FOR CIVIL DEFENSE — A shipment of Civil Defense supplies and equipment arrived in Pampa this morning for storage in the Federal Bldg. until they can be distributed to four approved CDA shelter buildings. Truck Driver Jim H. Harper, left, is shown here handing down a drum of the supplies to Civil Defense Director Bill Leonard, as they were unloaded at the Post Office. The supplies included 125 cases of crackers, 200 water drums, 12 packages of disposal bags, 21 drums of sanitation kits, and 13 medicinal kits. (Daily News Photo)

AEC Is Planning To Prove Atom Blasts Are 'Safe'

WASHINGTON (UPI) — The Atomic Energy Commission said today it plans to prove in the next five years that it is practical, safe, and cheap to gouge canals, dig harbors, and blast mineral wealth from the earth with nuclear explosives.

It said it already has proved that underground atomic blasts are a "versatile tool" comparable to the atom smasher for peacetime scientific research.

Now AEC is embarked on a program of two explosions a year over the next four years to establish that the violent atom is incomparably the best means available to man for moving earth on a gigantic scale.

Some of these blasts will be of radioactively clean H-bombs equal in power to 10,000 tons of TNT, only half the power of the "dirty" fission weapon which destroyed Hiroshima. Others will be in the million-ton range.

This was the big news in the AEC's annual report to Congress, released today.

On the subject of weapons, it said the underground testing program suspended by President Kennedy last week had "proved quite successful." The AEC has announced 61 shots in Nevada, including two for the United Kingdom.

In the Pacific tests conducted last year the United States announced 36 explosions, including five high altitude shots over Johnston Island.

The AEC report said: "The new weapons produced during 1962 were of more modern design with improved effectiveness, reliability and safety over weapons previously in the stockpile. The program of retirement of obsolescent weapons was also continued."

It added that research was continuing "to prevent the possibility of unauthorized use" of atomic weapons. It is something that has long worried those who fear a nuclear war might start by accident.

House Armed Services Committee on the status of U.S. military power. He presented the 163-page summary at a closed session. A censored version was made public by the committee.

The defense secretary assured the lawmakers the United States was "fully capable" of destroying key Soviet targets "even after absorbing an initial surprise attack."

Bombers and Missiles
He said this country had about 650 bombers on 15-minute ground alert and more than 200 Atlas, Titan and Minuteman missiles on launchers along with 144 Polaris missiles in submarines ready to retaliate.

"Allowing for losses from an initial enemy attack and attrition en route to target," he said, "we calculate that our forces to day could still destroy the Soviet Union without any help from the deployed tactical air units or carrier task forces or Thor or Jupiter intermediate range ballistic missiles."

McNamara said President Kennedy's recommended \$53.7 billion defense budget would strengthen U.S. preparedness even more while Russia and Red China "struggle for power in the Communist camp."

He declared that "the destruction of freedom and free nations (See McNAMARA, Page 3)

McNamara discussed plans for a new, experimental air assault division during a long presentation covering all aspects of the House Armed Services Committee.

"As presently envisaged, the air assault division would be equipped with about 400 helicopters and Army-type fixed-wing aircraft, compared to about 100 in the standard division," he said.

The division would be backed up by an air-cavalry brigade, similarly equipped with helicopters and with a mission "much like the horse cavalry of earlier years," McNamara said.

For each division of combat troops there would be an air transport brigade with 134 helicopters and planes, including 80 twin-engine AC1 Caribous capable of carrying 6,000 pounds each.

McNamara said larger, longer-ranged Air Force planes would "wholesale" supplies to field depots, and Army planes would "re-tail" them to the troops.

De Gaulle, undeterred by the reaction to his veto, summoned his cabinet in Paris today to push ahead with plans for his "grand design" for a resurgent Europe, independent of the United States.

Speculation that the 72-year-old president is embarking on his own deal with Moscow was reinforced by a meeting he had Tuesday night with Soviet Ambassador Serge Vinogradov. No details were available immediately.

He also has been casting lines toward Denmark and Spain in an effort to expand France's continental influence.

U.S. officials were counting on the other NATO allies to bring France around eventually to the need for a broad Atlantic alliance with Britain and the United States.

Charter Amendment Vote Faces Pampanos Tomorrow

Asks Early Action Mayor Submits 3-Point Program

A three-point program was submitted to city commissioners last night by Mayor E. C. Sidwell with recommendation that it be given immediate consideration for early action.

First, the mayor recommended an immediate revision of water rates to partially meet the cost of Canadian River Municipal Water Authority financial obligations. The city manager was asked to present a proposed rate schedule at next week's commission meeting.

Second, the mayor recommended that the city begin immediately to set aside \$12,500 monthly from water revenue to be placed in a special fund, and that the general budget be reduced to take care of it.

"If we keep syphoning money out of our water revenue for general operating costs, we are going to be in trouble," the mayor said. "It is all right until you are faced with six or seven million dollars in capital improvements."

Third, the mayor said he would like to see the commission go on record and adopt legislation to have an itemized agenda of all issues coming before the commission sent to all news media four days before the meeting date.

Commissioner Graham said the next commission could repeal any such resolution or ordinance if it wished.

"That's fine," said the mayor. "Let them repeal it. At least we will be on record as handing down something the public should have. I feel that the only hope is for the people to know what their governing body is doing and let them have a part in the discussion of public matters."

The mayor said he thought this should be placed on the records as a policy of the present commission with a recommendation that it be continued by succeeding commissions.

The city now has a policy of mailing a copy of the commission agenda to news media on Friday before the regular Tuesday meetings.

In other business last night the commission passed a resolution and placed an ordinance on first reading for the paving of S. Barnes St. from the Fort Worth & Denver underpass to the south city limits. It also set March 12 as a date for a public hearing on the project. The new ordinance reduces the property owner's share of the paving cost from 90 per cent to 62.53 per cent and places them on the same basis as paving costs in residential area of the city.

First reading was given to an ordinance removing a no-parking zone for 121.5 feet on the west side of the 500-block of N. Cuyler St. between Montagu St. and Sunset Dr.

An ordinance authorizing four-way stop signs at the intersection of Browning and Starkweather Sts. was read for the first time.

The commission opened four bids for a street grader. City Manager Harold Schmitzer asked for a week to study the bids before awarding the contract.

It was decided to hold next (See SIDWELL, Page 3)

Official Asks Election Be Called Off

City Commissioner Will Graham asked the City Commission again last night to reconsider and call off tomorrow's special charter amendment election.

Graham said he thought there was sort of an "emotional stampede" current in the city.

"I do not believe tomorrow's election will be settled on the merits of the issues to be voted on," he said.

"In fairness to the contents of the ordinance calling the election, I think it should be given a better chance to pass."

Graham has been an advocate of postponing any charter amendment election until the regular city election in April.

Commissioner L. P. Fort said he couldn't understand "why all the opposition to tomorrow's annexation amendments."

"Two years ago those who are opposing it now, wanted it," he said. "Now they seem to think it is poisonous."

Fort went on to say: "As long as the people who have been running Pampa for forty years are not running it now, they are going to be emotionally upset."

Mayor Sidwell said the annexation problem had been a stumbling block in Pampa for years.

"I think prior commissions recognized it as a big problem," he said.

The mayor said City Atty. Bob Gordon has been trying to get the annexation section of the city charter changed for nearly 20 years.

Gordon said either one or both of the annexation issues on tomorrow's ballot are acceptable.

"We need a method," Gordon said. "Right now we don't know what authority we have in areas that have been taken into the city."

Commissioner Graham's suggestion to call off the election was (See OFFICIAL, Page 3)

10 Persons Agree To Work On The 'Home' Campaign

The move to form a 60-member Executive Committee has resulted in ten signers after the second organizational meeting for Pampa's Nursing Care Home, held Tuesday in the campaign headquarters.

As the second of a series of meetings was held, the following persons agreed to serve: Roy S. Bourland, Hubert Bratcher, Mrs. Jewel Castleberry, F. M. Culbertson, John Gikas, Dr. M. C. Overton, Jr., A. A. Schuneman, Mrs. Nina Spoonemore, Arthur M. Teed, and E. O. Wedgeworth.

"This is a good start, as good or better than average in campaigns such as this," said Larry Lidstrom, campaign director. Next meeting of the Committee will be at 4 p.m. Friday at campaign headquarters, 117 W. Kingsmill.

"We invite any interested person to attend this meeting and learn the purpose of this important committee," Arthur M. Teed, president of the Foundation, said.

"In my opinion," he added "this type of project will attract the imagination of everyone in Pampa and will serve as an excellent step toward promoting harmony within our community. This has always been the by-product of community projects in Pampa—and I'm confident that this one will produce the same results."

The committee is introducing its plans to the public for the first time at a complimentary informational dinner at 6:30 p.m. next Tuesday, Feb. 5, in the Coronado Inn. The guest speaker will be Rev. Don R. Davidson, executive director of the Methodist Homes for the Aged in Texas.

Three Proposals Are At Stake In Balloting

Pampa voters will go to the polls tomorrow to endorse or reject three proposed amendments to the city charter.

The first two amendments deal with annexation — extending the city limits.

One would permit areas outside the city limits to petition the city council and ask to be taken inside the city.

The other would give the city commission authority by ordinance to extend the city limits where it deemed fit. It also would give any citizen of Pampa or of the territory to be annexed the right to contest the action.

The third amendment on the ballot tomorrow would give each new city commission the authority at its first regular meeting to elect one of its members as mayor pro-tem to serve during the absence or disability of the regularly-elected mayor.

The polls will be open from 8 a.m. to 7 p.m.

The voting places will be: Ward 1—City Commission room in City Hall.

Ward 2—Fire sub-station, 17th St. and Aspen Dr.

Ward 3—Ward's Cabinet Shop, 323 S. Starkweather St.

Ward 4—Fire sub-station, 1010 S. Barnes St.

Voters will cast their ballots on each of the three amendments separately with a "Yes" or "No" vote.

Incidentally, tomorrow will be the last election in which voters will be able to use their 1961 poll tax receipts. The 1962 poll tax receipts go into effect Friday.

Holmes Asks Who Is This 'We' Fellow

City Commissioner Leon Holmes of Ward 3 wants to know who "We" is.

Holmes read a statement at last night's City Commission meeting in which he praised Mayor E. C. Sidwell and castigated what he called "a certain block of people in Pampa" whom he said identify themselves only as "We."

Holmes had reference to a letter sent to Pampa voters yesterday signed only, "Citizens for a Better Pampa."

Holmes cited quotations from the letter which used the personal pronoun "We" frequently.

"I, for one, would like to know who WE is," Holmes said.

"This unknown 'We' has been behind all the movements against this commission, the recall election of our mayor, the attempted recall of the commissioners, and defeat of the bond issue for improvement of highways and drainage in the city. It is always 'We' but never any names."

Commissioner Holmes said in his statement that he thought (See HOLMES, Page 3)

JACKSON, Miss. (UPI)—James H. Meredith said today he has decided to return to the University of Mississippi for the spring semester.

The 29-year-old Negro, whose entrance into the university last fall was greeted by rioting which left two dead and hundreds injured, made his announcement at a news conference here.

"Many things have taken place in recent months and I see signs that give me hope that I will be able to go to school in the future under adequate, if not ideal, conditions," Meredith said.

