### See \$400 Million Farm Income Drop

By GAYLOR P. GODWIN  
WASHINGTON — U.P. — Secretary of Agriculture Ezra T. Benson's prediction is correct, net farm income in 1956 will be about \$10.2 billion, down \$400 million from 1955 and \$1.5 billion from 1954.

A net farm income of \$10.2 billion next year would mean a drop of almost 14 per cent in two years. This year's estimated farm income of \$10.6 billion, which was 10 per cent under 1954, already has Republican politicians worried well in advance of next year's presidential campaign. The predicted further drop of about 4 per cent—although much smaller than this year's decline—would add to their misery as well as hurt the farmers.

Average Income to Be Lower  
Benson told reporters Thursday that he expected farm income next year to remain at about the present level. But under questioning, he said that average farm income for 1956 as a whole would be lower than in 1955.

The present level is 81 per cent of parity with farm income for the last half of the year running at an annual rate of \$10.2 billion. During the first half of 1955, farm income was at an annual rate of \$11 billion. Benson was optimistic in a care-

### \$2,250,000 School Bonds

## Three Election Issues Draw Ballots Saturday

A three proposition election will be decided tomorrow including a \$2,250,000 school bond issue. Balloting will be held in the foyer of the junior high school.

The polls will open at 8 a. m. and remain open until 7 p. m. Three ballot boxes will be placed in the hall with three stub boxes, and the election officials will distribute ballots.

The proposed expansion program, as outlined by members of the school board, will provide for a new junior high school accommodating 800 students, a new 16-classroom elementary school which will be the first important project undertaken, and a six-room addition to Lamar Elementary, and other building projects.

The major issues covered in the

### SANTA'S DONKEY MISSES TRAIN

LENZBURG, Switzerland — U.P. — A donkey missed a train in Brugg, Switzerland, and almost spoiled this city's traditional Santa Claus parade.

Tradition requires Santa Claus to ride through Lenzburg streets on a donkey. Investigation showed that a railway worker at Brugg, where the donkey had to change trains from Zurich, hitched the animal to a post behind a shed and forgot about it.

### Tennessee Avows He's No Communist

By B. J. MCFARLAND  
SEATTLE — U.P. — Richard Tennessee, a Korean war turncoat, returned after two years in Red China Friday and said "I have come home as an American and not as a Communist."

"I have no use for communism," said Tennessee, 22, Aiken, Minn., shortly after arriving here aboard a Northwest Orient Airlines plane. Tennessee would not pinpoint reasons as to why he decided to return home.

"I prefer not to talk about this now," he said. "I have my own reasons and I want to look around at home and think it over a long time before I say."

Anxious to Get Home  
"I'm very anxious to get home to Minnesota and be a farmer again like I was before I went into the Army."

Tennessee said he did not expect punishment for what he did be-

## Peddler Admits Plotting Extortion

PORTLAND, Ore. — U.P. — A blind peddler who became a national figure of sorts several years ago Thursday night confessed masterminding a \$50,000 bomb-extortion plot against a wealthy Portland department store executive.

Clarence Peddicord, Vancouver, Wash., admitted setting off 12 sticks of dynamite in a washroom at the Meier and Frank department store last April 15. The explosion rocked the store while it was crowded with shoppers attending the weekly "Friday surprise" sale, and came just as Aaron Frank, store president, was leading the lengthy extortion note.

Peddicord who was arrested early Thursday, implicated his sister-in-law, Joy Keller, 28, of Portland. News of the blind man's arrest was withheld until the woman was taken into custody early Friday.

Check Typewriter  
Police said Peddicord was connected to the bombing because of a mail fraud complaint made against him. Samples of his typewriter were sent to postal authorities, and a routine check showed the machine had been used to write the extortion note.

Peddicord and Miss Keller were held under \$75,000 bond under technical charges.

Peddicord, 38, was blinded in 1928 when he was 19 years old by sulphur and ammonia fumes from a refrigerator explosion. The following year he applied for a position as chief high executioner at Sing Sing prison.

Made News in 1948  
He received nationwide news coverage in 1948 when he began hitchhiking to New York, with \$7 in his pocket, for an operation to restore his sight. When he had reached Detroit, Mich., a radio program called "Meet the People" paid his train fare the rest of the way.

Peddicord's operation was paid for by a Saratoga Springs, N.Y., businessman, Henry Karling. The extortion, which consisted of transplanting a cornea in Peddicord's right eye, was a success but he was blinded again by a tragic stroke of fate.

As the surgeon removed the bandages several weeks after the operation, according to a United Press feature carried in December, 1948, "for an instant there was sunlight on the ceiling" but Peddicord jerked his head as the scalars descended "and darkness closed in and once more he was blind."

### City Offices To Close For Yule

All city offices will be closed for the Christmas holidays on Dec. 26 and again on Jan. 2, according to City Tax Collector - Assessor Aubrey Jones.

Offices in the City Hall will follow a full schedule, closing only on the two Mondays following the holidays, falling on Sunday this year.

Other offices in the City Hall will be closed according to the following schedule: Boy Scout office — Dec. 23-24; Rail Road Commission — Dec. 24-Jan. 1; Girl Scout office — Dec. 22-23; and the Red Cross office — Dec. 24 at noon and Jan. 2.

County offices will be closed on Christmas eve (Saturday), the following Monday, Dec. 26, and on January 2, according to County Judge Bruce Parker.

