### ANOTHER CITY LANDMARK TUMBLES DOWN

Wrecking crews this week began razing the ill-fated Gilling Apartments where Aug. 23 five members of the Lewis Stone family died in an early morning fire. The three-story building, a little over 30 years old, once served as a city hospital, and during the past eight years had been one of the city's larger apartment houses. The

Gilling is the second city landmark to be razed this summer. In July the old Red Brick schoolhouse on N. Cuyler met its demise after 50 years of service. The Gilling is being razed by the Haddock and Raymond Co. of Amarillo. It is expected to be completely dismantled in four weeks. (Daily News Photo)

### General Campaign Opens Oct. 13

## \$63,900 UF Goal Set

A \$63,900 goal was set for the 1959 United Fund Campaign at a spirited meeting of the UF board of directors Thursday afternoon in the City Hall fund office.

A two week general campaign is planned for Oct. 13, following a Sept. 23 kick-off of advanced gifts division work.

The \$63,900 goal was the result of careful study of budget needs of seven member agencies. The board totaled each separate budget with the operating esti-

mate and handed to general campaign chairman Floyd Watson the job of raising this sum of money for the next fiscal year.

Member agencies are the Boy Scouts, Girl Scouts, Salvation Army, Red Cross, Heart Association, Milk Fund, and Welfare Index. United Fund President Hugh Burdette stressed the absolute need for reaching this goal.

"Pampa's United Fund," said the president, "is an efficient, healthy, completely worthy oper-

ation." The board agreed that three per cent of the total income which is used for all operating expenses is the minimum. This low operating cost is a major factor in keeping the per capita request one of the lowest in the nation for cities in Pampa's population range. The board approved "Go All The Way — Give One Day's Pay" as the campaign "battle cry" in support of the campaign workers. Chairman Watson has completed most of the organizational work. The board of direc-

tors voted to set the pace by calling on every able citizen to share in this work for others.

Melvin T. Munn will serve as vice chairman under Watson and as chairman of publicity. Chairmen have been named for 10 campaign divisions. They are:

E. Roy Smith, advance gifts; Billy E. Davis, oil and gas; Jerry Jacobs, Letors; Kirk Duncan, individual; Joe Reid, industrial; Dr. J. B. Veale, professional; John Gikas, retail; Leymond Hall, with the Junior Chamber of Commerce; Gordon Lyons, wholesale; and Mrs. Samuel Motley, colored division.

### Stores to Close

Most Pampa business establishments, as well as City and County offices, will be closed Monday in observance of Labor Day.

Labor Day is an official holiday recognized by members of the Chamber of Commerce, Merchant, Activities Committee.

## ALL-OUT DRIVE SLATED AGAINST 'TEEN' GANGS

By BRUCE AGNEW  
United Press International

NEW YORK (UPI) — Angry officials today began a drive to strengthen the police force in a "no coddling" assault on teen-gang violence.

Mayor Robert F. Wagner authorized an increase of 1,080 men in the city's police force after a meeting with city officials Thursday. Police Commissioner Stephen P. Kennedy promised he would begin cutting applications at once.

Wagner was to confer today with Gov. Nelson A. Rockefeller who held his own discussion with state officials on the juvenile crime problem Thursday. The two planned to lay groundwork for a

more extensive conference of city, state and civic leaders next Tuesday.

No Coddling  
The mayor warned there would be "no coddling" of youthful criminals whose outbreaks have shocked the city.

Two teen-age hoods who allegedly led the attack that killed two other teen-agers early Sunday were arraigned on murder charges Thursday before a judge who demanded "more drastic action against these punks."

"I see these things going on every day and nothing has been done about it," Magistrate David Malbin said as he stared down at Salvatore (Dracula) Agron, 16,

and Luis (The Umbrella Man) Hernandez, 17.

"The rights of the people have been neglected," he added.

Swift Justice  
Swift justice was handed out to one teen-ager Thursday.

Fourteen-year-old Grant Young of Brooklyn, attacked a nurse at knife-point on a subway and was seized by police. A little more than five hours later, Justice Leonard E. Ruess sentenced the youth to the state training school at Warwick under maximum security, "until he takes his proper place in society."

That could mean seven years.

Other spearheads of the city's attack on teen violence included orders to speed up the lighting of parks and playgrounds and plans for establishing additional work camps. The camps would be for youths whose police records apparently stem from troubled homes as well as for teen-age hoodlums who must be penned up for the safety of society.

## Pampa Man Escapes Injury When Car Hits Phone Pole

A 21-year-old Pampa man, Ronald Davis, 330 N. Christy, escaped injury early this morning when his car slammed a telephone pole about three miles west of Kingsmill.

Davis' 1954 Ford was described as a total wreck by investigating patrolman Travis Underwood. The power pole was snapped in two.

Davis said he was returning from Amahillo about 12:30 a.m. when he must have went to sleep. His car angled off the left side of the Amarillo Highway and struck the pole dead center.

Traffic accidents in Pampa a, meanwhile, continued at a rate of two or three a day. A police violation report for August this morning showed that 212 motorists were

tagged for driving violations in August.

Sixty-three were arrested for speeding, 39 for driving without a valid license, 17 for driving "noisy" cars, and 28 for red light and stop sign violations.

In addition, 4,202 drivers were tagged for overtime parking.

## LIONS LAUNCH 2-NIGHT POLIO SURVEY HERE

Members of the Noon and Evening Lions Clubs turned out in full force Thursday night to launch a two-night Polio Survey. Going from door to door in assigned blocks, the Lions carried questionnaires to determine how many residents of Pampa have or have not taken Salk vaccine shots.

The survey will continue tonight, with a final check-in set for 9 p.m. in Poole's Steak House.

Thursday the Lions surveyed some 2,000 persons and came up with some astounding results, according to C. C. Lander, chairman of the Noon Lions Club Health and Welfare committee.

On one block, for instance, only five out of 61 persons had been vaccinated against polio. Lander is astonished at the

### Trash Blaze

Pampa firemen answered an alarm at 8:23 p.m. Thursday when a trash fire flared out of control in an alley behind the W. L. Hesker residence, 1120 N. Somerville. No damages were reported.

Before leaving France, the President said in a brief speech at Le Bourget Airport that his talks with de Gaulle would mark "a further step in our cooperative efforts to achieve a just peace."

The sun broke through the haze as Eisenhower's giant jet set down at Prestwick, U.S. Ambassador to London John Hay Whitney, Secretary of State for Scotland John S. MacLay and other American officials greeted the President.

There were no formalities since this is a private visit. Eisenhower spent only eight minutes at the airport before being whisked to Culzean Castle, 15 miles to the south, where he has an apartment awarded him for life by Scotland. The President expressed his heartfelt thanks to France and Paris for making his visit "so pleasant and enjoyable."

He had said goodbye to de Gaulle at the French President's country home at Rambouillet and flew by helicopter to Le Bourget Airport.

"I would like above all to say that I feel that the visit of General de Gaulle and myself has been mutually profitable and will mark a further step in our cooperative efforts to achieve a just peace,"

## Ike Ends His 10-Day Europe Peace Mission

By MERRIMAN SMITH  
UPI White House Reporter

PRESTWICK, Scotland (UPI)—President Eisenhower ended a historic 10-day peace mission today equipped with pledges of support from the European Alliance for his approaching meetings with Soviet Premier Nikita S. Khrushchev.

The 68-year-old American President, reaching final agreement with President Charles de Gaulle of France on the main points of cold war strategy, flew from Paris to Scotland for two or three days rest and golf at Culzean Castle before returning to Washington.

Before leaving France, the President said in a brief speech at Le Bourget Airport that his talks with de Gaulle would mark "a further step in our cooperative efforts to achieve a just peace."

The sun broke through the haze as Eisenhower's giant jet set down at Prestwick, U.S. Ambassador to London John Hay Whitney, Secretary of State for Scotland John S. MacLay and other American officials greeted the President.

There were no formalities since this is a private visit. Eisenhower spent only eight minutes at the airport before being whisked to Culzean Castle, 15 miles to the south, where he has an apartment awarded him for life by Scotland. The President expressed his heartfelt thanks to France and Paris for making his visit "so pleasant and enjoyable."

