

U. S. Gives Russia Week to 'Put Up or Shut Up'

WASHINGTON—(P)—The United States gave Russia one week today to "put up or shut up" in American-Soviet efforts to achieve a united Korea.

Stripped of its diplomatic language, that is the essence of Secretary of State Marshall's letter to Soviet Foreign Minister Molotov, setting an August 21 deadline on the long-stalemated negotiations by a joint commission in Seoul.

If the Russians fail to put up or shut up, Marshall said, "This government may immediately consider what further steps may usefully be taken to achieve the aims of the Moscow agreement, namely the establishment of an independent, united Korea which can take its place among the united Nations."

The letter made no mention of what "further steps" this government might have in mind, some officials suggested the United States might take the issue back to a four-power conference in quest of some other method for reaching an agreement.

As a last resort, they added, this country might simply give up the project and concentrate on rebuilding Southern Korea.

Marshall's communication, delivered to the Kremlin Tuesday by Ambassador Walter Bedell Smith, was made public by the State Department while the secretary was en route by plane to the Inter-American Defense Conference at Rio de Janeiro.

The Korean negotiations have been deadlocked a second time since July 2.

They were resumed at Molotov's suggestion May 29 after a year's lapse.

A 1945 Moscow agreement formed the basis for both sets of talks. That agreement called for setting up a provisional Korean government and for a joint commission to consult with the Koreans themselves and make recommendations for the consideration of Russia, China, Britain and the United States.

STUDY IN CONTRAST—Pfc. Bruce Marshall, of Corpus Christi, describes this photo, which he took at Osaka, Japan, as contrasting "the old, depressed and ancient Japan with the new, helpless and young Japan looking into the sun for a bright future." Marshall is with the 1st Cavalry Division of the occupation forces.

Moslem Dominion Of Pakistan Is Given Freedom

KARACHI—(P)—Viceroy Lord Mountbatten relinquished the reins of British power today to the new Moslem Dominion of Pakistan, the birth of which at midnight tonight he called "an event in history."

"Tomorrow," the Viceroy declared in a farewell address before the Pakistan Constituent Assembly, "two new sovereign states will take their place in the commonwealth; not young nations but heirs of an old and proud civilization; full independent states whose leaders are statesmen already known and respected throughout the world... not immature governments, or weak, but fit to carry on their great share of responsibility for peace and progress in the world."

The Viceroy returns to New Delhi tomorrow to surrender British power to Hindu India and become Governor General of that new domain.

Even as he spoke in Karachi, blood was being spilled in communal strife in the Punjab, where fighting between Moslems on the one hand and Sikhs and Hindus on the other reached new heights of destruction and violence.

Lahore, the capital of the new Northern Province which is being split between Moslem Pakistan and Hindu India, counted its casualties in the hundreds after long hours of rioting and flames swept through much of the city. The fighting also fanned out into Amritsar and other outlying areas of the Punjab.

In this predominantly Hindu city, thousands of cheering persons lined the route from Government House to the Constituent Assembly Hall, waving green and white Pakistani flags as Mountbatten passed. The gate through which official cars entered the Assembly Hall Compound was named for Mahomed Ali Jinnah, while the exit was named for Liaquat Khan. Both are leaders of the Moslem League.

Inside the hall, Mountbatten, the last Viceroy of India, wished success to the new dominion of Pakistan.

Mahomed Ali Jinnah, president of the Moslem League and the leading advocate for Pakistan, already has been chosen Governor-General of the new dominion and President of its Constituent Assembly.

The birth of freedom means that for the first time in nearly three centuries, Indians will have complete control over the destinies and vast resources of their own people. It means that the teeming sub-continent which has been a rich jewel in the British Empire for so long a time now becomes seven nations: a Hindu Dominion of 227,000,000 stretching from the Himalayas to Calcutta; and a Moslem Dominion of two parts populated by 89,000,000 Moslems, Sikhs, Parsis and the countless other communities of India—numbering 100,000,000 more—are divided between the two.

'Cobot Kids' to Stage Bubble Gum Contests

Children of employees of the Cabot Shop Inc., General Atlas Carbon Co., and Cabot Carbon Co., City of Pampa, will pop it out in a bubble gum contest at 7:30 p.m. Friday in the Junior High School Gymnasium.

The kiddies have been divided into two age groups; from one to six years of age, from seven to 15 years of age. The Friday contest is the elimination contest when children, one in each age group, will be selected to represent their plants at the company employees' annual picnic at Lake McClellan on August 22.

Children of employees of other carbon plants affiliated with Cabot have already had their elimination contests.

The final contest will be held at the picnic ground on August 23 when two children, one in each age group, will represent each plant for the grand champion blower and popper.

Truman Has No Plans to Call Labor-Management Conference

WASHINGTON—(P)—President Truman indicated today he has no plans to call a labor-management conference, such as the CIO proposed as a move to seek voluntary cuts in prices.

Mr. Truman was asked to comment at a news conference on the CIO proposal.

In reply, Mr. Truman recalled that in November, 1945, he called a labor-management conference. He commented that it was not successful.

The 1945 conference was concerned with labor relations and economic matters.

The President said he heartily endorsed the price investigation just undertaken by Attorney General Clark, and hopes it will obtain results.

Clark has ordered the Justice Department's Anti-Trust Division to investigate food, clothing and housing prices to determine whether there are any conspiracies to raise prices.

A reporter asked Mr. Truman if he meant by his remarks that he hoped Clark could check the rise in prices or simply point out those who have combined to keep prices up beyond normal profit margins.

President said the reporters would be disappointed because he thought that the investigation would be more likely to point out those who are holding prices up unnecessarily.

However, he said he couldn't answer until the investigation was completed.

On a related matter, Mr. Truman said he has a cabinet food committee looking into the crop outlook to determine whatever steps may be necessary as to exports.

He said this when a reporter asked if the reduced crop outlook in some commodities, had led to any studies as to the possible limitation of some exports.

The President said that the whole food picture is under study by the cabinet committee.

At the Capitol, the price situation was getting attention from the Congress members still in Washington.

Rep. Wolcott (R-Mich.) expressed a general price decline "is in the offing."

Chairman of the House Banking Committee, Wolcott is regarded as spokesman for many House Republicans on price and rental matters.

"It would be a grave mistake to put price controls back on again," Wolcott told a reporter. "That would slow up production, and we must have production if we are to live in comfort."

He added that he believed inflation has "reached its peak and we are reaching the saturation point. A general price decline is coming."

Earlier Senator O'Mahoney (D-Wyo.) told reporters the investigation into price of food, clothing and housing ordered by Attorney General Clark is a "fine thing" but that "the causes of inflation are much deeper than a search for extortionate prices."

He said Congress must choose between encouraging "an intelligent program of stimulating production," and continuing to allow "private enterprise to produce goods such as automobiles, gasoline and steel."

Wolcott suggested that the United States "slow down" on buying for foreign accounts until the needs of the home market have been met.

Continued purchases for foreign use, he claimed, are one of the reasons for prevailing high prices.

Labor continues its demands for higher wages, but the long run will be the loser in the long run because production costs and consumer prices rise with wages.

He suggested that Clark inquire into "the possibility of cost-cutting in some industries to boost prices higher than are justified by increased production costs."

O'Mahoney is a member of the Joint Economic Committee on the economic report which is scheduled to open its own cost-to-cost inquiry next month into rising living costs.

England Is Facing Prospects of New Trade Difficulties

LONDON—(P)—Britain, beset by an economic crisis at home, faced today the prospect of new trade difficulties stemming from the establishment of an independent India.

The Indian Independence Act, sealed by King George VI last month, does more than end 90 years of direct British rule over this country's richest possession, which the merchant adventurers of London began exploiting 350 years ago under a royal charter granted by Queen Elizabeth.

It creates the two new independent "temporary" dominions of Hindu India and Moslem Pakistan and for the first time since the 17th century gives the sprawling Asian continent's 400,000,000 people control over their political destinies and economic resources.

The dominion status which India and Pakistan are assuming is by no means permanent. Each has set up its own constituent assembly and will choose its own constitution, with the ultimate option of becoming sovereign nations totally independent of the British Commonwealth.

Britain still hope that both new countries will choose to enjoy their independence inside, rather than outside, the Commonwealth.

However, the general expectation in London is that India will declare herself a sovereign republic and quit the Commonwealth, while Pakistan will remain a dominion.

If both countries decide to leave the empire, the consequences for Britain will be incalculable.

Economically, it will mean she will have to compete for the vast subcontinental trade market on equal terms with the rest of the world's produce countries.

India in the past has been Britain's principal supplier for jute, jute manufactures, cotton, tea, seeds, various metals, ores and chemicals, spices and certain food items. In addition, more recently Britain has been buying uranium from Trancore State.

On the other hand this country has been India's principle source of supply for finished textiles, oils, machinery, vehicles, drugs, hardware and instruments of all types.

Truman Sees No Special Session

WASHINGTON—(P)—President Truman declared today that he sees nothing on the horizon which requires a special session of Congress, thus virtually eliminating possibility of legislative action this year on new funds to aid Europe's recovery.

The President's remark came at a news conference at which he discussed his comment on the current talks on increasing Ruhr coal production or on the general British financial crisis.

Mr. Truman said that he would be unable to supply figures on how much the Marshall plan will cost. He pointed out that any estimate will depend upon surveys by this country as well as the results of the Paris conference on Secretary of State Marshall's suggestion they get together on a self-help plan.

