

ST. LOUIS IS BLUE!

This aerial view shows the gaping hole the remains of a fallen antenna of TV station KTVI after a vicious tornado, in the roof of the St. Louis Arena and with winds up to 110 miles per hour, ripped into the metropolitan Missouri city Tuesday morning. It killed 22 and injured 350.

St. Louis Starts Shoveling Debris

By STAN MOCKLER
United Press International

ST. LOUIS (UPI)—An army of workers today struggled to clear away mounds of debris that once were homes and searched for possible additional victims of a tornado that killed at least 22 persons and injured more than 350.

A check of police districts in the tornado disaster area near the center of the city showed one person still missing. An officer said, "We are not sure if he is missing due to the tornado, or if he is just disconnected."

Rescuers believed they had recovered the last of the dead and concentrated on cleaning up the wreckage from a teeming Negro tenement district hit hardest by Tuesday's twister.

The workers toiled through the cold, windy night under the glare of portable flood lights.

City officials declined to give an authoritative estimate of the damage, but unofficial estimates ran above the 10-million-dollar figure.

President Eisenhower Tuesday night declared the nation's eighth largest city a major disaster area and authorized the use of federal aid for relief efforts.

The bodies of the last two missing persons, a mother and her young son, were pulled from the wreckage of a rooming house Tuesday night and taken to the city morgue.

Husband Escapes

The victims were identified as Mrs. Lee Buggs and her son, Lee Jr., 1. The woman's husband, Lee Buggs Sr., who had miraculously escaped when the building collapsed, had reported his wife and son missing.

Twenty of the dead were Negroes and eight of them children.

Other victims included Mrs. Mildred Campbell, 29, and her five children, aged 1 to 8, who were crushed in a mass of brick and wood when their three-story rooming house collapsed. Seventeen other tenants were trapped and injured.

The Red Cross estimated about 5,000 persons were homeless, but said most of them were taken in by relatives, neighbors and friends. The Red Cross set up four centers capable of caring for 500 of the needy and homeless.

Donations poured in to the Red Cross tornado relief fund among them checks for \$5,000 each from the St. Louis Post-Dispatch, the St. Louis Globe Democrat and Anheuser-Busch, Inc. An unidentified woman walked into a shelter and handed a Red Cross worker a roll of \$5 in dimes.

Most of the 353 tornado injured were treated and released, but 55 remained hospitalized, some of them in serious condition.

Twister, 'Sprung Up'

The tornado struck a 210-square block area before dawn Tuesday, catching the city without warning, according to C. M. Caswell, chief of the Weather Bureau issued no warning because the twister "just sprung up."

He said "it happened so suddenly and so close to St. Louis there wasn't enough time to give a warning." However, even at the time, it moved too fast to do anything about it.

No Warning Of Tornado Was Given

By DENNIS MCCARTHY
United Press International

ST. LOUIS (UPI)—St. Louis residents were not warned of a tornado that took more than 20 lives because "there was no warning to give," according to meteorologist C. M. Caswell.

Caswell, who is stationed at the U.S. Weather Bureau at Lambert St. Louis Airport, said today the twister "just sprung up."

"We just plain don't know enough," Caswell said, "and it happened so suddenly and so close to St. Louis there wasn't enough time to give a warning."

It was believed the twister got its start in southwest St. Louis County.

"The first we heard of the tornado came from St. Louis police who called to tell us of the damage," Caswell said.

The tornado occurred at 2:15 a.m. Tuesday. Reports of the tornado did not reach the Weather Bureau until a short time later.

Under a severe weather warning service, the Weather Bureau first alerts police of the impending danger, and then releases its warning. Radio stations cooperating with the service then are notified of the warning through an arrangement used in the Conelrad defense warning system, although the stations each maintain their own wave lengths and do not switch to one frequency.

Caswell said severe thunderstorm warnings were issued about 8:40 p.m. Monday by the storm warning center at Kansas City, Mo.

"According to the Kansas City bureau, conditions were not quite right for a tornado," Caswell said.

"You can't blame them," Caswell said. "A tornado is a very complex phenomenon and extremely hard to predict and even harder to pinpoint. Meteorologists just don't know enough about them yet."

Caswell said the radar screen at the Weather Bureau here showed a "hooked shaped object" at the time of the twister. "That didn't necessarily mean it was a tornado," he said. It could have been a thundercloud.

"Besides, it was too late then. Even if we had known at the time, it moved too fast to do anything about it."

Giant Storm Blankets East With Ice, Snow

Winds, Floods Blizzards Follow

United Press International

The second giant storm of winter, which triggered a deadly combination of tornadoes, blizzards and floods, pushed into the East today with a blanket of snow and ice.

A sheet of ice spread from the southern Great Lakes into New England, turning highways into treacherous skidways.

In St. Louis work crews probed the rubble and debris of a tenement area where a pre-dawn tornado early Tuesday killed at least 22 persons and injured more than 350. In addition, there were three weather-connected deaths in both Illinois and Wisconsin, two each in Arizona, Indiana, Ohio and Michigan, and one in both Iowa and Pennsylvania for a total of 38.

Flash-floods swirled out of Indiana, Ohio and Pennsylvania, the same areas which weathered some of the worst floods in their histories, less than a month ago.

TO THE RESCUE

Should you ever be injured in a highway accident you can count on some expert first-aid from any of the state's highway patrolmen, including Pampa's Royce Logan (above). Logan, pointing out the "emergency first aid sticker" on his patrol car above, carries both a standard and advanced first aid card. The first aid stickers were applied to all patrol cars in the area this week. (Daily News Photo)

Hospital Zone: Slow...No Stop! Red Light Replaces 'Flasher'

A fixed time signal was installed at the intersection of Hobart and Kentucky late Tuesday afternoon, replacing the "flasher" that has plagued motorists since 1956.

Agitation for the new traffic light was intensified last year but made no headway until the traffic count rose to 9,930 vehicles a day.

Since Dec. 4, 1958 three traffic counts were made at the Hospital corner. The latest, on Dec. 16, showed an increase of 35 per cent over an Aug. 5 count. The Dec. 16 count was 9,930, taken over a 12 hour stretch.

The installation was recommended by Charles W. Smith, District State Highway Engineer, Amarillo. Smith stated that Kentucky had been opened to the west to afford a paved connection between State Highway 70 and Farm to Market Road 282. It was approved by J. A. Wallen, chief engineer of the State Highway Department.

The need for a new traffic light has been discussed in the City Commission and local Traffic Commission ever since cross-street traffic began to tie up the corner. The City took the first count on Aug. 5, 1956 under the direction of the old City Commission. Last year the situation worsened and two counts were made within the last four months.

Minor Fire Damages Washing Machine

A washing machine in the Jack Plummer home, 1813 N. Banks, caught fire Tuesday morning but did only minor damage. Pampa firemen reported today. The machine's motor began to smoulder at 8:54 a.m.

'Boom' Still Big Mystery

By RICK PEZDIRTZ
Daily News Managing Editor

Speculation rose higher than a March kite adrift in a wind storm all over Pampa and The Top O' Texas area Tuesday afternoon following a one-second "boom" that reality could have been one of several things.

