

### Lion Returns To Captivity

MT. PLEASANT, Pa. — A sadder, sorer and considerably wiser lion today welcomed the peace and ease of captivity after discovering a free life in Pennsylvania foothills was too tough.

The lion was one of four which escaped from their cages following a highway accident near here Thursday. Three were recaptured quickly, but the fourth roamed through rough mountainous terrain for five hours before being rounded up by a posse.

Totally unlike the comfort of his cage, the rocks and underbrush tore the tender paws of the animal.

When it finally came time for the "king of the beasts" to reenter his cage, spectators said he was so tired and worn that he appeared relieved to return to captivity and soft living.

The lion was part of Tom Pack's Circus, enroute to Houston, Tex., from Harrisburg, Pa.

Gyroscopes are in use to stabilize ships.

### He Says He's Jesse James

J. Frank Dalton, says the Lawton, Okla., Constitution, is Jesse James, and the man buried in 1882 as the famous Missouri bandit was an imposter. Dalton, a 100-year-old Confederate veteran, combs his beard in the Dallas, Tex., Veterans' Hospital with nurse Ozleia Cross' help. With twinkling eyes, he now tells of singing at his own funeral.

### Cancer Research Aided by Specialists in Many Fields

DALLAS — (AP) — Cancer research is receiving a great impetus as all fields allied to medical science are joining in the search for causes and better cures, a renown cancer specialist said here.

Dr. Wendell G. Scott, St. Louis, Mo., radiologist and associate professor of radiology at Washington University School of Medicine, pointed out that formerly only the surgeon, the internist, the radiologist and the pathologist interested themselves in the disease.

"Now cancer is being attacked from all different sides the physical, chemical and microscopic. Joining the battle and bringing with them their techniques are the physicists, chemists, botanists, biologists, anatomists, zoologists and other allied groups of scientists," Dr. Scott said.

"With this new, large army to combat the second greatest killer of mankind, the future presents a much more hopeful picture than ever before."

Dr. Scott, who is also consultant in radiology to the Bureau of Medicine and Surgery, U. S. Navy, is guest lecturer at a three-day postgraduate course in radiology being sponsored by the Dallas Southern Clinical Society.

Some 25 doctors from over the Southwest attended the "refreshing" lectures, which ended Saturday.

#### Soviet Awards Prizes

MOSCOW — (AP) — Four of 10 Stalin prizes of 150,000 rubles (about \$30,000) went to designers of new types of military planes. One went to a designer of a new type of a plane wing. Sharing in the awards were the Soviet Union's big four of airplane designers — Lavochkin, Mikoyan, Tupolev and Yakovlev.

Sound travels at approximately 1,100 feet per second.

### Courtroom Scene Delays Theft Case

The trial of Mr. and Mrs. Bill Cody, the former known as "Buffalo Bill," has been set for Monday in County Court. They are charged with theft of five chickens and a suitcase.

Cody, his shoulder-length tresses swaying as he shook his head, insisted on his innocence to county officials Friday.

The case was given a hearing late Friday afternoon and was ordered continued until Monday by Judge Sherman White after a melee between witnesses and Mrs. Cody developed in the courtroom.

### Rural Health Made Conference Topic

DALLAS — (AP) — Plans for improving rural health conditions in Texas were made at a conference here Friday.

Some 75 persons interested in raising health standards in farm communities attended. They included doctors, members of the Texas Council on Rural Health, and representatives of such farm groups as the Farm Bureau, Grange, IFA and Texas Federation of Cooperatives.

Dr. Allen Stewart of Lubbock and James Monroe, Hale County hospital executive, were speakers.

#### Food Prices Rise

NEW YORK — (AP) — Food prices were firm to slightly higher this week across the country. Retail food stores reported a small increase in demand. Prices of vegetables, which have been unreasonably high in some sections, were expected to ease.

### Senate Waits On Navy Bill

WASHINGTON — (AP) — The Senate Appropriations Committee Friday put off until this week hearings on a House-approved \$5,686,000,000 Navy bill.

The bill carries funds for starting work on a \$5,000-ton aircraft carrier. It also provides for increased Naval and Marine forces. Senate committee members said they want to examine the fund carefully before they act. It passed the House without controversy.

Children are likely to be in more of a mood to eat supper if you interest them in quiet play for the half hour preceding supper. Making a doll bed, fitting together a puzzle or rearranging doll house furniture are typical relaxing activities that will get Junior and his sister ready for quiet eating.

## Buoyant answer to Back Road and Boulevard

REMEMBER that rough patch of road up yonder where the ruts and ridges make a washboard seem smooth?

Recall the tiring tenseness brought on by the drum and hum of road noise and tremor even over smooth concrete highways?

Well, clock away the miles in this stunningly styled Buick — and meet up with the sweetest answer to such matters this side of cloud cruising.

"It's a ride that's soft and smooth as velvet," folks tell us. And we tell them it comes from a host of things.

It comes from the ample road-weight of a two-ton car built low and wide — and so beautifully balanced it handles light as a baton. It comes from the leveling buoy-

ancy of Buick's all-coil springing which puts a pillow of deeply coiled steel at each wheel to soak up the bumps and ripples.

It comes from the softness of bigger, lower-pressure tires that cushion away road tremors and roughness — from the sure-footed, swerve-free steadiness of Buick's extra wide Safety-Ride rims, widest in the industry.

And it comes in special measure from a brand-new engineering gem we call Vibra-Shielding which banishes vibration build-up.

Here for the first time you're freed from the motoring fatigue brought on by tiny tremors piling up into bigger ones. Here your miles are made moss-smooth and quiet — long journeys become mere jaunts.

So why delay knowing the most buoyant answer to any road you ever traveled?

Come visit us now. Know at first hand the distinctive styling, the flashing action, the velvety ride over highway and byway that are Buick's and Buick's alone.

Then follow your heart's desire and get your order in promptly. We'll take it in proper sequence whether or not you have a car to trade.

#### REASON FOR THE VIBRA-SHIELDED RIDE

Placed with scientific exactness, 3 fat cushions of special composition cradle the engine so as to control its vibration frequency. Engine vibration is thus kept "out of tune" with those that might come from other parts of the car. The result is to shield car occupants against tiring pulsations, cut road noise, make engine vibration almost imperceptible and motoring practically fatigue-free.

#### BUICK alone has all these features

- \* DYNAFLOW DRIVE (Optional Roadmaster Series)
- \* TAPER-THRU STYLING (Floor and Rearseats)
- \* VIBRA-SHIELDED RIDE \* SAFETY-RIDE RIMS
- \* HI-POISED FIREBALL POWER
- \* ROAD-RITE BALANCE \* RIGID TORQUE-TUBE
- \* QUADRIFLEX COIL SPRINGING
- \* SOUND-SORBER TOP LINING (Floor and Rearseats)
- \* DUALMATIC SPARK ADVANCE \* FLEX-FIT OIL RINGS
- \* TEN SMART MODELS \* BODY BY FISHER

By WILLIAM C. BARNARD  
Associate Press Staff

Next month marks the 28th anniversary of a memorable South Texas speed run—a record round trip between San Antonio and Corpus Christi.

Dimly remembered now, the run was a colorful event, conducted with fanfare and peppered with excitement. The record still stands—no one ever bothered to officially better it.

Fred Schoenberger is the surviving member of the two-man team that rode the green Essex roadster to fame in 1920. Schoenberger, thin-haired and 57 now, moon-faced and good natured, today supervises a utility company garage in Corpus Christi. From him we obtained these details on the daredevil trip:

The San Antonio Express and the Corpus Christi Caller offered a silver cup to anyone who could better the round-trip time from San Antonio to Corpus Christi which had been established in 1911.

The Clyde Chaddick Auto Company of Corpus Christi decided it would sponsor an attempt on the record. Schoenberger, veteran of fighting in France and a mechanic employed by Chaddick, was selected as the mechanic—or, as he was to be known—the "pilot" for the engine. Elmer, as the driver was the late Walter White, a man devoted to fast driving. Charles Roster, now an advertising man in Corpus Christi, was official timer.

Schoenberger owned a new Essex roadster, a dashing vehicle with big-spoked wheels. Two horns and a siren were mounted on this car and at 5 a. m. the morning of July 14, 1920, White and Schoenberger pulled away from the San Antonio Express office on the first leg of the run.

They were wearing khaki shirts and trousers, they wore goggles, they had breakfasted excitedly on coffee and doughnuts.

The highway to Corpus Christi in those days was 160 miles, a hazardous road of big ruts, deep holes, clinging vines and indolent cattle. For the ordinary driver it was a dawn to dark trip. People with brains took the trains.

"We left early to take advantage of the cool of the morning," Schoenberger said. "We figured to do everything possible to keep from overheating the car."

"We had 40 pounds of air in the front tires and 45 in the rear so that we could jump over curbs and holes easier. We hit a hole in some sand near Floresville and the car went four feet into the air and flew for 40 feet."

"White didn't say anything—just nudged me with his elbow." It was a tense trip with speeds up to 69 miles per hour. White drove grimly, rarely uttering a word. Schoenberger watched the oil pressure gauge and the heat indicator on the radiator cap, called, in those days, the motor meter.

"I spent a lot of time cranking that siren," said Schoenberger. "Wagons moved over for us but we had a time with pigs, chickens and cows. You can't impress a herd of cows with a siren." A fire truck escort was waiting at the city limits of Corpus Christi. It led them part of the

way into town, but then White, unimpaired by the delay, passed it. The Essex arrived at the Caller office at 9:23 a. m., four hours and 23 minutes after leaving the Lamo City.

Word of the incredibly fast time spread quickly. A big crowd cheered as White and Schoenberger left the Caller office at 5 a. m. the next morning on the return trip. Hundreds lined Leopold Street for two miles to the city limits and yelled and applauded as the green topless roadster, its siren howling, roared by.

Schoenberger burned out the siren and one of the horns on that return trip. The time was slower, four hours and 55 minutes. "A lot more cattle," Schoenberger explained.

The total time was nine hours, 18 minutes—almost three hours better than the 1911 record.

San Antonio turned out to give the daredevils a royal welcome.

And when the pair returned to Corpus Christi, a luncheon was held in their honor. They drove the Essex into the ballroom of the Nueces Hotel and the chugging of its brave engine mingled with the roars of the banqueters.

White later became a rancher at Agua Dulce in South Texas and died several years ago. Schoenberger has a son, a 23-year-old veteran who, like his father, fought in France.

Fred, Jr., likes speed, has a souped-up Ford, and drives the smooth, greatly shortened, highway from Corpus Christi to San Antonio in two hours.

**UNDERGROUND TREE**

A Brazilian tree, the Andira Laurifolia, has its trunk underground. What appears to be surface roots really are the branches of the tree.

## House Sends Naval Money Bill to Senate

WASHINGTON—(AP)—A \$3,586,733,250 Navy appropriation bill for the new fiscal year beginning July 1, was passed Thursday by the House and sent to the Senate.

Passage was by voice vote. The measure boosts to \$10,196,672,250 the money voted by the House for defense in a 24-hour period. Wednesday it sent the Senate a \$6,509,939,000 money bill for the Army and Air Forces.

Congress previously had voted approximately \$3,200,000,000 for aircraft procurement.

Both the Army and Navy bills were passed in the form recommended by the appropriations com-

mittee, which had cut budget estimates by approximately \$850,000,000.

The Navy bill carries funds to start work on a 65,000-ton super aircraft carrier, and to boost naval and Marine Corps personnel to 552,000. The Army plans to have 1,290,000 men during the coming fiscal year.

Passage of the defense money bills leaves the way clear for House debate on a bill financing the foreign-aid program until June 30, 1949.

The Navy money bill passed without any controversy.

Rep. Thomas (D-Tex) urged its approval, saying Russia has built a fleet of 250 submarines. These, he said, 50 of the advanced Schnorkel type developed by Germany during the war.

Schnorkel submarines are equipped with a special breathing device which permits them to stay

## Senate Approves Bill Allowing More Immigrants

WASHINGTON—(AP)—The highly disputed bill to let 200,000 homeless Europeans enter the United States during the next two years went to the House Thursday with the Senate's 63 to 15 endorsement.

One Republican, Senator Hawkes (NJ), and 12 Southern Democrats cast the opposition votes after an 11-hour continuous session.

Early House approval of a similar bill is indicated since Republican leaders have placed a "must" tag on displaced persons legislation for this session.

Submerged longer than ordinary undersea craft. Also, they are capable of greater underwater speeds.

The Senate bill would permit 100,000 carefully selected Europeans to come here each of the next two years, starting in July. They would be in addition to the regular immigration quotas. The measure survived an attempt by Senator Kern (R-Mo) to junk it for his substitute bill which would have limited the total to 140,000, with half of these charged against regular immigration quotas.

### It Was the House of Make-Believe For Members of Brownie Troops

One hundred twenty-four twinkling eyes gazed at unheard-of things Friday night when the members of the eyes realized something was going on they didn't see every day.

First, the 62 owners-of-the-eyes viewed "three little pigs, a mama pig and a big bad wolf." Next, 15 figures, appeared out of nowhere to present a sing skit "Under the Spreading Chestnut Tree." No sooner had they finished the skit than the chestnut tree was no more, and in its place was a girl-dog sitting on a cactus.

Shortly after the owners-of-the-eyes had gotten their eyes back to normal size they were immediately stretched wide open again as Napoleon appeared on the scene, bidding farewell to his grandmother.

What more can happen in one night, thought the owners-of-the-eyes. However, an old, tired Irish scrubman attracted their attention as she bent wearily over her washing.

Then 15 girls came running out and sang "The Song of the Three Dukes."

The next thing greeting their ears was, "Mañana, I'm ready to go home. Camp is over for another year except for our trip

### Paraguay's Chief Justice Takes Office

ASUNCION, Paraguay (AP)—Chief Justice Juan Manuel Frutos began a 10-week term as Paraguay's provisional president Friday, replacing deposed President Higinio Morinigo.

Morinigo, "strong man" president since 1940, was forced out in a bloodless coup effected by the Army. His cabinet resigned with him.

Frutos will hold office until Juan Natalicio Gonzalez is to be inaugurated. The Army said it acted to insure Gonzalez' inauguration.

The provisional president, believed in his late sixties, is an old-line leader of Morinigo's Colorado Party.

First news of the deposing of Morinigo came Thursday morning when the government announced his resignation at the request of "the armed forces and the people."

Ignatius de Loyola founded the order of Jesuits.

Here's a pooch who likes to chase the marbles in the pinball machines. "Little Willie"—who is a "she," incidentally—dashes about after the bouncing balls shot by her master, E. J. Christian of Houston, Tex.

Hey, Doggie, TILT!

### Polio Warning Issued by Health Dept.

AUSTIN (AP)—Sixty-two new cases of poliomyelitis—matching the all-time record set two weeks ago—were reported to the State Health Department last week.

State Health Officer George W. Cox totaled reports of the disease so far this year at 294 cases, far ahead of any previously recorded incidence during a comparable period.

The greatest number of cases, continue to come from coastal and South Texas counties. There were 18 new cases last week in Harris County, 11 in Cameron County, 8 in Nueces County, 5 in Hidalgo County, and 3 in Willacy County.

Cox warned that incidence of the disease is gradually spreading northward. He asked that all cities in the path of the spread redouble their efforts in garbage and trash removal and intensify campaigns against rats, flies and mosquitoes.

The health officer also warned parents to make certain their homes are well screened against insects. Children should be kept away from public places as much as possible and should not exert themselves in playing, particularly during hot weather.

### Old Fashion' Doc Gives Way to New

DALLAS (AP)—The old fashion family doctor is about gone, a Texas health official said here. "It's just as well," he added.

Dr. Allen Stewart of Lubbock said Friday he meant no disrespect to the old-time "doc."

"He did a magnificent job with very few tools," he said. "But that was the trouble—too few tools. He'd set out on a 30-mile journey never knowing whether he'd have to deliver a baby, set

a broken arm or perform a major operation when he got there. Things have improved since then."

Stewart, chairman of the committee on Rural Health of the State Medical Association, thinks a lot of the improvements is due to "cooperative hospitals." He feels these are misnamed.

"They should be called community hospitals. With a lot of people, the word 'cooperative' has come to have an unfortunate connotation."

But these hospitals are actually cooperative, he said. The town's citizens buy the hospital and its equipment, and pay its staff. The practice is approved by the State Medical Association, provided the furnished hospital and accessories meet state requirements.

Stewart said there are 14 such hospitals in Texas today and applications for 47 more are awaiting certification.

### Pampans Will Go to Austin

Don Thut, 1105 Mary Ellen, and Mary Beth Bates, 1121 N. Starkweather, will be Pampa's delegates to Boys State and Girls State, respectively, this week at Austin.

Don, High School Student Council president, is being sponsored by the local American Legion Post; Mary Beth, sponsored by the Legion Auxiliary.

Delegates are chosen on qualifications based on citizenship, leadership, and their ability to make friends and get along with fellow students.

The purpose of Boys State and Girls State is to give the young people basic training in government. They will set up their own city, county and state governments, electing all candidates as regular voting citizens do in their elections.

Two young people are sponsored annually by the local American Legion Post and Auxiliary.

### Grasshoppers To Be 'Fed'

The third mixture of bran-sawdust-sodium-fluoride bait grasshopper poison will be mixed in the McLean County barn Tuesday, Ralph Thomas, Gray County agricultural agent, said Saturday.

"The farmers will have to bring their own sacks and mix the bait," said Thomas, "for there are a few areas around McLean where the grasshoppers are pretty thick."

Parts of Texas may be heavily infested with grasshoppers before the summer is over since the young grasshoppers are beginning to move into the cultivated fields, it was stated.

"However, most areas in Gray County have not been infested as yet," Thomas said.

There are eight countries bounding France.

### Arabs Capture Arab in Pictorial Fake

This is Arab make-believe warfare. The soldier at top left, about to be captured by the Arabs in the foreground, is really an Arab, too. He's dressed up like a Jewish Hagana fighter, strictly for the act. The Arabs then have the scene photographed, purporting to show them taking a Jewish prisoner. Actually, few prisoners have so far been taken by either side. (Photo by NEA-Acme staff correspondent Artin Kamegissian.)

