"Nothing is more desired for truth than a fair unprejudiced hearing."
 — John Locke

The Pampa Daily News

WEATHER
 TOP O' TEXAS — Occasional snow early Sunday becoming partly cloudy late Sunday and Monday.

28 — NO. 188 Circulation Certified by ABC Audit PAMPA, TEXAS, SUNDAY, JANUARY 17, 1960 (56 PAGES TODAY) Weekdays 56 Sundays 156

Cuba Orders Mass Trials Resumed

TOUT HEARTED MEN — Just a lot of men have given something or nothing, but the two stout Pampans above hope to give something or something. Gray County's genial sheriff, Rufe Jordan, in the left photo montage with County Attorney Don Cain, pictured weighing in both Jordan and J. C. Roberts, on the scales in the right picture, have dedicated themselves for a three-week period to the benefit of the New March of Dimes. See story below for details. (Daily News Photo)

145 Accused Of Overthrow Plot

HAVANA (UPI) — Soldiers marched 145 accused "counter revolutionaries" into the theater of the grim La Cabana fortress Saturday for a mass trial on charges of plotting to overthrow Fidel Castro with help from the Dominican Republic.

Hazardous Snow Blanket Covers Pampa

More than three inches of snow that fell here yesterday and last night brought police the usual complaints of children throwing snowballs at cars and "fender bender" accidents.

The snowfall began about noon Saturday and police received reports of four accidents, none serious.

The snow covered an area from Tucumcari, N.M., east to Oklahoma City, and from Dumas south to Wellington.

It began snowing at Tucumcari, Dalhart, Dumas and Guymon, Okla. about noon, and by 3 o'clock the blanket reached as far south as Collingsworth County.

McLean reported a temperature of 30 degrees, with freezing fog and mist as early as 10 a.m. Saturday, but roads were open and dry.

The white blanket measured 3.35 inches in the gauge atop the Daily News building at 8 o'clock last night.

Sgt. E. G. Albers of the Texas Highway Patrol in Pampa advised motorists to travel slowly and carefully and only in extreme emergency. He said all roads in the area are open, but slick and hazardous.

The last snow of any consequence in Pampa was Jan. 5 when more than six inches covered the area. Temperatures fell to a low of seven degrees, and the snow covered Texas from Dallas to about 10 miles north of Pampa.

Coronado Inn Sets Opening

Two-Day Round Of Activities

By JIM T. LACY
 Daily News Managing Editor

A round of activities will begin tomorrow afternoon to herald the dedication and formal opening of Pampa's magnificent new hostelry, the \$1,250,000 Coronado Inn, a project more than 10 years in planning.

Beginning at 3 p.m. Monday, dedication ceremonies will be conducted at the hotel on N. Hobart, and that evening several hundred

Special Section

The Pampa Daily News is pleased today to present a 20-page section devoted to the story of the new 100-room Coronado Inn, which opens for business Wednesday. In word and picture the News has attempted to tell the complete story of the biggest and most successful community venture in the city's history.

Food Clue Is Hamming For U Professor

ATON ROUGE, La. (UPI) — Spots of fresh human blood were found on the automobile of Dean George H. Mickey of the Louisiana State University state school here on the out- it was disclosed Saturday.

Mickey, 49, internationally known scientist, is charged with murder in the bludgeoning of Dr. Margaret Rosand McMillan, 38, an LSU assistant professor and biological arch expert in the government's space program.

District Attorney J. St. Clair Trotter, who Friday announced the blood found on Dr. Mickey's Chevrolet convertible, the same type as that of the woman, said Saturday that the blood was on the outside of the car.

The blood actually was that of the attractive, statuesque Trotter — and if it was spilled there the fatal attack — it would indicate that the savage who cracked her skull in (See PROFESSOR, Page 4)

Their Loss To Be Gain For New March Of Dimes

The Gray County New March of Dimes has been running for more than two weeks, but, not content with plugging along to success, campaign officials devised a plan last week to stir more than passing interest in the annual drive for funds.

Shakeup In Kadar Regime

VIENNA, Austria (UPI) — Hungarian Communist chief Janos Kadar Saturday announced the dismissal of his agriculture minister and other changes apparently designed to increase the power of his top aides.

Budapest Radio broadcast the announcement. Experts on Iron Curtain affairs here said they were the most extensive since shortly after the 1956 revolution was crushed and Kadar was put in power by the Russians.

Gyula Kallai was named new Deputy Premier and Gyorgy Marosan was nominated for the 2-member Presidential Council.

The actions were interpreted as another move toward shaping the triumvirate leadership of Kadar, Kallai, and Marosan.

Imre Doegel was ousted as Minister of Agriculture and named ambassador to Communist China. His dismissal was believed caused by the chronic trouble over the government's program of forcing farms into state collectives.

Kallai's appointment as Deputy Premier was described by the experts as a strong indication that Kadar is grooming him to succeed 74-year-old Premier Ferenc Muennich.

A To Seek Third Term

District Attorney Bill Waters announced his candidacy Saturday for reelection.

The district is composed of Gray, DeWitt, Roberts, Hemphill and Combs counties.

Waters said, "I sincerely appreciate the cooperation and support of the people of the district in the past. On the basis of my record of service and experience, I solicit reelection as district attorney. I count it a privilege to have served in public office for almost ten years, and it is my aim to be able to serve with increasing efficiency and responsibility in government. My record and policies in office are well known to the people, and I am confident of my ability to lead a public trust."

Waters is now serving his sixth year as district attorney. He was only attorney from 1951 through 1954, and when first elected was one of the youngest county attorneys in Texas.

A graduate of Pampa High School, Waters received his legal training at the University of Texas. He is a combat veteran of World War II.

Waters is married to the former Elaine Carlson. They live at 2112 1/2 streets. They have two sons.

Possible Underworld Connections Tie Crash To Diabolical Plot

NEW YORK (UPI) — FBI agents investigating suspected murder-suicide in the death of 34 persons in a New York-Miami plane crash 10 days ago reported Saturday discovery of a mystery surrounding the earlier crash of another plane operated by the same airline.

In the investigation of the Jan. 5 crash of a National Airlines DC-6B, agents were tracking down suspicions that attorney Julian Frank may have blown up

The other crash occurred Nov. 16. All 42 persons aboard a National Airlines DC-7B died in a crash in the Gulf of Mexico on a flight from Miami to New Orleans by way of Tampa. A Coast Guardsman saw a "red flash" in the sky over the scene of the crash. Very little wreckage and 30 bodies were recovered.

An FBI report released in Miami Beach by the Civil Aeronautics Board said that one of the passengers on the DC-7B was listed as Dr. Robert Spears, a Dallas, Tex., naturopath, ex-convict and accused abortionist who once allegedly offered to blow up a hospital for \$500.

The FBI refused to elaborate on the report, which was contained in a letter the bureau sent to the CAB. The letter, read at a CAB hearing, quoted "William Blodgett, chief investigator of the Los Angeles district attorney's office, as saying that Spears may have had someone travel for him to collect a large insurance policy naming Mrs. Spears as the

(See CRASH, Page 4)

No Liberals Have Filed In Texas Races

AUSTIN (UPI) — Nineteen — sixty may go into Texas' political history as "the year of the incumbents."

Only 16 days remain before the deadline for Democratic filings.

No liberals have appeared for statewide campaigns. Only one major conservative has challenged Texas' Big Three — Gov. Price Daniel, Lt. Gov. Ben Ramsey and Attorney General Will Wilson.

Wilson softened the situation this week when he decided to seek a third term, declining to challenge Daniel's bid for three terms.

Ramsey is still unopposed in his quiet bid for a sixth term as boss of the Senate.

In House Speaker Waggoner Carr, Wilson faces the most formidable opposition in his bid for reelection. Carr pledges a "vigorous" campaign.

Daniel is expected to win easily over former Rep. Jack Cox of (See RACES, Page 4)

Adenauer Hits Hate Daubings

By JOHN D. PARRY
 United Press International

BONN (UPI) — Chancellor Konrad Adenauer Saturday vowed to stamp out anti-Semitism in his country and show the world that Nazism and its hatred "do not live on in Germany."

"My government is completely free of the Jewish people of this nation," he said in a radio and TV broadcast. "On that I give you my word."

As Adenauer spoke, the number of anti-Jewish swastika daubings steadily decreased in West Germany. However, incident continued in West Berlin where more hate signs were found Saturday in the American sector.

"I call on every German when he sees one of these hoodlums in action to attack him and give him the punishment he so justly deserves," Adenauer said.

He recalled that he and his family had sheltered Jews during Hitler's campaign to exterminate them and said he was sure that the anti-Semitic outbursts which started Christmas Eve at Cologne had no Nazi "roots."

Civil Rights Bill Pushed

WASHINGTON (UPI) — Backers of the drive for quick House action on the stalled Civil Rights Bill hope to get a bandwagon rolling for it next week.

They anticipate a spurt Monday in signatures on a petition to dislodge the measure from the hostile Rules Committee which has bottled it up since last August.

Their expectations were based on two factors: prodding of holdouts by church, labor and racial groups supporting the bill, and a bigger House attendance Monday when President Eisenhower's budget will be presented.

To make the petition effective, signatures are needed from 219 of the 432 House members. By the close of business this week, 168 had signed.

Signers included some 20 Republicans, although House GOP leaders are boycotting the Northern Democratic-sponsored petition. Backers felt that if they could get close to 200 signatures, other Republicans would come forward and the goal could be reached.

If it comes from a hardware store we have it. Lewis Hdw. Adv.

Latins Offered Atomic Training

WASHINGTON (UPI) — The Army disclosed Saturday that Latin American as well as all other allies can now receive training in U.S. military schools on use, but not on the "effects," of atomic weapons.

The statement followed an announcement that the Army Caribbean school at Ft. Gulick, Canal Zone, has recently modified its command and general staff and regimental and battalion course to include atomic training for Latin allies.

But an Army spokesman made a distinction between the "employment" and the "effects" of atomic weapons. The latter, he said, includes much secret information which is still highly restricted.

More Snow Forecast In Panhandle

A four-inch snow fell on the Texas Panhandle late Saturday, but the weather bureau said six inch layer would cover the ground by morning.

Rain, drizzle and fog hung over much of the remainder of the state.

The weather bureau issued a heavy snow warning and advised residents to use precautions against blowing snow.

Early Saturday night, blowing snow cut visibility to half a mile at Amarillo and Dalhart.

The newest snowstorm started in the Panhandle about 2 p.m. By nightfall, four inches were measured at Dalhart, three inches at Gruver, an inch at Perryton and a trace in the eastern part of the Panhandle.

Highways were still open but airline travel was virtually stopped because of poor visibility.

A semi-professional hockey team in Amarillo was scheduled to play the Air Force Academy Saturday night. But the poor weather kept the academy from flying in to fill the engagement.

Scattered thunderstorms erupted over North Central and East (See SNOW, Page 4)

New MOD March Slated By Mothers

Mothers of Gray County will join two million women across the nation in a march for facts and funds for the New March of Dimes. The Mother's March will take place in Gray County Thursday evening, Jan. 28, according to Mrs. R. A. Mack, chairman.

"Marching mothers will ask for information and a contribution," Mrs. Mack said. "Both are needed for the National Foundation's fight against birth defects, arthritis and polio — three cripples that affect one of every four American families."

Mrs. Mack, as general chairman, named these women as drive school chairmen: Mrs. C. N. Gage, Baker; Mrs. The Williams, Carver; Mrs. W. C. Puryear, Lamar; Mrs. John Holt, Horace Mann; Mrs. Odell Strickland, Travis; Mrs. Marion George, Sam Houston; Mrs. Ray Elder, Stephen F. Austin; and Mrs. E. A. McLellan, Woodrow Wilson, Assisting in the office during the drive will be Mrs. B. E. Tidwell, Mrs. K. L. Green and Mrs. James Lewis.

Mrs. Mack said she "would like as many volunteers as possible, at least one in each square block of the city." Volunteers are asked to contact their school chairman. It is requested that porch lights be turned on at 8 p.m. the night of the March.

In addition to collecting contributions, Mrs. Mack explained, mothers will present each household with a copy of "Door Count," a concise, fact-finding folder in which a family may indicate if any of its members has a birth defect, arthritis or polio, and how many have had three or more Salk vaccine shots. Each family record will be confidential.

"We hope the Mother's March door count will focus family and community attention on the majority of Americans still without Salk shot protection against polio," Mrs. Mack said. "We have found that neighbor calling on neighbor is one of the best ways to remind the unvaccinated to start their Salk shots."

"Although the house-to-house poll is in no way planned as a statistically valid survey," Mrs. Mack said, "the sum of information provided in the door count will help provide a working estimate in our county of the number of persons suffering from arthritis; the number born with birth defects and the number who have been victims of paralytic polio. This tabulation will prove an invaluable guide to

Coal, Oil Interests Square Off Over National Fuels Policy

WASHINGTON (UPI) — The oil and coal industries are glaring at each other in preparation for a major fight in Congress over a so-called national fuels policy.

Big punches will be thrown, with legislators from oil and coal states in the middle.

Coal, being displaced more and more by oil and natural gas, wants Congress to help it keep its markets by creating a national energy policy which oil claims would slap more curbs on fuel oil imports and restrict industrial uses of natural gas.

Oil says this would add up to using the power of the government to switch oil and gas consumers to coal and deprive consumers of a free choice.

Both industries are gearing strong lobbies to press their conflicting claims. Their target is a pending Senate resolution to set up a joint Senate-House committee to hold hearings and recommend an "end use" fuels policy. The announced objective, which oil openly questions, is to keep all fuels industries in a healthy, emergency-ready state.

Best guess now is that the

4-H OFFICERS — New officers were elected Thursday at Gray County's 4-H Club meeting in the courthouse annex. Back row, from left, Lloyd Short and Tom Weale, adult leaders. Front row, Franklin Baggerman, reporter; Dale Veale, council delegate; James Veale, president; Gary Epperson, vice president and Larry Short, secretary - treasurer. (Daily News Photo)

will be to line up members of Research Council which represents the industry before the Federal Power Commission.

The commission has life-or-death power over natural gas. Coal frequently moves in to try and block its expansion.

In a speech last fall, Pickett charged that commission policy forces household gas consumers to help pay the fuel bills of factories "which buy gas at abnormally low 'dump' prices." He said "This practical practice of the gas pipelines, with FPC blessing, causes the public to subsidize the undermining of an important coal market."

'Humanists' Neither Jews Or Christians

EDITOR'S NOTE: This is the 26th in an intermittent series of dispatches profiling America's major religious bodies.

Religion In America
By LOUIS CASSELS
United Press International

In any catalog of the faiths by which Americans live, a prominent place must be given to a creed which is centered on man rather than God.

It is called humanism. Its basic tenets are consciously or unconsciously accepted as a guide to life by a great many millions of Americans, including some who are wont to describe themselves as Christians or Jews.

Sir Julian Huxley, one of the leading exponents of humanism, has described it as a "religion without revelation." Humanism is properly termed a religion, he believes, because it offers its adherents something bigger than themselves to live for and by. But in humanism this something bigger—this object of supreme devotion or worship—is not God. It is man with a capital M.

Humanists do not necessarily deny the existence of God. Many of them subscribe to the concept of an impersonal deity, usually designated by such titles as "First Cause" or "Life Force of the Universe."

But the true humanist does not profess to know much about this supreme being. He rejects supernatural revelation and therefore rejects all of the teachings about the nature and purposes of God which Jews believe to have been revealed in their history and moral laws, and which Christians believe to have been supremely manifested in the life and person of Jesus Christ.

The humanist believes that man is on his own, and that God, if He exists, is indifferent toward humanity's agonies, aspirations and ambitions.

The Christian or Jew who subscribes to a God-centered view of man's destiny might feel that the humanist creed deprives life of its ultimate meaning. The humanist would reply that man can create meaning for his life by diligently pursuing two goals. These goals are (1) self development—the achievement of one's maximum potential as a civilized person; and (2) progress toward a perfect human society.

Science and education are the paths by which the humanist expects these goals to be attained. Nothing is more characteristic of humanism than its faith in the power of science to free man from all of the limitations which now beset his existence, and in the power of education to provide men with high ideals, pure motivations and self-discipline.

For more than 200 years there have been many sincere humanists who tried conscientiously to live by all the implications of this creed. Among them have been men and women of the highest moral integrity, whose unselfish dedication to the service of humanity should command the respect of all religious people.

There are still such humanists. But their number seems to be dwindling. The brutalities unleashed before and during World War II, the still-uncontrolled peril of nuclear energy, and other harsh facts of modern history have made it very difficult for men of good will to continue believing in human perfectibility.

Some humanists, including many intellectuals, have turned back to the classic religious faiths, finding in their doctrines a sin and salvation a more realistic appraisal of the human condition than they once had thought.

Pampa Resident Has 1807 Issue Of Boston Chronicle

By CHARLIE CROSS Daily News Staff Writer

The Boston Chronicle of March 1807, is a far cry from papers read today, in Boston or anywhere else.

Mrs. Freeda Whitson, 914 E. Murphy, can bring this fact home to you because she has a Boston Chronicle of that date.

Mrs. Whitson does not know how the paper came into her family, but her brother has owned it about 25 years. She says she does not remember how the paper came into possession, because he, nor any other family has ever lived in, or near, Boston.

The family came from Pampa from Woodward, Okla., at 20 years ago.

Mrs. Whitson said she "thinks the paper might be valuable, although I'm not sure." She said her father "heard of a man who had a paper similar to this who sold it for a hundred dollars." Mrs. Whitson said her "paper is for sale if one wants it."

The year 1807 was an election year in Massachusetts, and the candidates pulled no punches in their news releases, plainly calling their efforts "electioneering."

Notice, by two of the candidates, reads:

The Hon. James Sullivan, Esq., Boston, electioneering for Governor, should be held up and supported at the ensuing election as a Republican candidate for Governor, and the Hon. Levi Lincoln, of Worcester, electioneering Lieutenant Governor of this Commonwealth.

The paper continues, "It is recommended to the citizens of Massachusetts, who venerate the principles of '76, and the characters who adhere to them, to use their utmost endeavors and influence, both before and on the day of election, to ensure the complete triumph of the Republican nomination."

It is in the publication as advertised in the Chronicle in the public auction notices, theater ads, sword exercises, lottery exchange offices, tax notices, report "directed exclusively to letters" on the beaver fur market, and an advertisement for codfish hooks.

There is even a story appealing for help for a man "imprisoned for some heinous and atrocious, who was behind to mourn his loss a loving and fair, and three all children." From reading the story it is supposed the man is to be executed, although this is not stated in the article.

The paper, measuring 18 by 12 inches packs a lot of ads and news to a minute space and should have been a boon to optometrists.

JEFFERSON, Tex. (UPI)—Main county Sheriff L. W. Walker said Saturday that he believes a skeleton found in a farm smokehouse near Jefferson was that of a coed who disappeared in 1948.

When the bones were found several months ago, Texas Rangers theorized they might be the last remains of Virginia Carpenter, 21, who vanished from the Denton campus at Texas Woman's College on June 1, 1948.

The Rangers were conducting tests to determine whose bones they were.

"I think we'll know where they came from sometime this week," Walker said.

The missing girl's mother, Mrs. Hazel Smith, now lives in Midland. She formerly lived in Texas.

She said the bones made up a skeleton about the height of her daughter, but that Miss Carpenter had one leg slightly shorter than the other because of an old infection.

She also said, she learned that the dental work apparently did not match her daughter's.

"Every time something like this happens it disturbs me," Mrs. Smith said. "I would like to know what happened to my daughter, by only daughter."

Walker said the man in whose smokehouse the skeleton was found was only 10 years old when Miss Carpenter disappeared. He is now 21.

Col. Homer S. Garrison Jr., director of the Department of Public Safety, said in Austin that a "continued and extensive search" is being made to identify the skeleton.

"They fit the height and age of the girl," he said. "But that's all we know at this time."

A thought for today: Edgar Allan Poe said, "the question is not yet settled whether madness is or is not the loftiest intelligence."

"OLD" NEWS — Mrs. Freeda Whitson, 914 E. Murphy, looks over the front page of the March 19, 1807, Boston Chronicle. The paper advertises such items as sword exercises, codfish hooks, lottery and exchange offices and a report on the beaver fur market, directed "exclusively to the hatter." (Daily News Photo)

DEAR ABBY....

By Abigail Van Buren

DEAR ABBY: Who is responsible for the care of a widowed mother? Three of her children are married and have families of their own. The remaining daughter, who is in her early forties, is single, has a good job and a nice nest egg in the bank. She feels that we should all pitch in equally and support Mother.

We married children have families to raise and educate, and mortgages to pay off. The single daughter has an apartment full of beautiful furniture, is debt-free and has no one to worry about but herself. We think it is her place to take care of Mother. Are we wrong?

THE OTHER THREE

DEAR THREE: Think again. The responsibility of caring for aged parents should be shared EQUALLY by all the children. Because your sister saved her money and chose to remain single and debt-free is no reason why she should assume a greater share of the responsibility. It's too bad that children must quarrel about meeting an obligation which should be a privilege.

DEAR ABBY: Will you please advise me on how to cope with a very embarrassing situation that has faced me for years?

When I am with people who don't know much about me, someone will make a very nasty remark about my race or nationality. They don't mean it is an insult to me because they don't know that I am of that race. I would like to speak up, but what could I say and still remain friends?

DEAR HURT: What a magnificent opportunity for you to point out the stupidity and ignorance of people who make sweeping general-

izations about races or nationalities. Simply announce that you are of that race. And why would you want to remain friends with people like that?

DEAR ABBY: I am in high school. My parents set a curfew hour at midnight on date nights, except for special occasions like the prom. Some of my girl friends stay out until the wee hours of the morning. They think I have strange ideas because I'd rather be home safely in bed than necking up a storm in a parked car somewhere.

Abby, did my mother raise me too strict? Don't you think boys respect you more when you say good night early?

OLD-FASHIONED GIRL

DEAR GIRL: You are the answer to many a boy's dream. Hang on to those high standards and you'll never regret it.

CONFIDENTIAL TO FRITZ: I once heard of a college president who TOLD a coach (who was, at the time, turning out a winning team) that he could have his job as long as he lived. Then the team lost three games in a row. The president called the coach in, pronounced him a dead one, and fired him. Moral: "Get it in writing!"

NEEDS WIFE PROTECTION

DALLAS, Tex. (UPI) — D. C. Masters, an electrical contractor, asked Judge Harold Clark to keep his ex-wife, Gittorio, from insulting his girl friends and going to his office and giving orders to his employees.

"This man needs protection," Masters' attorney said. The judge agreed, and scheduled a hearing.

Airman Arrested In Family Feud Death

SAN ANTONIO (UPI)—San Antonio homicide detectives arrested Air Force Sgt. Victor G. Mercado, 24, Friday night and charged him with murder in what police said was the fourth killing in a running feud between two families.

Mercado was charged with the murder of Mike T. Rivas, 29, who was shot down Friday night as he walked along a residential street in West San Antonio.

Rivas was hit in the groin, leg and chest by bullets fired from a passing car.

Mercado, a veteran of seven years in the Air Force, protested his innocence of the charge. He said he had just arrived in

San Antonio from Bergstrom Air Force Base in Austin when detectives arrested him.

Lt. John Garoni disclosed, however, that a paraffin test on Mercado's hands showed he had fired a gun recently. Mercado was charged with the murder before Justice of the Peace John Ogden Garoni said eight brothers in the Mercado family and three brothers in another family named Rubio kept the feud going.

He gave this account: In 1937 a friend of the Rubio brothers, Ralph Noriega, was fatally shot in a tavern brawl between the Rubios and Mercados.

Several persons on each side were slashed with knives during that

fight, including Rivas, who was shot Friday night.

Juan Mercado was charged with Noriega's murder and was released on bond pending trial.

The next victim was Sgt. Mercado's brother Susano, known to his friends as "Chano." An unknown gunman shot him in the face with a shotgun near a waterfront icehouse. His murder is still unsolved.

Next was Carlos Rubio, shot in August of 1958 at the Alamo Apache public housing area. Juan Mercado, free on bond with Noriega's murder already charged against him, was arrested and tried for Rubio's murder also.

Dimes Drive Funds Control Research On Arthritis, Polio

Continuation of the National defects and arthritis which, with Foundation's program of medical polio, affect one family in four, research in birth defects, arthritis "in birth defects," the director and polio depends on funds raised said, "studies of viruses and cells, this month in the New March of Dimes, J. C. Roberts, director of gram, are being continued to increase our knowledge of these tragic afflictions. In arthritis, one of the most promising research leads involves the rheumatoid factor, a substance which occurs in the blood of rheumatoid arthritis patients. In polio, New March of Dimes funds will support research to perfect the oral virus vaccine."

Goodrich Sets Hearing Date

Judge Lewis M. Goodrich Saturday set eight civil and one criminal case for trial Jan. 25 in 31st District Court in Wheeler.