Sounding to some like a muffled blast and to others as a deafening thud, the mysterious "boom" is probably destined to remain of an unknown origin, it occurred at 2:08 p.m.

Lee Bond, United Press International bureau chief in Dallas phoned the Pampa Daily News shortly after the "boom" and reported that residents in Wichita Falls had felt its effect. The UPI newsman was attempting to check out a story lead that the wall of a large Pampa store had cracked. No such incident however, had been reported.

Gray County Sheriff Rufe Jordan said his department received several phone calls after the "boom" was heard and felt, but that he, like everybody else, has no information to give and is just as puzzled as the next fellow. Police Chief Jim Conn also reported he had no information on the "boom."

Popular opinion of Pampa residents Wednesday morning was that a "tiny" Texas earthquake caused the "boom."

Deskin Shurtz, director of the observatory at Texas Tech, about 120 miles south of the "boom," Lubbock reported "some slight deflection" on his seismograph. "I said some people reported they felt the ground move. If the ground moves, in fundamental language, it is an earthquake," Shurtz related. However, at Southern Methodist University in Dallas Dr. E. E. Harris said his seismograph recorded nothing.

"If it was felt, we should have recorded it," he said. He said SMU instruments can record quarry blast 200 miles away. It is difficult for me to say if we could miss an earthquake."

Reports of the strange sound came from Perryton, north-west from Clovis, N.M., to Westport from Friona and Clayton from Borger, Pampa and McLennan on the east.

A meteorite expert at the University of New Mexico, Dr. I. coin La Paz, said it could be on the east.

(See BOOM, Page 5)

Jeffries Sells Trucking Firm

In an all-day auction Tuesday, C. M. Jeffries, a pioneer trucker of the Panhandle, sold out the stock of his Trucking Company and Grading Corporation. Buyers were from Florida, West Virginia, St. Louis, Mo.; Chicago, Ill.; Phoenix, Ariz.; New Mexico, Oklahoma and California.

Jeffries' retirement ends fifty years in a trucking business begun in the Kiefer oil fields of Oklahoma. Starting in 1908 with a team of horses, he acquired trucks and in 1926 moved his trucking concern to Borger. He moved to Pampa in 1932 and in 1945, established the Grading Corporation.

He did business in Pampa for 26 years.

If it comes from a Hardware Store, we have it. Lewis Hede. (Adv.)

Youth Center Fund Fattened

"There is still a need for a healthful, wholesome, Christian recreation program." The speaker was Dr. Joe Donaldson, board president of the proposed Pampa Youth and Community Center.

Last year's Building Fund campaign raised about \$150,000 in pledges and since then contributions have continued to come in. Tuesday night the Pampa Chapter of the Society for the Preservation and Encouragement of Barbershop Quartet Singing in America, Inc. donated the proceeds of its recent Parade of Quartets, \$75, to the Youth and Community Center.

Dr. Donaldson, who was guest of honor at the SPEBQA's Valentine Party, told the Barbershoppers that Mrs. Irene Carter, the Center's "Fairy Godmother," has given \$17,500 more to the cause. It was Mrs. Carter who started the campaign ball rolling last year with a pledge of \$125,000 to guarantee the operation of the center. This Operating Fund is in addition to a \$200,000 Building Fund sought by Center planners.

In view of recent upsurges of juvenile delinquency, Dr. Donaldson feels that the needs of youth are not being met and that something will be done about it.

YOUTH CENTER CHECK

Dr. Shewmaker, president of the local Barbershop Quartet organization, right, presents a \$75 check to Dr. Joe Donaldson, head man of the Pampa Youth and Community Center Campaign. Another quartet member, C. R. Howard, secretary, looks on. The presentation occurred at the group's Valentine Party Tuesday night in the First Christian Church.

Only Three Days Left To Cast Vote

Hey, friend... just three days remain in which to cast your ballots for Pampa's "Friendliest, Most Courteous" man and woman employees.

The midnight oil is already being burned by tabulators, counting the thousands of ballots that have already been cast. Hundreds have been nominated and it appears several close races are in the making, with the winners to be in doubt until the very end.

Your votes today's ballot and instructions are on page 3. Can help your favorite friendly folks win \$50 each (man and woman) and a framed certificate.

The winners and an honor roll of 25 top vote-getters will be featured in the Sunday, Feb. 22, Daily News along with pictures and names of many other nominees.

Here are the names and places of work of another 50 nominees: Frances Appleby, BMA Insurance; Charles Allen, Frontier Store; Mrs. Vernon Alexander, Post Office; Glen Adams, Walke's Sales and Service; Lois Brown, Montgomery Ward; Pearl Bynum, Gilbert's; JERRY Bickel, IGA Food Liner and Mrs. Ruth Bogard, McCaskey's; Betty Casey, Citizen's Bank and Trust; Winnie Cois, Kyles; Mattie Crowson, Gilbert's; Mary Cadie, Highland General Hospital;

Phyllis Denton, McLellan's; Ann Dunn, Wilson Drug; Shellie A. Downs, Dixie Parts and Supply; Harold Deering, Deering's Service Station; Marie Egerton, First Baptist Church; Cecil Edwards, Pampa Glass and Paint; W. L. Epps, Ideal Food Store Number 1; Norma Fuips, Tex Evans Buick Company; Ruth Franklin, Frontier Store; Sue Folmar, Frontier Store; Y. C. Fuch, Leland's Grocery and Market; Joe Gerik, C&M Television; Vickie Garcia, Pampa Theatre; June Griffith, Beryl and Braly; Geneva Gobin, Highland General Hospital; Francis Gerik, Pampa Clinic; Charles Gurley, Crown Humble Service Station; T. Hardegree, Montgomery Ward; Doris Hebert, Worley Hospital; Mrs. Bert Hancock, High- (See VOTES, Page 5)

'STICK-UP' BOY PAROLED

A Pampa boy, 14, who Monday admitted he attempted to "stick-up" a Pampa woman, has been paroled to the custody of an uncle in Graham, Texas.

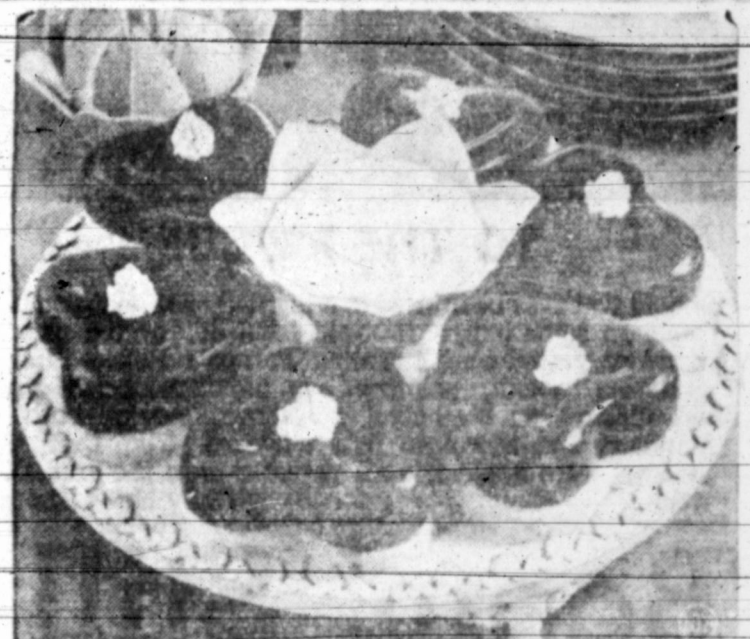

The youngster, described as a habitual trouble-maker and truant, was paroled at a hearing before Juvenile Judge Bill Craig Tuesday.