He said, however, that he would furnish these figures when reports are complete and results of the conference are known.

Asked if he had any comment on the "clamor" for a Marshall plan for the Western Hemisphere, the President said that there had always been a Marshall plan in effect for the Western Hemisphere, adding, that it was known as the Monroe Doctrine.

At Last We've Found That 'Honest Man'

Paging Diogenes—at last we've found an honest man.

Recently the News received a letter from a subscriber who had taken to the paper in 1939, and had made vertically left Pampa without paying the paper boy for a month's service.

He writes: "If it is at all possible through your old records, would like to find the name and address of the delivery boy who delivered papers to my home in 1939, and had made vertically left Pampa without paying the paper boy for a month's service."

"I know you will think it took a long time for me to become concerned about this matter, but nevertheless, will appreciate any information you can forward."

"Perhaps it ought to be pointed out to SEAN TRUMAN, Page 3"

Reds Claim 'Crude Interference Into Internal Affairs of Greece'

LAKE SUCCESS—(P)—Russia charged today that "the crudest interference into the internal affairs of Greece emanates at present from the United States."

This was interpreted immediately as a reference to the Truman aid program.

Giving the United Nations Security Council what he termed "an answer to the American speech made Monday, Soviet Deputy Foreign Minister Andrei A. Gromyko said foreign interference was worsening the situation daily inside Greece.

Hurricane Takes Shift in Course

NEW ORLEANS—(P)—A slight shift in course of the tropical hurricane in the southwestern Gulf of Mexico seemed apparent today, the U. S. Weather Bureau said, but reports were awaited to determine the exact direction.

In its 10 a.m. (Central Standard Time) advisory, the bureau said that the center was probably located about 200 miles southeast of Tampico, Mexico.

It appears to be moving to the northwest of north-northwest, the advisory said. Strongest winds reported yesterday and early last night were about 90 miles per hour.

The Weather Bureau added, with squalls extending outward for a distance of about 500 miles to the north and east of the center.

The 10 a.m. advisory stated: "The hurricane has apparently moved very slowly during the night and early morning. Lack of reports does not permit an accurate location of the center."

The bureau said at 3 a.m. (Central Standard Time) that the hurricane, with winds near the center estimated at almost 90 miles an hour, was centered about 120 miles east-southeast of Tampico and was moving in a northwesterly direction at about 15 miles an hour.

Squalls extended outward nearly 300 miles to the east and north, the Weather Bureau added.

Small craft along the Texas Coast from Corpus Christi to Brownsville were warned to remain in port.

At Tampico, all scheduled sailings of coastal vessels were cancelled by the captain of the port.

Perryton's Good-Will Caravan Visits Here

A good-will caravan from Perryton descended upon Pampa this morning at 11 o'clock advertising Perryton's 28th Birthday Celebration to be held August 31-22.

The caravan, under the direction of Fred Osborne, was escorted to the front of the LaNora Theatre, where the group presented a 15-minute program that was broadcast over Radio Station KPDR.

Master of ceremonies, from Perryton, during the broadcast was Gus Henshaw.

Patsy Miller, the Pampa Chamber of Commerce's entry in "The Nation's Wheatheart" contest to be held in Perryton in connection with the celebration, was introduced to the good-will trippers during the program.

Some of the outstanding features of the celebration will be a dance each night with music by Frankie Masters and his world famous orchestra, a rodeo each afternoon, an air show August 21, parade August 22, free barbecue, August 23, and "The Nation's Wheatheart Contest."

Texas Lamb Crop Smallest Since '35; Cattle Short

AUSTIN—(P)—The smallest lamb crop since 1935, an approaching critical shortage in cured range feed, and a 3 percent decline in the condition of cattle and calves was reported today by the United States Department of Agriculture.

The USDA survey of conditions as of Aug. 1 said agricultural statisticians estimated this year's lamb crop at 3,752,000 head.

This is 17 percent drop from last year's 4,532,000 head and 15 percent under the 10-year average of 4,401,000 lambs.

USDA attributed the reduced lamb crop to a 10 percent decline in the number of breeding ewes on Jan. 1, compared to 1946 figures, two winter storms, and a continuous bad weather hazard for lambs through the entire winter and spring seasons.

Rapid deterioration of range feed supplies was evident over most of the state during July, and drought conditions spread from the south-central counties to cover most of the state, excepting Northern Panhandle Counties.

Drought-breaking rains received the first few days in August were expected to revive range grass in South Texas and most Trans-Pecos Counties, USDA said.

"Very few cattle have been marketed because of short feed supplies, but if the drought continues, many ranchers may market earlier than usual," said the report.

Cattle and calves were reported at 85 percent on Aug. 1, three points below their June condition and one point below the 10-year average for this time of year.

Coverage of sheep as of Aug. 1 was 84 percent, a two-point decline from July 1 but in line with the 10-year average.

All range feed condition was reported at 78 percent, an eight-point drop during July, while the 10-year average condition is 83 percent.

Buchenwald Concentration Camp Attendants Sentenced to Hang for Atrocities During War

DACHAU, Germany—(P)—An American War Crimes Court today sentenced 21 Buchenwald concentration camp attendants to hang for atrocities committed against inmates during the Nazi regime.

Five others were sentenced to life imprisonment, among them Frau Ilse Koch, widow of the former Buchenwald commandant, who is expected to give birth next month to a baby conceived while a prisoner.

One defendant was sentenced to 30 years imprisonment, two to 15 years.

The 31 defendants were convicted Tuesday after a four-months trial. More than 50,000 prisoners died in the notorious camp, which was situated on the outskirts of Weimar, a quiet town in Thuringia Province famed as the residence of the German poet Goethe.

Among those condemned to die were Hermann Pister, a former camp commandant, and Max Schober, former camp leader.

Most of the defendants received their sentences with outward calm. One doctor was in attendance for Frau Koch, because of her advanced pregnancy. The hard-faced, red-haired widow, who allegedly shared the camp role with her husband, was accused of having prisoners

World War II Ended Two Years Ago Today

The greatest war in history came to an end two years ago today with the surrender of Japan.

The surrender announcement was made in a broadcast by Emperor Hirohito, the earnest little man whose powers have been wiped away in these last two years, but whose people still treat him with reverence.

General Douglas MacArthur is in charge now. And from him today came a message to his occupation forces reminding them that "the victorious end of battle became the beginning of an equally vital campaign to secure the peace."

"We now enter the last phase in Japan of this test of our strength," he added. "It is yet men and women, military and civilian, who have composed the Allied Forces of occupation who are bearing this task to a successful conclusion."

The Socialist Premier of Japan, Tetsu Katayama, noted the anniversary, too. He called upon his countrymen to stress justice, labor and an international outlook if they would become a thoroughly peaceful nation.

Conquered Japan will be opened tomorrow to limited foreign trade, but the peace treaty for which the Japanese yearn is still in the future. Preliminary talks may start shortly, however, at the insistence of the United States.

A call for a prompt peace was made in a V-J Day broadcast by President Manuel A. Roxas of the Philippine Republic. He said the peoples of Asia "are clamoring for speedy conclusion of a treaty and said it "is essential to restoration of normal political and economic relations and will provide a stabilizing influence in this part of the world."

In Allied capitals of the world, V-J Day passed quietly. The peace was still to be secured.

Victory Day passed almost unobserved in Texas today.

The Lone Star State gave, per capita, more sons and daughters to the armed services than any other state in the Union. It gave more heroes.

But the second anniversary of the end of the war was celebrated by few cities.

The Veterans of Foreign Wars of Austin will give a party tonight at a night club tickets set for \$2 a couple. It was the only celebration reported in the Capital.

Major General John L. Coulter deputy Chief of Staff, U. S. Army, is to speak at the second annual War Department V-J Day Celebration at Monahans. The event honors War County veterans, and includes a parade, carnival, band, and show.

Football games, dances, and other beauty contests and an old-time fiddlers contest.

The event is the largest in the state yet reported, and will be attended by residents from Bastrop, Granddall, Monahans, Radvall, Peyton and Wicket.

The Turnbow-Higgs American Legion Post at Stephenville plans an all-day program. Business houses will be closed. Classes were dismissed at John Tarleton College from 10 a.m. to 1 p.m. Events include a memorial service, open house at Legion Hall, speeches, and a baseball game.

Texas Wool Production Expected to Decrease

AUSTIN—(P)—Texas wool production this year is expected to drop 10 percent under last year's figures to 63,691,000 pounds. The United States Department of Agriculture said today.

The expected production is 17 percent below the 76,595,000 pound 10-year average clip. Last year there were 70,695,000 pounds produced.

The smaller wool clip this year, USDA said, is entirely the result of a smaller number of sheep shorn. Fleece weights averaged 7.7 pounds, the same as the 1946 clip.

Three Arrested in Forest Fire Inquiry

SHREVEPORT—(P)—The inquiry into criminal angles of the recent wave of forest fires in Louisiana moved today to the many areas of Sabine Parish following the arrest of three persons at their homes near Coushatta. The three were charged with setting forest fires which destroyed two acres of timberland in Red River parish, State Forestry Commission officials said.

New Regulations On School Buses

AUSTIN—(AP)—Strict regulations for school buses, drawn up under authority of the uniform traffic code enacted by the 50th Legislature, have been announced by State Superintendent of Public Instruction L. A. Woods.