### Motorists Warned Of Parking

Jingle bells, jingle bells — that Christmas spirit is everywhere. As shoppers rush here and there, the traffic downtown becomes more congested. Motorists block traffic, holding up other cars for more than a block at times.

Chief of Police Jim Conner today urged the cooperation of everyone in not double-parking on main streets downtown. He said that if people continue to double-park, he would be forced to issue tickets.

"We'd much rather have their cooperation," Conner said.

Conner also urged motorists not to park in alleys for Christmas shopping. Tickets are being issued by city policemen for cars illegally parked in alleys. Conner pointed out that the alleys are to be kept clear for fire trucks and other trucks unloading merchandise for the stores.

"We haven't been having a large number of accidents," he said, "considering the amount of people in town and the number of cars they are in."

"I hope we have a quiet Christmas," said Conner, "but you can't ever tell."

## Girl, 15, Near Death, Shot By Youth, 17

KITTANNING, Pa. — U.P. — A 15-year-old girl, wounded by a "modest" high school student who killed her parents and uncle because she spurned him, waged an uphill battle for life Friday.

But officials at Armstrong County Memorial hospital here said the condition of Gladys Small was so critical, the bullet lodged in her chest could not immediately be removed.

A spokesman for Howrey's law firm said that, while it would be "entirely proper" for Howrey to work on the Food Fair case, he did not think Howrey would take an active part in the defense.

The Food Fair issue closely approximates a case which Howrey, as a private attorney, appealed to the Supreme Court in 1952.

Airport Board Members Named  
Appointments for the County Airport Board were announced this morning by County Judge Bruce Parker.

Boyd Meador of McLean was appointed to fill the unexpired term of Paul Kennedy. McLean, who has moved to Berger, Meador will serve through Sept. 1 of '56. Reappointed as members of the board were Hugh Burdette of Cabot, and George Ingram. Newly appointed members are Fred Haiduk and Tom Farwell of Hughes Co. Appointed and reappointed members' terms will expire on Sept. 1 of 1957.

"Several comments have come to my attention as to whether the News was charging a 'double rate' on advertising pertaining to tomorrow's bond election," Homer Deck, advertising manager of the Pampa News, said today.

"I would like to make it clear that the only rate quoted relative to this was the amount of \$225.20 which is the price of a full page ad, figured at \$1.40 per inch," Deck said.

## He Jus Stook A Lil O Dring In Intrisht Of Shiensh

CHICAGO — U.P. — A psychology student followed up the biggest drunk of his life Friday with a promise that he will never do it again—except in the interest of science of course.

It was in the interest of science that the student, 32-year-old Bruce Bergum, got drunk in the first place.

Until Thursday Bruce considered himself on a spree if he drank more than one weak hiball during an evening. Then he guzzled three straight shots of 100 proof bourbon and followed those with three more mixed with a soft drink.

Bergum got all this down in an hour's time and ended up pleasantly soused—just as science had predicted.

Gets \$5. Pat on Back  
He got \$5, a pat on the back from a policeman and a ride home for his trouble.

Bergum made alcoholic guinea pig of himself at the Northwestern University Traffic Institute in order to prove that a man can look fine and walk a straight line but still be too drunk to drive.

Twenty minutes after he started the test the graduate psychology student was laughing uproariously at men's jokes.

But a little later he didn't think the jokes were so funny. When someone pointed out it was all for science's sake he scowled "don't kid me buddy."

Protests Instructions  
He protested when asked to walk a straight line. An earnest conversation with traffic officials followed and he finally grumbled "well if I will save a life—" and performed the task with ease.

But when he scrawled his name on a blackboard one of the 41 watching policemen commented "he doesn't stagger but his handwriting certainly does."

He blew into balloons and various other contraptions and Lt. Robert Borkenstein of the Indiana state police announced a .18 alcohol blood content.

This pleased the policemen. Their theory was that a .15 content means you aren't safe behind the wheel of a car. A .30 content means you're dead drunk and .55 means you're dead.

## Lions Feded In Christmas Dinner Party

A group of Pampa students presented the program at the Lions Club Christmas banquet Thursday evening in Fellowship Hall of the First Methodist Church.

The program, emceed by Red Wedgworth, included several vocal solos by Miss Betty Lou Hogsett, and several dance numbers by Carmelita Hogan. Skipper Bogard presented two trumpet solos, and the student portion of the program closed with several vocal selections by "The King's Carolers," who are Misses Beverly Brewer, Ramona Hudgins and Ruth Mounds. Miss Hudgins was accompanist for each number on the program.

Dinner music was provided by Malcolm Brown Jr. at the organ, and Miss Hudgins at the piano. They also presented an organ-piano duo during the program.

The banquet closed with Christmas meditations by Rev. Richard Crews, pastor of the First Christian Church, and group singing of "Silent Night."

Calvin Whalley, vice-president, presided. Bob Harris directed the singing of "America," and Burt Nuckols led the pledge to the flag. The invocation was given by Rev. Ronald Hubbard, pastor of the First Presbyterian Church.

Group singing of Christmas melodies was led by Jimmy McCune, and guests were introduced by Lion Tamer Bunny Shultz. Dr. Joe Donaldson was "Tall Twister."

Dr. Charles Brauchle spoke briefly on the recently inaugurated project of the club's boys and girls committee. He explained the club will honor the Pampa High School boy and girl with the highest grades for each six-weeks' period. He introduced the honor students for the last six weeks—Miss Barbara Goodnight and Russell Barnard.

