

India Military Heads Quit, Throwing Government Into Turmoil; Nehru Scheduled To Make Statement In Parliament

\$1.3 Million Program Proposed

Budget Hearing Is Held

By MARVIN OLSEN
Daily News Staff Writer

The Pampa City Commission from City Hall was packed to overflowing this morning for a public hearing on the city's proposed \$1,322,179 budget for 1959-60.

A discussion that began at 10 a. m. indicated that citizens were generally in agreement with budget proposals.

Mayor Ed Myatt's much-advocated

used proposal to hike the city's tax rate 10 cents met with little or no resistance.

At present-time today the Commission, discussing among themselves the budget figures, still had not approved an ordinance to raise the city's tax rate from \$1.42 to \$1.52, but it appeared that such a move would be passed.

The hearing, conducted by Mayor Myatt, brought forth the following statements from those in at-

endance:

Former Mayor Lynn Boyd — "It appears that the city is growing too fast, and it's costing us too much money."

Reno Simpson — "The increase in the tax rate seems desirable to me if the increase will be used to pay off city debts."

Mayor Ed Myatt — "Progress costs money. I think a 10-cent raise in city taxes is desirable. We need it badly to pay off the bonds ap-

proved the past few years."

Warren Haase "Speaking on behalf of the Chamber of Commerce, I want to say we have the utmost confidence in the mayor and this commission. We know it's actions will be for the good of the city."

The 1959-60 budget, as prepared by City Manager John Koonitz, shows that the biggest expenditure will be in the water and sewer department.

Nehru Scheduled To Make Statement In Parliament

By B. K. TIWARI
United Press International

NEW DELHI, India (UPI)—Defense Minister V. K. Krishna Menon and the heads of India's army, navy and air force resigned today.

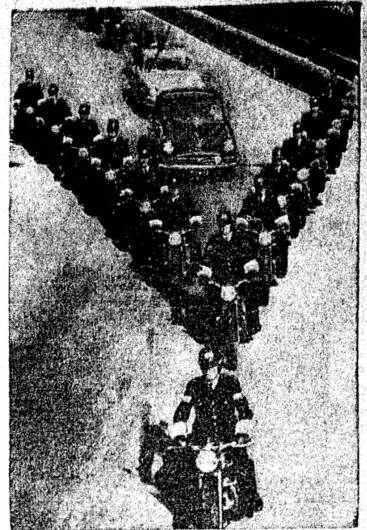

The internal dissension in the nation's armed forces erupted as fresh reports came in that Communist Chinese troops were massing along India's northern frontiers.

The resignations caused grave concern throughout the country, and threw the government and Parliament into turmoil.

The service chiefs quit because they said Krishna Menon was playing politics with the armed forces. Krishna Menon offered in turn to quit himself.

Prime Minister Jawaharlal Nehru has not yet accepted the resignations. But he is due to make a statement in Parliament Wednesday when he is expected to announce his decision.

It was reported that a fresh wave of Red Chinese troops backed up by mule-packed heavy weapons was advancing toward northeastern India.

IKE'S BRITISH ESCORT

During his important stay in London, President Eisenhower is being escorted around town by this special British motorcycle brigade. The formation that precedes the President appears similar to the old "Flying wedge" football formation. It was left clear today that Ike and England's Prime Minister Harold Macmillan still do not agree completely on summit policy.

IKE, BRITISH HEAD NOT IN AGREEMENT

By MERRIDIAN SMITH
UPI White House Reporter

LONDON (UPI)—President Eisenhower and Prime Minister Harold Macmillan left it clear today that they still do not agree completely on a summit policy.

Although nothing they said in the first radio-televised chat Monday indicated any serious friction, it was quite clear that Eisenhower's prior for formal summit negotiations with Soviet Premier Nikita S. Khrushchev was higher than Macmillan's.

After winding up two days of cold war talks with the prime minister the President this morning took time out from his European peace crusade to deal with White House business that has piled up.

He scheduled no more major political talks until he goes to Paris Wednesday to meet with French President Charles de Gaulle and Italian leaders.

Mr. de Gaulle, Mr. de Gaulle, Mr. de Gaulle.

This afternoon he left free for a small tea party for the Indian high commissioner in London, Mrs. Vijaya Lakshmi Pandit, sister of Premier Jawaharlal Nehru, and several other women.