His decision came a few days after he had completed his academic work for his first semester of study at the previously all-white university.

Meredith skipped one of his final examinations and has been reported in deep scholastic difficulty, but his actual grades have not yet been revealed.

"I want to thank the people of the United States of America for their support," Meredith said.

"With so many of our citizens with this grave racial problem, we are bound to find an adequate solution.

"I also want to thank the many people throughout the world who have shown such a great interest in the struggle of men for equality of opportunity."

Dr. Graham Gives Statement About Special Election

City Commissioner Will F. Graham issued a statement today relating to tomorrow's special charter amendment election in Pampa.

The statement follows: "There may be some confusion, so I would like to make clearer my position on the Charter Amendment Election. A letter has been mailed to Pampa citizens which is intended to influence their vote on the proposed amendments to the City Charter. Since the letter apparently refers to me in certain passages, I feel that I should make some comment."

"The City charter does need amendments in order to improve City government. This need has been recognized for several years by people both in and out of city government."

"There are items, not included on the ballot, which should have been submitted. I believe the City Commission was very much in error when it excluded the issue which was asked for by petition. That action was not only antagonizing to the people, but was damaging to the practice of representative government."

"The most competent legal opinion available to me is that the Courts most probably will not allow any amendment to our city charter for two years after this election — even if all issues are defeated."

"Proposition 1 simply provides for the same manner of annexation as that granted to the smallest towns and villages. It requires that the residents outside the city must request to be annexed. If passed, it could be of no danger to Pampa and certainly is not dynamite."

"Proposition 2 provides a way for the city commission to extend the city limits in the same manner as nearly all cities do which have a home rule charter. This proposition is almost identical with the (See STATEMENT, Page 3)

Sidwell Says He May Be Future Candidate For Office

Mayor E. C. Sidwell last night followed up his statement that he will not run for re-election in the April 2 city election with a supplement in which he said he may be a possible candidate for public office at some other date.

The mayor said he felt it was the duty of every citizen to participate in City Hall activities.

"We must be vigilant if we are to retain what is left of our democratic form of government and regain what has been lost," he said.

The statement of the mayor, made at last night's city commission meeting, went on to say:

"I have read with much interest the statements of ex-President Eisenhower in the January 26th issue of The Saturday Evening Post wherein he states, '... that it is wise to take stock of ourselves, and see whether we have been losing ground in certain qualities of human spirit, which has meant much to our progress in the past... indolence and lack of moral principle is the great danger we are facing from within'."

"I firmly believe that when we, the Citizens of Pampa, have a greater participation in city government, rise up and recognize that it is morally wrong to make special arrangements for some and not give the same consideration to all, then many of our problems will have been solved."

"It is heartening to present to the Citizens a plan for progress when certain groups are organized for opposition regardless of what the issues are."

"I have attempted to conduct the City's business in open meetings and I urge the people of Pampa to make an endeavor to investigate things that go on behind the scenes."

"Again I dedicate myself to any movement that will help bring about a united Pampa."

If it comes from a hardware store we have it. Lewis Hdw. Adv.

McNamara Sees Severe Red China-Russia Split

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara told Congress today there was increasing evidence that the Communist unity of Russia and Red China had been "fractured—perhaps irreparably."

"Although we may draw some comfort from this falling out between the Communist giants," he said "the world situation remains perilous, nevertheless."

McNamara made the assessment in his annual report to the House Armed Services Committee

Defense Boss Pictures Assault Helicopter Troops

WASHINGTON (UPI)—Defense Secretary Robert S. McNamara today pictured assault troops moving in hundreds of helicopters at the end of an airborne supply line to outflank or surround enemy armies in limited war.

He said such troops would be especially valuable outside Europe, which usually means in non-nuclear warfare. But he also asked for money to buy hundreds of additional Davy Crocketts—the most mobile of all battlefield atomic weapons.

McNamara discussed plans for a new, experimental air assault division during a long presentation covering all aspects of the House Armed Services Committee.

"As presently envisaged, the air assault division would be equipped with about 400 helicopters and Army-type fixed-wing aircraft, compared to about 100 in the standard division," he said.

The division would be backed up by an air-cavalry brigade, similarly equipped with helicopters and with a mission "much like the horse cavalry of earlier years," McNamara said.

For each division of combat troops there would be an air transport brigade with 134 helicopters and planes, including 80 twin-engine AC1 Caribous capable of carrying 6,000 pounds each.

McNamara said larger, longer-ranged Air Force planes would "wholesale" supplies to field depots, and Army planes would "re-tail" them to the troops.

De Gaulle, undeterred by the reaction to his veto, summoned his cabinet in Paris today to push ahead with plans for his "grand design" for a resurgent Europe, independent of the United States.

Speculation that the 72-year-old president is embarking on his own deal with Moscow was reinforced by a meeting he had Tuesday night with Soviet Ambassador Serge Vinogradov. No details were available immediately.

He also has been casting lines toward Denmark and Spain in an effort to expand France's continental influence.

West Germany Rallying Forces Against De Gaulle French Action Shocks Europe

BRUSSELS (UPI)—West Germany started rallying forces against France today to prevent President Charles de Gaulle from doing any more damage to the Atlantic alliance.

France's blocking of Britain's entry into the six-nation Common Market Tuesday left the rest of Europe shocked, confused and angered.

Britain, caught without an effective alternate plan, started looking for ways to tighten its economic links with other European nations, the Commonwealth and the United States, without alienating the five Common Market members who supported its application.

U.S. officials were counting on the other NATO allies to bring France around eventually to the need for a broad Atlantic alliance with Britain and the United States.

De Gaulle, undeterred by the reaction to his veto, summoned his cabinet in Paris today to push ahead with plans for his "grand design" for a resurgent Europe, independent of the United States.

Speculation that the 72-year-old president is embarking on his own deal with Moscow was reinforced by a meeting he had Tuesday night with Soviet Ambassador Serge Vinogradov. No details were available immediately.

He also has been casting lines toward Denmark and Spain in an effort to expand France's continental influence.

West Germany made the first move. Its delegation here announced after the collapse of negotiations Tuesday night that Bonn would boycott a Common Market finance ministers meeting in Baden Baden, West Germany, on Friday.

France had planned to start action at that meeting to limit United States investment in Europe. The other four market partners—Belgium, The Netherlands, Luxembourg and Italy—also were considering staying away from the meeting.

The five also were considering steps to slow down some favorite French projects within the market.

The Germans, although their new treaty of cooperation with France was signed only last week,

were among the most outspoken of De Gaulle's critics Tuesday.

Vice Chancellor Ludwig Erhard, who is West Germany's economic minister, called the collapse "a European funeral."

Turning to the British delegation he promised: "We shall see each other again even if, today, nobody shows us the way."

The Communist world, haunted by the fear of a powerful European economic community, settled on West Germany as the villain.

The Soviet Communist party newspaper Pravda said Bonn—by signing a treaty with France and then backing British Common Market membership and a NATO nuclear force in opposition to French wishes—is playing a double game.

France was signed only last week,

PRESTIDIGITATION — There will be that performed by Dorsey Crugan assisted by Elaine Walette, pictured above, at the Pampa Junior High Talent Show on Thursday evening in the school auditorium; as well as dancing, music and comedy in a 16-act show performed by over 80 students. Public is invited to attend for an admission of 50 cents per person. Proceeds will be used by the Parents, Teachers and Students' organization for school projects. (Daily News Photo)

'Richest Hill' Topic In Fabulous 50 Series

New officers for the 1963-64 club year were elected at the Tuesday afternoon meeting of Twentieth Century Forum Club held in the home of Mrs. M. McDaniel, 1801 Charles.

To be installed at a Spring meeting are Mmes. Felix Vendrell, president; Homer Johnson, vice president; John Sweeney secretary; Aubrey Steele, treasurer; Frank Kelley, parliamentarian; Arthur Teed, reporter.

It was approved by members to make a contribution to the endowment fund for the Texas Federation Clubhouse in Austin.

In continuing the course of study, "Our Fabulous Fifty," Mrs. Frank Kelley presented a program on The Anaconda Company and Butte, Montana.

In opening remarks, Mrs. Kelley said, "On a crisp October morning in 1875, Prospector Michael Hickey, formerly a soldier in the Union Army staked out a claim on a hill overlooking what is today the city of Butte. The claim to which he registered ownership was the Anaconda Mine, destined to become a fabulous copper producer that made its site and the adjacent area the "richest hill on earth."

"From that hole stemmed the

Anaconda empire stretching from the Rockies to the Andes," Mrs. Kelley continued. "The story of the Anaconda Co. is more than the history of birth and far-flung expansion of a corporation that has become the largest non-ferrous mining and metal fabricating organization in the world. It is a biography of an achievement rich in romance and filled with high industrial adventure that has recorded an epic in mining history. It stands as a monument to Free Enterprise as well as an enduring tribute to big-visioned men."

Mrs. Kelley, Cornelia F. Kelley and John D. Ryan, who vivified the familiar American tradition of self-made success.

Barrett Baptist To Start WMU

The Home Makers Class of Barrett Baptist Chapel entertained with a banquet for all adult women Sunday School classes on Friday evening in the dining room of the church.

Mrs. Wes Langham, guest speaker, discussed the importance of a Woman's Missionary Union. Included in the plans to start a WMU in the near future was the naming of a committee to nominate a president.

Mrs. J. M. Hill gave the devotion.

Attending were Mmes. David Putman, Bill Hall, Bob Hubanks, Gary Kpillon, Billy Fitzer, David Miller, Bob Shoopman, James Nipp, Allen Barker, James Brown, Bob Powell, T. E. Anderson, Harry Jennings, J. M. Hill, Wes Langham, Lawrence Scribner and Kenneth Gill.

Dear Abby....

'Undo-It-Yourself' Project For Chewer

By ABIGAIL VAN BUREN

DEAR ABBY: A neighbor of mine promised her husband she wouldn't smoke any more, so she took up chewing tobacco. It is disgusting enough to see a man chewing, but a woman doing it looks terrible. She claims lots of women chew but few people know it.

I have hinted that it looks bad, but she goes right on chewing. The poor soul must have the habit so strong she can't quit now. Will you ask your readers to pray for her?

A FRIEND
DEAR FRIEND: An entire nation could "pray" for her, but the Lord needs her cooperation. A bad habit never disappears miraculously. It's an "undo-it-yourself" project.

DEAR ABBY: I am concerned about my daughter. She is a lovely, intelligent, happily married woman with two fine children. She has been seeing a clinical psychologist for a year. She is not mentally ill. I've tried to discuss her problem with her but she refuses to confide in me. I know it's fashionable these days to run to psy-

chiatrists and psychologists, but I hate to see my daughter spend her husband's hard-earned money on such a frivolous expense. How can I convince my daughter she is foolish for continuing this costly fad?

CONCERNED MOTHER
DEAR MOTHER: One need not be mentally ill to require help with an emotional problem. If your daughter thinks she needs this kind of help, leave her alone. And be glad she has the courage and sense to seek it.

