Miss Grace Lee Barber, left, and Miss Amy Joe Durning are entered in the beauty and talent contest, which is being conducted here under the auspices of the Junior Chamber of Commerce. Miss Barber, daughter of Mr. and Mrs. C. N. Barber, Lefors, graduated from Lefors High School in 1956 and is employed by Zae's Jewelry Co. With her voice talent, which is soprano, she attended the State Choir Contest held in Dallas and has been active in church choir work. She likes water skiing, dancing, and playing the piano, and would like to be a fashion model. Miss Barber was attendant for Miss New Mexico in the "Miss Universe Contest" held in California last year. She is sponsored by Culberson Chevrolet Co. Miss Durning, daughter of Mr. and Mrs. Buck Durning, Skellytown, graduated from White Deer High School in 1956 and is now employed by Southwestern Investment as cashier. Among the honors awarded Miss Durning during high school and her college year at Frank Phillips were, Best Actress in District and Area; candidate for Annual Queen; secretary-treasurer for Student Council; cheerleader and head cheerleader; and while at Frank Phillips, was chosen "Mask and Mike Favorite." She enjoys church work and has an ambition to be a good secretary. Crouch Office Supply is her sponsor. (News Photos)

# Ready 'Rights' Compromise

## Tech Faculty Urges Hearing For Professors

LUBBOCK, Tex. (UP)—The faculty of Texas Tech said Tuesday night holds the school's board of directors unless a special hearing for the two professors it fired. Tech's accreditation could be affected. A total of 300 faculty members, backed by Tech President Dr. E. N. Jones, urged the directors to hold a hearing to "reconsider" the firing of Dr. Herbert Marvin Greenberg and Dr. Bryon Robert Abernethy. The resolution adopted in the general meeting outlined a chain reaction beginning with the dismissals that could culminate in placing the school's national ranking in danger. They said the dismissals are "manifestly unjust" and were held in "secret session."

**Feeling of Insecurity**  
The resolution said the firings "tend to discourage freedom of thought and to create in the mind of every member of the staff (faculty) a feeling of insecurity." Morale will be so shattered, the resolution predicted, so that there can be little effective teaching or research. "After faculty morale is destroyed," the resolution said, "there will be deep dissatisfaction in the student body."

"This will result in a loss of respect of other educational institutions throughout the United States. Consequently, it will become more difficult to recruit and retain competent faculty members. This could affect the college's accreditation." The resolution concluded by urging the meeting be called as soon as possible and stating the faculty's belief that "if these facts are called to the attention of the Tech board of directors, the board will wish to reconsider its action at the earliest possible moment in an open meeting." Dr. Jones was asked to send a copy of the resolution to each board member at once. The meeting was held at Jones' recommendation. The president talked by telephone to board of directors President W. D. Watkins, who is vacationing in Hawaii.

Jones indicated that Watkins approved of a special board meeting to hear the professors. Jones said he talked to some other members of the board, and told the meeting he had "good reason" to believe a board meeting would be held openly soon "to go into the situation." He read a telegram from the Sam Houston State College unit of the Texas Association of College Teachers which said "We urge that action be taken to rectify this abominable situation." It was reported that several stu-

## In City Commission

### 'Juke Box' Music, Trash Discussed

The conditions caused by trash and excessive noise from "juke boxes" at drive-ins in Ward 1 were brought up at the meeting of the City Commission yesterday by Ed Myatt, commissioner of Ward 1. The report by the commissioner was made too late in the morning for The News to cover yesterday. Myatt stated that he had received several complaints from residents in the areas where drive-ins are located about trash blowing into their yards and of the noise late at night from the record players. After discussing the situation, the commissioners issued instructions to the health department and police department to warn operators of drive-ins about the conditions. Fred Brooks, city manager, reported this morning. The health department is to instruct the operators of these businesses to keep all trash, thrown on the grounds by customers, picked up at all times. If this order is not complied with, the health department is to make a complaint report on the business. The police department has been instructed by the commission to have all the "juke boxes" turned to a low volume and patrol cars are to check on the noise at the drive-ins each night. Citations are to be issued for any violations, according to Brooks. In other late action, Mayor Lynn Boyd submitted preliminary plans on a site he is planning on developing. The site is located on Gwendolyn, in the southwest cor-

ner of the hotel property. Boyd is to construct all of the water and sewer lines in the addition and will comply with all city requirements even though the area is presently outside the city limits, it was reported.

## Permits For Construction Are Issued

Nine permits for the construction of new residences within the city limits of Pampa were issued by the city engineer's office last week. Three of the permits were issued to Panhandle Lumber Co. for the construction of five-room residences. The houses are located at 2234 Duncan, to cost \$12,250; 2222 Duncan, to cost \$12,500; and at 2218 Duncan, to cost \$12,250. Highland Homes was issued two permits for five-room homes to be located in the 1800 block of N. Nelson. The house to be built at 1829 will cost \$11,750 and the house at 1812 will cost \$11,750. A permit to build a six-room house at 2111 Chestnut was issued to H. K. Jeter. The cost of the house was listed at \$20,000. M. E. Powers was issued a permit for the construction of a three-room house at 1428 E. Browning at a cost of \$4,000. A permit to build a five-room house was issued to E. W. Hogan. The house will be built at 2133 Beech Lane at a cost of \$13,500. The last permit issued went to T. G. Groves for the construction of a four-room residence at 800 N. Powell. The cost of the house was listed at \$12,500.

## 'Last Resort' Court Offers Lie Test

DELAND, Fla. (UP)—Mystery writer Eric Stanley Gardner's "court of last resort" today offered to conduct a lie detector test for a newly "confessed" but skeptically regarded "suspect" in the Sheppard murder case. Authorities in Cleveland, where Marilyn Sheppard was bludgeoned to death in 1954, discounted its "25th confessor" to turn up since Dr. Samuel Sheppard was convicted of murdering his wife. Donald Joseph Wedler, 28, a convicted robber, signed a confession that he killed a Cleveland housewife in a manner similar to that of Mrs. Sheppard's death on July 4, 1954. But Coroner Samuel B. Gerber in Cleveland pointed out discrepancies between Wedler's account and the trial evidence on which Sheppard, a young osteopath, was convicted of second-degree murder and sentenced to life imprisonment. Sheriff Ridney B. Thursty said that if Wedler consents he will accept the offer of Gardner's "court of last resort" to investigate the purported confession. Criminologists of the unofficial "court" wired Thursty an offer to fly Alex Gregory, polygraph expert from Detroit, to give Wedler a lie detector test. The "court" already has given tests to relatives of Sheppard but has been refused permission to test the young osteopath himself.

## Designed To Ease Southerners' Fears

By DAYTON MOORE  
United Press Correspondent  
WASHINGTON (UP)—The Eisenhower administration readied a major compromise on the civil rights bill today designed to ease southern fears of strong-arm federal intervention in school segregation cases. A person qualified to speak for the administration told the United Press the controversial Part III of the bill would be substantially altered under the new proposal. This is the section which would authorize the attorney general to seek injunctions or other civil court action "whenever any persons have engaged or there are reasonable grounds to believe that any persons are about to engage in any acts or practices which would deprive anyone of any civil rights. Southerners claim this section, because it is tacked on to Reconstruction Era "force" statutes, would permit the government to enforce school integration with federal troops. The administration amendment would forbid the attorney general to intervene in such cases except by invitation of local authorities such as school boards or playground authorities wishing to end segregation but meeting resistance. President Eisenhower, in a formal statement Tuesday night after the Senate voted to formally consider his House-passed racial rights bill, appeared to leave the door wide open to such an amendment. Urges Early Passage He urged the Senate to pass the bill "without undue delay" and with crippling amendments. But he restated the four basic objectives of his bill and said one is to provide a reasonable program of assistance in efforts to protect constitutional rights of citizens. This would fit in with the reported plan for modification of part III. The United Press was informed the administration also would accept two amendments proposed by Sen. Richard B. Russell (D-Ga.), leader of the amendments opposition to the bill. One would make the staff director of the bill's proposed civil rights commission subject to Senate confirmation. The other would forbid the commission to accept the aid of voluntary workers. The Senate handed Eisenhower and northern Democratic liberals a resounding triumph late Tuesday by voting 71-18 to consider the bill formally. Two minors, suspects in a \$100 robbery case at McLean were released in Perryton last night when a witness said they were not the ones who committed the offense. A Phillips 66 station in McLean, owned by Rust Turner, was hit up by two hitch-hikers about 10:50 p.m. Sunday. Only one boy, 15 years old, was attending the station at the time of the robbery, according to McLean Constable J. D. Fish. Deputy Sheriff Buck Haggard, Pampa, and Deputy Sheriff Jimmy Shelton, McLean, took the attendant to Perryton last night to try to identify two boys held there. Fish said the station operator told him that two youths, about 15 and 17, had stopped by the station and inquired about hitch-hiking. After a few minutes, one of the boys raised his shirt revealing a pistol in his belt, and told the operator to open the cash register and hand over the money. After taking the money, more than \$100, the pair put the operator in a rear room and left. Fish told The News that he was at the station within five minutes, but could find no trace of the two. The operator said that he did not hear a car leave. Perryton officers later picked up two boys generally fitting the description, and they were held for identification. The station operator last night, however, said that these were not the robbers. Officers this morning were working on other leads in the case. If it comes from a Hardware Store, we have it. Lewis Edgewood. (Adv.)

## Ike Says He Can't See Use Of Troops

By UNITED PRESS  
WASHINGTON (UP)—President Eisenhower said today that although he has legal power to send troops into the South to enforce school integration, he could not imagine any set of circumstances that would lead him to take such action. A reporter pointed out to Eisenhower at his news conference that he has the power to use troops to enforce the Supreme Court school decision under laws dating back to the Reconstruction era following the Civil War. He was asked if he was aware that a section of his civil rights bill now being considered by the Senate would carry forward the power to use troops if necessary to put into action the orders of a federal court. Eisenhower said he had been informed of his powers under the Reconstruction era laws, but he did not believe a situation could develop in which he would have to use this power. Beauty And Beards Are Talked Here Pampa's Beauty Pageant was the chief topic of discussion at the Jaycees' "ladies day" meeting held at noon yesterday in the Palm Room of City Hall. Some 17 entries have already been made in the Miss Pampa contest, and Johnny Campbell, president, said that he expected at least 20 by show time Thursday night. Rehearsals for the contest, which will be staged in the junior high auditorium, were held there last night and are scheduled again for tonight. Campbell said that there were more sponsors than girls available. On the Jaycees-sponsored beard-growing contest, it was reported that progressively larger numbers of males were showing up with whiskers of some type. About 400 shaving permits have been sold to date. Charlie Wilkerson, Pampa barber, was in charge of the "ladies day." Jaycees were surprised when 23 ladies, wives of the members, turned up for the meet. A film "Sports of the Southwest" was shown, courtesy of the Santa Fe Railroad. Jimmy McCune of the Cabot was projectionist. Nine Pampa members went to the Berger Jaycees meeting yesterday. Campbell reported. Six members are to attend a tri-regional gathering in Levelland this week end. A homecoming is being planned for Aug. 6, during rodeo week, for old members. Merchants Urged To Get Tickets Merchants' complimentary tickets to the Top of Texas Rodeo, Aug. 7-10, should be checked out of the Pampa Chamber of Commerce office as soon as possible, Mrs. Weldon Steward, rodeo office secretary, has announced. More than 1,500 tickets have already been issued. "The response has really been excellent," Mrs. Steward said. She expressed hope that merchants interested would order the complimentary tickets now, in order to avoid "jamming" the office during the last few days. Numbered complimentary tickets are issued to merchants upon request. The merchants then send them to customers or potential customers. The merchants are charged after the rodeo for only the amount of the tickets that were actually used. (Adv.)

## The First Annual Top O' Texas Beauty Pageant Set Tomorrow

Who knows, "Miss Pampa" might be the next "Miss America." And from enthusiastic reports given by Jaycees' publicity chairman, Kay Fancher, after watching rehearsals for the Miss Pampa contest last night, chances here "are better than average to say the least." Some 17 talented beauties from this area will be on hand at the junior high auditorium at 7:30 tomorrow night to make their way through a contest which will determine who will wear the "Miss Pampa" crown for 1957. It will be the first annual Top O' Texas Beauty Pageant. And the winner, plus her chaperone, will get an expense-paid trip to

the "Miss Texas" contest in Kerrville, Aug. 2, 3, and 4. A panel of six judges, identities to be kept secret, will judge the girls not only on beauty, but also talent. Besides modeling in a bathing suit and a "formal," each miss will display some talent. Two hours will be filled not only by shapely figures, but by routines from singing to a dress-designing skill. Girls are to dance, skate, give talks or perform any other feat of talent. Fancher reported that a rehearsal will be held at the Pampa Junior High School. See ANNUAL, Page 3

## Pampan Is Cleared In Burglary

Sheriff Bus Dorman and Deputy Sheriff John Topper of Wheeler County were in Pampa last night questioning a teen-age boy in regards to the burglary of the Tucker El Corral Restaurant in Shamrock early Sunday morning. The youth had been in Wheeler and Shamrock Saturday night and the two officers asked him if he had seen anything while in Shamrock. After talking to the youth, the officers reported that he did not have knowledge of the burglary and they released the boy. Sheriff Dorman reported that sometime before daylight Sunday burglars entered the restaurant and made off with approximately \$70. Entry to the building was made through a small window in the back, the sheriff reported. The window was pried open with a large screwdriver. The same screwdriver was used to pry open a cigarette machine, the "juke" box and a prize machine, he stated. The estimated amount taken from the coin boxes of the three machines was \$70. The two officers are attempting to identify the person or persons responsible by clues left at the scene. Sheriff Dorman also reported that Frank Allen Jr. of Pampa, who was taken to Wheeler Monday after being arrested for the Wheeler officers Sunday night, was charged yesterday with the theft of a tire from a service station in Wheeler.