He had said goodbye to de Gaulle at the French President's country home at Rambouillet and flew by helicopter to Le Bourget Airport.

"I would like above all to say that I feel that the visit of General de Gaulle and myself has been mutually profitable and will mark a further step in our cooperative efforts to achieve a just peace,"

said the President.

"Good bye and au revoir," he said.

Highly Pleased  
Sources close to the President pictured him as highly satisfied with the results of his trip to Europe and the "peace is possible" aura that emerged from it.

In the past 10 days he has received tremendous ovations in three capitals — Bonn, London and Paris.

He has talked privately with the chiefs of government of West Germany, Britain, Italy and France.

In addition, he found time to address the foreign ministers of the 15 members of the North Atlantic Treaty Organization, talk briefly with the foreign minister of Spain which is not a NATO member and spend 24 hours with the British royal family.

The loss of sleep, the wear of concentrating on complex international problems and the tear of public functions did not appear to daunt the President a bit although he was looking forward to his holiday in Scotland.

### NEW TEEVEE STAR

Former President Harry S. Truman and Jack Benny examine a display case in the Truman Library in Independence, Mo., which contains a picture of Truman holding a copy of a newspaper with headlines

that read: "Dewey Defeats Truman." Benny is taping part of his fall TV programs in the library with Truman as the star.

# Buenos Aires Revolt Cut Without Blood

## OLD REB MAY NOT BE A VET

By CLYDE MOORE  
United Press International

HOUSTON, Tex. (UPI) — Centenarian "Old Rebel" Walter Williams lay in a hospital bed dying today unaware of a controversy over whether he is the last survivor of the Civil War or the victim of a memory-clouded mind.

The chances are unlikely that Williams ever will know. For he is gravely ill and his death appears imminent.

The question now is whether Williams, totally blind and deaf, will get a military funeral, as has been ordered by Congress and approved by President Eisenhower, or if he will go to his grave as a civilian whose claim to being the last survivor of the Civil War was challenged only as he lay on his death bed.

The challenge was reported Thursday by reporter Lowell K. Bridwell of the Scripps-Howard Cincinnati Post and Times Star. He reported that a search of government records cast doubt on Williams' claim.

Lauding Search  
Bridwell's investigation was launched after an Ohio woman claimed that Williams had never served in the Civil War. The woman, Mrs. Opal Beckett, of Mariatown, Ohio, said it was a known fact by many residents of Franklin, Tex., where she had known the "Old Rebel," that he had not been in the war.

"It's the biggest joke on the American people I ever heard," she said, "I didn't mind him getting the veterans' pension but when I heard he was going to get a military funeral and was never in the Army it just wasn't justice." Last month Congress approved and President Eisenhower signed a resolution declaring the day of Williams' death to be a day of national mourning.

But Williams' daughter insisted that her father was the last surviving veteran of the War Between the States.

Conf. Doubt On Age  
"We have 40 or 50 letters here from people who said their fathers

ers served in the Confederate army with my daddy and they knew him personally," Mrs. Willie Mae Bowles said.

Bridwell's investigation also cast doubt on Williams' claim to being 117 years old, a sworn statement by Williams listed his age as 86 in 1932 when he applied for a Civil War veteran's pension with the Texas state comptroller.

(See REB, Page 3)

## Threat of Massive Tank Attack Chills Rebel Group

By WILLIAM L. F. HORSEY  
United Press International

BUENOS AIRES (UPI)—A short-lived, bloodless revolt led by the ousted commander of the army ended at least temporarily early today under threat of a massive tank attack.

Rebel Gen. Carlos Toranzo Montero announced after a 50-minute talk with President Arturo Frondizi that "a truce" has been arranged. He would give no details.

Two tank columns had already started for Buenos Aires to attack the army engineering school, where Toranzo had established the headquarters of his rebel command, but they halted on the way while Frondizi and the general talked truce.

The government proclaimed a holiday for schools, banks and government offices and urged stores and other private enterprises not to open today.

Although no reason for the proclamation was announced, it appeared that the government wanted as far as possible to keep people off the streets until the tensions generated by Toranzo's revolt had died down.

The general said he had rebelled only against the government order Wednesday dismissing him from the army command. He said 95 per cent of the army wanted him to continue as its commander.

He denied that he had any intention of seeking to overthrow Frondizi, although he did criticize his handling of the situation.

"We are zealous guardians of constitutional government," he said. "We shall not allow political factors to infiltrate our efforts in any way. We hope that constitutional government will not be interrupted, because the country needs it."

Toranzo announced the truce at 6:30 a.m., winding up a night that had transformed Buenos Aires into an armed camp.

Machine guns bristled on the balconies of the "White House" and in the halls leading to its main entrances. Soldiers and civilians armed with tommy guns fortified the engineering school against attack.

Police with rifles stood guard at every precinct station, and the riot wagons at police headquarters were ready to roll at a moment's notice.

The tanks rolled at 3 a.m. from the big army base at Camp Mayo, about 20 miles northwest of Buenos Aires, with initial orders to move directly on the engineering school.

Later orders halted them by the roadside while Toranzo negotiated with Frondizi and top officials of the armed forces.

## Safety Council Sees 450 Deaths During Holiday

United Press International

Millions of Americans got ready today for a last thing at summer and the National Safety Council predicted 450 of them would be dead when the Labor Day weekend ends.

State and local police braced for the crush of traffic by canceling leaves and putting all available men on extra duty. National guardmen were pressed into service and many states planned to use helicopters and planes to help handle holiday traffic.

The Safety Council predicted one of the biggest traffic jams in the nation's history with virtually every one of the 71 million motor vehicles on the road at one time or another during the holiday period.

"On the basis of past experience and the anticipated increase in travel this year, the cold statistics indicate that as many as 450 traffic deaths could occur during the 78-hour holiday, beginning at 6 p.m. today and ending at midnight Monday," the council said.

The predicted toll would be an increase over last year, when United Press International counted 432 deaths, and approach the record of 453 fatalities during Labor Day of 1961.

The Safety Council was hopeful, however, that "the intensive campaign organized labor is waging among its millions of members for a safe Labor Day" would hold down the slaughter to that approaching a normal three-day weekend, when 280 persons are killed in traffic accidents.

## BOYD, LYONS ARE ELECTED

Former Mayor Lynn Boyd and Gordon Lyons, district manager of Southwestern Public Service, have been elected to the board of directors of the Texas Law Enforcement Foundation, it was announced today in Austin.

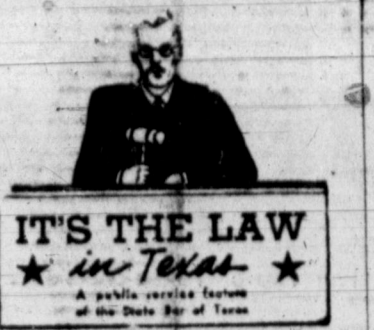

The foundation, a privately-financed citizens' crime-fighting organization, has already begun a campaign for operating funds totaling \$60,000.

Other regional directors include Selbert Worley, mayor of Shamrock; and John Mayfield, manager of the Perryton Chamber of Commerce.

WHERE'S THE WATER?—Doing their best to beat the heat, crowds jam the beach in eye-arresting fashion in Tokyo, Japan. The aerial photo shows only a portion of the more than 1,200,000 who flocked to beaches in the Tokyo area during a sunny and hot afternoon. Note the two sailboats in the middle of the crowd.

**Looking Ahead (Legally Speaking)**  
You can tell a lot about people by the way they regard time.  
Do they put stock mostly in the past — their record; the present — their direct joy in work or play; or the future — their plans.  
Why not use all three dimensions of time? Past experience to guide, the present for rest, and the future to realize dreams.  
Lawyers report a sharp shift in the way people regard time and the law. Of old they thought of law in terms of past facts like failures to meet legal duties, misdeeds, etc. — facts useful chiefly in lawsuits.  
You still have to think of the record, since you may have to go to trial some time. So keep good records of your affairs.  
But more and more people now also think of the law in the future tense — in terms of built-in safeguards for plans which they want to go through without legal hitch-ups.  
Our heavy income and death taxes have made people plan ahead legally, rather than wait for the ax to fall.  
Any time you buy or sell a home

**FLYING CRANE**—The S-60 Sikorsky helicopter, which can carry a six-ton load, finds the weighted dummy of an Honest John missile no trouble at all during a demonstration of its abilities. Instead of the usual passenger or cargo cabin, the fuselage is a bridgelike boom extending from cockpit to tail. The glass-enclosed cockpit gives a clear view in any direction. The cockpit's seat can swivel to the rear. The S-60 is powered by two piston engines of 2,100 h.p. each and can be converted to gas turbine power. Its makers predict the new craft "will revolutionize the transportation industry," moving such things as prefabricated houses, transmission towers, vehicles and other huge objects.