DEAR ABBY: My problem is an over-attachment to a husband. When he leaves for work, he kisses me. When he comes home, he kisses me. If we should meet anywhere else, he hugs and kisses me. He doesn't care whether we are alone or not. He is always telling me how nice I look and other such compliments. He can't keep his innermost thoughts to himself. Sometimes it is very embarrassing. Please understand, I really love my husband, but his constant show of affection annoys me. How can I discourage him a little without discouraging him altogether?

BLOSSOM
DEAR BLOSSOM: Are you bragging or complaining? Search your soul. Surely you must have a bigger problem.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to ABBY, Box 3365, Beverly Hills, Calif., for Abby's new booklet, "How To Write Letters For All Occasions."

RUTH MILLETT

When a man can't afford something he says so, but when a woman can't afford something she'll hedge. So says an advertising executive.

What he didn't say was that the ways in which a woman will hedge to keep from saying "I can't afford it" are endless.

And the interesting thing is that the swankier the shop and the scottier the saleswoman the more imaginative become a woman's "reasons" for not buying something she can't afford.

The dress that costs too much is the wrong shade, or the neckline isn't becoming, or the dress is too much like one she already has in her wardrobe.

She may not fool the sales clerk but by finding fault with the dress instead of the price, she leaves the shop in the manner of a woman disdainful of what she has been offered instead of as a woman who can't afford what she wants.

The sofa that is exactly what a woman wants until she is told the price suddenly develops all kinds of disadvantages. It is too low or the color is a little off or it is too long for the space where she wants to put it. Too expensive? Of course, not.

That is why it takes infinite tact for a salesperson to keep from losing the woman customer who is hard to "please."

If the clerk suggests looking at something a bit less expensive, the customer is likely to say haughtily, "No, the price is quite all right," and walk away insulted.

The tactful clerk just happens to remember another article that might be exactly right — without at first mentioning that it is also quite a bit less expensive.

It must be much easier to sell to men — if they don't in the least mind saying, "That's too expensive. Can't you show me something cheaper?"

These words mean what they say: Ruth Millett's booklet, "Happier Wives (Hints for husbands)." Just send 25 cents to Ruth Millett Reader Service, in care of this newspaper, P.O. Box 489, Dept. A, Radio City Station, New York 19, N.Y.

A room shy of natural light can be brightened with a coat of yellow paint.

Plans For Husbands' Night Made By TCC

Plans were discussed for Twentieth Century Club's annual Husbands' Night at a meeting of the club held Tuesday afternoon in the home of Mrs. H. R. Thompson, 2235 Charles. Members and their husbands are invited to the home of Mrs. Fred Neslage, 2005 Charles, on Feb. 12 at 7 p.m. for the annual affair.

Following a federation report by Mrs. Paul Harbaugh, it was announced that the club will be hosted at Senior Center on February 14.

A program on "Good Design" was presented during the afternoon by Mmes. G. F. Branson, V. J. Jamieson, W. R. Campbell and Jack P. Foster.

In introducing the program, Mrs. Branson said, "In thinking of Good Design," we begin with "The Earth, Man's Home." The orderliness and design in nature, the way the wind changes its course, but returns to its circuits. The way all streams run to the sea, but the sea is never full. One marvels at the accuracy of interpretation of these laws of nature. They did not have the help of scientists, but understood and appreciated the nature laws."

Speaking of good design in china, silver and furniture, Mrs. Jamieson stated, "The motif of furniture may be carried out in the dinnerware and silver or vice versa. It is quite proper to mix periods so long as the whole effect is a harmonious and pleasing one."

"One way," she said, "to achieve an interesting and pleasing effect is to pick up the dominant tones in chinaware and repeat it subtly in the colors of the room. Since color has a great influence on mood, it is important that your china contribute to mealtime enjoyment."

Mrs. Campbell discussed how silver has been used in making articles of tableware since the beginnings of civilization.

"Design," she stated, "in silver is of extreme importance. Since sterling lasts a lifetime one wants to be sure its design is not of transitory appeal, but, instead, it will always be in good taste and never out of style."

"If thoughtfully chosen," she continued, "it will become the cherished possession of future generations. Any good design must incorporate these five unchanging fundamentals: balance, rhythm, harmony, symmetry and unity. Unless these five qualities are present, no piece of silver can be called truly beautiful."

"Furniture may, at the time it is created be Good Design and acceptable only to serve as a forerunner for a more refined one," Mrs. Foster stated in discussing furniture. "The history of furniture design started with the Egyptian Tombs; then Roman-Greek, Renaissance, English-French, Early American, Italian, the Industrial-era and Modern."

"Some characteristics of good design are Hepplewhite, straight leg, spade-foot base; Empire, regal, simple elegant; Chippendale, English-curved; Early American, maples; Modern, use of severe, low lines combined with leather, metals and wood," she stated.

Members attending, not previously mentioned, were Mmes. Don Andis, F. M. Culbertson, Paul Harbaugh, Roy McKernan, Bill Roots, Tom Rose, R. H. Sanford, R. W. Stowers, Jack Stroup, David Tucker.

Take It From Kathy

by Kathy Peterson
Dear Kathy: I haven't any eyebrows and when I try to use pencil, I look horrible. Could you tell me what to do about it? I have done everything but can't make it work.—L. M. K.

Dear L. M. K.: There isn't a perfect answer but practice and experiment will help you find the best solution possible. The finished look will not be completely realistic to a person who is inches away, but careful workmanship can be fairly deceptive at a distance of several feet. When you are inspecting yourself critically, keep this in mind.

No matter what color you select, a solid mass will look silly. Your aim should be the feathery strokes that are just about the length and thickness of a natural hair. Keep them separated to give the impression of a natural eyebrow.

Invest in a pencil that has removable leads. It won't cost much to buy inserts of every color available. You probably will use a combination of two or three colors. A blend producing a shade close to your hair color is what you are aiming for. Gray in the mixture can often mute a combination just enough to make it more natural even though your hair is blonde or red.

Try a dusting of loose powder before and after the pencil is applied. If no make-up is worn except the pencil, remove every trace of grease or those lines won't be light and natural looking.

JEALOUS — Seemingly jealous of the sculptor's artistry in carving this marble masterpiece of "Moses Saved From the Waters" in the Borghese Gardens in Rome, Old Man Winter supplied his own frigid frosting by freezing the fountain spray on the statue. Both Europe and the United States have been gripped in a week-long seige of below freezing temperatures. (NEA Telephoto)

Congressional Aide Says JFK's School Program 'Hasn't A Prayer'

By ARNOLD SAWISLAK United Press International WASHINGTON (UPI) — The prospects of President Kennedy's big new school aid program have been summed up in a single short sentence: "It hasn't got a prayer."

That assessment, from a congressional aide seasoned in past school bill battles, was widely shared by lawmakers after their first look at the President's multi-billion-dollar education plan Tuesday.

McNamara (Continued From Page 1) is still the ultimate objective of both Communist powers, although each is seeking to attain the objective in its own way, and to capture the spoils for itself.

Much To Lose The cabinet officer said Russia "has a great deal to lose in a nuclear war—material wealth as well as human life."

India — The security and independence of India are matters of "urgent concern" to the free world, India and Pakistan should resolve their differences and join hands to meet the common threat from Red China.

Viet Nam — More than 11,000 Americans are helping Vietnamese forces fight the Communists. Victory over the Communist Viet Cong "will most likely take many years," but there is a new feeling of confidence there.

NATO — The West must avoid "fragmentation and compartmentalization of NATO's nuclear power which could be dangerous to us all."

Berlin — The setback suffered by the Soviet Union in Cuba "may have postponed an incipient crisis in Berlin."

Air Assault — The proposed creation of air assault divisions is a "revolutionary" idea that would operate like the horse cavalry of old.

Civil Defense — The "very austere" \$300 million civil defense program recommended by President Kennedy should be given priority "over any major additions to the active defenses."

Mrs. Sweet's Rites Pend

Services are pending for Mrs. Pearl White Sweet, 310 N. Wynne, who died at 8:35 p.m. Tuesday in her home.

She is the widow of John K. Sweet, who died Aug. 5, 1931. Born Dec. 12, 1878, in Henrietta, Mrs. Sweet resided in Pampa for 34 years and prior to that had lived on the family farm 10 miles east of Pampa.

Arrangements will be announced later by Duenkel-Carmichael Funeral Home.

Kerr-McGee To 'Modernize' Its Pampa Plant

Increased efficiency will result from modernization of natural gasoline plant No. 6 owned and operated by Kerr-McGee Oil Industries, Inc., near Pampa.

Construction on the project is scheduled to begin February 1 by Austin-Rankin Corp. of Houston. Austin-Rankin has completed design of the program and presently is selecting specific items of equipment which will be used to update the processing facility.

Higher quality products and more efficient product extraction will result from the modernization program. The plant's daily processing capacity will remain at 24 million cubic feet of green gas, yielding a total of 75,000 gallons of product.

Statement (Continued From Page 1) one in the charter proposed two years ago and endorsed by past city officials. It contains some risk of abuse by government as does any other power delegated to government.

Official (Continued From Page 1) lost in the shuffle of comment. Mayor Sidwell made a reference to Monday morning's breakfast meeting in Coronado Inn at which plans were made to have the issues on tomorrow's election ballot defeated.

Journey's End

Theresa Smith, 4½, Columbus, Ohio, navigates a little perilously on parallel bars and is rewarded at finish line with a hug from her father. Curly-haired Theresa is a victim of two grave birth defects, an open spine and water on the brain, for which she underwent surgery at the March of Dimes-financed Birth Defects Clinical Study Center at Columbus Children's Hospital. Now marking its 25th anniversary, The National Foundation-March of Dimes supports nationwide programs to help victims of crippling birth defects, arthritis and polio through the best in scientific research and medical care.

Bobby L. Shoulters, White Deer, intoxication, guilty, fined \$20.

Wheeler Dimes Drive Promises To Be Success

"The 25th Anniversary March of Dimes this January promises to be the most successful in years," Rena Sivage said today in appointing volunteer leaders from communities in Wheeler County.

Doyle Green New Jaycee Director

The board of directors of the Pampa Junior Chamber of Commerce has a new member. Doyle Green was elected at Tuesday's meeting to replace L. Douglas Halley, resigned, former director of the Pampa Youth and Community Center.

During the meeting, Jaycee Chairman A. J. Carubbi Jr. again organized committees for the March of Dimes Bucket Brigade, rescheduled for work Saturday, Feb. 2.

Jack Webb, Jaycee Poll Tax Chairman, stated at the meeting that the club will continue to operate its desk in the trailer located in the 100 block of N. Cuyler. During the day the Jaycees handle the desk while the Jaycees take over during the evenings, selling poll taxes.

Webb said that participation was good so far, but that both he and Judy Warner, Jaycee-ette Chairman, wanted to encourage everyone to come in now and pay their poll tax and to remind everyone that January 31 is the deadline.

In other action, the club made plans to attend the area convention to be held in Odessa on Feb. 9 and 10.

President Carrubi is a candidate for the Texas Jaycee State Board of Directors and several local Jaycees and wives are going to Odessa to back his candidacy.

The first legislative body of America assembled at Jamestown, Va., in 1619.

Bills Approved Would Create State Colleges

AUSTIN (UPI) — The Senate Education Committee gave unanimous approval Tuesday to bills that would create four new state colleges at Laredo, Odessa, San Angelo and Edinburg.