Shultz reminded the group of the Annual Lions Club Christmas party for boys and girls under 12 years of age Saturday in the LaNora Theatre.

About 250 persons attended the event.

**India Papers Hit Reds**

NEW DELHI, India —UP—Indian newspapers Thursday strongly criticized the farewell statements of Soviet Premier Nikolai Bulganin and Communist Party Secretary Nikita Khrushchev.

The influential Hindustan Times, edited by Mohandas K. Ghandi's son Devadas, said the peaceful joint statement issued by the Rus-

sians and Prime Minister Jawaharlal Nehru was marred by the Russian's statement Wednesday.

In a statement issued to newsmen shortly before they took off for Afghanistan, the Soviet leaders said Russia would continue making hydrogen bombs, predicted eventual victory for communism and defended the Cominform, the world-wide Communist information and propaganda organization.

The Hindustan Times said the Russians had an advantage since they were never mixed up in Asiatic colonialism, but "it is too much

to expect even the Asians to believe that the external policy of the Soviet government has been search on vegetable-tanned leather guided by "Panch Shila"—the peaceful life advocated by Gandhi. ## The Weekly Message Of Inspiration

LAWRENCE WEST, President  
Church of Jesus Christ of Latter Day Saints

### Are You Going to Church for Social Reasons?

By Elders J. A. Hanny and L. T. Sillito of the  
Church of Jesus Christ of Latter Day Saints

One of the biggest mockeries in the world today, in my estimation is people going to church for position with fellow man instead of going to worship God. We are nearing the end of the year 1955. It might be well if we each take stock of ourselves and find out why we really do go to church. First of all we might ask ourselves: How many times have I gone to church this year to be seen by certain people? How much has attending church helped my business? Now I exhort you, are these perverse ideas from Christ's teachings? A situation such as this reminds me of the hypocrites in Matthews that prayed standing in the synagogues and in the corners of the streets, that they may be seen of men. Isn't this the same situation today? Christ didn't teach us to go to church to show off our new worldly attire. The wealth that we obtain here in this life is of no value compared to the worth of the soul. Jesus told his disciples that it was easier for a camel to go through the eye of a needle than for a rich man to enter the kingdom of God.

The Lord has indeed given us many blessings. We have our freedom to worship in our own manner. We have luxuries and modern day ways of traveling. We have more to be grateful for than any other group of people on the face of the earth. We shouldn't sell our soul down the river for personal prestige because of our many blessings. Let us resolve with the coming of the new year that we will attend church to gain more knowledge of the gospel of Jesus Christ, that we may be more like the example that Jesus set for us.

I leave you with the words of Christ found in Matthew 6:18-21: "Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal: but lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through nor steal: for where your treasure is, there will your heart be also."

# Harvesters, Shockers Give Blackhawks Sound Beating

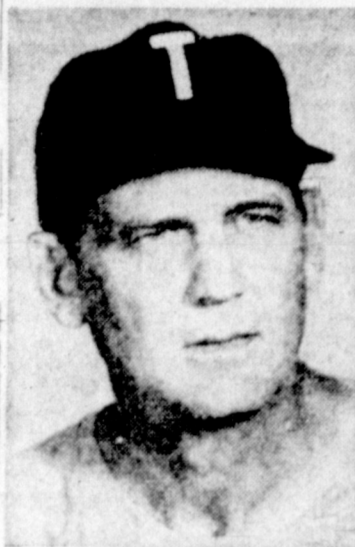

## Football Banquet Is All Set For Tonight

The Annual Football banquet plans are completed, most of the tickets have been sold and the speaker is due to arrive in town today so everything is ready for the Harvesters Football banquet to be held in High School Cafeteria tonight.

Tickets will be on sale at the door but the number will be very limited as almost all the tickets were sold in advance.

The barbecue will be served at 7 p.m. with dinner music played during the meal. After the meal other entertainment is on schedule with the Four Spades to tackle the job of entertaining a "well fed" audience.

Following the entertainment will be the presentation of the Fighting

## Kentucky May Be Too High

The amazing evidence continued to pile up Friday that the Kentucky basketball team may have been badly over-rated.

Loaded with height and high-scoring veterans, this was supposed to be one of the best teams turned out in recent years by Coach Adolph Rupp. But a 62-61 victory over Maryland Thursday night, saved only by a desperate "freeze," was the Wildcats' third poor showing within six nights.

First, last Saturday, it was Temple that stunned the court world by whipping the Wildcats 73-61 in the biggest upset this season. Monday night, DePaul nearly did the same thing, losing 71-69 only on Jerry Bird's basket for Kentucky with six seconds left.

**A Hot 10 Minutes**

Thursday night the Rupp men seemed to be finding themselves at least as they zipped to 39-31 margin over the unranked Terrapins. Then, suddenly, Kentucky was in trouble again as Maryland staged a rally led by forward Bob Kessler and for the final 10 minutes, the lead bounced back and forth like a hot potato. Finally Kentucky got a chance to freeze out the clock with its one-point lead and that was the game. Kessler took scoring honors with 25 points.

San Francisco, the nation's No. 1 team, opens its seven-game national tour Friday night at Chicago, risking its 29-game winning streak against Marquette in the opening round of the DePaul tournament.

It's the biggest test so far for the national champion Dons, for Marquette is ranked 13th nationally and has a top-notch six-eight center in Terry Rand who figures to stage a tough battle with All-American, 6-10 Bill Russell. Duquesne, ranked No. 8 nationally and winner of last season's National Invitation Tournament and this year's Steel Bowl tourney, meets DePaul in the other game, with Friday night's winners clashing Saturday.