Eisenhower invited a number of other world leaders to dine with him this evening.

Macmillan and Eisenhower have had a long talk in Paris, their freest chat, unique in history.

His impact coming at the end of a week of summiting, however, was tremendous. The British press was unanimous in its praise.

Eisenhower declared he was willing to go to Moscow or the summit or do anything else for peace provided there were prospects of success and provided Khrushchev during his coming week was demanding.

Says Peace Is Imperative

"Peace is imperative," he declared. "If we are to have a summit, Mr. Khrushchev must understand that as you and I do."

Macmillan made it clear he was willing to have a summit.

I have never concealed to you that I have always wanted a summit meeting and with your initiative we may get it under the best conditions," he said.

He was referring to the President's invitation to Khrushchev.

Toward the end of the chat, Eisenhower again stressed his point. "I will not be a party to a meeting that is going to depress or discourage people. Therefore, we must have some promise of fruitful results and with the single exception there is nothing they cannot ask me to do."

Must Maintain NATO

Other highlights of the chat were:

—Agreement between them that Anglo-American relations never were better.

—Agreement that despite inevitable difficulties NATO must be maintained.

—A joint declaration in favor of increased East-West cultural contacts.

—A joint pledge to maintain the principles of peace and justice in international relations.

Everyone agreed that the President's European mission so far, in Moscow's Katowice Mountains, coming to Britain — has been a stunning success.

The latest show of enthusiasm was a crowd of nearly 5,000 that jammed narrow Downing Street Monday night to cheer Eisenhower and Macmillan when they emerged from dinner.

President To Talk Turkey With Nikita

By STEWART HENSLEY
United Press International

WASHINGTON (UPI)—President Eisenhower and Soviet Premier Nikita Khrushchev will go into session at Camp David for two days of informal talks at the end of the Russian leader's U.S. tour.

This was disclosed today by diplomatic sources who said Eisenhower plans to take Khrushchev to the isolated and tightly guarded presidential retreat in Maryland's Catoctin Mountains Sept. 25. Eisenhower will remain there with him until about midday Sept. 27.

Their behind a light security ring of U.S. Marines, Secret Service officers and State Department police, the leaders of the world's two most powerful nations will try to find grounds for easing the tensions gripping the divided globe.

The Camp David sessions will take up almost all of the three days allotted for Khrushchev's visit to the United States just before he leaves the country. The personal aspects will be taken care of when he arrives for the first time in Washington on Sept. 15 and goes through a round of formal functions on Sept. 16.

Between his two visits to Washington, Khrushchev, his family and his official party, will visit New York, Los Angeles, San Francisco, Washington and Denver, Iowa, and Pittsburgh.

Eisenhower selected Camp David as the site for his hard-boiled talks with the tough Soviet leader in order to give him an opportunity to assess the real intentions of Khrushchev entirely removed from the intrusions and pressures of protocol and press.

Texans Begin To Dig Deeper For Tax Dough

By RICK PEZDIRTZ
Daily News Managing Editor

Today is September 1, and it doesn't really require any calendar scanning to prove it. The new pinch on your purse or pocketbook brought about by the new Texas Sales Tax may have already accomplished the task.

Beginning today, Pampa citizens along with other Texans began digging deeper into their pockets as a result of the state's recently approved new tax bill.

The new measure, passed this summer by the 56th Legislature calls for an estimated \$185 million in state revenue for 1960-61.

Here's the grim box score on just how much of that new income will come out of your family budget:

Chinese Boy Goes Back Into Hiding

By JERRY CHIAPPETTA
United Press International

ANN ARBOR, Mich. (UPI)—A Chinese student who hid for nearly four years in a church because he was flunking college courses went back into hiding today to think things over.

This time, however, 28-year-old Chung Guan Lim of Singapore was in seclusion at a private home near the University of Michigan campus. Lim had wrapped himself in a sort of self-imposed purgatory from Oct. 9, 1955 until he was captured by police investigating one of the many protests at the First Methodist Church Sunday morning.

Lim cried Monday when he was informed that his 17-year-old father had died. His mother was well and planned he enter engineering school, died of cancer last March.

Lim smiled, however, when informed his mother was well and planned he enter engineering school, died of cancer last March.

Lim's sister, said:

"His father was a stern man, a teacher. His brother, Chung Guan Lim, is a professor at Washington Ont. College and both his sisters graduated from colleges."

