## BRIDGE RUSH ON

Mrs. Mary Ann McCloskey, 1104 E. Kingmill, who has been with the Pampa Chamber of Commerce for two years, never saw anything quite like this. Questions, questions, questions — her office had 100 of them in two hours this morning. And they're all about the dedication of the Canadian River Bridge, scheduled tomorrow noon at the bridge site. A related story and picture are on page 15 of today's paper.

# Nationwide Probe Launched On Vaccine

## California Firm's Product Banned While Study Made

By UNITED PRESS

A cross-country investigation was launched Thursday after at least nine and possibly 13 children inoculated with a California-produced Salk vaccine fell ill with infantile paralysis.

One of the children died and two seven-year-old boys were in iron lungs following the inoculations of vaccine produced by the Cutter Laboratories of Berkeley, Calif.

Health experts said there was no proof that the Cutter vaccine caused the disease and urged parents across the country to go ahead with plans to inoculate their children.

They also pointed out that some of the children might have had polio before they received the shots and that in some cases the vaccine had not had time enough to build up immunity against the disease.

Emergency Measures Taken However, emergency measures were taken to make sure the Cutter vaccine is safe.

Two health service specialists were rushed across the nation to Berkeley to study the company's production methods. Another U.S. disease expert was en route from Atlanta, Ga. to Idaho, where the polio death occurred.

Meanwhile, the federal government banned all Cutter vaccine. Mass inoculation programs in California, where the Cutter vaccine was most widely used, were halted in 24 counties.

Vaccine Tests Begun In Washington, the National Institute of Health began tests to check the vaccine's safety, purity and potency.

Elsewhere, the flurry caused by the government ban appeared to be dying down as officials discovered that distribution of the Cutter vaccine had been primarily confined to the west.

At Philadelphia, Pa., officials halted mass inoculations of 30,000 parochial school children, but decided later to go ahead. Investigations were launched in other cities to make sure the Cutter vaccine is not being used. Doctors were warned not to use the vaccine in inoculations of private patients.

Dr. Jonas E. Salk, the vaccine's developer, said in Pittsburgh "it is difficult to say whether the vaccination in these cases was one of cause and effect or one of coincidence." He endorsed the federal investigation.

Dr. Reasons Government officials said the vaccine probably is not to blame in any of the cases, although they won't know for sure until their inquiry is completed several weeks from now.

1. Number of shots — the children generally received only one shot. The vaccine's peak immunity is not reached, however, until three shots have been administered over a three-month period.

2. Timing — The children were inoculated between about nine and 15 days ago. Salk shots develop very little immunity after so short a period.

3. Incubation period — the incubation period of polio — infection to onset — ranges from 3 to 30 days and averages between 10 and 14 days. It is believed in the vaccinated cases that the children may well have contracted polio before they received their shots.

Although public health officials expect the Cutter vaccine to get "a clean bill of health" as they put it, they are putting it through rugged tests.

## Second Round Of Polio Shots Delayed Here

The second round of shots for first and second grade students in Gray County has been temporarily delayed, due to the lack of available vaccine according to Dr. Joe Gates, county health officer.

Dr. Gates said that the second inoculations, originally scheduled to be given starting Tuesday, would be delayed until the government makes the immunity-producing drug available again. When asked if the delay had anything to do with the Cutter Laboratory investigations, Dr. Gates replied that it did not and that he expects the vaccine to be available before the end of school for the second shot.

Dr. Gates talked with State Commissioner of Health, Dr. Hella, in Ft. Worth yesterday and reported that unless current plans are revised the shots will be given when the vaccine is again available.

Dr. Gates said that, in his opinion, there had been no Cutter vaccine used by private physicians in Pampa because the representatives of that company do not call on doctors in this area. He also reported that no Cutter vaccine had been used in the inoculations of first and second grade students in Texas as the state's entire supply for the vaccination of school children was purchased from Eli Lilly and Company of Indianapolis.

## Okinawa B29 Crash Kills Nine Airmen

TOKYO — A U.S. Air Force B-29 bomber crashed in flames killing nine airmen near Naha, Okinawa, while on a routine flight Thursday. Far East Air Force headquarters reported.

An Air Force spokesman said only the briefest details were available here. He said reports reaching Tokyo said that the American bomber crashed in an open field in the vicinity of Naha.

The plane was based on Okinawa but the Air Force spokesman said he did not know which of the island's two air bases—Naha or Futenma—it belonged to.

The spokesman said nine U.S. airmen were killed but he did not know if others were aboard.

Children are always a great handicap to anybody who wants to lead a dull life.

There'd be a lot more happy people if fewer folks made a success of being a failure.

One thing that keeps the divorce rate high is the clinging vine before marriage that is a ramble afterwards.

Much good comes from an open mind, says a writer. Unless the open nothing stays in it.

## Fighting Rages In Saigon

### Government Holds Control Of City

SAIGON, Indo-China — UP — Rebellious warlord troops opened fire on government forces in Saigon Thursday, touching off bloody fighting that raged for hours until loyal re-inforcements roared into the city in tank-led convoys and regained control.

Early Thursday evening at least 120 dead and 300 wounded were counted in suburban Cholon alone, and government quarters said the overall death count may reach several hundred. Hundreds more were wounded, some of them burned to death in the fires that raged uncontrollably through the grass shacks housing refugees from Communist-controlled North Viet Nam.

The government and rebels agreed on the second cease-fire of the day at 5 p.m. (6 a.m. edt) and 15 minutes later only a few scattered machinegun bursts could be heard above screams of the wounded and dying.

The fighting flared when troops of the Binh Xuyen gang of ex-river pirates ambushed a government convoy moving through the crowded streets. It flashed across the city and soon a quarter of Saigon was in flames while the streets echoed to the sounds of artillery and machineguns.

The Binh Xuyen, sworn to overthrow the government of American-backed Premier Ngo Dinh Diem, shelled the premier's palace residence but failed to hit the main building. Black smoke, apparently from rebel gasoline pumps, billowed across the city.

The European quarter of the city where several hundred Americans lived escaped the full fury of the fight.

One of the heaviest battles raged around the headquarters of free Viet Nam's high command, Counterattacking government troops drove off the fanatical rebels in hand to hand fighting. But the Binh Xuyen won a crossroad of trenches isolating the headquarters.

French military authorities intervened in the early stages of the fighting but it lasted only an hour and 20 minutes. Then the boom of artillery broke the quiet and by late afternoon the battle, fiercest of the Viet Nam civil war, was raging again in full force.

The body of a woman tentatively identified as Lana Spinnia, about 50, was brought to Herndon hospital a short time after the flames broke out in the hotel.

Later, after the fire had been brought under control, firemen brought out the bodies of Lisle La Vier, Hansford Meek, and Stanley Wozniak.

## Senate Group Hits Ike's Formosa Talk

WASHINGTON — UP — A Far East policy rebellion led by Senate Republican leader William F. Knowland cast chilling shadows Thursday on President Eisenhower's welcome hunch that peace prospects are brightening.

Mr. Eisenhower uttered his cautious hopes at Wednesday's morning news conference. Some five hours later, the California senator brusquely repudiated the President's newly stated willingness to meet with Red China to discuss a Formosa cease fire, return of U.S. prisoners and "advancement of world peace."

Sen. Styles Bridges (R-N. H.), senior Republican member of the Senate, beat Knowland to the punch with a statement from Boston objecting to any talks with Red China from which Nationalist China was excluded. That point apparently was basic, also, in Knowland's unusually vigorous challenge to administration policy.

The possibility of productive discussion with the Red Chinese was a major factor in Mr. Eisenhower's mid-morning optimism that better times might be coming. The President felt that the Chinese Reds and the U. S. could get together for talks which did not directly affect the Nationalists.

Knowland said he could not understand how any talks could be had "without the interests of the Republic of China being deeply involved." The senator was equally critical of an earlier policy statement by Secretary of State John Foster Dulles which considerably amended the original department position that Nationalist China must participate in any discussion.

## PLATFORM TO BE CROWDED AT NEW BRIDGE DEDICATION

It's going to be a mighty crowded platform at tomorrow's dedication of the Canadian River Bridge, between Pampa and Perryton.

G. K. Reading, senior resident highway engineer, and E. O. Wedgeworth, manager of the Pampa Chamber of Commerce, yesterday were going through the list of platform guests that are expected for the ceremony.

And the number they came up with was 52.

## Parents Urged To Keep Using Salk

WASHINGTON — UP — The Public Health Service urged parents Thursday to go ahead with any plans they have to get Salk polio shots for their children.

It said they can have "complete faith" both in the effectiveness of the serum itself and in the vaccination programs now underway throughout the country.

The health service made the statements in a frank effort to calm a wave of concern and uncertainty set in motion Wednesday by a government ban on all vaccine produced by Cutter Laboratories in Berkeley, Calif.

The ban was ordered as a precautionary measure because one child died and at least nine and possibly 11 suffered paralysis from polio after receiving Cutter vaccine. Government experts don't think the serum is responsible, but they want to be absolutely sure.

Two Health Service specialists were rushed to California Wednesday night to make a detailed study of the company's production methods. And the National Institute of Health began running tests here Thursday to check samples of its vaccine for safety, purity and potency.

Officials also revealed they are considering a plan which would eliminate the need for a ban on a firm's vaccine. This calls for creation of teams of experts equipped to investigate a polio case so quickly the vaccine could be removed as a suspect in a matter of hours.

Aim at Confidence Government officials aimed their biggest effort, however, at maintaining public confidence in the Salk program as a whole so as not to jeopardize polio protection for the nation's children this year.

No sooner was the federal ban announced Wednesday than authorities began calling back Cutter vaccine in 13 states where it was distributed. Parochial schools in Philadelphia temporarily halted a mass inoculation program. And doctors and parents besieged the Health Service with one question: Should Salk shots be continued?

Dr. Leonard A. Scheele, U.S. Surgeon general, said the answer is yes. His own seven-year-old son, Bobo, will be inoculated shortly in the program here.

Scheele said some deaths and some cases of paralysis must be expected this year because the vaccine is not 100 per cent effective. But he said it is 80 to 90 per cent effective and therefore is a very useful weapon against polio.

He won't be the first. But he will be one of the first.

For William Murphy, 319 Rider, has arranged for his grandson, Dick Purdum, Guymon, Okla., to visit Pampa tomorrow and take him out to the free barbecue and dedication ceremonies at the north end of the bridge.

Then, after the ceremonies, the pair will join the motorcade that will cross the bridge, thereby officially opening it for traffic.

That is 30 days earlier than it was a year ago, Bowen emphasized.

The tax is \$250 per year and must be paid by the owner of the business at which the machine or machines are located, Bowen said. Both the proper form and the tax payment must be in the hands of the Revenue Service before operation of the device is begun.

BRIDGE BUG BITES MAN, 85 There's an 85-year-old Pampian who wanted to be the first to cross the new Canadian River Bridge between Pampa and Perryton.

Another Tax Deadline Told Walter C. Bowen, U. S. Internal Revenue Service official in charge of the Pampa office, announced that the federal tax on coin-operated gaming devices must be paid by July 1.

The tax is \$250 per year and must be paid by the owner of the business at which the machine or machines are located, Bowen said. Both the proper form and the tax payment must be in the hands of the Revenue Service before operation of the device is begun.

## Atom Trigger Plant Strike In Third Day

ALBUQUERQUE, N. M. — UP — A strike of 2,000 AFL craft union workers against the Sandia Corporation atomic device plant here went into its third day with no indication that union and company representatives were even ready to talk about the wage and contract benefits dispute.

John Diets of Washington, representing the atomic energy management-labor relations panel, conferred separately with union and company officials Wednesday. But nothing was announced, and neither side gave any hint that a meeting was agreed upon.

The 10 craft unions involved apparently are determined upon a "long haul" strike, if necessary, to gain a 14-cent hourly wage increase, more sick leave and a better pension plan, and a tighter union shop. The company, on the other hand, wants to cut the present 24-day paid vacations in half, with a four and one-half per cent hike in vacation pay.

The Sandia Corporation, a subsidiary of Western Electric, manufactures secret atomic devices, including triggers and casings for atomic bombs and special equipment for the Los Alamos, N. M., atomic research laboratory. Its Albuquerque plant is housed at the secret Sandia base, which has been peacefully picketed by the AFL since the strike began Tuesday.

## Amarillo News Editor Dies

AMARILLO — UP — David Reed, who worked his way up through the ranks to become managing editor of the Amarillo Daily News and its afternoon companion newspaper, the Globe-Times, died Wednesday night of a heart attack. He was 57.

Co-workers on the Daily News, the morning newspaper, said he worked until 9:45 p.m. at the office before calling it a day.

He went directly to his home. Relatives said after his arrival he went into the den. That's where his body was found, less than 45 minutes after he left the office.

Reed started out as a reporter on the Daily News in 1933. He took a leave of absence from the Daily News during World War II to join the Navy.

## At Least 10 Die In Hotel Blaze

CHICAGO — UP — Ten persons were killed, more were feared dead, and 17 were injured when flames swept through a hotel and a tenement building on Chicago's near north side Thursday.

The blaze at the four-story Green Mill hotel killed at least six persons. Firemen said they were almost sure to find more bodies in the charred rubble choking the building's basement.

The fire, which sent about 100 guests choking into the darkened streets, was touched off by an arsonist on a rear stairway, fire department officials said.

## Admiral Says U.S. Bluntness Dooms Fliers

TOKYO — UP — Rep. Adam Clayton Powell (D-N.Y.) said Thursday the blunt initial United States reaction to Red Chinese Premier Chou En-Lai's Formosa negotiations offered blocked early release of 11 American airmen imprisoned by Communist China.

Powell said that Chou offered to release the fliers "almost immediately" if the U.S. "acts friendly and well disposed" toward his proposal to negotiate directly on the Formosa issue.

The State Department's "too hasty reply," the congressman said, "has thrown everything off schedule."

Powell said Chou's offer was relayed to him Tuesday in Singapore by a member of the Pakistani delegation to the Bandung conference. He told the United Press he could not reveal the name of his informant.

The congressman said that on the last day of the Afro-Asian conference he asked two friends on visiting delegations — Pakistan and Ceylon — to press the Communist Chinese premier for an answer on the American airmen.

"The Pakistan delegate related Chou's reply when he met me in Singapore Tuesday," Powell said.

