## Living Costs In New Rise

By WILLIAM J. EATON  
United Press International

WASHINGTON (UPI)—The government reported today that consumer prices nudged upward to another all-time high in June but experts said the climb was so small that the rise in cost of living has virtually stopped.

The consumer price index went up less than 1/10 of 1 per cent to reach 123.7 per cent of average prices for 1947-49. This was 2.9 per cent higher than a year ago.

Ewan M. Clague, commissioner of labor statistics, expressed satisfaction at the apparent leveling off of prices but warned that if consumers start panic buying because of the Middle East crisis, the cost of living could resume an upward spiral.

"Balance and Stability" of the June index, Labor Department experts said the rise was so "tiny" and "fractional" that living costs were practically at a standstill.

Clague said: "We came about as close to having zero change than we ever do and still have a change."

He hailed the June yardstick as showing a "very great balance and stability" at work in the economy.

The department's Bureau of Labor Statistics also announced that the take-home pay of the average factory worker reached a record high last month.

**Buying Power Down**  
The earnings of the typical factory hand after federal tax deductions was \$75.55 for a worker with three dependents.

But the buying power of his paycheck was trimmed by the rise in living costs and was 2 1/2 per cent under a year ago, the department said.

Slight advances in the costs of transportation, reading and recreation, medical and personal care pushed up the index.

Food prices, a main factor in the inflationary picture earlier this year, remained unchanged for the second month in a row. Sharp declines in fresh vegetable prices offset higher costs for fresh fruits, meats and restaurant meals.

Food prices in June, however, were 4 1/2 per cent above a year ago. The 20th rise in the index in the last 22 months will bring a pay increase for about \$75,000

workers whose wages are tied by escalator clauses to the index.

About 350,000 workers in the electrical, metal working, aircraft and chemical industries will receive 1 or 2 cents an hour pay boosts.

Another 200,000 in the trucking industry will receive 3 cents an hour more. About 70,000 aircraft

**Ike 'Ready' To Attend Summit Meet**

By STEWART HENSLEY  
United Press International

WASHINGTON (UPI)—President Eisenhower is ready to attend a summit meeting at the United Nations but probably will walk out if Soviet Premier Nikita Khrushchev tried to turn it into a propaganda forum, authoritative sources said today.

Administration officials said there was a "good chance" the summit meeting, to deal with the Middle East crisis, would be held at the U.N. Security Council. They said "it depends on Khrushchev."

(See IKE, Page 3)

**BULLETIN**

**Gray County Sheriff Rufe Jordan** was elected president of the Texas Sheriff's Association of Texas today.

Jordan's grandson, Ty Wayne McMurtry, was elected mascot of the Association.

This assessment of prospects for a summit meeting was made before the Soviet government newspaper Izvestia hinted today such a meeting might not be acceptable to Russia. Among other things Izvestia indicated Khrushchev would not sit down with the representative of Nationalist China which holds a permanent seat on the Security Council.

High administration sources had previously told United Press International (See IKE, Page 3)

## Blakley In Blast At 'Influence'

United Press International

Texas political aspirants traded charges Tuesday as election day neared.

Sen. Ralph Yarborough, who appears on statewide television tonight from Fort Worth, threw his family into the breach while he was in Washington for a briefing on the Middle East situation.

His opponent, William A. Blakley, repeated his charges of "outside influence" Tuesday night in a statewide telecast at Waco.

"You do not want a man to be so consumed with ambition he would sacrifice every principle of his own state, take the money and the influence—and bend to the will of outside labor bosses, and then let them decide which office he would seek—the Senate or the governorship," Blakley said.

Mrs. Yarborough campaigns at Georgetown today. Yarborough's brother, Donald, speaking at McKinney, said Yarborough "is not and has never been a candidate of any group. He has never asked nor sought the endorsement and support of the NAACP."

Gov. Price Daniel said it was "beneath the dignity" of his office to be accused of such charges. (See BLAKLEY, Page 3)

**Typhoon 'Alice' Strikes Japan**

TOKYO (UPI)—Typhoon "Alice" lashed Japan with winds of 130 miles an hour today and there swept into the Pacific Ocean, leaving five dead, six missing, scores injured and thousands homeless.

The huge storm, Japan's worst of the year, slammed into the center of teeming Honshu Island at dawn, snarling transportation, snapping power lines and flooding homes and highways. But the torrential rains ended Japan's worst drought in 50 years.

Although the U.S. Air Force had downgraded Alice to a "tropical storm," the typhoon ripped the Tokyo-Yokohama area with 90-mile-an-hour winds and pelted it with more than 4 1/2 inches of rain.

7,320 qualified voters in Gray County are eligible to vote in the Democratic Primary polls, according to the 12 precincts of Gray County.

Absentee balloting, ending yesterday, accounted for 315 of the 7,320 qualified voters with a possibility of 15 mail-ins by noon Saturday.

The 7,005 voters remaining will cast their ballots in 12 polling places and participate in as many Precinct Conventions that day.

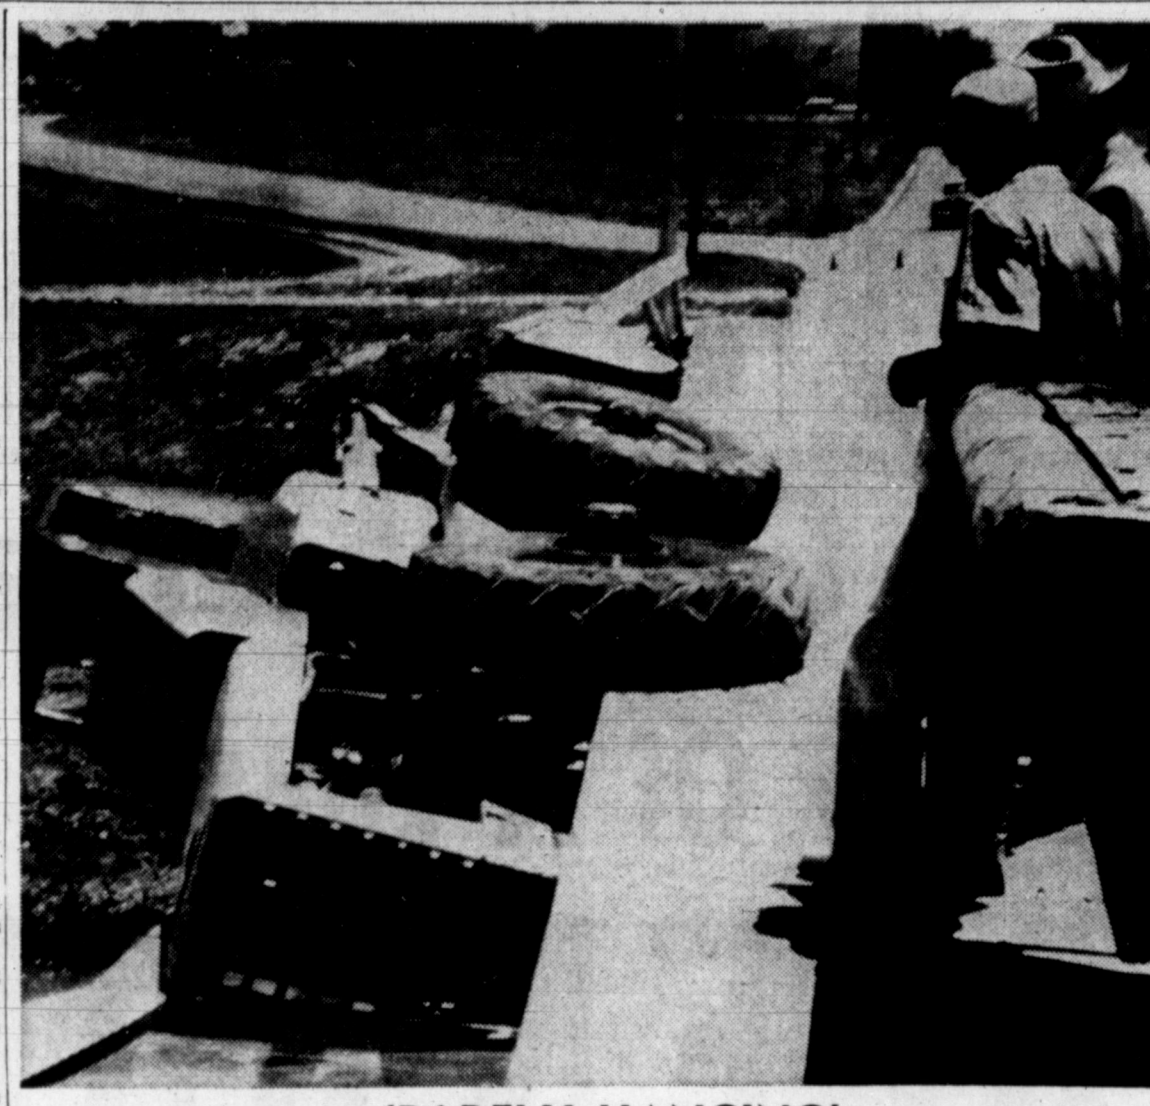

Precinct conventions, like the polls, will be open to any qualified voter of the precinct. The time of the conventions' openings will be 2 p.m.

Two years ago, the precincts were realigned to simplify election procedures. Lefors is in Precinct 1, Grandview, 3; Alanoed, 4; McLean, 5; Laketon, 6 and Hopkins, 8.

But the real test of the precinct system is in the city of Pampa where five precincts lie side by side.

Precinct 10, including the Court House, begins at the intersection of West and Foster, going up the center line of West to N. Hobart and thence up Highway 70 to the County line. From West it proceeds down the center line of Foster to Cuyler where it follows the center line of Cuyler into Mary Ellen and thence to the County line.

Precinct 9 begins with the intersection of Cuyler and Foster, following the center line of E. Foster

'BARELY HANGING' Barely hanging on is the "payloader" that crashed into a bridge in the 600 block of Yeager street yesterday. The "payloader" was driven by Austin Carl McAboy, 621 S. Russell, and is owned by the Ray Boswell Construction Co. of Pampa. McAboy lost control of the loader coming down a hill but escaped the accident without injury. (News Photo)

## 7,320 Qualified Voters In County

From 8 a.m. to 7 p.m. Saturday after through Section 91; Precinct 8 is the area enclosed by the center lines of E. Foster and Cuyler, Mary Ellen and on out. The polling place here is Woodrow Wilson School.

Precinct 12 follows the center line of W. Foster from Cuyler down Hobart, through Rham and Dwight, down the Panhandle and Santa Fe tracks. Its' other bound-

(See VOTERS, Page 3)

## Six Months Report On Traffic Made

Highway Patrolmen investigated a total of 215 accidents during the first six months of 1958 in the Pampa subsection area comprising of Donley, Gray, Hansford, Hemphill, Hutchinson, Lipscomb, Ochiltree, Roberts and Wheeler Counties. Sergeant E. G. Albers Jr. announced today.

Of the above total, eight were fatal accidents, 64 personal injury accidents, and 143 property damage.

Sergeant Albers reported a total property damage of \$173,166.00 with 109 persons injured and 12 killed. This is an increase of 28 accidents and increase of three deaths for the same period last year.

Albers said the Patrolmen in his area contacted 5,881 drivers during this period for the following violations: D.W.I. 33, Speeding 3,081, Improper Passing 234, Wrong Side of Road 159, Defective Equipment 1,349, Disregard Stop or Warning Sign 561, and all other violations 464.

During the vacation months thousands of motorists are on the highways, and too many of them are intent on cramming as much activity as they can into one brief vacation. Sergeant Albers said, "The result is often tragedy."

He cautioned vacationers to be on their guard against speeders, drinking drivers and drivers who disregard traffic laws. Traffic accidents take no vacation, so to stay safe, step up your vigilance on the roads, and slow down and live.

