Rain, Cool Weather Slow Crops

CD Coordinator Named By Judge

Bailey County Judge Glen Williams, who is chief of all civil defense operations in the entire county, has named Gordon H. (Corky) Green as civil defense coordinator for the county.

around **muleshoe** with the journal staff

District Court Clerk Nelda Merriott said that jurors who had been requested to report for duty on Monday, August 16, are asked not to report as notified.

She said the cases scheduled have all been settled or passed for this term of court. Grand jurors have been asked to report as notified on Friday, August 20, *****

Two-a-day football practices start Monday, August 16, announced Muleshoe High School Athletic Director Fred Hedgecoke.

He asked that all players report to the athletic department at high school at 8 a.m. Monday. *****

Mike Hinkson, son of Mr. and Mrs. Frank Hinkson, of the Lazbuddie community received a Bachelor of Science Degree in Agriculture in graduation ceremonies at New Mexico State University, Las Cruces, last week. *****

In commencement exercises Friday, at Abilene Christian College, Abilene receiving a Bachelor of Science degree in elementary education was Mrs. Bennie Bruns, the former Gail Con't on Page 2, Col. 1

The appointment was made Tuesday afternoon.

Green is an attorney in the law offices of District Attorney Jack Young, and is a former Bailey County Deputy Sheriff. His wife is the former Donna Gaston of Sudan. She is employed in the offices at West Plains Memorial Hospital.

The new CD coordinator got his baptism Wednesday afternoon when a tornado was spotted on open range on the Muleshoe National Wildlife Refuge, some 20 miles south of Muleshoe.

He alerted the Bailey County Fire Department, put the ambulances on a standby basis, and notified the hospital before starting a cloud watch.

One of the first things asked by the CD coordinator, "Please ask people not to call the Law Enforcement Office to ask for weather information. Keep tuned to the local radio station, who will have current up-to-date information on the clouds and their movement.

"I cannot emphasize enough," he said, "how important it is to keep the telephone lines open in the law enforcement office to request weather information and to keep telephone contact with the fire department and radio station, as well as the weather station in Lubbock."

Green continued, "A prime example is the recent situation where the sirens were blown, and the four telephone lines into the Law Enforcement Center were tied up for more than an hour. The dispatchers and personnel attempting to transmit necessary telephone information were virtually unable to because the lines were not open."

Con't on Page 2, Col. 4

FREAK WRECKS BY REFRIGERATED TRUCKS--Two refrigerated trucks, one from Dallas and the other from Portales, were wrecked in identical fashion only slightly more than a mile apart on the same highway Thursday afternoon and Friday afternoon. In the first accident, involving the truck shown here, Al Wayne Moore of Dallas lost control of the truck after it hit water on the highway during a rain, jackknifed the truck and overturning

it as shown here. This was 7.2 miles east of Muleshoe on Highway 70. Neither Moore or his passenger, Mike Hereford, also of Dallas, were injured. Around 2 p.m. Friday, during another rainstorm, Robert Gonzales of Portales lost control of his refrigerated unit 5.8 miles east of Muleshoe on Highway 70, jackknifed and left the highway. He is being treated at West Plains Memorial Hospital for neck and back injuries.

Continued Rain In Five Day Forecast

Numerous Tornadoes And Funnel Clouds Menace Wide Areas

Almost daily rains in this area have left water-soaked fields and roads throughout the South Plains.

Funnel clouds and dangling funnels menaced broad areas during the storms which were still continuing at presstime. Tornadoes were reported in Bailey County or the immediate area every day from Wednesday through Friday.

During the last week, 2.72

inches of rain have been officially recorded by Jeff Peeler for the National Weather Service in Muleshoe. This brings the total to 8.69 for the year, and bypasses the moisture received at this time last year by 1.61 inches. Through August 14 last year, 7.08 had been recorded, according to the records.

A number of persons reported up to five inches of rain for a total during the week in the area surrounding Muleshoe as the skippy rains moved across the landscape.

Mrs. L. H. Medlin Jr., at Bula, said they received 3.6 inches Sunday an additional .9 Tuesday and another quarter inch Wednesday. On other days during the week, they received showers. Mrs. Medlin said they were approximately one mile south of the two by three mile strip of land which received extensive hail damage Tuesday night.

Around Maple, Mrs. Fred Kelley said they have received one-half inch since Wednesday, with no hail, and more rain had been received by persons who live to the south of them at the

Bebo's Coming To Trinity For Revival

Hey, young people... Bebo's coming!!! That's right, Bebo will be in Muleshoe August 18-22 for a Youth Revival at the Trinity Baptist Church.

The young evangelist is a sophomore at Wayland Baptist College where he is studying for the ministry and has held over 70 youth revivals during the past two and a half years.

Accompanying Bebo to Muleshoe will be Steve Sowder, a junior student at Wayland Baptist College and assisting will be Dennis Trook of Amarillo, who will be soloist. Bebo invites all young people to come see Bebo at evening services at 7:30 p.m. and the Sunday morning services at 11 a.m.

Officers Raid Several Homes; Four Charged

Bailey County Sheriff Dee Clements and other local officers pulled seven 'surprise' raids last Friday night on suspected bootleggers in the Muleshoe area. As a result, cases of illegal possession were filed on four persons and around 339 containers of beer were confiscated by officers.

During the prior week, two persons were charged with selling liquor illegally and one person was filed on for possession.

A pickup partially loaded with beer was taken to the city dump grounds Tuesday afternoon and the liquor was destroyed. Sheriff Clements said the destroyed beer was old beer and unfit for resale.

He said the Texas Liquor Control Board would purchase some confiscated beer for resale, but old beer and liquor is always destroyed.

Library Funds Grow With Contributions

Funds to purchase new equipment and furnishings for the new Muleshoe Area Public Library have been boosted by contributions of several businesses and individuals as special gifts this week.

Special gifts of \$100 were presented by President Bill Loyd for the Muleshoe State Bank and President M.D. Gunstream for the First National Bank. Other special gifts were \$100 from Western Drug, presented by Mr.

and Mrs. Harry Waddle; a \$100 memorial gift from Irvin St. Clair, in memory of his late mother, Naomi St. Clair; \$100 memorial gift from the late Marie White by T.R. White; a swivel chair for the circulation desk in memory of the late Ola Belle Lamb, by KMUL Radio. Newest life member in the Muleshoe Area Public Library is Mrs. Ed. W. (Blanche) Johnson.

Clubs and organizations have

made a number of contributions. The Muleshoe Study Club added to the \$157 contributed for a young adult reading table and voted in a special meeting to refinish two units of the present circulation desk which the Study Club originally purchased for the library in 1964. They plan to pay refinishing charges to \$250, bringing their contribution to more than \$400.

Since the previous announcement of gifts received, Llano Estacado Civic Club president Mrs. Henry Stonham, said their organization voted \$25 cash, as well as voluntary hours of service for one day.

Hair Stylist Curtis Wellborn contributed two wigs to be auctioned by a group or organization who may be interested. Proceeds are to go to the library. He may be contacted by interested groups.

Mrs. Gordon Murrain, president of the Progress Home Demonstration Club, announced that the club had voted \$100, plus voluntary service hours.

Muleshoe's Young Home-maker organization, through the president, Mrs. Jimmy White's announcement, volunteered one day of service by the members.

A painting done by 'The Artist of the Month' will be displayed on an easel in the new library. This announcement was made by Mrs. Herman White, president of the Muleshoe Art Association.

Con't on Page 2, Col. 1

Entry List Growing For Miss Muleshoe

Several more entries have been received by the Muleshoe Jaycees from hopefuls for the Miss Muleshoe title. Winner of the title will also receive a \$100 scholarship from the Jaycees to further her education at the college or university of her choice.

Karen Kaye Mayhugh, 17, daughter of Mr. and Mrs. C. R. Mayhugh, is one of the entrants. Karen is a 1971 graduate of Muleshoe High School and plans to attend Texas Tech University at Lubbock.

Her part-time summer job is as a lifeguard, and she says

she enjoys swimming and skiing.

While in high school, Karen was active in the band, art club, was first runner-up for Princess of Friendship in her senior year; sophomore class favorite.

Karen plans to major in business administration and hopes to become a legal secretary.

Another hopeful is Vanda Jane Spurgeon, 17, daughter of Mr. and Mrs. J. D. Spurgeon. She is a senior at Muleshoe High School and her future plans are to attend Texas Tech University and major in physical education. Vanda also indicated interest in airline school.