Small Rooms On Way Out, Builders Say

Young couples who bought small homes several years ago, today are feeling the pinch of overcrowding as their families expand, reports the Plumbing Fixture Manufacturers Association. Haste and cost-consciousness were largely responsible for the wave of small home building which swept the country in the late '40's and early '50's. Since then many homeowners have learned the hard way that small rooms are not compatible with comfortable living. Home builders say there is an increasing demand for more living space in modern dwellings. A small bathroom, for example, is limited in convenience and appearance by its size. It actually is possible to install a full bath (lavatory, toilet and bathtub) in an area as small as five by five feet. However, a bath of this sort is cramped as to be actually uncomfortable to use. Rather than suffer the inconvenience and cramped appearance of a minimum bathroom indefinitely, it is wiser to plan at the start for comfortable living in the years to come. A larger bathroom is more convenient. Just as important, it permits installation of additional fixtures to ease bathroom traffic jams. A second lavatory, for instance, will permit two people to freshen up at the same time without getting in each other's hair or waiting in line. A well-planned bathroom equipped with multiple fixtures also makes a convenient and attractive powder room for guests. It eliminates the annoyance of overcrowding. Double-cross DES MOINES — UP — Kenneth Weeks, six, won a dog from the Animal Rescue league by writing a letter telling why he wanted it. "I'd sure like to have a boy something around the house," Kenneth wrote, explaining that he had six sisters and no brothers. But four months later his "boy dog" had puppies. Writer Sweating Out A-Test Finds Things Haven't Changed

(Editors: Veteran United Press war correspondent Robert C. Miller is occupying a trench 3500 yards from the atom blast for the second day. Here are his observations, whether the bomb is fired or postponed for the third time.) By ROBERT C. MILLER FOXHOLE ABLE. Atomic Test Site, Nev. — UP — Things haven't changed a bit. Wars are wars, maneuvers are maneuvers and the push-button practice warfare of the A-bomb tests contain all the miserable ingredients that the gravel crunches, swabbles, fyboys and Marines knew in World War II and Korea. The cold is just as penetrating, the winds just as icy, the dust has the same talc taste, and foxholes are still the kidney puncturing torture racks they were in Asia and Europe. And the old snafus and hurry-up-to-wait procedures are as much a part of things here in the wind-swept desert as they were before somebody thought up his electronic warfare. Wednesday's dry run of Operation Cue proved definitely to the 1,000 civilians and troops that the old order still prevails. Everything But Cups There was the coffee situation, for instance. Special filled containers, highly publicized and claimed to be revolutionary in concept, were flown here from Chicago to supply the field participants with hot coffee. Special trucks moved the java to the front line areas where it was proudly issued to all. Only then did they find out that somebody forgot the cups. Bus schedules were arranged with side-rule precision to move the 1500 civilians to the test site. Exactness of time was emphasized, but the word never filtered down to commuters who milled around in the midnight darkness, seeking seats, changing busses and scrambling aboard, catch-as-catch-can style as the big Greyhound's low-geared out of town. Credential difficulties barred one television engineer who had been checked, rechecked, investigated and reinvestigated. He'd been inside the barred zone on Sunday, but somebody forgot to include his name on Wednesday's list. Only after enduring six tortuous miles in a pre-dawn ride across the Arctic desert did he find out at the last check point that he could go no further. Last Minute Practice A radio man, equally credited, nearly suffered the same fate. He lost his pass, but found it just in the nick of time to prevent his being ousted at the final barrier. And they are still routing you out of bed at the same unduly hours, bouncing you across dusty, chucked terrain in springless vehicles and plopping you in deep freeze trenches to wait. With all the lovely hours of late afternoon and early evening at their disposal, they have to pick the pre-dawn hours when life is at its lowest ebb, the desert at its meanest, and the chill winds the most penetrating. Even this would be endurable if it was done with the knowledge that all would be over in a few hours, and never again would such agonies have to be suffered. But then at the last moment comes that "negative" weather announcement — it caught the 17 o'clock servers in Foxholes Able on their knees practicing their positions for blast time — that the whole thing must be done over maybe tomorrow, or maybe the day after tomorrow, or maybe the day after that. No, things haven't changed a bit.

Thailand Chief Due In Dallas

DALLAS — UP — Premier P. Pibulsonggram of Thailand was expected to arrive at Dallas at 3 p.m. Thursday for a visit to Texas as part of a nationwide tour. The Thai official, also defense minister of his country, was to fly to Texas, from Colorado Springs, Colo., where he spent the night Wednesday. He is accompanied by his wife and a goodly number of Thai government and military officials. When he leaves Texas, he will go to New York via Washington. Pibulsonggram will visit Kilgore on Friday before moving on to the East Coast. He has expressed a desire to see the vast East Texas oil field, of which Kilgore generally is considered the capital city. On the Kilgore visit, the Thai party will be met at the Gregg county airport by city officials and the Kilgore College Ranger Band. The premier will have lunch at the Toddle Lee Wynne ranch near Kaufman after a conducted tour of oil field installations. He'll return to Dallas Friday night in time for a dinner in his honor.

New Ideas For Floors

A new idea in oak floors is an alternate width plank style which brings fresh, interesting appeal to old and new houses. Prefinished at the factory in a new dark shade, Fireside Plank achieves the popular casual effect with wide, shadow-like bevels which accentuate the varied grain and texture of Southern oak. Although this new floor looks like an expensive custom-laid random floor, it costs no more than ordinary strip and is just as easy to lay. Contractors and builders find that they can save from three to five working days on a house in which prefinished flooring is used. And because the penetrating seal finish is baked in with infra-red lights it is more beautiful, easier to maintain and will outwear ordinary surface finishes three to one. Fireside is a wise choice for the "do-it-yourself" addict, too, because the prefinsishing eliminates the problems connected with on-the-job finishing. The floor is ready for immediate use as soon as it is laid.

Wallboard With Real Wood Look

More and more homeowners are discovering woodgrained gypsum wallboard. They are using this distinctive wall covering whenever there are certain rooms they'd like to have stand apart from the others in decorative finish. The rooms most commonly singled out for this special treatment are the recreation room, library and den, or wherever a wood-paneled effect is desired. Since the panels are inexpensive and easy to install, they are specially popular with the home handyman.

Even this would be endurable if it was done with the knowledge that all would be over in a few hours, and never again would such agonies have to be suffered. But then at the last moment comes that "negative" weather announcement — it caught the 17 o'clock servers in Foxholes Able on their knees practicing their positions for blast time — that the whole thing must be done over maybe tomorrow, or maybe the day after tomorrow, or maybe the day after that. No, things haven't changed a bit.

**GOT A GLASS JAW**

Jubilant Douglas Ted Heite of Mission, Kan., isn't afraid of this pelican with the vulnerable jaw. In fact, the fish that will someday go into the goldfish bowl will have nothing to fear either. For the creature is only make-believe, being one of many model animals and birds set up by the Kansas City, Kan., businessmen for the children of their district.

**MAKING A GO OF LIFE**

By ROY L. SMITH  
Read John 3:1-8, 16-19.  
Life is going to pieces. Reports from leading psychiatrists are alarming. Psychopathic wards are overflowing with people who have experienced mental crashes. Some of these misfortunes seem very stupid and unnecessary to those who have never passed through them, but they are very real to the sufferers.

The speed at which the average person lives, the delicate and difficult decisions which are forced upon him almost every day, the confusion of the issues he faces, and the causes which clamor for his support, all have the effect of reducing life to bedlam. Nothing less than superb spiritual skill is sufficient to enable him to survive and our spiritual training has not kept pace with our technological equipment.

Out of an extended experience in dealing with business executives who had suffered nervous collapse one psychological counselor said: "I have made the discovery that in almost every case the man went to pieces before the business did."

Effective living. It is one of the basic claims of good religion that it can equip one to meet the heaviest blows of life. This does not mean that all religious people are immune to mental ills, for many have never learned to cooperate with spiritual laws.

The person who has reached spiritual maturity, however, is one who has thought through on great problems of faith and perfected himself in obedience to basic spiritual principles. The "lost" are those who attempt to live their lives outside and in defiance of spiritual laws. For such there can be but one result.

I will be still and allow thy strength and peace to flow in upon my spirit, O God. I am not afraid, for I am in Thy hands, and nothing fatal can come to me while I am trusting in Thee. For the calm and peace that come when I trust I am thankful, Amen.

Make a list of pains and troubles to which the wicked are subject, and from which the righteous are spared. Count a few of the joys which you, as a Christian, know and which are unknown to those who do not believe in the healing power of Jesus Christ.

**White Deer Personals**

By ALICE NICHOLSON  
Pampa News Correspondent  
Wayne Jordan and Jim Tom Freeman made a business trip to Oklahoma City this week.

Recent visitors in the home of Mr. and Mrs. Dee Lemley were his brother, Mr. and Mrs. C. D. Lemley of Amarillo. The group visited relatives in Shamrock on Sunday.

Tom Powers of Dalhart visited recently in the home of his mother, Mrs. W. A. Powers.

Mr. and Mrs. Dennis Smith spent the week end in Oklahoma City where they visited his parents, Mr. and Mrs. A. L. Smith and her sister Mrs. N. O. Cotham and family.

Mr. and Mrs. Clint Freeman spent the week end recently at Lake Kamp.

Visiting in the home of his mother, Mrs. Anne Cunningham, are Mr. and Mrs. Oscar Cunningham and daughter of Hermasillo, Mexico.

Dr. Roy Smith, local chairman for the 1958 Cancer Crusade, announced that this is the last week for the campaign. Receipts

have been placed in various business houses and in the schools. Contributions may be mailed to Mrs. Hy Smith.

T. C. Jackson, W. J. Stubblefield, H. T. Dickens and Everett Williams fished recently at Lake Kemp.

Week-end visitors in the home of Mr. and Mrs. E. F. Tubb were Mr. and Mrs. W. W. Simmons of Carlsbad.

Corn For This CHAMPAIGN, Ill. —UP— Illinois corn soon will be growing in Yugoslavia. The Illinois Seed Producers Assn. reported it has shipped 40,000 pounds of foundation hybrid seed corn to that country. This will plant 6,000 acres to hybrid seed production in 1958 and 40,000 acres in 1959. Its potential for 1957 is 300,000 acres.

DEVOURING DEAD The practice of devouring dead kinsfolk was considered the most respectable method of disposing of their remains by some cannibal tribes, according to the Encyclopedia Britannica.

"Ain't there any nice young men who'll be out in a year or two that Susie could meet?"

**JACOBY ON BRIDGE**  
Watch Tourneys For Great Playing

By OSWALD JACOBY  
Written for NEA Services  
One of the most unusual hands of the European Championships, played last September, was the deal shown today, played in the match between Germany and Austria. I can't honestly recommend the bidding, but every experienced bridge player must feel a certain amount of sympathy for it. We've all reached equally "impossible" slams, but they don't usually find their way into the newspapers.

When the Austrian expert Schneider held the South cards, he took a long-shot chance to try for his slam contract. After ruffing the opening club lead in the dummy, he played a spade from dummy. East naturally played low. South put up the ten, which looked like a finesse, and West won with the ace.

West returned another club, and dummy ruffed again. Declarer now overtook the king of hearts.

**TIE-IN FASHION**

Shapely Agostina de Micheli seems very happy with her new "Colletino," latest fashion touch in sunny Sicily. The little collar and tie top the strapless bathing suit.

**IT'S THE LAW IN TEXAS**

The word "contract" ordinarily brings to mind a formal, written document signed with pomp and ceremony. The use of that word to describe our daily transactions with the grocer, the plumber, the newspaperboy or the baby sitter would seldom occur to any of us. Yet most contracts arise out of such daily transactions and only a small percentage of the contracts made are even written.

What then is a contract? It is merely an agreement in which two or more persons (or companies or organizations) bind themselves to go or not to do certain acts. Each acquires a right to have the other person keep his promises.

For example, the boy next door asks if he may cut your grass for \$1.00. You say, "All right, go ahead." The two of you have entered into a contract whereby he promises to cut your grass and in return you promise to pay him a dollar.

The signing of a sales slip, ordering goods on a charge account in a downtown store, is the formation of a contract, though we seldom refer to it as such.

A few contracts, however, by state law must be in writing in order to bind the parties. For instance, contracts for the transfer of real estate.

It would be impractical for you to require that every contract you enter into be drawn up in written form. However, whenever you are engaged in business transactions of any importance you should insist that all the terms of the agreement be put in writing and signed, because it is often most difficult to prove unwritten agreements.

You will often be requested to sign written contracts, all or part of which have been prepared by the other party. There are two cardinal rules to apply in such cases:

First, do not sign a contract until you have read and completely understand all of its terms and provisions. Of course, you should never sign a contract on a form which is not completely filled out. Be careful of the person who tries to convince you that these precautions are unnecessary or that there isn't enough time.

Second, before you sign be sure that every important promise or provision to which you have agreed is included. Do not be misled into leaving something out by a wave of the hand and a statement that "Oh, we needn't put that in, it is understood."

Failure to insert some important provision may make the entire contract unenforceable because of vagueness. It may mean that you may not be permitted to prove or enforce that particular important

and led a second trump, fortunately dropping the missing trumps 2-2. He continued with the rest of his trumps and the ace of clubs, saving three diamonds in the dummy. East had to save three diamonds likewise, and therefore had to discard the king of spades. South therefore made his slam contract by means of the squeeze play.

This seemed like a miraculous result, and Schneider had every right to feel elated, but the elation faded when it was discovered that in the other room the German pair had played the hand at six spades—which they had made!

In this occasion North was the declarer. He took the first trick with the ace of clubs (dummy) and led the jack of spades. West properly played low, and East artfully, as he supposed, held off instead of winning the trick with the king of spades.

North had a very good idea of what was going on, so he got to his hand with the king of hearts and led a spade towards the ten-four in the dummy. East now feared that North was trying to swindle him out of his king of trumps, so he put it up at once. West's ace fell on the same trick, and North calmly claimed the rest of the tricks!

In spite of this wonderful result at both tables, you might well make a New Year's resolution to stay out of slams of this kind!

**New ARM Prot**  
COLLEGE STATION, Tex.—UP—Col. D. P. Anderson, a graduate of the University of Oklahoma, was named Wednesday as professor of military science and tactics at Texas A&M College. Anderson has been stationed in Formosa as a member of the Military Assistance Advisory Group. He succeeds Col. E. D. Offer, transferred to another post.

provision not inserted. Or it may mean that the law will imply an agreement on this point contrary to the one actually agreed upon but left out of the contract.

This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.

## Fresh Pear Float Summertime Treat

As dainty as the delicate gardenias surrounding the bowl, Bartlett Pear Float is a simple and glamorous dessert. It also serves as an eye-catching centerpiece with a rainbow of colors — gold, crimson, creamy white, and pastel green.