"He felt he was a failure. He was ashamed, disgraced."

THE POCKET PINCH . . .

H. A. Thompson of 435 N. Ballard could have been only one of many Pampans to feel the new state tax bite today. Thompson, a retired shoe store operator from Omaha, Neb., has lived with his wife and son, Leroy here. Even the wrist watch on Mr. Thompson's arm, if purchased new today, would have had an extra state tax attached.

AT OPEN HEARING School Budget Set at 2 Million

A \$2,082,127 budget for the 1959-60 school year was approved by the Pampa School Board at an open budget hearing Monday night in City Hall. Thirteen citizens attended.

The budget, as submitted by Superintendent K. W. Kinard, was about \$28,000 lower than the 1958-59 budget.

As expected, the board raised the school tax rate from \$1.67 per \$100 to \$1.78 in a measure to begin paying off a \$1.25 million bond issue approved by the voters last December for school construction.

The budget showed that estimated receipts during the 1959-60 school year will be \$2,043,312, which would leave the schools a narrow margin of working capital — estimated at just over \$2,000.

Supt. Kinard also disclosed that the city's school system now has about 270 teachers, or 13 more than a year ago.

During the regular order of business at the board meeting which followed the budget hearing, appointments were made by assessment on maintenance. That would give the schools an added \$35,000 in "working capital."

There appeared to be no opposition to the proposed budget from the spectators who sat through the one-hour hearing.

Some discussion, however, was raised over the facilities for colored students at Carver. Kinard assured the board and spectators that the school has adequate facilities and that certain curriculum programs are being remedied.

It was also revealed that the board is negotiating for the purchase of 11 acres of community hotel property for the future erection of another elementary school.

Supt. Kinard also disclosed that the city's school system now has about 270 teachers, or 13 more than a year ago.

During the regular order of business at the board meeting which followed the budget hearing, appointments were made by

Walkout Slows Construction At Canaveral

United Press International

A walkout by operating engineers tied up construction projects at the Cape Canaveral missile test center today and the flight engineers threatened a strike tonight against Pan American World Airways. But American strikes in the rubber, glass and meat packing industries were averted.

Negotiators planned to meet today in an effort to end a strike by members of Local 819 of the AFL-CIO Operating Engineers Union at Cape Canaveral. They set up picket lines at both ends of the strike zone.

A construction company spokesman said the workers were demanding double time pay for overtime work in violation of a government contract. Thousands of workers could be involved, he said, because other craft unions refused to cross the engineers' picket lines.

Arrange Truce

A 24-hour truce was arranged Monday night in a bid to avert a threatened by the Flight Engineers Union against Pan American World Airways. The union said it would walk out if the airline began training so-called "third pilots" to jet planes.

Pan American, a union spokesman said, had agreed not to begin the training program until tonight to enable negotiators to try and work out an agreement.

Another transportation strike this one in the railway industry, was threatened for November by the Railway Labor Executives' Assn.

Seek Wage Increase

The association, comprised of 11 non-operating railway unions, demanded an end to a three-year wage freeze and said it would seek a 25-cent hourly wage increase plus improved fringe benefits.

In the drawn-out national steel strike, negotiations were in recess until Wednesday. AFL-CIO President George Meany called on all unions to make Labor Day next Monday a "support the steelworkers" day.

An agreement late Monday appeared to have headed off a scheduled strike in the meat packing industry.

C-C BALLOT TO BE SENT

United Press International

The primary ballot in the election of a five-man Chamber of Commerce advisory board will be mailed to voters today.

Ten candidates will be nominated from the Chamber roster next week to appear on the ballot.

Members will name five men on this official ballot, according to Chamber Manager E. D. Wedgworth.

New officers — a president, vice president and finance chairman — will be elected by directors after Oct. 1.

The Chamber board is made up of five advisory board members and 15 members of the Board of City Development. Advisory board candidates must be approved by the City Commission.

New officers and directors will be installed Oct. 1. The board will assume its banquet will be held Oct. 2.

OKES CLIMB OFF THE WAGON TODAY

By CARTER BRADLEY
United Press International

OKLAHOMA CITY (UPI)—Oklahoma abolished prohibition today with crowds of spectators and a steady stream of buyers on hand as retail package stores opened for the first time at 10 a. m. cat.

