## OPERATION TEST PATCH!

Freckle-faced Randy Jenkins, six-year-old first grader at Horace Mann elementary, showed a nervous grin Monday while receiving his "Tuberculosis test patch" from his school's nurse, Mrs. Kay Veale. His front-toothless friend, Danny Tate, 7, almost enjoyed it. Some of the 1,400 Pampa school children who got their test patches, however, were more apprehensive and seemed quite shy about the whole thing. The patches, stuck to the chest like adhesive tape, are supposed to show whether or not a youngster needs a TB X-ray. If the patch turns pink or reddish in two days it is an indication the child has either had TB or has come in contact with a person having TB.

# Record Vote Is Forecast For Today's Vital Election

## 86th Congress Will Be Picked

WASHINGTON (UPI)—The nation picks its 86th Congress today in a mid-term election marked by war-or-peace and economic issues, and enlivened by a "battle of the millionaires."

Mild, Indian summer weather in much of the nation plus vigorous 11th-hour campaigning by major parties and candidates was expected to send a record number of voters to the polls for a non-presidential year election.

Despite aggressively partisan campaigning by President Eisenhower and Vice President Richard M. Nixon, the Democrats were heavily favored to hold and enlarge the present House and Senate majorities.

Republicans still voiced public hope of recapturing at least the House of Representatives. But virtually all opinion polls and political barometers were against them and their best hope appeared the capture of a handful of governorships now held by Democrats.

Chief of these in public attention was New York where the Republicans put youthful millionaire Nelson A. Rockefeller in the lists against incumbent Gov. Averell Harriman, also a millionaire but not in the same "multi-multi" bracket as Rockefeller.

**Bettors Favor Rockefeller**  
The New York race held great significance for the 1960 presidential contest. Political observers felt if Rockefeller won he might be a challenger to Nixon for the G. O. P. nomination. Harriman's long-known presidential aspirations appeared doomed if he lost. On election eve the New York bet-takers were giving 9-5 odds on a Rockefeller victory.

Across the continent the spotlight was focused on another key gubernatorial race with presidential overtones — the bid of retiring Senate Republican Leader William F. Knowland to take over the California statehouse and put himself in the running for the presidency in 1960 or 1964.

Knowland's defeat would virtually erase him from the GOP political picture unless he found some spectacular way to stage a comeback. As the polls opened, he was rated the underdog against popular Democratic State Atty. Gen. Edmund G. Brown.

**Fine Weather Forecast**  
The combination of fine weather, noisy campaigning and many hot local issues was expected to push the vote substantially above the 42,500,000 of the last mid-term election in 1954, but not high enough to match the 58,800,000 congressional vote in 1956 when the presidency was at stake.

Aggressive campaigning by labor against "right-to-work" propositions on the ballot in six states also figured to swell the vote for Congress.

Forty-seven states were voting to elect 33 U. S. senators, 432 House members, 32 governors and hundreds of other state and local officials. Maine elected a Democratic senator, governor and two House members and one Republican House member Sept. 8. Alaska elects two senators, one House member and a governor in its first state election Nov. 25.

Confident Democratic leaders predicted they would unseat at least 8 to 12 Republican senators and 30 to 30 House members. Of (See CONGRESS Page Three)

## DUE, DROP IN

Dropping what she called a "big Democratic ballot" into the box early this morning was Mrs. M. T. Buck, 1209 N. Russell. Mrs. Buck was one of several early risers who streamed into the precinct 10 polling place in the county court house. Election officials there reported a fairly heavy number of voters today but not quite as many as in 1956. In the background is Mrs. Cecil R. Williams, one of several election workers helping the election run smoothly.

## Surprise! Election In Cuba Quiet

HAVANA (UPI) — Andres Rivero Aguero, President Fulgencio Batista's hand-picked successor, coasted to overwhelming victory Monday in what was probably the quietest presidential election in Cuban history.

Rivero took a 5-to-1 lead over his nearest opponent in the first handful of ballots, and his lead was never less than 4-to-1 thereafter.

At 1 a. m., official returns gave Rivero 651,840 votes to 136,664 for Carlos Marquez Sterling, 103,208 for ex-President Ramon Grau San Martin and 28,024 for Alberto Sals Amro.

The government candidate's victory fulfilled pre-election predictions. Chief surprise of the balloting was the strength shown by Marquez, a "dark horse" nominated by the opposition Free People's Party.

Rebel leader Fidel Castro, Batista's arch-foe, probably was responsible in large degree for the government's snowball victory.

His threats of election violence — which failed to materialize — kept an estimated 20 per cent of the voters away from the polls. Another 20 per cent, otherwise eligible, failed to register and it appeared likely that a good many of these were rebel supporters who boycotted the election.

The voting turnout was estimated at 50 to 60 per cent of the possible total, compared to the 70 per cent who voted in the 1954 elections.

# Million Texans Expected To Vote Despite Light Showers

## Dallas Demos Bring Out Heavy Vote

United Press International  
The hotly contested fifth district congressional race in Dallas county in which the Democrats are trying to unseat the state's only Republican congressman brought out a heavy early vote today.

GOP Rep. Bruce Alger, seeking his third term, was opposed by Barefoot Sanders, a Democrat who has been serving in the state House of Representatives.

Except for light showers in East Texas and South-Central Texas, the weather generally was clear to partly cloudy. The total state vote has been forecast at about one million.

A spot check among Harris (Houston) county's 261 precincts showed early voting about normal. Occasional rain fell along the coast, but forecasters predicted it would stop in the county by late afternoon.

A congressional race there in the newly created 22nd district sparked interest of voters. It was between Democrat Bob Casey and Republican T. Everton Kennerly.

Voters are electing a full slate of state officers, plus a U. S. senator and 22 congressmen. They also are voting on nine proposed constitutional amendments.

Sen. Ralph Yarborough, running for his first full elective term, is being challenged by GOP nominee Roy Whittenburg of Amarillo and Constitution Party candidate Bard Logan of San Antonio.

Gov. Price Daniel tries for his second term today against Republican candidate Edwin S. Mayer, Sonora rancher.

The Constitution party placed no candidate in the field for governor, although the party is running its secretary, Phillip Lee Eubank of San Antonio, against Lt. Gov. Ben Ramsey who is (See DALLAS Page Three)

**Bootlegging Okie Fined; Loses Load**

It was a long and expensive day Monday for O. C. Maxwell, 35-year-old Elk City, Okla. man, charged with bootlegging.

By sundown Maxwell had paid a total of \$500 in fines, a considerable sum in court costs and had lost his entire load of 32 cases of whiskey to state liquor control agents.

The Elk City man was first arrested at Wheeler after shots from Sheriff Bus Dorman brought his fleeing car to a halt. Besides Dorman, three liquor control agents were in hot pursuit.