## Health Service Is 'Not Ready' To Ask Cigarette Warning

By HELEN THOMAS  
United Press Staff Correspondent  
WASHINGTON (UP)—The public Health Service said today it is not ready "at this time" to recommend slapping a government cancer-warning sticker on every pack of cigarettes. A public health service spokesman said his agency was taking "the cautious view" until it learns whether "it is the tobacco itself that is the bad agent or the chemical agent in cigarette smoke produced when tobacco is lighted." Sen. Walter F. Bennett (R-Utah) Tuesday introduced a bill that would require each pack of cigarettes bear a label warning: "Prolonged use of this product may result in cancer, in lung, heart and circulatory ailments and in other diseases." But Chairman Warren G. Magnuson (D-Wash.) of the Senate Commerce Committee questioned whether Bennett's bill is necessary. The Commerce Committee already is considering a bill that would require listing the contents of cigarettes on each cigarette pack. Sen. John Sherman Cooper, a

## Government Expected To End Case

KNOWNSVILLE, Tenn. (UP)—The government expected to wind up its case today against 18 segregationists who are charged with conspiring to violate federal integration orders at Clinton, Tenn., High School. U. S. attorney John C. Crawford indicated he would call the last of his witnesses, including one who was expected to link another defendant to the beating of the Rev. Paul Turner. The Rev. Mr. Turner, minister of Clinton's First Baptist Church, Tuesday identified defendant Clyde Cook as among the 18 or 20 persons he said attacked him after her escorted six Negro children to Clinton High School.

## Budget-Slashers Hail Wilson's 100,000 Military Manpower Cut

By FRANK ELEAZER  
United Press Staff Correspondent  
WASHINGTON (UP)—House budget cutters today hailed Defense Secretary Charles E. Wilson's 100,000-man military cut-back as proof of their claim the defense budget can be reduced substantially. Senators were cautious. Some military officials feared the reduction would weaken U.S. bargaining power in disarmament dickerings with Russia. The United States has proposed a cutback in U.S., Russian and British military strength to 2,500,000 men. Some military men fear that this country cuts too close to that goal voluntarily it will lose any leverage on Russia to do likewise. Wilson, with President Eisenhower's approval, Tuesday ordered the armed forces to reduce their authorized strength from 2,800,000 to 2,700,000 by the end of this year. Since the services were 10,355 below authorized strength at last report, this means an actual cut of 89,642 men. The Army would take half the cut, winding up with a force of fewer than one million men for the first time since the Korean buildup. Wilson indicated further

## Jury Delays Findings In Second Parr Trial

HOUSTON (UP)—The jury in the federal mail fraud trial of George Parr reported today it has reached a verdict, but its findings were delayed temporarily. The jury began its fifth day of deliberation at 9 a.m. today. The only other trial which had gone to a jury took six days of deliberation. Then the jury reported that it was deadlocked and unable to reach a verdict. Two other previous trials of Parr and his associates ended in mistrials. The prosecution went to great lengths during this trial to avoid a similar ruling. Four alternate jurors, including a Negro woman, heard every word of testimony and were dismissed only last Friday when the jury got its charge from Judge Joe Ingraham. Many Hours on Case The jury began its deliberation in this trial late Friday afternoon. It spent Saturday in the jury room, took a day off Sunday, and returned to consider the case Monday morning. More than 20 hours had been spent in deciding the case by the time the jury resumed its sessions this morning. The jury finally got the case after a long drawn-out trial that took 38 days of testimony to complete. An estimated million or more words were taken in testimony alone. About 400 exhibits were offered as evidence — mainly photographs of checks and other documents. Co-Defendants Named Another 40,000 words were taken up with attorneys' arguments and Judge Ingraham's charge to the jury. The jury faced the task of returning verdicts on 161 remaining issues of a 20-count indictment. The first trial resulted in decisions for only about 58 of the 200 issues.

## Final Work On Siren Underway

Installation work on the control box for the storm siren was underway this morning. The control box finally arrived in Pampa. Sheriff Rufe Jordan, Gray County Civil Defense coordinator, reported today, and connections were being made between the police station, where the box is being placed, and the top of the Hughes Building, where the siren was installed last week. The sheriff stated he did not know when the siren would be tested but that residents of Pampa would be notified by The News and other local news sources several days in advance that the alert would only be a test. The siren should be heard for a distance of five miles, according to the manufacturer, and the test will be made to determine how far the siren can be heard in all directions from the Hughes Building, Sheriff Jordan reported. Local law enforcement cars, equipped with police radios, will be spotted around the edge of Pampa and will report if the siren can be heard when the test is conducted. Jordan concluded.

## Robbery At McLean Is Unsolved

Two minors, suspects in a \$100 robbery case at McLean were released in Perryton last night when a witness said they were not the ones who committed the offense. A Phillips 66 station in McLean, owned by Rust Turner, was hit up by two hitch-hikers about 10:50 p.m. Sunday. Only one boy, 15 years old, was attending the station at the time of the robbery, according to McLean Constable J. D. Fish. Deputy Sheriff Buck Haggard, Pampa, and Deputy Sheriff Jimmy Shelton, McLean, took the attendant to Perryton last night to try to identify two boys held there. Fish said the station operator told him that two youths, about 15 and 17, had stopped by the station and inquired about hitch-hiking. After a few minutes, one of the boys raised his shirt revealing a pistol in his belt, and told the operator to open the cash register and hand over the money. After taking the money, more than \$100, the pair put the operator in a rear room and left. Fish told The News that he was at the station within five minutes, but could find no trace of the two. The operator said that he did not hear a car leave. Perryton officers later picked up two boys generally fitting the description, and they were held for identification. The station operator last night, however, said that these were not the robbers. Officers this morning were working on other leads in the case.

## Merchants Urged To Get Tickets

Merchants' complimentary tickets to the Top of Texas Rodeo, Aug. 7-10, should be checked out of the Pampa Chamber of Commerce office as soon as possible, Mrs. Weldon Steward, rodeo office secretary, has announced. More than 1,500 tickets have already been issued. "The response has really been excellent," Mrs. Steward said. She expressed hope that merchants interested would order the complimentary tickets now, in order to avoid "jamming" the office during the last few days. Numbered complimentary tickets are issued to merchants upon request. The merchants then send them to customers or potential customers. The merchants are charged after the rodeo for only the amount of the tickets that were actually used. (Adv.)

FLYING COURTSHIP—Galloping full tilt across the steppes, an energetic man on horseback falls away at his mounting trying to capture the fleeing female in front of him. The rough-riding event is called the "Kiz-Kuumai," or pursuit of the bride, and is one of the stellar attractions at the big equestrian festival in Kirghizia, Central Asia. Photo and caption material from official Soviet source.

### Mainly About People

\* Indicates Paid Advertising

This is Youth Activities Week in the First Methodist Church for all the young people, high school age, of the church. Among the activities planned are a swimming party, a visit to St. Mark's church tonight, and hostess to the young people of the Miami Methodist Church. During the week, ping-pong tables have been made for the youth department. Dinner is served nightly, beginning at 5:30. All the young people of the church are invited to attend and participate in the fellowship.

**Pilots Stage Aerial Display For Scouts**  
VALEY FORGE (UP)—Air Force pilots put on an acrobatic display at speeds of more than 700 miles an hour Tuesday for thousands of boy campers attending the fourth National Boy Scout Jamboree.

The fliers were the Thunderbirds, the crack Air Force four-some of stunters flying F100 Sabrejets.

In a more reflective mood, scouts jammed the highly educational exhibits erected and run by three government agencies: The Soil Conservation, Fish, and Wild Life Services, in cooperation with the conservation departments of Pennsylvania, New Jersey, and New York.

There are three main exhibits showing how nature maintains a balance between soil, water, plants, fish, and animals—the major factors in nature's equation.

Of all displays, these are the most overcrowded as boys line up for hundreds of yards waiting for admission to the half hour shows which run from sun up to sun down.

The exhibits are said to be the biggest single program in conservation education ever undertaken by the federal government. One exhibit using fans and watering cans shows how wind and rain erodes away nature's most valuable asset—soil. Another demonstrates what makes waters hospitable to fish. Conservation men have built three streams about 100 feet long incorporating improvements on nature such as log dams, rock jetties, and other cover which can make streams friendly to game fish.

Other attractions such as flood control exhibits, small plantations to show how trees grow, and forest fire control are all incorporated into the solid conservation education the scouts are receiving at the jamboree.

**Tourists' View Of Aga Barred**

VERSOL Switzerland (UP)—The Aga Khan IV posted guards at the family villa here today to prevent gaudily dressed tourists from gate crashing the solemn lying-in-state ceremonies for his grandfather.

The body of the 79-year-old Aga Khan III, who died last week, was to be flown to Egypt this evening for burial services at Aswan Friday, but it will remain on view this morning and afternoon.

The new Aga Khan said only close friends and bonafide members of the Ismaili Muslim sect would be admitted to see the body.

The gates were open to all Tuesday, but the new security regulations were ordered when shirt-sleeved tourists stopped their cars to join the hundreds of persons clamoring for admittance at the gate.

a patient in St. Anthony's Hospital, Oklahoma City, Okla., where she will undergo major surgery tomorrow morning. Mr. Hindman is with her at the hospital.

For the best steaks in town visit our IGA Food Larder.

Kappa Kappa Iota Sorority will be hostess to the Senior Citizens Club meeting at 2:30 tomorrow afternoon in Lovett Memorial Library. An afternoon of games and visiting has been planned.

Miniature train, 1500 N. Hobart. Sergeant First Class Charles W. Hudgens, whose wife, Dolores, lives at 920 S. Faulkner, recently was graduated from the I Corps Non-Commissioned Officer Academy in Korea. Sergeant Hudgens completed the academy's four-week course which trained him in leadership, map reading and other military subjects. Hudgens is a member of the 28th Transportation Company. He entered the Army in 1948 and completed basic training at Fort Jackson, S.C.

Meredith A. Brooks, Pampa sophomore, earned a place on the honor roll in the home economics school at Tech.

Morris Levine, president of Levine's Stores, was 21 years old the legal papers since William Levine, board chairman, had not reached legal age at the time.

When the depression hit the nation in the early '30s, there were 13 branch stores in addition to the one at Iowa Park. "We didn't liquidate the business during the depression," Morris recalls. "but we just cut back to four stores in Pampa, Amarillo, Lubbock and Iowa Park." Levine's now operates 40 stores.

The Levine brothers from the beginning have maintained a cash-and-carry policy, along with an unconditional guarantee on all their merchandise.

**Youth Is Held In Stabbing**  
DALLAS (UP)—A 19-year-old Negro high school youth was arrested Tuesday night for stabbing three persons after a rock and roll show in Dallas Monday night.

Police said four witnesses said they saw the boy stab three white men—Robert Eugene Plummer, 25, Fort Worth; Orwin Mobley, 27, Gonzales; and Roland Heatl, 21, Dallas.

Another person was stabbed and another bashed in the head with a bottle during the melee outside Dallas' Sportatorium where a troupe of rock and roll performers were playing.

The youth admitted attending the show but denied the stabbing. The fight was the second near-riot at the Sportatorium after such shows in four months.

### White Deer Youth Wins 4-H Award

Floyd Lynch, State 4-H Club leader at Texas A & M, announced recently that Jim Eakin, 18, son of Mrs. Francis Eakin, Route 2, White Deer, has been selected to receive the State Fair Award of Honor for District 1.

He will be honored, along with the winners in the 11 other districts in Texas, at the Honor Award Dinner to be held Friday, Oct. 4 at 7 in the Grand Ballroom of the Adolphus Hotel, Dallas.

One 4-H Club girl and one 4-H Club boy from each extension district and one Future Homemaker and one future Farmer from each area will be honored this year.

Jim and his mother and his extension agent will be guests of the State Fair of Texas.

Jim submitted his 4-H records and was selected on the basis of his participation, activities and contribution to 4-H Club work.

HOLLYWOOD (UP)—Reporters looked forward with interest to meeting Valeria Fabrizi, Miss Italy of the Miss Universe beauty contest. After all, it wasn't every girl whose measurements had been listed as 88-56-98.

When "Miss Texas" has been chosen in August, she will then be entitled to represent Texas in the "Miss America" contest in Atlantic City, N.J.

Fancher said that there had been more sponsors available than girls here.

Tickets, costing \$1 for adults and 50 cents for children, are now available at Roberta's Flowers, Highland Pharmacy, Southwestern Public Service Company, Wilson Drug, Richard Drug or from any Jaycee.

"We hope to have a big turnout, because we think it'll be worth the money," Fancher said.