### Communist-Artist Provokes Trouble in Mexico City

MEXICO CITY —(AP)—Some young men scratched the phrase, "God does not exist," out of a lego Rivera mural Friday night at the artist painted it right back in again. The mural, titled "Sunday Afternoon in the Alameda," is on a wall of the main dining room of the government's new \$8,000,000 Prado Hotel. The Young men, numbering 150, invaded the dining room, overpowered three detectives and left back waiters while one mounted a chair and, using a table knife, scratched away all the phrase but the word "God." Rivera, dining a few doors away at the time, later brought a paint box into the hotel dining room

and, climbing on a chair, restored the obliterated words. He had taken the phrase from Mexican revolutionary history. Because of it, Mexican Archbishop Luis M. Martinez refused to bless the hotel as is customary with new buildings here. Police said the invaders were engineering students. They were hunting the group. Rivera confirmed reports he has applied for readmission to the Mexican Communist Party. The party declined to comment on Rivera's application, but said a bulletin on the matter is in preparation. It expelled the artist in 1937 because of his close friendship with and support of Leon Trotsky. Glery may be cooked and served in different ways: combine it with cubed cooked carrots; or cream it and serve it with toasted almond nutmeats; or add it to creamed cooked onions.

### Governor Hopeful Belittles Jester

FREDERICKSBURG —(AP)—Holmes A. May, candidate for governor, said Thursday in a radio speech that Gov. Beauford Jester had failed during his first term in office on all three points in his election platform. May said Jester did not fulfill campaign pledges on farm-to-market roads, higher pay for school teachers and increased old-age assistance. House Lifts Cosmetic Tax WASHINGTON —(AP)—The House passed Thursday a bill lifting the 10 percent excise tax from cosmetics used in personal services in barber and beauty shops. The bill now goes to the Senate. Give the frames of your old sun glasses a lift with a coat of red or blue lacquer.

### Old Home of George Washington Houses Priceless Collection of Washingtonia

By TEX EASLEY WASHINGTON —(AP)— On a high bluff overlooking the Potomac River 18 miles south of here in Virginia is a beautiful, white-pillared mansion—Mount Vernon, the old home of George Washington. There, appropriately, is located probably the greatest collection of Washingtonia in the country, original furniture, china, writings, and other things owned by the nation's first president. Vying for first place in interest are George Washington's manuscript diary for 1797, and "The Poems of Robert Burns," first New York edition of 1788, in excellent condition and bearing George Washington's autograph. The book was presented by Mount Vernon Ladies' Association, which maintains the estate as a shrine to the nation's first president. It was presented during the past year in memory of his mother, Mrs. Thomas S. Maxey, for many years vice regent from Texas of the Mount Vernon women's group. In 1932, largely through the efforts of Mrs. Maxey, the present public entrance to Mount Vernon's spacious landscaped grounds was erected and a brick boundary wall built along the side of the estate facing the highway. Lewellyn B. Griffith, Jr., and Charles C. Griffith, sons of L. B. Griffith of Austin, loaned silver salts engraved with George Washington's initials. They belonged to the elder Griffith's mother, a descendant of Mrs. Robert E. Lee. Most of the tens of thousands of tourists who visit Mount Vernon annually, arriving by highway or by excursion steamers which dock at Washington's private landing, are surprised to learn that the estate is not preserved and operated by the government. Between the wharf and the mansion is the red brick family burial vault containing the bodies of George and Martha Washington. Incidentally, speaking of Washington's burial place, there's a crypt deep in the basement of the Capitol Building directly beneath the dome. Here the original designers of the building had intended that Washington should be buried, but his heirs ruled to the contrary. Now a black-draped casket-shaped box rests in the crypt, which is kept under lock and key and is viewed by only an infinitesimal fraction of the tourists who wander through the building. The guided tours don't visit the crypt; it's shown on the deluxe tour some congressmen save for close friends or relatives. In fact, many congressmen don't know about it. President Truman eventually may look like a Texas cowboy. The latest addition to his Western regalia is a hand-tooled leather belt with a gold buckle, made in San Angelo and presented to him by Roy Baker of Sherman, head of the Young Democrats of America. Not long ago the President got a pair of handmade boots from El Paso to go with a cowboy spur tieclip he previously received. And his regular headgear is a Texas style light grey hat. Galvestonians soon may learn some interesting background on the ties of their city with England during the days of the Texas

Republic. Thomas G. Rice, assistant managing editor of the Galveston Daily News, stopped here enroute to England and told of his plans to do research among original documents dealing with the British commercial and diplomatic relations with the Lone Star Republic. England then had a legation in Galveston. The newsmen is going abroad with his wife, whose parents live at Newcastle on Tyne near Scotland, and their two children, John 6, and Susan, 3. The Galveston News was established in 1842, when Texas was an independent nation. Reports reaching here, Rep. Gene Worley of Shamrock says, indicate that the new foot and mouth disease program in Mexico is making more progress than our officials at first dared expect. Mexicans who rebelled over program are cooperating more closely.

ly with the modified plan calling for a limited slaughter and intensive vaccination of exposed herds. Meanwhile, the American authorities have selected an island off the coast of Rhode Island as a site for the new foot and mouth disease research laboratory to cost about \$30,000,000. Every precaution will be taken to prevent an outbreak of the disease from the research center. It will be surrounded by a wire mesh fence set in concrete and made rat proof. The cattle which are given the disease will be kept in sealed rooms equipped so all air leaving the place is passed through filters. 150,000 Acres STATE SCHOOL LAND FOR SALE July 8, 1948 Information, description and location of this land, together with application blank, will be furnished FREE! ## Youth Falls From Tree—Intc Pages of Medical History

By WILLIAM C. BARNARD Associated Press Staff

Five weeks ago, a Corpus Christi, Tex., youth slipped from a tree and tumbled into the pages of medical history.

Noel Leon Herro, a green-eyed, olive skinned boy of 11, survived an amazing ordeal. Look what happened:

A thin salt-cedar tree, straight and strong, was underneath the big tree from which Noel plunged.

He fell on the little tree. It drove into his abdomen and emerged at his shoulder. Impaled by the tree, he dangled in the air, screaming, his feet a dozen inches from the ground.

Across the street in her home, his mother, Mrs. George Herro, heard the agonized cries. She ran to the scene and then her screams for help blended with those of her son.

"People heard me for two blocks," she told us.

A man came with a hatchet but his blows against the trunk of the tree were too much for the boy to stand. Someone fetched a hacksaw, sawed through the slender trunk and Noel was lowered to the ground.

With the tree trunk extending from his body a foot or so in each direction, he was rushed to Corpus Christi's Memorial Hospital where a number of physicians were holding a meeting.

Dr. Gordon Heaney, husky, amiable veteran of the Second World War, was called from the

meeting to the hospital's emergency room.

"I nearly dropped in my tracks when I saw that boy," Dr. Heaney said.

"We gave him plasma immediately and by the time he had had two bottles of that, blood was ready and transfusions were started. He got three pins before he left the operating table."

When the plasma was started, Dr. Heaney picked up an anesthetic mask and said: "Want a few whiffs of this, fellow? It'll make you feel better."

"I don't want that," said Noel. "Just get this tree out of me."

The tree had entered the right upper quadrant of the abdomen, beneath the lower rib. It had torn through the diaphragm and had pushed the lower lobe of the right lung upward. It had torn through the middle and upper lobe of the right lung and had emerged between the shoulder and the neck, just in back of the collar bone.

At the shoulder the tree was about an inch and one-half in diameter. At the opening of the abdomen, it measured two inches.

"It was a tight fit at both openings," Dr. Heaney said. That was a life saver—blood filled the right pleural cavity, could not escape and the pressure built up inside the cavity halted further loss of blood.

Herro was put to sleep. With a hacksaw, Dr. Heaney sawed off the top part of the tree, flush with the boy's shoulder. Then the physician took out the patient's seventh rib, in order to have a clearer field for vision and action during the dangerous process of withdrawing the tree.

An assistant began withdrawing the tree, pulling it from the opening in the abdomen, inch by inch. As this was done, Dr. Heaney worked feverishly, putting clamps on the released blood vessels and then tying them off. Clamp and tie, clamp and tie. Through a tube pushed down Noel's windpipe, air was forced into the injured lung, expanding it and making it easier for the physician to repair the damage.

In 10 minutes, the lung was patched and the tree was completely out.

"I've seen battle casualties in Africa, Italy, France and Germany with comparable injuries," Dr. Heaney said. "They didn't live."

Noel lived. A few days ago he went back to school. He feels fine. But he's steering clear of trees.

## Bird Will Not Room Makes Car His Home

CHICAGO —(AP)— Karl C. Fromm, a molasses salesman, says he apparently is stuck with a bird which flew into his automobile last Monday and continues to make the car its home.

When Fromm discovered the bird in his car he gave it food and water. Since then it has been his traveling companion and although Fromm keeps the car windows open the bird refuses to leave the car.

## 'Seavan' Service Starts at Houston

NEW ORLEANS —(AP)— Goodrich-Gulf Lines, Inc., inaugurated the first "seavan" service between New Orleans and Houston, last week.

C. D. Bintliff, firm president, said under the new type service his firm delivers a van to the shipper who conducts his own loading.

The van is then moved to a ship which moves it to its city of destination. There a tractor picks up the van trailer and delivers it to the consignee.

## Draft Bill To Leave Call Up to Truman

WASHINGTON —(AP)— A Senate Republican leader said Friday there is a good chance that any military manpower bill passed by Congress will leave the actual draft call up to President Truman.

Senator Wherry (R-Neb.), acting majority leader, told a reporter he favors an amendment to that effect offered Thursday by Senator Capehart (R-Ind.). A similar provision has strong support in the house.

"And I think it will have a lot of strength in the Senate," Wherry said.

Senator Lodge (R-Mass.) also claimed "some support" for his amendment to allow recruiting of up to 50,000 young Europeans for overseas service with the American Army. After five years of honorable service they would be eligible for U. S. citizenship.

Halley's Comet came uncomfortably close to the earth in 1910.

## Student Riots Laid to Reds

HANKING —(AP)— The United States warned China Friday that Chinese student demonstration against American policy in Japan is creating an increasingly dangerous situation.

(Chinese government officials have charged Communist agitators with stirring up these demonstrations, which figuratively have turned into riotous disorders.) Ambassador J. Leighton Stuart said the agitation "is seriously damaging the traditional cordiality between the United States and China and, if it continues, it may have unfortunate results."

He warned the students:

"If those of you who agitate or participate in agitation against the United States on the question of Japan disagree with what I have said, then you must be prepared to face the consequences of your actions."

"Unless China and the United States can approach each other with mutual trust and confidence, peace and welfare are endangered with stirring up these demonstrations."

## Ice man Charged Burning Donkey

DALLAS —(AP)— An ice man charged with tying a kerosene-soaked rag to the tail of his neighbor's donkey and then igniting it was sought by police today.

Mrs. Emille Schuyler, president of the Dallas Society for Prevention of Cruelty to Animals, said the donkey was critically burned. The charge was filed against Will Henry Rainbow.

## Marital 'Conflict'

HOLLYWOOD —(AP)— Singer Ginny Simms says she has decided to sue her husband, architect Hyatt Dehn, for divorce because of a "conflict of personalities."

RODENTS CAUSED FIRES — Prior to 1911, many fires were caused by mice and rats, which could not resist chewing the heads of matches which contained ingredients they liked.

# George Payte Pitches 13th 948 Oiler Park Shutout

## Oilers Tied With Hubbers For Leadership in Hitting

For the second consecutive week the Oiler bats have pounded out an average that surpasses that of any team in the WT-NM League other than that of the Lubbock Hubbers whose average ranks a tie with the pace setting Oilers.

Last week, the Oilers had a hitting average of .335, but this week the mark has slightly dropped and the average stands at .331.

In the team fielding department the Oilers dropped from second to fourth and from an average of .946 to .944. On May 25 the Oilers had committed 72 errors but on June 1, the Oilers had added 11 more bobbles on to their total, and thus had lowered themselves in the league standings.

R. C. Otey continued to lead the league individual hitting for regulars although five baseballers have averages that are greater than the hard-hitting second baseman's. All averages that surpass Otey's are by players who are not regular and who have not participated in as many games as he has.

The Oilers have played 35 games, which is the lowest number of any team in the league, and Oiler batsmen have been at the plate 1,351 times officially. They have scored 324 runs, 260 of them earned, have had 447 hits and have touched 667 bases. (Pretty technical isn't it?) The Oilers have pounded out 100 doubles, and 27 triples to also assume second position in that department. Borgie has 191 doubles and Albuquerque has 28 triples to tie the Oilers. The Oilers are last in home runs and rank 10 below the number seven place club, Albuquerque, which has 32. Borgie has a total of 57 to pace the

league in circuit wallops. Oiler pitchers have found the Oilers very rugged and have managed to strikeout the league-leading hitters on only 163 occasions, the least number of any team in the league. This total is 17 under their nearest competitors, the Amarillo Gold Sox, who have fanned 180 times. Lamesa batsmen have struck out 249 times and lead the league in strikeouts.

The Oilers have had the least number of put-outs in the league with a total of 918. Oiler fielders have had 473 assists, 83 errors, and 36 double plays.

R. C. Otey is tied for the league lead in triples and is third in the league in doubles. Otey has slugged six triples and 16 doubles. Richardson of Lubbock has 22 doubles and Means of Abilene has 18. Sullivan of Lubbock, Bowen of Albuquerque, and Fallapino of Abilene all are tied with Otey for the lead in triples and Tony Range, Oiler third baseman, has five triples to assume second position in the league. Joe Fortin has 15 doubles to his credit and takes over the fourth position in league doubles.

Despite the fact that Southpaw Avon Driggers last to Clovis 12 on June 2, he is still the outstanding hurler in the WT-NM League. Driggers has eight wins and one loss. He has faced 261 batters, allowed 38 runs, given up 70 hits, issued 25 walks, and struck out 32. George Payte follows Driggers in the Oiler pitching with an average of .667. Payte has faced 234 batters, given up 52 runs, and 46 hits. He has issued 54 walks and struck out 41. Matthews of Clovis leads in the number of strike-outs with 41. Matthews of Clovis leads in the number of strike-outs with 41. Matthews of Clovis leads in the number of strike-outs with 41.

### Demaret Tops Albuquerque Golf Tourney

By FINIS MOTHERSHEAD ALBUQUERQUE (AP)—A third par-busting card Saturday kept Jimmy Demaret out front by a single stroke through three rounds of the Albuquerque Open Golf Tournament.

The Ojai, Calif., pro stroked in with a five-under-par this afternoon to post a score of 201 for 54 holes.

Still dogging his heels was Clayton Heafner, who also had a 67 to go with his previous 135 for a 202 total.

A blazing sun sent the thermometer up to 105 degrees out on the University of New Mexico course.

Other scores through the third round (54 holes — par is 144-72-216) include:

A-Jack Shelton, Stillwater, Okla., 165-76-241.

Charles B. Kleing, Amarillo, Tex., 147-71-213.

Milton Ward, Corpus Christi, Tex., 149-77-226.

E. J. "Dutch" Harrison, Little Rock, Ark., 139-67-206.

A-denotes amateur.

### Glasgow Out As Irish Coach

SHAMROCK (Special)—Kenneth Glasgow has resigned his position as boxing coach and assistant football mentor of the Shamrock Public Schools.

Coach Glasgow tendered his resignation last week and he and his wife and baby daughter, Michael Kay, have moved to his hometown, Follett, to spend the summer.

The 1947 Shamrock grid team, which Glasgow helped to coach, won bi-district honors, being defeated only by the powerful Perryton Rangers.

The young West Texas State College graduate was considered the outstanding boxing coach in the Texas Panhandle. His team won the district tournament at Clarendon, took top honors in the local annual meet and placed second in the Plainview Invitation Tournament.

It was Glasgow's first year of coaching. In a statement last week, he said that his plans for the future were indefinite but that he did not think he would continue in the coaching field.

EDITOR DIES LARCHMONT, N. Y.—(AP)—John Allen Murphy, 64, an associate editor of the trade publication "Printers Ink" for 11 years, died Friday night.

### Oilers Win 3rd Straight From Hubbers

The Pampa Oilers made it three in a row over the Lubbock Hubbers last night in Oiler Park when Southpaw Avon Driggers notched his ninth win of the season as the Oilers walked over the Hubbers 13-4.

The Oilers didn't find the going so easy at first with the Hubbers jumping to an early 2-0 lead in the second inning when Frank Booth singled to left and Pitcher Bob Ramsey stepped to the plate and connected for a home run on the first ball pitched.

Not to be outdone, the Oilers came back strong in the bottom half of this inning when they collected five hits and scored six runs, all after two men were already out. Riley flew out to Booth in rightfield and Range grounded out pitcher to first to start the inning. Fortin then singled and Bob Belford doubled, scoring Fortin from first. Samek and Driggers walked to load the bases and then R. C. Otey stepped to the plate and on the first ball pitched slapped a single to center scoring both Belford and Samek. Bartholomew singled Driggers home and then crossed home plate on Earl Harrison's single after Otey had scored on an error. Harrison was then caught stealing second to end the inning.

The Oilers also had a big run fourth pushing across four more tallies on four hits and two walks. Consecutive doubles by Range and Fortin followed by singles by Driggers and Otey accounted for the runs.

Lubbock completed their scoring in the fifth on two singles by Richardson and Moore and a double by Charlie Scarborough.

Although no Lubbock scoring took place in the sixth frame, this inning was filled with action with Manager Jackie Sullivan and shortstop Jack Wilcox getting the old "Heave-ho" from Earl Harrison's pitcher, Range, and an error by Wilcox accounted for the five runs.

The Oilers scored one in each the fifth, sixth, and seventh innings on eight hits off three Hubber hurlers. Sullivan used four moundmen altogether, but the Oiler bats refused to be silenced.

The Oilers are in Lubbock today for a three game series with the Hubbers. They will return home June 15.

### HUBBERS LOSE 2ND STRAIGHT IN OILER PARK

George Payte, Oiler righthander, earned himself a place in the Pampa record book Friday night when he tossed the Oilers to a top heavy 11-0 victory over the third-place Lubbock Hubbers, to become the first pitcher to hurl a shutout in Oiler Park this season.

Payte pitched good ball all the way, allowing five hits, walking five, and whiffing eight. Only two Hubbers reached third and only five visitors reached the keystone sack.