Brought to court at Wheeler Maxwell was charged with illegal transportation of liquor in a "dry" county. He entered a plea of guilty and was fined \$400 plus costs. Following his hearing Maxwell (See OKIE, Page 3)

## ELECTION AT A GLANCE

United Press International  
Senate: 33 seats at stake (20 now held by Republicans, 13 by Democrats). Holdovers — Republicans, 26, Democrats 36. Maine elected one Democrat Sept. 8. Alaska elects two senators Nov. 25. Necessary for control — 50 seats.

House: 432 seats at stake (193 now held by GOP, 231 by Democrats, 8 vacancies — 3 Republican and 3 Democratic). Maine already has elected two Democrats, one Republican. Alaska will elect one representative Nov. 25. Necessary to control — 219 seats.

Governors: 32 governorships at stake (13 now held by GOP, 19 by Democrats). Holdovers — Republicans 6, Democrats 9. Maine elected Democrat Sept. 8. Alaska elects governor Nov. 25.

Other offices: Numerous local and state offices at stake.

Referendums: 20 total shrdl shrdl et

Referendums: Right - to - work proposition to outlaw union shop on ballot in California, Colorado, Idaho, Kansas, Ohio, Washington. Proposition to repeal tax exemption for parochial and private schools on ballot in California.

If it comes from a hdwa. store, we have it. Lewis Hdwe. adv.

# 'BACKDOOR MANEUVER' US, Britain Firmly Resist Soviet Effort For Test Ban

By JOSEPH W. GRIGG  
United Press International

GENEVA (UPI) — The United States and Britain firmly resisted today a "backdoor" Soviet effort to maneuver them into accepting an immediate, unconditional and permanent ban on nuclear tests.

At the same time, they dug in for what now seemed likely to be weeks of haggling with the Russians on the test-ban issue.

The talks hit their first serious snag Monday when the Russians and the U. S. put forward rival programs for discussion, spotlighting the basic differences between their points of view. They were expected to continue discussion of the program today.

The Russians called for discussion first of a ban on nuclear

testing. The United States gave priority to a control system for policing a nuclear test ban.

Soviet Premier Nikita Khrushchev, speaking Monday night in Leningrad, said that "we are ready to sign a treaty today to stop atomic and hydrogen weapons tests forever... but the ruling circles of the Western powers, and particularly of the U.S.A., will not agree to this"

The West has insisted from the outset that it can not accept any ban without watertight controls. The Soviet move was interpreted as an attempt to bypass Western objections.

The Russians had previously submitted a ready-made draft treaty calling for an immediate East-West pledge to halt further nuclear tests; to be followed later by a control agreement.

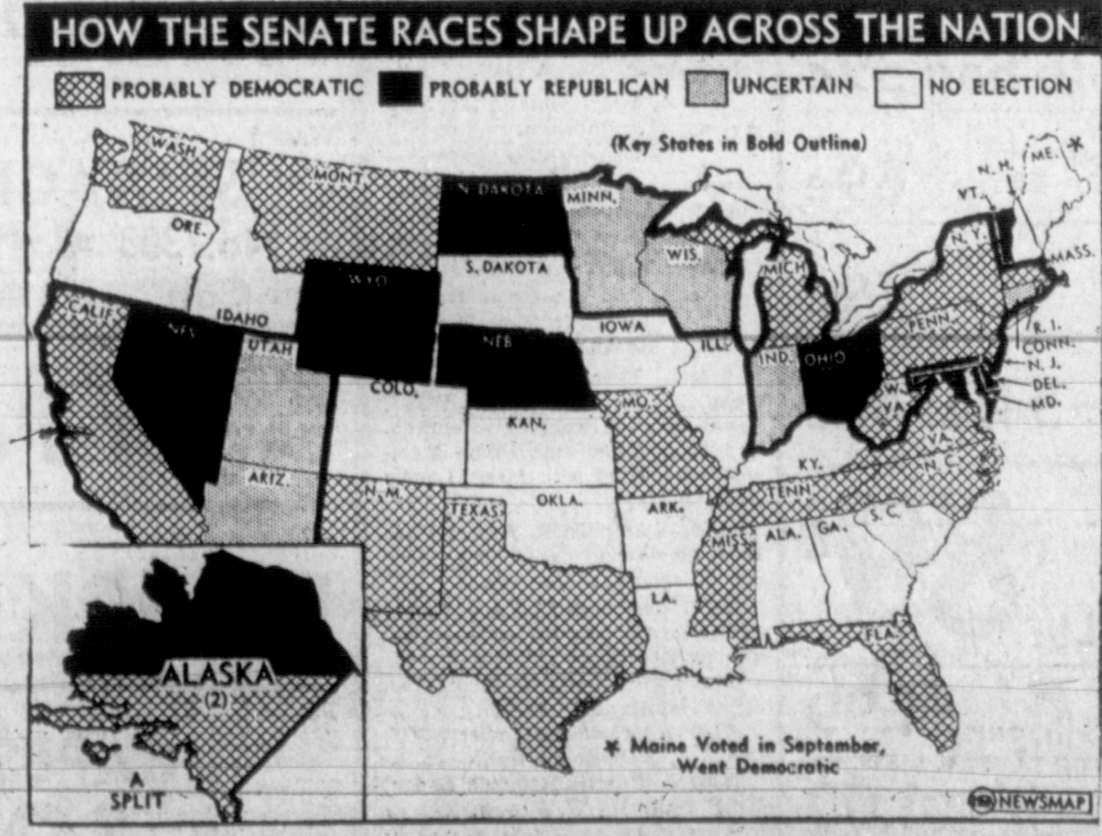

The United States and Britain were firm today in rejecting any unconditional nuclear ban commitments.

Prisoners in the county jail seemed strangely exuberant.

Deputies grew watchful. Today, Eddie Brooks, 30, was back in custody.

Seems Brooks, who had been released after a week in the jail for drunkenness, had been coming back to visit his still-incarcerated friends.

And on each trip he had been smuggling in moonshine whisky.

## YEAR OF THE DEMOCRATS?

According to samplings of political prognostications by numerous observers, the Democrats, already holding a 49-47 edge in the Senate, stand a good chance of retaining most of their seats and picking up some from the hard-pressed Republicans in today's general election. Pre-election news from state after state has been gloomy for the GOP. Newsmap above plots the outlook for the senatorial elections in 33 states across the country. In Alaska and West Virginia, two senators will be elected; in all others, one.

# Commies Claim US Fired Poison Gas At Mainland

By ALBERT F. KAFF  
United Press International

TAIPEI (UPI) — The Communists claimed today that U.S.-supplied guns on Quemoy fired poison gas shells at the Red-held mainland Monday, and alarmed Nationalists charged that the Reds are preparing to gas the defenders of the tiny outpost island.