The Blue-Gray tournament at Montgomery, Ala., also a two-night affair ending Saturday night, opens Friday night with Texas facing Auburn and Eastern Kentucky playing Mississippi in first-round games.

Utah and Dayton, getting set for their appearance in Kentucky next week, take over Idaho State and Cincinnati, respectively, in other top games Friday night, while Brigham Young, ranked ninth nationally, hosts Colorado, the team that upset Iowa last Saturday, and UCLA, ranked 20th, visits Nebraska.

## Eagles Are Rated 2 TDs Over Lions

Strictly on the form chart, Abilene and Garland should wind up with the state Class AAAA and AAA schoolboy football championships Saturday and Stamford, Weslaco, Stinnett and Deer Park should emerge into next week's finals in Classes AA and A.

That's the way the odds-makers have picked this week's action to go in three semifinal games Friday and one Saturday along with the big championship games in AAAA and AAA.

Abilene's speed and depth rates the defending champion Eagles a two-touchdown spread over potent but thinly-spread Tyler in the battle of the perfect record AAA behemoths at Fort Worth Saturday.

**Garland Has Edge**

Garland's Bobby Boyd and an unblemished record provide the reckoning back of a two-touchdown edge given the Owls over twice-beaten Port Neches despite the latter club's experience in the past two AAA finals. Port Neches won the title in 1953, lost in the finals a year ago.

Stamford also had a two-touchdown edge over New London for their afternoon affair Friday at Arlington. Both are unbeaten and untied but Stamford's defensive record and its defeat of touted Breckenridge last week give the nod to the West Texas Bulldogs.

Weslaco's season-long record against a tougher slate of foes gives the lower Rio Grande Valley team a one-touchdown nod over Hillsboro's surprising Eagles for their Saturday afternoon get-together at Waco. The Panthers haven't been pressed seriously all season even against AAA clubs in their pre-district "warmups."

**Stinnett Favored**

The Stinnett-Chillicothe clash at Breckenridge is the one to watch.

**NBA to Discuss Guild Ban**

CHICAGO — UP — The executive committee of the National Boxing Association will discuss New York's ban on the Boxing Managers' Guild at its meeting Jan. 14, President Lou Radzinsky said Friday. "Until then nobody can speak for the NBA," he added.

**Pirates Name Trouble-Shooter**

PITTSBURGH — UP — The Pittsburgh Pirates announced Friday that Bill Burwell will act as a trouble-shooter for their farm clubs and also handle special scouting assignments next season. A veteran of 41 years in baseball, Burwell managed the Lincoln Chiefs of the Western League last season.

## Pampa Cagers Won 4 Games In Phillips Yesterday

The Pampa Harvesters and the Shockers both picked up wins last night at Phillips as they downed the first and second Blackhawk basketball teams. The Harvesters picked up their third straight victory while the Shockers made it five in a row. The Reapers and the Planters also defeated Phillips teams in the afternoon.

Both the Harvesters and the Shockers held a wide margin at the end of the first half but the Blackhawk teams came back early in the third frame and cut the lead down. They ran out of steam before the final frame though and fell before the Pampa teams.

Carl Mitchell scored the Blackhawks first five points and put them the same number of points ahead of the Harvesters. All the points came on free throws.

With two minutes gone in the first period the Blackhawks led the Harvesters 5-0 but with three minutes gone the Harvesters led the Blackhawks 11-5.

As the first quarter ended the Harvesters held the Blackhawks to only one field goal and that was made from 25 feet out by Ronnie Holder just five seconds before the buzzer sounded.

They had picked up six free throws and one field goal to trail the Harvesters by 12 points at the quarter. The Harvesters had picked up six free tosses and seven field goals to lead 20-8. They had missed eight chances from the gratis line though as they seemed cold.

Early in the second frame the Harvesters stretched their lead to 15 points but the Blackhawks would not give in and kept on the Harvesters but also fouled six times in the frame and allowed the Green and Golders to pick up seven more free tosses. They missed only three of their chances from the line in the second stanza.

The Harvesters led by a 41-27 score at the half ended.

After the short rest and some briefing by Coach Billy Hughes the Blackhawks came back on the floor and got hot. They cut the Harvesters lead to nine points with three quick fieldgoals by Ronnie Holder, Tommy Newman and David Benfield.

The Harvesters retaliated then and the teams scored one after the other until the last few seconds of the stanza when the Harvesters' Sam Condo dumped in a field goal to make the score 57-43 and Jerry Gee counted for two more free throws to end the quarter with a 59-43 lead. Gene Brown ripped the net with a field goal just a split second after the buzzer ended the frame.

The Harvesters substituted freely in the last two frames and managed to keep every Harvester eligible to play while three of the Blackhawks picked up their fifth foul and had to leave the game.

The Reapers and Planters also defeated two of the Phillips teams yesterday as the Reapers ran over the junior high Blackhawks by a 55-26 score. The Planters dropped the eighth graders from Phillips 29-24 in a hard fought contest. Mert Cooper led their scoring with 13 points.

Charles Minor was high point man for the Reapers with 19 points while Bobby Gindorf followed with 15. Coyie Winborne scored seven, Robert Murray six, Mack Lane four, Russell Hollis and Karl Kitto each counted for two of the Reapers' 55 points.

The Reapers scored 22 points in the third quarter while the Blackhawks counted for one free throw.