### Highway Program Has Run Out of Gas, Says Rep. Brown

**THE LIGHTER SIDE**  
By FRANK ELEAZER  
United Press International

WASHINGTON (UPI)—Our highway program, the witness said, has run out of gas. And Rep. Clarence J. Brown (R-Ohio) said he for one was mighty disappointed in the House Ways & Means Committee, which was trying to get it pumped up.  
True, the committee had come up with a plan to keep the concrete pouring on those new coast-to-coast freeways.  
Brown conceded that's what all his correspondents seem to want. But he noted that the committee was proposing to make people pay for the new roads through an extra penny a gallon tax on gasoline they burn riding around on the old ones. That, said Brown, is just what most of the folks he's been hearing from definitely don't want at all.  
Ways & Means Chairman Wilbur Mills (D-Ark.), appearing before the rules committee to get the highway bill cleared to the House, said regretfully that the magic formula which so many of Brown's friends are demanding is just what his committee tried to devise.  
"Couldn't Do It"  
But they just couldn't do it, he said.  
As a result, we'll all be paying an extra 15 or 20 cents per tankful of gas, starting in another week or so, depending on how fast Mills' new tax plan can be shoved through the House and Senate.  
The alternative, said Mills, is to quit letting new highway contracts and to halt work on some already let. The Highway Trust Fund, into which motorists have been dropping 3 cents per gallon of gas since 1956, is about to go broke.  
Some of the rules members seemed to think this was sort of peculiar.  
Rep. Homer Thornberry (D-Tex.) said he heard a lot of money was wasted, on things like

## Milliron Trio, Veterans Of Four Minstrels, Bid Lions Farewell

Pampa's favorite singing girls, the Milliron Trio, turned in a farewell performance at the weekly meeting of the Noon Lions Club Thursday.

The girls — Marilyn Myatt, Nancy Stevenson and Barbara Lunsford — are going to Hardin-Simmons University in Abilene as freshmen this fall.

Accompanied by their arranger, Maxine Milliron, they relived some of the magical Minstrel moments of the past four years, beginning with "Mississippi Mud" from the 1956 Lions Club Minstrel.

Then came snatches of "Ain't She Sweet" (1957), "Razzamataz" (1958) and the full works of "Lazy River" (1959).

They concluded their performance with a song especially for the Lions, "May You Always."

The Trio was introduced by Program Chairman James Evans.

Karen Capps, the Lions September sweetheart from Pampa High School, announced that the Student Council is trying to organize a student council for adults.

"We're going to be needing all your support, especially for the football team, because we're going to have a good one," she said.

Miss Capps is secretary of the Student Council and a member of the A Capella Choir.

Joe Tooley, zone chairman, announced that October will be membership month. The Noon Club was a winner in the 1958 attendance contest.

Tooley asked his fellow Lions to report their make-up meetings promptly so that Secretary O. K. Gaylor can get his reports in before the first of each month. An extra ten points will be given the club for this promptness.

C. C. Lander, chairman of the Health and Welfare Committee, spoke on the polo shot survey that both the Noon and Evening Clubs are carrying out. The object of the survey is to determine how many residents of Pampa have had Salk vaccine shots.

In other business, Frank Culbertson and R. B. "Jiggs" Co-oke were appointed to attend a meeting of the Boy Scout Committee.

## Quotes In The News

**United Press International**  
LOS ANGELES — Vice President Richard M. Nixon, discussing the effects of President Eisenhower's tremendous welcome on his European tour:

"When Ike sits down at the conference table with (Soviet Premier Nikita S.) Khrushchev, the premier will know that he is dealing with a man who represents the attitudes of the free world."

## 3 Pampa Men Are Sentenced

Three young Pampa men, charged by police with the theft of gasoline and a battery from the Ray Boswell Machine Co., were each sentenced to 30 days in county jail Thursday.

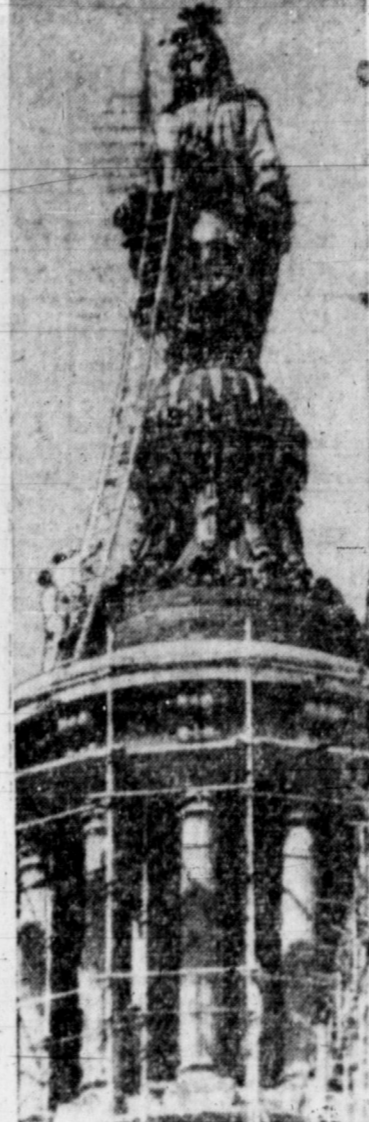

Sentenced were Melvin Dean Stanley, 18, 713 N. 2nd; James E. Turfington, 18, 816 S. Banker; and William Frank Smith, 20, 729 N. Zimmers.

The threesome admitted to police Thursday they stole the gas and battery early Sunday morning. They were apprehended when they returned Thursday from a trip to Ft. Worth.

## Man Fined \$100

Earl Benjamin Evans, 48, of Tulsa, Okla., was fined \$100 and court costs this morning in county court on a charge of driving while intoxicated.

Evans was arrested by Highway Patrolman Travis Underwood about four miles west of Pampa on the Borger Highway.

**BRONZE GIRL**—Bronze expert Mike Parise (on top of ladder) and two other workers examine the statue of Freedom atop the Capitol dome in Washington. ## Formosa Struck By Second Typhoon

TAIPEI (UPI) — The second typhoon in a week slammed into Formosa Thursday night, leaving at least one dead and 170 injured.

All but a few of the reported casualties were suffered at the east coast port city of Hualien, which took the brunt of typhoon Louise's 135 miles per hour winds and the heavy rains that accompanied the storm.

Telephone lines between Hualien and Taipei were out and the full extent of casualties was not known. Preliminary police reports said the city had been swept by flash floods triggered by six inches of rain and that 260 houses had been damaged or destroyed.

UMMM! Teamed together, corn bread and lobster ring arounds make for a real party surprise. Sauce is cheese flavored.

ook's Nook

Team Lobster, Corn Meal For A Real Party Surprise

By GAYNOR MADDOX, Pampa Food and Markets Editor. How does this sound to you—corn bread circles filled with creamy lobster? The rings can be filled piping hot, or can be

made ahead and heated before serving. The rich cream sauce is flavored with cheese and chunks of rosy lobster. Teamed together, the corn meal and lobster flavors are something very special.

RUTH MILLETT

Sam, the black Labrador retriever I've often written about, growing old. It's sad to see a dog you brought me as the friskiest, friendliest, most fat pup in a litter of 10, now thin and gray and get a patent, what's-the-matter-with-me look in his eyes.

Oh, Sam still brings in the morning and evening papers and takes them to the cupboard where his candy is kept, so that he is sure to collect for his daily morsels.