TWENTIETH CENTURY WELCOME—Mrs. Kirk Duncan, left, president of the Twentieth Century Club, extends a welcome to Mrs. Weldon Adair, center, and Mrs. Thelma Gray, right, as they arrive at the Open House Benefit held Tuesday morning in the home of Mrs. Joe Gordon, 1811 Charles, for the benefit of the March of Dimes campaign. All members of the Twentieth Century Club were hostesses to the guests, who called between the hours of 9:30 and five o'clock throughout the day. Over \$100 was derived from the Benefit. FESTIVE and gay, these apple hearts are just the thing to brighten Valentine tables.

COOK'S NOOK

Aspic In Shape Of Heart Makes Delicious Valentine

By GAYNOR MADDOX
NEA Food and Markets Editor
Big red hearts of tomato aspic, sparkled with hot red pepper sauce, will brighten the Valentine party with brighten the Valentine party with buffet.

VALENTINE ASPICS
(4 servings)
Two envelopes unflavored gelatin, 3/4 cup tomato juice, divided, 1/2 teaspoon salt, 1 teaspoon sugar, 1 cup lemon or lime juice, 6 bread slices, 6 stuffed olives, one 3-ounce package cream cheese. Sprinkle gelatin on 1 cup of the tomato juice in saucepan to soften. Place over low heat, stirring constantly, until gelatin is dissolved. Remove from heat; add remaining 1/2 cup tomato juice, tomato sauce, salt, sugar, Worcestershire sauce and lemon juice. Pour into one-half-cup individual heart shaped molds; chill until firm. To serve, cut bread slices into heart shapes, the same size as molds. Finely chop olives; add to cream cheese and cream well. Spread bread-lith mixture. Unmold aspic on cream cheese topped bread. Serve with mayonnaise using 1/2 teaspoon tabasco to each 1/2 cup mayonnaise.

Here's another refreshing mold—aspic salad, this one sparkled with aromatic bitters.

TROPICAL GRAPEFRUIT MOLD.
(Makes 4 servings)
Two envelopes unflavored gelatin, 1/2 cup sugar, 2 1/2 cups water, divided, one 6-ounce can frozen concentrated grapefruit juice, 2 tablespoons lime or lemon juice, 1 1/2-cup medium sweet sherry or water, 1 tablespoon aromatic bitters.

Mix together gelatin, sugar and 1 cup of water in saucepan. Place over medium heat, stirring constantly, until gelatin and sugar are dissolved. Remove from heat. Add

remaining 1 1/2 cups water, undiluted grapefruit juice concentrate and remaining ingredients. Pour into a 4-cup mold; chill until firm. Unmold. If desired, garnish with whipped cream.

TOMORROW'S DINNER: Braised pork chops, fried apple rings, whipped potatoes, lima beans, rye bread, butter or margarine. Valentine's aspic, chocolate walnut cake, coffee, tea, milk.

Mrs. R. Higgins New GA Leader
Mr. Glen Robertson, president of the Women's Missionary Union of the White Deer Baptist Church, presided at the recent business meeting of the group in the church.

Mrs. Felix Ryals read the prayer calendar with Mrs. E. J. Keith offering prayer.

Members made plans for visitation each Thursday.

It was announced that Mrs. Ralph Higgins will be the new Junior Girls Auxiliary counselor.

Mrs. Ted McCurley led the closing prayer.

Present were Meses: Glen Robertson, Ted McCurley, Eugene Richardson, Andy Simon, W. B. Carey, Jay Phillips, Calvin Adams, Tom Ingram and E. J. Keith.

The next meeting for the group will be a Royal Service program in the home of Mrs. Jay Phillips on Feb. 17 at 1:30.

Mrs. Bradley Feted At Pink-Blue Party

LEFORS (Sp) — A pink and blue shower was given recently in the form of a coffee honoring Mrs. Theron Bradley, in the home of Mrs. Dean Higgins.

Hostesses were Meses: E. P. Ross, W. C. Breining, Bernard Johnson, Dean Higgins, C. C. Mullins, Jess Graves, Gladys Pafford, Joe Watson, Floyd Hines, and Wayne Wall.

The serving table was laid in a linen cutwork cloth over pink centered with pink daisies in a lamb-shaped vase. Napkins were embroidered with a stork. Crystal and silver appointments completed the setting. Mrs. Breining presided at the silver officiate service.

A corsage of pink carnations was presented to the honoree and a corsage of white carnations was presented to Mrs. Jeff Bradley, mother of the prospective father.

Guests were Meses: Cleve Johnson, L. H. Berryman, A. T. Cobb, Jess Bradley, Mollie Jones, Carl Ferguson, Earl Atkinson, M. A. McKnight, and Miss Marilyn Patterson.

Approximately twenty gifts were sent by those unable to attend.

Miss Jackson Named For Home Honor

CANADIAN (Sp) — Miss Andrea Jackson was named 1958 Betty Crocker Homemaker of Tomorrow at Canadian high school recently.

She will receive a homemaking pin manufactured by J. O. Jensen, which represents the slogan, "Home is Where the Heart Is."

Miss Jackson's examination paper will be entered in competition with those of other school winners in the state to name the state's Betty Crocker Homemaker of Tomorrow.

DEAR ABBY...

By Abigail Van Buren

DEAR ABBY: First let me say that I am a very happily married woman so I can't understand why I should dream about all my old boyfriends. For the past few months I have been having the most fantastic dreams about a different one almost every night. When I wake up in the morning I feel so embarrassed I can't look at my husband. I would like to know how I can put a stop to these dreams. Is dreaming bad for you? Am I normal?

DREAMER: You can't stop dreaming, so don't waste your energy worrying about it. Dreaming isn't bad for you, but the feeling of guilt combined with fretting and stewing about things over which you have no control... can make you pretty miserable... and even ill. You're normal. Forget it.

RUTH-MILLET

Why is it that everyone encourages young couples to own their own homes, yet well-meaning friends so often try to discourage a woman without a husband from being a homeowner? The woman who lives alone is nearly always told by those who think they have her best interests at heart that she should rent an apartment so as not to have "all the worries and responsibility" of home ownership.

If she listens to such advice a woman does have a fairly simple way of living. She has to worry about no mortgage to pay off, no yard to take care of.

Yet the happiest lone woman I know are ones who have grown tired of living in rented apartments, tired of feeling "rootless" and have gone ahead and bought or built homes of their own.

As one career woman explained it to me: "There are so many advantages in having a home of her own that the woman without a husband doesn't even realize until she has become a homeowner."

"Being a property owner in her neighborhood, instead of a renter, gives her something in common with her neighbors. Right away she has things to talk about to the couples who live near her. An increase in property taxes hits her as hard as anyone... so she is genuinely interested. A much-needed rain makes her as happy as it does her neighbors."