Girls entered in the event and their sponsors are Grace Barber, Culberson Chevrolet; Carolyn Bogue, Merlies Cafe; Jennie Collins, Berhman's; Amy Jo Durning, Crouch Office Equipment; Wanda Guthrie, Panhandle Insurance Agency; Helen Hickox, Neef and Myers Service Station; Thelma Jo Holt, Miller - Hood Pharmacy; Mary Immon, Empire Southern Gas Company; Mary Kennedy, Sub-Deb Club; Melba McCarter, Louise's Beauty Shop; Jo Ann Miller, Duncan Insurance Agency; Wanda Murray, Pampa Rotary Club; Peggy O'Neal, Modern Beauty Shop; Charlotte Runyon, Hughes Insurance Service; Jerry Sloan, Kit Kat Club; and Johnnie Lee Smith, Bell Angus Farms.

### Boys And Girls Eligibility In Kid Pony Show Unchanged

Information relative to the rules governing the participation of boys and girls in the Top of Texas Kid Pony Show in so far as eligibility in the interscholastic league is concerned was made public today by Bob Andis, president of the Top of Texas Rodeo Association.

In a telephone conversation with Dr. Rhea H. Williams, state athletic director at the University of Texas, rules set out in his letter of Aug. 20, 1954 to the Top of Texas Rodeo Association were confirmed to be still in effect.

That letter is quoted verbatim: "Under Article VIII, Section 8, Amateur Rule of the League, students who were under 15 years of age at the time they participated in rodeo events are not covered. If they were 15 years of age or over at the time of their participation and they accepted any cash or valuable consideration they would be ineligible under the rule mentioned above. To be specific, if a person is 15 years of age or over at the time he participated he is included under Article VIII, Section 8, the Amateur Rule of the League."

This ruling has been confirmed in order to remove any doubt on the part of any one that the amateur standing of their children might be affected.

The winning of trophies such as plaques, cups, belt buckles, etc. is permitted by children of 15 years of age and over, but not the winning of cash prizes.

WASHINGTON (UP)—President Eisenhower is reported considering appointment of steel executive Clarence B. Randall to succeed Secretary of Defense Charles E. Wilson.

The report from informed sources followed widespread speculation that Wilson will retire some time this year—possibly after his defense budget clears Congress.

Wilson, talking to reporters Tuesday night at the Pentagon before a dinner with Eisenhower and several other cabinet members as guests, brushed aside as old stuff reports that he will retire soon. He also laughed off reports that he will stay through the year.

WASHINGTON (UP)—The Secret Service said Tuesday a counterfeit \$100 bill found on a Fort Worth street was made by the same plates as nine bogus bills found on the body of a Fort Worth attorney killed in a plane crash.

The Secret Service said a bill found two weeks ago came from the same source as nine bills found in the clothing of Bob Keller, a young attorney, who was killed last Aug. 3 in a plane crash near Corpus Christi.

It said the \$100 bill was found near the Keller home, but some officers believe it was planted there to direct suspicion.

Thousand of dollars of bogus bills from the same plates were found last summer in a dry creek bed near Bridgeport.

**Waggoner Named Chess Club Director**  
Bill Waggoner was elected director of the Pampa Chess Club in a meeting Tuesday night held in Lovett Memorial Library.

Last year Waggoner served as vice president. Tom Wilson was named as co-director to serve with Waggoner.

Twelve members were present for the meeting.

**Obituaries**  
By UNITED PRESS  
ST. PETERSBURG, Fla., William Beatty, 82, president of the New York Produce Exchange from 1927 to 1930, died Monday of a heart attack.

SHELTER ISLAND, N. Y. Louis Biedermann, 83, former art director of King Feature Syndicate and a onetime newspaper artist and illustrator, died Tuesday.

NEW BRUNSWICK, N. J. Walter C. Kerrigan, 64, assistant to the president of the International Nickel Co. of Canada, Ltd., and its United States subsidiary, the Inter-National Nickel Co. Inc., died Tuesday.

### Whereabouts Of Youth Unknown

SINGAPORE (UP)—American President Lines officials here admitted reluctantly today they did not know the whereabouts of John Fell Stevenson, purser aboard the liner President Polk and son of Adlai Stevenson.

Young Stevenson left the ship at Hong Kong with a group of passengers and flew to Bangkok, en route to a sightseeing tour of Angkor Wat in Cambodia. He was supposed to rejoin the ship here Monday but had not showed up today.

The search for Stevenson was a touched off by a United Press New York query on reaction of the young Harvard student to news his roommate Prince Harim had been named the Aga Khan IV.

**Steel Exec To Succeed Charlie?**  
WASHINGTON (UP)—President Eisenhower is reported considering appointment of steel executive Clarence B. Randall to succeed Secretary of Defense Charles E. Wilson.

The report from informed sources followed widespread speculation that Wilson will retire some time this year—possibly after his defense budget clears Congress.

Wilson, talking to reporters Tuesday night at the Pentagon before a dinner with Eisenhower and several other cabinet members as guests, brushed aside as old stuff reports that he will retire soon. He also laughed off reports that he will stay through the year.

**Bogus Bills Match**  
FORT WORTH (UP)—The Secret Service said Tuesday a counterfeit \$100 bill found on a Fort Worth street was made by the same plates as nine bogus bills found on the body of a Fort Worth attorney killed in a plane crash.

The Secret Service said a bill found two weeks ago came from the same source as nine bills found in the clothing of Bob Keller, a young attorney, who was killed last Aug. 3 in a plane crash near Corpus Christi.

It said the \$100 bill was found near the Keller home, but some officers believe it was planted there to direct suspicion.

Thousand of dollars of bogus bills from the same plates were found last summer in a dry creek bed near Bridgeport.

**Waggoner Named Chess Club Director**  
Bill Waggoner was elected director of the Pampa Chess Club in a meeting Tuesday night held in Lovett Memorial Library.

Last year Waggoner served as vice president. Tom Wilson was named as co-director to serve with Waggoner.

Twelve members were present for the meeting.

### Housing Problem To Be Talked

Clinton Evans, heading a special Pampa Chamber of Commerce subcommittee set up for education and promotion on the current housing situation, announced that he had arranged a schedule of bringing the problem to various civic clubs.

Evans plans to speak at noon tomorrow to the Lions club. Friday he has arranged for Floyd Watson to talk to the Kiwanians.

During the coming week, programs will be presented to the Optimists, Jaycees and Rotary clubs.

The purpose of Evans' group is to try to obtain more rental units or the Franks Manufacturing Company, which is transferring here from Tulsa, Okla.

Over 100 families are expected before Sept. 1.

**Floods Ravage Philippines**  
MANILA (UP)—At least 400 persons were killed and another 1,000 feared dead in one of the worst floods in Philippine history, reports from remote Pangasinan Province said today.

The flash floods triggered by typhoon Wendy swept entire villages away on the northern island of Luzon and some 30,000 persons were reported homeless in an area covering six towns.

It was feared that more than 1,500 persons may have been swept away by the surging waters of the Agno River.

The government was rushing new troops and relief workers to the scene.

The typhoon last was reported sweeping toward the Chinese mainland with 70 mile an hour winds. The Hong Kong Observatory said it would pass 100 miles south of the colony by Thursday.

**Methodist Men Meet Tonight**  
The Methodist men are scheduled to hold an ice cream supper tonight at the First Methodist Church.

Charlie Shelton, 712 N. Sloan, is president of the group. Fellowship Hall in the church will serve as meeting place.

"There is no program planned—just a very informal get-together and ice cream supper," Shelton said.

"We hope that all the men in the church and any guests who would like to come will be with us," he said.

**Man Fined On Check Charge**  
A swindling with worthless check case was handled in County Court yesterday afternoon.

R. L. Robinson, Pampa, pleaded guilty to giving a "hot" check to Calvin's Repair Shop here for \$20.85. It was dated Feb. 23, 1957.

Robinson pleaded guilty and was fined \$1 and costs and sentenced to 60 days in jail.

**DRIZZLE CAUSES FIZZLE**  
MADISON, Wis. (UP)—Rain did what burglars have never done—set off the alarm on the Wisconsin Treasury vault. Miss Helene Blied of the treasurer's office said police who rushed to the vault Saturday found wires going to the alarm were wet and short-circuited.

### Violence Erupts In Colombia

BOGOTA, Colombia (UP)—At least 102 persons were killed last week in a new eruption of violence throughout Colombia, according to reports today.

An official statement reported 80 deaths. Unofficial reports said an additional 22 persons were killed in "outlaw" attacks on the town of Cajamarca in the state of Tolima.

Interior Minister Jose Maria Villarreal recently expressed confidence that an agreement would soon be reached to normalize the situation in the eastern plains where large armed groups still are active.

No details of the various acts of violence were reported.

**Expect Delay In Payments Cut**  
WASHINGTON (UP)—Administration sources said today the government will not immediately lower down payments on federal-backed home loans despite new authority to do so.

The sources said FHA Commissioner Lowell P. Mason will issue a statement later this week refusing to lower down payments at least until next fall because of inflationary dangers.

The administration had been considering an immediate cut as authorized under legislation recently signed by President Eisenhower.

### Hands Should Be Clean For Beauty

By ALICIA HART  
NEA Beauty Editor

Does it surprise you to know that many grown women couldn't pass the kind of hand inspection that teachers used to give children in school? It's quite true.

To test the theory, take a look at the hands of women you meet daily. Many have grubby hands with dirty, broken nails. These are not the hands of women who do heavy, rough labor. They are the hands of average women with all the means to keep their hands not only neat and clean but really pretty.

Some of them use nail polish as a cover-up but really does this hide the fact that there is dirt under the nails.

Pure soap, warm water, a nail brush and hand lotion are the tools these women need to put their hands into condition again. And nail polish, if it isn't beautifully glossy and completely neat, should not be used. It's never a substitute for cleanliness in any case.

Insomnia plagues many women and is no aid to beauty. If you're trouble in sleeping, check Remember that light and noise up on both your sleeping conditions and your sleeping habits.

Both will keep you either awake or in a light, driving sleep which is not refreshing. So adjust the blinds in your bedroom or move the furniture in order to avoid light which may fall across the bed.

Eliminate all the noise that you can, but if your bedroom is exposed to sounds from the street, equip yourself with ear plugs. Sleep with light covering and have your bedroom well aired.

A warm (not hot) bath and a glass of warm milk just before you go to bed are aids in soothing the nerves and sending you off to sleep.

Some women are believers in tub baths and others wouldn't think of taking anything but a shower. Actually, there's something to be said for both methods of getting clean.

If you like, you can take a quick shower in the morning and a leisurely tub bath at night. But whatever you do, be sure that you emerge really clean. It isn't enough to step into a shower and out. You must lather yourself thoroughly. And a dip into a tub isn't enough. Washcloth and soap with good thick suds on the washcloth are absolutely essential.

And, as in most things, avoid the extremes. That is, stay away from very hot baths or icy showers. Have the water pleasantly comfortable. Use a large, thick terry towel to dry off and finish up with a delightfully scented dusting powder.

### Officers Installed By Rebekah Lodge

Mrs. Bernice Ladd was installed as noble grand of the Rebekah Lodge in an impressive installation ceremony held recently in the lodge hall. Mrs. Bonnie Ereman, deputy district president, from Canadian was installing officer.

Other members taking office were Meses. Ola Isbell, vice grand; Hazel Lockhart, recording secretary; Pearl Castka, financial secretary; Bonnye Wharton, treasurer; Ruth Lawley, lodge deputy; June Rowe, team captain; Baby Mastin, Eula Killian, and Etta Crisler, trustees; Mary Dell McNeil, representative; Ruth L. A. Wiley, alternate representative. Other officers were appointed by the noble and vice grand.

After installation, Mrs. Ladd was presented with the president's gavel. Installing officer, Mrs. Ereman, was presented a gift from the lodge.

Russell Hollis, Junior Oddfellow member, announced that there would be an over-night picnic at Lake McClelland on July 21-22. Cars going to the lake will leave the lodge hall at 12:30 and 6:30 on the 21st. Guests are to bring a picnic lunch. A cordial invitation was extended to the Rebekahs from the Oddfellows to attend.

There will be a meeting in the VFW Hall in Perryton on July 22 at 7:30 p.m.

The Rebekah membership now stands at 198 members.

Cake and coffee were served to approximately 50 guests.

### Miss Cochran Has Birthday Party

(Special to The News)

LEFORS — Miss Vickie Jo Cochran was honored on her fourth birthday on July 11 by her mother, Mrs. Joe Cochran in their home, south of Lefors.

As the guests arrived, they were presented with crepe-paper party hats trimmed in silver, after which they played in the yard until all the guests had arrived.

Birthday cake, punch, and ice cream were served. Candy mints, bubble-gum and balloons were given as plate favors.

The honoree opened her gifts under the shade trees assisted by her mother and sister, Gayle Henson.

Guests were Chrys Bristler, Donny Jones, Freda Dale, Joyce, Martha, and Doris Carlton, John, Tavia, and Jimmy Pinkerton, Charlotte Qualline, Jackie and Eddie Rose, Diane Hughes, Mickey and Randy Reeves, Richard and Morris Roberts.

