BIG SPRING, TEXAS, FRIDAY, NOVEMBER 23, 1928.

BY T. E. JORDAN

## THREE MILLION IN OIL SALE

## REMAN CAPTURES BURGLAR; SAID AXE KILLER

### FROM MARAUDER IS KIDNED AFTER FIGHT FITS DESCRIPTION

The Man Wanted in Nebraska for Crimes Committed in Field Who Beat Victims With Hatchet.

(By the Associated Press)

Nov. 22.—A negro, beaten down by his own men held here today as a suspect in the series of attacks which terrorized Omaha during the past few days, who is confined to the hospital, under heavy guard, was arrested yesterday after he had robbed Alfred Samuelson, a city fireman, and it was answered the description of the Omaha chopper.

### Daring "Human Fly" to Climb Here Friday

Henry Rowland, nationally known skyscraper climber, who declares the secret of scaling bare walls is "just being careful," will give a free exhibition on Big Spring's tallest building, here tomorrow. The first performance will begin at 2:30 o'clock in the afternoon, the second at 7:30 o'clock in the evening. Rowland hails from Cleveland, Ohio, and he has scaled bare walls all over the country. Rowland will climb to the top of the building blindfolded, along the edge of the summit, and will balance himself in ease on a tilted chair, from the edge of the roof.

Skyscraper climbing is nothing new to Rowland. He has been in this risky business for the past 16 years, during which time he has climbed approximately 2,200 buildings.

It is said that Rowland doubled in the Harold Lloyd filming "Safety Last," a screen success, last year, making a high climb. He is considered one of the best in the business.

### Andrews McCamey Drilling Below 3000

The Andrews-McCamey test is now drilling in limit below the 3000 foot depth. Due to the fact that the time was hit lower than in other tests in the oil fraternity has given up hope of this well coming in a producer. Queen things have happened in West Texas and it is not a cinch that this well will be a duster yet. This test is being drilled on the City Waterworks tract one mile south of Big Spring.

### Bags Big Black Bear While On Deer Hunt in Davis Mts.

"Oat there was a little boy went way out in the woods to snoot a bear, he did—"  
— famous lines from the immortal Bear Story, by James Whitcomb Riley.

We have a bear story to tell, but it is just a little different from that imaginary one. In the first place, it wasn't a little boy doing the hunting, but some grown men, and they were not looking for bears, but were deer hunting. They got a bear, and that's another time—the story differs.

N. W. McCleskey, Sam Weaver, of Big Spring, J. F. Langford, O. H. Moore and W. J. Harris of Abilene, returned last night from a hunting trip in the Fort Davis mountains.

They had planned on bringing home a deer or two, but instead they brought home a big black bear. The bear was shot by Mr. Langford of Abilene, in telling of how he downed the animal, said:

"I was hunting for deer, and was in a clump of trees, waiting, when I got vision of this bear heading straight for me.

"It seemed to me that he was coming by leaps and bounds. I was so surprised at seeing a real live, wild bear, I almost forgot to put my gun into use. I held it as steady as I could and fired. One shot was all that was necessary to kill the cub."

### Revolutionary Leader Stirs Up More Troubles

VIENNA, Hungary, Nov. 22 (AP).—Advices from Sofia, today, said that Ivan Michaloff, Macedonian revolutionary leader, was reported to be threatening to march on the Bulgarian capital on short notice. The population is said to be panic stricken, and the public buildings are occupied by the troops.

Along the approaches to Petrick, which is Michaloff's stronghold, the bodies of his murdered opponents are said to be hanging from trees. The initials of the Macedonian organization were branded on their chests.

The revolutionary leaders are said to be requisitioning everything they want from the population. A meeting of the Bulgarian cabinet was summoned for today. It is the common knowledge, however, that the majority of the troops and officials were siding with Michaloff, it is said.

### Police Hunt for Owner of Auto As Baby Killer

HOUSTON, Nov. 22 (AP).—An expensive automobile and its owner were the hunted objects today, as officers followed a new clue in an effort to find the slayer of the baby whose dismembered body was found, stuffed into a lard can, near here on Tuesday.

The investigators abandoned the theory that the mother of the child had also been slain when a thorough search failed to reveal any sign of another body in the vicinity.

### 2000 Children In the Movies

More than 2,000 school children broke into other "movies" here today, when they were photoed in connection with the story which is to be shown in thirty R. & R. theaters in Texas and Oklahoma. Yuell Robb is due credit for this big advertising feature to boost Big Spring. If we had to pay for having this feature shown in the thirty theaters on the R. & R. circuit it would have cost at least \$3,000. As it is the city of Big Spring is not paying one dime because Mr. Robb is shouldering the load.

O. H. Morris of Lamesa was a business visitor in the city yesterday.

### Big Fire Scene at Noon Friday

When you hear the fire siren sound about noon tomorrow grab your hat and rush to the fire. A big scene is to be filmed for the Big Spring story now being prepared and we want the world to know there are a few folks in our city. A rescue scene will be staged but to make it go over big it is necessary to have a large crowd of spectators at the fire scene.

So turn out tomorrow and help make this part of the picture a white.

### ABOARD HOOVER'S SHIP

Two interior scenes on the U. S. S. Maryland, superdreadnaught that will carry the Hoover's on their South American voyage, are pictured above. The admiral's cabin, quarters of the president-elect, is shown at the top, and the mess room where the Hoover party will eat, is below.

### Steers Will Play Roscoe There Friday

The last conference game of the 1928 football season for the Steers will be played at Roscoe tomorrow afternoon. The Steers will play Lamesa on Thanksgiving Day, but this will not be a conference game.

The Roscoe team is said to be fast, powerful, and a team with plenty of experience. They have made a mighty good showing this season, and the Steers are going to have to show that "Fighting Spirit" if they down this fast eleven.

Costs is out of the game for good. Raleigh Sims will fill the gap of quarterback made vacant by Costs. He can fill the bill, and his teammates are expecting 1-10 from him in this game.

Barley will probably be shifted from center to the backfield in Friday's game.