"Mutual problems bring people together and the woman who avoids the problems connected with home ownership automatically builds a self-sufficient wall around herself."

"More obvious advantages of home ownership for a woman are the feelings of security and permanence it gives her, the opportunity it offers in expressing her ideas of decoration, and the happiness that comes from being able to say 'my home.'"

If you think you can't have a home because you haven't got a husband, this career woman's ideas may make you think again.

Mrs. Anderwald Has Bell Meeting

Mrs. Tom Anderwald spoke on the topic "Club Refreshments" at a recent meeting of the Bell Home Demonstration Club held in the home of Mrs. Anderwald, southwest of the city.

During the business meeting conducted by Mrs. D. W. Swain, president, plans for serving lunch at the Top of Texas Fat Stock Show were completed. It is planned that all members will help with the preparation and serving of food.

"Some of the things to consider when serving refreshments at club meetings," Mrs. Anderwald said, "are the time of the meeting who is coming, and what will be easy to serve with your equipment and space. The hostess needs to determine if the guests need extra calories or if they are watching their weight. Usually it is best not to serve rich desserts that are high in calories as they are too filling and will dull the appetite for the next meal."

Mrs. A. Anderwald showed an example of an attractive and appetizing refreshment that had contrast of color, texture, and taste. Present were Meses: Glen Newman, a guest and member, Meses: H. H. Keasbey, Roland Daiser, Carl Smith, Troy Maness, Walter Noel, D. W. Swain, Ernest McKnight, and T. D. Anderwald.

Miss Friz Feted On 18th Birthday

PERRYTON (Sp) — Miss Ricki Friz celebrated her eighteenth birthday with a buffet dinner in the home of Mr. and Mrs. W. C. Sanders, 1417 S. Colgate, recently.

Miss Friz is an exchange student from Germany and is spending this school year in the home of Mr. and Mrs. Sanders. She is sponsored by the First Methodist Church.

Hosts were Meses: and Mmes: Dwight Sims, Arch Talley, Willard Witt, Paul Holdeman and Mr. and Mrs. Sanders.

Pictures of the party were made throughout the evening by W. H. Lane, so Miss Friz can enjoy them when she has returned to Germany. Party games were directed by Paul Holdeman.

The guest list included Sherry West, Becky Rouch, Carolyn Kelly, DeVona McEntire, Anita Nlaughter, Carol Daley, Jimmy Carol-Newman, Oma Dell-Ryan, Bonnie Witt, Tommy Ellsey, Charles Peterson, Teddy Jo Gunter, Dan Townsend, Richard Haley, Dom Neufeld and Keith Good.

Mature Parent

By MRS. MURIEL LAWRENCE
When at 14 or 18, we start doing all our shopping for ourselves by ourselves, we can have a pretty confusing time.

A saleslady shows us two dresses. Neither is the color or style we have in mind. The saleslady says coldly, "How can you tell you don't like them if you don't try them on?"

So we follow her into the fitting room. The first dress is too small. As we zip up the second one, the saleslady clasps her hands in admiration of us. "That's for you!" she cries. "Look at the fit of that bodice! Never should you wear anything but sweetheart necklines!"

The bodice is too short. The sweetheart neckline sags and we wanted a brown dress instead of a blue one to go with our tan spring coat. But the saleslady seems so interested in us that we don't want to offend her. We take the dress we don't want, feeling all mixed up and unhappy.

We can feel the same way about other things. A reader of 14 writes, "I've started going with a boy who always wants to neck."

"When we go to a movie, it's not to see the picture but to smooch in the balcony. If I say anything, he gets mad. My girl friends say I'll lose him if I don't do what he wants."

They say that because they're not used to having boy friends. Just as we let salespeople make us buy dresses we don't want when we first start shopping for ourselves, so we think we have to let boy friends neck us when we first start having dates.

Like the saleslady, they seem so interested in us that we don't want to offend them. But the truth is the boy-friend who insists on necking when we don't want to is no more interested in us than the saleslady.

She's interested in ringing up a new sale on the cash register and he's interested in proving he can make a new girl fall for him. Both are pushed by interests which have little to do with us. In our hearts we know this and become secretly angry at them both.

Sometimes it takes time to learn this. We have to lose boy friends before we discover that they expected dating us, not because we refused to neck them but because we did neck them—in anger and resentment.

Bake Sale Plans By 20-30 Club

LEFORS (Sp) — Mrs. Leonard Cain was surprised with a baby shower at the recent meeting of the 20-30 Club in the home of Mrs. Calvin Lacy.

A baby motif was carried out in the cake decorations and large napkins folded as a three cornered diaper were used. Coffee and candy mints were served.

Mrs. Lacy, president, presided over the business meeting, with Mrs. Jimmy Pennington calling the roll, reading minutes and giving a financial report. It was decided to have a bake sale Feb. 14, at all three grocery stores in LeFors, and to invite the Home Demonstration Club to assist in the sale as proceeds will go toward buying playground equipment for the city park.

A supper in Pampa was planned for Feb. 13, for the club members, after which they will attend a movie.

"Why They Act That Way" was the program topic used by Mrs. Ernest Foshee in a talk on the behavior of two and three old children.

Members present were Meses: Leonard Cain, Joe Archer, Ray Dickerson, Bob Wilson, J. M. McPherson, Chestene Dunn, E. E. McDonald, Bud Means, Ernest Foshee, Jimmy Pennington, Calvin Lacy, Wayne Sims, Billy Cox, and one guest, Mrs. Joe Dan Watson.

angry at them both.

Sometimes it takes time to learn this. We have to lose boy friends before we discover that they expected dating us, not because we refused to neck them but because we did neck them—in anger and resentment.

VOTE FOR COURTESY

Friendliest -- Most Courteous -- Employee Awards

LET'S MAKE PAMPA THE FRIENDLIEST CITY IN TEXAS!

I vote for the following for the awards: "Friendliest, Most Courteous" WOMAN EMPLOYEE—Name _____ Place of Business _____ "Friendliest, Most Courteous" MAN EMPLOYEE—Name _____ Place of Business _____

Clip out: fill in, and please mail the above to "Friendliest, Most Courteous" Employee Awards, at the Pampa Daily News, Pampa, Texas, or deposit in any one of the 4 ballot boxes located at Citizens Bank and Trust Co., First National Bank, Pampa Chamber of Commerce, or the Pampa Daily News—voting ends on Sunday, February 15. Announcement will be made in the February 22 edition of The News. Store owners or managers are not eligible. Vote as often as you wish; use only the award voting ballot which will be published daily in The News.

Rotarians Honor Wives With Party

Pampa Rotarians honored their wives last night at their annual Valentine party at the Pampa Country Club. Over 200 people were in attendance.

The main program of the evening was a talk by Miss Florence Coffey of Canyon, who told of her experiences as a Rotary Foundation Fellow in Australia where she did graduate work and traveled extensively. Most of Miss Coffey's talk covered her travels which were well illustrated with colored slides.

Don Cain, club president, presided at the meeting and DeLena Vicars led in the singing. Dr. Hubert Bratcher paid a tribute to the ladies and Max Bolick introduced the visitors and guests.

