Mrs. Neva Myers is visiting friends and relatives in Clovis, N.M.
Mr. and Mrs. J. I. Maloney, former local residents, were visiting in Wheeler Thursday with old friends.

Rogers Defends Farmer In Weekly News Letter

In his weekly newsletter to the people of the 18th Congressional district, Pampa's Congressman Walter Rogers discusses the farmer and his relation to the American way of life. He says, "Yesterday and today the House has been embroiled in bitter debate concerning the future of the American farmer. The bill under discussion is H. R. 12, which primarily fixes support on the six basic commodities, cotton, corn, wheat, peanuts, tobacco and rice at 90 per cent of parity for the crop years 1955, 1956 and 1957. Under the economy as it presently stands in this country, the American farmer is entitled to the passage of this bill. However, you will know the fate of the legislation by the time this letter reaches you. I sincerely hope that it is good. I will introduce an amendment to the bill in a very few hours which will increase the price supports on grain sorghums. This is very important to our section of the country, because grain sorghums are the major cash crop in our section of Texas and in many portions of Kansas, Oklahoma, Colorado and New Mexico. I expect great opposition to the amendment from people who understand more about arithmetic than they do human beings. The amendment will probably fail because it is designed to contribute to the economic equality of the American farmer. There has been a propaganda campaign going on in many of the urban areas against the American farmer. He has been portrayed as a scoundrel who has been milking the public treasury and is responsible for the consumer prices of food products.

Area Students Win Honors West Texas St.

Several Pampans and Pampa area students at West Texas State College were honored at the annual "Awards Day" ceremonies recently for the West Texas State College Reserve Officers' Training Corps unit. Cadet Capt. Darryl H. Powell of Pampa was a recipient of the Chicago Tribune award for highest average in the junior military science class. Powell was also presented a ribbon for firing 370 or higher in rifle matches. A unit citation went to Company D, commanded by Powell, for highest drill attendance. He is the son of Mr. and Mrs. Homer Powell, 1817 Christine, Pampa.

MAKING A GO OF LIFE

By ROY L. SMITH
Read II Kings 18:1-7
Count the costs of spiritual skills. Every person who acquires spiritual efficiency does so at a cost which consists of three distinct elements.

1. He finds it necessary to face life candidly. This the prodigal son did when "he came to himself." (Luke 15:17) From that time on he accepted his own responsibilities, invented no alibis, and became honest with himself and with his father.
2. We must act vigorously and decisively on our own account. This the prodigal did when he said, "I will arise and go to my father." (Luke 15:18). Until he acted the boy was still rooted in the far

country. His own action initiated his emancipation.
3. We must persist until we achieve results. The prodigal maintained his high resolve until he reached his father's house. To have stopped even a mile short of his destination would have been to fail, and to have wasted all the honest effort involved in many miles of the return journey.

Nine Yanks Begin Elbe Reunion

MOSCOW — UP — Nine American veterans who met the Russians on the Elbe River in 1945 began a reunion with Red Army veterans Monday with vodka toasts and a feast of caviar and smoked salmon at a banquet. The nine Americans were met at airport Sunday night by five members of a reception committee led by retired Col. Evgeni I. Porfiriev and a large delegation of Soviet newsmen, newsreel and still photographers and the western press. They were whisked into the city in a motorcade to the National Hotel overlooking Red Square for the late starting banquet and a sample of lavish Russian hospitality. There was little conversation but broad smiles and cries of "What say, Sarge!" to a grinning Soviet ex-sergeant. Porfiriev toasted in vodka, hoping the Americans would "have a fine time in Moscow" and suggested they prolong their visit beyond the scheduled five days.