The bills were sent to the Senate floor, where stiffer opposition was expected.

The four bills would: —Convert junior colleges at Laredo, Odessa and San Angelo into four-year state-supported schools.

—Bring Pan American College at Edinburg into the state system. Pan American is already a four-year college.

The bills to bring the Edinburg, Odessa and San Angelo schools into the state system would be effective with the fall term of 1965. The Laredo group seeks state status for Laredo Junior College effective in 1968.

Moore's Efforts Fail Earlier Tuesday on the Senate floor Sen. William T. Moore of Bryan, a perennial foe to creation of new state-supported schools, failed in an effort to slow down consideration of the bills.

Moore wanted to transfer the bills from the Senate Education Committee to the Committee on State Affairs, where similar bills met considerable opposition during the 57th Legislature. But senators voted 23-7 to leave the bills in the education group.

These bills will skid through the Education Committee like a greased pig," Moore predicted on the Senate floor.

The Bryan senator proved to be somewhat prophetic. All four bills, after a hearing that lasted for an hour and a half met full committee approval without having to be sent out for subcommittee action.

Bill Sets Pattern Sen. Dorsey Hardeman of San Angelo presented his bill first and following similar testimony as was given before the House Committee on State Affairs Monday night, the San Angelo bill received approval without dissent and was sent to the Senate floor. This set the pattern for the other three.

Sen. Jim Bates of Edinburg followed with his bill to bring the Edinburg school into the state system. His witnesses included attorney Orville Cox of McAllen, a member of the Pan American Board of Regents, and O. Terry of McAllen for the Rio Grande Valley Chamber of Commerce.

Serves Large Area Cox pointed out that Pan American served the four-county lower Valley region of Willacy, Starr, Hidalgo and Cameron counties with a population of over 400,000. He said 70 per cent of Pan American's students commute because of economics, and the same percentage of students could not attend college if Pan American did not exist in the lower valley.

Pan American furnishes 75 per cent of all the public school teachers in the Valley," Cox said. "If we are to continue furnishing educational facilities for the youth of the valley, we must have state support.

U.S. Steel Corp. Reports 10-Year Low In Income

NEW YORK (UPI) — The U.S. Steel Corp. has reported its net earnings were the lowest in a decade in 1967, the year President Kennedy forced the big steel firms to hold the line on prices.

But U.S. Steel also announced Tuesday that fourth quarter profits were high enough to cover dividend requirements. The directors voted to continue for the present the 50-cent quarterly dividend on common stock, which was instituted last spring after Kennedy's action brought cancellation of a \$6-a-ton price increase.

The firm, biggest steel company in the country, before then had been paying 75 cents a share on common since the first quarter of 1957.

"Big Steel" produced and sold more steel, yet cleared its smallest profit, last year since 1952. This was caused not only by the absence of a price boost, but also by increased employment costs provided for in the last steel labor contract and higher costs for materials.

U.S. Steel chairman Roger M. Blough told newsmen the firm's business in the first three months of this year should be "reasonably good."

He declined to forecast 1968 earnings but said the company has made "some progress" in labor-saving and other cost-cutting projects.

"Unhappy as the employment situation is, there are two sides to this equation," he said. "I think most workers who have been laid off understand this."

The steel executive said he felt labor now had a better understanding of management problems. But he declined to predict the possible outcome of the steel labor contract negotiations which are expected to re-open this summer.

Fourth quarter earnings for U.S. Steel in 1967 were \$41,043,651 or 64 cents a share, compared with figures for the corresponding 1961 period of \$47,430,000 or 76 cents a share.

Net income for all of 1967 declined to \$163,858,667 from \$190,191,000 during the previous year. Income per share dropped from \$3.05 in 1961 to \$2.56 last year.

Felony Charge Of DWI Is Filed Here Jerald Douglas Lester, 34, of Border, was placed under \$2,600 bond for arraignment today in Justice J. W. Graham's court on a felony charge of driving while intoxicated.

Lester was arrested at 1:35 a.m. today in the 100-block of S. Ward St. when he was observed by city police.

Hoffa Calls For March On Capitol

LANSING, Mich. (UPI) — A march on the nation's Capitol has been called for by Teamsters Union boss James R. Hoffa to protest labor legislation in the works by several congressmen.

Hoffa, in a speech here Tuesday, promised to lead "hundreds of thousands" of workers himself to protest the bills which he referred to as "garbage" and which he said would destroy the labor movement in the United States.

Hoffa, in his speech to 175 delegates to the annual legislative conference of the Michigan State Building and Construction Trades Union, called the congressmen sponsoring the bills "bums."

The congressmen to whom he was referring were Sen. John L. McClellan, D-Ark., Sen. Barry Goldwater, R-Ariz., and Rep. Dave Martin, R-Neb.

Keane Sees Groat, the Ace, Stacking Cards In Shuffle

DICK GROAT
"A knowing ballplayer"

By JOHNNY KEANE
St. Louis Cardinals' Manager As told to HARRY GRAYSON
Straightening out the Cardinals for 1963, General Manager Bing Devine made the greatest trades since the palmist days of David Harum.

Shortstop had long been a trouble spot for the St. Louis club, so we got Dick Groat, a knowing ballplayer, from Pittsburgh. In addition to being one of the truly great playmakers, Groat gives us the leadership we lacked on the field.

The Cardinals required more power, so the Cubs were kind enough to fork over George Altman, the No. 6 hitter in the National League last season, who fits nicely into right field.

To obtain these two .300 hitters, we had to give up pitchers Larry Jackson and Lindy McDaniel, shortstop Julio Gotay and catcher Jimmy Schaffer. To be frank, we figure to miss only Jackson and McDaniel, who left us a little short in pitching, despite the fact that Diomedes Olivo, a superior relief worker, also came in the deal with the Pirates.

Therefore we traded with Cleveland for Ron Taylor, a right-hander who last year had the second lowest earned-run average in the International League. In that exchange we gave up first baseman Fred Whitfield, who figured in our plans mainly as a pinch-hitter, since we open and close at first base with Bill White.

The end result of the three-swaps is that we can put eight men in our lineup this spring who as a group had a .297 batting average last season. No manager would fault a batting order like this:

Curt Flood, Groat, White, Altman, Ken Boyer, Stan Musial, Gene Oliver and Julian Javier. How Altman, Boyer and Musial are moved will depend on who is the hottest hitter at the time.

Groat solidified our infield, where White is the slickest defensive first baseman in the league. Javier, a really slick second baseman, and an outstanding baserunner, and Boyer the finest defensive third baseman in the business.

Center fielder Flood is without a peer going after a fly ball. Charley James, a better than average outfielder making strides as a hitter, will spell Musial.

Catcher Oliver came strong the last half of 1962, including hitting the home run that beat the Dodgers on the season's final day to force them into the playoff with the Giants. Oliver is backed by Tim McCarver, who hit the long ball and drove in runs for Atlanta, and Carl Sawatski, who also will see use as a left-hand pinch-hitter.

Our first-line pitchers are Bob Gibson, Ernie Broglio, Ray Washburn, Curt Simmons and Ray Sadecki. Relief help is to come from Ed Bauta, Olivo and Bob Duliba.

Sadecki will be in the Army until mid-April, which no doubt will call on one of several others, perhaps recruit Ron Taylor, to fill his spot for a spell.

In conclusion I want to express the opinion that each one of our trades added something to the Cardinals.

Bing Devine couldn't have done better had he written his own prescription.

The Pampa Daily News
55TH YEAR WEDNESDAY, JANUARY 30, 1963 5

Texas Crushes Tigers; Houston Batters TCU

By United Press International
Those Texas Longhorns kept right on rolling along Tuesday night, and it's a good thing for Southwest Conference prestige.

While Texas crushed little Trinity of San Antonio 88-54, Texas Christian took it on the nose from Houston, 87-71, and the rather poor SWC intersectional record struggled through the night by breaking even.

Texas' superior height and shooting accuracy was the difference. The Longhorns hit 52.8 per cent of their field goal attempts and swept the backboards for 45 rebounds. Trinity hit only 39.6 per cent of its field shots and managed only 33 rebounds.

Houston and TCU battled on even terms for about three-quarters of the first half, then the Cougars got hot.

By halftime, Houston had bulged its lead to 46-35, and the Cougars coasted in from there.

Lyle Harger, Houston's raw-boned 6-foot-7 center, controlled the backboards for 24 rebounds and hit 10 field goals and seven of 11 charity tosses for 27 points to lead scoring.

His teammate Donnie Schverak pumped in 8 field goals and seven of nine free throws for 23 points.

Archie Clayton and Bobby McKinley each scored 18 points to share honors for the Frogs.

Pampa Boxers Cop Liberal GGs

While several of the Pampa Optimist Boxers were busy winning the Borger GG Meet, other Pampa fighters were boxing at the Liberal Tri-State Tourney over the week end.

The Optimist boxers won the pee wee division at Liberal and finished second in the high school and open divisions.

With 12 fighters entering, the Pampans brought back nine first place trophies.

Results of the finals with Pampans entered were:

Pee Wee division: 75-Vince Stracener over Abel Valesquez, Liberal; 80-pound-Jimmy Wilson, Liberal, dec. Joe Roth, Pampa; 85-Jay Roth won uncontested; 90-Bud Woods, Liberal, dec. Dean LaRue; 95-Alfred Brown dec. Pete Peterson; Liberal.

High School division: 118-Bobby Phillips, Liberal, dec. Alfred Nichols; 147-Tommy Clinton TKO over Pat Phillips, Liberal; 2nd round; 160-Andy Spencer, Guyton, dec. Gale Hardin.

Open division: 118-Lee Johnson, uncontested; 135-Kenneth Wood KO over Bobby Seymour, Guyton; 147-Gary Wilhelm dec. Carl Kirk; Guyton; 160-Dickie Willis dec. Dennis Kirk, Guyton.

Pampa pee-wees will enter the Skellytown Tournament.

Les Richter Retires From Los Angeles

LOS ANGELES (UPI) — Les Richter, who was worth an entire team to the Los Angeles Rams, retired officially as a player Tuesday and also announced he would not return as a defensive coach.

Confirmation that his playing days had finished with the close of the 1962 season after nine years with the Rams was no surprise—but everyone especially head coach Harland Svare, figured Richter would remain as an assistant coach. He doubled in that job the final six games of last season.

"My wife and I tried to decide whether we wished me to pursue a career in football as a coach or go into business," said Richter, now 32 years old.

"After three long weeks of adding up the plus and minus columns we decided the aspects of the business world were more to our liking."

Richter now will devote full time to his position as executive director of Riverside Raceway, an interest of oilman and former Ram owner Edwin W. Pauley, and as manager of some of Pauley's real estate holdings.

London and Gibbs were cheered loudly by the 7,000 fans, who appreciated Brian's temperamental skill and Gibbs' heroic restraint.

In the seventh round, for example, Gibbs shook a warning finger at Brian because the latter had stuck out his tongue at McNeeley and had taunted Tom into a raging but futile wild-swinging attack, which London sneeringly avoided.

Both fighters drew numerous warnings from Gibbs for butting, low-hitting, elbowing and rabbit punching to the back of the neck. But he let them continue.