California's gift to summertime eating pleasure, Bartlett pears "naturally sweet" are a versatile growers in the production of pears. Each year the fruit attains this goal in flavor, texture and appearance, thus increasing its popularity with homemakers all over the country.

Bartlett Pear Float utilizes all these excellent qualities of the California Bartlett pear. A luscious pear floating in chilled fruit juice served with a scoop of frosty sherbet is a perfect summer dessert.

- PEAR FLOAT**
- 4 Fresh California Bartlett pears
  - 1 46-ounce can pineapple juice
  - 2 tablespoons maraschino cherry juice
  - 8 maraschine cherries
  - 1 quart lime sherbet or ice cream
  - 1 5-ounce bottle ginger ale
- Chill pineapple juice and ginger ale well. Wash, halve and core California Bartlett pears. When ready to serve, combine pineapple juice, maraschino cherry juice and ginger ale in large bowl. Place maraschino cherry in hollow of each pear half and float in bowl of juice. Serve with scoops of sherbet or ice cream. Serves 8.

## Turkey Preparation Given Unique Twist

Having some friends over and want to serve something special—but easy? Turkey Hot Brown is a new way to use turkey and make a big impression with guests or family. A creamy cheese and mushroom sauce is laced over the turkey slices. This sauce browns beautifully under the broiler and is piping hot and bubbling when placed on the table. Either the large, more choice slices from your turkey, or the smaller pieces may be used for this main dish which is low in cost but still on the elegant side.

- 2 cups water
- 1 teaspoon salt
- 1 cup uncooked white rice
- 1 10 1/2 oz can condensed cream of mushroom soup
- 1 cup milk
- 1/2 teaspoon salt
- Dash of black pepper
- 6 large slices of turkey or enough small pieces for six servings
- 1/2 lb. American cheese, grated (1 liberal cup)
- 1 teaspoon paprika

Put the water, salt and rice in a 2-quart saucepan and bring to a vigorous boil. Turn the heat as low as possible. Cover and leave over this low heat for 14 minutes. Remove from heat, but leave lid on for 10 minutes. Spread the cooked rice over a greased shallow baking dish about 12" x 8" x 2". Heat together the mushroom soup, milk, salt and pepper. Pour half this mixture over the rice. Place the slices of turkey over the rice. The slices should not overlap. If small pieces of turkey are used, arrange them on the rice to make six servings of turkey. Add the cheese to the mushroom soup-milk mixture and heat slowly until the cheese melts. Pour this over the turkey and rice. Sprinkle with the paprika and place in the broiler and broil until hot and bubbly. Watch closely to prevent top from becoming too brown. This recipe makes 6 servings.

The ancient art of combining precious metals with fabrics has taken on new meaning since the war with the increasing use of Lurex, the washable, non-tarnishing metallic yarn.

- put it in:**
- 1 tsp. ginger
  - 1 tsp. cinnamon
  - 1 Tbsp. soda
- Let cool and add 3 well-beaten eggs. Add either 2 cups raisins or 1 cup broken peanuts, and 3/4 cups flour. Mrs. Purviance says she usually rolls the peanuts rather fine and works them into the dough. Let stand a few hours in refrigerator until dough is firm. Then roll them and bake in moderate oven.

- MACAROONS**
- 2 egg whites, beaten stiff,
  - 1 cup brown sugar
  - 2 cups corn flakes
  - 1/2 cup broken nuts
  - 1 cup coconut
  - 1 tsp. vanilla
- Combine above ingredients. Form into macaroons. Bake 15 minutes at 350 degrees.

In washing garments made of the new man-made fibers, never wring them out to get rid of excess water. You may set wrinkles that are hard to get out.

Today more than one-fifth of the fibers used in clothing fabrics in the United States are man-made.

## Cakes Say "Happy Mother's Day"

**TENDER COCONUT CUPCAKES** spelling out "MOTHER" are a sweet way to tell that wonderful person how much she means to her family. Easily made by daughter, these cupcakes are covered with a lemon frosting and decorated with colored candies by the younger family members. Served with strawberries, they are certain to delight Mother on her special day.

- MOTHER'S DAY CUPCAKES**
- 1 1/2 cups sifted Swans Down Cake Flour
  - 1/2 cup butter or other shortening
  - 1 cup sugar
  - 1 1/2 teaspoons double-acting baking powder
  - 2 eggs, well beaten
  - 1/2 cup milk
  - 1/2 teaspoon vanilla
  - 3/4 cups shredded coconut

Sift flour once, measure, add baking powder and salt, and sift together three times. Cream butter, add sugar gradually, add cream together until light and fluffy. Add eggs and beat well. Add flour, alternately with milk, a small amount at a time, beating after each addition until smooth. Add vanilla and coconut and blend. Turn into greased muffin pans, filling them 3/4 full. Bake in moderate oven (375° F.), 15 minutes, or until done. Makes 16 cupcakes.

Prepare Lemon Butter Frosting. Spread on tops and sides of cupcakes. Place tiny colored candies on 6 of the cupcakes, spelling out the word "MOTHER" by making one letter on each cake.

- LEMON BUTTER FROSTING**
- 3/4 cup butter
  - 6 tablespoons lemon juice (lemon)
  - 3/4 teaspoon grated lemon rind (lemon)
  - 6 1/2 cups sifted confectioners' sugar
  - 1/4 teaspoon salt
- Cream together butter and lemon juice. Add part of sugar gradually, blending after each addition. Then add remaining sugar, alternately with lemon juice, until all sugar is blended. Beat thoroughly after each addition. Add salt and beat.

**THE COOKIE JAR** — Mrs. Walter Purviance, 802 W. Francis, is shown putting some oatmeal cookies she has just made into her cookie jar. The cookie jar has special memories for her, as she always kept it filled with cookies for her children. When they came home from school, she said the first thing she'd hear was the cookie jar being lifted. (News photo)

## This Is My Dish

### Cookies Are Specialty Of Mrs. W. Purviance

By JANE KADINGO  
Pampa News Women's Editor  
You can live without music.  
You can live without books.  
But show me the one  
Who can live without cookies.

This is one of Mrs. Walter Purviance's poems in one of her cook books, and, of course, it's very true. And Mrs. Purviance is a good cook and one who enjoys it.

When asked if she likes to cook, she stated: "I love it! It just seems easy to me. I really enjoy it."

Mrs. Purviance has another poem that aptly describes her. She stood at the table with sugar and spice  
And raisins and currants and everything nice;  
And cut little round things as fast as she could,  
And baked them, and then they were cookies—and good.

"I guess my hobby is making cookies," she explained.

Mrs. Purviance stated she has made cookies all her married life. When her children came home from school, she said one of the first things she would hear was the top of the cookie jar being lifted.

A Pampa since 1912, Mrs. Purviance, being reared in the country, learned to cook as a child. She is originally from Illinois. She now cooks only for her husband, Dr. Purviance, and herself. She has a married daughter living in Oklahoma City, Okla., and two grandchildren.

All of Mrs. Purviance's outside-the-home activities are now centered around the church. She is a member of the First Methodist Church where she has taught the Friendship Class for 25 years. She is also a member of the Women's Society of Christian Service.

A second hobby of Mrs. Purviance is her gardening, a bout which she is very enthusiastic. In her garden are Bermuda onions, lettuce, tomatoes, beets and beans, and other vegetables.

"I've always had a garden," she explained, adding that she loves to watch things grow.

Mrs. Purviance has a number of excellent cookie recipes. Here are a few.

**MY FAVORITE COOKIES**

- 2 cups sugar
- 1 cup butter

Break 2 eggs in a cup and finish filling with buttermilk. To this beat in a teaspoon soda. Mix with sugar and butter. Add flouring and 3/4 cups flour to make soft dough. Let stand in refrigerator a few hours. Roll thin. Place a raisin in the center. Bake at 350 degrees until done.

**OATMEAL COOKIES**

- 1 cup brown sugar
- 1 scant cup butter or margarine

Cream well. Add 2 eggs, well beaten. Then add:

- 1/2 cup sweet milk
- 1/2 tsp. soda, dissolved in milk
- 1/2 tsp. cinnamon
- 3/4 cups oatmeal
- 1/2 cups flour
- 1 cup raisins
- 1 cup nuts

Drop by spoonful (small and round) on greased pan. Bake in moderate oven.

**OLD-FASHIONED GINGER COOKIES**

- 1 cup brown sugar
- 1 cup butter or margarine
- 1 cup molasses
- 1/2 cup raisins

Cream sugar, butter and molasses together. Add 1 egg, well beaten, and 1/2 cup flour. Then add:

## "A Happy Way To Health"

Child Health Day in May once again reminds us of the need for wholesome dairy products in the child's diet. One way to assure this is to serve always popular tapioca pudding, containing an egg as well as milk. Even the fussiest child likes this creamy dessert, especially when topped with bright fruit or berries, chocolate sprinkles or bits of jelly.

- Tapioca Cream**
- 1 egg white
  - 2 tablespoons sugar
  - 1 egg yolk
  - 2 cups milk
- 3 tablespoons quick-cooking tapioca
  - 1/5 teaspoon salt
  - 2 or 3 tablespoons sugar
  - 1/2 teaspoon vanilla
- Beat egg white until foamy throughout. Add 2 tablespoons sugar, 1 tablespoon at a time, and continue beating with rotary egg beater until mixture will stand in soft peaks.
- Mix egg yolk with about 1/4 cup of the milk in saucepan. Add tapioca, salt, 2 or 3 tablespoons sugar, and remaining milk. Place over medium heat. Cook until mixture comes to a boil, stirring constantly — this takes 5 to 8 minutes.
- Four small amount of hot tapioca mixture gradually on beaten egg white, blending well. Then quickly add the remaining mixture, stirring constantly. (The hotter the tapioca and the faster it is blended in, the thicker and fluffier the pudding will be.) Add vanilla. Cool, stirring once after 15 to 20 minutes. Top each serving with fresh sliced strawberries or any fruit permitted in child's diet. Makes 6 or 8 servings.

## Easy To Prepare Beef Casserole

A few quick meals each week can often mean the difference between rushing and resting for the homemaker. Canned corned beef hash may be sliced, heated, and ready for the table in just a few minutes. Or, with a little preparation and about a half hour in the oven, it can be combined with vegetables and a sauce for a flavorful one-dish meal.

- If you keep corned beef hash on hand, you will always have something which can be easily prepared for family or guests.
- 1 can (17 oz.) peas
  - 1 can (17 oz.) white potatoes
  - 1 can (15 oz.) corned beef hash
  - 2 Tablespoons butter or margarine
  - 2 Tablespoons flour
  - 1 teaspoon salt
  - 2 cups milk
  - 1/2 cup bread crumbs
  - 1 Tablespoon melted butter or margarine
  - 1/4 teaspoon basil
- Drain peas and potatoes. Remove hash from can whole and cut into six slices, cut potatoes into quarters. Place hash, potatoes and peas in a two-quart casserole. Melt butter or margarine in a saucepan. Blend in flour and salt. Add milk gradually and cook until thickened, stirring constantly. Pour over vegetables and hash. Mix bread crumbs, melted butter, and basil together and sprinkle on top of casserole. Bake in oven 350 degrees F. for 40 minutes. Makes 6 to 8 servings.

## Jane Talk

By JANE KADINGO  
Pampa News Women's Editor

**WITH NUTRITION WEEK** not too far off, it might be a good idea to consider some of the principles of good diet. Although food is generally abundant in this country, we don't always include just what we should in our daily diet. And too many of us housewives have had no training in what makes up a balanced meal.

**"KEEPING IN MIND** through-out the year the slogan of the 1955 Nutrition Week (May 1 to 7)—"Meal Time Is Family Time," might inspire many more of those happy gatherings with the whole family joining in a delicious dinner, and then staying on to enjoy the evening together," says Paul S. Willis, President of the Grocery Manufacturers of America.

In our busy scheme of things, only one week can be formally set apart, but with the modern homemaker's greater knowledge of nutrition and her growing recognition of the value of serving balanced meals, we can be sure that every week is Nutrition Week in thousands of homes.

Through nutrition education by their home economics departments, the food manufacturers have done a continuing job of keeping us informed about scientific developments in the foods we feed our families. This has been encouraged by the fact that the modern homemaker shows an eagerness to have this information on what happens to food all along the Life Line of America—the line of essential processes between food in the field and food on the family table.

Diets have changed steadily during the past few years, with the biggest gains in such nutrients as proteins, vitamins and minerals. These improvements are all in line with the basic principles of nutrition.

A good diet provides—  
1. Carbohydrates and fats to supply the energy to keep us going—including butter or margarine,

salad dressings, sugar and starches.

2. Proteins for building and renewing body tissue—meat, poultry, fish, eggs, cheese, bread and milk or cereal and milk combinations.

3. Vitamins and minerals to keep the body in good running order, and for bone structure. Examples—green and yellow vegetables, and citrus fruits.

All good foods belong in the diet. Nutrients function as a team, and the exclusion of some of them may affect the delicate interrelationships vital to health. Variety is the keynote. In fact, variety is the best practical means of providing a balanced diet.

Where overweight is a concern, we must not be led into harmful practices such as eliminating entirely whole categories of goods like bread, cereals, salt, butter or margarine. A reducing diet should always be under the supervision of a physician.

If we keep in mind the chief functions of the different foods, we have a mental spring board from which to get an idea of what nutrition is all about—an understanding which enables us to change our way of feeding the family to get more of the food essentials in sufficient quantities.

Our becoming increasingly nutrition-minded as a nation would seem to be a direct result of continued consumer interest and understanding.

Absorbent powder cleaners do much to brighten the surface of carpets, and the carpeting does not resoil so quickly.

### GOING-AWAY PARTY

Tech. Sgt. William Howard Irvin of Panhandle was honored with a going-away party Wednesday evening in the Pampa Hotel by his mother, Mrs. Marjorie Magee of Pampa. Shown at the event are, left to right, Mrs. Magee, Sgt. and Mrs. Irvin. Sgt. Irvin will leave May 9 for Camp Kilmer, N. J., from where he will go to France to serve with the Strategic Air Command under Gen. Curtis LeMay. His wife and two sons, Billy, 3½, and Bruce, 6 months, will remain in Panhandle for the time being. Sixteen persons attended the farewell dinner. (News photo)

### Varietas Study Club Members Given Talks On Women's Clubs Federations

"All Our Strength Is In Union" was the Federation Day program presented at the Varietas Study Club meeting Tuesday in the home of Mrs. Luther Pierson, 1121 Mary Ellen.

The meeting was opened with silent prayer in the memory of the late Mrs. Horace McBee, an honorary member.

Mrs. Pierson, leader, had as her topic, "Why I am a Federated Clubwoman." She stated she liked to be a part of the group of women who do things for their community, state and nation.