But he doesn't prance any more. Had high, proud to be doing a good job that invariably brings me a pat on the head, and a delectable bit of dog candy tossed in the air for him to catch. Now his job is just a job that he does faithfully but slowly and without spirit.

The steady rhythm of a thumping tail when someone rouses him on a nap to pat him or to say, "Sam, a good dog," has been replaced to the slightest wag of the tip of his tail—the feeblest salute he can manage before dozing off again.

Bird season will be coming soon and for the first time, Sam, who used to quiver in happy anticipation at the sight of a gun, is sure to tire long before a day's hunting done.

But the saddest thing of all, perhaps, is that Sam doesn't even give any natural enemies a nyore. Once he would climb a tree to hot pursuit of a frisky squirrel, now he only cocks an eye with int interest if a squirrel or rabbit scampers across the yard.

Once the other dogs in the neighborhood knew who was boss they came in his yard of look longingly at one of his half-don bones. Now he makes not even a feeble protest when his territory is invaded.

Yes, it's sad to watch a dog you love grow old.

Women's Activities

Doris E. Wilson, Daily News Women's Editor

Christian Women's Fellowship Hears Of Guamanian And Hawaiian Customs

A program on Guam and Hawaii was presented by the Sharp Group at the Christian Women's Fellowship meeting held recently in the first Christian Church educational building.

Mrs. John Gill, CWF president, opened the meeting with prayer followed by a devotional, "How Deeply We See" by Mrs. Charles Lanehart.

Mrs. G. W. Vance presented the program on Guam and Hawaii assisted by her husband, who is the Navy recruiter in Pampa.

Mr. and Mrs. Vance spent four years in Guam and two and half years in Hawaii, while Mr. Vance was stationed there with the USN.

Mrs. Vance told of the religions, education and customs of the Guamanians and the Hawaiians followed by a question and answer period.

The program concluded with three authentic Hawaiian dances presented by members of the Sharp Group led by Mrs. Vance.

Included in the numbers were "The Green Rose Hula," "Little Grass Shack" danced by Mmes. Vance, Gill, Charles Beard, Walton Bailey, Murray Castleberry, Burl Graham Jr., Bob Swanson and E. K. Haner. Mrs. Vance danced a solo, "The Gourd Dance."

During the business session, Mrs. Gill announced that a Coffee will be held in the church on Sept. 16 at 10 a.m. for all CWF members.

To serve on the nominating committee are, Mmes. Glenn Nichols, T. J. Wright, Walton Bailey, G. I. Harkrader, Lester Mason, W. F. Taylor and Lester Stewart.

It was reported that the "Christmas In September Banquet" will be held in Fellowship Hall at 7 p.m. on Sept. 24. The banquet is held annually in recognition of the Christian Church missionaries and this year it will recognize the work of Ben Hoggood, the church's new living link missionary in Africa," Mrs. Gill said.

The meeting closed with the Group repetition of the CWF benediction.

Members of the Brummett Group served punch and cookies from a table covered with a green cloth centered with a bouquet of dahlias and zinnias.

Central WMU Has Missionary Meets

The following Women's Missionary Union Circles of Central Baptist Church met recently in members' homes for Mission study meetings:

RUTH PROCK Circle met in the home of Mrs. Merle Terrell, 224 N. Wells, with Mrs. Stanley Stein reading the prayer calendar and Mrs. Curtis Liles giving the devotional and opening prayer. Mrs. Liles presented the program on "Christian Witness" assisted by Mmes. Terrell, Johnny Simmons and Stanley Stein. Mrs. G. C. Miller gave the closing prayer.

CAROL CHEN Circle met with Mrs. Paul Howard, 2224 Dogwood. Mrs. Tommy Phillips of Perryton opened the meeting with prayer. Mrs. Fred Clark gave the mission book study, "Holy Spirit In Missions." Mrs. Robert Warren Sr. closed the meeting with prayer. Nine members were present.

JOY RUSSELL Circle met in the home of Mrs. W. L. Brown, 1324 Garland. Mrs. Claude Turner gave the opening prayer and the mission book study, "Holy Spirit In Missions." Five members and two visitors were present.

SARA BETH Circle met in the home of Mrs. William Stafford, 627 Sloan. Mrs. Bern Pendergrass taught the mission book, "Holy Spirit In Missions." Mrs. Robert Warren Jr. closed the meeting with prayer. Nine members were present.

RUBY WATSON Circle met in the home of Mrs. Ralph Prock, 1320 Duncan. Mrs. Cecill Williams gave the opening prayer. Mrs. Sam Hanks had charge of the periodical program. Mrs. Prock closed the meeting with prayer. Five members were present.

When I was Elly's age, I started at lightning bugs, my friends in new dresses, naked boy babies and elephants in the zoo. So, as a starer myself, my own sanity comes into question here and makes my opinion of Elly's undependable.

Under these circumstances maybe Mrs. S. better consult a psychiatrist.

Indeed, I urge her to. For I expect that her adopted child was born out of wedlock, and that Mrs. S. is struggling with fear that Elly is the inheritor of her natural parents' stinfulness. This fear, I think is what makes Elly's interest in naked boy babies so worrisome, and as it is not a rational fear, a psychiatrist might help her get over it before it does serious harm to her and Elly.

In the meantime I offer her a few words by Dr. Irene M. Hosely, a noted psychoanalyst of children who writes: "The child's first awareness of bodily differences comes most easily in observation of a small baby. Parents' naturalness in accepting infant nudity gives a casualness to the experience that helps the child absorb what he sees."

But if, like Mrs. S., we resist his curiosity in the sex of babies, kittens and puppies, we make it impossible for him to absorb what he sees. Sensing our disapproval, he's too distracted by it to absorb what he sees. So his sex curiosity remains unsatisfied.

As a result, he'll work out one of two solutions for himself. Either he'll satisfy it in guilty secrecy or start pretending he doesn't feel it. Both solutions have made much trouble in this world.

No matter how the diet is altered, for health reasons, it must be adequate in protein, vitamins and minerals. Beef, because of its high content of top-quality protein, its important amounts of B vitamins and minerals, is a food important for the welfare of everyone, according to the Texas Beef Council.

Braised Short Ribs Are Versatile Dish

Braised short ribs are not only one of the most delicious, inexpensive meals a homemaker can serve, but the Texas Beef Council feels they are also among the most versatile.

The addition of vegetables—carrots, onions, potatoes, or young turnips—makes short ribs a meal-in-one, or the pan juices can be thickened with gravy or a oar cream-to-make a beef-rich gravy to be served with short ribs and creamed potatoes or rice. Use a favorite barbecue sauce instead of water for braising, and barbecued short ribs and trijoles, served with corn bread muffins, produce an entirely different meal.

"Southern Ribs of Beef," the Beef Council's newest variation of short ribs, utilizes an interesting combination of honey, liquid smoke, and garlic for still another version of braised short ribs. This recipe serves 4:

SOUTHERN RIBS OF BEEF 3 to 4 pounds short ribs Salt and pepper to taste 1/4 cup honey 1/2 teaspoon liquid smoke 1/2 cup water (1 cup if sherry if omitted) 1 teaspoon Worcestershire sauce 1/2 cup sherry (if desired) 1 small clove garlic, crushed Salt ribs and brown well over medium heat in Dutch oven. Pour off excess fat. Add remaining ingredients. Cook covered in slow oven (325 degrees) about 1 1/2 hours, until tender, basting occasionally.

KYLE'S SHOES FOR THE FAMILY Phone MO 9-9442

DEAR ABBY...

By Abigail Van Buren

DEAR ABBY: I am so confused. After 23 years of what I considered a happy marriage, my husband got up, dressed for work, went out to the garage and shot himself.

There are a lot of rumors around town about why he did it. I don't know what to believe.

We had three children. As far as I know my husband was not in debt. He had everything to live for. Everyone is giving me advice on what to do. Some say, "Sell the house and move to another town." Others say, "Stay. You can't run away from yourself." What do you think I should do?

DEPRESSED: Don't make any radical changes in haste. Your present house, friends and surroundings are bound to keep the old memories alive. But a temporary change of scenery might be good for you and the children.