Under new regulations, full responsibility is placed on the school bus driver for the safety of the child en route from home or school.

Every driver is required to have training in first aid and to carry valid certificates of completion of standard and advanced courses by the American Red Cross.

Inspection of buses prior to the opening of school each fall by the State Highway Patrol is also required.

Institutes will be held in September and October to acquaint school bus drivers with these and other new regulations. Woods said adding that attendance would be compulsory for bus drivers in the independent school districts.

Woods estimated that at least 3,000 more buses are needed to supplement the present fleet of 6,500 which he described as "totally inadequate."

Too Many Unqualified Applicants Seeking Highway Patrol Jobs

AUSTIN—(AP)—Too many unqualified applicants are "wasting their time" in seeking State Highway Patrol jobs, Homer Garrison, director of the State Department of Public Safety declared.

"We want as many applicants as we can get—no limit as they are among the finest young men in Texas," he said. "We are already receiving a lot of applications, but many of the applicants can not qualify."

The 50th Legislature voted increased appropriations for 200 new patrolmen. Examination of candidates will begin in September and four training schools of about 90 men each will begin about Dec. 1, Garrison said.

Prospective patrolmen must be between 21 and 35, weigh not less than two or more than three pounds for each inch of height and must be in perfect physical condition. They must have lived in Texas at least a year and have not less than a high school education or its equivalent. Candidates must also stand a thorough character investigation.

CRUSTENE SHORTENING 3 87

Truman

(Continued from page 1) out," O'Mahoney said. "That evidence before the committee shows that the automobile industry, by private understanding, is rationing the output of automobiles. The steel industry is rationing the output of steel.

"In each instance, products are distributed according to the ratio of distribution before the war.

"Now the major oil companies are undertaking to ration petroleum products."

Asked just what kind of a production stimulating program he has in mind, O'Mahoney said only that the problem could be solved if businessmen and politicians, separately, "would stop trying to take advantage of one another."

"The trouble is," he went on, "somebody always wants to put somebody else in the hole."

Phillips Free Fair to Offer Gainesville Circus

The nationally known Gainesville Community Circus, which was recently described in Coronet as the "biggest home-town show on earth," will be the feature attraction at the fourth Annual Phillips Free Fair, being held today through Saturday. Brought to Phillips through the sponsorship of the Lions Club, the show will be making its first appearance in the Panhandle. Civic workers of Phillips have also lined up a complete County Fair and various other forms of entertainment to attract people of this area who would like to help them celebrate.

The show this year, which is the most extensive and elaborate in the show's history, is inspired in part by the signing of a contract with a Hollywood moving picture company to make a full-length motion picture, "Gainesville, USA" based on the remarkable history of the show.

The opening performance has been set for 8 p.m. Friday. Other performances are set for 3 and 8 p.m. Saturday.

Glacier Priest Makes Warm Friend

Father Bernard R. Hubbard, of the University of Santa Clara, Santa Clara, Calif., world renowned glacier priest, shows his movie camera to a small wide-eyed Japanese admirer during his recent visit to the Sacred Heart Academy in Tokyo. The academy presented a pageant as part of celebration in honor of his visit.

Most ant societies consist of wingless sterile workers and fertile, winged males and females which eventually leave the nests.

Four o'clock bloom in the late afternoon and through the night, but close when the sun comes out. The flower lasts but one day.

Rio Conference Opens Tomorrow

RIO DE JANEIRO—(AP)—Secretary of State George C. Marshall of the United States was due here today for an inter-American conference on hemisphere defense and delegates eagerly awaited his reaction to an Argentine proposal to include economic subjects in the talks, which begin tomorrow.

Diplomats have anticipated that the Argentine proposal, made in brief yesterday, may develop into a demand for a "Marshall plan" for the Western Hemisphere like that in the making for Europe.

Informed American sources, who said Marshall probably would state his views at the opening session, expressed belief that the United States would stand pat on its original intention to confine the parity to defense matters.

Marshall was expected to arrive on the former presidential plane, "The Sacred Cow." Others aboard included Sen. Vandenberg (R-Mich.), chairman of the Senate Foreign Relations Committee and Warren R. Austin, senior U. S. representative on the United Nations Security Council.

Sen. Connally (D-Tex.) arrived by ship this morning. The first of the U. S. delegates, headed by Norman Armour, Assistant Secretary of State, arrived yesterday.

The conference is to open officially at 4 p.m. (1 p.m. GST) tomorrow. In the morning, a preliminary closed meeting will be held at which a drawing will determine the order of seating and inaugural speeches by the respective delegates.

Cecil Travis of the Senators has a lifetime batting average of .318 for 11 years with Washington but never has led the American League in batting.

John Jorgensen, now Brooklyn's third baseman, set a record in 1942 that stood until this year when he hit in 21 straight games for Santa Barbara of the California League.

Two former Villanova athletes directed college nines against their alma mater this season. Ray Stovak coaches Kings Point and Emil Raitz is at Loyola.

Homer spoke of a rose with 100 leaves, which botanists believe may have been cultivated from a wild rose of the Caucasus.

So-called flying squirrels do not fly, but merely glide from one tree to another.

The aster was named after the goddess Astrae, from whose ears the plants were reputed to have sprung.

The apple, most widely cultivated fruit, is closely related to the pear family.

AUSTRIAN CHANCELLOR
 Leopold Figl turned down Communist demands for drastic government changes based on program of "closer co-operation" with Russia and is reportedly willing to resign.

Speculation Continues Over College Head

HOUSTON—(AP)—Speculation continued today as to whom will take over the presidency of the new Texas State University for Negroes. Yesterday Dr. Allen E. Norton Jr., 37, of the Houston College for Negroes, was named acting president of the institution.

Craig F. Cullinan, Houston oil man and chairman of the University's Board of Directors, said Norton will remain head of the institution until the president, chosen Tuesday by the board, takes over the duties.

Cullinan gave no indication as to whom the new president is or when his name will be disclosed. He said Norton has been "loaned" to the University by the Houston Independent School District.

'No Comment' Made on Johnson's Candidacy

AUSTIN—(AP)—A report in today's edition of the Dallas Morning News that United States Rep. Lyndon Johnson of Johnson City "is poised to throw his hat in the ring for the United States Senate in 1948" resulted in no comment when the congressman was questioned by newsmen.

In a story from its correspondent in Washington, the newspaper said Johnson "has told no one his decision but many of his friends firmly believe he has carefully weighed the issues and found them in favor of making the race."

A number of persons have been mentioned as candidates when Sen. W. O'Daniel's term expires next year. In the special election of 1941, Johnson came within 1,311 votes of defeating O'Daniel.

Surplus Aircraft To Go on Sale Soon

CHICAGO—(AP)—Nearly 700 surplus aircraft from fields throughout the United States will be offered at fixed prices to priority and non-priority bidders, the War Assets Administration announced today.

Priority bidders may file between Aug. 19 and Sept. 3 and commercial buyers from Sept. 3 until noon Sept. 8, the W.A.A. said.

Some of the planes are located at Hicks Field, Fort Worth, Texas.

Winnie McGraw Circle Meets With Mrs. Ennis

The Winnie McGraw Circle of the Women's Missionary Union of Calvary Baptist Church met in the home of Mrs. Fred Ennis, 621 N. Nails, Monday afternoon for Bible study. Mrs. Bert Mitchell taught the mission lesson.

Mrs. D. W. Mitchell gave the opening prayer. The devotional taken from Matthew and stressing the importance of prayer, was given by Mrs. Bert Mitchell.

The circle will hold an all day meeting August 25 in the home of Mrs. H. C. Blackshear, Cato Kingsmill Camp. Each woman is to bring a covered dish.

A refreshment plate was served at the conclusion of the program.

Miss Mary Lou Gantz Hostess to La Rosa

Miss Mary Lou Gantz was hostess to members of the Rosa Sorority when they met in her home, 426 Sunset Drive, Tuesday evening.

Colors for the club coveralls were picked and rushees and rush parties discussed during the business meeting, which was presided over by the president, Katherine Talley.

Members present were June Dalton, Arlene Proctor, Janice Doggett, Beverly Johnson, and Pat Williams. Miss Betty Lee of Lindsey, Okla., was a guest.

Some countries still look on America as the land of such bounty and such plenty that all they have to do is sit down and profit from our generosity.—Sen. Carl A. Hatch (D) New Mexico.

SOCIETY

PAGE 4 Pampa News, Thursday, August 14, 1947

Covered Dish Meal Given by HD Club

The Hopkins Home Demonstration Club met Tuesday at 10 a. m. to re-cover the living room suit in the Community Hall and have a covered dish luncheon. The Hopkins Parent Teacher Association furnished the material for covering the furniture.

At the lunch hour a frid chicken dinner was served from a linen covered table. The center piece was a large bowl of orchid dahlias.

Following the meal a short business meeting was held with Mrs. E. A. Dravin, presiding. Reports were given by Mrs. W. E. Melton and the secretary. Plans were made to work on Christmas gifts for the "Save the Children" project and also to make layettes for the World Church Service Foundation. Plans and rules for the Gray County Home Demonstration Exhibit which will be held in September were discussed.

A lawn picnic will be held by the club on Wednesday, August 20, at 6:30 in the home of Mr. and Mrs. Vern Savage for members and their families.

