

GRAND CHAMPION CALF — The Grand Champion calf of the Gray County Junior Livestock Show is pictured here with Lonnie Brown of Groom, who showed the calf yesterday at Recreation Park. The Angus calf will be entered in the Top O' Texas Junior Livestock Show, held as a part of the Top O' Texas Stock Show, starting here today. The Reserve Champion, a Hereford, was shown by Joe Magee of McLean. Yesterday's show was for Gray County competitors only, while the Junior Livestock Show tomorrow will be for consignors from a six-county area surrounding Pampa. (Daily News Photo)

Livestock Show To Start Today At Recreation Park

Everything is in readiness for the Top O' Texas Stock Show which gets under way at Recreation Park today, and runs through Wednesday.

The Stock Show is sponsored annually by the Pampa Chamber of Commerce in cooperation with the Top O' Texas Hereford Breeders Association, with the assistance of the various Pampa civic clubs and organizations.

The show has three big divisions — the Hereford Breeders Show and Sale, the Junior Livestock Show and Sale, and the Livestock Judging Contest.

Another highlight of the annual event is the naming of a scholarship winner for the Frank M. Carter Scholarship, worth \$300 to Texas Tech. It is awarded annually to the Future Farmer of America judged most outstanding in FFA Region One.

This year's Hereford Breeders show will have 55 bulls and nine heifers entered. The Junior Livestock Show will have 91 calves and 184 hogs to show and sell. In the Livestock Judging Contest, teams will be entered from approximately 50 schools throughout the Panhandle.

Activities get underway at 12 noon today with the completion of weighing junior livestock at Recreation Park and the sifting of late steers and pigs.

At 9 a.m. tomorrow, judging of the Swine Division in the Junior Livestock Show will start and at 1:30 judging of calves will get underway. That night, at 7 o'clock, the Top O' Texas Rodeo Association will sponsor a barbecue for exhibitors in the Junior Show at the show barn.

A brief appearance is scheduled by United States Senator Ralph Yarborough at the barbecue. The public is invited to attend this event and tickets are \$1.25 per plate.

On Tuesday, the FFA Livestock Judging Contest starts at 9:30 a.m. and the judging of Hereford breeding cattle starts at 1 p.m.

A banquet for team members in the Livestock Judging Contest starts at 5 p.m. at the Pampa High School, where the Frank M. Carter Scholarship will be awarded.

Then, also on Tuesday, the Hereford Breeders Association will have its annual banquet in the Starlight Room of the Coronado Inn at 7:30 p.m.

On Wednesday, the sale of animals in the Junior Livestock Show starts at 9:30 a.m. and sale of cattle in the Hereford Breeders di-

vision starts at 1 p.m. Walter Britten will be auctioneer.

At the Tuesday night banquet of the Hereford Breeders, Earl Huffman of Texas Tech, Lubbock, will be the speaker and awards will be presented to winners in the show. Immediately after the banquet, there will be a brief meeting of the membership of the association, at which time the group will elect officers for the new year.

Current officers of the organization are Paul Dauer of Panhandle, president, Ben Mathers Jr. of Canadian, vice president, Frank M. Carter of Pampa, treasurer and E. O. Wedgeworth of Pampa, secretary.

Directors include J. P. Callihan, Ralph Thomas, Tommie Potts, A. B. Carruth, Cliff Vincent, T. G. Milligan, Cameron Gault, W. H. Cooke, III, M. C. Overton Jr., Clyde Car-

ruth, Dale Hoover, Ralph Hall, Clyde McGee, Wayne Maddox, F. J. Riess and Grady Tyler.

Consignors in the Hereford Breeders Show include: J. A. Bagerman and Sons of Groom, J. P. Callihan of Conway, Frank M. Carter of Pampa, Frank M. Chambers of Canadian, J. Cooke Cattle Co. of Quail, Paul Dauer of Panhandle, Howard Gault and Sons of Hereford, Ralph Hale of Perryton, R. H. Holland and Son of Perryton, Larry C. Kaul of Hereford, M. C. Kaul of Hereford, Wayne Maddox of Miami, Clyde J. Magee of McLean, Mathers Ranch of Canadian, Kenneth Mee of Canadian, T. G. Millican of Panhandle, Robert L. Newton of Lark, Tommie Potts of Memphis, Paul and Alan Thompson of Miami, Gordon Whitener of (See LIVESTOCK, Page 3)

Yarborough Due Here Tomorrow In Tour Of Area

Senator Ralph Yarborough's two-day swing through six Panhandle counties will start with a 7 a.m. breakfast tomorrow at the Court House Cafe here in Pampa.

It will mark his first public appearance after arrival at Amarillo Air Terminal late tonight where he will be met by a delegation of Pampa citizens.

Following the breakfast, Senator Yarborough will go from Pampa by motorcade to Lefors for a meeting with a group of citizens there at 8:30 a.m., then will meet with Mayor John Haynes and others in McLean at 8:45 a.m.

At 10:45 a.m. the senator will meet with another group at Shamrock in Wheeler County. At 12 noon he will attend a Kiwanis Club luncheon in Wheeler.

Senator Yarborough will be in Canadian at 1:45 p.m. Monday and then will meet with another group at 2:45 p.m. in Miami, Roberts County.

After the trip through Gray, Wheeler, Hemphill and Roberts Counties, the senator will return to Pampa to speak briefly at a meeting of the Independent Oil and Gas Producers and Royalty Owners Association at 5 p.m. at the Coronado Inn. Billy Davis, association president, will preside.

At 6 p.m. tomorrow Senator Yarborough will attend the Junior Livestock Show and Barbecue at Recreation Park here.

The senator is scheduled for a major address when he returns downtown to appear at a public dinner to be held in his honor at the Coronado's Starlight Room.

Don Cain of the Pampa Chamber of Commerce Legislative and National Affairs Committee will give the address of welcome at the banquet and Ralph Wayne of (See SENATOR, Page 3)

Scientists Get To Look At Mars From A Balloon

PALESTINE, Tex. (UPI) — Instruments raised by a giant balloon from Texas to the fringe of space and brought to earth in Tennessee Saturday, gave man his first unrestricted look at Mars and possibly an answer to the question of life on the planet.

Elated scientists, successful after 15 attempts to launch the unmanned tandem balloon and its

Castro Quells Revolt Try, Takes 'Spy'

HAVANA (UPI) — Premier Fidel Castro's government Saturday announced the "annihilation" of a counter-revolutionary band and the arrest of an alleged spy who sought refuge in a foreign embassy.

It said the band's leader, Tomas Sangil, was killed in the operation. It charged he was an agent of the U.S. Central Intelligence Agency (CIA) and had been named its "counter-revolutionary chief in Las Villas Province."

The announcement did not say when the action against the band took place, but it placed the area of its operations between Trinidad, a south coast port, and Sancti Spiritus, an inland city about 45 miles distant. The mountainous district is about 250 miles south-east of here.

Another announcement said that Manuel Valle Caral, who was charged with being a radio operator for one of the spy rings broken up in January, was arrested while trying to enter a foreign embassy.

In other developments, the (See FIDEL, Page 3)

6,300-pound payload, said they may have a preliminary report within two days on whether the Martian atmosphere can support life.

The balloon was launched Friday from Palestine and came to earth this morning near Pulaski, Tenn., with its instrument package and 36-inch telescope. Scientists in Pulaski said they were "tickled pink" by the 12-hour flight.

Dr. Marvin Schwarzschild, director of Project Stratosphere II examined the balloon's payload at Pulaski and said the blue box containing a recording tape was undamaged.

Perfect Condition — "The blue box is in perfect condition and this is what we are most interested in," he said. "How wonderful it came down here (where there are no trees)."

The findings may show whether water vapor, carbon dioxide and possibly other gases that lend themselves to support of life forms are in the Martian atmosphere.

It will be two or three months, however, before scientists are able to decipher all the details of the study. The experiment was jointly sponsored by Princeton University and the University of California but the U. S. government put up the \$5 million so far spent on it.

The Russians have a space probe en route to Mars but it will not be in position to report anything before early summer. The Stratosphere II project balloon may have gotten the same information months earlier.

Launched Friday — The balloon—actually two balloons separated by a kind of girder—was launched from Palestine about 5 p.m. Friday. Drifting northeast through the night, it reached a maximum altitude of 77,000 feet, above 96 per cent of the earth's atmosphere.

Toward dawn, it was brought down to 44,000 feet, where the instruments and telescope were cut loose by remote control and drifted to earth on a parachute.

The instruments landed across a fence 10 miles north of Pulaski, Tenn. William Pierce, a mechanic, telephoned Sheriff Jack Cox. The sheriff and state trooper Homer Smith guarded them until scientists from Huntsville, Ala., arrived.

The scientists pronounced the instruments and telescope in perfect condition. The plastic balloon came down a few minutes later 14 miles west of Pulaski. It was in good condition but will not be used again to lift instruments into space.

The instrument package included a telescope, detecting devices, telemetry, tracking and recording equipment and a balometer.

Tiny Instrument — The balometer, an instrument developed by Texas Instruments, Inc., weighs less than a grain of rice. But it can detect radiation signals as small as one trillionth of a watt.

As the balloon ascended, scientists fired its instrument on the moon. They are comparatively well acquainted with the moon and needed the readings from it to give a comparison with readings from Mars.

If it comes from a hardware store we have it. Lewis Hdwe. Adv.

U.S. Diplomat Challenges Russia

Extremely Absent

ALBANY, N.Y. (UPI) — A check for rental of an office here has arrived monthly for the last 11 years but its signer never has been seen by the family living in the building.

Landlord William Mitchell said he last saw the lessee, Henry Boulton, the honorary Venezuelan consul here, five years ago. He said Boulton travels a great deal and apparently returned occasionally, opened the door, looked in and left.

Newspaper Talks Report Progress

NEW YORK (UPI) — New York's newspaper strike ended its 12th week Saturday amid reports that "some progress" had been made at a meeting which ended shortly before last midnight.

Representatives of Local 6 of the International Typographical Union (ITU) and the Newspaper Publishers Association of New York City resumed meeting shortly before noon. Bertram Powers, Local 6 president, said the negotiators Friday "spent the entire day on the automation issue."

"The issue was not resolved," he added, "but some progress was made."

East Germany Asking USSR For More Time

BERLIN (UPI) — The East German government is trying unsuccessfully to persuade the Soviet Union to give it more time to pay back long-term credits, informed sources said Saturday.

If the Russians continue to refuse it was believed the East Germans would be forced to turn to West Germany for a long term loan—a development that would have major repercussions on East-West relations.

The West Germans have made it clear they will grant a loan only if the Communists make political concessions and relax the travel ban that prevents West Berliners from crossing the wall to visit East Berlin.

The sources said the East German effort to get a payments extension reflected the Communist country's grave economic troubles brought by lagging farm production. The zone's precarious economic situation also was aggravated by a fuel shortage brought by the unusually cold winter.

The Soviet Union has granted East Germany over a period of years about \$1 billion in credits, mostly commodity credits. Repayment is due by 1964 and 1965 but the East Germans are expected to make annual payments in the meantime.

Defense Department Remains Silent On Russian Evacuation

WASHINGTON (UPI) — The Defense Department maintained silence Saturday in the face of continuing reports that large-scale withdrawal of Soviet troops from Cuba has already begun.

The reports were that 2,000 or more Russian combat troops had left the island, the first aboard the luxury liner Baltika which sailed from Havana Thursday. The reports said another 6,000 were expected to be withdrawn in the next few weeks.

The Pentagon, however, decided to stand on Defense Secretary Robert S. McNamara's statement two days ago that it is "too early" for a definite report on the withdrawal.

"The President has stated that the Soviet government has indicated that within the next few weeks—by the middle of March, approximately—they anticipated removing from the island of Cuba several thousand military personnel," McNamara said. "But it is much too early to report in any way upon these movements."

The 8,000 expected to be withdrawn are members of four combat units, of 2,000 men each, which apparently were sent to guard Soviet missile bases which were dismantled last fall.

Their removal would leave about

Foster Says 'Prove It' To Soviets

NEW YORK (UPI) — U. S. Disarmament negotiator William C. Foster, returning from the deadlocked Geneva test-ban talks, said Saturday he challenged the Soviet Union to prove it can detect nuclear explosions without any on-site instruments.

"I told them yesterday I'd like to have a list of all the underground tests we've had, because I believe we had some tests they didn't detect," he said with a smile.

The Russians "with their faculty for brushing of questions that don't please them, didn't answer," Foster said.

Foster arrived at Idlewild International Airport en route to report to President Kennedy his "disappointment" at the Russian refusal to talk about anything except the number of on-site inspection locations needed.

Useful Meetings — Still, he said, the new 17-nation negotiations have been "a very useful exercise" in impressing the non-aligned nations with the necessity of discussing other problems besides numbers.

After four years of negotiating, the Russians, who originally said (See FOSTER, Page 3)

All Five Offices To Be Contested In Election

There will be contests in all five city offices up for grabs in Pampa's April 2 municipal election.

When deadline fell last midnight there were two candidates each for the posts of mayor and commissioners in the four city wards.

The lineup voters will find from which to make their choices at the polls will be as follows:

For mayor: H. Raeburn Thompson and Gene Lewis.

For commissioner in Ward 1 — Dr. MacField McDaniel and J. S. (Jack) Skelly.

For commissioner in Ward 2 — Jim Nation Jr. and Hobart Fathere.

For commissioner in Ward 3 — R. K. Parsley and Leon Holmes.

For commissioner in Ward 4 — A. C. Troop and L. P. Fort.

Lewis, S. Cuyler St. hardware store owner, filed for mayor late Friday afternoon. Lewis issued the following statement:

"Pampa has been my home since June 3, 1934. Pampa has been good to me and my family. It is regrettable that so few have a sincere and honest desire to see their community progress and are willing to make the necessary sacrifice to go forward. My sole rea-

son for filing for the office of Mayor is that I feel the people should have a choice."

Skelly, who filed for Ward 1 commissioner, is owner of the J. S. Skelly Fuel Co., and has been a Pampa resident since 1933. He is a member of Masonic Lodge 958, Kiwanis Club, Panhandle Plains Section of the American Chemical Society, and First Methodist Church.

In a short statement issued Saturday, Skelly said:

"The basic ideals of our rugged Constitution of the United States shall guide my endeavors to be a true and responsible servant of the citizens of Pampa, if elected."

Commissioners Holmes and Fort are the only two members of the present city commission to again bid for the office.

Mayor E. C. Sidwell, Ward 1 Commissioner Lloyd Simpson and Ward 2 Commissioner Will Gra-

(See ELECTION, Page 3)

SWITCHE TO COGNAC — PARIS (UPI) — The newspaper France-Soir reported Friday that Scotch whisky has disappeared at recent receptions in President Charles de Gaulle's Elysee Palace. The paper said the Scotch has been replaced by cognac-and-water, and asked: "is it a sign of the times?"

Ferguson, Brown Entries Tops In County Exhibits

Gene Ferguson of Pampa and Lonnie Brown of Groom walked off with the Grand Champion ribbons in yesterday's Gray County Junior Livestock Show sponsored by the Pampa Lions Club.

The show is held annually in advance of the big Top O' Texas Stock Show and competitors are limited to Gray County 4-H and Future Farmers of America members. The bigger Junior Livestock Show in the Top O' Texas Stock Show is for 4-H and FFA members from a six-county area surrounding Pampa.

Ferguson won the Grand Champion ribbon with his Poland China Barrow in the fat hog division and Brown won Grand Champion with his Angus steer in the fat calf division.

Reserve Champion Barrow was a Duroc, shown by Donnie Shipp of Pampa and Reserve Champion Calf was a Hereford shown by Joe Magee of McLean.

There were only two divisions in the calf show, light and heavy, and Angus and Herefords were

judged in the same category in both divisions. In the Barrow Show, there were light and heavy categories in Poland China, Hampshire and Cross Breeds (and other breeds).

Judge of the show was Douglas Smith, County Agent of Ochiltree County.

Interest in the Gray County show was high this year and it boasted 58 pigs and 18 calves. The event has grown yearly under the sponsorship of the Lions Club.

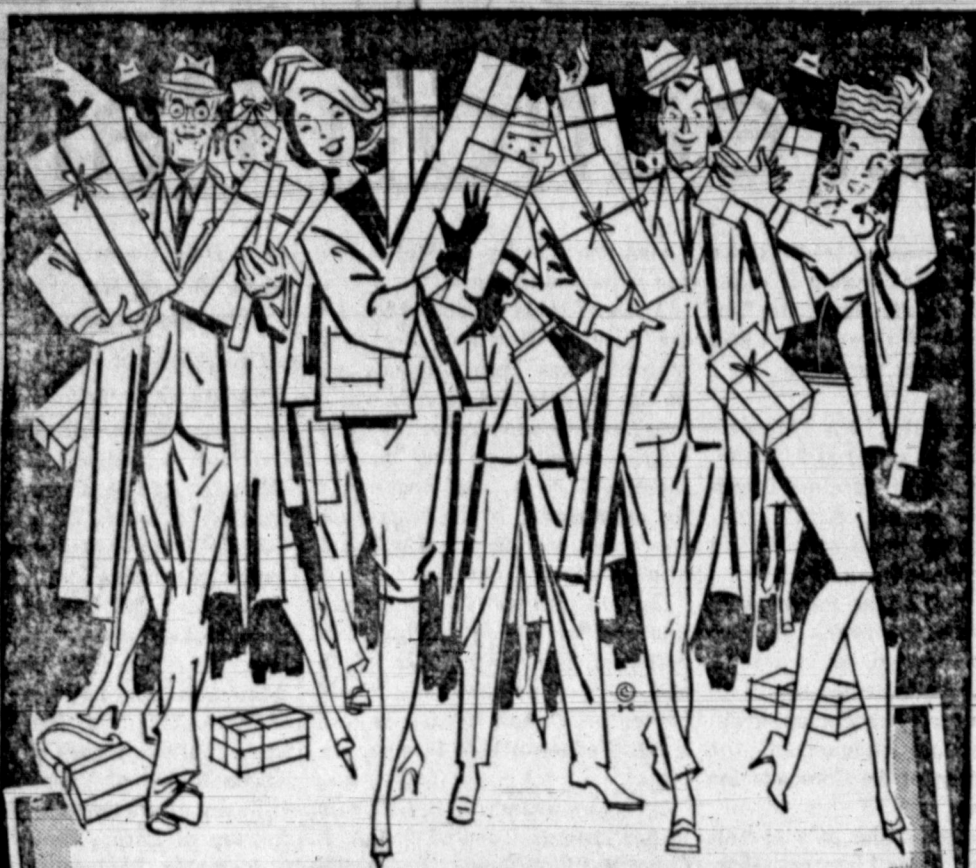

A good crowd of spectators filled most of the seats at the Show Barn in Recreation Park, east of town, and applauded their favorite when its place in the judging was announced.

Earl McConnell was show superintendent and J. E. Gunn of the Federal Land Bank Association was clerk. Bill Dunn headed work (See CHAMPIONS, Page 3)

GRAND CHAMPION BARROW — This is the Grand Champion Barrow shown in yesterday's Gray County Junior Livestock Show, sponsored by the Pampa Lions Club. The pig, a Poland China, was shown by Gene Ferguson of Pampa. The Reserve Champion Barrow was a Duroc, shown by Donnie Shipp, also of Pampa. Both animals will be entered in the Top O' Texas Stock Show's Junior Livestock Show tomorrow. (Daily News Photo)

Demo Warns Against Cuba Invasion Now

WASHINGTON (UPI) — Sen. Olin D. Johnston declared Saturday that "invasion now" critics of President Kennedy's Cuba policy should also tell the public "how many Americans will die as a result."

The veteran South Carolina Democrat said in a news letter to his constituents that "any politician who harps on the Cuban situation to make it a political issue is doing his nation a great disservice."

"We are not cowards but neither do we wish to be foolhardy," he said. "We must rid Cuba of communism but the means we use can be the difference between peace and war."

His remarks comprised one of the most blunt replies yet to Republican leaders who are demanding tougher policies toward Cuba's Fidel Castro.

Johnston mentioned no names but he said the GOP critics "conveniently forget" the Kennedy "inherited the Cuban mess from the previous Republican administration" which "helped to put Castro in office."

Johnston's South Carolina colleague, Sen. Strom Thurmond, also has been an outspoken advocate of tougher measures toward Castro. But Thurmond has advocated invasion only as a last resort.

Johnston said that "those who cry invasion without just provocation should accompany their remarks with an estimation of how many Americans will die."

He said every citizen should weigh carefully the charges and countercharges as a result of major and lesser crises coming from the Cuban situation.

Also, he said, any public official, elected or otherwise, "making statements concerning Cuba should do so only with care and when he is armed with facts."

He added that they "must realize that when they speak to the people of the United States and the world, they have the ability to inflame and excite or to calm and subdue."

Johnston said the Eisenhower administration did nothing to halt or discourage Castro's takeover and "rushed in blindly to recognize the new regime, without even so much as asking a question."

Italian Commies Continue Purge

ROME (UPI)—Italy's deflection-plagued Communist Party Saturday crossed further names of its election ticket in what appeared to be the biggest purge since the war.

Many of the names were familiar and dear to the rank and file — old labor organizers, inmates of Mussolini's jails, "men of the hills" who battled the Nazis and Fascists in bloody guerrilla warfare.

But they are no longer an asset to party leader Palmiro Togliatti in the era of co-existence, destalinization and domestic prosperity.

Brother Accused Of Shooting Sister's Beau

CORPUS CHRISTI, Tex (UPI) — Wayne Reed, 21, fired a shotgun into an automobile carrying two young men who were trying to date his sister early Saturday. One of the suitors, Ralph Miller, 22, fell dead at the wheel.

The other young man, Michael Smith, 22, was injured critically when the car left the street and struck a tree.

Police charged Reed with murder. Officers said Smith telephoned Betty Gallman at her home an hour before the shooting to ask her for a date. Her father broke in on the telephone conversation. He told her she could not go out and ordered her to her room.

Smith told her he was coming over anyway, Police said. When they drove up, Reed fired a shotgun from the garage. The charge struck Miller.

Reed said he meant only to "scare them away — not kill them."

French Veto Splits German Leaders

United Press International BONN (UPI)—The French veto of British Common Market membership has brought relations between Chancellor Konrad Adenauer and Vice Chancellor Ludwig Erhard, his heir-apparent, to the breaking point, authoritative political sources said Saturday.

The sources said the 87-year-old chancellor and the 66-year-old Erhard are not even on speaking terms although Adenauer has promised to resign this fall and Erhard is to succeed him.

Adenauer and Erhard, who is also economics minister, have been exchanging angry letters ever since the negotiations collapsed Jan. 29, the sources said.

Ill Opinion Informants close to Erhard claim the chancellor is trying to discredit his deputy and, thus, destroy any hopes Erhard may have of succeeding Adenauer. Adenauer has never hidden his opinion that Erhard is ill-suited for the chancellorship.

The feud reached its apex last Thursday when Erhard demonstratively stayed away from a cabinet meeting.

It took public form Friday when Erhard attended a Bundesrat (senate) session and saw Adenauer sitting on the government bench. Erhard sat on the other end of the bench, not even looking in Adenauer's direction.

Normally, Erhard, as vice-chancellor, always sits next to Adenauer.

A showdown between Adenauer and Erhard may come Monday at a meeting of the Christian Democratic Party (CDU) parliamentary caucus, the sources said. Both men are scheduled to attend the meeting.

Official spokesmen for the chancellor and the economics ministry, when questioned about the feud, said only, "there has been an exchange of letters."

Adenauer wrote the first letter to Erhard shortly after the Brussels breakdown, the sources revealed. It accused Erhard of interfering in foreign policy and asked if he had the foreign minister's permission to do so.

Election

(Continued From Page 1) ham chose not to seek re-election. Fatheree, Skelly, and Lewis, among those who filed Friday, are making their first bid for public office.

It was stated by one news source Saturday that Fatheree was an unsuccessful Republican candidate for state representative in 1962. Fatheree has not previously been a candidate for any office, he stated.

Livestock

(Continued From Page 1) Wheeler and Rocky Woodford of Miami.