State officials said the historic moment came and went without a hitch. Gov. Howard Edmondson, the man most responsible for the end of the 22-year ban on liquor sales, had refused to participate in any observance of the event. Edmondson urged voters to exercise temperance.

A few additional purchases being made.

Some Oklahomans, who have patronized bootleggers all their lives, were planning to buy a special souvenir bottle today — their first legal purchase. But their souvenirs will be ordinary bottles.

The Alcohol Beverage Control Board had ruled out special bottles to mark the event.

Dry's Prayed

Many days marked the new era with special prayers. A survey indicated, however, only a few persons turned out for the morning church sessions organized by the

For Something Different Try Watermelon Lemonade

By GAYNOR MALFON
NEA Food and Markets Editor
Pink lemonade for the Labor Day reveler? Yes — but watermelon is the great outdoor dessert and turns up at almost every cookout. We eat more than 3 billion pounds of watermelon every year.

FRESH WATERMELON LEMONADE
(Yield 2½ quarts)
Combine 1½ cups sugar, 2 cups water and ¼ cup fresh lemon juice in a saucepan. Mix well to dissolve sugar. Cook until boiling point is reached. Remove from heat and cool. Add 3 cups water, 3 cups watermelon juice and 1½ cups fresh lemon juice. Cool and serve over ice cubes. Garnish with fresh mint leaves if desired.

To make watermelon juice put diced watermelon through a sieve.

DEAR ABBY....

By Abigail Van Buren

DEAR ABBY: Last year I had a serious operation. Last week my doctor told me I needed another operation. When I told my husband, he hit the ceiling. He's been mad ever since.

He says there is always something wrong with me. Lord knows I don't like the idea of getting cut up every year. But what can I do? My husband says it is a lot of expense for nothing.

Should I just forget the operation? My husband keeps telling me I should have married a doctor.

UNDECIDED
DEAR UNDECIDED: Does your husband think that if you married a doctor you could be SICK for nothing? (And if you married a minister, could you be GOOD for nothing?)

If your husband doubts the doctor's diagnosis, he should get the opinion of another doctor. Leave the medical decisions to the qualified medical experts.

RUTH MILLETT

Several couples were hashing over a recent party. "Did you notice that the men spent the whole evening in one circle and the women in another?" asked one of the wives.

"Sure," answered her husband. "And I'll bet my bottom dollar I can tell you what the women spent the whole evening talking about."

"First they talked about their children until they completely exhausted that subject. Then they talked about what they were doing to their houses. And they traded the latest gossip. And finally they got around to fashions."

"Why wouldn't the men get off by themselves to talk politics and sports and business and tell a few stories? Let's face it, when married couples get together the women take over the conversation completely and talk about what interests them."

"The men are shut out of the conversation completely. So naturally they wander off together to talk about the things that interest them."

That husband has a point all right. Unmarried women are good listeners whenever there's a man around. They keep a man talking by their wide-eyed attention, by their charming deference to his opinions and ideas, by their willingness to be impressed.

But married women have the bad habit of taking over the conversation when they are in a mixed group. They chatter away to each other, completely ignoring the men — and then wonder why the men quickly fade away and form a little group of their own.

Next time the men are cornered at a party — before they have time to drift away — why not try introducing a few topics that interest them and giving them a chance to have their say?

If you do, you may be surprised how the men brighten up and take part in the conversation. All they really need is a chance.

A new early fall fragrance cued to the color of blue fox sprays on from light-weight plastic container. It's an exotic scent that's ideal for wear with furs.

Exotic Scent Will Accent Fall Furs

By ALICIA HART
NEA Beauty Editor

You'll see more fur fashions this fall and winter than you've seen in many years. And not only fur fashions; fur trim of every kind.

Knowing this, one perfume house has brought out a cologne mist keyed to furs. This doesn't mean that you should ever spray furs with perfume of any kind. But it does mean that the girl who's draped in furs shouldn't go around wearing a light, flowery scent.

Furs get along best with an exotic scent, one which has a base of Oriental spices and amber. This gives it both depth and richness with one luring top note added.

This new cologne mist is designed to last for hours. But the lightweight plastic container in which it comes can tuck neatly into your handbag so that you can renew the scent whenever it fades.

If you haven't used up your summer perfumes by the end of the season, seal them securely with wax dripped from a candle and store them in a dark place. They should stay fresh until you need them again.