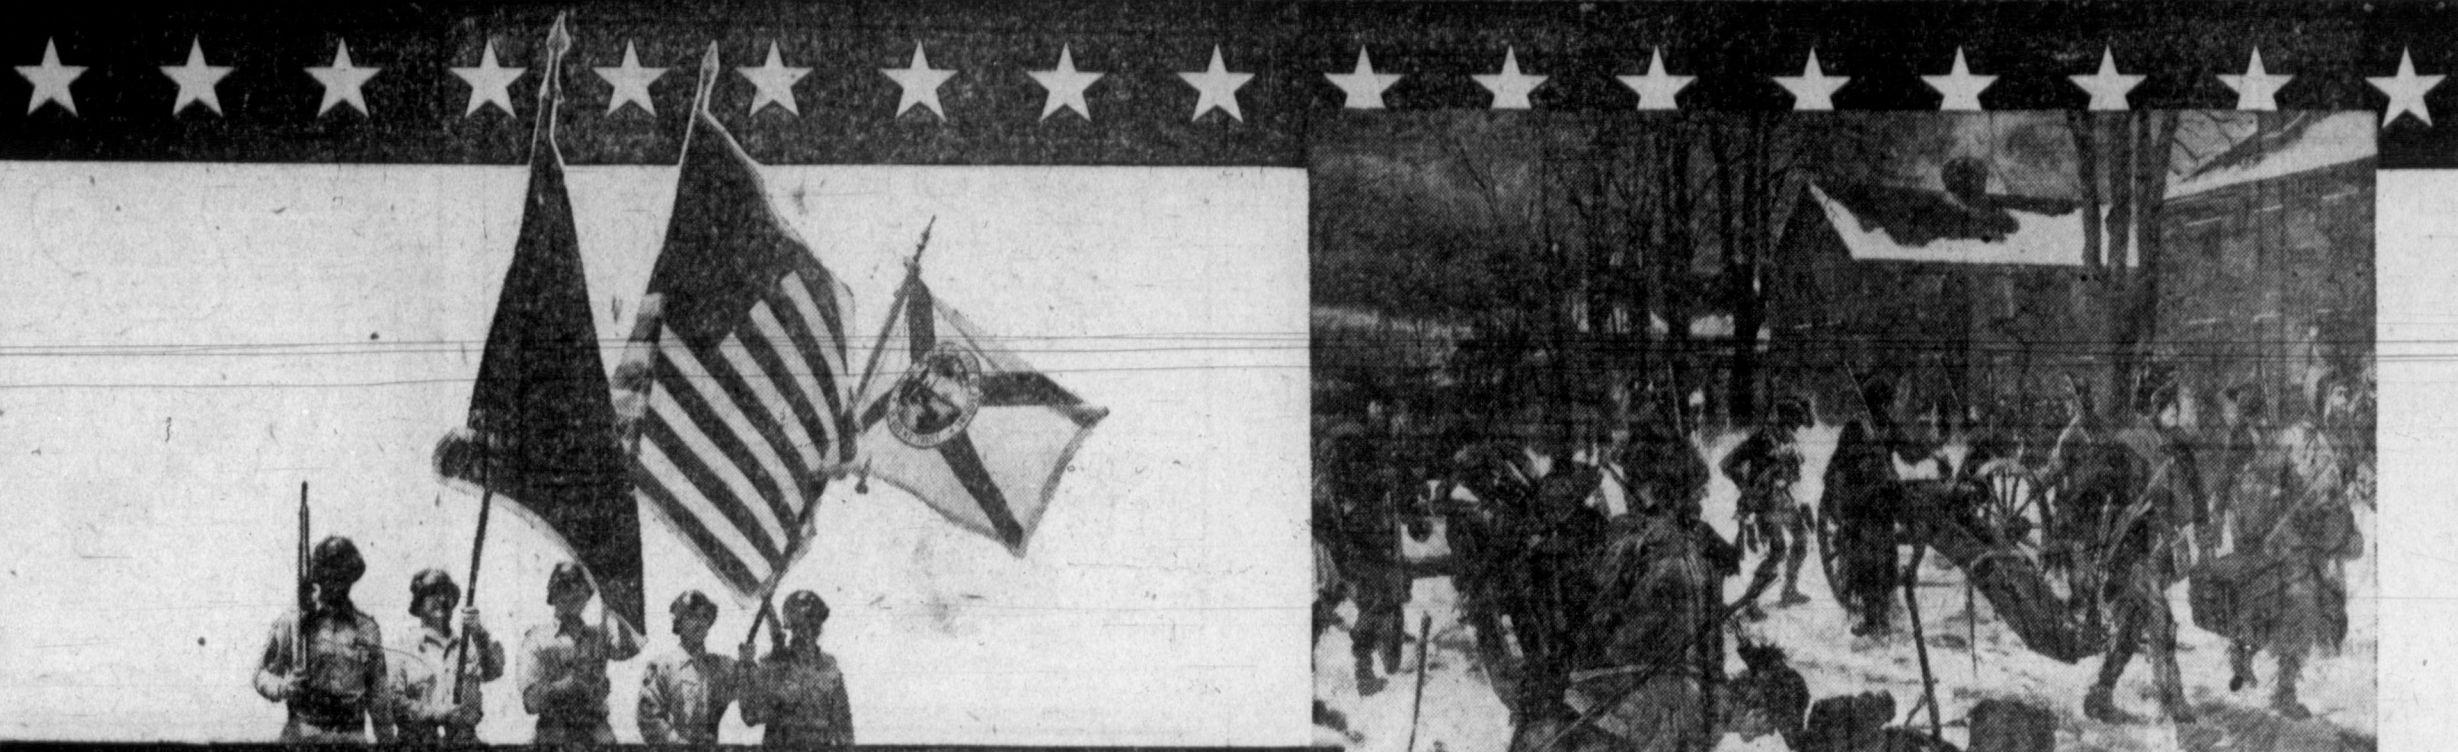

FOLGERS IS FIRST TO BRING FULL FLAVOR TO INSTANT COFFEE
Now a modern coffee... Instant Folger's... that gives you FULL, RICH FLAVOR never before achieved in an Instant Coffee!
Here is a great new coffee specially made to bring you flavor... the full flavor you've looked for yet never found in a quick, easy-to-make Instant Coffee.
Developed by a new, years-ahead process, Instant Folger's captures and brings through to you all the goodness... all the true flavor of nature's choicest Mountain-Grown coffee.

SMOOTHS THE ROAD... LEVELS THE LOAD - Automatically
Take the Key and See...
the New PACKARD with Torsion-Level Ride
A truly distinctive fine car - the new Packard. Distinctive in having exclusive Torsion-Level suspension... providing a ride so smooth, so level, so comfortable on any road it has created a higher concept of "riding pleasure!" Distinctive in its quiet magnificence, with color harmonies both refreshing and sophisticated and interiors designed for your personal luxury. Torsion-Level Ride - Packard's newest achievement in creative engineering leadership - eliminates conventional coil and leaf springs. In other cars, twisting forces due to wheel shock are transmitted to the frame with resulting pitch and bounce of passengers and wracking of car body and frame. With the new Packard these same twisting forces are transmitted along the new torsion bar system and absorbed before they can reach frame or passengers. Distinctive, too, are Packard's new "free-breathing" V-8 engine, developing up to 275 horsepower... and the agile automatic response of Packard's two-in-one Twin Ultramatic Transmission. Here, in all its distinction, is a fine new car with a fine old name. "Ask the Man Who Owns One." We invite you to Take the Key and See... LET THE RIDE DECIDE. Enjoy "TV READER'S DIGEST"

Your NATIONAL GUARD

America's oldest military organization, the National Guard, has served in war and in peace for over 300 years. Our country's strongest and most ready reserve, the National Guard—on the ground and in the air—consists of more than 5,700 organized, equipped and Federally recognized units with a strength of nearly 400,000 officers and enlisted men. Units are located in more than 2,200 communities in the 48 states, District of Columbia, Hawaii, Puerto Rico and Alaska.

National Guardsmen have served our country with honor and distinction in every emergency from pre-Revolutionary War days to the present day—played a vital role in World Wars I and II and in Korea. Above, members of Alexander Hamilton's Company of New York Artillery in action at the Battle of Trenton in the bitter winter of 1776.