Mrs. Ginn Rites Planned Monday

Funeral services for Mrs. (W. E.) Fribble Ginn, 72, will be held tomorrow 2 p.m. in Duenkel Carmichael Funeral chapel with Dr. Burgin Watkins of St. Paul Methodist Church officiating. Mrs. Ginn, who resided 12 miles south of Pampa, died Highland General Hospital 5:15 a.m. yesterday.

She was born Aug. 10, 1887 in Weatherford and married to W. E. Ginn Oct. 6, 1907 in Wellington. They moved from Wellington to Lefors in 1910 and in the fall of 1916 moved to their present home south of Pampa.

Survivors are her husband; one daughter, Mrs. Lucille Califa of Amarillo; one son, Bruce A. of Pampa; four sisters, Mrs. E. B. Jones of Pampa, Mrs. Bill Nabors of Albuquerque, Mrs. Pearl Stone, man of Fort Worth, Mrs. Esther Walters of Guymon, Okla.; three grandchildren, Phyllis Looper of Skellytown, Bruce and Marc of Pampa; and two great-grandchildren.

Funeral services will be held at 2 p.m. Monday at the funeral home of Wayland Acker, Jimmy Charles Hopkins, Loyd Bird, Luna Guthrie, Taylor Wright, Fred Vanderberg, Honorary pallbearers are Dick Pugh, James O. McCracken, Albert Mackie, Glenn Mackie, Deacon Clements, B. V. Brummett, Ernest Vanderberg, and Jim Hayden. Burial will be in Fairview cemetery.

Foundation Meet To Be Thursday

Tuesday afternoon's meeting of the board of directors and advisory committee of the Top O' Texas Foundation will be postponed until Thursday afternoon, at 4.

Smoke Damage To Apartment

The Pampa Fire Department answered a call at 5 p.m. Saturday to the Arcade Apartments in the 200 block of W. Craven. Firemen reported only smoke damage to one room. Origin of the fire could not be determined.

Mainly About People

Mr. and Mrs. Earl Clayton were among the passenger aboard Matson Lines' luxury liner Lurline sailing from Honolulu to the mainland on Saturday.

By owner: Equity in 3 bedroom house, carpeted, central heat, disposal, redwood fence, near schools, low payments. 1931 N. Nelson, MO 4-8780.

Wanda Murray, senior home economics major from Pampa, is making garments for Texas Tech's second all-cotton fashion show in Lubbock. Municipal Auditorium Jan. 26.

Kerry Parsley and Dennis King were advanced Friday night to Webbs, the highest rank in Cub Scouts. Also at the meeting of Pack 4, First Christian Church, three newcomers to scouting were welcomed: Stephen Walls, Krist Gambelin and Greg Dalton.

Pampa Hydraulic Jack Repair, 312 N. Gillespie. Phone MO 5-2391.

Pampa Modern School of Business, on Monday, Jan. 18th, new classes will be organized in shorthand, typewriting, bookkeeping and accounting, business English and office machines, both day and night classes. Enroll early as our enrollment is limited so that we may give more personal attention to our students. We maintain a free placement bureau and have no trouble in placing our graduates. No age limit. High school graduation not necessary. 100 W. Browning, MO 5-1122. Day classes, 3 subjects \$21 a month. Night classes, 2 nights weekly, 3 subjects \$15.50 per month. No entrance fee. Tuition payable the American way.

Panhandle Pen Women will meet Tuesday in Amarillo Club for its quarterly session. New officers will be installed, among them Mrs. Lorene Locke, as president, for a second term.

Buy your lighting fixtures at wholesale prices at Brooks Electric, Borger Hi-way.

Parent Education Club will host Senior Citizens on Thursday afternoon at 2:30 in Lovett Memorial Library, according to Mrs. W. A. York, Altrusa Club Senior Center chairman.

New shipment of Bridge prizes, Shop 'N' Lynn's, 871 W. Foster.

Dale McDaniels of Pampa has re-enrolled at Oklahoma State Tech, Okmulgee, for the spring semester, which got underway Jan. 5.

C. L. Shimek, former Pampa resident, has been promoted to vice president of Forrest and Cotton, Inc., Dallas consulting engineers.

James M. Bowers, 1036 S. Nelson, is a candidate for a degree in law at the University of Texas Law School.

South Coast Life Ins. Co., has announced the appointment of Charles Wade, 425 Carr, as representative in Pampa.

CORONADO

(Continued from Page 1) Band leading the procession.

The principal address at the dedication will be by Farris C. Oden, president of the Western National Life Insurance Co. of Amarillo, and former mayor of Pampa.

A short key-presenting ceremony will precede the ribbon-cutting rites. This will be followed by a tour of the hotel and open house for the public.

(See complete programs of activities on Page 3 in today's Coronado Inn Section of The Pampa Daily News.)

A workers' buffet dinner is scheduled for 7:30 p.m. Monday night at which time Myron D. Hockenbury, president of the Hockenbury System, Inc., will give the feature address. The Hockenbury System made the survey to determine the need for a new hotel in Pampa and directed the successful fund raising campaign in 1956.

The formal opening banquet will be Tuesday night at 7:30 in the main ballroom of the Inn. Jeff Williams of Chickasha, Okla., will deliver the night's address. His subject, humorous in vein, will be anticipated by many Pampans who have heard him before, here and in other parts of the country.

Tickets for the formal opening were sold out several weeks ago, and standing-room-only notices were posted reluctantly by the Chamber of Commerce.

Scores of out-of-town visitors will be in Pampa during the next three days and the city will bask in the success of the largest successful civic venture ever undertaken.

Wednesday, the hotel Coronado Inn will become a part of the growing business section of Pampa. The sign on the door will read: "Open For Business."

MOD

(Continued from page 1) our National Foundation chapter in planning local programs to aid the disabled.

"There are presently few local statistics available on the incidence of birth defects and arthritis," Mrs. Mack said. "For the country as a whole, we know that each year about 260,000 babies are born with one or more significant birth defects. We know that more than 11,000,000 Americans suffer from arthritis and the rheumatic diseases."

Mrs. Mack said that the New March of Dimes is combating birth defects and arthritis with the same effective weapons used to conquer paralytic polio: medical scientific research to find causes, cures, preventives; patient aid for medical care; and training for medical workers needed to treat the sick and disabled.

Clothing Store Work Under Way

Entrance doorways, protected sidewalks and a brick face are planned for the new Ollie Hare clothing store on N. Cuyler.

Work began on the former Ideal Food Store building last week and is expected to be completed in February.

The installation of partitions in the building will provide space for two offices with the balance of the building being used to house the clothing firm.

Cost of remodeling is expected to amount to about \$30,000.

hour period ending at 6:30 p. m. Saturday, included Dalhart .29, Lufkin .26, Midland .20, College Station .13, Austin .07, Corpus Christi .01, Dallas .01, El Paso .02, Laredo, Lubbock .01, and Waco .01, Victoria .03 and San Antonio .02.

RACES

(Continued from Page 1) Breckenridge, who resigned as executive secretary of the Ultra-conservative "Freedom in Action" organization.

Former Highway Commissioner Marshall Formby of Plainview sounds like a gubernatorial hopeful, but interest-Capitol talk indicates he might run against Ramsey.

Meanwhile, the liberals are quiet.

Waco attorney George Nokes challenged Ramsey in 1958, but has had nothing politically to say this season.

San Antonio Sen. Henry Gonzalez, who ran second to Daniel in 1958 ahead of old-time politician W. Lee O'Daniel, is faced with a campaign for re-election to the upper chamber.

Saturday Filings

Bring Total To 24

Two filings Saturday brought the number of candidates for public office to 24. Those filing Saturday include O. W. (Red) Stapp for county commissioner, Pct. 4, McLean, and Don Cain, county attorney.

CRASH

(Continued from Page 1) beneficiary.

Tampa police speculated that the person listed as Spears on the plane may in fact have been his good friend and drinking companion, William Allen Taylor, a Tampa salesman who has been missing since the night the plane took off.

None of the bodies recovered from the Gulf of Mexico was identified as that of either Spears or Taylor. In Dallas, Mrs. Spears was highly agitated at reports that her husband might have arranged for another man to travel for him on the ill-fated plane and that Spears might still be alive.

The theory was that Spears might have taken out insurance in his own name, with his wife as beneficiary, and then sent Taylor in his place.

But the theory was further complicated by the fact that Taylor took out a \$37,500 air travel insurance policy, payable to his 17-year-old son, shortly before the doomed plane took off.

PROFESSOR

(Continued from Page 1) 13 places took place during

two-car roadside rendezvous. The body was found lying in a pool of blood beside her own in the 1960 Renault automobile which Dr. McMillan was killed week ago. It is five-and-a-half miles south of the univ campus here, just off "road" which parallels the mile-wide Mississippi. An field lies on either side of private lane where her body was found at 6:30 a.m. last Sun.

Investigators said the condition of her brain indicated she died of a brain-destructive force of blows. They said the attack could have occurred "anytime" from six o'clock to midnight last Saturday.

The blood and the fact that Dr. Mickey was absent from home during part of a six-hour period in which police say the attack could have occurred are the only

disclosed points of the evidence on which authorities charged the dean with murder.

Sheriff's deputies equipped a mine-detector type apparatus pressed their search for the der weapon in the area where Dr. McMillan was killed week ago. It is five-and-a-half miles south of the univ campus here, just off "road" which parallels the mile-wide Mississippi. An field lies on either side of private lane where her body was found at 6:30 a.m. last Sun.

GI Home Loans Now Hard To Get

By EDWARD COWAN
 United Press International

WASHINGTON (UPI)—“Past GI! Want a home loan?”

Mr. Veteran, if that imaginary whisper reminds you of Berlin, 1945, and the acute shortages of almost anything a consumer could want, you're getting the message. That fact is that GI loans are mighty hard to get these days.

Chances are they will continue to be scarce for quite some time, according to Philip N. Brownstein, director of the Veterans Administration loan guaranty program.

The VA loan guaranty and direct lending program for World War II veterans is due to terminate July 25, unless Congress and President Eisenhower extend them. The President is on record as opposing extension.

Korean veterans will be eligible for guaranteed home loans until Jan. 31, 1965.

More than 5,400,000 veterans have taken out GI loans since they became available in 1944. Another 9,000,000 world war servicemen are eligible to get them before the program dies.

But in these days of high interest rates, being eligible and being able to get GI financing on a house are two very different matters. The law says the GI loan may not carry an interest rate of more than 3 1/2 per cent. Lenders these days are getting 4 per cent and more on conventional loans.

The administration asked Congress last year to put the GI interest rate on a par with the FHA rate, now 3 1/2 per cent. The FHA rate can go as high as 6 per cent without action by Congress. But Congress refused to give the VA such flexibility.

Democrats say the solution is not boosting the cost of the loan but a general easing of interest rates through relaxation of the tight money policy. Republicans defend the tight money policy as a necessary anti-inflation measure. They say funds would be available for GI loans if Congress would only let GI loans compete with free market interest rates.

One result of the drying up of funds for VA-guaranteed loans has been a rush of applicants for direct loans from the VA. To help meet this demand, VA head Sum-

ner G. Whittier recently ap-
 portioned among his field offices
 60 million dollars of an extra 100
 million dollars Congress voted
 last year for direct loans. The
 program was already getting 150
 million dollars a year.

The remaining 40 million dollars
 will be released by Whittier soon.
 But by the end of June the VA
 will have drained its direct loan
 pool. Eisenhower opposes extend-
 ing the guaranty and direct loan
 program for World War II vet-

erans on grounds that it was a
 temporary post-war expedient to
 help returning veterans adjust to
 civilian life. He feels that 15 years
 and thereafter

“BASE METALS”
 The term “base metals” is used
 to describe common metals, such
 as nickel, copper and chromium,
 as distinguished from precious
 metals, which are gold, iridium,
 osmium, platinum, palladium, rho-
 dium, ruthenium and silver.

er G. Whittier recently ap-
 portioned among his field offices

Church News

Dr. Watkins Sets Topic

Dr. Burgin Watkins, Minister of St. Paul Methodist Church, will speak on "Seeking New Insights from the Old" at the 11 a.m. services Sunday.

Mrs. Carl Shaver will direct the anthem, titled "O God of Love." The evening service will be held at 7 o'clock.

The commission on church finance will meet at 8 p.m. Sunday, and the Woman's Society of Christian Service will meet Wednesday at 10 a.m.

Haggai To Speak At First Baptist

Dr. John Edmund Haggai, who is conducting revival services in First Baptist Church today, announced his sermon topics for Friday, Saturday and Sunday nights. Dr. Haggai said Friday night's topic will be "Hollywood Religion;" Saturday night he will speak on "The Whole Truth About Divine Healing;" and Sunday night's topic will be "Victory."

Sunday morning's service will be held at 11 o'clock with the night service beginning at 7:30.

Dr. Haggai will meet with young people, 18 through 24 at 6:30 p.m. Sunday. The topic of discussion will be "What's in a Kiss?"

The evangelistic team of Dr. Haggai, Don De Vos and Bob Andersen has been conducting revival services all this week at the First Baptist Church.

Adcock Announces Sunday Sermon Topic

"Three Ways To Victory" will be the sermon topic discussed by the Rev. Woodrow Adcock at the two morning services of the First Methodist Church.

The special anthem, "Praise The Lord," will be sung by the Carol and Wesley Choirs. The Sanctuary Singers will present "Judge Me O God" at the 10:35 service.

Sunday evening fellowship will begin at 6 p.m., and at 6:30 p.m.

Little Liz is an ordinary party with the choir removed.

Presbyterians To Install Officers Sunday

Newly elected officers of the First Presbyterian Church will be ordained and installed Sunday in a special service at the morning worship hour of 11 o'clock. Holy Communion will also be celebrated at the service.

Trustees of the church include William S. Dixon, Homer D. Johnson and Harvey Nemstiel.

Bill L. Brady, Bill K. Ellison, David Lashley, W. M. Lemmons, Mrs. Glenn Ritchhart, and Michael Wilson will be installed as deacons. Those to be ordained and installed as ruling elders are Raymond Barrett, Mrs. H. H. Hahn, John B. McCrery, Mrs. Fidelia F. Yoder and E. C. Sidwell.

The meditation subject of the Pastor, Rev. Ronald E. Hubbard, will be "Whom God Doth Choose." The choir, under the direction of Ben Golchon, will sing "Cherubin Song," with special responses during the Holy Communion Service.

Hi-Land Church Elects Officers

Trustees and deacons were elected at the fellowship supper and business meeting of Hi-Land Christian Church Friday.

Trustees included Sam Stone, Vernon Werth and W. P. Whitsell. Stone, Werth and Whitsell were also elected deacons. Other deacons elected included Ray Mason, Bill Brown, Carl Summers and Jim Crouch.

The group decided to build the first unit of the new church building, and 20 will work for 200, as goals for 1960.

ONLY SLIGHTLY OFF

A knotted string was used as a measuring instrument in the building of the Great Pyramid of Egypt, yet it measured to accurately that modern instruments show only one-half inch error along the 755-foot side.

children, youth and adults will separate for an hour of planned activities. The adult study course, "Know your Bible" will be taught by the Rev. Adcock, and the second Adult Study Course, "The Relationship of Church and State" will be taught by Warren Cochran in the chapel of the Education Building.

Rev. Adcock will speak on "The Way to Improve" at the 7:30 p.m. service.

Wednesday will be Methodist Men's Father and Son banquet, at 7 p.m. in Fellowship Hall.

UPI Financial Editor

NEW YORK (UPI) — From the looks of things as the experts see them one has to do any worrying until midnight of June 30th.

Economists, business men, bankers, government experts and just about everyone who makes predictions say 1960 is going to be a record year in industry with the big twist in the first half.

President Eisenhower says he's going to work for peace through out the world and for prosperity in America. He looks for a big 1960, so big, in fact, that it will spill over through the first half of 1961 to make for a budget surplus of \$4,200,000,000 in fiscal 1961, the fiscal year ending June 30, 1961.

Hard-headed Wall Street experts wonder if the President's surplus will come true. They are not betting the prospect of good business, but they are doing some wondering about how Congress will accept such a juicy bankroll without spending some or all of it.

A big budget surplus without tax reductions would leave some tidbit for debt reduction.

Those who watch budget operations point out that the Congress has its collective mind set on doing something expensive for housing, for agriculture and for education. These three alone could make a big dent in the four billion dollar surplus before it became reality, it is pointed out.

Hence, it is noted, this surplus hope is not as deflationary as one might think by looking at it alone.

Those who look for big spending plans say that each congressman in an election year must show a project when he goes home to patch fences.

Time will tell how much spending can be kept down by the veto, it is said.

That's the long-term outlook. Now let's see what's in store for the first six months.

Swickard To Graduate

SAN DIEGO, Calif. (FHTNC) — William H. Swickard, son of Mrs. Onelda M. Stewart of Route 2, Pampa is scheduled to graduate from recruit training Jan. 15 at the Naval Training Center, San Diego, Calif.

The graduation exercises, marking the end of nine weeks of "boot camp", will include a full dress parade and review before military officials and civilian dignitaries.

In nine weeks of instruction, the "raw recruit" is developed into a Navy Bluejacket, ready for duty with the fleet.

Set To Graduate

SAN DIEGO, Calif. (FHTNC) — Robert E. Hebert, apprentice petty officer second class, USN, son of Mr. and Mrs. Walter F. Hebert of 318 W. Francis, is scheduled to graduate Jan. 22 from Recruit training at the Naval Training Center, San Diego, Calif.

Apprentice petty officers are chosen from the ranks of the seaman recruits to assist Company Commanders. The selection is based on individual aptitude and leadership qualities.

Pampan Serves

SANTA ANA, Calif. (FHTNC) — Marine Acting Gunnery Sgt. Richard J. Dillman, son of Mrs. Mary A. Dillman of 514 N. Sumner St. and husband of the former Miss Marie T. Lind of Philadelphia, partner with Station Maintenance Squadron One at the El Toro Marine Corps Air Station, Santa Ana, Pa., is serving as a typewriter repairman.

Before enlisting in July 1948, he graduated from Pampa Senior High School.

In Field Exercises

SANDHOFEN, Ger. (AHTNC) — Army PFC Larry G. Andrus, 23, son of Mrs. Guy B. Simmons of Pampa and Eunice, La., recently participated with the 8th Division's 18th Infantry in a field training exercise in Germany.

The exercise, conducted under realistic combat conditions, was designed to determine the combat effectiveness of the infantry under extreme cold weather conditions.

Andrus is a cannoner in the 18th Mortar Battery in Sandhofen. He entered the Army in July 1958 and arrived overseas in February 1959.

Wins Promotion

KEY WEST Fla. (FHTNC) — Promoted to his present rank Dec. 16 while serving with Air Development Squadron One at the Naval Air Station in Key West, Fla., was Francis D. Scott, aviation electronics technician third class, USN, son of Mr. and Mrs. John L. Scott of 627 N. Zimmers.

Before entering the Navy in August 1957, he graduated from Pampa Senior High School.

The Squadron conducts tests of new and standard anti-submarine warfare aircraft and equipment. Tactics for using this equipment effectively are also determined by the squadron.

Finishes Schooling

NEW LONDON, Conn. (FHTNC) — Tommy K. Turpen, engineer second class, USN, son of Mr. and Mrs. Frank M. Turpen of 925 Brunow was graduated Dec. 17 from the Nuclear Power School at the Naval Submarine Base, New London, Conn.

The 22-week course consisted of intensive technical training in nuclear physics. Most of the graduates will report to land-based nuclear reactors; duplicates of those found in nuclear ships. After reactor training they will be assigned to either atomic submarines or surface vessels.

Farmers, Ranchers Need To Report

Farmer and rancher employers with one or more employees are being asked two questions by Wiley E. Davis, administrative officer, of Internal Revenue Service in Pampa.

"Have you paid an employee \$150 or more in cash wages during 1959, or has the employee performed agricultural labor for 20 or more days during 1959 for cash wages figured on a time basis?"

If your employees meet either of these two tests you must withhold social security tax from the cash wages paid to these employees at the rate of 2 1/2 per cent of such cash wages. This 2 1/2 per cent, together with another 2 1/2 per cent representing your share as the employer, must be sent to the IRS district director in Dallas.

Davis says that farmers and ranchers subject to this tax are required to file a return, Form 943, with their district director of Internal Revenue before January 31 of the year following the year covered by the return.

IRA recommends Circular A for non-technical explanation of Uncle Sam's tax rules for withholding of social security tax from farm employees' wages. It's available free at Internal Revenue's office 120 W. Kingmill St.

Gets Assignment

WHITE SANDS MISSILE RANGE, N.M. (AHTNC) — Army Specialist Six Cecil E. McPherson, son of Mr. and Mrs. Glen McPherson, 503 N. Perry, recently was assigned to the Signal Missile Support Agency, White Sands Missile Range, N.M.

McPherson, a radio repairman in the agency's Company A, entered the Army in October 1951.

The 25-year-old soldier attended Anadarko (Okla.) High School.

The Weekly Message Of Inspiration

B. GENE GRACE, Pastor
Barrett Baptist Chapel

"Which of the two did the will of his father? They said, The first."
(Matthew 21:31)

We are amazed at the number of times Jesus told a short story in order to illustrate a spiritual truth. Here is the parable of the two sons who were commanded to work in the vineyard. The first one refused, but later repented, and went and did as his father requested. The second son was more polite. He said that he would work, but failed to go. Jesus then asked which of the sons had done the will of his father. Of course the answer was obvious. Words were not enough, but the one who had actually put in the day's labor had fulfilled the obligation.

Let us take note that in our modern age making promises which are not fulfilled is a common characteristic. We have put so much emphasis on personal relation - getting along with people - that it seems better to many of us to say "yes" even though we have no intention of fulfilling the request. The number of people who are dependable is in the minority. Nowhere is this more apparent than in the church. Christianity to many people is little more than a vague sentiment of good will, no discipline and no real obedience given. We are a generation which says "yes" to God when all the time our actual practices are saying "NO".

It is obedience that leads us down the road to real joy and satisfaction in the Christianity life. The first son was at least honest and did not intend to promise what he was not going to fulfill. It was only after much thought that he saw that he had not treated his father very well, and that he owed him a day's labor in the vineyard. Out of his obedience he found the way to a right relationship with his father. He discovered the real test of a man's life. The test of obedience. Jesus always stopped men when they sought to please him with flattery. Always his emphasis was upon doing the will of the Heavenly Father. A person may be regarded as respectable in his society, but the ultimate test in our Lord's teachings was upon obedience. If our modern critics regard us as having too much doing in our Christianity, then the answer is that doing is at the very heart of the Gospel as it was taught by Christ.

Christianity is a venture. It is a way of life which means that it has demands and obligations. It has standards to which we must be loyal and values which we must accept as our own. For many of us it will demand giving up what we planned for ourselves, and going to work in the vineyard of our Father. The easy going Christianity of the Second son will not do, and the Father will not be content with such a response. There is a price to be paid and a faith which demands the courage to venture forth for God.

But the result of a complete response is experience. In the Gospel of John we find these words, "If any man will do His will, He shall know of the doctrine, whether it be of God or whether I speak of myself." (John 7:17). Thus, in this one statement of Jesus, we are told that the experiences which come to men are the fruit of DOING. If a man says to us that he will follow Christ after he has found the answer to all his questions about Him. We are forced to say that he will never be a follower. Christ's way of life is an experiment, and only when we follow Him obediently do we come to experience the joy and victory which he promised.

"And Samuel said, Hath the Lord as great delight in burnt offerings and sacrifices, as in obeying the voice of the Lord? Behold to obey is better than sacrifice, and to hearken than the fat of rams."
(1 Samuel 15:22)

Pampa Captures All Three Golden Gloves Titles

By RED GRIGGS
Trent Olson of Pampa received the "Fightingest Fighter" trophy on the strength of three consistent official team championship performances. Olson, the 112-pound high school champion, District Golden Gloves champion, won a decision over Jerry Wilson of Borger in the finals.

The outstanding fight Friday night, was turned in by Dickie James, 118-pound open champion from Pampa. James, in one of the wildest bouts ever seen here, hit the rugged Abel Moline of Amarillo with everything but the hydrogen bomb, yet Moline stayed on his feet until the final seconds of the fight.

James, using wicked left-right combinations, staggered Moline, knocking him into the ropes in the first and second rounds; knocked Moline completely out of the ring in the second round; and finally decked the iron-jawed Amarillan

with a jolting left jab just before the final bell of the third round. Moline was in constant trouble throughout the fight.

Possibly the best boxing exhibition in the open class was turned in by Raul (Rabbit) Ramirez, who decided R. C. Welty of Hereford for the 135-pound title. Ramirez, showing some of the form which made him state bantamweight runner-up in 1956, almost literally didn't let Welty lay a glove on him. Ramirez moved in against his rangier opponent, hit him with quick flurries, and danced back out of range before Welty could do any damage.