A Peiping broadcast beamed at Formosa leveled the charge late today. The Nationalists denied it with a rapidity that reflected their concern.

Vice Adm. Roland Smoot, commander of the U.S.-Taiwan (Formosa) Defense Command, also swiftly denied the Communist implication that the United States

furnished the Nationalists with gas shells.

Smoot said: "This statement is absolutely untrue. We have not furnished the Chinese Nationalists with poison gas shells. This is obviously a typical propaganda fabrication."

"This is a shameless lie, calculated to pave the way for Communist adoption of such weapons," snapped Rear Adm. Liu Hsi-tu, spokesman of the Nationalist Defense Ministry, less than an hour after the broadcast.

"We have no such weapons. The United States never supplied us with such weapons. We never intend to use such weapons against our own people on the mainland, who are held captive by the Communists."

The Red broadcast said 14 Com-

munist soldiers were "affected" by the alleged attack, which involved gas of an unspecified type. It linked the United States with the attack by noting that it took place "after... the supply of large amounts of U.S. ammunition" to the Nationalists.

The Communist charge was leveled during a lull in the Reds' "cat and mouse" campaign against Quemoy. The Communist guns which hurled 39,162 shells at the outpost islands Monday were silent up to 3 p.m. today — well after the hour when Monday's massive bombardments began.

Meanwhile, the Nationalists reported that villagers on the coast opposite Quemoy, believing that Nationalist "liberators" had landed, rose against the Reds in an ill-fated revolt six weeks ago.

The report, said to be based on intelligence data supplemented by stories told by recent refugees in Hong Kong, said the people of the village of Wupao rebelled late in September, on a day when Nationalist counter-fire drove the Reds from gun positions on the Weitou Peninsula.

The villagers, hearing the gunfire and seeing the Reds calling back, set upon them with farm tools and other crude weapons, believing that the Nationalist had landed.

The Communists cut the rebels down with machine guns, killing at least 70 and arresting a "large number," the report said — but before the villagers had inflicted more than 150 "casualties" on the Communists.

## Rapid UF Rise Is Foreseen

The United Fund torch continues to burn brighter as contributions are brought in to the UF headquarters in the City Hall. The total to date is \$28,349.21. This amount includes \$296 from Lefors and \$78.15 from the Pampa colored section.

"This brings us to within 43 per cent of our goal," Clyde Dickerson, campaign chairman, said this morning. Dickerson stated that many of the cards and contributions are now ready to be picked up by volunteer workers. It is expected that we will see a sharp rise in the total within a few days. In some cases it is difficult for the volunteer workers to find the time to return to the card holders and bring the contributions to the office.

It is suggested, that anyone whose business has completed solicitation but has not turned in cards and pledges call the worker whose name is at the top of the envelope, or to call Mrs. Gee at the United Fund office, MO9-9322. "In this way we can make sure that every effort is being made to reach the \$64,000 goal and in as short a time as possible," said Dickerson.

## Commission Meet Cancelled Here

Pampa's City Commission, with most members attending the League of Texas Municipalities meeting in Austin, cancelled its regular meeting set for this morning. Next meeting day has been set for Friday morning at 8.

Among those attending the Austin meeting are Mayor Lynn Boyd, City Manager John Kootz, City Secretary Edwin Vickers and Tax Assessor Aubrey Jones. Most of the Pampa men are expected to return Wednesday evening.

## Women's Activities

Doris E. Wilson  
Daily News Women's Editor

### Private Life Of Linn And Alexander Spent Rustically In Fashionable Town

Bambi Linn and Rod Alexander, who appear here in their "Dance Jubilee" at Pampa Junior High on Nov. 8, lead pretty full lives. Much of their time is spent on camera or rehearsing for major television shows and nightclub appearances, or appearing in movies as Eambi did in the screened "Oklahama", directing choreography as Rod did for the film version of "Carousel" and "The Best Things in Life Are Free", not to mention the Broadway musical "Shinbone Alley." But when they head for home, it's to two acres of land near fashionable, celebrity-studded Westport, Conn. Planned by Broadway's Ralph Alswang, a leading scene-designer, it's a modern studio-type house on several levels of a hillside. It includes a big studio where they can dance, a large dance library and a big collection of records. Numbered among these are a lot of rare 78s devoted to Ella Fitzgerald, Tommy and Jimmy Dorsey, Duke Ellington, Count Basie and Freddie Slack. (Rod's musical tastes run to jazz and pop; Bambi's preference is to the classical; between them, they pretty well cover the field.)

The decor might well curl the neatly coiffed hair of the editors of House & Garden, since it includes early American, from their first house in Connecticut, to a Washington, modern French provincial from their New York apartment, and a scattering of modern pieces. One of their prized possessions is a rug they hooked themselves between appearances at the Empire Room in Chicago's Palmers House, where their ascent to the big time really began. They made up their own designs—eagles, spinning wheels, butterflies, even a blue cow—as they went along, killing time between

the dinner and supper shows. Relaxing at home, Bambi prefers blue jeans and a sweater. "This combination," Better Living once reported, "with a well-scrubbed face and her long blonde hair pulled back in Alice-in-Wonderland fashion, has caused some confusion. From time to time a misguided motorist has drawn up beside her gate and asked Bambi: 'Little girl, could you tell me the way to...?' Rod says "That's where I break in and tell them with a straight face: 'My daughter has no sense of humor and she's a little dim-witted, but I'll be glad to help you.'"

Bambi hates the telephone and is given to curtness when using it; Rod is a terrible correspondent, so they have arrived at a teamwork-like solution of these problems. He takes all the telephone calls and she handles all the mail. One thing she insists on is the finest Limoges china and the best crystal money can buy: "I always like the best things or none at all. I think it's a reaction to all the ugly dressing rooms and cheap hotels."

They don't have a swimming pool, and they don't need an electric lawn-mower because the hillside is so steep. Bambi is the first to admit that she hasn't a green thumb when it comes to flowers. Rod's father, who makes his home with them, is rather more expert in this department. Until the arrival of their young daughter, Belinda, who is expected to accompany them on the Dance Jubilee tour, and possibly even appear briefly in at least one number, their only pet was a poodle named for French chanteuse Edith Piaf, who is one of Rod's favorite entertainers. Although celebrities are a dime a dozen in Westport,

BRINGING welcome cheer to any breakfast (or dinner or supper) table are these sweet rolls, made of prepared biscuit mix.