Mrs. C. F. Jones, and Misses Ann Hastings and Ernestine Edwards were guests. The next meeting will be held in the home of Mrs. T. D. Phillips August 26.

Janelle McDonald Given Party Tuesday

Little Janelle McDonald, who was two years old Tuesday, was given a birthday party by her mother, Mrs. Kent McDonald, at their home at the Fortland Gasoline Plant.

Game of interest to small children were played and pictures were made of Janelle and her little guests.

Each guest received small pink and blue favors filled with candy. Pink and white birthday cake and ice cream were served from small tables draped with crepe paper.

Children present were Aneta Deibert, Carolyn Gailman, Larry Franklin, Janeece and Gene Franklin, Charles McDonald, and the little honoree. Women attending were Mesdames Rusi Gailman, Bill Richards, W. O. Franklin, Perry Franklin, B. J. Shirley, and McDonald.

Gifts were sent by Mrs. L. J. McDonald, M. F. Waggoner, Mr. and Mrs. L. V. McDonald and Goldie Hollingsworth, Bakerfield, Calif., and Mr. and Mrs. L. W. McDonald, Hobart, Okla.

Collar Soils Fast In Summer Weather

Scrutinize the neckline of summer dress or blouse before you decide in favor of another wearing for the garment. Hot weather makes collars easy prey to make-up stains, body oils and perspiration.

A return appearance of a dress or blouse with a grimy neckline not only lowers good grooming standards but may make the soil harder to remove from the fabric.

Spotting experts claim that prolonged rubbing against the skin can grind powder and soil so deeply into a fabric that a neckline becomes hard to redeem.

If the collar has succumbed to stain, skillful spot cleaning may give you another wearing that's safe for the garment. Or, if collar is washable, it may be laundered independently of the garment. Best way to tackle either type of clean-up job is to stretch garment out on a flat surface, protect it from splashes with turkish towels, leaving just the collar exposed. For

Mrs. Abbott Honored At Layette Shower

Mrs. Richard Abbott was honored with a layette shower in the home of Mrs. E. J. Zmotony Friday afternoon. Hostesses for the shower were members of the Skelly Kingsmill Club.

Mrs. G. L. Craddock and Mrs. G. I. Harkrader directed several games and Mrs. Zmotony presented the large array of gifts.

The club will meet with Mrs. Leo Adair, Friday, August 22.

Angel food cake and lemonade were served to Mesdames Denver Allen, Leo Adair, M. M. Ely, H. N. Mayo, Harold Thornhill, Everett Butler, R. G. Candler, Jr., and Alfred Elwess.

spot cleaning, sponge with a good cleaning fluid. For washing, whisk a soft-bristled brush dipped in soap suds lightly over soiled surface. Rinse carefully and dry.

Should stains persist, put your problem in the hands of a professional dry-cleaner or laundry.

To keep raisins from molding in warm humid summer weather, store them in a tightly covered jar or tin. Raisins destined for use in fruit cup or salad will be extra plump and juicy if rinsed first in hot water.

Luncheon Honors Mrs. Ray Robbins

A luncheon, which was given in honor of Mrs. Ray Robbins, was held at the Schneider Hotel dining room Wednesday by members of the AAUW.

Mrs. Robbins, who was formerly an AAUW president, is moving to Phillips August 20, with her husband and family. Mr. Robbins has accepted a position as music and band director of the Phillips High School.

A sterling vanity gift of the AAUW, was presented the honoree at the conclusion of the luncheon. The presentation was made by Mrs. F. E. Leech.

Those present were Mesdames W. S. Dixon, George Friauf, Leslie Hart, Robert Sanford, Espar Stover, Dudley Steele, P. O. Gaut, J. E. Hood, Charles Lynch, Lee Harrah, L. B. Penick, F. E. Leech, Bob Bray, Ray Salmon and Misses Mary Jordan, Lillian Mullinax and Pearl Spauld.

Sub Debs Will Elect New Officers Tuesday

Miss Betty Barrett resigned her position as club president when the Sub Debs met Tuesday afternoon in the home of Lela Ward, 719 N. Frost.

Club elections will be held when members meet Tuesday afternoon in the home of Gertrude Lake, 404 N. Somerville.

Watermelon and iced drinks were served to Jean Patton, Donna Beege, Carol Cuberson, Dorothy Dixon, Peggy Hukill, Margery Dixon, June Myatt, Carol Sloan, Gertrude Lake, Sue Hart, Ottolene Patton, Phyllis Schleg, Betty Joyce Scott, Juniece Ann Fahle, and the hostesses.

Headlining current dress collections are artist-signed prints, such as the one above which adapts Waide Peirce's watercolor "Trout Fishing" in brown on white rayon crepe. Two finely pleated flounces encircle the skirt and a third makes capelet for the off-shoulder neckline.

Pink-Blue Shower Fetes Mrs. Waters

Mrs. S. E. Waters was honoree at a surprise pink and blue shower given by members of the Merton Home Demonstration Club Tuesday evening in the home of Mrs. T. G. Groves. Co-hostesses were Mrs. V. Smith and Mrs. C. L. Cudney.

A miniature lace covered basinette filled with tiny flowers was a centerpiece for the refreshment table.

Streamers of pink and blue ribbons directed the honoree to a basket of gifts.

Appropriate games, directed by Mrs. Cudney, were played.

Tray favors were dainty lace umbrellas and trifolded napkins pinned with gold safety pins.

Mrs. Smith poured the orange drink and Mrs. Groves served the white and pink cakes.

Those attending were Mesdames E. E. Elmeridge, H. H. Threait, A. M. Nash, C. H. Hammett, Jack Biggerstaff, Allen Say, V. S. Day, D. A. Caldwell, John Brandon, F. B. Warriner, T. J. Haney, J. C. Wannable, and L. C. Hageman. Mrs. J. C. Steward and Mrs. Frank Bailey sent gifts.

Man Being Held Here On Liquor Violation

Roy Edwards, Pampa, is being held in the Gray County jail charged with the illegal possession and sale of liquor.

Edwards was arrested yesterday by Liquor Control Board Agent Bill Money of Amarillo. Bond of \$300 was set against Edwards on each of three charges, totaling \$900.

The gardenia is a native of China but is named after Dr. Alexander Garden, a physician of Charleston, S. C.

White Deer Church to Hold Annual Harvest Service Next Sunday

WHITE DEER—(Special)—The First Baptist Church of White Deer will hold its annual homecoming and harvest service next Sunday. George Stokes, head of the speech department and publicity director at Wayland Baptist College, Plainview, will be the speaker at the morning service and following his message the annual harvest offering will be taken.

A basket lunch will be served at noon, and a musical program will be presented in the afternoon. There will be no evening service. Special music will be furnished by representatives of Wayland College.

Do You Suffer Distress Of Monthly FEMALE COMPLAINTS With Uncomfortable Fullness?

Are you troubled by distress of female functional monthly disturbances? Does this make you suffer from pain, feel nervous, restless, weak—at such times? Then go try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms.

In a recent medical test Pinkham's Compound proved remarkably helpful to women troubled this way. It's what Doctors call a uterine sedative. It has a grand soothing effect on one of woman's most important organs.

Taken regularly—Pinkham's Compound helps build up resistance to such distress. Also a great stomachic tonic!

Pampa's First White Child Visiting Here

It was in the year 1871 that a company of federal troops were stationed in and around what is now known as Gray County.

There was nothing that even resembled Pampa, but the metropolis of Mobeetie was buzzing along in a boom period. One of the soldiers in the outfit made himself a little extra money by building tables and chairs for Mobeetieites of that period.

His name was D. C. Davis who was later to move to Kansas, marry and have a son, Davis brought his son back to the Panhandle and the son, six-month-old Clyde Davis, was the first white boy to migrate into Gray County. All the other white settlers in these parts then were adults.

Little Clyde is a grown man now and practicing osteopathy in Bisbee, Ariz. He dropped into the office of Ivy Duncan this morning on his return trip to Bisbee from visiting his mother in Cisco.

Dr. Davis related this morning that the first night his parents came and settled here in 1885 they stood watch all night against Indian attacks. The Indians, he recalled, would always attack and kill white settlers, and steal their horses on a moonlight night. At that time

Pampa was nothing but a box car—all that and nothing more. From here the family moved southward to Lefors, then the county seat, and lived for a time about six miles south of Lefors at the North Fork of Red River. Here Clade was raised and went to school for several years. School then was held four months a year, June, July, August and September. He and his eight school mates had to ride as far as six and a half miles on horseback to attend classes. There was no school in winter because of the distance and intense cold.

As Clade grew up he traveled to Pampa several times when the city was just being born. It was a common sight to see herds of antelope watering at the fire guard that stood where the Dangier Refinery now stands. The boys used to hide nearby and shoot the antelope with 30-30 rifles. There was a two-fold purpose in killing the antelope. First the herds, number from 25 to 35,000 head, were drinking too much water

—a scarce commodity then, and secondly they were good to eat.

Clade left Pampa in 1910, went to school, and became a doctor. He migrated to Arizona where he is now practicing. His father, D. C. Davis, who turned Texas Ranger, died several years ago and was buried in Fairview Cemetery.

Officers Identify

Plane Crash Victims

MANCHESTER—Four Army men killed when an A26 bomber and an advanced trailer collided over the city and crashed to earth Tuesday night have been identified by officials at Gernier Army Airfield.