"I feel that being a federated clubwoman helps me to be a better woman, socially, culturally, educationally and spiritually," she advised. "When women of the general federation band together, we have a strength and influence that can be felt in world affairs."

Mrs. Dow King continued the topic, telling of constructive legislation the federation had a part in making. She listed a number of achievements in this field the federation had backed.

"Few local clubs can achieve much alone, but multiply one club by 15,000 and one force by the millions that make up the general federation membership, and you really have a power," explained Mrs. J. I. Doggett, next speaker.

"This is especially true when those making up these millions represent a non-partisan, non-profit making organization with no axe to grind. Its (the federation) only concern is human welfare."

Mrs. Sherman White's topic was "Building A Better America." She told of numerous problems of today and of the future.

During the business session, led by Mrs. H. H. Butler, final plans were made for a luncheon, to be held May 10, in the home of Mrs. W. L. Heskew, Mrs. S. C. Evans thanked the members for the books they brought, and announced they will be donated to Highland General hospital for the Gray Ladies to read to patients. Mrs. Dow King gave the highlights of the "Federated Clubwoman" magazine.

Mrs. C. A. Bailey of Moberly, Mo., was a guest. Members present were Meses. Cecil Dalton, H. H. Butler, J. G. Doggett, H. P. Dosier, S. C. Evans, H. T. Hampton, Lee Harrah, W. C. Hutchinson, Dow King, J. E. Kitchman, R. W. Lane, C. L. McKinney, Otis Nace, Luther Pierson, J. R. Spearman, J. C. Vollmert, W. A. Waggoner and Sherman White.

### Tangy Cheese Dip Goes With Pretzels

Pretzels get a new twist, figuratively speaking, with a cheese dip that transforms this into a conversation piece. Using miniature or regular pretzel twists, each one is dipped halfway into the cheese mixture then "finished off" with a sprinkling of caraway or poppy seeds.

**CHEESE-DIPPED PRETZELS**  
1 6-ounce package sharp processed cheese  
1 tablespoon beer or cream  
½ teaspoon Worcestershire sauce  
½ teaspoon dry mustard  
Dash cayenne pepper  
Pretzel twists  
Caraway seeds  
Poppy seeds  
Cut cheese into chunks. Heat cheese with beer and seasonings over hot (not boiling) water. Cook only until cheese is melted, stirring to blend. Dip pretzels half way into cheese mixture. Sprinkle cheese-dipped portion with caraway or poppy seeds. Place on waxed paper to set until firm. Pass while warm. Makes enough for dipping about 4 dozen pretzels.

**Wesleyan Guild Feted At Dinner By WSCS**  
MIAMI — (Special) — The Women's Society of Christian Service of the Methodist Church entertained the Wesleyan Service Guild with a supper and book review Monday night in Fellowship Hall.

Mrs. W. H. Craig gave the invocation. After the supper, Mrs. Ross Cowan, president of the WSCS welcomed the guests and members and presented Mrs. Clyde Loper, who reviewed "My Spiritual Diary," by Dale Evans Rogers. This book is an intimate, honest, accounting of one soul to its Creator, written in diary form, she stated. Dale Evans Rogers tells of the long hard road from defeat to ultimate victory, a road she has known well.

Guild members attending were Meses. Jim Campbell, R. J. Bean, R. W. Beck, Ford Cowan, Homer Cowdrey, Joe Cunningham, Frank Gracey, W. R. Holland, Troy Hopkins, Clyde Loper, J. V. Patterson, Kint Philpott, James Seitz, Maurita Taylor, Bill Wiley, Bill Cox, and W. G. Elen.

WSCS members attending were Meses. Ross Cowan, Eunice Holland, J. K. McKenzie, J. L. Selber, C. Carmichael, C. C. Carr, Jim Coffee, Annie O'Loughlin, Harry Hardin, W. H. Craig, S. S. Jackson, C. C. Shield, W. O. Russell, J. E. Borden, C. A. Gunn, W. L. Russell, and Grady Bailey.

**Wesleyan Guild Feted At Dinner By WSCS**

Clothes may make the guy or gal, but it's the test-tube world that's making the clothes.

**"UNDERGROUND WOOD"**  
When you are adding new fence posts, clothes line posts or supports for arbors, be sure to apply preservatives to prevent the rotting of the wood that spends its time beneath the surface of the ground. Such preservatives, mainly chlorinated phenols and zinc naphthenates, penetrate the pores of the wood and help it withstand the attacks of destructive fungi. Any type of paint can be applied successfully over the chlorinated phenols and zinc naphthenates. Copper naphthenate and creosote can also be used for the same purpose, but tend to bleed through some paint coatings.

### Travel Program Given At Meeting Of B&PW Club

The Business and Professional Women's Club held a social meeting Tuesday evening in the City Club Room.

The program, under the direction of Mrs. F. W. Shotwell and Miss Buena Cox, was presented by Mrs. Glen Ritchhart. Mrs. Ritchhart told of her trip through the South, along the "Azalea Trail," and showed colored slides she had taken.

During the business session led by Mrs. D. C. Ash, president, ballots for election of officers were distributed. The ballots must be mailed in by Friday, and final voting will take place at a later date.

During the social period, refreshments of punch and cookies were served. The table was covered with a lace cloth and centered by a spring floral arrangement. Flanking the centerpiece, were yellow tapered in green holders. Mrs. Ash presided at the punch bowl.

Mrs. Clyde Loper of Miami and Mrs. Homer Hollars were welcomed as new members. Twenty-five members were present.

### Holy Souls Women To Give Tea Sunday

Holy Souls Parish Council of Catholic Women will hold its annual May tea at 3 p.m. Sunday in Parish Hall.

Following the program, installation of officers will be held for the three parish organizations, Parish Council, Altar Society and Home and School Association. The event is open to all women of the parish.

**FRESH SPRING ASPARAGUS** is extra good with special aromatic Hollandaise sauce.

### COOK'S NOOK

### Special Sauce Gives Extra Lift To Fresh Asparagus

By GAYNOR MADDOX  
NEA Food and Markets Editor

With fresh asparagus on the market now, to the spring delight of most of us, it's time to look for a good new sauce. We found one in Michigan. Mrs. Gilbert Sherman of North Muskegon gave it to us.

She has three preschool children and a husband—Civilian Air Defense. So she's a busy woman. But she finds time for her quick-to-make Hollandaise sauce for fresh asparagus which all her family raves about.

Asparagus Sauce Angostura (4 to 6 servings)  
Two egg yolks, 1 tablespoon tarragon vinegar or lemon juice, 1 cup commercially soured cream, ½ teaspoon salt, ½ teaspoon paprika, 1 teaspoon aromatic bitters. Place egg yolks, lemon juice and

sour cream in top of small double boiler. Stir over gently boiling water until sauce begins to thicken. Beat in salt, paprika and Angostura bitters. When using sauce with asparagus, place asparagus on heated platter and pour sauce over the stalks. Good also on green beans and broccoli, and on left-over vegetables.

Mrs. Sherman is weight-conscious and has developed her own low-calorie salad dressing.

Special Diet Dressing (about 1 cup)  
One cup buttermilk, 1-4 teaspoon salt, 1 tablespoon finely minced onion, 1 tablespoon finely minced celery, 1 tablespoon minced parsley, ½ teaspoon aromatic bitters, 2 tablespoons catchup. Combine ingredients and mix well. Calorie count: per tablespoonful — 6 calories.

MRS. HARRY WOFFORD

### Mrs. Harry Wofford, Wheeler, Named District Seven "Woman Of The Year"

WHEELER — (Special) — The conclusion when the library had honor of being named "Woman of the Year" of District Seven was bestowed upon Mrs. Harry Wofford during the eight years as a member of the Wednesday Study Club. Mrs. Wofford has served as secretary-treasurer two years, as chairman of the yearbook committee, project committee chairman and as chairman of registration committee for the seventh district.

In addition to Mrs. Wofford's club activities she participates in church and civic activities. She has been the church clerk of the First Baptist Church for 5 1/2 years and helps lead the youth work in that church. Although she has no children she is a member of the local P. T. A. During the past year she has helped her husband who is lieutenant governor of the Texas-Oklahoma district of Kiwanis International.

Beside her club, civic and church activities, she makes a home for her elderly father-in-law and looks after her own parents.

Mrs. Wofford is now eligible for the state "Woman of the Year" award to be presented at the state convention beginning Tuesday in Galveston.

Last year's award for district seven "Woman of the Year" went to Mrs. W. A. Tinney of Lubbock.

Before the beginning of recorded history, paints were no more than natural deposits of colored earth found in many parts of the world and combined with a liquid, even today, these colored earths, or pigments are still used in paint making.

Each of the 243 clubs in the district annually elect its local "Woman of the Year" and submit the winner to the district leadership development department committee, appointed by Mrs. H. P. Munday, district president, to be considered in the district award. The District winner is then submitted to the state committee for consideration.

Mrs. Wofford was chosen for this honor for the "outstanding enthusiasm, and willingness to serve in any capacity" in her eight years as a member of the Wednesday Study Club of Wheeler.

The principal project of the Wednesday Study Club for the current year has been helping with a cooperative, community project of promoting and establishing a city library. As project committee chairman, Mrs. Wofford became a member of the Wheeler Chapter of the Friends of Texas Libraries. She was elected to serve as chairman of the board of directors. She was active in the procuring and remodeling of the building and renovating the premises and helped lead the project to a successful

### JayCee-Ettes Plan For May Barbecue

Plans for a barbecue, to be held May 14, were made at the meeting Tuesday evening of the JayCee-Ettes in the home of Mrs. Ken Calkins. The event, for all JayCees and their wives, will be the last JayCee-Ette meet until fall.

Mrs. Horton Russell, president, conducted the business session. Attending were Mmes. George Neef, George Reed, Ken McGuire, Harold Meador, Horton Russell and Ken Calkins.

### White Deer Bridge Club Has Luncheon

WHITE DEER — (Special) — Mrs. L. A. Puckett was hostess to the Luncheon Bridge Club recently. Following lunch, three tables of bridge were played. Mrs. Marvin Milliken received high score; and Mrs. Alvin Williams received the traveling prize.

Guests included Mmes. Marvin Milliken and Don Nicholson. Members attending were Mmes. Bill Abbott, Wayne Jordan, Bob Moore, Richard Barnes, Alvin Williams, Otis Holladay, Bill Gunn, Tommie Townsend, Vic Bates, and Horace Williams.

Next meeting will be May 9, in the home of Mrs. Bob Moore.

reg. 6.00 — now	3.69	reg. 19.00 — now	12.99

When you're painting the drawing of a desk or chest, it's advisable to remove the handles or knobs and paint them separately. If you attach them to a section of cardboard, they're easy to handle. The drawers themselves should, of course, be removed from the piece of furniture in which they belong and also painted separately.

If you fail to follow the best construction practices while you're building a new house you may end up by having a damp basement. Make sure that you have proper drainage, that membranous waterproofing is sealed to all exterior walls and that there is rammed oakum and hot bitumen in the joints between floor and walls.

## Driving a new Chevrolet can help you win one!

# WIN ONE OF 102 CHEVROLETS

### Enter Chevrolet's Big Miracle Mile Contest

You can win a new Chevrolet plus a \$1,000 U.S. Savings Bond

What you learn on a demonstration drive can help you win

Here's the happiest invitation a motorist ever received. For not only are you being invited to drive the smoothest, liveliest, loveliest car in the low-price field... but you are also getting a chance to win a brand-new Chevrolet, plus a \$1,000 U.S. Savings Bond!

That's the story behind our Miracle Mile Contest. It gives you a chance to see for yourself the wonderful advances built into the Moto-

ramic models. And while you are testing, you'll be picking up a whole headful of information that can help you be a winner.

The fact is, we've put so many advances in the 1955 Chevrolet that no one entry could cover them all. But here are some things to look for particularly:

**Glide-Ride Front Suspension**  
Here's the unique spherical-joint suspension that is sheathed against grit and self-adjusting for wear... so beautifully flexible it soaks up even the tiniest road

ripples and glides over the big bumps.

**Anti-Dive Braking Control**  
You'll learn that the Motoramic Chevrolet doesn't dip sharply down in front when you jam the brakes on! Only Chevrolet has Anti-Dive Braking Control to give "heads-up" stops.

**High-Level Ventilation**  
Another Chevrolet exclusive in the low-price field, to draw in air above the level of road dust and exhaust fumes, to turn wind gusts into a smooth air flow.

**"Horses" to Suit Your Needs**  
You'll want to explore Chevrolet's full range of engine choices, from the silk-lined cyclone of the new "Turbo-

Fire V8" through the ultra-efficiency of the two "Blue-Flame" 6's. And there's the "Super Turbo-Fire V8," too... 180 horsepower for really blazing performance. And Chevrolet is the only car in its field with a 12-volt electrical system.

So why don't you sample these pleasures yourself at the wheel of a 1955 Chevrolet. Enter our Big Miracle Mile Contest... without cost or obligation... and you may win a 1955 Chevrolet of your own, with a \$1,000 bond to sweeten the pot!

COMPLETE and OFFICIAL figures show that again in 1954 — for the 19th straight year — MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR!

# High Point Man, Mike Price, Sparkes 4-H Land Judgers

By BILL KERR  
Pampa News Staff Writer

Win, lose or draw, Gray County can be mighty proud of its 4-H land judging team. Today, the four stalwart sons who make up the team are in Oklahoma City to show their prowess on the field of national competition — one of the five teams representing Texas.

Since the organization of the team three years ago, they have never lost a district competition. John Dial, Sam Condo, David Miller, and Michael Price, the present team, who through hard work, excellent coaching, and that extra added something called ability, make for the team which has done Gray County proud. It was this team, which on April 9 beat out 23 entries at Plainview for the

district honors. Sparking the team was high point scorer Price, a 17-year-old ranch boy from northwest of the city.

### High Scorer

Mike has been on the land judging team ever since its organization, and made quite a mark for himself for a "beginner" in the 1933 state-wide competition at College Station by being top man among all entries — and remember there are 254 counties in the state. The same year the Gray County team came in third in the state as they also did the following year. They are presently hoping to up their state performance record, but for now they have a "mad on" for Oklahoma City, and the national contest.

Mike became interested in 4-H

work, not only because he is a rancher's son, but because "Dad was a 4-H member in Kansas, and I wanted to follow in his footsteps." His parents are Mr. and Mrs. Traylor Price.

Mike got the "bug" for land judging in 1933, and he and four other Gray County boys attended with the then Assistant County Agent Bill Goldston several contests and exhibitions in the Panhandle.