Adult-guests were Meses. Daniel Rose, Aubrey Carlton, Walter Hughes, F. C. Jones, Wayne Bristler, Letha Pinkerton, and Charles Roberts.

### Miss Jo Ann Herring Becomes Bride Of Dan Stallings In June Ceremony

Miss Jo Ann Herring, daughter of Mr. and Mrs. M. R. Herring, 542 Gilbert, Bunavista, became the bride of Dan Stallings, son of Mr. and Mrs. Frank L. Stallings, 211 Cook, in a double-ring ceremony in the Bauvista Baptist Church. The Rev. Samuel B. Ogan, pastor, performed the ceremony for the couple at 3 o'clock on June 5.

The altar was centered with an arch entwined with greenery and flanked by tapered candelabra and baskets of white gladioli. Vincent Johnson, Pampa, cousin of the bridegroom, lighted the candles.

Miss Wanda Floyd, pianist, played the traditional wedding marches and accompanied Miss Connie Hood, cousin of the bride, who sang "Wither Thou Goest."

Given in marriage by her father, the bride was attired in a ballerina-length dress of white embroidered satin. Her fingertip veil of white tulle illusion fell from a white cap trimmed with seed pearls. She carried a white Bible topped with an arrangement of white Beal roses.

### Women Of Moose Install Officers

Mrs. Vena Riley was installed as senior regent of Women of the Moose for the coming year in an open ceremony conducted by Earl Miller, past governor of Moose Lodge, as installing officer. He was assisted by Mrs. Nadine Morse as installing guide.

Other officers installed were Meses. Dovey Toler, junior regent; Charles Webb, junior graduate regent; J. A. Marshall chairman; W. C. Brown, recorder; Clinton Reed, treasurer; M. W. Griggs, guide; Alene McGowan, assistant guide; Roy Hall, pianist; B. O. Lard, Argus; Sam Williams, sentinel.

A buffet dinner-dance was given following the installation of officers. The serving table was centered with yellow chrysanthemums and flanked with white tapers in crystal holders.

The next meeting for the group will be August 17 at 8 p.m. in the Lodge Hall.

### Ladies Golf Ass'n Begins Qualifying

The Ladies Golf Association will have its monthly luncheon at 12:30 Thursday in the Pampa Country Club. Golfers may tee-off anytime after 8 a.m. Those members who would like to swim before luncheon may do so after 9 a.m. Bridge will be played in the afternoon.

Qualifying for tournament will begin July 18 and extend to July 25, at which time match play will begin.

Members present were Meses. Kenneth Cudd, Verbon Smith, Lester Schwalk, V. O. Olmstead, Calvin Ledges, Kenneth Roller, Harry Reimer, Earl McGarraugh, Douglas Hawk, James Henry, Leonard Barlow, Julius Carver, Cullen Neely, Billie Sanders.

### Mrs. Deihl Gives Curtain Lesson

(Special to The News)

LEFORS — Mrs. B. J. Deihl demonstrated the making of cafe curtains for members of the Lefors Home Demonstration Club at its regular meeting on July 12 in the civic center.

"A saucer and a yard-stick are two handy tools, when making cafe-style curtains for the home," Mrs. Deihl said. She folded the material at the top five inches for the facing, used the saucer to make accurate scallops, and the rule to measure the exact space between the scallops, marked with a pencil as she went, and then stitched on the marked line. She then turned the facing and tacked down loops to go over the curtain rods.

Mrs. Deihl explained that any texture of material may be used. Texture determines how well a fabric drapes, whether it falls in graceful folds or is stiff and awkward-looking.

She emphasized the selecting of curtain fabric with the following properties in mind: rotortastness, laundability, shrinkage, resistance to fire, soil, and draping qualities.

Mrs. J. D. Smith presided over the business meeting with the reading of minutes and roll call by Mrs. Charles Roberts.

Club members were asked to make a report in the near future on what they have accomplished in the field of homemaking for the past six months.

Members present were Meses. J.

### Separates Made For Each Other

By GAILE DUGAS  
NEA Women's Editor

NEW YORK (NEA) — Many women are not very sure of themselves when it comes to assembling separates. They like them, to be sure. They realize that they can stretch a wardrobe through mixing and matching.

But when the time arrives to mix or match, the results can be fairly disastrous. That's how it happens that a ruffled nylon blouse emerges in company with a wildly flowered circular cotton skirt.

These two should never even speak, let alone keep company. Or, even if top and skirt somehow happen to be tailored, the top will prove to be a violent pink and the skirt green, yellow or turquoise blue.

For the woman who makes such mistakes (and we all tend to, at times), the best solution lies in buying separates that were made for each other.

We show here just such separates. Evening blouse (left) is black lace in spun orlon, is worn with flared white skirt of orlon. Blouse plunges at back, has covered-up look at front.

All-white look is lovely (right) in blouse-and-skirt ensemble of matelasse orlon, Dacron and rayon. Top-over style blouse is loosely shaped to the waist and buttoned in back. Skirt is curved at the front and given bow 1 1/2 m. Both ensembles are by the French designer, Givenchy.

D. Smithes, L. D. Rider, H. L. Braly, B. J. Deihl and Charles Roberts.

### Salad Social Given By DMF Auxiliary

The DMF auxiliary of Cities Service Gas met for a salad supper in the back-yard of Mrs. Homer Kessinger's home with Meses. Clyde Martin and Leon Brown as co-hostesses.

Red, white, and blue were used in the table's decorations with a centerpiece of flags. Favors were miniature American flags on numbered gum-grips. A number was drawn for the door-prize, which was won by Mrs. Leon Brown.

During the business meeting, it was decided to have a joint family dinner with the Men's DMF in October, the date of which will be announced later.

Mrs. L. C. Wassell was appointed to send cards to members, who are ill.

Games were played with prizes being won by Meses. Wassell, Bob Brandon, and Ernie Measnek.

Others attending were Meses. Ray Sutton, Art Kahler, Walter Murphy, Travis Patterson, Sam Goodan, Homer Scherer, Art Crow, C. D. Anderson, R. E. Paxson and Ray Cales.

The next meeting will be August 20 at 7:30 at the City Park with Meses. Paxson, Anderson, and Hupp Clark as hostesses.

### Miss Jo Ann Herring Becomes Bride Of Dan Stallings In June Ceremony

Miss Jo Ann Herring, daughter of Mr. and Mrs. M. R. Herring, 542 Gilbert, Buna Vista, became the bride of Dan Stallings, son of Mr. and Mrs. Frank L. Stallings, 211 Cook, in a double-ring ceremony in the Buna Vista Baptist Church. The Rev. Samuel B. Ogan, pastor, performed the ceremony for the couple at 3 o'clock on June 5.

The altar was centered with an arch entwined with greenery and flanked by tapered candelabra and baskets of white gladioli. Vincent Johnson, Pampa, cousin of the bridegroom, lighted the candles.

Miss Wanda Floyd, pianist, played the traditional wedding marches and accompanied Miss Connie Hood, cousin of the bride, who sang "Wither Thou Goest."

Given in marriage by her father, the bride was attired in a ballerina-length dress of white embroidered satin. Her fingertip veil of white tulle illusion fell from a white cap trimmed with seed pearls. She carried a white Bible topped with an arrangement of white Beal roses.

ATTENDANTS

Miss Patsy Walker, Fritch, was maid of honor, wearing a dress of blue organza. Her arm bouquet was of white gladiettes and shatter mums.

Meil Johnson, Pampa, served as best man. Ushers were Bob Collman and Jimmy Dees.

Mrs. Herring, mother of the bride, chose a dress of mauve silk with black accessories. Mrs. Stallings, mother of the bridegroom, wore a gray linen suit with white accessories. Their shoulder corsages were of white carnations.

RECEPTION

The reception was held in the Fellowship Hall, following the ceremony. The bride's table was covered with a white linen cloth and centered with the bride's bouquet. The four-tiered wedding cake was topped with a miniature bride and groom. Reception assistants were Misses Sue Forrester, Paye Bonfield, and Linda Kay Brumfield.

Following a wedding trip to El Paso, Carlsbad, New Mexico and Mexico, the couple are now living in Stinnett. Mr. Stallings is band director at the Stinnett High School. Both plan to attend West Texas State College, Canyon, this fall, where he will work on his master's degree and teach in the Canyon High School. Mrs. Stallings will continue work toward a master's degree in music.

Mrs. Stallings is a member of the Amarillo Symphony Orchestra and a member of Tau Beta Sigma National Band Sorority. The bridegroom is affiliated with Kappa Kappa Psi, national band fraternity.

### Women Of Moose Install Officers

Mrs. Vena Riley was installed as senior regent of Women of the Moose for the coming year in an open ceremony conducted by Earl Miller, past governor of Moose Lodge, as installing officer. He was assisted by Mrs. Nadine Morse as installing guide.

Other officers installed were Mmes. Dovey Toier, junior regent; Charles Webb, junior graduate regent; J. A. Marshall chaplain; W. C. Brown, recorder; Clifford Reed, treasurer; M. W. Griggs, guide; Alene McShan, assistant guide; Roy Hill, plants; B. O. Lard, Argus; Sam Williams, sentinel.

A buffet dinner-dance was given following the installation of officers. The serving table was centered with yellow chrysanthemums and flanked with white tapers in crystal holders.

The next meeting for the group will be August 17 at 8 p.m. in the Lodge Hall.

### Priscilla HD Club Studies First Aid

PERRYTON — The Priscilla Home Demonstration Club met last week in the home of Mrs. Bud Felix with Mrs. Melvin McGarraugh as co-hostess. Roll call was answered with "What I Should Do If My Child Should Take Poison." Several suggestions were offered by the float committee regarding its entry in the North Plains Fair parade in August.

Mrs. McGarraugh spoke on "First Aid For Poisoned Children." Mrs. Earl McGarraugh's topic was, "Are You Overdosing with Antibiotics?"

Eight members of the Junior Miss 4-H Club modeled the dresses they had made. Models were Misses Carolyn Lolla, Judith Reimer, Diana Cudd, Jeannette Felix, Ruby Briscoe, and Janis Schwalk.

Refreshments were served during the social hour.

Members present were Mmes. Kenneth Cudd, Verbon Smith, Lester Schwalk, V. O. Olmstead, Calvin Ledges, Kenneth Roller, Harry Reimer, Earl McGarraugh, Douglas Hawk, James Henry, Leonard Barlow, Julius Carver, Cullen Neely, Billie Sanders.

### Ladies Golf Ass'n Begins Qualifying

The Ladies Golf Association will have its monthly luncheon at 12:30 Thursday in the Pampa Country Club. Golfers may tee-off anytime after 8 a.m. Those members who would like to swim before luncheon may do so after 9 a.m. Bridge will be played in the afternoon.

Qualifying for tournament will begin July 18 and extend to July 25, at which time match play will begin.

Ask anyone — you look lovelier when you're slender

**REDUCE AT HOME WITH THE STAUFFER HOME REDUCING PLAN**

For a lovelier, more youthful looking figure you must have correct weight, proper measurements and postural balance. The STAUFFER HOME REDUCING PLAN of effortless exercise and caloric reduction is designed to give you all three. It trims inches from your hips, tummy, thighs, legs and arms while you relax at home on the famous Posture Rest®.

### Mrs. Deihl Gives Curtain Lesson

(Special To The News)

LEFORS — Mrs. B. J. Deihl demonstrated the making of cafe curtains for members of the Lefors Home Demonstration Club at its regular meeting on July 12 in the civic center.

"A saucer and a yard-stick are two handy tools, when making cafe-style curtains for the home," Mrs. Deihl said. She folded the material at the top five inches for the facing, used the saucer to make accurate scallops, and the rule to measure the exact space between the scallops, marked with a pencil as she went, and then stitched on the marked line. She then turned the facing and tacked down loops to go over the curtain rods.

Mrs. Deihl explained that any texture of material may be used. Texture determines how well a fabric drapes, whether it falls in graceful folds or is stiff and awkward-looking.

She emphasized the selecting of curtain fabric with the following properties in mind: colorfastness, launderability, shrinkage, resistance to fire, soil, and draping qualities.

Mrs. J. D. Smith presided over the business meeting with the reading of minutes and roll call by Mrs. Charles Roberts.

Club members were asked to make a report in the near future on what they have accomplished in the field of homemaking for the past six months.

Members present were Mmes. J.

### Separates Made For Each Other

By GAILE DUGAS  
NEA Women's Editor

NEW YORK (NEA) — Many women are not very sure of themselves when it comes to assembling separates. They like them, to be sure. They realize that they can stretch a wardrobe through mixing and matching.

But when the time arrives to mix or match, the results can be fairly disastrous. That's how it happens that a ruffled nylon blouse emerges in company with a wildly flowered circular cotton skirt.

These two should never even speak, let alone keep company. Or, even if top and skirt somehow happen to be tailored, the top will prove to be a violent pink and the skirt green, yellow or turquoise blue.

For the woman who makes such mistakes (and we all tend to, at times), the best solution lies in buying separates that were made for each other.

We show here just such separates. Evening blouse (left) is black lace in spun orlon, is worn with flared white skirt of orlon. Blouse plunges at back, has covered-up look at front.