Pete Garcia also turned in a classy job of boxing in giving Pampa's Johnny Ironmonger a merciful beating in their 112-pound open fight.

Charles Snider, Pampa's 147-pound open entry, had to settle for a decision over John Cardero of Hereford, who was never hurt although Snider blasted him with his best punches throughout the fight.

In other open fights Gary Wills, 160, of Pampa outboxed Bruce Topper, another Pampa; Johnny Chammeh, 175, of Pampa, last year's state light-heavy champion, decisively outboxed Elmer Clements of Canyon; and James Morse, 126, of Pampa, TKO'd Eddie Ramirez of Amarillo in 1:15 of the second round by opening a cut over Ramirez' eye. Dickie Kimbley of Lefors was unopposed for the heavyweight crown.

Wills and Claunch, two of Pampa's better and more experienced boxers, did good jobs of outboxing

opponents who obviously had plenty of experience and who made few mistakes.

Probably the best high school fight was turned in by Gary Smith, Lefors 126-pounder, and Norman Rexroat, Pampa 160-pounder.

Smith took the 126-pound title in a slugfest match with last year's Pampa District champion, Charles Moore of Borger. Smith, unimpressed by Moore's reputation as a slugger, was the aggressor most of the way and landed the most damaging punches.

Robert Welty of Hereford won an unpopular but unanimous verdict over Rexroat for the 160-pound title, despite the fact that Rexroat was the aggressor all the way and had Welty in trouble most of the time.

Welty, however, scored with an occasional good left hand punch and blocked enough of Rexroat's punches to receive some defensive points. All three judges awarded the first and third rounds to Welty, and the second to Rexroat.

Jim Snider of Pampa, 147-pound high school champ, scored one of the night's four TKOs (there were no knockouts) when John Welty of Hereford was unable to continue after the second round.

Dean Henderson, Pampa 155-pounder, scored one of the two knockdowns of the night, flooring Johnny Atchley of Lefors with a right-hand punch in the third round. Atchley, who was off balance when the punch landed, got up immediately. Henderson took the decision.

Ronnie Morgan, Pampa 135-pounder, did a fine job of boxing to upset Donny Lesley of Hereford, the favorite in that weight, for the high school lightweight title. The high school lightweight bracket was the biggest in the tournament, will 11 fighters. It included many good, experienced boxers.

In other high school finals, Steve McCarthy of Borger decisively defeated Richard Owen of Dumas for the 105-pound crown; Ronny Welty of Hereford outstaged Freddy Palacio of Amarillo for the 118-pound title; and Wayne Bomar of Hereford defeated Paul Malone of Lefors for 175-pound honors.

In the top pee wee upset of the night, Paul Garcia of Dumas decisively outboxed 100-pounder Corlis Hooten of Borger. Two TKOs were scored in the pee wee division, as Dean Rowley in 30 seconds of the first round; and Donald Dunn of Pampa whipped Nolan Ellis of Pampa in 54 seconds of the first round.

In other pee wee bouts, Danny Boyd, 60, of Pampa decisively outboxed Dickie Elliott of Hereford; Mike Neeley of Borger beat Chester West, 65, of Hereford; Jerry Goodwin, 70, of Pampa decisively outboxed Jimmie Watson of Pampa; Andrew Rodriguez, 75, of Hereford decisively outstaged Lonny York of Pampa; Ronald Dunn, 85, of Pampa decisively outstaged Mackie Hawkins of Perryton; Jim Green, 90, of Dumas whipped Gilbert Garcia of Dumas; and Eddie Davis of Dumas, 90, defeated Albert Rodriguez of Hereford.

Winners and runners-up in all three divisions of the tournament received trophies.

Bridgers Receives Grid Honors Of Baylor Bears

JOHN BRIDGERS grid fete speaker

John Bridgers, the speaker at the annual Harvest-Shoer football banquet, at 7 p.m. Jan. 21 in the Pampa High School Cafeteria, might well qualify as the Southwest Conference's "Rookie Coach of the Year."

Bridgers, Baylor's head football coach and athletic director, is no newcomer to the coaching profession, but he is a newcomer to the Southwest Conference.

In his first year at the Baylor helm, he guided the youngest, most inexperienced team in the conference to a 4-4 record, while playing one of the toughest schedules in the nation.

Bridgers' Bears defeated Colorado, Rice, Texas A&M, and Texas Tech, while losing to SMU, Texas A&M, Arkansas, LSU, Southern California, and TCU. Five of the teams to which Baylor lost (all except SMU) were ranked among the top twenty in the nation, and only LSU

beat the Bears by more than two touchdowns.

Bridgers' skill as a defensive coach was the main factor in the Bears' fine showing. Before coming to Baylor, Bridgers was defensive line coach for the Baltimore Colts in 1957 and 1958. During those two seasons, the Baltimore squad led the National Football League in rushing defense, and set team records in that department.

That the 37-year-old coach is no slouch in pass defense, either, is shown by the fact that the Bears led the Southwest Conference in aerial defense for most of the 1959 season, and were second only to TCU in total defense.

That Birmingham, Ala. native, and his staff also have some offensive accomplishments to their credit. Ronnie Stanley, Baylor's sophomore passer, trailed only Don Meredith of SMU in the aerial department, and Ronnie Bull, another sophomore, was a dangerous breakaway runner.

Bridgers' accomplishments have not all been in the athletic field. While attending college at Auburn, he won a scholarship key as the best student in the Business Administration department.

After graduating from Auburn, Bridgers served for five years as line and track coach at Sewanee, then was head coach at John Hopkins for three years, during which time he won the Mason-Dixon Conference championship.

SPRINGS INTO ACTION — Carol Heiss is poetry in motion working on the Iceland Rink in New York. The Long Island lass defends the women's figure skating championship in the Winter Olympic Games at Squaw Valley, Calif.

Unitas Wins Hickok Belt

NEW YORK (UPI) — Quarterback Johnny Unitas, who starred in the Baltimore Colts' National Football League championship victory over the New York Giants, Saturday won the December poll in the race for the 10th annual Hickok "Professional Athlete of the Year" award.

Unitas got seven first-place votes and a total of 238 points to outdistance bowler Don Carter, who got eight first-place votes but only 75 points. Points are based on three for first, two for second and one for third.

Jockey Willie Shoemaker was third in the December poll, while Wilt Chamberlain of the Philadelphia Warriors was fourth; and boxer Gene Fullmer was fifth.

Unitas joins Bob Pettit of the St. Louis Hawks, bowler Ed Lankford, Elgin Baylor of the Minneapolis Lakers, golfer Art Wall, Jr., pitcher Harvey Haddix, heavyweight champion Ingemar Johansson, boxer Jose Beceera, Willie McCovey of the San Francisco Giants, Early Wynn of the Chicago White Sox, Larry Sherry of the world champion Los Angeles

Pro Bowl Contest Scheduled Sunday

By ALEX KAHN
United Press International
LOS ANGELES (UPI) — East's quarterback Norm Van Brocklin was bedded with the flu Saturday to give the Western Conference all-stars a burst of dance for Sunday's 10th annual Pro-Bowl game at the Coliseum.

And that Jack - of - all - trades, Frank Gifford of the Giants, who played his college football at the Coliseum with the University of Southern California, ran wild before the hometown crowd.

Most of the same men are back—Unitas, Gifford, Van Brocklin—and a majority of the 66 players comprising the two squads. But despite the East 28-21 win of last year, the West is favored. The reasoning is that Unitas couldn't be had twice in a row in the Pro-Bowl game.

And the brilliant Baltimore quarterback has his favorite receivers as targets — end Ray Berry and halfback Lenny Moore. He also has that fine pass-catcher Del Shoner of the Rams and the elusive Jon Arnett of the same Los Angeles club. For power down the middle, J. D. Smith of the Forty Niners is on hand.

While the passing edge would appear to be with the West despite the individual brilliance of Van Brocklin and his alternate, Bobby Layne, the East has the runners. In addition to Gifford, who does everything well, the East has the great Jim Brown at fullback and Van Brocklin has a favorite receiver in Eagle teammate Tommy McDonald.

Dallas, Fort Worth Slated To Share Major Franchise

DALLAS (UPI) — Dallas and Fort Worth will share an American Association baseball franchise this coming season in line with the bi-city operation of a Continental League club in 1961.

The venture will be the joint enterprise of Dallas owner J. W. Bateson and Fort Worth publisher Amos Carter - Jr., who teamed with Bateson recently to underwrite a major league franchise for the two cities in the new Continental circuit.

Some of the 77 home games of the club will be played in Fort Worth, which lost its American Association franchise when the Chicago Cubs pulled out at the end of the 1959 season, if a suitable rental of LaGrave Field can be arranged.

Bateson and Carter said that the association's directors already had approved the plans.

"We have opened negotiations for the park," said Carter, "and we should know something within the week."

"If we can't get LaGrave Field, we will have to play all the games in Dallas' Burnett Field," Carter added, "but special attention will be given to Fort Worth interest in the team."

Mud Hinders Young Golfer In Quest For Yorba Linda Open

By JOE ST. AMANT
United Press International
YORBA LINDA, Calif. (UPI) — Tony Lema, young San Leandro, Calif., golfer, got stuck in the mud Saturday and lost the lead in the \$25,000 Yorba Linda Open at the end of two rounds.

Lema soared to a 3-over par 75 after taking a 66 to lead the first round by a stroke.

Jerry Barber, the little Los Angeles pro, became the early second round leader when he shot a 2-under par 70 to go with his first round 67. This gave him 137 for 28 holes, and it appeared by mid-afternoon that this score would stand up since most of the top contenders were in.

Barber, 5 feet 5 and 134 pounds, shot steady golf, getting birdies on the fifth and 15th holes and matching par on the others.

Surprise of the day was John Brodie, San Francisco Forty Niner football quarterback, who had a second round 5-under par 67 to go with his first day 74. This gave him a 36-hole total of 141.

Julius Boros, former National Open king from Mid Pines, N. C., had a fine 33 on the outgoing nine of the second round but took a 39 on the backside. He had a double bogey 5 on the 250-yard 18th and ended up with a par 72 for a 139 total.

Dow Finsterwald, Tequesta, Fla., winner of the Los Angeles Open, took a 69 on the second nine for a 36-hole total of 140. Finsterwald had a hot 32-4 under par going out—and took a 1-over 37 on the back nine.

Tied with Finsterwald at 140 was Don Fairfield, Casey, Ill., who had a second round 71 to add with his first round 69.

Right Retains Island Lead

SEA ISLAND, Ga. (UPI) — Key Wright gave her closest rivals a chance on a silver platter Saturday to overtake her one-lead in the Sea Island 24 tournament but they must wait.

Wright, 24, a young-oldie from San Diego, clung to slender lead at the 34-hole mark as each of the three leaders led 76, the most popular for Saturday's round. There were six 76s and only one competitor, Ruth Jensen of Seattle, tied it with a 75.

The standings remained exact as they were after the first round—with Cathy Cornelius of Lakeland, Fla., and Faye Crocker of Montevideo, Uruguay, deadlocked stroke behind Miss Wright.

Some of the scores soared Sunday—although—the weather's ideal—cool, bright and sunny with a light wind even on the "inside" back nine.

Miss Wright began her round with four straight pars before slipping into trouble. She dunked an easy tee shot in the water on a par three fifth and went two over par with a five. Miss Crocker playing just in front of the leader, birdied the fifth and held two-stroke lead at that point.

On the seventh hole Miss Wright right three putted for a six. On the 13th she overshoot the green with a tremendous four-iron shot and again three-putted for a six.

Precedent May Have Been Set In Recent Negotiations

By WILLIAM J. EATON
United Press International

WASHINGTON (UPI)—Experts in labor-management relations showed concern Saturday over the effect the Administration-inspired settlement of the steel strike will have on future contract negotiations.

One result of the intervention by Vice President Richard M. Nixon and Labor Secretary James P. Mitchell may be to prolong deadlocks in bargaining this year.

A veteran middleman in labor disputes said government officials feared the top-level mediation might be seen as a reason for unions and businessmen to ignore lower-echelon peacemakers.

"Why talk to a disciple if you can talk to God?" is the way one conciliator phrased it.

Thus, the Nixon-Mitchell maneuvering which led to a steel settlement, made meetings conducted by the Federal Mediation Service seem hopeless before they began.

Defenders of the Administration's role in the steel crisis point out that the Cabinet-level discussions did not start until a 118-day strike was halted by a back-to-work injunction.

This is far different than rushing into a dispute before a walk-out has begun, Mitchell and his aides contend. They also contend that the steel struggle was not resolved in the White House as was the case with labor conflicts in the Truman administration.

But Mitchell's own words were that the steel dispute was settled on terms recommended by him and Nixon.

This came after months of exhortation from President Eisenhower to both sides to exercise self-discipline in what came to be known as a "hands-off" approach.

The White House called union and company chiefs in for separate talks in October, but even

then it advised them to resume negotiations of government property.

And, in what was a precedent-setting move, the Administration kept federal mediators out of the bargaining until the strike began on July 15.

Major negotiations in the aircraft and missile industry, men's clothing, telephones, electrical manufacturing and railroads loom

ahead this year.

Mitchell already has had talks with both sides in the railroad crisis and further communication seems assured before it's settled.

In a presidential election year, the Administration naturally wants to prevent strikes in key industries and presumably will use its one-two-punch—Nixon and Mitchell—to do it.

SOLE IMPEACHMENT

Only instance of impeachment proceedings against a member of Congress was in the case of William Bount, Tennessee senator, in 1788. The charges were dismissed.

SECOND

Haiti became an independent nation in 1804, making it the second independent nation in the New World, the U.S. United States being the first.

Quotes In The News

United Press International

NEW YORK—Magistrate Milton Solomon ordering treason charges placed against three youths who formed a Nazi-like organization.

"I think it's about time that these boys who contemplate war on society and government should receive the death penalty."

CHICAGO—William Morrison, 23, a burglar, describing his alleged working arrangement with a group of Chicago policemen:

"At World Series time they all ordered portable TV sets. When the weather began getting cold, they wanted anti-freeze. The policemen gave me orders for what

they wanted or what their wives wanted."

WASHINGTON—Actor-producer Robert Montgomery commenting on radio-TV executives' claims that they were unaware of rigged quiz shows and "payola" payoffs:

"Certainly it seemed a most peculiar statement for any businessmen to make that he did not know that his most widely advertised and most profitable product was a phony."

TAMPA, Fla.—E. Switzer, explanation to the FBI on why he boarded a plane carrying a box covered with bomb warnings:

"We have some fellows out at the plant who are jokers, and some comedian wrote on the box while I was busy."

HONOLULU—The only comment from Capt. Donald W. Smith, who survived sub-zero temperatures 30,000 feet over the ocean after the cockpit canopy came off his Marine Fury jet plane:

"Don't let them tell you it doesn't get cold in Hawaii. It was mighty cold up there."

NAVY STARTS ACTION

WASHINGTON (UPI)—The Navy has started action to discharge George Lincoln Rockwell, 41, self-styled leader of the American Nazi party, as a commander in the naval reserve. Rockwell, of Arlington, Va., will have 30 days to appeal or resign.

TICKET COLLECTOR

NEW YORK (UPI)—New York has a new "King of the scofflaws." Chief Magistrate John Murrigh Friday said the dubious title goes to William B. Thompson, 31, an unemployed cook who was identified as the possessor of 173 traffic tickets dating back to 1955. Thompson was held in \$10,000 bail for a hearing.

'Running Bear' Is Week's Top Tune

CHICAGO (UPI)—Johnny Preston maneuvered his swift traveling hit "Running Bear" into the No. 1 spot this week in United Press International's top 20 tune list.

"Running Bear" nudged Marty Robbins' folksy "El Paso" into second place. The tune about the West Texas city had held the coveted top spot for three consecutive weeks.

In third was Frankie Avalon's "Why," and "Teen Angel" found itself in fourth place.

"Way Down Yonder" and "Go Jimmy Go" were settled side-by-side in the fifth spot.

"Where or When" by Dion and the Belmonts climbed into seventh and Tom Fisher's "The Big Hurt" slipped to No. 8.

Mary Johnson moved back into the leading ten with his No. 9 disc "You've Got What It Takes." The Village of St. Bernadette" was holding on to the No. 10 spot.

The top 20 (numbers in brackets indicate position this week, last week and number of weeks in survey):

- (1-6) Running Bear, Johnny Preston, Mercury.
- (2-1) El Paso, Marty Robbins, Columbia.
- (3-7) Why, Frankie Avalon, Chancellor.
- (4-3) Teen Angel, Mark Dinning, MGM.
- (5-3) Way Down Yonder in New Orleans, Freddie Cannon, Swan.
- (6-4) Go Jimmy Go, Jimmy Clanton, Ace.
- (7-12) Where or When, Dion and the Belmonts, Laurie.
- (8-4) The Big Hurt, Tom Fisher, Signet.
- (9-16) You've Got What It Takes, Marv Johnson, United Artists.
- (10-9) The Village of St. Bernadette, Andy Williams, Cadence.
- (11-8) It's Time to Cry, Paul Anka, ABC-Paramount.
- (12-11) Pretty Blue Eyes, Steve Lawrence, ABC-Paramount.
- (13-12) Tracy's Theme, Spencer Ross, Columbia.
- (14-12) Sandy, Larry Hall, Strand.
- (15-9) Hound Dog Man, Fabian, Chancellor.
- (16-13) Among My Souvenirs, Connie Francis, MGM.
- (17-9) Handyman, Jimmy Jones, Cub.
- (18-12) Not One Minute More, Della Reese, RCA-Victor.
- (19-1) Down by the Station, Four Preps, Capital.
- (20-17) Smoke, Bill Black, Hill.

Miss Britten, C. Acker Wed With Nuptial Mass

Miss Louise Britten became the bride of Charles Acker with vows solemnized at Nuptial High Mass by the Rev. Fr. J. Arnold Carlson in Groom St. Mary's Church. Doubling vows were said at four o'clock.

Miss Britten is the daughter of Mrs. Josephine Britten of Groom. The bridegroom's parents are Mr. and Mrs. Andrew Acker of Nazareth.

St. Mary's Choir with Miss Georgann Britten as organist and Mrs. Thomas N. Britten, bride's sister-in-law, as director, provided the nuptial music.

The wedding scene was adorned with poinsettias on the altar. Pews were marked with white satin bows and sprigs of holly. The satin-covered prie dieu, where the bride and bridegroom knelt for benediction, was draped with sprays of fern.

BRIDE
Given in marriage by her brother, Raymond C. Britten, the bride wore a floor-length gown of crystalline taffeta, which extended from a basque waist into a bouffant skirt, appliqued with lace medallions which swept to a chapel train. The long, tapering sleeve

of rosepoint lace fastened with self-covered buttons at the wrist; the neckline and bodice were of rosepoint lace reembroidered with mother-of-pearl and iridescent beads.

Her fingertip Veil of tulle illusion was edged with matching rosepoint lace and secured to a headpiece of mother-of-pearl and iridescent beads. She carried a bouquet of red roses.

ATTENDANTS
Mrs. D. D. Homen of Panhandle attended as matron of honor. Miss Josetta Acker of Nazareth, bridegroom's sister, served as bridesmaid. They were dressed identically in street-length dresses of Christmas Green silk organza over taffeta fashioned with standaway necklines, brief sleeves, wide fitted belts and full skirts. They wore dyed-to-match slippers and white feather hats. Each carried an arm sheath of white mums and pompons.

Jerry Acker of Nazareth, bridegroom's brother, was best man. Melvin Britten, bride's brother, was groomsman. Ushers were E. N. Babcock, brother-in-law of the bride and David Acker, bridegroom's cousin.

Master Tony Britten, bride's nephew and cousin to the bridegroom, carried the rings to the bridal pair on a white satin pillow. Miss Diana Britten, bride's niece and bridegroom's cousin, was flower girl wearing red taffeta fashioned with a Peter Pan collar, puff sleeves, full skirt encircled at the waist with a sash. She wore a white hat and scattered petals from a white basket tied with tulle, orange blossoms and holly.

The mother of the bride, Mrs. Britten, wore a blue suit; black accessories and a corsage of white pompons. The bridegroom's mother, Mrs. Acker, chose a light-blue suit, black accessories and a corsage of white pompons.

Altar boys were Jimmie Conrad and Lynn Britten.

RECEPTION
A reception was held in St. Mary's Parish Hall immediately following the ceremony. Presiding at the bride's table were Mmes. M. George Britten, James Britten

Mr. and Mrs. Charles Acker

Mrs. John W. Price

Mrs. Ruth Hubbard, 406 N. Dwight, announces the marriage of her daughter, Juanita, to John W. Price of Plainview, son of Mr. and Mrs. J. D. Price of that city. Wedding vows were solemnized by the Rev. Derrell C. Fryman in Church of the Brethren on January 4 at five o'clock. Mr. and Mrs. Price are now making their home at 1009 El Paso, Plainview. Approximately 25 relatives and intimate friends attended the ceremony.

Borger To Host Fifth Annual Meeting of Nineteenth District PTA Congress

Initial plans for the fifth annual Nineteenth District Texas Congress of Parents and Teachers were formulated by the PTA executive committee on Jan. 12, in Hotel Borger. Mrs. M. E. Lewis, Pampa, president, conducted the planning session for a two-day conference scheduled for Feb. 23-24 in Borger.

Mrs. Doyle Alexander, president of the Borger City Council, and Mrs. Claude Harrington, general chairman, will make the local arrangements for the conference. The opening day will include the annual meeting of the Board of Managers, including district officers and committee chairmen, at 3 p. m., in Stephen F. Austin Junior High School. This group, with Borger school and PTA executives, will be honored at a banquet, in Hotel Borger, at 7 p. m.

The official program will begin Tuesday, April 26, with a special session in the auditorium of Stephen F. Austin School, followed by six workshops. Pamphlets arranging workshops include Misses Jack Foster, B. E. Tidwell, R. A. Mack, C. A. McLennan, J. M. Key.

Attending the planning session were Misses Lewis Tidwell, Foster, Pampa; Misses Paul Leach,

RUTH MILLETT

The writer, Sophie Kerr, who is in her 79th year, has written the best article on old age that I have ever read.

In the issue of Coronet magazine the editors have given it the honest, down-to-earth title of "Wise Words From an Old Lady."

Starting out with the observation that all too many old ladies "look grim" Miss Kerr goes on to advise on the ways in which an older woman can accentuate the positives and cut the losses to keep old age from becoming a frustrating, lonely, bewildering time of life.

She admits quite frankly that old age has many limitations. But she points out that it has its privileges, too.

"We old ones must use the muscles of our bodies and the muscles of our minds as far as they will go and neither envy nor imitate youth."

"We had it once and we can look back with gratitude, for now our finest memories take the place of the vague, feverish dreams and ambitions of our youth. We are, in fact, living the future to our youth."

Altrusa Club Programs Evaluated At Luncheon

Pampa Altrusa Club evaluated its programs given during the past year at a luncheon meeting held Monday in Pampa Hotel.

Mrs. Clyde Vanderburg, first vice president, presided in the absence of the president, Mrs. Mark Heath, and was moderator for the discussion.

Participating in the panel discussion were program chairmen, Mrs. Lorene Locke, public affairs; Mrs. Vera Lard, vocational information; Mrs. L. L. Harkins, information; Mrs. Irl Smith, international relations.

Mrs. Harkins led in a discussion of programs presented under her information chairmanship by asking "What was your reaction to delegates reports from International Convention; and 2) How did the classification costume party benefit members? Answers to these questions revealed that from delegate reports of international and static meetings, members become better informed as to the club's over-all projects on a state and international level.

Consensus of opinion of the second question was that it was felt that the Classification Costume party helped members better visualize the executive classification of her sister-member which qualifies her for membership in Altrusa.

In connection with the International Relations program presented by Mrs. Smith and her committee, it was brought out that the program on United Nations was so large in scope that the committee decided to prepare the topics on the least known and least publicized works of the UN, and the Grants-In-Aid program enables Altrusans to see what is accomplished by providing scholarships and aid to foreign-born students.

In discussing the vocational programs, presented by Mrs. Lard and her committee, discussion brought out that the Career Girl, selected monthly by the Pampa High School student council, had been worthwhile and the great interest stimulated in it so that high school girls deem it an honor to be so chosen. "So much so," Mrs. Lard said, "that when two honors are offered a chosen girl, she will nearly always select being an Altrusa Girl of the Month over the other honor."

"The Career Clinic, sponsored jointly last January by the Chamber of Commerce, Jaycees and Altrusa Club, has been evaluated highly," Mrs. V. L. Hobbs, reported. "So much so that the counselors themselves feel that a great deal of good has been accomplished and they are willing again to give of their time to participate in the clinic."

Miss Glenda Finkelstein, special guest, who has been named Girl of the Month for January, remarked that she wished it were possible to attend more than two of the sessions in the clinic.

Also in the vocational field, it was felt that the guest speaker, Kay Fancher brought a timely and informative program on careers for women in the insurance field and the explanation of the new insurance rules.