Vanda said she enjoys water skiing, swimming, sewing, cooking, animals, children and popular dancing.

In high school, she is active in Future Homemakers of America, Future Teachers of America, is a varsity cheerleader, a member of the pep squad and was the mule mascot for two years.

Andra Kay Douglass, 17, daughter of Mr. and Mrs. H. A. Douglass, is another contestant. Kay is classified as a senior at Muleshoe High School.

She said her talent will be singing in the pageant. Her future plans include attending Texas Tech University and majoring in elementary education.

Kay has been active in Future Teachers of America, Future Homemakers of America, a contestant in the Muleshoe High School Beauty Pageant for three years, cheerleader for three years and a member of the pep squad.

She says she enjoys skiing, swimming, basketball, boating, sewing and motorcycling.

Rhonda Gayle Bland, 16-year-old daughter of Mr. and Mrs.

Con't on Page 2, Col. 3

Registration This Week For Local Schools

Superintendent Neal B. Dillman, of the Muleshoe Independent School District, announced that registration for junior and senior high school will be August 18 and 19, and registration for elementary schools will be Thursday, August 26.

Times scheduled for each grade are: High School Registration for seniors will be Wednesday, August 18, 9-12 a.m.; juniors, Wednesday, August 18, 1-4 p.m.; sophomores, Thursday, August 19, 9-12 a.m. and freshmen, Thursday, August 19, 1-4 p.m.

Junior high registration will begin with eighth graders on Wednesday, August 18, 9-12 a.m.; seventh grade, Wednesday, August 18, 1-4 p.m. and sixth grade, Thursday, August 19, 9-12 a.m.

All elementary school students will register Thursday, August 26 from 8:30 a.m. - 4 p.m.

The superintendent said all fees should be paid at the time of registration.

School insurance, if desired, should be purchased at the time of registration, added Dillman. The "At School" plan is \$7.

This policy covers the child during school hours for the nine-month term. The "24-Hour Plan" is \$20. This plan covers the child 24 hours a day for one full year, or until school starts next year.

Brochures outlining each of these policies will be available at registration.

Superintendent At Three Way Is Harden Ray

Harden Ray has assumed the position of Superintendent of the Three Way Independent School District, moving to Three Way from the Scurry-Rosser Schools where he had been superintendent for the past four years.

Ray received a Bachelor of Arts degree in government and a Master of Education degree in Public School Administration from North Texas State University, Denton.

He and his wife, Jerry, have two daughters, Blinda, a seventh grader and Jo Ann, a third grader. The Rays attend the Baptist Church and are members of many professional organizations. Mrs. Ray holds a Bachelor of Science degree from North Texas State, but does not plan to teach this year.

Locker, daughter of Mr. and Mrs. M. D. Locker.
Mrs. Jon Ann Dwyer, daughter of Mr. and Mrs. John Thompson, who now lives in Canyon, has been named Assistant Manager of Student Services and Texas State Technical Institute Counselor at the Amarillo TSTI branch.
She received her master's degree at West Texas State University and has done graduate work in Vocational-Technical areas.
Mrs. Dwyer resigned from her position as Administrative Counselor for the Opportunity Plan Inc. at West Texas State University, Canyon.

Special guests at Rotary Tuesday were Bob Finney, Bob Lassater, Jesse Clemmons, recipient of the Rotary Scholarship last year, Cassie Preure, 1971-72 Rotary Sweetheart, and Pat Sultenfuss, assistant county supervisor of the Farmers Home Administration.
Horace Hutton had the program and presented Clinton Kennedy, county supervisor for the Farmers Home Administration. He gave a history of FHA and reported on FHA activities in Bailey County.

to the plaque and have the name of the honoree or name of gift donor for a life member, special gift or memorial gift, added Harbin. And will have the appropriate name of the honoree, donor or memorial.
The plaque will be located on the central support column in the new library building which is located behind the main circulation desk.
Harbin added that contributions of any amount will continue to be recorded in the permanent leather-bound Memorial Books.

Mrs. Ed Johnson, chairman of the special memorial fund, has announced that recent Memorial Gifts have been received for Robbie Actkinson, Horace Blackburn, Roland Bigham, Cecil Berry, Mrs. Roy Bayless, Laurence Dalrymple, Mrs. Claude Ferrell, Mrs. J.B. Fowler, Mrs. C.A. Grau, Mrs. Mamie Gardner, Mr. Haire, father of Lloyd Haire, Mrs. Lillie Jones, L.V. Kolar, Donald Dean Littlefield and Mrs. Librada Leal.
Also, Mrs. Nettie Lambert, Mrs. W.L. Meyers, Trishalania Suzanne Morris, Earl McDaniel, Ray R. Shook, Capt. Gaylord Tate, Jordan Tucker, Mrs. J.L. Waggoner, Mrs. A.J. Wall, Paul Wolfe, Dee Warner, Mrs. Clyde Waggoner, B.H. Winningham, Workers of the Library (Anne Camp and Holly Ann Millsap).

The man who disagrees with you is not necessarily an imbecile.

Entry...

Cont'd from Page 1
Cleve Bland is the latest entrant in the beauty pageant. She is a junior in Muleshoe High School and plans to continue her education at Texas Tech University following graduation at Muleshoe.
Listing her favorite sports as football and basketball, Rhonda also says she enjoys cooking and swimming.
As a student in Muleshoe High School, Rhonda has been active as a varsity cheerleader for two years; a member of Future Homemakers of America, Spirit Club, basketball manager for two years and a freshman class officer.

Another entry in the pageant will be Judy Joyce Woodard, 18, daughter of Mr. and Mrs. W. C. Woodard. She is a 1971 graduate of Muleshoe High School, where she was active in speech, art and drama.
Judy has brown hair and green eyes and plans to attend college at McMurry, Stephen F. Austin, or Texas Tech. During the summer, she is employed as a waitress at the XIT Steakhouse.
During her high school years, Judy was active in Future Homemakers of America; speech, competing in a number of tournaments; Future Teachers of America; Spirit Club; Plays, Speech II, where she was parliamentarian.

Latest entry in the Miss Muleshoe contest is Greta Louisa Bamert, 17, daughter of Mr. and Mrs. Carl Bamert. Greta is a senior at Muleshoe High School where she is active in the Theatricals, secretary-treasurer of FTA, and the drama department of the school.
She received Best Actress at District for 1970-71 and Best Actress during a summer workshop at Stephen F. Austin University, Nacogdoches.
Greta is a member of the First Baptist Church and is doing summer book work at Stephen F. Austin University, First Baptist Church and is

doing summer book work for her father. She said she enjoys water skiing, piano, acting, working with children and writing poetry.
Her future plans include attending Stephen F. Austin University and majoring in theater, with German and French as minors. She hopes to become either a high school drama teacher or form a community theater group.

CD...

Cont'd from Page 1
"Although people need to remain aware of the danger in tornadic weather, I would urge them to make prior plans for safety for their family members, employees and for themselves, well in advance of actual need," he continued, "everyone should be watchful and diligent, but not overreact to possible danger, but move quickly and quietly to a place of safety."
Green suggested that individuals check for the nearest shelter such as a basement or storm cellar or the nearest church, store or other public building with underground shelter.

Also emphasized by Green was for persons not to try to get into an automobile and outrun a tornado, or attempt to get in close for a look. He reminded that tornadoes in this area do not necessarily conform to the general southwest-northeast path, and recent tornadoes have moved from due north to due south and on Wednesday, from southeast to north-northwest. Three tornadoes in the area Thursday morning also moved from the southeast to north-northwest.
"I expect to draw heavily upon the experience of the former civil defense coordinator, Earl Ladd," commented Green, "who has been both informational and instructional to me. I also appreciate the complete cooperation I received from both the law enforcement officers and the fire department during my first days in my new position."

Rain...