The Oiler batmen again brought trouble to Lubbock Manager Jackie Sullivan's pitching staff, although Bob Clodfelter, Hubber righthander, went the route on the mound. This was the second time during the current season that Clodfelter has been a part of a record-breaking shutout. The Hubber ace was the first WT-NM League pitcher to hurl a shutout during the 48 season, and then was the losing hurler in Friday night's first shutout game in Oiler Park.

The Oilers began the contest in much the same way as they did Thursday evening's game which they won 17-1. On the first pitch of the game, R. C. Otey connected for a single and advanced to second when Jack Wilcox muffed Earl Harrison's hard hit grounder. Riley singled as Otey and Harrison both advanced a base to load the sacks. Clodfelter then wound up, but speed-demon Otey headed for home and Clodfelter stopped his wind up in an effort to catch Otey at the plate. Umpire Fischer behind the plate wrote him in to his intention when he charged the hurler with a balk and allowed all the runners to advance one base. Range grounded out, pitcher to first, and Joe Fortin slashed a single to right to score both Harrison and Riley. Belford grounded out, second to first, to end the inning.

The Oilers counted once more in the third when Jack Riley walked and was brought home on Joe Fortin's double and Bob Belford's single.

The Seitzmen had their biggest inning in the fifth when they pushed across five runs on four hits and three errors. Singles by Bartholomew, Fortin and Payte, a double by Belford, and an error by Wilcox accounted for the five runs.

A wild pitch, two hits, and a double steal gave the Oilers their final two runs in the eighth inning. Earl Harrison started the inning by connecting for a double. Riley struck out and Range cracked a single to left, scoring Harrison who had advanced to second on a wild pitch. Range then stole second and advanced to third on Fortin's grounder to Wilcox. Belford made a bee-line for second and as Catcher Don Moore made a futile attempt to catch Belford at second, Range came home.

The only real Lubbock threat was cut off by one of the most sensational plays of the current season. Substitute Catcher Floyd Walker, who was fired by virtue of a fielder's choice, forcing Richardson at second, Frank Booth then stepped to the plate and popped a double to centerfield with Walker attempting to come all the way home. After fielding the ball in deep center, Bob Bartholomew relayed the ball to Earl Harrison at shortstop who fired the ball at Sammie in time to get Walker at the plate. Fowler then hit a grounder to Range who tagged Booth for the third out.

At the plate, the Oilers were led in their base path parade by Joltin' Joe Fortin, rightfielder, who got three for five, two singles and a double. Bob Belford and George Payte got two for four and R. C. Otey got two for five. One of Otey's hits gave the local fans a sample of his blinding speed. The diminutive second baseman laid down a wobbly but to Clodfelter and then proceeded to beat out the throw to first without any help from slow fielding.

Errors were committed by Belford, Clodfelter, and Range. Clodfelter, P. Payte, S. Wilcox, C. Booth, R. Fortin, J. Harrison, J. Sullivan, B. Booth, F. Fortin, Belford, Harrison, Stolten bases; Otey, Range, Belford. Left on bases: Lubbock 16, Pampa 9; Bases on balls: Clodfelter 2, Payte 5, Strickland 2, Wilcox 1, Fischer 1. Wild pitches: Clodfelter; Balk: Clodfelter; Side, Czajka, Fischer. Time: 1:47.

## Local Golfers Steal Show In Green Belt Tournament

Three Pampa golfers are literally stealing the show at the annual Green Belt Golf Tournament which is currently being held at Altus, Oklahoma.

The three locals are Grover Austin, Jr., Malcolm Douglass and Dick Oden, with the latter pair being Pampa High School students. The trio kept the galleries of spectators in gasps with their sweeping shots and accurate putting.

Austin, a 32-year-old ex-caddy, was the 1941 Green Belt champ and is rated as number two man this year with Billy Holmes, last year's titlist from Shamrock, favored to repeat as king. Austin was slated to meet Frank Mitchell of Bowie in the quarter-finals of the Championship Flight yesterday morning. Austin added to his long list of golfing honors last Sunday when he annexed the championship of the annual all-city tournament at the local country club.

Malcolm Douglass, a 17-year-old caddy who is a student of Pampa Johnny Austin, won himself a firm place in the hearts of the Altus golf fans who were viewing the qualifying matches. Douglass qualified with an 81. He had had a 38 going out and picked up two six strokes holes on the front nine, and after apologizing to instructor Austin for the mistake, he finished the qualifying round in fine shape. With this, Douglass definitely established himself as the outstanding fan-favorite of the tourney. The fans followed him around the course in droves with looks of admiration and bewilderment. Douglass ran into Veteran Ross Magee of Childress in the first round and after stinging one of the best matches of the meet, Douglass was beaten by the vet's shot making, 2-1. Douglass then entered the consolation, followed by his long list of followers, and to the happiness of the crowd, he staged two major upsets when he whipped R. J. Duckworth of Altus, 2-1, and Doc Cole of Frederick, Okla., 1-1. The youngster was slated to meet J. H. Thorn of Frederick in the Consolation semi-finals yesterday. Thorn was rated as a pre-tourney favorite, but was beaten 2-1 by Billy Holmes, tourney favorite in the first match of the tournament.

The other PHS student, 16-year-old Dick Oden also gained many loyal followers and established himself as a fan-favorite. Oden had a 41 on the front nine but he fell off on the back tees and wound up in Flight B. Collins of Vernon failed to appear at his scheduled match with Oden, so the contest was awarded to the local amateur by default. Oden then dropped a heartbreaker in the second round to J. J. Smith of Vernon.

The three golfers plan to return to this city sometime Sunday, depending on how far Douglass and Austin go in the tournament.

Charley Hartnett is following in the cleat marks of his father, Jimmy, who was a top infielder with Villanova.

### Cabot Defeats Grocers With 12-Run 2nd

Scoring 12 runs in the second inning, the Cabot Shops Industrial League softball team trounced the Furr Food nine, 15-9 Friday night, with Righthander Lloyd Gooch receiving credit for the win.

The winners were never in really serious trouble as they jumped to an early 14-0 lead in the first two innings. Furr made their initial tally in the third frame when they crossed home plate 3 times on two hits and two walks. Furr got five runs in the fifth on five hits, two walks and an error with Cabot completing their scoring in the sixth frame when Truett Thompson singled and was driven home by successive hits by Stevens and McCallip.

Furr managed eight hits off Gooch while the Cabot team managed 14 off Chris Walsh. Highlighting Cabot's 12 run second, was Bernie Brown's four bagger with the bases loaded.

EXPECTED ATHENS—(AP)—A palace spokesman said yesterday that former King Mihai of Romania and Princess Anne of Bourbon Parma are expected in Athens Monday but a wedding date has not yet been set.

# Cleveland Untangles Snarl By Whipping Athletics 7-3

PHILADELPHIA (AP)—Cleveland's Indians untangled the snarl in the American League standings yesterday by bombarding Athletics for a 7-3 victory.

A paid crowd of 10,583, augmented by the numerous last-day customers, saw the Indians move a half game ahead of the Athletics and increase their percentage margin over the Athletics.

The Tribe, which waited until the 12th inning to explode five runs against Washington Friday night, tagged Coleman with his first defeat after six straight victories and went right to work with a three-run first inning.

Four singles and a walk gave Rookie Gene Bearden a working lead and the freshman sensation set down the Athletics without a hit for five and one-third innings. Meanwhile, the Indians shelled Coleman from the mound with a four-run uprising in fifth.

Cleveland ..... 300 040 000—7  
Philadelphia ..... 000 001 000—3

WASHINGTON (AP)—Earl Wynn and Mike Candioli collaborated in limiting Chicago to five hits here Saturday as Washington defeated the White Sox 3-2.

The victory, Wynn's fifth, moved the Senators into a fourth place tie with the idle Detroit Tigers.

Chicago ..... 000 001 100—2  
Washington ..... 020 100 000—3

NEW YORK (AP)—Although he lost his shutout in the ninth, Red Embree registered his fourth victory against one defeat yesterday when the New York Yankees defeated the St. Louis Browns 7-1.

Bobby Brown, filling in at second base for the ailing George Stinnes, collected three of the Yankees' 11 hits and drove in two runs.

St. Louis ..... 000 000 001—1  
New York ..... 010 020 040—7

CHICAGO (AP)—The Philadelphia Phillies swept a doubleheader with the Chicago Cubs Saturday, 4 to 2 and 6 to 5, to close their five-game series with four straight victories.

Schoolboy opener and Paul Erickson won the nightcap, although he had to be rescued in the ninth when the Cubs staged a four-run rally.

Richie Ashburn of Philadelphia extended his batting streak to 23 straight games.

First Game  
Philadelphia ..... 000 013 000—4  
Chicago ..... 000 100 100—2

Second Game  
Philadelphia ..... 000 020 130—6  
Chicago ..... 000 010 004—5

PITTSBURGH (AP)—Frank Gustine got a home run with a mate aboard in the ninth inning yesterday to give the Pittsburgh Pirates an 8 to 7 victory over the Boston Braves.

The winning blow came off rookie relief pitcher Vernon Rickford.

All but one of the Pirates runs were scored on four batters. Wally Welake homered twice to account for five runs.

Boston ..... 023 002 000—7  
Pittsburgh ..... 302 000 102—8

ST. LOUIS (AP)—Enos Slaughter's home run with the bases loaded highlighted a six-run third inning and gave the St. Louis Cardinals a 9-2 victory over the Brooklyn Dodgers yesterday.

Murry Dickson, although knocked out in the eighth, received credit for the win which evened the series at two games apiece.

The triumph moved the Cards to within a half game of the league-leading New York Giants.

Brooklyn ..... 022 000 020—6  
St. Louis ..... 006 002 100—9

CINCINNATI (AP)—Herman Wehmeier, 21-year-old Cincinnati right-hander, registered his fourth victory of the season with a 5-1 defeat today when he pitched the Reds to a 5-3 victory over the New York Giants.

Wehmeier allowed five hits including home runs to Billy Rigney and Whitey Lockman.

Cincinnati ..... 000 010 000—5

## Fast Games Played; Lefors Loop Started

The Lefors Softball League has been witnessing some very thrilling games throughout their first week of organization with the Cut Rate Grocery store leading the league with a record of five wins and one loss.

Lights have been erected in the middle of Lefors where the old courthouse was. The first game was played last Monday night when Danciger outlasted the Red and White Grocery store team 16-15.

Rev. N. S. Daniel of the First Methodist Church in Lefors dedicated the field with a short speech before the game.

The following is this week's schedule:

Monday, Red and White vs. Cut Rate and Texas Company vs. the Scouts.

Tuesday, Texas Company vs. Red and White and Cut Rate vs. Danciger.

Wednesday, Red and White vs. Danciger.

Thursday, Houchin Variety vs. Scout (doubleheader) and Texas Company vs. Danciger.

Friday, Cut Rate vs. Texas Company.

The standings are as follows:

TEAM	W	L	Pct.
Cut Rate	5	1	.833
Danciger	4	2	.667
Scouts	4	2	.667
Texas Co.	4	2	.667
Red & White	1	5	.167
Houchin Variety	0	5	.000

Syracuse's baseball outfield is composed entirely of football players. Doc Accolla and Bob Schiffer, ends and Silvers Slovanski, wingback, patrol the garden for the Orange.

## New Sports Club to Meet

The newly organized Pampa Sportsmen's Club will hold its first meeting Tuesday night at 8 o'clock in the County Court Room.

This club was formerly the McClellan Rod and Gun Club but has been revised and has a program set before it to promote mutual understanding between sportsmen and land owners.

The meeting will have several objectives, one of which will be to elect permanent officers and to establish a regular meeting night.

Present at the meeting will be "Doc" Sinclair, former president of the Texas Wildlife Federation. Sinclair will be one of the principal speakers and will aid the organization in achieving its goals.

All sportsmen, land owners, and especially all game wardens of this area are urged to attend the meeting.

## Pitcher Pistol Pete Pate Fans 184 in 81 Innings

ST. GEORGE, S. C. (AP)—Pistol Pete Pate's 184 strikeouts in 81 innings this season make him one of the best professional baseball prospects on record, his coach believes.

Pate, who will be 18 in August but still has two years of high school left, is a calm, almost phlegmatic lefthander who has shot that third strike past batters with annoying regularity.

His best strikeout record is 25 in a nine-inning game. His lowest is 13 in a five-inning game halted by rain.

In the 10 games he has pitched this year, he has given up but 23 hits but only one earned run.

Five feet 10 inches tall and weighing 160 pounds, Pate uses a speed ball most of the time. His control is phenomenal. Coach Felix Neal insists.

His hitting is as good as his pitching. He has a .470 average. In one game he rapped out a single, three doubles and a triple, driving home six runs.

Neal, a 1943 graduate of Mississippi State where he played football, basketball and baseball, says Pate is almost as good a football halfback and basketball forward as he is a diamond pitcher.

The youngster plans to finish school at St. George High, and possibly attend college. He refuses to say whether he wants a professional baseball career.

## Irish Host To Kelton for 4th Contest

SHAMROCK (Special)—The Shamrock Green Sox will be host to the Kelton team today in a game that will mark their fourth start in the Texas-Oklahoma league.

The game will be played in Dekle Park, just west of the underpass on Highway 66. The contest will start at 2:20 o'clock.

The Green Sox team is improving with each game and shows promise of developing into a smoothly operating ball club by mid-season. After losing their first game of the season to the Sweetwater club, they came back to defeat Briscoe, then lost their first game to Miami last Sunday by a score of 5 to 4.

The game was to have been played here, but was transferred to Miami because of the muddy condition of the local diamond.

The Sox gathered 10 hits off the host team and made five errors. Miami got nine hits and made 8 errors.

## Skelly Leads Softball Loop; Average 1.000

The Skelly Industrial League softball team is still undefeated through the third week of league play with a record of nine consecutive wins and no losses.

Magnolia follows Skelly in the standings with a record of 8 wins and 3 losses.

Thirteen games are on tap for this week with only one game slated for this afternoon. Today at 2:30 Phillips will meet Humble at Phillips. The Jaycees-Ideal game was postponed because of the Jaycee picnic.

The first portion of this week's schedule is as follows:

Monday, Furr Food vs. Texas Elf at Skelly and Phillips vs. Master Cleaners at Phillips.

Tuesday, Skelly vs. Pampa Bus at Skelly and Jaycees vs. Cabot at Phillips.

Wednesday, Master Cleaners vs. Magnolia at Skelly and Ideal Food Stores vs. Texas Elf at Phillips.

The remainder of the schedule will be published later this week.

It is hoped that the grand opening of Lions Club Park will be sometime this week. Lights are being painted and erected so that night games can be played in town as soon as possible.

## Knutson Will Meet Martin in Title Bout

Gil Knutson of Davenport, Iowa, moved into the contender's spot for the Southwestern Junior Heavyweight wrestling title by defeating Billy Hickson, Knoxville, Tenn., in 29 minutes of their main event match at the Sportatorium last night.

Knutson is now scheduled to meet Wayne Martin, present titleholder, in a championship match at the local arena that will probably be held next Friday evening.

The title match was scheduled definitely for next Friday, but it may have to be postponed for a week.

According to a report received last night by Vic Burnett, Pampa wrestling promoter, Wayne Martin was injured in Tulsa Wednesday evening. Martin, a Tulsa police officer, was jumped by a gang of thugs while he was patrolling his beat, and severely mauled. The extent of Martin's injuries was not known, but they were suspected of being serious enough to prevent his wrestling for a while.

Other matches will be scheduled for next week, and will be announced later, if Martin is unable to appear.

The semifinal, in which Olan Boynton, of Amarillo, and Jack Wentworth, the stocky Canadian from Toronto, fought to a draw, was characterized by some of the roughest and dirtiest tactics ever seen here.

Both wrestlers used their fists freely, whenever they could.

worth's Anaconda, but gasser pressure is applied to the neck, causing temporary unconsciousness.

When they returned for the second fall, Hickson flew at his opponent and felled him with a series of kangaroo kicks and a body pin. Time: one minute.

The third fall was over in 9 minutes when Hickson missed with one of his kangaroo kicks and Knutson promptly fell on him to effectively pin his shoulders.

Yaqui Joe was the referee last night, and Paul Lefebvre acted as timekeeper and announcer.

## Aggies Figure They're South's Track Kings

COLLEGE STATION, TEX. (AP)—Texas A. and M. figures it is the track and field champion of the south or a reasonable facsimile.

The Aggies won the Southwest Conference title. They also licked Oklahoma A. and M. and Louisiana State in dual meets.

Oklahoma A. and M. was champion of the Missouri Valley Conference and dominated meets with Big Six Conference schools.

Louisiana State won the Southeastern Conference title.

That comes pretty close to taking in all the territory in the South.

Ra was the sun god of Egyptian mythology.

# Nobody Loves Forever

By Margaretta Brucker

Copyright by Arcadio House, Inc.  
Distributed by NEA SERVICE, INC.

THERE is no spot in Akron where you can get a better picture of the population than at the municipal airport on Sunday afternoon. Cars of every conceivable make jam the parking places. Buses unload men with the grime of the factory still on their faces. There are women carrying treasured babies and dragging by the hand small, shabbily dressed children. There are girls in smart suits girls in clean sweaters and slannelle slacks.

There are others. Men in uniform, and men with discharge buttons in the lapels of ill-fitting ready-made suits.

There are small boys wailing in and out the crowd, squealing with excitement as they identify every make of plane which whizzes aloft.

Everyone is interested, thrilled, standing with upturned faces and eyes squinting against the blinding glare of the June sun.

Jessica Blake wedged tightly in the crowd which pressed close against the stout iron fence surrounding the airport.

Flying was wonderful, she thought as she stood staring her eyes from the dirty side of the sun and watching a great twin-engine plane zoom in. Immel's being able to take off and in a few minutes be up there leaving the crowded rubber town behind.

Suddenly she reminded herself. But you can't see anything from the drab everyday existence you must lead until Tom comes home?

She moved closer taking advantage of a break in the crowd, and saw a station wagon wheel down the field and stop beside a plane waiting to take off.

Army officers and other important-looking persons got out.

"Bound for Washington," exclaimed a man just behind Jessica. "Mexican officials," said another voice. "They've been here on a tour of inspection."

"Akron can give them ideas," boomed the first. The man laughed and the two went on to talk about the rubber center and its important position in the post-war world.