Personnel aboard the bomber identified last night included: Tech Sgt. Everett W. Hughes, 33, crew chief, of Derry, N. H., and originally from Dallas, Texas, who had 611 combat hours in European and Mediterranean Theaters.

with vigorous, refreshing

WHITE SWAN TEA

WE, THE WOMEN

By RUTH MILLETT
NEA Staff Writer

"I'm just not interested in cooking," the young wife said airily, and no one challenged the remark. Nobody who heard it even looked faintly surprised.

What if her new husband had nonchalantly confided to the same group, "I'm just not interested in earning a living." The reaction would have been, "Then you've got a lot of nerve getting married."

Actually, the girl who can't cook goes into marriage with as poor an attitude as the man who isn't concerned about his ability to earn a living.

A woman who can't cook isn't only cheating her husband, she is cheating herself. A man gets a great sense of satisfaction from giving his wife all of the comforts and luxuries he is able to provide. And a woman can feel the same satisfaction from being as expert a homemaker as possible.

"You'll find this next one a bit difficult—she likes to trade recipes!"

Leaves From a Correspondent's Life Note Book

By HAL BOYLE
NEW YORK—A young man sat slowly sipping a Martini while Tar, his Scottie, scratched himself boredly at the base of the barroom stool.
A tall young blonde girl came through the door, tugging a reluctant wire-haired Terrier by his leash.
Suddenly the girl's wire-haired Terrier gave a yelp of surprise and collided with the Scottie. In a second the two dogs tangled in a black and white whirling blur of fur and fangs.
"Oh Spooky!" wailed the girl. "You'll be killed!"
She wrung her hands as the bartender ran around and grabbed the Terrier's leash. The young man jerked back the Scottie and tied him to one end of the bar.
When he came back, the girl was bent over the trembling Terrier.

APPLICATION FOR LIQUOR PERMIT
The undersigned is an applicant for a Retail Liquor permit from the Texas Liquor Control Board and hereby gives notice by publication of such application in accordance with provisions of Section 10, House Bill No. 77, Acts of the Second called session of the 44th Legislature, designated as the Texas Liquor Control Act.
The Retail Liquor permit applied for will be used in the conduct of a business at The Clover Liquor Store, 817 So. Cuyler St., Pampa, Texas.

Sports Round-Up

SPORTS ROUNDUP
BY TED MEIER

(For High Fullerton, Jr.)

NEW YORK—(AP)—Abbie's First enjoyed a horse laugh at the Atlantic City race track on Tuesday. The two-year-old strawberry roan filly, after running second to Her Highness in the first race, was unsaddled and started toward the stables. She'd take a few steps, then rear back pulling the reins from the hands of her groom.

Finally she just dropped over on her side in full view of the crowd. There she lay without a move until the horse ambulance arrived. Thereupon she jumped up and walked docilely along. The last the boys in the pressbox saw, the groom was spraying water on her with a hose—maybe that's what she wanted all along, but men just don't understand the ladies, it seems.

OH, YEAH DEPARTMENT

Most folks think Jersey Joe Walcott will be duck soup for heavyweight champion Joe Louis when they meet in their non-title 10-rounder at Madison Square Garden in November. We don't think so. Jersey Joe can win, but we have a suspicion that he will give a better account of himself than most persons think.

PHILADELPHIA STORY

The Philadelphia baseball story is different this year. Last summer it was the Phillies who grabbed the headlines by finishing fifth and drawing over a million paid. Now it's the Athletics, under grand old Connie Mack, who are the surprise of baseball. Generally picked to finish last, the A's stand a good chance of finishing second behind the Yanks.

FOOTBALL PREDICTION

Robert Moore relays from Richmond that Coach Wallace Wade, of Duke, expects A.D. Derogatis, 215-pounder from Newark, N. J., to be one of the best tackles in the country this fall. Wade seldom goes overboard so Derogatis must be some baby.

Byron Nelson Will Play Exhibition Match

ARLINGTON—(AP)—Byron Nelson, golf's greatest money winner, will appear in an exhibition match here today in the interest of a new stadium at North Texas Agricultural College.

Nelson will team with Betty Mims White, NTAC ex-student, who recently won the Dallas Women's Amateur championship. They will be opposed by Raymond Gafford, low scoring Fort Worth pro from Riddle, and Annela Goldthwaite of Fort Worth, many times women's state champion.

The match, scheduled to start at 2 o'clock, is the first of a series of events to raise funds for a \$100,000 memorial stadium, commemorating more than 200 ex-students who died in action and more than 6,000 who served in armed forces in World War I. Players in today's match are donating their services.

The Army Athletic Association has loaned the motion picture company producing "Army Black and Gold" the entire file of West Point films on Glenn Davis and Doc Blanchard.

State Softball Tournament Will Start Tomorrow

Sports Round-Up

SPORTS ROUNDUP
BY TED MEIER

WICHITA FALLS—(AP)—Thirty-three top state softball teams will swing into action at 1:30 p. m. tomorrow in the Texas Amateur Softball Tournament, Friday through Monday.

Fifteen games are set for tomorrow, 12 for Saturday, eight for Sunday with the championship game Monday night.

The 33 teams will play in three-ring circus style using three local softball diamonds almost continuously Friday through Sunday.

Among the entries are the Lake Jackson All-Stars, last year's champions, and the San Angelo Electric Service Co. Texas Amateur Athletic Federation champs.

One of the many top-notch hurlers to be present is the defending champs' Gene Faulk. He holds the summer's strikeout record with 40 to his credit in a 26-inning tilt. He also has 10 no-hit games behind him in the season's competition.

Ray Weeks of the San Angelo Electric also carries a formidable 1947 record—34 wins against seven defeats.

The Lofland Co. softballers of Dallas will bring Forrest Kennedy and Lawrence Smith to head their pitching staff. Smith has three no-hitlers to his credit, including one perfect game.

Other two to watch are James Johnson and Jimmie Allcock who come from Wichita Falls' own district 9.

Johnson hurled his Seymour All-Stars into the District Championship with a couple of no-hitlers and five straight wins. Allcock who started for the Electra Conoco All-Stars, runners-up, hung up all kinds of meet strike-out records by ranning 21 outters in one seven-inning game and running his five-game journey total to 94 with 13 whiffins in the championship encounter with Seymour.

LOUISIANA ALL-STARS

SHREVEPORT, La.—(AP)—Both North and South squads were in good physical condition today as they tapered off in preparation for the all-star contest on-tomorrow night which will climax the annual Louisiana High School Association Coaching School which opened here Monday. The coaching school ended its third day yesterday with morning and afternoon lecture sessions. The school ends Friday.

Baled hay requires less than one fifth as much storage space as loose hay.

Adamson's Leopards To Play Little Rock

HATTIESBURG, Miss.—(AP)—The Adamson Leopards of Dallas will meet the Little Rock Cougars today as the Region 6 American Legion Junior Baseball Tournament goes into its second day. Winner of today's game will compete in Saturday's regional finals.

In yesterday's opening matches, Adamson downed Jackson, Miss., 6-2, and Little Rock whipped the national champion Jesuit Blue Mays of New Orleans, 6-0.

The losers also meet today with the victim of the tilt dropping out of competition.

Gold, silver, cattle and oil are important products of Mexico.

Beers Gets 20th Win as Buffs Beat Tulsa Oilers 3-1

Sports Round-Up

SPORTS ROUNDUP
BY TED MEIER

(For High Fullerton, Jr.)

The Texas League, always known as a pitcher's circuit, especially when the weather gets hot, had its first 20-game winner of the season today.

Clarence Beers notched it last night as he set down the Tulsa Oilers 3-1 on six hits while Houston maintained its five and one-half game lead over the field.

Elsewhere there were other top pitching stints, featured by Joe Orrel's one-hitter in Dallas' 8-0 tlicking of the Shreveport Sports. Marilyn Stuart gave Oklahoma City only seven blows as he hurled San Antonio to an 8-2 triumph.

Fort Worth's Charley Samaklis beat Beaumont but he was touched for 12 hits. The Cats, however, mauled Beaumont batters for 14 halloos while Fort Worth coasted to a 13-0 victory.

Robinson Winning Acclaim As Outstanding Base Runner

By The Associated Press

Jackie Robinson, Brooklyn's darling young man on the baseball field, was being acclaimed today as the greatest base runner the major leagues have seen since the departure of Ty Cobb.

Robinson made two hits in yesterday's 10-5 Dodger victory over the Boston Braves which increased Brooklyn's first place lead over the idle St. Louis Cardinals to three and a half games.

After Johnny Sain struck out Ed Stanky, Dodger leadoff batter in the first inning, Robinson outlegged a bunt down the third base line and when Sain, in his anxiety to nip the speedster, threw wild past first, Robinson raced all the way to third.

In the fifth Robinson crossed up the Braves with a push bunt. Before Boston got out of the inning the Dodgers had scored five runs and taken a safe lead.

Behind the six-hit pitching of Lefty Ken Heintzelman, the Philadelphia Phillies made it two in a row over the New York Giants with a 5-2 victory.

Hal Newhouser, entrusted with the job of preserving Detroit's two-run margin over the St. Louis Browns in the eighth inning of the second game of a twilight-night twin bill, gave up three runs and dropped his 13th decision against 11 victories. The Brownie 6-5 victory gave them a split as the Tigers, behind Fred Hutchinson's nine-hit pitching, won the opener 7-1.