DEAR ABBY: I am fourteen years old and sometimes I wish I were dead. My problem is I have a clock in my family. This clock makes all kinds of trouble for me. My father is the clock. When I go somewhere and say I'll be home at a certain time, if I am not home right on the dot my father gets real mad and won't let me go out for a month. I am afraid to answer him back because if I open my mouth he says I am talking back to him. What can I do about this clock of mine?

CLOCK TROUBLE: The problem is not the clock—it's the cuckoo who gets so wound up in having fun that he doesn't know what time it is. If you're old enough to tell time, there is no excuse for being late.

DEAR ABBY: Please give me your viewpoint on people who never give you a specific invitation, but when they leave your home (after having been invited) they always say, "Don't forget where we live and drop in ANYTIME!" I say this is no invitation. My husband says he thinks it is all right. Your opinion, please.

IN DOUBT: DEAR IN: I am with you. If people sincerely want your com-

pany, they'll invite you — ahead of time. They will set a specific date or ask you to set it.

CONFIDENTIAL TO STELLA: When a child is adopted, the original birth certificate is sealed and cannot be opened except by a court order. A new birth certificate is issued, naming the adoptive parents as the PARENTS. There is NO indication on that new birth certificate that the child is adopted.

For ABBY's pamphlet, "What Every Teenager Wants to Know," send 25 cents and a large, self-addressed, stamped envelope to this paper.

Beef drumsticks are enthusiastically received by old and young alike, the Texas Beef Council has found. Mold ground beef on metal or wooden skewers (obtainable from most meat retailers) and simmer in condensed mushroom soup until tender.

*The Weekly Message  
Of Inspiration*

LELAND DIAMOND, Pastor  
Reorganized Church of Jesus Christ of Latter Day Saints

Scripture: Ps. 85:8

"I will hear what God the Lord will speak; for he will speak peace unto his people, and to His saints; but let them not turn again to folly."

Communion with God is of vital importance to the Christian way of life. Yet we are apt to forget that listening is a part of prayer. We need the quiet times so that the Spirit of God may minister to us and speak peace to our minds and hearts.