The Steers will leave for Roscoe in the morning. As many fans as possible can be urged to accompany the team on this trip and help them bring home the victory.

### Condor Test Below 2500 Feet

The Condor Petroleum Company is drilling around the 2500 foot depth in their test well in the southern portion of Borden County. According to oil men it has a good shot at being brought in a commercial well.

### School Board Meets Tonight

A meeting of the board of trustees of the Big Spring Independent School District will be held at 7:30 o'clock tonight.

### Watched Sick She Poisoned Die-Is Claim

UNION, Missouri, Nov. 22 (AP).—A Good Samaritan was Mrs. Bertha Gifford. She was always ready and willing to sit up with the sick and dying, in fact, she is known to have been on voluntary watch, while eighteen people died.

But the State said that she had administered poison in these cases and hastened the end of the dying she was guarding, but that she was insane and that this was the form her mania took. She will therefore spend the rest of her life in the State Asylum for the Insane.

A jury here last night found the woman not guilty of the murder of Ed Brinkley on the ground that she was insane.

### Hoover Hooks Two Fish While Warship Waits

ON BOARD U. S. S. MARYLAND, Nov. 22 (AP).—Having demonstrated his prowess as a deep sea fisherman, Herbert Hoover continued on his good will tour to Latin America, and the battleship Maryland was today ploughing her way steadily through tropical waters off the coast of Mexico.

During the fishing expedition yesterday, the President Elect hauled in two fish, one weighing fifteen pounds and the other five pounds.

### Largest Estate In Tax History Payne Whitney's

NEW YORK, Nov. 22 (AP).—The world's financial center gasped today when it was learned that the late Payne Whitney had left a gross estate of \$194,328,514. This was the largest estate in the history of the Transfer Tax Bureau.

It was also revealed that the late financier had bequeathed upwards of forty-five millions to various educational and charitable institutions.

### Grain Letter From Chicago Tribune

Chicago Tribune says: Elevator interest here and at outside points were active in turning over their hedges from December into May wheat at 7 1/2 cents spread against 8 cents early on Tuesday. December shorts are also coming in freely on grains which is tightening that delivery.

Despite the small reactions of corn, the advance has caused profit taking by interests that have favored the buying side on break.

### Arrested on Theft Charge

Bryant Barry and James Carroll were arrested Wednesday night on a charge of theft. They are accused of having taken a suit case from a co-house.

### Two Arrested On Forgery Charge

Vivian Johnson and Augie Thompson of Greenville or Wichita Falls, were arrested Wednesday evening on a charge of forgery. Each one of them is accused of forging a check for about \$600.

### New York Stock Flash

Texas & Pacific Land and Trust Company which closely follows the oil was up 3/4 points on advice that the Taylor-Link Oil Company's well the Klob-Rumsey No. 1 on section 3, in block 32, 2-section is pumping well over 900 barrels on a 24-hour test. This property was regarded as a wildcat according to the Journal News. This well is located ten miles south of Big Spring.

### MARACAIBO CO. BUYS HENSHAW HOLDINGS SAID THREE MILLION

Deal Means Entry of Another Major Oil Company Into Howard County Fields.

(By the Associated Press)

NEW YORK, Nov. 22.—J. J. Cotter, president of the American Maracaibo Company, announced today that his company had purchased the leases on approximately twenty-one thousand acres of proven, semi-proven and prospective oil lands, owned by the Henshaw Oil Corporation. The leases acquired by the Maracaibo are located in Blaine county, Oklahoma, and in Brown, Coleman, Howard, Crockett and Winkler counties, Texas.

### \$7,000,000 Milk And Ice Merger Complete Today

TEXARKANA, Nov. 22 (AP).—The Texarkana Gazette says today that the merger of a number of milk and ice plants throughout Texas, Arkansas and Louisiana, under the name of the Southwest Dairy Products Company, was completed in Chicago yesterday. The actual capitalization of the new combine is seven million dollars with an authorized total of ten millions.

C. M. Conway of Texarkana is named as president of the new company and the headquarters of the concern will be in Texarkana.

### A Test Well Near The City Limits North

S. E. Weller announces that the plan he has been working on to have a test well drilled near the city limits of Big Spring has been successfully consummated.

This test to be known as the Tarkenton-Read No. 1 is to be drilled in the northwest portion of the southwest quarter of section 4, block 32, township 1-north, which is just north of the city limits.

L. W. Tarkenton of Wichita Falls is to have this test drilled.

The work of preparing a slush pit and digging a derrick cellar has already been started.

"This is considered a very important test and some of the major oil companies have been paying high prices for leases around Big Spring when it was found this test was going to be drilled."

### Two New Officers Named By U.D.C.

HOUSTON, Nov. 22 (AP).—Mrs. Rudolph Blankenburg, of San Diego, California, second vice president general; Miss Marion Sally of Orangeburg, South Carolina, historian general, were the only new officers named by the United Daughters of the Confederacy in the annual election of officers here today.

The other officers of the society were all re-elected by acclamation.

### Boy Scouts to Be In Movies

All Boy Scouts in Big Spring are requested to be in full Scout uniform tomorrow afternoon, and meet at the office of the Chamber of Commerce at 4:30 o'clock, to be in the motion picture that is being made in Big Spring. It is hoped that every Boy Scout will be present, and in uniform.

Pictures of the school students were made this morning at the various city schools.

### England Hears SOS of Greek Steamship

LONDON, Eng., Nov. 23 (AP).—Lloyd's wireless station at Land's End intercepted a message this morning from the Greek steamer Virginia saying that she was sinking and giving her position as fifty miles off Oporto, Portugal.

OIL DEVELOPMENT TO CONTINUE

With the oil fields to the southeast of Big Spring just getting under good headway there is no estimating their worth. The extent of the field is yet to be definitely determined...

LET US INVITE SOME BIG OIL MEN

Along with our program for development next year we should make it a point to invite a few cotton seed oil mill owners, cement plant executives, men interested in lime kilns, brick plants, glass factories, cotton and wool mill operators to visit us as the guests of our city...