### Trained Locally

"All the members of the local agricultural services helped us train," Price said. "Since Jerry Mobly came to the county agent's office he has really worked hard with us," he added.

For a career, Mike is looking forward to studying for the Presbyterian ministry. Not only does he seem to have the heart for it but academically he will also qualify. A straight "A" student for three years at the High School, Mike's a member of the National Honor Society, despite carrying a rugged college preparatory course which includes Latin. College-wise he is thinking of Trinity in San Antonio, and then the McCormick Theological Seminary, Chicago.

Mike's activities in high school journalism were recently recognized. At the winter meeting of the Texas High School Press Association in Denton, he was elected vice president of the association. Mike is a member of "Quill and Scroll," a national society for outstanding journalism students.

### Editor of Annual

In his senior year, beginning in the fall, Mike will be editor of the Harvester annual. Presently he is serving as sports editor and photographer, filling in on the sidelines for the "Little Harvester" as a photo.

Recently there was some additional night work for Mike and the other members of the land judging team. National and state competitions required polishing off some of the rough edges. Mobly has been reviewing with the boys land judging techniques. Several afternoons have been spent judging practice fields in the county.

"Getting the classes of land crops and conservation treatments under your belt," according to Mike, "can make for quite a load."

## Cutter Product Withdrawn Once Before

BERKELEY, Calif. —UP—The recall of Salk polio vaccine produced by Cutter Laboratories Wednesday marked the second time in less than 10 years that the firm has had to withdraw its products from the market.

In May, 1948, the laboratories recalled from hospitals their entire line of dextrose and glucose solutions after two contaminated batches were discovered in the Pacific Northwest and in the South.

The big drug firm issued a "stop order" on their solutions in hospitals and blood banks after the American Medical Association reported "at least two and possibly four deaths" occurred in Florida and Kentucky following use of a 5 per cent saline solution produced by Cutter.

A few days later laboratory testers found contamination in a 10 per cent solution shipped to hospitals in the Pacific northwest and the laboratories recalled all dextrose and glucose solutions from the market "in the interests of public safety."

## Bail Denied Washburn

SAN ANGELO, Tex. —UP—Judge Joe L. Mays of 51st District Court refused Wednesday to grant bail to Harry L. Washburn, 28, charged with murdering Mrs. Helen Harris Weaver last Jan. 19 by putting a bomb under the hood of her automobile.

Cliff Tupper, one of Washburn's lawyers, took exception to judge Mays' ruling and indicated he will appeal to the court of Criminal Appeals at Austin. Judge Mays ordered Washburn taken back to Tom Green county jail, where he has been held since Jan. 29.

In final argument, Earl W. Smith, special state prosecutor called the murder of Mrs. Weaver, who used to be Washburn's mother-in-law, a "cold, calculated crime."

"This man for months has been trying to get Harry Weaver killed," he said.

The state contends that Washburn killed Mrs. Weaver in mistake for her husband.

Tupper, summing up for the defense after a hearing that began Monday, said the "killer of Mrs. Weaver will be made known at the proper time and in the proper way."

**Anthony's** BABY WEEK VALUES

**Starts Tomorrow!**

**Sturdy... Birch Finish**

**BABY BED**

**MATTRESS FREE**  
Both For Only

**29.95**

- 2 Drop Sides

# A City Moved To Create Perryton

By JOEL COMBS  
Pampa News Correspondent

PERRYTON — Perryton, county seat of Ochiltree county, was formed as the result of moving a whole town in one operation to the present town site.

Ochiltree County was organized in 1887 and the town of Ochiltree established as the County seat. When the Santa Fe Railroad was extended westward from Shattuck, Okla., great efforts were made to induce the routing of the railroad through the town of Ochiltree, but because of cheaper construction costs, the railroad was put on the present route.

Perryton, on the railroad, was opened to settlement in 1919 and on August 22, 1919, when the first train steamed through Ochiltree County, the event was recognized by a big celebration.

Each year since, on that date, a celebration has been held, except for a few years during the war. Perryton has a very unique and interesting history in respect to the railroad and is often referred to as "The City Built On Wheels."

In order to promote harmony, secure solidarity, and to induce the residents owning homes in Ochiltree to move to the new townsite in order to make use of the railroad, a committee was set up to allocate lots to each Ochiltree resident based upon value of property and type of construction. The townsite company executed deeds to persons designated by the committee without cost.

An election was held to determine whether the county seat was to be moved, and the election carried by a large majority. The whole town of Ochiltree moved to Perryton.

The process of moving 200 houses was colossal. The services of W. G. Willingham were secured, and with his efficiency, his beautiful team of dapple greys, and a steam engine, the process was terminated in a few weeks. Often two or three houses were chained together and moved at one time. The court house built in 1890 was moved and used until 1928 when a new court house was built. The old building is now owned by the Perryton American Legion.

The new town had to be named. "Perry" was submitted to the Postmaster General, but Texas already had a post office by that name and the name of Perryton was chosen. Perryton was named in honor of George M. Perry, pioneer citizen, the first county and district clerk, and who also served as County Judge for many years. Immediately the town began to grow. Charles Whippo and Fremont Mead dug the first water well and from a tank drawn by

horses, delivered water to the citizens of Perryton at 25 cents per barrel.

The city of Perryton is located closer to the capitals of five states than to Austin, the capital of Texas and as county seat, is located farther north than any other in the state.

Eighteen miles southeast of Perryton is the site of the Buried City, a pueblo ruin built by Panhandle Pueblo Indians and discovered in 1907 by Dr. T. L. Eyerly, Floyd V. Studer and other archaeologists. Dr. Warren K. Moorehead partly excavated this ruin in 1919-20 and the stone houses are said to have been in ruins when Coronado traversed this region in 1541.

Ochiltree County, 2914 feet above sea level, has increased its population from 40 citizens when it was organized in 1887 to approximately 6024. It is located in the northern tier of counties in the Texas Panhandle, bounded by Beaver

County, Okla. on the north. Primarily an agricultural county, the area produces some of the finest wheat, oats, kaffir, and kindred crops in the Panhandle. Approximately 80 per cent of the county's 376,000 acres is agricultural. Wolf Creek is the only river running through the County and it is the site of Wolf Creek Park, a recreation spot.

Cattle, sheep, and other livestock are raised commercially in the area which has two slaughterhouses.

Ochiltree County experiences an annual rainfall of 20 inches even though it is classified as semi-arid. The county is a pleasant place in which to live and the residents take a fierce pride in the city and county progress. Things are looking up, too, for irrigation has come to aid in the production of wheat and other crops. There are approximately 60 irrigation wells in the county now and more are on the way.

FARM LAND — Scenes depicting the various agricultural interests of Ochiltree County are shown above with the sheep representing the production of livestock and the two lower photos depicting the harvest of wheat.

## State Bolsters Priest Case

LEBANON, Mo.—UP—The state attorneys pleaded him innocent by reason of insanity.

His trial opened here Monday, but a jury was not completed until late Tuesday. Mrs. Madine Earnest, sister of Priest's wife, Etta Mae, testified that Priest showed a special fondness for Jeannette. He was so fond of her, in fact, Mrs. Earnest testified, that she and Etta Mae collaborated to keep the girl from seeing him.

Forgetful Sheriff

CHEBOYGAN, Mich.—UP—Sheriff Harold Werner wrote himself a traffic ticket when a pedestrian pointed out that the officer didn't have a 1935 license plate on his trailer. "I got a new plate for my car but I just forgot about the trailer," the sheriff said.

Possible witnesses will be Mr. and Mrs. Orville Mehaffy of Baxter Springs, Kan., and Mr. and Mrs. Nario Antolli of Mt. Vernon, Mo. Priest was arrested at Mt. Vernon on a tip from Antolli.

Jeannette, well-developed for her age, was kidnapped last Nov. 16. She was shot and killed the next day and her bruised body was not found in a desolate wooded section near Lebanon until four days later.

Priest led officers to the murder gun and then to the body. He has been charged with the murder. De-

## Big Cartoonist Designs Colossal Sleeping 'Pad'

By HARMAN W. NICHOLS  
WASHINGTON —UP—Gib Crockett, a hulking hunk of man, got so tired of falling out of little beds that he decided to build himself a big one.

Big Gib is an artist, a political cartoonist for the Washington Star among other artistic bends, so he did what came naturally.

He drew up some plans for a colossal sleep pad. It's finished now. Six feet wide and nine feet six inches long — rolling room enough for a large slumber party.

Crockett started from a blueprint, as I said, with his dream bed. Next step was to get lumber. So he went to Baltimore and bought acres and yards of mahogany, including side rails 6 1/2 inches wide and 1 1/2 inches thick. He got himself some posts, for a four poster, that were five inches square and eight inches high.

The artist bed-maker is as handy with a saw as he is with a paint brush and an easel. He has a power workshop in his basement.

He whittled and curled around with chisel and saw and file until he had beautiful posts that many would think came out of King Louis's own private slumber parlor.

Once he got the ground-work done on his vast sack, he had to call on mama. Mama is Florence,

his wife, the mother of Gary, aged 13, and Sandy, a cute little girl just turned 11.

"Without whom," Gib likes to tell on-lookers, "this wonderful bed could have been built in one-third the time."

Florence's job was to figure out what to do about the trimmings for a bed that size. She learned it was quite a problem. Springs had to be custom made. And so did the foam rubber mattress. Between the springs and the mattress, the bill climbed to \$380.

Gib, who is over six feet, and weighs a little under 200, wanted the best.

Although the United States bought the land from France, the Spanish had remained in the territory as governor, so it was the Spanish flag which was replaced by "Old Glory" when the U.S. took over the Louisiana Purchase.

## Benson Drouth Tour Caravan Enters Texas, Oklahoma Area

By GAYLORD F. GODWIN  
AMARILLO, Tex.—UP—The Benson drouth tour caravan got into greener and less wind-blown country of the Oklahoma and Texas Panhandles Wednesday.

Left behind were the bare desert-like dust-covered fields of southeastern Colorado and the lesser damaged fields of southwestern Kansas.

Secretary of Agriculture Ezra T. Benson and his party swung south out of Liberal, Kan., at 6 a.m., east toward Guymon, Okla., 40 miles away. As the cross-country bus rolled through the vicinities of Tyrone and Hooker, Okla., Texas county (Okla.) agent Robert G. Sheets explained to newsmen and Agriculture Department officials that "a two-inch rain will solve all our ills."

It's drouth, not dust, that bothers this area.

Benson Asks for Prayer

Benson, before leaving Colorado, asked for a day of "prayer and supplication to ask God in Heaven to send rain."

Sheets said Texas county farmers will harvest about 260,000 acres of wheat. He said this is about one-third of the acreage allotted. The wheat fields along the highway were green with only spots of bare earth showing.

Sheets said much of it would have to be abandoned and probably planted to maize, the other big crop in this area.

Range Grass Shortage

Glenn Teel, who operates a 1,200-acre wheat and dairy farm near Hooker, Okla., said he was feeding his purebred Jersey herd in a feedlot, because of a lack of range grass. He said the drouth had cut down growth of range grass.

Mrs. Teel said the dust from the recently listed field a few yards from her home "doesn't bother me; there hasn't been too much dust blowing." She said she had lived there 25 years and "I haven't complained."

Sheets said most of the dust in Texas county apparently had blown in from the severely damaged eastern Colorado area.

Sheets said Teel's prosperous farm was a "fine example of a good job of soil conservation."

Scotching Burying Rumor

Before embarking on Wednesday's leg of his drouth tour, seeking ideas for a stable agricultural program in the southern Great

Plains, Benson scotched rumors that the government will buy up and retire wind eroded land in the drouth area.

This was done to some extent in the drouth period of the 1930s. The secretary said he didn't believe much of the cultivated land that once was grassland would have to be returned to grass.

He said a "farmer wants to run his own business."

Cattle herds that had been absent through most of the tour route in Colorado and Kansas began reappearing in Oklahoma and Texas. There were sizeable numbers in the fields. There was evidence of the value of pump irrigation in the Oklahoma and Texas Panhandles.

Irrigated Wheat Greener

The wheat which had been irrigated was greener and provided more cover than the non-irrigated wheat.

County Agent Ernest Gould of Sherman county, Tex., said the 35,000 irrigated acres of wheat in this county all would make a crop. Only 45,000 acres of dry farmed wheat would make, Gould said. He said 80,000 acres would have to be abandoned.

Gaston Wells, president of the Moore county (Texas) chapter of the American Farm Bureau federation, told Benson farmers in the area needed higher support prices for wheat to help pay for pump irrigation development. Benson thanked him for the information.

Wells said farmers turn to expensive pump irrigation with the last four years "because we want to make a living."

The big cattle range country south of Dumas, Tex., and on to Amarillo showed signs of drouth—the grazing was not abundant—but there was nothing of the dust of desert-like eastern Colorado.

Benson made his plea for rain Tuesday at Lamar, Colo.

# Bobbitt To Speak At Stag Dinner

VARIED PROGRAM

Gen. Robert Lee Bobbitt, former chairman of the Texas Highway Commission, will be the featured speaker tomorrow night at the stag banquet which will bring to an end Dedication Day for the Canadian River Bridge.

Gen. Bobbitt is expected to comment on his past experience in highway construction, including the bridge between Pampa and Perryton that will have been dedicated just hours before.

For he once even talked before a group of interested citizens in the Pampa Junior High School on the same bridge.

The banquet will begin at 7:30 p.m. tomorrow in the Pampa County Club with a reception. Dinner will be served at 8.

Floyd Watson, president of the local Chamber of Commerce, will preside during the banquet. G. S. Vineyard will handle the introductions.

The "Perryton Tune Twisters" will provide the entertainment and Coy Palmer will play the organ during the dinner.

Clinton Evans, past chamber president, will give "A Bit Of Reminiscing," before Garnet Reeves, Lubbock, former chamber manager, introduces Gen. Bobbitt.

The program is expected to last till about 10 p.m., thereby ending a long Dedication Day.

Earlier in the day, the Texas Highway Commission — Chairman E. H. Thornton, Jr., and Members Herbert C. Petry, Jr., and Marshall Formby — and State Hwy. Engineer DeWitt Greer will arrive by Cabot plane at Perry-LeFors Field. Their arrival is scheduled for 10 a.m. tomorrow.

Barbecue will be served at noon at the north end of the bridge with music provided by the Pampa Junior High School Band.

The dedication ceremony will begin at 1 p.m. with a 15-minute concert by the Amarillo Air Force Band. Fred Thompson, chairman of the chamber of commerce highway and transportation committee, will call the meeting to order; the Air Force Band will play the National Anthem and Rev. Keith McCormick, pastor of the First Baptist Church, Perryton, will give the invocation.