All-white look is lovely (right) in blouse-and-skirt ensemble of matelasse orlon, Dacron and rayon. Top-over style blouse is loosely shaped to the waist and buttoned in back. Skirt is curved at the front and given bow trim. Both ensembles are by the French designer, Givenchy.

### Salad Social Given By DMF Auxiliary

The DMF auxiliary of Cities Service Gas met for a salad supper in the back-yard of Mrs. Homer Kessinger's home with Mmes. Clyde Martin and Leon Brown as co-hostesses.

Red, white, and blue were used in the table's decorations with a centerpiece of flags. Favors were miniature American flags on numbered gum-gumps. A number was drawn for the door-prize, which was won by Mrs. Leon Brown.

During the business meeting, it was decided to have a joint family dinner with the Men's DMF in October, the date of which will be announced later.

Mrs. L. C. Wassell was appointed to send cards to members, who are ill.

Games were played with prizes being won by Mmes. Wassell, Bob Brandon, and Ernie Menseak.

Others attending were Mmes. Ray Sutton, Art Kahler, Walter Murphy, Travis Patterson, Sam Goodan, Homer Scherer, Art Crow, C. D. Anderson, R. E. Paxson and Ray Calas.

The next meeting will be August 20 at 7:30 at the City Park with Mmes. Paxson, Anderson, and Hupp Clark as hostesses.

### Mrs. Phelps Has Lampliter Club

(Special To The News)

PERRYTON — Mrs. Cliff Phelps was hostess to the Lampliter Bridge Club recently in her home. A dessert was served from tables decorated with red carnations and pink candles in wrought-iron holders.

Guests for the evening were Mmes. G. E. Shackelford, G. K. Rupprecht, Fred Osborne, Jimmie Palmer, and Mrs. Clyde Ragsdale. Members present were Mmes. Elmo Bennett, Wayne Kisker, Frank Shaffer, Bill Walker, Chris Kellin, Edwig Garland, Letha Lawrence, and the hostess.

Mrs. Ragsdale held high score for guests and Mrs. Kellin was high for club members.

#### Sen. Johnson Is Working For 'Reason' On Bill

By RAYMOND LAHR  
United Press Staff Correspondent

WASHINGTON (UP) — Senate Democratic Leader Lyndon B. Johnson, a Texan, is working quietly but constantly to maintain what he calls "a climate of reason" in the Senate civil rights debate.

As a result it now appears possible, even probable, an accommodation can be worked out to pass a bill after much debate but without a last-ditch filibuster fight by Southern Democrats.

The picture has changed in the past week and could do so again, particularly if the administration fights to keep the bill substantially as it passed the House. Meanwhile, however, there is much talk of compromise.

It is noted Johnson himself is working for any compromise formula. But his public statements imply he foresees eventually passage of a compromise bill even if he has made no predictions.

"When this debate began, there was a widespread belief that the Senate was shackled and handcuffed," he told the Senate Monday. "It was thought that we could do nothing but accept the bill without crossing a 't' or dotting an 'i' or reject it altogether."

He has now talked his fellow southerners into showing more restraint than they have on the civil rights issue in past years. They agreed to allow a vote today on a motion to formally consider the bill — a motion which has rarely reached a vote in past civil rights tests in the Senate.

Some southerners read the 1956 election returns — with the evidence of a Negro vote shift toward the GOP — to mean civil rights legislation could not longer be stopped in the Senate. They now are reported split in two camps — those who want to fight until they drop and those who want to compromise lest they get a tougher bill forced through by means of the "gag" rule.

**DISPIRITED DISCUSSION**  
LOMA LINDA, Calif. (UP) — Mrs. David Conly, of Winnipeg, Canada, told a meeting of Scientific Studies for the Prevention of Alcoholism here Monday that pink tea would be a suitable replacement for martinis at cocktail parties.

WASHINGTON — Rep. Chet Holifield (D-Calif.) on the role of the federal government in civil defense planning:

"In effect, the high officials of our government are saving themselves and abandoning the people."

#### HIGH AND DRY

Pampa Marine reservists participate in dry land practice prior to launching the rubber boat for practical application of rubber boat handling techniques. Front to back are Pfc. Bennie T. Hillis, 425 Rider, Pvt. Bob M. Holmes, 1340 Christine, and Pfc. Jim Kirkham, 416 Carr, watching the instructor as he demonstrates the proper method of holding the paddle. Other Pampa reservists await their turn to go through the drill. The 88th Special Infantry Company, Marine Corps Reserve, members have been undergoing two weeks of special amphibious training with the Landing Force Training Unit, Coronado, Calif. (Official USMC Photo)

#### France Has 'Rights' Problem Now, Too!

By CHARLES M. McCANN  
United Press Staff Correspondent

United Press correspondents around the world look ahead at the news that will make the headlines.

**Civil Rights**  
France is fighting a civil rights battle of its own. It could cause the fall of the government this week. Premier Maurice Bourges-Maunoury is trying to force through the National Assembly a bill to give the police special powers to crack down on Algerian rebels who reside in France. Members don't like it. They say a tough government could use it against Frenchmen as well as Algerians. Debate on the measure starts Tuesday. A confidence vote on it is due Friday. If Bourges-Maunoury loses it, he probably will resign.

**Khrushchy**  
It looks as if Soviet Communist chief Nikita S. Khrushchyev is being censored. He's making a lot of free-swinging attacks on foreign personalities during his whistle-stop tour of Czechoslovakia. For instance, the one accusing President Eisenhower of "stupidity" in talking about a "clean" H-bomb. That one was broadcast by the Prague Radio. It wasn't published in Czech newspapers. A Czech official said the broadcast was a "mistake." Now Khrushchyev's saltier off-the-cuff comments are being cleaned up before they are broadcast or published in the papers in summary form. It is reported that the reason Western correspondents were barred from the tour was because of fear that his cracks might cause trouble.

**Draft**  
Don't be surprised if a retired general, admiral or foreign service officer is "drafted" to succeed

BUFFALO, N.Y. (UP) — Traffic violators in Buffalo reached into their pockets for \$386,892.95 in fines in 1956, easily topping the previous high.

Mr. and Mrs. G. W. Faulkner, 205 1/2 N. Nelson, are the parents of a girl born at 2:13 p.m. Tuesday, weighing 6 lb. 6 oz.

Mr. and Mrs. Richard Russ, 1021

#### Underground

Insiders in Dublin expect the Sinn Fein Party to go underground with the outlawed Irish Republican Army as the result of Prime Minister Eamon De Valera's drive against terrorism. About 50 leaders of Sinn Fein, which is the political arm of the IRA, have been interned on De Valera's orders. The party can't announce who will take their places, so an underground headquarters is expected.

#### Speed-Up

Despite a security blackout, it can be disclosed that plans to construct 11 new North Atlantic Treaty Organization bases in Turkey have been speeded up as the result of the passage of Soviet Russian warships into the Mediterranean from the Black Sea. Work has been started hastily on several bases. Sites are secret. But it is reported that they've been chosen with an eye to Russia's Baku oil fields, close to the Turkish border and the naval base at Sebastopol across the Black Sea.

#### Air Safety

Look for the air safety plan tested on Washington-New York-Chicago flights to be extended to other parts of the country soon. Planes flying above 9,500 feet in the triangle—the world's most congested flight territory—must operate under instrument flight rules and in federally-designated lanes to avoid collisions. Crews report a noticeable decline in the number of "near misses" in the triangle.

**only ONE**

of the low-priced light-duty trucks gives you all these:

- 1- The same engine power as a 5-ton truck —
- 2- Fast-ratio cruising axle for an overdrive's high gas mileage and road pace —
- 3- Hydra-matic Drive\* — famous for saving work, time, gasoline and repair costs —
- 4- Road Shock Damper\*\* for smooth riding and positive control even on "washboard" roads

**PLUS** — Boulevard styling, two-tone upholstery, foam-rubber cushions, luxurious cab, recirculating ball-bearing steering.

### BUT HAVE YOU CHECKED THE FOUNDATION LATELY?

## New PGA Champion Expected Due To Injured Jackie Burke

By LEO H. PETERSEN  
United Press Sports Editor  
DAYTON, Ohio (UP)—The nation's top professional golfers teed off in the first round of match play in the PGA golf championship today, and the best bet in the field was that a new champion would be crowned around sundown Sunday.

Defending titleholder Jackie Burke, suffering from a right wrist injury which forced him to withdraw after two rounds in the National Open at Toledo last month, appeared to have little chance of winning it again.

"I just can't hit the ball," Burke explained. "But I'm going to give it a try."

His fellow pros who know him best said that Burke was playing only because he thought it was the thing for a defending champion to do.

Ford Rated Favorite  
However, even if he was at the top of his game, Burke would only be rated second to rugged Doug Ford, who won the title in 1955 and who is the leading money winner on the 1957 tournament trail with earnings of \$37,948.

Ford, noted as a match player, was a 5-1 choice in the field of 128 teeing off for the first round play. There will be two 18-hole sudden death matches on Thursday and Friday, cutting down the field to four for the 36-hole semifinals on Saturday. Those winners will meet in the 36-hole title round on Sunday.

The hilly, 6,773 yard Miami Valley Golf Club, with a par of 36-35, should be just what the golfing doctors would order for

## Rebels Meet Monterrey Here In First Bi-District Game Tomorrow

The Pampa Rebels will meet the Monterrey Legion team tomorrow night in Oiler Park at 8:15 for the first game of the bi-district playoff series.

The bi-district championship will be decided in two out of three games, with the second game moving to Hodges Park in Lubbock Friday night at 8:15. If a third game is necessary, the Rebels will remain in Lubbock for the final tilt Saturday night.

Monterrey boasts a season record of 17 wins against no losses, 11 of these wins being district games. The Rebels have 16 wins against three losses for the season, with one of the losses being in district play. Monterrey scored one of the non-district losses against Pampa in a recent game played in Lubbock, with Borger and Elk City scoring the other two victories.

Arlan Flake will start on the mound for Monterrey boasting a perfect record with seven of the Monterrey wins to his credit. Gary Heiskell will hurl the opener for Pampa, credited with only one loss for the season. Heiskell pitched a four hit game against Amarillo Chiefs in the victory that clinched the district championship for Pampa.

The starting lineup for Pampa will be Bill Brown, ss; David Marley, cf; Dale Lake, 2b; Ray Stephenson, 1b; Larry Cruise, if; Robert Murray, 3b; Mike Conway, c; Terry Haralson or Gary Wilhelm, rf; and Gary Heiskell, p.

For Monterrey will be Bill Adams, cf; Jim Harris, ss; Mike McElrath, 3b; Bill Boyd, 1b; Arlan Flake, p; Jerry Graham, if; Ronnie Arrington, rf; Rucker Barrett, c; and Dennis Willett, 2b.

The Pampa Rebels are managed and coached by Deck Woldt, assisted by Joe Fortin. Dale Grimes coaches the Monterrey team.

## IL Race In 3-Way Tie

By UNITED PRESS  
No one seems to know who's going where in the International League.

The race for the pennant, which only a few weeks ago looked like a run-away for the Richmond Virginians, today is in a three-way tie with the last-place club only 11 lengths behind the leaders.

Toronto edged Buffalo, 3-2, Tuesday night to move into a first place tie with the Bisons and Richmond. The Virginians, meanwhile, blew a two-run ninth inning lead to Miami, 5-4. In other games, Montreal moved out of the cellar with a 4-1 victory over Rochester and Havana slipped past Columbus, 4-3.

Jim Pearce won his 10th game for the Leafs although he needed help from Bobby Tiefenauer. Rocky Nelson homered for the winners as they gained their fourth straight win. The Bisons have now lost seven in a row.

Sixth-place Miami erupted for three runs in its last at-bat to remain half a game behind Havana and move to within four and a half games of the first division. Tom Qualters won the game in relief with the loss going to Jim Post.

Joe Hatten, who started for Havana, survived two round-trippers by Johnny Powers for his third win of the season, all over Columbus. Ron Blackburn took the defeat.

Bill Harris yielded eight hits in leading Montreal to its seventh win in eight starts. Bobby Del Greco supplied the power with a two-run homer.

## Hoad To Play Segura

NEW YORK (UP)—Lew Hoad, the Wimbledon champion who got \$125,000 to turn professional, tries his powerful game against Pancho Segura, the pigeon-toed South American with the two-handed forehand, today in the fourth round of the \$10,000 Tournament of Champions at Forest Hills.

Hoad, who beat fellow Aussie Frank Sedgman in his pro debut last Sunday, needs a victory today to insure meeting Pancho Gonzales, the world's best tennis player, in the singles windup on Sunday.

Gonzales scored his second win in as many starts in the current tourney by beating Rosewall, 6-2, 8-6, 6-4. Tuesday while Hoad was limiting his play to a doubles match, Gonzales plays in doubles today.

Segura notched a mild upset when he beat Tony Trabert of Los Angeles, 6-4, 7-5, 9-11, 4-6, 7-5, in the other singles test. Sedgman plays Trabert in today's other singles match.

In the doubles action, boss Jack Kramer and Hoad teamed up to defeat Segura and Dinny Falls, 9-7, 11-9, while Sedgman and Trabert turned back Gonzales and Rosewall, 6-4, 12-14, 6-4.

## Price Expects Baseball Move

WASHINGTON (UP)—Rep. Melvin Price (D-Ill.) predicted today that major league baseball will expand to Los Angeles, San Francisco, Miami and Houston in 5 to 10 years.