London weighed 209 pounds to McNeeley's 203.

DASHING THROUGH THE SNOW—So the cold won't make their eyes water, jockeys wear goggles in this 1,800-meter race in the snow at winter resort of Arosa in Switzerland.

Harvesters Ramble Past Tascosa Rebels, 67-53

Pampa's Harvesters rambled past the Tascosa Rebels, 67-53, in Amarillo last night, posting the Pampans 24th win of the season against one loss.

Pampa proved the old adage that a team looks only as good as its competition as the normally smooth-playing Harvesters played ragged basketball in keeping with the brand of basketball played by the Rebels, the most likely candidate for the Dist. 3-AAAA cellar spot.

While Pampa was posting its ninth district win and running its winning streak to 19, Borger upset the no. two team in the district race, Monterey, 48-39, giving the Harvesters a three-game lead with five games remaining.

Other Games
In other Dist. 3-AAAA games last night, Lubbock pelted Plainview, 87-73, and Amarillo ripped the Dons, 83-60.

Pampa, with a 9-0 district mark, is three games ahead of the three other teams tied for the second spot — Amarillo, Lubbock, and Monterey — all with 6-3 conference records.

Second division standings find Plainview 5-4, Borger 2-9, Palo Duro 1-8, and Tascosa 1-8.

Tascosa threatened to make a game of it for the first three minutes before Pampa found the range on the basket.

Keith Swanson started the Pampans moving with two lay-ups for the Harvesters first four points, knotting the score 4-4.

From then on the game belonged to the Pampans as rest of the starting Harvesters—Sikes, Balch, Matson, and Kreis bucketed field goals while Tascosa's Paul Bennett connected on a free throw, giving Pampa a 12-5 advantage.

Wayne Kreis, scoring 19 points in the fracas for the game's high-point honors, added three free throws to Jimmy Carter's two for the Rebels prior to the end of the first quarter, making the first quarter score, 15-7.

Pampa turned in a 20-point second quarter to move away from the Rebels.

Kreis and Bennett traded field goals in the opening minute of the second frame before the game turned into a free throw exhibition.

Gordon Balch hit five charity tosses in a row for Pampa followed by two by Tascosa's Carter. Randy Matson then scored three.

Houston Cougars Win Cage Tilt
By United Press International
The fat ones got fatter and the lean ones got leaner Tuesday night in Texas collegiate basketball play.

Houston, Stephen F. Austin and McMurry all bettered already good records, while Trinity, Wayland and Arlington State saw lean season records slip another notch.

Houston stopped Texas Christian 87-71, McMurry outscored Wayland 72-58 and S. F. Austin rolled over Arlington State 84-63 in the top games.

In other games, Hardin-Simmons whipped Abilene Christian 90-74, Texas drubbed Trinity 88-54, McNeese (La.) State beat Texas Lutheran 56-47, Corpus Christi edged St. Mary's of San Antonio 84-78, East Texas Baptist nipped the University of Dallas 76-69 and Texas Wesleyan downed Tarleton State 86-78.

Both Rebel teams play Borger's Houston Jr. High Thursday in Borger.

Robert E. Lee Wins 2 Games
Robert E. Lee Rebel basketball teams posted wins yesterday over Phillips Jr. High teams in Phillips.

The eighth grade Rebels downed Phillips, 40-28, with the ninth graders winning in overtime, 47-42.

High points honors for the eighth graders went to James Matney with 17, Smisson Goodlet, 10, and Jack Thompson with 8. Doc Cornutt and Matney controlled the boards for Pampa.

Teddy Bird swished 21 points for the ninth graders with Gary Crossland, Steve Swanson, and David Cain all contributing eight points each toward the victory.

Both Rebel teams play Borger's Houston Jr. High Thursday in Borger.

SIX-figure odds against it.
more trouble with it than the 7-10. The 7-10 leave results from a ball that hits the head pin on a nose and is flat, with little or no action.

Wilt Chamberlain Paces Warriors Past Knicks

By United Press International
Some people like to visit New York to see the tall buildings but for Wilt Chamberlain the attraction is the small Knicks.

That at least was the case Tuesday night when the 7-foot, 2-inch San Francisco star was guarded (in descending order) by 6-8 Gene Conley 6-6 Dave Budd and 6-5 Johnny Green of the New York Knicks.

Result: 62 points for Chamberlain and a 123-103 victory for the Warriors.

The Knicks were without the services of their "big" man, 6-9 Paul Hogue, who is sidelined for the remainder of the National Basketball Association season, and things just kept getting worse.

Chamberlain scored 25 points during the first half when he was guarded by Conley. Then Conley fouled out and Chamberlain wound up adding 37 in the second half when Budd and Green vainly tried to out-lead him.

A crowd of 15,237 cheered the Knicks as they kept the score close until the last two minutes of the third period when an 11-2 streak gave San Francisco an 87-80 lead. Another burst of 14 points in a row in the fourth period built the Warriors' lead to 109-92 and clinched matters.

Tommy Heinson stole the ball and Bob Cousy scored with 22 seconds left to give the Boston Celtics a 100-99 win over the Chicago Zephyrs in the first game of the doubleheader at Madison Square Garden. Sam Jones was high scorer for the Celtics with 23 points while Walt Bellamy led the Zephyrs with 33.

Seven players scored in double figures as the St. Louis Hawks beat the Syracuse Nationals, 123-105, in the other Tuesday night game. Bob Pettit's 26 points paced the Hawks while Dave Bianchi had 22 for the Nats.

Skellytown GGs Start Thursday

The Skellytown District Golden Gloves tournament gets underway tomorrow at 8 p.m. in the Odd-fellows Hall with boxers from six towns expected to be on hand.

The tournament, held for pee wee boxers only, will also feature some exhibition bouts in the high school division.

Towns expected to be represented in the matches are Pampa, Perryton, Lefors, Dumas, Borger, and Shamrock as well as host Skellytown.

The bouts will start at 7:30 on Friday and Saturday nights.

BEARS SIGN TACKLE
CHICAGO (UPI) — Tackle Steve Barnett of the University of Oregon, the No. 2 draft choice of the Chicago Bears, Thursday signed a contract with the Bears for the 1963 National Football League season.

WINS SKI MEET
SAINT GERVAIS, France (UPI) — Annie Famose, an 18-year-old French physical education student, won the special slalom event Thursday in the fifth international Women's Grand Prix ski meet.

BEGINS WORKOUTS
PARIS (UPI) — Great Lullwater, an American trotter, begins heavy workouts today for Sunday's Grand Prix d'Amerique international trotting race at Vincennes racetrack. Great Lullwater will be driven by Roger Vercrusse in the French classic.

Mullins took game scoring honors with 25 points while Heyman registered 21 before fouling out with about five minutes remaining in the game at Columbia, S.C. Co-captains Scotti Ward and Bob Haney had 17 each for the Gamecocks.

London Defeats McNeeley In Rugged Fight

LONDON (UPI) — Referee Harry Gibbs was the toast of Britain's pubs today because of his durability.

He had weathered 10 rounds of a rule-stretching, roughhouse fight between temperamental heavyweights Brian London of England and Tom McNeeley of Arlington, Mass., without throwing one or both out of the ring.

"Here's to Gibbs, his nibs, wot kin really take it!" declared an admirer in a Fleet Street oasis who was well aware that the "disqualification" was almost as prevalent in British boxing as the upright stance.

At the end of the 10 rounds in London's Olympia, Gibbs hesitatingly gave the decision to former British Empire champion London of Blackpool, Eng., because he had scored the lone knockdown in the fight and had given the wild-swinging American a boxing lesson.

In English rings there are no judges. The referee is the only scoring official.

London and Gibbs were cheered loudly by the 7,000 fans, who appreciated Brian's temperamental skill and Gibbs' heroic restraint.

In the seventh round, for example, Gibbs shook a warning finger at Brian because the latter had stuck out his tongue at McNeeley and had taunted Tom into a raging but futile wild-swinging attack, which London sneeringly avoided.

Both fighters drew numerous warnings from Gibbs for butting, low-hitting, elbowing and rabbit punching to the back of the neck. But he let them continue.

London weighed 209 pounds to McNeeley's 203.

SKILL TO SPARE

by Dick Weber
30 — The 7-10

Of all the splits, the 7-10 is probably the most difficult.

There are six-figure odds against making it. Only the 4-6-7-10 is in the same league.

As with any other split with pins left standing in the same row, the 7-10 can be made only by sliding one pin across to take the other.

Since the 7 and 10 stand on the edge of the gutter and are as far apart as possible it is easy to understand why the chances of converting this one are negligible.

If you are right-handed and don't need the wood, practice rolling for the 10. Most bowlers have

Mexico Bids For Olympics

MEXICO CITY (UPI) — Mexico has made a bid for the 1968 Olympic Games.

Gen. Clark Flores, Mexico's representative on the International Olympic Committee, has submitted a request to the committee on behalf of Mexico City's Mayor Ernesto P. Uruchurtu. Copies of the petition were sent to the national committees of all other participating countries.

From then on the game belonged to the Pampans as rest of the starting Harvesters—Sikes, Balch, Matson, and Kreis bucketed field goals while Tascosa's Paul Bennett connected on a free throw, giving Pampa a 12-5 advantage.

Wayne Kreis, scoring 19 points in the fracas for the game's high-point honors, added three free throws to Jimmy Carter's two for the Rebels prior to the end of the first quarter, making the first quarter score, 15-7.

Pampa turned in a 20-point second quarter to move away from the Rebels.

Kreis and Bennett traded field goals in the opening minute of the second frame before the game turned into a free throw exhibition.

Gordon Balch hit five charity tosses in a row for Pampa followed by two by Tascosa's Carter. Randy Matson then scored three.

Robert E. Lee Wins 2 Games

Robert E. Lee Rebel basketball teams posted wins yesterday over Phillips Jr. High teams in Phillips.

The eighth grade Rebels downed Phillips, 40-28, with the ninth graders winning in overtime, 47-42.

High points honors for the eighth graders went to James Matney with 17, Smisson Goodlet, 10, and Jack Thompson with 8. Doc Cornutt and Matney controlled the boards for Pampa.

Teddy Bird swished 21 points for the ninth graders with Gary Crossland, Steve Swanson, and David Cain all contributing eight points each toward the victory.

Both Rebel teams play Borger's Houston Jr. High Thursday in Borger.

Reaction Mixed On Self-Employed Individuals Retirement Legislation

By LEROY POPE
 NEW YORK (UPI) — Few laws have been greeted with such mixed reaction as the self-employed individuals retirement act, which went into effect Jan. 1.

Nobody, well almost nobody, denies it's a good thing—but just how good is it?
 "It's about the most important social legislation since the first social security law was adopted early in President Roosevelt's New Deal," says Martin H. Project of Calvin Bullock, Ltd., one of the largest mutual fund and investment advisory companies in the country.

Project believes the new law, known as the Keough Act, ultimately will provide old age security for 20 million persons. He thinks it may bring \$400 million to \$800 million a year in new money into shares of American industry, starting in 1963.

