

OUTWARD TO THE STARS (24)—What Does It Mean?

By Don Oakley and Ralph Lane

Which will it be? A missile against a city or a mission into space? Man has nowhere to look for the answer but to himself. If he is worthy of the knowledge his mind has brought him, we need not fear the choice. If he is not, the Space Age may write his epitaph.

Viewed from an orbiting station, man will be able to see half his world in a glance and circumnavigate it in 90 minutes. For the first time, the idea of "one world" will—ought to—have real meaning. The conquest of space will of necessity be an international cooperative undertaking.

More than a physical challenge to man, space will pose moral questions—but only the old questions in new frames of reference.

On the other hand, man's adventure into space can benefit his world in many ways. Satellites could bring world-wide radio and television communication, extreme long-range weather forecasting. Gravity-free observatories, hospitals and research stations could orbit the Earth. New industries and opportunities, and a new face to life on Earth, should result from the terrific impetus given to science by the Space Age.

Looking heavenward, man of the 21st century will become ever more conscious of the unthinkably distant stars. Like his primitive ancestor before him, he will feel a closeness to them he has not felt for ages.

Man will ponder more deeply the question of other life in the universe, and his own place in this staggering prospect of infinite worlds. Someday the questions will be answered—not by him, nor by his children, nor his children's children—but someday.

Farm Income Is Ahead Of 1957

By BERNARD BRENNER  
United Press International

WASHINGTON (UPI) — The Agriculture Department reported today that farm income for the first nine months of 1958 will top the same 1957 period by 19 per cent.

This reminder that farm income is still running well ahead of last year's rate was expected to be particularly heartening to GOP candidates fighting for farm belt seats. Farm price levels have been declining since mid-April.

Top administration farm hands, headed by Agriculture Secretary Ezra Taft Benson, have been claiming that an upturn in the farm economy this year will produce a GOP gain in farm areas in the congressional elections this fall.

A spectacular rise in the early price index up to 266 per cent of the 1910-14 average on April 14 and brought average farm prices on that date to 87 per cent of the "fair earning power" parity price.

By mid-August, however, the price index was down to 251 and prices were averaging 83 per cent of parity.

The income report today was contained in the regular September issue of the department's periodical.

Department economists estimated farmers realized net farm income for January-September 1958 at an annual rate of about 13 billion dollars compared with about \$10,800,000,000 for the same period one year earlier.

The estimate was compiled by using preliminary figures for July and August and adopting a guesswork figure for September assuming it will show the usual seasonal change from August.

ATLANTIC CITY, N. J. — David J. McDonald, to his union's convention on negotiations next spring: "Stay with me kids—you ain't seen nothin' yet."

CHICAGO — Rita Hayworth, when asked by reporters how she managed to look so young: "I'm not so old."

LOS ANGELES — Gypsy Rose Lee, in a court where the judge suggested men remove their coats: "In this weather, anybody would want to peel."

Thirty TV Shows To Be Premiered This Week

Television in Review  
By WILLIAM EWALD  
United Press International

NEW YORK (UPI) — This week marks the turning point of the TV schedule, the point of the summer season, the last week in which reruns will dominate the listings. Starting this weekend, the three networks will premiere some 30 shows over seven days.

It was an incredibly bad TV summer, a swampland of soggy reprises. Many of the repeats were programs of inferior quality the first time around.

These — along with a fistful of game shows — made up the bulk of the schedule and threw TV into a three months coma.

Did viewers care? I would think so. One indication might lie in NBC-TV's "Buckskin," a Western of indifferent merit.

As sloppy and listless as it was, it wound up in the Nielsen top 10. It was new. There is, I suspect, some sort of lesson here.

The Way Out

Obviously, the economics of TV seem to make it impossible to carry on with the big money schedule of winter.

But some of the comparatively low-budget shows like ABC-TV's "Andy Williams Show" and "Stars of Jazz" and NBC-TV's "Steve Lawrence-Eydie Gorme Show" and "Jack Paar Show" would seem to point a partial way out. There's not necessarily a correlation between entertainment and buckets of money.

Thursday night on TV: Tex Gilliam of NBC-TV's "The F a c Dough" topped his bootle to the \$68,400 ... CBS-TV's "The Verdict is Yours" offering, "The People vs. Ashley," was strong on shouting and weeping, but not much on drama. The studio audience jury returned a verdict of innocent — on almost every show the jury seems to be made up of softies. Underdogs almost always win on the show.

I caught Johnny Mercer's duet with Andy Williams on "Jeepers Creepers" during the ABC-TV "Chevy Showroom" and thought it a charmer.

The Channel Swim: One of the shows shaping up for Ed Murrow's new half hour CBS-TV chat program, "Small World," will feature Harry Truman and Thomas Dewey ... Stubby Kaye has been added to the cast of "Love and Marriage," a show that'll probably be unveiled on NBC-TV after January.

Horse Gone  
Gene Barry, star of NBC-TV's upcoming "Bat Masterson," recently had his horse, "Shadow," stolen from a ranch where Shadow was being boarded — sounds like a case for Wyatt Earp ... Jack Linkletter is close to signing an exclusive contract with NBC-TV ... The casting director

of NBC-TV's "Swiss Family Robinson," a spectacular set for Oct. 12, is looking for a monkey who can throw coconuts.

Lou Edelman, packager of "Wyatt Earp," is whipping up a new western, "Wichita Town," with Joel McRea—NBC-TV will get first crack at it ... Has anybody noticed that in next Thursday's CBS-TV "Playhouse 90" drama, "The Plot to Kill Stalin," the role of Josef Stalin—who was from Tiflis, Georgia—who will be played by Melvyn Douglas, who was born in Macon, Georgia? Stalin's Georgia, it should be pointed out, is a section of Russia.

On The Business Scene

United Press International  
Cold weather stimulated consumer buying this week as total dollar volume rose 1 to 5 per cent over a year ago, Dun & Bradstreet reported. Gains appeared in fall apparel, television sets and linens.

The Air Force has made International Telephone & Telegraph Co. the prime contractor for a world-wide electronic control system for the strategic air command. The initial contract for the system over the next three years is understood to exceed \$150 million.

Short interest in stocks on the New York Stock Exchange declined by 158,807 shares to 5,646,414 during the month ending Sept. 15, the exchange reported. It was the second successive drop following a series of monthly increases from January to July.

The United Auto Workers has hinted it may set a strike deadline against Chrysler Corp. to speed negotiations for a new contract. Last Wednesday the UAW made a three-year settlement with Ford Motor Co.

Electric utility plants consumed 12,942,719 tons of coal in July, 5.3 per cent less than in July, 1957, the Federal Power Commission reported. Use of fuel oil increased by 10.7 per cent from the year ago figure to 6,101,749 barrels for the months.

Alcohol tax collections totaled \$251,812,000 in July, the Treasury reported, compared to \$243,922,000 in July, 1957. Tobacco tax collections amounted to \$154,207,266 for the month, some 8 million dollars more than a year ago.

White Deer Boy Receives Scholarship

(Special to The News)

LUBBOCK — Jose Duan Martinez, a Texas Tech entering freshman from White Deer, is the recipient of the 1958 Hiram Parks Scholarship.

Established in 1945, these scholarships are given each year to a high school graduate of Mexican descent by Mr. and Mrs. Hiram Parks of Lubbock.

Scholars receive \$500 each year for four consecutive years while attending college. The recipient is chosen on the basis of his need for assistance, scholastic record and promise of leadership.

Martinez is the son of Mr. and Mrs. Jose Martinez of Miami.

He plans to major in mechanical engineering.

Martinez was named one of the best students and citizens of White Deer High School by his principal and teachers. He was president of the student body, and a member of the Student Council, the school chorus and Future Teachers of America.

He won first place in the 1958 State Interscholastic League Meet slide rule contest. He was a three-year letterman in both football and track and graduated in the upper half of the class.

Other current holders of Parks scholarships are Rosa Elia Riojas, junior home economics major from Ropesville, and Raul Contreras, sophomore education major from Lubbock.

DETROIT — United Auto Workers President Walter Reuther, on talks today with Chrysler: "If they (Chrysler) are prepared to get down to brass tacks, I will stay there. If not, I will go to GM. The decision is up to Chrysler."

JACK MILLER ...D&D speaker

### Miller To Speak At D&D Meet

Jack O. Miller, District supervisor of the local office of the Railroad Commission of Texas, will be the guest speaker of the Desk & Derrick Club dinner meeting to be held at the Pampa Hotel, Tuesday at 7 p.m. His subject will be "Texas Oil and Gas Conservation History and Practices."

### First Aid Classes Registering

Registration for First Aid classes is now in progress in the Pampa Chapter of the American Red Cross. "Ten hours of your time will equip you to help your family or neighbors in time of emergency," according to E. B. Pennington, First Aid chairman.

### Boy Fact Surveys By Boy Scouts

Boy Fact Surveys are nearing completion with some 440 Cub Scouts and Boy Scout prospects turned in, according to Vernon Stuckey, Round Up Survey chairman for the Sante Fe District, Boy Scouts of America. Survey cards have been distributed to all Scouting units in the District and expansion meetings held to inform parents about the Scouting program.

Expansions completed are Pack 15, Lamar School area; Pack 20, Pampa First Baptist Church; Pack 110, Stephen F. Austin School. Pack 21 will complete its organization Thursday in the Baker School auditorium.