A BAND NEEDED

A band is a mighty nice thing for a city, and it is a fine thing for every boy who has the gumption to join the band and stay with it. A good band is an asset to a town and will win it much worthwhile advertising.

Conducting a band in connection with our school is indeed a splendid idea and insures a more business like way of handling the matter. There is the further assurance that membership will be continuous for a term of years...

OIL DEVELOPMENT TO CONTINUE

When the big oil companies continue to invest in oil leases and royalties in most every portion of our county it is a pretty good sign that oil development is due to continue for an extended period. The oil interests seem to be of the opinion that oil is due to be developed in the northern part of our county...

FACTORS IN WEST TEXAS' GROWTH

Monday's Star-Telegram contained a survey of development factors in West Texas which emphasized the relationship of local chambers of commerce to the tremendous impetus which that development has received during the past several years. This is a recognition which has been thrusting itself upon the notice of observers...

The Star-Telegram writer makes the assertion that no other section supports its chambers of commerce as liberally as does West Texas. Here is recorded both a cause and an effect. Loyal community support has made the West Texas chambers of commerce efficient and active agencies for community development...

Recognition of this quality of organized community promotion in West Texas is nationwide. The West Texas Chamber of Commerce, which may be termed the clearing house for chamber of commerce activities for the whole section, is the model for similar efforts by other regions scattered over the whole country...

West Texas is reaping the benefits of this admirable situation. Rather, it is reaping the benefits of the qualities of citizenship which produces such cooperation for the general good.

TWICE AS MANY HOMES

Many of the so-called new-comers declare more residences have been erected in Big Spring during the past year than were to be noted when they arrived here a year ago. They believe the same thing will transpire during the next twelve months.

If our folks take to the dairy game as they should we may be able to land a big milk plant here some day. But with a creamery already here those who adopt a dairy program are assured a good market for milk.

Seems as though it is doing its best to break the pretty weather we have had the past few days. It rains a little while, and then looks like it is going to clear up. Guess we are going to have the start of winter with this spell.

THE MEAN THING!

"Just to think—exclaimed a woman to her husband—here it is only November and they are already showing spring hats!" "That's nothing," replied the husband. "You are wearing your next winter's hat, right now."

"Hmp!" sniffed the wife. "You don't fool me a bit. You can't kid me along that way. You will have to lay down a better smoke screen than that to trick me into wearing a hat two seasons. This thing looks like a last year's bird nest, now." Then the trouble began.

Women's hats have always caused trouble. Many times it has been a woman's hat that has tangled up two wholly incompatible persons in the holy bonds of matrimony. Many a fellow has fallen in love with a pretty hat. It was the way it nestled down on her head, and the way she peeped from under its brim that caught his fancy.

Not only the lure of women's hats and the cost of women's hats gets persons into difficulty, but another cause of disturbance is that a new hat often so changes a woman's appearance that a man who does not know her like a sister may fail to recognize her. Mr. Bartholomew is introduced to Mrs. Braintree wearing a cute little toque. Two or three days later Mr. Bartholomew while ambling down the avenue meets Mrs. Braintree adorned with another sort of head piece that she had crawled up into and from under which she is peeping out at the world.

However, regardless of the disturbance, dissension and distress women's hats kick up, they are worth it, by golly! they are worth it.—Cisco News.

GETTING RID OF PINK BOLLWORM REGULATION

We didn't invite the Pink Bollworm to Howard county, never a live one has been found here and yet our citizens are penalized as though our county was badly infested with the much feared pink bollworms. It is costing our farmers a nice round sum for fumigation and sterilization which is absolutely unnecessary.

And from the announcement of R. E. McDonald, entomologist for the state department of agriculture, it appears we are likely to be inflicted with these regulations for an undetermined number of years. Mr. McDonald states that release of the Dawson-Howard county area from the pink bollworm quarantine this season would be against his recommendation.

Just as finding a dead pink bollworm or two was considered sufficient evidence that this area was infested, the same logic holds good and they say, just because no live or dead pink bollworms are not to be found in West Texas is no sign that the pest does not exist. How are you going to answer such reasoning. It is a new theory that pink bollworms can remain dormant a season or two and then spring into existence as though by magic.

"Hatchery Chicks For Greater Profits" is the slogan of a national organization of hatcherymen who have united in the interest of better farm flocks through better breeding of chicks coming from the incubators.

The "loafer hen," who eats much and lays little, is the greatest drag on farm poultry flock profits. Replace non-layers with good reliable stock, says the U. S. Department of Agriculture, and watch the profits grow.

When pullets are housed and set to their winter task of egg laying, care must be taken to see that they get plenty of green feed. Rape, green clover, and alfalfa are satisfactory for this purpose.

OUT OUR WAY

OLD FASHIONED NECKTIE

By William

Local Players Selected for Motion Picture

Through the courtesy of Yell Cobb and the R. & R. Theatre, Big Spring is to receive valuable publicity from the moving picture that is being produced under the direction of Edwin Cooper and Victor Shuler of the firm of Photo Art Production, Inc., of San Antonio, Texas.

A cast of local players has been selected for the leading parts, working in civic organizations, such as Rotary, Business Men's Luncheon Club, P. T. A., directors Chamber of Commerce as City Federation. Pictures will be made of the agricultural section, oil fields, railroad shops, schools, churches, and all prominent gatherings held between now and Tuesday, until the cast will grow, until a large majority of the townsmen will be included in the picture.

This picture will be shown locally as well as in other theaters owned and operated by the R. & R. Theaters.

Starring in the picture is Miss Lola Belle Stewart as "Miss Big Spring," who will be representative in childhood days by little Winnifred Piner. Lewis Ritz will be represented by Wendell Parks. The part of the "Girl Friend" will be played by Miss Dorothy Ozabren and little Calvin Boykin, Jr. will

# VEUSMORE GAS LEA FROM CITY DS AT MEETING

### Says New Lines Now Being Rushed and Belief in Next Three Days. Herald Staff Representative Visits Field.

to an invitation from the City Commission for the gas company to show cause why the gas in Big Spring was "anything but satisfactory." F. H. Caughlen, general superintendent of the Natural Gas and Power Company's property and Louisiana met with the commission this

was for the purpose of advising the representatives of the gas company to either provide an adequate or forfeit their charter.