Price, a one-time newspaper sports editor, came up with his forecast in testimony prepared for delivery at a House anti-trust subcommittee hearing on professional sports legislation.

Price said many growing cities soon will demand major league baseball and this could result in three eight-team major leagues, or two leagues of 10 or 12 teams each.

"I can foresee the inclusion of Los Angeles, San Francisco, Miami and Houston in a plan to enlarge each of the two major leagues to 10-club circuits," he said.

"This is my own personal idea," Price said, "but one I predict will materialize in the next 5 or 10 years."

He added it "cannot be thought seriously" that Minneapolis and other cities "will much longer remain without any major league clubs."

## Phillips Downs Pan American

In Industrial League softball action last night Phillips downed Pan American, 6-5, in a game played in Bowers Park.

Shew hurled the winner for Phillips with McKinney catching.

The game, tied in the seventh, went into eight inning overtime before Phillips edged out the win.

No other Industrial League games were reported.

## Standings

National League				Thursday's Games			
Team	W	L	Pct.	Team	W	L	Pct.
Philadelphia	48	36	.571	Baltimore at Chicago

New York at Detroit (night)—Turley (4-2) vs Bunning (11-2).			
Washington at Cleveland (night)—Stobbs (2-13) vs Garcia (4-5).			

## Score Returns To Baseball

CLEVELAND (UP)—Lager Herb Score, who hasn't touched a baseball in more than two months, finally got the green light to begin working out with Cleveland Thursday and the young fast-baller says he'll be out there with bells on.

Dr. Charles Thomas, the eye specialist who has been threatening Score since he was felled by a batted ball May 7, told the 24-year-old left-hander he can start throwing Thursday.

But Thomas pointed out Score will not be able to return to the mound for another month or six weeks.

## Bowling Standings

Team No. 3, Moxley, won 3.
Team No. 10, Nichols, won 1.
Team No. 8, Jeffries, won 2.
Team No. 9, Morse, won 2.
Team No. 4, Jennings, won 4.
Team No. 1, forfeit.
Team No. 2, McClure, won 3.
Team No. 7, Johnson, won 1.
Team No. 5, Harrison, won 0.

## One Game Separates Top 4 Clubs In Pennant Race

By MILTON RICHMAN  
United Press Sports Writer

The Brooklyn Dodgers, are sticking pins in the World Series balloons of all the contenders today and threatening to take over the National League pennant party themselves.

Walt Alton's crew has been busy killing off the contenders since the All-Star break. The Dodgers resumed play by defeating Cincinnati twice, then they swept a two-game series with Milwaukee.

And Tuesday night they toppled the high-riding Cardinals, 7-3, for their fifth victory in a row as they climbed within a game of the lead.

Duke Snider has been the Dodgers' chief hatchman with four home runs in the last five games. He blasted his 20th of the season with one on in the fifth off Lindy McDaniel to highlight a four-run rally that helped reliever Carl Erskine to his third victory. Gil Hodges also homered for Brooklyn.

The Yankees increased their American League lead to four games with a 10-4 triumph over the Tigers in 10 innings; Baltimore licked the White Sox, 3-1; Boston edged Kansas City, 4-3, and Cleveland defeated Washington, 9-3.

Home runs by Hank Aaron and Del Crandall helped Warren Spahn gain his 10th victory at the expense of the Phillies although the veteran southpaw also needed a brilliant ninth-inning catch by right fielder Andy Patko with the bases full. Harvey Haddix was the loser.

Ruben Gomez of the Giants set down the Redlegs on six hits as Daryl Spencer hit a pair of homers for New York and Eddie Bressoud added another. Hal Jeffcoat started for the Redlegs and gave up eight of the Giants' 13 hits. Willie Mays collected four of them.

Frank Thomas fattened up on

## Baseball Strategist Leaves Off Stars In Selecting Dream Team

By OSCAR FRALEY  
United Press Sports Writer

DAYTON, Ohio (UP)—Eddie Sawyer, who led the last band of Philadelphia "Whiz Kids" to the National League pennant in 1950, cast a jaundiced eye at the acknowledged super-stars of baseball today and named a dream team which is loaded with surprises.

You can have your "name" stars such as Ted Williams, Hank Aaron and Yogi Berra, Sawyer, one of baseball's smartest strategists as he led the Phillies to their first flag in 33 years, puts the premium on team work as well as talent.

He even takes Willie Mays off the Giants over Mickey Mantle of the Yankees as a centerfielder, calling the "say hey" kid "by far the best centerfielder in baseball."

The Dream Team

Sawyer's all-star team—"the one I'd like to manage above all others I can think of today"—includes:

Catcher, Hal Smith, St. Louis Cardinals; First base, Stan Musial, Cardinals; Second base, Johnny Temple, Cincinnati Reds; Third base, Ken Boyer, Cardinals; Shortstop, Johnny Logan, Milwaukee; Left field, Mickey Mangie, Yankees; Centerfield, Willie Mays, Giants; Right field, Al Kaline, Detroit; Pitcher, left-hander, Billy Pierce, White Sox; right-hander, Jack Sanford, Phillies.

"And to manage that team, I'll take Walter Alton," Sawyer asserted. "He does the job the way it should be done."

"I still don't like left field this way, even though I've given it to Mantle in a tossup over Aaron," says Sawyer, who now is vice president in charge of sales promotion for the Plymouth Golf Ball Co. exclusive manufacturers of the official PGA ball and Eddie's reason for being in Dayton where the PGA tournament opened today.

Taking his selections one by one, Sawyer explained them this way:

"Smith is the best catcher around, in my opinion, and along with Musial is one of the main reasons which make the Cardinals click. As for Musial, he's the best player I ever saw."

"Sawyer describes Temple as 'an Eddie Stanky with ability,' and the best second baseman of the past 15 years."

"Boyer has everything," he insists, "and I'd play him at third and nowhere else. Logan makes many reasonable plays that the Cardinals click. As for Musial, he's the best player I ever saw."

"As for the pitchers, Sawyer makes his selections on the basis of 'the ones I'd pick if I had to have one Big game.'"

## Mantle Or Mays? Foes Would Like Pick

By HARRY GRAYSON  
NEA Sports Editor

NEW YORK (NEA)—When Duke Snider decided (a) he didn't like left-handed pitchers and (b) baseball and the customers even less, he considerably narrowed down what once was a hot, three-way argument.

That would be, of course, who is the best all-around ballplayer playing centerfield—Mickey Mantle, Willie Mays or Snider? Now the debate is down to the Mick and Willie and you can't go into a beer saloon without having it crop up.

Paul Richards' placid pan screwed into a tired scowl when his opinion was asked. The Baltimore manager who sees to much of Mays in the spring is only thankful that both are not in the American League.

"No one ever hit the ball farther than Mantle," drawled Richards. "Mays is worth a couple of runs a game just because he hangs around. You're asking me to compare them. What you're really asking me to do is get dragged into a barroom argument. Anyone who tells you he likes one better than the other is just

pulling off."

"With Mantle and Mays, you take whichever one you can get, then get down on your knees and thank everybody responsible."

Mays batted .345 in 1954, drove in 127 runs in '55 and stole 40 bases last season.

Mantle did put them all together last year in winning the American League's Triple Crown, batting .353 with 52 home runs and 139 runs-batted-in.

"And the records don't show how many extra bases Mantle and Mays take during a season," added Richards. "The book doesn't show the doubles they catch for big outs, the triples they cut to singles."

"Or how many big innings the Yankees had because the pitcher walked Mantle in self defense and wound up getting killed by what followed."

"There's a bulge Mantle has had playing with a consistently fine club."

"Mantle perhaps is a little more dangerous than Mays at bat, has the advantage of being a matchless switch-hitter, which gives him the best of it in every park."

"Certain pitchers get out the best hitters at times, but not for long. It goes without saying that neither Mantle nor Mays has a betting weakness."

Mays has swiped 23 bases this season. Mantle has stolen seven in eight attempts.

"Mantle is the faster, but Mays is the superior baserunner only because he is sound physically," pointed out Richards. "Mantle is prone to injury, has to protect his legs. Indeed, the fact that he is perfectly sound while Mantle is not, perhaps is the only reason why Willie could be given a margin."

"Mays also could be given a slight edge in the field, although Mantle will make nearly as many great plays. There isn't much between them in throwing. No one does it better when it comes to length and accuracy."

Mantle and Mays run a dead heat even in age. The Say-Hey Kid at 28 is only five months older.

"I wish I had my choice," concluded Paul Richards.

"That would be once when I couldn't make a mistake."

## Mgr. Says Robinson's Race Is Cause Of Rival Beanballs

NEW YORK (UP)—Frank Robinson, whose "beaning" Tuesday night touched off a blast by Manager Birdie Tebbetts of the Cincinnati Redlegs, was discharged from Harkness Pavilion today when X-rays showed no fracture.

Tebbetts charged that the "only reason" National League pitchers are throwing at Robinson, his No. 1 slugger, "is because he is a Negro."

Dr. Anthony Palmero, physician for the New York Giants, said today "Frank ate a hearty breakfast and is ready to play."

Pick 2nd pgh: Robinson suffered, etc.

Robinson suffered a concussion

Tuesday night when struck by a pitch thrown by Ruben Gomez of the New York Giants in the eighth inning of a game at the Polo Grounds.

"I hate to say this," Tebbetts said after learning that Robinson would be out of action for several days, "but I'm the boss of our club and if I don't fight for my guys who will? The pitchers are throwing at Robinson because he is a Negro."

Giardello, Vejar Battle Tonight

LOUISVILLE, Ky. (UP)—Middleweight contender Joey Giardello, who observed his 27th birthday Tuesday, hopes to celebrate the occasion tonight by knocking out Chico Vejar in their scheduled 10-round bout at the Exposition Center.

"I'd like nothing better than a knockout victory over Chico," said the Brooklyn brawler, who was a 4-1 favorite for the nationally televised bout.

## Redleg Player Named West Point Coach

WEST POINT, N. Y. (UP)—Eric Tipton, former Duke University football star and outfielder for the Cincinnati Reds, has been named head baseball coach at West Point.

Tipton has served as head baseball coach and backfield football coach at William and Mary since 1953.

### Block Goes In Toilet But Her Toil Was For Naught!

**PARK FOREST, Ill. (UP)**—This is a story of heroism in the suburbs and after you get into it you'll know why no names are used.

It involves a woman. She has five children and one of them flushed a toy building block down the toilet.

The father of these children was out of town. The woman couldn't get a plumber because it was Sunday. So she turned off the water and somehow removed the toilet.

The block wouldn't budge despite her efforts. She thought maybe water pressure would free it. But she had turned off the water. She dammed the toilet outlet with a towel, turned the water on and moved the toilet to the backyard.

She had just started the job of freeing the trapped block when another of the children yelled, "Mommie, it's getting pretty wet in here." The towel had not held and a miniature Old Faithful was spouting in the bathroom.

The woman turned off the water again. She put the toilet in a little red wagon and wheeled it across the street to the home of a neighbor, where she asked for and was granted permission to use the hose and some water.

Pressure did not free the block but the sight of a woman hauling a toilet in a little red wagon across the street trailed by five children brought out many interested neighbors. These neighbors offered suggestions, but all fell short.

Finally the husband came home. He knew where there was a hardware store open. He put the toilet in the car and took it to the hardware store. The hardware man, a father himself, freed the block by sawing it in half.

The toilet was brought home and reinstalled.

An hour later there was another block in it.

### Man Sets Dog On Fire

**CHARLESTON, W.Va. (UP)**—A 23-year-old ex-convict was held today as the man who set fire to a collie dog after drenching its fur with turpentine.

Police said Frank Sturgill, of nearby Belle admitted he was the one who turned Frisky, pet of young Lore and Neil Jackson, into a running ball of fire.

"I'm sorry," Sturgill was quoted by police as saying. "I don't know why I did it."

Authorities said Sturgill, on parole from a prison sentence for grand larceny, was picked up on information supplied by a 17-year-old boy.

Sturgill was charged with cruelty to animals. A spokesman for the state fire marshal's office indicated charges also may be brought under the arson law.

Frisky, reported on the road to recovery, was saved from death only when he leaped into the Kanawha River.

## Maximum Claim For New Drug Is Its 'Activeness' Against Cancer

(Fifth and last in a series) By DELOS SMITH

United Press Science Editor

**NEW YORK (UP)**—Dr. Andrew C. Ivy's maximum claim for Krebiozen is that it is "biologically active against cancer in man." He asserts this would now be accepted by all his medical colleagues as well as officials of the American Medical Assn. hadn't "prejudiced" the medical world with the 100-case report back in 1951.

He means that when injected by needle into muscles of cancer patients it will sometimes help the patients and harm their cancers. The first is a "subjective" response—the patients feel better, their appetites improve, their pains diminish or disappear, they become active. The latter is an "objective" response—the malignant tumors become measurably smaller.

Ivy grants that six of the seven doctors who provided the 100-case reports were sincere and honorable. But he points out that at the time little was known about how much made a workable dose of Krebiozen or how often the doses should be injected. Many of the 100 patients were dying and died before they could be given enough Krebiozen for an effect to show.