In a special presentation, Fred Neslage, with the assistance of Ed Myatt, presented Floyd Watson with a plaque in recognition of his past service to the club.

The Million Trio offered several renditions for the entertainment of the group.

Visitors and guests for the evening were Rotary District Governor Burnett Roberts and Mrs. Roberts, Mr. and Mrs. H. E. Hershell, Mr. and Mrs. E. O. Wedgeworth, Mr. and Mrs. John Farr, Mr. and Mrs. Gene Holler, Mr. and Mrs. Joe Tooley, Mr. and Mrs. Bob Hamilton, Mr. and Mrs. Art Attergut, Mr. and Mrs. H. E. Stanfield, Mr. and Mrs. Frank Fata, Mr. and Mrs. Ed Myatt, Mrs. J. L. Nance, Miss Peggy Jamison, Mr. and Mrs. Don Forsyth, Mr. and Mrs. Gene Barber, Mrs. A. W. Brown, Mrs. Gertie Foster, Mr. and Mrs. Ed Miller and Mr. and Mrs. Howard Wagner.

WINDS

(Continued From Page 1)

Their homes when Town Creek overflowed its banks. Buildings on the city's outskirts were flooded by as much as six feet of water. At least 98 roads were closed in the Buckeye State, nine of them since the floods of Jan. 21.

Local DeMolays Set Installation

The Pampa DeMolay Chapter will install their newly elected officers Saturday night.

The installing team will be furnished by the Lubbock and Borger DeMolay Chapters. Refreshments will be served by the DeMolay Mothers Circle.

DeMolay boys will meet in the Masonic Lodge Hall on W. Kingsmill. A special invitation is extended to the Rainbow Girls and Scottish Rite Masons. The meeting is open to the public.

Dickie James will be installed as master counselor. John Grimsley as senior counselor and Darrell Kirby as junior counselor.

Science Club Has Speaker

Tri Sci, Pampa High School's new science club, heard its first guest speaker, Cliff Akers, at a recent meeting. Akers is a chemical engineer with the Phillips Petroleum Company, Borger.

In a well prepared speech, he explained the operations of the Phillips Company. Taking a barrel of crude oil, he showed the different processes that it goes through before becoming a finished product.

Girl members were interested to learn that Phillips makes a chemical called cyclohexane, an essential ingredient in the production of nylon.

At Georgetown, Ind., an ice jam piled up against a bridge shortly after a 14-mile long ice pack was broken up just above Logansport.

The "Friday the 13th" sales of merchants in Sharon, Pa., were cancelled as the Shenango River jumped to a crest of about 14 feet. Merchants began removing their wares from stores, while the Sharon Steel Corp. shut down several facilities.

However, colder weather appeared to ease the threat of major flooding in Sharon. Some sewer water backed into streets in the business district, but the river remained in its banks.

At Meadville, north of Sharon, French Creek climbed within two feet of the 57.3-foot flood stage. The Weather Bureau predicted light snow for the area today.

Fifty Teams Due For FFA Contest

The Future Farmers of America Livestock Judging Contest, March 3, will draw approximately 50 teams from the Texas Panhandle. Each team will consist of three boys, accompanied by their instructor. Judging will get underway at 10 a.m. Awards will be made at a 5 p.m. banquet in the Senior High School cafeteria. All contestants and coaches will be the guests of the First National Bank and Citizens Bank and Trust Company.

Details of the Contest were worked out this morning by a five-man steering committee: Quentin Williams, Contest Superintendent; J. P. Smith, assistant superintendent; Bob Skaggs, Pampa High School Vocational Agriculture Teacher; Frank M. Carter, and E. O. Wedgeworth, manager of the Pampa Chamber of Commerce.

The official judge of the show will be Charles Smallwood, head of the agriculture department of West Texas State College. Small-

The executive board of the Horace Mann PTA will meet at 1:30 p.m. Thursday in Horace Mann Elementary School. Mrs. T. M. Brooks, president, made this announcement.

Tracy D. Cary, **STUDIO OF PIANO AND ORGAN**, 430 N. Sumner, 4-8415.

The Public Relations Committee, Top O' Texas Girl Scout Council, will meet at 9:30 a.m. Thursday in the home of Mrs. Morris Silver, 1136 Seneca. Mrs. J. W. Dugan, chairman, made the announcement.

Youth Put In Parent's Custody

A 13-year-old Pampa boy, apprehended here following a break-in Sunday, has been identified as the same boy who recently forged three checks in Pampa, juvenile authorities reported Tuesday.

In Juvenile Court Tuesday the youngster was put into the custody of his parents with the warning he must attend school regularly.

The 13 year-old was picked up in an outhouse on S. Barnes Monday morning. He was accompanied by a 12 year-old who admitted he also took part in the break-in. The younger boy has also been released to his parents' custody.

Checks passed by the older boy totaled \$20. Probation Officer H. A. Doggett reported the boy readily admitted to both the house breaking and forgeries.

The American Society of Composers, Author and Publishers was organized in 1914.

Local DeMolays Set Installation

The Pampa DeMolay Chapter will install their newly elected officers Saturday night.

The installing team will be furnished by the Lubbock and Borger DeMolay Chapters. Refreshments will be served by the DeMolay Mothers Circle.

DeMolay boys will meet in the Masonic Lodge Hall on W. Kingsmill. A special invitation is extended to the Rainbow Girls and Scottish Rite Masons. The meeting is open to the public.

Dickie James will be installed as master counselor. John Grimsley as senior counselor and Darrell Kirby as junior counselor.

Two Pampans Put On Council

CANYON (Sp.)—Two Pampa students have recently been named to the Baptist Student Union Executive Council on campus of West Texas State College in Canyon.

Katherine Eslick, daughter of Mr. and Mrs. Lee Edward Eslick is devotional chairman, Katherine is a junior elementary education major.

Kenneth Yager, son of Mr. and Mrs. Lewis C. Yager, is in charge of Sunday School. Yager is a freshman business major.

BOOM

(Continued From Page 1)

been a daytime meteorite hitting the earth.

Denver and Tucson observatories both reported negative on a "quake" in the area.

A Pampa geologist informed that shifting sediments underground, better known as a "bump" by miners, could cause such a disturbance overhead, but doubted if that was the nature of Tuesday's "boom."

Several late lurchers in a Pampa dining establishment rose from their tables when the "boom" occurred and then sat back down, thinking a large delivery truck had rammed the building while backing in to let off supplies.

Perhaps the most shocked person was a local woman who was just turning up the thermostat of her home's central heating unit and thought she had "bombed" her own home in some way by the flick of a dial.

Employees of the Daily News, which like both radio stations KPDM and KHHH received phone calls from anxious citizens, heard the "boom" over the din of office typewriters and machinery. One News employee thought it was a heavy roll of newspaper (750 pounds per roll) falling in the press room.

Most popular belief was that a jet plane had broken the sound barrier, which occurs as shock waves following the flight of a plane streaking through the atmosphere at better than 750 miles per hour, are ruffed back towards earth. However, officials at Amarillo, Albuquerque, Clovis and Wichita Falls air bases reported no jets in the Top O' Texas area at the time.