Jessica listened listlessly, thinking how little she really knew or cared about this town where she lived. But I won't live here always, she told herself and suddenly remembered that in her absorption in the scene before her, she had completely lost track of the time. Lucy would be angry and lusty so.

AS she started to work her way back through the crowd, a huge man in a dirty sweat shirt gave her a violent shove which made her lose her balance. Another man tried to push her back and in another minute a general scuffle threatened. Then someone caught her arm in a firm hand grip and helped her keep her balance.

A man whose voice she recognized as one of the two who had been talking about rubber said, "Are you all right?"

He had swung her around and toward the fence and they stood close together and alone, while the crowd milled about behind them.

"Yes," she said breathlessly and oddly stirred by the admiring expression in the man's bright blue eyes as he continued to hold her arm. "Thanks. I was about to leave."

"Don't go yet. Look—" He indicated the speed with which one plane with its freight of important passengers, had down the runway. He explained just what the passengers were and although she knew that she should leave Jessica lingered for a few minutes longer. For he had been kind, without his support she might have been thrown down and injured. While she listened she made excuses to herself for remaining, watching, laughing, exclaiming.

Betsy shrieked and hid her face in Jessica's skirts and cried, "Mummy! Mummy! Don't let Aunt Lucy take me." The man's expression changed. "I didn't know—" "Betsy is my little girl," said Jessica flatly.

His eyes met hers from time to time and although he talked of commonplace things like planes and factories and rubber output, there was a spark of admiration in his glance which was disquieting.

He wasn't much taller than she. He had good shoulders. They fitted her type, she decided. Sophisticated. He wore clothes well, good clothes; the tie knotted expertly under his hard brown chin never came from a department store corner. His smooth brown hair was ruffled by the wind which swept across the airport.

She said, "This is almost as exciting as the Derby," and realized that just for an instant she had been that carefree Jessica Gordon who had stood in a box at the Derby thrilled by a horse race.

"Kentucky, aren't you?" he said. "I thought I was right about the recent."

Just then there was a disturbance in the crowd behind them and a voice cried, "Jessica, where are you?"

She turned and saw Lucy making her way toward them. Lucy angry and breathless and dragging Betsy by the hand. Betsy sobbing and digging her fists into her eyes, her cheeks a violent pink and her bonnet hanging by one string.

THEY stood together in a little huddle. Lucy and Jessica and the man, whose face was puzzled for a minute before he squatted down and held out his arms to Betsy. "Want to see?" he asked.

Betsy, after one glance dimpled and ran straight to him. He lifted her high onto his shoulder.

Lucy said, "Who—?" "Just a man who was explaining the planes to me," Jessica said hurriedly.

"Well! Lucy's voice spoke volumes. She tapped the ground impatiently with a small brown shoe. "What are you going to do now?" she demanded.

"Go home, of course," Jessica answered quietly.

The man turned and came toward them and set Betsy down. He said to Lucy, "You have a charming little girl."

Lucy brushed a speck from her immaculate blue suit coat. There

## Explosion Claims Its Third Life

BORGER—(F)—Tom C. Goodner, 5, of Clarendon, Tex., died here Saturday of burns and other injuries suffered Thursday in an explosion that claimed two other victims at the Phillips Petroleum Co.

The accident occurred when a salt water tank at the Alamo Refinery exploded. The others killed in the mishap were Earl O. Linn, 19, Oklahoma City, and Herbert Haun, 26, Meeker, Okla.

Whether Ford took this into account in boosting prices was not made clear in his announcement.

Ford added that it had been his wish that his new models would sell for less.

"That is still our goal, and we're still hammering away at this job of getting costs down, he went on.

Ford startled the industry Jan. 15, 1947, by slashing car prices by \$15 to \$50. He said then he hoped to fight inflation by reducing prices.

However, the company virtually admitted failure when, on Aug. 24, 1947, it raised prices on the Ford models by \$20 to \$97, an average of 4.2 percent.

Imel Is Named Group Secretary

F. E. Imel, president of the Pampa Citizens Bank and Trust Company, was elected treasurer of the Panhandle Bankers Association when the group held its convention in Amarillo Thursday.

Other officers elected were Guy H. Walden, president of the Citizens Bank, Tucumcari, N. M.; Vern Wisdom, vice president, cashier of the First National Bank, Panhandle; and Paul Hardwick, secretary, vice president of the Citizens National Bank, Lubbock.

CERTAINLY IN ORDER

DECATUR, Ill.—(F)—The Industrial Relations Club of Decatur is going to amend its by-laws Monday.

Present by-laws provide for the usual officers and duties, but prescribe no method for electing officers.

## AUTO PRICE

(Continued from page one)

recently that the union take a pay cut instead of a raise. However, the General Motors and Chrysler wage boosts led the industry to speculate that Ford will fall in line with some sort of wage offer to the big union.

Whether Ford took this into account in boosting prices was not made clear in his announcement.

Ford added that it had been his wish that his new models would sell for less.

"That is still our goal, and we're still hammering away at this job of getting costs down, he went on.

## \$10,000 Gal Has Prospect

VALLEY STREAM, N. Y.—(F)—Mrs. Dorothy Lawlor, 28-year-old hatcheck girl who is seeking a husband with \$10,000, said last night she will fly to Florida Monday to interview an applicant.

Mrs. Lawlor said her "main interest" now is a man she identified as Dan Wicker, proprietor of "Danny's Musical Bar" at Daytona Beach, Fla.

She said Wicker, 33, divorced, and father of one child, made airplane reservations for her trip after a telephone conversation.

She said she would spend three and "if it turns out the way or four days in Daytona Beach we plan" would return here briefly before rejoining Wicker in Florida.

"He has a wonderful personality," she said. "I'm very thrilled about it and he feels the same way from what I heard over the phone."

She said Wicker told her he already had given her name to his yacht and is selling "Dorothy Lawlor" cocktails at his bar—for \$1.75 each.

Mrs. Lawlor, a divorcee with two children, has received numerous offers of marriage since the Hempstead Newsday published her "wife for sale" offer two weeks ago.

## Flying Wing Falls, Kills Crew of 5

MUROK AIR BASE, Calif.—(F)—A great Northrop "Flying Wing" bomber crashed and burned near this testing field Saturday, killing its five-man Air Force crew.

The giant eight-jet YB-49, which Northrop has called the most powerful plane yet announced, met disaster only a few minutes after it had taken off from this field on a routine checking flight, Air Force spokesmen announced.

It crashed near a highway, and an eyewitness, motorist Dale C. Wilson, of Alton, Ill., told the Kern

## SENATOR

(Continued from page one)

said, is that Congress made a commitment last month in approving authorization legislation for the recovery program.

Senator O'Mahoney (D-Wyo.) sounded the sentiments of most of the Democratic members of the committee when he called the House ax-wielding "a disastrous thing."

"The record before the country is perfectly clear," the Wyoming senator declared. "Passage of the foreign aid authorization was one of the most vital things in the defeat of the Communists in the Italian election."

"If Congress goes back on European recovery, as the House action does, it will be used by the Communists as proving their original charge that we never meant it anyway."

Chairman J. Howard McGrath of the Democratic National Committee took the same view.

## HOSPITAL

(Continued from page one)

who was hired to aid the Commissioners Court on purchase of equipment for the hospital.

When the Hospital Board and the Commissioners Court finished their figuring, they found \$85,000 standing between what they now have available and the ultimate cost of building and equipping the hospital. (See "straw ballot" bottom of page.)

The Court, having 30 days in which to accept or reject any and all bids, declared a seven-day recess for commissioners and board members to give the problem consideration.

## LARGEST CLASS

COLLEGE STATION — (F)—Eight hundred seventy-one students of Texas A & M College, the largest class to graduate, received their diplomas Friday night.

County sheriff's office that it seemed to explode at several hundred feet altitude, then plunged earthward.

Palaver de Pampa

TAKING NO MORE CHANCES: Two Southern farmers who were wrangling in front of the village postoffice were talking so loudly they attracted the attention of a traveling salesman who asked the cause.

NEW DEFINITION: An American is a person who puts of writing a letter for six or eight months and then writes it and sends it by air mail.

BASEBALL, ET CETERA: It was the best game I've been to in a long time—the one Thursday night, I mean. Baseball is a game you know, where the pitcher winds up and throws the ball where he hopes it will go; and the batter strikes where he thinks it should be.

HATS-OFF DEPARTMENT: Roger Long, local High School Junior, and a very talented young man, is studying art this summer at the artists' colony in Provincetown, Mass.

RIGHT FOR WRIGHT: Inventors are supposed to invent things in garrets, after which astute gentlemen with a feeling for money take the profits away from him.

THEFT SUSPECTED IN USING THIS: If a man's sins don't find him out, his wife will. Many a man asks a girl for her hand only to put it in dishwater.

He asked me if I'd give to him One little goodnight kiss. Somehow I could not well refuse A question such as this.

He placed his arms around my neck And it was just like heaven; How tallant was this gentleman, But he was only... seven!

PAMPA PANORAMA: John Branson's concert last Sunday night at the First Methodist Church—one of the best musical treats of the whole year.

I'm not aboard the Truman train, Nor am I a N-a-ture Boy. Oh-oh, I've got to run... I can smell those beans aburnin'!

Entre Nous Club Meets With Mrs. May Skaggs

The Entre Nous Club met last Friday in the home of Mrs. May Skaggs. Roll call was answered with each member giving a helpful hint or quotation, such as, "A stranger is just a friend you have never met."

Plans were completed for a trip to Boys Ranch today, June 6. Refreshments of iced tea, strawberry shortcake and whipped cream were served to seven members and two guests.

The Social Calendar

- 2-4 Community Singers, Convention at Pentecostal Holiness Church, Zimmar and Alcock. 2:30 Tea for VFW Auxiliary members in home of Mrs. B. L. Vem, 905 N. Sumnerville. 4-8 Cootie and Coolets Scratch at Schneider Hotel.

Mrs. Patrick Is Hostess to Club

Phyllis Casey, daughter of Mr. and Mrs. Earl Casey, who lives southeast of town, was graduated May 18 from the West Texas School of Nursing at Lubbock.

COMPLAININ' WOMEN: Women make seventy-five percent of the inquiries and complaints handled by the Better Business Bureau of New York.

WEDNESDAY: 2:30 WPCS of First Methodist Church in church. Organ recital by Mrs. Danzer, followed by 2:45 program on subject of "We, the People," with church in charge.

Miss Burks, Mr. Cummings Wed in Simple Ceremony

Mr. and Mrs. Clyde T. Cummings

Miss Vergie Burks, 709 E. Craven, daughter of Mr. and Mrs. Boyd Burks of Adrian, Tex., was married on May 21 to Clyde T. Cummings, son of Clyde B. Cummings and Mrs. Fay Cummings of Pampa.

The double-ring ceremony took place at six o'clock in the First Methodist Church with the Rev. H. Clyde Smith officiating.

The bride is a graduate of Kellon High School and Draughon's Business College in Wichita Falls. She is employed by the table.

Mrs. Raymond Sams Honored at Shower

SHAMROCK—(Special)—Mrs. Raymond Sams, recent bride, who was Miss Wanda Roden before her marriage, was complimented with a tea and miscellaneous shower Friday afternoon by Mrs. George Barth.

The party rooms of the Barth home were decorated to emphasize a pink and white color scheme and members of the house party wore corsages of pink and white carnations.

In the dining room the tea table was laid with a cloth of lace and set with an arrangement of pink and white candles which flanked a low bowl of spring blossoms, with crystal appointments.

Miss Doris Betsenough presided at the guest register and Miss Joe Anne Barth provided a musical setting during the afternoon, also playing several piano selections.

In the gift room, many lovely gifts including a complete set of china, crystal and silver, were displayed.

About fifty guests called during the receiving hours.

Revival Meetings Are Well Attended

Attendance at the services being conducted at the Church of the Brethren by the Rev. Wayne H. Dick of Lancaster, Pa., is said to be good.

A friendly contest is being conducted among the Sunday School classes for the promotion of attendance. All classes from the Juniors up are participating.

These services open promptly at 8 o'clock each evening and close about 9. A few minutes each evening is devoted to a talk to the children. A period of congregational singing is also a part of each service.

Betrothal Revealed

SKELLYTOWN—Mr. and Mrs. Thomas S. Srygley of Skellytown announce the engagement and approaching marriage of their daughter, Valetta Ann, to Joe Bill Gippson of Morton, Texas.

The Woman's Page

Pampa Teacher Marries TSCW Senior In Little Chapel-in-the-Woods

DENTON—Miss Gwendolyn Lou Lane, daughter of Judge and Mrs. Burns Lane, Richland Springs, became the bride of Charles W. Bowen, son of Mr. and Mrs. Joe B. Bowen, Gunter, in an all-white wedding June 1 at 2 p. m. in the Little Chapel-in-the-Woods, Texas State College for Women, Denton.

The Rev. G. C. Schurman, state evangelist, First Christian Church, Fort Worth, performed the ceremony.

Given in marriage by her father, the bride wore a classic white slipper satin gown, fashioned princess style with a sweetheart neckline and a chapel train.

Matron of honor was Mrs. George Moorman of Waco, former classmate of the bride. She wore a

Mrs. Fay Gray Weds N. Y. Man

Announcement is made of the marriage of Mrs. Ruth Gray of Amarillo to Harry M. Haines of New York City. The marriage took place in Clovis, N. M., on September 30.

Mr. and Mrs. Haines are living temporarily at 314 Maryland St. in Amarillo, but they will eventually make their home in New York City.

Miss Beaty Weds James Colvin in Sister's Home

SHAMROCK—(Special)—The wedding of Miss Estelle Beaty, daughter of Mr. and Mrs. J. A. Beaty of Kellon, to James Colvin, son of Mr. and Mrs. J. O. Colvin of Alma, Okla., was solemnized Saturday evening, May 29, in a candlelight service at the home of her brother-in-law and sister, Mr. and Mrs. A. O. Le Blanc.

Miss Jean Paxson's Betrothal Announced

Mr. and Mrs. Ralph E. Paxson, 815 N. West, announce the engagement and approaching marriage of their daughter, Jean, to George L. Casey, son of Mrs. George Casey, 116 N. Houston.

Media Mae See Becomes Bride of West Texas State College Student

SHAMROCK—(Special)—In a pretty church wedding, Miss Media Mae See, daughter of Mr. and Mrs. Lorin See of this city, became the bride of Bob Dawson, son of Mrs. Mary Dawson of Ardmore, Okla., Friday evening, May 28, at the Church of Christ.

The church altar was decorated with tall white baskets of white gladioli and fern. Cathedral tapers burned in seven-branched candelabra, shedding a soft light for the ceremony.

Miss Patricia Rankin, Miss Edwina George and Miss Paty Porter sang "I'll Get By" as Miss Joan Stevens lighted the candles.

Following the ceremony a reception was held in the church basement. The bride's table was laid with a cloth of lace and centered with a bowl of snapdragons and fern.

Besides the bridal party two sisters of the bride, Mrs. William Esco and Mrs. Dick Hudson of Borger stood in the receiving line.

Miss Joan Stevens served the wedding cake and Miss Wanda See poured.

The bride is a graduate of Shamrock High School and attended West Texas State College for two years. She was nominated as one of the college beauties and was a member of the P. Omega sorority.

The bridegroom is a graduate of Ardmore High School, Ardmore, Okla., and served with the Merchant Marines during World War II. He is a student at West Texas State College at present.

Mr. and Mrs. Lorin See honored their daughter and her fiancé with a rehearsal dinner Thursday evening in the basement of the church.

Those present were: Minister and Mrs. Wilson, the bride-elect and bridegroom-to-be, his mother, Mrs. Dawson of Ardmore, Okla., Robert Lee, Mr. and Mrs. Don Rivers, Miss Rankin, Miss Porter, and Miss George.

Studier-Fuller Rites Read In Impressive Ceremony

Mrs. Larry Keith Fuller

Miss Frankie Ann Studier, daughter of Mr. and Mrs. John Franklin Studier, became the bride of Larry Keith Fuller, son of Mr. and Mrs. Charles E. Fuller, on

At a reception in Virginia Carroll Lodge on the TSCW campus followed the ceremony. Members of the reception house party were Mrs. James D. Cade, Lubbock, Miss Wilma Lane, San Saba, and Miss Cleo Lane, Dallas.

The bride wore a slate blue, two-piece taffeta dress with a fitted bodice and a ballerina skirt for her going-away ensemble.

After June 8, the couple will be at home at 206 Bernard St., Denton for the summer.

The new Mrs. Fuller is a Senior student at TSCW. Mr. Bowen is a graduate of North Texas State College, Denton, and is now teaching at Pampa High School, and he will return to his duties in the fall. He is a member of the Masonic Lodge, and he served in the Naval Air Corps for two years.

Woodwardia fern trees formed the background against which stood white gladioli, calla lilies and stock. White tapers burned in bronze candelabra at each side of the altar and in the aisles.

Mrs. Hilton Higgins of Hereford, cousin of the bride, was her matron of honor. Miss Nancy Ford of La Junta, Colo., was her bridesmaid. They wore pink and blue taffeta and marquisette summer frocks with matching gloves and shoulder length veils.

Harry G. Kerbow, Jr., was best man. Groomsman were Frank Smith and Ray Redman.

Given in marriage by her father, the bride was lovely in a gown of ivory satin, fashioned in colonial style and trimmed with Irish lace. She wore a three tiered veil of illusion which fell from a heart shaped halo and carried a white orchid on a prayer book, ribboned with lilies of the valley.

Miss Willie Massey was maid of honor. She wore a blue tulle and white dress with evelin trim and white accessories.

C. C. Horschler served the bridegroom as best man.

The bride was attired in a street. (See BEATY-COLVIN, page 14)

Recent Bride Is Shower Honoree

Mrs. B. C. Collier, a recent bride, was guest of honor at a miscellaneous shower held recently in the home of Mrs. Floyd Ward, 719 N. Frost, Mrs. Alice Adams was hostess.

The home was decorated with spring flowers, with baskets of white lilies at either side of the fireplace.

Refreshments of pink angel food cake with whipped cream and cherry lemonade were served.

Friends called between the hours of two and four.

Katharine Cornell Has a Formula for Keeping Young

By BERNARD GAZZER AP Newsfeatures CHICAGO—Lady, would you like to look ten years younger? Take this tip from Katharine Cornell, who just passed 50, but looks 40 and sometimes younger: Don't worry, fall in love, do something that is important to you.