Caughlen explained that the gas in the field is not being pumped to permit the gas to be in the city in sufficient quantities and larger lines are being installed. He said that he discovered a month ago on the side of the pipeline that the gas was not being pumped and he was willing to correct the situation until the sale was made.

had been spent in the field in an effort to pump gas pressure and to overcome the inadequate gathering system.

now had a large gathering system and welders installed in the field in an effort to pump gas pressure and to overcome the inadequate gathering system.

has been laid out to help relieve the situation. The larger gathering system should be completed by next week.

stated his company has a half million dollars in investment and that they could not afford to stop pumping gas to supply the city.

every effort is being made to correct this situation as soon as possible.

is now at the 45-5 inch gathering system and the gas is being pumped to the city.

is in operation at the city and is ready to supply the city with gas.

## Federal Bldg. Investigation May Result

B. Reagan, president of the West Texas National Bank of this city, is in receipt of a message from Congressman C. B. Hudspeth which tells of his efforts to have the committee now in Texas to investigate cities in line for Federal buildings to be sure and visit Big Spring.

The telegram conveys the following information: "I have wired Honorable Carl Schuneman at Washington, to be sure and visit Big Spring and investigate the need of a Federal building. Have just received a wire that he is in Colorado, Texas, today. I have wired him to be sure and visit Big Spring and suggest that you get in touch with him through the postmaster. I regret that I cannot be there to aid, but must take a short rest before Congress."

C. B. HUDSPETH. Big Spring needs to put in her claim if we hope to secure a Federal building and no city in Texas is more in need of one.

If we secure the approval of this investigation committee we may secure a building by 1935.

## \$100,000 Damage Suit Result of Banker's Reward

Emory, Raines County, Texas, Nov. 10 (AP)—Suit for \$100,000 was filed against the Texas Bankers Association, its members and others here today as a result of the killing of William Carl Hansen at Odessa, Texas, in an alleged bank robbery.

The action was entered by Mary Hansen, widow of the slain man, who named officers and members of the Texas Bankers Association; Reeder Webb, sheriff of Ector County; A. C. Francis, sheriff of Midland County; Bud Barefield, sheriff of Upton County, and J. W. Hogan as defendants.

Hansen was slain in the asserted robbery, which occurred November 25, 1927.

## Cotton Pest War Aid Bill Planned

Austin, Nov. 19 (AP)—A bill will be introduced in the Forty-first legislature providing that the State help pay cotton farmers of 13 West Texas counties for their losses under the Federal and State restrictions imposed this season to stamp out pink bollworms. State Representative Henry Webb of Odessa said here Monday.

Webb did not know what the losses will amount to nor how much appropriation the bill will call for.

By a state proclamation of last April 2, strict regulations were imposed on cotton growing in Loving, Winkler, Andrews, Ector, Crane, Upton, Midland, Martin, Dawson, Glasscock and parts of Borden and Howard counties. Cotton growing was completely forbidden in Brewster County, although not much acreage was involved.

## Registered Jersey Cattle Secured For County

Herb sea and J. T. Thixton returned Saturday from Fairlurris, Texas, where they had been to inspect the herd of registered Jersey cattle owned by Ed C. Lassiter. While there they purchased 6 Jerseys for which they paid \$2500, and these animals are expected to arrive here today. One of the registered cows purchased by Mr. Lass has a record of 10963 pounds of milk and 585.37 pounds of butter fat during a 305 day test.

One of the cows purchased by Mr. Thixton has a record of 2384.2 pounds of milk and 312.88 pounds of butterfat in a 184 day test. Mr. Lassiter paid \$1000 for this cow at Bangor, Maine, a few years ago.

## Baylor Day to Be Observed Sunday

The Sunday services in almost every Baptist Church in Texas will be dedicated to Baylor University and the campaign now being waged for the Baptist University. At the same time there will be 1500 speakers who will be explaining the campaign and its purposes. This has brought about the slogan used in the campaign for next Sunday, which is "Fifteen Hundred Hours of Speaking for Baylor."

Rev. D. H. Heard announced that the services of the First Baptist Church will be in accordance with those held in the various other Baptist Churches and that a special "Baylor Day" program will be held. This program will consist of talks by former students and friends of Baylor.

There will be a special section reserved for the former Baylor University students and they will be the honor guests at this service.

Mr. and Mrs. A. J. Hilburn have moved into their pretty new home at 512 Bell Street.

## Coming to Big Spring

REV. C. F. FARHAM

Rev. C. F. Farham, will be in Big Spring, Sunday and Monday, November 25 and 26, and will conduct services in this city. All day services will be held at the Lyric theater on Sunday, at 11 o'clock in the morning, 3:30 o'clock in the afternoon, and 7:45 o'clock in the evening. Monday night services will be conducted in the courthouse.

There will be a basket dinner at noon Sunday.

Reverend Farham has just returned from a several months research in the Holy Land. He will show 200 photo slides of the Holy Land, 100 each night. Mr. Farham is a rare student of prophecy and an internationally known evangelist. Everyone is invited to come out and hear him.

## Dry Range Unfavorable to Livestock Industry

AUSTIN, Tex., Nov. 19.—Dry ranges formed perhaps the most discouraging feature of the livestock industry in Texas during October, according to Bernard Nichols, editor of the Texas Research Review, issued monthly by the Bureau of Business Research at the University of Texas.

"Some of the unfavorable factors which made an appearance in September developed further last month, and, even at the present time, the situation is not altogether desirable," Mr. Nichols said. "As a result of dry ranges, animals lost weight and the condition of the ranges is in good condition for beginning the winter. Moreover, prices fell to lower levels."

"This is the peak season for delivery of calves on contract. There has been an unusual amount of buying and selling on the ranges this year."