Cont'd from Page 1
edge of the county and on toward Morton.
At the Lariat Gin, west of Muleshoe, three inches of rain were recorded Saturday night and Sunday morning and sporadic showers had fallen since that time.
Lazbuddie farmers report varied amounts from three to five inches of rain during the week, with no hail and little flooding of croplands.
Members of the Texas Highway Department reported watching a tornado swirling from clouds near Lazbuddie around 10 a.m. Thursday, and Tommy Hall of the Texas Highway Department called the Bailey County Law Enforcement Center again during the noon hour Friday to report that THD workers were watching a funnel dip down near Clay's Corner. No damage was reported from either funnel and apparently neither tornado reached the ground.
Ernest Kerr, who has some acreage four miles east of Muleshoe near Highway 84, said he received one and one half inches of rain between Thursday afternoon and Friday afternoon. He also said some good rain was noted north of Highway 70 and approximately seven or eight miles east of Muleshoe.
Around five inches of rain has been recorded at Needmore during the week since Sunday, said Mrs. F. O. Warren at Beene Grocery at Needmore. She reported that 2 fell at Needmore Thursday, while people in the Circleback community, six miles east of Needmore received two and a half inches at the same time.
Mrs. Harold Allison, approx-

imately seven miles east of Muleshoe on Highway 70 said several showers had fallen in that area during the week, and more than two inches of rain was received last weekend.
At 1:27 p.m. Wednesday afternoon, a tornado was reported on the Muleshoe National Wildlife Refuge, five miles east of Needmore. Calling in the report were Mrs. Delbert Watson, Mrs. Rudolph Moraw and workers for Bailey County Electric Cooperative. The tornado was observed by Bailey County Sheriff Dee Clements, Deputy Sheriff Pete Black, Texas Highway Patrolman Joe Young and members of the Texas Highway Department, along with a number of persons residing in the area.
Although it was thought that the tornado was on the ground for around two minutes, no damage was recorded before the funnel went back into the clouds and the storm eventually dissipated near Muleshoe.
At 10:17 Thursday morning, Ronnie Hannaberry notified the Law Enforcement Center that a tornado was swirling out of a cloud approximately 10 miles southwest of Muleshoe. Further reports came in from F. W. 'Chief' Jones and Doris Scoggin, Bailey County Sheriff Dee Clements and Police Chief Harold White, along with Lubbock County Deputy Sheriff Travis Clements, and a number of other individuals watched the tornado dip down. It did not reach the ground, and before it dissipated, another tornado dropped approximately 10 miles north of the first one. The second funnel did not touch the ground and there were no damage reports.
During the same time, the Texas Highway Department reported that THD workers from Bovina were watching a funnel dipping down in the Lazbuddie area.
Friday around noon, tornadoes were reported at Springlake, Clay's Corner, Dodd and near Earth. There were no damage reports.
Friday night, weather forecasters said an additional five days of rain and turbulent weather could be expected for the South Plains. Farmers were beginning to eye the thermometer as cool weather has accompanied the rain and slowed crop maturity processes.

Campaign spending tightened in House.
Ford may import Japanese trucks.

Community Survey Results Continued

(Editor's note: This is the fourth in a series on the Muleshoe Jaycees Community Development Survey which was taken in March of this year and tabulated by Jaycees. In this issue of The Journal, the eleventh through the fourteenth questions on the questionnaire will be discussed.)

Asked in the eleventh question was, "What improvements or additions would you make to Muleshoe's educational facilities?" A total of 31.6 percent of the persons on the questionnaire indicated they were satisfied with the present facilities. An additional 22.6 percent said they would like to see a college or junior college in Muleshoe and another 11.8 percent said more of a variety of subjects should be taught.

The rest of the persons had a variety of suggestions to make, including, better qualified teachers; capital improvements to present facilities; more vocational training; better athletic program; public kindergarten; night and adult classes; more teachers; younger teachers and retarded and handicap teaching.
The Jaycees concluded, "The public schools in Muleshoe serve an important role in providing community facilities. Initiation of adult classes with particular emphasis on vocational training was suggested. Available athletic facilities also would be beneficial to the public. In addition, interest was shown in establishing a local college or junior college."

According to the 50.9 percent of the individuals on the questionnaire, Muleshoe should definitely not remain an agriculturally dependent town. Suggested were more industry, and that agriculture is on the decline and the water supply running out.
On the affirmative side, 49.1 percent of the people said the town should remain agriculturally dependent, citing good soil and water for 34.9 percent; unsuitable for industry, 18.8 percent and improve what we have; great source of income; perpetual demand for food and miscellaneous items make up the balance.

Concluded by the Jaycees was, "Since the economy of the Muleshoe area is basically dependent upon agriculture, the growth of Muleshoe will depend upon either curing the present economic ills now faced by the farmer (dropping water table, low farm prices, etc.) or by diversification of industry to the degree that the city is no longer primarily dependent upon agriculture but rather upon employment of its residents in non-agriculturally oriented industries or services."

In the thirteenth question, "What would be the reasons an industry would want to locate in Muleshoe and why would an industry not want to locate in Muleshoe?" predominant reason given for locating here was the availability of water. This was followed by good labor market; agricultural area and products; future of city; climate; friendly people; transportation access; land; financial; location and schools and churches.

Bad or Negative points listed include had labor markets; public opposition; prohibitive land costs; inadequate housing; no recreation; poor hospital facilities; distance from marketing; high taxes; town too small and water shortage.

Cooperation and united effort of the citizens was the answer of 27.1 percent of the people to "How Can Muleshoe improve its image?" The other answers included general cleanup of the town, and elimination of pollution by alfalfa mill and feed lot; promote industry, improve existing businesses, lower retail prices; recreation and tourist attractions; better hospital and medical aids; better city government and police force; Jaycee publicity; more jobs and better housing and miscellaneous items.
In the next issue, the fourteenth through the eighteenth questions will be discussed, to be concluded by a final wrapup of the series.

ATTENTION ALL FARMERS, CREW CHIEFS AND PARENTS:

Every child between the ages of 7 and 17 inclusive residing in Bailey County must attend regularly either public or parochial school. The parents of such children not requiring them to attend school may be subject to heavy fines. Crew Chiefs may not work school age children during school hours. Farmers may be subject to heavy fine if they permit school age children to work on their land during school hours without a permit.

The Sandhills Philosopher

Editor's note: The Sandhills Philosopher on his Johnson grass farm has some trouble with the high cost of space science this week, his letter indicates.

Dear editor:

I've tried everything from reading month-old newspapers to watching re-runs on television to figuring out how we can have two Chinas in the United Nations, which shouldn't be too hard in view of the fact we've got two Dakotas and two Virginias in the United States, not to mention one Texas, but still I can't get my mind off that moon buggy. I mean, its price, Eight million dollars.

As I understand it, the buggy was powered by four quarter-horse electric motors about the size of the one in your washing

machine, one on each wheel, has special wire tires, seat belts, a bunch of batteries, no top, and a high-powered television camera. It didn't have a steering wheel, just a stick that controlled the four quarter-horse motors.

While my knowledge of auto manufacturing is about as close to zero as you can get, although I know the companies do have one engineer whose main job is to design a hood release latch so it'll never be in the same place one model to the next, I have decided that the hardest thing about building an eight-million-dollar moon car is making it cost eight million dollars.

Fifty thousand dollars . . . Maybe, considering inflation and all, a hundred thousand dollars,

but eight million dollars? For four electric motors, wire wheels, no top and a television camera?

How many sleepless nights did the designers and engineers have to spend to get that much money into one small car. They're bound to have had the help of four Congressional Committees and eighteen State Legislatures, with possibly a dozen or so big city mayors thrown in and no doubt a few of the engineers who design highway cloverleaf interchanges, working I guess on double-time, triple-time, quadruple-time . . . I could go on but I don't know what the word for the next multiple is.

Anyway, making the car cost eight million dollars is near-about as great a scientific feat as hauling it to the moon. That price of course was F.O.B. the launch pad. When you figure in the transportation charges thereafter . . . hold on to your hat and hang on.

Yours faithfully,
J. A.

U.S. will sell crime insurance in 11 states.

Treena Bryant Weds Matthews

Wedding vows for Treena Don Bryant and Derrell Gene Matthews were read Friday August 6, at 8 o'clock in the evening at the First Baptist Church of Lazbuddie, Dale Cain of the church officiated at the ceremony.