Max Boyer, Perryton, will recognize platform guests and greetings will be extended by Roberts County Judge Ed Haynes, Ochiltree County Judge Howard Slaughter and Gray County Judge Bruce Parker.

Formby will recognize state highway officials and Frank Culbertson, chairman of the Pampa committee which procured the right-of-way for the road approaches to the bridge, will introduce Thornton, who will give the dedicatory address.

Then seven ribbons will be cut to open the bridge officially.

In order, the cutters will be Mrs. Sherman White, Pampa; W. E. LaMaster, Perryton; Woods King, Miami; Gen Bobbitt, San Antonio; Petry; Formby and Thornton.

Thornton, Petry, Formby, Greer and other highway officials have been invited to a mid-afternoon coffee in Perryton.

They are expected to return to Austin tomorrow night.

GEN. ROBERT LEE BOBBITT

## Ike Happy To See End Of Local Banquet Season

By MERRIMAN SMITH  
WASHINGTON — UP — Back stairs at the White House, President Eisenhower is happy to see the local banquet season drawing to a close. He is no devotee of rich food and late evenings.

In this waning 1954-55 banquet and convention season, the President has made it an increasing practice to pass up the meal itself and "drop in" on a gathering for a brief speech after the guests have eaten.

His last major social function of this season will be the Gridiron Club dinner the night of May 7. For that one, he'll arrive early and stay late.

When former President Truman was here recently, he was dining at the Mayflower hotel where he spotted columnist Drew Pearson, a frequent object of presidential wrath when Mr. Truman was in office.

The ex-president on this occasion, however, sent a note of personal greetings to Pearson across the dining room. Mr. Truman later told friends he "now" finds the columnist a fine fellow.

This has been typical of other past presidents. Once they are out of office, out of the range of critical fire, they can be downright friendly toward former adversaries and critics. Maybe it is the mellowing influence of age.

Some of the more vocal White House reporters are becoming recognizable figures in thousands of households across the nation due to the telecasts of Mr. Eisenhower's press conferences.

A reporter who questions the President frequently was absent from a recent conference and quickly received mail inquiries, asking why he was missing.

And "Backstairs" recently received this hard-to-evaluate note from Mrs. S. D. Jackson of Johnson City, Tenn.: "I enjoy seeing you on TV always sitting behind the President, looking like you did not know much, but I always know that when you speak, you will have something to say."

Mrs. Jackson, thank you, I guess.

Historical note: Where Mr. Eisenhower now practices golf shots on the south lawn of the White House, there grazed a herd of sheep during the Wilson administration.

The sheep, brought in primarily for pastoral scenery, were tended by a herder on the federal payroll. At shearing time, extra help was necessary to harvest the wool from the flock that numbered nearly 50 at one time.

When Mr. Eisenhower now practices golf shots on the south lawn of the White House, there grazed a herd of sheep during the Wilson administration.

The sheep, brought in primarily for pastoral scenery, were tended by a herder on the federal payroll. At shearing time, extra help was necessary to harvest the wool from the flock that numbered nearly 50 at one time.

It's true that modern fixtures are quite sturdy and will last indefinitely if not abused. But, like anything else, as styles change they become outdated. When this happens it is usually simple and inexpensive to replace them with newer models.

The White House is an example of good bathroom planning. There, 23 modern bathrooms were installed during the recent remodeling. All are equipped with the latest in colored fixtures and designed so that when present fixtures have become outdated they can easily be replaced with newer models.

PAINT GOES TO YOUR HEAD  
The new cold wave permanent is so wonderful for your hair, it can be fought on bobby pins. Special coatings are applied to the pins to prevent the chemicals used in giving permanents from reacting with the metal and causing streaks in the hair. The versatile paint, varnish and lacquer industry is on the hand at solving such problems. It provides protective coatings for everything from bobby pins to ballpoint pens.

## Civil Service Stenographer Jobs Open

The U. S. Civil Service Commission has announced that there is a continuing and urgent need for stenographers for filling positions paying from \$2,750 to \$3,175 a year, in various Federal agencies in the Washington, D. C., area. There is also a steady demand for typists for positions paying \$2,750 and \$2,950 a year.

Written tests for these positions are being held at periodic intervals throughout the country and persons with stenographic or typing skills who are available for employment in Washington, D. C., are urged to apply. No experience is required; applicants must have reached their 18th birthday.

Although applications will be accepted until further notice, those who wish to receive early consideration should file applications immediately with the U. S. Civil Service Commission, Washington, D. C.

Further information and application forms may be obtained from C. W. Stowell, located at the Post Office, Pampa, or from the U. S. Civil Service Commission, Washington 25, D. C.

### ENVY HER JOB?

CLIFFSIDE, N. J. — At Palisades Park, the amusement center which attracts over 10,000 people each summer day—around 200,000 each Fourth of July—maintenance men and painters are hard at work. In the spring clean-up now being tackled, over 5,000 gallons of paint will be applied. Mrs. Anna Halpin who has served as manager of the park for the last eighteen years might be considered the envy of womanhood. She decides what colors the painted surfaces are to be.

# PICTURE NEWS

AROUND THE WORLD

**HAVING WONDERFUL TIME**—Perhaps that's what these tourists in Paris are writing on post cards to their friends back home. They had taken advantage of a sightseeing bus stop along the Place de L'Opera to write their messages on the balustrade of an entrance to the city's subway. Looks like the tourist season has gotten off to an early start.

**PRINT JOB**—This print dress is done in high-luster polished Swiss cotton. The fitted bodice has a deep, open neck, framed by a self collar. The bow-tied satin belt tops a prettily flaring skirt. This sort of print seems to be fashion's harbinger for good style in the late spring and for summer.

**AREN'T THEY PLAYFUL?**—Although their parents have acted in the movies, these two five-week-old lion cubs prefer still photography with their assistant, a four-week-old tiger, right. They're all new residents at the St. Louis Zoo and the three curious creatures, busily examining that camera, had to be hand-fed after their parents abandoned them.

**GOOD SPOT FOR IT**—The Spanish Steps in Rome seem as good a place as any to bask in the warm spring sun, and these sailors are making the most of the opportunity. The photo shows only a small part of the stairs said to be unique.

**CENTENNIAL SPAN**—A new bridge replaces the 80-year-old Fort Leavenworth, Kans., span, linking the town with communities across the Missouri River. The total length of the new toll span is about 6 1/2 miles, including the structure and its approaches. The Centennial Bridge took almost 18 months to complete and was recently dedicated and opened.

**DIFFERENT**—Following the streamline fashion, Robert Bruce designed this sweater-shirt. It's made of 100 per cent virgin orlon with contrasting framed collar, looped placket and pearl buttons. It's the very latest in knitted wear for the well dressed man.

**ONE VOICE**—Albert Roach, 69, is kneeling in the street in London to recite his rosary and pray for peace. For his prayers, this religious man chose a strategic spot—in front of No. 10 Downing Street, Anthony Eden's new home.

**THEY'RE TWO BEAUTIFUL**—Winner of a contest in Paris to select the Ideal French Woman for 1955 is lovely 19-year-old Louise Dorey, left, but runner-up Jacqueline Chevalier, 20, isn't bad, either. The shapely creatures competed with 18 through dolls on the basis of elegance, culture and distinction.

**SHUTTERBUG**—A small fry photographer aimed her camera at what was taking place at SHAPE Headquarters in France. During a brief ceremony on the steps of the main building, this little gal was taking everything in on film. She may not remember it years from now, but she'll be able to see it again.

**IN THE BAG**—Most women would rebel at the idea of being called an old bag, but Helen Sullivan didn't mind. She was dressed this way to attend the Dream Ball at the Waldorf-Astoria Hotel in New York. It was the annual costume blow-out staged by the Art Students League.

**MUSICAL REPLACEMENTS**—Concert pianist Raymond Leizer lost both hands during the Arab-Israeli fighting when a land mine exploded in 1948. Recently, as main speaker at the annual Crippled Children's Day luncheon in Chicago, Leizer also showed he could still play.

**ROYAL FEET**—Prince Rainier III, left, ruler of the tiny Riviera principality of Monaco, is getting acquainted with a white camel sent to him as a gift by the governor of Algeria. The Prince likes to hunt and tame animals and keeps a menagerie in his principality's zoo.

# Communists Have Sanctuary Now Across From Formosa

By CHARLES M. MCCANN  
**United Press Foreign Analyst**  
One of the things that must have been discussed in the latest United States-Chinese Nationalist negotiations, is the fact that the Communists now have a "privileged sanctuary" opposite Formosa.

# 'In Time' Best Hope Against Polio

By DELOS SMITH  
**NEW YORK**—UP—The best expectation of a public health "general" newly armed with a powerful weapon against disease, is to do in the enemy not this year nor next year but only "in time."

There's the rub—those three types of viruses which cause polio. From the standpoint of the collective health of masses of people, it is not enough to disarm viruses into harmless with vaccine. Somehow you've got to reduce the "pool" of circulating viruses to just about the vanishing point before you can be sure of victory.

Dr. Greenberg's immediate objective is to get at least 70 per cent of the 2,2-15,000 most susceptible New Yorkers, those under 20, vaccinated as quickly as possible, by mid-summer if he can.

There will be no let-up in the vaccinating, of course. The 70 per cent will be made to mount toward 100 per cent, and the least susceptible ages will be brought into the program. Well over half the city's population will have polio-immunity within a few years.

# Cancer Takes The Stand

By FAT McGRADY

By BUCK FRANCIS Pampa News Sports Editor

PERHAPS THE REASON FOR THE early Oiler success is the keen interest with which the players themselves are taking the game.

Several members of the Oilers have been voluntarily reporting to Oiler Park each morning this week to get themselves in better condition.

You know the weather wasn't such that the players could get in very good condition during spring training and when the season opened the squad in general was far from top physical condition.

But the players, realizing that they need more conditioning, have been showing up at the park each morning on their own to work out.

You just don't see this being done too often in the organized ball ranks. When the season opens most clubs just stick strictly to their playing schedule even if they aren't in shape.

There are, of course, some occasions where the manager of ball clubs order their players out for a day-time workout when the club goes on a losing streak.

Amarillo has been holding daily workouts almost since the season opened but upon the orders of Manager Red McQuillen.

Well, when players start showing up at the park in the day time to further their conditioning program on their own, that's a sign they mean business.

You can rest assured the Oilers are going full out to give Pampa its best ball club of all time.

SWITCHING TO ANOTHER Diamond Sport, softball, a very important meeting is coming up in this sport Friday night.

An organization of a City Softball League will be discussed at a meeting to be held in the City Commission room Friday at 7 p.m.

We've already had several inquiries on the formation of a city softball league this summer and we urge all these persons to be on hand for the meeting Friday. Friday's meeting will be open to

SONNY TIMS ... delivers winning blow

Oilers Erupt For 4 In 9th To Nip Clovis

By BUCK FRANCIS Pampa News Sports Editor

There were only a few persons around to see it but the Oilers made one of the greatest comebacks ever seen by the local club at Oiler Park last night when they erupted for four runs in the ninth inning to beat the Clovis Pioneers, 8-7.

A bases loaded double by Sonny Tims that scored two runs climaxed the ninth inning uprising by the Oilers and the Pampans thus racked up their fourth consecutive win. The Oilers and Pioneers will continue their feud tonight with Tom Pollett scheduled to hurl for the

Oilers, Pollett, in his only start to date for the Oilers, hurled a 7-hitter in beating Plainview last Sunday, 8-2.

Opposing Pollett tonight will likely be either Bill Hair or Tom Gallagher, the top two hurlers on the Pioneer staff.

There were 706 who paid their way into Oiler Park last night but only a handful of fans were around at the finish which saw the Oilers stage their Frank Meriwell finish. Clovis used four pitchers in the long game which took 3:15 hours to unravel. Three Pioneer moundsmen saw action in the ninth as Manager Frank Benites made every effort to stop the on-surgng Oilers.

But only one out was recorded in the ninth before the Oilers won the game with four runs.

Joe Fortin started the Oiler rally by drawing a free pass to first from Jerry Dale, who had relieved starter Bob Danielson in the eighth. Fortin moved up on Hairston's single and the bases became loaded when Jack Hall walked.

Dale was relieved by Bradley at this point but he only faced one man—Pete Carmona—who drew a walk. Bradley wild pitched Fortin home with the first of the four run spree in the ninth while pitching to Carmona.

Paul Flores was summoned from his shortstop position to the mound and he too faced only one man—Red Dial. Flores threw four high pitches to Dial and Hairston rode home for the second run of the inning.

The fourth Pioneer pitcher, Shirley, came on at this point and temporarily stalled the Oiler rally

by getting Rach Slider on an infield grounder that forced Arkie Bowden, running for Hall, at home plate.

But Tims delivered his game winning double at this point, a drive that carried over the head of Lincoln Boyd in right field and Pollett, running for Carmona, and Dial crossed easily with the tying and winning runs.

Paul Halter, the third Oiler pitcher used in the game, gained credit for the win. Halter hurried only the ninth inning after John Coddington had been lifted in the eighth for a pinch-hitter.

Halter gave up two hits for two runs in the ninth that saw Clovis stretch its lead to 7-4.

The Oilers got their other four runs one at a time, scoring single tallies in the third, fourth, fifth and eighth innings.

The Oilers led 3-1 when Clovis broke loose for four runs in the

sixth to take the lead. The Pioneers led from this point until the ninth inning uprising by the Oilers that pulled the game out of the fire for the Pampans.

Dean Higgins started for the Oilers and hurried until the sixth with Coddington taking over at this point.

DIAMOND DUST — The Oiler homerun streak was broken last night but the elements were certainly against them—a strong cold northwesterly wind blowing into home plate prevented any long drives — the nearest thing to a homer all night was Jack Hall's drive that cleared the left field wall but was a few feet foul—Hall's drive started toward straightaway left field but the wind caught the ball and finally blew it foul before sailing over the fence—it was the first game in the seven starts the Oilers haven't homered at

A's Lose Kellner KANSAS CITY —UP— Pitcher Alex Kellner, who has hurled two of the Kansas City Athletics' five victories in 12 games, will be lost to the team for about a week because of a virus attack.

Setback Reported MILWAUKEE —UP—The Milwaukee Braves announced Wednesday that this year's major league All-Star game at County Stadium July 12 is assured of being a sellout. More than 50,000 requests for tickets were received Tuesday for the 30,000 tickets available.

Oilers Move Into Tie For 1st Place

By UNITED PRESS

Abilene, Plainview and Pampa were all bunched in a tie Thursday for first place in the West Texas-New Mexico League.