Meetings scheduled for the coming week are Pack 111, sponsored by the Pampa Optimist Club; Pack 27, Sam Houston PTA; Pack 22, Horace Mann PTA and Pack 1, Panhandle Lions Club.

### Round Up Camporee Set Friday

All new mavericks will be branded Friday at the Round Up Camporee, according to W. A. Morgan, District Camping and Activities chairman of the Adobe Walls Council, Boy Scouts of America. New boys will be branded with a rubber stamp.

### RAIN

(Continued From Page 1) tion measured 5.26 inches over a 24-hour period ending early Saturday. Other Texas cities reporting heavy rainfalls included Austin with 3.06, Galveston with 1.92, and Houston with 1.62.

Lighter rains were reported at Beaumont, 47; Brownsville, 46; Corpus Christi, 46; Junction, 27; Laredo, 06; Waco, 24; Victoria, 17; Fort Worth, 02, and Dallas and Mineral Wells, 01.

The weather bureau issued a warning that flooding will continue along Chambers, Cedar, and Richland Creeks for the next 24 hours. The streams are in the Dallas-Fort Worth area.

San Antonio Police Capt. L. G. Dunaway said flash floods from the city's rain-gorged creeks had subsided. He said streets closed during the downpour's height had been reopened.

300 Families Evacuated An estimated 200 families, evacuated in San Antonio because of high waters, were returning to their homes, he said. The rains at San Antonio were unofficially measured at four inches for the 24 hours ending at 6 a. m. Saturday. Skies were clear in San Antonio from mid-morning through Saturday night.

At San Marcos, flood waters rushing out of Purgatory Creek and Sink Springs subsided and 35 evacuated families were back in their homes.

A cloudburst drenched Rock Springs with nine inches of rain over a 24-hour period ending early Saturday, but E. E. Ellis, Rock Springs business man, said no families were forced out of their homes.

Bill Price, Ellis county sheriff's deputy, said creeks were in their banks and high waters on the streets of Waxahachie had gone down. He said 15 families evacuated during the peak of a cloudburst Friday were back in their homes. He described the rain floods in Ellis county as the "heaviest in 35 years."

Meanwhile, creeks near Lufkin in East Texas were reported over their banks after 5.98-inch rains Friday and early Saturday. Several streets were closed because of high water and some cotton fields were submerged.

Lightning struck and destroyed part of a house owned by Fred Packett, but no injuries were reported. Telephone service at Lufkin was temporarily disrupted by rain.

### Two Buildings For The Price Of One

A dollar goes a long way in Ault, Colo., where F. Charles Muth is superintendent of schools. Muth, a relative of Pampa's Emmett Lefors, was firm in his conviction, that two buildings could be had for the price of one, with the result that Ault has an educational plant said second to none.

CAT'S MEOW—Within sight of the nation's Capitol, this balloon vendor seeking prospective customers is engulfed by his wares. A parade was in progress when photo was taken.

### Perryton City Council Sets Record Budget, Grants Bid

(Special to The News) PERRYTON—The Perryton City Council approved a record \$559,200 budget for the 1958-1959 fiscal year, at its meeting Tuesday. Most of the increase will be for operation of the gas system, recently purchased.

The city tax rate was lowered from .125 to .110 following the revaluation of taxable property. At this rate, 90 cents will go for operation and the remaining 20 cents for bonded indebtedness.

Disbursement of the money will be \$281,590 for general disbursements, \$99,220 for water and sewer, \$162,230 for gas, and \$16,160 for the contingency reserve. Indebtedness will require \$40,100 of the amount allotted to water and sewer. Bond requirements and a reserve fund transfer will take \$22,750 of the gas department allocation.

General revenue is expected to amount to \$24,650, water and sewer receipts will bring in \$132,200 and gas revenue will be \$172,350. A breakdown of the general disbursements appropriation shows \$18,670 for administration, \$13,130 for secretary and finance, \$48,940 for police department, \$105,580 for street department, \$11,250 for park and pool operation, \$6,070 for fire department, \$1,800 for the airport, \$2,120 for buildings and land, and \$25,550 for trash department.

Dempster - Dumpster equipment and \$40,240 for secondary trash equipment. Also appropriated was \$5,260 to the warehouse department and \$3,310 for health and sanitation. Bond requirements will take \$66,600 of the budget and capital improvements will require \$36,190.

DEMPESTER DUMPSTER A \$19,414 bid for Dempster-Dumpster equipment was approved and will include 25 receptacle units and lifting equipment for the trucks.

Installation of the new units will completely modernize the trash hauling system in the business district of Perryton. The receptacles, to be placed in the alleys, can be picked up by the trucks, hauled to the dump grounds, and returned without any manual trash dumping.

A survey was made recently and the results of this survey will be used to determine the number of units to be placed in each block. Some blocks will need only one while others will require as many as three.

### H. M. Lomax Rites Set For Monday

Mr. H. M. Lomax died at 12:30 p.m. yesterday in Morgan Convalescent Home, Panhandle, where he had been since Monday. For a number of years he had lived with his daughter, Mrs. Ralph Chisum, 115 N. Warren.

Born in Mississippi on Jan. 11, 1869, Mr. Lomax moved to Pampa in 1910. He was a member of the Mary Ellen at Harvester Church of Christ.

He is survived by two daughters, Mrs. Ralph Chisum and Mrs. Loretta Killingsworth of Pampa; one son, E. J. of Abilene; one sister, Mrs. Lottie Williams of Spokane, Wash.; nine grandchildren and 17 great-grandchildren.

Funeral services will be held Monday at 2 p.m. in Duenkel-Carmichael Chapel with John Jones, minister of the Mary Ellen at Harvester Church of Christ, officiating. Burial will be in Fairview cemetery by the side of his wife, who died in 1946.

The pallbearers will be Hugh Layne, Robert Burns, Jim Perkins, C. Houchin, J. R. Bonner and Jerome Schmidt.

### Mainly About People

\* Indicates Paid Advertising

Sheila C. Chisholm and Wanda N. Urbanczyk of Pampa began classes last week at Benedictine Heights College in Tulsa, Okla.

The Court House Cafe now open New Hours: Sunday 8 a.m. to 4 p.m. Mon thru Fri. 5 a.m. to 9 p.m. Sat. 6 a.m. to 3 p.m.

Clyde Jones of Clyde Jones Motor Company, 119 N. Ward, left yesterday for Fort Worth to attend a dealer preview.

Oxygen equipped ambulances. Duenkel-Carmichael, MO 4-3311. Lorene Barton is now back at Charles Street Beauty Shop and invites her friends and patrons to call MO 4-2831.

Pvt. Billy Ed Cooper arrived in Bremerhaven, Germany Wednesday with the Second Armed Division from Fort Hood. His parents are Mr. and Mrs. W. H. Cooper, 610 N. Gray.

### State Rests Case In Hagan Trial

CUBERO, Tex. (UPI) — The state rested its case Saturday in the trial of C. O. Hagan, McAllen, charged in 24th judicial district court with conspiracy to defraud the state of \$146,816 in connection with veterans' land deals.

At the end of the season, trophies will be awarded for the best team in each league as well as to individuals. About 16 trophies will be awarded in all.

The Senior Commanders and Junior Commanders League will play Saturday mornings at the Garden Lanes. The Harvester Bowl will have the Quartermaster League Tuesday evenings. This league will be for junior high and grade school boys. The other two will be for high school boys.

At present the Post is sponsoring 24 teams. The Post will supply a tee shirt for each boy.

Both trucks are to be 1959 models and delivery is expected around October 15.

At the same meeting the council approved the purchase of a new squad car for the police department. Bids for the 1959 model car will be called for soon.

**THE SPACE AGE: YEAR ONE**—The year beginning October 4, 1957 saw man's first, faltering—yet spectacular—steps into the vast space surrounding his planet. The orbiting of Russia's Sputnik I on that date ushered in the year of the satellites, launched in connection with the International Geophysical Year. The successful ones, three Russian and four American, are depicted chronologically on Newschart above. But alongside these successes are recorded the numerous failures: five Vanguards and two Explorers. Any Russian failures still remain a matter of speculation to the West.

Besides the satellites, other developments included the discovery of an intense band of radiation above the Earth, currently being mapped by Explorer IV, the first American attempt at sending a rocket to the vicinity of the Moon in September; the Russian announcement that they had rocketed animals several hundred miles into space and returned them alive; and the successful launching of the British "Black Knight" rocket, putting that nation in a position to add its satellites to those of Russia and America. Space Age, Year Two? Probably the first attempts to send a man into space.

### Thad Urges Action By GOP

HOUSTON (UPI)—Republican state chairman Thad Hutcheson has urged local GOP leaders to take immediate action aimed at preventing the Democrats from necessarily getting the left-hand column on the general election ballot.

Hutcheson, in a letter to Republican county chairmen, said there is no provision in the election code for determining the position from left to right which each political party shall occupy on the ballot, "and the Republican party has as much right to the left-hand column as any other party."

The state GOP chairman urged local leaders meet with the county election board to arrange a drawing for places on the ballot. "Should the local officials refuse to give us fair treatment, consideration should be given to going to court in the county concerned," he said.

Hutcheson, at a meeting of the Republican State Executive Committee last July, suggested the GOP lost votes because the Democrats were customarily listed in the No. 1 column and Republicans were in No. 2.