Lefors Women Host Fish Fry

LEFORS (Sp) — Meses. Walter Hughes, Daniel Rose, Alton Flinchum, and Charles Roberts were hostesses to a fish fry dinner in the civic center recently.

The fish were caught while the couples were on vacation at Lake Kemp.

Served with the fish were chicken, rabbit, and pie, with coffee and tea.

Entertainment following the dinner consisted of group singing.

Present were Meses. and Meses. D. C. Lawrence of Dimmitt, O. R. Henry and Roy Nobles of Pampa, Henry Koehler, Charlie Tutor, Bob Fish of Pampa, Charles Roberts, Daniel Rose, Alton Flinchum, and Walter Hughes.

Any woman whose legs aren't tanned should wear stockings for street wear. So should all older women.

House Judiciary Committee Plans To Tighten Up Belts

The Lighter Side
 By FRANK ELIAZER
 United Press International

WASHINGTON (UPI) — The House Judiciary Committee has decided that 90 weeks are enough for an average year and is forth-rightly refusing to add any more.

The committee also had counted at least 31 months on the 1959 calendar and says we'll have to tighten our belts and try to get by with the same number next year.

As for days, whoever said there are never enough of these just hadn't counted. Neither has the Judiciary Committee. It would take too long. But the committee adamantly refused to add to the number.

This means we won't be able to celebrate grandmother's day, as proposed in a bill by Rep. Iris Blitch (D-Ga.). Children's day, sponsored by several lawmakers, also seems to be out. Rep. George Mender (R-Mich.) figured we ought to observe family days, but now I guess we can't. The committee didn't approve any of these bills.

Table Allergy Bill
 We can continue to rejoice, of course, on mother's, father's, mother-in-law, old maid's, and old lady days. According to Chases' calendar of special days, weeks and months, all of these already are scheduled.

Rep. John E. Fogarty (D-R.I.) thought we might spend the cur-rent 30-day period, from Aug. 15 to Sept. 15, sneezing and ponder-ing. However, the committee ruled however we'd be better off trying to think about pleasanter matters. It tabled Fogarty's bill to give of-ficial sanction to what is already called allergy month.

According to Chases' calendar,

we stand committed to memorial-ize assorted events in the history of Argentina, Bermuda, Bolivia, Brazil, Chile, and so forth up to and including Venezuela. Generally a day's jubilation is consid-ered enough in each case.

So Rep. Steven E. Derounian (R-N.Y.) figured we ought to de-vote a week, anyway, to extolling the United States. But judiciary turned down his bill. According to Chases', we can use the period he had in mind, starting each Oct. 19, to signalize national fish and seafood week instead.

Table Van Zandt Motion
 The judiciary folks let it be known privately they have notic-ably but the highest regard for the borough of Osceola Mills, Pa. Bill Osceola's millers will have to whoop it up at their centennial party next month without a single official kind word from Con-gress.

Rep. James E. Van Zandt (R-Pa.), their congressman, did his best with House concurrent reso-lution 351. Had it not been irre-vocably tabled, the resolution would have thanked Osceola's Mills for "splendid service" to the nation for the past 100 years.

The committee also has tabled bills that would have enabled us to exult together each year dur-ing national aircraft dispatchers' week, oil industry centennial day, national farm-city week, and pres-ident's day.

It laid to rest also a measure under which we could have made merry all year. Under this propo-sal, we would have been ex-pected to devote 1960 to appropri-ate ceremonies and activities in honor of the late Pony Ex-press.

Includes Sweater Week
 The committee let it be known that none of the bills it did not

RUSSIA TIGHTENING GRIP ON AFGHANISTAN

By STEWART HENSLEY
 United Press International

WASHINGTON (UPI) — While Chinese Communists probe the Himalayan defenses of India, a few hundred miles to the west, Russia is tightening its strangle-hold on the strategic kingdom of Afghanistan.

This was reported Saturday by American officials who said the Soviet Union now has virtual control of Afghanistan's 50,000-man army and small jet air force and also is moving rapidly toward complete domination of the country's economy.

State Department officials cited Afghanistan as a dramatic, little publicized example of one of Com-munism's greatest successes in all of its probing operations along the Red periphery from Turkey to Laos. The land-locked king-dom, lying athwart the historic invasion route to India and South-east Asia, is getting the all-out Soviet political and economic treatment in a big way, they added.