Abilene, which was on top the standings, had a five-game winning streak broken by Albuquerque 10 to 5 Wednesday night. Pampa edged Clovis 8 to 7 and Plainview downed El Paso 7 to 3. In the fourth game, Amarillo won a slugfest from Lubbock 15 to 10.

Abilene pitcher Kenneth Wade had a two-hitter going until the seventh inning. But Albuquerque jumped on Wade and Andy Alonso for five runs in that inning to take the lead. Henry Overin gave up 12 hits but went the distance for the Ducks.

Emil Jost pitched an eight-hitter for Plainview against El Paso. Jerry Mackay homered for El Paso and Dale Perry for Plainview.

El Paso Manager Sid Cohen and several other players were run out of the game in the fifth inning for using abusive language to the umpire.

Amarillo and Lubbock had a wild one at Lubbock. Karl Heron singled in the top of the ninth to drive in date.

Goose Goff with the winning run for Amarillo. Sonny Tims of Pampa doubled in the last of the ninth to drive in two runs and gave Pampa an 8 to 7 win over Clovis.

Thursday night's schedule: El Paso at Plainview, Albuquerque at Abilene, Clovis at Pampa and Amarillo at Lubbock.

SCORES BY INNINGS table with columns for Innings and scores for Abilene, Clovis, Pampa, Amarillo, El Paso, Plainview, and Lubbock.

Opponent Replaced HOLLYWOOD—UP—Kenny Davis of Los Angeles has been named to replace Buddy Evatt as Angelo Villa's opponent in Saturday's feature 10-round bout at the Hollywood Legion Stadium. Evatt became ill and informed officials he would not be able to keep the

Comanche Star Chooses Raiders

LUBBOCK, Tex. —UP—A Comanche, Tex., high school hall back who scored 73 touchdowns will enroll at Texas Tech this fall, Red Raider Coach DeWitt Weaver announced Wednesday.

Calvin Lee, whom Tech Assistant Coach Bud Sherrod praised as a "polished runner," scored 72, 168, and 198 points in his three varsity years for Comanche's bi-district championship team of last fall.

Aging Marv Grissom Seeing Most Action

NEW YORK —UP— Pitcher Marv Grissom of the New York Giants is no youngster by baseball standards but don't get the idea he's ripe for that old rocking chair.

The 37-year old right-hander is the hardest working pitcher in the majors so far this season. He's appeared in seven of the Giants' 10 games, and Manager Leo Durocher indicates there's plenty more work in store for him.

APR 28 1955

# PHS 9 Opens Busy Week End Tomorrow At Oiler Park

The Harvester baseballers will make their final bid to finish in the top three in District 1-AA this week end when they go against the Berger Bulldogs in a single game tomorrow and against Amarillo in a doubleheader Saturday, all games carded for Oiler Park.

By defeating Berger tomorrow and splitting with Amarillo Saturday, the Green and Gold could virtually assure themselves of a third-place finish in 1-AA.

The championship race has been narrowed to two teams, Amarillo and Lubbock. Amarillo is leading the race at present with a 7-0 record as compared to Lubbock's 5-2.

The two teams will meet in a single game at Lubbock tomorrow in a game that could settle the ultimate 1-AA winner. An Amarillo win tomorrow would sew it up for the Sandies. Should Lubbock upset the Sandies, then the West-erners would have to have help from Pampa or Berger to claim at least a share of the crown.

The Sandies have two games remaining with Pampa and one with Berger. Amarillo would have to lose at least one game to Pampa or Berger for Lubbock to gain a share of the crown, providing the West-erners down Amarillo tomorrow.

The Sandies also have two games remaining with Plainview but the Sandies shouldn't encounter any difficulty winning these two games.

Tomorrow's Harvester - Berger game will begin at 3:30 p.m. at Oiler Park.

Harvester coach Dick Woldt will send either Cecil Reynolds or Bob Conway to the mound tomorrow.

Reynolds has made only one mound appearance this season and recorded a 5-1 victory over Clinton. However, the junior right

hander sprained an ankle the week following the Clinton game and hasn't been used on the mound since that time.

Reynolds has, however, continued playing his usual shortstop position.

Conway has a 1-2 record for the season. The bespectacled catcher-pitcher has pitched well in each of his three appearances this season. He defeated Plainview, 10-3, in his first start and then dropped 6-5 and 5-3 decisions to Berger and Lubbock respectively.

John Perkins, the winningest Harvester pitcher to date with three, will hurl one of the games with Amarillo Saturday. Perkins, whose record is 3-4 for the year, lost a tough 6-3 decision earlier to Amarillo.

The big right hander is the only Harvester to ever defeat the Sandies in baseball, he having turned the trick last season.

Coach Woldt will start either Conway or Reynolds, whoever doesn't work tomorrow's game with Berger, in the other game Saturday against Amarillo.

This week's games will wind up the Harvester District 1-AA schedule. The Green and Golds do, however, have three more games scheduled. The PHSians will take on West Texas State in a double-header at Oiler Park Tuesday and Frank Phillips Junior College in

**FAST FENCE**—Bob Cobden isn't driving a weirdly-designed car. It's just an illusion. The supercharged Era struck the fence at the Chicane Bend during the seven-lap Chichester Cup event of the International Motor Race Meeting at Goodwood, Sussex, England.

## Sports Briefs

**Bears Sign Tackle**  
CHICAGO — UP — Ernest Lawson, a 250-pound tackle from Winston-Salem College who has spent the last three seasons in the armed forces, Thursday signed a 1935 National Football League contract with the Chicago Bears.

**Wins First Start**  
NEW YORK — UP — Mrs. Ada L. Rice's Pretty Plunger, a two-year-old daughter of the famed Hill Princes, made her first start a winning one Wednesday when she won by three lengths in the \$20,075 Fashion Stakes at Belmont Park. The filly paid \$6.80 straight and picked up a purse of \$14,650.

**Outfielder Rests**  
HOLLYWOOD — UP — Carlos Bernier, fiery Puerto Rican outfielder for the Hollywood Stars, has been ordered to rest for a few days in order to recover from an elbow injury suffered in a game here Tuesday night.

**Noted Skier Dies**  
NORTH CONWAY, N.H. — UP — Hannes Schneider, internationally famous ski instructor who often was referred to as the "father of modern skiing," died of a heart seizure at his home here Tuesday. Funeral services for Schneider, who fled his native Austria in 1939 after the Nazi invasion, will be held Friday.

## Holman Eyes Title After Beating Ezzy

MIAMI BEACH — UP — Kayo winner Johnny Holman, jubilant at his biggest paycheck and biggest victory, made plans for moving up to Las Vegas, or against Bob Baker of Pittsburgh, said Bernie Glickman, manager of the towering Chicagoan. "He's ready for anyone now, including Marciano. All we need is three weeks rest."

Holman may be ready for Marciano, but Charles was ready to admit sadly that his quest for a third shot at the heavyweight champion has been set way, way back by last night's nationally televised loss at Miami Beach Auditorium.

But 32-year-old Charles quickly squelched any suggestion that he might retire.

"I'm still hoping for another shot at Marciano," said the Cincinnati veteran. "But I realize I've got to win from these fellows like Holman first before I'm ready for a chance at the title."

## Conway Holds Harvester Batting Lead

Bobby Conway continues to lead the Harvester regulars in batting for the 1935 season, according to the Pampa News statistics.

Conway, who doubles as a catcher and pitcher, has batted out 19 hits in 45 trips for a .422 average. Conway also leads the Harvester in runs-batted-in with 12 and his 19 base hits is top in this department.

Second top batsman among the regulars is first baseman Jerold Clark with a .364 mark. Jimmy Parrish is a close third with .356. Parrish and Bobby Conroy lead the Green and Golders in runs scored, each with 13.

The Harvester, as a team, are averaging .334 at the plate in the 15 games to date.

John Perkins tops the Harvester pitching regulars with three wins against four losses. Perkins has recorded the most strikeouts—39.

Following are the Harvester batting and pitching averages to date, which includes both district and non-district games:

Player	AB	R	H	RBI	Pct.
Richardson	1	1	0	1,000	
Hogan	4	2	2	500	
Herr	4	1	2	500

## 23 Trojans Fly To Dallas Meet

LOS ANGELES — UP — Southern California track coach Jess Mortensen will take a 23-man squad to Dallas, Tex., for the triangular meet Saturday with SMU, Texas A&M and Texas.

The Trojans will fly to Dallas Friday morning.

SC, defending NCAA champion, won the affair easily last year and is favored to repeat Saturday. A meet highlight will be a renewal of the 440-duel between SMU's Don Morton and SC's Mike Larrabee. Morton edged Larrabee last year.

## Rich Las Vegas Tourney Starts

LAS VEGAS — UP — The world's most exclusive golf tournament got under way here Thursday as firing started in the \$37,500 Tournament of Champions on Wilbur Clark's Desert Inn Country Club course.

With the winner of every major tournament in United States represented in the restricted field of 21 contestants, veterans Sam Snead and Dr. Cary Middlecott held the position of co-favorites.

They were installed as 6-1 choices to win the first prize of \$10,000—something they both have failed to do in the two years the tournament has been held.

In both previous instances victory went to outsiders. In 1933, for the first tourney, top money went to Al Besselink. Last year it went to rank outsider Art Wall. Wall is back to defend his crown, but Besselink, who finished second last year, failed to win a major PGA-sponsored tournament this year and was not eligible to participate.

"Snead and Middle are the favorites," says host professional Howard Capps. "but the gamblers are reckoning without the wind, I fear. If it continues to blow, such Texans as Tommy Bolt, Billy Maxwell and Lloyd Mangrum, who shoot that long, low ball off the tee, are going to be tough."

## Sellouts Due For A's-Yank Series

KANSAS CITY, Mo. — UP — The New York Yankees, once owners of the American Association baseball team here, came to town Thursday for their first two-game set with the Kansas City Athletics.

If the renowned Yanks anticipated an easy assignment, there were thousands of baseball-mad enthusiasts, ready to warn them they were in for a surprise.

Parke Carroll, business manager of the A's, said both games—Thursday night and Friday night—were a complete sellout except for 6,000 general admission tickets which will go on sale when the park gates open. That could mean as many as 65,000 persons will witness the games with New York. If the weather is favorable, as forecast there will be a scramble for standing room only.

The A's entered the Yankee series with an attendance mark of 183,421 for nine home dates. They were hopeful of passing the 300,000 season total compiled in Philadelphia in all of 1934 before the end of the current home stand, which also will include series with Washington and Baltimore.

## 42 Runs in Four Tilts For Chisox

CHICAGO — UP — Any team that can make 42 runs in four games should have a pretty good chance of winning all of them.

But that's not the way it works for the "all-or-nothing" White Sox.

They had only two victories to show for the games in their past four games. That's because in between their record-tying 28-5 triumph over Kansas City last Saturday, and their 13-4 humiliation of the Yankees Wednesday, they were shut out twice. Bob Turley of the Yankees one-hit them on Tuesday and Alex Kellner of the Athletics blanked them with five hits on Sunday.

## Aaron Off To Rousing Start

NEW YORK — UP — They're hailing Hank Aaron as one of the bright new stars of the National League but the Milwaukee Braves' 21-year-old outfielder "will settle to hit an even 300 this season."

"I don't care who they compare me with," the slender Negro said. "I just set one goal for myself this season—a 300 batting average."

Aaron, who hit 280 as a rookie in his off to a fine start toward his objective. He's hit safely in 11 of the Braves' first 12 games and compiled a .321 mark. His 15 hits included three triples, two homers and one double.

Manager Charley Grimm of the Braves is one of Aaron's strongest boosters.

"Hit 300 this season!" he asked. "I don't see why not. He's going to be one of the league's big stars and he might even hit 325 or 330 this year. He hits nothing but line drives."

Aaron was a bit of a question mark when he went to spring training this year because he suffered a fractured ankle last September. But Hank says the ankle doesn't worry him a bit.

"It hasn't hurt at all and I don't think it's slowed me down in the field or running the bases," he said. "I'd call it a complete recovery."

## 42 Runs in Four Tilts For Chisox

CHICAGO — UP — Any team that can make 42 runs in four games should have a pretty good chance of winning all of them.

But that's not the way it works for the "all-or-nothing" White Sox.

They had only two victories to show for the games in their past four games. # A's Come Up With 'Murder's Row'

By CARL LUNDQUIST  
United Press Sports Writer

No one is calling them "Boudreaux's Bombers" yet, but it was worth noticing Thursday that the first five hitters in the Kansas City lineup — and not just Vic Power, as many as any other American League team has made altogether.

There is power in the top of that lineup — and not just Vic Power, either. He's the leadoff man with three homers, but look what comes next, also has three homers, then comes Jim Finigan with four, Gus Zernial with four, and Bill Wilson with three.

And to make the joy run full cycle for Kansas City fans there's a home-grown sore-armed pitching castoff from the Cardinals, Cloyd Boyer, who hurled the A's to their third straight triumph, 6-2, over Boston Wednesday. Boyer gave up three hits and received fine support from Renna, Zernial, and Wilson who hit homers. Zernial's coming with two men on base.

The only other crew with as many homers is the White Sox and they made eight of their 17 against Kansas City, seven in that 28-8 nightmare of last Saturday.

The fans have all but forgotten that rout because Kansas City hasn't lost since then and Boyer's triumph was the most encouraging of all. The tall right hander, who was born just up the pike in Liberty, Mo., used a sharp curve which indicated his arm trouble is also just a bad memory. He struck out four and walked six but bared down whenever in real trouble to top the Red Sox ace, rangy Frank Sullivan.

In a 17-inning thriller, longest in the majors since June 23 of last season, Cleveland downed Washington, 4-0, on a rally touched off by Joe Altobelli's double. Jim Beagan's sacrifice and two intentional passes, ordered by Nat Manager Charley Dressen, loaded the bases but Bobby Avila miffed the strategy with a game-winning sacrifice fly. The last 17-inning game in 1934 found Baltimore edging Boston, 3-7. Cleveland had gone scoreless since the fifth and Washington since the seventh before the last ditch rally. Al Rosen hit a two-run Cleveland homer and Mickey Vernon hit his first homer in 1934 since he last hit a homer in the majors since June 23 of last season, Cleveland downed Washington, 4-0, on a rally touched off by Joe Altobelli's double. Jim Beagan's sacrifice and two intentional passes, ordered by Nat Manager Charley Dressen, loaded the bases but Bobby Avila miffed the strategy with a game-winning sacrifice fly. The last 17-inning game in 1934 found Baltimore edging Boston, 3-7. Cleveland had gone scoreless since the fifth and Washington since the seventh before the last ditch rally. ## Loes Loses Temper In Dodger Win

BROOKLYN — UP — Unpredictable Billy Loes Thursday promised he will never voluntarily walk off the field in anger during the middle of a ball game, but he sure gave the Brooklyn Dodgers a start Wednesday night.