**RIGHT NOW IT'S THEIR PLAYGROUND**—The crisis in the Formosa Straits doesn't seem to bother these children, who play on a pillbox at Makung in the Pescadore Islands, lying close to Formosa. The Nationalist-held islands are far out of range of Communist artillery trained on Quemoy.

### Railroad Shares Up Market Prices

By ELMER C. WALZER  
UPI Financial Editor

NEW YORK (UPI)—Railroad shares, with their best weekly gain since June 27, 1951, lifted the stock market into record high territory during the past week.

The market made its widest gains in the Friday session, especially in the last half hour of the day when the market was running at a rate of nearly eight million shares.

Sales for the week crossed 18 million shares for the fourth week this year. The average daily turnover amounted to 3,622,253 shares, against 3,146,136 shares in the previous week.

The rise in volume narrowed the gap between the 1958 and the 1955 sales totals. So far this year volume has amounted to 478,333,026 shares, best since 1955 when it was 478,720,588 shares. The year 1955 was the most active for the market since 1933.

Standard & Poor's index of 500 stocks reached an all-time high and the Dow-Jones industrial index missed by less than .1 of a point in equating its record top set on Tuesday at 526.57. It rebounded the week at 526.48 up 7.05 points from the close a week ago.

The Dow-Jones railroad average reached its best level since Aug. 22, 1957. It closed the week at 140.55 up 8.05 points from the previous week and the best gain for any week since the one which ended July 27, 1951 when the gain amounted to 9.48 points for that average.

The utility average hit a new 28-year high early in the week at 81.22 and closed at 80.96 up 0.60 point.

The average for 65 stocks in the three Dow-Jones averages finished at 181.64 up 3.92 points and a new high since Aug. 17, 1956.

The dollar gain in all issues listed amounted to \$4,263,000,000, bringing the rise from the year's low to \$44 billion.

The big push Friday got into action when the railroads reported their best carloading figures for the year and Standard & Poor's forecast a decided change in the railroad dividend picture, "which may occur before long, leading to early resumption of payment" on

a number of stocks and increased disbursements on others.

News was highly favorably all around. The street considered the automobile labor situation out of the way with the new Ford contract, and that was seen as paving the way for a broad business spurt in the fourth quarter.

Steel operations climbed to a new high for the year and gains appeared in most of the business indications, including automobile and retail trade. Personal income rose to a new record high rate. Home construction was setting the best pace since 1956.

Bonds eased further and money realized from sales of bonds was being pushed into common stocks.

Although cautionary signals were flying from the mainstays of most of the analysts, none anticipated a real wide break in the market.

### Inflation Is Bigger Threat Than Reds

By LYLE C. WILSON  
United Press International

WASHINGTON (UPI)—The Quemoy crisis has been getting the big headlines but thoughtful citizens realize that the clearest present danger to their future well being is something else.

That something else is inflation, the catastrophic reduction of the purchasing power of the U.S. dollar to buy the necessities of life. The Quemoy crisis is what FEAR used to call "iffy." If, for example, Red China tries to take the near-shore Nationalist islands there will be fighting between Communist and U.S. armed forces.

The Kremlin so wills it, that fighting would lead to all-out atomic war. "Iffy" is not the word for inflation nor for the money crisis which menaces the United States and every inhabitant thereof down to the lastborn infant. The immediate bad news which the citizens somehow do not seem to grasp is that a Republican administration voted into the White House on an economy pledge, has been unable to make good on it.

**Discuss Gas Tax Hike**

This administration conceded last week that the federal government would go in the red in this fiscal year by about 12 billion dollars. The impact of this over-spending on the value of the dollar in your pocket or your dollar in the bank could be severe.

There is nothing "iffy" about the accumulating fiscal year deficit nor about its impact on the dollar's purchasing power. The chilling fact is that the dollar already has shrunk by half in the past 20 years. It is a four-bit dollar now and going down.

The citizens may begin to get the word on inflation if the President and Congress are able to accumulate enough courage to try either of two moves—or to make both at the same time—which might check the inflationary spiral. One move would be to cut spending in a big way where it would hurt—in veterans' benefits and all subsidies, for example. The other would be to raise taxes, also in a big way. A hike in the gasoline tax is now being discussed.

The citizens would get the word, right enough, in such circumstances and, doubtless, turn enough heat on President and Congress to defeat the economies and

prevent major tax increases.

**Inflation Is Here**

Federal income taxes already are so high, however, that to increase them substantially would dangerously diminish personal purchasing power. T. Coleman Andrews, who was President Eisenhower's first commissioner of internal revenue, believes the U.S. middle class now is being taxed out of existence at current rates—a frightening modern version of the goose and the golden egg.

Andrews published last month a brochure showing what the combination of high taxes and inflation have done to the working man's take home pay purchasing power. Copies may be had from Economic Research Associates, 4 Iris Lane, Richmond 26, Va., at 25 cents and well worth it. They are \$6 for 100 copies in bulk.

If you had in 1939 an income of \$2,000, says Andrews, you would have needed in 1957 an income of \$4,806 to match your 1939 purchasing power. Of that \$2,806 increase, Andrews calculated \$2,051 had been absorbed by inflation and \$755 represented a loss to an increased tax bite. The \$4,000, 1939 man would have needed \$10,097 in 1957. By 1975, Andrews estimates, a \$10,558 income will buy what \$2,000 bought in 1939.

"In other words," Andrews wrote, "we've got inflation."

### Trade Group Files Petition On Increases

WASHINGTON (UPI)—The National Association of Broadcasters filed a petition Friday asking the Federal Communications Commission to block proposed rate increases for news teletypewriter services.

The association said rate increases proposed by Western Union and American Telephone & Telegraph Co. for private news teletypewriter services "might cause many small radio stations to eliminate or curtail their news services."

United Press International, the American Newspaper Publishers Assn. and the New York Stock Exchange have filed similar petitions with the FCC to suspend the increases due to go into effect Oct. 1.

UPI told the commission the AT&T increase alone would boost

### Quesada Will Head New Aviation Agency

WASHINGTON (UPI)—President Eisenhower will appoint his personal adviser on aviation matters, Lt. Gen. Elwood R. (Pete) Quesada, to be administrator of the new Federal Aviation Agency (FAA), authoritative sources said Saturday.

He also will name James T. Pyle, head of the Civil Aeronautics Administration (CAA), deputy administrator.

The appointments will be announced soon, perhaps next week.

The new agency, created by Congress earlier this year in a drive to make civilian and military flying safer, will supplant the CAA and the Airways Modernization Board.

Quesada, a retired Air Force general, heads both the modernization board and the President's Air Coordinating Committee.

Congress established the FAA in the wake of two collisions between civilian airliners and military jets that took 60 lives.

The staff of the new agency will include both civilian and military aviation experts to permit more centralized control over commercial, military and private flying.

The FAA also will assume some functions now assigned to the Civil Aeronautics Board (CAB) principally writing safety rules and standards.

### Quotes From The News

**"SLAMMER" SETS MARK**  
SEA ISLAND, Ga. (UPI)—Sammy Sneed set a record for the Sea Island Golf Course Friday when he shot a nine-under-par 63 to beat Paul Harney of Worcester, Mass., in a match being filmed for television. The match probably will be seen on ABC-TV's "All Star Golf" program sometime next February or March.

**THE PRESSES ROLL**  
NEW YORK (UPI)—More than half a million tons of newspaper were used in the United States last month, thus marking the first increase in consumption in 14 months, the American Newspaper Publishers Assn. said Friday. The estimated total U.S. newspaper use for August was 513,324 tons, the ANPA said. Newspapers reporting to the association used 387,560 tons, it said.

**THE "SCHOLAR"**—Raised to the simple life are barefoot pupils like Lester Byler, 12, who shyly peeks over his lunchbox, shaped like the barns of his folk—the Amish of Ohio's Geauga County. Fifty-nine pupils (the Amish call them "scholars") crowd into the one-room Huntsburg Private School where they receive education through the eighth grade—and no further. As Jonathan Miller, 36, school board treasurer, says, "We raise our children to work. Other schools are trying to put more men in the (boss') chair and less men on the job." The strict religious sect maintains six schools throughout the county.

### Playful Leopard Claws Trainer

HOLLYWOOD, Fla. (UPI)—Veteran wild animal trainer Rom-an Proske took the blame today for receiving a painful slash across the forehead and right eye from a three-year-old leopard.

"It was my fault," said Proske. "She was just playing."

The 100-pound female cat, named Fascination, reached through her cage Friday and clawed her trainer when he reached down to recover a broom that had fallen into two pieces as he was using it near the cage.

Proske was rushed from the North Miami Beach tourist attraction to a hospital here where he was treated and released. Doctors said the eyelid was cut but there was no damage to the eye itself.

## Net Farm Income Increases

**United Press International**  
 A farm income report issued by the U.S. Agriculture Department today showed net farm income of about 13 billion dollars for the nation's farmers during the first nine months of 1958 was approximately 19 per cent ahead of income during the same period last year.

The report was viewed as welcome news to Republican campaigners in the face of recent reports showing farm prices have been dropping steadily since mid-April.

The farm price decline—has affected the income picture. For the first half of 1958, the gains over 1957 were reported at 22 per cent. But the gains have dropped 3 per cent in the last 3 months.

The same report adds that farm operating costs continue to run above last year's levels.

A new hatchery report points to continued high-level production of broiler chickens and eggs with heavy supplies and relatively low price levels for producers.