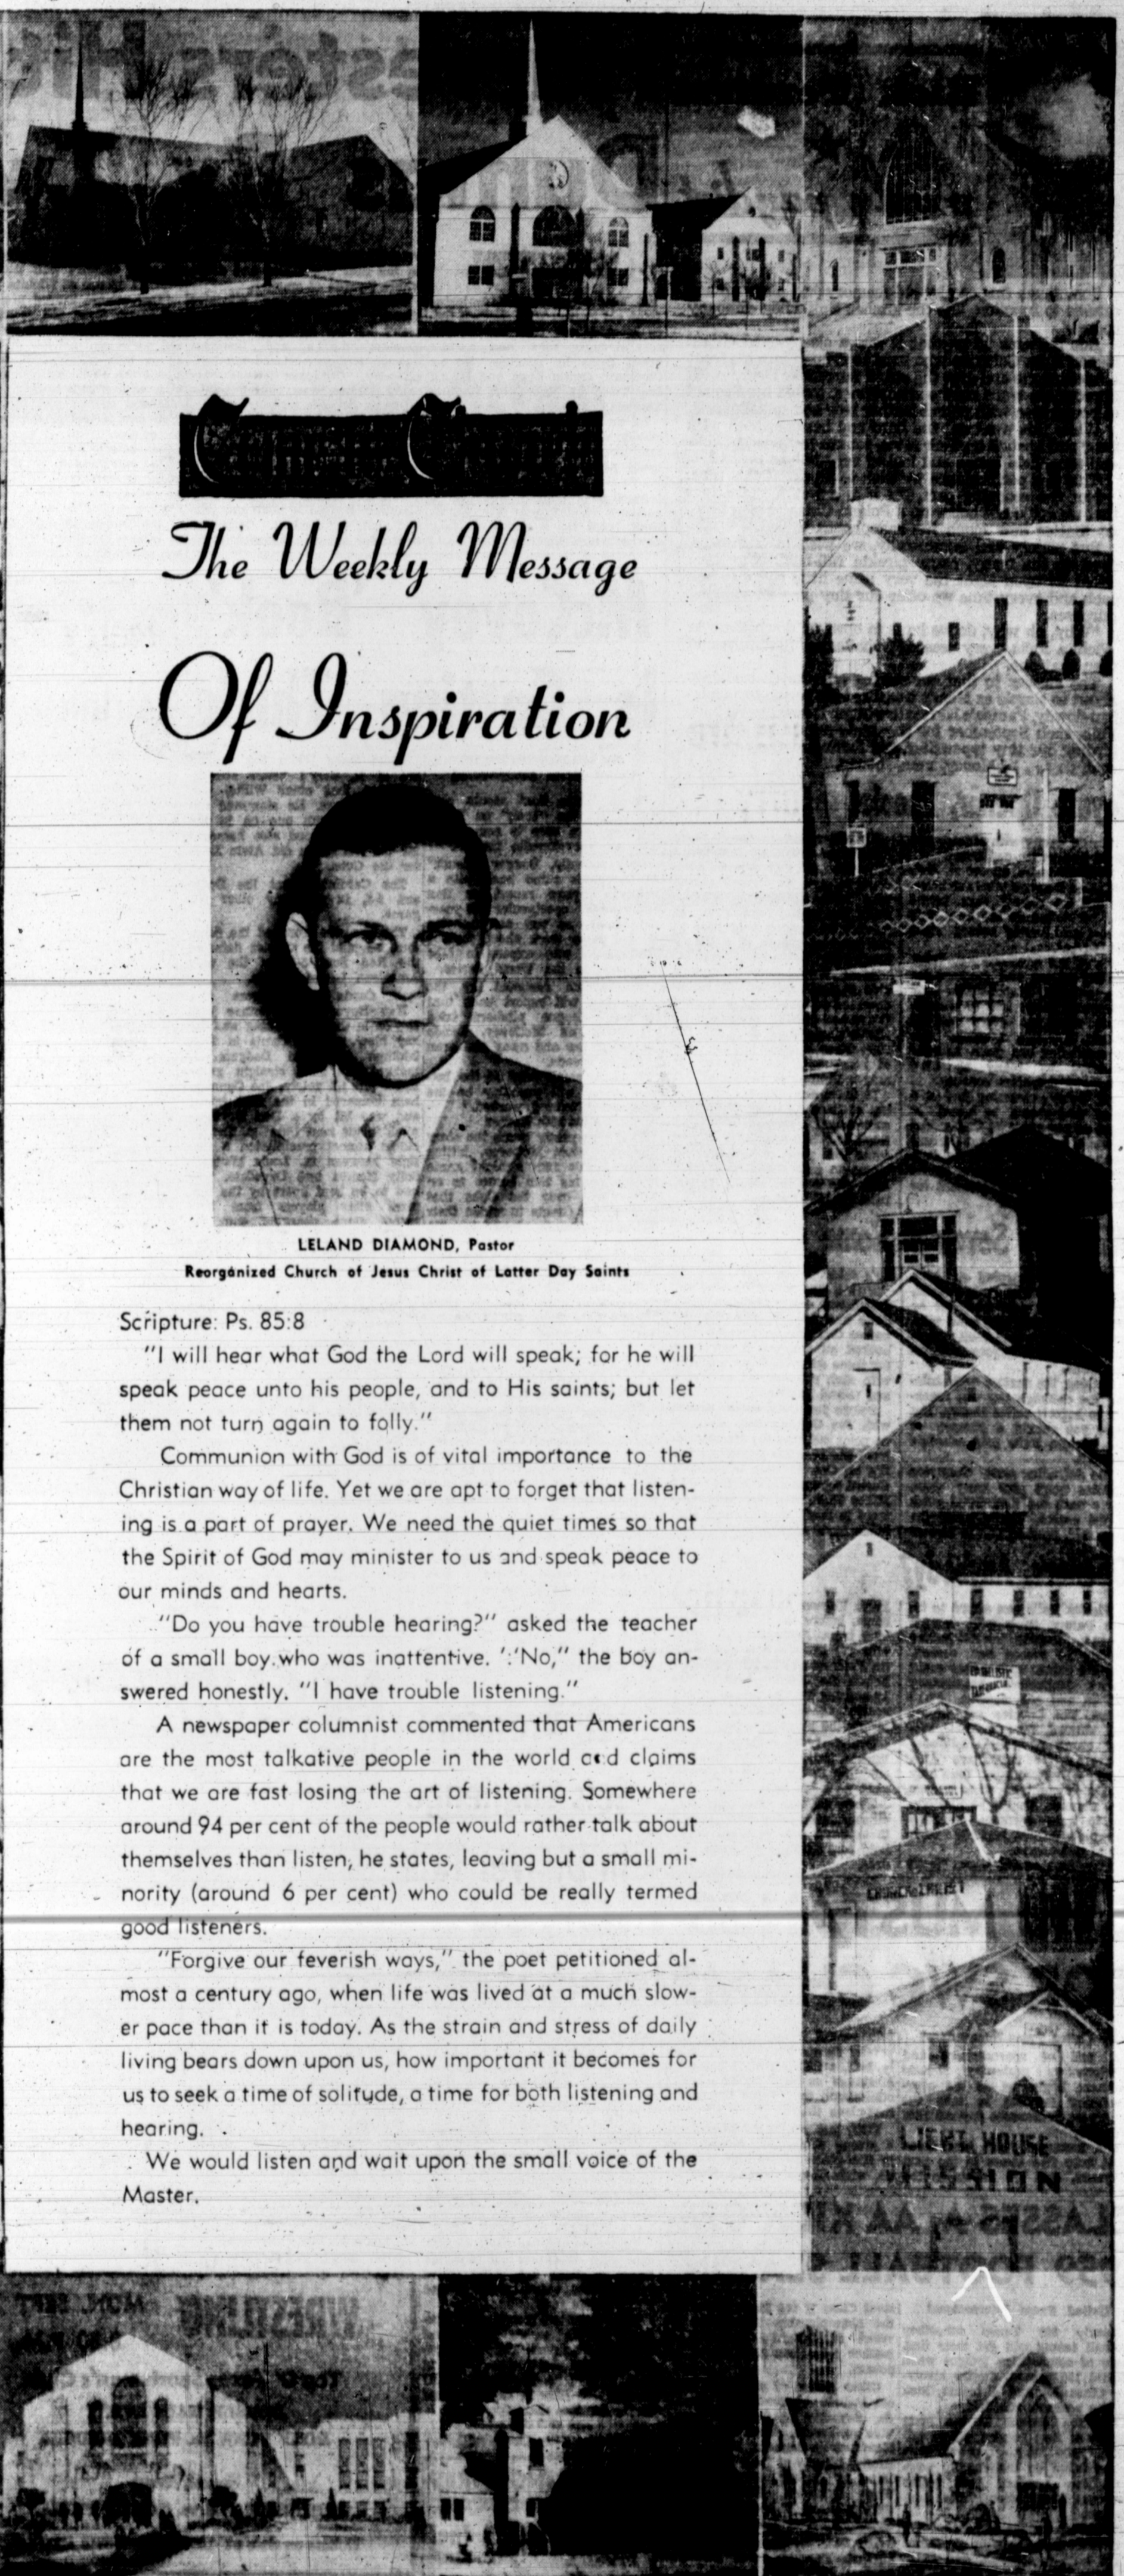

"Do you have trouble hearing?" asked the teacher of a small boy who was inattentive. "No," the boy answered honestly. "I have trouble listening."

A newspaper columnist commented that Americans are the most talkative people in the world and claims that we are fast losing the art of listening. Somewhere around 94 per cent of the people would rather talk about themselves than listen, he states, leaving but a small minority (around 6 per cent) who could be really termed good listeners.

"Forgive our feverish ways," the poet petitioned almost a century ago, when life was lived at a much slower pace than it is today. As the strain and stress of daily living bears down upon us, how important it becomes for us to seek a time of solitude, a time for both listening and hearing.

We would listen and wait upon the small voice of the Master.

# TOT Qualifying Is Underway

By MARVIN OLSEN  
Daily News Staff Writer

One-time Texas Amateur champion Don Massengale "murdered" the Pampa Country Club links Thursday afternoon with a 69—which included an out-of-bounds on No. 1.

It was Massengale's first look at the local course. His round included an eagle on No. nine.

At about 10 this morning the first foursome teed off to get the 1959 version of the Top O' Texas Invitational

underway. Home Pro Hart Warren estimated this morning that between 40 and 50 swingers would be trying for berths in championship flight. Thirty-two will make it.

Saturday morning, with qualifying out of the way, the tournament proper begins. Championship flighters will play 72 holes for medal scores while golfers in the lower flights begin a combination of match and medal play, with all championships decided Monday.

Warren said today the course "is in real good shape." A heavy rain Wednesday night dumped nearly an inch of rain on moisture-starved fairways. The greens have

continued to stand up under a long dry spell and are at present in peak condition.

Tourney Chairman Thurmon Fain reminds golfers that entrance fees are \$12.50. That entitles competitors to a crack at \$2,800 in prizes and this evening's buffet dinner. At tonight's dinner, by the way, all pairings in every flight will be announced.

Pro Hart Warren also reminds residents not in the TOT that the Pampa links will be closed until Wednesday. The tourney ends Monday, and Tuesday will be the club's day of rest.

**GET 'EM TIGERS!**—These 11 boys will carry McLean's hopes into tonight's Homecoming game against the Shamrock Irish of District 5-AA. The game, matching two teams who aren't expected to be threats in their districts, is rated a tossup. The Tiger line starters are, from left, left end Don Cash, left tackle Darrell Gibson, left guard Clyde Windom, center Bob Weaver, right guard Jerry Smith, right tackle Terry Don Smith, and right end Tommy Herron. Backs are, from left, left halfback O. K. Lee, quarterback Don Wood, fullback David Crockett, and right halfback Jimmy Watson.

## Area Grid Action To Begin Tonight

It's 1959 kickoff time for 13 area football teams tonight, as class A, B, AA and six-man schools open their season with seven games. An eighth game, Dimmitt at Perryton, will be played Saturday.

Tonight's contests may well be among the most important opening games ever played in the area. Two of them match defending district champions against each other, and two others pit defending champs against this year's favorites. A fifth contest matches two strong district contenders, and a sixth is a Homecoming game.

The remaining pair of games should be breathers for two powerful teams, against two fair-to-middling squads.

In tonight's headliner, Region One Class B champion Groom will test the strength of the defending state class A champion White Deer Bucks. Groom has a heavier and more experienced line, but White Deer's backfield is faster.

Groom has many of last year's starters back, and a total of 15 lettermen. White Deer has only two starters returning, but is considered as strong at many positions as last year's state championship team.

In another top contest tonight, defending 1-A champion Gruver is at Panhandle. Gruver lost some of its top boys by graduation, but Panhandle, which finished fifth in 2-A last year, has its best team in years, with six returning starters and three of last year's all-district players. The Panthers are rated, along with White Deer and Canadian, as top threats in 2-A this season.

Saturday, two district champions collide when Perryton of 5-AA plays host to Dimmitt of 1-AA. Both teams are again rated, an excellent chance of keeping their district titles. Dimmitt has a few more returning starters than the Rangers.

Tonight in McLean, two teams picked for the cellar in their districts clash in McLean's Homecoming game. The McLean Tigers, tied for second last year in 2-A, lost heavily by graduation. The Shamrock Irish have had several losing District 5-AA teams in a row, and, on paper, aren't improved much this year.

Quannah, rated the District 5-AA favorite in many quarters, invades Stamford tonight for a game with the defending state class AA champs Stamford, which has lost

## Graduation Removes McLean Tiger Claws

**EDITOR'S NOTE** — This is the 10th in a series of articles on the pre-season prospects of area football teams. This article deals with the McLean Tigers of District 2-A.

By RED GRIGGS  
Daily News Sports Editor

The McLean Tigers, like the Old Gray Mare, just ain't what they used to be.

At least, that's the opinion of the new head coach, Clifford Bradshaw, and his assistant, Darrell Christian. Bradshaw believes his team will be among the lightest, least experienced, and undermanned teams in the district.

Bradshaw thinks it would take a minor miracle for the Tigers to repeat last year's 7-2-1 season and 4-2 district records. He'll have at least some indication, after tonight, of whether he's right. The Tigers meet the Shamrock Irish in McLean, in a season-opening Homecoming game.