Worry is the number one wrinkle-maker, Miss Cornell said in an interview. But wrinkles don't matter too much, either. "They add a mature charm in a happy face, giving it character," she says.

In case you think the actress hasn't anything to worry about, how would you feel at the prospect of seeing \$50,000 go out the window for good?

NEW RUG BACKING

A new form of white liquid rubber is being used to paint rug backs. It will help anchor the loops of hooked rugs, preventing the tufts from pulling out; it will help prevent accidents by desliding the rug; and it will make rugs lie flat; manufacturers say.

**★ WE, THE WOMEN**

BY RUTH MILLETT  
NEA Staff Writer

By RUTH MILLETT  
NEA Staff Writer  
"Divorce rates might go down if young people put as much emphasis on when to marry as on whom to marry," says a Cornell University professor.

argue the point with the professor and base their arguments on the own marriages. Because there are plenty of couples who have made a success of marriage despite the fact that they married before it was easy and practical and before their parents thought they were ready for marriage. They made a success of marriage because they married the RIGHT person for them.

Such marriages often have rough going the first few years—what with financial problems, housing worries, youthful rebellion at being "tied down" and, perhaps, parental interference thrown in.

GOOD IF IT WORKS

But when the kids have the courage to work out the problems and make a go of it together they really have a marriage.

And though they might not want their own children to go through it you'll often hear them boast about the hard times they had in voices that sound almost wistful as though they were really talking about the good old days.

So, while the professor may be on the side of common sense, there's still room for argument in favor of "the right man" or "the right woman" being the most important factor in marriage. Being so important, in fact, that the question of the right time to marry is insignificant in comparison.

Leftover juice from canned fruits is excellent thickened and served over plain cake or cottage pudding.

**EVERYONE INVITED**

**EAT PLENTY AND TAKE OFF UGLY FAT**

Many people have reported amazing results with the home recipe. It's easy—no trouble at all and costs little. Just go to your drug store and ask for 4 ounces of Liquid Barcozate. Pour this into a pint bottle and add enough grapefruit juice to fill bottle. Then take two tablespoonsful twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regain slender, more graceful curves. If noticeable pounds and inches of excess fat don't just seem to disappear almost like magic, from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle for your money back.

**Lost 47 Pounds**  
"When I commenced to take Barcozate, I weighed 212 pounds. I now weigh 165. I lost 25 pounds on the first two bottles. I feel so much better after losing that weight. I think it is a wonderful medicine and thanks to Barcozate."—Mrs. George Gregg, Chalmers Court 4, Apt. 1, Austin, Texas.

**Lost 20 Pounds**  
"I lost 20 pounds taking four bottles of Barcozate and I feel fine."—H. M. Gates, 212 25th Street, Corpus Christi, Texas.

**New Gadgets Forecast More Carefree Travel**

By KAY SHERWOOD  
NEA Staff Writer

A more carefree life for EGYPTIAN-minded Americans is the promise made for summer by ingenious new accessories specifically designed to solve problems which ruffle the tempers of travelers.

Many of the new devices are aimed to please motorists. Jackets or suit coats, for example, which are so quick to show the crush of travel can be carried wrinkle-free by hanging on a car-rod of tenite-coated steel. The self-suspension rod, made in two telescoping sections, spans the back seat of the car. Sponge rubber guards brace the hangers at either side and prevent logs from sliding into back window space to obscure the driver's rear-view outlook.

By simply pressing a lever, the man at the wheel can supply himself with a lighted cigarette without any distraction from driving. The dispenser holds 23 smokes and at the touch of the lever feeds one cigarette into a trough where it is pushed against the lighter for ignition.

Masculine autoists will also ap-

prove a new safety light which plugs into the car's cigar lighter and can be set to flash red warning signals in case of accident. A handy accessory is a roomy billfold with a concealed memo pad which helps to simplify recording travel costs.

The problem of stowing tubes of toothpaste or cosmetic creams into suitcases so that they can't ooze out and wreck luggage is solved by crush-proof plastic dispensers. Tubes with caps removed are screwed into threaded holes on the inside lid of the lumiarith case. Cream may be squeezed out without removing tube from case. A top lid snaps shut to prevent leakage from tube between uses.

New luggage satisfies the feminine traveler's need for lightweight and durable containers and her yearning for pale colors. Ivory white fabric laminated with trans-

Driver supplies himself with lighted cigarette by pressing lever of the automatic dispenser, placed near steering wheel.

parent plastic produces a handsome and extremely tough material for suitcases which will take heavy travel abuse without scuffing or crushing. Soap and water washings will keep cases clean both inside and out.

Soignée traveler keeps her jacket wrinkle-free during a trip by hanging it up on a plastic-coated steel rod. Rubber guards prevent clothes from sliding in front of back window. Adjustable rod is installed without use of screws or bolts.

Toothpaste is squeezed out through hole in inside lid of this crush-proof case which protects tube in suitcase.

**Bridal Headdresses**

By BETTY CLARKE

AP Newsfeature—Beauty Editor There's something about a bride—whether she wears blue or white, diamonds or rhinestones. A girl about to be married hardly needs to be told that her wedding day charm is the simplicity of her grooming.

Most girls, no matter how flamboyant their choice of costumes for street or ordinary formal wear, choose only the most ladylike fashions in which to say their "I Do's."

This year there is a "new look" in bridal headdresses, as in everything else. But still simplicity reigns whether the bride selects a romantic Spanish mantilla or a tube bonnet in which to make her vows. Be sure to select a headdress which will complement your hairdo whether short, medium or long.

Hair is shorter than it was during last year's bridal season. Eight new bride's really short hairdos which may be completely concealed by the veil. Although the hair should not be too long and trailing down below the neckline of the wedding dress, there should be enough of the hair showing to complete the look of femininity which every bride tries to achieve on her wedding day. (To the nape of the neck is a good rule.)

The most popular bridal hair styles, reports the American Hair Design Institute, are the simple, parted-in-the-middle coiffures which can be worn either page-boy fashion or with soft curls in back.

The girl who already has cut her hair short and can't do anything about it can wear several of the brushed forward styles to relieve the severity.

If you need a permanent wave

**BFATY-COLVIN**

(Continued from Page 13)

was... on a draped neckline and a peplum at the waistline and a swing-back skirt. Her headdress was a halo of white carnations from which hung a shoulder-length veil of illusion. She carried a white Bible topped by all means arrange to get one several weeks before the wedding day. The bride should certainly look familiar to her friends and husband-to-be and many a last-minute permanent has been a disappointment if not a shock.

Such things as startling hair arrangements or a new shade of hair dye are other taboos. Every body wants to see the bride gay, happy, and unadorned with artificial embellishments. No bride will get criticism on her wedding day if she sticks to the simplicity formula. But if she deviates from this path, she is inviting unpleasant comment on the most important day of her life.

with white orchids and a shower of satin ribbon.

The mother of the bride wore a navy print crepe with black accessories, and the bridegroom's mother wore a grey print crepe with black accessories. Their corsages were of talsiman roses.

Following the ceremony, which was attended by about 30 friends and relatives, a reception was held. The bride's table was laid with a lace cloth and centered with an arrangement of white snapdragons and lighted tapers. The beautifully decorated four-tiered wedding cake topped with a miniature bride and bridegroom, was cut by the bridal couple and served by Miss Willie Massey.

Miss Bettie Colvin of Alma, Okla., sister of the bridegroom, poured.

Assisting with the serving were Mrs. Le Blanc and Mrs. J. B. Henderson, sisters of the bride.

Following the reception, the couple left for a wedding trip to Monterrey, Mexico.

Mrs. Colvin is a graduate of

the Amarillo High School and an Amarillo business college. For the past few years she has been employed as bookkeeper for Frenchie's Welding Works.

The bridegroom is a graduate of Alma High School, Alma, Okla., and he served with the United States Army five years during World War II. He is associated with his father-in-law, Colvin and Colvin, drilling contractors.

To honor the bride-elect and her fiancé a rehearsal dinner was given at the home of Mr. and Mrs. Bob Orrick on Friday evening, with Miss Cora Mae Orrick and Miss Willie Massey as hostesses.

The table was laid with a white linen cloth and centered with an arrangement of white carnations, encircled with blue satin ribbon, which extended to the ends of the table. "Estelle" was inscribed in silver letters at one end of the table and "James" at the other.

Those attending were: Rev. and Mrs. Derr, Mrs. Pace, Mr. and Mrs. Horschler, Arval Montgomery, Mrs. Bob Orrick, Mrs. Jim Orrick and the honor guests.

Canned mushroom soup mixed with canned chicken noodle soup makes a good first course.

## History of Convicted Men Often Case of Bad Company

The case of men recently sentenced to prison terms from this county was cited this past week by Gray County Deputy Sheriff Neal I. Gilson as a deterrent to those who would violate the law. He timed his citation with the graduation of high school youth, who, he said, come out of the classroom with "dreams and plans."

"But," he says, "some times things go wrong; vital statistics point out that a percentage has never made the grade."

Then he gave an illustration: "A few days ago three boys, two of them still in their teens, stood before our district judge and heard him pronounce sentence of five years in the state penitentiary for the younger two, and six years for the older one. Not many months ago these two younger boys were going through their

graduation exercises, dreaming the same dreams, making the same plans as many a graduate is today. One of them, a straight A student in Detroit, went to work for General Motors, after graduation, for \$320 per month as an accountant. He was making good and his family and friends were proud of him. Then something trivial happened, a family quarrel, and he decided to shuck it all and get out on his own. After a few meals of hamburgers and chili, he ended up selling subscriptions for something or other from door to door. In three weeks' time at this job he earned \$5.40. Five dollars and forty cents doesn't go very far on keeping up a young man's personal appearance, board and room and social life. The result—something had to happen and it did.

"The other teen-age boy—

World War II veteran who was some of the big Naval battles the South Pacific—was studying medicine in San Francisco, but was having difficulty keeping his schooling and social life (the GI training allotment; so decided to come east where living expenses were cheaper, and make he could come a little nearer making both ends meet. It didn't take this boy but about a month to find that living expenses are high everywhere. So his next move was to get a job, which he did—selling subscriptions for something or other from door to door.

"Following this line of work, the two teen-age boys met up with the third member of their party who was some eight or nine years their senior and who had seen considerable of these United States and several of its jails. The two younger boys, broke and getting further in debt every day, were ideal subjects for the older boy's plan for some easy dough. The get-rich-quick plan lasted just one week from its inception until the boys were in the Gray County Jail."

In relating this story, the deputy posed a thought: "In one of our neighboring states, no boy or girl has ever been committed to one of its penal institutions who was an active member of a church, who was a 4-H Club or FFA boy or girl, or who had ever been an active or honorary member of the Boy Scouts."

Robert Koch first isolated the tuberculosis germ.

Ottmar Mergenthaler invented the linotype machine in 1885.

Silver is the best conductor of electricity among the metals.

## To Jobs for one Worker in the North

By TOM STONE

SAN ANTONIO —(AP)—Augustin Trevino stepped off an air-conditioned streamlined train into the hot Texas sun, carefully tucked his three ragged comic books under his arm and started walking to his mother's little house in the Mexican quarters here.

Bareheaded Augustin carried no luggage. He had none. He wore what clothes he had, a light double-breasted grey coat twice too big for him, a faded sports shirt open at the throat, bits and small black shoes worn from heel to toe.

It was a day of mixed emotions for the 16-year-old black-haired muchacho. In his heart he was glad to be back home, but his pride was hurt "cause I don't bring back no money for my mother."

Augustin Trevino was one of hundreds of South Texas Latin-Americans who had crowded into the back ends of open trucks and rode standing up to the beet fields of Michigan.

"But 'they don't give me a job,'" "They don't do it 'cause I'm too skinny," he explained quickly. "They don't give nobody no job if he is by himself." He told how "field men" signed up only families "cause they won't run off before they get through the harvest."

He went up last year, but last year he said he was with a cousin. "I come back with \$150 for my mother. She was very proud of me. This time I don't come back with no money for my mother. She have to send me money to come home on. I can't know where she get it."

"There was 29 of us in the truck we went up on," he said. "We stand up all the way. Sometimes we go all night. When we get off we hurt."

"When I don't get no work I go stay with a cousin. He used to live here, but he moved to Michigan. But I get homesick. I don't get homesick when I work; I forget everything. But I don't work. I get homesick."

He spoke faltering English. He had to use Spanish words at times to explain.

"I would not get homesick if I take my guitar with me. But my father he would not let me. 'You leave it here,' my father told me. 'If you take it you and boys will play and sing all the

## Longview Approves Bond Proposals

LONGVIEW —(AP)—Eight bond issue proposals totaling \$3,075,000 were approved overwhelmingly at a special election here Thursday. The funds will be used for water and sewer improvements, streets, park and playgrounds, a police station, and a warehouse building.

In Michigan, he said, "we work in the beet fields for a while. We go to Illinois for the cherries. We go to Indiana for the tomatoes. We come back to Michigan for the beet harvest. We come home."

He was telling what happened last year. "They don't hire me this year," he repeated.

He came to a little frame house on Vera Cruz Street. "I don't think I go next year," he said jerking his thumb over his shoulder toward where he thought Michigan was, "I think I go to school. I don't want to be a beet worker; I want to be a mechanic."

Adios, he said as he turned in at his house, pushed open a screen door and walked in.

## Wife-Killer Gets 99-Year Sentence

BALLINGER, Tex. —(AP)—A jury in 119th District Court Thursday night found Cliff Clary guilty in the death of his wife and fixed punishment at 99 years in prison.

Clary's wife, Odella, 56, died of strangulation when flames swept their ranch home 15 miles northwest of here. Clary testified during the trial that gas fumes ignited in the house and that he tried to save his wife.

STOMACH GAS  
SOUR FOOD TASTE  
ACID INDIGESTION

Do you feel bloated and miserable after every meal, taste sour, bitter food? If so, here is how you may get blessed relief from this nervous distress.

Everything food enters the stomach, a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, nervous, nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps build-up non-organic, weak, watery blood in nutritional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better.

Avoid punishing yourself with over-doses of soda and other alkalisers to counteract gas and bloating when what you so dearly need is SSS Tonic to help you digest food for body strength and repair. Don't wait! Join the host of happy people SSS Tonic has helped. Millions of bottles sold. Get a bottle of SSS Tonic from your drug store today. SSS Tonic helps build sturdy health.

### THE DRILLER'S LOG

By KEN BENNETT

Everybody in the area is concerned about the Carruth test well being drilled by Phillips. It has proven to be even a tighter well than the Jenks, and that means "seal-proof." Estimates by those who are on the outside and making conjectures, however, is that the well is about 7,500 feet deep, and rumors have it that the formations are running low to a large degree. If this is true it means that Phillips was outguessed by Mother Nature and probably will result in another test well being drilled in an altogether different area. Those who presume, and those who listen to rumors, believe that the new test well will be in the east. If the well is as deep as presumed, and it should be according to the length of time the well has been in operation, they are now getting into the depth where anything can happen. This column is hoping they will locate something in the deep area, not only for the company's sake, but for the development that would result. With new fields cropping up as fast as they are in the Panhandle Area was showing its colors.

The story this past week on the new well on the E. C. Barrett land five miles southwest of Pampa which said drilling had started on that location was not entirely true. The preparations have been made, and actual drilling operations should begin any day.

There are now 22 crews of engineers working on the new deliverability tests on all gas wells in the Panhandle, according to J. McClintock, of the local Railroad Commission office. They hope to finish in two months, if good weather prevails, and well conditions permit. If bad well conditions interfere, the test will continue into the fall.

A new producer came into its

### House Approves Waterway Plans

WASHINGTON — (AP) — The House put its okay Thursday on another batch of waterway projects which would cost \$107,762,900.

It passed and sent to the Senate a bill to authorize construction of 31 new river and harbor projects which would cost \$20,887,900, and 14 new flood control projects to cost \$22,875,000.

This bill does not provide any money for the work. Congress will decide later whether to vote the money.

Besides authorizing specific projects, the bill also would authorize a \$25,000,000 reserve fund for repair of undesignated flood control structures, \$25,000,000 for emergency improvements, \$10,000,000 for examinations and surveys by engineers and the Department of Agriculture and \$4,000,000 for flood control and rescue work.

The bill approves modification of the Neches-Angelina river project in Texas.

Notes from here and there... The Skelly softball team is undefeated as of our last report.

S. Marlin Shell gas test is on a business trip to Central, Ill. The Sinclair office reports that John B. Rowland left Friday for Wewoka, Okla., where he will attend his daughter's wedding.

Boyd Britton, of Cactus, arrived in Pampa Monday on company business in this area. A new engineer has arrived to work in the petroleum engineering department of Stansford. He is Harold Alford, of Texas Tech, a graduate of electrical engineering.

Lewis Hall, also of Stansford, junior petroleum engineer, has gone to Tulsa to attend a six weeks school in reservoir engineering.

Cities Service news... Ann Boosa, daughter of Mr. and Mrs. W. L. Boosa, has been attending a daily vacation Bible school in the mornings and Brownie camp in the afternoons.

Jack Russell, pumper, has finished his home on the Hughes lease and moved in this past week.

Mr. and Mrs. Lee Coble entertained with a picnic supper in their yard honoring Russell Pugh on his birthday on the 2nd of June.

Guests at the picnic were Mr. and Mrs. Odea H. Shelley, Mr. and Mrs. S. W. Jones and Doug and

## Oil News

Pampa News, Sunday, June 6, 1948

### Twenty New Notices of Intent to Drill Filed With Commission

Twenty notices of intent to drill were filed at the local Oil and Gas office of the State Railroad Commission during the past week, officials reported yesterday.

According to the same report one well is to be deepened in Hutchinson County, and one plugged in Carson County.

City County listed four new locations, Hutchinson County ten, Sherman County five, and Moore County one.

#### INTENTS TO DRILL

Gray County — G. B. Cree, et al., E. E. Barrett No. 1, I & GN Survey, 330' from N and 990' from E lines N-2 of Sec. 130, Blk. 3, 3 miles S of Pampa. Phillips Petroleum Company, Brown No. 7, I & GN Survey, 610' from N and 725' from E lines NW-4 Sec. 128, Blk. 3, 2 miles W of Pampa. Phillips Petroleum Company, Hender No. 1, H & GN Survey, 2533' from S and 2540' from E lines Sec. 137, Blk. B-2, 15 miles SW of Lefors. Sinclair Prairie Oil Company, P. A. Comly No. 12, I & GN Survey, 1324' from W and 330' from S lines of lease Sec. 57, Blk. 3, 3 miles SE of Pampa.