The Air Guard's 87 tactical squadrons—soon to be 100% jet-plane equipped—strategically located throughout continental United States and off-shore territories—are on a virtually around-the-clock alert against enemy sneak air attack.

Air National Guard jet pilots—part of special "5-minute runway alert" units actively supporting the Air Force aerial defense of the United States against sudden attack rush for their jet planes after receiving a "red scramble" alert.

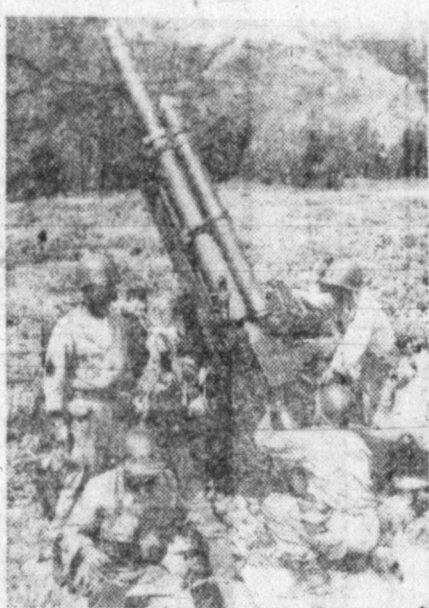

National Guard training is not limited to army and field training. Guardsmen attend all active Army and Air Force schools, including over 200 special courses, also state and unit schools. These AAA officers of Florida's National Guard receive intensive practical instruction during a recent two-day Staff Officers Conference.

Men of a National Guard anti-aircraft artillery battalion prepare to fire a 90-mm "sky sweeper" gun against a target plane during recent summer field training. National Guard AAA units are participating in a round-the-clock "on site" mission of defending America's major production and population centers against sneak aerial attack with these guns and larger 120-mm "stratosphere" artillery.

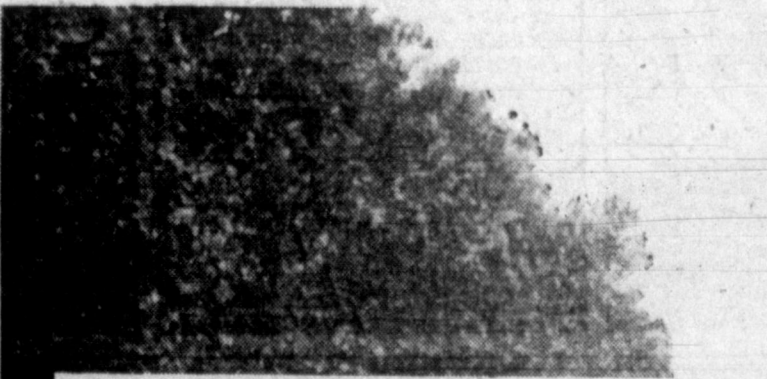

National Guard tankmen, part of the Guard's powerful armored forces, get a National Guard tank set for combat during a recent field encampment mission. The National Guard troop basis includes 5 armored divisions, 22 infantry divisions, 9 regimental combat teams, 9 armored cavalry regiments, 123 anti-aircraft artillery battalions and 74 field artillery battalions.

Hawaiian National Guardsmen, cannoners of 483rd Field Artillery Battalion, loads howitzer for high angle fire mission over a 3000 feet mountain to hit target, during 15 day summer-field training exercise.

On the ground and in the Air, the Alaska National Guard and Air National Guard help defend America's strategic far North territory against possible aggression. Above, men of the Alaska Guard's two Eskimo Scout Battalions, only troops of their kind in our armed forces, study the terrain before breaking up into infantry patrols, during a simulated combat problem.

Among the American troops which marched triumphantly down Champs Elysées, Paris in World War II were thousands of National Guardsmen.

The National Guard serves in peace as well as in war, since 1946 participated in more than 300 rescue or relief operations during local emergencies and national disasters. Above, a National Guardsman patrols a destroyed area after the local units took over following a tornado near Cleveland, Ohio.