Discussion of the Public Affairs programs prepared by Mrs. Locke and her committee were evaluated as worthwhile because of the traffic safety talk given by Chief Jim Conners in which he stressed that traffic laws were passed for protection, not persecution. The juvenile delinquency program presented by Dr. Hugh Fennell of Amarillo was also felt to be invaluable because of the background factors which he discussed with the group. He clearly defined the problem by stating that not all emotionally disturbed children were delinquent, but all delinquent children were emotionally disturbed.

During the business meeting, Mrs. Vanderburg named Mrs. V. L. Hobbs, chairman, Mrs. Jack P. Foster and Miss Irla Pool to the nominating committee.

Reports were given by Mrs. Frank Shottwell, secretary, Mrs. Joe Tooley, treasurer, Mrs. W. A. York, Senior Center Chairman, Miss Jay Flanagan, Council of Clubs delegate.

Miss Henriette DeNardin, Altrusa Girl of the month for December introduced Miss Finkelstein, who has been selected by the Pampa High School student council, as the career girl for January. Miss Finkelstein is the daughter of Mr. and Mrs. D. A. Finkelstein, 1901 Russell. She was born in Pampa and has attended elementary, junior high and senior high schools in Pampa. She is a member of The Psi Chi, historian for Student Council, Girls Choir, Tri-Hi-Y, JCL, worthy advisor for the Order of the Rainbow for Girls, Kit Kat Klub, and has studied dancing for 12 years. She plans to attend TU and major in speech therapy.

During the meeting, Mrs. W. A. Spoonmore urged members to pay their poll tax in order that they may cast a vote in the coming important elections.

Correspondence was read from Mrs. Jack Bertolini, who is now residing in Arizona and from Pampa Classroom Teachers Ass'n extending an invitation to attend a meeting on Feb. 25 in Robert E. Lee Junior High School at which time D. E. Scott of Wellington, writer of "Cross Roads Report" will be the guest speaker.

Announcement was also made of the Book Review to be sponsored by Delta Kappa Gamma Sorority on Feb. 4 in Lee Junior High.

Mrs. Edith Dean of Fort Worth will review "Great Women of the Christian Faith."

Mrs. Henry Ivy of Friona, sister of Miss Lou Ella Patterson, was welcomed as a guest.

ENGAGED

Miss Helen Janice Bruner

Mr. and Mrs. Sam Bruner of McLean announce the engagement and approaching marriage of their daughter, Helen Janice to James W. Whitacker of Amarillo. The wedding is planned for February 6 at six o'clock in Wesley Methodist Church of Amarillo.

The rush and push of earlier days are done; instead we have more selection of activity, more dignity, a broader vista; a more even judgment.

"We can live according to our own customs, holding the treasures of age and valuing them. And we can surely loosen that prevailing grimness of our faces by forcing up the corners of the mouth and smiling confidently at the coming generations, assured that we will receive a smile of confidence in return."

Her words, for the old, offer inspiration and courage. The young can read it for an understanding of the meaning of age.

Pampa

A Home-Town Touch

To add an artistic touch, as well as illustrate hometown talent, Coronado Inn board of directors has invited the Pampa Art Club to supply works of local artists for hanging in the Inn. According to Mrs. Loyal Davies, club president, the club has worked out a plan whereby each painting will be shown for about a month; then others will replace them. Speaking for the club, Mrs. Davies said, "We appreciate the opportunity this affords to offer encouragement to Pampa artists. We will take pride in showing hotel guests the scope of our local talent." The changing show will feature abstractions,

realistic, portraits in oil, water color, and pastels and enameled mosaics and, later on, sculpture. Some of these will be marked "not for sale"; others will have a price listed in the event anyone wishes to purchase one. Pictures hung this month are "Manhattan Morning" by Mrs. Tom Eller; "Moonlight Tree" by Miss Helene Huff; abstract study by Mrs. Joe Gordon; and copper enameled mosaic "The Card Game" by Mrs. Fred Sloan. Pictured above, left to right at the initial hanging of "Manhattan Morning," are members of the Pampa Art Club Mmes. Jack Crites, A. D. Hills, Dona Cornutt and Mrs. Davies. (Daily News Photo)

 - 7:30 — Pampa Rebekah Lodge, IOOF Hall, 210 W. Brown.
 - 8:00 — Order of the Rainvow For Girls, Masonic Hall.

Mental Health Timely Topic For TC Club

The timely topic of Mental Health was the program for the Twentieth Century Study Club Tuesday afternoon in the home of Mrs. Raymond Harrah.

After calling the meeting to order, Mrs. Robert Sanford, president, asked Mrs. Jack Foster to lead the club in Pledge to the Flag and Club Litany. During reports of committees, Mrs. Harrah presented each member with a pamphlet "The Intelligent Woman's Guide to Art" which was prepared for distribution to the General Federation of Women's Clubs. This is the first of a series of such booklets.

Mrs. Ronald Hubbard and Mrs. R. W. Stowers were elected as delegate and alternate for the district convention, which will be held March 21 - 22 in Lubbock.

Mrs. G. F. Brandon, chairman of the nominating committee, reported the following — Mmes. Ronald Hubbard, president; R. W. Stowers, vice president; Mrs. Roy E. McKernan, secretary; K. I. R. Duncan, treasurer; Raymond Harrah, parliamentarian; Fred J. Nealage, critic; H. E. Stanfield, reporter; Robert Sanford, council of clubs representative; Tom Rose, federation counselor.

Mrs. Foster, as leader, introduced the program on Mental Health by explaining the misunderstanding of mental illness. In preparation for this program, Mrs. Foster spent five days in the psychiatric ward of a St. Louis, Mo. hospital visiting patients, doctors and nurses. She described the many different types of illness including heredity and the breakdown of the nervous system.

She said much improvement has been made in treatment and equipment in the last 20 years. "Nothing is present in the wards by which any patient can hurt himself or be hurt. The food is prepared and served in a manner which makes it easier for the patients to eat. One of the nicest things is the way the patients help each other. As one improves, he is pleased to aid someone in more need."

Mrs. Tom Rose discussed the part the individual plays in mental hygiene. Each person is responsible for the care of the health of his body," she said. Even though millions suffer emotional upsets, there is no longer a stigma on mental illness.

"It is very difficult to separate mental and physical health," Mrs. Rose pointed out. "A well rounded personality is one of the main principles of mental hygiene. In order for adults to grow, and they need to, they must not resist change and they must not attach too much importance to minor virtues. Worry, nagging, and procrastination do more than their share of harm. We can accept who we are and what we are more gracefully, if we are as conscious of our good qualities as we are aware of our weaknesses. Some rules for a well-balanced life are happy

thoughts, goals that are possible, discuss tensions as they appear and talk over our problems remembering there is no stigma to mental illness."

Mrs. H. R. Thompson discussed the part the family plays in mental hygiene by playing the family is the unit of society in which life is begun. "Our character is formed and our parents point the direction of our development. Our emotional needs are expressed here," Mrs. Thompson stated. "We learn to give love by receiving security and we learn to accept others from our need to be accepted. If our future mental health is to be good, our basic needs must be satisfied while we are young. We have a definite place in our family and we must be allowed to grow naturally while being limited by our parents."

"As we grow older we play with others outside our family circle and as we start to school the teachers replace parents part time," Mrs. Thompson continued. "As children, we must be guided not driven. A group of volunteer workers started a youth development project named Galveston Youth Council which is designed to offer aid to the adolescent. This organization is state wide now and 120 young people are being treated a year. It is now the aim to work with a family as a whole rather than the individual. Twenty families were checked after visiting the clinic and 16 of these showed improvement after treatment. A troubled family can grow into a happy family again."

Stephen McGrady, head of Department for the Exceptional Children in Pampa, as a special guest, explained the part the community plays in this problem. McGrady teaches the physical handicapped children's class at Travis School. He described the difference between exceptional and retarded children. "We have a responsibility to the gifted as well as the retarded children," Mr. McGrady said. "Special tests are planned for the gifted to allow them to progress as fast as they can."

He pointed out it is the responsibility of the community to inform about our affairs and then to be willing to do something about the needed things. "If a man can well be proud of the state we are taking toward better mental hygiene, we have made a stride forward in our problem," Mr. McGrady reminded us of (Continued on Page 15)

Distinguished Guest At Piano Teachers Meet

Mrs. Margaret Harper, president of the Community Concert Board of Canyon, was guest speaker at the Monday meeting of Pampa Piano Teachers' Association in the City Club Room.

Mrs. Harper was born in St. Paul, Minn., and grew up in Evansville, Ill. She attended Northwestern University and received her Bachelor's degree from the University of Arizona and her Master's from the University of Chicago. During her stay in Chicago, she continued piano work at the American Conservatory under Gall Martin Haake. Her other study was with Julia Rebell in Tucson and Marian Keighley Snowden. During her college years and after, Mrs. Harper traveled as accompanist for her father, Rollin Pease, a baritone distinguished for her singing of oratorio.

Before adopting the teaching of music as her profession, Mrs. Harper served on the staff of International House at the University of Chicago; taught in Tucson Public Schools; directed a large school for girls in Callao, Peru during a five-year residence in Lima. When her husband, Dr. Ples Harper was called to Canyon to head the language department at West Texas

piano studio in Canyon since she is past president of Music Arts Club of Canyon; of AAUW, Canyon branch; and of Canyon Community Concert Ass'n. She is a member of Alpha Phi sorority State, Mrs. Harper returned to the musical field and has had a and the honor societies of Phi Kappa Phi and Phi Beta Kappa.

Mrs. Harper is editor and co-author of "The Peruvian Way," which is used as a text book for the analysis of foreign customs. She has written several articles for magazines and is the author of "Meet Some Musical Terms," a musical dictionary for children, illustrated, which the Carl Fischer Music Corp. released last month.

Speaking on the topic "Ensemble Performance," Mrs. Harper emphasized the importance of "togetherness" in ensemble work, even to the point of the performers' pulses beating in harmony.

"Each performer must feel the structure of the piece alike. It is high points and lesser moments, in order to achieve an artistic performance," she stated.

Mrs. Harper also stressed that proper balance between the instruments could be obtained only by a careful study of the composition to determine which performer

must emphasize or subdue his part at a given time.

It was announced that Mrs. Esther Johnson Garlinghouse of Amarillo has been selected to serve as judge for the Sonatina Festival to be held Feb. 17-21.

Hostesses for the day were Mrs. Fidelia Yoder and Mrs. Ramon C. Wilson. The luncheon tables were centered with arrangements of dried dried materials and natural green ivy, with runners of the ivy extending the length of the tables.

During the business meeting, Miss Marjorie Word announced that club members would cooperate with March of Dimes campaign. Members were asked to meet in front of the First National Bank on Jan. 16 at 9 a.m.

Plans were discussed regarding financial projects to purchase jackets for new members and club pins for each member. Included in these projects will be the Charity Ball; collecting and selling Coke bottles; rummage and bake sales.

Attending the meeting were Misses Nancy Bailey, Sally Parsley, Helen Humphries, Jackie Beachamp, Alyce Flaherty, Pam Goodlett, Ruth Irwin, Vickie Payne, Lette Roberts, Patty Foster, Sue Burnette, Jean Nichols, Dania Cantrell, Mary Alice Combes, Myrena Hardruk, Virginia Vance, Jean Gerick, Idella Lane, Linda Frazier, Gay Shemons and Marjorie Word; and sponsors Mmes. Betty Brake, Lee Nichols.

During the social hour, the host-

Basketball Dance Planned By LCC

Las Cressas Club met Tuesday evening in the home of Miss Pam Goodlett, 515 Magnolia and made plans for a Basketball Dance for after the game with Borger on January 29. Miss Jean Gerick was named chairman of dance arrangements with Miss Dania Cantrell in charge of decorations.

It was also reported that rhythm band instruments, round work-table large clock and a full-length mirror is being purchased for Exception Children's classes in Sam Houston and Travis Schools.

Also on the business agenda was a discussion of plans for the annual sponsorship of Jean Willingham's Dance Recital.

Refreshments were served by the hostess during the social hour assisted by Mrs. Max Hickey.

Members present were Mmes. Charles Robinson, Louie Hooper, W. J. Chambers, Ann Cohea, Bill Spidell, W. B. Pugh, E. W. Hogan, Melvin Watkins, Kay Howell, Paris Brunley, John Nutting, Bruce Parker, Frank Baker and W. W. Reek.

MRS. BRITTEN
(Continued From Page 12)

of White Deer, sisters-in-law of the bride, and Mrs. Joe Gidden, sister of the bridegroom. Mrs. Donald Peters (nee Miss Alby Ann Keulor) was guest registrar. Miss Georganna Britten, pianist, provided background music. Other members of the houseparty were Mmes. W. R. Babcock, E. N. Babcock, and R. C. Britten. Miss Luegna Fubhard of Lubbock was in charge of the gift display.

For a wedding trip to South Texas and Old Mexico, the bride traveled in a blue knit suit with a blue topper complemented with black accessories and red rosebud corsage.

The bride was graduated from Co. High School; West Texas State College and is now employed by Hereford public school system. The bridegroom was graduated from Nazareth High School; spent two years in the armed services and is now engaged in farming near Nazareth. The couple will make their home 603 E. 5 in Hereford.

Prominent Author DKG Book Guest Mardi Gras Dance Planned By Ass'n

Beta Delta Chapter of Delta Kappa Gamma held its regular meeting Saturday afternoon in the home of Mrs. Quentin Williams, 2011 Christine.

Through a skit set in the home of Mr. and Mrs. John Q. Public, Miss Claudia Everly, Miss Mary Reeve, and Mrs. Lula B. Owen gave an evaluation of modern teaching media.

Mrs. R. E. Batson, reporting for the book review committee, announced that Edith Deen would review her book, Great Women of the Christian Faith, Feb. 4 in Lee Junior High Auditorium.

"Edith Deen," said Mrs. Batson, "is an outstanding author, lecturer and public personality. Since her publication of All of the Women of the Bible four years ago, she has become well-known to a nationwide audience outside her native Texas."

Mrs. Kenneth Walters, president, announced that plans are being made for the visit of Alpha state president Nell B. McMains of Texas City. Members from chapters in Amarillo, Borger, Dumas, and Clarendon will be guests at a tea in her honor on Feb. 13.

Hostesses for the meeting in addition to Mrs. Williams were Mrs. John Evans, Miss Pearl Spaugb, Mrs. Perry Gault, Mrs. M. Roy Sullivan, and Mrs. L. K. Stout.

nado Inn bathroom. Music will be furnished by the Mello-Aires. Tickets will be \$5 per couple.

It was announced that the school children had donated \$46 to the orphan's home in Panhandle.

Mrs. W. J. Pung introduced Mrs. Frank Culberson who spoke on "An Approach To Communism." She stated that the majority of Americans are not aware of the growth and strength of communism in the United States. She listed several books on communism for those wanting more information.

A report was made on plans for the annual Mardi Gras dance to be held Feb. 27 in the new Coronado Inn bathroom. Music will be furnished by the Mello-Aires. Tickets will be \$5 per couple.

It was announced that the kindergarten class won the PTA attendance prize. Refreshments were served by the refreshment committee.

One ounce of dehydrated mushrooms is equivalent to one pound of fresh.

MENTAL HEALTH

(Continued From Page 14)

part the library is playing in bringing the responsibility for mental health to the community.

"Our churches, schools and clubs are responding to the need for building good mental hygiene," Mr. McGrady, concluded by saying mental hygiene is a broad field and there is much work to be done in it.

Members of the club were privileged to view a portrait of Mrs. W. Boyd of Denton, state president of Texas Federation of Women's Clubs, painted by Mrs. Harriet.

This portrait is to be presented to the Seventh District in March by the Federated Clubs of Pampa and will hang in the Texas Federation Headquarters in Austin.

Robert Lindsey, State Trustee of Texas Federation Headquarters, was a special guest.

A. W. Brown, Mrs. Foster's brother, and Mr. McGrady were guests.

Members present were Mmes. F. Branson, E. L. Campbell, W. Campbell, F. M. Culberson, J. Duncan, Jack P. Foster, J. Gordon, Raymond H. H. H. Hicks, Ronald Hubbard, Loye Locke, Roy McKernan, Wal-Pung, Tom Rose, R. H. San-H. E. Stanfield, R. W. Stow, H. B. Thompson, V. J. Jam-

void scouring waffle irons, the manufacturer's advice. Let the iron with the cover open, then wipe chrome-finished outside surfaces with a damp cloth and mild soap. Remove waffle grids from baker and wash in a dishpan.

When cooking leg of lamb, do not remove the thin outer covering, called the fell. The roast will cook in less time and hold its shape better if the fell is left on.

Pampa African Violet Society Notes First Anniversary Of Organization

Pampa's African Violet Society celebrated its first anniversary of organization with a party in the home of its president, Mrs. V. N. Osborn on Tuesday at 7:30 p.m.

The society was organized in February, 1959 in the home of Mrs. Osborn with 12 charter members. Qualification for membership in the society is an interest in the growth, culture and propagation of African Violets. Anyone interested is invited to visit the meetings.

Officers for the past year have been Mrs. Osborn, president; Mr. H. H. Stull, deceased, vice president; Mrs. W. Lee Moore, secretary-treasurer; Mrs. C. C. Matheny, reporter; Mrs. R. F. Dirksen, historian; Mrs. Joe Shelton program chairman.

During a short business meeting, conducted by Mrs. Osborn, new officers for the coming year were elected as follows: Mmes. W. Lee Moore, president; R. F. Dirksen, vice president; Norman Walberg, secretary-treasurer; Holly Gray, historian and librarian; P. V. Rowe, reporter.

The program for the evening consisted of a report by Mrs. Dirksen on the newest thoughts in watering of African Violets; Mrs. Moore reported on methods of rooting of leaf cuttings; Mrs. Thelma Bray gave a brief description of how to plant violets in plastic berry-baskets.

Programs during the past year have included the showing of films on violet growth at the Tinsari Violet House in Pennsylvania; another film shown by Ronnie James on the care of violets; and a report by Mr. Stull on his trip to Venezuela.

Refreshments were served during the social hour to Mmes. R. F. Dirksen, P. V. Rowe, C. C. Math-

New Officers For DMF Auxiliary

New officers introduced at the Thursday evening meeting of DMF Auxiliary, Gasoline and Production in recreation hall west of the city, were Mmes. W. R. Bonnell, president; W. C. Hutchinson, first vice president; C. M. Simmons, second vice president; Ira Carlton, secretary-treasurer; James Russell, reporter.

Mrs. Russell was awarded the door prize during the social hour. Refreshments were served from individual tables decorated with "In Our Mother's Day" theme by Mmes. C. M. Simmons, N. E. Dulaney, F. L. Hoggett, and E. S. Cantrell.

Chocolate Bon Bon Ice Cream Delicacy

Chocolate Bon Bon, a new ice cream developed by the Meadow Gold Ice Cream Division of Beatrice Foods Co., will be featured nationally as the company's special flavor of the month for January and February.

The new creation consists of semi-sweet chocolate flakes whirled into a rich vanilla ice cream. It will be obtainable in half gallons and pints in stores and at soda fountains.

Rather than wear a hair style that's very becoming, but extremely difficult for you to maintain yourself, reserve that one for special occasions. Have your beautician style your hair in a manageable manner for everyday wear.

Bake Sale Planned By Medical Group

Plans for a bake sale were completed at a meeting of Gray County Medical Auxiliary held Monday in the home of Mrs. Julian Key. The sale is to be co-sponsored by Pampa High School Future Nurses Club and will be held sometime in January. Proceeds derived from the sale will enable the club to send three delegates from Pampa to Austin in March for the state convention of Future Nurses.

Plans were also discussed for a tea honoring Mrs. Frances Hatfield of Kerrville, state chairman of the Women's Auxiliary to the Texas Medical Association. The president will visit the Top of Texas Region on Mar. 14. The tea will be held in the home of Mrs. Julian Key with Mrs. Raymond Laylock in charge of arrangements.

The Oil Outlook

By JIM T. LACY
Daily News Managing Editor
ANNUAL MEETING

Drilling activity apparently has not recovered from the holiday period, according to last week's report from the Texas Railroad Commission.

PLY US WITH NEWS

Drilling activity apparently has not recovered from the holiday period, according to last week's report from the Texas Railroad Commission.

CONGRATULATE

The 122 employees of Phillips Petroleum Company's Texas Panhandle Production District completed January 6 two million consecutive man hours of work without a disabling injury. We salute them on this achievement.

GOOD NEWS AHEAD

Thirty-one chairmen or presidents of oil companies took a look at the "Petroleum Engineer" and their consensus of the oil outlook is: Capital outlays will be up 2 per cent; domestic demand for oil products will rise 4 per cent over 1959; U.S. exports will be less in 1960; free world demand outside U.S. will increase approximately 7 1/2 per cent; prices of crude oil and products expected to change little; domestic oil production will increase 10 per cent, and finally, refinery capacity will be up about 3 per cent over 1959.

The picture is not boom news, either is it gloom news.

ACTIVITY DOWN

Rotary rigs actually making holes in Texas, as reported to the American Ass'n. of Oilwell Drilling Contractors, were 562 working Jan. 1, as compared to 721 a year ago. Last week in Texas 862 wells were being drilled, and a month ago, Dec. 14, 774 rigs were "rotating."

PROMOTION ANNOUNCED

Joe Mefford, assistant division production superintendent with the Tulsa division of Sinclair Oil Gas Co., has been promoted to division production superintendent with the Midland Division, effective Jan. 12.

MORE BUTANE STORAGE

Texaco, Inc., announced Friday plans to triple present capacity of a 100,000-barrel storage well 8 1/2 miles from the Sour Lake field. Expansion of the underground cavity in the Salt Dome will begin this month and is scheduled for completion by late spring. A leaching process, using water to dissolve the salt, will be employed. With completion of the expansion program, total capacity for Texaco's underground butane storage at Sour Lake field will be 800,000 barrels.

RECEIVES AWARD

Among three Texas industrial firms singled out to receive the Texas Manufacturers Association's Benjamin Franklin Awards for outstanding company publications was The Schumberger Well Surveying Corp. The award was for the most effective continuous program of discussing vital issues of an economic, political and labor-management nature in the company's regularly published "Sonde Oil."

ORDER MUNITIONS

LISBON (UPI) — West Germany has ordered 35 million dollars worth of munitions from two Portuguese armament plants, it was announced here Friday.

52nd Year THE PAMPA DAILY NEWS SUNDAY, JANUARY 17, 1960 17

Approval Granted Pipeline Project

HOUSTON (Sp) — More than \$200 million in financing for the construction of the major pipeline from the West Texas and New Mexico Permian Basin and the Texas and Oklahoma Panhandle was reported complete in Transwestern Pipeline Company's first progress report to stockholders this week.

The financing, which provides sufficient funds to complete the pipeline and construct additional facilities costing in excess of \$5 million announced recently, was broken down as follows:

- 1. Paid in capital by organizers \$10,000,000
- 2. Sale of 400,000 units to the public (\$40,000,000 5 percent 10-year debentures and 2,000,000 shares of common stock)
- 3. Sale of 5 1/2 percent first mortgage bonds 102,742,500
- 4. Five year 5 percent bank loans 28,000,000
- Total \$200,742,500

The company said that as of January 1, 1960, a total of 197,100,000 had been committed for construction materials and approximately \$84,000,000 paid out. All pipe required for the total project has been purchased and delivered to locations in the field, either stacked on rail siding along the pipeline route or in the process of being strung along the right-of-way. All compressors have firm delivery dates and field work on compressor stations has been progressing better than expected. It is estimated that the pipeline will be completed in July, 1960.

Progress in the field has been better than anticipated, with 475 miles of right-of-way cleared and 178 miles of the main system consisting of 30-inch, 24-inch, and 20-inch pipe having been welded and lowered in the ditch as of January 1. Construction of the field lateral and gathering systems is progressing satisfactorily. Construction of a carbon dioxide removal plant in the Puckett field in Pecos County, Texas, has been completed and the plant pitted in "moth balls" pending completion of the pipeline. This plant is capable of treating 180 million cubic feet of gas per day and can be easily expanded if necessary.

Reporting on construction progress the report said at the present time eleven spreads are at work in the field with a total of 3,613 people directly employed in construction and supervision. More spreads can be employed if necessary, but with the progress being made to date it appears these will not be required. A "spread," as used in the pipeline industry, is an integrated pipeline crew having all equipment necessary for complete construction.

Regarding the status of construction of the receiving end of the line, Transwestern's officials said that Pacific Lighting Gas Supply Company, its customer, had informed the company that necessary pipe for the facilities had been acquired and that completion of its pipeline from the Colorado River to their existing system is on schedule and coinciding with Transwestern progress.

"The company's gas purchase contracts in the Texas and Oklahoma Panhandle in addition to covering large developed reserves also cover approximately 800,000 acres of undeveloped oil and gas leases. Since the signing of these contracts substantial additional gas reserves have been discovered by our gas suppliers on some of the undeveloped oil and gas leases committed to our gas purchase agreements," the report said.