Hutchinson County — Continental Oil Company, J. M. Sanford "D" No. 14, H & TC Survey 995' from W and 330' from E lines of the South line of lease in N-2 Sec. 78, Blk. 46, 3 miles NE of Sanford. Dolomite Production Co., Hamilton No. 9, H & TC Survey, 4299' from N and 1006' from W lines Sec. 24, Blk. 47, 6 miles N of Borger. C. H. Gooden, J. T. 2534' from N and 1320' from E lines NW-4 Sec. 4, Blk. 4, 10 miles NE of Borger. J. M. Huber Corporation, Stevenson "C" No. 1, TC RR Survey, 990' from E and S lines Sec. 8, Blk. M-24, 6 miles NW of Stinnett. Midstates Oil Corporation, S. E. Watkins No. 2, TC RR Survey, 3137' from W and 1161' from

Moore County — Phillips Petroleum Co., No. 2, J. Dugan, located 330 feet from S and 390 feet from E lines of Section 72, Block 46, H & TC Survey, tested 61 barrels of oil in a 24 hour test. Top of pay 2964 feet. Total depth 2964 feet.

New Gas Wells  
Moore County — Shamrock Oil and Gas Corp., No. 1, Bowermaster, Section 22, Block "Q", H & GN Survey. Potential 2,380 MCF. Rock Pressure 419. Gas pay from 3255 feet to 3300.

Sherman County — Shamrock Oil and Gas Corp., No. 1, Tinthoff, Section 460, Block L-7, T & NO Survey. Potential 920. Rock Pressure 349. Gas pay from 3282 feet to 3360 feet.

Hutchinson County — Reservoir Oil Company, Halle No. 9, TC RR Survey, 1033' from W and 851' from S lines N-2 of NW-4 Sec. 4, Blk. 4, 10 miles NE of Borger. J. M. Huber Corporation, Stevenson "C" No. 1, TC RR Survey, 990' from E and S lines Sec. 8, Blk. M-24, 6 miles NW of Stinnett. Midstates Oil Corporation, S. E. Watkins No. 2, TC RR Survey, 3137' from W and 1161' from

Area Reports Completions  
Eleven new oil wells were completed in this area during the past week according to a report of the Oil and Gas office of the Railroad Commission.

Hutchinson County reported all those wells completed with the exception of one in Gray County. Two new gas wells were also reported as completed, one in Moore County, and one in Sherman County.

Gray County  
Phillips Petroleum Co., No. B-5, Castleberry, located 1080 feet from N and 330 feet from E lines of lease in Section 151, Block 3, I & GN Survey, tested 137 barrels of oil in a 24 hour test. Top of pay 3155 feet. Total depth 3280 feet.

Hutchinson County  
Creslenn Oil Co., No. 6, R. C. Kay, located 390 feet from E and 2310 feet from S lines of lease Section 27, Block M-23, TC RR Survey, tested 108 barrels of oil in a 24 hour test. Top of pay 3180 feet. Total depth 3251 feet.

Dolomite Production Co., No. 7, Hamilton, located 4660 feet from N and 1743 feet from W lines of Section 24, Block 47, H & TC Survey, tested 10 barrels of oil in a 24 hour test. Top of pay 2675 feet. Total depth 2699 feet.

Dolomite Production Co., No. 8, Hamilton, located 4995 feet from N and 1006 feet from W lines of Section 24, Block 47, H & TC Survey, tested 30 barrels of oil in a 24 hour test. Top of pay 2688 feet. Total depth 2685 feet.

Gulf Oil Corp., No. 7, J. A. Whittenburg "D", located 330 feet from N and W lines of E-480 acres of Section 27, Block 47, H & TC Survey, tested 9 barrels of oil in a 24 hour test. Top of pay 2700 feet. Total depth 2800 feet.

L. A. Helms, No. 5, Starnes, located 330 feet from W and 660 feet from S lines of E-2 of NW-4 of Section 27, Block 47, H & TC Survey, tested 25 barrels of oil in a 24 hour test. Top of pay 3050 feet. Total depth 3139 feet.

Howell and Howell, No. 3, J. A. Whittenburg, et al., located 880 feet from W and 1056 feet from S lines of NE-160 acres of Section 27, Block J, TWNG Survey, tested 160 barrels of oil in a 24 hour test. Top of pay 3126 feet. Total depth 3185 feet.

Howell and Howell, No. 4, J. A. Whittenburg, et al., located 330 feet from N and 1760 feet from W lines of NE-160 acres of Section 27, Block J, TWNG Survey, tested 126 barrels of oil in a 24 hour test. Top of pay 3126 feet. Total depth 3156 feet.

J. M. Huber Corp. No. 6, Henderson, located 330 feet from N and 2970 feet from W lines of Section 1, Block EC, H&O Survey, tested 55 barrels of oil in a 24 hour test. Top of pay 3210 feet. Total depth 3250 feet.

Magnolia Petroleum Co., No. 2, Sallie Pritchard "A", located 330 feet from S and 1650 feet from E lines of J. T. Williams Survey

Army Counts Dimes  
TOKYO — (AP) The U. S. Army's Far East Command stopped to count up and discovered its soldiers and civilian employes had contributed \$286,028.07 to the March of Dimes. The 97 is presumed part of the gift of someone who simply tossed in his loose change.

Boys' Ranch Gets 'Aviator' \$3

OKLAHOMA CITY — (AP) — "Get a horse!" is what the Juvenile Court said to 12-year-old Ronnie Peterson — one of Oklahoma City's two comic book aviators.

Two weeks ago Ronnie and classmate Jimmy Bodard, 11, swiped a small plane and flew it 120 miles — on comic book instructions — to a perfect landing.

And now the wheels of justice ground out the verdict.

Ronnie is to go to "Boys' Ranch" near Amarillo, Texas. The ranch is half-school, half-cattle range, and caters to lads like Ronnie whose enthusiasms sometimes runs ahead of their judgment. His stepfather, Mike Knight, said he had made all the arrangements, and the court was satisfied. (Ed's note: Knight, a rancher, lives south of Groom, Texas.)

At the ranch, Ronnie will be a mustang pilot and practice Immelman turns on stubborn dogies. Young Jimmy meets his own judicial fate next week, when the court listens to what remedies father Burney Bodard, a lawyer, may propose for his son.

**Skelton Reviews Texas Oil News**

By MAX E. SKELTON  
HOUSTON, Tex. —(AP)—Texas boosted its gas production 157 percent between 1939 and 1947 and today the nation is beginning to reap the benefits.

A recent report of the Texas Railroad Commission lists at least 17 major pipe lines have been completed, are under construction or have been proposed for carrying gas from Texas to the East Coast, the Middle West, the Rocky Mountains and the West Coast.

A recent Federal Power Commission report listed 80 percent of the nation's gas production currently goes to industries but noted a trend toward gas fuel for homes.

Petroleum Industry officials are

watching the rapid growth of gas transmission lines with interest, particularly in view of the continued close battle for balance of supply and demand for petroleum and petroleum products.

Ernest O. Thompson, chairman of the Texas Railroad Commission, places the state's gas well production last year at 2,241,897, 304,000 cubic feet as compared with only 872,268,000 for 1939.

He said authoritative sources predict Texas production will continue to increase and reach 4,750,000,000 cubic feet during 1950.

A Railroad Commission map shows pipe lines currently carrying Texas natural gas to West Virginia, Newark, N. J., Louisiana and Mississippi, Oklahoma, Kansas City, St. Paul, Chicago, Detroit, Denver, and Monterrey, Mex.

Most of these projects have lateral lines feeding other areas. Proposed lines or lines under

construction in March would serve such areas as New York, Pittsburgh, Ohio, Iowa, Michigan and California.

Rapid-fire natural gas pipe line developments last week saw:

1. The Federal Power Commission approved construction of a \$151,000,000 line by Transcontinental Gas Pipe Line Company over a 1,840-mile route from South Texas to the New York-Philadelphia area.
2. FPC approval for Texas Eastern Transmission Corporation, owner of the government built wartime Big and Little Inch pipe lines, of three new gathering lines to Texas and Louisiana. Fields. The lines will boost the company's capacity to 808,000,000 cubic feet daily by the end of the year.
3. A Federal Court of Appeals in Washington upheld a 1944 FPC ruling authorizing the Michigan-Wisconsin Pipe Line Company to construct a line from the Texas Panhandle to Michigan, with a branch line from a point in Illinois into Wisconsin. The order had been disputed by Panhandle Eastern Pipe Line Company which supplies some parts of Michigan as well as other Middle West states.

Meanwhile, the Oil and Gas Regulatory Commissions Of Texas and Arkansas took action to halt wasteful flaring of casinghead gas.

The Arkansas Commission ordered wells of the McKamie Field, Lafayette County, shut down effective at 7 a. m., June 1, while the Texas Commission ordered operators of the Flour Bluff Field, Nueces County, to appear June 15 to show cause why flaring of gas produced along with oil should not cease.

Three oil industry records fell during the week ending May 29, with crude production and runs to stills and gasoline production establishing all-time highs.

The American Petroleum Institute placed crude production at a daily average of 5,451,850 barrels, 11,425 barrels higher than a average of 5,451,850 barrels, 11,425 barrels higher than a similar record estimate made by the Oil and Gas Journal and 12,450 higher than API's previous record mark set for the week ending May 22.

(The Bureau of Mines placed May's crude oil demand estimate at 5,483,000 barrels and last week announced a June estimate of 5,590,000 barrels daily.)

With the three-day memorial holiday boosting demands, refiners increased gasoline production to its second consecutive weekly record, output totalling 17,827,000 barrels or 579,000 greater than the previous week.

Runs to stills jumped to a 5,715,000 daily average, 128,000 barrels over the previous week and

75,000 higher than the previous mark.

Other statistical developments: Total exports of crude oil and refined products for the first quarter of 1948 were placed at 28,087,000 barrels by the Bureau of Mines, a decrease of 9,827,000 barrels or 25.9 percent from the first quarter of last year. Refined products were said to have decreased 9,847,000 barrels, with crude jumping 10,000.

The House Appropriations Committee recommended \$14,600,000 for continued oil exploration in Alaska. The Navy had requested \$22,000,000.

Bureau Of Internal Revenue figures indicate federal gasoline tax collections totaled \$137,601,000 during the first four months of 1948, an increase of \$7,862,402 or 5.8 percent from the same period last year.

State notes: The University of Texas May 28 observed the twenty-fifth anniversary of discovery of oil on its 2,000,000 acres of land in West Texas. With 410,000 acres now under lease, the past quarter of a century has seen discovery of 1,704 oil and 37 gas wells on university property. An additional 43,000 acres will be offered for leasing June 18.

Louisiana has boosted its June crude oil allowable to 635,855 barrels daily, 4,538 higher than May.

Approximately 1,400 Southwest Kansas land owners who contend many lease prices have not been changed since 1936 have requested the State Corporation Commission to raise royalties on well sites in the vast Hugoton Gas Field.

One of the best Illinois Basin finds in several years was reported last week with the Olen D. Sharp No. 1 Berry Well, six miles southwest of Mount Carmel, Ill., flowing an estimated 1,000 barrels of crude daily after hitting saturated tarsburg Sand at 1,896-1,955 feet.

### Not Just Any Displaced Person May Come to America Under New Bill

By JAMES MAILLOW  
WASHINGTON (AP)—Congress has taken the first step toward allowing some of Europe's displaced persons into this country.

This is the score of displaced persons in Europe. The House has voted to let 200,000 of them into this country over the next two years, at the rate of 100,000 a year.

This won't happen unless the House also approves. It is expected to do so shortly. Even if both houses okay this, not all displaced persons will be allowed in here. There will be restrictions and requirements to meet.

The House may change a bit the bill voted by the Senate. May not. But, as the bill is now, there are some of the requirements and restrictions it places on the 200,000 displaced persons to be admitted here:

1. The 200,000 would be in addition to those coming here from

2. To be one of the displaced people allowed to come here, a person must have been generally someone who fled into the allied zones before the advancing Russian armies; someone, chiefly Jewish, who fled from Germany or Austria during the Nazis' time and now has returned but is not resettled.

3. A displaced person could not come here until there had been a thorough investigation of his character and history.

4. He'd have to qualify under the immigration laws. Which means he'd have to be able to read and write, be of good moral character, not diseased or insane, and so on.

5. He'd have to have some skill or trade needed in the area where he expected to settle down.

6. He'd have to have some assurance of a job or housing which would not displace some U. S. resident from a job or house.

7. At least half of those admitted must be trained in farming.

8. Much preference—as much as 50 percent—would be given to people from countries taken over by a foreign power.

9. If they could meet those eight conditions, these persons would get first chance to come here: orphans; refugees who fought against the axis; all others.

This may look all tangled up to you—and you may wonder whether 200,000 persons could qualify at all. The untangling would have to be done by a three-man commission appointed by the President.

The commission would set up rules for admitting the refugees but carrying out the program would be left to the U. S. Immigration Service.

Next time Boston brown bread is on the menu to be served with baked beans try slicing and toasting it instead of steaming it.

Expecting a Baby? Mother's Friend massaging preparation helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisitely prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women or more than 70 years have used it is in application for massaging the body during pregnancy... it helps keep the skin soft and pliable... thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the limbs, tingling or burning sensations of the skin... for the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use. Highly praised by users, many doctors and nurses. Millions of bottles sold. Just ask any druggist for Mother's Friend—the skin emollient and lubricant. Do try it.

### More Scouts Set Up Camp

Thirty-five Tenderfoot Girl Scouts will be present at the opening of Tenderfoot Day Camp at 4:30 p. m. tomorrow in the Scout House, announces Mrs. K. E. Thornton, executive of Pampa Girl Scout Association.

Activities provided for the girls will be similar to the Brownie activities, which have gone on during the past week. Each girl is asked to bring a snap clothespin with her name on it, a nose-bag lunch and six cents for milk which will be delivered each evening at the campsite.

Camp will be divided into three units so girls of the same age and experience can be grouped together. Leaders of the units and girls reporting to them are as follows:

Unit 1: Mrs. Archie Bullard, leader, Mrs. J. C. Steward, assistant leader and Sheila Chisholm, Ruth Roberts, Sue Fulton, Dolores Lovingood, Jeannie Hatley, Janice Frazier, Ruth Helen Steward, Anita Sue Franklin, Nickie Lewter, Geraldine Hill, Myrna Matlock and Annelise Buntin.

Unit 2: Mrs. Pete Buntin, leader, Mrs. W. O. Franklin, assistant leader and Ella Gayle Braly, Nancy Fressell, Joanna Waggoner, Charlotte Leder, Carroll Lamb, Wynona Orndoff, Barbara Toth, Charlotte Vaughn, Betty Lou Hogsett, Jowanna English and Betty Ann Hinton.

Unit 3: Mrs. Burl Lewter, leader, Mrs. Harlan Roberts, assistant leader and Lynn Followell, Barbara Goodnight, Janice Kretzmer, Carol Hughes, Anita Wedgeworth, Margaret Scott, Mary Kay Lunsford, Meredith Brooks, Patti Rae

### Divorces Granted In District Court

Judge Lewis M. Godrich in 8th District Court Friday granted a divorce to C. E. Horton from Catherine Horton on grounds of cruelty. They were married in July, 1942, and separated in January, 1948.

The Court also awarded a divorce decree to Daniel A. Skibinski from Elaine Skibinski on grounds of cruelty. The couple was married in February, 1945, and separated in July, 1946.

Claunch, Ada Jean Morgan, Barbara Bullard and Jeanne Bullard. Other camp assistants include: Mrs. W. A. Claunch, director; Mrs. K. E. Thornton, assistant director; Mrs. J. E. McCluskey, business manager; Mrs. Dewey Lunsford and Mrs. Frank Hogsett, first aiders and Belle Steward and Anne Owen, program aides.

### Accused Says Not Guilty

William M. Finley, Pampa, pleaded not guilty yesterday morning in County Court to charges of driving while intoxicated.

Bond for Finley was set at \$500 by Judge Sherman White. A few minutes before, a plea of guilty to similar charges was entered by Bailey A. Francis, Pampa, who was assessed a fine of \$100 and costs by the Court plus a six months suspension of driver's license.

Both men were apprehended Friday night by City Police.

Long exposure to sunshine may damage wool fabrics, advises the Department of Agriculture. Sun may weaken the fiber and make it brittle and more sensitive to alkali such as that in soap.

### Legal Records

Realty Transfers  
Gertie Arnold to Clarence E. Arnold; Lot 5 in the subdivision of Block 10 of the West End Addition.

Clevy Daniels and husband, Jeff to J. W. Gordon, Jr.; the easterly 5.82 acres of the westerly 165.19 acres of Section 210 in Block B-2 of the H & G N Railroad surveys of Gray County.

Hughes-Pitts Corp. to Auburn B. Kitchens and wife, Frances; Lot 6 in Block 6 of the Dean Addition.

Auburn Kitchens and wife, Frances to H. Kelley Kitchens and wife, Nora Belle; Lot 6 in Block 6 of the Dean Addition.  
D. C. Houk and wife, Ethel M. to Corrieh Miller; Lots 10 and 11 in Block 18 of the Talley Addition.

### Scientist Finds White Blackfish

SEATTLE (AP)—What with salmon swimming up the middle of flooded highways, Northwest folks hardly raised a brow today when a scientist said he had his eye on a white blackfish.

Dr. G. Clifford Earl, director of the Provincial Museum at Victoria, B. C., said the blond blackfish, or killer whale, had been seen several times in waters around the San Juan Islands.

J. M. Shaw to R. A. Nipper; Lots 17 and 18 in Block 18 of the Shaws Addition of Lefors.

Suits Filed  
The divorce suit of Allie Lee Brown versus Roy Brown was filed in the office of District Clerk Dee Patterson.

### Two Charged, Two Released

Juanita Walton and Sidney French, both of Borger, were charged Friday afternoon by Hutchinson County Sheriff Hugh Anderson with auto theft after the two had been picked up Thursday night with two other Borger youths.