Officials of the Top O' Texas Stock Show include: Clyde Caruth of Pampa, superintendent; W. N. (Bill) Reed of Sterling, judge of the Hereford breeders show; Dr. Herbert Tolesok of Oklahoma State University, Stillwater, Oklahoma, judge of the Junior Livestock Show; and Prof. Charlie Smallwood, head of the agriculture department at West Texas State College, Canyon, judge of the Livestock Judging Contest. Ralph Thomas is chairman of the Pampa Chamber of Commerce Agriculture committee.

The banquet is open to the general public and tickets are \$2.50 each. They may be purchased from any member of the association's board of directors or at the Pampa Chamber of Commerce office in the Hughes Building.

The calf show in the Junior Livestock portion of the event will have three divisions, light, medium and heavy, in both Hereford and Angus categories, making six divisions in all.

There are six breed divisions in the pig show with those divisions separated into two groups, heavy and light.

Some \$500 in prize money is paid in both the steer and swine divisions.

Prize money will be given in both the steer and swine divisions with seven classes of steers and 12 classes of barrows.

Prize money in the steer classes runs: \$15, 1st; \$12, second; \$10, third; \$7, fourth; \$5, fifth; \$4, sixth; \$3, seventh; \$2, eighth; \$1, ninth; ribbon, tenth.

The American Hereford Breeders Association will add 25 percent to the above prizes for all animals showing a predominance of Hereford blood.

The Grand Champion calf will be presented a beautiful trophy through the courtesy of the Pampa Lions Club, and the Pampa Kiwanis Club will give the trophy for the Grand Champion barrow.

Rosettes will be given to the breed champion and reserve breed champion and to the show Reserve Champion.

First, second and third place awards will be given to the 4-H Clubs or FFA chapters for the best group of five calves. Trophies will be furnished by the Rotary Club, Junior Chamber of Commerce and Top O' Texas Rodeo Association.

First, second and third prizes will be awarded for showmanship in the calf division by the Top O' Texas Kiwanis Club, Evening Lions Club and the Highland Pharmacy.

In the fat barrow division, ribbons will be awarded through sixth place. Cash prizes will be \$3, first; \$2, second; \$1, third; and ribbons for fourth through seventh places in each of the 12 classes. Again, the breed grand and reserve champion and the show Reserve Champion will be awarded rosettes.

First, second and third place awards for showmanship will be given in the Barrow Division, compliments of the Optimist Club, Breakfast Optimist Club and Pampa Feed and Grain.

GRANTHAM, England (UPI) — Fifteen persons were injured Saturday when two diesel engine passenger trains collided in a railway station here.

BURY, England (UPI) — A mother hit her husband with a mallet because he poured a bottle of milk over their 7-month-old daughter, a court was told Saturday. Stanley Byrne, 21, was ordered held for trial on charges of causing grievous bodily harm to his daughter.

Pampa Schools To Observe Texas Public School Week

Teachers and school officials will join with Pampa school pupils and their parents in the observation of Texas Public School Week Monday through Friday of this week.

Elaborate plans have been completed to mark the week, with special events outlined for all schools.

School Superintendent Jack Edmondson has issued an invitation to the public, whether they have children in school or not, to visit as many schools as possible during the week.

"We always welcome visitors any time of the year," Edmondson said, "but since this is a special week set aside for emphasis on education, we are urging everyone to make a special effort to come visit us this week."

Pampa's seven elementary schools, two Junior High schools, Senior High school and Carver School all will present programs that will entertain visitors, give added training to pupils, and provide the public an insight to students and teachers at work.

Here is a schedule of special programs to be presented this week:

MONDAY Pampa Senior High — Evening

Pampa Boy Injured In Accident

Twelve-year-old Bobby Barker, son of Mr. and Mrs. Allen Barker, 325 Canadian, suffered injuries shortly after 6 p.m. Friday when he was struck by an automobile in the 100-block of Alcock St.

According to a police report, the boy ran in front of a car driven by Mrs. Marcia Smith, 632 N. Dwight.

The youth was knocked six feet by the impact and suffered the loss of three teeth, bruised lip and skin abrasions on his legs. He was taken to Highland General Hospital in a Duenkell-Carmichael ambulance and released following emergency treatment.

Accident Victim In Good Condition

Daniel Osmus, 39, of Amarillo, was reported in good condition Saturday night in Highland General hospital where he was taken Friday evening with injuries suffered in an automobile accident.

Officers said Osmus lost control of the car he was driving late Friday afternoon and crashed into five parked cars at the Gray County Court House Annex just east of the city limits on Hwy. 60.

Osmus was reported driving east on the highway when his car went into a skid, left the road and hit the parked automobiles. All of the cars involved in the accident were damaged.

Foster

(Continued From Page 1) they would not agree to any on-site inspections, have agreed to three a year. The United States has reduced its demands from 10 to seven.

Foster said the United States would go down further—even to zero—if the Russians, or anyone else, can devise a foolproof system to detect underground nuclear tests.

"We want a properly safeguarded treaty. We're going to insist on it," Foster said.

"This has to be a two-sided game, and if, as Mr. Semyon K. Tsarapkin and Mr. Khrushchev have stated, they are not going to move from their position, then we won't have an agreement and this is very disappointing," he added.

Flies to Washington Foster flew directly to Washington from here. He said he would be available for consultations with President Kennedy at any time.

He has no plans to return to Geneva, he said, but other U.S. negotiators will continue the talks.

The problems beside numbers that Foster wants to discuss include location of the "black boxes" used for detecting nuclear blasts, the noise level at these stations and their capacities.

Leaving Geneva, he was as carefully pessimistic as in New York.

"The way the talks are going at the moment it seems I can be more valuable in Washington," he said.

Prizes Awarded In Science Fair Competition

Thirty-nine exhibits came away from the sixth annual Pampa Science Fair with first prize awards.

The prizes were given in six categories, in group and individual exhibits. The categories included botany, medicine and health, zoology, chemistry and biochemistry, earth and space, and physics.

Students competed in four divisions, primary, intermediate, junior high and senior high.

The finalists in the Pampa fair will go to the regional competition in Amarillo, March 28-31.

A total of 106 first, second and third prizes were awarded in Saturday's judging.

Fidel

(Continued From Page 1) mair's brother, Defense Minister Raul Castro, scheduled a speech for Monday night on the third anniversary of the explosion aboard the French ammunition ship LaCoubre.

The ship blew up in Havana harbor while weapons and ammunition for the Cuban army were being unloaded, killing 80 persons.

Brazilian Communist Party General Secretary Luis Carlos Prestes and Francisco Juliao, pro-Castro leader of Brazilian peasants, met with Premier Castro Friday. In an interview in Saturday's newspaper Revolucion, Prestes praised Castro as an inspiration for the Brazilian people.

Carlos Rafael Rodriguez, president of the Agrarian Reform Institute, announced the nationalization of eight more farms in Havana Province because their owners either left the country, were sentenced for counter-revolutionary activities, or did not put the farms into production as required by the land reform laws.

Kentucky, Massachusetts, Pennsylvania and Virginia are commonwealths.

Champions

(Continued From Page 1) by the club's Agriculture Committee as committee chairman.

Complete results of the Junior Livestock Show are: Grand Champion Calf Angus, shown by Lonnie Brown of Groom; Reserve Champion Hereford, shown by Joe Magee of McLean.

Hampshire, Light: First, Mignon Nickel, Pampa; Second, Gary Epperson, Pampa; Third, Bennie Coffee, Pampa; Fourth, Doyle McCurley, McLean; Fifth, Charles McDonald, Pampa.

Hampshire, Heavy: First, Lee Mays, McLean; Second, Kenneth Nickel, Pampa; Third, Lynn Mays, McLean; Fourth, Leroy Thornburg, Pampa; Fifth, Charles Tyler, Pampa.

Airmen Receive Medals For Viet Nam Assistance

FAYETTEVILLE, N.C. (UPI)—Fourteen U.S. airmen of the 464th Troop Carrier Wing were awarded air medals Saturday for support of U.S. military assistance programs in South Vietnam.

Col. Arthur P. Hurr, wing vice commander, made the presentations in a wing review held at Pope Air Force Base near here. He said it was the largest single group to receive the medals since World War II.

The awards covered action in the Southeast Asian country during the last half of 1962. Those decorated included:

Capt. Charles F. Leonard, New Rochelle, N.Y.; Capt. Dudley A. Harris, Hendersonville, Tenn.; and 1st Lt. Ronald A. Clouse, Fresno, Calif.

Others were first lieutenants Jerry A. King, Peru, Ind.; Raymond C. Sandy, Stevens City, Va.; Kenneth L. Lawson, Kansas City, Mo., and John P. Payne, South Charleston, W. Va.

Staff Sergeants receiving the medal included Willie L. Washington, Tallahassee, Fla.; Charles K. Cavins, New Paris, Ohio; George C. Etheridge, Bold Knob, Ark.; John E. McGrew, Emporia, Kan.; Lawrence Hart, Atlanta, Richard T. Draper, Elyria, Ohio, and T.Sgt. John W. Knowles of Miami.

Hurr said the 464th Troop Carrier Wing at Pope AFB has been sending aircraft and personnel to South Vietnam in support of the South Vietnamese government since December 1961.

John Chapman was the real name of Johnny Appleseed.

Stinnett Man Is Fined \$100

Joseph O. Pool, 32, Stinnett, was fined \$100 and costs and sentenced to three days in jail Saturday following a plea of guilty to driving while intoxicated.

Pool, who was arraigned in County court, was arrested by city police at 1:47 a.m. Saturday in the 800-block of W. Francis St.

Senator

(Continued From Page 1) Plainview will serve as master of ceremonies and introduce the senator.

Following his Pampa address tomorrow night, Senator Yarborough will leave for Amarillo where at 1:47 a.m. Tuesday he will deliver another major talk at the conference of Panhandle County Judges and County Commissioners in the Herring Hotel. He will attend a luncheon of the group at noon and will spend Tuesday afternoon visiting with a number of friends before returning to Washington.

Officials in charge of the Monday motorcade said it would be accompanied all day by representatives of two Amarillo television stations.

TOKYO (UPI) — Soviet Defense Minister Marshal Rodion Malinovsky will visit Indonesia in late March, Radio Indonesia announced Saturday.

ADDING TO THE POT — Cub Scouts, Johnny Blakemore, left and Duane Cox add "blue of the sky" and "yellow of the sun" to the council fire pot from which "Akela", Paul Turner, will draw awards for other cubs. Awards to eight cub scouts were presented at Pack 22 annual Blue and Gold banquet held Thursday evening at Pamcel Hall.

To Cub Scouts

Commissioner Speaks At Blue And Gold Dinner

Carl Hudson, Boy Scout Santa Fe District Commissioner gave an address to Cub Scout Pack 22 at their annual Blue and Gold Banquet Thursday evening at Pamcel Hall.

With approximately 150 c.u.b. scouts at the banquet the pack was awarded their 1963 charter by George Etheridge, Santa Fe District Organization and Extension chairman.

A short skit, narrated by Bob Schiffman, public relations committeeman, was given. The cast included Paul Turner as "Akela", the good leader, and cubs Johnny Blakemore and Duane Cox.

Commissioner Hudson said in his address to the pack, "The attempt to separate the christian religion from everyday life leads to the confusing situation we are facing in our nation today."

"Every single man who signed our nation's constitution was reared in a christian home, studied the Bible and prayed to God. Religion can be useful only when it is related to everyday living. One of the few organizations left in our country which teaches both honor to God and loyalty to country without conflict is the Boy Scouts of America."

"The Scouting program is one of the most vital links in preserving, he said, 'thank God for the people who have conviction enough to teach a boy to say, 'On my honor, I will do my best to do my duty to God, and my country.'"

Master of ceremonies for the evening was Sam Begert, the pack's institutional representative, principal of Horace Mann School. Invocation was said by Carl Hudson, minister of the Methodist Church of Miami.

Master of ceremonies for the evening was Sam Begert, the pack's institutional representative, principal of Horace Mann School. Invocation was said by Carl Hudson, minister of the Methodist Church of Miami.

The program closed with the Cub Scout Prayer: "May the good Master of all good Cub Scouts be with us until we meet again." The prayer was said by all cubs and their families.

State House Passes Open Meeting Bill

AUSTIN (UPI) — The House has passed and sent to the Senate a bill to require local and state governing bodies to hold open meetings.

The bill, by Rep. Chet Brooks of Pasadena, is aimed primarily at bodies such as school boards, commissioners courts, city councils and the like. It exempts executive sessions of the Senate, and boards dealing with adoption and juvenile cases.

The House also gave final approval today to a proposal to give aid to needy children up to the age of 16 provided they are attending school. Present law shuts off such aid at the age of 14.

The Senate, meantime, returned to normal procedure today after a filibuster by Sen. Andy Rogers of Childress succeeded in delaying Gov. John Connally's higher education study bill for a week.

House Bills Passed
The Senate routinely passed several local-issue House bills, then heard a personal privilege speech by Sen. Jack Strong of Longview attacking some articles in the Houston Chronicle dealing with county purchasing in Gregg County.

Connally's bill to study education beyond the high school was first brought up in the Senate on Monday. Rogers offered an amendment to take most of the appointive powers for the commission out of Connally's hands, then launched his talkathon.

He continued Tuesday, finally agreeing to adjournment at 4:30 p.m. after backers of the proposal gave in to the effects of his filibuster.

TIME CONSUMING
MILWAUKEE, Wis. (UPI) — Duana M. Farnsworth, 21, and Philip W. Peterson, 29, learned Wednesday that a hoax can be time consuming.

Each was sentenced to a year and a day for causing to be transported in interstate commerce a forged \$15 check that was signed Harold Hoax.

Thief in the Night by Thomas Walsh: winner of last year's Inner award has planted dynamite on every page of this story.

Non-fiction: Jefferson and the Ordeal of Liberty by Dumas Malone: the third volume in a thorough biography of Thomas Jefferson.

Dillinger by Robert Cromie: the author tells the whole incredible story of the man who terrified the Midwest but lets the reader decide "what made Dillinger run."

Tragedy in Dedham by Francis Russell: the story of the Sacco-Vanzetti case that developed into one of the world's great trials and became a cause that divided America.

Trenchard by Andrew Boyle: a biography of the man who created the R.A.F. and laid down the basic principles of air strategy.

Men and Decisions by Lewis L. Strauss: a book about certain men and their decisions; much of the material appearing as recorded history for the first time.

H. L. Mencken and The American Mercury by M. K. Singleton: the account of this famous magazine and its illustrious editor mirrors the fabulous era of the Roaring Twenties.

Backseat Quarterback by Perian Conery: the wife of Charlie Conery, a witty sportswriter herself, writes a funny and informative book about professional football.

What Time's the Next Swan? by Walter Slezak: a warm, irreverent and delightful saga of a family by a man whose artistry, charm and wit have endeared him to all America.

VERY SENIOR CITIZENS
MOSCOW (UPI) — The Soviet Union has 16,276 women over 100 years old, according to a new book called "Women and Children in the U.S.S.R."

A review of the book by the official Tass news agency Thursday said that of the number, 2,311 but 3,524 live in rural areas. The average life expectancy of women in the Soviet Union was said to be 72 years.

FOR MILITARY TRAINING
ALGIERS, Algeria (UPI) — The Algerian army Thursday night sent 48 young officers to Moscow for advanced military training.

Girls Scouts Plan Senior Meeting Here March 8-9

Girl Scouts of the Quivira Girl Scout Council will blast off into "verbal orbit" on the topic, "What Scouting Holds in Your Future", at their Senior Conference March 8 and 9, in the Pampa Hotel.

The event is for Senior Scouts of the 10-county Quivira Council, with headquarters in Pampa, as well as delegates from Amarillo, Caprock, Plainview, Panhandle, Dumas and Yucca Councils.

Registrations will begin at 4:30 p.m. March 8, with the "count down" to begin with a welcome banquet at 7 p.m. Following the banquet a social event will be held that will include songs, games, and the showing of Girl Scout films.

The morning sessions March 9 will include a breakfast, a general session and a panel discussion on the new service bars which Senior Scouts may earn as public relations aides, laboratory and hospital aides, program aides and teacher aides.

Highlight of the noon luncheon will be a style show, to be followed by a career clinic with discussion groups on teenage marriage counseling, vocational career kit and college-bound.

The second afternoon session will be a problem clinic, followed by a coke party. The conference will close at 5 p.m. following the final session of reports on the career and problem clinic.

The conference is planned and carried out by the Quivira Council's Senior Planning Board which includes representatives from each of the Council's six Senior troops, and the adult leaders.

Members of the planning board are Peggy Kendrick, Evelyn McCauley, Chris Grayson, Diana Edminister, Carol Akst and Sally Paden, all of Pampa; Elmonette Brannigan and Sausan McQueen of Memphis; Rita Roberts and Martha Snyder of Frith; Sharon Williamson of Phillips and Judy McKernan of Skellytown.

Mrs. John Holt Jr. of Pampa is Advisor to the planning board. Other senior leaders are Mr. Joe Wells and Mrs. M. H. Taylor, both of Pampa; Mrs. J. P. Long of Frith; Mrs. C. L. Garrett of Phillips; and Mrs. Brode Hoover of Memphis.

Travis Schools Host To Kiwanis Club Members

Pampa's Downtown Kiwanis Club opened observance of Education Week Friday noon when members were luncheon guests of Principal Dan Johnson and the teachers at Travis Elementary School.

The Kiwanians were entertained first by students of the Travis first grade and then with a Mexican Fiesta program presented by pupils from the school's three sixth grade classes, taught by Mrs. Guida Hoepfner, Mrs. Glen Sanders and Mrs. Fay-Watson.

The large ensemble of boys and girls, attired in Mexican costumes, were directed by Mrs. J. C. Parker.

Dan Craig acted as master of ceremonies for the presentation. Cindy Scott and Sue Sanders entertained with a "Mexican Hat Dance" and Richard Gordy sang "Manana" in front of the chorus.

At 10 a.m. next Tuesday Travis school pupils will formally observe Education Week with the presentation of a play, "The Dulce Man," in the school auditorium.

1963 United Fund Officers Elected

H. V. Wilks has been re-elected president of the board of directors of the Pampa-Lefors United Fund for 1963.

Other officers to serve for the coming year will be J. C. Roberts, first vice president; John Gikas, second vice president; Mrs. Mack Harmon, secretary; and F. E. Inel, who was re-elected treasurer.

The Campaign Director will be selected for the 1963-64 drive at a later date.

Perryton Group Attends Meeting

PERRYTON (Sp1)—John Mansfield, Perryton Chamber of Commerce manager, and Drew Ellis, chairman of the chamber's Aviation and Transportation Committee, headed a group of local citizens who went to Oklahoma City Friday.

The delegation took part in the annual U. S. Chamber of Commerce Aircade for Citizen Action here.

Principal discussions at the conference centered around legislation now pending before the national Congress.

Quirks In The News

By United Press International
DEEP RIVER, Conn. (UPI)—The Rev. Walter H. Euston, sponsor of the Tri-Town Trippers Lion Square Dance Club, announced Thursday night it would fold.

"Girls are eager and in good supply," he explained, "but we have been just limping along never knowing whether we would have enough young men to form even one set."

SAN ANTONIO (UPI)—Home-builder E. H. Jaroszewski will

parade an elephant on the roof of one of his homes Sunday to show that the roof is well engineered and constructed.

BLACKBURN, England (UPI)—John Feeney, 20, posed as a detective and asked Margaret Rose Douglas, 16, to act as a decoy in his hunt for a prowler.

Police said Feeney followed the girl down a dark street, tried to attack her but was beaten off and arrested.

Called "Chinese Execution"

Power, Policy And Politics Result In Chicago Slaying

LINCOLN HEIRLOOMS—Robert Todd Lincoln Beckwith, great-grandson of Abraham Lincoln, holds items of Lincolniana which he was awarded by a District of Columbia court in an ownership suit. The rifle, the first lever action rifle ever made, was presented to President Lincoln during the Civil War. The chair once belonged to the wife of Robert Todd Lincoln, the president's eldest son. Beckwith plans to donate the items to the Smithsonian Institution.

Right of Asylum—Spanish Civil War (1936-1939) to describe the work of Fascist agents in Loyalist Madrid.

EDITOR'S NOTE: The slaying of an alderman has put a spotlight on the machinery of political — and perhaps under — power in a great city. A UPI special reporting team including veteran Chicago crime reporter Robert T. Loughran, Fred Mohr and David Smothers, arrived at the 24th Ward headquarters of Benjamin (Duke) Lewis shortly after the Negro politician's bullet riddled body was discovered. The story of the slaying, its political overtones and the past violence of Chicago's political wars are detailed in the following dispatch.

A UPI Team Report
CHICAGO (UPI) — Police seeking the "Chinese execution" killers of Alderman Benjamin F. Lewis today followed a trail of politics, power and "policy."
The politics were bigtime. Lewis, 53, whose slim, manacled body was found stretched on the floor of his headquarters Thursday, had won reelection to the City Council by an overwhelming majority only two days earlier. His power was growing and

there was talk that he aspired to Congress and to the throne of Rep. William Dawson as leader of Chicago's Negro Democrats. There was talk, too, that Lewis had made dangerous enemies in his battle to control the tough West Side 24th Ward.
"Policy," the nickel and dime gambling racket which preys on Chicago's Negroes, was an unknown factor. But it could be the big one and it could mean that Lewis fell before the expert gun of an assassin from the ranks of the Chicago Crime Syndicate. It has happened in Chicago before. A Lewis lieutenant, ward Democratic Vice President Curtis Foster, said "The hoodlum element was trying to come in with policy. He (Lewis) said 'Over my dead body.' They killed him for revenge."
Like Old Times
The Lewis killing was like the old times — much too much like the old times — and it raised fears that Chicago has not shed the ghost of Al Capone and his gangster shock troops.
The three automatic pistol bullets fired into the base of Lewis' skull were echoes of a bloody tradition of political vendetta, a tradition harking back to the days of Capone and the lethal 20s when the game of politics could be deadly in the 24th Ward and the neighboring "Bloody 20th."
Through the decades, Chicago politicians have been shot, knifed, bombed and kidnaped. Sometimes their slayings have touched off shock waves of reforms. But none of these victims had the power and political potential of Ben (Duke) Lewis.
—A state representative called the slaying "political murder" and there was no keeping the murder out of politics. Chicago Mayor Richard J. Daley, one of the most powerful individual Democrats in the nation, is up for reelection April 2 and his opponent, former State Atty. Benjamin Adamowski is no man to pass up a vote-swinging issue.
"Within hours after the discovery of Lewis' body, Adamowski issued a statement charging that the slaying was "another chapter in the sordid history of the Chicago Democratic machine. We are apparently at the beginning of an era of violence and bloodshed."
Orders Go Out
The mayor ordered his police superintendent Orlando W. Wilson to "apprehend and bring before the bar of justice the culprit who committed this dastardly crime." Orders went out to:
—Make an hour-by-hour check of every move Lewis made since Tuesday night, when he strode into Daley's Morrison Hotel headquarters in the Loop and jubilantly announced he had won reelection by a whopping vote of 12,173 to 888.
—Find whether the Crime Syndicate, hard pressed by federal and city police raids on policy wheels elsewhere in the city, was trying to force the racket into the 24th Ward.
—Discover whether the man

Wall Street In Review

NEW YORK (UPI) — Economist Eliot Janeway says the savings & loan business is in a squeeze and to get out of it, it is preparing the ground for a push to raise the government guarantee on deposits from \$10,000 to \$25,000.
He thinks they have a pretty good chance of getting Congress to go along and if they do "the result will obviously be to pose a serious problem for both the commercial banks and the savings banks." Janeway says both groups would be faced with major, unpostponable decisions to get out of some fields and into others.
L. O. Hooper, the W. E. Hutton & Co. analyst says some of the characteristics of dangerous markets are: widespread optimism and high expectations, rampant speculation in risky, low-priced issues, a plentiful supply of "new" stock issues, fast rising prices and a sharp increase in the volume of transactions. He says "the exact opposite of these conditions recently has obtained."
Goodbody & Co. says continuation of the current market consolidation should serve to further establish the validity of existing values for the longer-term investor. However, the house says, price premiums purely for "glamor," or for so-called hedges against inflation, should be avoided.
NEW YORK (UPI) —W. I. La Tourette of Shearson, Hammill & Co. says market action during the past few weeks has been "impressive" in the face of increased international tension, confusion about the proposed tax bill and the collapse of negotiations for British entry into the Common Market.
With indications that public participation in the market is still very limited but is broadening out, periods of weakness such as the present should be regarded as providing good purchase opportunities, he feels.
La Tourette thinks such groups as the oils, railroad equipments, telephones, banks, insurance and trucking stock, among others, appear especially attractive at this time.
Delaware, the first state to join the union, ratified the Constitution on December 7, 1787.