## Gray Polio Chapter To Take Part In New Health Program

The Gray County Chapter of the National Foundation for Infantile Paralysis, now known as the National Foundation, looks forward with keen anticipation to participation in its broad new health program. Arthur Smalley, chairman, said today.

Returning from Dallas where he and Joe Tooley, treasurer of the National Foundation in this area, attended a closed circuit telecast at which Basil O'Connor, president, outlined the new objectives of the organization supported by the March of Dimes. Smalley called the widened purposes of the National Foundation "an exciting new concept in the health field."

The National Foundation, "while continuing its winning fight against polio, plans to expand its activities to include a wide range of health problems. Initial new goals will be arthritis and birth defects (congenital malformations). Virus research and investigation of disorders of the central nervous system will be expanded.

"Our chapter will continue to meet its obligations to polio patients in Gray County for as long as they need assistance," Smalley said. "Mr. O'Connor made it very clear that this is our primary responsibility; but the idea of a voluntary association dedicated to improvement of man's health, ready and able to move in whatever direction scientific discoveries lead it, not confined to a single disease, is a tremendous challenge."

"The flexible force the National Foundation now will become is the result of 20 years of pioneering and achievement by scientists and laymen throughout the nation. It will be a privilege to help launch this new program."

Financial support for the new program will be sought through the traditional March of Dimes in January. Smalley emphasized, adding that additional responsibilities undoubtedly will mean additional need for funds in Gray County, as elsewhere.

"We must prepare this January to meet new financial commitments," he declared. "We shall not attempt to move into the new areas of patient aid overnight. A great deal of hard study and work is ahead for those of us in the Chapter, preparing to deal with the new problems of arthritis and birth defects. Mr. O'Connor indicated that precise information about these two areas is not yet available; one of the first things our Chapter must do is learn how many such patients there are, what facilities we have for giving them care and the availability of qualified professional workers to do the job. Plans are being made at national headquarters to help us gather this information."

"Our patient aid program for children through 18 who have arthritis and certain birth defects will be developed as we learn these things and is subject, of course, to the willingness of people in Gray County to give sufficient financial support to the program."

"Our research program, as was explained at the telecast, is beginning to pursue new leads, and our professional education program is expanding."

Medical care in arthritis and birth defects is much like that for post-polio, Smalley pointed out. "There are no epidemics," he said, "but the patients are with us all the time and new ones occur at a more or less predictable rate. In polio, the threat of epidemics hung over a community every summer and one could predict the number of cases. New cases of arthritis and birth defects occur all year round, year in and year out. We must do something for these patients continuously. This is a real challenge to volunteers. I feel certain the people of this county will respond to it enthusiastically."

Committee to testify on the bed situation in VA hospitals. The committee was seeking to determine whether shortages were due to overcrowding by veterans with non-service connected illnesses.

A special investigating subcommittee of the House Armed Services Committee called in more witnesses regarding Raylaine Worsted, Inc., a New Hampshire textile company, and an Army contract case in which Presidential Assistant Sherman Adams was involved.

The subcommittee wants to know if Adams brought influence to bear on the Armed Forces Board of Contract Appeals in the case.

## Headquarters For Blakley Drive Opens

Blakley Campaign Headquarters opened today in the old Pursley Motor Company, 105 N. Ballard. Members of the Sub Deb, Kit Kat and Las Cerasas Clubs are on duty in "Blakley For Senator" Headquarters, backing the drive of William Blakley for the US Senate.

But the workers will go non-partisan in their campaign to "get people out to the polls." Robert Mack, Blakley's Gray County Campaign manager, said today, Mack asks every qualified voter to cast his ballot Saturday so that the victor will be decided by the full vote of Gray County.

Campaign Headquarters will be open through Saturday. The workers will have a poll tax list, Mack said, and before Saturday will call every voter on the list.

Defense: A Senate appropriations subcommittee removed a major roadblock from the path of the new defense money bill by agreeing the Marines and Army should be 10 per cent bigger than President Eisenhower proposed. The subcommittee followed the lead of the House by recommending \$226,118,000 to keep Army

strength at 900,000 men, the Marines at 200,000, the National Guard at 400,000 and the Army Reserves at 300,000.

Railroads: House - Senate conferees agreed on a compromise railroad aid bill which would give the Interstate Commerce Commission authority for the first time to order discontinuance of interstate rail service. The bill as approved also would authorize the ICC to guarantee 500 million dollars in loans to railroads to finance capital improvement, equipment and maintenance.

Minerals: A House interior subcommittee approved a new program of government subsidies for producers of lead and zinc and other minerals which could cost as much as 460 million dollars over the next five years. The program is similar to, but more liberal than, one recommended by

## Commission Lets Repair Contract

In late action yesterday, Pampa City Commissioners let the contract for the repairing of the approaches to the Cuyler street bridge to the Ray Boswell Construction Co. for \$4,171.70.

The commissioners will ask the Corporation Court Judge to sit in at their next Tuesday's meeting to discuss the traffic situation in Pampa.

## Gallemore Outstanding Jaycee

James Gallemore was named "Outstanding Jaycee for the month of June" at yesterday's meeting of the Pampa Junior Chamber of Commerce.

Gallemore has taken part in many Jaycee projects and his efforts on several in June were of such high quality the club honored him for his work.

Jack Latham, of the Amarillo Chamber of Commerce, presented the program at the meeting.

Latham made a short address in support of political precinct conventions and then showed a film on the conventions.

The film showed the necessity of attending precinct conventions and being prepared for them as the average citizen's part in protecting our liberties.

The Jaycees will man their "jail" on downtown Cuyler again Saturday. The club is doing this in an effort to get every male in town to either grow a beard or purchase a shaving permit.

The Board Growing Contest is held in one of the club's projects in support of the Top o' Texas Rodeo, which will be held the first full week in August. Clyde Dickerson is chairman of the club's project.

Several Jaycees will accompany Miss Linda Kay Steele, "Miss Pampa of 1958," to the "Miss Texas" contest in Amarillo the last of this month and first of August. Both the "Miss Pampa" and "Miss Texas" contests are preliminaries to the "Miss American" pageant held each year in Atlantic City, N.J.

The Jaycees are also presently selling advertising in the Top o' Texas Rodeo program.

## Fly Over Major Lebanese Cities

By LARRY COLLINS  
United Press International

BEIRUT, Lebanon (UP)—United States planes operating from 6th Fleet carriers and air bases in Turkey staged an impressive show of strength over all major Lebanese cities today in a "salute to the people of Lebanon."

It was a clear demonstration of U. S. aerial might in a divided country made anxious by the postponement of Lebanon's parliamentary elections and by a fiery speech in Cairo Tuesday night by United Arab Republic President Gamal Abdel Nasser.

The demonstrations by American forces committed to uphold stable government in this tiny Arab republic included supersonic fighters and big bombers capable of carrying atomic bombs. Thirty-one Air Force planes and 20 naval planes took part.

Economy Tied to West  
In an exclusive interview with United Press International correspondent George Bitar today, Lebanese Premier Sami Es Solh said fear of an economic collapse in Iraq forced the new Iraqi regime to assure that the West would continue to receive Iraqi oil.

"The whole Iraqi economy is tied up with the West," Solh said. "Iraqi oil, dates, wool and cereals find their market in the West."

He said he did not see how Iraqis could turn to the East economically "even if they wanted to."

Solh said there was so much resentment in Iraq against the slaying of King Faisal during the coup a week ago Monday that the new government will be able to exist only as a military regime.

Meanwhile, private consultations among Lebanese political leaders intensified in a race to set the stage for the presidential voting. A parliamentary spokesman said a new date may be set "within a few days."

Lebanon's one-chamber 66-man Parliament was to have met Thursday to elect a president to succeed Camille Chamoun, but Abdel Ousseiran, speaker of the body, announced an indefinite postponement following consultations with government and opposition leaders.

There was fear of another outbreak of rebel violence, particularly if an election date for the near future is not announced. The rebels are determined to oust Chamoun and touched off their revolt May 10 to emphasize their point.

Nasser's speech, made Tuesday night to celebrate the revolution which brought him to power, caused some uneasiness in government quarters. He declared American "aggression" will be defeated and said the "people" will triumph in Jordan, Lebanon and Algeria as they did in Iraq.

Work For Solution  
World leaders still were trying to solve the Middle East crisis through negotiation, possibly through a "summit" conference at (See STRENGTH, Page 3)

## More Rain Last Night For Pampa

A light thunderstorm moved through Pampa and outlying Top o' Texas towns last night, dumping .24 of an inch of moisture on Pampa, according to the rain gauge atop the Pampa Daily News Building. The rainfall was general throughout the Top o' Texas area with no damage being reported.

More rain is in store for the area with the weather forecast calling for partly cloudy skies with little change in temperatures through tomorrow. Scattered afternoon and evening thunderstorms can be expected. The low tonight call for a temperature of 68 and the high tomorrow is expected to be 92.

Thunderstorms hit over much of Texas Tuesday and early today.

A lightning bolt crashed into a large appliance store in downtown Beaumont, setting off an explosion and fire that authorities said may run damage to nearly one million dollars. Nine fire units fought the blaze during a pelting thunderstorm which soaked the city.

Two unconfirmed tornado funnels were reported during the night, one three miles north of Healdton and another near the community of Roundup, about 15 miles northwest of Lubbock.

A severe thunderstorm lashed Fort Worth this morning, tearing down TV antennas and damaging several roofs. Sheriff's office said sheets of rain and heavy winds hit the city.

A lone thunderstorm swelled into a line of severe storms northwest of Wichita Falls. Police said (See RAIN, Page 3)

The commissioners will ask the Corporation Court Judge to sit in at their next Tuesday's meeting to discuss the traffic situation in Pampa.

## Congressional Spotlight In Wide Focus

WASHINGTON (UPI)—The congressional spotlight focused today on committees considering everything from orange juice to the Middle East crisis.

Action on the floors of both the House and Senate was expected to be on the quiet side. The House met to consider routine business while the Senate business schedule was uncertain.

The foreign affairs committees of both houses were to get their daily briefing on the Middle East situation from Undersecretary of State Christian Herter. The situation reports started Tuesday.

A House agriculture subcommittee met to discuss price spreads in the frozen food industry with special reference to recent developments in frozen orange juice concentrates.

**MOD Drops Polio From Its Name**

By DELOS SMITH  
UPI Science Editor  
NEW YORK (UPI) — The "March of Dimes," with a total victory against polio in sight, dropped "infantile paralysis" from its name today and set its sights on the other dread killers and cripples of mankind—all of the virus diseases, arthritis, diseases of the central nervous system, and the congenital diseases.  
Basil O'Connor, its president, in announcing the National Foundation for Infantile Paralysis will hereafter be simply the National Foundation, emphasized that it was sticking with polio until every American is protected by the Salk vaccine and there no longer are past polio victims to care for.  
But polio no longer is enough

of a problem to engage the full energies of the vast volunteer public health organization which has 3,100 chapters, one in just about every county in the nation. In the immediate years ahead, polio will continue to diminish as a public health problem. Therefore, the ultimate decision would have been neither to disband or to expand.  
O'Connor continued that the foundation had been urged on every side not to disband its scientific research teams whose years-long work culminated in the Salk vaccine nor its army of volunteers who raised the money, but to give them new diseases to conquer. Those chosen for the new onslaught were picked because they relate to the scientific fields in which polio research made strides so great they went far beyond polio, he said.

# Dag Pushes UN Force 'Beef-Up'

By BRUCE W. MUNN  
United Press International  
UNITED NATIONS, N.Y.—(AP)—Secretary General Dag Hammarskjöld pushed arrangements today to beef up the U. N. observer forces in Lebanon despite a Soviet veto of a proposal that would have substituted an expanded U. N. team for the American troops there.