The Agriculture Department report says commercial hatcheries produced more than 165,129,000 chicks in August, up 16 per cent from the same month last year and 59 per cent above average.

## Rodeo Club Sets Rodeo

**(Special to The News)**  
**PERRYTON** — The Perryton Rodeo Club met last week and completed plans to present a rodeo at the fairgrounds rodeo arena on Friday and Saturday with the performances beginning 7 p.m.

There will be a \$100 purse for each event, including calf roping, bulldogging, bull riding, bronc riding, bareback bronc riding and team tying.

A parade is planned for Saturday afternoon at 1:30 p.m.

A kid pony show will be held at 2:30 p.m. Saturday, with youngsters from five through 15 years invited to participate. The events include the barrel race, flag race, bull fight, clover-leaf barrel race, potato race, egg race, boot race and a bull riding event for boys from nine to 15 years.

A dance is planned following the rodeo, with music furnished by Carl Day and his orchestra.

## Fall Out Not Cause Of Leukemia, Says Scientist

**LEMONT, Ill. (UPI)**—A scientist at Argonne National Laboratory said a four-year experiment indicates there is little danger of bone cancer or leukemia in the present rate of fallout from nuclear bomb tests.

Dr. Miriam P. Finkel, an associate biologist at the laboratory, made the report on the effect of Strontium 90 on mice. The study was carried out under contract with the Atomic Energy Commission.

Strontium 90 is a product of nuclear explosions and when taken into the body, settles in the bone. A recent United Nations report warned up to 2,000 persons yearly might develop leukemia due to fallout.

Mrs. Finkel said she injected varying amounts of Strontium 90 into 810 mice during the four-year test. Another 150 mice were used for control and received non-radioactive injections.

"The lowest dose injected was above present fallout levels," she said. "It did not increase the normal incidence of bone cancer or leukemia."

## Citizens Help Active Woman

**MARION, Ill. (UPI)**—A citizens committee at Marion is campaigning to help a woman whose interest was in helping others before she was stricken with cancer.

Mrs. Joe De Frank contributed more than 1,000 hours of hospital service to hospitalized veterans at the Veterans Administration Hospital here where her husband is employed as a janitor.

When she wasn't busy at the hospital, she sparked drives for a dozen organizations for philanthropic and charitable purposes.

Then Mrs. De Frank was stricken by cancer. She has undergone five major operations, the last of which was for amputation of one leg at the hip.

The family's life savings have gone for medical expenses and they have mortgaged their home.

The citizens' committee is seeking \$700 to buy a specially designed artificial leg which would permit Mrs. De Frank to walk again.

Says Mrs. De Frank: "When I can walk again, I am going out to the hospital and help cheer up the patients. When I show handicapped patients I can walk, I believe it will boost their morale."

**MUSIC IN THE AIR**—Latest Paris musical invention is this pneumatic guitar, featuring an air-filled plastic cushion instead of the usual wooden frame. It's only one of a series of futuristic instruments designed by Frenchmen Francois Baschet and Jacques Lasry.

## Man Gets Okay On Hypnosis By Phone Service

**LONDON (UPI)** — The post office today gave Henry Blythe permission to set up a hypnosis-by-telephone service—the first of its kind in Britain. The post office runs the state-owned telephone system.

The hypnotist estimated it would take three six-minute sessions to put a fat person on a diet, make a smoker give up smoking or cure finger nail biting.

Blythe said his charge will be \$9 for each session.

Blythe, 60, said he will send customers "a very penetrating photograph" of himself.

"Then I shall tell them to sit firmly so there is no danger of falling off the chair—hold tight to the receiver and concentrate on the eyes of my photograph."

"Then I make my strong positive suggestions."

## PTA Meets Tomorrow

**(Special to The News)**  
**PERRYTON** — Bert Neeley has announced that the first meeting of the Perryton Parent-Teacher Association will be Monday. The meeting will be in the school auditorium at 8 p.m. and the introduction of all teachers of the Perryton schools will be the highlight of the meeting.

Mrs. Ruby Ripperton, public health nursing consultant from Austin will discuss school health problems. She was obtained for this program by Mrs. Gracie Pyles, local school nurse.

Piano selections will be presented by Francis Crawford and members of the Board of Education will also be introduced.

Movies will be shown in a hospital room for small children and Mr. and Mrs. Vernon will supervise this part of the PTA program.

Mr. and Mrs. Cecil Tevis, social chairmen for this year will be in charge of the social hour to be conducted immediately following the program.

Mrs. Alta McGarraugh, membership urges full attendance at this first meeting as membership in the group is a vital contribution to the welfare of the public schools.

A new feature at all PTA meetings this year will be a "suggestion box" at the registration desk, enabling all in attendance to contribute to the PTA program through questions and suggestions.

Mr. and Mrs. W. J. Miller are program co-chairmen for the year.

Mrs. Ruby Ripperton, public health nursing consultant from Austin will discuss school health problems. She was obtained for this program by Mrs. Gracie Pyles, local school nurse.

Piano selections will be presented by Francis Crawford and members of the Board of Education will also be introduced.

Movies will be shown in a hospital room for small children and Mr. and Mrs. Vernon will supervise this part of the PTA program.

Mr. and Mrs. Cecil Tevis, social chairmen for this year will be in charge of the social hour to be conducted immediately following the program.

Mrs. Alta McGarraugh, membership urges full attendance at this first meeting as membership in the group is a vital contribution to the welfare of the public schools.

A new feature at all PTA meetings this year will be a "suggestion box" at the registration desk, enabling all in attendance to contribute to the PTA program through questions and suggestions.

Mr. and Mrs. W. J. Miller are program co-chairmen for the year.

The Pampa Daily News YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

Firing Line Fear

We have long held to the view that if the politicians themselves, those who personally hold down jobs in the federal government, were to be the front rank of any army engaged in action, the incidence of war between various nations would be sharply reduced.

Invitation To Think

It is undoubtedly true that the founders of our national government had in mind an organizational structure in which the individual was supreme and the government was to be nothing more than a servant of the individual.

BETTER JOBS

By R. C. HOULES Is Management Doing A Good Job For The People?

I want to continue to give evidence that certain managers are not doing a good job for the people. In the last issue I was quoting from a speech made by the president of a big company before a Rotary Club on "An 11-Point National Policy."

It seems he contradicts himself right there about not having anything that will give socialism an advantage over free enterprise. For the government to tax American people to give foreign aid, either to free-enterprise governments or to socialistic governments, is a means of promoting socialism.

On The Face Of It!

Robert Allen Reports:

'Statehood' Is The Magic Word In Alaska

Robert S. Allen is on vacation. During his absence, his column today is by Robert Atwood, former editor in Alaska, on that State's historic first election for congressional and state offices.

Down South

By Thurman Sensing

FUND AGAINST THE REPUBLIC The news that the Fund for the Republic may soon die of lack of funds is great news for the American Republic. Since it was set up six years ago, with a \$15 million nest egg, the Fund has been a rich uncle for the forces creating confusion in this country, especially in the Southern states.

Hankering

By HENRY McEMORE

After twenty-five years of fighting a bulging waistline, I have finally found the perfect diet. Have your wife have a baby. Bay windows and babies don't go together. They are incompatible.

The Doctor Says:

Dr. Edwin P. Jordan

It has been a long time since I have written about typhoid fever because this disease is relatively uncommon now in North America. Actually, typhoid exists primarily in those areas where sanitation is poor.

McLemore Has Finally Found The Perfect Diet

By HENRY McEMORE

I read the other day that climbing stairs is more strenuous exercise than playing football or boxing. As Megan spends most of her time on the second floor, I climb the equivalent of twelve Washington Monuments a day.

CHURCH CONFERENCE SET

DENVER (UPI) — About 10,000 persons are expected to attend the annual assembly of the International Convention of Christian Churches here next summer. Delegates will come from every state and 64 other countries to attend the meeting Aug. 28-Sept. 2, according to the Rev. Maurice F. Lyle, executive secretary of the Colorado Christian Missionary Society.

Reciprocal Trade

And he shows by his statement that he believes the government should have the power to determine on what terms a private citizen or corporation can exchange goods and services with other people throughout the world.

Manufacturers are discovering that their distribution facilities have been neglected. They are sending top officials here to see about correcting it. They are arranging for warehousing and the services that go with wholesaling on a big scale.

The impact of statehood was tremendous throughout the U.S. Curiously, it was accepted as a fact by the people in the 48 states, but the people in the new 49th state were still confronted by one more hurdle. They still had to vote in three elections.

Statehood enthusiasts went back to work, happy at the prospect of winning the American form of self-government. But some doubters made their appearance. They asked questions. Some of the questions were such that they started rumors.

The rumors spread the feeling that all was not right with statehood. They played on the selfish instincts that are found in many people. What will statehood do for me? How will it improve my life or my job? What obligations will it put on me? What will it require in the way of additional taxes?

Anti-statehood people found the rumor factory a handy gimmick to spread fear and dissension. The word was spread among Indians and Eskimos that under statehood they would be placed on reservations; would lose their land and fishing rights.

This is impossible because of protective clauses in both the Act of Congress and the state constitution. But the rumors spread. Some were led to believe the increase in postage rates was because of statehood.

Some federal employees feared

statehood would mean their jobs would be abolished, or their pay would be cut and taxes increased. Territorial employees feared they would lose their jobs in the transition from territorial to state government.