Bob Feller failed to hold a 7-4 Cleveland lead as the Chicago White Sox pounced upon his fast ball with a four-run uprising in the seventh to defeat him and the Indians 8-7.

The New York Yankees retained their 11-game margin over the second place Boston Red Sox in the

The Philadelphia Athletics 8-2 at the Yankee Stadium. Coming up with a five-run first inning when they clouted three home runs, the Red Sox took their eighth straight home victory from Washington 10-5 before 34,451 customers.

Four home runs, two by Catcher Homer Howell, one with the bases loaded helped the Pittsburgh Pirates whip the Chicago Cubs 10-2.

Semi-Pro Baseball

DENVER—(AP)—With two straight tournament wins on their record, the Coors Brewers of Golden, Colo., headed today for the National Semi-Pro Baseball Tournament at Wichita where they play the curtain-raiser tomorrow night against the Kansas champs from Wichita.

Golden captured the 23rd annual Denver Post tournament last night by whipping the Cincinnati Crescents a 19-8 thalloping.

(For High Fullerton, Jr.)

After Johnny Sain struck out Ed Stanky, Dodger leadoff batter in the first inning, Robinson outlegged a bunt down the third base line and when Sain, in his anxiety to nip the speedster, threw wild past first, Robinson raced all the way to third.

In the fifth Robinson crossed up the Braves with a push bunt. Before Boston got out of the inning the Dodgers had scored five runs and taken a safe lead.

Semi-Pro Baseball

DENVER—(AP)—With two straight tournament wins on their record, the Coors Brewers of Golden, Colo., headed today for the National Semi-Pro Baseball Tournament at Wichita where they play the curtain-raiser tomorrow night against the Kansas champs from Wichita.

Golden captured the 23rd annual Denver Post tournament last night by whipping the Cincinnati Crescents a 19-8 thalloping.

Only four percent of the land surface of Norway is cultivated.

Portland's Open Golf Derby Gets Under Way

PORTLAND—(P)—Portland's \$10,000 Open Golf Derby got under way today with Ben Hogan figuring as the man to beat and 99 rivals wondering where he would stand at the finish of the 72-hole event Sunday.

Bethin Ben from Hershey, Pa., although claiming to be slightly off peak form, led off as the logical favorite to make it three victories in a row at the Portland Country Club course. He won the National PGA championship here last year and in 1945 set a 27-under par scoring record of 261 for 72 holes.

Jimmy Foxx, ex-Athletic and Red Sox slugger, is playing again. He's with the Staten Island Dodgers, a New York semi-pro nine.

MACKENZIE'S Column

By DEWITT MACKENZIE AP Foreign Affairs Analyst

This a great date in world history, for today and tomorrow mark the formalization of India's independence after two centuries of British rule.

The unique circumstance of a double birthday is in itself a matter of moment, for it means that the great sub-continent—home to approximately one fifth of the globe's population—is being partitioned.

British India has been divided into the sovereign dominions of Pakistan (Moslem) and India (Hindu). The 562 princely states of native India are in process of affiliating themselves with one or the other of these new members of the DEWITT MACKENZIE British Commonwealth of Nations. Most of the princes have elected to cast their lots with India.

This is Pakistan's birthday, and a great celebration is being held in the capital city of Karachi, the big sea and air port on the northwest coast.

Tomorrow will be the turn of the Dominion of India, whose capital is that of the former British dominated government—New Delhi. Independence will be proclaimed with ceremony and rejoicing.

The partition of the peninsula into separate governments has been necessitated by the inability of the Hindus and the Moslems to compose their age-old and bloody religious differences. So great is the division that it hasn't even been possible to establish a federal government which would coordinate the efforts of the dominions and the princely states affiliated with them.

That is the reason why you read in your newspapers today that communal strife between the Hindus and the Moslems is causing bloodshed and destruction in various parts of the peninsula.

It would be too much to believe that we have seen the last of this fighting, or to expect the dominions to work in harmony at the outset. The very nature of the territorial division is an invitation to trouble, because Pakistan (the smaller dominion) is mainly agricultural while India contains not only agricultural resources but virtually all the manufacturing which has made India the eighth industrial nation of the world.

To this must be added the fact that Pakistan is divided into two widely separated parts so that the dominions struggle about and cut into each other like a jigsaw puzzle.

Jesters Leave on Guatemala Visit

AUSTIN—(P)—Gov. Beauford H. Jester with his wife, his daughter, Joan and Beauford Jr., was on his way today to Guatemala for a week's vacation.

The Jester family left here last night by plane after the Governor had arrived earlier in the afternoon from his trip to Great Falls, Montana, where he successfully sought support of the Interstate Oil Compact Commission for federal legislation which would deed submerged lands to states.

Before his departure on his brief vacation, the Governor related that his plans on his return include consultation with members of the Texas delegation in Congress on legislation to protest the state's interests in the tidelands matter, visits to eleemosynary institutions, and a study at first hand of all services and functions of the state.

He said the full schedule for the remainder of the summer and fall may include his acceptance of further invitations to local celebrations, fairs and meetings, and that it might be necessary to cancel some engagements already made tentatively.

While in Guatemala, the Jesters will be the guests of Ambassador R. J. Kyle, former dean of agriculture at Texas A. and M. College. They plan to leave on the return trip to Texas Aug. 21.

Texarkana Plumbers Get \$2 Hour Pay Scale

TEXARKANA—(P)—Under a new \$2 per hour pay scale, union plumbers were back at work on projects here today, ending intermittent strikes which extended back to April.

The return to work decision came after an agreement with Texarkana master plumbers to raise the local scale from \$1.75 to \$2 per hour, according to John Stuckey, secretary of Local 237 of the AFL Plumbers and Steamfitters Union.

Man Released After Hearing

DALLAS—(P)—Sherman B. Standley was a free man today following hearing on a writ of habeas corpus in which Federal Judge T. Whitfield Davidson ordered his release from prison.

Standley was sentenced to two years by Federal Judge Allen B. Henny in Houston for narcotic violation in September, 1944. Five days later, according to testimony and records introduced, the federal marshal turned Standley over to state authorities in Harris County where he was given a four-year prison term which he served in Texas.

Standley testified that the government then took him in custody and placed him in the Federal Hospital at Fort Worth. This was in April and, he said, he was told to serve the two-year federal sentence given in 1944.

Judge Davidson held that Standley's sentence started in 1944 as far as the government was concerned and that he served his federal time while in the Texas Prison System on the state charge.

Following the hearing, Standley walked away a free man.

The United States Trotting Association has published a trotting and pacing guide listing the leading drivers and best races of standardbred.

Capt. Fred Moseley Leading GI Tourney

COLUMBUS—(P)—Capt. Fred Moseley of Norfolk, Va., medalist with a 36-hole total of 140 for the qualifying round, led the field today as 32 of the best U. S. Army golfers began match play over the rain-soaked Fort Benning course.

In yesterday's tour of the course, Moseley, of the Second Air Transport group of Fairfield Calif. came in with a six-under par 66 including seven birdies.

Col. Jamie Gough of Mercedes, Texas, posted a 144.

There are four main cities of New Zealand: Auckland, Wellington, Christchurch and Dunedin.

FEATHERWEIGHT FIGHT

EL PASO—(P)—Ramon Ruiz, leading contender for the Texas featherweight title, took a 10-round split decision over Frankie Serrano, Juarez, Mexico, before 1,000 fans in the Juarez Building last night. Both fighters weighed 118 pounds.

In Norway, 94 percent of the farms are owned by the men who operate them.

Husbands! Wives! Want new Pep and Vim?

Thousands of couples are weak, worn-out, exhausted, and because body lacks iron. For new vim, vitality, try Oxtone Tonic Tablets. Contains iron you, too, may need for pep; also vitamin B₁₂. No dizziness—no money back. For sale at all drug stores everywhere.

In many species of birds, the male and female take turns sitting on the eggs. The lungs of many birds are extended by connections with hollow bones.

Farm Demands to Continue Next Year

NEW YORK—The Agriculture Department sees no slump through next year in demands for continued all-out production down on the farm, says Business Week.

"First of the '45 planting goals for wheat, sets a record target of 75 million acres; it compares with a call for 70 million acres this year, a war-years' average of 62 million. (But farmers overplanted this year's goal at least 5 million acres.)"

"Potato planting goal for '48 bids for another 275-million-bu. yield and the spring pig goal, to be announced soon, will be at least equal to last year's target—which farmers failed to meet—and may go higher."

"Goals for spring-planted crops won't be out until November, but they'll add up to an official request for another year of record production."

Oil Field Worker Is Electrocuted

LAFAYETTE, La., (AP)—Harold Rich, 31-year-old oil field worker, was accidentally electrocuted yesterday while loading a drag line at the Canton Oil Field in St. Landry Parish, Parish police said. The line came into contact with a live wire causing instant death.

Survivors include the widow here, the former Rena Strange of Henderson, Tex., and a five-year-old son, Walter Neil.

Low Cost Farm Loans

LOW NET COST is one of the many rights and special benefits passed back to borrowers because they are the owners.

For 30 years the Land Bank System has been helping landowners pay out to debt-free ownership.

Now is the time to tie down long-term credit with a Land Bank loan that couples safety with economy.