Thus, Tuesday's "boom," thud, quake or quirk of nature, is expected to remain a secret. Investigators did report that the "boom" definitely was not the result of a flying saucer hitting earth.

ST. LOUIS

(Continued From Page 1)

if a warning had been issued, it is doubtful that many persons would have been alerted.

The giant funnel swooped into the city at 2:15 a.m., when most of the city was asleep.

St. Louis Civil Defense Director Francis P. Hardaway criticized the Weather Bureau for failing to report the tornado through regular operating channels until two and one-half hours after it struck. The Weather Bureau said it did not learn of the tornado until 45 minutes after it hit and then concentrated on warning Illinois areas in its path.

The twister crushed a total of 21 multiple dwellings and 29 business places. Another 1,245 multiple dwellings and 423 businesses were damaged, along with 13 single residences.

Hughey Rites Scheduled

Funeral services for Paul M. Hughey, 60, of Borger, former long-time resident in Pampa, will be held at 3 p.m. Thursday in the Borger First Christian Church with Dr. Wallace Brown officiating.

Mr. Hughey died at 12:20 Wednesday morning in the North Plains Hospital, Borger. He was a member of the First Christian Church, Pampa, Lodge No. 966 A.F.&M. and the Khiva Temple Shrine in Amarillo.

He is survived by his wife, Mrs. Ida Hughey of the home address; a step-son, Bobby Burns of Amarillo; two sisters, Mrs. Jimmie Egancheck of Dallas, Mrs. Norman Carter of Point.

Interment will be in Memory Gardens, Pampa, by Pampa Lodge No. 966 A.F.&M. Funeral arrangements are by Ed Brown, Borger funeral director.

POSSIBLE CANCER CAUSE

LONDON (UPI)—Professor F. C. Pybus, a leading British surgeon, warned today that smoke from burning leaves and garden rubbish are possible causes of cancer.

Pybus, professor emeritus of surgery at the University of Durham, wrote in the magazine the medical press that, "the smoke from these smouldering heaps is darker, more irritating, generally foul smelling and, as might be expected, contains benzpyrene, a suspected cancer agent."

Protectionism

We have a new phrase we'd like to introduce. We'd like to characterize a majority of our government employees, elected and otherwise, together with their panting devotees, as the "cult of protectionism."

Inflation No Alibi

Last December, President Eisenhower fancied that he was beating his critics to the draw. He addressed the nation's taxpayers via radio, TV and the news reporting media to give them the glad tidings that he was preparing the 1960 budget—that it would be a penny-pinching budget of a mere \$77 billion—and that everyone should be assured that he was going to get the budget balanced or know the reason why.

The Pampa Daily News

We believe that freedom is a gift from God and not a political grant from government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

BETTER JOBS

By R. C. HOILES

Federal Spending And Liabilities

I doubt whether anybody knows actually what the federal government is spending a year when liabilities are included as a claim against the taxpayer.

Doubtful Surplus

In estimating that the coming year will be balanced, they certainly have stretched their estimate. They have estimated personal income taxes increasing up to \$4,700,000,000. This is an increase of \$3,800,000,000 on personal income tax.

Reserve For Liabilities

And the federal government for pensions and unemployment sets up no reserve to take care of the liabilities they have assumed in issuing these pensions.

In an article in "Essays on Liberty" George M. Clark, President of the Pioneer Bank, Chattanooga, Tenn., observes: "Mr. W. Rulon Williamson, a former actuary of the Social Security Administration, believes that his successor's estimate of \$300 billion to \$325 billion as 'plausible' accrued liability may be too low."

As is crystal clear from these facts, the tremendous expansion in spending for non-defense purposes in recent years cannot be ascribed to inflationary causes except in moderate degree. Now can the increased spending be charged to our expanding population, as it often is?

Of course the State Chambers Council was stepping as far away from the defense area of spending as possible, since that is a sacred cow and no one dares question it. Nonetheless, there must be some reason why non-defense spending continues to go up, even when the President insists that he is cutting costs to the bone.

Rinta says there are three reasons and here's the way he sees it.

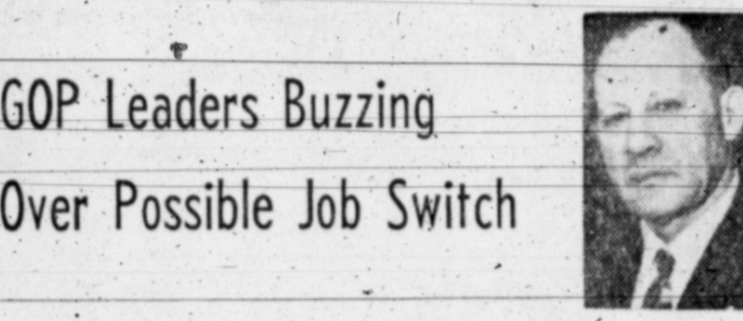

One reason is the expansion of activities and liberalization of benefits and subsidies under existing programs, usually to satisfy the demands of special interest groups.

Expert Testimony

IS THE MILITARY BUDGET HIGH ENOUGH? THEIR PART OF IT IS!

Robert Allen Reports: GOP Leaders Buzzing Over Possible Job Switch

WASHINGTON — Republican congressional leaders are buzzing about a spectacular switch in top party jobs.

According to this backstage report, Postmaster General Arthur Summerfield will quit the cabinet to become Republican National Chairman, and Chairman Meade Alcorn will take over Summerfield's place.

Reputedly this job exchange will occur this spring.

Vice President Nixon is being prominently mentioned in connection with it. He is being credited by GOP insiders as strongly favoring Summerfield for National Chairman.

Alcorn told newsmen last week that one term as Chairman is enough for him.

Since the 1956 election, there have been a number of reports about Summerfield's leaving the cabinet. They were especially active last summer, but subsided after Congress adjourned.

Recently, four Republican representatives from Michigan (Summerfield's home state) used their congressional frank to mail out more than 40,000 copies of a speech by him on the need for more comprehensive labor laws.

MORE JUGGLING — Another prominent Michiganian is being slated for a "hot" job.

Former Senator Charles Potter, a World War II veteran who was defeated in last year's Democratic sweep, is reputedly being considered for appointment to the Tariff Commission.

Senate Republican leaders are telling colleagues they have been sounded out on that by the White House. They heartily approved Potter's selection, and voiced complete confidence he would be quickly confirmed by the Senate.

AT THE SAME TIME, Potter is to be named to a vacancy created by the retirement of Chairman Edgar Crossard, who has reached the statutory age limit of 70.

COSTLY GOP OVERHEAD — Republican campaign chiefs have uncovered what may be one important reason for their party's heavy loss in House members in last year's election.

To their astonishment they have learned that the House Republican Campaign Committee spent only \$74,000 in direct financial help to GOP candidates out of a total of \$1,050,000, of which \$350,000 was to be contributed directly to Republican candidates.

On that basis, prior to the fall campaign, the Committee's 60-member staff spent large sums for radio and television recordings and films, posters, newsletters, pamphlets and other literature, etc.

By October 1, when Simpson counted on having at least \$300,000, it hadn't come in. As a result, the Committee was able to dole out only small sums to GOP candidates.