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

Harold Wilson, a crumpled, pipe-smoking man with a cherubic face, is setting out with obvious determination to fulfill his new role as leader of Britain's Labor party.

If he is not the man who will take office as British prime minister as result of general elections sometime between now and October 1964, it will not be for failure to give the electorate something to think about.

He may also give Britain's German, French and United States allies something to think about and some things they may not like.

In the short time since Wilson assumed the leadership post succeeding the late Hugh Gaitskill, his ideas on the new Britain he would create have been appearing in news dispatches on an almost daily basis.

Such a recent dispatch quoting "sources" otherwise unidentified, outlined Wilson's view on a variety of subjects ranging from the common market to the U. S. Polaris missile. The "source" was so close as to look into Wilson's innermost mind.

These were some of the controversial issues taken up by the "source" and said to represent Wilson's feelings:

The Kennedy-Macmillan Nassau agreements should be renegotiated. Presumably this would include the deal whereby Britain accepted the Polaris missile in place of the discarded Skybolt.

Labor believes the United States should be the sole carrier of Western nuclear deterrent strength and would let Britain's current hydrogen bomb force of jet bombers "fade away."

Rights of a free Berlin and of free access to Berlin must be maintained, but might be accompanied by some measure of recognition of East Germany and her borders with Poland and Czechoslovakia.

These are all measures to arouse controversy both at home and among the allies.

Although an East Germany does exist and the controversial border with Poland is unlikely to be changed in the foreseeable future, the mere mention of the recognition of either is enough to send West German Chancellor Konrad Adenauer into a bellow of rage.

The United States, having settled the Polaris issue with Macmillan, and embroiled in an argument with French President Charles de Gaulle on the future of NATO, could not be expected to welcome a reopening of the British negotiations.

Fallout Increases But Level Is Still 'Acceptable Risk'

WASHINGTON (UPI) — The Public Health Service today reported that radioactive fallout increased slightly in several parts of the nation during January but only Palmer, Alaska, was getting a warning level dose of any kind.

For the fifth consecutive month, the PHS reported that Palmer received a 12-month accumulation of iodine 131 that was above the Federal Radiation Council's "acceptable health risk" guide.

Despite increases in some cases, none of the 62 monitoring stations across the nation recorded monthly or yearly accumulations of strontium 89 or the more dangerous strontium 90 that were anywhere near the warning range.

The closest any cities came to the warning level of 73,000 micro-microcuries of strontium 90 for a 12-month period were New Orleans with 10,854; Little Rock with 10,661 and Jackson, Miss., with 8,740.

New Orleans also made the closest approach to the warning level of 730,000 mmc of strontium 89 for a 12-month period. Its accumulation through January was 16,790 mmc compared with 55,930 for Jackson and 30,580 for Atlanta.

LITTLE SOLDIER—Small boy wears a perfect imitation of a French combat paratrooper's uniform in Algiers, where, not long ago, bloody fighting raged between Algerian nationalists and the Secret Army Organization.

TOGETHERNESS

BRUNSWICK, Maine (UPI)—Identical twins Elaine and Lorraine Yambor, 22, believe in togetherness.

The sisters are in a hospital today where each is recovering with a broken left leg injured in separate skiing accidents.

Austin Backdrop

By VERNON SMYLLIE

AUSTIN — If your state senator is a member of the Senate's 21-member State Affairs Committee, don't worry. There's no doubt about it. He's working.

That's not to suggest that the other senators don't work. It's just to point up the fact that the State Affairs Committee, as usual, is bearing the biggest part of the Senate's committee work load.

Look, for example, at what happened January 17. That was the seventh day of the present legislative session. It was the day the Senate tackled in earnest the job of introducing bills.

In all, 44 bills were introduced. Of that number, 17 — about one-third — were channeled to the State Affairs Committee.

To realize what a big proportion that really is, you must remember that the Senate has a total of 24 standing committees. And to realize how big the State Affairs workload gets, you should bear in mind that the January 17 proportion of bill assignments will hold steady through the entire session.

There's nothing extraordinary about that statistic. It's just about the same every session. The State Affairs Committee, by tradition, is a catch-all committee. The other committees are more specialized — narrower in their purposes. But there's nothing narrow or specialized about State Affairs. Almost any bill can be assigned to State

Affairs just as readily as to a more specialized committee because, after all, what bill confronting the Legislature doesn't deal with the subject of state affairs?

That's why the State Affairs Committee is large. It's why State Affairs is considered a plum among committee assignments.

The bills that were referred to the Senate's State Affairs Committee on January 17 illustrate the breadth of the Committee's subject matter.

One bill involved amending the Penal Code. One provided for establishing a national seashore park on Padre Island. Still another contained the legal machinery for creating a Commission on Organization of the Executive Branch of the Government. Others provided for creation of an occupation safety-board, outlawing discrimination by the state and its political subdivisions, creating a Constitution Revision Commission, transferring certain lands from Texas Technological College to the City of Lubbock, authorizing the leasing of state-owned submerged lands and islands for recreational purposes, allowing the State to quietclaim an interest in certain property in the City of Mart, defining and licensing correspondence and trade schools, and dealing with grounds for firing faculty members at institutions of higher learning.

See? A pretty wide variety of subjects, isn't it?

On that same day, the Senate State Affairs Committee was asked to ponder a bill authorizing the State Board of Education to annex territories on military reservations to certain independent school districts. Another bill would allow Commissioners Courts to regulate speed and travel on open beaches. There was a bill to establish an office of Local Affairs in the Governor's office, another to provide a Vocational Rehabilitation Act, and still another which related to construction and regulation of walkways, fishing piers, and causeways by the State Highway Department.

Not all important bills go to the State Affairs Committee. While the State Affairs volume is large and the important bills are many, there are other committees that also are regarded as prime. Banking is one. Another is Finance. Insurance usually gets a good flow of significant legislation.

The other Senate standing committees are Agriculture and Livestock, Claims, Constitutional Amendments, Contingent Expense, Counties, Cities, and Towns, Education, Game and Fish, Interstate Co-operation, Jurisdiction, Labor and Management Relations, Military and Veterans Affairs, Nominations, Oil and Gas, Privileges and Elections, Public Health, Rules, State Departments and Institutions, Transportation, Water and Conservation, and Legislative, Congressional and Judicial Districts.

In the House, the committee spread is even broader. There are more committees. But the State Affairs Committee holds its ratio of domination there, too. Unless things change — and they aren't likely to — the House State Affairs Committee will consider about one-third of all House legislation.

Oyster Growing Industry In Danger
AUSTIN (UPI)—The executive vice president of the Texas Oyster Growers Association said Wednesday night that the oyster growing industry along the Texas coast is in danger because of a bill before the legislature.

The vice president of the association, Don Gomez of Port Bolivar, said a bill designed to prohibit the transplanting of oysters from polluted waters would virtually destroy the Texas coast oyster industry.

Gomez explained that an oyster moved from polluted waters to clear waters purifies itself in a short time. He said oyster growers under the current laws can transplant the oysters from polluted to clear waters with the supervision of the Game and Fish Commission. The bill is sponsored by Rep. J. Collier Adams of Lubbock.

Battle Of Bones Gathering Force

MISSION, Tex. (UPI)—A possible battle shaped up today between two Texas schools over a mass of pre-historic bones unearthed at a flood control project west of Mission.

The bones were identified by Pan American College officials as those of a mammoth or a mastodon that became extinct 25,000 to 30,000 years ago.

Pan American scientists planned to take the bones back to Edinburg today.

But paleontologists from the University of Texas had thoughts of moving the ancient remains to Austin.

The bones were unearthed earlier this week by heavy moving equipment working on a flood control project in Starr County.

Officials at Pan American were notified and inspected the findings.

They found tusks nine feet long and shinbones five feet long and eight inches in diameter at their smallest points.

J. A. Prewitt of Lubbock, construction superintendent of the flood control project, called the University of Texas about the

Changing Dipper

The Big Dipper today, astronomers have discovered, is a little wider at the top than on the bottom of the cup as compared to about 50,000 B.C., when the opening was narrower than the bottom.

Astronomers predict that, in 50,000 A.D., it will hardly look like a dipper any more.

"Our history is full of these traces: Chaplains in Congress and in the armed forces; chapels in prisons; 'In God We Trust' on historical relics, bringing the second school into the picture.

Quotes In The News

COLD SHOWER—Chilling water vapor engulfs a Boeing Vertol 107 as the helicopter undergoes a rigorous de-icing test at Canada's National Research Council near Ottawa. A spray-rig on the left produces a vapor cloud, which sub-freezing Canadian weather quickly condenses to ice on the helicopter's rotor blades. An electrical de-icing system is then activated. Heated strips running along the blades' leading edges cause the ice to loosen and the whirling motion of the rotor blades sheds the thawing ice.

Board Members Chosen For Knife And Fork Club

Members of Top O' Texas Knife & Fork Club elected three new members to the Board of Directors. Those beginning the three-year term are Ralph R. Thomas, D. V. Biggers, and Ralph Randal of Panhandle, Texas. They replace three retiring members, V. L. Hobbs, Dr. S. B. Sypert, and M. K. Griffith.

A meeting of the board is scheduled for Monday in the Terrace Room of Coronado Inn at 7 p.m., according to Homer D. Johnson, president.

Mr. Von Riesen of Knife & Fork Club, International, will meet with the local group to aid in selection of speakers for the 1963-64 season. New officers will also be elected at this meeting, which marks the beginning of the new fiscal year for the club.

Matters Of The Military

Army Pvt. Herold G. Shipman, son of Mr. and Mrs. Herold T. Shipman, Lefors, recently qualified as expert in firing the M-14 rifle in Kitzingen, Germany. Shipman, a wireman in the 5th Artillery Group's Headquarters Battery, entered the Army in August 1962, completed basic training at Fort Leonard Wood, Mo., and arrived overseas last January. The 19-year-old soldier is a 1961 graduate of Lefors High School.

Navy Lieutenant junior grade Melvin M. Romine, son of Mrs. Leona E. Taylor of 408 Hughes St.,

was designated a naval aviator recently while attached to Training Squadron 27 at the Naval Auxiliary Air Station, New Iberia, La. A naval aviator receives training that fully qualifies him for all-weather flying and primary anti-submarine missions. In addition, he must make several landings aboard an aircraft carrier in hazardous conditions and at night. Lt. Romine has received orders to Air Anti-Submarine Squadron 21 at the North Island Naval Air Station, San Diego, Calif. He is a graduate of the Naval Academy, Annapolis, Md.

Ralph E. Lewis, son of Mr. and Mrs. Cecil R. Lewis, 1907 Hamilton, has just completed his boot camp training. He has returned to his base at San Diego, Calif., from where he will be shipped to Japan.

Carl D. West, husband of the former Miss Renae C. Boyd of Lefors, Tex., completed recruit training, Feb. 1, at the Naval Training Center, Great Lakes, Ill. During the nine-week indoctrination to Navy life, recruits are trained in physical fitness, basic military law, military drill, customs and etiquette of the naval service, swimming and survival, first aid, and seamanship. Each recruit receives tests and interviews to determine future training and assignments.

Outstanding Safety Honored By Cabot

Cabot Corporation honored 1962 Safety records within its Panhandle manufacturing, production and service operations with a trio of safety dinners on Thursday, Friday and Saturday evenings.

The banquets were held in recognition of outstanding safety performances amassed last year by certain of the company's individual operations and included the presentation of a total of 137 safety certificates to employees which were emblematic of 1755 years worked without Lost Time or Disability injury and computed in intervals of five years.

An estimated 600 employees and their wives attended the company's Safety and Insurance Department sponsored functions which were held Thursday and Friday nights at the Pampa Country Club and last night at the Coronado Inn.

Featured at each of the three safety banquets were buffet style dinner, the welcoming of personnel and their wives by company officials, presentation to employees of safety certificates, a key-note address by Charles W. Jarvis, D.D.S., of San Marcos, Texas, and drawings for a wide array of door prizes.

Speaking before each of the

30-YEAR RECOGNITION — W. L. "Deacon" Marshall, center, is the subject of much attention after being presented his 30-year safety certificate at the Cabot Safety dinner Friday evening. Dr. Charles W. Jarvis, dentist-speaker from San Marcos, is shown at right while Cabot's Safety and Insurance Director Don M. Conley, left, adds his own commendation. (Cabot Photo)

the Machinery Division's ordinance of research and development and William L. Marshall of Cabot's department. Richard L. Hendricks Schaefer plant at Skellytown were presented 30-year safety certificates at Friday night's dinner. In the higher number of years worked without disabling injury sustained on the job, some 14 quarter-century 25-year safety certificates were presented during the three evenings.

Cabot plants and departments in the Pampa area which qualified for 100 per cent attendance at the 1962 safety dinners, and as a result of spotless safety records last year, were the fabricating department of the Machinery Division, the research and development department and the Panhandle and Oklahoma - Kansas District Oil & Gas departments. Honor guests, those earning individual safety certificates, were representatives from all area Cabot operations and included the Cabot Engineering Company, the Carbon Black and Machinery Divisions and the Pampa Office.

S. Jay Meador of the safety and insurance department in Pampa acted as the hosting master of ceremonies for each of the three evenings' activities. Industrial Relations Director Reno Stinson and Safety and Insurance Director Don M. Conley shared award presentation honors with top company officials at the area dinners. Welcoming remarks at the Thursday dinner were made by E. L. Green Jr., general manager of Cabot's Western Region while other divisional managers were called on for brief addresses on the succeeding nights.

The Lighter Side

Cracked-Up Crystal Ball Gazing

By DICK WEST
United Press International

WASHINGTON (UPI) — With a myopic look into a crystal ball that actually is made of plastic, I give you an advance summary of the 10 top news stories of 1963:

MOSCOW — Soviet Premier Khrushchev today ordered all Russian military equipment removed from East Germany, Poland, Hungary and other satellite countries.

"We tried it in Cuba," Khrushchev explained, "and it felt so good we couldn't stop."

NEW YORK — Fletcher McEyak, one of television's top comedians, said tonight the Kennedy joke is on the way out.

"People are getting tired of hearing funny stories about the President and his family," McEyak opined.

NEW YORK — "Barrel of Monkeys," a television comedy program starring Fletcher McEyak, was taken off the air tonight.

"McEyak has lost his sense of humor," a network spokesman said.

MADRID — The weather bureau reported today that in 1963 the rain in Spain fell mainly in the swamps.

WASHINGTON — A great public protest arose today over increased postal rates.

In an effort to make the increase more acceptable, Postmaster General J. Edward Day changed the design of the new 5-cent stamp so that it would have a misprint.

WASHINGTON — The Mona Lisa went on public display in the National Art Gallery here today. She was frowning about something.

MOSCOW — The Soviet Union announced today it has developed a revolutionary new aircraft called the "space coupe" which runs by magnetic forces drawn from the distant planets.

HOLLYWOOD — The motion picture industry unveiled a plan today to meet the threat posed by "pay television."

The plan is called "free movies."

MIAMI — A dog ran onto the playing field during the third quarter of the Orange Bowl game today.

It was not a small, spotted mongrel. It was a large, black pedigreed Great Dane.

HYANNIS PORT — President Kennedy and other members of his family gathered here today for a week end of relaxation.

They played gin rummy.

Perryton Girl Finishes Fourth

PERRYTON (SpI) — Sixteen-year-old Cynthia Waller of Perryton was among contestants in the Miss Flipper pancake contest held last week in Liberal, Kan. Miss Waller finished fourth among the 21 girls in the contest which was won by Miss Ruth Ann Guthrie of Pampa.

"Junk Pile" Reels

The Fish and Game Department of Hawaii is constructing artificial reefs from old cars to improve fishing in that state. The underwater junk pile is being stocked with snappers and groupers.

Economical GAS can help you CUT OUT HOUSEKEEPING COSTS

With costs continuing to climb, it's wise to examine every area of your budget for possible economies. You may find some expenditures unnecessary... others which could be trimmed by more careful planning. Two good ways to make substantial savings (and actually achieve superior results) are by cooking and drying with Gas!

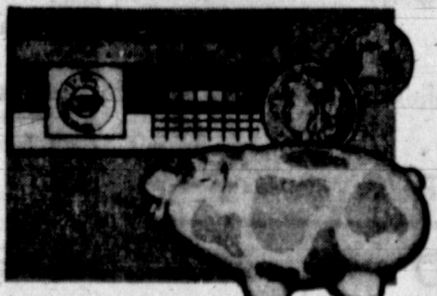

A GOLD STAR RANGE...

costs less to buy, install, operate & eliminates food and fuel waste; thermostatically-controlled burners prevent boil-overs and burning, measure the precise amount of heat for best results & broils and roasts meat with less shrinkage & keeps entire meals savory and serving-ready for hours in the OVEN-WITH-A-BRAIN.

A GAS CLOTHES DRYER...

starts working instantly, shuts off instantly to save you time and fuel & pampers all fabrics... helps clothes last longer & operates nine times more economically than the coil-type kind & saves you as much as \$24.72 a year in utility costs!

OFFICIAL STATEMENT

Of The Pampa Community Nursing Care Home Campaign Executive Committee

The undersigned Citizens of Pampa, interested in the growth and development of the City and area of Gray County and the well-being of its people, both young and old, recognize a modern Nursing Care Home to be one of the great outstanding needs of this city. Appreciating our community's requirements in this respect, a committee of local citizens has been at work to ascertain how such a facility might be secured.

The Top O' Texas Foundation Board of Directors, after careful investigation, engaged the Hockenbury System, Inc. of Harrisburg, Pa., to make a thorough and scientific study of the area Nursing Home situation and a detailed survey of Pampa in relation to all phases of the Nursing Home business. Analysis of this survey established the fact that there is a very definite need for a strictly modern Nursing Care Home with a minimum of 50 beds and related services to care for long-term patients, convalescents, the chronically ill, ambulatory and bed-fast, irrespective of age.

For its beginning, everyone interested in this vital project will be eternally grateful to Rev. and Mrs. E. G. Barrett for their original gift of the Mt. Zion Baptist Church property. (Another gift of 20 acres of land was deeded back to Rev. Barrett after a more advantageous location for the Home was received.)

Their vision and recognition that the number of the aged and chronically ill in our community is steadily increasing will surely stimulate our sense of duty, obligation and responsibility to our loved ones and community leaders of days past.

The committee has studied the various means of developing such a project and has adopted what they believe to be the most efficient and most economical plan which they wish to place before the citizens of Pampa and area as follows:

A voluntary organization, The Top O' Texas Foundation, has been organized under the laws of the State of Texas. It is proposed that the Nursing Home be financed on a community basis. However, the Home will be self supporting after it is in operation.

A Nursing Home Campaign Executive Committee has been organized and a large volunteer General Solicitation organization will be formed. The work of these groups will provide Pampa and its area with a 50 bed Nursing Care Home in keeping with its needs at an estimated cost of \$300,000.

The Citizens back of this project are Pampa business and professional men and women who believe in the future of Pampa and its area. They are giving their time and service without compensation in this effort. Every citizen will benefit directly and indirectly in the building of this facility. It is, therefore, a civic privilege on the part of every citizen to boost and contribute according to his time and means.

There will be no gratuities or bonuses of any kind. Every citizen will contribute on the same basis as every other citizen.

The terms of payment for the pledges will extend over a period of 36 months. The first payment of 10% will be due when the pledge card is signed, balance may be payable in quarterly installments starting June 1, 1963 and payable each succeeding quarter until fully paid.

The Foundation will endeavor to secure the best possible management operations for the protection of the contributors.

The members of the Campaign Executive Committee appreciate the need for the facility and believing that it

will be a decided asset to the area and city, are themselves subscribing to the project as outlined above.

The Campaign Executive Committee is offering the above information to the public in the belief that the opportunity to contribute will appeal to the citizens of Pampa because:

(1) The investment will be represented and protected by substantial assets in the form of a proper site and a substantial, modern Nursing Care Home fully equipped and erected thereon.

(2) A community Nursing Care Home in Pampa with 50 beds will add to our City's fine area-wide reputation and will help attract to Pampa visitors who do not stop or reside here at present.

(3) This project will be distinctly a community enterprise, meeting a definite need, which is of the greatest possible importance to the future growth of Pampa and area, and the development of a greater unity in our city and county.

(4) This major development should create, as always, a unity of action among the people of Pampa.

(5) The Nursing Home will be equivalent to bringing an industry to Pampa employing approximately 50 people and will have an estimated operating expense of approximately \$100,000 per year, money to be spent right here in Pampa; it will also become a taxpayer.

(6) Our geographic situation and conditions make this an ideal place for such a facility.

The Executive Committee pledges that all reasonable safeguards will be taken to protect the expenditure of the money subscribed to the enterprise so that full value will be secured by the corporation for every dollar invested.

Matson Sets Mark As Pampa Is 6th

SNYDER — Saturday was a day of triumph for the mighty Randy Matson. Not only was the towering Harvester, probably the greatest athlete in the history of Pampa, named to the All-State basketball team, (see story p. 13) but he set a new state record and two meet records as he led the Pampa track team to sixth place in the Snyder Relays!

Matson, with only one day of practice behind him, threw the discus 188 feet, seven inches, breaking his own existing record, his own state record, and of course, the Snyder Relays record.

Randy's record in state meet for the discus is 185' 6" and he also had a heave of 187' 7" in the regional meet last year. The Snyder Relays record was 181' 1/2".

MARK WESTBROOK

'Hungry Kid' Wins PBA

HOUSTON (UPI) — Johnny Meyer, a big left-handed kid from Nesconset, N.Y., "who had to win something to get back home," won the Professional Bowlers Association's \$20,500 Houston Charity classic Saturday.

The 23-year-old rookie had to borrow the money to make the trip from New York to Texas and came through with a \$4,000 first prize.

Meyer had to beat Dick Weber, the all-star champion from St. Louis 191-174 to take the first prize.

"I didn't know how I was going to get back home if I hadn't cashed here," the 6-foot-1, 190-pounder said after the tournament.

Before beating Welu, Meyer disposed of Ed Bourdase of Fresno, Calif., in the semifinals 208-193.

In the three-game sets of the morning's finals, Meyer edged Bill Allen of Fern Park, Fla., 597-563 and then bested Harry Smith of St. Louis 651-654.

Weber made his way into the playoff with a 245-261 decision over Billy Welu of St. Louis. Weber pocketed \$2,000 for his second place finish.

Doyle Briggs, the Houston lefty who led all the way in the qualifying rounds, lost in the second round of Saturday's finals to Welu 607-672.

McAdoo Tops Miami, 49-47

Eagles Stall In Final Seconds To Win Game

CANYON (Sp) — McAdoo stalled their way to a 49-47 win over Miami last night to win the Class B regional championship and the right to represent the Panhandle in the state meet next week.

Neither team ever led by more than three points until the final minutes. The lead switched back and forth in the first quarter as Larry Morris of McAdoo and Jimmy Flowers of Miami matched baskets until Flowers got his twelfth point of the frame to put the Warriors ahead at the quarter, 16-14. Morris hit eight points in the second frame and the Eagles took a 31-28 halftime lead.

The Eagles led by from one to three points through the third frame until Mark Arrington tied it at 40-all going into the final period. Johnny Powers hit a basket and the Warriors could never get closer than one point. Morris hit another to give the Eagles a three-point lead with 4:29 left and McAdoo went into a stall. Miami refused to come out of their zone defense and the Eagles passed the ball around, eating up the clock, until Powers got an opening and scored to make it 48-43.