He also was meeting with U. N. diplomats on plans to streamline a high level meeting of the Security Council to solve the Middle East crisis should Soviet Premier Nikita Khrushchev accept Western proposals the council be used as the forum for a summit meeting.

Diplomats said Khrushchev probably would not accept the Western plans for a high level meeting with heads of government or foreign ministers attending in view of President Eisenhower's stiff note to him Tuesday night.

The Security Council, despite Soviet opposition, adjourned its Middle East debate indefinitely to allow time for summit meeting arrangements to be made.

Russian Ambassador Arkady A. Sobolev wanted it to discuss plans for an emergency session of the General Assembly to demand the ouster of Anglo-American troops "immediately."

Hammarskjöld announced after the Soviets had cast a veto—their 85th — against a Japanese com-

promise plan to substitute a bigger U. N. force for the American troops that he would act on his own to beef up the unarmed 100-man U. N. observer team already in Lebanon.

**Backs Pearson Plan**  
Hammarskjöld said he believed it was his "duty" to act in the situation "without the guidance of the General Assembly or the Security Council" should it appear to him "necessary to fill any vacuum."

He then began consulting some of the United Nations' elder statesmen including former assembly presidents Sir Leslie Munro of New Zealand, Lester B. Pearson of Canada and Carlos P. Romulo of the Philippines.

**IKE**  
(Continued From Page 1)  
International there were "some doubts" the Soviet premier would attend a meeting with a representative of Chiang Kai-Shek's Nationalist regime.

**Bows To Pressure**  
Informed sources said Eisenhower, despite grave misgivings, agreed under strong British pressure to hold a summit meeting within the United Nations.

The President, in a formal note to Khrushchev made public Tuesday night, said the United States was willing to attend a high-level United Nations meeting on the Middle East if it were "generally desired."

# Commie Paper Hints UN Talks Not Acceptable

By HENRY SHAPIRO  
United Press International  
MOSCOW (UPI)—The Soviet government newspaper Izvestia hinted today a summit meeting within the framework of the United Nations would not be acceptable to Russia.

The United States and Britain suggested such a meeting in replying to Soviet Premier Nikita Khrushchev's request last Saturday for a summit meeting immediately to solve the Middle East crisis.

France agreed on an early summit conference but outside the United Nations.

**Rummage Sale** corner of Cuyler and Tyng, July 25-26. Mr. and Mrs. Bill Allen of Perryton were recent visitors in the office of Congressman Walter Rogers in Washington, D.C.

**Shady-Nook Drive-Inn** for lease on Letors Hi-way.

**Mrs. Jozac Harris**, who was taken ill and hospitalized, while on vacation, for three weeks, is reported to be convalescing satisfactorily in the home of her daughter, Mrs. Richard Callaway, 811 Texas, in Westaco.

**For the best foods in town** visit your IGA FOOD LINER, 606 S. Cuyler.

**Approximately 150 women** from 35 Texas Corps cities will attend The Salvation Army's third annual Home League Camp to be held July 24-27 at the Salvation Army Camp near Midlothian.

**Pampa Altruists** planning to attend the "Attendance Winning Contest" picnic to be held in the home of Mrs. John Juyienda Kuy-

**Metz Receives Scouting Award**  
Stephen Metz received the life rank in the Court of Honor held by Scout Troop 80 Monday. The other awards went to Raymond Nance, Vince Johnson, Don Sears, Jimmy Hall, Larry Clifton, Tommy Seals and Gary Haner.

**Nance, Johnson and Sears** received the Star awards. First Class rank came to Hall and Clifton; Second Class, to Seals and Haner.

**J. Parks Brumley**, advancement chairman, presided with Tommy Dunn and Dale Stone, District Scout executive, assisting in the presentation.

**Brumley stated** that several more advancements had been made but the Scouts had been unable to attend. Another Court of Honor will be held in the near future.

**Twenty-five parents** attended this Court of Honor, held in the Fellowship Hall of the Pampa First Methodist Church.

**Pampan Will Attend Camp**  
Mrs. R. L. Malone will attend the Red Cross National Aquatic School in Kaiser, Mo., announces the Pampa Red Cross. In the ten day camp, Mrs. Malone will be working for the renewal of her Water Safety Instructor's certificate.

**The camp will take place** on Camp Clover Point, Lake of the Ozarks State Park, Aug. 13-23.

**In June, Mrs. Malone** worked as a Water Safety aid in the Red Cross summer swim program.

**RAIN**  
(Continued From Page 1)  
heavy rain and high winds knocked out plate glass windows in the downtown section of the city.

**Winds at Wichita Falls** were unofficially estimated near 60 miles per hour.

**A rain and wind storm** swept through Dallas this morning. A tropical-like storm struck Tyler Tuesday, dumping 2.25 inches of rain on the East Texas city and injuring one person when lightning struck a house.

**Judy Butler**, an 8-year-old Negro girl, was rushed to a hospital after the lightning bolt struck, but doctors said she was not seriously hurt.

**The Tyler storm** was a sudden affair and caused flooding of downtown streets. Numerous trees and power lines were blown down in the city.

**Hall fell in the Dimmitt-Herford** area of the Panhandle, but there were no reports of damages.

**Like archery, falconry** goes back far into antiquity. The Chinese appear to have practiced the sport 2,000 years ago.

**LIVING**  
(Continued From Page 1)  
workers will not get any pay increase because the June rise was not large enough to justify a change in their pay.

**The costs of services—doctors' fees, repair work, hair cuts—**remained unchanged on the average for the first time since March 1956.

**Housing costs** were unchanged between May and June for the first time since July, 1957.

**The lower home - owner cost offset** small increases in rents, house furnishings, home repairs and laundry, dry cleaning and utility bills.

**Transportation costs** rose 1 of 1 per cent largely as a result of higher transit fares in two cities.

**Scattered increases** in doctors' fees, hospital services and some toilet articles, boosted medical and personal care prices.

**Higher newspaper and TV set prices** led to a rise of 1 of 1 per cent in the reading and recreation category.

**There was no change** in new car prices largely because dealers were giving lower discounts or even withdrawing them.

**New car prices** have fallen steadily since the new models were introduced last fall.

**In May, the cost of living index** went up only 1 of 1 per cent to 123.8 per cent of the 1947-49 average with higher prices for gasoline and used cars leading the way.

**Meanwhile, Ewan M. Clague**, commissioner of labor statistics, said that if the Middle East situation does not worsen and bring about a war scare with resultant panic buying, consumer prices will top off and decline later this summer and fall.

**Clague said** in an interview there was no evidence of scare buying such as marked the Korean War period.

**BLAKLEY**  
(Continued From Page 1)  
fice to run the type of campaign that his opponents were running.

**"I am campaigning** for a second term solely on my record of accomplishments and constructive program for the future."

**One of Daniel's opponents**, Sen. Henry Gonzalez, said Daniel "not only botched the Texas tideland claim when he was in the Senate, but deliberately withheld the fact of Republican betrayal of the Texas claim for more than two years."

**Another gubernatorial candidate**, W. Lee O'Daniel, campaigned in the Houston area and will make a series of helicopter hops today through South and southeast Texas.

**Gonzalez, from his headquarters** at San Antonio, offered his services — if elected governor — as a goodwill ambassador to Latin America.

**"People,"** he said, "are less likely to stop you when you speak their language. I am qualified to speak every language spoken in Latin America—English, Spanish, Portuguese and French."

**"This is no idle talk** or pie-in-the-sky promise. If the Department of State is willing to sponsor my tour, if I am elected governor of Texas, I am available," he said.

**Milan, Italy**, which at one time set the fashions throughout the world.

**Not Guilty Plea Made On Charge**  
Johnnie Fuller, 530 Crawford, entered a plea of not guilty in Gray County Court this morning to charges of aggravated assault. His bond was set at \$500.

**The charges against Fuller** were filed by his wife, Mammie.

**Court House Is Closed For Funeral**  
The Gray County Court House closed its office doors this morning from 10 until 12 in observance of the funeral of Mr. Frank A. Jordan, father of Gray County Sheriff Rufe Jordan.

**Funeral services** were held at 10:30 this morning in the Duenkels-Carmichael Chapel.

**Couple Wants To Give Kids Away**  
SINGAPORE (UPI)—Jerome G. Forbes, 45, said today he and his wife have decided to give away their 10 children for adoption and start life afresh in Ceylon.

# Floyd Hunter Dies Today; Rites Slated

Floyd Hunter, 629 N. Sumner, owner of the J. Floyd Hunter Barber Shop, 101 N. Hobart, died this morning at 2 o'clock in Highland General Hospital. He had been in ill health since last November.

Mr. Hunter, born Feb. 4, 1903, in Coalville, Ark., was a long-time resident of Wheeler and had moved to Pampa from Mobeetie in 1956. He was a member of the First Methodist Church and of the Mobeetie Masonic Lodge.

Survivors include his wife, Mrs. Myrtle Hunter; two daughters, Verena and Regens, all of the home address; two sisters, Mrs. T. O. Hall and Mrs. Forest McKee, both of Dallas; one brother, Aubrey Hilburn, who resided in California.

Funeral services will be held in the First Methodist Church tomorrow at 2:30 p.m. with Rev. W. W. Adcock officiating. Burial will be in Memory Gardens under the direction of Duenkels-Carmichael Funeral Home.

Palbearers will be Travis Bradstreet, Bob Maghin, Bob Stiles, I. T. Goodnight, Glen Render, and Boyd Kennedy.

# Rogers Is Toastmaster Governor

M. G. Rogers has been appointed area governor of Toastmasters International, the Pampa Toastmasters Club announced today.

Rogers also made the winning speech in the Club meeting last night.

He is expected to assume his duties as governor during the coming week.

His "I Challenge You" speech netted him the loving cup award. George Crow, "Dub" Morgan and Van Jones were the opposing speakers.

The next club meeting, Tuesday, will be Guest Night. The Toastmasters plan a social outing for Aug. 18 in lieu of the regular Aug. 19 meeting.

# Senator's Son Is Killed

CONWAY, Ark. (UPI)—Authorities today tried to determine the cause of a plane crash that killed the son of Sen. John L. McClellan and three other men.

James H. McClellan, 31, a prominent Little Rock attorney, and three companions were on a practice flight when their rented four-seat, twin-engine Beechcraft Travelair crashed Tuesday in a cornfield, 10 miles south of Conway. The plane which did not burn, had taken off a short while earlier from a Little Rock flying service strip.

Other victims were J. R. Williams, 32, and Wallace Denman Hill, 57, both of Little Rock; and Harold K. Gilbert, 33, of Stuttgart, Ark.

The only known eyewitness to the crash, Ray Ray Cajigle, who lives on a farm near the Arkansas River, about a half mile from the crash site, said he saw the plane seemingly hesitate in flight, go into a spin and plunge to earth.

**Poses Conditions**  
Emphasis still centered on Parliament where a breakthrough in the voting procedure could lead to renewed violence and possible involvement of the American troops.

**Rebel leader Saeb Salam** could blow the situation wide open by ordering his followers to boycott the election.

**The opposition** has posed three conditions for attending the session:

—Election of a new president must be coupled with plans for a complete and immediate withdrawal of the Chamoun government.

—U.S. troops must get out of the country.

—There must be government reform to assure future presidents the same powers and no more as held by the present one.

**George Washington** presented a fire engine to Alexandria, Va., in 1775. He bought the engine in Philadelphia for \$400.

**Back BEN RAMSEY**

for **LIEUTENANT GOVERNOR**

BEN RAMSEY, a man of proven judgment and experience, says a majority of the people should not be taxed by a minority of the Legislature. Adoption of the Ramsey plan would separate the essential from the non-essential and thereby would provide needed protection to the public against burdensome taxation.