"It's now clear," admitted Simpson, "that the Committee made a tactical mistake by spending most of its funds too early in the election."

National Chairman Alcorn advocated "centralized fund raising" for the party.

Looking Sideways

By WHITNEY BOLTON

NEW YORK — Having been brought up with a decent regard for doctors as able and sometimes skilled men totally prone to error and not creatures to be regarded with awe, I sometimes find this healthy point of view strained.

The straining is caused by some doctor's getting up in meeting, usually in England, and sounding off with what is palpably sheer nonsense.

Today's case comes from England, a country which seems to breed vocal doctors, and is about as close to nonsense as you can come without getting a doubtful look indicating need for a psychiatrist.

Item: "Every adult shrinks about half an inch every 20 years."

Untrue. I was exactly six feet tall at 15, I am still exactly six feet tall today, just about 40 years later. I should be 5' 11" by this estimate. The statement says "every" adult. Not "some" adults.

Item: "At 20, hearing begins to fall off."

Untrue. I can hear better today than I could at 25. At 29 I had a severe ear infection. When it was cleared up, my hearing was about 20 per cent keener than it had been before and there seemed nothing wrong with it before.

Item: "At 40, the ability to see dimly-lit objects starts to diminish."

Untrue. I see as well today, at more than 50 as I did at 20 or 30 or 40. I have, fortunately, a kind of night vision. I have no trouble seeing in darkness or dim light, once my eyes have accustomed themselves to it.

Item: "At 50, there is a decline in the finer degrees of taste."

Untrue. I have a greater enjoyment of subtle flavors today than I had at, say, 40 and in the last seven years the increase in sharpness of taste has advanced perceptibly.

There are also items covering ages 60 and 70, but not having time to discuss them.

The Doctor Says:

by EDWIN P. JORDAN, M.D.

One trouble which comes from measuring the blood pressure is that far too many people pay too much attention to whether the blood pressure goes up a few points or down a few points.

It is natural for the blood pressure to vary somewhat. Normal blood pressure is not always fixed at one certain level.

When the heart contracts and squeezes blood into the artery the outward thrust pressure of the blood rises. When the heart relaxes between beats, the pressure in the arteries falls.

The high point of the pressure is called "systolic." There is always a difference between these two figures.

Both the level of the systolic pressure and that of the diastolic pressure, may be of significance to the examining physician.

The level of blood pressure, particularly the systolic, is influenced by a number of factors, such as emotional disturbances, cold, exercise or excitement.

For these reasons it is common for the first test of the blood pressure in a doctor's office to be high just because of the excitement of the visit. Quite often the pressure may be normal the next time.

A blood pressure which remains constantly high is something to watch. It can result from various kinds of heart disease or from a disease which thickens the blood.

It also comes from decreased elasticity of the arteries caused by deposits of fatty-like substances or calcium in the walls of these vessels.

This is the kind of high blood pressure which accompanies hardening of the arteries. Perhaps the most common type of high blood pressure is that for which no cause can be discovered and which is commonly known as "essential hypertension."

Hankering

Man Must Build A Better Can Opener

By HENRY McLEMORE

It is entirely possible, I have decided, that the richest nation in the world, the United States, might some day starve to death.

If it does, full blame can be laid on the doorsteps of the packagers — those experts who are determined to put up food in containers which are next to impossible to open.

The growth of unopenable, or near-unopenable, containers has been a rapid one. As recently as ten years ago a man could buy food with a reasonable expectation of getting it at. Within a decade, however, packagers have so developed in wile and know-how, that to buy a package today is to risk having eventually to use it as a doorstop, or to take it to the nearest road track and ask an engineer to run over it for you.

For instance, take the packages stamped "Press Here."

A better legend would be "Use Sledge Hammer Here."

A recent survey (I made it myself, and it was county wide) showed that of 1,247 men, women and children who attempted to open these packages with pressure of the thumb, only three had sufficient strength to push in the little tab. And of these three, two were professional wrestlers and the other an unemployed circus giant.

To get at the contents the other 1,244 had to place the carton on the floor and either kick it in or smash it with a hammer.

One of the housewives in my survey showed me a box of cereal that had been on her pantry shelf for seven months.

"All the members of my family have had a shot at opening it," she said, "but not even Tom, my oldest boy, who plays tackle on the football team, was able to reach these empanadas yet I cannot testify. One was that at 60 the sense of smell begins to lose its acuteness. I know a lot of people 60 and more years old and among them was my late father, who, at 67, could stand on a hill-top and say, 'There's a smeech of burning coal somewhere around,' and there always was, sometimes as much as four miles away. He even could smell gold. He claimed that gold ore in its native state had one odor and silver ore another. I once asked a gnarled old Mexican silver miner, just up from a deep shaft, if this was true. He said it was. He said the smell of silver ore in a mine was strong and unpleasant, whereas gold ore lying virgin in a vein had a pleasant odor. If this old man was a day he was 70, but he showed up at the mine every day and did his day's work. His older brother, who claimed to be 79 and also was a miner, was reputed to be able to smell gold jewelry and tell its karat content. Whether 14 or, customary in Mexico, 18 karat, I never tried it out on him and can't say if he was the truth.

There are women of 75 who can smell guilt in a man the instant he walks into a room. You watch them some time at a big gathering. Some glossy buck, filled with guilt but outwardly as innocent as a lamb, will stride in spreading arms, cheery and happy, and you are sure enough some lean old lady off in a corner in a rocker will purse her mouth grimly and sniff disdainfully. Happens all the time.

And now, let us hope that for another 90 years England and her allies will spare us any further phony yardsticks on human behaviorism and deterioration.

Item: Lots of doctors can be ridiculous.

True.

Bid For A Smile

She was a chorus girl and she complained to her chorus girl friend: "Chorus girl — Why ain't I never invited to parties in swell places like you are, Daisy? I get invited once and they never ask me again. Friend — I'll tell you why. You are never invited the second time. You can't discuss any subject with people when you are at a party. Then, you'll be an interesting conversationalist!"

LITTLE LIZ

It's a mistake for a fellow to work so hard that his son won't have the problems that made a man of his father.

Matter of FACT

The first United States circus was presented by Ricketts in Philadelphia and New York City in the late 18th century. Among the spectators at some of its performances was George Washington. Many circuses came into being during the first part of the following century. They traveled in wagons. The first circus to travel by train was P. T. Barnum's, starting in 1872.

Prompt Dental Attention May Save Child's Cracked Tooth

(EDITOR'S NOTE: This is the third in a series of articles published by the Pampa Daily News, in cooperation with the dentalists of Pampa in observance of National Children's Dental Health Week February 8 to 14 and the centennial of the American Dental Association. Some recent developments in dentistry affecting children are discussed.)

Prompt attention by a dentist often can save a child's tooth which has been broken or pushed out of place in an accident. Sometimes even a tooth that has been dislodged from its socket can be replaced.

Red Cross Has Busy Schedule

An instructors class in mother and baby care will begin in April, it was announced at a board meeting of the Pampa Red Cross Tuesday. "There is a very great need for registered nurses to teach this course in Pampa," Mrs. Harry Hoyter, nursing chairman, said. Registered nurses, who will give their time to this project, are invited to call the Red Cross office.