Flower scored in turn, but the basket was nullified by a charging foul. Mark Arrington got a rebound and scored to make it 48-45 with 15 seconds left, but Lewis Holland fouled Powers in an effort to get the ball and Powers sunk his first free throw with seven seconds left. He missed the second, Miami got the rebound and Flowers went down to score, but the buzzer sounded as he hit.

Flowers finished with 25 points and Arrington had 15. Morris had 18 and Powers 10. Both Flowers and Arrington were named to the All-Regional team.

Aspermont smashed Roosevelt, 90-45, for third place.

Never Headed
The Warriors were never headed as they swept their first two games, 60-44 over Bula Friday and 55-31 over Roosevelt Saturday.

McAdoo crushed Meadow in the opening game, 87-34, but just squeaked by powerful Aspermont, 63-60.

Bula made a game of it in the first half, holding a two-point lead in the first quarter before the Warriors broke it open late in the second quarter and coasted the rest of the way.

With Pat Risinger and Larry Archer hitting from the outside as the Warriors committed four fouls in the first minute, Bula took a two-point lead. The margin switched back and forth in the opening quarter, with neither team ever more than two points ahead as Mark Arrington literally ate up the boards, scoring on rebounds and close-in shots. Pat Risinger made a pair of free throws just before the buzzer and Bula had a 16-14 lead.

Arrington hit four straight points and Jimmy Flowers joined him to put Miami ahead, 20-16, but the stubborn Bulldogs tied it up again on free throws by Curtis Archer, until Jody and Lewis Holland started hitting and the Warriors moved the edge to 10 points. Bula chopped it to 36-30 at the half as Mike Risinger hit a long shot at the buzzer.

The second half was all Miami as Flowers and the Hollands joined Arrington in steadily-pumping in buckets while both sides were fouling continuously, and Miami held a 49-32 edge going into the final frame. Arrington and Flowers both fouled out for Miami and Archer, Gene Autry and Pat Risinger.

(See REGIONALS, Page 13)

BOARD BATTLE — Jerry Dodson of Miami and Gene Autry of Bula battle for a rebound while Warriors Jody Flowers (22) and Mark Arrington (35) wait to get in on the action in the opening game of the Class B regional tournament at Canyon.

Kippy Williams To Hurl For TT

LUBBOCK — Texas Tech's baseball season starts with games against Texas Christian University at Fort Worth Friday and Saturday (March 8, 9).

Fourteen 1962 lettermen comprise the nucleus of Coach Bert Huffman's squad. They are second baseman Ronnie Ayers of Lubbock, third baseman Richard Barker of Amarillo, shortstop Doug Gibbins of Fort Worth, first baseman Bob White of Artesia, N. M., John Sosnowy of Texas City, outfielders Walter (Yippy) Rankin of Midland, Darwin Hilliard of Lubbock, and Cagle Davis of Amarillo. Catchers Doug Cannon of Levelland and Billy Wilson of Killeen, pitchers George Nichols of Abilene, Ramey Brandon of Bovina, Frank Ray of Abilene, and Bill Easterwood of Midland.

Also on the traveling squad are sophomores Foy Williams of Lubbock, second base; Bob Fielder of Abilene, outfield; Richard Perry of Hobbs, N. M., third base; Morris Dudley of Lubbock, Joe. Fox of Gainesville, and David Tartar of Lazbuddie, pitchers; Junior Kippy Williams of Pampa, pitcher, Marshall McCrummen of Lubbock, outfield, and Mac Percival of Vernon, first base.

Charles Robinson of Uvalde, former professional player, is again serving as Huffman's student assistant. Texas Tech last year posted a 15-11 record.

Following the TCU series, the Red Raiders' slate includes: March 25 — Abilene Christian at Abilene (2), 20, 30 — Yankton College here.

April 5 — New Mexico Highlands here (2), 6 — New Mexico Highlands here. 9 — Sul Ross at Alpine. 10 — Sul Ross at Alpine (2), 16 — Abilene Christian here (2), 20 — Eastern New Mexico here (2), 26 — New Mexico Highlands at Las Vegas (2), 27 — New Mexico Highlands at Las Vegas; May 4 — Eastern New Mexico at Portales (2).

The Pampa Daily News 55TH YEAR SUNDAY, MARCH 3, 1963 11

McMurry Wins Southwest Meet

By ED FITE
UPI Sports Writer
FORT WORTH, Tex. (UPI)—Versatile Bill Miller and a New Zealand mid-term freshman, Ian Studd, led McMurry College to an upset college division victory over Northeast Louisiana in the 40th Annual Southwestern Recreation Track and Field Meet Saturday.

Miller, voted the meet's outstanding athlete trophy, set one of the four new meet records in winning the broad jump, placed second in the 220-yard dash, third in the 100-yard dash and ran a leg on the winning sprint relay team.

Studd lowered the meet's mile record mark to 4:12.1. McMurry got 69 points to Northeast Louisiana's 59.

Abilene Christian, led by double winners Dennis Richardson and Jerry Dyes, cruised to its fourth consecutive university division crown by more than doubling runner-up Baylor's total 9:52 to 44, and also successfully defended its junior college freshman title by easily outpointing Howard County JC of Big Spring, 46 to 31 points.

Hillcrest Wins
Dallas Hillcrest kept the team championships from being an all-Abilene sweep by winning the high school division with 29 points while defending titlist Abilene high finished fifth with 7 1/2 points.

In addition to the 18-year-old Studd's great mile run, Miller set a new high in the broad jump with a leap of 24 feet 8 1/2 inches, Northeast Louisiana's John Penland raised the pole vault record to 13 feet 2 1/4 inches, and Frank

Mazza of Baylor lifted his own shot-put mark to 54 feet 1 1/2 inches.

And, ACC's Richardson equaled the meet furlong dash mark of 21.3 seconds held by former teammate Earl Young of ACC.

In addition to the meet record performances, Billy Femelton of ACC posted a new university pole vault mark of 14 feet 9 1/4 inches; Jim Stephenson of McMurry lofted the college javelin mark to 263 feet 5 1/2 inches; Mike McCright of North Texas equaled the junior College-freshman 220-yard dash mark of 21.7 seconds, and James White of Dallas Sunset tied the high school 220-yard dash mark of 22 seconds flat.

Richardson Takes Dash
Richardson won both the 100 and 220-yard dashes and Dyes took both the broad jump and javelin. The only other double winner of the meet was Southern Methodist freshman John Roderick, who won the 100-yard dash and the 120-yard high hurdles.

Miller's broad jump erased the oldest mark on the Southwestern Recreation's record book. The old mark of 24-5/8 had been set by Rice's Mike Hale more than three decades ago, in 1931.

A new event, the 330-yard intermediate hurdles, was run for the first time and records were placed in the books in this event with McMurry's David Bonds posting the best time of 33.7 seconds, Ronnie Biffie of Texas Tech won the university event in 29.3 and Gary Woods of Oklahoma City University the junior college-freshman event in 38.4.

Outdoors In Texas

By WILLIAM CLAYTON
United Press International
Texas outdoorsmen who think the 50-mile hike has been blown out of all proportion can strike back with a 500-mile boat trip.

The men who pioneered the 500-mile survival-promotion trip from San Marcos via the San Marcos River to the Corpus Christi Bay are sponsoring the Texas Water Safari and billing it as the toughest boat race in the world.

Frank G. Brown, San Marcos, the race chairman who pioneered the idea with a friend as a San Marcos attraction, has already notified President Kennedy by mail of the 1963 safari.

The safari starts at San Marcos in what Brown calls "the crystal clear, delightfully challenging waters of the San Marcos River."

Downriver it will wind to Luling, Gonzales, Cuero, Victoria, Austwell and finally Rockport and Corpus Christi. The course takes the contestants past at least three recurring log jams, four areas of fast water or falls or rapids, and four roasting areas of rough water and high waves as they near their destination.

Only paddles, oars or sail will be permitted for propulsion of the boats, which can be any type or size. Everything needed to survive the trip must be carried from start to finish, and no outside assistance is allowed.

If outdoorsmen want to prove a 50-mile hike is no real test of survival under stress, they are asked to contact Brown for further information at PO Box 2310 at San Marcos.

"We feel that a stroll of only 50 miles does not do our citizens justice," Brown told Kennedy in his letter. "Respectfully speaking, it just fails to call on Texans in the manner they are accustomed to being called on."

The safari is accepting applications from teams for the 1963 competition. With an entry fee of \$25 and the rugged trip envisioned by the safari, only hardy applicants need try.

Each team must go over, around, under, or through all obstacles under their own resources, except for one Haynes Bay area in which an overlaid portage is allowed to get around the downstream area of Tivoli bridge.

Prizes already total \$3,600, Brown said, and more are in the offing. The prize list may include property, trophies and products. The prizes will be displayed May 1-10 during the Buccaneer Day celebrations of Corpus Christi.

Sponsors of the safari suggest certain equipment as needed for safety and success — including a tent, food, first aid kit, blankets, and tools. Snake bite kits, smoke flares and red flares are called for to meet emergencies.

Schlumberger's Top Bowling

Thirty teams kicked off the first two shifts of team play in the Men's City Bowling Tournament yesterday, with 10 more scheduled to go in last night's final round and another 30 today at Harvester Bowl, while doubles competition started at Garden Lanes.

The top five teams, with handicaps, show Schlumberger in first place with 2001; Celanese No. 3 in second with 2999, Cabot Engineering, 2992; Elks No. 1, 2987 and Celanese 7 and 8, 2986.

No outstanding individual games or series were recorded in the opening night's action.

Forty doubles teams have completed action at Garden Lanes, with 100 more scheduled for this week end and singles to follow. Top five doubles teams, with handicaps, are: Joe Achord and Bryant Nail, 1258; George Crumrine and William Mollett 1237; James True and Bill Tiggert, 1238; Dick Abbott and John Pharr, 1235; Orin Hulsey and Ted Knox, 1206.

Joe Achord's 623 was the highest individual series among the first two shifts.

Austin Wins Pee Wee Meet

Austin outstalled Travis to win the sixth grade championship in the Pee Wee League Tournament at Harvester Fieldhouse last night, 13-10.

Houston won third place in the sixth grade consolation round with a 25-20 win over Lamar.

Austin rode over Houston, 24-8, to win the fifth grade finals in the Pee Wee Tournament.

In the fifth grade consolation round, Wilson won third place with a 19-13 win over Travis.

Griffith Claims His Infield Best

ORLANDO, Fla. (UPI)—President Calvin Griffith of the Minnesota Twins Saturday took rainy-day issue with Baltimore shortstop Luis Aparicio's assertion that the Orioles have the best infield in the American League, better even than that of the New York Yankees.

"Luis might be right when he says the Orioles infield is better than the Yankees," said Griffith, "but I'd have to say the Twins are better than the Orioles. Luis is slightly prejudiced toward his home team and that's good. But let's be objective."

ST. PETERSBURG, Fla. (UPI)—Outfielder Joe Christopher agreed to terms with the New York Mets Saturday, reducing the club's holdout list to two.

Only Frank Thomas, the club's home-run champ, and Elio Chacon remain outside the fold. "We haven't heard a word from either one," said Assistant General Manager Johnny Murphy.

APACHE JUNCTION, Ariz. (UPI)—Manager Harry Craft named Dick Farrell and Bob Bruce as the starting pitchers for Sunday's inter-squad game of the Houston Colts in which Craft planned to use 40 players over the 12 inning route.

Farrell was to open for the No. 1 group, followed by George Brunet, Jim Umbricht and Gordon Jones. Bruce was to be followed by Ken Johnson, Don McMahon and Jim Dickson.

FORT MYERS, Fla. (UPI)—The Dick Schofields edged the Johnny Logans, 10-8, Saturday in the first Pittsburgh Pirate camp game of the spring, topping it off with a five-run rally in the seventh inning against Tom Butters.

Frank Herrera, still on the Columbus roster, hit two homers and Bob Skinner, Larry Elliot and Elmo Plaskett one apiece. Elliot's three-run blast in the seventh gave the Schofields the lead.

MESA, Ariz. (UPI)—Lindy McDaniel, acquired in a big winter deal, was the first pitcher to throw batting practice here Saturday as the Chicago Cubs held their first full workout of the spring.

All 39 players on the Cub roster were in uniform and participated in the three-hour workout.

VERO BEACH, Fla. (UPI)—Sandy Koufax, Ed Roebuck and

Bruce Gardner Combined as Three-Hitter Saturday

Bruce Gardner combined on a three-hitter Saturday as the Los Angeles Dodgers blanked the Leo Brouthers, 6-0, in the Los Angeles Dodgers' second six-inning intra-squad game.

Koufax, testing his much-discussed left index finger in competition for the first time since the playoffs, faced only six men in his two-inning stint. He concentrated on curves and change-ups and said his once-damaged finger gave him "no trouble whatsoever."

Mauch Said Three Rookies—Marcellino Lopez, Rick Quiroz and Converted Catcher Larry Cutright—Would Do the Hurling in the Squad Contest

Mauch said three rookies—Marcellino Lopez, Rick Quiroz and converted catcher Larry Cutright—would do the hurling in the squad contest.

Manager Gene Mauch Announced Saturday the Philadelphia Phillies Will Play their First Intra-Squad Game of the Spring Sunday After Rain Washed Out the Club's Scheduled Saturday Practice

Mauch said three rookies—Marcellino Lopez, Rick Quiroz and converted catcher Larry Cutright—would do the hurling in the squad contest.

APACHE JUNCTION, Ariz. (UPI)—Manager Harry Craft named Dick Farrell and Bob Bruce as the starting pitchers for Sunday's inter-squad game of the Houston Colts in which Craft planned to use 40 players over the 12 inning route.

FORT MYERS, Fla. (UPI)—The Dick Schofields edged the Johnny Logans, 10-8, Saturday in the first Pittsburgh Pirate camp game of the spring, topping it off with a five-run rally in the seventh inning against Tom Butters.

MESA, Ariz. (UPI)—Lindy McDaniel, acquired in a big winter deal, was the first pitcher to throw batting practice here Saturday as the Chicago Cubs held their first full workout of the spring.

VERO BEACH, Fla. (UPI)—Sandy Koufax, Ed Roebuck and

PEE WEE CHAMPS — Winners of the fifth grade Pee Wee Basketball Tournament are, bottom row, left to right: Ronny Branscum, Calvin West, Paul Johnson, Steve Scott, Johnny Garren, Roger Swanson and Moss Hampton. Middle row: Steve Hall, Jerry Eyer, Gary Myers, Randy Marsh, Roddy Porter, Teddy Trice. Top row: Barry Grace, David Irwin, Chuck Lanehart, Louis Brantley, Steve Craig, John Duggan. Coach—Malcolm Davis.

Texas Aggies Win In Track

HOUSTON (UPI)—Texas A&M, paced by field man Danny Roberts, took seven of 16 first places Saturday to win a Southwest Conference triangular track meet over Texas and Rice.

The Aggies had 68 points to Texas' 59 and Rice's 43.

Roberts contributed 11 points to the Aggie total by finishing first in the discus and shotput and fourth in the javelin throw.

Texas captured five first places and Rice took four.

Rice's Fred Hansen won two of his team's four firsts with wins in the broad jump and the pole vault. Hansen cleared 15-0, then failed at 16-1.

David Colley of Texas looked like a strong contender for this year's SWC dash events with wins in the 100 and 200.

The Aggies dominated the relays, while Texas looked strong in the distance runs and the Owls best in the field events.

Dumas Upset By Indians

LUBBOCK (Sp) — Defending state champion Dumas was upset in the Class AAA regional finals at Lubbock last night, 38-37, by Seminole. Graham also upset Lamesa for third place in Class AAA, 43-42.

Dumas squeaked past Graham, 36-34, Friday night, while Seminole had broken open a tight game in the second half to down Lamesa, 56-40, in their semifinal match.

Wheeler Hosts Amateur Bouts

WHEELER (Spl) — Almost 1,200 people filled Wheeler High Gym Friday night to watch their first local amateur boxing show, with all indications being that Wheeler will sponsor a team of their own soon, adding strength to the Panhandle's number of Golden Gloves aspirants.

Bo Brown, boxing coach at the Pampa Optimist Club, was contacted by the Wheeler Chamber of Commerce on the possibility of Wheeler sponsoring a team and the Pampa Club, the Canyon Jaycees and the Skellytown Boys Club brought up teams of novices and juniors to put on a show.

Success

"The fight show was a big success," said Brown, "we matched the Wheeler boys against each other as they were all novices and most of the rest of the boys had had experience, but Wheeler has a some very good boys, especially Richard Odell, and I am sure that they will organize a team up there."

Twenty bouts were put on, with Pampa winning six, losing four, with two draws; Skellytown winning four and losing four; Wheeler, fighting each other, splitting 10 bouts; and Canyon winning one, losing five and drawing one.

Top Bout

Top bout of the evening was a slugfest between Danny Boyd of Pampa and Ike Shipman of Skellytown. Boyd won a close decision over the Skellytown lefty as he scored with a stiff right jab and left hooks.

Most promising of the Wheeler youngsters was Richard Odell, who won two first-round TKOs. Odell decked Dale Snelgroes with a stiff left in the first round. Snelgroes beat the count, but was apparently out of his feet and the fight was stopped.

Two bouts later, Odell took on Richard Callahan, landed a volley with both hands that left his opponent helpless and the official again stopped the fight.

Results

Other results: Bruce Thomas, Canyon over Danny Ledford, Skellytown; Mike Ledford, Skellytown over Larry Jones, Pampa; Ricky Thomas, Pampa, over Ricky Gregg, Skellytown; Larry Mercer, Skellytown over Johnny Roth, Pampa; Andy Grim, Pampa and Johnny Ray Cameron, Canyon, a draw; Vince Stracner, Pampa and (See WHEELER, Page 13)

Sporting Sidelines

By JEFF COHANE

When we mentioned the cooperation and friendliness of the area coaches, players and sports fans around here, we didn't realize to just what extent it went.

Although the sports budget for the News is extremely generous, unfortunately, several long trips to the hinterlands, including the chartering of a plane to get to the Pampa-Haltom City bi-district game, has sadly depleted the budget, and with the month ending, we had scarcely enough funds to make phone calls, let alone drive to the regional playoffs at Canyon, and we didn't want to start on next month's allowance ahead of time, or we would run out by the time the big track meets got rolling.

So — Miami Superintendent of Schools Weldon Snodgrass drove down personally to Pampa to pick us up and take us there Friday, and Mr. Newt Cox of Miami drove us back home again. This is what I call true West Texas hospitality.

With cooperation and friendliness like this, how can you help but go all-out for the local and area teams.

Seems as if every coach in the area was at the regional meet. Although most of the talk was naturally of basketball, there was some comment on the upcoming track season. Sunray coach Clarence Whittenberg and Groom track mentor Dwain Currie both felt that Stratford would be the cinder powerhouse among the smaller schools. Whittenberg pointed out that Stratford finished a close second to mighty White Deer last year, which has now moved up to Double-A, and that the Elks had lost only one of last year's lettermen and should definitely be the team to beat in the upcoming Lefors Relays March 15.

We finally got to meet Bob St. John of Amarillo and Bob, after all our suppositions, turned out to be a very nice person. Bob said that he had a high regard for Terry Culley, both as a coach and a person, and he did not want to lose his friendship, nor that of any other Pampa friends over this situation. Bob admitted to some of the statements attributed to him, but stated very definitely that one was untrue and one was a misunderstanding. "I would like

you to pass this message on to coach Culley, and I will also put it in a letter and send it to you to print," said Bob. "First of all, I had nothing whatsoever to do with the report that Terry was down on Kreis, I believe this was mere idle gossip that got magnified, but it most definitely was not done by me.

"Secondly, the remark that I had polled the coaches and none of them named Kreis as one of the two top boys in the district seems to have been misunderstood by the balloting chairman. I meant that no coach BUT coach Culley had named Wayne, and since in all polls concerned, yours, mine and Plainview's, coaches were not voting for their own boys, I took it for granted that this was understood.

"Another discrepancy that occurred between my poll and those of Pampa and Plainview was that only two coaches voted for Kreis for first team on my poll and apparently three did on both Pampa's and Plainview's. On my word of honor, I only had two coaches voting first team for Kreis. However, my poll was taken immediately after Pampa clinched district, and it is very possible that one of the coaches changed his mind after Kreis' 38-point performance against Amarillo or his fine defensive play that won the Plainview game.

"As far as my not seconding his nomination for All-State, that is true. I sincerely believed that Randy Matson was the only boy in our district who deserved to be named to the All-State team and he is the only one I voted for. But I also sincerely believed that Danny Davis was a better all-around player than Kreis. That was, and is, my honest opinion, and there was no prejudice whatsoever against Wayne in my mind.

"Any of the remarks concerning coach Culley being down on him, etc., were either said or exaggerated by someone else. I am sincerely sorry if there was any misunderstanding concerning my polling of the coaches. I thought it would be understood that I was not counting his own coach in this poll.

"Since both Pampa's and Plainview's polls only placed Wayne on the second team also, I feel that you must agree that a boy who does not make the first team in his own district should not be nominated for all-state over boys who do."

Frankly, Bob St. John's unhesitating, forceful remarks have impressed me more than any of the other people we have talked to in this matter. I don't know who is passing the buck and who is to blame, but I do not feel that it was Bob St. John.

WE GOOFED DEPARTMENT: Seems we recently called White Deer's fine cager Carroll Russell—"Bob" Russell, and also transposed action shots of him and Derrith Welch of McLean. Also tabbed Pampa's 88-yard runner Mark Westbrook as Clyde. We apologize to all concerned, and repeat that we have only been here a short time, and it will take a little time for us to get the name and face of every athlete in the area dead centered, so please bear with us.

Warriorettes At Canadian Monday

MIAMI (Spl) — The Miami Warriorettes will go for their 24th victory in 31 games and a bi-district championship at Canadian Monday night when they take on Follett, winners of District 1-B.

The Pantherettes ran up a 19-4 season record and were undefeated in district play. They were scheduled to play a practice game with powerful Gruver last night.

Big Girl

Leading the team is one of the really outstanding "big girls" in the area, 5-10 pivotman Judy Robertson. Judy, a tremendous rebounder, is averaging close to 22 points a game, hitting on rebounds, tip-ins and close-in jump shots, using her height to advantage.

Marilyn Kunka, 5-6 forward, is a deadly outside shot, taking the pressure off Judy when opponents try to double-team her with her outside set shots and two-hand drives, averaging 10-11 points a game. Their other forward, 5-7 is also a good rebounder and scorer, averaging 12-15 points a game as she helps both Judy on the rebounds and tip-ins and Marilyn on the outside shooting.

Weakness

The Pantherettes' only weakness is a lack of height in their guards, who are 5-7, 5-4 and 5-3 respectively, with 5-4 Janey Kunka the ace ballhandler and defensive playmaker.

Miami coach Lawrence Overcast says: "It will be a tough battle, but I think we can take them. I believe our defense is both tall

Holladay High On Grid Team

Pampa football coach Otis Holladay has high hopes of a winning season for the Harvesters this coming fall.

Pampa, which had been in the gridiron doldrums for nearly a decade, picked up in Holladay's "rebuilding year" to win four of ten games, the first time in nine years that Pampa had taken that many victories, and Holladay believes the team can go over the 500 mark this season.

"We're still rebuilding, you understand," the football man pointed out, "but we have 23 lettermen back from last year's team, there are some good boys coming up from the B team, and the junior high coaches have been doing an excellent job of building a grid program from the ground up. Lee's ninth grade team, for instance, went undefeated."

Soph's Coming

"I believe that a few of the sophomores can make this year's varsity and the rest of them will be up the B team and give us a lot of help in 1964."

Although the Harvesters are in a rugged district, with such perennial powerhouses as Lubbock, Monterey and Amarillo, the addition of a new team to the district, Caprock, should produce another victory for the Harvesters, as the Longhorns are not expected to be

a serious threat in their first year of grid competition.

Two Changes

There will be two changes on the Harvester schedule this year. El Paso Bellaire, who dropped a 19-7 decision to Pampa last year has been replaced by mighty Wichita Falls as the Harvester's first opponent, while Dumas, last year's AAA champs, who took a 40-8 victory, have been replaced by the new district school.