Officials Alarmed
 American officials versed in po-litical and economic warfare are studying what they consider an alarming new intelligence sum-mary which discloses, among oth-er things, that:

—Almost 50 per cent of Afghan-istan's foreign trade now is with Russia under long-term barter deals, compared with 10 per cent in 1950 and about 15 per cent in 1955.

—The Afghan army, armed with 70 million dollars worth of Rus-sian military equipment, is being trained by Soviet officers, some of them generals.

—The Russians have provided Afghanistan with a jet air force consisting of 60 fighters and 12 bombers. Russian pilots are fly-ing the bombers.

—Soviet engineers and construc-tion workers are proceeding on a "crash" basis with the building of a paved highway from the Afghan-Russian border which slashes 475 miles southeastward across the country almost to the Pakistan bor-der.

This 80-million-dollar project, on which work was begun within 10 days after it was announced last May, is an outright gift to Afghan-istan.

It marked the first time the Kremlin had donated a major project to any country instead of placing it on a loan basis.

Pakistan Next
 In the view of American and British officials, it emphasizes the importance Russia places on Af-ghanistan and Pakistan as the logical route for her drive toward economic and political dominance in Southeast Asia and Africa.

Soviet economic aid to Afghan-istan during the past four years, two-thirds of it in loans, is esti-mated at about 240 million dol-lars. In addition, military aid is estimated at about 70 million dol-lars.

Hayworth Has Dramatic Role In Wald Production

EDITORS NOTE
(Verlon Scott is on vacation. Glamour girl Rita Hayworth fills in with news that she has shed her sexy roles in movies for a stark dramatic role—her first.)

By RITA HAYWORTH
Written for UPI

HOLLYWOOD (UPI)—So now I am an accused murderer... and I like it!

Don't get me wrong. I haven't anyone else's for that matter. I am referring to my role in "The Story on Page One." In this Jerry Wald production of Clifford Odet's story for 20th Century-Fox.

In fact, I had just about had it as a glamor puss when Jerry Wald, bias his fat heart, came along and offered me the role of Jo Morris, alleged murderer.

Story Written Realistically
Here is a part that any actress worthy of the name would willingly commit murder to win.

To start with, Clifford Odet writes with such realism that he strips anything phony from his characters, or the players who enact them.

This Jo Morris is an ordinary housewife. She's human and real. Her husband is a first class heel. A cop without a conscience, and a child beater to boot.

She is a sensitive woman who falls in love with another man. She knows this is wrong and she fights against love which is a temptation to sin. Then comes the occasion when the husband finds the lovers together, he tries to shoot Larry, that's Glig Young in the picture, "in the line of duty."

But Larry struggles with him. The gun goes off and the husband, played by Al Ryder, is killed.

The circumstances surrounding the killing are such that we look guilty without a recommendation to mercy. I am arrested and put on trial. Anthony Franciosa defends me... but I'm not to give the plot away.

Chance of Pace
Throughout the entire picture I do not wear one glamorous gown. It is in black and white. My make-up is down to a minimum. I'm certainly no glamor gal in "The Story on Page One."

As Jerry pointed out when we first discussed the picture, it is the shock and change of pace that makes an actress interesting to the public. People are probably as tired of seeing me in glamor roles as I am of playing them.

He reminded me of how he made Jane Wyman change from a saucy sexpot to the drab mite in "Johnny Belinda," and of how he made Joan Crawford go dramatic in "Mildred Pierce," how he took a lot of the glamor out of Lana Turner in "Peyton Place," and in every case the actress concerned gained greatly in stature by this abrupt change of face.

Not that Mr. Wald had to woo me to play Jo Morris, housewife, accused-of-murder. I have been

NEW YORK (UPI)—The 48-day steel strike was expected Monday to spread to the metal fabricating industry. Some 5,000 to 6,000 United Steel Workers will go out on strike at midnight Monday night unless the union can reach an agreement on stalled contract negotiations with the industry.

Companies include Youngstown Steel Door, Pennsylvania Glass Sand, Ryde Steel Co. and General Fireproofing Co.

Federal mediators have stepped in to avert a strike against two big meat packinghouses, Swift and Wilson, set for midnight. The mediation was requested by representatives of the two packing house unions.

