen of Angeles hospital here. Physicians said it was a "rarity" for two cerebral palsy persons to become parents.

But the event was only blessed as far as pretty JoAnn and her husband, Richard, also 24, were concerned. They left the hospital with Michael Saturday for 10 days with his maternal grandparents.

Mr. and Mrs. Earl Wintereg, of nearby Van Nuys, when JoAnn has recovered her strength, the couple will resume living at their Los Angeles residence — with Michael.

Hospital personnel and reporters indicated doubt as to whether JoAnn could care for her six-pound, five-ounce baby.

"If God thought I couldn't take care of the baby, he never would have let me have him," JoAnn said simply.

The couple met six years ago while attending a high school for the handicapped. They were married in 1950, and Richard has been in training for a job at United Cerebral Palsy offices. When doctors finally realized JoAnn was going to be a mother, the pregnancy was watched carefully because CP is believed to be non-hereditary. Michael's normalcy added to the belief.

Millman walks with the help of a cane, and his wife uses a cane or a wheelchair. They have lived together and maintained their apartment without assistance from others, and they plan to continue. The pretty blonde mother, who looks like a high school boy's sweetheart, and her handsome husband feel Michael is "the most wonderful thing in our lives." They said they wanted to have more children, too.

The atom has been put to work in submarine engines. But they are cost-no-object military projects and shed little light on the economics of peacetime power.

There will be no useful cost data in this country until five experimental atomic power plants now being built have been in operation for some time. The plants are being built under a \$200 million five-year program launched recently by the AEC.

Atomic Power Plants
The first, designed to produce about 5,000 kilowatts of electricity, is expected to be in operation in 1956. A much larger one, expected to generate more than 60,000 kilowatts, will be completed in 1957.

Meanwhile, private industry seems by and large to be in a wait-and-see mood, satisfied to let the government pick up the tab for the first experiments in atomic power.

It is no secret that some atomic experts are disappointed by industry's failure to get into the act. Dr. Lawrence R. Hafstad, chief

AEC Chairman Lewis L. Strauss believes "our children will enjoy in their homes electrical energy too cheap to meter."

Atomic energy already has produced what Strauss and others call "incalculable" peacetime benefits for man. For example, radioactive research materials, a byproduct of the U.S. atomic project, have brought science closer to solving the mystery of how plants transform sunlight into food. If that secret ever is finally broken, the A-bomb will have redeemed itself.

(Tomorrow: Solar energy)

Republican-Demo Cooperation May Hinge On Nixon Attitude

WASHINGTON, Nov. 8 —UP—President Eisenhower has been told that the new Democratic Congress may not cooperate if Vice President Richard M. Nixon doesn't stop claiming Democrats are soft on communism.

Democratic national chairman Stephen A. Mitchell warned the President to halt the vice president's "slanderous activities" if the administration wants good relations with the Democratic majorities in the Senate and House come January.

Mitchell Sunday night sharply attacked Nixon's "vilifying" of Democrats during the recent election campaign. He urged the vice president to "retract and apologize" for "this damnable business" of calling Democrats "traitors."

Hall Challenges Mitchell
But Republican national Chairman Leonard Hall immediately challenged Mitchell to "name the

time, place and circumstance" of any vilification by Nixon. Hall insisted Nixon, in the campaign only "correctly sought to inform the American people concerning the vital issue of internal security and the relentless threat of Communist infiltration and subversion."

President Eisenhower meanwhile was reported pouring oil on the troubled waters. It was learned the White House already had sent out "peace feelers" to get the views of Democratic congressional leaders on what form the President's "consultations" with them should take.

The harmony moves were made quietly through key Republican shortly after Mr. Eisenhower invited congressional leaders of both parties to a White House conference on foreign affairs Nov. 17.

Invites Democrats
There have been reports the Mr. Eisenhower may spur cooperation by inviting Democratic leaders to weekly conferences. He held such meetings with GOP legislators during the last session of Congress.

Elsewhere on the congressional front:

1. Sen. A. S. Mike Monroney (D-Okla.) said in a television interview that the Democrats will go along with 90 per cent of the President's foreign policy proposals but may insist on foreign aid changes. Monroney also predicted that Mr. Eisenhower will not be a candidate for re-election in 1956.

2. Rep. Sam Rayburn (D-Tex.) who is slated to become speaker of the House, said Democrats will review the administration's entire tax program to remove "inequities and inequalities."

3. Reps. Kenneth B. Keating (R-N.Y.) and Hugh Scott (R-Pa.) said they will seek early adoption of a "fair play" code for House day of the new Congress. But Rep. Howard W. Smith (D-Va.) said he will oppose a vote on the code to protect witnesses until his full rules committee has a chance to study it.

A New York court held that Elms did not show that the board had failed to perform any legal duty.

At its first business meeting after a two-week recess, the Supreme Court was also scheduled to accept or reject some 59 cases.

One of the most important involves the right of a state to collect taxes on goods shipped from another state on orders solicited by salesmen.

The case was brought by three Memphis, Tenn., dealers, who challenged an Arkansas use tax on machinery and explosives they sold to Arkansas residents.

Precision Is Essential To Protect Your Health
Precision is the keynote of the pharmacist's profession. His years of training qualify him to fill your doctor's prescription with complete accuracy... for the protection of your health!