"In addition to our regular varsity and B teams," said Holladay, "Pampa will have a 'C' team. This will be made up mostly of sophomores, ineligible transfer students, and the smaller juniors who are too light to play varsity ball, but want to get out and play football just the same."

Need Ends

"The only thing we really lack are some good ends. We have a good quarterback in Kenny Hebert, who can both run and throw, but we need some good pass-receivers to hold his tosses, and I'm hoping we can find them in the sophomore ranks. Otherwise I think we're pretty well off, experience and depth-wise, both in the line and backfield."

Holladay said that the Harvesters' spring training would take place the last week of April. The schedule, with last season's scores in parentheses:

FAMOUS HORSE DIES

DONERAIL, Ky. (UPI) — Rodney, harness racing's greatest sire, died Thursday at Walnut Stud. The 19-year-old horse died 11 days after breaking a bone in his left foreleg.

SIGN CLEMSON PLAYER

OTTAWA (UPI) — The Rough Riders of Canada's Eastern Football Conference have signed Oscar Thorsland of Clemson College. Thorsland, who is 6-4 and weighs 220 pounds, is a New York City native.

PAMPA CHAMPION — Way-Kan-Jill is the first champion of the United States Brittany Championship Association. The champion field trials were held in Oklahoma last week and the sprightly little female, shown here with handler Delmar Smith and owner Jim Leverich of Pampa, left, won the champion Buddington Prince memorial trophy. The four-year-old setter has won 14 previous field trials, but this is her first championship win.

Regional Playoffs

(Continued From Page 11)
inger for the losers, with Curtis Archer being thrown out of the game for deliberately fouling. Arrington finished with 22 points, 16 in the first half. Flowers had 14, Lewis Holland 11 and Jody Holland 10. Pat Risinger had 12, Archer 12 and Mike Risinger 11 for the losers.

Happy Goals

Happy gave Roosevelt a gift of the second game, which was won by Kenneth Coffey's rebound shot with five seconds left, 53-52.

Roosevelt, led by the 6-5 Coffey, opened a 17-10 quarter lead. Happy ace Larry Middleton led the Cowboys back to a 21-25 half-time lead. The two teams battled back and forth in the third frame and Roosevelt went ahead again, 41-33, going into the final frame.

Warriors Lead

Miami was never headed as Flowers and Jody hit the first two baskets and Miami led all the way. Roosevelt cut the margin to one point mid-way in the quarter, but Arrington and Flowers, who canned eight points on drives and jump shots pulled Miami back into a 15-8 quarter lead.

With Arrington completely dominating the backboards and Flowers and company teaching Roosevelt the art of defense, the Eagles got only five points in the second frame as Miami moved the edge to 23-13 halftime.

Roosevelt could garner only five more points in the third quarter while Dodson personally outscored them with six and it was 37-18 at the three-quarter mark.

Arrington kept driving and the score was 49-26 before coach Lawrence Overcast cleared the bench. Flowers joined Arrington with 15 points also and seven rebounds. Jody and Dodson had eight points each and nine and eight rebounds respectively.

Thriller

In the most thrilling game of the tourney, Larry McWilliams hit three straight baskets in the final minute, two of them in the last 18 seconds, to give McAdoo a 63-60 win over Aspermont.

The score changed hands constantly throughout the game, with neither team ever having more than a five-point edge. John Powers and Morris led the McAdoo scoring and Godfrey was outstanding for Aspermont. The score was tied at 19-all in the first quarter. Aspermont took a 38-35 halftime lead. McAdoo came back for a 51-49 third quarter edge and the lead went back and forth until Godfrey fouled out with 3:52 left in the game.

Without the 6-2 ace, the Hornets lost their chief offensive weapon. They tried desperately to cling to a slim lead, but McWilliams scored to cut the margin to 60-59, scored again to put McAdoo in the lead, and then clinched it with another bucket seconds later.

Powers had 18 and Morris 17 for the winners, Godfrey had 28 in a losing cause.

CLEAR THE WAY — Jimmy Flowers of Miami drives past two defenders to lay a bucket up and in as the Warriors fought their way to the regional Class B finals in Canyon. Watching is teammate Mark Arrington (35). (Daily News Photo)

Coaches Like Matson All-State TW Practice

EL PASO (Spl) — Leather continues to pop and smiles decorate the faces of the Texas Western football coaching staff as the Miners romp through their spring practice sessions.

Some 51 husky athletes — including 10 starters from the 1962 team — have been going through their paces since Feb. 15 as Coach O. A. (Bum) Phillips has a long look at the Miners.

Last year when Phillips and his staff whipped their charges through spring training only 27 players were on hand. This spring the Miners have more depth, size and speed than they had last season while posting a 4-5 won-lost record.

Eleven junior college transfers, one ex-serviceman and several red-shirts help decorate the Miners' squad. The ex-serviceman is Bob Windham, 6-6, 230-pound center who recently received his discharge from the Marines.

Up from the red-shirts are such players as Julius Glosson, a 175-pound scaback; big Bob Baker, a 6-3, 205-pound converted quarterback now running at fullback and Ralph Kennedy, an All-Border Conference end as a sophomore who was held out last season because of a broken arm.

The Miners will go through a lengthy scrimmage-practice session Saturday afternoon for the benefit of the television cameras and all interested spectators.

BIG BUSINESS

University Park, Pa. (NEA) — A total of 528,389 people have watched the Pennsylvania State football team in 14 home dates since the Nittany Lions moved into their new Beaver Stadium at the beginning of the 1960 season.

Migration Of Nation's Pickpockets

By RAY CROMLEY
Newspaper Enterprise Assn.
WASHINGTON (NEA) — Is it "subconscious feelings of fear, guilt, dependence and self-alienation" which makes Americans lose \$700 million in cash each year? This is the theory, at least, of Michael Fooner, chairman of the Committee on Research of the Association of Applied Psychoanalysis. He thinks all those costly feelings may be encouraged by living in "an affluent society." He says, "An individual's psychological disturbance may take the form of loss-proneness with monetary, comparable with accident-proneness in physical injury. "The individual," says Fooner,

"subconsciously poised for cash loss, offers temptation or opportunity to the thief. Criminal and victim act together; and the measure of the victim's responsibility needs to be assessed." Fooner says a recent survey found that 9.5 million adults in the United States lost cash in a single year. The average was \$75 per individual; three out of 10 lost \$100 or more. Fooner thinks a sizeable chunk of the almost three-fourths of a billion dollars in cash lost each year may fall into the hands of pickpockets. All of which he prompts scientists to study the "scientific" techniques of America's pickpockets.

Research men are attracted to pickpockets by finding that criminals in some areas are becoming less skilled in their trade. Dr. Lewis Yablonsky, associate professor of sociology and social welfare of the University of California, Los Angeles, believes that the old sense of craftsmanship is disappearing in many areas of crime. But pickpockets are an exception. Scientists find this is one criminal occupation that has held fast to its "high standards of workmanship." For one thing, the scientists find that pickpockets or "dips" have a seasonal travel-activity schedule that can be mapped.

After the Christmas season, many head for the warm climate of the East Coast, West Coast and Gulf winter resort areas. They are attracted by the heavy influx of a tourists. However, many of the "dips" stay in the major shopping areas in the North. Because of the weather, they shift their trade indoors. There is a lot of action in the department stores, according to American Express Co. chief inspector Ben Cunningham. He says the thieves are attracted by crowds of people returning gifts and looking for post-Christmas bargains. Also popular are train and airplane terminals that service crowds leaving for warm-climate vacations. As the winter wears on, crowded big city buses become popular. Especially attractive are buses carrying adults with school children, who contribute to the crowding, shoving and horsing around to help distract the adults. In the spring, people start leaving their overcoats at home. Visitors and returning vacationers start flowing back into the cities. The pickpockets move back outdoors. Many of the "dips" who moved South for the winter come back. But some of the pickpockets stop off at a fair or a major amusement park. Easter is a big shopping and travel season. Pickpockets divide their attention between big city stores, crowds on the streets near those stores and bus, train and airplane terminals. When the summer travel season begins, many pickpockets move to the major overseas shipping ports, the major international airports and major bus and train terminals. Then baseball, horse racing and other big sporting events begin to draw sizeable numbers. Late summer brings football and new opportunities. Then as November gets under way and Christmas shopping starts, the pickpockets move back to the major shopping districts. This is the major period of activity. Crowds, excitement, drinking and anxieties create a maximum number of "marks," the scientists report. Pickpocket activity then doubles or triples.

Scientists May Have Found Lost Syncom Satellite

CAMBRIDGE, Mass. (UPI)—A tiny spot of light on a photograph from South Africa may have provided U. S. scientists with their first hard clue to the whereabouts of the lost Syncom communications satellite.

The Harvard College Observatory said that the satellite, lost almost since its launching Feb. 14, was believed to have been sighted in photographs taken by astronomers at Boyden observatory, operated by Harvard and five European observatories at Bloemfontein, South Africa.

Donald H. Menzel, observatory director here, said the National Aeronautics and Space Administration on Feb. 18 asked him to begin a photographic search for Syncom.

The satellite stopped sending out radio signals 20 seconds after its apogee rocket was fired, about 5 1/2 hours after it was launched from Cape Canaveral.

Menzel said the Boyden astronomers, directed by Dr. E. H. Geyer, took the satellite's picture with the largest camera in the southern hemisphere. It is a special one designed by Harvard's Dr. James Baker.

Syncom was believed circling the earth in an orbit about 22,000 miles high. Harvard said at this distance its brightness was only of the 17th magnitude—or about 25,000 times fainter than the dimmest object that can be seen by the naked eye.

The photographs indicate that the satellite missed its planned orbit by only six minutes of arc—about a fifth of the moon's diameter—in the north-south direction.

Moonship Could Be Used As Ferry

HOUSTON (UPI)—The Apollo moonship would be used as a space ferry to transport astronauts to an orbiting space station under a new plan proposed by engineers at the Manned Spacecraft Center.

The proposal calls for sending six men a month into orbit. They would spend up to three months aboard a platform 300 miles out in space.

The Apollo moonship, now being built to carry three men to the moon, could be modified to carry six men on trips to and from the orbiting space station, authors of the new proposal said. The station could accommodate 18 men. Crew members would be rotated six at a time about once a month.

The suggestion was made in a paper written by Edward H. Olling, Owen E. Maynard, Rene A. Berglund and Charles W. Mathews, engineers in the space station study and project Apollo offices at MSC.

Lambs Aren't All In Show

HOUSTON (UPI)—All the "lambs" at the Houston Livestock Show were not in pens at the coliseum, police said today.

Officers arrested nine men, most of them from Odessa, for fleecing stock show visitors with confiscated 34 pairs of loaded crooked dice and marked cards.

The men were arrested at an apartment building where officers confiscated 34 pairs of loaded dice, marked cards, two shotguns, three rifles and \$4,400 in cash and cashier's checks.

Officers said they had information that three of the men were involved in the shotgun whipping of a Midland, Tex., man in an effort to collect some bad checks given in payment of \$2,100 in gambling losses.

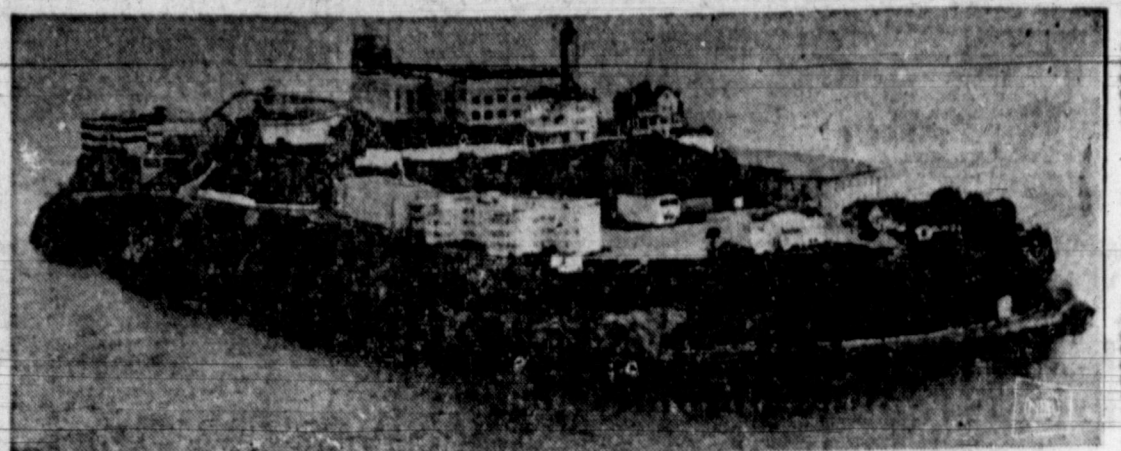

Neither the Midland man nor anyone else "taken in" by the Odessa group would file a complaint.

Eight of the men were still in jail today, however, and an officer said he "hoped to keep them out of circulation until the stock show is over" even though no complaints were signed by the alleged victims.

TO HONOR CHURCHILL

WASHINGTON (UPI)—A House subcommittee Wednesday approved a proposal which would authorize President Kennedy to declare Winston Churchill "an honorary citizen of the United States of America."

The judiciary subcommittee on immigration and nationality unanimously agreed that its chairman, Rep. Francis E. Walter, D-Pa., should introduce "an appropriately worded bill" to carry out the move.

WHAT TO DO with Alcatraz Island—if they get it—is problem for San Francisco's city fathers. "The Rock" has its days numbered as a federal penitentiary site.

Capital Punishment

AUSTIN (UPI)—Rep. J. C. Whitfield of Houston Wednesday proposed a bill that would end the death penalty in Texas.

The bill would substitute "life imprisonment with parole rights restricted" as maximum penalty for capital offenses.

The Cape of Good Hope is at the foot of South Africa.

Coffee Break... ...with d. e. w.

ON THAT SPRING-LIKE Monday afternoon we had this week before the snow-storm hit on Thursday, we got to wondering just how the Garden Clubs had fared during the winter months. So we went out to Mary Lee Osborn's home on North Sumner, where we had heard that the Pampa Council of Garden Clubs were having a meeting and we learned a lot of fascinating things are in progress. There is nothing dormant about our garden clubs... even though the flowers and trees may be during the winter months.

First off, we learned that due to the increasing interest in different phases of floral culture and the increase in the number of garden clubs, members found it necessary to form a council to coordinate and correlate the activities of each; so that the different clubs could work together as a team in the overall beautification of Pampa... on a civic level as well as on the private home level.

The purpose of the council is to formulate inter-club work and to plan for city-wide events. Council membership is made up of two representatives each from the five garden clubs: Pampa Garden Club, Top O' Texas Garden Club, Mr. and Mrs. Garden Club, Pampa Rose Society and Pampa African Violet Society.

Mrs. Kenneth Osborn has been elected president; Mrs. K. L. Hyman, first vice president; Mrs. Ira Carlton, second vice president; and Mrs. Joe Weaver, secretary. The officers were elected in November and in the organizational stages of the council are functioning in their respective offices. A formal installation ceremony is planned this Spring.

Each club has the privilege of participating in a council project or by-passing any proposed event. Some of the up-coming events on the council calendar are signs to

BEFORE LEAVING the subject of Garden Club activities, two past presidents of the Pampa Garden Club have brought added prestige to the local garden clubs by being elected to high offices in District One, Texas Garden Clubs, Inc. Mrs. Waldon Moore will be installed as first vice-governor and Mrs. Coy Palmer will be installed as second vice-governor of District One at the annual Spring Convention to be held in Lubbock Monday and Tuesday. Putting Pampa on the map and in the minds of other Texans as place where flowers grow... as well as where wheat grows and oil flows creates a pretty mental picture indeed!

DEAR DEW: In your column last Sunday you referred to that new Health Club as being located on Foster Street. Well, I wandered up and down that street and never could find it... what happened?? Signed, Betty.

DEAR BETTY: I wasn't too healthy the day I wrote that column... sorry for the wrong steer. The Pampa Health Club is really on West Kingsmill... 319 to be exact. But it wouldn't have done you any good to find it last week... it was for Men Only then. But we understand, there are plans in the making to share the good works with the ladies. d.e.w.

SIGNS OF THE MODERN WEST: While driving over to inspect progress on the Canadian River Dam site last Sunday afternoon, we noted this sign prominently displayed on several ranch lands: "NO TRESSPASSING: if caught will be shot. If missed, will be prosecuted."

TREBLE CLEF CLUB has a lovely affair planned for Tuesday evening in the Citizen's Hospitality Room. They have set that evening aside to honor the Patroness members of their group at a reception. Early last year, Treble Clef conferred the honor title "Patroness" upon women in the community, whom it felt had done much to further cultural interests in Pampa in all phases of the Fine Arts: music, art, drama, literature. Patroness members to be special guests include Mmes. B. H. Behrman, C. S. Boston, Lynn Boyd, Clifford Braly, G. B. Cree Jr., Bob Curry, James B. Dailey, Jack P. Foster, Claudie Gallman, Raymond Harrah, Julian Key, Charles Lanehart, Lorene Locke, MacField McDaniel, Eugene Olds, Leora Rose, John Skelly Jr., N. Dudley Steele, Roy Sullivan, Robert K. Swanson, Clyde Vanderberg and Ray E. Wilson. Hostesses for the meeting are Mmes. Lonnie Richardson, Fay Dellis Adams, Mary Wilson and Miss Juanita Haynes of Miami.

KNOW THAT Bonnie-McCarley has been a busy gal this week getting things ready for a visit from her parents, Mr. and Mrs. Z. L. Holden of Salem, Ill., who arrived Friday. The Holdens have timed their visit so that they could see their grandson, Paul and his wife, Geraldine, before they leave for McKinney to open a new jewelry store there... and also to trot those three great-grandchildren, Charlotte, Stephen and Jennifer, upon their knees. And it's a hearty "Welcome To Pampa" to Chris Bosecker, who hails from a mighty fine town in Illinois... our old hometown, Mt. Carmel... and to further prove what a small world it really is, his grandmother lived just down from us in Mt. Carmel on Fifth Street... and we knew his mother, Mrs. Walter Bosecker very well. Chris, who is a friend of our son-in-law, has just graduated from Oklahoma University and is employed as a trainee for the Texas Company... so if you see this six-foot Chris around... just say "Hi"... he'll love it!

WE LEARNED THAT "Question 7", which the United Church Women's Council is sponsoring at the La Vista Theatre March 17-20, is a powerful film about the oppression of communism in East Germany... saw a group of girls out near Robert E. Lee Junior High this week all dressed in identical Turquoise Blue dresses with white trim... they must be members of the Girls' Choir... we do know that girls in the high school choir are having red dresses made for their appearances at various functions this Spring... won't red dress with white gloves and white slippers make a striking picture?... not too many new 1963 license tags in evidence yet... and the deadline, April 1st, is drawing nearer and nearer... right now, the choice is yours, whether you want to purchase them leisurely and quickly... or later standing in a long line... say we as we smugly drive off with our new 1963 tag AV-4292... d.e.w.

Double-Ring Ceremony Unites Tinney-Winton

The wedding vows of Miss Wanda Sue Tinney and Bobby Winton were solemnized in a double-ring service performed Saturday evening at seven o'clock in the Hobart Street Baptist Church with the Rev. John Dyer, pastor, officiating.

Miss Tinney is the daughter of Mr. and Mrs. I. W. Tinney, 2139 Beech. Mr. Winton is the son of Mr. and Mrs. C. A. Winton of Wellington.

Vows were repeated in a setting of baskets of white gladioli and candelabra holding white tapers.

BRIDE

The bride, given in marriage by her father with the "her mother and I" avowal, wore a bouffant, floor-length gown of Chantilly lace over satin designed with a scalloped neckline edged with sequins and long sleeves, which tapered to petal points over the hands. The skirt, featured tiers of Chantilly Lace and tulle enjoined to a fitted bodice.

Her shoulder-length Veil of Bridal Illusion was held to a Queens Crown of seed pearls. She carried an arrangement of white carnations atop a White Bible.

ATTENDANTS

Mrs. Bobby Tinney, bride's sister-in-law, attended as matron of honor. Miss Linda Winton, bridegroom's sister, served as a bridesmaid. They were dressed identically in red taffeta dresses complemented with red hats and slippers. Each carried a bouquet of white carnations.

John Duncan was best man. Donald Tinney, bride's brother, served as groomsman. Seating the wedding guests were Bobby Tinney, bride's brother and Terry Bouchie.

Miss Rhona Kay Tinney, niece of the bride, wearing a white lace dress, was flower girl. Carrying the rings to the bridal pair was Jeff Atkinson.

Jerry Don Oliphant provided the traditional wedding music at the

Youngsters Are Feted With Party

LEFORS (Spl) — Mrs. Leonard Cain and Mrs. Tiny Bivins entertained members of the third grade class with a party celebrating the birthdays of Susan Cain and Bobby Bivins.

The mothers were assisted by Mrs. Joe Wallis and Mrs. Chestine Dunn.

Sandra's cake was white decorated in pink and held nine yellow candles. Bobby's cake was served with ice cream and Kool Aid. Balloons were given as party favors. Games were played. Gifts were presented to the honorees.

Attending were Marsha Hendricks, Jimmy Gatlin, Mike Robbins, Jimmy Crutcher, Mike Dunn, Larry Gilbreath, Bobby Bivins, Sandra Cain, Wanda Wallis, Joe David and Lydia Wallis, Tina Bivins, Guyla James, Linda Gilbreath, Sharon McLaughlin, Connie Bivins, Connie Thacker, Alan Garrett, Joe Jernigan, Derrel Cain, Morris Roberts, Larry Busell, Terry Dunn, Richard Roberts, Jannis Roberts, and Mrs. Charles Roberts.

Mrs. Bobby Winton...nee Wanda Sue Tinney

organ and served as accompanist for Donnie Moore of Amarillo, who sang "True Love" and "The Wedding Prayer."

For her daughter's wedding, Mrs. Tinney wore a blue silk sheath with black patent accessories. The bridegroom's mother, Mrs. Winton, chose a toast-colored dress with complementing accessories. Their corsages were fashioned from white carnations.

Immediately following the ceremony, a reception was held in the Fellowship Hall of the church. Miss Pauline Bias and Mrs. Donald Tinney presided at the cake and punch service. Guests were registered by Miss Opal Boyles.

For a wedding trip to Carlsbad, N. M., the bride traveled in a Melon silk shantung sheath with matching accessories and wore

the white carnation corsage lifted from her bridal bouquet.

The bride was graduated from Pampa High School in 1960 and attended West Texas State College. She is employed by the Amarillo National Bank.

The bridegroom attended Wellington High School and is employed by the Village Plymouth Co. in Amarillo. They will make their home at 1616 Jackson in Amarillo.

Mr. and Mrs. Winton were hosts for a rehearsal dinner on Friday evening in the Court House dining room.

In carrying out bridal tradition, the bride carried a handkerchief, which belongs to her grandmother and for something "borrowed" a white Bible belonging to her sister-in-law.

Patroness Members Of Treble Clef To Be Honored At Reception-Tea

The twenty-three Patroness members of the Treble Clef of Pampa an affiliate of the Texas Federation of Music Clubs, will be honored at the March meeting to be held in the Citizens' Hospitality Room on Tuesday, at eight o'clock.

The patroness members are Mmes. B. H. Behrman; C. S. Boston; Lynn Boyd; Clifford Braly; G. B. Cree Jr.; Bob Curry; James B. Dailey; Jack P. Foster;

Flaudie Gallman, Raymond Harrah, Julian Key, Charles Lanehart, Lorene Locke, Macfield McDaniel, Eugene Olds, Leora Rose, John Skelly, Jr., Dudley Steele, Roy Sullivan, Robert Swanson, Clyde Vanderberg and Ray E. Wilson, all of Pampa, and Mrs. Miles O'Laughlin of Miami, Texas.

Appearing on the program will be the Pampa Madrigal Singers presenting numbers of the 15th and 16th century. Included in this ensemble are sopranos: Mrs. Lonnie Richardson and Mrs. Mary Wilson; Altos: Mrs. Helen Conway and Miss Rosemary Lawlor; Tenors: Mr. James Dailey and Mr. Hugh Carson and Basses: Mr. James Jackson and Mr. Eugene Barrett. The Madrigal Singers will present "Now Sing We All This Day" by Hassler; "Sing We and Chant It" by Morley and "Come Let Your Hearts Be Singing" by Gastaldi.