The statehood advocates found they still had a campaign to win if Alaska were to accept the offer of statehood. Hundreds of them volunteered their services in informational programs. Speakers were dispatched to public meetings. Radio and television forums were held. Newspapers, several of which had previously opposed statehood, got on the bandwagon editorially.

Under territorialism no strong party had ever been possible. Most of the leadership was sent to Alaska from the states. Consequently, the Alaskans had only limited opportunity to develop their own leadership.

The Democrats came up with a long list of candidates for the 40 seats in the state legislature, plus five more. These were two senators, one congressman, a governor and secretary of state.

The Democrats have been the prevailing party in Alaska most of the time since the Roosevelt landslide of 1932. They have their leadership pretty well developed. Actually, they have too much leadership and not enough followers.

The Republicans are in the opposite situation. They have held office infrequently. Their party machinery has disintegrated. They have no recognized leadership when it comes to candidates. They must solicit their members to run for office. This is not easy.

Most Republicans, having had little chance at public jobs since 1932, have learned how to make a living successfully in private business or professions. It is not easy to talk a successful businessman into changing his career in order to run for public office.

Probably the hottest battle in the general election is between Republican Mike Stepvich, who resigned as appointed Governor, in order to run for the U.S. Senate, and Dr. Ernest Gruening, who was Governor for 13 years, and who during the past year was one of Alaska's provisional "senators" seeking statehood in Washington.

Each candidate agrees it is a tough race. Each is optimistic of victory. Gruening was already campaigning vigorously while Stepvich was still moving his family out of the Governor's mansion at Juneau and back to their old home at Fairbanks.

Stepvich has proven a mighty popular man. He is expected to draw a big vote. He looks younger than his 39 years, has a pleasing personality, and wins the hearts of Alaskans wherever he goes. As Governor he went everywhere. He expects to attract many of the 19-year-old voters who, under the State constitution, will vote for the first time in their lives.

The youngsters are expected to be a big factor in the election, and the politicians have no way of knowing which way they will go, party-wise, candidate-wise or age-wise. It is generally conceded, however, that 19-year-olds consider 39 "old age," and Stepvich's sup-

labor leaders are solid in the Democratic column, but past elections have shown that not all their members follow their lead.

Delegate Bartlett's re-election is a sure thing. He has only taken an opposition to the Republican side. The only other important battle is for Governor. The Democrats had three candidates in the primary who busily sniped at each other. The Republicans have John Butrovich of Fairbanks, dean of the territorial legislature with 14 years of experience. Butrovich is unquestionably a strong contender in this race.

Thus Alaska's progress under statehood is way ahead of her politics, and is ahead of even statehood itself.

porters hope they think 39 is "old enough."

This is because Gruening is 72. He doesn't look or act that old. He is physically vigorous and mentally alert. Even many of his political enemies admit that he has one of the greatest minds Alaska has ever seen.

Gruening has many strong supporters, but he also has some vigorous opposition even among Democrats. When he was Governor, he was not noted for tact or diplomacy. He offended many, often the entire party leadership. The wounds of his days as Governor are still festering in some quarters.

The question is how much of the Democratic vote has Gruening alienated?

Labor leaders are solid in the Democratic column, but past elections have shown that not all their members follow their lead.

Delegate Bartlett's re-election is a sure thing. He has only taken an opposition to the Republican side. The only other important battle is for Governor. The Democrats had three candidates in the primary who busily sniped at each other. The Republicans have John Butrovich of Fairbanks, dean of the territorial legislature with 14 years of experience. Butrovich is unquestionably a strong contender in this race.

This is because Gruening is 72. He doesn't look or act that old. He is physically vigorous and mentally alert. Even many of his political enemies admit that he has one of the greatest minds Alaska has ever seen.

treatment for typhoid fever once it has been contracted. Today certain antibiotics, however, have been reported on favorably.

Prevention by proper sanitary methods is particularly important. Those who recover from typhoid are fortunate and generally remain immune or resistant throughout life.

In addition to improvements in methods of disposal of sewage and in guarding the drinking water against contamination with the germs, we now have an additional method of fighting the disease. This consists of a vaccine which should be given to anyone who is likely to be exposed to unsanitary living conditions.

The vaccine does not prevent typhoid absolutely, but it does increase the body resistance so that there is far less risk of contracting the disease.

It has been used in both World Wars and is undoubtedly partly responsible for the exceedingly small number of cases of typhoid which have occurred in our fighting men in the last two wars.

# Rangers Humble Canyon Eagles

CANYON, Sept. 19 — The mighty Rangers of Perryton turned back the Canyon Eagles, 32-6, here Friday in a hard-fought battle of the Class AA squads. The loss marked the first of the season for Coach Bill Davis' Eagles.

Perryton pushed to its first score the second time the ball was in possession. They drove from the Canyon 46-yard-line to a touchdown in ten plays. Still in the first quarter, Perryton kicked off, and then capitalizing on a Canyon fumble on the 28 yard line and moved to score in five plays. Perryton's third touchdown drive got moving 28 seconds before half-time when the Rangers intercepted a Canyon pass on the Perryton 45. They then used five plays in reaching paydirt.

In the third quarter, Perryton tallied the second time the Rangers has the ball. Starting on the Canyon 46, the Rangers moved to the end zone in seven plays.

Canyon's lone tally came in the final stanza when a Perryton punt went out of bounds on the Perryton 35. The Eagles battled to the goal line in eight plays.

Perryton's last score came when, sparked by a 21-yard gallop of Tommy Ellzey, they covered 48 yards to the goal.

and delivering a wild pitch.

Frank Lary, who didn't give up a hit until the fifth, set up the Tribe rally in the opener by hitting leadoff batter Rocky Colavito on the arm. Pinchhitter Hal Naragon singled him to third and with one out, Colavito scored on an infield out. Billy Moran, running for Naragon, took second on the out.

Jackson, trying to get out of the way of a pitch, had the ball hit his bat and sailed over first, scoring Moran with the winning run.

Al Kaline, Gail Harris and Johnny Groth put successive singles together in the first inning for Detroit's lone run.

# Tigers Dip Indians, 4-1

DETROIT (UPI) — Southpaw Billy Hoelt Saturday kept the Detroit Tigers in sole possession of third place by pitching the Tigers to a 4-1 victory over the Cleveland Indians after the Indians moved into a temporary tie by winning the first game, 5-1.

Pinchhitter Randy Jackson capped Cleveland's two-run ninth inning rally in the opener with a two-out game-winning single.

Hoelt held the Indians to five hits in the second game. Vic Power's 16th homer in the fourth inning spoiled his shutout.

Frank Bolling singled across two runs as the Tigers did all their scoring off starter Gary Bell in the third inning. Nine men went to bat and Bell added the Tiger cause by walking three men

# White Deer, Lefors, McLean Still On Top

## Bucks Maul Spearman In 56-0 Romp

The mighty Bucks of White Deer rolled to one of the most impressive wins of the season here Friday night as they crushed the Spearman Lynx, 56-0.

Opening the scoring, substitute halfback Charles Jackson galloped 62 yards in the first minute of the game for the first White Deer tally. A running attempt for the extra point failed.

Six plays later the Bucks again rolled as quarterback Jackie Burns connected with end Ronnie Cade for 29 yards and the second TD of the game. Halfback Don Driscoll carried for a two-point conversion.

After holding the Lynx in three downs the Bucks scored again as Charles Jackson climaxed a 57-yard push by plunging over from one yard out. Powell carried over for the two extra points.

On the first play of the second period Powell drove 24 yards off-tackle for another White Deer score and this time Don Adams accounted for the extra on a running play. Midway in the period Don Adams came next in the scoring column as he rounded end for 15 yards. The conversion attempt failed. Just before intermission Jeff Bearden grabbed a fumble in the air and raced 27 yards for another TD. Adams added two points on a running play and the half ended with White Deer in front 44-0.

The Bucks then scored in each of the last two quarters, with Powell going 36 yards for the first and Adams going 67 yards for the second. Both last-half extra point attempts failed.

POSSESSIVE—A football team can't score without the ball and Navy stalwarts intend to keep their eyes on it this fall. Three backs dive for a loose pigskin in practice at Annapolis. They are, left to right, Bob Correll, Joe Bellino and Roland Brandquist. Middies look good.

## Pirates Roll Over Sunray

The powerful Pirates of Lefors waltzed to another easy victory Friday night as they pounded by Sunray, 30-0, before 1000 fans on the Bobcats' home field.

The Pirates' amazing quarterback, Tommy Johnson, not only engineered his team but managed to score all 30 points for the Lefors eleven.

Johnson broke the scoring column first in the second quarter when he carried over from four yards out, gaining the two conversion points by running the ball over. He scored again later in the second period and again carried over for the points after.

Idle then until the final stanza, Johnson tallied again from 13 yards out and again ran over for the extra point. In the final score he carried over from the Cats' six yard marker. The final attempt for the extra point failed.

The victory marked the second for Coach H. W. Callan's gridders, who took their open date the first night of the season. The Bobcats loss was their third for the season.

## Tigers On Top, 12-0

Playing on a soggy, rain-soaked field, the surprising McLean Tigers pushed to their third straight victory of the season here Friday night by dropping the Groom Tigers, 12-0.

Scoring in the early minutes of the first quarter and the late minutes of the fourth, the McLean gridders kept the Groommen from a serious threat throughout the entire contest.