## Leslie Combs Buys Nashua For Record Price, \$1,251,200

LEXINGTON, Ky. — UP — Nashua's new owner, Leslie Combs II, cited Friday he is mapping a busy 1956 racing campaign for the champion colt.

The prominent Kentucky breeder-owner purchased Nashua Thursday for a record price of \$1,251,200 from the estate of the late William Woodward Jr.

"Primarily we bought him (Nashua) as a stallion because I wanted his cross in our breeding lines," Combs said. "Of course, he might pay out as a racehorse before we retire him, and we certainly wouldn't object to that. Two or three others went into this thing with me, but I'm not at liberty to say who they are."

According to present plans, Nashua will be shipped next week to Hialeah Park, Fla., where he has been nominated for the \$50,000 McLennan Handicap and the \$100,000 Widener.

Nashua already has earned \$945,415 in two years of racing and, according to Combs' tentative plans, will get a chance to surpass the all-time record of \$1,083,760 earned by the great Citation. He also has been nominated for the Santa Anita Handicap this winter.

Nashua's sale was announced at New York, where the entire Woodward Stable of 62 horses was disposed of for \$1,866,200. Nine other race horses and 12 yearlings were sold to John Kroese of Teaneck, N.J., for a reported \$220,000, while Mildred W. Woolwine of Lexington acquired 24 brood mares and 16 weanlings for a reported \$395,000. A total of 16 bids were received for the various groups of horses.

## Tag Team Match Leads To Battle Fast And Furious

Dory Funk won the first event over Leo Newman at the Top of Texas Sportsman Club Wednesday night in 2 minutes and 9 seconds. Overhulst came into the ring as a second to Newman and proceeded to aid Newman against Funk. Big Bob Geigel appeared on the scene. Geigel got a head lock on Overhulst and Funk got a head lock on Newman. They started from opposite corners and met in the center of the ring, butting Newman's and Overhulst's heads together and almost knocking them both out. Funk came up with a jack knife to win the event. Mary Jane Mull won over Dot Dotson with two falls to one in the second main event. Dot Dotson won the first fall in 12 minutes 30 seconds with a series of body slams and a body press. Mary Jane Mull came back to take the second fall in 6:39 with a series of drop kicks and a body press. Mary Jane won the third fall in 1:43 with a back flip. The main event was some affair with four wrestlers competing in the ring the majority of the time. The team of Funk and Geigel won the match with 2 falls to one. Geigel took the first fall over Overhulst in 12:19 with a body press after softening him up with fore arm smashes and body slams. The second fall went to George Overhulst over Dory Funk in 16:57 with a full Nelson. The third fall went to Funk over Newman in 15 minutes 20 seconds with a series of body slams and a body press. The event wound up with all four wrestlers in the ring with the referee Luis Martinez sitting on the ropes like a spectator. Newman turned on his partner George Overhulst after George had attempted to tie Funk's leg to the ring ropes. George got hold of wrong foot and tied Leo to the ropes. He also got on the referee. The wrestling commissioner, Homer Anderson, had to get into the ring and separate them.

# Ponies Five Points Off But Coach Isn't Worried

By ED FITE

DALLAS — UP — Southern Methodist's Southwest Conference championship basketball team isn't hitting the hoop quite as often or as well as last season, but Coach E. O. (Doc) Hayes isn't dismayed.

His pesky Ponies are about five points per game off their 1954-55 scoring average, are hitting only 39.9 per cent of their field goal attempts as compared with 42.2 and sinking only 72.4 per cent of their free throws as compared with 74.1 last season.

But, Hayes' veteran outfit will carry a very creditable 5-1 win-loss record into action here Saturday night against Coach Phog Allen's 12th-ranking Kansas Jayhawks.

**Feels More Solid**  
"I can't help but feel that we're a more solid club than last season," Hayes said today, "although we're missing the outside shooting that (Art) Barnes gave us. I don't expect to win 'em all—the opposition is too tough, but we've got a good team."

The Mustangs' only loss to date was an 80-62 affair against a high-rated Iowa team that was "hot as a firecracker" the night Hayes' boys pulled into Iowa City. On the same road trip, SMU whipped a good Minnesota club and Wisconsin, the latter by a better margin than Kansas was able to fashion against the Badgers.

Jim Krebs, the tallest player ever to wear SMU's red and blue colors, has shown improvement in his rebounding and his six foot eight inch frame is much more noticeable under the boards than it was a year ago when Joel Krog, five inches shorter, was carrying

the rebound lead.

Through the first six games, Krebs—always a slow starter—was leading Krog by a wide margin off the boards and still pumping in points at better than a 20-per-game clip, including a 36-point spree against Minnesota. The tall Webster Groves, Mo., junior is adding versatility to his shooting, hitting frequently now with an outside jump and one-handed push to go with his specialty—the hook.

**Slack Taken Up**  
Krog and Larry Showalter have picked up some of the outside shooting slack caused by Barnes' graduation, and the Mustangs are getting excellent free throw production from all five starters.

Guard Ronnie Morris, especially, is a big contributor to the starting five's 75.8 average. The speedy Shawnee, Okla., product

**Army Names Captain**  
WEST POINT, N. Y. — UP — Edward Svetez of Bethlehem, Pa., who moved from third-string center to a regular berth this year, Tuesday was named captain of Army's 1956 football team. Svetez, the 66th captain in Army history, is the first captain to hold the honor since Bill Yeoman in 1948.

has hit 36 of 41, including one string of 25 straight. Bobby Mills, the only non-starter of a year ago, has 37 of 35 to his credit. SMU's principal challenger for its first championship in 18 years seems to be Rice, which boasts a 6-0 record to date. A comparison of the two clubs comes this week end when Kansas jumps from Dallas to Houston for a Monday night date with Rice.