Spotlight Falls on Sabin And Live-Virus Vaccine

Dr. Albert Bruce Sabin, whose name has made front page medical news in the past few months, has traveled a long way since his childhood.

For the first 15 years of his life he lived in Bialystok, Poland. The chances that he would ever emerge from this obscurity were dim indeed.

Million Dollar Research Today, however, he is known as one of the leaders in the long, often discouraging battle against polio. His specialty is the development of a vaccine made of strains of viruses "tamed" to give immunity against polio, though they have lost their power to paralyze.

Dr. Sabin's medical research ability was early recognized by The National Foundation, parent organization of the New March of Dimes. As far back as 1940, he received his first research grant, often subsequently renewed. The total sum now stands at well over a million dollars.

During the last two summers, the sudden reappearance of polio in epidemic form turned the national spotlight on the live-virus vaccine, Salk vaccine, produced by killing the virus with chemicals, was also developed under March of Dimes grants. It brought high protection to millions. But other millions resisted or neglected to get their injections and whole areas remained "vaccination soft spots" vulnerable to epidemic attack.

Vaccine in Candy Now reports began coming in that the live-virus vaccine was almost 100 per cent protective and gave immunity that could last a lifetime with only one dose, taken orally in syrup or candy. It was cheap, could be distributed easily and was infinitely adaptable to administer than Salk injections. More field trials and licensing by the U.S. Public Health Service are needed, however, before live-virus vaccine can be widely used.

Obviously Dr. Sabin's contributions to the nation's health will give him a ranking position among research scientists. Here are a few outstanding dates pin-pointing his successes:

1921: Young Sabin and family managed to immigrate to the United States. He lived in Paterson, N.J., where he attended high school.

1931: At New York University's medical school he started his first research effort. He found that a skin test, then thought to indicate polio susceptibility, was not valid.

1935: Joined the research staff of the Rockefeller Institute, doing basic research on the poliovirus. A year later he and Dr. Peter K. Orlansky found a way of growing the virus in test tubes on nervous tissue, a major breakthrough.

1939: Transferred to the University of Cincinnati's College of Medicine where he performed many autopsies on persons who had died of polio. Established conclusively that the poliovirus did not reach the brain by way of the olfactory nerves.

1953: Succeeded in breeding poliovirus in mutated form. These new strains multiplied in the human body and created protective antibodies, yet did not have the strength to cause paralysis.

1959: Dr. Sabin's vaccine has been given massive field trials to a total of over 6,000,000 persons outside the United States. Full and final reports have, however, not yet come in.

American health authorities, including the Vaccination Advisory Committee of The National Foundation, have advised caution in use of live-virus vaccine in the United States at this time. More field trials and evaluations, with more comprehensive reporting, were recommended. Meantime Dr. Sabin himself—having urged all Americans to get Salk injections until the live-virus vaccine has been licensed.

Dr. Albert B. Sabin, who developed a live-virus polio vaccine, points to the area in eastern Europe where mass field trials have been held. He is shown with Dr. Thomas M. Rivers, vice president for medical affairs for The National Foundation, parent organization of the New March of Dimes, which financed the live-virus vaccine research.

tributions to the nation's health will give him a ranking position among research scientists. Here are a few outstanding dates pin-pointing his successes:

1921: Young Sabin and family managed to immigrate to the United States. He lived in Paterson, N.J., where he attended high school.

1931: At New York University's medical school he started his first research effort. He found that a skin test, then thought to indicate polio susceptibility, was not valid.

1935: Joined the research staff of the Rockefeller Institute, doing basic research on the poliovirus. A year later he and Dr. Peter K. Orlansky found a way of growing the virus in test tubes on nervous tissue, a major breakthrough.

1939: Transferred to the University of Cincinnati's College of Medicine where he performed many autopsies on persons who had died of polio. Established conclusively that the poliovirus did not reach the brain by way of the olfactory nerves.

1953: Succeeded in breeding poliovirus in mutated form. These new strains multiplied in the human body and created protective antibodies, yet did not have the strength to cause paralysis.

1959: Dr. Sabin's vaccine has been given massive field trials to a total of over 6,000,000 persons outside the United States. Full and final reports have, however, not yet come in.

American health authorities, including the Vaccination Advisory Committee of The National Foundation, have advised caution in use of live-virus vaccine in the United States at this time. More field trials and evaluations, with more comprehensive reporting, were recommended. Meantime Dr. Sabin himself—having urged all Americans to get Salk injections until the live-virus vaccine has been licensed.

SAW PARTIAL SUFFRAGE
In her old age, Susan B. Anthony lived to see the women of Wyoming, Idaho, Colorado and Utah receive the right to vote. All women were enfranchised 14 years after her death.

A livestock pest, the blowfly, will migrate at least 28 miles.

Red Cross Gets Tape Recording

A tape recording from the Summerstand Elementary School in Port Elizabeth, Eastern Cape, Union of South Africa reached Pampa Chapter, American Red Cross this week, Mrs. Libbie Shotwell said today.

Containing songs, stories and messages from the South African Red Cross, the tape recording will be made available by the Pampa Chapter to the Junior Red Cross and the elementary schools of the city, on request, Mrs. Shotwell said.

In 1706, Benjamin Franklin was born. In 1806, the daughter of President Thomas Jefferson gave birth to a boy in the White House, the first birth to take place in the executive mansion.

In 1917, the United States bought the Virgin Islands from Denmark for 25-million dollars.

In 1944, General Dwight D. Eisenhower went to London to assume command of the Allied liberation forces.

In 1946, delegates to the United Nations Security Council held their first session in London.

In 1950, nine robbers, wearing halloween-masks, held up a Boston armored car service and escaped with one-million dollars in cash and 500-thousand dollars in checks, the largest robbery in American history.

A thought for today: Benjamin Franklin wrote, "Do not squander for that is the stuff life is made of."

The Almanac

United Press International

Today is Sunday, Jan. 17, the 17th day of the year, with 349 more days in 1960.

The moon is in its full phase. The morning stars are Mars, Jupiter and Venus.

On this day in history:
In 1706, Benjamin Franklin was born.
In 1806, the daughter of President Thomas Jefferson gave birth

CHEAP FREIGHT?
Before the introduction of roads, it cost 20 to 25 cents ton-mile to move freight over a road. It cost about \$100 to move a ton of freight from New York City to Buffalo, a distance of about 400 miles.

Aluminum once was considered a precious metal, more valuable than gold.

Presenting

THE CORONADO INN

ANOTHER MILESTONE IN PAMPA'S PROGRESS

You Are Cordially Invited To Attend
The Dedication Of The New

CORONADO INN

MONDAY, JANUARY 18, 3:00 P. M.

Success Keynote: 'Preparatory Work'

By JIM T. LACY
Daily News Managing Editor

After all other aspects are considered of the successful community project to provide Pampa with a modern hotel to handle its growing needs, one stands out like a shining light.

That is the completeness with which the project was studied, undertaken and then carried through to overwhelming success. The key to this completeness lies in preparatory work. And nothing spells success more correctly than planning.

The story of the Coronado Inn goes back further than 1955 or 1958, as most persons think of the project in terms of years. The idea was first brought to the public attention in 1949 when the Pampa Chamber of Commerce included in its program of work for that year the first step to fill Pampa's growing need of hotel accommodations.

Civic leaders, members of the chamber mostly, felt that for the town to grow and develop and hold that growth and development it would be necessary to have additional first line hotel accommodations.

More rooms, however, were only part of the need that was apparent to city leaders. There was, and had been, lack of restaurant facilities where persons could dine in a formal atmosphere. But the most needed facility was a place to hold private and public functions where large attendances could be accommodated without crowding.

It was felt, also, that Pampa might benefit by offering facilities, when they were obtained, for conventions, community meetings and other semi-public functions.

The chamber did not hesitate. It approved a citywide survey to determine if the construction of a hotel would be feasible, and if private capital could be obtained to finance such an undertaking.

A well-known firm was engaged by the chamber in 1949 to make a study, and the results of that survey showed a "definite need" for a hotel.

The Hockenbury survey showed that Pampa citizens not only wanted a first rate hotel, but that they

were willing to invest their money to provide it.

Results of the study were quickly acted upon by the chamber, but before action could be taken, the Korean War erupted and plans were shelved, but not forgotten.

It wasn't until 1954 that the hotel fever rose again. And it became the main project of the chamber that year.

Hockenbury System was contacted to make a re-survey to test the temper of Pampa and see if there was willingness to proceed with the project and if local money could be obtained to finance it.

The second survey was more definite even than the 1949 study in public approval.

The results were presented four months later to the chamber and it was voted to go into contract with the Hockenbury System to manage a stock selling campaign. The goal was set at \$800,000. Stock in the hotel and corporation debentures were to be interest bearing. Strictly a business undertaking. No donations, no gifts expected.

The goal of \$800,000 was based on the assumption that an additional \$500,000 could be borrowed to finance a community hotel.

It was in September, 1955, that the Hockenbury team moved into Pampa and started setting up machinery for the campaign. The team was headed by Philo C. Dix, assisted by H. U. Rohrer. The two obtained an office and began forming a local volunteer sales organization.

First step was to appoint an executive committee of men and women leaders in business and the professions. Named to head the committee was George B. Cree, Jr. Others named to head drive divisions of the committee were Ed Myatt, Fred Neisage and Mrs. Viola Jordan.

During the solicitation, approximately 300 persons took an active part.

By November of that year, officials were ready to start the drive. It began that day at a luncheon meeting in the Palm Room of Pampa City Hall.

With the drive underway, division chairmen, directing section chairmen, who in turn worked with

their section chairmen, team captains and workers, daily meetings were held to count successes and gain initiative through pep talks to continue what was not a "snap" task.

One leading figure in the drive said that many times there would be a let-down feeling at one of the noon report meetings. But suddenly some energetic salesman or team captain would jump up from a table, give a rousing speech and the meeting would break up in a cheering flight for the door and a back-to-work attitude.

Day after day, week after week, reports of subscribed stock mounted. A cutoff date had been set earlier, and win, lose or draw, it was the consensus of all that it would be held.

December 8 rolled around — the day for the victory dinner. No one knew if the goal had been reached until a final tally was made by George Cree, Jr. The total — \$817,900 — over the top considerably.

At subsequent meetings, the tally climbed to \$830,000.

The major portion of the stock was sold on 10-month installments, in amounts ranging from \$100 up. Three persons subscribed to \$55,000. They were Mrs. Inez Carter, M. K. Brown, and Tom C. Cabot. More than 1,400 Pampans purchased securities in the venture.

The first step toward starting a hotel was the election of a board of directors, 24 of them, in January, 1957. The board in turn chose an architect, who drew up hotel plans.

A contract was signed and ground breaking ceremonies were held in April, 1958. The hotel was accepted by the board Friday, last week.

More than 1,500 persons subscribed as stockholders in the Pampa Hotel Corp.

Smallest Monkeys
Smallest of the monkeys are the marmosets found in South and Central America, which never are larger than half-grown kittens or squirrels.

Dreary Day, But Happy Occasion For Inn Groundbreaking Ceremony

By MARVIN OLSEN
Daily News Staff Writer

On a cold, windswept Tuesday morning—April 21, 1959—ground-breaking ceremonies were held on the Coronado Inn hotel site, and six days later actual work began. Farnsworth and Chambers Co. Co. completed the work 263 days later on Jan. 15, 1959. At the most there were 110 men working on the

structure throughout this period. There were no major setbacks to and outside walls. In the latter part of June the public eye turned for a moment from the construction to a "Name The Hotel" contest sponsored by the chamber of commerce. Names submitted included the General Grant Hotel, The Big Sky and the Top O' Texas Manor, but the winner was "Coronado Inn," suggested by Mrs. Mable Torvie.

Construction Supt. Bill Boehme said that in his opinion there were short periods. "But," said Boehme, we made two main dates during construction: Aug. 24, when the concrete was poured, and Nov. 1, when the masonry work was completed. On May 30 the foundation was substantially completed. After that date there was day-by-day progress on the building's framework.

a Pampa school teacher. As a winner she and her husband have the distinction of becoming the hotel's first guests for a night's lodging.

In November the swimming pool was dug and installed and by December the building itself substantially completed aside furniture and landscaping. Boehme said that grass and trees will be planted as soon as weather permitted.

Boehme described the Inn as "contemporary style hotel, built along the classic lines."

Aside from Boehme there were six men singled out as having lion's share of responsibility for the construction of the Coronado Inn.

They included Carl Dodson, who served as construction manager; Ed Huff, who handled office and paper work; Alec Steck, the masonry foreman; Gene Fenton of Brooks Electric who supervised electrical work on a day-to-day basis; and Ernie ner, paint foreman from the Austin Co.

The finished product, cost close to \$1.2 million, houses 99 finished rooms, a coffee shop, quiet hall, private dining room, the recently-formed Pampa Chamber of Commerce.

GROUND BREAKING—Ground-breaking ceremonies for the Coronado Inn were held in April and worked started immediately on construction of the 100-room hotel. Breaking the earth to start construction are from left above, C. P. Buckler, Mrs. Inez Carter, George Cree, Jr., Ed Myatt and Warren Hassee, then president of the Pampa Chamber of Commerce, the driving force behind the campaign to secure a new hotel for Pampa. (Daily News Photo)

Parade Planned For Hotel Dedication

The Pampa High School Vester Band will lead a parade dedication ceremonies of the Coronado Inn Monday afternoon.

The parade will start at Highland Baptist Church at 5 p.m. Dedication dignitaries will ride in a covered wagon and accompanying the band and will be the Pampa Roping mounted delegation.

Trick Eyes
Chameleons, best known for their changes in color, have trick eyes. One can look up while the other pivots down, and the eyelids have peepholes that they can shift in all directions.

It took 10 years of planning and promotion on the part of scores of Pampans to bring about the construction of the Coronado Inn.

Reddy Congratulates

CORONADO INN

Reddy takes pride in having had a part in the construction of this much needed hotel. But his duties don't end there — he will continue to serve the Coronado Inn by performing a host of chores to make the guests comfortable and to lighten the load of the staff. Superb lighting, and modern kitchen facilities will make life more enjoyable and easier for everyone.

Nineteen Subcontractors Had Hand In Building Of New Coronado Inn

The cost of buying land and building the Coronado Inn was \$1,168,000. Land alone, lying to the west of N. Hobart St. between Gwendolen and Kentucky streets, was \$125,000. To this would have to be added the cost of paving Somerville St., the fee to the Hockenbury System, working capital and such miscellaneous expenses as office overhead, legal fees, etc. in order to arrive at an approximate total cost of \$1,250,000.

Several days of negotiation went on during the first days of last April before a \$1,040,000 contract was signed by the Community Hotel Corporation with Farnsworth and Chambers Construction Co. of Houston.

Contracts were signed the morning of April 11 in the Hughes Building office of William J. Smith, legal counsel. Present at the signing were George Cree, Jr., president of the hotel corporation; Smith; A. P. Chambers, vice president of the Houston company, and Benson Ford, a Farnsworth and Chambers project director.

The actual signing followed more than 24 hours of meetings between the hotel board of directors and a number of special committees.

The final document showed that \$840,000 would be used for the building proper, \$150,000 for furnishings and equipment, and \$350,000 for paving, landscaping, signs and the swimming pool.

Ground was broken April 21 and actual construction began six days later.

In the course of building the Coronado Inn, Farnsworth and Chambers negotiated nineteen sub-contracts. Purchase orders for raw and finished materials went out to another 17 concerns from coast to coast.

Listed below are the subcontractors (all of whom furnished their own equipment and labor) together with the services they rendered:

- 1 — Electric Supply Co., Pampa, drilled belled footings for 10-foot-deep foundation piers.
- 2 — Barney Morris Tile Co., Dallas, ceramic tile.
- 3 — Brooks Electric Co., Pampa, all electrical work.
- 4 — Plains Plumbing Co., Amarillo, all plumbing and mechanical work.
- 5 — Parsley Sheet Metal and Roofing Co., Pampa, outside sheet metal and roofing.

- 6 — Tex Austin and Son, Houston, painting.
- 7 — Esco Elevators Inc., Houston.
- 8 — Curtis Blind and Linoleum Co., Amarillo, banquet hall flooring.
- 9 — Sun Glass Co., Odessa, glass and glazing.
- 10 — United Plastering Co., Amarillo, lath and plaster work.
- 11 — Straus-Frank Co., Houston, Modernfold doors.
- 12 — Thorpe Insulation Co., Houston, cold storage insulation.
- 13 — The Venice Art Terrazo Co., San Antonio, terrazo flooring.
- 14 — West Texas Coffee and Equipment Co., Abilene, kitchen equipment.
- 15 — J. W. Marsh Construction Co., Amarillo, outdoor swimming pool.
- 16 — Sunland Furniture Co., Ft. Worth,

- 17 — Pampa Glass Co., Pampa, vinyl flooring.
- 18 — Ray Boswell, Pampa, parking lot.
- 19 — Trics Contract Carpets, Houston, carpeting.

Purchase orders for such equipment as metal beams, lumber, nails and concrete were made from the following firms:

Ceco Steel Products of Houston; American Metal Works, New Orleans, La.; Lynn Boyd Lumber Co., Pampa; R. J. DeWees and Son, Dallas; Houston Iron and Steel.

Jiffy Fire Hose Rack Co., Houston; L and A Mill and Supply of Austin; Pampa Concrete Co.; Crowe - Guide Concrete Co., Amarillo; Panhandle Lumber Co., Pampa; Webb Builders Hardware Inc., Ft. Worth.

WALLS GOING UP — The Coronado Inn project looked like this during the late summer of 1959. Nineteen subcontractors and 17 other materials and equipment suppliers had a hand in the \$1,250,000 project. The general contract amounted to \$1,040,000. (Daily News Photo)

The Man For Whom Pampa's Community Hotel Was Named

By JIM T. LACY
Daily News Managing Editor

Nothing could have been more out of focus early in 1539 than to have pictured, or even thought of a young Spanish grandee named Francisco Vasquez de Coronado in terms of explorer, history maker or valiant conquistador.

Don Francisco was content with his place in Mexico City court circles and his close association with the viceroy of New Spain, Antonio de Mendoza. Coronado was personal secretary to Don Antonio and a member of the city council.

Life for Don Francisco was one of relaxation and sociability in the new world that he loved next to his wife, Beatrice, and daughter, Isabel.

But the pleasant pace of life suddenly was broken for Coronado when one day the viceroy informed him that he had been promoted to governor of New Galicia, capital town of which was, and is now, Culiacan, near the west coast, northwest of Mexico City.

Coronado feared he had incurred the displeasure of Don Antonio and that he was being banished, but the wise viceroy had chosen Coronado for a venture that was to live forever in the annals of great explorations.

Bidding his wife "adios," Coronado set out for New Galicia in March of 1539 and took up his duties as chief magistrate of the far outpost.

Coronado soon learned the purpose of his appointment. It was to await news from a "scouting party" far to the north of an exploring friar, Fray Marcos de Niza, later to incur the wrath of an army, and a tall, black Moorish slave, Estevan.

The news that the priest brought back some months later was to spur the largest expedition ever undertaken in the new world.

The magic word was "Cibola," a land to the north, in what is now New Mexico. In the kingdom of Cibola were reported to be "seven cities of gold," a land of fabulous treasures.

To the adventurous Spaniards of that day, who remembered Hernan Cortes' sweep from the east to conquer the kingdom of the Aztecs only 20 years earlier and reap honors and golden rewards, this was glorious news.

Now Coronado understood the viceroy's reason for sending him to New Galicia — to evaluate and report on the truth or fiction of

FRANCISCO VASQUEZ de CORONADO
... blazed a trail into a new world

Cibola. leader. One could even say he returned to dust, not gold. Crafty Indian enemies in this new land the Spaniards entered led the expedition even further astray when Coronado and his army were led north and east, into what is now Kansas, searching for another rich kingdom, purported to be even richer than Cibola. This was the myth of the kingdom of Cibola (See COMMUNITY, Page 9)

Explorer's Trail Led Near Pampa

Maps depicting Francisco Vasquez de Coronado's epic journey into North America show that he crossed and re-crossed the Panhandle of Texas. As near as can be determined, Coronado on one occasion came within scant miles, if not directly across the site that is now Pampa.

Events that were to lead Coronado and his army on a trip of some 7,000 miles during a two and one-half year period started in 1539 in Mexico City.

Coronado departed his expedition headquarters, Culiacan, several hundred miles northwest of Mexico City, in 1540 and headed north and slightly west through what is now the city of Chihuahua, then north through Arizona and east to New Mexico. There he and his army headquartered while they searched for Cibola's "seven cities of gold."

When Coronado failed to find riches in New Mexico, he trekked east in search of Quivira, reputedly richer and more fabulous than Cibola. Quivira, in Kansas, could be reached easiest by marching due east, through the Texas Panhandle, then turning north through Oklahoma.

Coronado parted with his main army just south of Amarillo, then he and a party of 30 men turned northeast toward the land of Quivira, which proved to be as monumental a flop as the Cibola venture.

The main part of his army headed back west to New Mexico at an Amarillo parting of the ways.

On Coronado's sad return trip to his New Mexico headquarters, he passed near Perryton, southwest through Spearman and Dalhart, then west to Santa Fe.

The Spanish have a phrase for it: "Un hombre paso por aqui," a somewhat loosely translated as "quite a man passed this way."

We're Proud of Our New Community Hotel

THE CORONADO INN

Our new Community Hotel, The Coronado Inn, was built through the combined efforts of many people of Pampa, and will bring to Pampa many new friends through its modern facilities, and through the hospitality it will offer many conventions.

Meeting rooms in The Coronado Inn will provide conference space in which many additional improvements will be planned for Pampa and for the Top O' Texas.

We congratulate all those who made this Hotel possible.

Coronado Kitchen To Offer A Wide Selection Of Foods

Any hungry person, whether Texan, New Yorker or world traveler, will find that the kitchen in the Coronado Inn offers his favorite dishes prepared in the tradition of the world's finest restaurants.

The hotel's two main eating locations, the Coffee House and the Terrace dining salon, were designed to be equal to any eating place in the world. No exotic dishes will be served at the hotel, but Chef Floyd Mason says plain, wholesome food, deliciously prepared will be featured.

Mason said the \$65,000 kitchen "is the most complete I have seen in an establishment of this size." "There is nothing lacking in equipment—we have everything here we will ever need for food preparation," he said.

Mason thinks "American people expect a great deal in food. They are more particular now than they were 10 or 15 years ago." This is due probably to the soldiers who traveled through Europe and dined at the continent's finest restaurants and because of the many Americans who have traveled in Europe since the end of World War II.

Texans like their salads different from the rest of the U.S. In the east and west salads are served on the side—an incidental part of the meal. But in Texas the salad is made an important part of the meal.

Jack Weihe, assistant manager-steward, who will be in charge of banquets, dances and other social functions, said all the waitresses are "well trained," and "friendliness and service are the key features of a good waitress."

"We want our guests to have a feeling of well being. A good waitress is neat and solicitous, not overbearing," Weihe remarked.

Victory Announcement Culminated Combined Effort Of 292 Workers

There were 292 especially happy Pampans Dec. 8, 1956. That was the day that fund raising by security sales "went over the top" and assured Pampa a new hotel. The Dec. 8 total was \$817,900.

The final report showed that the Women's Section sold \$143,400 subscriptions, the Men's Section \$136,700 and the executive committee, \$537,900.

The Pampa Chamber of Commerce shouted with glee in its Dec. 11 "Daily Journal of Stock Sales," by declaring:

"Hurray — we did it!"

Philo C. Dix, campaign director associated with the Hockenbury System had this to say:

"A strong, well organized executive committee and general sales force have given Pampa a lift of a lifetime. This force of 292 forward looking, public spirited men and women set aside many of their usual activities and gave liberally of their time and energy to assure Pampa of a new, modern, fire-proof, air-conditioned hotel."

"They have proved to themselves that Pampa is truly a united and aggressive city — their own home city. We have seen new, before — unheralded leadership; men and women who have gained stature in Pampa. They are the people who will shape the destinies of this fine Panhandle city at the Top O' Texas."

"On behalf of the Hockenbury System, Inc., H. W. Rohrer and Larry Lindstrom, my associates, and myself, I take this opportunity to congratulate you, the citizens of Pampa, for meeting one of the city's outstanding needs; that of a new hotel. You doubtless now possess the confidence that will carry Pampa to even greater heights in years to come."

"The Hockenbury System stands ready and willing, with 45 years of experience, to help you in any way possible until long after the doors of your new hotel are opened and it is a going community institution."

Students Protest Japan Prime Minister's Signing Of Peace Treaty

TOKYO (UPI)—About 500 fanatic leftist students descended on Tokyo International Airport recently to protest Prime Minister Nobusuke Kishi's departure for Washington to sign the new U.S.-Japan security treaty.