Billy Crockett, the Tigers hard-charging fullback accounted for both scores. He accounted 13 yards off right tackle for the first and crashed one yard over right guard for the second. Running attempts for both points about failed.

Both teams were hampered during the game by the afternoon rains, about three hours before pushed to the McLean 20 yard line once and to the 30 marker twice during the contest but were unable to penetrate deeper.

McLean has its open slated next week before opening district action against the Canadian Wildcats the following Friday night.

## Lamar Tech Game Cancelled

BEAUMONT, Tex. (UPI) — A non-conference football game between Lamar Tech and Northwestern of Natchitoches, La., scheduled for Saturday night, was rained out.

A heavy rain covered the field with as much as four inches of water in spots. Officials said an attempt would be made to reschedule the game.

## Florida Whirls Past Tulane In Southeastern Opener

Florida scored again before Tulane ever obtained possession, grabbing an onside kickoff on the Green Wave 42 yard line. Newbern climaxed the scoring drive with a 21-yard touchdown romp around left end.

After an exchange of punts, Deal, behind some fierce blocking, broke into the clear and outran the secondary 67 yards for Florida's third touchdown of the half.

Florida scored twice in the second half on passes, a 37-yard toss from Eilenburg to end Dan Edgington and a 17-yard pass from quarterback Jim Rhyne to halfback Russell Dilts.

Score by Periods

Florida	6	14	7	34
Tulane	0	0	14	14

Scoring: Florida — Deal 12 pass from Eilenburg (run failed); Newbern 21 run (Dunn run); Deal 67 run (run failed); Edgington 37 pass from Eilenburg (Hergert kick); Dilts 17 pass from Rhyne (Hergert kick). Tulane — Colon recovered fumble in end zone (pass failed); Abadie 5 pass from Nugent (Nugent pass).

## Battle In Golf For Top Money

DUNEDIN, Fla. (UPI) — A close, three-way battle is developing between Arnold Palmer, Bill Casper Jr. and Ken Venturi for professional golf's money-winning championship.

Official statistics released Saturday by Harold Sargent, president of the Professional Golfers' Assn., reveal that Palmer, a 29-year-old Coast Guard veteran from Latrobe, Pa., is still in front with earnings of \$41,127.50. Palmer took the lead in April when he picked up \$11,250 for winning the Masters Tournament and has been on top since.

However, 27-year-old Casper of Chula Vista, Calif., and Venturi, a 27-year-old hot shot from San Francisco, are close behind with several important tournaments still to be played. Casper has won \$37,923.75, while Venturi has earned \$35,405.25.

Dow Finsterwald, the PGA champion from Tequesta, Fla., tops the pros in two other departments. The 29-year-old ex-Air Force officer leads in Ryder Cup team points with 599 59-40 and is the top tournament player, with 910.50 points. Finsterwald also is second in the Vardon Trophy race, which he won last year with an average score of 70.22 for 115 rounds. He's fourth on the money-winning list with \$31,748.00.

Bob Rosburg of Palo Alto, Calif., leads the Vardon Trophy standings. Rosburg has averaged 69.89 for 49 rounds since he became a PGA member in June.

## Wildcats Hit Irish By 32-8

After dropping behind 8 points in the first quarter, the Canadian Wildcats bounced back to defeat the Irish of Shamrock 32-8, before 1,500 spectators here Friday night at Denver Field.

The District 5-AA Irish scored their only points early in the initial period when Charles Cadenhead passed 10 yards to Alva Henderson for the touchdown and then hit Wilburn Tyler for two more.

Canadian came back with Warren Rivers' TD on a 35 yard run capped by Jim Wilburn's run for two, and Kenny Abraham's 29 yard pass to Clois Beatty for a touchdown followed by another Abraham-to-Beatty pass to make the score 16-8.

In the second period, Rivers ran 44 yards for a touchdown on a hidden ball play. Abraham adding the points on a run. In the third, Hobby McPherson ran 29 yards to score. Rivers ran the conversion points.

## Irish May Hit Top Ten In '58 Season

By ED SAINSBURY  
United Press International

CHICAGO (UPI) — If Notre Dame is "fortunate," Coach Terry Brennan believes, then the Fighting Irish may wind up among the nation's top ten football teams.

Anybody rating the club as the potential national champion, or even a solid threat, he said, is overlooking the facts.

"We are slow up front," he said. "You don't have to have great speed there, but we don't have what you need. We are not real strong and solid too deep. In many places we have a question mark, boys who haven't played very much, and we don't know how good they are."

"Then the teams we play want to knock us off, and you've got to have a lot of breaks to go undefeated in football these days."

Experience May Tell

"We have experience," he said. "That's probably our one plus point, but because the boys are a year or two years older doesn't mean they're a year faster."

"I wish we were as good as everybody thinks we are. If we would do as well as last year, I think we'd be doing a pretty good job."

Last year the Irish lost three of 10 games, but the reversal game with virtually the same personnel who in 1956 won only two of 10 games.

There'll be names for nearly every position.

Quarterback Bob Williams, fullback Nick Petrosante, halfbacks Pat Doyle and Jim Crotty, ends Dick Royer and Bob Wetoska, Charles Puntillo, guards Al Eucyer and Jim Schaaf, and centers Dave Hurd and sophomore Mike Pottios.

## Mustangs Tumbled By Erick

WHEELER — Sept. 19 Erick Oklahoma tackled the Mustangs of Wheeler 28-14, in a rough and tumble contest here in Nicholson Field.

Gerald Bennett scored touchdowns in the first and second quarters to lead the scoring for the winners.

The Mustang's Gerald Battersfield and Buck Holcomb crossed for the Wheeler scores. The extra points came through a run by Kenny Childress.

After the first quarter the Erick eleven led by 14-0 and at halftime were in front, 22-8. At the end of the third quarter the score at the final mark of 28-14.

Brennan listed 10 sophomores who might help, but he added, "Just how good they are and how much help they'll give us, I won't know until the season goes along."

Brennan said his club would

## Iowa Bowls Drake. 33-0

AMES, Iowa (UPI) — The Iowa State Cyclones made head coach Clayton Stapleton's debut a success Saturday with a rousing 33-0 victory over intrastate rival Drake University before the largest opening day crowd here in history.

Stapleton, a former Oregon State assistant, and a crowd of about 11,000 had some uneasy moments at the start of the game but the Cyclones regained control to score once in the first half and then move away convincingly after the intermission.

**Warriors Scalp Kiowas**

Miami's Warriors swept to a wide-margin victory here Friday night as they turned back the Booker Kiowas, 56-6.

In the opening quarter Larry Anderson tagged two touchdowns for Miami with Billy Lard adding a third to jump to a fast lead over the Kiowas. Steve Guy of Booker accounted for the only first quarter TD for his squad.

In the second period Sam Harris, Larry Anderson and Billy Lard all scored for Miami, with Jimmy Bowers booting for a conversion. At halftime the Warriors led by 38-6.

**TIE-UP**—Charley Conery holds the ball for a field goal attempt by Don Caraway. The New York Giants recruit kicks with the underpart of his toes, so wraps a shoelace around the back of his ankle and up through a hole in the shoe. It's the latest style in football boots.

## It's A Good Bet Burdette Will Start Against Yanks

Today's Sport Parade (Reg. U. S. Post Office)  
By OSCAR FRALEY  
United Press International  
NEW YORK (UPI) — Fearless Fraley's facts and figures:  
The baseball, experts are in a tizzy over whether Fred Haney of the Braves will start Warren Spahn or Lew Burdette against the Yankees in the World Series—but the Yankees themselves are sure it will be Burdette.  
The Braves have to feel that Burdette, having beaten the Yanks three times last year, has a psychological edge and is the best bet to get Milwaukee off winging.  
The pitching assignments shape up as Burdette against Bob Turley in the opener; Spahn against Whitey Ford in the second game, and sore-armed Don Larsen proving today whether he is ready for third game duty against either Bob Buhl or Carlton Willey. Losing the first two would force Haney to come back with Burdette in the third game, however.  
**The Wrong Grip?**  
How are they going to explain this? The Professional Golf Assn. each year presents a trophy to the tournament player who has the lowest scoring average for

the year. It is called the Vardon Trophy — named after the immortal Harry Vardon who was one of golf's greatest stylists and inventor of the overlapping grip favored by most star players.  
The leader in the race for the trophy is Bob Rosburg — who uses a deplorable "baseball grip." ... sort of like winning the Olympic backstroke championship using the Australian crawl.  
**Watch Those Pirates**  
Long range baseball view: The Pirates will be ready for a big run at the National League pennant next season, particularly if they get left handed pitching help — so they'll dicker with the Giants for Johnny Antonelli during the off season. The Giants are looking for deals, too, to make it a three-way race against the Braves.  
In the American League, Detroit is set to tear its team apart and brisk trading looms as everybody makes an attempt to get into the same league with the Yankees. But, no hum, it's the Yanks again.  
Roosevelt Grier, the mammoth tackle of the New York Giants, had a bonus arrangement with the club when he came marching home from a year of Army serv-

ice. The deal was that if he scaled under 280 pounds he would receive a substantial monetary reward.  
So the ex-Penn Stater weighed in at 279½ — and that isn't a telephone booth photo finish nobody ever saw one.  
**Hockey All-Stars Named For Tilt With Canadiens**  
NIAGARA FALLS, Ont. (UPI) — Bill Gadsby, Andy Bathgate, Camille Henry and George (Red) Sullivan of the New York Rangers were named Saturday to the National Hockey League All-Star team which will meet the Stanley Cup champion Montreal Canadiens Oct. 4.  
Mill Schmidt, coach of the Boston Bruins who also will handle the All-Stars in the game at Montreal, made the selections. For Gadsby it will mark the seventh consecutive time that he has appeared in the pre-season game. Sullivan has been in two of the Three I League, and Loring for Pocatello, Idaho.