## Educocracy

In analyzing the nature of various forms of governments, students of liberty customarily find that theocracy is potentially the most dangerous. As the name signifies, it is that type of government in which the power of the state is combined with the power of the church.

While humanity was struggling slowly up through ages of barbarism and savagery, theocracy was frequently the most relied upon form of coercion. Politicians and dictators not only wanted the force of their armies behind them, they wanted the power of superstitious awe to keep the people humble, docile and tax-paying.

The chief of the tribe frequently entered into a kind of partnership with the medicine man, splitting between them the loot they were able to wrest from the harmless members of the tribe. At times, through scheming or violence, the functions of the chief and the ritual of the medicine man were combined in one and the same person, making disobedience to his edicts not only punishable through state laws and rules, but an actual affront to divinity, punishable by everlasting torment.

Several examples of this union of chief and high priest come to mind. The emperor of Japan, the Mikado, presumably was a direct descendant of Ama Terasu, the sun goddess. His wishes were state law as well as divine authority. Under such double jurisdiction, the Japanese people for centuries bowed their necks humbly and toiled as bidden for the glory of Japan and the Mikado. Freedom and free enterprise were virtually unknown. And even today, much of this spirit of secular and religious humility before the visage of authority is still holding back progress in the Land of the Rising Sun. General MacArthur has been the most potent factor in curing it, to date.

Another instance of theocracy which currently has been combined with what passes as a ruling oligarchy is the government of Russia. In Moscow, under the insistence of Marxist doctrines, the state became the declared enemy of the church. This was not because the ruling dictator felt that he must overthrow the church, but rather that a free and uncontrolled church could conceivably work against the edicts of the entrenched tyrant. Therefore, Stalin, and Lenin before him, contrived not to overthrow the church but to subvert it and take over.

As an instrument of the state, the church is a powerful factor. With its ability to appeal to the sense of devotion in the minds and hearts of its members, it can become a militant arm of the government, making that government a theocracy in fact, even when the state authorities proclaim ardently that there is no God.

Reports that Russian churches have been closed en masse are simply not true. The only churches closed in Russia were those churches which refused to become propaganda agencies for the supreme dictator. The others stayed open and are still open today. The devastating effect of a theocracy can be readily imagined.

Fortunately, in America, our founding fathers saw through the evil which could come about by a combination of state and church. They proclaimed a fundamental schism, which thus far has remained virtually inviolate, except in certain instances where the state has interfered in the free practice of religious convictions.

However, authoritarianism thrives in this country through another agency which has combined with government to inflict what may be permanent harm upon the body of society. We can call this combination educocracy. If theocracy is the most virulent form of compulsion, as many students believe, then educocracy must be heard as dangerous, perhaps, in certain instances, even more dangerous.

Educocracy could be defined as that type of rule which combines all educational institutions with the state. Here is an unholy alliance in which the government uses the school as an instrument of its own political desires. Tiny children unaware that life is possible out from under the domination of a state, are made into puppets mouthing the empty platitudes and sophistries promulgated by their political bosses. Instead of learning the virtues of independence, hard work, thrift and freedom, defenseless children are molded into so many healers of the ruling hierarchy.

While the effects of educocracy are not as quickly felt as those which emanate from a theocracy, they unquestionably endure for a longer period of time. Whole generations, raised in the enervating atmosphere of state-dependency, are lost from the ranks of productive entrepreneurs. Further, while the very divergencies of religious conviction tend to provide escape hatches for enchanted devotees of a state religion, the uniformity and compulsive characteristics of all government schools tend to cement immature and malleable minds into the molds and dies of bureaucracy. From this, if it is continued long enough, there is virtually no escape.

In another 50 years of rising power on the part of our government school boards, this nation will have become a firmly established educocracy, and freedom, liberty, and independence will be forgotten terms.

How Government Schools And Methodist College Handicapped Me

I want to explain how my attending government schools and getting a high school diploma and then graduating from a Methodist college handicapped me in developing my moral and mental faculties. How, in short, it retarded my education.

I lived in the country across from a little red school house. My parents had both attended government schools. So they naturally believed that attending government schools would assist me in getting an education rather than being a handicap to developing one's education.

My father was usually a member of the local board of education. However, he had some little doubts about the efficiency of government education because I remember him remarking that government schools were socialistic.

There were, however, no other private schools within three or four miles, and three or four miles was a long way when there was no pavement and there were no automobiles some 60 or 70 years ago.

My parents so believed in government schools that they paid my tuition to the high school 3 1/2 miles from home. I walked or drove back and forth to attend this school and got a diploma from the high school.

Big Government The handicap that I got was the belief expressed in the high school curriculum that the state or the majority had a right to use taxation that is, aggressive force—to make everybody help pay for what the bureaucrats, appointed by the state, regarded as education; regarded as a function of government.

I never once read in any book or heard any professor in the high school explain the principle that governments derive their just powers from the consent of the individual; that the government had no right to do anything that each and every individual did not have a right to do. Instead, they had to teach that the government or the local school-district, if the majority so willed, had a right to force a Catholic parent or a childless person or an old maid or an old bachelor to help pay for government schools.