John Gikas, chapter chairman, appointed a committee for the annual meeting to be held in May. Appointed were Lorene Locke, chairman, James Hart and Sam Begert. The nominating committee is made up of H. V. Wilks, Bob Carmichael and Hattie Holt. The Awards Committee consists of Euna Lee Moores, chairman, with J. B. Massa and Leroy Kretzmeier.

Mrs. Lorene Locke, chairman of volunteers, reported that she is carrying a welcome letter to newcomers from other Red Cross chapters, inviting them to become associated with the local chapter. The High School Junior Red Cross has sent a chest to the Belgian Congo. The chest contains school and health supplies as well as a Harvest-Arrival and recreational equipment.

The program was given by E. R. Pemberton, First Aid chairman. He told of the work of the First Aid Committee and the classes taught by FA instructors. An instructors class will begin in March. Persons interested in becoming instructors should call the Red Cross office. A new First Aid film, in two parts, was shown to the group. The film is available for loan to other groups.

Girl Scouts Set Camp Open House

An open house at Camp Mel Da. has been set for April 26, Mrs. Tony Smith, camping chairman of the Pampa Girl Scout Council, announced today. The camp, located near Lefors, will be open from 1 to 4 p.m. for parents and friends of Girl Scouts.

The Girl Scout camping season will open June 8 with an Intermediate Camp. This Day Camp will be followed by Fly-up and Brownie Day Camps.

Camping dates are June 8-13, Intermediate; June 15-20, Fly-up; and June 22-27 or July 6-11, Brownies. Brownies may attend either camp.

Sub-committee chairmen are Mrs. Richard Zimmerman, Budget; Mrs. V. C. Moore, Troop Camp; Mrs. Jack Seals, Day Camp; Mrs. Mr. and Mrs. Al Green, Camp Maintenance and Equipment.

Eagles Will Make Trip

Six Eagle Scouts from the Adobe Walls Council, Boy Scouts of America, will head for Austin Friday on an annual Eagle Recognition Trip. The boys will be present when a Council report is made to Governor Price Daniel in the House of Representatives.

Three cars will leave the Pampa City Hall at 7 a.m. Friday. Dale Stone, Pampa, Roy Bassett, Canadian, and Bill Bartlett will accompany the boys.

In Austin the boys will be guests of the Capitol Area Council. They will be housed at Bergstrom Air Force Base and will attend the annual report Saturday morning.

The trip will climax Boy Scout week for the Eagles. The Adobe Walls delegation consists of Bill Martin, Pampa; James Henslee, Borger; Calvin Slovack, Booker; Jim Shearer, Booker; Paul T. Buchanan Jr., White Deer; and Buddy Crowson, White Deer.

Luxury Airliner, A Symbol Of Germany In Postwar World

Foreign News Commentary
BY PHIL NEWSON
UPI Foreign News Editor

From a luxury airliner which had flown nonstop from Frankfurt, Germany, to New York, stepped a youngish-looking man with a mission last week.

Both the airliner and the man were significant.

The airplane, belonged to Luft-hansa-German Airlines, headquartered in Cologne. It was a real luxury job. The airline called this particular flight "The Senator." It was designed with special appeal to successful businessmen and for every three of its 32 passengers it carried one crewman. It had its own special chief.

Lufthansa began flying the international airlines at almost exactly the same day West Germany became a sovereign state, May 8, 1955.

The man was Berthold Beitz, managing director of the vast Krupp combine of steel mills, coal mines and factories in West Germany. While here he would confer in New York and Washington.

The man he answers to is Alfred Krupp, by right of succession sole owner of the Krupp interests, a man reported able to write a check for one billion dollars, and also reputed the richest man in Europe.

Mrs. Joan Paton, Pampa

CONGRATULATIONS

To Mr. and Mrs. Alfred Thompson, 901 E. Albert, on the birth of a daughter at 3:30 p.m. weighing 7 lbs. 1 oz.

To Mr. and Mrs. Delmar Newman, 1301 S. Barnes, on the birth of a daughter at 8:41 p.m. weighing 8 lbs. 1/2 oz.

Expect Extension

In the years since World War II, Krupp has disposed of properties worth in the neighborhood of 34 million dollars. He still holds properties whose value runs into the hundreds of millions.

It now generally is expected that the Western Allies will agree to the extension asked by both Krupp and Thyssen, although both had been among those held responsible for bringing Adolf Hitler to power and in preparing for and maintaining Hitler's aggressive war.

Why the Allied switch? An obvious answer is that West German troops and war potential now are being developed on the side of the West as a barrier against Communism.

Another is Krupp's own answer that it is not easy to find a buyer with 500 million dollars in his pocket, and that, even if he could, it would be economic suicide to break up into small bits an industrial complex in an age of automation and steadily increasing production.

Meanwhile, there has grown up the European coal and steel community under which, in Western Europe, materials flow freely across boundaries to benefit industries of all member nations. Included in the community are those two ancient enemies, France and West Germany. The Allies believe the coal and steel community may offer guarantees effective enough to prevent Krupp or other great industrial concerns from becoming a political danger again.

sincere ?

Sincerity is a precious quality. Sincerity can bring you and the world great rewards. The Episcopal Church will help you channel this quality into service for God and mankind.

LESABRE, the Buick you can own for only \$200 more than the best models of the leading low-priced cars...

This is in no way a "stripped" car you're looking at. Come in and study the manufacturer's suggested retail price of a Buick LeSabre like this, equipped with Twin Turbine automatic transmission, radio, heater, white sidewall tires, and anything else you want in your next car. Then do the same to the top models of the leading low-priced three, and you'll find the statement above stands up.

What a difference for only \$200!

Now think how much more you'd enjoy a Buick. A comfortable, substantially built automobile. A car with the finest ride in all Buick history. A car with Buick's exclusive fin-cooled brakes, and the smoothest type of transmission money can buy. A wonderfully quiet and greatly respected car!

Owners report QUALITY outstanding

Your money in a Buick today puts you in on the ground floor of what promises to be a long new time of leadership for Buick cars. "My sixth Buick and the best I ever owned!" "Best-operating car I've driven in thirty years!" "Much the best Buick yet!" Reports like these mean extra pleasure in your Buick ownership...and they mean hard dollar value when the time comes to trade. It all adds up to the best proof in 50 years that: **WHEN BETTER AUTOMOBILES ARE BUILT, BUICK PEOPLE WILL BUILD THEM!**

New in gas economy, too!

In planning the '59 Buick, the new Wildcat engines, transmissions, and axles were all engineered to work together for greater gas mileage. Across the country owners tell us they are getting 15 to 20 miles per gallon in the '59 Buicks. And in a recent thorough test of Buick LeSabre against another car of comparable size and a good reputation for economy...the Buick won in every case under all kinds of driving conditions.

So we think we've got a new kind of value in this Buick LeSabre. And we suggest you go to your Quality Buick Dealer's and see whether you agree before you buy a new car.

THE CAR IS THE BUY!

SEE YOUR LOCAL AUTHORIZED QUALITY BUICK DEALER NOW!