"I never saw a man get so mad in my life," said shortstop Pete Wee Reese, following Loes' explosive outburst. "You never can tell what he'll do."

For a time, it looked very much as if Loes had made up his mind to chuck the whole business and walk off the field in the second inning of Wednesday night's game against Cincinnati, which the Dodgers won, 7-2.

Fueled at Calls

"I was peeved off at the way the umpire (Hal Dixon) was calling those pitches," Loes explained after the game. "What does he care? He got no won-lost record. It doesn't show if he misses an important pitch, but I suffer if he does."

Loes' suffering was plainly apparent to the 6,532 fans at Ebbets Field, who watched him stamp around angrily, charge in toward the plate, then back out again and round and round.

Shouting loudly and looking plaintively upwards as he stalked all over the territory between first base and third, Loes had all he could do to control his anger after a hit batsman and walks to Johnny Temple and Roy McMillan filled the bases in the second inning.

Manager Interveves

Fearing, perhaps, that Loes might do something rash, manager Walt Alton quickly ran out to placate him.

"I never saw anything like it," Loes said. "Everything I threw up there was a ball, even the borderline pitches. It gets on your nerves when it happens continuously."

"Ask any of the guys on the club. They'll tell you I'm not wrong. They all tried to calm me down, but if I stayed calm, it would mean I don't want to win. How can I be calm when it's my bread and butter?"

# Grandslammer Aids Midland Keeps San Antonio Win Longhorn Lead

**By UNITED PRESS**  
The San Antonio Missions remained a half-jump ahead of Dallas for first place in the Texas League Thursday, thanks to a wild finish against Beaumont.

The Missions scored five runs in the ninth inning to tie the game at 6-6, four of them on a grand-slam homer by Dave Roberts, then pushed across the winning marker in the 10th for a 7 to 6 win over the Exporters.

Dallas got its best pitching of the young season — from right-hander Jim Tugerson — to blank Port Worth 2 to 0 on three hits.

In one other game, Oklahoma City scored four runs in the sixth inning and held off a five-run Tulsa rally for a 9 to 7 win over the Oilers. The scheduled game at Shreveport between Houston and the Sports was postponed because of rain.

San Antonio got the deciding run against Beaumont in the 10th without the benefit of a hit. Three walks and a hit batsman pushed across the winning marker.

Tugerson, a highly-regarded Negro prospect, evened his personal record at 2-2 with the three-hitter against the Cats, marking the first time Port Worth has been blanked this season.

The big blow with the bat was furnished by second-string catcher Len Jackson of Dallas, who struck a two-run home run in the sixth inning. Dallas was leading at the time 1 to 0.

Howie Boles, the late season home-run hitting sensation for Oklahoma City last year, slammed a three-run homer in the sixth against Tulsa last night. That proved to be the winning runs as Tulsa rallied for five runs in the

seventh, three coming home on Chuck Essagian's bases-loaded triple.

Essagian homered in the second inning to drive in four runs altogether.

Thursday night's schedule: Dallas at Fort Worth, Oklahoma City at Tulsa, San Antonio at Beaumont and Houston at Shreveport.

**SCORES BY INNINGS**  
Dallas . . . . . 000 012 000-3 11 0

16 innings.

**Gardner Accused Of 'Deception'**  
KANSAS CITY —UP— College basketball coach Jack Gardner of Utah stood accused by the National Collegiate Athletic Association Thursday for using "deception and trying to persuade players to use 'devious and deceptive behavior.'"

In a blistering report by the ethics committee, the NCAA censured Gardner for "unsportsmanlike and unethical conduct" in attempting to persuade three Kansas State college basketball stars and one Colorado university player to transfer to Utah in 1953.

Gardner was coach at Kansas State until 1953, then he went to Utah.

The players involved were Roger Craft, Gary Bergen, and Jerry Jung of Kansas State and Art Bunte of Colorado. Only Bunte and

**By UNITED PRESS**  
The Carlsbad Potashers won their fourth game in a row Wednesday over the Odessa Eagles, 7 to 2, but it took two home runs by catcher Ed Peacock and seven-hit pitching by Tom Fornall.

Midland maintained its slim half-game lead over San Angelo by out-slugging Artesia, 12 to 11, while the Colts won over Hobbs, 8 to 4.

In the other night's game, Roswell downed Big Spring, 9 to 4.

Thursday, Midland is at Artesia, Big Spring will play at Roswell, Carlsbad is at Odessa, and Hobbs will be at San Angelo.

Ben Howard and Bob Herring hit back-to-back homers for Artesia in the fourth inning, and Howard came through with another homer in the seventh. Al Jimenez homered for Midland.

San Angelo's Colts got a seventh-inning pitching job from Russ Agne to beat Hobbs, keeping the Colts near the top of the standings.

Big Spring outhit Roswell, 9 to 7, but Roswell pitcher Pete Simone was good at pitching out of jams.

He showed up best in the fourth inning when Big Spring loaded the bases with none out. Simone promptly fanned the next three batters.

Bill Herring, with two-for-four including a triple, and Big Joe Bauman, with a double and a single, led the Roswell attack.

Food stores are now selling about half of all retail fluid milk, as compared with about 10 percent in 1930.

Bergen actually transferred. Jung was accepted for admission but changed his mind and stayed to play for Kansas State.

**More to Come**—Working at San Rafael, Calif., Don Cokell is jolted by a hard right tossed by sparring partner Ron Harmon. The British challenger breaks the traditional training rule by boxing without a headguard and a mouthpiece. He tackles Rocky Marciano in San Francisco, May 16.

**Cokell in Workout**  
SAN RAFAEL, Calif.—UP—Don Cokell, who meets heavyweight champion Rocky Marciano in a title bout at San Francisco May 16, battered sparmate Bob Albright during a workout Wednesday before a large crowd here. Albright knocked Cokell down in a workout last week.

Some sportsmen consider the eyes and tongues of fish as delicacies.

**Match Play Begins**  
HOT SPRINGS, Va.—UP—Match play in the annual Campbell Cup Invitational Senior Golf tournament begins Thursday with the finals set for Sunday. A. J. Ruffini, a retired businessman from Cleveland, took medalist honors when he fired an 82 Wednesday in the tourney for golfers 45 years and over.

# Patton Leads At W-Falls

**WICHITA FALLS** —UP—Dick Patton, of Fort Worth, will take a four-stroke lead into the final 18 holes of the Wichita Falls Country Club Invitation Tournament Thursday after carding a sizzling 68 over the rain-swept course Wednesday.

Patton, playing his first tournament golf of the year, took the lead after first-round leaders Art Corbin, of Dallas, Wendy Green, of Midland, and Bob Zbikowski, all slipped to over-par scores Wednesday. Corbin and Green had 74, while Zbikowski blew to an 81.

The amateur tourney will wind up Friday with the low dozen qualifiers entering the \$5,000 pro-amateur tournament this weekend.

Over 60 of the nation's top pros will compete, including Byron Nelson, Johnny Palmer, Gardner Dickinson Jr., Ed (Porky) Oliver, George Bayer, Ray Gafford and Harry Todd.

CELEBRATING OUR 25th YEAR WITH GREATER SAVINGS FOR YOU

First to Change First large American city to abandon use of streetcars as a municipal conveyance was Spokane, Wash., which replaced them with buses in 1938. There's More Fun AT THE MOVIES OPOTE TEXAS DRIVE-IN THEATRE

MILITARY CONFUSION Cpl. Jack Mills isn't the only one who gets confused by these twin Marine privates, James and George (or is it twin and James?) Atkins, from Muncie, Ind., are serving at the Marine Corps Air Station, Kaneohe Bay, Hawaii, in the same company of the 4th Marine Regiment. But this is nothing to the days before their enlistments when they were dating twin girls.

Clay Products Offers \$900 Scholarships A fourth-year architectural student in each of nine Texas and Southwestern universities will receive a \$100 scholarship under terms of the new Clay Products of which are now being worked out in cooperation with TSA. Work of the nine \$100 scholarship winners will be judged at the 16th annual TSA convention in Houston November 24, and the winning student will receive an additional \$400 grant from the Clay Products Association. PICK SQUASH OFTEN Summer squash bushes bear more if the squash is picked when very young. Squash is tastier, too, when not over 6 inches long. LINCOLN, Neb. --UP-- Farmer Kenneth Stickney was awakened at 2 a.m. by a noise that he recognized as coming from the horn of his new pickup truck. Lights also flashed. He thought someone had crossed the wires in attempting to steal the car. But it turned out wiring on the truck was on fire, shorting the horn and lights. TRUCK FIRE MAKES PAINTING EASY The FHA helps make it possible for families who have homes of their own to keep them in good condition. If you'd like to undertake an extensive repainting program for your home and pay for it more in easy monthly installments, check with your banker, your paint dealer or painting contractor.

Restaurant Floor Shows Flourishing By ROBERT MUESE LONDON --UP-- Now that the tourist season is underway every big restaurant has a floorshow. The performers are the American tourists and the audience is composed of native Britons. They watch in fascination how Americans switch their knives and forks while eating. Sid Colin watches them particularly intently. A movie script writer by profession, he gained some international fame or notoriety a couple of years ago by making a trans-Atlantic radio broadcast suggesting Americans should learn table manners. Cut and Shift He alleged it was ridiculous for a sensible man to cut food with the knife held in the right hand, drop the knife, pick up the fork with the right hand, eat the morsel, switch the fork to the left hand, cut an ashit, cut and shift etc. etc. But Colin admits his critique had little effect. A great fan of American ingenuity in other fields, Sid cannot understand how Americans contrive to make eating so complicated. Europeans hold the fork always in the left hand, the knife always in the right so there is no shifting. With both hands firmly gripping useful implements, Europeans do not have to use bread surreptitiously as has often been Americans do. Up-American Eating "Occasionally," he avers, "I have seen a bit of vegetable pushed on to a fork with a sly finger. This is certainly not cricket." Sid's big extra curricular crusade of the moment is to convince Americans they miss a lot by eating in "sequence" instead of in "combination." For example, take a dish of pork chops with French fried potatoes and string beans. An American, according to Sid, eats a bit of pork, then he eats a bit of potato and then he eats a bit of string beans. A Briton confronted with the same dish makes every mouthful a cross-section of the total offering. Americans are inclined to regard this method as somewhat messy. But it must have its charms because, after the interview, I went over to the American Embassy restaurant and watched the American staff at lunch. Washington is herewith advised that there is a lot of up-American eating going on.

Outdoor Styles Rate Well For Indoor Function When you buy your new summer furniture, consider its possibility for indoor use too. For those who like to retain the feeling of summer longer after it has taken a seasonal curtain call, today's outdoor furniture will prove more than a fair weather friend. Metals and rattans for instance, are extremely versatile indoors, as well as out. Rattan, a completely tropical product, has been styled to fit contemporary home fashion requirements, and is found in a great variety of modern styles. Rooms furnished completely, or perhaps just accented with an item or two of rattan, will provide a touch of summer warmth, in mood at least, to tide you over the long winter. Metal furniture is versatile too. Bring it inside when summer is over, and it will fit the indoor furnishing scheme functionally and smartly. Durable features, which have been added for its outdoor use, will also enhance its indoor value. Dual season living has broadened the distinction in today's contemporary furniture fashions.

**BEAUTY AND BEAST** — Blond Rhonda Keo is shown here with one of the most ferocious Bears that inhabits the earth, the most feared of all, the Giant Kodiak. It is one of 14 mixed breeds which this girl dominates and rules with an iron hand, appearing at each performance of the Bailey Bros.-Cristiani Circus.

## Elks Sell Tickets For Circus Here

Elks Club members will be selling tickets to the Bailey Brothers and Cristiani circus until noon Monday, ticket chairman Joe Tooley announced today.

The Elks Club-sponsored show will appear in Pampa for two performances Tuesday at the Top of Texas rodeo arena.

Box seat tickets may be purchased at Richard Drug, Tooley said, adding that several members of the Elks Lodge have general admission tickets for sale.

The Elks members will assist in looking after children who will attend the circus at the matinee performance Tuesday at 4 p.m.

Elks will also serve as ticket takers and ushers during the matinee and evening performances, and will work the following day cleaning up the circus area. The area is being furnished free by the Top of Texas Rodeo Association as a "contribution" to the Elks money-raising efforts for the crippled children's fund.

Elks Lodge members have been requested to turn in all unsold tickets to chairman Tooley by noon Tuesday.

The Bailey Brothers and Cristiani circus features a top-flight clown act which will be seen in caricaturing prominent personalities, lampooning current events and poking gentle fun at human frailties, with absurd antics and playful pranks.

The comedians however are not confined to "Clown Alley" as many of the acrobats wear walkers, gymnasts and animal trainers have inculcated comedy in a definite manner in their particular exhibitions.

Men who have been clowning for as long as forty years, along with young chaps that are making their

**Alimony Too Much**  
HOLLYWOOD — Singer David Street said Wednesday he couldn't pay his wife, actress Mary Beth Hughes, \$125 a month temporary alimony because her suit for divorce forced him to give up a choir directing job which paid \$160 a month. "I didn't think it became a choir director to be involved in a divorce," Street said.

**Banking Group Meets**  
PALM SPRINGS, Calif. — UP — Frederic A. Potts, president of the Philadelphia National Bank, was elected president of the Association of Reserve City Bankers at the group's annual convention. Harris C. Kirk, senior vice president, and Joseph J. Schroeder, secretary, won re-election.

Now that you've told us about your operation, let us tell you about my vaccination!

## Don't Water Pot Plants Needlessly

Your in-the-house garden can be spoiled by improper watering. The soil condition of house plants should determine how often they are to be watered.

The simple rule to follow is to water only when soil is dry. It is best to examine the soil of the house plants each day. If the surface of the soil is hard, water the soil, and then stir with a wooden stick.

Watering times vary with the character of the soil, the atmospheric conditions in the room, and the location of plants within the room.

Many plants retain moisture for long periods of time, others dry quickly. The morning is the best time for watering.

New "unkind-to-insects" lighting units are now available, so enjoyment of a night-lighted garden need not be sacrificed even where nocturnal insects are a problem.

**Radford in Honolulu**  
HONOLULU — UP — Adm. Arthur W. Radford, chairman of the U.S. Joint Chiefs of Staff, rested here Thursday en route to Washington to report on top-secret talks concluded Wednesday with Generalissimo Chiang Kai-Shek in Taipei.