## Abilene, Wichita Falls Go Under To Class 3-A Powers

United Press International  
The mighty have fallen — at least as far as Texas schoolboy football's Class AAAA-teams are concerned.  
Seven of that division's top 10 teams took it on the chin Friday night with Sweetwater and Breckenridge haunting their Class AAAA ratings in the faces of AAAA's Nos. 1 and 2 teams — Abilene and Wichita Falls.  
Sweetwater blanked Abilene 19-0 to end a streak of 51 games without defeat by Coach Chuck Moser's Eagles, while Brecken-

ridge roared from behind to storm, Wichita Falls 26-22. Breckenridge ranked No. 1 in AAA ranks, while Sweetwater, beaten 35-20 a week ago by Breckenridge, rated the No. 2 spot.  
But AAAA's disgrace was widespread as Baytown knocked off 3rd-rated Port Arthur 13-10, unranked Longview jolted 4th-ranked Dallas Jefferson 8-0, San Angelo bounced 7th-rated Corpus Christi Ray 6-0, Pasadena stopped 8th-rated Houston Lamar 19-6 and Houston Reagan blanked 9th-rated Galena Park 14-0.

Only defending AAAA champion Highland Park, rated No. 6 after a 12-6 upset at the hands of Dallas Jefferson a week earlier, and 10th ranked Austin High managed to keep their heads above water. Highland Park crushed Texarkana 32-0 and Austin whipped Houston S. F. Austin 14-0. San Antonio Jefferson, rated 5th, was idle.  
On the other hand, most of AAAA's top 10 came through Third-ranked Cleburne battled AAAA Garland to a 0-0 tie, 5th-rated Levelland whipped Monahan 37-12, 6th-rated El Campo stopped Deer Park 23-14, 7th-ranked Kingsville beat San Antonio Tech 14-6, 8th-ranked Snyder beat 4th-ranked Andrews 24-12 in the only game matching top 10 teams and 10th-rated Carthage trounced North Caddo, La. 44-0.

## Pittsburgh Clinches Second By Downing Phillies, 4-3

PHILADELPHIA (UPI) — The Pittsburgh Pirates clinched second place in the National League race by beating Philadelphia, 4-3, Saturday when southpaw Bob Smith closed out a ninth inning rally by the Phillies by slipping a bases loaded third strike past Ed Bouchee.  
Smith, the fourth Pirate hurler, came on after reliever Elroy Face gave up one run on a walk to Solly Hemus, a single by Carl

Sawatski and a pinch double by Dave Philley. Face passed Richie Ashburn intentionally and then got Bob Young on a short outfield fly.  
Smith came in to face Bouchee, who had three doubles to his credit, and fired a third strike past the first baseman to end the game. It was Pittsburgh's seventh straight and insured the Pirates their highest finish since they were second in 1944.  
The winner was starter Vernon Law who took his fifth straight in a row although he left in the eighth after giving up two Phillie runs. Tom Gross stopped that rally by getting Harry Anderson on a pop fly.  
The Pirates scored the winning run in the ninth off Robin Roberts when Dick Groat doubled and was sacrificed to third. Ted Kluszewski passed and when Billy Virdon rapped to Bouchee the first baseman touched first. Groat scored while pinch runner Dick Schofield was run down between first and second.  
Dick Stuart hit his 17th homer since joining the club on July 10 in the sixth inning, completing the cycle of hitting a homer in every National League park this year.

## Elliott Still Debates Offer To Turn Pro

MELBOURNE (UPI) — World record miler Herb Elliott left for his home in Perth Saturday still undecided whether to accept or reject an offer of \$250,000 to turn professional.  
"I've received a lot of advice both ways," Elliott said, "but now it's up to Anne (his fiancée, Anne Dudley) and me to decide what we want. We won't make a decision until late next week."  
Elliott said that they will weigh the pro offer made by Honolulu promoter Leo Leavitt against an offer from the Shell company for a college scholarship which would lead to a junior executive's position.

## Out Of The Past

Whatever Happened To...  
**DON DOHONEY**  
Don Dohoney, a great end at Michigan State, was captain of the 1953 Spartans who ploughed through a 9-1 season. As Big Ten champs, Michigan State roared into the Rose Bowl and bowled over UCLA in a 28-20 thriller. Dohoney, a brilliant all-round player, made the United Press All-America team that season and was the last All-American "product" of coach Biggie Munn who retired after the 1953 season to become full-time athletic director. Whatever happened to Don Dohoney? He still lives in Lansing, Mich., near the home of the Spartans, and is a successful insurance executive.

## Deacons Stun Maryland In Atlantic Coast Contest

By ALVIN B. WEBB Jr., United Press International  
WINSTON-SALEM, N.C. (UPI) — Quarterback Norman Sneed, starting his first varsity game, passed for three touchdowns and set up a fourth today as the Wake Forest Deacons stunned heavily-favored Maryland 34-0 in an Atlantic Coast Conference season opener.  
The lanky sophomore signal caller's whip-like passing arm threw scoring strikes of 31, 21, and 70 yards, tying an ACC record, as an overjoyed crowd of 8,000 watched the Deacons break a 12-game losing streak.  
Maryland came into the game a two-touchdown favorite. But by the fourth period the Terrapins were so badly outclassed that the daredevil Deacons were using third-stringers in the rout.  
**Halfway Air**  
Wake Forest drew blood late in

the first period, driving 80 yards to score on a four-yard plunge by fullback Neil McLean. Sneed's passing accounted for 40 yards in the drive.  
The Deacons made it 14-0 near the end of the first half when Sneed again broke loose, rolling up 76 yards through the air in an 80-yard drive, climaxed by a pass to Jim Dalrymple for 32 yards.  
Sneed and his fellow sophomors, running backs Winston Futch and Joe Bonecutter, turned the contest into a runaway in the third period on Maryland errors.  
Maryland's one serious threat came in the first half, when fullback Jim Joyce led a drive to the Wake Forest 26. But the drive bogged down, and a field goal try by Vincent Scott fell far short.  
**Score by Periods**  
Wake Forest 7 14 6-34  
Maryland 0 0 0 0-0  
Wake Forest—McLean 4 run; Dalrymple (2) 32 pass-run, 10 pass-run; Robinson 32 pass-run; conversions: McLean 4.

"Want to come over to my house tonight and criticize television with me?"

### Washington Window

By LYLE C. WILSON  
United Press International

WASHINGTON (UPI)—Tucked away among this week's corporate financial reports was an item that could be more persuasive than any statistics compiled in Washington to show that there is no recession on American farms.

The item reported that in nine months ended July 31, the J.I. Case Co. earned \$2,988,861 compared to a loss of \$993,898 in the comparable months a year ago. Case manufactures farm implements.

There probably are American farmers who are losing money to the cost-price squeeze, but J.I. Case Co. customers evidently are

not among them. During this week, also, the Agriculture Department happily reported that farm income for the first nine months of 1958 will be 19 per cent greater than in the first nine months of 1957.

**Benson Now Asset**

Such indicators of the measure of farm prosperity already had accomplished one political miracle. This miracle was the changed status of Agriculture Secretary Ezra Taft Benson. Benson not only licked the farm bloc on the issue of farm legislation in the House of Representatives this year, he was transmuted, politically, from a liability to an asset on the books of the Republican party.

Stranger things have happened, but not often. American farmers made up their minds about Benson soon after he joined the cabinet in 1953. He opposed high and rigid farm price subsidies which seemed to the farmers to provide easy and desirable money and which were urged by the bipartisan farm bloc and by the Democratic party as essential to the welfare of U.S. agriculture.

**GOP Trend Unlikely**

Benson called that a lot of nonsense. He was able to break down the high and rigid support system which had been installed by preceding Democratic administrators. Whether improved prices for farm products actually can achieve another miracle for which Republicans are praying remains to be seen. It is not likely. This other miracle would be the establishment of a Republican trend among farm state voters who will be choosing state and federal officers in November.

American farmers may prefer to look on the darker side of their prosperity. While it is true that farm income will be up 19 per cent in nine months this year against the 1957 figure, it also is true that farm income has slipped about three per cent in the past three months. The department calculated farm income during the first six months of 1958 to have been 22 per cent ahead of 1957. This wrong-way trend could cost Republican candidates some votes, perhaps too many.

**He's Record Spending**

The Eisenhower administration cannot be charged, however, with being chinchy with U.S. farmers. President Eisenhower budgeted to spend in the current fiscal year \$4,601,000,000 on agriculture and agricultural resources. Of this sum, \$3,253,000,000 was to go for stabilization of farm prices and of farm income. In the last full fiscal year of the Truman administration, total agricultural spending was \$1,945,000,000.

Truman's very large expenditures seem small only in comparison with the tremendous outpouring to the farmers from the Eisenhower treasury. Big city candidates in industrial states may brag a bit in their campaigns about prosperity on the farms, but they will not go into detail. Except for labor leaders maneuvering for a left wing farmer-labor political party, industrial voters are tending to challenge high foodstuff prices supported by billions of their tax dollars.