The bride is the daughter of Mr. and Mrs. Donald J. Bryant of Muleshoe and the groom is the son of Mr. and Mrs. C. C. Matthews, Jr. of Muleshoe. A sunburst arrangement of yellow and white flowers and flanked by cathedral candle-

labras and a memory candle, decorated the church. Mrs. Ronnie Wicks of Clovis sang "My Own True Love" and "The Lord's Prayer". Given in marriage by her father, the bride was attired in a formal gown of ivory silk

organza and re-embroidered Alencon lace fashioned in the A-line silhouette. The all-lace empire bodice and capped sleeves were touched with seed pearls and sugar-pearl crystal embroidery and featured a lowered and scalloped Cameo neckline, heavily jeweled. The center front of the skirt featured an insert of organza embroidered smocking, widely bordered on either side with hand-clipped medallions of the re-embroidered Alencon lace, from the raised waistline to the hemline. The skirt was given added fullness with soft gathering at the sides and flowed into a full sweeping chapel train, adorned with the lace motifs to form a floral spray in the center back. Her bouffant tiered veil of imported ivory illusion was attached to a profile type headpiece of matching re-embroidered Alencon lace petals, heavily beaded with seed pearls. The bride carried a colonial design bouquet of orchids and stephanotis atop a lace covered Bible.

Attending the bride as maid of honor was her sister, Terry Bryant of Muleshoe. Bridesmaids were Stephanie Bryant, sister of the bride, and Janet Ellis of Clovis. They wore identical formal gowns of soft maize yellow silk organza, featuring a scooped neckline and white organdy flowers encircling the empire waistline and adorning the long, full sheer sleeves. Bands of white satin ribbons outlined the fitted cuffs and the hemlines of the gowns. The skirts were softly gathered for added fullness. Matching maize yellow picture hats completed the attire of the three attendants. They each carried a nosegay of yellow and white daisies with baby's breath.

Angela Matthews, sister of the groom, was the flower girl. She wore a dress identical to the older attendants, but with a white hat.

Mark and Paul Ivy, Roswell, cousins of the groom, were candlelighters.

Gary Matthews, Canyon, brother of the groom, served as best man. Groomsmen were Gail Morris and Monte Barnes of Muleshoe, Daryl Lowe and Kirt Haney, both of Lubbock,

sealed the guests.

The First Baptist Church was also the scene of the reception following the ceremony. Serving at the bride's table were Cindy Schubert of Houston and Kathi Van Sice of San Antonio, and Mrs. Gary Matthews of Canyon, sister-in-law of the groom.

Serving at the groom's table were Mrs. Billy Isom of Lubbock and Christie Ivy of Lazbuddie. Tanya Cherry of Muleshoe registered the guests.

The bride's table was covered with a white linen lace cutwork cloth and centered with a silver five-branch candelabra entwined with simlax and holding yellow tapers. The bridal bouquet and silver and crystal appointments completed the table.

The groom's table was round wrought iron. The bridesmaids nosegays made up the centerpiece. A double ring chocolate cake and a silver tea service completed the table.

For a wedding trip to various points in New Mexico, the bride wore a white pantsuit featuring multicolored embroidery. After August 15, the couple will be at home at 2902 3rd Place, Lubbock.

The bride is a graduate of Muleshoe High School and attended the University of Texas. Matthews graduated from Lazbuddie High School and attended Texas Tech.

The rehearsal dinner was held Thursday, August 5, at the XIT Steakhouse, hosted by the groom's parents.

MRS. DERRELL MATTHEWS, the former Miss Treena Bryant

Mrs. Cecil Cunningham, the former Miss Kathy Coker

TOPS News

Twenty-six weighed in Thursday night at the regular meeting of the Muleshoe Jenny TOPS. Joe Harbin spoke to the members about the needs of the new library.

Crowned queen for the week was Clara Crane. First runner-up was Paula Daniels and second runner-up was Ruth Miller.

Paula Daniels received a gift from the birthday box. In the current contest, side one and two are ahead.

Next week, all members are asked to bring a white elephant gift for the box.

Last week, the queen was Ann Newsom due to the disqualification of the first queen named.

KENNEDY ON CANCER
Senator Edward M. Kennedy said a bold new program is needed to conquer cancer which is the No. 1 health concern of the American people. The Massachusetts Democrat urged the Senate to pass legislation to set up a new independent cancer agency to find the causes of and cures for the various types of cancers.

Earth's crammed with Heaven,
And every common bush afire
with God.

-E.B. Browning.

Lazbuddie Ceremony Unites Miss Coker, Cunningham

Miss Kathy Vene Coker, daughter of Mr. and Mrs. Roy N. Miller of Lazbuddie, became the bride of Cecil Willson Cunningham, son of Mrs. Hazel Cunningham of Muleshoe August 5, at 8 p.m. in a double ring ceremony performed by Andy Rogers at the Lazbuddie Church of Christ.

The church was decorated with a 24-branch candelabra trimmed with greenery and two large bouquets of flowers on each side.

Four friends of the bride sang "The Twelfth of Never", "More", and the bridal march and recessional.

Attending the bride as maid of honor was Debbie Burch of Lazbuddie. Bridesmaids were Christie Ivy and Shara Gammon, both of Lazbuddie. They were identically dressed in long, empire waisted gowns of blue bonded lace featuring circle sleeves. They each carried a blue mum set on white lace and tied with white ribbons and bows.

Diane Coker, candlelighter,

was also dressed identically to the other attendants. The bride was attired in a floor length white satin gown with lace sleeves. The chapel length train was also of white lace. She wore a mantilla shoulder length veil of matching lace.

Jim Robinson of Lubbock served as best man. Groomsmen were Ronnie Spies and Andy King, both of Muleshoe. Seating the guests were Donnie Coker of Lazbuddie and Gary Coker of Canyon.

Following the ceremony, a reception was held honoring the couple at the church. Serving the guests were Mary Ann Jones and Deana Kay Jones. Paula

Beta Sigma Phi

To Sponsor

"Love Story"

Deta Sigma Phi sorority will sponsor the first night's showing of "Love Story" at the Cox Drive In Theater Wednesday, August 25, as one of this year's projects.

The gate and concession will open at 8 p.m. Beta Sigma Phi members will be working the concession stand. For advance tickets contact Mrs. Tom Jinks, 272-3741, or Mrs. Max King, 3918.

Taylor registered the guests. The bride's table was laid with a white tablecloth and centered with a four-branch candelabra and the bride's bouquet. Cake, yellow punch, mints and nuts were served to the guests.

For a wedding trip to New Mexico, the bride wore a blue hotpants ensemble. They will be at home at 1530 West Ave. D., Muleshoe.

The bride is a graduate of Lazbuddie High School and attended South Plains College for one year.

The groom graduated from Muleshoe High School and attended business college in Lubbock.

A leader is a man who gets something done; not a man whose ability is expressed in criticizing what others have done.

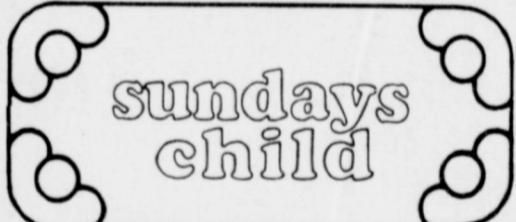

The best way to get your share of the wealth of the country is to work hard for it.

Callaway, Lee Pledge Wedding Vows

The sanctuary of the First United Methodist Church, Spearman, was the setting for the marriage of Eetta Jyniece Callaway, daughter of Mr. and Mrs. E. J. Callaway, Jr. and Jock Douglas Lee, son of Judge and Mrs. Johnny C. Lee. The candlelight ceremony was read Saturday, July 31, at 7 o'clock in the evening. The Reverend Wesley Daniels, pastor, read the double ring ceremony before

an altar of 15 branch candleabra, flanked on either side with large vases of pink gladiolas and white carnations on white pedestals. At the sides of the altar were two seven-branch spiral candleabras. The entire background setting was entwined with ropes of greenery. Lighted candles and greenery marked the honor pews. The bride, given in marriage by her father, wore a formal

gown of candlelight silk organza and Chantilly lace over satin. The high rise bodice featured a framed effect at the neck. Full blown Bishop sleeves were attached to wide cuffs with scalloped over the hands and covered button closures. Appliques of lace and pearls adorned the organza overlay of the A-line gown. The skirt extended into a cathedral length train, also adorned with scalloped

lace and pearls. Her veil of silk illusion and edged with wide Alecon lace was attached to a Camelot headpiece of lace and pearls and extended beyond the full length of the train. She carried a cascade of orchids, white roses, stephanotis with white ribbon streamers atop a lace and satin covered Bible. She wore in her shoe a six-ence. Something new, was her bridal attire; something blue, was the traditional blue garter; something old, was a handkerchief, belonging to her paternal grandmother, Mrs. E. J. Callaway, Sr.; something borrowed was a bracelet belonging to the bridegroom's deceased paternal grandmother, Mrs. J. B. Lee, Gruver.