### COOK'S NOOK

#### Homemade Sweet Rolls Will Brighten Fall Breakfasts

By GAYNOR MADDOX

NEA Food and Markets Editor Old-fashioned yeast-raised breakfast rolls now get the speed-up treatment. By combining active dry yeast and prepared biscuit mix, you can make regular

yeast-raised rolls in much less time. **SWEET BREAKFAST ROLLS**—One-half cup warm water (not hot—105 to 115 degrees F.), 1 package active dry yeast, 1 egg, 1 tablespoon sugar, 2½ cups biscuit mix. Dissolve yeast in warm, not hot, water. Add egg, sugar, biscuit mix and beat vigorously. Turn out onto surface well dusted with biscuit mix. Knead until smooth, about 20 times. Shape and fill as directed below. Cover with a damp cloth. Let rise in warm place (85 degrees F.) until double in bulk, about 45 minutes. Bake at 400 degrees F. about 15 minutes. If desired, frost with confectioners' sugar icing and decorate with jelly or jam.

**Butterfly**—Divide dough in half. Roll each half into a rectangle 6 inches wide and ¼-inch thick. Brush with margarine or butter. Sprinkle with a mixture of 1-3 cup sugar, 1 teaspoon cinnamon and ¼ cup chopped pecans. Roll as for jelly roll starting at the long edge. Slice each roll into pieces 2 inches wide. Place about 2 inches apart on greased baking sheet. Just before baking, crease each slice heavily across the center with the back of a knife. **Figure 8**—Cut dough into small pieces. With the palms of hands, roll to form a rope about ¼-inch thick and 8 inches long. Shape into "8" twisting excess into spirals at ends of letters. **Double Spiral**—Form dough into ropes as above and spiral each end toward the center. **Wheels**—Roll dough into a square 12x12 inches. Brush with margarine or butter. Sprinkle with a mixture of 1-3 cup sugar, 1 teaspoon cinnamon and ¼ cup chopped pecans. Roll as for jelly roll. Cut into 12 equal slices. **Tomorrow's Dinner**—Tuna with stuffed olives in mushroom sauce, steamed rice, lima beans, hard rolls, butter or margarine, lettuce and tomato salad, canned peaches, cookies, coffee, tea, milk.

### DEAR ABBY...

By Abigail Van Buren

**DEAR ABBY:** Every morning when I drive my son to school I pass a certain house and I see a man come out to get the morning paper in his pajamas. This is not all. He is barefoot but he wears a hat. He recognizes me by my car and he always waves and tips his hat. I am so embarrassed for my little boy that I nearly lose control of the car. Do you think a man who wears a hat when he goes out to get the morning paper in his pajamas and bare feet is quite right in the head? Should I report him, ignore him, or what? **SHOCKED DRIVER**

**DEAR ABBY:** My employer's daughter is being married in an evening ceremony in November. It will be a very fashionable affair. My husband and I were invited to the wedding and reception but my husband does not want to attend because he has only one suit—a charcoal grey tuxedo with a fleck of red in it. He feels he would be conspicuous in this suit. We cannot afford to buy him a new suit for this occasion. Should I attend the wedding alone? If I didn't attend, my employer would wonder why. Any advice will be appreciated. **IN DOUBT**

**DEAR ABBY:** I am 17 and my husband is 22. We were married only three weeks when his Mama came to our apartment with an empty suitcase, packed his clothes and moved him out. He stood there like a dummy while she told me to my face I didn't know anything about feeding a husband and she needed him worse than I did. He stayed away three days so I went to his Mama's and we had a big battle and I asked him to come home with me. He said he'd think it over. He's still thinking it over and it is going on a week. My folks signed for me to

get married although they weren't very crazy about him, so I can't go home and tell them they were right and I was wrong. My money is running low. Where can I turn? **NEWLYWED**

**DEAR ABBY:** My problem is about clothes. My clothes are so old and everybody's seen them because I wore them last year in the seventh grade. My mother sews quite well, but lately I have a more developing figure. She makes them so square and loose I won't wear them. She says if I won't wear what she has made me she won't make me any more dresses, either. I asked for an allowance to buy my own clothes, but she won't give it to me. What should I do? **WITHOUT CLOTHES**

**DEAR ABBY:** You're not really "without clothes"—you simply refuse to wear the clothes your mother has made for you. If I were you I would trust my mother's judgment.

**Confidential to Irene:** "They'll never throw rice at a guy who throws dice." —(Van Buren)

For a personal reply, write to ABBY in care of this paper. Enclose a self-addressed, stamped envelope.

### TC Culture Club Hosts At Center

Twentieth Century Culture Club was hostess to Senior Citizens at their Thursday afternoon meeting in Lovett Memorial Library.

Gifts were presented to each Senior Citizen by three children dressed in Halloween costumes.

TCCC hostesses present were Mrs. Dudley Steele, president, Vernon Hobbs, G. L. Craddock, Warren Hesse, Jack Zachry, R. H. Jordan, J. W. Edminster, Irene Osborne and P. A. Gates, who assisted in serving cake, candy, coffee and tea.

Games were played during the afternoon.

Altrusa hostesses present were Mrs. Vera Lard, Louise Sewell, and Jay Flanagan.

At the November 6 meeting, Senior Citizens having birthdays during the month of November will be honored guests and will be presented with gifts and an especially-baked birthday cake.

Sitting Bull generally is given the credit of opposing General Custer in the Battle of the Little Big Horn. Actually, Crazy Horse was the Sioux leader in that battle and Sitting Bull acted only as the holy man who "made medicine."

# Harvester Squad Plays Best Game

DE WAYNE GLOVER catches, blocks, tackles

To name the outstanding Harvesters in Friday's 15-8 loss to Palo Duro, it would be necessary to call the roll of the team.

Almost every man on the squad distinguished himself in one way or another, as the Harvesters played their best ball game of the year against a strong club.

End De Wayne Glover made perhaps the most sensational splash—catching a pass and outrunning the Dons 45 yards to the goal line, blocking beautifully, and breaking through several times to throw Palo Duro ball carriers for a loss.

Quarterback Buddy Rawls played his best game of the year, rushing for 72 yards on keeper plays, hitting 6 of 10 passing attempts for 120 yards, a touchdown, and a conversion; and calling the signals well.

Rawls, along with the other defensive halfback, Bobby Stephens, also showed up well on defense. Rawls and Stephens several times stopped Don ball carriers who appeared about to break into the clear.

At least six other Pampa graders were outstanding in more than one department. They are halfback Rex Williams, end Paul Brown, fullback Mert Cooper, guards Gary Matlock and Bailey Clements, and fullback-linebacker Clovis Shipp.

Williams did some good blocking on Rawls' keeper plays, and made the long run of the game—43 yards. He also caught two passes, for a total of 28 yards.

Brown snagged a pair of passes for 24 yards, and also did a good job of clearing the way for runs around his side of the line.

Cooper galloped for 24 yards, ran good interference for other backs, and played a stellar game on defense.

Matlock played his usual fine game on defense, and also pulled out of his guard slot several times to run interference in wide plays.

Also providing good cover on the keeper plays and other wide sweeps was the right guard, Clements—who also gave Palo Duro a rough time on defense.