DEAR ABBY...

By Abigail Van Buren

DEAR ABBY: Is this question from a 13-year-old girl too foolish to answer? Nobody else has been able to answer it for me. On Sunday the people around our town will get out their lawnmowers...

so much you'd never believe it. My father-in-law snores like a horse and no matter what part of the house you move to you can still hear him. He also gets up every half-hour to get a drink or for other purposes and he slams the doors and bumps into things causing a terrible racket...

DEAR ABBY: Unfortunately, many people turn to God only when they want something, and they forget Him when they have it. Letters like yours should remind adults that youngsters are looking to us for guidance...

DEAR ABBY: Since when is a girl "from off the farm" supposed to be "green"? I happen to be a city girl myself, but when I was eleven I spent a summer vacation at my uncle's farm...

DEAR ABBY: I work in the composing room of a newspaper where the temperature is equivalent to that of a Turkish bath. There are about 50 men in here who like to have the windows open and the electric fans going. There is one woman who also works here and she says she is cold and has sinus trouble and can't stand the draft...

DEAR ABBY: My husband has taken up ham radio operating as a hobby and he would rather talk to a stranger in Syracuse, New York, than to me. He spends all his time on this ham radio and I am getting fed up with being ignored. Is there anything I can do to get his attention or should I hope he outgrows it?

DEAR ABBY: My husband has taken up ham radio operating as a hobby and he would rather talk to a stranger in Syracuse, New York, than to me. He spends all his time on this ham radio and I am getting fed up with being ignored...

DEAR ABBY: I think my poor mother-in-law ought to go to a hospital to get away from her husband and build herself up. I slept over there one night last week and she has to put up with

DEAR ABBY: My husband has taken up ham radio operating as a hobby and he would rather talk to a stranger in Syracuse, New York, than to me. He spends all his time on this ham radio and I am getting fed up with being ignored...

RUTH MILLETT

A mother who has just come back from visiting her married son writes: "What is the matter with these young wives? My son's wife lets him get up and cook his own breakfast. When he comes home from work, dead tired, she expects him to help with the children."

"She does housework at night she could do in the daytime if she didn't spend so much time on the telephone and having coffee with neighbors."

"I would think my son would have gumption enough to put his foot down — but whatever she says, goes. And as far I could see, all of her friends act about like she does."

Your son picked out his own wife. And she probably suits him just as she is. Hasn't it occurred to you that if he had any complaints he would make them? The fact that he doesn't complain must mean he is happy.

Today's young wives don't live exactly as did the wives of your generation. Whether their way is better or worse really isn't any concern of yours. You kept house as you pleased and your son's wife has a right to keep her house as she pleases.

You had your idea of what a wife should be and she has hers. Just let it go at that.

If you show your disapproval you won't change anything. All you will do is make yourself unwelcome in your son's home. Because no young wife is going to like having a disapproving mother-in-law around.

Next time you go to visit, look for things to admire in your son's wife instead of things to criticize. If you aren't willing to do that you ought to stay away.

Blending Several Shades Of Jewelry With Same Costume Fashion Note

Fashion has painted an exciting new fall picture from a glowing palette of color, advance market reports show. There is more bright and beautiful color being shown in fall suits and dresses than in many a season, according to the Fashion Coordination Institute...

The smartest use of color is to blend several shades in the same costume, the Institute points out. The wide range of new jewelry colors, from the deep glow of precious stones to the soft shades of fabulous facsimiles, make them a beautiful blending ingredient in this fashion scheme.

The new, free-form clothes with their feminine, away-from-the-neck collars have sparked an entirely new look in necklaces. They are shorter, fuller and more ornate to give a "filled in" look to the bare necked dresses and suits, according to the Institute. These new necklaces range from tailored types to shorter bibs of beads, stones

Sharp Group To Make Jelly For Children's Home

The Sharp Group of the First Christian Church met recently with Mrs. L. C. Wassell in her home in Cities Service Camp southeast of the city.

Mrs. Wassell opened the meeting with prayer, followed by a devotional, "They Like To Serve," given by Mrs. E. K. Haner.

Mrs. John Gill presented the lesson, "One Hundred Years In Jamaica."

During the business session, members voted to pick and can plums to make jelly for shipment to the Juliette Fowler Children's Home in Dallas.

Members brought items for the Hazel Green Academy in Kentucky. Refreshments of coffee, cake, and punch were served to guests, Mrs. George Taylor and Robert Trampe and to members, Mrs. Walton Bailey, Lloyd Laramore, O. H. Odum, Leon Howell, Arthur Crow, John Gill, L. C. Wassell, E. K. Haner and Buri Graham Jr.

The next meeting of the group will be with Mrs. C. C. Dunham 2123 Duncan on August 11 at 7:30 p.m.

dew tell! by Doris E. Wilson Pampa News Women's Editor.

(EDITOR'S NOTE: This is the fourth and final article concerning your job as publicity chairman for your club or organization.)

Please avoid the needle, when handing in a story about your club or organization. It can be a temptation, when handing a story to the editor, to casually mention that brother John, a big advertiser thought the editor would be deeply interested. If you succumb to this temptation, you won't be adding sunshine to the day.

Names make news. A person whose name appears in the paper in a complimentary way will buy, not one, but maybe a half a dozen copies.

Experience has taught editors that names, names, names help build circulation. So its well worth all the effort that may be required to submit ALL names of guests or members or delegates or other persons involved. Sometimes it isn't fitting to include full lists, but if in doubt, do it. You'll know if the list is too long.

Now, what about pictures. Requests for pictures should be made one day in advance and with the women's editor. No night appointments for social events are made. The time you may want your picture taken may conflict with a previous appointment, so we would appreciate your cooperation with picture appointments.

It's a new season — a new look — and a whole new approach to fashion, according to the Institute, with the sparkling new jewels glowing as one of the most glamorous, exciting accents of all.

Mitchell Play At PD Bridge Club

Pampa Duplicate Bridge Club met Monday evening in the St. Matthew's Episcopal Parish House, 727 W. Browning, with eight tables playing the Mitchell Movement.

Winners in the north-south positions were Mmes. Frank Roach and A. T. Parton, first; Mr. P. V. Rowe and Mrs. F. VanShoubrouek, second; tying for third were Mmes. Vella Hamilton, Earl Schmieding and Mmes. Ivan Noblitt, Ted Herriman.

East-west winners were Mmes. Thelma Grantham, Jess Clay, first; Mrs. H. M. Luna and Mr. Ted Herriman, second; Mmes. Janice Whisenhunt, Don Dorsett, third.

According to Mrs. G. F. Richmond, club reporter, next Monday night will be Master Point Night! The club members extend a cordial invitation to bridge players to meet and play with them.

Mrs. Isaacs Feted At Morning Coffee

(Special To The News) CANADIAN — Mrs. Sam Isaacs of Wichita, Kan., was honored with a coffee in the home of Mrs. Jack King recently. Mrs. Isaacs is a houseguest of Mrs. Paul Bryant.

Those attending were Mmes. Jess Lindley, E. H. Snyder, John Jones, Carl Studer, J. L. Yokley, H. S. Wilbur, Charles Teas, W. D. Fisher, F. D. Teas, Helen Tepe, and Paul Bryant.

Gen. George Armstrong Custer was graduated at the foot of his West Point class.

# Mideast Crisis To Cause No Shortage Of Gasoline

By HARRY WILSON SHARPE  
 WASHINGTON (UPI)—The nation's 75 million motorists need no worry about possible gasoline rationing as a result of the Middle East explosion.  
 Even if war with Russia broke out we would be in far better shape for oil supplies than in World War II when careful rationing had to be invoked.  
 Responsible government officials gave those assurances today through United Press International. They said in event all the Mideast's oil—27 per cent of the world's supply—were cut off the United States would have more than enough gasoline, fuel oil and other vital by-products to fill both domestic and Western European needs.  
 In addition vast supplies would be available from Venezuela, the Dutch Caribbean refineries and Mexico.  
 In case of war with Russia the Eastern Seaboard would be first to suffer shortages. It is almost entirely dependent on ocean-going tankers to keep its pipelines filled.

Tankers are vulnerable to submarine attacks as aptly demonstrated by U-boats in World War II. But the government has an ace in the hole.  
 It could pre-empt from present owners the Big and Little Inch pipelines running parallel from Texas to Pennsylvania to help keep the Eastern Seaboard supplied. These lines have a combined daily capacity of 435,000 barrels of crude oil.

## No Effect On Living Costs Anticipated

WASHINGTON (UPI)—The government's top expert on prices predicts the Mideast crisis will have little or no effect on the cost of living unless Americans go on a buying spree.  
 Ewan Clague, commissioner of the Labor Department's Bureau of Labor Statistics, said Sunday the cost of living might even "decline in a year or so" unless a Korea-like situation develops in the Middle East.  
 Clague recalled that when the Korean War broke out "people bought all kinds of things—things they didn't need"—thereby driving living costs up sharply.

They were built during World War II to ease the eastern supply crisis. The government sold them under a "stand-by" clause allowing it to reclaim them in an emergency. The Little Inch is now carrying petroleum products. The Big Inch is carrying natural gas but could be reconverted to oil swiftly.  
 The rationing lesson learned in World War II also has paid dividends in other areas. The Midwest, for example, is now fed by pipelines from Texas, Louisiana, Oklahoma and Wyoming. None of these existed in the early 1940s.  
 The West Coast has its own supplies and has nothing to worry about.  
 There is more than enough refinery capacity from coast to coast and from Canada to Mexico to meet all emergency gasoline needs. In addition domestic oil

# New Headgear All Furred, Feathered

By GAY PAULEY  
 UPI Women's Editor  
 NEW YORK (UPI)—Designers must have gone to the zoo instead of the usual museums to get inspiration for fall hats.  
 They've furred and feathered us with the new headgear.  
 In the fur department, we have our choice of a dozen or more varieties, from costly mink to a budget species of rabbit which resembles chinchilla. We can take our hats all fur, most of them with beret shape, or with fur trim. Hattie Carnegie shows an evening hat of gold mesh pixie crown with black fox fur brim. The milliner, Miss Alice, comes production, cut back sharply by inroads of foreign imports, could be stepped up quickly. This was illustrated by the 1956-57 Suez Canal crisis which forced Western Europe to get 90 per cent of its supplies from the United States.

up with a three-toned mink beret, combining skins of dark, medium and pale mutations. Price, \$195. Milliner Irene features a hat with accompanying long boa, both in cross fox. The set is \$295.  
 Monkey fur, which we wore in the 1920s, returns to fashion on fringed bonnets, toques, and giant picture hats.  
 The long-haired fox appears in a variety of colors—amethyst, shocking pink and sable brown. Flush nutria is dyed in rich tones such as red, moss green and violet.  
 In this fall's "Who's Zoo" you'll also find beaver, opossum, badger, lynx, civet cat, chinchilla and a moire-patterned Russian broad-tail.  
 Or, if you don't want to invest in fur, there are numerous fake furs at the nearest hat bar.  
 In the plume department, anything goes from tiny flat feathers to the curled ostrich plume with its big sweep around the nape of the neck. Some hats are entirely covered with swirls of feathers, others have trim of wings, plumes or tiny birds. For

The Federal Power Commission has approved a price of 99.39 and an interest rate of 4 per cent on 30 million dollars of bonds proposed by Northern States Power Co. of Minneapolis, Minn. In a separate action the commission authorized Northwestern Public Service Co. of Huron, S.D., to sell to present stockholders 59,532 new common shares at a subscription price of \$16.625 per share.  
 evening, jeweled headdress is trimmed with ostrich plumes, simulated aigrettes or birds-of-paradise.  
 The Millinery Institute of America listed six major types of hats for fall. They are the furred, the feathered, the forward on-the-brow, the bubble, the walking and the evening miniatures.