The textbook never explained that the ideologies of a just government limited the government to being an agent of the citizen. In other words, they never explained that the individual citizen was sovereign of himself; that the state only gets its sovereignty from the individual.

The textbooks did explain the error in the belief of the divine right of kings. But they never explained the error in the belief of the divine right of the majority. It simply substituted the divine right of the majority for the divine right of the kings.

Of course, I never found any textbook or any teacher that believed taxation was a violation of justice and of moral law, as set forth in the Commandments "Thou shalt not steal" and "Thou shalt not covet."

The government schools 60 or 70 years ago were not nearly as brazen in teaching collectivism and statism as they are today. We had the McGuffey readers that set forth some general principles but, of course, never dared point out the worst crime—the crime of forcing a citizen to pay for what he regarded as indoctrinating the youth of the land to believe in aggressive force.

This belief that the state had a right to do things that no individual had a right to do was generally accepted by such Protestant denominations as the Methodists, the Presbyterians, the Baptists, the Congregationalists and most of the major denominations. They all denied the responsibility of the parents to educate their children.

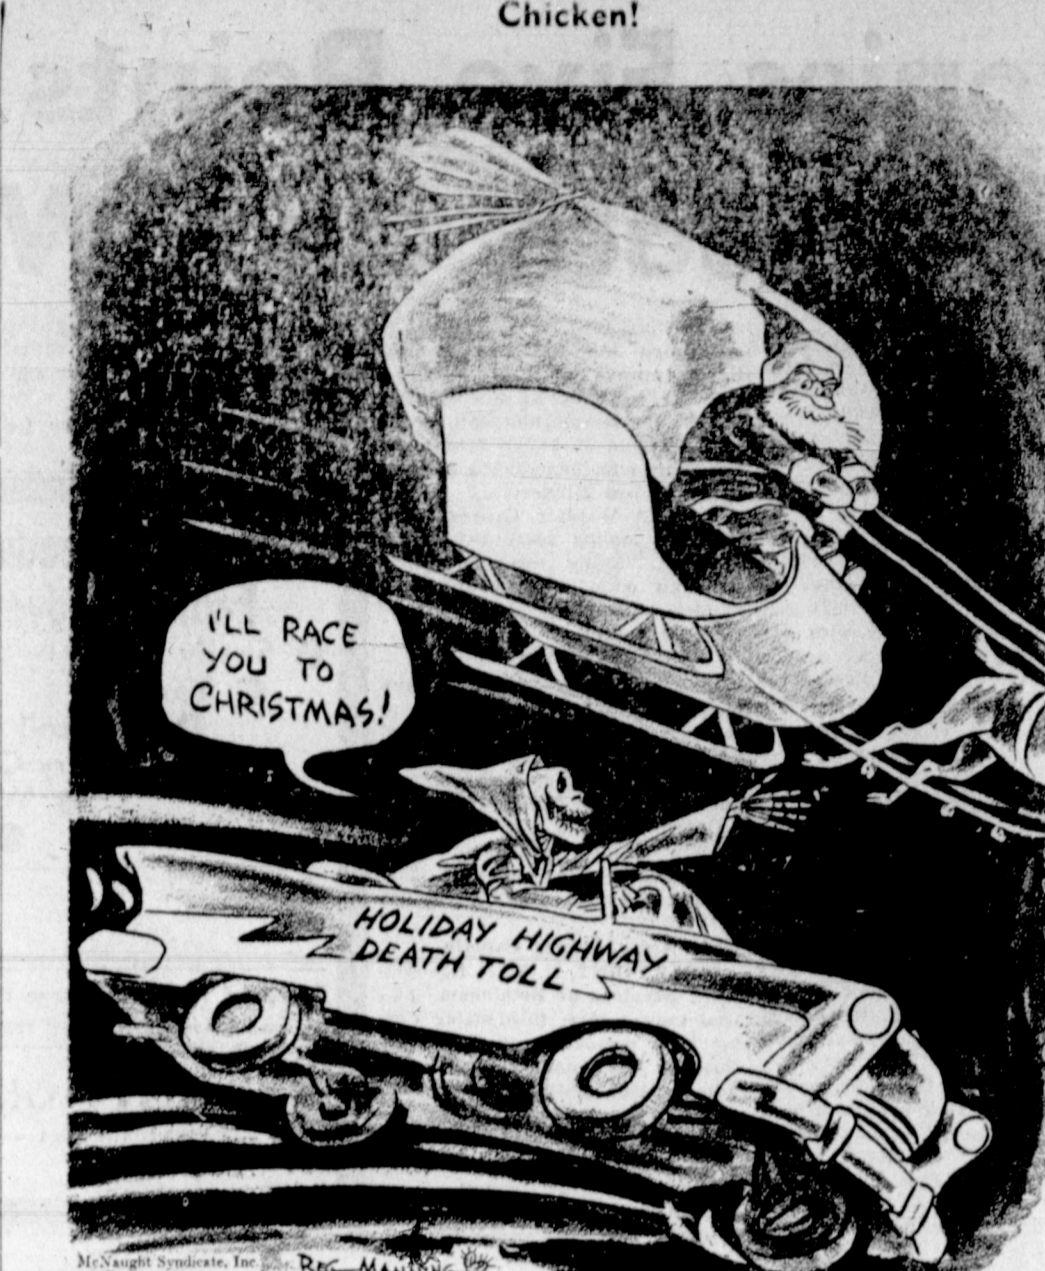

I was born and raised in a Methodist family and since they and the preachers and the bishops all believed in the divine right of government schools, I, being a youth of the land, naturally absorbed the environment and believed they knew what they were doing.