Also appearing on the program will be Mrs. John Price, violinist, accompanied by Mrs. John Gill. Mrs. Price, who has been presented on previous Treble Clef programs, will play Larghetto and Allegro from Sonata No. 4 by Handel and Mazurka by Mlynarski.

Hostesses for the meeting are Mmes. Lonnie Richardson, Fay Ellis Adams, Mary Wilson and Miss Juanita Haynes.

Manners Make Friends

Being brusque and impatient with those who serve you will give you a reputation for being rude and high-handed.

TO WED IN APRIL

Miss Janet Sue Atkinson

Mr. and Mrs. Earl E. Atkinson of Lefors announce the engagement and approaching marriage of their daughter, Janet Sue, to Fred Burleson Smith, son of Mr. and Mrs. Boyd Burleson Smith of McLean. Wedding vows will be repeated on April 12 in the First Methodist Church of Lefors at seven o'clock. (Photo, Smith Studio)

RUTH MILLETT

"Motherhood is a wonderful thing. But why can't women leave motherhood at home when they hire a baby sitter and go out for a social evening?" asks a man who reads this column.

"There's nothing much more deflating to a man's ego" he says, "than to sit down beside an attractive woman or to ask her to dance and have her spend the whole evening talking about her children and P.T.A., car pooling, and such.

"She shouldn't be a bit surprised if the man who came to the party to enjoy himself grows inattentive as she chatters on about junior's mumps and sis's dancing lessons, or, if he makes an excuse for escaping the first chance he gets.

"Any man figures that parties are for having fun.

"A man's idea of fascinating conversation is not to listen to a woman talk about her children. Since her children are safely at home with a sitter — and so are his — and there's a big fascinating world to talk about, why should they bore each other to death making parent talk?

"And," writes the man, "if a woman can't think of any other topic of conversation, she can always get the man to talk about some of his interests and at least pretend to be interested.

"It's a cinch he's not going to fade away if she does that, or even if she talks about HER interests, if she has any outside of her children."

That's what the man wrote, and it does seem he has a point. Better check next time you go to a party, to see if you are guilty of talking about your children to any man you can trap long enough to listen to a subject only you find fascinating.

SOCIAL CALENDAR

SUNDAY

3:00 — Organizational Tea For Pan-Hellenic, Citizens' Hospitality Room.

MONDAY

9:30 — Pampa Garden Club with Mrs. Walter Purviances, 802 W. Francis. Program on Herbs by Mrs. C. C. Matheny.

PLANS JUNE NUPTIALS

Miss Glenda Finkelstein

Mr. and Mrs. D. A. Finkelstein, 1901 N. Russell, announce the betrothal of their daughter, Glenda, to Joe M. Kaufman, son of Mr. and Mrs. Adolph Kaufman of Denver, Colo. The wedding is planned for June. The bride-elect is a junior Special Education major at the University of Denver. While a student at the University of Texas, she was a member of Alpha Epsilon Phi sorority. Her fiancé will graduate with a Bachelor of Pharmacy degree from the University of Colorado in June. He is affiliated with Phi Sigma Delta fraternity and with Phi Delta Chi pharmacy fraternity.

Recent Bride Honored With Bridal Shower In Home Of Mrs. Jack Back

Mrs. Floyd Allan Wise, former bride, was honored with a bridal shower on Saturday evening in the home of Mrs. Jack Back, 2327 Christine. Co-hostesses were Mmes. Bill Rice, Glenn Ritchhart, Harold Wright, Frank Shotwell, Charles Glison, William J. Prock.

In the receiving line were the honoree; her mother, Mrs. Ralph Prock; Mrs. Floyd Hoffman, aunt of the bridegroom; Mrs. Alan Wise, bridegroom's mother, and Mrs. Back. Each wore a shoulder corsage of red roses.

Guests were registered by the honoree's sister, Miss Jean Prock. The refreshment table was appointed with a white lace cloth centered with a custom made wedding ring entwined with orange blossoms and encircling a bride-doll standing under a cluster of wedding bells.

Favors were miniature wedding rings and white bells tied with red ribbon.

A sheet cake, iced in white and decorated with entwining red hearts and the names of the bridal pair "Allan and Joyce", was served with punch.

Mmes. Rice and Prock presided at the punch service; Mmes. Wright and Showell at the cake service.

Among the out-of-town guests attending were Mrs. Claude Weldon of Enid, Okla.; Mrs. Hope Peters of Monett, Mo.; Mrs. Lila Pownell of Douglas, Okla.

Approximately 80 guests attended or sent gifts.

Lace Fan Quilt Made At Metanet

Metanet Quilting Club met Tuesday in the home of Mrs. Earl O'Neal, 700 N. Nelson, for an all-day meeting with Mrs. H. E. Winegeart as assisting hostess.

The day was pleasantly spent in quilting a lace fan quilt for the hostess; group singing accompanied by Mrs. Winegeart and Mrs. George Hamlin, pianists; and a favorite recipe exchange.

A covered-dish luncheon was served during the noon hour to Mmes. Eugene Tollison, Earl O'Neal, J. C. Longan, George Hamlin, Nelse Robinson, Forrest Cloyd, Vinson Simon, J. B. Jones, H. E. Winegeart, Ben Harkrader, G. L. Wilson and Margie Hausman.

Husbands attending the luncheon were Forrest Cloyd, Vinson Simon, Earl O'Neal, Eugene Tollison and George Hamlin.

The next meeting will be with Mrs. Harkrader, 1925 N. Faulkner on March 7.

WEDDING SHOWER — Pictured at the bridal shower honoring Mrs. Floyd Allan Wise, recent bride are left to right, Mrs. Allan Wise, the honoree, Mrs. Ralph Prock and Mrs. Jack Back. (Daily News Photo)

US And Russian Farmers Program For Cotillion

Plans for a Husbands' Night Party and the Spring Antique Show were discussed during the business meeting of the Twentieth Century Cotillion Club held Tuesday afternoon in the home of Mrs. T. C. Carter, 1424 Williston with Mrs. Lee Fraser as co-hostess.

The afternoon's study program was presented by Mrs. Jim Hess, who reported on the Russian Agricultural Economy and Mrs. Alvin Agan, who reviewed "Land of Plenty" by Wheeler McMillen.

Mrs. Agan began her portion of the program by saying "American farmers have always been farmers. That is why Americans have long been the best-fed people in history. In contrast, the farmers of the Old World, until very recent centuries, were usually slaves. Even if they had developed productive agricultural methods, they had little reason to put heart or hope into the extra effort. They knew that the lords and tax-gatherers would get most of the benefit; under the feudal system farmers were not permitted to move or to seek other kinds of work."

"Against this grim background rises the magnificent story of farmers in America. Famine, starvation or mass hunger have had no part in the history of the United States. Here under a constitution that has guaranteed all men the right to choose their occupations, those who have chosen

to be farmers have provided their fellow countrymen with food in abundance."

In closing remarks, Mrs. Agan said, "The United States has both land and freedom to offer in greater abundance than any other nation in history. The problems of present day agriculture have been well publicized. A surplus of wheat or corn, however, is a small problem indeed, when compared to problems of hunger and malnutrition, which even now—in the second half of the 20th century, beset more than half of the world's people. This great nation can face the future confident that food in abundance and variety will be ready for its increasing millions."

The three points stressed by Mrs. Hess in discussing Russian agricultural were 1) weather; 2) lack of seed development and 3) governmental regimentation.

"There is a constant comparison between products, military pro-

LITTLE LIZ

The time you save using the Little Liz highways helps to make up for the time you lose looking for a parking place.

duction and the moon race of Russia and the United States, so it is not strange that this comparison also invades agriculture economy as well," the speaker said in opening remarks.

"Probably the hardest problem for Russia to overcome is her climate. While Russia has almost one half million acres of farmland, the greatest part of it is further north than any part of the U. S. It's true that this land is every bit as fertile as ours, but at its latitude the growing season is much shorter."

"The American farmer is not plagued by the same replanting problems like the Russian farmer, who owns little or no equipment of his own. Both planting and harvesting equipment is a pooled effort organized by socialistic government authority."

In closing, Mrs. Hess pointed out that "since the invention of the wheel there has not been, nor is there now a successful substitute to replace the magic of ownership or an incentive to replace the dollar bill."

Members attending were Mmes. W. B. Adair, Alvin Agan, Sam Anderson, Gene Barber, Thelma Bray, James Brown, Jim Campbell, Harbord Cox, Lee Fraser, James Galloway, Jim Hess, Don Morrison, W. D. Price Jr., Jack White, Buddy Cockrell and Frank Vitrano.

DISTRICT OFFICERS TO BE — Mrs. Coy Palmer, left will be installed as second vice-governor and Mrs. Waldon Moore as first vice-governor District One, Texas Garden Clubs, Inc. at the district's annual Spring Convention to be held Monday in Lubbock. The installation ceremonies will take place in the Red Raider Room of the Pioneer Hotel at 7 p.m. Monday (Daily News Photo)

Pampa Garden Club Adds To Library

The Pampa Garden Club met Monday in the home of Mrs. Waldon Moore with her daughter, Mrs. Ed Parsons, as co-hostess.

Refreshments were served as members arrived.

Mrs. H. A. Hanks, president, conducted the business meeting during which it was announced that books have been added to the Garden Club library.

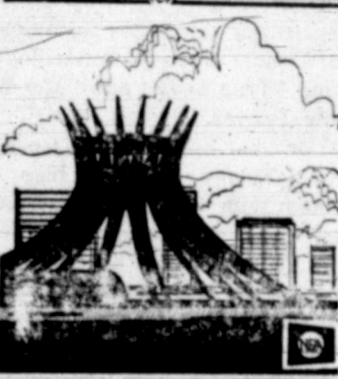

Members were reminded of the District One meeting of Texas Garden Clubs, Inc. to be held Monday in Lubbock. Mrs. Moore will be installed as first vice-governor and Mrs. Coy Palmer will be installed as second-vice-governor. Mrs. Moore and Mrs. Palmer are both past presidents of the Pampa Garden Club.

The program was presented by Mrs. Myron Dorman, who illustrated how to make a color wheel with pieces of colored paper.

Mrs. Lawrence Mitchell was welcomed as a guest.

The strait connecting the upper and lower New York bays is called the Narrows.

matter of fact

No site for a city has been so carefully chosen as Brasilia, the new federal capital of Brazil. Consideration was given to topography, climate, drainage, water supply, geology, soils, land use, engineering, power, transportation, recreation, building materials, public administration, scenery and the general relation of man to his surroundings. The first air-age capital resembles a huge airplane or cross.

County Ag Agent Is Guest Speaker

Foster Whaley, Gray County agricultural agent, was guest speaker at the Top o' Texas Garden Club meeting Tuesday afternoon in the home of Mrs. O. M. Prigmore, 1208 Charles.

In discussing "Insects and Insecticides", Mr. Whaley pointed out what insecticides to use for each of the three general categories of insects, sucking, biting and chewing and burns; he identified which insects are beneficial and which most harmful; and what insecticides are safest to use on gardens and around pets.

Mr. Whaley stated "our offices will gladly identify insects for you. If we can't, then we'll send the specimen to A&M.

Pamphlets on control of various insects, available from A&M agricultural extension service, were distributed to members.

In concluding the program, Mr. Whaley told of some new hybrid garden vegetables available this year. He said he would be "delighted to help with garden bug problems, but I must admit my wife grows the best garden."

Refreshments were served during the social hour.

The March 12 meeting at 1:30 p.m. will be with Mrs. Joe Rutledge, 602 E. Kingsmill.

Attending were Mmes. J. A. Howard, Margery Mack, Kirby Hyman, Fred Hinkley, Kenneth Osborn, Joe Rutledge, A. H. Kouri, Tom Patton, L. B. Robertson.

Take It From Kathy

by Kathy Peterson

Dear Kathy: Since I first started dating, I have dreamed going to a restaurant with a boy because it's such a problem to order. I'm never sure how much he wants to spend. When I order a sandwich, everyone else decides to just have ice cream and then I feel silly and greedy—C. C.

A date may be rugged, masculine and a real Prince Charming to you but boys suffer from self-consciousness and shyness too when they are just beginning to lead a social life. Some fellows squirm inwardly when you force them to make your decision for you.

The boy would not have taken you to a restaurant unless he had the money to finance a snack. Be kind to his budget when you order but make up your own mind. Then

if you don't want to be different, listen until the others make their choices before deciding on your order.

Teen-agers: Please send your personal problems to Kathy Peterson in care of this paper. While she cannot answer each letter personally, letters of general interest will be answered in this column.

SAVE THEM

Our mechanized age makes it almost certain that you'll find bolts, screws and other odd parts around the house from time to time. Save them. Among the collection you often find just the thing needed for a quick repair job.

Anti-Female Promotion Policy Due For Blast

Woman To Woman
By PATRICIA MCCORMACK
United Press International
NEW YORK (UPI) — Problem: The Teeny Tiny Pickle Works wants to add a vice president in charge of production.

Greta Picklepiker, with the firm 20 years, hasn't a blot on her record. What's more, she's been going to school at night to advance herself.

She doesn't see how the president of the Teeny Tiny Pickle Works can help naming her to the new job.

But poor Miss Picklepiker doesn't get the job. It goes to a man who's younger, less educated and, in her opinion, less qualified.

It seems like a plain case of sour grapes when Miss Picklepiker sobs — "they won't promote me because I'm a woman."

The hypothetical case of disappointed Miss Picklepiker and her view of the anti-female promotion policy at the Teeny Tiny Pickle Works points up a current problem for females in many concerns.

Dr. Garda W. Bowman, who says so, bases the say-so on research in connection with her doctoral dissertation at New York University — "the image of a promotable person in business enterprise."

The study, involving 15 firms, showed that women workers somehow mar their promotion chances sometimes by just being female.

Discrimination Exists

"It's not true in all firms," Dr. Bowman said. "But the discrimination does exist."

The image of woman's place in business was crystal clear in the minds of many women and men interviewed by Dr. Bowman.

Their comments included the following:

— "It seems perfectly normal

that women should be in clerical and stenographic positions."

—"I can't imagine women in executive positions. You can't build a business around a woman."

—"Women do pretty well here. A private secretary to an executive is typically a woman's job."

Dr. Bowman, currently director of the merit promotion program of the National Conference of Christians and Jews, is initiating a new service to management. It is designed to assist firms in implementing their policy of merit promotion.

"The reasons women were considered unsuitable for supervision came quickly to the tongue and there was not the slightest restraint about expressing them vehemently during the interviews," Dr. Bowman said.

Women Criticized

The most frequent reasons given for women's alleged inadequacy as supervisors:

— They don't want to be promoted; no drive; no real interest in their jobs.

— Men don't like to take orders from women. Even girls prefer a male supervisor.

lot harder than your helpful friend led you to believe.

RUTH MILLETT

It's often best to say "No, thank you" to the helpful offers of others, especially to those who say, "I can get it for you wholesale." Chances are you'll end up with a substitute for what you really wanted, or with a lemon you can't complain about.

"I'll show you a short cut." The driver who lets a passenger show him a short cut all too often winds up lost and out of sorts.

"Let me show you an easy way to do that." It may be an easier way for the other person, but much harder for you than the way you're familiar with.

"You must look up this friend of mine when you are in such-and-such a place." It isn't likely the friend of a friend is going to be elated over having to play host to a total stranger. If he is elated, he'll probably be a bore you'll wish you had never looked up.

"The best thing to do for a cold is . . . You can be pretty sure

that the best thing to do for a cold or any other ailment is NOT to take second-hand medical advice.

"Why don't you do that yourself instead of hiring it done, and save money?" If you were an adept do-it-yourselfer you would have thought of doing it yourself. If you aren't, chances are the job is a

"There's a nice young man I want you to meet." On second thought, perhaps you had better take a chance on this one — but don't be disappointed if the nice young man is a dud you have trouble discouraging. Most would-be matchmakers think any two persons of the opposite sex who aren't married are sure to be "just right" for each other.

Remedy For Keeping Sandwiches Soggy-Less

DEAR POLLY—To keep lunch-box sandwiches from becoming soggy, I use two thin slices of meat instead of one thick one and spread my sandwich "fixings" such as catsup, chili sauce or mayonnaise between the slices of meat.

"Finger foods" such as radishes, carrot sticks and celery that go in lunch boxes can be wrapped in aluminum foil and put in baby food jars with a small ice cube.

GIRLS—This is one to remember for summer picnics.

DEAR POLLY—Take a large or small sponge and hollow out a space in the center large enough to hold a bar of toilet soap. Keep it on your washbowl and use it to clean the bowl.

A STEADY READER

DEAR POLLY—To prevent scratching the fenders of your car when backing out of the garage, tack a section of an old inner

tube on each side of the garage entrance.

A clean eyedropper makes a fine kitchen accessory for measuring liquid food coloring. To clean it, squish the dropper in and out of hot soap or detergent suds. Follow with several warm rinses.

MRS. M. E.

DEAR POLLY—A dressing table drawer may seem like an odd place to keep the pliers. But that

is where I have kept one for years. It opens nail polish bottles, presses that last bit of toothpaste from the tube and squeezes opened bobby pins.

GIRLS—There is no reason for keeping things in the same old places if they are more useful elsewhere. All of us are looking for that different way to do the same old everyday chores.

Afternoon Of Art For Twentieth Century Club

The Tuesday afternoon meeting of Twentieth Century Club was held in the home of Mrs. R. W. Stowers, 2013 Charles with 20 members present.

Mrs. Tom Rose, vice president, presided in the absence of the president, Mrs. H. E. Stanfield.

Mrs. Robert Sanford led the pledge to both national and state flags.

In giving the Pampa Council of Women's Club report, Mrs. Stowers stated that a "Morning of Education on Teaching Machines" was presented by Melvin Munn at the council meeting and that an evening meeting was being planned by the council at a future date.

Mrs. Paul Harbaugh, federation counselor, announced that from the Main Exhibit of Fine Arts in Pampa, the Texas Federation

plans to send two best exhibits to the 1964 World's Fair in New York City.

Mrs. Lorene Locke reported on a meeting relative to the establishing of roadside park sites on the highway approaches to Pampa, which are being directed by committees of the Chamber of Commerce and Pampa Garden Club.

For the Texas Heritage Report, Mrs. Fred Neslage stressed more books for the public library and suggested "Texas Guide" and "History of Texas Brands."

The date for the Top of Texas District, Texas Federation of Women's Club, was announced as April 2-3 with headquarters in the Holiday West Motel in Amarillo.

Mrs. Rose, district program chairman, reported an excellent program has been planned and urged a good attendance.

The afternoon's program on "Art" was introduced by Mrs. Robert Sanford, who, with the cooperation of art teachers, had a most interesting display of drawings from the elementary school grades.

Mrs. Sanford quoted an eminent psychologist as saying "children cannot describe their inner feelings, but they can draw their deepest fears and longings. Through

art hidden troubles are brought out. But we must rely on trained psychologists to interpret these drawings.

Mrs. Sanford said, "We should not ask a child what is his picture, but to tell us what he has drawn; drawing promotes creative living."

Mrs. H. R. Thompson gave quotes from a printed article "Minutes Of Communist Cell on Art." She said, "if you are baffled by modern art, cheer up, your art I. Q. is o.k."

She also quoted Al Capps, cartoonist, as saying "comics are the last source of real American art."

Mrs. R. E. McKernan gave an interesting talk and display of the art work of the famous Flemish artist, Peter Paul Rubens, who has been described as "the Homer of Flanders" because he offered his own liberal and Baroque style of painting.

"He, like Vinci," she said, "was thought to use music while creating his works. Some thought that this gave Mona Lisa her famous smile."

Mrs. McKernan was present at the unveiling of the Mona Lisa in New York and also visited the Lincoln Center. "Statistics show that there are more patrons of the theatre and art galleries and culture centers than for all the sports arenas," she said. "Culture is a radiance from within, a spiritual state, a conscientious awareness of the art of living."

Refreshments were served during the social hour.

Mrs. Kenneth Reid Lane
... nee Joyce Irene Lansdown

Miss Joyce Lansdown Becomes Bride Of Kenneth Lane In Home Ceremony

CANADIAN (Spl) — In a double ceremony held in the home of her parents, Mr. and Mrs. C. H. Lansdown, Miss Joyce Irene Lansdown became the bride of Kenneth Reid Lane on February 8 at 8 o'clock.

The bridegroom is the son of Mr. and Mrs. Elton T. Lane of Turkey.

The ceremony was read by the Rev. Joe Vernon, pastor of the First Baptist Church, before an altar area decorated with white mums and chrysanthemums.

The traditional wedding march was played and "I Love You Truly" was sung by Mrs. Kenneth Davis, sister of the bride.

The bride, given in marriage by her father, was attired in a white silk shantung sheath dress and jacket. She wore a small hat of white flowers with a veil and carried a bouquet of white carnations and red roses with white streamers tied in love knots.

Attending the bride was Miss Sandee Newton who wore a blue wool sheath dress and a blue flower hat with veil.

Keith Lane of Turkey, brother of the bridegroom, attended as best man.

Following the ceremony, the bride's parents were hosts at a reception. Assisting the hosts were Miss Jan House of Turkey, who served the punch and Miss Dolores Batts who served the cake.

The bride is a graduate of Canadian High School; attended Texas Tech and is now a student at West Texas State College at Canyon.

Mr. Lane graduated from Turkey High School and is a senior student at WTSC.

Mr. and Mrs. Lane are making their home at 117 28th, Apt. 3 in Canyon.

Writing Analyst At Hubby Night Party

El Progresso Study Club members entertained their husbands with a dinner in the Pampa Country Club on Tuesday evening. After the dinner hour, Mrs. Eugene Leigh, Certified Graphologist, entertained with an informative and humorous program on how accurately personality is revealed by handwriting. After doing several analyses, those present agreed, she was capable in her profession.

The tables were decorated to carry out the theme of the program. There were small spring bouquets at intervals, each in a vase that was held by china hands, and a miniature tree with many tiny pairs of different colored gloves hanging on it. Favors were miniature note pads, with tiny pencils attached, which were used in giving a sample of the individual's handwriting.

Part: Kermit Lawson; Bob McCoy; Carlton Nance; Tom Perkins; Glenn Radcliff; Hank Vera; Harold Wright; George Newberry; Mrs. Elmer Fisher and Mrs. Leigh.

Those attending were Mr. and Mrs. D. V. Burton; John Gill; Bernard Johnson; Charles Lane.

'Red' Menace Topic For CC Study Club

Members of Civic Culture Club held Tuesday in clear, concise terms the menace World Communism presents to the American way of life. The program "Communism... Undo It Yourself" was divided into two parts with Mrs. Emmett Gee and Mrs. W. J. Morris serving as speakers.

Mrs. Stanley Brandt was a hostess for the meeting and served as program chairman. The program outline followed was prepared by the women's department of the National Association of Manufacturers. The Civic Culture Club is among some 25,000 other women's groups across the nation studying communism this month.

The program discussed the definitions and ideology of Communism; its history, the Russian Revolution, the state of World Communism today and what individual citizens — especially women — can do about the Communist menace. A discussion period followed the program.

Sixteen members attended the meeting.

Manners Make Friends

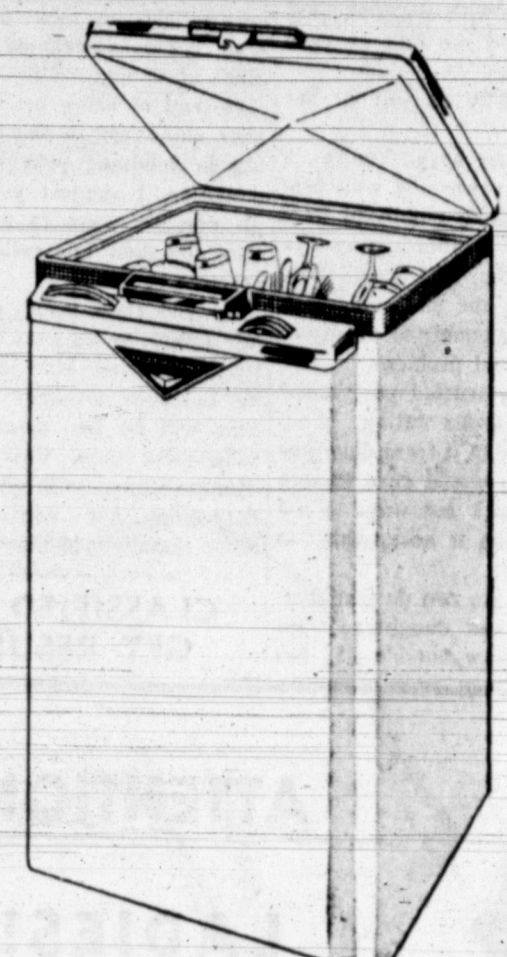

Following the ceremony, the bride's parents were hosts at a reception. Assisting the hosts were Miss Jan House of Turkey, who served the punch and Miss Dolores Batts who served the cake.