The Tigers have only one "48-minute" starter—returning from last year's squad, 175-pound second team all-district halfback David Crockett. He is being switched to fullback this year.

The only other returnees who saw much action last year were starting defensive end Don Cash, starting offensive center Bob Weaver, and O. K. Lee, who played some at defensive halfback.

The other three returning lettermen are tackle Darrell Gibson, guard Jimmy Smith, and halfback Jimmy Watson. The total of seven lettermen is the lowest number of any school in the district. An eighth letterman, guard Orphus Tate, has been lost for the season with a neck injury.

McLean has probably the second highest team in the district, topping only Lefors in the weight department. Only 11 of the 22 team candidates weigh 150 pounds or more, while Crockett and Weaver are the team's heaviest men at 175.

The total of 22 candidates is the fewest for any district team. "We have no reserve strength whatever," says Bradshaw. "If anyone is injured, we'll be in terrible shape."

Only two of the Tigers are juniors, while seven are sophomores and four are freshmen. Nine are seniors.

"The only real bright spots in the

## Area Grid Action To Begin Tonight

McLean picture are the speed and power of fullback Crockett and the speed of left halfback Watson. Crockett is considered one of the outstanding backs in the district, if not the state, and Watson a 150-pounder, is about as fast as Crockett.

Lee, 135, will probably start at the right halfback position. A sophomore, 145-pound Kenny Williamson and Don Woods, 140-pound freshman, are battling for the quarterback position. "Both are fair passers," says Bradshaw, "but neither is an exceptional runner, and we don't know yet how good a ball handler either boy is."

On the line, Weaver will probably take the center position. Guards will probably be Jerry Smith, 150-pound letterman, and Clyde Windom, 155-pound sophomore. Holding down the tackle slots will be Carey Don Smith, 165-pound squadman, and Gibson, 160-pound letterman. Freshman Tommy Herron, 145 and Cash, 155-pound letterman, will be the ends.

**RADICALLY NEW LOW PROFILE SAFETY TIRES**

**LABOR DAY TIRE SALE!**

**1960 TIRES at 1950 PRICES**

This sensational value includes the newly introduced U.S. ROYAL LOW PROFILE SAFETY-SHAPE TIRES.

**SIX WAYS BETTER**

- Saves you up to \$9.20 per tire
- Mileage... 25% to 35% more
- Gas Economy... 6 to 12 extra miles per tankful on turnpikes
- 20% More Stability... on turns and curves
- High-Speed Endurance... 3 times safer by test
- Skid and Traction... improved 5% to 10%

**HEAT HATES TIRES!**  
WEARS THEM OUT, BURNS THEM OUT, BLOWS THEM OUT

**HOT** **COOL**

Conventional tires have the long sidewall. As car weight presses down, sidewall flexes more than 700 times per minute on turnpikes. Heat reaches above the deadly 240-degree danger point.

Safety Shape tires have the lower, shorter sidewall. Flex is not so great. Tire works less. Runs cooler... cooler... cooler. Note also lower center of gravity. This gives more stability. Tire never reaches 240-degree danger point.

**TYREX** 2 for \$31.90  
The U.S. ROYAL SAFE-WAY Tyrex, safety-shaped to run cooler, tread design that gives faster stopping action, greater resistance against side skids plus the economy of greater mileage. Get a set of 4 at this price.  
Plus Tax and Treadable Tires  
\*Tyrex is a certification mark of Tyrex, Inc., for viscose yarn and cord.

Creed For Living

I believe that I was created to be productive. That I want to be happy I know that a happiness comes from the disciplines and not the dissatisfactions.

Strike Review

Unions customarily employ inflammatory language. It is part of their stock in trade. They deal in hatred and pressure. They don't want a well-reasoned approach to the labor-management relationship.

The Pampa Daily News

YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from the government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

BETTER JOBS

By R. C. BOILES

Teaching, Persuading, Influencing By Example

Undoubtedly the best way to influence, persuade or teach others is by example. The parent can develop his children to be responsible, trustworthy, thrifty, energetic, thoughtful, kind, brotherly, humble and to believe in voluntarism by example much better than he can by any other method.

The same thing applies to schools. They can develop their pupils into believing it is better to get what one gets on a voluntary basis rather than an involuntary basis by example much better than they can by force.

The same thing applies to a nation. It can promote peace and goodwill and prosperity throughout the world much better by example than it can be the sword or by politics or by trickery or by deception or by trying to have the nation have rights that the people of other nations do not have.

If the United States wants to promote the free and natural division of labor throughout the world and thus increase the standard of living of our own people and the people of all the world, the best way for them to do it is by example.

Businessmen can be successful by teaching their employes by example the importance of dependability, not wasting their time, by thrift, integrity, goodwill for the employes, the customers and the suppliers, and by every rational means of eliminating waste and trying to give each and every one of his employes an equal opportunity to develop his faculties to as near 100 per cent as possible and an equal opportunity to become unequal.

Everyone who does the best he can in the hardest job he can do is a success in life no matter how easy his work is, provided he is doing the hardest job he can do. He is as worthy of as much respect as the genius in accumulating wealth or gaining understanding or getting other people to understand God's or Nature's laws.

The Chambers of Commerce and the Manufacturers Association can teach by example by not requesting the government to pass laws that give them any special privilege, that makes all people unequal before the law.

The bankers could teach by example by not asking the government to permit them to issue fiduciary media and have the government attempt to regulate them. In other words, the bankers could teach by example by carrying out the trust placed in them by their depositors and stockholders.

Example Helps Both Parties And the parent who sets for his children the proper example of integrity, dependability, thrift, liberty, by respecting creative energy, goodwill and obeying the Last Table, is not only helping his children develop these, but he is helping himself develop these admirable qualities. The good example also helps the employers in the steel industry. These men and women provide the brains, the energy, the skills and the judgment necessary to produce and market steel. The payrolls for these 607,000 people for the first six months of this year came to a total of \$2,251,000,000. And that is more than eight times the amount of money received by the stockholders, who have made all of the jobs possible.

Labor bosses are claiming that dividends to stockholders increased enormously this year over last. It is true that there was an increase. In the first six months of this year something like \$7 million more in dividends was distributed than was handed out in the first six months of last year.

However, in the same period of time, wage earners got \$603 million more this year than last. And that rather reveals that the workers in the steel industry got 86 times more of a return on the increase in business than the owners of the business.

Just on the chance that you might imagine that the big pay-off went into the pay envelopes of the managers, here's something to think about. More than 75 percent of the total payroll went to 491,000 hourly paid workers, whose average weekly earnings have risen steadily, in every quarterly period, since the beginning of 1958. In the 18 months since January, 1958, steelworkers' earnings jumped from \$105.64 a week to \$135.02. This is a gain of \$29.38 per week. And it was obtained by the workers without a strike!