Surveys Show Large Percent Of Wheat of Inferior Grade

COTTON CROP DESTROYED—Frank Chalupka, Crosby, Tex., cotton farmer, examines a stalk of cotton on his farm which has been destroyed by chemical weed killer. One of many farmers of that section hit by the blight, Chalupka says he is through with cotton. Dan Clinton, Harris Co. Tex. agent said the damage was definitely due to 2,4-D. In Washington, the House of Representatives has called on the Sec. of Agriculture to determine whether the new weed killer (2,4-D) the department developed is harmful to cotton and other crops. (AP Photo) (7-26-47).

Recent surveys show that 25 percent of the recent wheat harvest in Gray County was of poor quality and 10 percent of Roberts County wheat was of an inferior grade, stated Ralph Thomas, County Farm Agent, this morning. These inferior grades of wheat are the Chief-Kan and the Red Chief varieties. The same survey, stated Thomas, showed that the North Plains had 21 percent of their wheat acreage in the low-type varieties and the South Plains, showed an 18 percent acreage of the varieties.

Thomas continued by stating that the overall figure, however, of poor quality varieties is so high that millers throughout the country are either refusing to purchase Southwestern wheat or are discounting in some manner Southwestern wheat. As an example, carloads of wheat reaching the Kansas City market from recognized poor quality wheat areas have been known this season to have failed to receive a bid of any kind. Other carloads of poor quality wheat have been taken at very low discounts at certain terminal markets. Texas Panhandle wheat, particularly from the recognized poor quality variety producing areas, has not enjoyed a favorable market in comparison to good quality producing areas. Many carloads of Chief-Kan and Red Chief wheat even of high protein have either failed to receive bids at terminal markets or have suffered as much as 16 cents per bushel discount from the price paid for good quality wheat.

As a whole the Southwestern area of Kansas, the Panhandle and western parts of Oklahoma and Texas are suffering from an unfavorable reputation on quality wheat. Thomas continued, Texas wheat elevators are being forced to purchase wheat for bakers flour from the recognized high quality wheat producing states of Nebraska and Spring wheat states. Most Chief-Kan and Red Chief wheat is being shipped out of the country. Of course, you can appreciate that this will "kick back" on our area for future export business.

The need for changing over to only good quality varieties has now reached a state of necessity to head off further decline of the Texas wheat quality reputation and further discrimination against Texas wheat.

For the Texas hard red winter wheat producing area, the new varieties of Comanche, Westar, Triumph and Wichita have given satisfactory yields in most cases. These varieties are of acceptable milling and baking characteristics and are recommended by State and Federal Agricultural Experiment Stations. Older varieties such as Kanred, Tenmarq and Turkey are of very good quality and where they are doing well on the farm are recommended, Thomas concluded.

South Africa has no jungles being in the South Temperate zone.

As I See It--

By SAM LEWIS VETICH
Washington, D. C.
WASHINGTON—Till, stooped, earthy Hugh Hammond Bennett, that tireless fighter for a permanent American agriculture, hailed himself before the first national Methodist Rural Life Conference the other day and warned the assembled ministers and laymen that as the soil goes, so goes the soul. Conservation and public buildings necessary to a strong church and a strong nation.

Hugh Bennett is the sort of fellow to whom we dedicate schools. As an example, carloads of wheat reaching the Kansas City market from recognized poor quality wheat areas have been known this season to have failed to receive a bid of any kind. Other carloads of poor quality wheat have been taken at very low discounts at certain terminal markets. Texas Panhandle wheat, particularly from the recognized poor quality variety producing areas, has not enjoyed a favorable market in comparison to good quality producing areas. Many carloads of Chief-Kan and Red Chief wheat even of high protein have either failed to receive bids at terminal markets or have suffered as much as 16 cents per bushel discount from the price paid for good quality wheat.

As a whole the Southwestern area of Kansas, the Panhandle and western parts of Oklahoma and Texas are suffering from an unfavorable reputation on quality wheat. Thomas continued, Texas wheat elevators are being forced to purchase wheat for bakers flour from the recognized high quality wheat producing states of Nebraska and Spring wheat states. Most Chief-Kan and Red Chief wheat is being shipped out of the country. Of course, you can appreciate that this will "kick back" on our area for future export business.

The need for changing over to only good quality varieties has now reached a state of necessity to head off further decline of the Texas wheat quality reputation and further discrimination against Texas wheat.

For the Texas hard red winter wheat producing area, the new varieties of Comanche, Westar, Triumph and Wichita have given satisfactory yields in most cases. These varieties are of acceptable milling and baking characteristics and are recommended by State and Federal Agricultural Experiment Stations. Older varieties such as Kanred, Tenmarq and Turkey are of very good quality and where they are doing well on the farm are recommended, Thomas concluded.

Jester Appoints Hospital Council
AUSTIN—(AP)—Appointments to the 12-man Advisory Hospital Council of Texas were announced today by William L. McGill, executive secretary to the Governor, acting in the absence of Gov. Beauford H. Jester.

The Governor's appointees are by professions:
Hospital administrators — Dr. Thomas Head, San Angelo; Dr. Harvey Renger, Hallettsville; Dr. Joseph D. Nichols, Atlanta; Dr. Horace Baker, Willis Point.
Licensed physicians—Dr. R. W. Kimbro, Cleburne; Dr. Merton Minter, San Antonio.
Registered nurse—Mrs. Josie M. Roberts, Houston.
Registered architect—Bert Giescke, Austin.
Representatives of the public at large—Ben Templeton, Brady; C. T. McLaughlin, Snyder; Meade Griffin, Plainview; J. Walter Hammond, Waco.

The Advisory Hospital Council, authorized by the 50th Legislature, was created in order for Texas to qualify for a Federal grant for surveying and planning public health facilities.

Representation of hospital administrators, physicians, registered nurses, architects and general public was required by the Federal law authorizing these grants.

Mobeetie Items
MOBEETIE—(Special)—Mr. and Mrs. C. A. Dyssart visited in Wellington and Childress Saturday.

Mr. and Mrs. Tince Williams and Peggy and Ruth Roach of Fort Worth visited in Pampa last week.

Mrs. Willard Godwin and children, Drew, Billy and Jay, and Byron St. John are visiting in Drumright, Okla.

Mr. and Mrs. J. N. Flowers of Amarillo visited Mr. and Mrs. John Tschirhart over the weekend.

Miss La Rue Flanagan visited her cousin, Betty Jean, at Pampa, and a college friend, Wilma Adams, at Skellytown last week.

Mr. and Mrs. A. B. Lancaster and Betty Jean were business visitors in Wheeler Friday.

Geoffrey Caldwell visited last week in Canadian with his grandmother, Mrs. S. E. Arnold.

Mrs. R. E. Zell is home from a hospital in Oklahoma City, where she received medical treatment.

Mrs. V. J. Sharp and children of Pampa visited in the Dan Files home last week.

And speaking of hybrids here's one for the housewife, too. Might call it a cross between a paper towel and a cloth towel. Anyway, seems the fabric industry has come out with towels and napkins which are throw-away kind, just like paper towels, but they feel and work just like cloth towels, mainly because they are actually made out of non-woven rayon staple. They feel like a towel is supposed to feel, but look like paper and are priced like the paper towels. Sounds all right.

This hybrid business could get complicated.

The unprecedented prosperity of our nation must not be a cause for true self-congratulation—President Truman.

Through the Years Hybrids Have Been Important in Farming

You hear a lot about "hybrids" these days. Dictionary says a "hybrid" is the "offspring of two animals or plants of different species, varieties, etc."

Probably the hybrid that has had the most to do with American farming down through the years was produced long ago when they didn't have the range fenced off, the donkeys got in with the mares, and mules started showing up. That's not the official history of how hybrids got started, but as good as any for our purpose. The mule is still a permanent fixture on a lot of farms, and he's hybrid first class.

Anyway, crossing things up has come a long way since the first hybrid was produced, whatever it was. Now we've got hybrid plants, hybrid animals, hybrid everything. A lot of stockmen have quite a bit to say for corn breeders, who have been a Brahman and a Hereford. And hybrid corn is going great guns all over the country.

Up in the corn belt, where 49 and 50 bushels to the acre is nothing to talk about, some of those states are putting up to 99 percent of their corn acreage into hybrids. We haven't gone that far in Texas yet, but after all, we're not in the corn belt. At that, hybrids are coming along in this state, with something like 35 percent of Texas' corn acreage in hybrids now.

Heard of a man not long ago that's been converted into a hybrid corn believer. He's John Kubitzka, who farms near Burton, in Wainwright County. For a long time, Mr. Kubitzka has been a first class producer of native, open pollinated corn. He's been growing his own selected variety of native hybrid corn for the past 20 years. He has always been proud of his yields and neighbors flock in for miles around to buy seed from him. Seems last year he put in a small plot of hybrid corn, and he'd like to see what would happen. What happened was the hybrid outproduced his favorite native variety by about 25 percent. But he didn't stop raising. Good example of that is in Miami County, where J. W. Stufflebeam, Jr., county agent at Cameron, launched a wide-spread hybrid corn demonstration plan among the H Clubbers. Seed corn was distributed last spring to 50 boys living in every nook and corner of the county. They have the corn up and coming, and the plan is to feature the grain in a special hybrid corn show at Cameron this fall. So the grownups can see what can be done with adapted varieties of hybrids. The corn was planted alongside native varieties so checks could be made on differences in yields.