The bride is a graduate of Canadian High School; attended Texas Tech and is now a student at West Texas State College at Canyon.

Mr. Lane graduated from Turkey High School and is a senior student at WTSC.

Mr. and Mrs. Lane are making their home at 117 28th, Apt. 3 in Canyon.

POLLY'S POINTERS Shoe-Boxes Make Good Food Trays

By POLLY CRAMER

DEAR POLLY—Here is an idea we find quite handy in our family. Carry shoe boxes, lined with aluminum foil, in the trunk of the car. When you stop at a drive-in for sandwiches, milk shakes, etc., place the food for each person in a box. The boxes are especially good as trays for the children.

D. C. DEAR POLLY—I have found that when making stuffed toys, a good practice is to insert an empty cardboard tube in the neck after stuffing the head. This will hold the neck straight and prevent that "droopy neck sag."

B. V. DEAR POLLY—Label small cardboard boxes "Ears," "Eyes," "Nose," "Headache," and I use these on medicine cabinet shelves. Sort out your medicine accordingly and place it in the boxes, ready to be chosen.

MRS. E. P. P. J. R. GIRLS—You are so systematic, you put me to shame. But your good hints are raising me up to your class.

POLLY DEAR POLLY—Here are a few of my favorite items:

When making soup, make the stock ahead and store overnight in the refrigerator. Next morning skim off all the fat accumulation and finish making the soup.

When bleaching stubborn stains in the kitchen sink, I put in my sink liner, etc., so they all come sparkling clean at the same time.

When the feet in girls' stretch tights wear out, cut them off above the knees and trim with lace to make pettipants.

R. F. DEAR POLLY—After buying sweaters or T shirts for the children or my husband, I always put elastic thread through the neckbands. It prevents stretching and lasts for a long time.

H. A. G. DEAR READERS—Often dozens of you send in the same suggestions, so please do not feel slighted if any idea you so kindly shared is credited to someone else. The other one came to our attention first. We always try to use the first one received.

POLLY DEAR GIRLS: In a recent column I published a letter from one of "we girls" which suggested using a heating pad turned to LOW heat, and with a rubber sheeting between it and the pillowcase as a means of drying your hair while you sleep.

A correspondent expressed two thoughts: If you absent-mindedly went to sleep with hairpins in your hair, it just might be possible for one or more to penetrate sheet and pad cover, and cause a shock. Also, heat build-up in the pillowcase might rise to a dangerous degree at which the pillow might ignite, especially if the control were turned up accidentally.

Perhaps we had better stick to our hair dryers for this chore, or go to sleep damp-haired but absolutely safe!

High Ratings Given Pupils Participating In Piano Festival

At the Piano Competition Festival, conducted by West Texas State College in Canyon on Saturday, February 23, the following students took first place ratings:

In the Class I division for advanced senior students for solos performed: Robin Vail and Dianne Phillips. Class I division sight reading: Dianne Thomas and Maurine Hickman.

In the Class III division (junior high level): Cindy Roebuck in solos. Mike Phillips took first place in both solo work and sight reading thereby earning a "sweepstakes" medal.

Other ratings earned were a second place in solo work by Maurine Hickman and Dianne Thomas. Second place in sight reading by Cindy Roebuck, Dianne Phillips and Frank Kelley. A third place in solo work by Frank Kelley and a third in sight reading by Robin Vail.

"All the above are students of Bill Haley."

KING PLEDGES EYES

NEW YORK (UPI)—King Hussein of Jordan has pledged his eyes to an eye-bank he opened recently in Jerusalem, it was announced here Wednesday.

The Jordan eye-bank was the first such overseas facility set up by MEDICO. Post-mortem eye donations will be used in corneal transplants.

Alpha Omicron To Have 'Used' Sale

Alpha Omicron Chapter of Epsilon Sigma Alpha Sorority met for a short business meeting Thursday at 8 p.m. in the Citizens' Hospitality Room with Mrs. Boyd Maule, president, presiding.

Plans were discussed for a rummage sale to be held March 25. It was approved for four members to visit Twilight Acres' home once a month.

It was announced the next meeting will be an exchange program with Kappa Alpha Chapter.

Mrs. Buster Higdon presented a program on "Keep Fit To Be Happy."

Hostesses during the social hour were Mmes. Murry Castleberry and Bill Spidell.

Members attending were Mmes. Eugene Bentley, Jack Hunter, Bob Windle, W. R. Parrish, Kenneth Royse, John Bird, Lynn B. y b e e, Murry Castleberry, Ralph Ledwig, Carl Caldwell, Bill Soidell, J. M. Messenger, Buster Higdon, T. e. d. Everhart, Jimmy Crouch, Boyd Maule and James Lewis.

Caring About Children Panel Topic For CWF

"Are These Our Children?" was the question for discussion by a panel at the February meeting of the Christian Women's Fellowship of First Christian Church.

During the business meeting, conducted by Mrs. D. V. Burton, CWF president, an announcement was made of the World Day of Prayer services, which were held Friday in St. Matthew's Episcopal Church.

Mrs. Glenn Nichols was named chairman of the committee in charge of sending seeds and tools to the Dominican Republic.

The March meeting date was changed from the 20th to the 26th and will be a night meeting with husbands invited as special guests.

Mrs. C. D. Kessinger gave the opening prayer.

Mrs. Bob Swanson was moderator for the panel, which included speakers: Mrs. Monty Cotter, a registered nurse and parent of an exceptional child; Mrs. Jack Sloan, president of the Exceptional Children's Ass'n and Mrs. Glenn Nichols, teacher in the non-denominational church school for exceptional children.

Mrs. Cotter gave a parent's point of view toward exceptional children and also told of the benefits of the Abilene State School. She mentioned the religious program in the school, which consists of services for several denominations; a Sunday school program in the morning and a Sunday afternoon service. "There is the job of converting a former dairy barn into a recreation center," Mrs. Cotter stated. "Work on the new 'Enchanted Barn' is being done entirely by volunteer help."

In discussing "Do we have a responsibility toward these children?", Mrs. Sloan told of the many organizations in this community, which are helpful; the Red Cross Swimming program, Boy Scout Troop, Art Classes in

the Pampa Youth Center, Vacation Bible Schools and the Saturday morning church school held in the First Christian Church Annex. She also stated that many civic clubs give moral support as well as financial help. She quoted the ECA's motto, "Every child has a right to fill his own cup."

Mrs. Nichols told how the church could be of benefit to parents and children alike. She stated, "the exceptional child especially needs the feeling of being wanted and accepted into a group. This is one important purpose of the church school for exceptional children. They also can learn a prayerful attitude and can have the experience of giving in their offering service. The minister can often be of great help in counseling with the parents." Mrs. Nichols said.

Mrs. Nichols also told of the Woodhaven Home For Children. "It is the intention of this school to develop the highest potential of each child. It is a non-denominational school now being built in Columbia, Mo."

The program was concluded by a devotion by Mrs. Kessinger and the CWF benediction.

SCRATCHES

Scratches in furniture can sometimes be masked by rubbing them with a mixture containing equal portions of boiled linseed oil, turpentine and white vinegar. However, there are many good scratch removers and fillers on the market. These are made to avoid further destruction or damage to surfaces. Many contain coloring to match woods. If you buy the right product and use it according to specific directions, scratches will not show.

STAINS

Remove unsightly tea and coffee stains from plastic cups with toothpaste. They'll be like new again.

The television crate.

LARGEST CROWD—Pampa Post 1657 of the Veterans of Foreign Wars walked away with "largest attendance" honors at the VFW District Nine Convention held last weekend in Panhandle. Vying for the attendance plaque were Perryton and Amarillo, according to Harry Nelson, local post commander. Pictured here with the coveted membership attendance plaque is Miss Janis Powell, 908 E. Campbell, daughter of Mr. and Mrs. Lonnie Powell. (Photo, Smith Studio)

Informative Program On Constitution Presented At Varietas Club Meeting

Mrs. H. Price Dosier Sr. introduced Travis Lively as the guest speaker at the Tuesday afternoon meeting of Varietas Study Club held in the home of Mrs. Sherman White.

Mr. Lively presented an informative program on the beginning, the development and the changes in the United States constitution. He briefly discussed some of the men, who had helped form the constitution: James Madison, John Blair, Robert Morris, Roger Sherman, Alexander Hamilton, George Washington, John McHenry and others.

He pointed out that in 1788, nine states had ratified the constitution and that in 1789, George Washington was first to preserve, protect and ratify the constitution. "There have been 24 amendments to the constitution," he stated and continued by discussing some of the changes.

"There are over two million people employed in our executive branch of government and 350 more are employed each day. Some of the persons are not loyal Americans."

"We are a free country, but let us look at our government bureaucracy. We could call it a political monstrosity. If you go into any kind of business today, you must get a permit and keep this permit

posted for people to see. We have free speech, but it might get you into trouble. The government can coin money and establish its value. Do we really have all the freedoms today?"

As an illustration, Mr. Lively quoted Benjamin Franklin, who said, "Sirs, I have lived a long time, but one thing I know that God rules our lives. We must have respect for each other. We must recapture these values."

To conclude the program, the 14 members present repeated in unison the preamble to the US constitution.

It was announced that Mrs. Ben Faulkner will be hostess for the next meeting in her home, 1807 Dogwood.

Attending were: Mmes. Cecil Dalton, H. Price Dosier, S. C. Evans, Ben Faulkner, Lee Harrah, Dow King, J. E. Kirchman, R. W. Lane, Otis Nace, Luther Pierson, W. A. Wagoner, Joe Z. Weaver, Ralph Thomas and Sherman White.

Bending Bones

If a bone is soaked for two or three days in any weak acid, the mineral matter will dissolve and the animal matter remaining can be bent into almost any shape, hence the belief that bones soaked in vinegar will turn to rubber.

Rho Eta Receives Recognition For Securing Pledges

At the Rho Eta Chapter of Beta Sigma Phi Sorority meeting, held Tuesday evening in the Citizens' Hospitality Room, it was announced that Rho Eta had been notified by the national organization—that out of 6,000 chapters throughout the world, Rho Eta was tied for first place for having the most pledges; the chapter has pledged 21 new members.

Mrs. Jewel Walker, guest speaker, was introduced by Mrs. Bob Bruner.

Mrs. Walker, a member of Pampa Little Theater, presented a program on "Drama". In discussing this phase of the Fine Arts, Mrs. Walker stated "Drama is a mirror of acts and customs of people. Everything you do in drama has a reason. Early drama re-enacted religion. Drama can drive out tormenting fears and hates, celebrates old values and initiates the audience into new states of thinking or feeling."

During the social hour, refreshments were served and Secret Pal names were revealed. Hostesses were Mmes. Raymond Williams and Jack Gillpatrick assisted by Mmes. Cleus Mitchell, Bob Bruner and LeRoy England.

The next chapter meeting will be on March 12 at 8 p.m. in the Citizens' Hospitality Room.

Take It From Kathy

by Kathy Peterson

Dear Kathy: I'm 16 and have some problems about a dance to which the girls invite boys. How should I ask the boy? My mother says I have to write a formal invitation but it isn't a formal affair and most of the other girls just invite the boys when they happen to bump into them.

Is it all right to take a boy who has never dated you? I don't want to look silly or seem to be chasing him. I'm also not sure about who should pay for the tickets.—L. Mc.

There isn't any reason why you shouldn't ask a boy who has never dated you. It wouldn't be chasing

unless you asked him two or three times without getting a return invitation. I don't like to disagree with your mother but for most school functions, formal invitations aren't necessary.

As far as money is concerned, the girl should definitely finance the tickets. Present them to him when he arrives to take you to the dance. Boys pay for everything else.

Dear Abby... Convention Dictates A Longer Wait!

By ABIGAIL VAN BUREN

DEAR ABBY: What do you think of a man whose wife died two months ago and he is ready to marry another woman? The man is 43 and the woman he wants to marry is 30. His wife left five young children. Everyone knows they need a mother, but what is the hurry? The whole town is against this marriage. Even his brown minister refused to perform the ceremony, saying it was disrespectful to the deceased wife for him to marry so soon. So the couple is going out of town to get married. What do you think of it?

SMALL TOWN

DEAR SMALL TOWN: Convention dictates a longer wait between mates than two months. But there is an old Indian adage: "Never judge a man until you have walked a month in his moccasins."

sity of pulling together now and all the rest of their lives. He also mentions that the tolling of the bells will announce to the world that they are man and wife, whereupon the couple rings the bell themselves. Sincerely,
MRS. D. H., LIGONIER, INDIANA

DEAR ABBY: I found a letter in my husband's pocket. It was from someone signed "TONI." When I asked my husband about it, he said TONI was a fellow he worked with. Now would a MAN write to another man telling him how much he liked his hair cut and saying he was looking forward to the next time they could have a beer together? And isn't TONI a woman's name, and TONY a man's name? I am confused and need help on this before I get really mad.

JEALOUS

DEAR JEALOUS: TONI can be a man's name or a woman's, but don't assume the worst. Some men play the game only after they've been given the name.

CONFIDENTIAL TO ALABAMA: Because many sin more than they suffer, some must suffer more than they sin.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

COMING TO GRIPS — Office workers in Munich, West Germany, work off tension by squeezing spring exercisers.

A good friend to your figure is right in your cleaning closet. Physical fitness expert Adele Kenyon points out you can have a sweeping good time toning up your muscles while using your broom. The exercises are simple. The model (left) starts with an over-all posture aid. She keeps her body straight, alternately tightens and relaxes her muscles, while sweeping deep and wide. The high-stepping exercise (center) is good for hips, waistline and legs. The bust, neck and chin muscles benefit from the back stretch (right) done 10 times as a closing exercise.

Sweep Away Threatening Bulges

By ALICIA HART
Newspaper Enterprise
Beauty Editor

No one seems to know who started the myth that a perfect figure is based upon a set of specific measurements. Certainly, it wasn't someone who allowed for the potpourri of shapes we see every day.

However, if there is not a truly "perfect" figure, something good has resulted from the whole illusion. It gives us something to shoot at. This is especially true for the housewife who feels she is getting enough exercise by merely following her daily homemaking routine. A tape measure or the bathroom scales might tell a different story.

We all need regular exercise. It stimulates circulation, keeps us from adding inches in the wrong places and helps relieve tensions that build up as junior falls out of a tree and sister uses your best lipstick to paint her own Mona Lisa on her bedroom wall.

Here are three simple exercises you can do while sweeping. All you need is a good broom.

If you were talking ballet, this exercise might be called the first position. With your broom in hand, keep your body ruler straight, tighten muscles, and sweep with your broom deep and wide.

each muscles. Maintain a taut posture as long as it is comfortable. Then, relax. Pause for a few deep breaths. Continue to alternate the taut posture and relaxation during one cleaning task such as sweeping a rug.

To help you peel inches from hips and waistline and help shape your legs, try this "stomping" exercise. You actually prance as you sweep.

Try to synchronize your leg movements with the sweeping motions of your broom. As you pull the broom back, lift your leg and bend it at the knee. When you pull the broom down in a sweeping motion, stamp your raised foot hard on the floor. Do this alternately with left and right legs. It will take a while to get the floor swept, but it's all in the interest of trimness.

A final relaxer and one that aids the bust, neck and chin muscles comes at the end of your sweeping job. Hold the broom behind the shoulders and use it as a brace. The point of this exercise is to tense your muscles against the broom. Alternately stretch shoulders back and arch head back. Bring forward.

Repeat this 10 times, and you are through with your own home fitness program. The end results should be a neat, clean house and a neat, trimmer you.

Caught between hair coloring at your beauty salon? You can cover up gray or tell-tale new growth hair with a spray hair makeup.

Hair Touch-Up Keeps Hair Sparkling Between Trips To Local Beauty Salon

By ALICIA HART
Newspaper Enterprise
Beauty Editor

Hair coloring can be applied to add dramatic high lights as well as to conceal an unwanted shade of hair. Tipping or frosting are as important as complete cover-up applications to the girl who wants to add a touch of glamour to her hair-do.

You may want to become a blonde, redhead or brunette, or to bring out all the special glory of your gray hair. You may want to brighten drab hair that has lost its luster from incorrect eating habits or too much sun. For this cover-up treatment, use temporary color. It's less drying.

Of course, you should track down the culprit that is causing the drabness and start to correct it so your hair will return to its natural, lustrous beauty.

One spray of temporary hair make-up can be used at home.

Use the spray to touch up gray or faded hair or to hide the fact that you are late in making an appointment to recolor your hair. The spray also is effective when you do your own tipping, frosting or streaking.

When you consider a new hair color, select one that does the most for your complexion and features. Unfortunately, not every one can be a blonde or redhead.

A soft hair color may be for you if you have sharp features and angular or hard planes in your face. If you have a large face, you will find that dark hair will make it appear smaller. And the reverse is true, too. A small face appears larger when framed by fair hair.

Dance Students Provide Entertainment For Rebekahs Annual Officers' Banquet

Vernon Hall served as master of ceremonies for the annual Officers' Installation Banquet held Saturday evening in the IOOF Hall, 800 E. Foster. Special guests introduced included Noble Grand Leroy Kretzmeier, Mrs. Dean Monday, Rebekah Lodge Noble Grand and Mrs. Roy Kretzmeier, incoming president of the Rebekah Assembly of Texas.

Dance students of Jeanne Willingham's Beaux Arts studio presented the program: Tamborine Tap by Dixie Bond, Viola Parsley, Dana Martin and Patti Lowrance; "Shine," a tap by Ola Faye Grayson and Debra Parker; "How You Going To Keep Them Down On The Farm," Honey and Dixie Bond; "Lovely Hula Hands," Linda Brumley; Charleston by Peggy Griffin and Richard Lowrance; "Hey, Look Me Over," Honey and Dixie Bond; and "Drummer Boy" by Jackie Edwards Jr.

Preceding the program, a buffet were served from tables appointed in white cloths with the three links and tulips, the selected flower of the noble grand, Mrs. Monday. Carrying out the theme of the state president, Leona Sheppard, a large blue and gold fan decorated the officers' table to symbolize the teaching of Odd Fellowship; small fans decorated the other tables intermingled with a Spring theme of artificial trees and tulips.

A special table with a Blue Bird Tree was decorated for the Theta

Different Phases Of Modern Art Topic For Art Instructor At Exemplar Meet

Mrs. Willeta Olds, art instructor at Robert E. Lee Junior High, discussed "Modern Art" at the Guest Night meeting of the Exemplar Chapter of Beta Sigma Phi Sorority held in the home of Mrs. James Poole, 1715 Beech.

Following an introduction by Mrs. Barney McMullan, Mrs. Olds began her discussion by stating "The basis for Modern Art actually began during the 18th century when both industrial and cultural changes were taking place. The artist was trying to gain prestige once more after being pushed out by the machines that were taking their place."

"The Old Masters," she said, "were striving for rightful expressions of freedom. The new artists were trying to make a place for the individual man and also gain rights in freedom of expression. As a result, we have the phases of the 'history of modern art.'"

"First came Naturalism, trying to replace what the camera had taken away. Next came Realism, the showing of what one really sees. From this came the Semi-Abstract, which meant going as far as an artist wished, pass Realism."

"Then came Abstract, which gave a place of losing all reality. Non-Objective was the next phase in which there was no object giving the entirety to the viewer's imagination. As a result we have the so-called 'Modern Art.'"

Mrs. Olds stated that her first love is Children's Art in which a child can express himself freely without unjust criticism.

Several pieces of art were displayed by Mrs. Olds including a tempera of micromatic tones in semi-abstract; other absorbing pieces of interest were sculptures and tempera with oil glaze.

Guests and members were introduced by Mrs. Leymond Hall in the absence of Mrs. Jeff Trully president.

Guests attending were Mmes. Bill Ellis, Bill Nichols, Russell West and James White.

Members attending were Mmes. Murry Sealey, James Scholl, Jim Meredith, Ted Knox, Leymond Hall, Joe Fischer, Ralph Esson, Howard Buckingham, John Plaster, Dot Francis, Jack Vaughn, Barney McMullan and Miss Virginia Vaughn.

Top Two Hits Hold Their Own

CHICAGO (UPI)—The Four Seasons' recording of "Walk Like A Man" remained in the No. 1 position for the second straight week in the United Press International ratings of the nation's top 50 tunes.

Paul and Paula's "Hey Paula" remained a close second, but there was a general scrambling of the other tunes on the chart.

"Rhythm of the Rain" by the Cascades jumped from fifth to third and the Rooftop Singers' "Walk Right In" stepped down from third to fourth.

"Ruby Baby" by Dion slipped a notch to fifth this week and "End of the World" by Skeeter Davis leaped from 11th to sixth. Another comer is "Our Day Will Come" by Ruby and the Romantics, which advanced from 14th last week to seventh.

The Rebels' "Wild Weekend" is in eighth this week and Bobby Darin's "You're the Reason I'm Living" is ninth—both down two positions from a week ago.

The Chiffons' "He's So Fine" made it to the No. 10 spot just two weeks after it appeared in the survey.

This week's top 20 tunes, with positions last week and number of weeks in top 20:

- (1-5) Walk Like A Man. The Four Seasons. Vee Jay.
- (2-9) Hey Paula. Paul and Paula. Philips.
- (3-8) Rhythm of the Rain. Cascades. Valiant.
- (3-9) Walk Right In. Rooftop Singers. Vanguard.
- (4-5) Ruby Baby. Dion. Columbia.
- (11-2) End of the World. Skeeter Davis. RCA Victor.
- (14-1) Our Day Will Come. Ruby and the Romantics. Kapp.
- (6-3) Wild Weekend. Rebels. Swan.
- (7-4) You're the Reason I'm Living. Bobby Darin. Columbia.
- (15-2) He's So Fine. Chiffons. Laurie.
- (11-2) What Will Mary Say. Johnny Mathis. Columbia.
- (12-2) Blame It On the Bossa Nova. Eydie Gorme. Columbia.
- (16-2) Greenback Dollar. Kingston Trio. Capitol.
- (10-0) In Dreams. Ray Orbison. Monument.
- (10-3) From a Jack to a King. Ned Miller. Faber.
- (6-0) Alice in Wonderland. Neil Sedaka. RCA Victor.
- (17-0) South Street. The Or-Lons. Cameo.
- (6-0) Denver. New Christy Minstrels. Columbia.
- (19-3) Cast Your Fate to the Wind. Vince Guaraldi Trio. Fantasy.
- (8-0) Little Town Flit. Del Shannon. Big Top.

MONEY MATTER — Tax collector Bob Sweeney makes a call on Fred McMurray and Nancy Olson in Walt Disney's "Son of Flubber". MacMurray and attractive Miss Olson, who created the roles of the inventive professor and his fiancée in the hilarious laugh hit, "The Absent Minded Professor", are returned in Disney's Howling successor, "Son of Flubber" with only one change, they now play newly weds. Starting with these two are Keenan Wynn and Tommy Kirk. This splashing hit starts Thursday, March 7, at the Capri Theatre.

Jazz Ensemble Concert Unusual And Entertaining

The first half of the program presented by the American Jazz Ensemble Friday night, was devoted to anything but jazz.

It dealt with works by masters of the romantic and contemporary musical periods.

The presence of these compositions on the program might have been a little confusing to some had they not been accompanied by an explanation, associating the works with the jazz technique.

The concert in the Jr. High School Auditorium was the fourth of the season sponsored by the Pampa Community Concert Association.