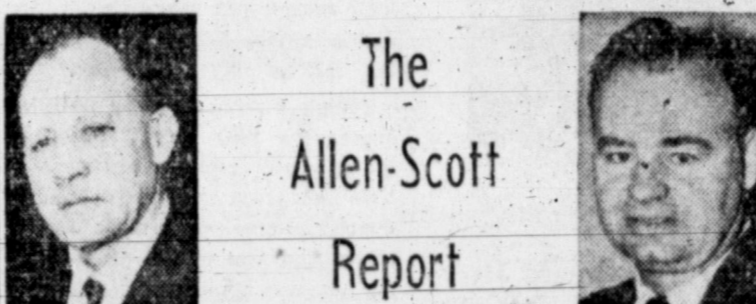

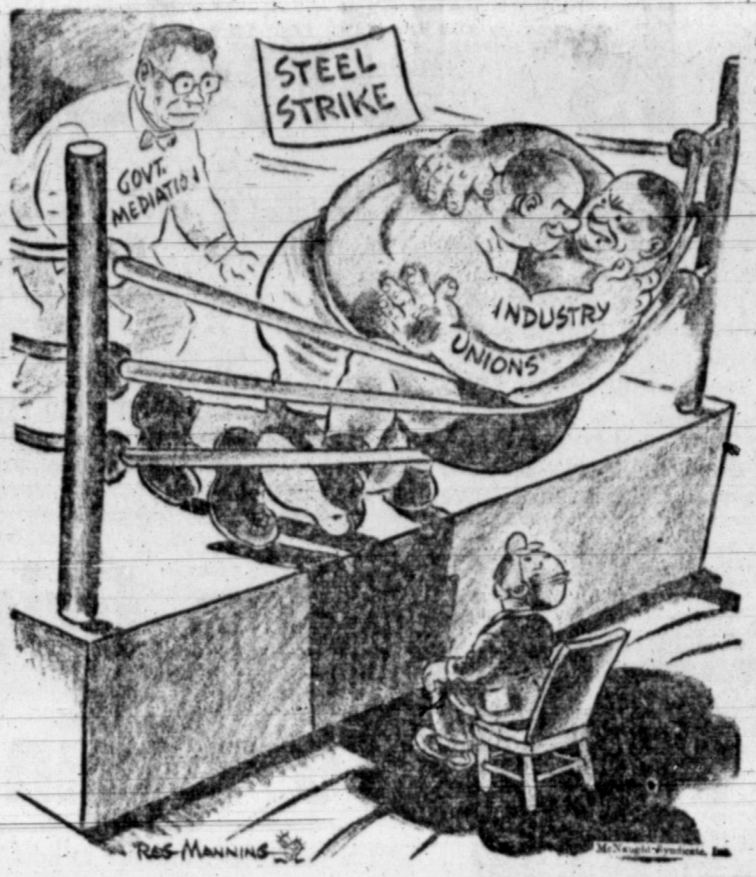

Again, the labor bosses insist that profits of the steel companies were enormous. Actually, the steel companies sold about \$24 billion worth of steel during the first half of this year. And after covering payrolls, taxes and other costs of production, the companies showed a profit of \$738 million. This is less than 3 1/2 cents on each dollar of sales.

But was this profit all returned to the owners of the steel industry? It was not. Roughly one-third of the "profit" had to be used immediately to cover the inflated cost of replacing worn-out tools and facilities. Another third of the "profit" went to enlarge or improve present plant facilities so that more jobs might be made available in the future. The remaining one-third was handed to the owners as their dividend.

It takes neither strikes nor other kinds of violence to demonstrate that the wage earners in steel are getting huge wages and are getting the lion's share of the proceeds from the entire industry. In view of the facts there is no call for any increase in steel wages at the present time. Any increase will be reflected in a corresponding rise in prices of all products that employ steel—in all companies which are related in any way to products which use steel.

We certainly hope the steel companies can hold the line.

Someone Could Get Hurt

The Allen-Scott Report

ROBERT S. ALLEN PAUL SCOTT

U.S. MAY OFFER NUCLEAR TRADE TO FRANCE - SUB FOR BOMBS

WASHINGTON - France now plans to explode its first nuclear weapon some time between September 5 and 20.

There are to be three such tests in the Sahara Desert in southwestern Algeria.

That's what President De Gaulle will tell President Eisenhower when they confer in Paris next week. Advance word of this was received by the Allen-Scott Report.

He may try to dissuade De Gaulle from hiding these nuclear tests. Such a plan was discussed with leaders of the Joint Congressional Atomic Committee before the President flew to Europe.

Under that proposal, the U.S. would provide France with technological aid and equipment to construct an atomic powered submarine in exchange for France's canceling its scheduled nuclear weapons tests.

The U.S. now can offer such assistance under the 1958 Atomic Act.

This expanded authority is being used to enable Britain to build its first nuclear submarine - the DREADNOUGHT. In addition to technical assistance, the U.S. is also supplying the atomic propulsion plant.

The French have indicated a strong desire for a nuclear submarine. They have discussed that with U.S. authorities at NATO and in the Pentagon. In these talks the French have stressed a factor not generally known - that France is a leading producer of uranium (U-238), the basic ingredients for both the military and peaceful use of the atom.

France has two large U-238 plants that produce 550 tons of this vital element annually, approximately half of the European output. This French total is to be increased to 1,000 tons by 1961, and 3,000 tons by 1970.

The French are inviting no foreigners to the forthcoming Sahara tests.

The three weapons slated to be exploded are comparable to the Senator's atomic bomb. An intelligence report describes them as "crude nuclear weapons of a type and size with little practical value beyond experimental purposes."

Despite that, officials in Washington and London are privately making no secret of their concern over the possibility of France's becoming a member of the "atomic club" - the U.S., Britain and Russia. They view such a development as virtually certain to still further delay and complicate the already protracted East-West negotiations in Geneva to control nuclear weapons testing.

### News In Brief

**EAST GERMANS FLEE**  
ESSEN, Germany (UPI)—About two-million East Germans have fled to West Germany since 1950, the Institute for Economic Research reported today. This was more than 11 per cent of East Germany's population, the report said.

**NASSER MEETS SAUD**  
CAIRO (UPI)—United Arab Republic President Gamal Abdel Nasser and visiting King Saud of Saudi Arabia conferred for one hour and 45 minutes in their second round of private talks here Wednesday. Details of the meeting were kept secret.

**CUT SHORT STRIKE**  
COLOMBO, Ceylon (UPI)—Postal workers cut short a strike here Wednesday night after Premier S.W.R.D. Bandaranaike threatened to call out the army to take over their jobs. The walkout delayed mail and telegraph services.

**CLAIMS JAM RECORD**  
GRAND HAVEN, Mich. (UPI)—A 19-year-old Colgate University student from Grand Rapids today claimed a new "world's class B car" jamming record after queuing 20 persons, including himself into his 1954 auto. Frank Hens drove for a half a mile around the parking area at the Grand Haven State Park with his load of human sardines.

**SACRIFICE TRIAL**  
BOMBAY, India (UPI)—A childless couple has gone on trial in northern Bombay state for murdering a 3-year-old girl as a human sacrifice to the Hindu deity Amba, goddess of fertility. The reports reaching here said today. The medicine man who advised the murder also was being tried.

**BAR POLITICS TO STUDENTS**  
BEIRUT, Lebanon (UPI)—Iraqi teachers and students were told today to keep out of politics. A proclamation calling on teaching

### Jacoby On Bridge

By OSWALD JACOBY  
Written for NEA Service

North's two heart bid was the Jacoby transfer and South dutifully rebid to two spades. North's second bid of two no-trump gave South four choices. He could pass with a minimum or near minimum no-trump and poor spades, he could bid three spades with a minimum and good spades, he could bid four spades or three no-trump with a good no-trump.

### Woman Sportscar Writer Not 'Career Girl' Type

By MARY PRIME  
United Press International

NEW YORK (UPI)—Diana Bartley is one of two women sportscar writers in the United States, but she refuses to be typed as a "career girl."

"I have a strong feeling of not wanting to become anything like the prototype of a 'career girl' or 'successful businesswoman.' I haven't the gaiety or the energy, and I am frightened of most successful career women," Miss Bartley said in an interview.

"I'm garrulous and intense; but I'm not a very ambitious woman," she added. "I look forward to being married one of these days."

LIGHT FANTASTIC—This overburdened young lady is really having a much easier time of it than it looks. She's Joan Gunderson, on the way to a New York television stage set with fire hydrant and radiator dummies that weigh next to nothing. Made of a lightweight vinyl plastic, they're samples of a new line of stage props. The plastic can be made to resemble anything from a stone wall to a kitchen cabinet.

**SEARCH FOR TRUCK**  
BROWNSVILLE, Tex. (UPI)—Police were looking for a pickup truck with a broken headlight Thursday in hit-and-run death of Earl Morris, 85, of Brownsville. Witnesses said they saw a pickup truck on the lightly traveled road near Brownsville shortly before Morris' body was found.

**PROMINENT DOCTOR DIES**  
SAN ANTONIO (UPI)—Dr. John W. Goode, 73, a prominent San Antonio physician, died at his home Thursday. He was one of the founders of the old Medical and Surgical Hospital at San Antonio.

**SIAMESE TWINS BORN**  
DALLAS (UPI)—Mrs. Statuel Harris, 40, a bus driver's wife, Thursday gave birth to Siamese twin girls at Methodist Hospital, but both were born dead. Hospital au-