# Hot Spots 'Aplenty' In The Mideast

**Foreign News Commentary**  
by CHARLES M. McCANN  
UPI Foreign News Analyst

The Middle East is studded with hot spots that could inflame the present crisis.

Lebanon, Jordan and Iraq, of course, are the chief danger points.

But there are sensitive situations in such seldom-mentioned

places as Kuwait, Yemen, Libya and the Sudan.

In addition, there is great tension along the frontier between Turkey on one side and Syria and Iraq on the other.

Great Britain has been alarmed by the disclosure that Sheikh Abdullah As-Salim As-Sabah, ruler of its little protectorate of Kuwait, has conferred twice with President Gamal Abdel Nasser of the United Arab Republic.

Kuwait, on the Persian Gulf, is there is a strong Pro-Nasser element in the whole Middle East, and one of the greatest in the world. It has long been known that there is a strong Pro-Nasser element in Kuwait and as a precaution Britain is reinforcing its

troops in the neighboring kingdom of Bahrain.

**Kuwait Highly Important**  
Kuwait's oil is vitally important to Britain, a British commentator, discussing a possible blow-up there, has said that Kuwait is economically important to Britain because of its position in the Gulf, and its proximity to the Suez Canal.

Cairo dispatches say that Yemen, the belligerent little kingdom at the tip of the Arabian peninsula, has informed Arab League headquarters in Cairo that Britain is massing troops on its border "in preparation for aggression."

Yemen also has given this notification to the high command of the United Arab Republic, with which it is not affiliated.

Yemen has been attacking Britain's protectorate of Aden sporadically for several years, and openly hopes to take it over. Its allegation of British troop movements might be a build-up for new raids across the Yemen frontier at this time.

It was made known during the weekend that Britain has rein-

forced its troops in Libya, adjoining Egypt on the west.

**Stirring Up Trouble**  
Egyptian agents have been stirring up trouble in Libya ever since Nasser seized power in an attempt to undermine King Idris. Britain started reinforcing its troops when it received intelligence reports of a plot to overthrow Idris.

Relations are bad also between Egypt and the Sudan, adjoining it on the south. Nasser has tried vainly to lure the Sudan into his orbit. On Saturday, the Sudanese government expelled the counselor of the Egyptian embassy in Khartoum, the capital, on the ground that he had started effecting contact with subversive elements as soon as he arrived there four days previously.

In addition to these situations Syria has sent strong military forces to the Lebanese frontier in an obvious attempt to encourage the rebels there.

And Turkey has put its forces on the alert along its frontier with both Syria and Iraq.

**MONUMENT BILL**  
WASHINGTON (UPI)—The House passed by voice vote and sent to the Senate Monday a bill to authorize spending of \$7,500,000 to build a monument to World War II dead in the Pacific. Sponsors said the monument would be built at Corregidor in the Philippines.

**WHEAT CANCELLED**  
BUENOS AIRES (UPI)—Secretary of Commerce Jose Orfila said today the United States has cancelled the sale of 100,000 tons of wheat to Paraguay in accordance with a recent agreement with Argentina or controlled disposal of U.S. farm surpluses. He said the wheat would be provided to Paraguay by Argentina.

At the close of 1957, the total population of Canada stood at 16,900,000.

# Back Stairs At The White House

By DAYTON MOORE  
United Press International  
WASHINGTON (UPI) — Back stairs at the White House:

Calm and determined. This was the consensus at the White House of how President Eisenhower came through the first five days of the Mideast crisis. It was the general opinion of his aides, visitors and newsmen who covered his reading of a statement Tuesday for radio and television recorded for broadcast.

The President's demeanor at times was on the grim side understandably—but he appeared in good spirits nevertheless.

Maj. Gen. Howard McC. Snyder, the President's physician, was understood to be well satisfied with the way the chief executive was bearing up. As has been his practice since the President's heart attack in 1955 Snyder saw Eisenhower three times daily—at the start, midway and at the end of his work day.

The physician at no time during the five days noted any trouble signs, White House sources said. If there had been any Snyder would have subjected the President to a medical check.

The President has been undergoing about once a month at the White House a fairly detailed examination by Snyder and consulting physicians from the Army's Walter Reed Medical Center. They are not as thorough as head-to-toe checkups and findings of the physicians are not made public. The fact that the President hasn't been put through a complete physical examination at the Army hospital since last November supports statements of White House sources that nothing wrong has been noted in the monthly checkups.

The last public report on Eisenhower's health was made last December. It was based on "a thorough neurological examination" in December following the mild stroke he suffered. His general condition then was judged "excellent" and he was allowed to go to Paris for a North Atlantic Treaty Organization meeting.

During the first days of the crisis the President had to cut short his usual midday rest period. He was able to rest an hour or an hour-and-a-half most days instead of his usual two hours.

He also passed up the round of mid-week golf he usually plays. However he practiced each day, except Friday when it rained, for about 30 minutes on the White House south lawn. An aide said the President found the banging of 75 to 100 golf balls his most effective way to relieve tension.

# Pony Stars Rained Out

## Try Hereford In Loser's Bracket, 6:15

**Sports Spurts**  
WITH RICK PEZDIRTZ

Prospecting while wondering what ever happened to Scrabble!

A hearty thankew to Bill Jenkins, who's doing a whale of a job as official scorer and making like a one-man publicity outlet for the sub-District Little League Tournament now going on here. A Celanese worker, he's coining a few extra green-backs announcing the games for KHHH. He rates Pampa East the top club in the nine-team meet too.

Pampa's Don Prigmore, runner-up to Canadian banker, Harry Wilbur, in the annual City Tournament here last month, is playing in plenty of other tourneys this summer. The Baylor student is currently entered with Ed Moore of Odessa in 7th annual Amarillo Invitational Partnership meet, and Putt Powell rates the duet a threat for top marbles. Prigmore finished second in the shooting at the Plainview Country Club Invitational over the weekend with a 139, three strokes below par.

Put Cleo Bolin of Pampa down again for catching limits of Sand Bass while fishing under the lights at Possum Kingdom's Fox Hollow Camp.

And then there was the soldier who went ashore with the second wave at Normandy. The first one was married.

### After The Ball

Detroit's Frank Lary will be gunning for a 14-year mark tonight when he tries to beat the Yankees for the 6th time in one season.

Not since Hal Newhouser and Virgil Trucks, both of Detroit, did it in 1944 has an American League hurler topped the Bombers a half dozen times in any one season. Ed Walsh, the old Chicago twirler holds the all-time record, beating the Yanks eight times in 1908.

TCU all-American, Jim Swink, now sez, nope, he won't play football for the Chicago Bears. It's rumored the University of Chicago vetoed his application for medical school and the Bears too.

### Sims' Nags In Dough

At Sunday's races we saw Pampa's John T. Sims' horses finish in the money three times, although we won on only Moss Boer War to place in the third which is exactly what happened. He also had Kelley's Error place in the 11th race and Mary's Frank show in the 9th. Also in the third, E. L. Holmes of Pampa had his Cheeta Saleen show.

Did you know the 1958 World Championship outdoor motor races are going to be held on Lake McAlester, Oklahoma?

By the end of the year, 53,000 new swimming pools will have been built, 36,000 of those private pools. It's already a 22-million dollar business, this swimming pool building.

And that guy who first belched, "two heads are better than one," wasn't paying no \$1.50 for a haircut.

### Rebels Play At Berger

Rained out of a scheduled game at Amarillo Air Base last night, Coach Deck Woldt's Pampa American Legion Rebels will be setting their gun sights on win No. 5 at Berger tonight in an 8 p.m. tilt at Huber Stadium.

Still nursing their pride from a 2-0 shutout doled out by Stinnett's Domie Anderson, who gave up only three hits, the Rebels carry a 346 team batting average into the Berger game. Lefty Keith Yager is slated to open on the hill for the Pampa nine.

Pampa's district champion Hansen Post of Amarillo here Sunday at 2:30 p.m. and then travels to Amarillo next Tuesday night for a tilt with the Amjets of the Air Base there.

# Sub-District LL Semi-Finals Set For Today

## SPORTS

The Pampa Daily News

WEDNESDAY, JULY 23, 1958 51st Year

TAKE THAT—Pampa's Eastern Little League All-Star Rickey Stewart, left, takes a drop-kick at the first base bag on his way around the sacks after parking a pinch-hit grand-slam homer in Tuesday's Easterner win over the West LL Stars, 11-8. Stewart socked his grand-slammer in the fifth, and his blast provided the margin of difference. Standing with back to camera at right is West first-sacker, Mike Bridges. (Sports Photo by Wally Truesdell)

## Borger Hurler Posts 17 SO's; Pampa East Nips West, 11-8

By RICK PEZDIRTZ  
Daily News Sports Editor

The best was saved for last here Tuesday in Pampa's sub-District Little League Tournament. Borger Central's Mickey Cousins, a right-handed smoothie who had a snappy curve and a bewildering drop-ball, barely missed to a neat 7-0 one-hit shutout over cross-town enemy, Borger North, in the fourth game of a busy day.

More amazing than his one-hitter was the fact that Cousins hung up a brilliant 17 strikeouts in the six-inning Little League tilt, only one whiff under maximum.

Other Tuesday results saw Canyon clip Hereford, 7-5, in a morning engagement; Dumas dump Canadian, 10-1; and Pampa East outlast Pampa West, 11-8, in a homerun duel.

Today's semi-final matches call for Canyon and Dumas to hook up in a 3:30 p.m. tilt with Pampa East and Borger Central slugging it out in a 5:30 p.m. fray.

The two winners today will advance into District Tournament play at Canyon Friday against finalists from sub-district meets at Littlefield and Levelland.

Teams playing at Littlefield include Muleshoe, Childress, Floydada and Plainview. At the Levelland meet are Sundown, Ropesville, Norton, and Levelland American and Levelland National.

In the wrap-up tilt Tuesday, Cousins was helped out with a six-run fifth frame, with Curtis Whaley's two-run homer the big blast of the inning. The lone hit off Cousins was a clean single to right by Raymond Reinmankeera, in the second stanza. David Parkheist started and took the loss for Borger North, a 3-1 victor over Borger South Monday night. He was chased in the fifth in favor

of John Rynders who faced only two batters before being spelled by Ken Messinger who finished up.

Pampa East was never headed in chalking up its 11-8 decision over the Pampa West All-Stars of skipper Ronnie Cross. The Easterners snapped a scoreless game in the third with two runs on back-to-back homers by Kenny Miller and Charles Woods off losing hurler Jessie Washington.

Woods socked another solo round-tripper in the top of the fifth, and pinch-hitter Ricky Stewart unloaded a grand-slammer for the Easterners in the same frame as the winner's tallied half dozen runs for an 8-0 lead.

Washington slapped a three-run homer to pace a six run Western rally in the bottom of the fifth but three more East runs in the top of the sixth put the West down, 11-6, before Washington doubled home two more tallies in the home half of the sixth to chop down the edge to 11-8.

Dee Wright picked up the win for the East with a nine-strikeout and nine-walk pitching stint before giving way to Jim Arthur in the fifth. Gordie Shultz was rushed in to hurl for the West in the fifth, replacing Washington.

Western rightfielder Terry Holt ever, walked only three, half as many as Cousins.

Don Crosier was fabled with the loss and relieved by Ronnie Pierce during a seven-run Dumas' third stanza.

No homers were hit in the game, but catcher David Hamrick had 3 for 4, including a two-bagger, and rightfielder Jim Lollar had 2 for 3 with a double. Both play for Dumas.

Hereford's S. D. Baize also developed a two-run homer in the first, after Berry Gabbert had singled.