Shipp, at the inside linebacker position, brought down or helped bring down several Don backs, and also caught the extra-point pass after Glover's touchdown. The extra-point pass was one of the best Harvester plays of the game as Shipp caught Rawls' pass on the four yard line and simply dragged a pair of Dons across the goal line with him.

Delbert Simmons and Benny Stout, the tackles, continued their fine defensive play.

**Red Griggs**  
★  
the pipeline

Even in this year of football drought, three of Pampa's eight football teams have a winning record, and one is even for the season.

The Shockers and the Lee Rebels are at the head of the list, with 4-3 records. The Lee eighth graders, who have completed their season, are next at 2-1-2. Pampa Junior High seventh grade, which has also completed its season, is even at 2-2.

The Shockers and Rebels are both at home this week. The Rebels play their last home game Thursday afternoon, and the Shockers play their last home night game Thursday night.

## Shockers Jolt Opposition

Weldon (Bird Dog) Trice's Shockers, who play host to the Amarillo High School B team at 7:30 p.m. Thursday, seem to improve with every game.

The B teamers have taken three of their last four games, all by two touchdowns or more. In one of those games, they shut out their opponent, and in two others they scored 30 or more points.

To make their showing even more impressive, all three wins were on the road. The Shockers whipped Plainview B, 30-14, dropped a 6-28 decision to Lubbock, then blanked Palo Duro B, 16-0, and throunced Tascosa B, 38-14.

BIRD DOG TRICE... winning coach

The win over Tascosa was the first one-sided victory marked up by any Pampa team this season, and the 38 points were the most scored by any Pampa team.

The Shockers have a balanced attack. They're capable of moving either on the ground or through the air. Their defense could stand improvement, but it's been adequate in most of their games.

With this kind of squad coming

up to reinforce the Harvesters next year, another losing season for the varsity seems unlikely.

The fast break on this long, slow curve is this: why not come out and watch the Shockers once before they move up to the varsity—like Thursday night, for instance?

## Lonesome Halfback Pays Off

The Harvester coaches, Babe Curfman, Eural Ramsey, and Dwayne Lyons, have come up with a new twist to the Harvester offense.

It's something of a cross between the "lonesome end" formation, a la Army, and a plain old winged T with a flanker. A back, not an end, has been split wide, but he has been sent farther out than is normal for a regular T flanker.

This maneuver was designed to "loosen up" the Harvester offense, and it's certainly done that so far. Before the Palo Duro game, the Harvester attack always went down the middle, except for an occasional pass.

But against the Dons Friday, the Harvesters' best plays were the quarterback keeper around end and short-to-medium passes. With the "lonesome halfback" decoying

the defense, and with a tidal wave of interference in front of him, Buddy Rawls averaged six yards per carry.

Rawls also connected on 6 of 10 passes, for 120 yards and a touchdown. Rex Williams did some powerful running, too, going 43 yards on one scamper.

There was really no fault with the Harvester offense, except that it stopped a few yards short of the goal line a couple of times.

If the Harvester offense continues to function like it did Friday—

**LEE REBELS**—The 1958 Robert E. Lee Junior High Rebels, pictured above, are: front row, from left, George Simmons, Claude Bradley, Mike Clark, Dick Batson, Dennis Mills, Tommy Woodruff, John Yates, Marvin Plung, Charlie Fant, John Hubbard; second row, from left, James Webb, Larry Satterwhite, W. ## Milstead Tops Offense, Pass Departments

**United Press International**

Texas A&M's Charlie Milstead is the busiest back in the Southwest Conference, and as a result he's a strong front-runner atop the total offense and passing statistical columns.

The Tyler junior has handled the ball 193 times in seven games for the Aggies and accounted for 1,006 yards— or 5.2 yards per play.

He's thrown 103 times and hit 59 times, for 779 yards, both figures tops for the loop. He's packed the ball 90 times on rushing plays for 328 yards, but he's lost 101 when trapped trying to pass for a net of 227.

Milstead's 18-out-of-34 performance for 229 yards last week against Arkansas shot him ahead of Baylor's Buddy Humphrey, who hit only three out of nine for 48 yards before going out of the TCU game with some bruised ribs.

## Ranks Second

Humphrey now has hit 54 of 105 for 551 yards and ranks second in total offense, with 624 yards.

Larry Hickman, the fourth busiest back in the circuit and by far the most-used ground gainer with 106 carries, held firmly to his rushing leadership with 57 yards against TCU for a 483 total compared with 354 yards for TCU's Jack Spikes.

SMU was the only team to have two men in the top six passers and total offense.

Don Meredith ranked third in passing with 36 hits for 448 yards and third in total offense with 491 yards, while his understudy, Billy Dunn, ranked sixth in each category with 24 passes for 323 yards and 425 yards total offense.

Average Firm

Pat Bailey of Rice was idle, but his 40.4-yard punting average held firm. Hickman led in kickoff returns with a 23.1-yard average, while Freddy Akers of Arkansas was tops in punt returns with a 12.1-yard average.

A dozen players each had intercepted two passes with SMU's Toney Wilmon making the most of his pair, returning them for an average of 17.5 yards.

TCU continued to dominate the team statistics with the best rushing offense (210.8), best total offense (325.0), best rushing defense (109.5) and best total defense (213.2).

SMU led Texas A&M by 2 of a yard in passing offense (145.8 to 145.6), while the Ags were the stingiest on giving up yardage through the air (621).

Birds are an offshoot of reptile stock that was laying eggs millions of years before the first bird flew.

## Iowa Is Number One; LSU Second; Sooners Cop Fifth

**By EARL WRIGHT**  
**United Press International**

NEW YORK (UPI)—The Iowa Hawkeyes retained a slender grip on first place today in the United Press International major college football ratings while the undefeated-untied Louisiana State Tigers pounced into the runner-up spot.

Defeats suffered Saturday by several of last week's highly-ranked teams enabled Northwestern and Notre Dame to climb back into the top 10 and produced several position changes among those that remained in the select group. Mississippi, shut out by Louisiana State in their "meeting of the unbeaten," and Pittsburgh, upset by Syracuse, dropped out of the top 10.

Early Christmas Present

Iowa, which collected one of its Christmas presents early when it defeated Michigan for the first time in 34 years, received 13 first-place votes and a total of 305 points from the 35 leading

coaches who rate the teams. Louisiana State, bracketed with Rutgers as the nation's only undefeated-untied major college teams, advanced from fifth to second with 299 points. The Tigers received 17 first-place votes, four more than Iowa, but the Big Ten team remained first because it received 15 second-place votes to the Southern team's three.