"Publicize 'Miracle Cases'"

If you intend forming an opinion, you must keep firmly in mind that individual "miracles" in cancer mean nothing. Krebiozen's lay enthusiasts have publicized "miracle cases" in patients who had any of the proven treatments and in patients who had no treatment at all.

It is well known that far-advanced patients respond "subjectively" to any treatment, no matter what, while their cancers advance inexorably and kill them.

Ivy accepts this. All cancer experts do. His contention is that "objective" improvements have occurred too frequently for them to have been due to factors other than Krebiozen. As for "subjective" improvement, he has one series of patients who did not know they were getting a new treatment, and another series of patients who did know. Subjective improvement occurred in one series as often as in the other.

All but seven Krebiozen-treated patients have been of the "abandoned"—that is all proven treatments had failed and they were being kept "comfortable" until they died. Therefore, Ivy points out, it is not surprising that Krebiozen has produced "objective" response in a relatively small percentage. The big point is, he maintains, "biological activity" is shown and science must investigate that activity, and understand it in order to exploit it.

**Can Obtain Krebiozen**

Krebiozen research is carried on by the Krebiozen Foundation, (105 West Adams Street) in Chicago. Any physician may obtain Krebiozen provided his patient has exhausted all of the proven treatments, the physician reports the patient's physical condition in detail, and the physician reports in detail on the results of Krebiozen treatment. If the patient is able to pay, he is asked to pay \$9.50 for each ampule. If he isn't, he is asked to pay what he can or nothing.

So far, more than 200 physicians have obtained Krebiozen for more than 750 patients and their detailed reports are on file in the foundation office. Ivy and his associates, Drs. John F. Pick and W. P. F. Phillips, have personally treated or observed more than 100 patients. From these cases, Ivy, Pick, and Phillips have derived studies which impress the lay mind but, as this reporter found out, impress other cancer experts not at all.

Out of the 200,000 ampules containing the whole of the existing Krebiozen, 50,000 to 60,000 ampules remain. Durovic said he was financially unable to produce a

## Statement On Cigarettes Is 'Clarified'

**WASHINGTON (UP)**—U.S. Surgeon General LeRoy E. Burney has issued a statement to "clarify" his remark that cancer may be caused by the chemical benzopyrene in cigarettes.

Burney said the chemical forms in the smoke when aromatic oils in tobacco are burned at a high temperature. Pipe and cigar tobaccos burn at a lower temperature and do not "crack" the aromatic oils, he said.

The surgeon general first said flatly in an interview that the presence of the chemical benzopyrene might be a contributing factor to the increase in lung cancer among smokers.

But Burney later issued a "clarifying" statement saying, "There are some scientific studies which indicate benzopyrene has been identified in cigarette tars. There is no evidence to indicate, however, that benzopyrene in itself is present in sufficient quantities in cigarette tars to cause human lung cancer."

He called for more research "in this quarter and on the effects of other chemical agents as well as temperature gradients and the various specific materials in the original tobacco."

Benzopyrene has been found to produce skin cancer in mice.

## French Cabinet Is In Danger Again

**Foreign News Commentary** By CHARLES M. McCANN

United Press Staff Correspondent

France is engaged in a civil rights battle which could cause the fall of the cabinet this week.

Premier Maurice Bourges-Maunoury is trying to get the National Assembly, the controlling house of parliament, to give his government special powers to suppress terrorism by Algerian nationalist rebels.

The trouble is that the special powers would be operative not only in Algeria but in France itself, where 400,000 Algerians live. Members of parliament are afraid that if a tough government got into office the special powers might be used against Frenchmen as well as Algerians.

Nearly every party represented in parliament is against the special powers bill for that reason.

A two-day debate on the measure opened today in the National Assembly. Bourges-Maunoury is expected to follow up the debate by demanding a vote of confidence on it. The vote would be taken Friday.

It is being predicted freely that unless Bourges-Maunoury agrees to amend the bill radically, he will fail to win his confidence vote. That would mean he would have to resign.

Behind the government's request for special powers lies the belief that the terrorism which has kept Algeria in turmoil since Nov. 1, 1954, is going to be extended to France.

Police estimate that there are 2,000 active Algerian rebel agents in France. They force their fellow

## WAKE UP RARIN' TO GO

Without Napping Backache

Now! You can get the fast relief you need from napping backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—no more relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

For quick relief get Doan's Pills. They work fast in 2 separate ways: 1. by speedily pain-relieving action to ease torment of napping backache, headache, muscular aches and pains, 2. by their soothing effect on action tending to increase output of the 15 miles of kidney tubes.

Find out how quickly this 3-way medicine goes to work. Enjoy a good night's sleep and the same happy relief millions have for over 50 years. Ask for new, large size and save money. Get Doan's Pills today!

## Algerian Rebel Is A Rugged Soldier

(Editor's Note: Another dispatch by the UP Paris manager, who went to Algeria for close-up reporting on the rebellion.)

By ARTHUR HIGBE

United Press Staff Correspondent

**ALGIERS (UP)**—He marches for days over the worst terrain without sign of fatigue.

His training consisted of a few days of rifle squad drill.

His uniform could be khakis with an American-style helmet or Moslem civilian clothing—skullcap, tattered suitcoat and pants.

May Go Barefoot

He wears rubber-soled field shoes—or goes barefoot.

His weapon is usually a pre-World War II bolt-action rifle of British, French, German, Spanish or American make.

He also has sten guns, a few mortars, even bazookas.

He has no aviation, no artillery. He has no motor transport to speak of but he does have some radio equipment.

He lives off the countryside, fighting in 10-man sections or bands of 20 to 500. He is a guerrilla—marching by night, ambushing by day and night.

If he is a member of one of the wilder tribes, he may mutilate his dead foe's body, gouging, cutting, chopping.

He has no chance of beating the French Army in a pitched campaign. But the French have no chance of obliterating him short of an all-out atomic war of extermination.

Thus, Frenchmen believe, a pure military victory by either side here is impossible.

(Continued From Page One)

## Dallas Man To Attend Seminar

**BOSTON (UP)**—A Dallas advertising and public relations executive has been selected as one of 15 American business executives to participate in the Harvard University seminar on "Religion and Ethics in Business Policy Decisions."

He is Orville L. McDonald, 34, a graduate of the University of Texas, and a veteran of World War II.

The seminar will be held on the Harvard campus for two weeks beginning Aug. 25. It is sponsored by the Harvard Divinity School and the Harvard Graduate School of Business Administration.

Participating in the seminar, in addition to the business executives, will be 20 collegiate teachers of economics and business administration and five clergymen, all from various sections of the country.

During World War II, McDonald, a private in the infantry, personally captured Maj. Achim Oster, son of Maj. Gen. Hans Oster, then chief of the German counter-intelligence service. McDonald was given a battlefield commission of lieutenant.

## First 50 Easiest?

**CENTRAL CITY, Iowa (UP)**—Mrs. Stella Sawyer, who celebrated her 50th wedding anniversary last April, filed for divorce on grounds her husband, Clyde, made her "nervous and impaired her health."

Mrs. Sawyer said her husband struck her, threatened to take her life and used profane language.

Arkansas has been under four flags—Spanish, French, the Confederate and American.

## See actual road-test proof!

**DODGE** outperforms "other two" low-priced trucks!

CERTIFIED TEST PHOTO

They're off! All three low-priced trucks are lined up at the bottom of a test grade equal to the steepest hill in San Francisco. The flag drops, and this grueling test of climbing power is officially underway. Dodge takes an early lead.

CERTIFIED TEST PHOTO

Halfway up. The extra V-8 power under the hood of the Dodge sends it quickly ahead. It's already two lengths out front. And there's a 1000-lb. test load on each one of these comparably equipped trucks. What's more, Dodge is still gaining!

CERTIFIED TEST PHOTO

Dodge flashes past the finish five lengths ahead of competition. Truck "C" and truck "E" just couldn't match that 204-hp. Power Giant. And this is just one of a rugged series of tests that prove Dodge is best of the low-priced three.

● Your Dodge truck dealer has proof that Dodge leads in many ways. Come in... see other certified test-photo sequences... and take a demonstration ride!

# The Pampa Daily News

One of Texas' Five Most Consistent Newspapers

We believe that one truth is always consistent with another truth. We endeavor to be consistent with truths expressed in such great moral guides as the Golden Rule, the Ten Commandments and the Declaration of Independence.

Should we at any time, be inconsistent with these truths, we would appreciate anyone pointing out to us how we are inconsistent with these moral guides.

Published daily except Saturday by The Pampa Daily News, Atchison at Sovereign, Pampa, Texas. Phone MQ 4-2325, all departments. Entered as second class matter under the act of March 3, 1879.

By CARRIER in Pampa, 30c per week, paid in advance (at office) \$5.90 per 3 months, \$7.80 per 6 months, \$15.60 per year. By mail \$7.50 per year in retail trading zone, \$12.00 per year outside retail trading zone. Price for single copy 5 cents. No mail orders accepted in localities served by carrier.

## Diminishing Returns

The emperor Diocletian (245-313 A. D.) in Rome, made a startling discovery. When he increased the rate of taxation, he collected less money. During the period of time he was in power he made repeated efforts to alter this fact. Yet, the unpleasant result of excessiveness was constantly before him.

Diocletian embarked on a program of expanded social security, government supported schools, public housing, agricultural subsidies and regulations, wage laws and pensions to soldiers. These programs took a great deal of money. But as he endeavored to raise the funds to offset the mounting debt of the Empire each action tended to reduce still further the amounts he actually received through taxation.

Economists are quite familiar with the phenomenon. Businessmen know all about it, too. It goes like this. If price 1,000,000 can be sold, there are some who can price 1,000,000 can be sold, there are some who convince themselves that they can increase their profits if they raise the price to \$250. It appears on the surface that if the margin of profit in the \$200 price is, let us say, \$25, by raising the price to \$250, the manufacturer can net \$75.

While this is true with an individual refrigerator, it is rarely true with a million refrigerators. With every increase in price, sales resistance stiffens. If a million could be sold at \$200, it is entirely possible that at \$250, only half a million could be sold. If this were the case, then the raise in price would produce not one additional penny of profit. On the contrary, even though the figures indicate that the profit might be the same, the manufacturer conceivably could go broke. This might occur if he manufactures 1,000,000 refrigerators and finds himself at the end of the year with his money tied up on 500,000 unsalable machines.

Economists refer to this phenomenon as "diminishing returns." There is a point reached in the sale of any product where an increase in price reduces the amount of money to be made from that product. No one knows exactly just where that point may be in a given case. But the point does exist, and those who stray beyond the bounds of reason and good sense discover it to their great disadvantage.

High taxes, currently being collected, provide an object lesson in this regard. Some economists are now declaring that the federal government has reached the point of diminishing returns. This is to say that despite increases in tax assessments and tax rates, tax income derived from all taxation will be smaller than it was when the assessments and rates were smaller.

Between 1950 and 1953, personal income rose 26 per cent in this country and the number of tax returns filed was up 41 per cent. Gross income reported in the country was up 33 per cent and tax liability was up 60 per cent.

However, the number of returns with gross income of \$100,000 or more, was down 23 per cent, total income reported on these returns was down 28 per cent and total tax liability for these returns was down 24 per cent.

Between 1952 and 1953 personal income was up 5 per cent, the number of tax returns filed rose 3 per cent, gross income reported on returns was up 7 per cent and total tax liability was up 6 per cent. However, the number of returns with \$30,000 or more was down 4 per cent, income reported on these returns was down 6 per cent and the tax liability was down 8 per cent.

By this it can be seen that the federal government is now receiving less tax income from the largest incomes than it used to receive. It could be said that the point of diminishing returns has been dropping steadily. In 1951 it was reached by persons with taxes equalling 60 per cent of their gross income, in 1952 by those with taxes equalling 50 per cent of their gross and by 1953, by those with taxes equalling 31 per cent of their gross income. It is likely that in 1954, '55, '56, and '57 the same steady drop will be observable when the figures are in.

Thus far the federal government has been able to escape the result of this drop due to the increase in the number of tax returns in the lower brackets. But as the point of diminishing returns continues to drop, these increases will turn into losses and where will the federal government go then?

If this is not adequate proof that the federal government had best be about reducing its budget, we know of nothing else we can say. Diocletian discovered it too late, while the Roman Empire cracked in ruins. Must we experience the same fate?

## The Doctor Says

By EDGAR P. JORDAN, M. D.

A correspondent has asked for another discussion of eczema, particularly "mumular" eczema.

The latter merely means that patches of eczema on the skin are shaped like a coin. The cause may be the same as any other variety of eczema.

Eczema is defined as an inflammatory disease of the skin with blister formation and the development of scales and crusts. However, its appearance varies widely. It may or may not be accompanied by itching and burning.

Among skin specialists there is some tendency to abandon this old name and to use the name dermatitis venerea.

Thus, eczema in this sense is strictly the result of an outside irritation and can include such conditions as are caused by poison ivy or poison oak.

Because the nature of the irritant varies so much, and the skin differs greatly in its resistance to such irritants, the amount of skin difficulty and the appearance of the skin show great differences from one person to another.