 Lillian Bowles from Chester Kenneth Bowles

## Value Of Texas Building Falls

AUSTIN (UPI)—Value of building construction in Texas during August fell 9 per cent from July but topped the comparable month last year by 37 per cent, the University of Texas Bureau of Business Research reported Saturday.

Despite the decline, the monthly tally was second highest in history on the bureau's seasonally-adjusted index of building construction, topped only by the record figure for July.

The January to August total was 15 per cent above the same period last year.

Decline in residential construction in August was "nominal," and the dollar value remained close to the July total, the bureau said. However, the index customarily shows an average rise of about 7 per cent from July to August.

Non-residential construction in Texas dropped 17 per cent for the month, a decrease "only slightly greater than the normal seasonal decline," the bureau reported.

"More encouraging, the August, 1958, total was 55 per cent above the same month last year. As a result, the 7 per cent lag shown in the seven-month cumulative comparison was changed to a 1 per cent decrease from last year on the eight-month comparison," the report said.

Permits for new industrial buildings fell 17 per cent from July, and were off 41 per cent from the comparable month last year. The eight-month comparison showed 1958 running 45 per cent under last year.

However, the bureau said the decline in this category of construction "appears to have been halted; comparisons with industrial permits issued in comparable periods last year appear to be gradually becoming more favorable."

### China Crisis For General Assembly

United Press International UNITED NATIONS, N.Y. (UPI)—China is the mystery element in the United Nations General Assembly session opening Tuesday. The China crisis is not on the agenda proposed for the delegates of 81 countries during their 1948 meeting. But it could be handed to them in an emergency at almost any moment during the three-month assembly.

The weeks-long bombardment along the China coast is uppermost in delegates' minds as they come together for the 13th General Assembly.

They are keenly aware that the biggest threat to peace now is the violence in the Formosa Strait. Secretary-General Dag Hammarskjold returned Saturday from a peace-finding mission to four Arab states and began work on a report he is to submit to the assembly by Sept. 30.

His report, requested in an all-Arab resolution adopted at an emergency session last month, will be the starting point of United Nations efforts to assure the peace of the turbulent Middle East region.

Delegates again will devote a large part of their time and energies to the broad field of disarmament.

### Communist Shortages Get Credit For Nationalist Wins

By ROBERT C. MILLER United Press International FORMOSAN AIRFIELD (UPI)—U.S. Air Force advisers credit training and Communist shortages for the overwhelming air victories being scored by the Nationalists over the Reds.

Nationalist fliers in American-built F-86's have walloped Russian-made MIG-17's in every recent battle over the Formosan Strait, and the 17's are the best planes the Reds have yet put into battle.

"We are still not certain," explained one major, "just how the F-96's compare in performance with the 17's but there's one thing we do know—the Nationalist pilots will clean them every time."

The consensus among American advisers and instructors is that shortages of jet fuel and special equipment are seriously hurting the Reds.

A Nationalist intelligence officer said Communist pilots are going into battle with less than ten hours of combat training.

"This," he said, "when compared with the 200 and 300 hours of combat training given our pilots spells out the big difference."

Nationalist fighter pilots say the MIG-17's can outclimb and F-86 but they seem to lack the maneuverability of the American-built jets.

"We question each pilot closely," the major said, "and most of the Nationalist kills have been made by our boys turning inside the MIGs and catching them when they come around."

"It could be that the Reds don't have G-suits (pressurized uniforms enabling a pilot to withstand the strain of gravitational force) and thus can't make the tight turns you need so desperately in a dogfight."

**Lack of Experience**

An instructor with another fighter squadron said that in at least two instances MIGs have dived into the sea with full power in desperate attempts to escape from the Nationalists.

"It could be," he said, "that they are having elevator trouble and can't get the 17's out of a dive once they get past a certain speed."

The biggest liability of the Reds probably is their lack of experience.

### Rogers' Statement Seen As Warning

By WILLIAM THEIS United Press International WASHINGTON (UPI)—Atty. Gen. William P. Rogers' declaration that government officials cannot "flout" the Supreme Court's integration decision without violating their oath of office was viewed Saturday as a pointed warning to Southern extremists.

One administration source said Rogers' speech on Wednesday which stressed the high court's final authority as interpreter of the Constitution was aimed primarily at governors, state legislators or judges who take issue with this historic view.

But in citing the oath to uphold the Constitution which all take, Rogers included members of Congress.

A congressional legislative expert, who declined use of his name, said the attorney general had touched on a possible "poisoned weapon" when he cited adherence to the oath.

A newly elected senator who had given public evidence that he did not think taking an oath to uphold

speech to the National Conference on Citizenship that "if there is a disagreement with the Constitution as interpreted by the courts, the people have a right to change it by the orderly process of constitutional amendment."

## Grain Futures Over Nation Decline

CHICAGO (UPI)—Grain futures harvests, soybeans enjoyed a late week advance. But after rising momentarily almost 2 cents over November, September futures soon dropped. Most strength came to soybeans from weather news and a strong meal market trend.

Increased buying in September deliveries and reports of more moisture over major grain areas paced trade activity this week.

Mill buyers gave scant support to wheat, although flour business was generally dull. Commercial interests played both sides of the market. Friday was the final day for trading in September options, and most brokers took a "wait-and-see" approach before beginning serious activity in other contracts. Some buying was initiated to offset export sales, particularly to Brazil of 6,500,000 bushels for October shipment.

Liquidation of September corn generated most activity in the final hours of the marketing week. Exporters did some buying of new style December, but elevator and industrial interests sparked most business. Favorable weather also eased corn prices. A little short covering ruffled the market. Most crops have been maturing rapidly with almost 40 per cent of the Illinois and Indiana yields already regarded safe from frost.

Commission houses supported oats, but trade was featureless. Most prices picked up small gains and reflected probable support early next week.

Rye suffered some stop-loss selling.

With rains delaying new crop

## Cotton Futures Now Firm

NEW YORK (UPI)—Cotton futures ended the week on a note of firmness after see-sawing indecisively in one of the quietest trading periods of the year.

At Friday's close the list ruled up 22 to off 8 points, or \$1.10 higher to 40 cents a bale lower than the preceding week.

The overtone of steadiness maintained in face of the irregular price changes was coupled with a number of influences.

Foremost of these were: 1. The improved outlook for textile buying, looming in the wake of an improved labor outlook for the automobile industry; 2. A limited volume of hedge selling as large amounts of new crop cotton moved into the government loan stocks; 3. Evening-up operations in the October delivery, anticipating first notice day, Sept. 24.

But some traders were wary about following the advances. Cautious traders kept in mind the glowing crop promise and possibilities that hedging, despite operation of the loan program, will increase as harvesting works toward a peak in the several weeks ahead.

In the South, farmers continued to resist prices offered for current crop ginnings, which were generally below loan levels.

## Country Is Using More Newsprint

NEW YORK (UPI)—Newsprint consumption in the United States increased in August as compared with August, 1957, the first such rise recorded in 14 months, the Assn. announced today.

Newspapers reported to the ANPA consumption of 387,580 tons during August, a 3 per cent increase over August, 1957, and 3.7 per cent less than in August, 1956. The month had five Sundays this year and four in each of the previous years.

Reporting newspapers consumed 3,207,549 tons of newsprint during the first eight months of 1958, a reduction of 4.5 per cent from the same months of 1957 and 5.3 per cent less than in the first eight months of 1956.

**TOUCHY PASSENGERS:** LONDON (UPI)—Having 40 policemen as passengers was a double-decker bus Friday night. The driver made a wrong turn and sheared off the top of the bus on a low railroad bridge. Four of the policemen, members of a choir on route to a performance, were injured slightly.

**A THOUSAND TIMES NON**—The word "non" (no) is much in evidence on the street and walls in this section of Paris as voting for a new constitution draws near, at which time Premier Charles de Gaulle will submit his proposed reorganization of the French government to the electorate. This picture was taken in the Gennevilliers district, a stronghold of the Communists who are among those opposing the new constitution.

## Awards Given In Field Of Health

HOUSTON (UPI)—Jase M. Weaver of Dallas and Dr. Carl A. Nau of Galveston Saturday

## Gypsy Rose Lee Goes To Court

LOS ANGELES (UPI)—Gypsy Rose Lee, one of the country's most famous strip dancers, went to court Friday and saw a judge and some lawyers do a bit of stripping.

Superior Judge Red Hardy, taking note of the smog-clogged courtroom and near 90-degree weather, took off his judicial robe and invited lawyers and others in the room to shed their coats.

"I don't blame anybody for wanting to peel on a day like this," said the tully-clad dancer who nevertheless declined to follow the judge's example.

She appeared in court with her sister, actress June Havoc, who has filed suit for \$62,914 damages against J. M. Friedman and his wife, Edith, as the result of a business deal in which Miss Havoc claimed she lost nearly \$80,000.

were named winners of the "Industrial Health Awards" presented annually for outstanding contributions in the field of industrial health.

Announcement of the two 1958 award winners was made by the Houston Chamber of Commerce. The awards will be presented at the 11th annual health conference for business and industry in Houston Oct. 9-10.

Miss Weaver, a registered nurse, is division industrial health consultant with Liberty Mutual Insurance Co., in Dallas. Dr. Nau has been professor of preventive medicine and public health at the University of Texas, medical branch in Galveston since 1941.