"Cattle ranges in Texas on November 1 were rated by the United States Department of Agriculture at 86% of normal, compared to 89% a month earlier and 88% on November 1, 1933. Condition of cattle declined one point to 88 per cent, while sheep and goats decreased four points to 94%."

"Markets for dairy and poultry products weakened somewhat."

## Write Letters to Santa Claus

It won't be long now until Christmas. Surely the little boys and girls of Big Spring and Howard county have already begun thinking about the things they want from Santa Claus this year. It is time for them to be deciding, so they can write a Santa and tell him what to bring them.

The Herald is going to have a Santa Claus box, and just before Christmas, all of the letters received will be published in the Daily Herald. We want every little boy and girl to start thinking about what they are going to want for Christmas, then sit down and write a letter to good old Santa. Address this letter to Santa Claus, Big Spring Daily Herald, and he'll be sure to receive it before he leaves with his pack of toys. Don't forget, Santa is expecting to hear from each one of you.

## Successful Hunters Down 5 Point Buck

E. E. Deindley and Joe Stauden who enjoyed a hunting trip in the Fort Davis mountains the past week and were successful in downing a five-point buck. Mr. Stauden fired the shot that brought the deer down.

Last night at the Flock Inn, one mile west of town, friends of the two hunters were treated to a feast of venison, with venison roasted to a turn and served with all the accessories.

## Two Locations For Oil Tests

The Taylor-Link Company has made a location for their No. 2 well on the east one-half of the southwest quarter of section 2, block 32, township 3-south. This test well is 650 feet from the west line and 150 feet from the south line of the section.

The Plymouth Oil Company made a location on the northeast quarter of the southwest quarter of section 5, block 28, township 3-south. This test well will be drilled with cable tools.

## Rotary Club Has Good Program

The Rotary Club had a snappy program today and wound up an enjoyable season by breaking into the "Movies." The bunch were photoed in connection with the Big Spring picture which is now being made by representatives of the Photo-Art Production, Inc., and is to be shown at thirty R. & R. theaters to advertise our city.

Edwin R. Kelley was in charge of the program and he announced the subject as "Know Your Stuff." He commented on this by announcing that the members of the Rotary did not seem to know their stuff and in failing to make the local club famous for the services it was performing, it was developing into an eating club. He also discussed modern dancing and agreed to give lessons in the Black Bottom, Charleston and other late knockouts. He discussed a municipal band and outlined the best method for financing same.

Bruce Frazier was the next speaker and he gave an outline of Rotary teachings and urged all members to practice Rotary precepts. He declared Mr. Kelley had diagnosed the case exactly and it was up to the membership to carry out the real aims and objects of Rotary and to ever remember that he serves best who serves most.

Edwin Cooper of the Photo-Art Production, Inc., outlined the plan to present Big Spring in motion pictures and told of the work now being done to work up the Big Spring story.

C. T. Watson explained how this film would be used to advertise Big Spring through the courtesy of Yuell Robb, who agreed to have it shown at every theatre on the R. & R. circuit. Mr. Watson also told of the trip of Herb Lees and J. T. Thixton to Fairlurris and their purchasing as fine cattle as ever graced the Jersey herd of Ed C. Lassiter. In paying \$2500 for six Jersey cows they set a record for a county just turning its attention to dairying as it oftentimes takes years to convince folks that it pays to buy the very finest milk cows that can be secured.

The ladies of the Episcopal Church had an especially fine luncheon for this occasion.

## Federation Winter Carnival, Dec. 8th

Big plans are being made for the City Federation's Winter Carnival that is to be held on Saturday, December 8th. The carnival will be held on the streets of Big Spring. There will be a baby contest, a most popular girls' contest, conducted by Mrs. Robert Currie and twenty different booths, where all kinds of good things to eat will be sold.

Keep this date in mind, and remember to come and celebrate with the Federation. A big time is assured one and all.

## Packing Box for Orphan's Home

The Presbyterian ladies will meet with Mrs. R. L. Owen Thursday afternoon at 3 o'clock for the purpose of packing boxes for the Orphan's Home at Itasca, Texas, and also the Indian Orphanage, at Goodland, Okla.

All of the women are urged to come and bring gifts with you. If you cannot be present, send your gifts to the home of Mrs. Owen at 900 Scurry street, Thursday by 3:00 p. m.

## Deer Hunters Get a Deer

Jess Slaughter, Albert Landers, Vaston Merrick and Glenn Roberts returned yesterday from a deer hunt in Real county. They succeeded in killing one eight-point buck. Mr. Roberts had the honor of bringing down the animal.

## Negro Hijackers Rob White Man

Two negro hijackers held up a white man near the bridge just across the railway tracks on Highway No. 9 Sunday night. Only a small amount of money was secured—fifteen cents to be exact.

## Cotton Oil Mill Needed

One of the propositions we should hammer on this coming year is a cottonseed oil mill. If we want to encourage converting our feed crops into cattle on the hoof, or convert this feed into milk, the securing of a cotton seed oil mill would certainly prove a step in the right direction.

Anyway we can afford to put forth a strenuous effort to land a cottonseed oil mill.

The big sales barn on East Second street just east of the site of the new business block of H. Clay and Earle Reed is being readied. H. Clay Reed is owner of the property.

## Box Supper at Highway School

There will be a box supper at the Highway school house Friday night, November 30th. The money raised is to be used to buy school supplies and playground equipment.

Everyone is invited and a good time is assured one and all.

## Capture Buick and Negro Woman

A negro woman and a Buick sedan were arrested here Monday night. A negro man who is charged with having stolen the car at Memphis, Texas, eluded the officers.

## Officers in Shakeup

WASHINGTON, Nov. 21 (AP)—A shakeup among the prohibition and border patrol officers in the Detroit area was being arranged at prohibition headquarters today.

## MISS ESTELLE PETTY AND NOEL LESTER MARRIED

A wedding of interest to the many friends of the contracting parties, took place, Saturday afternoon, November 17th, when Miss Estelle Petty, daughter of Mr. and Mrs. S. P. Petty, and Noel Lester, son of Mr. and Mrs. O. F. Lester were quietly married. The wedding came as a surprise to the friends, and on account of the illness of the bride's mother, it was a quiet affair.