Gnashings

By ED NASH
Pampa News Staff Writer

FIFTEEN YEARS ago today, a famed Britisher took over a job that he was not to relinquish till several weeks ago. . . The man he displaced was Neville Chamberlain. . . The man who took over from him recently was Anthony Eden. . . He's been an artist, politician, war correspondent, writer, "former Naval person". . . None other than Sir Winston Churchill, long-time prime minister of Britain.

ASSETNOG TOOFERAB, TRAGOEB YERHPMUH, NEIRIO DNU MDE. . . I tell you, this man Paul West, he has gone whacky, absolutely whacky. . . First the Pampa theater man has some frigs, disguised as tress, put up in front of the LaVista Theater to "push" a Tarzan picture. . . Then, to publicize a prison film, he takes away the "trees" and makes the outside of the building look like a— you guessed it! — a prison. . . Then, to top it off, he puts the above apparent gibberish on the marquee of the La-Nora Theater. . . To perform a public service, and to keep traffic from piling up in the 100-block of North Cuyler, Gnashings hereby lets you-all in on what it means. . . All you gotta do is read the words backwards. So it reads: Barefoot Contessa, Humphrey Bogart, Edmund O'Brien.

TO A SECOND-GRADER, the world is an ever-changing, ever-exciting thing. . . One day it'll be a new girl on the same block. Or the school "bully" who wants to show him who's boss. Or just something new he learns, something he hadn't realized before. . . Dickie Sargent, one of Pampa's many second-graders, got his eyes opened the other day — and left his mother with something to think about, too. . . He had met Mary Ann Hom, a little Chinese girl, and was amazed to find she knew something of the Chinese language. . . "Do you know," he told his mother, "she can talk and understand that stuff — and she's only in the first grade!" . . . His mother replied, "Couldn't you speak and understand English when you were that old?" . . . "Yeah," he said, then added the clincher — "But not Chinese!"

ATOMIC-AGE TYPEWRITER

Unusual offspring of the atomic age is this typewriter with two keyboards. The extra one gives the machine 180 characters and was added for typing involved mathematical formulas. It's in use at the atomic energy research center at Harwell, England.

Marlin Preacher Is The New Episcopal Suffragan Bishop

WACO, Tex. —UP—The Rev. Thomas Bagby of Houston; the Rev. Scott Field Bailey, Austin; the Very Rev. Gray M. Blandy, Austin; the Very Rev. Clarence R. Haden, Jr., Kansas City, Mo.; the Rev. Boyd R. Howarth, Richmond, Va.; the Rev. Arthur S. Knapp, Houston; and the Rev. William S. Lea, Knoxville, Tenn. Nominated from the floor were Clements; the Rev. John McKee of Wharton, and the Rev. Charles Wyatt-Brown, Beaumont.

Quin Presents Goddard The Rt. Rev. Clinton S. Quin, of Houston, retiring bishop, interested Goddard into coming to Texas. He presented the new suffragan bishop following the election. "Having saved the old boy from his exposure to religion in the East and having brought him to Texas and made something out of him," the jovial Quin said. "I present your new suffragan bishop-elect."

These "MAN-EATIN'" women! Whew! . . . It's enough to make a bachelor keep batchin' — forever. . . Even the seven-year-olds — that's right, SEVEN — will startle you. . . Take Trina Ormson, a doll of a seven-year-old. . . Her mother asked her one day if she was going to get married. . . "Sure," said Trina quickly. . . "Oh, you're not," said Mom. . . "Yes, I am, too," Trina returned. And followed with its calculated, as hair-raising, as "hard" a reply as a bachelor could ever fear to hear. . . Said the cute little gal, with a gleam in her eye: "I'm going to get a husband, bring him home and tie him to a tree!"

Group To Probe School Influence

AUSTIN —UP—A five-man committee is scheduled to be named shortly to investigate alleged influence of outside and local groups on schools, particularly at Irving and at Houston. The resolution calling for the inquiry was approved Monday by the House by a vote of 94 to 36. Rep. Floyd Bradshaw of Weatherford sponsored the resolution. An amendment was made on the floor to remove a reference to the National Education Association. It was sponsored by Rep. Maury Maverick Jr., of San Antonio.