However, when first starting, the skin usually appears simply red. If the irritation has been severe, the skin may show blisters or even small pus pockets. After a while the redness and other signs of inflammation may give way to chronic symptoms, the residual cause of which is often

hard to trace. Eczema shows up on those parts of the body which have rubbed against the irritating substance. For this reason the hands, face and legs are more common locations than parts of the skin which are protected by clothing.

Often the skin burns or itches even before it shows redness. It is natural to scratch a place which itches but scratching further injures the skin.

The list of substances which can cause eczema is almost unlimited. It includes hair dyes, face powders, shampoos, tincture of iodine, woods, the dye in clothing, and more rarely the ink of comic strips and match boxes. Almost all chemical substances used in industry have been at one time or another uncovered as a cause of eczema.

There are four objectives of treatment: to identify the substance which is causing the difficulty, to take steps to avoid further contact, to avoid putting things on the skin which might make the condition worse, and to use ointments and lotions to help relieve the inflammation and allow the skin to return to normal.

Identifying the cause is often extremely difficult. Another problem in many cases of eczema is that the patient may have tried to treat himself or herself with some substance which resulted in addition

## BETTER JOBS

By R. C. Hoiles

### Democracy Of The Market

I want to continue to quote from "Chadel, Market and Altar" by Spencer Heath.

The author has a chapter under the heading of "The Democracy of the Market." I had never really thought of that term, but it seems to me that it well describes private, free enterprise.

It might also be called economic democracy. In it people vote, not as they do in political democracy with all votes having the same weight or influence, but in proportion as each voter adds to the wealth of the land. But let Mr. Heath explain it:

"The Nineteenth Century has been called the century of democracy. Doubtless this refers to political democracy - the popular voting of men into office and measures into laws of the exercise of, or for the restraint of, compulsive power. More significantly it was a century of economic democracy, and to this democracy of the market it unquestionably owes the vast extension of the human life span that the century achieved.

"The widening of Western geographical horizons - notably in North America - without any corresponding expansion of governmental regulations and restraints, but rather with a general reaction against encroachments by governmental power, permitted an unprecedented extension of production and trade. This area of contractual relationship - the proportion of population energy flowing into free and voluntary engagements and productivity as compared with that involving compulsion and force, was enormously increased. Production leaped to wide margins above taxation: values of every kind were created and for the most part maintained, affording security to all prudent investment with certainty of fair return upon savings as well as for services currently performed. These were the fruits of the democracy of the market - so far as this fundamental voluntary democracy was permitted to be practiced and performed. Notable was the almost complete freedom of contractual relationships across state lines in the United States, with an unprecedented though always limited freedom of international exchange, especially during the first half of the century.

"Under this relatively unlimited yet still far from complete freedom, the technique of social, or economic democracy spontaneously expanded and was increasingly carried on. Goods were produced and services rendered and prepared, not for the use of those performing them but for the use of others by way of contract and exchange. The current increasing recompenses or incomes were the current values, and the capitalizations of income from savings and profits - from the administration of capital property - were the growing capital values.

"Under the democracy of the market, goods and services prepared for others are voluntarily pooled in public places, whence their owners repair and by bids and offerings vote their wishes and desires as to the measures and terms upon which their common wealth and services, thus common - ized or social - ized (in the best sense of these words) shall be redistributed among those who have contributed. This voting ascertains the common will and assures its execution forthwith and without any infringement of minority interest or right. This is democracy based on mutual service in mutual freedom - the right to serve in order to be served - the right of voluntary exchange. It is the fundamental democracy to which political democracy has at best a negative value in its partial and transient mitigation of the rigors of those more concentrated forms of government which so sharply impinge upon and finally extinguish the freedom of mutual service by voluntary contracts and exchanges.

"In the market we find the social institution by which in a civilized community a substantial portion of the available population energy is socialized into non-violence and freely transferred and transformed into services and into realizations of the common will and of individual desires. This is not to say that the market is wholly free from restraint or from the perversions so engendered, as restraints on freedom always engender them; but it is to say that the functioning of the market is and gives rise to all the freedom from compulsions that can be practiced or attained. Freedom is not a condition; it exists only in practice - in process. It consists in choosing and practicing the preferred out of various alternatives, all in some degree desirable. An enforced 'choice of evils' is slavery.

"The process of the market, the making and performing of service contracts, is the mutual choosing from among desirable alternatives and freely acting upon them. This is what gives men their exemption from the compulsions of an uncivilized environment and all the freedom that they have from being compelled - enslaved - by one another. It is the foundation of social freedom and, therefore, of social progress into ampler living throughout increasing length of days."

(To be continued)

all irritation and which masks the true nature of the original irritant. Several skin specialists have told me that self-treatment too often complicates their job.

### South Strengthened By Presidential Indecision

By RAY TUCKER

WASHINGTON - The unexplainable confusion and uncertainty which have marked the Administration's handling of many grave problems strengthens the South's chances of forcing a defeat or serious compromise of the pending Civil Rights Bill. White House wavering also jeopardizes other irritated and impatient Congress.

Presidential indecision is all the important matters now before an administration which has not established a staff system, with Sherman Adams in command. The Congressional conclusion is that Adams permits himself to become immersed - or submerged - in minutiae, technicalities and politics.

His failure to realize that the Civil Rights Bill could be used to enforce segregation, and not merely to protect minorities' voting opportunities, has shaken the measure's supporters, especially as the Southern bloc boasts the ablest lawyers and parliamentarians. It has discouraged both the Republican and Democratic liberals, and thrown them on the defensive.

WHITE HOUSE HEDGING - Even more damaging was the President's ignorance of the fact that the bill, as framed by Attorney General Brownell, permitted the use of the Federal military in its enforcement.

But these are not the only evidences of White House backing and filling, and an abysmal lack of team work. Ike, for instance, first insisted that his huge budget was "light to the penny," after months of preparation, only to concede that it could be cut. Secretary Humphrey and Undersecretary Burgess contributed to Congressional confusion with equally contradictory remarks.

Eisenhower first maintained that his requests for national defense and foreign aid appropriations could not be reduced without endangering the security of the free world. But even on this issue, so close to his program for world peace, he recanted to the extent of more than a billion dollars.

SLIDING DECISIONS - The American disarmament plan, as presented at London by Harold E. Stassen, has confused our Allies and other NATO members not represented at the conference. In their opinion, it had not been thought out clearly or definitely at the White House or State Department.

It reminds the Macmillian and Bourges - Maunoury Ministries of Dulles' bewildering behavior during the Suez crisis, when his frequent shifts of diplomatic strategy led to Sir Anthony Eden's downfall and a partial victory for Colonel Gamal Abdel Nasser, the Egyptian dictator.

Ike also has deserted his Capitol Hill friends on the Natural Gas Bill. They fought hard for his amendments to the measure, which were designed to furnish some Federal protection over prices for consumers. But when the changes proposed by Eisenhower satisfied no group completely, blocking the bill in committee, he explained that he would not insist on their incorporation. He removed the rug from

## The Nation's Press

S. F. News

Keep an eye on that \$50 billion highway fund if you want to get highways built. You are contributing a dime to it every time you buy 10 gallons of gas. When the highway bill was passed it provided the fund should be used exclusively for building highway, but the Labor Department clipped it for \$300,000 last year and now is back for another \$365,000. The money is asked to determine wage scales on highway projects. For that purpose the sum seems exorbitant and, anyway, it should come from regular Labor Department funds. The temptation to raid the fund is strong since money thus obtained does not count on regular department budgets. It would take the taxes on 36.5 million gallons to pay what the Labor Department is after....

### Modern Marathon Movie Means More Malnutrition

By HENRY MCEIMORE

NEW YORK, N.Y. - "What's hours on at the movies, and what are we taking to eat?" That's an often asked question these days as movies get longer and longer. Popcorn once was sufficient to hold a fan through a program, but no more. Severe cases of malnutrition have been reported by more than one movie house, the victims being fans foolhardy enough to think they could hold out through a double-feature without sustenance.

In a mid-western city a patron who refused to share his dinner-pail with ravenous neighbors during the last three hours of "The Ten Commandments" was set upon and stripped of everything but half a peanut butter sandwich.

In a far-western city the manager of a theatre, noticing an unusually bright light in the balcony, half an hour before the end of "War and Peace," discovered a group of teen-agers around a good-sized campfire. They were too weak to speak, but the hamburgers and hotdogs they were cooking spoke for themselves.

Taken to court, they were dismissed by a judge who quoted the Law of Survival.

Reports from Rome, where David Selznick is shooting "Farewell To Arms," indicate that the producer has faced-up to facts and plans to do something about providing for the comfort of customers when his picture reaches the screen.

The running-time of "Farewell To Arms," it is estimated, will be roughly the same as the running-time of a man on foot from Buffalo to Waco. The admission price will include many things, one being a Blue Plate Special (choice of dessert) after the first four

Patrons who stay until the end of the picture, and its accompanying short (?) subjects, newsreel next month's attraction trailers, and cartoons, will be provided with the following services:

1. Lawns mowed.
2. Newspapers temporarily suspended or forwarded to the theatre.
3. Driver's license renewed.
4. Christmas presents bought and mailed.
5. Social Security checks picked up.
6. Anti-freeze put in cars of patrons who go to show between Dec. 5 and Feb. 30.
7. Pets fed.
8. New clothes provided for growing youngsters who outgrow theirs during attendance at picture.

One of the main causes for marathon movies is the popularity of pictures based on lives of people. People who have lived lives interesting enough to put on film aren't usually very young. And Hollywood, with its new love for detail, hates to leave out a thing. If the subject fell out of a tree when aged eight, the picture shows him going into the woods, shots of other woods he could have chosen, climbing up the tree, losing his hold, landing, a few hospital visits, etc.

Few movie-goers look forward to the day when Hollywood buys the right to Methuselah's life. But it will be bought. By the time Methuselah's life is traced for 700 to 800 years, patrons who stay for it will go directly from the theatre to the nearest Home For The Aged.

Mary and I are going to a double-bill tonight, so I had better help her pack our lunch. I always jerk the pemmican and see that the hardtack is packed.

## Fair Enough

### Americans Hate Reds; Will Win Eventually

By WESTBROOK PEGLER

If the people of this country could have their way, all Communists would be exterminated, not because they threaten the existence of the nation but because they are such nasty, lying, impudent, aggravating ingrates. To them truth is false, wrong is right, indecency is decent and we are stupid prey.

We think otherwise. We are not a nation of lawyers although, nowadays, one hears a charming, puzzled ladies trying to discuss the decisions of the Supreme Court, and the letters to the editor faintly echo benches re-membered from insurance policies. But for a long time we tried to be reasonable and lofty about lot of jackals, many of them immigrants who saved their necks by coming among us, or ill-bred sons and daughters thereof. But now that the Supreme Court has favored them over us, indoring their indorsement of all that we loathe, we are reduced to frankness.

The fact is that Americans hate Reds, including fellow-travellers high in the Roosevelt cult and household; wily professors; judges of the federal riding, a horde of lawyers and no few chief clerks of the publication trade, known as editors. The stage, screen, radio and TV are crawling with such, but, waiting nothing, we all realize that "actors" and those who write and produce recitations are ruff-raff whose effect on the social and political course of the country is trivial. They come of a line of outcast vagabonds who sang and danced in taverns as an auxiliary to prostitution and robbery.

The best moving picture ever made was suppressed before most living Americans were born and no movie since, with or without sound or color, or the bodice of Marilyn Monroe, has made the slightest difference in our naturally meandering progress toward our fate. We have no writers, although we buy books by the million, and the confession of Whit-taker Chambers, the most important political document since Mein Kampf, is too heavy for our digestion and too long for our mentality. Only a few thousand have read it and they mostly professionals. So this key to the perfidy of Roosevelt and his court will not impress the American people until a couple of generations have come and gone. Then, in retrospect, it will inform a calm and objective public of a dirty imposition on a generally nice people who were so charitable in their judgment that they couldn't believe the truth.

Americans do hate the Communists and their accomplices who, for legal reasons, have come to be called "liberals," a sad profanation of a noble political title. To pretend that we regard these coyotes as "dupes" of shrewder and more brutal reds is a standard tactic today. We know they are neither misguided nor decently mistaken, but their own wiles have made us turn reptilian to meet them at their own tricks. We would prefer to call them Co-munists. But, they and we know that in most cases it were costly and difficult to call a Red a Red and therefore some compromise chose "liberal" as a synonym. Our advantage is that they and we all know that "liberal" means the opposite of "liberal." We have to make do with the weapons allowed us and their federal judges have not yet held that "liberal" is its own antonym, although that is not beyond them.

As to how the Reds and their tag-alongs should be put to death, yield the floor for suggestions. The Sing Sing chair is so gruesome that, after all the protocol, the subject gets a silent vote of sympathy from our milky civilization. The other ceremonious methods all have the same basic fault and the headman, in his black habit with white gloves, was too chichi for mass production.

For 40 years the rhetorical heroes of Union Square have been yelling for hot blood, fury and the barricades, a brief scrap attended by excitement and some risk of combat, followed by the mop-up. Cops and convention have deterred the Americans from accommodating them with gusto.

That may not be the only way to circumvent the Supreme Court, but something to the same effect is inevitable eventually. History shows many noble precedents. The enemy has won all the battles and battles to date. But Americans hate and far outnumber them and noisily despise the court.