Both Miss Petty and Mr. Lester are members of pioneer families in Howard County, and received their education in the Big Spring schools.

For the past few months, Mrs. Lester has been employed by the Southwestern Bell Telephone Company, and by her charming personality and friendly ways, she has won many friends.

Mr. Lester is a dependable young man, and has a responsible position with a local lumber concern. The happy couple left immediately after the ceremony for San Angelo and other points south, on a brief honeymoon trip. Congratulations and best wishes are extended the couple by their many friends in this city.

## LEASING AROUND BIG SPRING

A price of \$30.00 per acre for an oil lease near the city limits makes it appear that one oil company at least, figures that Big Spring is right on top of an oil pool.

Holl Weevil Ravages in Texas Hastened Extension Work

College Station, Texas, Nov. 20.—It seems particularly fitting that the twenty-fifth Anniversary celebration of Agricultural Extension work in the United States, to be held at Houston, Feb. 4-8, in conjunction with the annual meeting of the Southern Agricultural Workers Association, should be observed in Texas. For it was in Texas that farm demonstration work in this country had its origin, in 1903, and that the first county agent in the United States was appointed, in 1906.

Of particular interest in this connection is the fact that the Mexican boll weevil invasion of Texas cotton fields played a very prominent part in bringing about the practical application of the idea. It was for the purpose of showing how to combat this cotton pest by rotation, diversification and good farming, that Dr. Seaman A. Knapp, founder of farm demonstration work in the United States, established the first farm demonstration project on the farm of Walter J. Porter at Terrell, Texas, in 1903. Dr. Knapp died in 1911.

The great success of this project, coupled with the wide fame of Dr. Knapp resulted in authorization, by the United States Department of Agriculture of the employment of "special agents" early in 1904 to establish similar farm demonstrations along the railroad lines of East Texas and Louisiana.

C. B. Harland Buys Fine Jersey Milch Cow Today

Donaldson and Rogers sold to C. B. Harland a fine registered Jersey milk cow, that has a wonderful record. During 150 days, this fine animal produced 6,150 pounds of butter fat. Donaldson and Rogers have brought in two carloads of dairy cattle, and sold same to farmers in Howard County. In the first shipment there were 39 head, all of which were sold in short time. Twenty-nine were brought in the second carload, and all but 16 of these have been disposed of. The cattle are on the market, and can be seen at Dr. Wolfe's Veterinary Hospital on East Third Street.

Turkey Market May Be Lower By Christmas

SAN ANGELO, Nov. 21.—Although the market on turkeys has slumped two cents a pound, quotations being 28 cents per pound poultry buyers predicted a lower market for Christmas. Buying for the Thanksgiving market continued through Saturday, and then practically halted for two weeks or more, when turkeys will again be shipped from this point for the Christmas demand. Total shipments from San Angelo will probably reach 25 carloads or more, it is indicated.

Dairying a Safe Bet.

Affording a market for all the sweet milk which can be produced in our county the creameries here open the way for the progressive farmer to get away from the uncertainty of a one crop plan. A sure cash, twice-a-month income which is assured to those who sell their product to the creamery beats the one pay day per year the cotton farmer has to look forward to.

Milk Industry To Be Promoted

"Borden is coming to Texas" is the good news just received. He is to establish a \$500,000 milk condenser at Waco. The new Borden plant will be the beginning of a great milk industry for Texas.

Dempsey Says He Will Meet Tex to Discuss Comeback

SALT LAKE CITY, Utah, Nov. 21.—Jack Dempsey, former heavyweight champion, stopped here Monday for a few hours between trains enroute to Los Angeles from New York for a visit with his relatives. He was accompanied by his wife, Estelle Taylor.

MISS ILENE BARNETT ENTERTAINS AT BRIDGE

Miss Ilene Barnett was hostess to a group of friends at bridge last Saturday afternoon, entertaining at the pretty home of her sister, Mrs. Edmund Notestine in Morningstar Addition. Four tables were daintily appointed for the bridge play, and arranged in a pretty setting.

NORTH WARD P. T. A. TO PUT ON PLAY SOON

At a called meeting of the North Ward Parent-Teacher Association on yesterday afternoon, the members decided to put on a play, sometime soon, for the purpose of raising funds for the P. T. A. Watch for the name and date of this entertainment.

Pontiac Autos Will Be Continued

The Gray-Wentz Motor Company announce that the reports being circulated that the Pontiac automobile is to be discontinued is all bunk. Here's what the factory has to say: Reports being circulated by competitors in Big Spring that the Pontiac Six is to be discontinued are erroneous and very unjust. You can assure the people of Big Spring that the Pontiac will be continued and more vigorously promoted by this division in 1929 than ever before.

45 Calls in Answer to One Classified Ad.

This proves two points. First, Herald want-ads bring results. Second—apartments and rent houses are scarce animals in Big Spring and are in great demand. One of the users of our classified ad column informs us that she ran an ad in the paper one day last week, advertising an apartment for rent. She received 45 phone and door calls in answer to this ad. Aren't we right about this being positive proof?

Boy Scouts To Rally Thanksgiving

Regular Quarterly Rally to Be Held in Colorado on Friday Afternoon, November 20th.

All the troops of the Buffalo Trail Council will meet at Colorado on Friday afternoon, November 30, for their regular quarterly rally. The program will begin at 2:30 with a parade through the business district. The other activities of the afternoon will be at the park. Contests will be directed by F. D. Craft, Scout Executive of Buffalo Trail Council, as follows: Fire by friction, water boiling, pillow fight, pillow fight, fire by flint and steel, boat race, first aid rescue.

New \$140,000 Hospital Opens

SAN ANGELO, Nov. 21.—The San Angelo hospital, a \$140,000 institution, held its formal opening Tuesday with hundreds of San Angelo people visiting and inspecting the general hospital in the heart of the city. Dr. D. R. Prevot is the surgeon in charge. Operating rooms and patient's quarters are of the latest practical design available in hospital construction. The four-story building is served with elevators. Kitchens and dining rooms are included in the equipment.