Congress Changes Act
 He thinks this even though Congress whittled the tax deduction feature of the Keough Act.
 "Even if there were no tax deductions at all and the program merely provided a tax shelter for accumulated dividends and interest, I feel it still would be a tremendously important law and would result in security and earning power in their old age for millions of people," Project added.
 "And with the tax deductions provided, it makes it possible to accumulate two or three times as fast as any other way I know," he said.
 Plenty of people in the investment industry, in banking and in insurance take much more restrained views than Project of the Keough program. They are bitterly disappointed at the way Congress watered it down.
 Even Project does not expect an enormous stampede of doctors, dentists, lawyers, small merchants and farmers to take advantage of the new law. Regulations won't be announced for several months and setting up individual programs will be difficult at first.

Remains Optimistic
 Every plan must be approved by the federal tax authorities. Nevertheless, Project expects 300,000 to 400,000 plans to be filed the first year—compared to 98,000 corporate and institutional pension plans filed with the tax authorities over the past 20 years.
 Disappointment over the way Congress finally wrote the law stems from several features that obviously tend to reduce its quick mass appeal.
 For example, a doctor who has an office nurse, a lawyer who has a clerk and stenographer, a small merchant who has a single clerk, employes in the plan and provide all these must include their employees with the same percentage benefits as themselves.
 "That," said Project, "may lead to a lot of gimmicks—such as creating pool companies to get these employes off the self-employed personal payroll so he won't have to include them in the plan."
 It remains to be seen how much of that sort of thing the treasury will permit.

MAJOR ERROR
 SPRINGFIELD, Ill. (UPI) — State Auditor Michael Howlett told the budgetary commission Monday he made a mistake in his proposed budget. It omitted Howlett's \$20,000-a-year salary.

Quotes In The News

By United Press International

NEW YORK — Elliott Horne, presenting a hipster's version of President Kennedy's clash with U. S. Steel executive Roger Blough:
 "A nervous scene. The man vs. the hard jacks. The HJ's have big eyes to blow expensive. The man does a flip and jumps salty. 'Cool it on the bread!' he says. Then he wails a TV chorus for the giggling class and HJ's cool their eyes. It's a crazy score for the man. But the cats who finally get cut lay out a late ace and blow the bread block down the man's konk."

BOSTON — The late Robert Frost's memorable description of Soviet Premier Nikita S. Khrushchev:
 "A ruffian...he's ready for a fight. He's not afraid of us and we're not afraid of him."

CLEMSON, S.C. — Clemson College President Robert C. Edwards praising the orderly admission of Negro student Harvey Gantt:
 "Nothing would have pleased me more than what happened: Harvey Gantt arriving on the matriculating without incident."

LONDON — A male student at London University, when asked what he would do if the girl with whom he is living became pregnant:
 "Panic."

BARGAINS GALORE — Holding a three-quarter length Alpacalined heavy all-weather coat, Bill Cave, above, owner of Surplus City, invites everyone to come in and visit and browse around and check on the money-saving merchandise. In the forefront of the picture you see five-cell flashlights and various sizes and types of bits. In the left of the picture are assorted Coleman lanterns and thermos jugs, while at the right is a wide assortment of socket wrenches. Just a few of the hundreds of items that may be bought at discount prices at Surplus City. Open from 8 a.m. til 7 p.m., long enough for the working men to come by after working hours. (Daily News Photo)

Saving Money For Customers Is A 'Specialty' At Surplus City

Looking for the best for less? Surplus City is your destination. And it isn't a sale in any respect, but just plain everyday prices. Surplus City's specialty is saving you money.

For instance, heavy clothing in all sizes, shapes and weights. Alpacalined all weather coats, gloves, both leather and fabric lined and unlined. Thermal or insulated boots, work boots and shoes, all sizes, colors shapes and even the safety toe shoes.

Socks? All kinds, all weights and colors, including wool, dacron, athletic and the teen-age white socks. And camping equipment that catches the eye and imagination by Coleman. Camping stoves in all sizes from the family multi-burner to the single burner. Lanterns both large and small that give plenty of light. Also kerosene lanterns in different sizes.

And for the outdoorsman who has to be out in all kinds of weather, you will be pleased at the choice and variety of rainwear. Coats, slickers, complete rain-

suits, overshoes, waterproof shoes, and boots, and reasonably priced water skis, fins, scuba equipment and even snorkels.

For you truckers, campers and others who may need a tarp of any size and weight, you will find it at Surplus City.

Also, transistor radios of various sizes, and walkie-talkies. For the ladies, who may wish to dress up a room in the house, Surplus City has some poie lamps at a real bargain. You really appreciate them after seeing them.

For the home handy man or the professional worker—such as carpenters and mechanics, a full line of power tools and hand tools. In a few days new fishing equipment will start arriving and Surplus City will have one of the largest assortments to choose from in the entire Panhandle—poles, rods, reels, lures, etc. You name it, and Surplus City will have it, and in plenty of time to get your tackle box filled and squared away before spring.

For the boat fisherman and the pleasure boater, we have all types

The Lighter Side
Freeloading Going Out Of Style?
 By DICK WEST
 WASHINGTON (UPI)—One of the most distinguished members of the press corps here is a ubiquitous correspondent known to his friends and compatriots as "the last of the big freeloaders."
 We called him "Diamond John."
 He came by his title by virtue of having dined gratis for 10 straight nights on anchovies and goose liver canapés which are a Washington cocktail party what gun wadding is to the field artillery.
 This was in 1958 and the record still stands. I doubt it will ever be broken, for freeloading seems to be a dying art. A really talented freeloader is almost as rare nowadays as a zither tuner.
 Most of the old-timers who developed the modern techniques of freeloading are now on the inactive list, having been rendered hors de combat by a few too many hors d'oeuvres.
 Occasionally, they will come out of retirement and flash some of their old form. But it's apparent that they are a step slower than they used to be and lack the stamina for regular publication.
 In our business, it's axiomatic that freeloaders never come back.
 Members of the younger generation seem to lack the heart for freeloading, at least of the championship caliber. They will give it a go if the spread promises to be lavish enough. Otherwise, they don't bother to show up.
 A freeloader simply can't be selective and still stay in the peak of condition. Accepting the good with the bad is the mark of a true professional.
 Buy Own Drinks
 I have seen many of the new-

comers buying their own drinks, which is grounds for disqualification. What is worse, some of them stand treats, which is tantamount to throwing the game.
 No wonder President Kennedy is concerned about the youth of America growing soft.
 Among the freeloaders of my acquaintance those who work out regularly, "Diamond John" is the only one who could hold his own in international competition.
 He gave some of us a fright recently by getting married. We feared a wife might cramp his style, but he assured us that matrimony would be no handicap. "After all," he said, "two can freeload as cheaply as one."

MODIFYING LAWS
 DUBLIN (UPI) — Ireland is modifying its capital punishment laws to abolish the death penalty for certain types of homicides. Minister of Justice Charles Haughey announced Thursday he told Parliament he expects to disclose details of the changes soon.

New Interests Needed To Make Years 'Golden'

For the first time in history of any society, a large segment of the population is faced with the problem of what to do with the "twilight" years of life.

Free Speech Is Dearly Won And Easily Lost

What is the most vital of all individual freedoms? Most people, if they could choose but one, certainly would stress the right to speak out—more formally known as freedom of speech.

Pull Up A Chair By Frank J. Markey

The population of Red China is increasing so rapidly that by the year 2,000 it will equal the total number of people in the world today.

Wisdom for the day: "There is a destiny that makes us brothers, no one goes his way alone.

Don't take too lightly the old cliché that "Everybody talks about the weather but nobody does anything about it."

Our Southern California correspondent says things are booming and will continue so as long as they build those colossal metal firecrackers for the missilemen.

There is a Toronto newspaper columnist who always refers to anyone south of his country's border as "South Americans."

Here is a number of misused and abused words that deserve a long rest. Fair sex, foul play, flying colors, gay Lothario, Good Samaritan, goodies, Grim Reaper, hail of bullets, ill gotten gains, innocent bystander, ill-starred, in the limelight, jaundiced eye, kiddies and investigation was launched.

Today's Smile from the BALLT-MORE SUN: When the husband of a patient at the Johns Hopkins Hospital asked directions to "the discovery room," someone asked if he didn't mean the recovery room.

The Dark Ages, lasting over hundreds of years, silenced all voices save for those which supported and served the ruling cliques.

I Can't Forget Last Year's "Sure Thing"

Edson In Washington Economists' Crystal Balls Are Great On Hindsight

By PETER EDSON

WASHINGTON (NEA) — President Eisenhower's salty Secretary of the Treasury George Magoffin Humphrey had a favorite saying that, "Economists can't tell you where you're going — they can only tell you where you've been after you get there."

In 1961, first year of the Kennedy administration, it was \$518 billion, a gain of only \$15 billion because of a hangover from the late 1960 recession.

In 1962, GNP was \$554 billion, a jump of \$36 billion in spite of the stock market collapse and what everyone said was a business slump. Actually, it was a pretty good year — except for four million unemployed and 16,000 business failures.

President Kennedy's economic message predicts that 1963 GNP will be \$578 billion. This will be a gain of \$24 billion over 1962. But it will be \$12 billion less than the 1962 GNP gain over 1961.

So the net effect of President Kennedy's new economic program, as spelled out in his previous State of the Union and budget messages, is that the economy will not grow as much in 1963 as it did in 1962.

As for the economy as a whole this year, the President predicts business investment will rise "at least modestly," home construction will continue at 1962 levels, government spending will rise by \$3 billion, and consumer purchases should rise in line with gains in business and government activity.

The great drag on the economy is still said to be the \$39 billion to \$40 billion of usable productivity, idle for lack of sufficient markets or incentives. This, it is claimed, is what holds back economic growth and full employment.

Dr. Walter W. Heller, chairman of the Council of Economic Advisers, anticipates that full employment might be attainable in 1964, although Treasury Secretary C. Douglas Dillon had previously said that it might not be attainable before 1967.

Beyond this the Council of Economic Advisers — the experts — don't crawl out on any limbs of business prediction. There is good reason for this. In their last report, the President predicted that gross national product for 1962 would be \$571-billion. He was \$17-billion too high. The GNP rose less than half of the \$50 billion increase predicted.

Now go back and read that first paragraph again.

The Nation's Press

KATANGA CONGO BONGO AGAIN (Edmonton, Alberta, Canada, Sun) The U.N. sent troops from democratic nations to fight the mis-called "secessionists" and after a period of comparative peace, we now have the United States, of all nations, throwing its support to the super-centralist U.N. to take Katanga into the fold by force if necessary.

The Doctor Says:

By WAYNE G. BRANDSTADT, M.D. Epileptic Can Lead Near Normal Lives

Q—Our family doctor says that our son has epilepsy. What can we do to help him if he starts to have a seizure? How will this disease affect his education, occupation, and marriage?

A—If those around your son can tell by his crying out or rolling his eyes that an attack is starting they can, if they are close enough, prevent him from falling. A cork, wadded handkerchief or wooden pencil should be forced as far back between his teeth as possible taking care not to get your own fingers bitten. This will prevent him from biting his tongue.

Every effort must be made to bring his attacks under control before trying to plan his future. If modern treatment succeeds in controlling his attacks he should be able to lead a normal life as regards his schooling, his work, and marriage.