In the 10-1 triumph posted by Dumas over Canadian, Clyde Gregory spun a sparkling two-hitter and racked up 13 strikeouts in the process for the second-best pitching performance of the day, overshadowed only by Cousins' one-hit 17-whiff showing. Gregory, however, walked only three, half as many as Cousins.

Don Crosier was fabled with the loss and relieved by Ronnie Pierce during a seven-run Dumas' third stanza.

No homers were hit in the game, but catcher David Hamrick had 3 for 4, including a two-bagger, and rightfielder Jim Lollar had 2 for 3 with a double. Both play for Dumas.

## Hank Shakes His Slump With 4 Hits

By MILTON RICHMAN  
United Press International

The Milwaukee Braves feel they have a special pennant barometer in Hank Aaron, who is finally operating on the sunny side of the street after weathering some early season storms.

"When Henry's hitting, we're always in good shape," says Manager Fred Haney, "and when he's not, it suddenly looks awful gloomy."

Luckily for the Braves, Aaron is hitting better right now than at any other time this season. He soared to .305 when he enjoyed a

perfect night Tuesday night with four straight hits in a 2-1 victory over the St. Louis Cardinals.

Rain washed out the rest of the

SAKE DANCE! — Pampa Eastern Little League's C. E. Cantrell, left, appears to be doing a snake dance as he races across the first-base bag, safe on a fielder's choice in the first frame of yesterday's 11-8 Eastern win over the West. Cantrell later tripled and doubled for the winners. At right watching the play at second base is Mike Bridges of the West. (Sports Photo by Wally Truesdell)

## SAWYER STARTS WITH PHILS, ONE RUN DOWN

PHILADELPHIA (UPI)—Eddie Sawyer, recalled by the Phillies to replace Mayo Smith as manager, said today he was "relieved to be back in baseball even though I'm starting out one run behind."

Sawyer, who piloted the Phils in 1950 to their first pennant in 33 years, referred to his first 11-8 loss tonight, the completion of a game suspended last June 22 with the Phillies trailing the San Francisco Giants, 1-0, in the sixth inning.

General Manager Roy Haney announced the switch in managers with startling suddenness Tuesday without giving reasons for Smith's dismissal other than that "we thought a change was in order."

The bald, 47-year-old Sawyer said he thought he could "salvage something" from the team which lost nine of its last 12 games but refused to predict how high the Phillies would finish. "A lot of clubs now are getting hot," he said.

Sawyer has been out of baseball since June, 1952, when the Phillies

handed him his walking papers after four years at the helm. He remained in the Philadelphia area as a businessman.

Smith still had a dazed expression as he gathered his belongings, congratulated Sawyer and said goodbye to friends at Connie Mack Stadium.

### PICKED TO REPEAT

LOS ANGELES (UPI)—A magazine poll of sports writers has picked the world champion Detroit Lions and the Cleveland Browns as favorites in the National Football League Conference races this year. The magazine, Pro Football, polled 12 contributing sports-writers.

# Mrs. Lasker Works Full Time At One Big Job, Giving Money Away

By GAY PAULEY  
UPI Women's Editor

NEW YORK (UPI) — Mrs. Albert D. Lasker, one of the wealthiest women in America, works full time at one big job — giving her money away.

Why does she do it?

"You have to throw something back into the pot," said Mrs. Lasker, "matter-of-factly. My father taught me that. She was a civic-minded woman... very public spirited."

"It is a natural human trait to want to help to improve the community you live in, and your country. Each of us, our fates are bound up with all others. And if we get a breakthrough in cancer, heart disease, think how much misery there will be for

### ... Gives And Works

Mrs. Lasker, a handsome blue-eyed woman in her fifties, is president of the Albert and Mary Lasker Foundation, which is dedicated to medical research. Her husband, once a highly-successful advertising executive, liquidated his firm in 1942, two years after their marriage, and joined with her in forming the foundation. He died of intestinal cancer in 1952.

Since then, Mrs. Lasker has gone it alone — steering the foundation's underwriting of pilot projects in research on the major illnesses, including heart disease, mental illness and cancer.

But her work in support of science goes beyond spending money. She is a tireless campaigner for a better informed public on matters of disease, and a constant needler of the federal government to put more money in medical research.

"We spend 47 million dollars for one atomic submarine," said Mrs. Lasker, in an interview. "But you know how much a year we allot for research on arteriosclerosis, the number one circulatory killer? Less than two million."

**Cites Need For Money**

"Now don't get me wrong... we need to spend for atomic submarines. But not enough of our vast national wealth is going into medical research.

"We are dying of dumbness. There is so much un-investigated disease. And everyone in science is aware we have enough leads in cancer and heart disease to know we can find the cure, if we get the money."

**Started City Planting**

Mrs. Lasker holds numerous positions with city and national health groups and is on the board of both the American Heart Association and the American Cancer Society. She is the only woman member of the society's research committee.

As a memorial to her mother, Mrs. Lasker started a giant floral planting project in public places around New York, and in the traffic islands along Park Avenue — "a touch of lipstick for the city," she called it.

Now the city fathers have taken over the plantings, and that is the way Mrs. Lasker wants it. "The private citizen should be the sparkplug," she said. "But beauty is just good business. Look at Washington. The Japanese cherry trees attract 500,000 tourists each spring."

**United Press International**

The Ford Motor Co., the nation's second biggest auto maker, ran \$17,300,000 in the red in the first quarter, leaving net income for the first half of the year at \$5,400,000, or 10 cents a share. The company earned \$70,500,000 or \$1.30 a share in the second quarter and \$171,000,000 or \$3.15 a share in the first half of 1957.

**Continental Can Co. announced** it will supply aluminum quart-size cans for motor oil at prices competitive with present steel cans. The company will not seek to recover the used cans as scrap. Earlier this year Reynolds Metals Co. began supplying aluminum cans to Esso Standard Oil Co.

The House tentatively approved a bill to revive the government's authority to sell farm surpluses abroad for foreign currencies. The bill would authorize sale of an additional \$1,500,000,000 worth of surpluses and permit the Agriculture Department to give away additional surplus stocks to needy people overseas.

Americans spent an average of \$1,188 last year in retail stores for each person in the civilian population, according to the Census Bureau.

Per capita retail sales were highest in the West where the average per person was \$1,422; lowest in the South with an average of \$1,005.

I pointed out to her that there always would be some ailment to plague mankind.

"Of course we all have to die sometime," she replied. "But think of it... since 1937, medical science has given us an average of nine more years on our life span. That is quite a present of time, isn't it?"

**Started City Planting**

Mrs. Lasker holds numerous positions with city and national health groups and is on the board of both the American Heart Association and the American Cancer Society. She is the only woman member of the society's research committee.

As a memorial to her mother, Mrs. Lasker started a giant floral planting project in public places around New York, and in the traffic islands along Park Avenue — "a touch of lipstick for the city," she called it.

Now the city fathers have taken over the plantings, and that is the way Mrs. Lasker wants it. "The private citizen should be the sparkplug," she said. "But beauty is just good business. Look at Washington. The Japanese cherry trees attract 500,000 tourists each spring."

**United Press International**

The Ford Motor Co., the nation's second biggest auto maker, ran \$17,300,000 in the red in the first quarter, leaving net income for the first half of the year at \$5,400,000, or 10 cents a share. The company earned \$70,500,000 or \$1.30 a share in the second quarter and \$171,000,000 or \$3.15 a share in the first half of 1957.

**Continental Can Co. announced** it will supply aluminum quart-size cans for motor oil at prices competitive with present steel cans. The company will not seek to recover the used cans as scrap. Earlier this year Reynolds Metals Co. began supplying aluminum cans to Esso Standard Oil Co.

The House tentatively approved a bill to revive the government's authority to sell farm surpluses abroad for foreign currencies. The bill would authorize sale of an additional \$1,500,000,000 worth of surpluses and permit the Agriculture Department to give away additional surplus stocks to needy people overseas.

Americans spent an average of \$1,188 last year in retail stores for each person in the civilian population, according to the Census Bureau.

Per capita retail sales were highest in the West where the average per person was \$1,422; lowest in the South with an average of \$1,005.

"Tizzy isn't home, Herbie—unless your name is Richard!"

**United Press International**

**UNITED NATIONS, N. Y.** — Japanese Ambassador Koto Matsudaira, in offering a compromise resolution on Lebanon to the UN Security Council: "The responsibility of the council has never been more heavy. The seriousness of the situation in Lebanon and its consequences suggest that these are historical hours."

**JERUSALEM** — Israeli Prime Minister David Ben-Gurion on the threat imposed by Egyptian president Gamal Abdel Nasser: "In a complex world situation which is growing more and more complex, it is incumbent on us to increase our strength and guard our independence."

**DENVER** — C. S. Barnes, service station operator who pulled Stephen Oakford, 14, from a plane the youth crashed in a runaway attempt: "I started looking around for the pilot. I never dreamed that kid was flying."

**CHATAQUA, N. Y.** — Gen. Maxwell D. Taylor, Army chief of staff, in calling for conventional arms as well as atomic weapons: "We should not become identified as that nation which possesses only the big single stick of massive retaliation."

Natural gas occurs alone in many different sections, including the Appalachian, Rocky Mountain and Pacific Coast areas.

F. Scott Fitzgerald, the novelist, was born Sept. 3, 1896.

MIKE KOPPER

## Firm Has New Department Manager

Mike Kopper was on the job yesterday as a department manager for Montgomery Ward & Company, 217 N. Cuyler. Kopper arrived from Oklahoma City Sunday. He is the new manager of Ward's plumbing and building materials department.

For 10 months in the Oklahoma City Ward's, he was assistant manager of the plumbing and heating department. He was also assistant manager of this department in the Kansas City (Mo.) store. He began his Ward's career as a clerk in the hardware and electrical department of the Columbia, Mo., store.

In Kansas City, he was a member of the Junior Chamber of Commerce. Kopper and his wife, Sylvia, have two daughters; Sandra Dianne, seven, and Pamela Sue, nine.

Before going into the retail business, Kopper was a Fuller brush man. He spent five years in the US Coast Guard, leaving with the rank of quartermaster second class in 1948. For three and one-half years he served in the Pacific.

The Koppers are Baptists.

South. Fortunately for South, West looked over his hand carefully and led a trump. Now South pulled trumps with a second trump lead and played the ace and jack of hearts from dummy. East played low and South discarded a club instead of ruffing.

Now West shifted to a diamond, but it was too late. South went right up with dummy's ace and led the ten of hearts. East ducked quickly; there was no reason to cover and South simply discarded a second club. Now all he had to lose was one club and one diamond and the contract wheeled in.

South would have looked mighty foolish if West held the king-queen of hearts and East the ace of clubs. Also, if East held the ace of clubs the play would have made no difference; the hand would have been a cinch on any line of play.

But look what South had in his favor on his play. In the first place West would probably have led a heart if he held the king and queen; in the second place the odds are three to one against two of two cards appearing in a specific hand.

### SUSPENSION BEGINS

INGLEWOOD, Calif. (UPI) — Jockey Ralph Neves begins a 10-day suspension Wednesday because of careless riding last Saturday in the \$100,000 Westerner at Hollywood Park. Neves, riding Hillsdale, was blamed for interference after stewards viewed pictures of the race. The horse was beaten by a nose by Strong Boy.

## WATCH OUT FOR THE FAST TALKING SALESMAN

Every year about this time, out-of-town roofing salesmen make their appearance in this territory. Any reputable lumber dealer can tell you what happens next! People complain about being charged outrageous prices... complain about inferior materials and poor workmanship. And so we issue this friendly warning: Be on your guard against hit-and-run selling tactics... don't be high-pressured into buying a roof or a siding job at double regular prices... above all, get a quotation from your local lumber dealer... before you buy, make sure you know what you are getting. Any reliable lumber yard, including ours, will be happy to give you an estimate without cost or obligation.