Salk Team Working In Pittsburgh

PITTSBURGH —UP— Dr. Jonas Salk's research team inoculated Pittsburgh school children with polio vaccine Tuesday in the continuation of the scientist's tests to make the vaccine as close to 100 per cent effective as possible. A spokesman for Salk said the current experiment "has nothing to do" with a government recommendation that further shots be postponed until all vaccine stocks are rechecked. "The work going on in Pittsburgh at the present time is merely a continuation of the studies conducted over the past two and a half years by the virus research laboratories of the University of Pittsburgh," the spokesman said. About 8,000 school children are scheduled to receive shots in this latest phase of Salk's tests in the next week or so. Some 15,000 children already have been inoculated since the announcement by Dr. Thomas Francis last April 12 that the polio vaccine is safe and effective to the degree of 80 to 90 per cent.

Salk indicated that that time he planned to return to his laboratory and try to prove that the vaccine could be nearly 100 per cent effective. The spokesman for the scientist said the latest test series "has nothing to do with (Dr. Leonard A.) Scheele's announcement by Dr. Francis last April 12 that the polio vaccine is safe and effective to the degree of 80 to 90 per cent."

Government Rests Case Against Reds

DENVER —UP— Government prosecutors rested their case late Monday in the Denver Smith act conspiracy trial after 18 witnesses had identified all seven of the defendants from the stand as Colorado and regional officials of the Communist party. The jury was excused until 10 a.m. Wednesday by U.S. District Judge Jean S. Breitenstein, who is hearing the trial. He gave the defense until Wednesday to prepare motions and to get ready to present defense witnesses. The government case, which required 22 actual trial days, ended after U.S. Attorney Donald E. Kelley finished questioning the last witness, Bellarmino "Bill" Duran, 30, of Denver. The trial began March 21. Duran has testified he was an undercover agent for the FBI in the Communist party from 1948 until a month ago. Intense cross-examination of Duran, unemployed Denver truck driver, had delayed government attempts to rest their case since last week. A two-hour conference between attorneys and repeated interruptions of court testimony marked Monday's trial sessions as the defense attempted to discredit Duran's statements. The defense, consisting of 11 court-appointed attorneys from Denver and Mrs. Mary Kaufman of New York, personally hired by the defendants, has given no indication of what witnesses it will call or tactics it will use in efforts to clear the seven.

Re-Name Two To Park Board

AUSTIN —UP— Frank D. Quinn of Austin and Wendell Mayes of Brownwood were reappointed to the State Parks Board Monday by Gov. Allan Shivers. Each will serve new terms expiring May 15, 1961. The governor also announced these other appointments: To the San Jacinto State Park commission, for two-year terms expiring May 23, 1957, Miss Mary Todd of Houston, W. T. Kendal Jr., of Houston and Charles E. Gilbert Jr., of Houston, all reappointments. To the State Board of Pharmacy, for six-year terms expiring June 14, 1961, Lee T. Stinson of Snyder, reappointment, and Frank Reese of Houston, succeeding Paul D. Carroll of Texarkana. To the Pecos River Compact Commission, two-year term expiring May 5, 1957, J. C. Wilson of Pecos, reappointment. To the Rio Grande Compact Commission, two-year term expiring July 16, 1957, Louis A. Scott of El Paso, reappointment.

State Cotton Crop 244 Pounds Acre

AUSTIN —UP— The U.S. Department of Agriculture in a final report issued Monday on the 1954 Texas cotton crop said yield per acre was 244 pounds, up from 233 pounds in 1953. Production slumped from 4,317,000 bales in 1953 to 3,923,000 bales last year. The harvest acreage for 1954 was 7,730,000 acres, down from the 1953 figure of 8,900,000 acres. "Texas' best year from a production standpoint was the 6,040,000 bales in 1949, the USDA said.