Nixon Warns U.S. Against False Hopes

LOS ANGELES (UPI)—Vice President Richard M. Nixon, Monday night warned the nation not to expect a new era of sweetness and light to result from President Eisenhower's exchange of visits with Soviet Premier Nikita Khrushchev.

"He will have his guard-up in the conversations with Khrushchev," said Nixon. "They can't talk one way in one part of the world and have the Communist forces act another way (as in India) in another part of the world."

"It is a warning to us that you can't count too highly on this being a new era of sweetness and light, the Communists are still on their aggressive course."

Nixon made his remarks at a press conference on his arrival here to address the 60th national convention of the Veterans of Foreign Wars. He said he believed Eisenhower's tremendous reception during his current European tour would give him a psychological edge when he meets with Khrushchev.

"The President's tour has exceeded expectations. It indicates so far that his prestige and the prestige of the U.S. is higher than at any time since the war. It has demonstrated the unity and will of the free nations."

National Commander John W. Mahan, Helena, Mont., said one

of the proposals to be made at the convention was the formation of a new American "Indian Ocean fleet" by taking some ships out of moth balls.

"There is a tremendous power vacuum in India and Southeast Asia," Mahan said. "It is obvious by recent events that the Communist world now intends to start agitating in this area."

He urged the U.S. "immediately make up a fleet to be known as the Indian Ocean fleet, from ships presently in moth balls."

Some 25,000 delegates were here for the five-day convention which officially opened today in joint session with the ladies auxiliary.

George Mesny, AFL-CIO president, and James Douglas, Air Force secretary, will receive special awards tonight at the distinguished guests banquet.

Why you need collision insurance:

- Your modern car costs more to repair**
Fancy fins and grillwork can turn even a small accident into an expensive repair job. Simply repairing a smashed rear end could easily cost you \$150... more than three yearly average premiums for Allstate collision insurance.
- There may be no "other guy" to foot the bill**
Your parked car may be damaged by a hit-and-run driver... and you'd be stuck with the repair bill. Or perhaps a blowout or a skid could wreck your car, no matter how carefully you drive.

Find out how Allstate can help you protect your investment in your car

Talk to an Allstate Agent. Ask him to show you how Allstate Collision insurance helps you pay for damage to your car caused by collision or upset... and how Allstate's Comprehensive insurance covers practically any other hazard that could damage your car.

Be sure to ask about Allstate's low rates too. Allstate's top-quality protection, low rates, and fast claim service have convinced nearly 4,000,000 car owners that Allstate is their best buy in auto insurance.

Vega, Texas, Man Reports— Profitable Yield on Wheat Using Phillips 66 Ammonia

Dan W. Berger, prominent Oldham County farmer, says: "On 235 acres of wheat, I averaged 43 bushels per acre. This was the first year I'd used ammonia on wheat. After seeing what could be done with that application, I've decided to inject 100 pounds of Phillips Ammonia pre-plant on my wheat this year. I'm thoroughly sold on the use of Ammonia."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... yields of sorghum grain or ensilage are increased... profits on wheat and small grains are increased through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Back Door Spending

We come now to "back-door" federal spending. Beginning sometime in 1933, our then President, Mr. F. D. Roosevelt, initiated a dandy little device. It was to cause the Congress to create an "executive" fund from which, on his own cognizance, the president of the United States could make grants, payments, purchases, and whatnot, without bothering the Congress about it.

Foreign Aid

Back in 1947 when this nation adopted its present enormous program of foreign aid, the caption heading up the program was that the money would be used to rebuild the war-torn European nations as a bulwark against communism.

YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from the government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

SUBSCRIPTION RATES

BETTER JOBS

By R. C. HOLMES Capital Needed Under Any System

This is the last installment of the article by The Rev. Francis E. Mahaffy on the subject "Was Karl Marx Right?" as published in the August "The Freeman" magazine.

"The use of the expression 'income without work' or 'unearned income' is misleading. It is a term used to cast a blot on capitalism but this 'unearned income' is just as essential to a socialistic society as to a capitalistic one.

"But these matters are considered by legislative committees with the special needs in mind, not in consideration of total needs and its ability to meet them. Congress, of course, acts on the recommendations of the legislative committees, but the members generally must rely on the superior knowledge and background of the committees in their special fields.

"It is practically certain that the deficits would have been smaller and the few surpluses larger... (If the back door route had not been permitted).