Mrs. Max Clawson, organist, Gruver, and Debra Clawson, pianist, Gruver, played wedding selections before and during the ceremony. Mrs. Clawson accompanied Rod Wilhite of Ft. Collins, Colo., cousin of the bride, who sang "I Love You Truly" and "O Perfect Love". A large white memory candle was lighted by the couple. The couple knelt at the altar as Rod Wilhite sang "The Lord's Prayer." At the close of the ceremony he sang "We've Only Just Begun."

Mrs. Myke Murrah of Ft. Collins, Colo., registered the guests in the bride's book on a round table covered with a floor length pink cloth in tiers of ruffled lace with a bride bud vase holding pink buds.

Bill Don Grimes and John Blaine Grimes, Dodge City, Kansas, cousins of the bride were candlelighters.

Honorary guests were Mrs. E. J. Callaway, Sr., paternal grandmother of the bride, Mrs. Roy Hogan, Muleshoe, maternal grandmother of the bride, Mr. and Mrs. Roy N. Jones, Spearman, chosen as honorary grandparents of the bride, Mrs. Fred J. Hoskins, maternal grandmother of the bridegroom and Vera Campbell, great aunt of the groom.

Mrs. Nelda Callaway, sister-in-law of the bride was matron of honor. Elizabeth Maddox of Miami and Jolinda Lee, sister of the groom, served as bridesmaids. Johnete Lee, sister of the groom was junior attendant. Mrs. Callaway and Jolinda Lee wore hot pink empire waisted gowns of butterfly satin with lace trimmed circle necks and tiny sleeves with matching shoes and gloves. Miss Maddox and John-

ette Lee wore gowns and accessories in pale pink, identical to the other attendants. They each wore a single Crystalline Flower with lowered petals, matching their ensembles, in their hair. Each carried a cascade bouquet of pink gladiolas, carnations, greenery and ribbon streamers. Karen Kenny and Mary Ann Kenny, Spearman, were flower girls. Karen wore a pale pink gown, identical to the other attendants. They wore white gloves and shoes and carried white baskets of pink flowers and ribbon streamers.

James Douglass Haden and Billy Ray Haden, Spearman were ring bearers.

Dorrance Hought, College Station, Texas was best man. Groomsman were Leroy Callaway, Amarillo, Monte Lusby and Steve Sheets of Spearman. Ushers were Carroll Day, Lynn Kemper, Danny Knox and Mike Hendricks, all of Spearman.

At the reception, held in the social room of the church, the bride's oval table was laid with West, College Station, Texas a white floor-length tiered ruffled silk cloth draped with sim-

ilar greenery and at center front was the bride's bouquet. The six-tiered wedding cake dramatized the table. The cake was and topped with wedding bells and flowers. A wedding procession-Hall of the First United Methodist Church, Friday, July 30, on each side of the cake. Tani

Murrah of Muleshoe, cousin of the bride, and Kate Kilgore, Midland, cousin of the groom, served the cake. To the right, was the groom's oval table covered with a floor length cloth of hot pink silk. The groom's cake was a chocolate cake covered with chocolate roses and lattice frosting. On each side were brown candles in gold holders. Also two of the attendant's bridal bouquets enhanced the table. Jennifer Hester and Becky Hester, Texline, cousins of the groom, served the cake.

For traveling to Galveston and other points of interest the bride wore a navy sleeveless coat over a dress of navy with red and beige accents and wore navy shoe and bag. She wore the orchid from her bouquet.

The bride is a 1970 graduate of Spearman High School. She attended Texas Tech and Frank Phillips College. Lee is a 1968 graduate of Spearman High School and is a veterinary student at Texas A&M. The couple are at home at 201 West Loop West, College Station, Texas where they will continue their education.

REHEARSAL DINNER The Judge and Mrs. Johnny C. Lee hosted an Italian Spaghetti dinner with all the trimmings, in the Fellowship Hall of the First United Methodist Church, Friday, July 30, on each side of the cake. Tani

HAWAIIAN LUAU . . . The Hawaiian custom of placing flowers in a girl's hair is being demonstrated by Mrs. Jack Rennels, left, and Mrs. Paul Wilbanks. They are both members of Epsilon Chi chapter of Epsilon Sigma Alpha which will be sponsoring the Hawaiian Luau to be held August 28 in the XIT Steakhouse. Happy hour will be from 7 to 7:30 p.m.; gourmet dinner from 7:30 until 9 p.m.; and dancing to "Colorado" from 9 p.m. to 1:00 a.m. Tickets are available from any ESA member for \$15 per couple in advance or \$20 per couple at the door.

Llano Estacado Civic Club Meets

Llano Estacado Civic Club met for its first regular fall meeting of 1971-72 in the First National Bank Tuesday night, August 10.

Mrs. Richard Hawkins and Mrs. Henry Stoneham were hostesses. During the meeting the members chose fall projects and set upon the following socials: a sandhill party and membership drive for August 29; a Christmas social in early December when all the members will go to the Hayloft in Lubbock; and the regular February meeting will be a mother-daughter salad supper with an out of town speaker from the department of home and family life at Texas Tech.

After the business meeting, the hostesses served homemade

ice cream, cake and cokes. Tuesday of each month at 8 p.m. The club will meet the second in the First National Bank.

New Alcohol Safety Programs Are Funded

AUSTIN -- Governor Preston Smith has been advised of approval by the National Traffic Safety Administration of his application for funding of Alcohol Safety Action Programs in Central Texas, Dallas and Houston.

The three projects are part of a state and national effort to make an impact on deaths, injuries and economic loss caused by drunk driving. "Twenty-nine states now have full federally funded ASAP programs. San Antonio has been

awarded such a project and it is now underway," Governor Smith added.

"When original applicants' submittals were made last year for full federal funding, it was apparent that all the submittals were outstanding. Because of the effort made in Central Texas, Dallas, El Paso and Houston, in addition to San Antonio, we were determined to find a way to pursue these projects. This has been made possible through federal highway safety funds administered by our Office of Traffic Safety Administration and matching funds from state sources. El Paso's program will be phased into a Selective Traffic Enforcement Project now under development."

"I anticipate that substantial reduction in the toll of drunk driving can be made through these projects. They are designed to bring full public information impact to the driving public on drunk driving and to identify, control and either help the problem drinker or get him off the road," the Governor concluded.

In 1970, 3560 Texans died in traffic crashes, a quarter million were injured at an economic loss of over one billion dollars. The Governor's Office of Traffic Safety Administration estimates conservatively that at least half of the human and economic loss involved drunk driving.

Federal funding approved will amount to approximately \$1,500,000 over a three year period to be matched by state

funds with a total of \$3,000,000 to be applied to the three programs.

Supermarket Management At South Plains

LEVELLAND--A release from the office of Frank Hunt, Dean, Technical - Vocational Division, South Plains College, announces the offering of a new course of study, Supermarket Management, through the Department of Business Administration. With the introduction of this specialization, the area of Distribution and Marketing will now offer an Associate in Applied Science degree in Management and Fashion Merchandising.

Distribution and Marketing involves the student in an accelerated two-year college-level program designed to develop fundamental skills, knowledge, attitudes, and experience which will enable the student to function efficiently in the fields of Supermarket sales and management. Each student is required to work four semesters in a regular, paid, part-time job in a sponsoring firm for a minimum of twenty hours per week. Through management training, the student gains experience and is able to adapt theory to practical work at the time it is learned. Evening Division students may enroll in any of the programs and receive management training credit for an approved full-time job. Further, students who commute to South Plains College may work in their home communities.

Need for the Supermarket Management course was determined by a survey conducted by the SPC Department of Business Administration. Area students and businesses expressed genuine interest in a supermarket management program that upon successful completion would qualify the student to enter into a supermarket management trainee program.

Following the survey, the Distribution and Marketing Advisory Committee worked with the instructors to prepare the proposed course of study for presentation to the Texas Education Agency for consideration. Dean Hunt has received approval for

the program to be initiated August, 1971.