**Top Ten**

NEW YORK (UPI)—The United Press International major college football ratings (first-place votes and won-lost-tied records in parentheses):

1. Iowa (13) (5-0-1)  
2. Louisiana State (17) (7-0)  
3. Army (3) (5-0-1)  
4. Auburn (1) (5-0-1)  
5. Oklahoma (1) (5-1)  
6. Northwestern (5-1)  
7. Wisconsin (4-1-1)  
8. Purdue (5-1)  
9. Ohio State (4-1-1)  
10. Notre Dame (4-2)

## Quarterback Club To Meet Tonight

The Pampa Quarterback Club now has 128 members, and is still shooting for 150. The club meets tonight, at 7:30 p.m., at Robert E. Lee Junior High School.

Flies of the Palo Duro game (the Harvesters' best game of the year) will be shown, and Coach Babe Curfman will give a short talk on prospects for this week's game. Refreshments will be served after the meeting.

## Phelps-Funk Win Tag Team Match

Tommy Phelps and Dory Funk gained revenge Monday night for last week's defeat in a tag team match.

Phelps and Funk whipped Jerry Wood and Rip Hawk at the Top of Texas Sportsman Club wrestling matches, in a tag team rematch.

In individual matches, Phelps' results were repeated, as Funk beat Hawk and Wood pinned Phelps.

## Soviets Will Be Very Tough In Olympics

**United Press International**

NEW YORK (UPI)—Two-time Olympic decathlon champion Bob Mathias warned American athletes today that it would take a super-human effort to prevent Russia from scoring an overwhelming victory in the 1960 Olympic Games at Rome.

The United States probably will win the track and field championship, he analyzed. This is due to the fact that we have so many fine sprinters and middle distance men while European countries battle the Reds in the distances.

"But when you throw in all the other events, the Russians are training so many athletes in the minor sports that they figure to hand the rest of the world a bad beating for the overall unofficial championship," Mathias explained.

**Says Decathlon Tiring**

Looking at his specialty, which he won at London in 1948, and in which he set a world record at Helsinki in 1952, Mathias expressed doubt that current world record holder Rafer Johnson would be able to create a new mark in the international games.

"The decathlon, in which you compete in 10 events in two days, is what tires you out," explained the rangy Californian turned motion picture star. "I have never been as tired before or since, as I was the night I finished up at Helsinki."

## Courts And Criticism

This business of questioning or criticizing the Supreme Court seems to be going the rounds and some are even suggesting that there should be none of this, particularly by laymen.

It seems to us that no court in the land, not even the Supreme Court, ought to be above criticism. Courts, even the Supreme Court, make mistakes and later correct those errors and such correction is not likely to come unless there is criticism.

For instance, Sen. Styles Bridges of New Hampshire has recently placed in the Congressional Record a report of the Special Committee on Communist Tactics, Strategy and Objectives of the American Bar Association. This report was made this summer to the Board of Governors of the association but the board had already refused to release the text of the report. Somehow, Sen. Bridges came into possession of the report and put it into the Congressional Record where it is available to anyone interested in obtaining it.

While the report is valuable documentary evidence of the actions of the Communist conspiracy in the United States, we brought it up here primarily because it briefly outlines 20 Supreme Court decisions which somehow are concerned with the Communist conspiracy.

Certainly such a study group as the committee named above is in a position to make criticism of the Supreme Court decisions if such criticism can be justified and such criticism ought to be aimed at judicial standards and the line of thought taken by the

## Another Red Fraud

Talks started Friday in Geneva on a universal ban on testing of atomic and nuclear "appliances." Once again Uncle Sam stands in the position of being the No. 1 Champion Champ.

The Russians have now reverted to type with a vengeance and their boast to the world of a ban on nuclear weapons has been exposed as the fraud it was feared to be. They are now exploding new devices on a full scale and apparently intend to speed up the tests.

In the United Nations talks, while they were bleating about a willingness to put an immediate test ban into effect "for all time," their representatives say they won't join in the one-year delay that has been proposed by the United States and Britain.

We wish to take this stage by stage until it has been demonstrated that adequate systems of inspection and detection — absolutely necessary to the effective enforcement of a test ban — can in fact be established.

Having shown nothing to justify trust in them, the Russians in effect ask everybody to take them on faith. It's as if the world's most famous bank robber applied to the Bank of England for the job of carrying gold to the vaults.

Our Atomic Energy Commission says that in their newest series of nuclear blasts now totaling six, the Soviet Union has set of at least one with a relatively high radiation yield.

One of the most outrageous aspects of the Russian position as currently stated is their declaration that they propose to conduct at least another 10 test blasts to "catch up" numerically with the total they say the United States and Britain have touched off.

This is an absurd proposition designed for propaganda effect only. It is a crude attempt to justify before the world their abandonment of a ban they obviously never intended to observe in the first place.

If it were anything but this, one would be tempted to class it as a kind of juvenile insanity. The "I can do anything you can do" theme when applied to the business of contaminating the world's atmosphere with nuclear fallout could only be madness if seriously meant.

Furthermore, any exact numerical matching would in this instance be meaningless. While the three nuclear testing nations must surely be following the same general lines in their experiments, it is fantastic to imagine that their specific endeavors are similar and would require testing procedures identical as to kind and number.

That the Soviet Union dares to insult the world's intelligence with this proposition, even as transparent propaganda, indicates how little the Kremlin has really changed.

More than a million people visit Mount Vernon, George Washington's estate, every year.

CHIP NO LOANS TODAY! I AM FLAT! OH, NO!

YOU'RE ALWAYS GOOD FOR A ROUND FIGURE, DAD!

## BETTER JOBS

By R. C. HOILES

A Talk To Teachers On Business Education Day

The Santa Ana Chamber of Commerce Institutes a Business Education Day for the public school teachers in Santa Ana School District. Some 70 business firms in Orange County entertained 700 school teachers by showing them through their plants during the forenoon and trying to explain to them what free enterprise really means and paying for their luncheon at noon.

The Santa Ana Register, one of Freedom Newspapers, had 20 of these teachers as its guests.

The Santa Ana schools were dismissed and the teachers received pay for attending this Chamber of Commerce Business Education Day program.

It might seem inconsistent with the newspaper's belief that non-free-enterprise schools cannot really successfully teach their pupils to believe in free enterprise in other things, to free these teachers as a captive audience to try to explain the meaning of free enterprise business.

Of course, the present teachers are not the primary cause of our trouble. Our drift away from free enterprise and the American way of life started years ago when Horace Mann, who was responsible for establishing a state board of education in Massachusetts more than a century ago, succeeded in selling the American public to believe that schools based on taxation could really educate people to believe in government as set forth in the Declaration of Independence.

The present teachers have a very difficult job, by compulsory attendance of pupils who have no will to learn, by tenure that retards the advancement of the most capable teachers, and by being obliged to use the books selected by the National Education Assn., that is more interested in promoting their power than getting the children to understand the difference between right and wrong. Especially is this true when our Supreme Court has ruled that religion, even the Commandments and the Golden Rule, cannot be taught in tax-supported schools.