"The Congress and many of the committees have shown themselves all too diligent in trying to plug up 'tax loopholes' wherein the wealthy taxpayer has managed to keep a modicum of his own income for himself.

"The 'back-door' route is the route to tyranny. If our horde of bureaucrats and our chief executive can get their hands on billions which do not have to be accounted for, then in a very real sense one-man government has come to this United States.

"We are wholly inconsistent. The Russians make no bones about it. They want to create a world climate of opinion in which all persons will be dependent upon their governments. Further, they want all governments to be geared to the Moscow axis.

MOVES TO RESTORE FRIENDSHIP BETWEEN NASSER AND U.S., BRITAIN WASHINGTON — Things are looking up very gratifyingly for President Gamal Nasser.

Through the "friendly offices" of Canada, negotiations are underway to restore diplomatic relations between Britain and the UAR.

RED INVADERS — Intelligence estimates that 12 gattillions, approximately 15,000 troops, have been massed by Communist Vietnam and China on the border of Laos.

MURDER THREAT — A clandestine radio, calling itself the Voice of Iran and claiming to represent Army officers, has been broadcasting demands for the slaying of the Shah.

THE TEXAS BAR ASSOCIATION has sounded a warning against a resolution now pending before Congress, it is known as "S Res. 91" and it was introduced by Leftish Senator Hubert Humphrey.

I was back at the high desk before the robot in the cap. "Young lady," I said, "I probably can't do you any good but if you like, I can stay here and help you suffer."

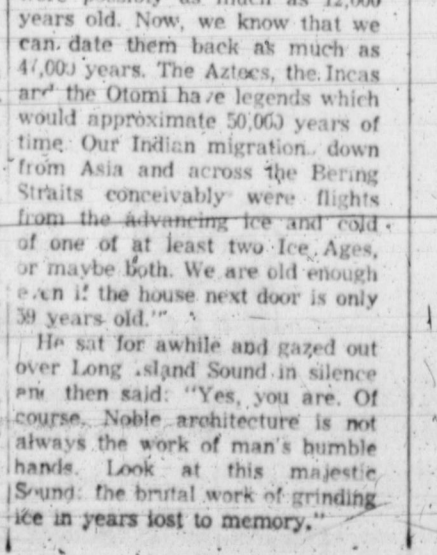

Looking Sideways

NEW YORK — There was a man from another country out at the house the other night and he was vastly interesting, as well as being a cultivated gentleman.

At six a.m., women in heavy overalls were already digging with pick and shovel and laying concrete like the steady dancers of our own western railroads.

KHRUSHCHEV'S CAPTIVES Omaha World-Herald

"Here are your captives," said Mr. Khrushchev as he waved to a group of swimmers. "You can see how happy they are."

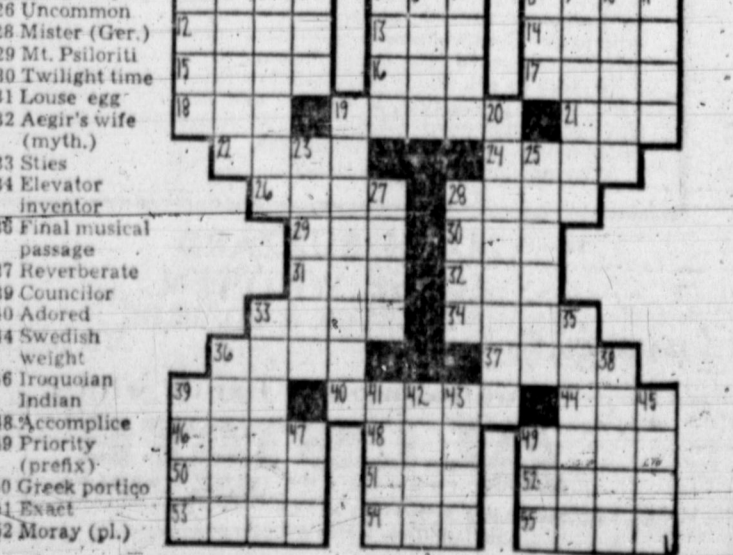

Mr. Khrushchev's propaganda stunt had no real connection with the point of the Congressional resolution which established "Captive Nations Week."

"I wonder," said Mr. Johnson, "if it does not sometimes leave a confused impression among the captive peoples as to whether we mean what we do or whether we mean what we say."