The ensemble consisted of four pieces: piano, clarinet, bass fiddle and drums. The pianist and clarinetist, John Eaton and Bill Smith respectively, carried the major weight of the program.

With the "classical" preliminaries out of the way, the group got down to the main business of the evening jazz.

As a musical form jazz is a term which seems to defy accurate and simple definition.

One of its almost indispensable characteristics is improvisation. A work in jazz is seldom written down on paper and almost never is played the same way twice. The basic idea for a performance is suggested either spontaneously by one of the players or is taken from a well known tune. Thereafter

the audience was about two-thirds capacity. If applause is any indication, most enjoyed the evening immensely.

The concert association is sponsoring a surprise fifth concert about the end of this month. Be sure to hold on to your tickets and watch for announcement of the exact date.

While he was in Europe, Bergerac made four pictures, two comedies, a historical-film about France and a mythological story. His first job since returning home was a role on CBS TV's "Dick Van Dyke Show," playing

—Bill Haley

SHOW BEAT

By **ERSKINE JOHNSON**
Hollywood Correspondent
HOLLYWOOD (NEA) — 'Some actors these days are so busy being natural they look hanny. . . . The older you become, the more brilliant you should be as a conversationalist.' . . .

"I feel sorry for actresses who count on beauty alone and never learn their trade. When they are not wanted they are shocked. But when I'm not wanted, lack of fame isn't going to shock me because I've never wallowed in it. As a matter of fact, I'd make a great kitchen or second maid. I'm a good cook, clear as a whistle and I can drive a car." . . .

"New York cultural climate better for acting? That's a lot of pretentious buzz." . . .

I was visiting Katharine Hepburn here — and she was in a rare, gay, talkative mood.

Her quotable quotes come alive again as I flip the pages of my notebook:

"On movies: 'Still the world's most thrilling medium. But why do people dig away at moviemakers just because all of them are geniuses? So few people are you know.' . . ."

"Please yourself, I always say, because, if you do, at least one person is pleased." . . .

"The older you get, the less you care about what people think about you. I remember as a girl being worried about a trip to Long Island because I had an old suitcase. Now I can go to the airport with all I need wrapped in a newspaper." . . .

"In acting, this is the day of psychoanalyzing, isn't it. The day of, 'Don't you want to tell me your innermost thought about this scene?' Bunk. Acting is something you can do or you cannot do. You make that discovery yourself — difficult for me, you know. Physically, that is, I feel as if I have arm six inches longer than anyone else." . . .

"Method acting? God can do more for you than the method — and you don't take so long doing it." . . .

"I hate 'sick' humor, don't you? When I was a child and sick I was told to go upstairs to bed and not to come down until I was a well. I was taught that sickness is not interesting. It still isn't. But then everything is so talked about these days. Nothing seems beyond our power of words anymore." . . .

French Lover Wants To Be Cast As A Bum

By **JOSEPH FINNIGAN**
UPI Hollywood Correspondent
HOLLYWOOD (UPI) — Jacques Bergerac, a handsome Frenchman with scores of romantic roles to his credit, wants to play a back alley bum for a change of pace.

After all, argues Jacques, France has its share of bums, bandits, thieves and generally all-around nogoodniks. So why, he asks, does a Frenchman always have to be cast as a husky voiced and persuasive lover always on the lookout for a pretty girl.

"Because you happen to have a certain facial structure and an accent, and also be from France, some producers think of you as a type which is of their own imagination," said Jacques. "In Hollywood the Frenchman is looked upon as a hand kisser who knows all about women."

That's just not so, insisted Jacques, putting down his wine glass and waving his hand in a gesture of disgust.

"Frenchmen live their lives like Americans," Bergerac said. "They are creatures just like everybody else, human beings with the same emotions as other people."

Was Away Two Years
Bergerac, who is married to actress Dorothy Malone, returned from Italy a month ago after being away from Hollywood for two years working in European pictures. He made trips back occasionally.

"As far as I was concerned, all the work for me in motion pictures was over there," he said. "I would go where I could find work although I would prefer to work here."

While he was in Europe, Bergerac made four pictures, two comedies, a historical-film about France and a mythological story. His first job since returning home was a role on CBS TV's "Dick Van Dyke Show," playing

—Bill Haley

role which doesn't have him chasing every girl in sight. "It's a warm and human story," said Jacques, who hopes that he might be able to land a series of his own.

Bergerac has a French accent, which he says is "impossible" to overcome, but even with that obvious appendage marking him as a foreigner, Jacques hopes to make a Western movie.

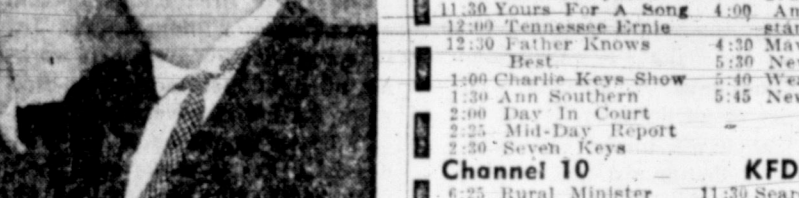

For years he's had an idea about playing a Frenchman who settles in the Dakotas and raises

cattle. However, producers have turned down Jacques' idea. "It's history," he said to prove that his story line makes sense. "There were different nationalities in the West."

Bergerac hopes the increase of communications between France and America might make things easier for French actors who want to do something besides kiss on screen.

"With more communications Americans are understanding the French," he said hopefully. "We

—Bill Haley

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

By carrier in Pampa, 25¢ per week, \$1.50 per 3 months, \$5.00 per 6 months, \$15.00 per year. By mail paid in advance at office, \$10.00 per year in retail trading zone, \$15.00 per year outside retail trading zone. Single copies 10¢. Price per single copy by carrier, 15¢. No mail orders accepted in Pampa. Published daily except Saturday by the Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone NO 4-2525. All departments. Entered as second class matter under the act of March 9, 1878.

Kennedy's Administration

On balance, the Kennedy administration hasn't done well.

Not since Harry Truman has there been greater dissatisfaction expressed concerning the way decisions are being made in the White House and in adjacent butressing bureaus and cabinet posts.

Probably the sorest point, and the one which has caused the greatest single outcry since Mr. Kennedy laid his hand on the Bible, is the Cuban situation.

When responsible persons, including Navy Intelligence, tell us that there are now more Russians in Cuba than was true at the time of our threatened action against Cuba, it is clear that the President hasn't managed this particular international impasse with much in the way of finesse.

And the bleat of undersecretary Ball the other day, that all of us ought to stop talking about Cuba and let the President do what he thinks best, failed to bring much in the way of popular reassurance that all is well.

Then there is the contretemps with France and De Gaulle. There is a great deal of concern and confusion over the European Common Market. This idea has been "sold" to the American people. But now the President has created strained relations because De Gaulle vetoed the admission of Britain, thereby, in all probability, saving Britain from making a major error. The degree of energy expended in condemning De Gaulle was not matched by an equal degree of energy in showing the American people why American interests were favorable to British entry into the European closed-circuit exchange program.

Then take the Canadian blow-up. Mr. Diefenbaker has charged that there was too much American influence in the making of Canadian policy. And while it is doubtless true that Mr. Diefenbaker has been less than skillful himself in this matter, there is certainly little call for Canada to doubt our intentions in the formation of Canadian policies. Thus, there is more than a little feeling in the nation that probably the Canadian prime minister was cor-

rect and we were butting in altogether too much.

Equally puzzling and even more the source of disquietude has been our blind support of the U.N. in its Katanga aggression. Although expressed outrage here has largely been limited to those who have anti-U.N. sentiment, the fact is the outrage in Katanga was so overt and bold that even strong pro-UNers have had their faith shaken.

Add to this the continual emphasis upon giving away our billions in foreign aid to nations whose affection for us has been sorely tried if not actually demolished by some of our diplomatic meddling and folly, and we come to a total picture which casts a long shadow over virtually everything Kennedy has suggested or ordered in relation to foreign affairs.

But on the domestic scene, the situation is not much better if at all. The use of troops at Ole Miss is going to be discussed and debated for years.

The "success" obtained in enrolling a single Negro with the help of ten thousand troops remains a bitter and pyrrhic victory. Certainly the event did not improve the already strained racial relations in Mississippi or elsewhere.

And now the President wants to cut taxes. This move, which would have been applauded had it come three years or even two years ago, is now looked at with understandable cynicism. Too clearly the American people see it as a political device calculated to woo voters back into the party fold. For they will know that unless government expenditures are cut back to match the tax cut, a new round of inflation is in store for us all. Also, there is grave doubt that anything more than talk of a tax cut will come, anyhow.

Investors haven't forgotten the President's personal vendetta against the steel people; and the use he has made of his own brother as attorney general, in this regard.

Altogether, the Kennedy administration, despite the pumped up effusion of the hacks hired to praise it, hasn't set well with most Americans.

Separatists

Nathan Gross is a Jew. In a speech before the Union of Orthodox Jewish Congregations of America, Nathan Gross opposed federal aid for Jewish schools. His comment was: "As an American and an orthodox Jew, I feel dirty taking charity from the federal government."

Hurrah for Nathan Gross. We are with him. Recently, in Philadelphia, the United Presbyterian Church's third largest single unit was given an opportunity to gobble up some \$400,000 of federal government money as an "assistant" to the building of "Presbyterian Homes, Inc." Senator Joe Clark had heard that the Presbyterians were looking for gifts and he figured this was an excellent way to spend the tax money already in the monstrous paws of the state and win a little religious sanction at the same time. As he saw it, the matter was all "cut and dried."

But the Philadelphia Presbytery turned down the grant with a stinging rejoinder that left federal officials "babbling incoherently." Whoever heard of saying "no" to that much money offered with no strings attached? Hurrah for the Presbyterians of Philadelphia. We are with them, too.

But let's get the whole picture of government activity in focus. For many years, Catholics, more than any other single body of religious conviction, have insisted on having their own schools. And this means that more than any other professing Christians, Catholics have paid twice to have their children educated. Once when they contributed to their church school,

once again when the tax people assessed them in support of the government schools to which their children did not go.

In each of these cases, government has done or sought to do an immoral thing. And it is encouraging to note that there is an awakening conscience in America which says that there should be a complete separation between church and state. But this is only part of the story. There must also be a complete separation of schools and state for education to thrive.

We really need look no further than Sweden to discover what the admission of the state to religion has done. In that country the state supports the official (Lutheran) church and pays the bills for the general tax funds collected. But attendance at church is in the decline. No one yet has called for a law to compel church attendance. But there is never any lack of money to see that religion should be available for everyone.

What would happen in this country if the state withdrew its support from the educational edifice and also stopped compelling all children to attend? We would hazard a guess that in a climate of renewed freedom, our school picture would be enhanced immediately. There would be a great clamor for more and better schools. But there would be a difference: For in this case there would be PERSONAL PARTICIPATION of the persons interested. And educational excellence would have a real opportunity in the land. Now if we can extend the thinking of Nathan Gross and the ac-

Pull Up A Chair

By Frank J. Markey

In the City of the Sun, as the natives call San Antonio, plans for the trip to the Moon were first made about 15 years ago at the School of Aviation Medicine, by a small group of scientists. At that time the word SPACE was considered a dirty word by most airmen and people laughed and thought the space planners somewhat crazy. But in 1961 the name of the great research center was changed to the School of Aerospace Medicine. It is staffed at present by 2200 brilliant physicians, scientists and co-workers. They are America's elite in the pursuit of space medicine, which made our astronauts' journey safe, by providing health protection. Now they are working so that our spacemen can reach the Moon and return without injury. The scientists say they will make it sometime within this decade.

The cheapest taxicabs in the world are in Mexico City and there are plenty of them. A five-mile ride costs about half a dollar in American currency. Since the Reds occupied the Chinese mainland no census figures have been given out, but in 1948 the population was in excess of 462 million. "A chicken in every pot" was Herbert Hoover's old campaign slogan. We feel sure his staff, reached back to the days of King Henry IV of France for the motto. This Frenchman is on record as saying, "It is my wish that every citizen has his poule-au-pot every Sunday." (Chicken meat in broth.)

Structural polymers, an ingenious plastic, developed after long research can now simulate in minutes jade, marble, gold and other material. The real thing, of course, takes nature millions of years to manufacture. These new plastics are showing up in household furnishings.

Country editor speaking: "The ancients thought Atlas supported the world. They hadn't heard of Uncle Sam. Our city traffic commissioners are fighting an age-old problem; traffic congestion. Even in ancient Rome, traffic was so heavy that Julius Caesar forbade all chariot parking in the downtown business district from dawn to sunset. In the Roman 'garment district,' says a Catholic Digest story, the 'No Parking' sign was out all the time. Transition: In recent years there has been a trend toward spring vacations. Studies indicate that 17.3 per cent of all vacations now are taken in the months of March, April or May.

Shakespeare certainly knew how to telescope wisdom into few words. Two examples: "There is nothing good or bad, but thinking makes it so." "Suspicion often haunts the guilty mind."

Foreign correspondents tell us that long before "The First Family" record album appeared on the scene in the United States, a French satirist did a top-level humorous job on General de Gaulle which makes the American production look like kid's stuff.

And speaking of children, when a lad we clearly remember buying a copy of the WORLD ALMANAC for 25 cents. The other day we bought the 1963 edition and it cost \$1.50. It's the 78th year of issue and it even carries the story of the New York printers' strike, which started in December, causing the newspaper blackout in that city as of this writing.

Less than ten per cent of the 1,000 or more popular record albums produced every year show a profit. Next time you are in New York City we suggest you visit the lobby of the Daily News building, on East 42nd Street, just two blocks from the United Nations. The large rotating globe in the center, together with full weather reports, are recorded on instrument panels showing conditions at that very minute. The News has its own weather station on the top of the building. And, like the brass compass star set in the pavement in front of Notre Dame in Paris, all the distances to the great cities of the world are measured in miles by directional arrows from the center of the lobby.

Members of the Presbyterians and the habit of the Catholics, to the field of education. Then we will have made some real progress.

When we can say we "feel dirty" insisting that persons without children and persons who otherwise educate their own children at their own expense, are also forced to educate our children, then we will have cleaned ourselves up considerably.

ARE THERE COMMUNISTS IN OUR GOVERNMENT?

By Harry Browne

The question is often raised, "Are there Communists in the federal government?" A loud and lengthy argument frequently follows.

Because the names of specific Communists are not cited, it is reasonable to presume there are none in the government. On the other hand, communism is defined as the abolition of private property by political force — and many agencies of government seem to be following such a program.

So the argument continues. But questions should be answered—and this one is too important to leave to endless argument. The matter should be resolved. But how?

How To Solve It

We can resolve the dilemma simply by making it impossible for Communists to hurt us — in or out of government. If we can do that, it will matter little who may be a Communist and who isn't.

A hundred years ago—when our nation was pointed upward instead of downward—there was little fear that our government had been infiltrated by alien elements. This was because the government was constitutionally restrained from trespassing beyond certain limits. Infiltration was possible, but not profitable—for the infiltrator could only acquire control over a very limited segment of our national life. All the rest was still in the hands of the people, to direct as each individual personally saw fit.

The Prize

But today, however, the federal government has its hands on everything — regulating, controlling, and owning. Whoever can infiltrate and capture control of the government has control of the people as well. No wonder it is a prime target for Communist subversion.

If we once again limit government to the size and scope permitted by the Constitution, we will have no need to fear mysterious and unnamed elements operating within it.

We can defeat Communist infiltration and subversion just by

Edson In Washington

Creating Jobs Is Slow Process... And Costly

By PETER EDSON

WASHINGTON (NEA) — President Kennedy's request to Congress for another \$500 million for the Accelerated Public Works program—APW, but not WPA—raises the question of how effective this kind of assistance is in relieving depressed area unemployment. A preliminary answer is not much.

When legislation setting up this one-shot, one-year program was passed last fall, Congress authorized \$900 million for it in federal funds, but appropriated only \$400 million. This was to get it started and see how it worked out. The job of Area Redevelopment administrator William L. Batt Jr., is to convince Congress it is working all right. Batt acts as coordinator for the 14 government agencies operating pieces of the business. He has to make sure there is no duplication and that all approved projects meet conditions of the law on their essentially public financing.

The 2,900 projects so far accepted for consideration are in various stages of progress from planning to financing to actual construction. The law specifies one-third of the funds must go to rural and low median family income level areas. Two-thirds go to urban areas of high, long-term unemployment.

Projects which U.S. government agencies like Soil Conservation Service, Bureau of Public Roads, Bureau of Indian Affairs, Bureau of Reclamation, Corps of Engineers, Forest Service, National Park Service and Post Office Department do or supervise directly on contrast are farthest along because they get 100 per cent federal funds. So far, about a third of the allocated funds have gone to such projects but this proportion may be cut to a fourth of the total.

The other two-thirds of the projects approved so far have been for community facilities, sewers, water systems, public buildings or hospitals not qualifying for Hill-Burton funds — which could not be built without federal aid. For these the federal government puts up 50 to 75 per cent of the money, local governments the balance from available funds or by authorizing special bond issues.

So far, \$250 million federal funds have been allocated for 1,100 such projects to supplement \$125 million in local funds. With the \$110 million for 1,300 wholly federally financed projects, total allocations to date are \$485 million. Average cost for the 2,900 projects is \$167,000, but the range is from \$10,000 for a post office repair job to \$2 million or more for a major community facility like a water system.

Since the act has been operational for less than five months, it is a little difficult to tell what its full effects will be.

Paul Southwick, in direct charge of APW at Department of Commerce, estimates that about 56,000 man-months of employment will be needed to complete the projects approved so far. This is only 49,000 man-years of employment. The average project will take about a year to complete.

Let's defeat communism — the American way!

Let's pass the Liberty Amendment which will abolish once and for all the unconstitutional practices of government — and thereby revitalize our productive private enterprise system.

If there are Communists, socialists, or racketeers in government, the Liberty Amendment will render them powerless.

Your state legislature may be one of the 34 that is considering the amendment now. Be sure your state representatives know your support it.

Let's defeat communism — the American way!

Allen-Scott Report

Other MIG Incidents in Florida Straits Unannounced; 'Don't Fire First' Still in Effect

WASHINGTON — That shrimp boat attack is only one of a number of MIG incidents in the open waters between the U.S. and Communist-ruled Cuba.

Prior to that, on at least six occasions MIGs "buzzed" U.S. Naval patrol planes flying surveillance missions in this troubled area. The last of these deliberately provocative episodes occurred February 18—just two days before the gunfire assault on the unarmed and disabled shrimper.

Full reports on each of these aggressive "buzzing" incidents were made to the President, State Department and Pentagon. In each instance public disclosure was banned by direct White House edict.

The shrimp boat attack became known only because newsmen and members of Congress were tipped off about it and began demanding information. Only after the White House, State and Defense Departments were bombarded with inquiries did they admit what they had suppressed for more than 24 hours.

While the Naval patrol planes are armed, they did not fire at the "buzzing" MIGs. The U.S. pilots did that under stringent orders not to use their weapons unless fired upon.

Military authorities are convinced there is a direct relation between the "buzzing" incidents and the machine-gunning of the shrimp boat.

This sequence is a characteristic Communist pattern. The Reds extend their provocative probes step by step to determine how far they can go before there is a reaction. Its nature and scope determines what they do next.

Contrary to certain press reports, there has been no change in the "don't fire" orders of U.S. pilots. They are still strictly barred from using their weapons against the Cuban-based MIGs unless fired upon. In other words, the MIGs can continue to "buzz" and otherwise harass our planes with impunity.

Defense Secretary McNamara personally revealed this in his secret testimony before the Senate Armed Services Committee.

In response to a question on what the Kennedy administration proposed to do in the event of a repetition of the shrimp boat attack, the Pentagon chief made this reply:

U.S. planes have orders to fire only if fired upon. They are free to fire on any plane or ship attacking an American plane or vessel in international waters, but "hot pursuit" is prohibited. McNamara stated that both he and the President are emphatically against that "for the present."

THE UNTOLD STORY — Three MIGs were involved in a Navy patrol plane — 2 MIG-17s and 1 supersonic MIG-21.

The U.S. plane was over international waters approximately 40 miles off the northeast coast of Cuba when the MIGs swept in and made their first "buzzing" pass. They were preparing to make a second when two supersonic U.S. interceptors appeared on the scene.

They had hurriedly "scrambled" aloft from a Florida base in response to word from the Naval plane.

The three provocative MIGs broke off abruptly and hightailed for Cuba.

The two U.S. interceptors, closing in at supersonic speed, could have overtaken the Reds and unquestionably blasted the MIG-17s.

out of the sky. But beyond chasing the "buzzers" off, the American pilots did nothing — under orders.

Their orders flatly forbade them from using their weapons against the Communist planes.

Later, the crew of the patrol plane reported the MIGs flew so close they could clearly see the pilots. Also that the pilot of the MIG-21 was apparently the commander of the trio and that, while he spoke Spanish, he had a pronounced guttural accent.

In addition to these White House suppressed "buzzing" incidents, U.S. radar frequently picks up MIGs and Soviet-built reconnaissance planes flying at high altitude over the open waters between this country and Cuba.

The Russians are definitely known to have at least two U-2 type reconnaissance planes in Cuba, manned by Russian pilots.

They also have an estimated 40 MIG-21s, all piloted by Soviet block personnel. No Cubans fly these latest type supersonic fighter-interceptors. Cubans do pilot MIG-15s and some MIG-17s.

But all these Russian-built planes are under Soviet command.

The air commander of Cuba is Col. General N. I. Gusev. Chief of all Soviet forces in Cuba is General C. O. Slazenko. Under General Gusev are some 2,200 Soviet pilots and technicians.

Also under his command is an extensive communications and radar system that controls all military air traffic over Cuba. This widespread-communications network is linked directly with the massive anti-aircraft defenses the Russians have in Cuba. These weapons consist chiefly of high and low level air-to-ground missiles capable of being armed with nuclear warheads.

The Senate armed services committee, conducting an inquiry of the Cuban menace, has been informed that Secretary Dean Rusk and McGeorge Bundy, special foreign affairs assistant to the President, urged that a direct protest be made to Castro instead of Khrushchev on the shrimp boat attack.

The Joint Chiefs of Staff were studiously not consulted by anyone on this matter.

According to what the Senate committee has been told, Rusk and Bundy persuaded the President to dispatch the note to Havana instead of to the Kremlin on the ground that the latter would "jeopardize" the administration's efforts to induce Khrushchev to make good his word to withdraw Russian troops from Cuba.

BACK TO UNCLE AGAIN—India is turning to the U.S. for top notch fighter planes, after a 11. After all the hoopla about those MIG-21s Nehru was to get from his great good friend Khrushchev, it now develops that all this amounts to is four MIG trainers. So India wants to buy 40 of this country's supersonic F-104s and F-106s. No decision has been made on that as yet. Final action will depend on the findings of a U.S.—British study of India's air defense needs. The Castro regime, with extensive Soviet bloc aid, has finally completed its largest new plant — a factory to make barbed wire. Equipped with 21 machines from Czechoslovakia, the plant has a claimed capacity of 6,000 tons of barbed wire a year — all for military prison purposes. This is the first factory of its kind in Cuba and it is revealing commentary on the terroristic regime now in power there.

"BEST" SCRATCHER

The Reliable Oiler that takes care of itself! The new quick change absorption apron is a new feature, especially for the F.A.C.E. PLY. We supply the latest chemicals for the control of burn, frost, tack, fly, lice, ticks and other pests. They are used over the entire United States and Canada. Buy a "BEST" - We also do the real. Beware of substitutes on the market, they are made to sell and not economical to use.

WHO ELSE WOULD GIVE YOUR CAR SUCH SOLICITUDE AND AFFECTION?

Why me - the dealer who sold it to you!

I've got a proprietary interest in your car. I want to see it running A-OK all the time, as the space experts say. It's good business and good advertising for me.

And nobody is better equipped to work on your car than the franchised dealer in those cars! I have the tools, the factory trained service personnel, the most modern equipment, and all factory-approved parts. That's a combination that can't be beat!

So remember - next time your car needs servicing, take it where it's going to get the most solicitude and affection! Your franchised new car dealer!
