new Princess phone

it's little, it's lovely, it lights

There are so many reasons why this lovely new extension phone fits gracefully wherever you put it in your home.

One is that it's small-to take less room on table or desk or kitchen

Another, it's modern-styled for the modern taste that likes beauty with And the dial lights up. It glows in the dark so you can find it quickly and, when you lift the receiver, lights up brightly to make dialing easy.

Your choice of attractive colors helps you decorate, too: white, beige, pink, blue or turquoise. Just call the telephone business office. Or ask a telephone serviceman to show it to you.