My explanation to these teachers was based on every person getting what he gets on a voluntary basis without fraud or the threats of injuring the other party and where both parties benefited they were benefited.

That, to my notion, is the essence of the capitalist free-enterprise system, where men have a right to own property. And ownership, in the final analysis, means the right to control and manage, so long as this property is not used to injure other people.

Of course, giving a better service than other businesses are able to give is not injuring anyone, because no business owns its customers. If other businesses cannot benefit their customers as much or more than anyone else, they have no right to be their customers. Losing a customer is not a real loss to a business concern any more than having the sheriff take an automobile from a person who has stolen it.

It, of course, takes quite a long while before business really realizes the true meaning of laissez-faire business. Business is an attempt, of course, to benefit the customers as much as possible. The more one benefits his customers, the more customers he will have.

It is also an obligation to pay his employees and benefit them as much as any other employer can benefit them. He thus is in competition in getting his employees, and he is in competition in selling his wares.

I tried to explain to them that every man should get all he produces, that that's the essence of free enterprise business, and the only way to measure what each person produces and thus should get is by having jobs or positions interchangeable. In other words, having an absolutely free market.

One teacher suggested that labor was not a commodity. Of course the employer does not buy labor. He buys what he thinks labor will produce, and that is a commodity. If anyone else thinks labor will produce more than his present employer believes, that employer is free to accept a job that will better remunerate him.

One teacher inquired as to whether we believed in profit sharing. My contention was that profit sharing was a form of socialism, sharing profits was all right if the workers also were willing to share the loss, but that there was no reason for profit sharing if the employer was getting all he could get from any other employer, that this kind of profit sharing had a tendency to belittle and make the worker feel inferior to the employer; that he might come to believe that he was more or less a ward to the employer. It also was harmful to the employer because it tended to exalt his opinion of himself. It tended to make classes of society instead of brothers.

A Compliment Even with my belief that government tax-supported schools was one of the primary causes of our trouble, such as ever-mounting debts, discriminatory labor laws and almost continuous wars, at least one of the teachers seemed to enjoy it, because at the luncheon one of the teachers said I had received a compliment. One of the teachers said another teacher had told her he would rather

stay and hear my discussion of these economic problems than go to luncheon.

The teachers as a whole are a fine set of persons, but they are working under an accumulative political handicap that has made it almost impossible for them to render the service they would like to render.

## Robert Allen Reports:

### Red China Apparently Has Four US Prisoners

WASHINGTON — Red China apparently has four new American military prisoners.

They are casualties of the Quemoy-Matsu fighting. The quartet disappeared mysteriously while enroute from Matsu to Formosa, and all indications point to their being in Communist hands.

No announcement regarding their fate has been made by any source — Peiping, Nationalists or the Pentagon. At the latter, however, it is privately admitted the four servicemen are "missing."

That's their status as now listed on Army and Navy rolls. Relatives have been notified of this. The missing men are:

- Major Robert C. Bloom, Missoula, Mont.
- Captain Wayne Pitcher, Wampanoag, N.J.
- Pvt. 1st Claude L. Baird, Duff, Tenn.
- Navy Radioman 3rd Dwight H. Turner, Clarence, Mo.

Word about the group is being sought by Ambassador Jacob Beam, in the three-year-old negotiations with Red China now taking place in Warsaw.

A major purpose of these protracted discussions is to obtain the release of four U.S. civilians serving long sentences as "spies," and information regarding several hundred missing Korean war prisoners.

## The Doctor Says:

Dr. Edwin P. Jordan

One of the most widespread health problems today is a disease of the eyes known as cataract. Thousands of people develop this difficulty every year, and their numbers are increasing simply because more of us are living longer to the age cataracts become more frequent.

A cataract involves that portion of the eye which serves as a lens. The lens is normally clear but becomes clouded in cataract. This produces a blurring of vision.

Perhaps it can be explained best by comparing it with the lens of a camera. If a camera lens is not clean, a picture taken with it would be blurred and fuzzy.

How much fuzziness there is depends on the amount of cloudiness in the lens. If only part of the lens is involved, part of what is seen may be clear and part hazy. If the whole lens is clouded, then all objects will be blurred.

A beginning cataract, in which the clouding is slight, is called "incipient." When the process of clouding has been completed it is called "ripe" or mature.

Unfortunately, medical treatments — such as drugs or surgery — have not proved to be of value in dissolving material which clouds the lens, nor can they restore normal vision. Glasses also do not cure cataracts nor give adequate correction.

Operation is the best treatment for a cataract. When the cataract is mature it can be removed and full vision restored in uncomplicated cases. Surgery of the eye has been so much improved that it is sometimes possible to remove the lens with a cataract in it at

early stages of development — that is, before it is "ripe."

In response to several people in their 80's or 90's who have inquired, I should like to say that many of them can be successfully operated on in spite of their advanced years.

There is no reason to believe that eyestrain leads to the development of cataract, though, of course, eyestrain should be avoided for other reasons. Heredity and particularly increasing years seem to have more to do with most cases of cataract than anything else.

An untreated cataract will lead eventually to blindness. This unfortunate situation, however, can be avoided because of the excellent results now obtained by surgery.

## Looking Sideways

By Whitney Bolton

NEW YORK — CUFF NOTES: Munn't waste a minute getting in touch with the Travel Editor of the AP. . . He has discovered a brand new highway not shown on any map. . . Writing of the aftermath of the Anzio airplane crash, the AP reports: "Prince Shiv, driving from London to Naples, said, 'If Prince Shiv had been Where Was The Naples can drive from London to Naples he deserves more attention than inquiry whether Eva Bartok does or does not love him. . . He has blazed a significant highway, if a slightly phantom one."

John Harris, who owns the "Ice Capades," sends a colored postal card from Leningrad; which does not say "Wish you were here" or even "Sleeping under two blankets every night. . . All it says is: "Interesting enough. . . But the subject of the picture card is deeply interesting: It is a reproduction of an oil painting of the death of Hitler and Chums in the bunker in Berlin. . . Three German officers have shot themselves in the head. Hitler, pale and distraught, stands in the concrete and steel doorway with a gun in his hand. . . The Russians, who adore realism, have it in that card.

Ran into an old, old Frenchman the other night and among other matters he disclosed a recent visit to the island which once was the site of the horrendous French prison for incorrigibles: Devil's Island. . . "My people did good things," he said. "They closed down this infamy and they refused to spend a franc obliterating it. They have let the Cayenne jungle do it and the jungle without cost, is doing a magnificent job. Most of the buildings once above ground have been crumbled by twisting roots, so that only a few scattered walls remain. The subsurface pens have been engulfed by vines and roots, and the steel doors rusted away in the jungle damp. It would have cost a fortune to erase the place, yet in a comparatively few years the jungle is in command. Formidable is Nature. I once dreamed New York had suffered a catastrophe and was a ghost city. Central Park and other little havens of green had jumped their barriers and were covering the ruins with beautiful plants. The Empire State Bldg., standing like a shattered front tooth, was a column of English Ivy. Lovely."