For quite a while the agronomists have been saying that hybrid corn will some day replace almost completely the old varieties, and it looks now like Texas farmers won't cross them up in that prediction.

Hirshberg May Challenge Case
NEW YORK—(AP)—Counsel for Harold E. Hirshberg, 29-year-old chief signaller who was convicted yesterday by a Navy Court Martial of striking two fellow prisoners in Japanese Prison Camps, says he may challenge the board's jurisdiction in the case.

Lt. Cmdr. John J. O'Neil, the petty officer's counsel, said he was considering having a civilian attorney file a writ of Habeas Corpus in Federal District Court in Brooklyn. The action would contend that the Navy's raising Hirshberg an honorable discharge March 26 last the right to try him for offenses committed before that date. Hirshberg had re-enlisted the next day.

Meanwhile, Hirshberg is awaiting announcement of his sentence by Rear Adm. Monroe Kelly, commander of the Third Naval District, to whom the board's verdict was sent for review. It is subject to further review by Rear Adm. Archibald Colclough, Navy Judge Advocate General.

The apricot is a native of China but from early times was cultivated in Armenia.

Boom in Farm Real Estate Continues Despite Warnings

WASHINGTON—(AP)—The war-inspired boom in farm real estate continues to grow despite repeated government warnings that there is danger of a collapse that would bring financial ruin to those buying on credit.

In its latest regular report on the boom, the Agriculture Department said farm real estate values for the country as a whole increased two percent during the four months ended July 1, boom compared with 1946.

Average values are 10 percent above a year ago, 95 percent above the 1935-37 pre-war average and only 5 percent below the 1920 inflationary peak. A sharp break in the 1920 prices tossed into bankruptcy thousands of farmers who bought at inflated prices.

The latest warning on land prices was issued by a conference of farm real estate prices held two months ago at the direction of President Truman. The Chief Executive expressed fear that a continuing land boom could bring disaster to farmers and credit institutions.

The conference urged buyers to use more caution in paying inflated prices and urged banks and creditors adopt lighter loan policies.

The department also reported that the volume of farm sales at inflated prices the past year was the highest on record.

The department said sharpest increases in land values during the past four months was in the wheat and livestock producing areas, particularly range areas. A slight falling off in values was reported for southern states. It has been in the latter area that the sharpest increases have occurred over pre-war levels.

Explaining this difference, the department said sharply increased receipts from wheat corn and livestock in the west central and range states are reported, while returns from fruit and truck crops in the Atlantic states have been significantly below those of last year.

The report showed that the proportion of farm loans by commercial banks and individuals continued to increase. In 1947, for example, commercial banks made only 12 percent of farm loans. The percentage now is 27. The percentage by government credit agencies had dropped from 14 to 7.

Texas Future Farmers To Be Given Awards By Santa Fe Railway

Fifteen educational awards to outstanding young future farmers in Texas will be offered by the Santa Fe Railway in continuance of its annual educational program. It is announced by President Fred G. Gurley of that company.

Winners will be selected by the State Department of Agricultural Education under the direction of R. A. Manire, Director, Agriculture Education Austin. The awards are cash sums approximating the expense incident to attendance by the winners at the National F. P. A. Convention held in Kansas City in October. Winners of the Santa Fe award must reside in counties served by the Santa Fe Railway.

In renewing its annual offer, Gurley said the Santa Fe this year will extend its awards to livestock and meat judging teams, or American farmer candidates, or both, within the quotas previously observed for each state in which the awards are made.

"Livestock and meat judging will be revived at the F. P. A. Convention in Kansas City in 1947 for the first time since the war," Gurley said, "and judging teams of those qualifications will again be included in our awards this fall as well as our delegates and candidates for the American farmer degree."

In addition to Texas, other states continuing to benefit under the Santa Fe's educational award sys-

Now at Less Than Prewar Prices
Quality is up!

While prices of so many things are cating, we are keeping B.F. Goodrich and surer footing from the wider, tire prices down. We've pegged tire prices at well below prewar. But B.F. Goodrich Silvertown quality is flying higher and higher... head-

most quality that starts with more and surer footing from the wider, huskier "road-level" tread. This broader tread gives your car a safer foothold... adds obedience to your brakes... outwears prewar tires.

by when this odd case developed. A badly beaten man was in a hospital. His two buddies who took him to the hospital, and solicited waiting for his recovery, admitted they had beaten him.

The victim himself said everything was all right, that his pals had just carried out a bargain.

The trio formed a sort of Three Musketeers, and had an ironclad agreement that if any of them got into trouble without reason, the other two should punish the offender.

The victim admitted that he had become intoxicated and then started a fight. His companions, in bearing him later, were only carrying out the agreement.

The police shook their heads, and let the men go.

A Beaumont stenographer points out that there are two sides to everything. Recently businessmen explained that if any of them got into trouble without reason, the other two should punish the offender.

The Beaumont girl said, "We stenographers have a few pet peeves

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's give many relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

DEATH of a DOLL
By Hilda Lawrence

XXXI

THE mask, the costume, and the music box were on Dr. Kloppel's table. Mark pointed to the note. "So," he said, "that's the key. If that isn't Ruth Miller's mask, it's a copy."

"Copy?"

"The girl who killed Ruth needed a mask with a mole. She needed to show her ugly, hidden passion to the public and give the impression that Ruth still walked the earth. She had the mask she swiped from Miss Campbell's room, but it was what you might call unadorned. So she removed Ruth's mask and substituted Miss Campbell's to look like Ruth's. This mask rode down in the elevator with Mrs. Marshall-Gill when Ruth was dead."

"But Mr. East! If she took the original away from the poor girl, it would be—I mean it wasn't a very neat—"

"Listen. If this is the original, it isn't stained because she got hold of it first. Get me, first. And that would be easy, too easy. Ruth Miller at bay, like a little cottontail facing a man with a gun. No trick at all. Simply snatch it, do the grisly job, substitute the other when she was half-conscious. Go on downstairs and parade around. A beautiful alibi, for self and victim. I don't know why I haven't heard it. Why hasn't somebody given me a wide-eyed stare and said, 'Oh, I'm sure I saw her at 9:30 or 10. The mole, you know. I think I even called so-and-so's attention to her.' Why hasn't somebody given me that?"

"Maybe because it wasn't needed."

MARK turned and twisted in his chair and went on with a sudden, repressed fury. "Somebody lied to me! Not a good, big lie that I could see coming a mile

also," and listed five:

1. When you have an argument with your wife, don't come to the office with a long face and a sour disposition.
2. Too much cigar smoke; our clothes smell of it constantly.
3. Too many spicy jokes.
4. Loud ties; they blind us.
5. Too much dictation at a quarter of five!

In Midland, however, they're not

COUGH-BRONCHITIS

SIPTOL (PLAIN)

Gives you instant relief to a stuffed-up head-cold and cough, throat irritation and hoarseness due to a cold. Siptol loosens the phlegm in the nasal and bronchial tract, and makes breathing easier and checks excess coughing.

worried about cigar smoke or odd bargains. They have a baffling mystery on their hands.

Not long ago some workers were digging a drainage ditch in an alley when they struck something they thought was a safe. However, they figured it might be a gas main and left it there.

Later, a city employe operating a road grader struck the thing with the blade. It looked like a safe, but to be sure, he called the gas company. The gas company said no, it wasn't a gas main.

It was a safe all right. It was buried on its side. With considerable difficulty the door was broken open, but contents were soaked and aged. There were some papers, enough to identify a company known as the Hooper Boys. Old timers remembered the thing had been buried a third

of a century. And Midland's conversation for some time was wrapped around the question: "Why was the safe buried?"

RADCLIFF BROS. ELECTRICAL CO.

"My girl is the kind who couldn't take it when she was five years old and some other kid in the class was prettier than she was. When she was ten, she couldn't take it when some other kid got better marks in school or had more spending money. She can't take anything now, anything that makes her feel inferior, imposed upon, or gets in her way. Anybody who does that, even unconsciously, is asking to be a dead duck. My girl will gamble on the impossible and bring it off, because she runs around with people who've been taught that nice girls don't do bad things. Nice girls do anything and everything, as your stark trade must have taught you. My girl gambled on Ruth Miller. Ruth Miller was a threat, still unclassified, but a threat just the same. So out she went. And for several weeks it looked like success. Then I came in, then Foy came back. That must have burned her up, but it hasn't finished her, not by a long shot. Look at Lillian Harris. One of these nights I'm going to wake up screaming because my girl is walking in my sleep. Walking and talking, telling me that if she's caught she'll blow the place up and herself with it. She's capable of it, too. If she can't have what she wants, then nobody else can. Life is cheap. See?"

Without warning, a door slowly opened in the back of his mind, a door that had been closed and camouflaged. He could almost see a face peering through. It made him whistle and kept his mouth open after the whistle had stopped. Dr. Kloppel looked at him interestedly. Mark didn't see him, he was seeing someone else. His girl.

She had staggered her appearance, dressing for the part each time. She had gone upstairs as herself, done her work, and returned wearing Ruth's mask. Then upstairs again, then down as herself once more. If she used the second floor as a base, she could do it half a dozen times. She wouldn't be missed, not gone long enough at a stretch. She had broken it up, spread it out; there one minute, not there the next. No wonder . . . no wonder . . .