Those serving on the Distribution and Marketing Advisory Committee include Dean Hunt, Miss Paula Bell, Chairman, Department of Business Administration, Charles E. Goble, Melvin Kunkel, Wade McDaniel, Mason Polk, George Scott, James Stanley, John Srygley, all of Levelland, Jim Jones of Littlefield, Dean Merrifield and Gary Stacy of Brownfield. Instructors include Leon Harris and Mrs. Sycily Lattimore.

Prospective students and interested merchants may contact Dean Hunt or the instructors at the college. With the introduction of Supermarket Management, South Plains College is moving forward to meet the occupational needs of students and employers in the area.

Southwestern Public Service Celebrates 50th Year

"How does a company decide when it is going to celebrate its 50th anniversary year?"

"In the case of Southwestern Public Service Company, the decision was made late last year by the simple expedient of impressing the corporate seal on a piece of plain white paper," said Edward G. Weber of Amarillo, director of advertising for SWPS.

When the resulting impression read, "Incorporated, 1921", 1971 became the electric company's golden anniversary year.

"Up until that decision making moment, five different years could make some kind of a case for being the birth year, with one of them going all the way back to 1894. The others were 1904, 1925 and 1942, and the winner, 1921," he added.

"1921 won the battle because, in addition to being the year that came up on the seal, it was also the year of organization of the company which, 4 years later, took on the name of Southwestern Public Service Company.

"The 1921 company which became today's Southwestern, was the Roswell Public Service Company. Among its incorporators was Hi Dow, well-known New Mexico pioneer and

a director and general counsel for Southwestern Public Service Company until his death in 1969."

"The name change to Southwestern Public Service Company came in 1925, which was also the year that expansion began with the purchase of electric systems in Artesia and Carlstad," continued Weber.

"1925 was also the year the company first began operations in Texas, with the purchase of the electric systems in Amarillo, Pampa and Panhandle.

"The 1920's are the most interesting years in the electrical development of this region.

"The region was then, basically, a cluster of small towns, each of which had its own inadequate, and usually antiquated, electric supplier. There were few, if any interconnections, with other communities or electric systems. Most of the towns were only large enough to be served by a single circuit, and if something happened the whole town was out of power until it was repaired."

Weber said, "This was an era which also brought some communities electric service for

the first time. In late 1926, for example, Southwestern built a transmission line from Amarillo to Pampa and brought electric service to White Deer, Texas for the first time on Christmas Eve.

"There was still considerable fragmentation insofar as electric service was concerned and parts of seven companies, each of them a subsidiary of at least one holding company were serving throughout the area.

"It was apparent, then, that the electric service needs of the area could be met even more efficiently and economically if it were served by a single, independent, operating company, devoid of holding company ties, locally managed and immediately responsive to area needs.

"In short, the region, which had fairly common agricultural and business bonds, lent itself to integration, in the electrical sense of the word," said Weber.

"The Public Utility Holding Company Act of 1935 and cooperation between government and business made this integration possible.

"The holding company subsidiaries which had been serving the region were merged into a single entity, Southwestern

Public Service Company, an independent, integrated operating company. It was the first such company, incidentally, to result from the application of the Holding Company Act.

"Thus it was, as the area embarked on the most rapid period of its growth immediately following World War II, it was served by a single electric supplier prepared to meet the electric service needs that growth brought on."

The advertising director continued, "Southwestern serves a 45,000 square mile area which starts in the southwest corner of Kansas, crosses the Oklahoma and Texas Panhandles, moves down onto the South Plains of the Lone Star state and then moves westward to include the Pecos Valley and Clovis-Portales regions of New Mexico.

"There haven't been any power shortages in this area in the past and the folks at Southwestern don't envision any in the future. To make their visions become reality, the company is adding to its investment at an average annual rate of \$20 million. The total investment will pass the 500 million dollar mark in the early 70's. Incidentally, it was 30 million dollars, the total investment, that is, when the company took its present form in 1942.

"The ecological and environmental problems that have haunted some utilities have not yet interfered with Southwestern's system is discharging into the atmosphere only one-tenth of the sulfur dioxide that is accepted as o.k.

"Southwestern doesn't make much of a contribution to thermal pollution of water, either, inasmuch as it uses cooling towers rather than discharging hot water into rivers or streams. There's one exception to that broad statement at the Carlstad, New Mexico, power plant where the condensing water is discharged into the Pecos River, but the temperature increase is within the limits of the state law. The Carlstad residents who use the beach or fish close to the plant location seem to feel that the warmer water improves rather than hurts their recreational activities.

"At the other plants, with their cooling towers, the discharge that you see in the air on a cold day is nothing more than water vapor, and isn't polluting the air one bit.

"Actually," said Weber, "with a tongue-in-cheek approach, you could say that the air which flows over the cooling towers is better because it gets a little moisture added and also gets washed. But, it's not really a large percentage of the atmosphere in the region.

"Southwestern is working to retain the fresh water resources of the region, and at two of its power plants, Nichols Station, near Amarillo, and Jones Station, Southeast of Lubbock, uses reclaimed sewage effluent as cooling water. This conservation practice saves 6,000,000 gallons of fresh water a day and that's enough to meet the needs of a city in the 20,000 range population bracket.

"The oceans of the world will provide the fuel source for electric generation in the future, if

research in which Southwestern is participating comes to fruition.

"This would be thermonuclear fusion, the fusion of light atoms into heavier elements, and a child's pail of seawater would provide enough fuel to generate the electricity for the average home for a year.

"There is, incidentally, more energy available from the hydrogen atoms in 7 1/2 square miles of seawater than from all

the fossil fuel reserves in the world, and that, in itself, makes the research exciting."

"But the excitement of thermonuclear research goes far beyond its potential as a source of electric power," said Weber.

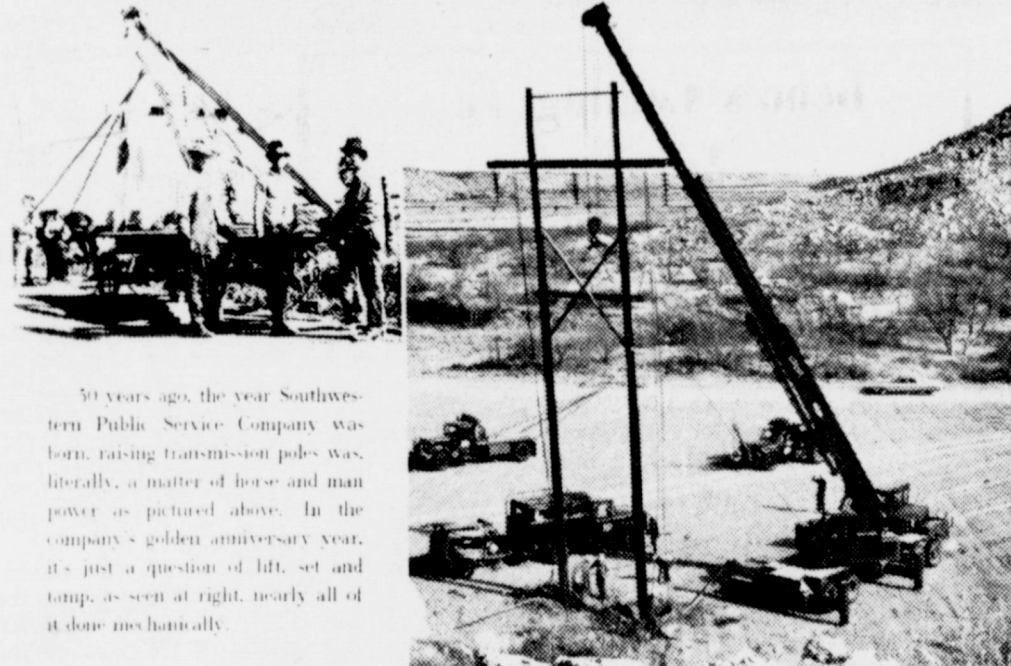

"The fusion process for making electricity will require ionized gases at temperatures of millions of degrees. These ionized gases - they're known as plasma - may be used as a fusion torch to vaporize waste

materials of all kinds, turning them into electrified particles of their constituent elements, and making possible the recovery of basic raw materials for recycle into new products.

"In other words, instead of letting our waste materials rust or rot away, we'll reclaim them. What's more, we'll separate the elements. Figuratively speaking, we'll put all the iron in one little neat pile - all the aluminum in another - and so on and so on.