Kishi was not scheduled to leave for the United States until Saturday morning but the students showed up at the airport hours ahead of time. They had threatened a sitdown strike on the runway to block his departure.

The students, who are led by left-wingers so extreme that even the Communist Party expelled them, shouted slogans against the new treaty and waved flags wildly. They stormed through the huge lobby of the terminal but there were no reports of damage.

Kishi abruptly changed his departure plans in order to frustrate the threatened attempts to keep his plane on the ground.

One of the demonstrating students said tonight "we'll do our utmost to stop Kishi and the other officials from boarding the plane."

Kishi originally was scheduled to leave late Saturday night. But he told newsmen today he had decided to move up his departure to Saturday morning (6 p.m. e.s.t. Friday).

Helps It

Its extraordinary feet, with their special gripping action, enable the chamouis to make high leaps and to land safely on treacherous mountain ledges.

Cosmopolitan Isle

Majority of the inhabitants of Maritius, tiny island in the Indian Ocean, are Indian-Hindus and Moslems. This British Crown Colony bears the name of a Dutch prince, derives its laws from French codes, and most of the islanders speak more French than English.

If the Korean War had been delayed just a few months, Pampa's community hotel would have been a reality in the early 1950's.

Late Mailing Now Possible In McLean

McLEAN (SpI) — Postmaster Bill Reeves has announced that there is now after hours mailing in a large box located at the McLean railroad station.

In the past, all mail was dispatched at 5 p.m. For the convenience of late mailers, mail will be picked up from his box at 11:19 p.m. and again at 5:02 a.m. This gives businesses the advantage of a late-mailing and delivery a day sooner than before the installation of this box. This installation of added mail service is the result of some six months of work on the part of the McLean postmaster.

There are between 2,500 and 5,000 languages and dialects in the world, according to the Encyclopedia Britannica.

Survey Made In 1956

Thorough Study Made To Determine Need

The Hockenbury System, Inc. spent many months preparing a hotel survey report which was to lead to a community decision to construct a hotel in Pampa.

A few of the highlights of this report under subheads follows:

City of Pampa — The report showed a population increase in Pampa in 1956 of 71 per cent since 1940. Trade area population was estimated to be 154,000 with a metropolitan population of 28,000. Its location in the geographical center of the Panhandle oil and gas field was noted with satisfaction by the survey makers and highway networks were shown to be carrying an increased volume of traffic, especially transcontinental U.S. 60 and State Hwy. 70 northward to Perryton.

Economy — The economy was classified as "well diversified." Gas and oil production led the list, followed by industry, mainly the Cabot Shops and Celanese Chemical Corp. plant. Agriculture followed.

The survey showed that the 860 farms in Gray County produced wheat, grain, sorghum, cotton, hay and oats, with more than \$2 million of livestock products produced annually. The varied types of organizations and institutions were described as important. Listed specifically were Highland General and Worley hospitals, making the area the hospital center for the northeastern Panhandle. The many clinics, outstanding schools system, a daily newspaper, two radio stations and bank deposits of approximately \$30,000,000 were also pointed out. Trade in Pampa in 1955 showed a volume of \$40,300,000 as compared to \$26,800,000 in 1948.

1956 Hotel Situation — The report stated: "With the exception of a few new motel units, the transient rooming accommodations in Pampa have remained virtually unchanged since 1950. Pampa is still without a first-class hotel."

The Hockenbury System said. Total hotel rooms in Pampa were 201. At that time there were five "first-class" motels with a total of 85 units, and four "second-class" motels with 38 units.

Public Opinion — The consensus here regarding the need of a first rate hotel was stated in the report thusly: "It is generally agreed among Pampa citizens that the present hotel facilities offered are not adequate nor are they commensurate with a city the size and importance of Pampa." Questions were sent out to representative businessmen asking, "In your judgement, does Pampa need additional hotel accommodations?" There were 188 affirmative replies and 2 negative replies. In a previous survey, conducted in 1954 there were 186 affirmative and 15 negative answers.

Patronage Analysis — It was stated that a new hotel here could expect to obtain patronage from the following sources: Commercial visitors, miscellaneous business travelers, special patronage, tourists, conventions and permanent guests.

Success of the New Hotel — The success of a hotel venture hinges on five points, the Hockenbury System believed. A hotel fits the need of the community; proper site or location; proper sign; adequate financing and good management.

The above are a few of the highlights of the pre-planning which led to one of the most successful fund raising ventures in Panhandle history.

Another Milestone In Pampa's Development

the new CORONADO INN

This Community - Sponsored Project serves notice that the people of Pampa are alert and progressive and view the future with confidence in continued growth and success.

"When You Think of Building, Think of —

LYNN BOYD

Good Lumber

TO DIRECT HOTEL OPERATION — Stu Kines, who once managed the Hotel Berger, is no stranger to the Panhandle. He was hand-picked to manage the Coronado Inn. Kines is shown at the registration desk of the Inn. He has many successful years as manager of hotels in Pennsylvania and New York. (Daily News Photo)

Inn Manager Has Wealth Of Hotel Management Experience

Coronado Inn Manager Stu Kines, at 38, has seen more of the complex hotel business than most men many years older. He has either managed or assisted in the opening of 10 hotels in the east and southwest in the past dozen years.

Kines is a native Pennsylvanian who more or less grew up in the hotel business with his father, who is now retired but for many years was manager of a hotel in Chambersburg, Pa.

Kines was born in Harrisburg, Pa., in 1921. He attended Penn State at University Park where in 1942 he graduated from the school of hotel administration.

He entered the hotel business following four years as a Marine captain, during which time he saw action at Guadalcanal, Guam and Okinawa. At Okinawa he was wounded and received the Purple Heart.

Kines' first venture in hotels came in 1947 at the "Allenberry" in Bolling Springs, Pa. He served as manager one year, then moved to his home town, Harrisburg, to become executive assistant manager of the "Harrisburger."

Kines moved to the Panhandle in 1950 when he opened the Hotel Berger in Berger. After three years service at Berger, Kines was given the opportunity to assist with the opening of a half-dozen new hotels in Kansas and Missouri operated by the American Hotels Corporation.

The Hotels Corporation later transferred Kines to the Pontiac Hotel in Oswego, N.Y., and then in October, 1959, to the then-under-construction Coronado Inn in Pampa.

Kines is married and has three daughters: Susan 4; Patricia, 7; and Nancy 9. The family currently lives at the Coronado, but lived at 204 Lowry until Dec. 28.

U.S. Leads In Meat Export, But Is Also Second In Importing

By GAYLORD P. GOODWIN
United Press International

WASHINGTON (UPI)—The position of the United States as the world's number one producer of meat is well known. A less publicized fact is that the United States is second only to the United Kingdom as a meat importer.

The United States accounted for about 10 per cent of the world's total meat imports in 1957, doubled this percentage in 1958, and showed an additional increase in 1959. The Foreign Agricultural Service (FAS) has predicted imports may go down somewhat in 1960, chiefly because of heavier supplies in this country.

The United States produced almost 26 billion pounds of meat in 1958, or about 23 per cent of total world production. This was more than twice the production of the USSR, the world's second largest meat producer.

When U.S. production dropped by 2,300,000,000 pounds from 1956 to 1958, it would have taken the combined exports of Australia, New Zealand, and Argentina to fill this gap. In fact, the total of the world's trade in meat for 1958—at 5,800,000,000 pounds—amounted only to 22 per cent of U.S. production for that particular year.

The usually heavy imports during 1958 were still only about 6 per cent of total U.S. output. Live cattle imports, which were also unusually high during 1958, were equivalent to 1,445,000,000 pounds of carcass meat, or about one-fourth of the total imports in that year.

Slightly reduced supplies of cattle caused farmers to hold back cows from slaughter to build up herds. Also, other animals which might have been slaughtered for boning were held on farms to use large feed supplies. Slaughter of cutter and canner cattle fell from 17 per cent of total slaughter in 1957 to 12 per cent in 1958. The consequent sharp price increase for low-grade meat encouraged foreign exporters, especially in New Zealand, Australia, Argentina, and Ireland, to increase their shipments to the United States.

FAS said the movement of meat from Australia and New Zealand is likely to continue, but at reduced levels. Trade contacts have been made, refrigerated ships have been shifted from the European run, and packing plants have been modified to meet the demands of the U.S. market.

The shortage of beef in the United Kingdom during 1959 and early 1960 will increase prices and attract some of the trade which might otherwise come to the United States. This, however, is not expected to offset the positive factors which already have been set in motion.

Lettuce first was grown in Asia several thousand years ago. It was served to the kings of Persia 5000 years before Christ.

Cemetery Desecrated

CHICAGO (UPI)—Fifty tombstones were tipped over and another 35 to 40 painted with swastikas at a Jewish cemetery in suburban Forest Park, police said today.

Vandals trampled hundreds of graves and scrawled in black paint across the side of a mausoleum. "Nazism isn't dead but the Jews' days are numbered."

Smaller tombstones were knocked over at the Jewish Waldheim cemetery, and the larger monuments were daubed with black swastikas.

Police Lt. Elmer Schurstein of Forest Park police said the vandals apparently slipped into the cemetery before dawn Thursday and committed the desecrations.

Peru City Turns To Task Of Finding Bodies Buried By Wednesday Quake

AREQUIPA, Peru (UPI)—The people of devastated Arequipa turned today to the grim task of collecting the bodies and repairing the damage left by the earthquake which laid Peru's second city in ruins Wednesday.

President Manuel Prado promised in a telecast to the nation that his government will spare no effort to aid victims of the quake. Argentina and Bolivia also have loaned aid to the stricken city.

In the Panama Canal Zone, U.S. Air Force and Navy planes and Army Medical teams were standing by for possible orders from Washington to extend help to Arequipa's survivors.

Estimates of the casualties caused by the earthquake ranged from 20 to 67 dead and scores injured. It will be weeks before anyone would know how many victims lay entombed in the ruins of Arequipa and the towns of eight adjacent provinces hard hit by the temblor.

Arequipa's 20 American residents escaped injury.

About 60 per cent of the homes here were reported destroyed by the quake, and another 30 per cent were at least temporarily uninhabitable. Thousands of persons were sleeping in the streets.

Beautiful Opal
Most beautiful American opal is the Roebing, found in Nevada, which is almost pitch black, with color flashes of great brilliancy. The gem weighs 530 grams.

Colorful Wings
Wings of the butterfly are colorful because they are crossed by many minute ridges which break up the light into iridescent colors.

Telegrams
Annually, 144,233,000 telegrams are sent in the United States (equivalent to 88 telegrams per 100 of the population), a greater amount than in any other country of the world.

It is estimated there are more than 10,000 species of destructive insects in the United States.

52nd Year THE PAMPA DAILY NEWS SUNDAY, JANUARY 17, 1960

Francisco Vasquez de Coronado was born in Salamanca, Spain, in 1510. He died in Mexico City in 1554. He sailed to Mexico in 1535, four years before he was to lead an epic adventure.

Guided tours of the Coronado Inn will be conducted following dedication ceremonies Monday afternoon and after a worked buffet dinner that night by a committee headed by E. L. Henderson.

DEPENDABLE GAS IS ON THE JOB...

providing comfort and convenience in Pampa's fabulous new CORONADO INN

Truly a criterion of luxurious traveler accommodations here are 100 rooms welded into a handsome example of contemporary architecture... and dedicated to the finest expression of personal comfort.

And throughout the entire operation of this lavish project, dependable Natural Gas plays a key role.

The indoor temperature of the entire hotel is kept perfectly balanced for both cooling and heating by a giant-size 125-ton Carrier Gas all-year air conditioner. Individual room controls permit guests to select their own room temperature irrespective of the temperature in the rest of the building.

Gas, too, provides a plentiful supply of piping hot water for interior bath use, outdoor swimming pool, as well as for kitchen and utility use.

From the gleaming, modern kitchen where efficient Gas-fired ranges, bake ovens, deep-fat fryers, char-broiler and giant coffee percolators make meal preparation a cook's dream of convenience, taste-tempting meals can be quickly served to a maximum of 116 guests in two beautiful dining areas.

Outside, a total of 12 authentically-styled Gas Lights provide soft illumination and quiet charm to the expansive grounds and large swimming pool.

Pioneer salutes all the progressive-minded persons who participated in the planning and execution of this project, and is proud of its contribution in making this one of the finest motor-hotels in the entire U. S.

Congratulations to Pampa And Best Wishes to CORONADO INN ARTIC FROZEN FOOD DISTRIBUTORS 1800 W. 8th Amarillo

ST DESIGN — The men above are shown admiring first design submission for the Coronado Inn, but the model was revised and a later design accepted. From left are Bill Boehme, construction superintendent for Farnsworth & Chambers Const. Co.; Benson Ford, F & G project director; G. P. Buckler, chairman of the Building and Architect Committee; and A. P. Chambers, vice-president of Farnsworth & Chambers.

BILL BOEHME
... construction boss
**Boehme Supervised
Hotel Construction**

Day-by-day construction of the Coronado Inn was largely directed by one man, Bill Boehme, a 37-year-old Oklahoman. Boehme arrived in Pampa March 18 with his wife, Marjorie, and three youngsters. Although construction did not begin until April 27, Boehme's work as construction superintendent began immediately. Boehme (pronounced bo - me) grew up in Oklahoma City and in the early 40's entered the University of Oklahoma to earn a degree in architectural engineering. After graduation in 1949, he went into a construction business of his own at Enid until he joined Farnsworth and Chambers Const. Co. in 1955. During Boehme's four years with the Houston firm he remembers supervising the construction of "a

whole collection of buildings," most notably the 17-story Herman Professional Building in Houston, the Rocky Point Beach Motel in Tampa, Fla., and the Episcopal Church in Galveston.

The Boehmes, who live at 3112 Crane Rd., have three children, Katherine, 11, Kurt, 9, and Carl, 7, all of whom attend school at Travis Elementary. A new addition to the family, a son, was born a few weeks ago.

Founded by Romans
Romans founded the city of Basel, Switzerland, on the Rhine River some 2,000 years ago, naming the strategic port Basilia, meaning "city by the water."

The housefly, one of the most prevalent insect disease carriers, may migrate as much as 20 miles.

**Coffee House
Can Serve 40**

The Coronado Inn Coffee House is equipped to serve 40 patrons at attractively appointed tables and at the counter. It is located between the lobby and the main dining salon, the Terrace Room.

Attractive green planters, approximately four feet tall, afford diners privacy in the coffee house area.

Guests are encouraged to wear informal attire while taking family-priced meals. The coffee house will cater to the family on wheels as

well as casual diners and businessmen seeking a quick lunch. High chairs, bottle warmers, bibs, small fry menus and portions, and other features will make family dining at the coffee house a pleasant experience.

Travelers who wish to fill thermos bottles with hot and cold drinks will be able to "tank up" here. Ready-to-go lunches will be available for travelers to pick up and take along on the next lap of their journey.

Transportation Animals
In 1890, more than 100,000 horses and mules were engaged in pulling 28,000 cars over street railways in U.S. cities, according to the Encyclopedia Britannica.

Operators Of Coronado Inn Have Successful Management Record

American Hotels Corporation, which will operate the Coronado Inn, believes in allowing each of its hotels as much freedom as possible. Under the contract with the Pampa Hotel Corp., American Hotels will provide the management and considerable advice, but the local hotel company will pay all bills and salaries.

This means permanency and independence. Its facilities and methods are advantageous to the properties it manages as is evidenced by the company's growth. This means successful service. Its quietness of operation, always stressing the interests of the individual hotels and not of itself. The corporation believes in modesty.

AHC dislikes the word "chain" when referring to its system. The American system, it declares, is almost the reverse. Each hotel not only stands upon its own legs, but is considered as a separate entity surrounded by conditions, many of which may be local in character. Certain general forms of procedure found useful by a majority of the hotels may not apply to hotels in certain instances or may have to be modified to meet the local set-up.

To understand the general nature of the entire operation, it should be remembered that the hotels this corporation operates are located in states with more than two-thirds of the population of the United States. These hotels may be divided into three classes: Those in which the controlling stock interest or a large stock interest is owned by the corporation; those in which the property is leased to the corporation, and those which the corporation operates under contract. The latter is the case here in Pampa. No matter what the corporation's interest in the hotel may be, no essential move ever is made by the corporation in any hotel without consulting and having the approval of others who are interested in the property. Thus, the corporation not only assumes no

arbitrary attitude upon any, except the AHC alone. Under this type of structure the corporation is able to perform most valuable services for practical every type of hotel. The same principles of fair treatment, honesty and loyalty among officers and employees, careful auditing of accounts, solicitation of new business and maintenance of property are

applied to all the hotels alike. The expenses of the different departments in all hotels are shaped along general percentage lines and on a budget which is very carefully controlled. The corporation, at all times and in every hotel, endeavors not only to maintain and operate the hotel efficiently but also to install every device to increase better business and service.

The corporation has only one rule for undertaking the management of any hotel anywhere. That rule is that the corporation must be satisfied that there is every indication that it can benefit itself and the community thereby.

1. Ability to provide the highest type of manager, give him the best of tools and place him in charge of a hotel with full responsibility as to details, subject only to general guidance from the central office. This means organization.

2. Its form of localized operations and decentralization, concentrating nationwide resources for the benefit of local interests. Each AHC hotel has all of the others in the company advancing its interests in key cities and exchanging business constantly. This means cooperation.

3. The exchange among all of its hotels of actual operating statistics and experience within the group, including large and small hotels, resort and commercial houses, hotels located from the Atlantic Seaboard to Kansas and Texas and from the Canadian border to the Gulf of Mexico. This means efficiency.

4. The company is designed for long-time operation — it is founded upon principles, not personalities — it is not a one-man operation.

5. Its facilities and methods are advantageous to the properties it manages as is evidenced by the company's growth. This means successful service.

6. Its quietness of operation, always stressing the interests of the individual hotels and not of itself. The corporation believes in modesty.

Hotel Decorated In Style Distinctive To Pampa Area, Rich But Informal

The decor of the Coronado Inn, Pampa's new 100-room hotel on N. Hobart St., is pointed for good taste throughout the hotel because the taste of the average American family has improved vastly during the post-war years. For this reason, the Coronado has been decorated without reference to any particular style, period, or school, yet has achieved a "universal appeal" throughout.

Basically, the Coronado Inn's decor is in keeping with the design of its architecture. The rooms, approximately 13 x 17 feet, exclusive of dressing-bath rooms, are designed and decorated to achieve freedom of movement, good lighting, color harmony and restfulness.

In planning the room decor, the Inn's decorator has striven to eliminate the usual closed-in feeling prevalent in many hotels and motels. The rooms were planned as places of rest and relaxation where guests can actually derive pleasure from their attractive, modern surroundings.

There are three different room schemes, each a completely harmonized and complementary as-

sembly of wall treatments, draperies, carpets, lamps and furniture. Color combinations are beige-coral, turquoise-white and yellow-gray.

One wall in each room is wood paneling. There are two kinds of paneling used — gray mist ash and blonde cative. The other walls in the rooms are done in one of three colors — pale yellow, turquoise and white. In all the rooms, wall treatment gives the effect of distant vistas and a three-dimensional feeling.

Drapery patterns in the rooms complement the wall decor and carry the decorator names "Crescendo," "Lodestar" and "Belmont." All nine-foot drapes are on traverse rods.

Furniture is custom designed and built of walnut. Beds are king size. Each room has a matching desk-chest, bedside table, lounge chairs, luggage rack and a majority of rooms have 21-inch television sets all connected to a central super antenna system.

Wall decorations are hung in conventional frames.

For extra space and easy access, a closet alcove also provides room for luggage racks.

Inside doors are natural wood with rubbed varnish finish.

Carpets in guest rooms are in three colors of loop pile — beige, gray and turquoise. It is installed wall-to-wall for good looks and for absorption of sounds to further enhance the country-quiet for which the builders have striven.

The bathrooms at the Coronado are gay in color, contain extra conveniences and sparkle with ceramic tile on walls and floors. All feature shower-tub combinations, many with sliding glass door enclosures.

Floors are in soft pastel colors of tile, and tile surrounds the shower-tub combination to ceiling height.

Instead of the usual medicine chest, which often causes guests to leave personal belongings behind, the Coronado Inn's bathrooms utilize a special "guest ledge" wash basin fixture. An expansive mirror with a fluorescent light running its length is standard equipment.

One species of whale is only 4 1/2 feet long when fully grown.

Pictures top and bottom show the appointments in a typical room at the Coronado Inn. The lounge chair and desk section are set against a panel wall of blonde cative. All beds, such as the one shown, are full double beds with mahogany oversize headboards. (Daily News Photos)

WILLIAM M. RIGGS
... assistant manager

Assistant Manager, Of Inn Comes Here From Colorado Hotel

William Mount (Bill) Riggs, assistant manager of the Coronado Inn, came to Pampa from the Grand Imperial Hotel in the mountain resort town of Silverton, Colo., where he was manager since 1956.

Riggs is an easterner, born in Princeton, N.J., 37 years ago. Educated in Princeton schools, Neff College in Philadelphia and Rutgers University, in New Brunswick.

Riggs served in the Second World War with the Tank Corps of the Seventh Army in Europe. Following the war, he joined the UNRRA and was sent to occupied Poland as an investigator.

In 1954, Riggs joined the Nassau Tavern Hotel in Princeton and remained there until February of 1956 when he left to become a member of the staff of the Camelback Inn in Phoenix, Ariz. When the Camelback closed for the sum-

mer, Riggs went to the Grand Imperial Hotel as assistant manager and in October of that year, was appointed manager. In September, 1958, Riggs purchased local Silverton interest for a corporation and purchased the Grand Imperial. Riggs will continue as a director of the corporation, but resigned his position as manager to come to Pampa. He is a deacon in the Presbyterian Church in Princeton, son, a member of the Army Legion and Rotary Club.

Pineapple Seeds
Pineapples are grown from slips. They do not ordinarily produce seed and the few seeds produced are used only in the development of new varieties.

Productive
The United States, with 450,000 acres of land suitable for cultivation, produces 41 per cent of the world's cotton and 29 per cent of the tobacco.

Timothy is the most important cultivated hay grass in America today.

Landscaping Done At Cost Of \$4,000 By Alanreed Firm

Landscaping at the Coronado Inn, completed at a cost of approximately \$4,000, includes evergreen shrubs, small conifers and large shade trees.

Robert Bruce, of Bruce Nurseries in Alanreed, said the conifers will include junipers and broadleaf evergreens of several varieties. Other plants will be spreading juniper and honeysuckle, combined with evergreen. Shade trees will include honey locust and a variety of American elm, mountain ash, cottonwood, red bud and flowering crab.

Bruce pointed out that most of the shade trees are native to the Texas Panhandle.

He said the plants will immediately begin to put down a small feeder root and become permanent in 40 to 50 days. He said if any of the plants fail to mature satisfactorily, they will be replaced. Normally, 90 per cent will mature without further care.

The yard caretaker at the Inn will be instructed in care of the plants until they are mature.

Mrs. Donna Cornutt, member of the building and architectural committee, said the landscaping was approved after intensive study, and the committee selected only plants that will thrive in the Panhandle. She said the committee felt they should select some plants that will remain green the year round, others to provide shade and others to provide beauty.

The Coronado Inn is booked solid for the opening night. Manager Stu Kines reported Saturday that all 100 rooms were reserved several months ago.

ALMOST COMPLETED — This aerial view of the Coronado Inn was taken about four weeks ago. It shows that quite a bit of work remained to be done, mostly landscaping, last-minute exterior work and cleaning up of the site. (Daily News Photo)

SWITCH BANK — Mock Harmon, maintenance engineer at the Coronado Inn, stands beside a bank of switches used to control electric motors in the hotel. When a switch is engaged it is completely automatic and needs no further care or attention. (Daily News Photo)

Hockenbury President To Speak At Banquet

MYRON D. HOCKENBURY . . . banquet speaker

Myron D. Hockenbury, president of the Hockenbury System, Inc. will be the principal speaker at Monday's workers buffet dinner in the Starlight Room of the Coronado Inn.

The Hockenbury firm conducted the survey in 1956 to prove a need for a new hotel in Pampa and the organization conducted the successful sale of securities in the Pampa Community Hotel Corp.

Used First Glass
King House, first home equipped with glass windows in central Alabama, still stands. Built in 1823, the house is a part of Alabama College at Montevallo.

One of Coronado's Army captains discovered the Grand Canyon.

Convenience, Comfort For Guests

Officials who planned the new Coronado Inn believe that convenience and comfort for operating personnel adds to the benefits available to the customer.

The hotel was planned for the utmost convenience of guests and efficiency of employees. Convenience to the worker guarantees top efficiency and service to hotel guests and played a major role in the architectural engineering of the hotel, Inn management points out.

Has Many Parts
An airport surveillance radar, used in air traffic control, has 707 tubes, 230 fuses and weighs about 15,300 pounds. It has a range of about 30 miles from the airport.