The two were charged with the theft of a 1941 Buick four-door sedan belonging to C. D. Hammer of Phillips. Hammer, who accompanied Sheriff Anderson to Pampa, said he missed his Buick about 7 p.m. Thursday from the Rock Creek Addition of Borger. Hammer said he found the car low on oil pressure and with a bad rod. A Chevrolet used by the other two youths was their rightful

property, according to Anderson, who released them later. Sheriff G. H. "Skinner" Kyle and Deputies Rufe Jordan, Lewis Holmes, Neil Gulson picked up the quartet between 7 and 8 p.m. Thursday, found a pistol in one car and a rifle in the other. The Walton girl and French were picked up in front of the Belvedere Cafe on the Borger Highway and the two youths in front of the Brown Derby Cafe on West Foster.

### Freak Baby Born

MANILA (UP)—Birth of a baby with four each of ears, eyes, hands, teeth and feet was reported from Cabanatuan, Central Luzon. A Philippines constabulary lieutenant named Descola said the infant died a few minutes after delivery last night.

### Big Week Is Ahead for Scout Camp

Camp Ki-O-Wah opens its biggest week in its history today as 160 Boy Scouts start the second week of activities, said Paul L. Beisenherz, executive of the Adobe Walls Council.

The total registration to date for the four-week period of camp is 392 as compared with last year's total of 282. More registrations are coming in every day; so this probably will be the biggest camp year in the history of Camp Ki-O-Wah, Beisenherz said.

Climaxing the first week's activities, James Taylor, Star Scout

of Pampa Troop 4, was initiated into the Order of the Arrow Thursday night. Three Scouts had been selected to compete for the honor on the merits they had shown in leadership and camping ability, but Taylor was the only Scout successful in achieving the honor.

Several visitors from Pampa and Canadian attended the Order of the Arrow, Indian ceremony Thursday night. Parents of Scouts are invited to attend this ceremony at 8:30 p. m. each Thursday during the camp, said Beisenherz.

Pampa Scouts attending Camp Ki-O-Wah this week are from Troops 14 and 80. Other towns sending Scouts are Phillips, Booker, Panhandle, Borger, Canadian, Hooker, Higgins, White Deer and Sanford.

Macaroni is made from wheat paste rolled into long tubes.

—Walt Whitman.

**We Need Checks And Balances**

It is no overstatement to say that the very foundation of a government of free people, while requiring the rule of the majority, at the same time must provide adequate protection for the rights of the minorities.

The oppression of the minorities in other lands has invariably resulted not in their extinction but in social strife—and worse. Our American forefathers when they wrote the Constitution of the United States, wisely provided a system of checks and balances designed to prevent the evils of unrestrained majority rule.

The founders of America had suffered under despotic and totalitarian rule. They had within their own lifetimes seen the effects of almost every type of governmental abuse, from the divine right of kings to communism. Consequently, they were warned of the need to protect all elements of the people from the unlimited exercise of partisan power by one group or another.

As the cornerstone of their hard-won liberties, the Founding Fathers adopted the principle of the two-house legislature such as we have in Congress today, with representation in one house based on population, and in the other on political units or subdivisions without regard to population.

This principle was adopted despite the fact that in the early days of our nation, when less than 10 percent of the people lived in the cities, the need for checks and balances was not nearly so great as it is today with the tremendous growth of modern cities.

It is the rural areas that produce the new wealth upon which the people in the cities trade. Without food, clothing, lumber, minerals, and the many tangible products used in the cities but not produced in them, these cities could not continue to thrive or even to maintain their existence.

It is a well-established fact, also, that the great bulk of city people know and understand far less of the problems of rural life than rural people know of city life. For this reason, it is understandable—although hardly reasonable—that city people may envy those in the country without knowing anything of rural hardships and, consequently, attempt to ease their own burdens onto those residing in the rural areas.

With a balanced majority neither urban nor rural people can dominate. Each must sell the other on the merits of legislative action, thus tending to limit legislation to those measures that are sound because they will benefit the state as a whole, or will, at least, not harm great segments of the people.

**Gracie Reports**

By GRACIE ALLEN  
Well, it looks as though love in this modern age, is officially a flop. The authority for this is none other than the new president of the American Bookellers Association, and he should know because booksellers have been living for centuries on tales like Cinderella and Prince Charming.

He says ladies aren't buying romantic novels any more but instead are gobbling up books about how to nail a husband, and keep him under permanent control, and that the most romantic love stories and advice books come under the heading of fiction, except I think romances are at least entertaining.

Maybe I'm a sentimental little goose, but I still love the story I loved when I was a little girl. It was about a prince and a ugly dragon fighting over me. My mother, who sometimes is a little unkind to George, says it's too old I had to end up with the dragon.

**PRESSURE IS ON**

WASHINGTON — Congress is being subjected to the most intense pressure by the world's greatest behind-the-scenes pressure machine to force open U. S. gates to admit more immigrants.

The same minority machine which kept a President in office for life and which now seems determined to get a New Dealer nominated on both major political tickets, is capitalizing on public sympathy for the displaced persons in western Europe.

Among the displaced persons are the thousands who would make good American citizens, notably Balts and Germans.

But we are not getting this type of DP. A stream of aliens of the most unassimilable type is coming into the United States while the Marxist favoring board of immigration appeals holds open the gate.

The board of immigration appeals is functioning in favor of left wing radicals, admitting known pro-Communists of the DP camps are unable to get into this country.

There is endless proof of this disregard of American immigration laws and American traditions

**Fair Enough . . . . by Westbrook Pegler**

WASHINGTON — In developing and proving, step by step, the complexity of Henry Wallace in the weird, esoteric political and spiritual affairs of the late Prof. Nicholas Roerich, it has been necessary now and again to review or repeat. New information is found day by day which would be almost meaningless alone but is important in a design of wild but truthful revelation. Blurred at first, the facts are now coming into focus.

I did not know at the outset that the Roerich cult had made progress in Washington but I have learned that it did. There is absolutely no doubt that President Roosevelt knew about it and about Henry Wallace's implication in it when he selected Wallace in 1940 to be vice president. Many important Democratic politicians were guilty of keeping silence when they had ominous information about the man who would become President if Roosevelt died. Mrs. James Roosevelt, the President's mother, a determined, bossy woman who resists to use her influence, had a high regard for Roerich's press agent in New York.

Devotees or disciples were won to the cult in very high circles. The roster of guests at the great boozing when Roosevelt "accepted" the Roerich "pact and banner of peace" and Wallace appeared in his solemn role of "protector" shows that the master promoter of the cult in New York did fine work. Admirals, generals, professors and clergymen were there. And Wallace himself thought he was on his way to immortality as a prince of peace thru his serio-comic postures at the big shag.

Now all idolators of the late Roosevelt and, indeed, even some reasonable Americans will feel that, after all, by luck, we did get past the danger without suffering the infliction of Wallace on the United States as President with "aggregate war powers." So why labor the point?

The reason for all this detail is that it shows the existence in the government, in the very White House and in the national headquarters of the ruling party, of a dark, mysterious influence, exerted by an adventurer from Russia whose fanatical followers called him god and who loftily accepted this status. The similarity of this atmosphere to the "Illuminati" of the Russian court in St. Petersburg up to the fall of the dynasty in 1917 is heightened by the fact that Roerich and Rasputin, the mad monk, both were Russians. They had spiritual qualities in common, too. Both were deliberately and elaborately mysterious. Both imposed their faithful in aloof, oriental fashion. And both were able to rob some of their followers of their reason and will power.

Sol Bloom, the New York Congressman and former chairman of the House committee on foreign affairs, lived in the lamazery, and Sen. Robert Wagner referred to interesting intimacies in the circle of the oriental cultist but gave no details. Bloom, an old carnival showman, probably speaks the truth when he says he took no stock in Roerich's religious or spiritual monkey-bines. But he speaks the truth, too, when he says, with elaborate flippancy, that he never let old Roerich look him in the eye. In his carnival days Sol had been around where hypnotists and mesmerists were making blameless tricks of the whistle - stops take off their pants in public. He knew that the whammy was no mere figure of speech and that Roerich had put the eye on many a one. The spell had cost Louis L. Horch several millions of dollars, and he was a clever trader in international exchange. And now Henry Wallace fell for the old guru and sent him off to Asia ostensibly to collect grass seed but actually to promote his schemes in Siberia. Wallace's own journeys over the same ground in 1943 were mysterious and unnecessary.

All this conspiracy has lain hidden in the dark, secret files of the State department all these years. Shielding the guilty and deceiving the millions of Americans whose fate was at risk in these wild proceedings and crooked schemes, the bureaus of the Roosevelt kingdom have tried to deny and withhold even from history the truth about a phase of government as crazy as any.

**Leaves From a Correspondent's Life Note Book**

By HAL BOYLE  
NEW YORK — (AP) — Dorothy Lamour drinks prune juice for breakfast.

What's so wrong about that? Nothing's wrong about it. But after all — prune juice! Dorothy Lamour!

But I don't know why that should seem odd. One of the first things you learn about movie stars is that they are often in real life the reverse of the characters they portray on the screen. They'll tell you so themselves. You can't stop 'em.

Dottie is what the people in show business call a good scout — one who hasn't forgotten the folks who gave a lift on the way up.

She likes to talk about what she calls "the old days." She isn't embarrassed at the memory of running an elevator in a Chicago department store, and she probably had about as much fun then as she does now being a movie star.

"When I was here in the old days I never had any money to shop," she laughed. "Now I haven't any time."

We were lunching at one of those places on Central Park south where you can't make up your mind whether to order a dessert or save the money and buy a new suit.

Also with Miss Lamour — Mrs. William Ross Howard III — is her son, Ridge, 21-2, who sometimes finds it pretty rugged to have a movie star for a mother.

"He won't let me hug and kiss him at all if I have lipstick on," she complained. Silly boy!

Lunching with Miss Lamour is a public kind of pleasure. The other men in the joint get rolling their eyeballs in recognition, and the women looked to see what she was wearing. Her outfit consisted of a black velvet, floor-length dress, a double strand of pearls and a diamond ring. The ring had three stones — each large enough to hammer an elk to death.

**'Twas Only Bank Left Unlocked!**

HOUSTON — (AP) — The Port City State Bank here was left unlocked the other night when a customer who walked in the next morning only to find he was alone in the bank. He called police.

"I guess the porter or some employe just forgot to lock the door last night," explained executive vice president Henry Etheridge as he added the bank was to have been closed the next day for Jefferson Davis' birthday.

**Hungary Recognizes Israel**

BUDAPEST — (AP) — Hungary recognized Israel Thursday. She was the tenth nation to do so. The United States, Russia, Guatemala, Poland, Yugoslavia, Uruguay, Czechoslovakia, Nicaragua and South Africa had previously recognized the new Jewish state.

There are three hours difference between New York and California time.

**by Upton Close**

papers. They are Erie Dalskog, Bert Meiness and John McCuish.

In view of the decision, three other officials of the same union immediately applied for admission and were expected — according to the Communist daily — to have no trouble getting in.

Meanwhile, the sturdy anti-Communists of the DP camps, from Latvia, Lithuania and Soviet-occupied Germany, cannot get in. A letter from Stanley Ausrota, mayor of a Latvian camp, to a federal official, dated May 10, 1948, confirms this statement. Not one of all the Baltic-occupied DP camps has been admitted to the United States, he wrote.

If Congress succumbs to the minority machine pressure and admits more aliens, only the type of alien will get in who can successfully be propagandized by the machine and voted as a leftist. Thus the machine, which already boasts that it holds the balance of power in the all-important seven industrial states, and which is making nearly all Republican Presidential candidates appear it, will use increased immigration quotas to tighten its grip on the officials and policies of the United States government.

**Common Ground**

By R. C. HOILES

**The Higher Law** (Continued)

I am continuing further from the speech delivered at the opening session of the Conference of Federal Judges of the Ninth Circuit in San Francisco last September by Harold R. McKinnon, of the San Francisco Bar.

In yesterday's column, Mr. McKinnon dwelt on the history of the "higher law," and cited cases where it is found in the literature of ancient Greece.

I continue:

This early championship of the higher law is found elsewhere in Greek thought. It was maintained by Plato's great pupil, Aristotle, who divided law into particular and universal, particular being the positive law of a community, and universal being "the law of nature." Such reasoning, Aristotle concluded that "there really is, as everyone to some extent divines, a natural justice . . . that is binding on all men." To demonstrate the ultimate source of law was apparent, as indicated in this argument, it was a jury that all men ought to obey law because it is a discovery and gift of God. It appears in Empedocles, to whom the law against incest was not limited in its jurisdiction.

"Nay, but an all-embracing law, that rules the realms of the sky Unbroken it stretches, and over the earth's immensity."

And in Sophocles we find Antigone challenging a tyrannical decree upon the ground of the unwritten law divine, immutable, eternal.

The doctrine next appears among the Stoics who, bridging the cultures of Greece and Rome, made a momentous contribution to political thought; for they deduced from the doctrine the unity of human nature and the equality of all men and there will be one brotherhood of man in a common citizenship of one world.

"From Greece and the Stoics, the doctrine became incorporated into the Roman law, with the result that it can be felt throughout the Western world even to the present day. This was accomplished largely through the writings of Cicero. 'True law,' he wrote 'is right reason in agreement with Nature; it is of universal application, unchanging and everlasting. . . . We cannot be freed from its obligations by senate or people. . . . There will not be different laws at Rome and at Athens, or different laws now and in the future, but one eternal and unchangeable law which will be valid for all nations and all times, and which will be one master and ruler, that is, God, over us all, for He is the author of this law, its promulgator, and its enforcing judge.' And to Cicero the law is a divine attribute of human beings, but a 'partnership in Law.' In fact, it owes its very origin to law, which is coeval with time, and there will be one nature of man. Propositions such as these, so suggestive of the primacy of human personality, are indicative of the fact that here in ancient Rome as at the beginning of modern political theory, and that the doctrine of the rights of man which was to assert itself with revolutionary explosiveness in the eighteenth century and which constitutes the basis of present-day democracy, had its foundation in these ancient writings, especially in the doctrine of the rights of man which were two thousand years ago.

"The doctrine was perpetuated by the later Roman jurists — by Gaius in the second century, Ulpian in the third, Justinian in the sixth and Gratian in the tenth.

"Side by side with this development, it received incalculable weight from its adoption by religion, as illustrated in the writings of the early Christian fathers, Saints Paul and Augustine, Ambrose and Jerome, and in the middle ages the doctrine received development which was responsible for further political progress of which today we are heirs. The outstanding thinker of this period was the great medieval philosopher St. Thomas Aquinas, who wrote that the rational creature, being subject to divine providence, has a share of Eternal Reason, whereby it has a natural inclination to its proper act and end; and this participation of the eternal law in the rational creature is called 'natural law.' According to St. Thomas, therefore, all man-made laws must conform to this law of nature, and 'if on any point (a man-made law) is in conflict with the law of nature it is at once ceases to be a law; it is a mere perversion of law.' As a result of teaching such as this, it was recognized throughout the middle ages that the natural law was antecedent and paramount to the state in every way, and that it stood above all earthly powers, above king and emperor above

**Wanna Bet?**

**NATIONAL WHIRLIGIG**

news behind the news

By RAY TUCKER  
WASHINGTON — Political minded officers in the highest echelons of the Army and the Air Force have suddenly become the chief rosters for the presidential candidacy of General "Ike" Eisenhower on either the Republican or Democratic ticket.

Their enthusiasm for the American commander in the European theater is based on their belief that James V. Forrestal, as national defense secretary, is too partial to the Navy, which headed before the merger of the armed services. The generals and aviators think that their branches would get a better break if one of their own became both president and commander-in-chief of our fighting forces.

They complain that Secretary Forrestal has surrounded himself with Navy men, and that he accepts without question the advice of Admiral William D. Leahy, who has the presidential ear as chief of staff to Mr. Truman.

Their principal indictment against the Forrestal-Leahy clique, as they refer to that faction, is that they have violated the Key West agreement which allocated certain specified functions to the Army and Navy air units.

Profiting from Der Fuehrer's blunders, Moscow might, even conquer England, Spain, Portugal, Switzerland and the whole Scandinavian Peninsula. She now has the Balkans save for Greece, and Stalin would certainly sweep into the Middle East, Italy and other Mediterranean countries, including North Africa.

Navy aviation, according to their understanding, would simply provide an "aerial umbrella" for naval operations such as the transport of troops and actual landings.

Hardly had the agreement been signed before Secretary Forrestal and his aides asked Congress to authorize the construction of a 65,000-ton aircraft carrier at a cost of \$200,000,000, the most expensive warship ever built anywhere, and with the ultimate plan of making three more of the same.

Obviously, as Army aviators bitterly complain, a ship of that size points toward the use of naval planes against objectives and targets supposed to be reserved for the Army Air Corps. According to General Carl Spaatz and General Ira Eaker, both now retired, that was the heart of the Key West pact.

Pope and the media doctrine that rulership was based upon the consent of the governed. It was the prevalence in medieval times of doctrines such as these which caused the historian Carlyle to say that the great representative machinery of modern government which he caused is irresponsible, as its appearance would be unintelligible. If its foundations had not been laid deep in the principles of medieval society, and especially in the principle that all authority is the authority of the community, which was caused by Sir Frederick Pollock to say that the medieval theory of natural law 'never ceased to be essentially rationalist and progressive' and that it is modern aberrations which have led to a widespread belief that the Law of Nature is only a cloak for arbitrary dogmas or fanatics."

**Airlines Receive 24 Safety Awards**

CHICAGO — (AP) — Two hundred and eighty thousand times around the globe without a fatal accident.

That, in effect, is the combined safety record compiled by 23 airlines through last year, figures released by the National Safety Council showed today. The lines completed more than seven billion passenger miles without a single fatality to a passenger or crew member.

A 24th airline — Pan American Airways, Inc. — was honored for completing 1,443,899,000 passenger miles between Aug. 3, 1947 and June 19, 1947, without a fatality.

Fifteen of the 24 winners of the council's 1947 aviation safety awards not only went through 1947 without an accidental death, but completed fatality-free records ranging from two to 18 years.

**TOP O' TEXAS NEWS**

**Panhandle**

PANHANDLE (Special) — Mrs. Lula Ethel Williams, who had been a resident of the Conway community for 19 years, died at 11 o'clock Wednesday morning in Pampa hospital. She had been ill for several weeks.