City Water Supply Ample for Present

Members of the City Commission checked up on Big Spring's water supply and according to their findings 1,800,000 gallons of water can be produced daily if the need arises. The city has fifty-one wells and fifty are available and ready to be put on the pump whenever needed. And the main pool which geologists have outlined has not yet been tapped. While they find the supply ample for all present needs they also realize we must make plans for the future if Big Spring continues to grow.

Coloradoans Vote For Municipal Band

COLORADO, Nov. 21.—By a margin of three votes, 140 to 137, citizens of Colorado yesterday voted to authorize the city council to maintain a municipal band. The Colorado Gold Medal band has for several years been one of the finest in Texas and this decision of the voters will make it a permanent and more efficient organization.

DONATES \$500 TO BRANDING SHEEP.

The sheep and goat business has grown to such proportions in Texas that owners of herds will look for some kind of a state branding law for their protection. Owners usually paint a brand on the fleece, but there is always a possibility of any number of growers using the same brand.

GOOD ROADS SAVE TIRES

A yearly saving of 1,018 on three for every mile of high type pavement made to replace gravel or macadam roads, is declared to be possible by the Iowa Highway Commission. Figuring that the cost of rubber tread on the average tire is about \$10 per pound, and that about 3.45 pounds wear off during the life of the tire, it was found that the tire cost of 800 vehicles, traveling daily over a good crushed stone macadam surface was, in the course of a year, 2,990 per mile, while the same number of vehicles traveling on rigid pavement was only \$672.

SENIOR CLASS RECEIVE RINGS

The 1929 Seniors received their shipment of class rings today. The rings are attractive, with the High School seal thereon, as used in former years.

Mrs. Harry Lester left this morning for a visit with relatives and friends in Dallas.

ADVENTURESS IN CELL FOR LIFE

"Lady Evelyn" Most Fantastic Character in California History.

San Francisco.—Mrs. Evelyn Rosencrantz, woman of three husbands, four penitentiary terms, half a dozen crimes, a dozen or more aliases and a hundred and one adventures is "back home." She is actually domiciled in San Quentin penitentiary. "Bud," her son, is home, too, occupying quarters just across the prison yard from his mother, whom he appears to have succeeded in lulling not wisely but too well.

"Lady Evelyn" may remain in the old stone house for the rest of her natural life. An Oakland Superior judge, shutting his eyes and crossing his fingers as he did so, informed Mrs. Rosencrantz that under provisions of the statute that California law-makers patterned from New York's Baumes law she will be compelled to do so as an "habitual criminal," so far as it is known the first woman to be so sentenced. And as a consequence, Mrs. Rosencrantz' imprisonment in San Quentin has become a state-wide issue. For Mrs. Rosencrantz, who has lived at San Quentin much too frequently for her own peace of mind, the question has become her "life battle." She doesn't like the old stone prison, nor the projector on which it sits overlooking San Francisco bay. Nor the public servants, headed by Warden James R. Holman, who attend her every move.

Judge Denounces Law.

Mrs. Rosencrantz, one of the most fantastic characters California authorities have ever dealt with, declares that it is all "a terrible mistake." The habitual criminal law, recently enacted by California, under which a person convicted four times of a felony automatically is sentenced to life imprisonment without possibility of parole, she feels is "a terrible mistake." In fact, there is nothing about her or the sporadic record of crime against her name (or names) that is not a "terrible mistake."

On this basis the woman whose son is a fellow convict with her in San Quentin plans to carry her fight against the habitual criminal law to the highest court, attacking its constitutionality. That she will have much public backing is assured. The very judge who sent her back to San Quentin, Superior Judge Fred V. Wood of Oakland, assailed the law in passing judgment upon Mrs. Rosencrantz, saying:

"It is manifestly unfair and unjust. Here is a woman who, in all, has dishonestly obtained perhaps \$400, and yet under the law she must go to prison for life with no hope of parole, while a scoundrel, Antoine, who brutally murders his innocent wife, likewise goes to prison under a life sentence, but will be eligible to parole in ten years."

"It might be well for the people of California to inquire a little more closely into the workings of this habitual criminal law. It is certainly not equal and exact justice to punish the woman, guilty though she may be of everything charged against her, more severely than we punish criminals of the type of Antoine. Arthur Antoine, referred to, had just previously been sentenced for cutting to pieces the body of his wife so that he might marry a younger woman."

Much Married, Many Names.

It is against the background of this question of public policy in dealing with crime that Mrs. Rosencrantz stands in bold relief, her life story forming one of the most singular chapters in the history of California crime. Almost constantly in the toils of the law since 1915, Mrs. Rosencrantz has figured as a writer, a motion picture actress, an aviator with a Los Angeles-to-Rome flight as her prospective goal, a financial wizard and a "love cult" devotee. She has been married three times and has been the central figure in a \$500,000 suit for breach of promise against William E. Riker, head of the so-called Holy City "love cult," a married man with whom she became enamored.

She has been known as Ella, Lizzie and Evelyn Barton; as Edna, Evelyn and Patricia Held; as Mrs. E. P. Reed; as Evelyn Winifred van Dohlen, Evelyn Rosencrantz and Mrs. W. E. Riker.

She has been wanted by police in Oakland, Alameda, San Francisco, San Diego, San Jose, Santa Clara, Fresno, Vancouver, Seattle, Portland, Astoria, Roseburg, Tacoma and Los Angeles. She has worn prison numbers 25528, 37708, 37737 and 45547 at San Quentin.

She has been so difficult to handle in the women's prison that at one time she was sent to the Stockton State asylum after being adjudged insane—only to be returned a month later as "perfectly normal."

Mrs. Rosencrantz lays her troubles to a father's curse, given her as an infant. Here is her story: "Patricia Held, (her true name) was born in London in 1887. Her mother died when she was born, and her father, she contends, blamed her for this."