French Apples
France boasts more apple territory in the United States, yet it is only slightly larger than the northeastern part of the United States.

Noted Humorist, Jeff Williams Is Principal Speaker For Opening

The featured speaker at the formal opening banquet and dance at the Coronado Inn will be a nationally known Oklahoma humorist, Jeff Williams of Chickasha.

His topic will be "Worry, But Don't Go Nuts," but he might talk about any number of subjects during the evening.

Chef At Coronado Inn Has Worked In Top Hostels

Floyd Mason, chef at the Coronado Inn has had many years of experience in hotel cookery, having served as chef of the President and Muehlbach hotels in Kansas City, the Brown Palace in Denver and the Antlers hotel in Colorado Springs.

Mason will boss a crew of 35 persons, including eight in the preparation of food, five dishwashers, two porters and approximately 20 waitresses.

Mason said the Coffee House, just off the lobby of the Inn, will be open from 6:30 a.m. to 10 p.m. or later, seven days a week. In addition to the Coffee House, there will be the Terrace Room, for private parties and banquets and the Starlight Room, which is the main ballroom where 300 persons can be seated for a banquet, or 450 for a dance or other type meeting.

There are four other private dining or meeting rooms that can handle 10 to 40 persons. In fact, Mason said, if all the facilities were ever in use at any one time, approximately 600 persons can be served.

Mason said the facilities are the finest in the Panhandle.

FLOYD MASON . . . a real gourmand

Community Owning Of Hotel Not Unusual

Community ownership of the Coronado Inn is not unusual. When Pampa civic leaders contacted the Hockenbury System, Inc., to conduct a survey to determine the need for a hotel, and later to conduct a successful stock selling campaign, they were dealing with a company with a long history of financing hotels.

First, Hockenbury conducted a survey which led them to recommend the size hotel which was built and to feature its present facilities. The hotel was financed in a manner also recommended by Hockenbury.

Early in 1956 businessmen met with Myron D. Hockenbury and set the plan in motion.

Hockenbury told the businessmen and civic leaders here that it is part of the Hockenbury System's plan to advise local hotel companies on all phases of construction and operation. It is in the Hockenbury interest, too, he said that the hotel be a success.

Hockenbury System has directed the financing of more than 280 hotels over the United States and in Canada.

LOOK OUT FOR KERNELS
RALEIGH, N.C. (UPI) — The North Carolina Supreme Court said Thursday it is up to the consumer to watch out for kernels in his breakfast cereal. The court threw out the damage suit of C. Robert Adams who charged he broke a tooth on a kernel in his cereal.

CREE DRILLING CO.
HUGHES BUILDING PAMPA

Coronado Inn Barber Shop Has Latest In Tonsorial Equipment

Charlie Wilkerson, who will operate the Wilkerson Barber Shop in Pampa's new Coronado Inn, is certainly qualified for the business. He was born in Robison County, N.C., and was graduated from high school in Lumberton, N.C. He then spent seven and one-half years in the service, where he "broke in" on barbering. He overseas 37 months, receiving his discharge in 1952. After getting out of the service, Wilkerson attended the West Texas Barber College in Amarillo, and immediately was employed by Crown and Ellis Barber Shop in Pampa, where he has been for the past seven years. Wilkerson lives at 2237 Hamilton with his wife, Treva Nell, and their two sons. He is a member of the Pampa Jaycees, Masons, First Baptist Church, president of the Top O' Texas Kiwanis Club, a former member of the Board of Advancement in Boy Scouting, Elks Lodge and district commissioner of the American Softball Association.

OWNER-MANAGER — Charlie Wilkerson is known to many Pampans through his past association with other barber shops. Wilkerson has planned many months to create a barber shop at the Inn which will offer excellent service and pleasant surroundings. (Daily News Photo)

Drive-In Registration Unique Touch To Help Weary Traveler

An innovation that is destined to receive plaudits from customers of the Coronado Inn is the drive-in registration desk at the north side main entrance to the hotel.

In keeping with the Pampa Hotel Corporation's concern for the family, the Inn provides motorists the option of selecting their rooms without leaving their car. Many persons, disheveled after a long day's drive, feel conspicuous if they must pass through a hotel lobby. Also, tired and rumpled children need not be forced to waken and trudge through the lobby.

By using drive-in registration, guests may drive directly to their rooms and park adjacent to them. There are lawn areas where exhausted children may play and romp, just outside the rooms.

Two bell captains will be on duty during day hours and one-night attendant will be readily available to serve the arriving patron.

Adults, upon arrival, may take a dip in the pool. After dining in either the Coffee House or Terrace Room, they may inquire at the reception desk about the many sports and other entertainment events going on in Pampa. For television "buffs" there will be television in the main lobby and

Hotel Named By Mrs. J. E. Torvie

A contest was held starting last June 16 to find a name for the Pampa community hotel project. The winner, from 250 entries submitted, was Mrs. J. E. Torvie, 1029 Charles, who suggested "Coronado Inn." The decision was announced July 14.

Hotel Really L-Shape, With Variations

Architecturally, the Coronado Inn could be described as L-shape, with connected wing outcroppings on the northeast end.

The 67,000-square-foot building rests on reinforced concrete slabs. The wall area of the two-story Inn is predominately plate glass, with architectural concrete and stonema colored brickwork. Solar tiles are used to great extent on the north and east exterior walls.

Room ceilings are nine feet high. The lobby ceiling is two-story and

the coffee house, main dining salon and ballroom are approximately one and one-half story in height.

The roof is a built-up, tar and gravel, flat.

Guest rooms are located in the L-shape portion of the Inn. The 100 rooms are divided, 50 to each floor. The second floor can be reached by stairs or an elevator, located in the lobby.

The halls of the hotel are 204 and 152 feet long. Halls are 5 feet, 6 inches wide.

Each guest room has two entrances, one from the hall and the others to either outside parking area, or balconies. Inside perimeter rooms have a view of the mammoth patio, in the center of which is a swimming pool.

All hall ceilings are treated with acoustical plaster to deaden sound.

COOLING UNIT — A large part of the cooling system in the Coronado Inn is this factory-sealed absorption refrigeration unit that has no moving parts. The unit uses water as a refrigerant, lithium bromide as the absorbent and steam for energy. (Daily News Photo)

Temperature Comfort

Managers of the Coronado Inn are assured of perfect comfort when they stay in one of its 100 rooms.

The heating unit has an input of 60,000 BTU's, and the cooling unit has a capacity of 150 tons.

Each bedroom has an individual control unit for both heating and cooling, while the public spaces, such as banquet rooms, the main room and others are controlled by six air handling units. Both individual and public air units are supplied by hot or cold water from a central unit in the basement.

The main tenant of the Coronado Inn is The Pampa Club, a private non-profit organization, situated on the second floor of the Inn.

The 2,000 square feet of raw space, occupied by the club, was leased from the hotel at \$4,000 per year for a ten-year period. The club paid for the finishing of the interior as well as all furnishings including china, flatware, glassware and linens.

A dumbwaiter connects the club with the first floor for food service, even though there is a small serving kitchen in the club quarters.

The arrangement between the hotel and club calls for the hotel to prepare all the food and furnish the labor for operating the club with all profits from this service being derived by the hotel.

The club is scheduled to open at noon, Jan. 23.

near, said the unit "provides an economical source of chilled water for a wide range of air conditioning and is a factory-sealed absorption refrigeration unit that has no moving parts."

Henry said the machine "chills water by the absorption principle, and minimum maintenance costs are assured by lack of major moving parts and stability of refrigerant and absorbent solution."

Private Club Will Occupy Portion Of Inn Second Floor

The main tenant of the Coronado Inn is The Pampa Club, a private non-profit organization, situated on the second floor of the Inn.

The 2,000 square feet of raw space, occupied by the club, was leased from the hotel at \$4,000 per year for a ten-year period. The club paid for the finishing of the interior as well as all furnishings including china, flatware, glassware and linens.

A dumbwaiter connects the club with the first floor for food service, even though there is a small serving kitchen in the club quarters.

The arrangement between the hotel and club calls for the hotel to prepare all the food and furnish the labor for operating the club with all profits from this service being derived by the hotel.

The club is scheduled to open at noon, Jan. 23.

Assistant Manager-Steward Of Inn Pennsylvanian

Jack Weihe is assistant manager-steward of Pampa's Coronado Inn.

Weihe has had 13 years experience in hotel administration, and will be in charge of banquets, parties, dances and other social activities of the hotel.

He was born March 13, 1930, in Pittsville, Pa., and joined the American Hotel organization as a boy immediately after graduating from Pottsville High School.

His first job was with the Necholen Hotel, where he advanced to banquet manager and held that position until joining the Marines in 1950. He served with the First Marine Division in Korea, where he was awarded the Purple Heart.

After returning to the states, Weihe joined the Charcoal Pit in Woodmere, L.I., where he remained for a year before returning to the American Hotel organization.

He was assistant manager of the Pontiac Hotel in Oswego, N.Y., before coming to Pampa.

In Oswego, Weihe was a member of the Lions Club and the Jaycees. He is married and lives at 1008 Varnon Dr. with his wife, Mary Lee, and two sons, John Jr., and Richard Lee, 10 months.

JACK WEIHE
... ass't manager-steward

Staff Of 46 Needed To Operate Hotel

Approximately 46 persons will be needed to operate Pampa's new Coronado Inn, according to manager Stu Kines.

Kines said the positions will include himself as manager; an assistant manager, Bill Riggs; assistant manager - steward, Jack Weihe; chef, Floyd Mason; housekeeper, Mina Board, and maintenance man, Mack Harmon.

In addition there will be six maids, two bell captains, 22 waitresses, two hostesses, two bookkeepers, four room clerks and a houseman.

Kines will supervise the over-all operation of the hotel, assisted by Riggs.

Weihe will assist with hotel operation and manage banquets, parties and dances, while Mason will supervise the kitchen, kitchen help and waitresses.

The housekeeper will supervise the maids and the maintenance man will be in charge of the hotel mechanical operations.

COMMUNITY

(Continued From Page 4)
fabled Quivira, which they found sadder, poorer and even more forlorn than the "kingdom of the seven cities of gold."

Coronado led his army back to New Spain over thousands of torturous miles, a sick man physically and mentally, to what he thought would be dishonor and exile.

But his wise and good friend, the viceroy, Antonio de Mendoza, proved to be even more farsighted than Coronado expected when a hero's welcome and plaudits were rained upon him by the king's representative. For Mendoza knew that far to the north of New Spain lay a land rich, if not in gold, then in possibilities for future expansion of the empire.

For a short time after his return, Coronado served as governor of New Galicia, a post he came to love. But after several years he returned to Mexico City and the life he left some 20 years earlier to die in peace and honor.

A delegation of civic leaders from Kilgore will arrive in Pampa Monday to observe and collect data concerning a community hotel project they plan there. The entourage would have liked to attend the formal opening banquet, but tickets were not available, having been sold out many weeks ago.

OUR BEST WISHES ON THE OPENING OF THE CORONADO INN

IT IS A FINE TRIBUTE TO THE COMBINED EFFORTS OF THE PEOPLE OF PAMPA. WE SAY THANK YOU FOR THIS FINE STRUCTURE

OF COURSE, ONLY THE FINEST DRY CLEANING WILL DO FOR THE CUSTOMERS OF THE CORONADO INN AND NATURALLY THIS IS DONE WITH SANITONE DRY CLEANING

WE'RE HAPPY TO HAVE BEEN CHOSEN TO KEEP THE LAUNDRY SPOTLESS CLEAN. WE SAY THANK YOU.

YOUR LAUNDRY & DRY CLEANERS

STARLIGHT ROOM — This is the north end of the Coronado Inn's ballroom. The picture captures less than one-third the total space in the attractively appointed hall. Seating capacity is 300. The Starlight Room can be divided by folding out a vinyl plastic door-wall to accommodate separate gatherings. The ceilings are of acoustical plaster in architectural triangular form. The ballroom is done in a celestial motif. The south wall is of a metallic gold foil with a star design. The drapes at

the north end are soft, sheer blue material. The floor is patented Parkay flooring. Chairs are molded plastic, vari-colored, Herman Miller design. Light fixtures are metallic gold, globular and cylindrical, carrying out the celestial motif. In the foreground is the speakers platform, and through the drapes the outside solar tile wall can be seen. The entire north wall is plate glass. (Daily News Photo)

HITS KHRUSH SPEECH

NEW YORK (UPI) — Sen. Hubert H. Humphrey (D-Minn.) said recently he would refuse to vote for ratification of any world disarmament treaty which did not include Red China. He said Soviet Premier Nikita S. Khrushchev's disarmament plan was "a convenient announcement inasmuch as he had Red Chinese armies to back him up."

LOST HORIZONS

TOKYO (UPI) — The Rt. Rev. Stephen F. Bayne, en route to London to head the advisory council on missionary strategy of the Anglican church, described his job this way: "I am rather like a mosquito in a nudist camp. I know what I ought to do, but I don't know where to begin."

Variable Speeds

The earth rotates on its axis at a uniform speed, but different places on its surface move at different speeds, with the rate of speed being faster at the equator.

Foot Warmers

Earliest railroad passenger cars were not heated and urchins along the railroad earned small change by selling hot bricks and hot stones to passengers for foot warming.

ASSISTANT — Ed Huff, employee of Farnsworth and Chambers Const. Co., assisted construction superintendent Bill Boehme during the building of the Coronado Inn.

LAND OWNER

WASHINGTON (UPI) — The United States owns about 265 billion dollars worth of property, ranging from typewriters to guided missiles to more than 775 million acres of land, according to a report published recently by a House committee.

POSTPONE LAUNCHING

WASHINGTON (UPI) — Bad weather last week, forced a second postponement of the launching of a shiny 100-foot inflatable sphere from Wallops Island, Va. The National Aeronautics & Space Administration said no new launching date had been scheduled.

"Parakeet" Convention
First world convention for parakeets met at Harrogate, England, in 1954, with about 800 parakeet owners from 11 nations in attendance.

NOMINATES AMBASSADOR

WASHINGTON (UPI) — President Eisenhower has nominated G. Frederick Reinhardt of San Francisco, a career foreign service officer, to be U.S. ambassador to the United Arab Republic.

FIRE DESTROYS SAVINGS

DANVILLE, Va. (UPI) — Wilse Milam, a truck driver whose wife and baby are in the hospital, tucked away \$6,600 in savings in his home to pay the hospital bills. Thursday his home, money and all personal belongings were destroyed by fire.

Swimming Pool Is A Treat For Inn Patrons

No longer is the motor inn-hotel simply a place to sleep. Planners of the Coronado Inn provided Pampa with the largest dining and convention facilities, outside Amarillo, in the Panhandle section of Texas and Oklahoma, and something else that is a must where new hotels are going up — a swimming pool and "beach" facilities. The new \$1,250,000 hotel has built a kidney-shaped pool just off the hotel lobby on the mammoth patio at the middle south side. The heated pool has a 55,000-gallon water capacity. The pool is of Gunite reinforced concrete construction with marble plaster and ceramic tile coping. It has a regulation diving board and ladders placed conveniently around it for patrons. To insure the safety and health of its patrons, the pool is scientifically filtered. The pool is encircled by a pebble-finish concrete "beach" sections around it will be devoted to poolside games.

SECOND STORY MEN — Construction progress at the Coronado Inn last June 24 carried quite a different look than the beautiful sight it now presents. Working on the second floor concrete slab are, from left, E. F. Hall and F. B. Hunter, both of Berger and Bill Hunter of Pampa. Progress at that time was right on time, according to construction superintendent Bill Boehme. He called the shot right by stating then that the hotel would be completed January 15. The owners were to accept the hotel from the contractor, Farnsworth and Chambers, Friday. (Daily News Photo)

Biggest Project In History

The securities selling project to raise funds for the now completed Coronado Inn was the biggest civil undertaking in Pampa history. More than 300 persons were actively engaged in the drive, and more than 1,400 persons purchased stock in the Pampa Community Hotel Corp.

The results of that successful campaign are definite, said E. O. Wedgeworth, manager of the chamber of commerce, who remarked one day recently: "Since the hotel construction started, Pampa has definitely forged ahead, in other construction, new businesses, and general business optimism."

Word of the success here has spread to other cities in Texas and the southwest contemplating such a community project as this one in Pampa.

A delegation of civic leaders from Kilgore will be here Monday to attend the workers buffet banquet at the Coronado Inn. They will talk to persons engaged in the 1956 campaign and draw upon their knowledge to take back to Kilgore and put to use there.

THE TERRACE ROOM — This is the newest dining salon in the Panhandle where one can dine in a restful and pleasing atmosphere. The cuisine will be in keeping with western tastes, neither exotic nor too ordinary to be exciting to the palate. The Terrace Room can be divided into a semi-private area for club or business meetings by means of folding partitions. The decorative treatment is in keeping with sections of the south main lobby and Coffee House, which it adjoins. Tables and chairs are of

walnut. The chairs are covered with Nylo-Seran in a metallic shade of gold. The two exterior walls are plate glass panels. Light is shielded by nine-foot droopies of open-weave cotton, sterling silver thread and burlap strands. A most pleasant room in which to enjoy meals prepared under the supervision of a nationally known chef who has directed kitchens in Denver at the Brown Palace Hotel and in Kansas City at the Muehlebach and President hotels. (Daily News Photo)

CORONADO COFFEE HOUSE — Designed for informality and convenience, the coffee house will accommodate 40 guests. Dominant color scheme here is coral and off-white. The shop, photographed above from the lobby, shows a ring of green plants surrounding the dining area.

The plants are set in white pottery and afford diners semi-privacy, but not a shut-off feeling. Light meals as well as full course dinners will be available here. (Daily News Photo)

DeGaulle Turns Thoughts To Algeria

PARIS (UPI) — President Charles de Gaulle today pushed aside a simmering political crisis and the problem of a falling stock market to give full attention to a new drive for peace in Algeria, where rightist groups are seething against his "soft" approach.

Both the political crisis and investors' flagging confidence in the economy were brought on by de Gaulle's firing two days ago of Finance Minister Antoine Pinay. De Gaulle apparently hoped now to prevent a political link-up by Pinay's angry conservatives and the right-wing groups.

But de Gaulle ignored these crises at least for the moment and called a top-level conference on Algeria for a week from today. It was reported he might tour the war-torn African territory within the next few weeks.

The top-level conference was said to have been called to develop ways of enforcing de Gaulle's Algerian peace plan offered last Sept. 16 and ending any disobedience of his edicts by rightist army leaders who favor a "tough" rather than de Gaulle's "liberal" Algerian policy.

Russians Give Wide Berth to Hawaii

By CHARLES BERNARD
 United Press International

HONOLULU (UPI) — The dead-end arrived today for the test firing of super long-range Russian rockets into the Pacific and civilian planes and ships gave a wide berth to a 45,000 square mile area 300 miles southwest of Hawaii.

The Kremlin announced plans to launch an unspecified number of rockets into the Marshall and Johnston Island area — favorite region of U.S. atomic and hydrogen bomb tests — during the Jan. 15-18 period.

Three electronic-equipped Russian missile-tracking vessels, shadowed by the U.S. Navy, already had reached the scene, giving rise to speculation the tests could begin any minute. But there was no indication from Moscow the tests would actually begin today.

Japanese scientists stood by their monitoring equipment listening intently for a tell-tale radio signal that would mean the huge rocket was in flight, but so far there has been only silence, UPI correspondent Leroy Hansen reported from Tokyo.

UPI correspondent Robert J. Morgenthau reported from Moscow that the Soviet press or Moscow radio might give advance warnings of the firing since such news often is flashed abroad long before Soviet citizens are told.

Moscow gave few details of the gigantic rockets except to say they would not carry a final stage. It was apparent through they were bigger and more powerful than even the rockets used by the Soviet Union's successful moon probes.

Flow Of Lava Continues From Hawaii's Huge Kilauea Volcano

KAPOHO, Hawaii (UPI) — A red hot blanket of lava from Kilauea volcano's newest eruption rolled slowly toward the sea today through sugar cane fields, coffee plantations and a papaya farm.

However, no injuries were reported as a result of the mile-and-a-half-long line of volcanic fountains which began erupting Wednesday night in the agricultural district of Puna on the island of Hawaii.

The lava flow, estimated to be nearly 300 yards wide, was reported within a mile of the sea. It was moving sluggishly through the many small valleys of the area.

Goatskin Churns
 Earliest butter churns were made of goatskin with the hair side out. Milk was placed in these skin bags and beaten or swung until butter was formed.

Changing Clouds
 Clouds constantly change in shape because parts of them evaporate when they come in contact with warmer air that is not saturated with water.

Lots of Letters
 A total of 30,384,000 letters are posted every year in the United States. This domestic letter mail is equivalent to 309 letters per year for every person in the country.

Fish with the longest life is the pike, which has a life expectancy of 70 years.

ALMOST FINISHED — This view looking northwest shows the solar tile treatment that is prevalent in the design of the Coronado Inn. The enclosure in the foreground shields the hotel cooling units and a loading dock which is off the kitchen. At far right is the solar wall at the northeast end of the Starlight Room, the hotel's 300-person capacity ballroom. (Daily News Photo)

FOUNDATION WALLS — This picture shows progress on the Coronado Inn May 24 of last year. Rains had slowed work in recent days, but the contractors affirmed work was on schedule. In the left background of the picture is Highland General Hospital on N. Hobart St. (Daily News Photo)

President Eisenhower To Weekend In Georgia, Hunt Quail Sunday

WASHINGTON (UPI) — President Eisenhower took off aboard a jet plane last week for Georgia, where he will spend the weekend quail shooting. The plane left nearby Andrews Air Force Base at 10:14 a.m.

The President, coatless, reached this Air Force base in a light rain on a cold gray day. He paused on the ramp of his four-jet plane to ask cameramen, "Aren't you going?"

A few minutes before the President arrived, two Air Force ground crewmen had made a futile effort to sweep a puddle from in front of the ramp on the rain-soaked taxiway.

He was scheduled to land at Turner Air Force base near Albany about 11:40 a.m.

Eisenhower will be the guest of W. Alton (Pete) Jones, head of Cities Service, at Jones' plantation, Blue Springs, outside Albany.

The President will remain in Georgia until sometime Sunday, according to the White House.

Eisenhower in the past has spent many golfing vacations at Augusta, Ga., in the northeastern section of the state, and on several occasions visited George Humphrey's plantation, Milestone, near Thomasville, for hunting.

Humphrey was formerly secretary of the treasury in Eisenhower's cabinet. Thomasville is about 60 miles south of Albany.

The chandelier in the lobby of the Coronado Inn was imported from Europe at a cost of \$1,700. The package arrived here in 418 separate pieces, each prism separately wrapped.

Hotel Housekeeping Really Big Business

Mrs. Mina Board, housekeeper for the Coronado Inn, said the rooms will always look as neat and clean as they did the day the hotel opened.

Mrs. Board feels that cleanliness, comfort, attractiveness and friendship are the main points that keep guests coming back to a hotel, and anything short of that means falling short of their goal.

persons working under her direction and it is their job to keep halls, lobbies, public meeting rooms and 100 guest rooms fresh, clean and attractive.

A few of the items Mrs. Board will have to keep track of are 720 sheets, 720 pillow cases, 250 blankets, 800 bath and face towels, 1,000 wash cloths, and several thousand napkins and table cloths.

Mrs. Board has six years' experience in hotel housekeeping and formerly owned a hotel in Halstead, Kan.

cleaned as soon as they look dirty. They will stay new-looking long if they are cleaned when they are dirty," she advises.

Housewives will also be interested in the fact that hotel sheets are designed to last three years. All sheets have been to the laundries and are given at least one "rest." It seems that sheets last longer if they are allowed to cool before being put on a bed. The "rest period" is for that purpose.

As a tip to housewives she cautions them to have drapes and rugs Read The News Classified Ads.

U.S., Four Allies To Meet Monday To Map Disarmament Negotiations

WASHINGTON (UPI) — Representatives of the United States and four Allies will meet here Monday to begin mapping strategy for critical disarmament negotiations with Russia beginning March 15, it was learned today.

The Western preparations took on a new sense of urgency in the wake of Soviet Premier Nikita S. Khrushchev's announcement Thursday that Russia had achieved such missile might that he planned to cut his armed manpower by one-third.

The ambassadors of Britain, France, Canada and Italy and Secretary of State Christian A. Herter's special assistant on disarmament, Philip J. Farley, will participate in the preparatory meeting.

They will draw the guidelines to be followed by technical disarmament experts of the five countries who will begin meeting here Jan. 25.

The objective is to prepare a comprehensive Western plan for ending the global arms race by reducing military manpower and weapons under a cheat-proof system of control and inspection.

Officials said the United States would have ready for the Jan. 25 technical meeting a revised disarmament plan based on the report of a special group headed by Boston Lawyer Charles A. Coolidge.

Eisenhower named Coolidge to conduct a special survey to update U.S. disarmament policy.