### THIS IS WHAT YOU SHOULD PAY

<b>ROOFING</b>	<b>SIDING</b>
Roofing is sold by the bundle or by the square. It takes three bundles or one square to cover an area 10x10ft. An average size roof, completely applied, should cost a <sup>1</sup> / <sub>2</sub> out	Asbestos cement siding is the most popular type. This is also sold by the square. An average home, can be resided, including all labor or charges for as little as
<b>\$7<sup>03</sup> Per Month</b>	<b>\$12<sup>73</sup> Per Month</b>

### THIS IS WHAT YOU SHOULD GET

No. 1 quality Ruberoid tite-on 230 pound shingles. The latest colors and patterns (no discontinued lines or factory seconds). Applied by local workmen and sold by a local merchant who will be right here to back-up a guarantee of complete satisfaction.

Johns-Manville First Grade Asbestos Siding. All siding looks good when it's first applied. But it takes first quality material, skillfully applied, to hold up year after year. Because we're here in town to stay, we take pains to see that everything's okay. We want you to be a satisfied customer for years to come.

We will apply INSULATING SIDING on the average house including all labor and material, and insurance on labor,

<b>\$19<sup>17</sup> Per Month</b>	<b>36 MONTHS TO PAY</b>

## Yarborough's Disease

The recent visit to Pampa of the Walter Reuther candidate for the U.S. Senate, incumbent Ralph Yarborough, highlighted THE national sickness of our day for Yarborough is a man who thrives on this illness for personal advantage.

And to what sickness are we alluding? The "something for nothing mentality!"

We find considerable discomfort in the fact that many, many of our fellow citizens have become victims of this attitude which Sir Ernest Benn, years ago, explained was not a political philosophy but, like cancer, a disease for it enervates the individual's moral fibre and gnaws at the very vitals of a nation whose strength is in its tradition of liberty. The pernicious ruse by which the "something for nothing" mentality justifies its legalized class plunder is the "democratic process." In brief, if 51% of the voters sanction plunder by government, then plunder is proper.

Since labor is pain and man by instinct recoils from pain, the idea of getting something without a voluntary exchange of equivalent value appeals to the man lacking in a sense of responsibility. Plunder, whether committed by an individual or a government, usually makes life a little more pleasant in a materialistic way for the short run but, since nature understands no trifling with her order, she eventually rights the imbalance with an impersonal justice which is usually harsh. The robber, living-up the fruits of a few minutes' effort in a grand manner or the citizenry, consuming the fruits of others' labors through the tax collector, have their day of reckoning, both spiritually and materially.

Yarborough in his campaign over the state has primarily solicited support by telling the voters how he has helped them by backing government hand-outs, promising more to come and explaining that his opponent, Bill Blakley, is a questionable character because of his personal wealth. His proposition of playing the "poor boys" against the "rich oil men," of course, has the very strong aroma of an old fashioned demagogue.

Yarborough's opportunistic streak came forth in full color recently when he attacked Blakley because of Blakley's large interest in the ownership of Braniff Airways and because of the fact that Braniff received government subsidies of some size. That airlines should not receive subsidies, which would be a sound point, was not Yarborough's position but rather that Blakley's "share" of the subsidies ran into six figures. Of course if it were wrong in principle that subsidies should be paid Braniff, then it would be wrong in principle that the farmer receive his subsidy, that the pensioner be subsidized, etc. Such was not Yarborough's stand, however, which shows up well his demagogic ignorance.

Candidate Yarborough's attempt to sluff off CIO-AFL-Walter Reuther financial support during his last election as the small contributions of "workin' folks" would be laughable if it were not so patently a distortion of facts. The contributions of "workin' folks" made through unions are on a give-or-else basis with the union bosses holding the club of economic reprisal over their heads. That Mr. Reuther intends to utilize those elected officials indebted to him as a means of establishing a completely socialistic society is apparent from his own words. The public record still shows no disavowal by Reuther of his exultation to "build a greater Soviet America" made in the nineteen-thirties when he was visiting Russia and accepting the financial help of a Reuther makes Sherman Adams' accepting a vicuna coat and oriental rug look like a children's tea party by comparison.

We do not mean to imply that Yarborough is a vicious or even a calculatingly evil man. He is just a candidate for public office who wants to be elected so badly that he uses every means at his disposal to press for advantage. That his demagoguery is a powerful tactic to influence some people is beyond question. That the "something for nothing" disease on which he thrives is even a more important swayer of the baser human instincts is begrudgingly admitted and the power of the two combined is truly a force to reckon with.

Our advice at this juncture of affairs is to urge those voters not infected with Mr. Yarborough's "something for nothing" mentality to cast their vote for Bill Blakley as an effort to help restore in Washington the philosophy that government exists to protect our lives and property and not to plunder one group at the expense of another.

## BETTER JOBS

By R. C. HOILES

Will Believers In Strikes And Boycotts Test Their Beliefs By Answering These Questions?

I have been quoting for several days from a pamphlet issued by the Church Federation of Los Angeles on employer-employee relations. This pamphlet quoted largely from the National Council of Churches of Christ in U.S.A., opposing laws that would make it a crime for an employer to require all his workers to be a member of a labor union in order to hold his job.

1. Do any of the officers of the National Council of Churches, or anyone else, know of a national or international labor union that does not use strikes and boycotts or the threats of same as a means of getting their demands?

2. If they know of such a labor union, will they name it?

3. If all national or international unions use the threats of strikes and boycotts to secure working conditions higher than a free market, then is it not logical to conclude that to advocate membership in labor unions as they now exist, is to endorse strikes and boycotts?

4. Would it be a violation of the Golden Rule and the coveting commandment for employers in the same line of work to agree to simultaneously discharge all workers or threaten to do so in order to reduce wages?

5. If the answer to No. 4 is "yes," then is it not also a violation of the Golden Rule and the Coveting Commandment for wage earners to enter into an agreement to strike and boycott or threaten to do so in order to get better material rewards?

6. If that is not a violation of these laws, what would a group have to do to violate them?

7. In the long run, are the wages of one person the cost for another person?

8. Is not every worker supposed to produce his own wages by what he adds to the value of what he works on?

9. Do employers buy men or what the employer believes workers will produce that he can use for himself or resell to some customer?

10. Is not what every worker produces a commodity?

11. How can a fair price for what is produced be arrived at if all persons are not permitted to sell what they can produce to the world's highest bidder and buy at the lowest price?

12. Should not all men be permitted to produce anything they are capable of producing that others are permitted to produce?

13. If your answer to No. 12 is "no," then would we not have the caste system?

14. Can you name a single case where labor unions have reduced the cost of anything to a consumer?

15. Have labor unions ever directly added to the total wealth of the world?

16. Have they not greatly reduced production by strikes, featherbedding, by seniority, by limiting apprentices and by non-productive organizers?

17. If they have used means that reduce production and have never added to the wealth of the world, does it not seem reasonable to conclude that it is impossible for them to benefit mankind as a whole?

18. Does not it greatly improve man's well-being by specializing and exchanging the products of his labor with others?

19. Could man's standard of living be high if he did not exchange the fruits of his labor?

20. Is not labor unions' means of getting their wages up by interference with men's right to produce anything and freely exchange it with others by strikes, boycotts, limiting apprentices, membership, fines, dues, made-work not used by non-productive organizers?

21. Is it not rational to conclude that anything that interferes with the free and natural division of labor and the accumulation of more and better tools is harmful to mankind?

22. Since we now have a federal law that makes it a crime for an interstate employer to refuse to hire a union man, would it not also be fair, so long as that is the law of the land, to also have a law that makes it a crime for an employer to refuse to hire a non-union worker?

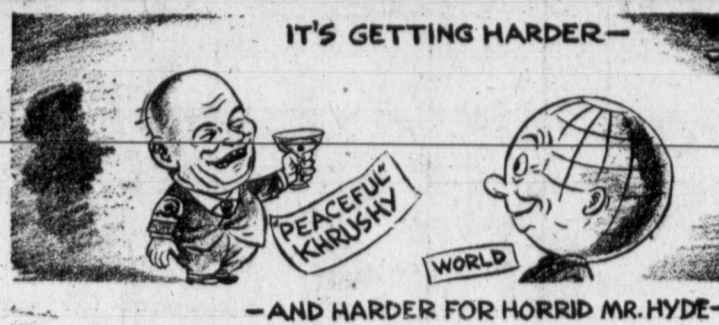

23. Is it fair, just and right to compel a worker to pay dues to a union that uses part of the dues he pays to promote laws that the member believes violates his interpretation of the Golden Rule and the Coveting Commandment?

24. Can an act that violates the Golden Rule and the Coveting Commandment be fair and just and right?

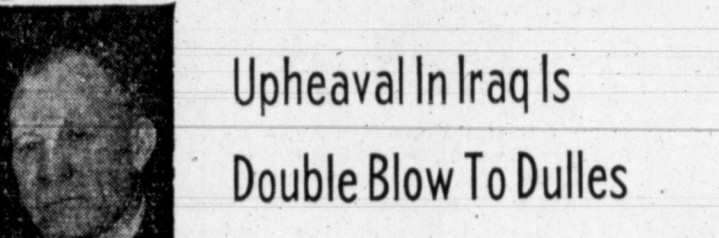

25. If allowing all men, not just some men, to help establish wages and prices is not a fair rule of principle of helping establish fair wages and prices then are workers to be selected on a non-competitive rule or principle? By lot? By seniority? By rotation? By the worker's needs? If by needs, then how will his needs be determined? By the government? By the church? By majority vote of those permitted to learn a trade? By paying all the same? If so, how will this wage be arrived at? By initiated force and intimidation or threats of same? Otherwise by what measurable, impersonal, eternal rule or principle are wages and employees to be selected?

The column's are open for answers to these questions which believers in voluntary Unionism would have no trouble to answer.

## Dr. Jekyll And Mr. Hyde

## Robert Allen Reports:

### Upheaval In Iraq Is Double Blow To Dulles

WASHINGTON — The sinister upheaval in Iraq is a double blow to Secretary of State Dulles.

In addition to gravely imperiling his entire Middle East policy, the ominous Iraq coup d'etat exploded in the midst of what appeared to be promising overtures for rapprochement with President Gamal Nasser.

Optimistic reports on that were received by Dulles, only a few days before the jarring Iraq overthrow, from Ambassador Raymond Hare, in Cairo, and UN Secretary General Dag Hammarskjold, who had earlier conferred with Nasser regarding the internee fighting in Lebanon.

Both Hare and Hammarskjold expressed belief that Nasser wanted to restore cordial relations with the U.S., and that such an understanding could be reached with him.

Basis of these backstage negotiations was the following quid pro quo: The U.S. to more than double economic aid to Egypt, from \$9,000,000 to \$22,000,000, and to relax restrictions on trade with that country.

In exchange, Nasser to cease his trading against and machinations to overthrow the pro-Western governments of Lebanon, Iraq and Jordan.

Assistant Secretary of State William Rountree, in charge of Middle East affairs, has told the Senate Foreign Relations Committee that Nasser denied he was endeavoring to destroy these three Arab regimes, and voiced "definite interest" in re-establishing friendly ties with the U.S.

This rosy account was given the Committee by Rountree as an argument against a move by Senator Theodore Green (D., R.I.), chairman, for a searching review of U.S. foreign policy, particularly in the turbulent Middle East.

The State Department is strongly against such a survey, on the ground it might disrupt "difficult and delicate private deliberations."

WHAT IT WAS ABOUT — Two points were stressed by Assistant Secretary Rountree in his Foreign Relations Committee discussion.