Q—Our 7-year-old daughter has passed out completely for a few seconds on two occasions. The doctor says she has petit mal epilepsy. He says it is not a bad case but I feel like someone had hit me with a club. Please tell me all you can about this disease.

A—There is an excellent chance that your daughter's epilepsy can be completely controlled because the petit mal (mild) attacks are much easier to treat successfully than are the grand mal or severe attacks. If her attacks are properly controlled and she carries out your doctor's instructions, she should function as any normal child.

Q—Is it dangerous to stop a grand mal epileptic seizure with massage before it runs its full course? I have a friend who has these spells and if I massage him before they get going strong he comes out of it more alert than if it goes its full course which leaves him stiff and blue and exhausted.

A—I have never heard of massage for grand mal attacks and don't see how you can manage to be present when his attacks are starting. The difficulty here is that many an epileptic has a mixture of mild attacks and severe attacks.

Q—I am 22 years old and until two years ago I had fainting spells. The doctor now gives me anticonvulsant drugs which keep me from having these spells. Since I have lost out on my schooling I would like to know of a place where I could go to complete my education.

A—Many cities now have adult education groups for all levels of instruction (primary school high school and college). These are almost always held at night and are sponsored by universities, public school system, or the Y. M. C. A. Your state's department of education can guide you along this line and if you do not want to live in the city they can direct you to correspondence courses.

Please send your questions and comments to Dr. Wayne G. Brandstadt, M.D., in care of this paper. While Dr. Brandstadt cannot answer individual letters, he will answer letters of general interest in future columns.

ROBERT ALLEN PAUL SCOTT

Allen-Scott Report

New Atomic Warheads, Bombs Shipped to Cuba In Soviet Ships, U.S. Naval Intelligence Indicates

WASHINGTON—There are ominous new signs that Russia is again building a formidable stockpile of nuclear weapons in Cuba. By using the same tight security methods employed in shipping missiles and bombers last October, the Kremlin is believed to be sneaking atomic warheads and bombs to the island.

The Navy has uncovered some convincing evidence of this clandestine operation. Low-flying reconnaissance planes, equipped with special surveillance instruments, detected "fissionable material" aboard three Russian vessels docking at ports near Havana and Banes within the past 10 days.

This "hot" nuclear cargo was unloaded from the Semperol, Michurinski and Anganskles, three of the 150 Soviet bloc cargo ships that now regularly ply the Russia-to-Cuba run. These vessels are still in Cuba loading for their return trip.

That's the dark heart of a Naval Intelligence report which is keeping President Kennedy's new interagency Cuban task force burning lights late at night at their headquarters in the State Department.

Cuban refugee reports already have indirectly confirmed the Naval Intelligence estimate. These refugees, arriving in the U.S. last week, brought information from the Cuban underground that heavy lead caskets, similar to those used for carrying nuclear warheads and bombs, were unloaded by Soviet military personnel under strict security measures. All Cubans were barred from the dock area during the unloading.

THE SEA CHASE — The Joint Chiefs of Staff ordered the Navy's air and sea surveillance of the three Russian vessels after the Pentagon received reports from Turkey that the Soviet skippers refused to declare their cargoes or destination in passing through the Turkish strait.

According to the Naval report, two of the ships communicated with radio stations in Russia during the entire trip from their home port on the Black Sea. All messages were transmitted in a secret code which is different from that used by the Soviets in their communications with Cuba.

Actual detection of the "fissionable material" was made when the Naval reconnaissance planes flew at mast height over the Russian ships in international waters about 100 miles from Cuba. The planes made several passes to make sure their instruments were recording accurately.

High-flying U-2 reconnaissance flights over the ships while docked also produced pictures of large crates being unloaded from both the Semperol and Anganskles. Note: During recent U-2 flights over Cuba, the Soviet military operations center there has sent out specific instructions that the planes be tracked by missile radar stations but not intercepted.

MAKING IT PAY — The abortive Cuban invasion, which has already cost U.S. taxpayers more than \$75 million, has really paid off for the former Central Intelligence Agency official who masterminded the military fiasco.

Richard Bissell, one-time CIA deputy for covert operations, is now the \$45,000-a-year president of the Institute of Defense Analyses, a private tax-exempt group that was set up to handle some of the government's most secret defense planning.

The lush-paying job, netting Bissell double the salary he received at CIA, was arranged for him by high officials in the Defense and State Departments, after CIA Director John McCone dropped Bissell following a full review of the Bay of Pigs debacle.

Main sources of income of Bissell's organization are the Defense and State Departments, and the U.S. Disarmament Agency. Records now in the hands of a House Investigating Subcommittee headed by Representative Wright Patman, D-Tex., show that the Bissell group received study contracts from these agencies totaling \$8 million during 1962.

Bissell's institute is now advising top Disarmament Agency officials to deemphasize the need for "on site" inspections in their present nuclear test ban and disarmament talks with the Soviet. Instead, the institute favors adopting "verification" methods similar to those used by the U.S. in checking Russia's reported withdrawal of missiles and bombers from Cuba.

This new disarmament approach

CUBAN FLASHES — The Justice Department dropped its plans to seek grand jury action against 13 anti-Castro freedom fighters, arrested as they prepared to leave Florida for Cuba last November, after defense attorneys threatened to subpoena top CIA and FBI officials. If called to testify, these officials would have been asked to detail the help they had given these refugees before the President offered his no-invasion pledge to Premier Khrushchev. The latest U.S. Intelligence estimate shows there are still approximately 30,000 Russian soldiers, military advisers and technicians in Cuba, Representative Gerald Ford, R-Mich., a member of the House Appropriations Subcommittee that handles funds for the Central Intelligence Agency, says the number of Russians in Cuba has increased, not decreased, since November 1.

SOCIAL WHIRL — The dessert that capped the luscious dinner served at the party President and Mrs. Kennedy gave for 150 top government officials was something that was proclaimed as "Dolby Madison Surprise." Just what the concoction had to do with that noted First Lady was not indicated, but it sure was a surprise. As one prominent guest later wryly described it, "All I could make out of it was a bunch of egg whites blown up and topped with a couple of strawberries." Such is high life at the White House. . . . One ecstatic guest at this ornate dinner-dance was Miss Rebecca Mills, 21, senior at Arkansas University and daughter of Representative Wilbur Mills, D-Ark., powerful chairman of the Ways and Means Committee that has charge of the tax reduction bill. Miss Mills attended the White House affair with her mother, while her father was in Little Rock addressing a Boy Scout dinner.

Vice President Johnson is maintaining a dizzy social and political pace these wintry days. The weather may be icy cold, but the Texan is burning up the trails, Example: On one day he made five speeches, including one at the annual convention of rural electric co-ops in Las Vegas, Nev., and then flew back to Washington in time to attend a reception and later to escort Mrs. Johnson to a diplomatic dinner. Afterwards Johnson remarked, "And people ask me what the Vice President does to keep himself busy." . . . Biggest attraction at the Independence Day party by Burma's Ambassador and Mrs. On Sein was the hosts. Both were attired in flowing silken, peach colored versions of the male and female dress of their country. Mrs. On Sein consisted of a long, lightly gathered skirt studded at the ends and called a longyi; over her blouse she wore a Spanish-like mantilla.

The Ambassador was attired in a pasoe, a length of unstitched silk that wrapped around his body in long, soft folds. On his head was a gauze band, a cloth-wound turban tied with big, conered ends on the side. . . . A three-foot cape on a golden pedestal draped with the green, red and yellow flag of Cameroon, was the piece de resistance of the National Day celebration of that country at a fancy hotel party.

Clearing House

Articles for this column are preferred to be 300 words or less in length. However, longer articles may be printed. All letters must be signed.

Editor: The displacing of the United States Constitution by the UN Charter is not as remote as most Americans think. The UN has some 114 members, the neutral and unaligned nations are scared to death of the communists and will vote to please them. The U.S. has 1 vote in the UN. Our voice is 1-114.

Ex-President Herbert Hoover in his birthday message stated that the United Nations had lost its value as a peace keeping organization. Look how the UN whipped Katanga into submission. Please write your congressman and ask him to get the United States out of the UN and get the UN out of the United States.

Respectfully, Mrs. B. E. Walker Amarillo

Foreign Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

When President Charles de Gaulle almost in a single sentence dumped the Atlantic alliance and vetoed British membership in the common market, the surprise need not have been nearly so great had the signs been read a little better.

In a state of what might be called complacency, his Western associates simply went on expecting him to do things he never intended to do.

As early as 1958, De Gaulle was showing disenchantment with NATO. After that came his determination that France should have its own nuclear force. His imposition of almost impossible conditions on British entry into Europe and his open courtship of the West German Republic have been other signposts along the way. They are not of recent origin.

One Leader—France

In De Gaulle's concept of a French-led Western Europe, there was no place for Britain or for the United States.

The gods are never questioned and so it seems unlikely that De Gaulle will bother to explain himself more than he already has. But it seems probable that these considerations lent weight to the final decision.

The European Common Market already is an economic success, and for selfish reasons alone its members are not likely to abandon it even in the face of a major upheaval.

Whatever its irritations may be, the United States cannot abandon Europe militarily. Therefore, even if it takes 10 years to build up an independent French nuclear force, there is no danger of a military vacuum.

If there is a big loser, it will be Britain and if Britain finally

does enter the common market, it will be on any terms she can get.

France is at its moment of greatest economic strength. It is growing faster than West Germany and twice as fast as either the United States or Britain.

Speed Important

Time is important. Along with De Gaulle, the greatest advocate of close Franco-German ties has been West German Chancellor Konrad Adenauer who is scheduled to leave office in less than a year.

De Gaulle himself, with approximately three years left in office, also must firm up his own concept of a future France before it can be undone by his successor.

France's partners in the common market have said plainly that De Gaulle's idea of a Europe of the future is not their idea.

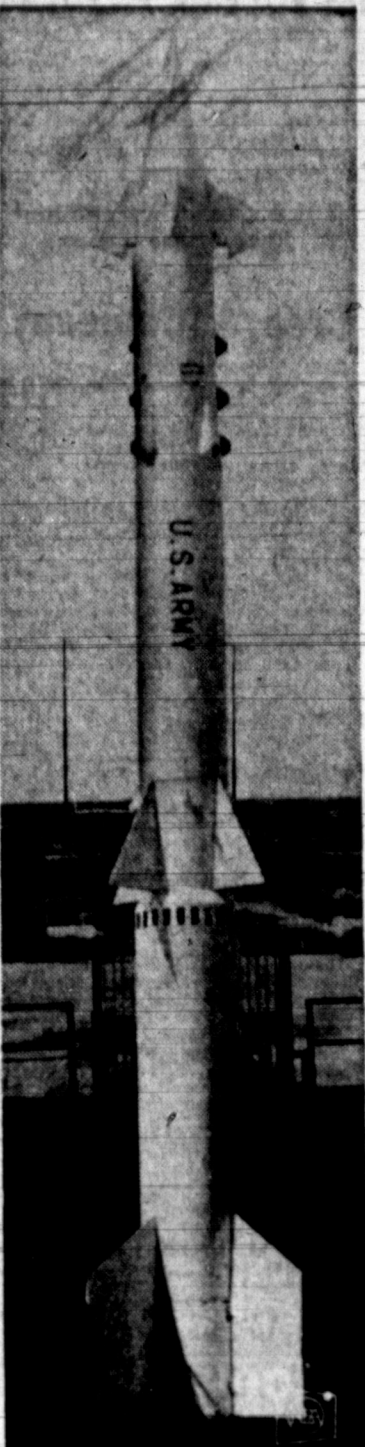

But De Gaulle apparently feels himself on firm ground. The West German reaction may be his greatest weakness. The German Bundestag must ratify the accord recently negotiated by Adenauer and De Gaulle. The Germans want Britain in the common market.