The Methodist College Then I went 4 years to a Methodist college. And never once did I hear in that institution any explanation as to how the government should be limited to only doing what each and every individual had a right to do. Never once did I read in any of their textbooks or hear any of the professors point out the inconsistency and the tyranny of government schools.

They, of course, like all other Protestant colleges, expected to get their students from government schools. They did not want to say anything or teach anything that might keep a single, solitary government school pupil from attending their colleges. They, like most all other Protestant colleges, seemed to be interested in quantity rather than quality. They, like other colleges, were interested in bigness rather than education; rather than truth.

In the next issue I'll attempt to explain what awakened me as to how I was handicapped by government schools and Methodist college.

### Humphrey Lines Up Aid Against Tax Cut Demand

By WESTBROOK PEGLER

WASHINGTON — Treasury Secretary George M. Humphrey is quietly mobilizing business and political sentiment against the Democrats demand for a sizeable tax cut that is sure to be voiced on Capitol Hill in a re-election year. He believes that he has made headway on this admittedly unpopular issue.

Almost every economist, including the practical and theoretical experts, liberals and conservatives, has advised against such a move in conference with the Treasury, the Federal Reserve and Congressional Committees. Rarely have so many divergent specialists been so unanimous. Their principal objection, which accords with Humphrey's views, is that its inflationary effect would boost a price level that is already top-heavy.

An increase in the cost of living would more than offset the benefits of a tax reduction, according to this school. It would lead to demands for compensatory wage increases from the union AFL-CIO. It would place farmers at an even greater disadvantage, increasing their expenditures when their income is reaching a postwar low.

It would upset the economy in what may prove to be the nation's most prosperous year, in Humphrey's opinion.

Secretary Humphrey advances alternative uses of any treasury surplus in discussions at Cabinet levels. He prefers (1) to balance the budget, and (2) to make a start at reducing the \$280 billion public debt.

He seeks to fix a precedent for lifting the national mortgage. He feels that, if this Administration sets a prudent example in this field, Eisenhower's successors, whether Republicans or Democrats, will feel duty-bound to follow it.

Barring a major war or a serious depression, Treasury analysts think that the public debt can be brought below \$200 billions in a decade.

Humphrey, incidentally, is pleasantly surprised by the support he has received from leading Democrats on and off Capitol Hill. So far, none of their three leading Presidential candidates has voiced any desire for a vote-catching tax reduction. In fact, Adlai E. Stevenson has declared against it.

Representative Daniel A. Reed of New York, former Chairman of the House Ways and Means Committee, will resist such an attempt at the 1956 session. So will Representative Wilbur Mills, Arkansas Democrat and an influential figure on Ways and Means.

## Chicken!

## PAUSE FOR REFLECTION

...with JAMES C. INGBRETSSEN, President, Spiritual Mobilization

Lack of spirituality in the modern home was termed a prime factor in juvenile delinquency in a speech given at Long Beach, Calif., by Superior Judge Fed Miller, according to a recent news dispatch.

"Children are great imitators," Judge Miller reportedly declared, "and many times the good influence that church and home can exert is lost through the bad examples of parents."

All this is true, of course. It is also true that young folk, by and large, are aggressive idealists. They are ready and eager to champion the right, as they see the right — and quite frequently they either perceive it much more clearly or else attach much more importance to following it than do their parents. Then there arises in the children an inner conflict between loyalty to the right and loyalty to their parents.

It is not fair for parents to cause their children to face such a conflict. Children should be able to be loyal to their highest ideals and loyal to their parents at the same time. But this is frequently impossible. Therein lies one of America's gravest problems. Parents who embarrass their children by constantly violating their children's ideals have only themselves to blame if, later, their children, grown cynical, embarrass them by violating even their parents' considerably less-than-ideal moral code.

## BID FOR A SMILE

Traffic Officer — Going to a fire? (sarcastically). Speeding Motorist — Well, not exactly. Just trying to prevent one. Traffic Officer — Yes, and how were you going to do that? Speeding Motorist — Well, the boss said that's what he'd do if I were late again, and I was hurrying to get to the office in time.

## The Doctor Says

By EDGAR P. JORDAN, M. D.

NEURITIS is best described as a painful disorder of the nerves. The inflammation of the nerve (or nerves) is usually shown by pain and tenderness, disturbances of feeling or sensation, and often a certain amount of wasting of the muscles.

One problem about neuritis is that there are many possible causes. The problem is to try to find which one is present in each individual sufferer.

Diabetes (especially if the condition has not been controlled by suitable diet or insulin), and infections are among the common causes.

Vitamin deficiencies, especially the lack of vitamin B-1, also may produce nerve pain. SIMPLE NEURITIS — or inflammation of several nerves — is common among the victims of chronic alcoholism. Perhaps at least part of the reason is that such persons often substitute alcohol for a properly balanced diet containing enough vitamin B-1. This type of neuritis often can be much improved, or even relieved entirely, by giving extra vitamin B-1.

Neuritis is a symptom always present in shingles, or herpes zoster. In this disease the cause of the trouble is a virus.

Severe anemia can produce neuritis. Poisoning with the heavy metals such as arsenic, and many of the substances used in industry may produce neuritis. This incomplete list gives an idea of the problem in making a diagnosis.