(1) Nasser had made a "favorable impression" on U.S. authorities by his visit to Yugoslavia and other recent moves; (2) the rapprochement plan would be immediately dropped in the United Arab Republic had incited new troubles in the Middle East.

"Many difficulties are present in dealing with Nasser," said Rountree. "But we hope there is at least a possibility of a change in his attitude so that conditions can be developed which will make it possible to establish a better relationship with the U.A.R. than exists at present. We would like nothing better than to improve our ties with the U.A.R."

"Is it contemplated to use foreign aid funds for that purpose?" Rountree was asked.

"We do not exclude the possibility of using such funds for an Egyptian program," he replied.

The violent anti-American propaganda of Nasser's radio and press was brought up. Rountree explained the State Department "has a tolerance" for these hostile blasts; also that they have been "toned down quite a bit recently."

The question was raised of Nasser's acceptance of "massive economic and military aid from Russia."

"Despite that," asserted Rountree, "Nasser is making an effort to pursue a neutral position in the East-West struggle. We feel that is clearly shown by the timing of his visit to Marshal Tito, soon after spending several weeks in the Soviet."

"It has been made clear to Nasser that there is no hostility on our part toward him because of his neutralism. We regret that, but we do not hold it against him."

Through-Ambassador Hare and Secretary General Hammarskjold, Nasser has been informed the U.S. wants better relations with the U.A.R., provided it does not undermine governments that are friendly to us in the Middle East.

"What happens if he does persist in doing that?"

"We would meet such a contingency with whatever measures are required," replied Rountree.

Throughout this significant discussion, there was no hint from Rountree of any awareness of an imposing upheaval in Iraq. He talked about strife-torn Lebanon and trouble-bedded Jordan, but did not once mention Iraq.

NOTE: A new batch of Russian "experts" arrived in Cairo last week. This "shipment" numbered more than 70, and included electronics and mining technicians. Intelligence sources estimate the Soviet now has upwards of 2,500 specialists of various kinds in Egypt.

SPRAKS — Under a bill approved by the House Veterans Affairs Committee, all holders of the illustrious Medal of Honor will receive \$100 per month for life. At present, they get \$10 monthly at the age of 65. The \$100 payment would be "in addition to any other pension or benefits to which the recipient may be entitled." Approximately 332 Medal of Honor men are still living, of which 67 are on active duty in the armed services; 44 in the Army, 14 in the Navy, 8 in the Marines, 1 in the Air Force. . . . Of the eight foreign medals listed in the Congressional Record as received by Major General Harry Vaughan, when he was a White House assistant of former President Truman, seven are under the caption, "Reason for award unknown."

## It's Up To You

by Howard Kershner  
L. H. D.

### Bishop Oxnam Forgets The Railroad Situation

Before us is a newspaper headline reading "Oxnam questions free-enterprise." The sub-headline reads: "He finds peril in 'stumbling-capitalism'."

We are not surprised, as Bishop Oxnam's record indicates that he has held these views for some time. His long association with "front" organizations have no doubt reflected his thinking along economic lines.

If communism or some form of left-wingism should gain complete control of our country, one wonders what the attitude of many would be. We can almost hear the Halleluiah Chorus proclaiming the New Day and telling us how long and ardently the singers had been working for it.

The Bishop is quoted as saying there was something radically wrong with "free-enterprise." The railroads are cited as an example. He ignores the pertinent fact that the railroads are not operated under free enterprise but rather under State and Federal control. Their difficulties have arisen from excessive control from which, among other evils, feather-bedding has arisen. All this comes from the absence of free enterprise and not because of it.

Bishop Oxnam refers to "the blockheads who have designed our recent cars" and speaks of them as "madmen who build cars so long they cannot be parked and so

## Hankering

### Mac Has A Few Private Opinions To Make Public

By HENRY McEMORE

Private opinions Made Public: It's a shame that the carpet Bernard Goldfine gave Sherman Adams wasn't a magic one. . . . Then they both could get aboard it and fly, away, off the front pages where, to state it mildly, they are becoming a bore. . . . Not even Shakespeare could have made the life of New England blanket manufacturer interesting reading for weeks on end. . . . as for Adams, his biography has all the warmth and charm of an icebox.

The ever-present article on sex in every issue of every magazine makes one wonder whether the information is offered as a public service or a shot in the arm for the circulation department. They're reminding of the technique used by the travelogues one-third scenery and two-thirds dusky maidens wearing next to nothing. . . . All under the heading of education.

Just as there is nothing more pleasing to the ear than a really good English accent, nothing is more depressing on the ears than a bad one. . . . Speaking of English accents, isn't it about time that some critic — expressed that my choice — expressed an opinion of those cozy commercials by Alfred Hitchcock? . . . They are as tough on the stomach as the suspicion he creates is on the nerves.

The amateur tennis racket is just that, only it should be spelled "racket." . . . The amateur players neither spin nor toil, but just keep wandering about the face of the earth, year after year, living off expense accounts, hand-outs, and what they can hustle. . . . They are the international freeloaders for sure.

When you hear people saying (as they always are) that the Russian people aren't behind their leaders, and despise the Kremlin as much as the Free World does, it might be good to remind them that that is exactly what was said of the Germans and Hitler. . . . It's hard to find an admitted Nazi in Germany now, but Hitler fought the world for many years, and that took a lot of backing.

If Elfrieda didn't miss on purpose, she should have. . . . After all, it was her money, already in the bank, that she stood to lose. . . . It's hard to believe that the girl, who came up with the right answers for everything from the

powerful that no man dare use the horsepower available. . . . Many will agree regarding the design of modern cars but the Bishop is barking up the wrong tree in railing at the meat who make them. They are made because the public prefers that type of car. There are plenty of smaller cars with low horsepower but the public chooses the larger and more stylish models. Would Bishop Oxnam tell us what would be accomplished if the "madmen" built the type of car of which he approves but which the public would not buy?

The Bishop calls for "eggheads" to build the kind of cars the people ought to have and not the kind they want. In other words, government should determine what the people should have and require them to buy approved products or do without. Many will not approve the dead-end to which Bishop Oxnam's proposal leads.

number of leaves on a eucalyptus tree to the name of King Charles' favorite aunt, missed the easy one she did.

The man responsible for flunking Trujillo, Jr., at Leavenworth should have a medal struck in his honor. . . . With this country bending over backwards, and then some, to try to please everyone in the world, the flunking came as a most refreshing surprise. . . . Of course, Pa Trujillo may get even with Uncle Sam by refusing to take his \$600,000 hand-out next year, but it would be worth it. . . . By the way, if Kim Rourke Junior Trujillo, who will get custody of Junior's children and Zsa Zsa?

Those who cry, "Break Up The Yankees!" should change their cry to "Break Up George Weiss," for the difference between the Yanks and the other clubs in the league is General Manager Weiss. . . . Branch Rickey gets the publicity as Mr. Baseball, but Weiss gets the job done.

Charles Bower, one of New York's big advertising men, says: "This is the great era of the goof-off, the age of the half done job — it is populated with laundymen who won't iron shirts, with waiters who won't serve, with carpenters who will come around some day maybe, with executives who's mind is on the golf course, with teachers who demand a single salary schedule so that achievement cannot be rewarded — with students who take chinch courses." He must have had a pretty bad day on Madison Avenue.

NOMINATED — Charles W. Yost, of New York, has been nominated by President Eisenhower to be ambassador to Morocco. He will succeed Ambassador Cavendish W. Cannon, who is resigning. Yost has been a career diplomat since 1920.

# Use the Want Ads to Buy or Sell Real Estate

CROWNED CRANE—An African, Crowned Crane sits for a portrait at Crandon Park Zoo in Miami, Fla. Its fine feathers would make any hal-cousin female envious.

## Legal Publication

STATE OF JOHN M. TATE DECEASED. PROBATE COURT OF PAMPA COUNTY, TEXAS. THE STATE OF TEXAS. COUNTY OF PAMPA. To those indebted to or holding claims against the Estate of John M. Tate, Deceased: The undersigned having been appointed Independent Executor of the Estate of John M. Tate, Deceased, of Pampa County, Texas, by Bruce B. Parker, Judge of the County Court of said County, on the 14th day of July, A.D. 1958, hereby notifies all persons indebted to said estate to come forward and make settlement, and those having claims against said estate to present them to her within the time prescribed by law at her residence, 109 North Wayne, Pampa, Pampa County, Texas, where she receives her mail, this 14th day of July, 1958.

Application for RETAIL LIQUOR PERMIT. The undersigned is an applicant for a Retail Liquor Permit from the Texas Liquor Control Board and hereby gives notice by publication of such application in accordance with provisions of Section 10, House Bill No. 77, Acts of the Second called session of the 44th Legislature, designated as the Texas-Liquor Control Act. The Retail Liquor permit applied for will be used in the conduct of a business located at 2214 Alcock St., Pampa, Texas, to be known as Alcock Package Store. Eugene C. Finkbeiner, Owner.

### Chuckles In The News

WACO, Tex. — No one is swimming in the Bosque River these days. Despite an intensive two-day search of the river by parties in boats, on foot, on horseback and in helicopters, Albert the alligator, who escaped from Central Texas Zoo at Waco Sunday, was still at large today.

Michigan was the first state in the Union to abolish capital punishment.

MAUD, Tex. — Justice of the Peace Paul Jones didn't succeed on his first attempt, so he searched the waters of Lake Texarkana every day for a month and a half. Monday, he proved the time-honored theory that persistence pays off by finding a walleye he had dropped in the lake six weeks ago.

## Elect Johnny Campbell

State Representative  
 87th District of Texas  
 I'm Basing My Campaign  
 On These Principles

1. Government should be laws, rules or principles and not people. Men should be instrument of government guided by principles.
2. Texas should take the lead in restoring state rights through exercising vital and able state government. The best government is that nearest to the scene of the governed.
3. Freedoms (Economic, Political, Academic, Religious) are in one bundle. One cannot be surrendered without jeopardizing the others.
4. Moral restraint is still a more powerful control than legal restraint. Passing more laws (legal restraint) is not always the right answer to solving our problems.
5. Economic justice can best be won by free men through a free enterprise system.
6. There are many necessary government expenditures but not all are sacred. Relating spending to equitable and reasonable taxation is necessary to prevent ultimate confiscation of property and incomes.

(Paid Political Adv.)

# Bill Blakley

This is **Bill Blakley** who believes a U. S. Senator should belong to ALL the people of Texas

Bill Blakley started life on an 80-acre homestead. He learned at an early age that it takes two things to succeed in this world: Hard work and the ability to earn more than you spend. Over the years, he has achieved outstanding success in many things — accounting, law, ranching and business. Because he worked his way up from the bottom, he understands the problems of all of the people. Now, as a candidate for the Senate, he stands ready to be a representative of all of the people. He will have no obligations to repay with political favors. He will be the U. S. Senator for all the folks in Texas, no matter where they live or what they do.

Bill Blakley started punching cows when he was 10. By the time he was 14, he was a full-fledged cowhand. Today he still works the spring and fall roundups on his West Texas ranch.

Bill Blakley was a political unknown when he announced that he was making his first bid for public office three months ago. Since then he has traveled from border to border to meet the people face to face.

Bill Blakley is sensitive to our people and our time. He thinks that unless we start fighting for the things we hold dear, we are going to lose them. He is prepared to make the fight.

Until a few months ago, Bill Blakley had never made a public speech. Since then he has put a lifetime of thinking into words, impressing everyone with his independent, sound views.

Gray County Bill Blakley Campaign Headquarters 705 N. Ballard. Phone MO 4-6848 (Old Pursley Motors Bldg.) We urge the help of Bill Blakley Supporters To Call and Help in This Campaign. Protect Your Rights. Vote on July 26.