Never think that debutantes, all pink lace and touching eagerness, do not know our city. . . At an after-theater supper the other night I ran into one devastating young creature and we talked about New York and its secrets for a long time. . . "I'm sure you don't know two things," she said. "One, that a woman here runs a school for teaching telephone operators, and get a fee for it from each girl, even though the telephone company will teach applicants free. Two, there is a canteen where the Korean war and charged with being spies, Downey was sentenced to life, and Fecteau 20 years. Redman and McCann are businessmen also accused of espionage. The former got life, and the latter 15 years."

ON THE BRINK — A group of Marine jet fighters came within a hairsbreadth of clashing with Chinese Communist MIG-17s. The Marines spotted the Reds near Quemoy and started after them, but were stopped by ground control.

The MIGs immediately departed. . . U.S. jets now defend most of Formosa and the Formosa Strait. The remaining area is patrolled by the Nationalists. . . Senator Mike Mansfield (D. Mont.) of the Foreign Relations Committee, and Senator Estes Kefauver (D. Tenn.) of the Armed Services Committee, are pressing both the State Department and Pentagon for information regarding the missing U.S. servicemen, but so far without results.

FINAL APPEAL — President Eisenhower's last electioneering effort was a personal letter to several hundred businessmen and other friends throughout the country. In this private appeal, the President stated three basic principles are at stake and "warns" of the bright promise of this nation's future will be dimmed or will disappear" if a GOP Congress is not elected.

The key principles cited by the President are peace, prosperity and "racketeering in certain important sections of the labor movement."

"I see little hope of straightening out that problem," declares the President, "unless the political complexion of Congress is changed. . . Here indeed is a grand effort for a Republican Congress."

Also vigorously assailed by the President is the increasing danger of "a welfare state."

"The Federal Government can and should always be ready to extend a helping and guiding hand," states the President, "no matter what major problem may confront the American people. But it should never attempt to provide the complete solution for any problem that properly belongs to individual localities or states."

"I do not want my grandchildren to become wards of a welfare state. I want them to be sturdy and self-reliant, with as much, if not more, initiative and opportunity as our generation has had. I want them to stand squarely on their own feet, and not to depend on a centralized government in Washington to take care of them."

To each of these personal letters, the President attached a list of 17 "Accomplishments" of his Administration. Foremost among them were:

- "Korean war stopped; largest tax cut of all time; satellites launched; highest employment ever; social security coverage expanded; statehood for Alaska; St. Lawrence Seaway; new agency for outer space; inflation braked; positive efforts to return power to the states; new superhighways; atoms for peace."

## Hankerings

By HENRY McEMORE

The McEmore Migration continues. Neither the Boers nor the Mormons ever moved forward more relentlessly.

Like a river of molasses, flowing uphill, Mary, baby Megan, poodle "Charley," and I, press on toward the West Coast. . . Now three days on the way. . . I was able to cheer my little family tonight with the news that we had covered 129 miles, and now had only seventeen or eighteen more States to cross.

Our progress would have been even better today had we not had such a difficult time finding a swift-flowing stream in which to wash a bundle of Megan's baby clothes, but the sports car we are traveling in isn't quite as big as the guitar, so Mary has to furnish music on the harmonica, an instrument she is just learning to play.

The washing, sterilizing and feeding of the baby takes about ten of the daylight hours, so you see, we have to really buzz along with what is left of the day, otherwise we still wouldn't be much out of our driveway at home.

But when you travel with a baby you soon develop a philosophy about the hardships. I have a philosophy now, but I don't believe this is the time or the place to print it.

Here's to the man who can smile through his tears. . . The fact that in this species all the members of a litter are developed by the cleavage of a single germ cell. The nine-banded armadillo, about the size of an opossum, is found in several varieties, from Texas and Arizona to Paraguay and Argentina, and it is the only species of armadillo, whose range is as far north as the United States. Edentates are restricted entirely to the New World, and most species of armadillos, which vary in length from ten inches to three feet, inhabit the tropical regions of South America.

What animal bears its young in litters all of one sex? . . . The peba, or nine-banded armadillo, bears its young in litters of four, and the members of any given litter are invariably of the same sex. So far as known, this is a characteristic of no other animal, and scientists believe it is due to the fact that in this species all the members of a litter are developed by the cleavage of a single germ cell.

Brace yourself: Before Jan. 15, given any break at all with luck, we will start our world with a device in space.

STOP PESTERING ME OR I'LL GIVE YOU SOME THING TO EXPLAIN TO YOUR WIFE!

The Christian church first celebrated Palm Sunday in the 300's in Jerusalem.

LITTLE LIZ

UPI
NEW YORK, MAY 24. --(UPI)--THE UNITED PRESS ASSOCIATIONS AND INTERNATIONAL NEWS SERVICE JOINED FORCES TODAY AROUND THE WORLD IN THE CREATION OF A SINGLE NEWS AGENCY NAMED "UNITED PRESS INTERNATIONAL."
THIS IS THE FIRST DISPATCH OF THE NEW SERVICE WHICH WILL EMBRACE THE LARGEST NUMBER OF NEWSPAPER AND RADIO CLIENTS EVER SERVED SIMULTANEOUSLY BY AN INDEPENDENTLY OPERATED NEWS AND PICTURE AGENCY. AGREEMENTS COVERING THE CONSOLIDATION OF SERVICES WERE SIGNED BY BOTH GROUPS AND THE ANNOUNCEMENT WAS DELAYED UNTIL THE... WILL BE PRESIDENT
AND WILL REINFORCE THE JOHNSON, VICE PRESIDENT
SCRIPPS TO INSURE THAT PAPER OR ANY PERSON AN ADEQUATE NATIONAL AND
LIAM RANDOLPH HEARST FOR THE ORGANIZATION OF THE WORLD'S NEWS ENTERPRISE AND FOR ITS NEWS-ENTRIPSE AND WORLD-WIDE EVENTS. THE COMPLEX GLOBAL NEWS SERVICE ONE EFFECTIVE TRANSMISSION
EVOLVED BY FRANK H. BARTHOLOMEW AND LEROY KELLER FROM THE UNITED PRESS AND J.D. GORTATOWSKY AND KINGSBURY SMITH FROM THE INTERNATIONAL NEWS SERVICE.
JP1139A
This is the historic first dispatch of United Press International. It marks the start of operations by the greatest independent news agency, combining the forces and facilities of United Press Associations and International News Service.
The UPI logotype represents objective, thorough, and enterprising reporting, by word and picture, throughout the world today.