Mrs. Williams, the wife of G. W. Williams, was born Aug. 23, 1890, in Alford, Wise County. She belonged to the Methodist Church.

Funeral services were held at 3 p. m. Thursday at the Conway church with the Rev. R. F. Jones, pastor of the Panhandle Assembly of God Church, officiating, assisted by the Rev. Delbert Priest, of Lark.

Palbearers were six nephews: Homer and Floyd Williams, Eugene Goss, Herschel Miller, L. F. Cleek and Ardue Ward.

Burial was in Claude Cemetery under the direction of Boxwell Bros. of Amarillo.

Survivors besides the husband include a mother, Mrs. F. M. Proctor, Alford; one brother, S. C. Proctor, Salt Lake City; four sisters, Mrs. J. F. Seyer, Purcell, Okla.; Mrs. F. H. Miller, Lubbock; Mrs. J. P. Callihan, Panhandle; and Miss Etta Proctor, Alford; seven nephews and 12 nieces.

**Shamrock**

SHAMROCK (Special) — The Shamrock Junior Chamber of Commerce and the Boosters Club have adopted resolutions asking the State Department of Public Safety for the permanent assignment of one or more state highway patrolmen here.

Glynn Bell, rancher of the Twity area, has been elected president of the Shamrock Boosters Club, succeeding B. F. Risinger.

Election of officers was held following the weekly luncheon at the Methodist Church Wednesday.

Other officers elected include: Roy Berten, replacing J. R. Benson as first vice president; Burl Golson, succeeding J. A. Ebeling as second vice president; Wallace Fields to take over the duties of secretary-treasurer, handled last year by Ben Parks; and Bedford Harrison, tailwinger, relieving Thurman Adkins.

The new officers will take over their duties June 10.

The Shamrock Chapter of the Rainbow Girls sponsored a cake sale Saturday. Proceeds will be used for a trip to the State Grand Assembly to be held in El Paso.

The Rev. S. M. Dunnam replaces the Rev. Hubert Bratcher as pastor of the First Methodist Church.

Rev. H. E. Long is also moving here to take charge of the Shamrock circuit which was handled the past conference year by Rev. Horace Bennett.

Rev. Dunnam has been in the Northwest Texas Conference only two years, having been pastor of the Littlefield Methodist Church during that time. He is married and has three children.

Four hundred and eleven children are enrolled in Vacation Bible Schools at four of Shamrock's churches.

The Church of Christ has the largest enrollment with 142. The First Baptist Church has 110; the First Methodist Church, 85; and the First Christian Church 74.

The Poppy sale, held Saturday by the American Legion Auxiliary, netted \$113.50. Mrs. Earl Gobbie, chairman, said. The poppies were sold by volunteer Cub Scouts.

Memorial Day services were held at the First Baptist Church Sunday morning under the direction of the Rev. E. C. Derr.

Douglas E. Pringle, formerly of Vernon, has been appointed representative of the Southwestern Life Insurance Company for the Shamrock area, and has already moved here with his wife and two children.

The Merry Molders Club met at the home of Mr. and Mrs. Bob Roach Sunday evening. Refreshments were served to the following members: Mr. and Mrs. R. L. Roberts, Mr. and Mrs. Bob Blake, Mrs. J. E. Shewman, Miss Cecelia O'Gorman, James Wagner, Bob Roach, Jr., Frank O'Gorman, and Jack Roach.

**McLean**

McLean (Special) — Al Duncan of Wellington, has been employed as coach for the McLean Tigers for the coming year. He has been their coach since a season after its meeting Saturday.

Duncan has guided the Wellington Skyrocks to four district championships in the six years he has been their coach. He will report for duty here when football practice sessions begin Aug. 15.

A freak pig with no mouth, only one eye, and a snout resembling the trunk of an elephant, was born Monday to a sow owned by C. E. Henley.

The hairless freak, which was born dead, was one of a litter of six. The other five were normal, Henley said.

14 WOUNDED — Fourteen persons, five of them police, have been wounded by gunfire in spreading farm strikes in Northern Italy, the Italian news agency Ansa said today. The bloodshed was the most serious since the April 18-19 election.

**Skellytown**

SKELLYTOWN (Special) — Wayne Johnson is leaving Sunday for Liberal, Kans., to be gone for a few weeks.

Mr. and Mrs. Dalton Green are vacationing at Eagle Nest, N. M.

The Rev. and Mrs. M. O. Evans and Jimmy Doyle have returned from Memphis, Tenn., where they attended the Southern Baptist Convention.

Mr. and Mrs. Bill Adams and Billy Joyce are vacationing in South Texas.

The Rev. Homer Long has returned from the annual Methodist Convention at Lubbock. The Rev. Long has been appointed assistant pastor at Shamrock.

Mr. and Mrs. James Jett and Grand Rapids, Mich., were in town Monday visiting friends.

Royce Beck, who has been attending college in Canyon, is home for the summer.

Mrs. Floyd Hand and Judy spent Sunday and Monday in Panhandle.

Max Osborne, who has been attending college at Lubbock, is home for the summer. Also home is Leon Griffith, who is a student at Lubbock.

Mrs. John Rush flew to Indianapolis May 29, to visit friends and relatives.

Mr. and Mrs. Don La Marr and Mrs. Bert Bass are visiting in Wichita Falls and Olney.

Mr. and Mrs. Ray Vineyard and children are visiting relatives in Ballinger.

Mrs. Howard Wedge and children of Laos, N. M., are visiting relatives here.

Mr. and Mrs. Ben Hand visited friends in Canyon Sunday.

Mr. and Mrs. Paul Stedum and family moved to Sultry Tuesday to make their home.

Mrs. E. O. Conyers and Jeanne of Pampa spent Sunday with Mr. and Mrs. Virgil Norton and Eddie Ray.

Seven octaves and a minor third constitute the tone range of a standard piano.

### GOP 'Dark Horses' Have Good Chance

By ALEXANDER R. GEORGE WASHINGTON (AP) - The chance of a dark horse winning the Republican presidential nomination is better than usual this year.

Generally, the Republican nominee has been an outstanding pre-convention favorite. In 14 out of 23 Republican conventions the nominee was chosen on the first ballot. However, the hot contest this spring between Active Candidates Dewey, Stassen, and Taft increases the nomination prospects for compromise, or dark horse, candidates.

That's because a close race between two or three leading candidates often develops into a convention deadlock, none of them being able to win several ballots to muster a required majority of the delegates' votes. That's where the compromise candidate comes in.

There will be 1094 delegates at the Republican convention which opens in Philadelphia June 21. To win the presidential nomination, a candidate must receive at least 648 votes.

Along with Dewey, Stassen and Taft, four so-called "receptive" candidates have been named on most presidential prospect lists. They are Sen. Vandenberg, Gen. MacArthur, Speaker Joseph P. Martin and Gov. Earl Warren of California.

Supporters of Vandenberg and MacArthur contend their favorites deserve a higher rating than that of dark horse. What is a dark horse?

The traditional definition is a comparative "unknown" or long shot possibility who is given a last-minute boom for the nomination in order to break a prolonged deadlock among major contenders. This year, however, the term dark horse has been used to describe all of the presidential prospects except active candidates Taft, Dewey, and Stassen. Vandenberg, MacArthur, Warren and Martin have been called dark horses, along with "favorite sons" of various states.

Among the favorite sons are Gov. Dwight Green of Illinois; Sen. Edward Martin of Pennsylvania; Sen. Leverett Saltonstall of Massachusetts; Gov. Alfred E. Driscoll of New Jersey; Sen. Raymond E. Baldwin of Connecticut; and B. Carroll Reece of Tennessee, chairman of the Republican National Committee. They will receive the votes of the delegates from their states on the first ballot at least. Vandenberg is Michigan's favorite son and Warren has the backing of California.

**Britain Bans Move Of Jews to Israel**  
LONDON (AP) - The Foreign Office announced today Britain has banned the movement of all fit Jews of military age from Cyprus to Palestine.

An informed Whitehall source said adequate military measures have been taken in Cyprus to control possible disturbances by the 24,000 Jews held there.

Unexplained "flying saucers" produced hallucinations and the inevitable pretty-girl montage from Texas.

CHICAGO (NEA) - The American language got "the new look" last year.

That phrase, and scores of other new words and new meanings for old ones, have made the nation's vocabulary still longer, according to the 1948 Britannica Book of the Year.

Science provided dozens of the new terms, but economic and political problems also created words to reflect new conditions and new ideas: "Benelux," "Bizonia," "cold war," "Cominform," "crypto-Communist," "Marshall plan" and "police state," for example.

The Britannica includes the following expressions in its list of more than 100 new words and meanings: "Baby sit: To sit with a baby while its parents are out."

"Chain reaction: (Figurative) A series of results, one caused by another."

"Diapene: Trade name of a bactericide for diaper rash."

"Dollar crisis: Condition resulting when a country whose exports to the United States fail to balance its imports begins using up its dollars."

"ERP: European Recovery plan: The Marshall plan."

**Scientists Peek Through 'Big Eye'**  
PALOMAR MOUNTAIN, Calif. (AP) - Scientists dedicated the "big eye" Thursday.

It's the 200-inch telescope atop Palomar Mountain through which they soon will peer into outer space twice as far as ever before.

The world's largest piece of glass will enable astronomers to see 1,000,000,000 light years into space. Translated into miles, the distance is 6 followed by 21 zeros.

The giant telescope-mirror was cast 12 years ago at Corning Glass Works, Corning, N. Y.

After preliminary peeks through the "big eye" several months ago, California Institute of Technology astronomers proclaimed the giant ready to be put into operation.

So powerful is the telescope that the canals on Mars - if there are any - will for the first time be photographed.

**Gov. Jester Again Asks Prison Aid**  
AUSTIN (AP) - In a report reviewing his past and future program for Texas Gov. Beauford H. Jester yesterday again endorsed expenditure of more than \$4,000,000 to rehabilitate the state's prison system.

The Governor said he endorsed the complete plan presented by Prison Manager O. B. Ellis and approved by the Prison Board. He stressed the importance of meeting the system's problems without delay.

### Flying Saucer by Any Name....

#### Gives New Look (And Length) to U. S. Language

and later at other places, flying at great heights and at high speeds. Though the saucers were attributed in part to hallucinations resulting from mass hysteria, they were not satisfactorily explained.

"Freedom Train. A seven-car train, sponsored by the American Heritage Foundation, containing an exhibit of important U.S. historical documents, which were displayed at various cities and towns throughout the United States.

"Seeding: The dropping of chemicals, such as dry ice, from an aeroplane into a cloud to induce condensation."

"Spice: British. An operator on the black market; a minor racketeer."

"Trumanburger: A meat substitute (beef sandwich) whose filling consists of mashed beans and barbecue sauce."

"UMT: Universal Military Training program."

"Venture (adjective): Not controlled; as, venture money, money one is willing to risk in a new enterprise."

"Bubble gum was in there, too."

**Next President Could Be the Youngest In Nation's History—or the Oldest**  
AP NEWSFEATURES  
WASHINGTON (AP) - The next president may be the youngest, or the oldest, in United States history.

If 41-year-old Harold E. Stassen of Minnesota wins the Republican nomination and the election, he will be the youngest of our chief executives.

If 68-year-old General Douglas MacArthur is the Republican nominee and is elected, he will be the oldest man to take over the presidency.

Youngest president was Theodore Roosevelt, who at 42 stepped up from the vice presidency after the assassination of McKinley in 1901.

Oldest president was William Henry Harrison, inaugurated 23 days after his 68th birthday. If General MacArthur becomes the next president, his inauguration will take place six days before his 69th birthday.

President Harrison, old warrior of Tippecanoe fame, rode his white horse from the White House to the capitol on a wintry inauguration day. He contracted pneumonia after standing in a raw wind for an hour while delivering his inaugural address. He died exactly one month after his inauguration.

Next two oldest presidents were James Buchanan and Zachary Taylor, 65 and 64, at their inaugurations.

Harry Truman was 60 when he succeeded President Roosevelt and if he is elected next fall will be 64 at his second inauguration.

Second youngest president was Ulysses S. Grant, who was 46 when he took office. Youngest presidential nominee was William Jennings Bryan. He was 36 when he was first chosen Democratic standard bearer in 1896.

**Operation Is Failure, Say Complainants**  
NEW YORK (AP) - A man and wife are suing a doctor for \$100,000, charging that a sterilization operation on the husband failed to work and that persons who knew it had been performed suspected the wife of adultery when a child was born.

The Ellenville, N. Y. couple, Jack Berman, 38, and his wife, Esther, contend in their state Supreme Court action that failure of the operation had caused them "humiliation, shame and disgrace."

On behalf of Mrs. Berman, the suit, filed yesterday, stated: "Members of the family who were informed and believed that my husband had become sterile as a result of the operation, believed that my child was illegitimate and born out of wedlock, and that I had been guilty of adultery."

The Berman's charged that Dr. Emanuel Donheiser, Manhattan physician, was "careless and negligent" in performing the operation.

The action alleged that Berman went to Dr. Donheiser after the couple's family physician advised Mrs. Berman that it was of "the utmost importance to my well-being that I should not again become pregnant," because "my life and mental stability would be endangered."

Surgery was performed on Oct. 26, 1945, the suit set forth, adding that "afterwards we were advised that it was entirely safe for us to engage in intercourse, and that under no circumstances could I become pregnant."

**Demo Replies To GOPster**  
WASHINGTON (AP) - Rep. McCormack (D-Mass.) said here Republican lawmakers ought to "do something" about promises made in their 1944 party platform.

The No. 2 Democrat in the House gave that reply to the suggestion of Senator Taft (R-Ohio) earlier this week that the Democrats "get specific" in their 1948 platform.

McCormack, chairman of the 19 Democratic Platform Committee and now assistant minority leader told newsmen:

"No matter what platform the Republicans adopt in Philadelphia, it will be meaningless unless they take action on important bills before Congress adjourns."

The Ellenville, N. Y. couple, Jack Berman, 38, and his wife, Esther, contend in their state Supreme Court action that failure of the operation had caused them "humiliation, shame and disgrace."

On behalf of Mrs. Berman, the suit, filed yesterday, stated: "Members of the family who were informed and believed that my husband had become sterile as a result of the operation, believed that my child was illegitimate and born out of wedlock, and that I had been guilty of adultery."

The Berman's charged that Dr. Emanuel Donheiser, Manhattan physician, was "careless and negligent" in performing the operation.

The action alleged that Berman went to Dr. Donheiser after the couple's family physician advised Mrs. Berman that it was of "the utmost importance to my well-being that I should not again become pregnant," because "my life and mental stability would be endangered."

Surgery was performed on Oct. 26, 1945, the suit set forth, adding that "afterwards we were advised that it was entirely safe for us to engage in intercourse, and that under no circumstances could I become pregnant."

"No matter what platform the Republicans adopt in Philadelphia, it will be meaningless unless they take action on important bills before Congress adjourns."

**Well Help Put MORE FUN in Your Vacation Travel WITH THIS COMPLETE PRE-VACATION Check-up!**

Tune-up the engine for top performance.  
 Lubricate the chassis.  
 Inspect the transmission and differential lubricants.

**Steel on Site For Building**

SHAMROCK —(Special)— The first load of steel is on the location and Legionnaires hope to start construction of their new \$50,000 building early next week.

H. S. Sims, with permission of the other three members of the Commissioners Court, has agreed to grade and level the land on which the building will be constructed. This will be done this weekend or the first of next week so that the foundation work can be started sometime next week. The 125 x 145 foot building will be one of the largest and finest in this section. Constructed on a three-acre plot 800 feet south of the city limits, the building will be finished in native stone.

**John Roosevelt In New Calling**

BEVERLY HILLS, Calif. —(AP)— John A. Roosevelt, son of the late president, will head a chain of department stores in California. This was disclosed Friday with filing of articles of incorporation for the Roosevelt-Good Corporation. The firm's headquarters and first store will be located in Beverly Hills. Lee Good, formerly with Marshall Field and Co., will be vice president.

**He's Nonpatron Of Barber Shops, Mother Cuts Hair**

SEATTLE —(AP)— Paul Tutmarc, 24, has never been in a barber shop.

His mother, Mrs. Lorraine Tutmarc, has been cutting his hair ever since he was a little feller. "I just use a larger bowl," says Mrs. Tutmarc, howling with laughter. (She doesn't use a bowl at all, but regulation barber tools.) When Paul was little, his mother operated a beauty parlor and hair remover, so she cut the family's hair as part of the day's work. It got to be a habit. But now Paul, who stands six feet six and weighs 275 pounds, is going on tour with the "Harmony Quartet," singing evangelists. They'll be gone about three months.

He won't go near a barber shop. Next month Mrs. Tutmarc will fly to New York City to see Paul — and she'll take her haircutting gear along.

"FOR FREE" WASHINGTON —(AP)— The Senate Banking Committee Friday recommended that some 900 colleges, universities and educational institutions be given \$130,000,000 worth of wartime housing now on their campuses or grounds.

Use red nailpolish to brighten up red head fishing plugs.

**4,459 War Dead Returned Home**

SAN FRANCISCO (AP)— An Army transport Friday brought home the bodies of 4,459 American war dead. They came from New Guinea and the Philippine Islands.

The transport Lieut. George W. G. Boyce, was the sixth funeral ship to reach this port, and carried the greatest single list of war dead.

**Russian Protests 'Insolent Slander'**

TOKYO —(AP)— A Russian spokesman Friday protested that "insolent slander" about his country had appeared in the Japanese press: and a U. S. Army newspaper here.

Maj. Gen. A. P. Kislanko, in a letter to General MacArthur demanded that the attacks be stopped.

JEOPARDY NEW YORK —(AP)— The New York Times said Friday President Daniel J. Tobin had told members of his AFL Teamsters Union that they will be jeopardizing the life of their union if they press too hard for higher wages in coming months.

New York's most famous jail is called The Tombs.

**Gotham Shows New Population Gains In Two Cases**

NEW YORK —(AP)— New York City, as of last Jan. 1, had an estimated population of 8,005,000, a gain of more than 1,000,000 in the last three years.

The estimate was prepared by the Industrial and Development Department of the Consolidated Edison Company.

During the war years, the city's population declined to less than 7,000,000.

LINEN HANDKERCHIEFS When buying linen handkerchiefs, make sure the weave and weight are compact and even. Embroidered initials and open work, while very pretty, make the handkerchief more fragile.