And they have indicated strongly that if they must choose between Paris and Washington for national defense, it will be Washington.

DELAYED REACTION

NOTTINGHAM, England. (UPI)—Herbert Wakelam won a divorce on grounds of "desertion Monday from his wife who left him in 1924 after one month of marriage.

When the judge asked why he took so long in seeking a divorce, Wakelam replied: "Because I didn't want to stir up trouble."

NEW ZEUS—Nike Zeus, the Army's antimissile missile, displays a new profile. Latest design has shorter, blunter control surfaces which improve the experimental missile's performance. A Zeus scored the first known intercept of an ICBM in the Pacific in July 1962. Another Zeus recently knocked down an ICBM accompanied by decoys.

Texas Ranked Third In Attracting New Industry

AUSTIN (UPI) — Texas industry grew at a steady pace in 1962—but not fast enough or big enough to make it a boom year, the University of Texas Bureau of Business Research reports.

Plants still under construction and the impact of the National Aeronautics and Space Administration's manned spacecraft center at Houston make 1963 prospects brighter, the bureau said.

Texas had 240 new plants in 1962, ranking it third among the 50 states in attracting new industry—second only to New York and Pennsylvania.

By November 3,000 more Texans were at work in manufacturing plants than at the beginning of the year. The biggest employment jump was in ordnance and accessories industries. The loss of some 5,000 jobs in the aircraft manufacture industry was the biggest blot on the Texas employment ledger.

Highlights Listed

Highlights of the industry-by-industry review of 1962 and outlook for 1963 include:

—**CHEMICALS.** With more than 700 chemical plants in operation and more on the way, Texas led the nation in capital expenditures in this industry. Chemical industry employment held steady, despite increasing automation.

Monsanto's Chocolate Bayou plant in Brazoria opened its doors and expansion programs were announced by El Paso Natural Gas Products Co. and Rexall Chemical Co. for their joint operation at Odessa and by Pure Oil for its Smith's Bluff refinery near Nederland.

—**FOOD.** The food industry remained the largest employer in the manufacturing field. Meat packing companies continue to build new plants instead of patching up their old ones. Construction began on the Campbell Soup

plant at Paris and on the Carling Brewery at Fort Worth.

Bankruptcy Hits

—**APPAREL.** Small operations continue to open and expand in cities of 20,000 persons or fewer, where a stable work force is available. Late in December, one of the state's largest clothing plants, Bernhard Altmann International Corp. of San Antonio, was closed by bankruptcy.

—**ELECTRICAL MACHINERY.** Aircraft manufacturers continued to switch from aircraft production to electronics. Texas Instruments announced plans for a \$4 million plant in North Dallas.

—**AEROSPACE - ELECTRONICS.** Lockheed bought a site near Houston for a research unit and manufacturing plant. Philco was rumored to be studying sites in the lower Sabine-Neches complex.

—**TRANSPORTATION - EQUIPMENT.** Contracts for the TFX fighter plane will help bring employment back to normal at General Dynamics at Fort Worth.

Auto Labor Up

—**Production rose substantially at the Ford and General Motors assembly plants in Texas.** The boat building industry lagged in 1962, but increasing leisure and income make the industry's long range outlook bright.

—**PRIMARY METALS.** The Aluminum Company of America opened a sixth potline at their Point Comfort reduction works near Port Lavaca and installed a \$500,000 unit for casting direct

chill ingots at their Rockdale operation. Armco Steel's Sheffield division at Houston and Lone Star Steel's Daingerfield plant will soon undergo expansion.

—**CONSTRUCTION.** This industry remained at a high level. A \$500,000 wallboard plant will be built in Irving and Athens Brick Co. in Henderson County will double its production.

—**WOOD PRODUCTS.** Biggest news last year was East Texas Pulp and Paper Company's announcement of plans to double production at its Evadale plant. Southern Pine Lumber Co. at Pineland and E. L. Bruce and Co. at Center announced expansion projects.

—**ORDNANCE.** Employment in the ordnance industry was up over 30 per cent from 1961 and expected to go higher, barring radical changes in national defense policy.

Lost 18 Pounds With Barcentrate

Have a letter from Mrs. S. B. Stutte, 805 College Ave., Fort Worth, Texas.

"I feel that I must write this letter to thank you for your wonderful product Barcentrate. I was 20 pounds overweight. My druggist suggested Barcentrate and after taking my first bottle I had a weight loss of 18 pounds. I was on no special diet."

Barcentrate has been sold in Texas for over 20 years. Obtainable at any Texas drug counter. Money back guarantee on very first bottle.

Vote Jan. 31 Against All Charter Amendments
Scratch out ~~YES~~ Vote NO

Paid Political Advertising

CITY OF PAMPA, TEXAS
Charter Amendment Election
January 31, 1963

NOTE: VOTER'S SIGNATURE TO BE AFFIXED ON THE REVERSE SIDE.

SAMPLE BALLOT
JANUARY 31, 1963

Vote for each proposition of your choice by scratching or marking out the word "YES" or "NO" under each proposition so that the one remaining shall indicate the way you wish to vote.

PROPOSITION NO. 1

Shall Section 3 of Article I of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section 3. EXTENDING LIMITS IN ACCORDANCE WITH ARTICLE 974 OF THE REVISED CIVIL STATUTES: Where such additional territory adjoins the corporate limits of the City and contains three or more inhabitants qualified to vote for members of the state legislature, such adjacent territory may be annexed to the City in the manner and in conformity with the procedure set forth in Article 974 of the Revised Statutes of the State of Texas of 1925, as now or hereafter amended."

PROPOSITION NO. 2

Shall Section 3 of Article I of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter include as follows:

"Section 3. EXTENDING AND FIXING CITY LIMITS BY ACTION OF COMMISSION: The City Commission shall have power by ordinance to fix the boundary limits of the City; and to provide for the extension of said boundary limits and the annexation of additional territory lying adjacent to said City, with or without the consent of the territory and inhabitants annexed. Upon the introduction of such an ordinance in the City Commission, it shall be published in the official newspaper in the City one time, and shall not thereafter be finally acted upon until at least thirty days have elapsed after the publication thereof. Any citizen of the City, or of the territory to be annexed, shall have the right to contest said annexation by filing with the City Commission a written petition setting out their reasons for said contest, and after such citizen or citizens shall have been given an opportunity to be heard, said ordinance, in original or amended form, as said City Commission in its judgment may determine, shall be finally passed, and the territory so annexed shall be a part of the City and the inhabitants thereof shall be entitled to all rights and privileges of other citizens and shall be bound by the acts, ordinances, resolutions and regulations of said City."

PROPOSITION NO. 3

Shall Section II of Article VII of the Charter of the City of Pampa, Gray County, Texas, be amended so that it shall hereafter read as follows:

"Section II. MAYOR PROTEMPORE: At its first meeting following each regular election of the Commission, the Commission shall by election designate one of its members as Mayor Protempore who shall serve in such capacity during the pleasure of the Commission. The Mayor Protempore shall act as Mayor during the absence or disability of the Mayor and shall have power to perform every act the Mayor could perform if present."

Student Council Will Purchase "Victory Flag"

At the Student Council meeting held yesterday in Pampa High School, Gail Cole, chairman, reported on the purchase of a Victory Flag to be flown at the school following victory in any athletic event.

She reported receiving purchase costs from two companies ranging in price from \$115 to \$135. The Victory flag design will be white with green and gold lettering and a gold shock of wheat.

Pam Ludeman, Twirp Week chairman, announced that the Twirp-Week party will be held Saturday, Feb. 16 from 7 to 9:30 p.m. in the school cafeteria. The orchestra to play for dancing has not been selected.

Due to the fact that there are no more home basketball games on Friday nights, after game dances have been discontinued.

Plans are being made to take a chartered bus to the Pampa-Lubbock basketball game on Friday night. Charter fare will be \$6.25 per person; students planning to go should make reservations before deadline Wednesday noon.

Plans are underway at the high school for the election of a 1963-64 student body president on March 8. Seniors may submit nominations but only sophomores and juniors may vote in the March election.

American Field Service students will present an all-school assembly on Feb. 13 in the high school auditorium. Appearing on the program will be Luisa Prieto of Madrid, Spain, and Turan Soylenoz of Turkey, Pampa High School AFS students. Invitations have been extended also to AFS students in Amarillo schools to appear on the program.

Service clubs' student guests were also named at the council meeting yesterday: Gordon Balch, Junior Rotarian; Ricky Goodwin, Junior Optimist; Johnlyn Mitchell, Lions' Club Sweetheart and Diane Drew, Altrusa Career Girl of the month for February.

Wall Street Chatter

NEW YORK (UPI)—The Dow-Jones average has reached an area where progress is becoming labored and where stronger upside resistance is likely to be encountered, says the Alexander Hamilton Institute.

Failure of the rails to keep pace with industrial strength quite often in the past has presaged a general market correction. This now seems a logical prospect in view of the market's sharp recovery since October. The institute believes any such reaction will be limited and should afford opportunities to purchase good quality stocks on minor price concessions.

While Shearson, Hammill & Co. has not changed its optimistic view as to longer term prospects, some degree of caution now appears warranted with regard to the near term. Stocks which appear to have outrun their 1963 earnings prospects should be sifted from portfolios and new commitments confined to those issues where a strong case can be made for higher prices even if the market advance runs out of steam.

Spear & Staff, Inc. believes a healthy breather would be the best thing that could happen to the market right now. It says a minor reversal would help clear out weaker holdings and put the price structure on a sounder footing. Spear says the best buys are to be found in autos, air transport, apparel, bus lines, chemicals, drugs, electrical equipment, electric utilities, electronics, oils, rails and trucklines.

Pocahontas became a Christian and her baptismal name was Rebecca.

WHY?

Should the Citizens of Pampa be asked to vote a Third time within 92 days?

WHY?

Would the Mayor and City Commission appoint a committee to recommend City Charter changes and then almost completely ignore their recommendations?

WHY?

Does the City Commission say they have discussed needed City Charter changes for 20 months and yet not one word of such discussions show in the minutes of their meetings?

WHY?

Did the City Commission ignore a petition signed by 814 voters asking that other items be included? The RIGHT OF PETITION is guaranteed by The Constitution of the United States. This as a SACRED TRUST to people of FREE Nations only. Why should we be denied OUR SOVEREIGN RIGHT?

Haste Makes Waste

Pampa's City Charter needs many changes — if any of these proposed amendments pass — it will be two years before other changes can be made! Don't settle for minor nuisance changes that will force us to operate for another two years under a Charter that is 35 years old. Vote against all THREE amendments until such a time as Constructive, Well planned Amendments can be presented!

VOTE AGAINST ALL AMENDMENTS JANUARY 31st