Ohio Syrup
Ohio produced about 124,000 gallons of maple syrup in the 1958 season, resuming its third place position as a maple syrup state in the nation.

Retains Body Heat
Bighorn sheep can lie in the snow for hours and stay warm because their winter coat of matted hair (not wool) does not let enough body heat escape to melt a snowflake.

Bathed by Blood
Rome's Colosseum, world's largest amphitheater, was completed in A.D. 80. Built by the emperor Titus, it was inaugurated with a blood bath of contests between gladiators and wild beasts.

On each floor of the Coronado Inn, and centrally located, will be self-service ice machines (free to patrons) and soft drink, cigarette and candy vending machines.

This magnificent structure represents innumerable hours of effort sacrificed and hundreds of thousands of dollars invested by citizens of our wonderful community. The vision, courage and unselfish devotion apparent in every phase of the effort of our citizens in providing Pampa with this fine hotel is a magnificent accomplishment.

We believe the opening of the Coronado Inn and the spirit which created it will focus attention upon our city far and wide . . . that it will bring many visitors to our doors, who liking the spirit so evident here will want to become part of us. These things being self-evident, we envision even more rapid growth for our community.

Pampa Chamber of Commerce

BALLROOM — The maze of scaffolding in the above picture and the somber-looking concrete columns and slabs emerged ugly duckling-like only a few weeks ago into the

splendid and strikingly beautiful Starlight Room. The opening of the Coronado Inn will be celebrated for the most part in this section of the hotel. (Daily News Photo)

DISTINCTIVE FEATURE — The workmen above stand in what will be a waterflower-filled moat that encircles the south corner of the Terrace dining room. Guests may look

out on the moat while dining and enjoy lights playing on the water, as can patrons, taking a stroll in the central patio or a swim in the pool. (Daily News Photo)

Surplus Government Property Available For Use By Schools

United Press International teaching science and math courses.

U. S. schools are responding, belatedly but enthusiastically, to a long neglected opportunity to acquire valuable laboratory equipment for free.

There's no catch to this something-for-nothing deal. It's part of the government's surplus property disposal program.

Each year the defense department, atomic energy commission and other federal agencies release large quantities of surplus electrical, electronic and scientific equipment suitable for use in a long while. In 1958, for exam-

ple, only \$20,000,000 worth of the equipment was claimed by educational institutions.

Last year—thanks to a widespread publicity—schools woke up and realized what they were missing.

"Response has increased sharply," said Wendell Gray, surplus property supervisor for the U. S. Department of Health, Education and Welfare.

Gray said about \$50,000,000 worth of scientific equipment was turned over to schools during 1959. In addition, schools got about \$113,000,000 worth of other kinds of surplus property, including paint, cleaning supplies, electrical wiring, plumbing, desks, filing cabinets, office machinery, typewriters, vehicles, and machine tools for vocational shop courses.

The department hopes to trans-

fer at least \$100,000,000 worth of surplus equipment to schools during 1960.

Part of the increase will result from a simple and convenient new system for distributing surplus electrical and electronic equipment, which is badly needed by thousands of high school and college laboratories.

Under the new system, science teachers can go directly to the nearest military depot where surplus equipment is available, pick out what they want, pay a handling charge of one cent a pound, and haul the stuff away with them.

CAPTAINS BY DOZENS

In the American colonies, a young man who could raise a company of 50 men could win a captaincy in the army, according to the Encyclopedia Britannica.

The Coronado Inn

It appears that the eventful history of most cities comes in strides: a new industry moves in, a new natural resource is discovered, a new office or commercial center of consequence is constructed.

In the first part of this week, we join as a community to dedicate the new Coronado Inn and, mark a definite turning point in the greater growth and development of our fine city. Coincidentally, has probably never had a voluntary community project which found more people in their time and money to do about a desired community project.

In this respect Pampa is not richer for having a beautiful building to serve its commercial and needs but our city has found itself a spirit and force to accomplish ends which it probably realized it possessed prior to this.

Light Coverage

General Accounting Office revealed in Washington disclosure 529 refrigerators, 666 room conditioners and 850 stoves purchased for the use of government personnel at a foreign aid mission in Pakistan. A Congressional Committee was puzzled since only 475 Americans were assigned to this mission. Apparently a slight coverage in stoves, air conditioners and refrigerators exists thru the courtesy of the American taxpayers.

Urban Revolution

Dr. H. Martin of Atlanta has an article in three parts in the Saturday Evening Post of January 2 which is to do an enormous disservice to the nation.

Dr. Martin, like many other people, is concerned with the fact that this nation is afflicted with growing pains. His piece is titled, "Our Urban Revolution" is one of the best jobs we have seen, to date, of outlining the facts of America's vast shifting population to the hinterlands.

But, like many other well-intentioned people, while Martin correctly lines up the facts, his interpretation of the facts leaves much to be desired. And the interpretation of the conglomerate things, he has made leads us to a conclusion that the shift of populations out of urban centers rural or fringe areas is a tragedy of terrible implications.

The truth is that this is not a tragedy at all. It is evidence, of good, sound American life. It is proof, we think, that the automobile isn't the "insolent riot" that John Keats would have us believe; nor is the normal life for the human being for a life of law and a view some noble blight that is going to turn cities into ghost towns.

The wall of Mr. Martin centers around the use of the word "Metropolis," which is supposed to mean that urban civilization which no longer urbanized but sprawling arterial highways in every which direction. And the key to Mr. Martin's malaise relates to the fact that this enormous growth is UNPLANNED.

In fact he says: "...they seem to agree that a change so overwhelming cannot bring with it human happiness and content so long as it remains as it is now formless, chaotic, and unplanned."

This is the gist of the complaint. Now, we're going to try to give Mr. Martin and the Post editors something to think about. Did it ever occur to them that one of

LITTLE LIZ

The Pampa Daily News

YOUR FREEDOM NEWSPAPER

We believe that freedom is a gift from God and not a political grant from the government. Freedom is not license. It must be consistent with the truths expressed in such great moral guides as the Golden Rule, The Ten Commandments and the Declaration of Independence.

This newspaper is dedicated to promoting and preserving YOUR freedom as well as our own. For only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

Subscription Rates:
By Carrier in Pampa, 35c per week. Paid in advance (at office) \$4.50 per 4 months, \$9.10 per 6 months, \$18.20 per year. By mail \$9.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. \$1.25 per month. Price for single copy is daily, 15c. Sundays, No mail orders accepted in localities served by carrier. Published daily except Saturday by The Pampa Daily News, Alchibon at Somerville, Pampa, Texas. Phone MO 4-2525. All departments. Entered as second class matter under the act of March 3, 1879.

Better Jobs

by R. C. HOILES

Government's Limited Role

In the last issue I was quoting from Leonard E. Read's article in "The Freeman" magazine on how governments should be limited. He explained in a former article how a man exchanged his services in order to build a house benefited by everyone. Then, under the heading of "Why Pay for Things" he writes:

"The man, mentioned previously, who 'built' his own house, has about as much economic understanding as a child. He reflects on all the countless antecedent services which he assembled into a finished home. Originally, all of these items came from Nature. They were there when the Indians forged this same territory. There was no price on them in their raw state — they were free, so to speak. Yet, he paid — let us say — \$10,000 for them."

"What was the payment for? Well, when we slice through all the economic terms, he paid for the human action which applied to things of the good earth. He paid for actions and energies which he himself did not possess, or possessing, did not choose to exert. Were he limited to his own energies to bring about the services antecedent to his assembly of them, he could not have built such a home in a thousand lifetimes.

"These human actions for which he paid took several forms. Generally, his \$10,000 covered salaries and wages that had been paid for judgment, foresight, skill, initiative, enterprise, research, management, invention, physical exertion, chance discovery, know-how; interest that had been paid for self-denial or waiting; dividends that had been paid for risk-taking; rent that had been paid for locational advantage — in short, all of the \$10,000 covered payments for one or another form of human action. Literally millions of individuals had a hand in the process."

Let the Market Decide — "The major economic problem — the root of economic ills — reduced to its simplest terms, revolves around the question of who is going to get how much of that \$10,000. How is economic justice to be determined? What part shall go to the grower of soybeans, to the investor in a saw mill, to the man who tests the machine, that pours nails into wooden legs, to the inventor of the exodus, not at the Mecca of his search, but because the citizen would rather go without some of those services than be taxed to death?

Cities are over-regulated and over-taxed blights upon human happiness and freedom. Not that they are evil in themselves. They have been made evil by a host of planners and government men who will not permit the private development of a piece of land in accordance with the wishes of the owner. It is this that the citizen fees when he departs the conveniences and the services of a built up area, to risk the irregularities of cesspool, no garbage collection, tricky water supply, perhaps no central gas supply, and possibly great hazard from electrical arrangements and a long wait for a telephone connection.

But this is a normal and to-be-expected exodus. Our pioneer forefathers fled Europe when everything there became controlled, regulated and regimented.

And the flight of the citizen today out beyond his city boundary is the same flight carried on across the only frontiers left.

Man wants to be free. He wants to plan his own life. He wants to own his own property and to do with it as he pleases. He isn't angry with the city. He is angry with the city politicians, the zoners, the planners, the schemers who won't let him alone and who tax him mercilessly, both for his decisions and for theirs.

After all, what is so all-fired precious about the concept of urbanization? Is it a sacred precept that people have to live in cities? Why? If they can find greater freedom and more satisfaction out beyond the reach of the politician, why shouldn't they obtain it?

Mr. Martin, at least in the first installment of this opus, has failed utterly to interpret the facts he has marshalled. The so-called "urban revolution" isn't a search by city dwellers for more conveniences. It is a rush to get away from the tax collector; it is an evidence of a revolt against excessive governmentality; it is a rebellion against centralized planning.

Martin concludes the opposite and sees tragedy unless the exodus is planned. We submit that unless people are granted enough freedom to live their own lives on their own property, the "urban revolution" will take a far more serious and destructive turn.

Kettle Investigates Pot

The Allen-Scott Report

ROBERT S. ALLEN PAUL SCOTT

U.S. MEN INTO SPACE TRY

WASHINGTON — The U.S. now plans to try to send a man into space in March.

That's the unannounced timetable of the National Aeronautics and Space Administration. Under the first astronaut would be hurled to a height of 80 to 100 miles in an Army REDSTONE missile from Cape Canaveral, Fla.

The NASA has disclosed these potential history-making plans of "Project Mercury" to the Senate Space Committee, which is preparing a new sweeping scrutiny of the controversial missile and space programs.

The senators also have been informed by NASA that no date has been set for attempting to orbit a man around the earth, but indicated there is no likelihood of anything being done on that "until sometime in 1961." Original plans had called for such an effort, with an Atlas intercontinental ballistic missile, in December of this year, but that has been abandoned.

In addition to the first astronaut flight, there will be seven other "Project Mercury" flights in this year from the Cape Canaveral missile center. They will involve instruments and animals. Several of them are slated for this month and February.

Chief purpose of the proposed March astronaut flight is to test various human and mechanical controls. Information gathered from this experiment will importantly influence further astronaut training and the construction of the space capsule that is destined to eventually carry a man into orbit around the globe.

Foremost among the human factors that will be tested in the March flight is the capacity to withstand speeds of 4,000 miles an hour, weightlessness and the grinding pressure of high re-entry deceleration.

Selection of the astronaut to make the momentous March flight is still undecided. One of the seven will be designated in the next few weeks.

Also highly conjectural is whether the U.S. or Russia will successfully launch the first man into space. Intelligence has been reported for some time that the Soviets are working furiously on that, and such an attempt by them can be expected at any time.

ANTI-SPLINTER — Speaker Sam Rayburn has made one thing clear about that newly-organized bloc of liberal House Democrats: "The veteran Texan doesn't care for it."

That view was tactfully but clearly conveyed to Representative Lee Matcalf (D. Mont.), leader of the bloc that claims to have more than 100 members. Matcalf had come to Rayburn to outline the group's legislative plans. The Speaker listened patiently and politely.

Then when Matcalf concluded, Rayburn said tersely, "Lee, as you know, I don't care for splinter groups."

"Yes, I'm well aware of that," replied Matcalf. "But until the conservative Democrats disband their organization, we are going to continue ours. If you can get Judge Smith (Representative Howard Smith, D. Va.) to dissolve his group, we will do that, too. But as long as they continue to function as a bloc, it is our intention to do the same thing."

date, not a single one has been found, not even a reasonable facsimile.

"The free market, on the other hand, is for the teachable, who know their own limitations, who feel no compulsions to play God, and who put their faith in voluntary, willing exchange — a manner of human relationships that wondrous for all without requiring miraculously works — economic wonders for all without requiring infallibility of anyone."

Rayburn smiled pleasantly, and that ended the talk.

NOT TALKING — Senate Republican Leader Everett Dirksen, Ill., has complained to White House assistants that House GOP Leader Charles Halleck, Ind., is "refusing to cooperate" in getting an early vote on civil rights in that chamber. According to Dirksen, Halleck is turning a deaf ear to pleas that he either induce Republican members of the Rules Committee to vote out the civil rights bill that has been stalled there since last July, or urge GOP representatives to sign the petition to discharge that Committee from control of this legislation. Three Republican votes are needed to get the civil rights bill out of the Rules Committee, and a minimum of 40 GOP signatures is required to put the discharge petition into effect.

Three of the Democratic presidential aspirants supported that move for more party caucuses, but only one of them spoke on the matter. Senator Hubert Humphrey, Minn., made a speech in favor of the proposal, although carefully not criticizing Senator Lyndon Johnson, Tex. Senators Kennedy, Mass., and Symington, Mo., also voted for it, but listened to the discussion in silence.

Senator Thomas Martin (R., Ia.), who has announced he will not seek re-election this year, will get a congressional pension of more than \$12,000 a year. Congress has a contributory pension system for its members and employees. Martin is telling colleagues he hopes to get a federal appointment, preferably in the Interior Department, after leaving Capitol Hill.

The Doctor Says:

by EDWIN P. JORDAN, M.D.

In a previous column, we presented the image of the uterus or womb as a nest or guest room. Of present concern is the monthly appearance of bleeding from the uterine nest.

At birth, the female infant has a tiny pear-shaped uterus. The portion of the uterus that corresponds to the insertion of the pear stem is called the cervix or neck of the uterus. And the cervix with its pinpoint opening is what the doctor sees when he looks within the female genital apparatus.

If you were to put a probe in the cervical opening, you would enter the main cavity of the uterus. If you advanced the probe to right or left side you would find still another opening that led into a passage that ran at right angles to the uterine cavity. At the end of this passageway, called the fallopian tube, you would come to a sort of cornucopia. And, within this horn-like enlargement of the fallopian tube, you would come upon the small flesh-colored ovary.

Now if you had the power to see into the ovary and magnify what you saw, you might be able to recognize a few of the several hundred human eggs that waited their time of ripening and fertilization. What you could not see are the glandular secretions that the ovary, unlike the uterus, regularly feeds into the circulating blood stream.

On or about the little girl's tenth, eleventh or twelfth birthday, the ovaries increase their activity. The youngster's breasts become more prominent and she begins to look and act in a more girlish fashion. It is at this time that the wise mother explains to her daughter the near approach of her first menstrual bleeding or menarche.

A few months to a year after

menarche, the first of the ripened and mature eggs is discharged from the ovary, enters the horn of the fallopian tube, and makes its way toward the cavity of the uterus. Now the little girl has reached full maturity and is vulnerable to fertilization. That her mother also explains to her lest she be the victim of an unwanted pregnancy.

For some 30 years after her menarche, the girl or woman discharges a ripe and mature egg every 28 days, corresponding to the cycles of the moon. A little more than two weeks after discharge of the ripe egg, the uterine nest undergoes a purification unless impregnation has occurred in the meantime. This purification or menstrual period is much like the thorough cleaning the good housewife gives her spare room even when the expected guest has failed to arrive.

But between recitals of the gray days are fulsome revelations of the gaudy days, days of gold and tinsel, when life was a ball first to last. The doctor knows more about the techniques of comedy than anyone, which is why producers, writers, directors and practitioners of this difficult art come to him for help when snags show up. He has an unerring instinct for finding the soft spot in a weak comedy script.

Forget your troubles for awhile and read the Keaton book.

Looking Sideways

by WHITNEY BOLTON

NEW YORK, N.Y. — Nobody ever backed me into a corner and demanded to know why, except for a few exceptions, I always was either frosty or washish about today's crop of card-working comedians, whether braves of theatre, films or TV, or any combination thereof. But if anyone did ever back me into a corner, I'd have the answer ready for them: they don't really know how to be funny. Jerry Lewis, for example, with most of his horrifying, contrived, dismayed grimaces is not funny. Phil Silvers is a mechanical clown. And so on down the line until we come to Master Gleason, a genuine comic, and that part of all existing clowns, a true clown in every department and phase, Red Skelton. Gleason and Skelton are funny. The rest are hard-working stevedores.

But there was a time (and I do not wish to sound like a dotard musing wistfully over the good old days) when our country abounded in superb comedians, great and inventive clowns who filled our vaudeville, early film and sturdy theatre stages with true bologna gems of wit and performance. Among these heroes were the silent screen comedy stars, some of whom, alas, fell upon evil days, like Fatty Arbuckle. Some became drunks and some lost their wit. The top of the mound, Charlie Chaplin, became so enamored of politics in doubtful hues that he was all but asked to depart our land. And among them, a true master of comedy, a man who could play it, write it, invent it and give it to you until your ribs ached was that dour and sour-pussed genius, Buster Keaton. It seems to me that it has been seven years, maybe eight years, since I have used the word "genius" here. It comes that rarely, of course.

There has come a book by Mr. Keaton, a book called "My Wonderful World of Slapstick." Ostensibly written by himself, it actually was written by Charlie Samuels, who has helped reform alcoholics, drooping stars and others with a vivid background to put their lives between covers. I mean no flint in saying that I think Buster could have done the job alone without professional help.

What makes the Keaton book fascinating, plus increasing its value, is that he strewed himself and his rich talents across three areas of American entertainment. He was a star at six in early vaudeville, was a gigantic factor in silent screen two-reel movies, progressed to talking pictures and most recently has been an ornamental plus increasing its value, is that he strewed himself and his rich talents across three areas of American entertainment. PLAN IN MOTION — Shown at a conference where a \$1,040,000 contract for the Coronado Inn was signed early last year are from left, William J. Smith, legal counsel for the hotel corporation; George Cree, Jr., president of the hotel corporation; A. P. Chambers, vice president of Farnsworth & Chambers Construction Co., and Benson Ford, project director for the construction project. (Daily News Photo)

'Elegant' Is Word For Beauty Salon

One of the most modern beauty salons in the southwest will open in the Coronado Inn under the joint ownership of Jimmie Jones and Gladys Scott.

The salon will have eight air-conditioned dryers, deluxe model drying chairs, complete with foot rests, and Flo-temp control shampoo bowls. All the equipment and furnishings are fabricated to match down to the shell type hydraulic styling chairs.

The operators, Mrs. Jones and Mrs. Scott, both are experts in the field of hair styling. Mrs. Jones specializes in bleaching, hair coloring and styling. She was graduated from Isbell's University of Beauty Culture in 1956 and was employed by the Modern Beauty Shop, owned by Mrs. Scott, where she has remained. She won first place in both 1958 and 1959 in the Lone Star Artists elimination contests; second in the Amarillo Great Plains Beauty Show in hair styling competition, and competed in statewide hair styling contests in Dallas.

Mrs. Jones is a member and immediate past president of the Top O' Texas Unit 81-Texas As-

sociation of Accredited Beauty Culturists, a member of the Select Hair Artists Club, Borger, a member of The National Hair Dressers and Cosmetologists Association, and a member of the Pampa Garden Club.

Mrs. Scott was graduated from the San Jacinto Beauty College in Amarillo in 1935. She was an operator in a Shamrock beauty shop. Mrs. Scott moved to Pampa in 1940 and worked at the Modern Beauty Shop from 1940 to 1945, purchasing the shop in 1954.

The Modern Beauty Shop will remain open under her ownership.

Mrs. Scott won second place in hair styling in local unit contests in 1941, and has attended extension courses in beauty culture at the University of Texas in Austin each summer. Mrs. Scott is a member and second vice president of local unit 81-Texas Association of Accredited Beauty Culturists.

The Coronado Inn Beauty Salon will be open five and one-half days a week, Monday through Saturday morning.

"Jayhawker State"
Kansas acquired its nickname of "Jayhawker State" from a slang term applied to a group of anti-slavery men during the days when Kansas was a territory.

JIMMIE JONES — This partner in the Coronado Inn Beauty Salon specializes in bleaching, hair coloring and styling. She is a graduate of Isbell's University of Beauty Culture.

All equipment and furnishings are fabricated to match, including the shell type hydraulic styling chairs, shampoo bowls, and additional decor of the salon. (Daily News Photo)

Auto Body Construction May Be Changed In A Few Years

DETROIT (UPI)—The body construction which was inherited by the auto industry from the old time carriage makers will probably be abandoned within the next few years, auto engineers say.

The engineers say it is only a matter of time before all American cars are made with single unit bodies — popularly known as unitized construction.

The only American car maker that currently doesn't have at least one line of cars with unitized bodies is Studebaker-Packard, which makes only the compact Lark and the sports-type Studebaker Hawk.

American Motors uses unitized construction in all its passenger car lines and was the first company to adopt this type of construction on a permanent basis.

Ford Motor Co., which uses unitized construction in the bodies of Lincoln, Thunderbird and Falcon, was one of the first American auto makers to use such construction on production cars.

The Lincoln Zephyr brought out by Ford in the late 1930's had a unitized body. But the Zephyr stayed around for only a few years.

The first American car with unitized construction was the 1934 Chrysler Airflow, which also had a short life.

Unitized construction made its biggest gain this year when Ford, General Motors and Chrysler all used it on their new small cars and Chrysler applied it to all of its standard-size cars except the Imperial.

The advantages claimed for unitized construction include greater rigidity with less weight, less possibility of rattles because the whole car is welded together instead of bolted, more protection against rust and corrosion and greater passenger safety.

Insurance and safety officials generally agree privately that unitized construction is safer but they aren't willing to say so publicly until they have had more on-the-road experience with cars with this type bodies.

Made a Racket
The term "racketeer" traces its origin to 17th century England, where pickpockets would start a racket or noise on the street in order to attract a crowd of victims.

Plenty of Pensions
In the United States, 3,519,000 people receive old age pensions approximating a pension expenditure of \$3,782,000,000, greater amount in the world.

Coronado Inn manager, Benson Ford, several years ago managed the new hotel in Borger.

GLADYS SCOTT — The co-owner of the Coronado Beauty Salon is second vice-president of local unit 81-Texas Assn. of Accredited Beauty Culturists.

Russia May Fire Test Missile Soon

WASHINGTON (UPI) — Defense experts speculated today that Russia might fire into the Pacific during the next month an 8,700-mile missile to carry a nuclear warhead three times as powerful as the one built for America's Atlas.

After a week of analysis, the experts said this theory "makes the most sense" of those advanced as the possible reason for Russia's declaration of a 45,000-square mile central Pacific danger area into which it plans to fire missiles during a 30-day period beginning today.

All U.S. naval and merchant ships have been warned to stay out of the target area southwest of Hawaii.

The Pacific tests probably don't have anything to do with the "fantastic" new Russian weapon mentioned Thursday by Soviet Premier Nikita S. Khrushchev. U.S. atomic scientist Ralph Lapp said this might be an "orbital H-bomb" that could be stationed in space and fired or recalled on command.

There was speculation that the Pacific tests might be connected with Russian efforts to put a man into orbit around the earth.

But U.S. defense experts now think the 8,700 mile missile with the powerful warhead is the most likely reason for the tests.

HUMORIST — Jeff Williams of Chickasha, Okla., will be the principal speaker at the formal opening banquet of the Coronado Inn Tuesday night at 7:30 in the Starlight Room. His topic will be "Worry, But Don't Go Nuts."

Faith In Our Community!

Pampa's united efforts have made our city a better place to live in. Our Coronado Inn is a supreme example of what can be done when we work together. Our friends and neighbors had enough "Faith In Our Community" to invest and build one of the finest hotels in the Panhandle.

The people of Pampa... the far-sighted directors and stockholders of the Coronado Inn... are to be congratulated for a wonderful job well done. Coronado Inn is a good example of "The American Way." Pampa is a city of which we all can be proud.

Congratulations CORONADO INN

FURR'S

Congratulations TO THE PEOPLE OF PAMPA

YESTERDAY'S DREAM IS TODAY'S REALITY . . . The Coronado Inn reflects the cooperation and determination of the people of Pampa. It is an outstanding example of Community accomplishment through concentrated effort and cooperation by all. Today, the Coronado Inn is the pride of the community . . . an inviting home to all who visit this city.

We feel that a real need has been fulfilled and that the hotel is now one of the community's most important assets. We are certain that Pampa, together with the Coronado Inn will grow and prosper through the years ahead.