We may even be able to make new combinations with the protons and neutrons and electrons and make the old alchemist's dream come true and turn a base metal into gold. "Meanwhile, getting back down to earth and the electric power business - for today and tomorrow. The crystal ball gazers are saying that the American people are going to demand as much electric energy in the next ten years as they have used in the last 90.

You worked from the ground up on the line construction crew in 1921, as pictured below, but the modern day lineman gets a lift to his work on a mechanized unit dubbed a "cherry picker" and portrayed at the right. Part of the progress of the power industry in the 50 years of Southwestern Public Service Company history.

50 years ago, the year Southwestern Public Service Company was born, raising transmission poles was, literally, a matter of horse and man power as pictured above. In the company's golden anniversary year, it's just a question of lift, set and tump, as seen at right, nearly all of it done mechanically.

Off-Types In Grain Should Be Controlled

Tall, unsightly off-type sorghum plants have made their appearance again in grain sorghum fields over the area. These off-types produce about seed that can volunteer readily, causing problems to crop production in succeeding years. Crop rotation and roguing can eliminate this situation.

Off-types develop from seed present in the soil from previous years, or from seed present in planting seed, says Darrell Rosenow, grain sor-

ghum breeder at the Texas A&M University Agricultural Research and Extension Center at Lubbock. Such plants are also called outcrosses since they arise when foreign pollen from undesirable plants pollinates male-sterile plants in seed production fields.

According to Rosenow, off-types can be placed in five groups: (1) Tall mutants. These occur spontaneously in all grain sorghum hybrids, are similar to the hybrid, but are one to two feet taller. (2) Off-type or off-color heads. (3) Forage types. These are tall, vigorous plants with coarse stems. (4) Rhizomatous grassy types. These are johnsongrass or sorghum alnum hybrids with grain sorghum. They are loose-headed, grassy types that have rhizomes of varying degrees. They are quite sterile and produce little or no seed because of an unbalanced chromosome number. (5) Non-rhizomatous grassy types. These are tall,

of johnsongrass. However, they should be controlled. Off-types in the other three groups may be unsightly but usually do not pose any serious volunteer problem in succeeding years. It is also important to determine the source of off-type plants, adds the scientist. If they come from planted seed, the individual plants will be uniformly distributed over the entire field in the seed furrow with the grain sorghum. If the off-types are volunteers, they will be in circular patches and will be concentrated in certain areas of the field where smaller patches were located in previous years.

MENACING CLOUDS OVER MULESHOE--Dark clouds menaced Muleshoe as tornadoes and the threat of tornadoes kept weather watchers and officers busy during the last days of this week. This particular cloud spun out a tornado shortly after it went over Muleshoe. The funnel did not reach the ground and no damage was reported to officers.

MANMADE

A man made this beautiful little waterfall and improved his part of a little stream that ran by his house.

Another man on another stream threw trash in the water and let weeds grow up around it so that the beauty of the creek was obscured.

Man fashions many things out of that which God has created. Beauty or ugliness can result from our decisions as to what we will do with divine raw materials. Dedication to God and the desire to emulate Him usually makes the difference in what we do with what God has provided.

Let God find you in His church.

EVERYONE IN THE CHURCH
THE CHURCH IN EVERYONE

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Coleman Adv. Ser.

Low Temperatures Slow Cotton Growth

Continuous efforts by farmers are essential to prevent some of these objectionable off-types from becoming a serious weed problem, contends Rosenow. Crop rotation helps control volunteer plants from seed already in the soil. Rotating sorghum with small grains or alfalfa is one of the best methods of control. Rotations with a broad-leaved crop such as cotton or soybeans are also good since herbicides recommended for controlling grasses can be used on these crops. These herbicides also control volunteer sorghum. Rotations with corn may be somewhat effective by using higher than normal rates of certain herbicides even though the corn may be slightly damaged.

Roguing undesirable off-types is especially useful in fields not badly infested and in preventing the establishment of weedy types in clean fields. For roguing to be effective, heads must be removed before viable seed is produced. This is as little as 10 days after flowering. Later, roguing requires the complete removal of heads from the field.

Roguing rhizomatous types requires that the entire plant be dug and removed from the field, explains Rosenow. This should be done as soon as they are recognized to prevent establishment of rhizomes.

Other practices are also useful in controlling off-types. Buying planting seed from a reputable seed company is important. Care should be exercised in all phases of handling sudangrass or sorghum-sudan hybrids. They should not be allowed to go to seed.

Failure to rotate crops or rogue weedy sorghum off-types may result in fields that require one or more years of intensive clean cultivation to restore them to usefulness. Certainly the prevention of a serious weedy-type sorghum volunteer problem is much cheaper than curing such a problem, says Rosenow.

LUBBOCK--Cotton is a native of the tropical regions and therefore thrives under hot days and warm nights. Low temperatures, in turn, can drastically slow the development and maturity of cotton fiber.

The role of temperature in cotton production has been studied the past several years by Dr. Jack Gipson, plant physiologist at the Texas A&M University Agricultural Research and Extension Center at Lubbock. This project is supported by Cotton, Inc., and Plains Cotton Growers, Inc.

According to Gipson, cotton fiber develops in two distinct stages. First the fiber elongates, and then it begins to thicken. The fiber begins to grow in length on the first day of bloom and reaches its maximum in 20 to 25 days under optimum growing conditions.

"Our research has shown that varieties with a staple length of less than an inch will reach their full fiber length in 20 days if night temperatures are above 70 degrees F. and days are hot," explains Gipson. "However, that same variety will require 30 days to reach full fiber length with 50-degree nights even though days are hot. Longer staple varieties require 25 days with 70-degree nights and 40 days if night temperatures average 50 degrees."

Temperature affects fiber elongation mainly during the first 15 days of fiber development, adds the scientist.

"At about the time that cotton fiber reaches its maximum length, the second stage of fiber development begins. The fiber walls begin to thicken as layers of cellulose are deposited daily on the inner surface of the fiber wall. This thickening process ceases when the fiber is mature or when the plant ceases normal functions due to environment or diseases.

According to Gipson, this second stage of fiber development is especially crucial on the Texas High Plains. As

temperature decreases below the optimum, the rate of cellulose buildup on the inside of the fiber also slows and finally ceases entirely at about 60 degrees. Unfortunately, night temperatures begin to dip below this mark quite regularly in late August and September, thus completely halting fiber development most nights late in the season. The result is a longer period for boll maturation and possible reduction in fiber and seed quality.

"To overcome the problem of low night temperatures, the most effective solution is to mature the crop early," emphasizes Gipson. "Key items are planting early and avoiding cultural practices that tend to favor vegetative development, such as late irrigation."

Cotton planted during early June generally has a good chance of reaching maturity by the time of the first killing frost which is about November 4 for the Lubbock area. However, the October 9 freeze last year dealt a severe blow to June-planted cotton. Medium staple varieties, planted on June 1 will reach maturity on October 22 for bolls set during peak bloom requiring a boll period (open bloom to open boll) of 64 days. Cotton planted on June 10 will reach maturity on November 12 and require a boll period of 75 days. In contrast, that planted on May 15 will mature by September 26 with a boll period of only 55 days.

"The narrow-row method of cotton production which has been developed here at the Research Center in the past few years holds a lot of promise in overcoming the low-temperature problem," contends Gipson. "This system involves a high population of plants that are small in stature and produce only two or three bolls. The time from planting to maturity is considerably shortened so that late season, low temperatures do not affect fiber development.

Other studies presently underway regarding fiber development include increasing earliness through timely applications of plant growth control hormones and the development of varieties more tolerant to low temperature.

Bula News

By Mrs. John Blackman

Mother Nature gave the entire community some good moisture early Sunday morning with precipitation varying from two to three and a half inches. Tuesday evening late a pop-up cloud gave the farmers north and northwest of Bula a hard blowing rain with some damaging hail. The Nolan Harlans reported 1.7 inches of rain and some hail in fifteen minutes. Several farms over in that area received damaging hail. Wednesday afternoon hard showers fell over the community with two funnel clouds sighted north west of Bula.

Mr. and Mrs. V. C. Weaver were in Kansas last week to visit relatives and attend the funeral for his uncle, Von Walkie Born, at the First Methodist Church in Admire, Kansas, with burial in The Ivy Cemetery.

WMU met Tuesday at 2:30, their first meeting after dismissing for the summer. The time was spent in taking care of some business. Plans were made for sewing for Nancy Cruz, a girl who resides in the Spanish Mission Home in San Antonio. The girl is 15 years old now and the WMU has been sewing

THD Approves Multiple Use Of Right Of Way

AUSTIN -- The Texas Highway Commission has approved an expanded program for multiple use of highway right of way.

The policy provides for the construction of parking areas, recreational areas and public parks beneath overhead structures or certain other areas of right of way.

Recreational facilities may include hike and bike trails, nature trails, bridge paths; basketball, handball or tennis courts, children's playgrounds or mini-parks and boat launching facilities.

Generally, the Highway Department will be responsible for construction of the site, but local governmental units will provide playground equipment or other recreational facilities.

Cooperative agreements will be concluded with city, county, State and Federal authorities on request.

State and Federal agencies will participate in use of right of way for purposes relating to law enforcement, vehicular weights and measures control, safety inspection of trucks, immigration control, special gas tax inspection and other official functions.

The policy is subject to the condition that should the Department conclude that the facility has become a hazard to traffic safety or to be not in the public interest, the cooperative agreement may be modified or terminated.

Occasionally

Now and then you find someone who's broadminded enough to like both extremes of modern music.

-Wall Street Journal.

for her since she was eight years old. Regular meeting date will be each Tuesday afternoon at 2:30 p.m. at the church.

Juana Young returned home Monday after spending the summer doing work at Polly Tech in Russellville, Arkansas.

Mr. and Mrs. Bill Brewer and son Billy, and his parents Mr. and Mrs. Brewer of Amarillo visited the past week with Mr. and Mrs. Bobby Holly and children at Arlington. While there they did some fishing at lake Tawakonia, and on Saturday took a trip to Six Flags. Other sisters of Mrs. Bill Brewer's to also be visiting at the same time were Mr. and Mrs. Cullin White and children of Princeton, Mr. and Mrs. Travis Webb of Hobbs and a niece, Mr. and Mrs. Ronnie Tapley of McKinney.

Recent company for Mrs. Lula Harland were her grandson and family, Mr. and Mrs. Richard Corder, children, Nathan and Rachel, from Albany, Oregon. They also visited his uncle Mr. and Mrs. Nolan Harlan.

Mrs. A.M. McBees is spending this week at Brownwood at the bedside of his mother, Mrs. Mary McBees, who is very ill in a Brownwood hospital.

Mrs. Harvey Whittenburg of Welch visited Friday and Saturday in the homes of her sons D.J. and Jerry Cox.

Mr. and Mrs. Jess Hodges from Lake Meredith were weekend guests of Mr. and Mrs. E.A. Eakes.

Mrs. May Nichols and Mrs. G.W. DeMoss of Pampa returned home Monday after spending two weeks visiting friends at Knox City and Benjamin.

Spending Saturday in the Buck Medlin home were Mrs. L.H. Medlin of Littlefield, Mr. Buddy Medlin of Amarillo, Mr. and Mrs. Dennis Medlin and children of Brownfield and Mr. and Mrs. Glenn Salyer and Shelly of Lubbock.

Mr. and Mrs. Bill Sowder visited Sunday with her brother, Mr. and Mrs. Lynn Campbell of Cone, Pattie and Nina Campbell came home with them for a visit.

Mr. and Mrs. J.D. Rowland drove to Levelland Monday afternoon and ate supper with the James Fines.

Mrs. Eva Earnhart of McAllister, Okla. is visiting with her mother, Mrs. Julia Setliff

BIBLE VERSE

"The Lord rewarded me according to my righteousness; according to the cleanness of my hands hath he recompensed me."

1. Who spoke these words?
2. Where are they recorded?
3. What was the occasion?
4. Who was the author of the book in which this verse appears?

Answers To Bible Verse

1. David.
2. II Samuel 22: 21.
3. Victory over the Philistines.
4. A number of the prophets, probably including Samuel.

and son Chester. They spent Sunday afternoon visiting with Miss Gladys Setliff of Hereford.

Mrs. Madge Tyre and daughter Bonnie of Lubbock were visitors at the Church of Christ Sunday morning and were lunch guests in the John Blackman home. In the afternoon Bonnie showed slides she made while she was living in East Africa. These were very interesting. She also has slides she took while on a Holy Land Tour and while she lived in Mexico City. We hope to see these at some future time. Bonnie was secretary to U.S. Ambassador in Africa for two years and also secretary for Ambassador in Mexico for two years. Others to enjoy the pictures were Mr. and Mrs. John Hubbard and Art Henley. Bonnie will be teaching school this fall at Ganado Public School in Ganado, Ariz. This is a Navaho Indian reservation.

Mr. and Mrs. Richard Black and children James, Sherryl and Susan are fishing and resting in Tiller, Barbara and Helen Black, Joel and Steve Sinclair, Doug, Dennis and Keith McCain. Sponsors were Rev. Ronnie Green, Mrs. Johnny Hall and Mrs. Larry McCain.

Guests Saturday and Sunday in the Cecil Jones home were her brother and wife, Mr. and Mrs. Olin Smith from Riverside, Calif. and Mr. and Mrs. Walter Boucher of Hermit, Calif. The couples were enroute from a vacation and sightseeing tour into Kentucky.

Information On Medicare Is Outlined

Did you sign up on the doctor bill part of Medicare when you were 65? Did you sign up on the doctor bill part of Medicare and then later decided to drop it? These are questions John G. Hutton social security manager asked persons age 65 today.

If you didn't sign up, or dropped your Medicare there is something you need to know. It's called a "General Enrollment Period".

What's a general enrollment period? To put it one way, it's the first three months of the year, January, February, and March 1972, is the next "General Enrollment Period". During these three months folks who didn't sign up for Medicare the first time or those who dropped Medicare can enroll.

If you are already signed up on Medicare you don't need to do anything. Your monthly premium will be held out of your check each month as before. If you get a bill in the mail and send your premium in, there will be no change.

There are some people who can't enroll because they passed up too many enrollment periods. Medicare is too important for guess work. If you dropped your Medicare or didn't enroll when you were 65 - don't guess. See or telephone the folks at the Social Security Office during the general enrollment period. They will be glad to talk with you about your case. If it is found that you aren't able to sign up on Medicare you'll be told exactly why. Persons signing up on the doctor bill part of Medicare will have the Medicare coverage beginning July 1, 1971. Your Lubbock social security office is located at 1205 Texas Ave. The telephone number is 747-3711.

Grain Speculation
Gazing into the breakfast bowl of cereal and wondering what the stuff was originally.
-Tribune, Winnipeg.

The New Mexico mountains this week.

Debbie Adams, 15 year old daughter of Mr. and Mrs. Bobby Adams of near Morton and granddaughter of Mr. and Mrs. W.B. Adams of Bula, is scheduled for heart surgery at the Methodist Hospital Saturday morning. Debbie will be having a heart pacemaker located in her chest. Dr. Gordon of Lubbock has been Debbie's doctor since she was six years old when she had her first heart surgery.

Mickey Blake of Howe, Texas will be doing the preaching August 16 thru 22 at the Bula Church of Christ. Services will be only in the evenings at 8:15.

Mrs. W.H. Zedlitz and daughter Kristin of Dallas left Thursday for their home after a visit of several days with her mother, Mrs. E.W. Black.

Mr. and Mrs. John Latham and daughter, Mr. and Mrs. Warner DeSautell and boys Chris and Cliff of Lubbock, drove to Wichita Falls Monday for the funeral of her uncle.

Visiting in the Buck Medlin Home Monday were her aunt, Mrs. Pat Swift, and Jerry Barton from Charleston, Arkansas, Mr. and Mrs. J.O. Barton from Boozier, La. Also Mr. and Mrs.

W.B. Gage of Littlefield, Mr. and Mrs. Billy Gage and children of Pep and Mr. and Mrs. Jimmy Gage and children, Amherst.

Patti and Darryl Cash of Portales are spending this week with their grandparents, Mr. and Mrs. John Blackman.

Breakfast guest Sunday morning with Mr. and Mrs. John Latham were Mrs. Martha Vin-

son and Mr. and Mrs. John Fort. They were enroute to their home at Tucson, Ariz, from attending the funeral of his mother, Mrs. Ollie Fort of Oklahoma City, Okla.

Mr. and Mrs. Cecil Jones left Sunday afternoon returning Wednesday afternoon from Fort Worth, they returned their grand son Kelly Alexander home after he had spent several weeks with them.