She was shipped into the care of governesses and convents, her father being wealthy. Early in life the girl was brought by her father to Canada, where he subsequently died. There, at the age of eighteen, she was first married to Walter Barton. Strange quirks of fate carried the young woman into India and Russia, then back to Seattle, where her son was born—the son who now occupies a cell near his mother. In 1906 she ended the first marriage. The woman's second husband was Baron van Dohlen, whom she met in Berlin, and won in a whirlwind romance that failed to take into consideration the fact that the baron already had a legal wife. The two spent several years. Mrs. Rosencrantz relates, dodging the true wife. "I knew he was married," she says, "but I loved him. Love is more important than laws."

Joins Mountain Love Cult. Later the couple figured in the famous William Von Brincken trial, during the World war, and it was here that Mrs. Rosencrantz first met Jim Holoman, then United States marshal, now warden of San Quentin. "Then came her 'first crime.'" "I pleaded guilty to passing a bad check. All I did was overdraw my account. But my lawyer said if I fought the case I would only draw attention to Van Dohlen. I was framed by Van Dohlen's wife—given probation provided I never saw him again. I was found with him later, of course, and sent to San Quentin."

After San Quentin—liberty and a new marriage. There being no lawful marriage to Van Dohlen there was no divorce. She married Rosencrantz. "And the less said of him the better—he was of no great consequence. We divorced."

Then San Quentin again—in May, 1919, when she was sent from San Diego for passing fictitious checks. Release came in 1920, when a court order granted her a new trial. Periodical tilts with the law followed. On January 9, 1923, Mrs. Rosencrantz went back to San Quentin again. She was "at home" this time for four years—for the passing of a spurious check for \$4,111.

Hereafter following perhaps the most spectacular period of Mrs. Rosencrantz' very vivid career. On the tip of San Quentin colimate she turned to the strange cult at Holy City in the heart of the Santa Cruz mountains, 55 miles south of here, as a haven of refuge. A few months later Mrs. Rosencrantz was announced as secretary to William E. Riker, "king" of the strange cult which had become known for its "free love" sponsorship.

Planned to Fly to Rome. Then January, 1928. The scene had shifted to Hollywood, where Mrs. Rosencrantz had gone to take up aviation and to prepare herself for a role in a motion picture by Riker as "The Perfect Woman." This film was to expound the Holy City religious philosophy. It seemed that fate was more kindly to this lady of troubles—but then?

A suit for \$500,000 damages, charging breach of promise, was filed in the Los Angeles Superior court by Mrs. Rosencrantz against Riker. The suit was sensational in the extreme. It told of a "love cottage" and of the strange rites by which Riker had lured her into the Holy City cult. It charged that Riker, disavowing his love for his wife, "Mother Lucille" of the cult, had promised to marry her.

It charged that she and Riker lived as man and wife at Holy City, that it was there he promulgated plans for her proposed flight to Rome in a plane piloted after Lindbergh's "Spirit of St. Louis." All the ramifications of the Holy City cult were delved into and laid bare, the suit having its climax in the assertion that Riker's love later grew cold and that he left Mrs. Rosencrantz, "fleeing to the refuge of Holy City." This \$500,000 suit is still pending.

Events leading up to Mrs. Rosencrantz' present predicament came in rapid sequence, a trail of bad checks leading from San Jose to Oakland and thence to Fresno, where on February 5 she was arrested with C. A. Anderson, young Oakland youth with whom she had fled after passing a fictitious check on his father, a garage owner of Oakland.

Charges pending against Mrs. Rosencrantz at San Jose were temporarily upheld and she was returned to Oakland, where she was tried by a jury and convicted on the charge of passing the spurious check against the elder Anderson. Judge Woods' arbitrary sentence under the habitual criminal act followed.

Mrs. Rosencrantz laid her difficulties in the last instance to Riker, whom she charged with having failed to place money to her credit in a Long Beach bank after promising to do so. The jury did not believe her.

It was while Mrs. Rosencrantz was awaiting trial in Oakland that her son Clarence, eighteen, was shot down by police and captured in the same city. He had been sought by Federal authorities and police officials on spurious check charges and endeavored to escape when nabbed in an Oakland residence.

Young Rosencrantz was convicted shortly after his mother, and followed her across the bay to San Quentin. Now the mother is spending much time upon her knees in her prison cell, guards say. She has become extremely confident that she will be freed.

"I have faith," she says. "My faith convinces me that I shall not die in prison."

And in the meantime her attorneys, with financial backing from somewhere, are proceeding with their legal fight for her freedom.

Commutes 59 Years

Chatham, N. Y.—For 59 years Addison H. Day, seventy-seven years old, bank comptroller, has been commuting between Chatham and New York. He has traveled 800,000 miles to and from work. When he started the cars were lighted by kerosene lamps and had wood-burning stoves.

Four passenger coaches, a Pullman and a baggage car left the rails and traffic was tied up for several hours. Ditching of the train was due to a broken rail.

General passengers were slightly injured when weather and Texas & Pacific passenger train No. 9 went into the ditch three miles east of Marlin early Sunday morning.

SPARROWS, SONGBIRDS, INCREASE IN MIDWEST

Washington.—The birds that English sparrows are disappearing in this country is without foundation, according to the United States bureau of biological survey. While there had been a decrease of these birds in the last few years, so that they are no longer the pest they were forty or fifty years after their first importation, nature seems to be settling a balance in regard to them. In the West and Middle West, they are apparently still on the increase.

SEVEN 'AFFAIRS' FOR EACH MATE

Survey Shows That Males Are Less Fickle Than Other Sex.

New York.—The average married person, whether or not happily mated, has seven love affairs, according to a return gathered from 200 men and women.

Other conclusions from the survey follow: Women are slightly more fickle than men.

Most of the attachments precede that which finally leads them to the altar, although being wed does not deter a large minority from romancing outside the home.

These facts are presented in a report of an investigation into human relationships by the bureau of social hygiene of New York city. The research work, pursued in a scientific spirit, covered four years.

One hundred men accounted for 681 love affairs and 100 women for 77, but three of the latter said they had never loved any man.

Twenty-nine of the 100 husbands let their affections stray from the family circle and 41 of the wives found solace in the arms of other men.

Two hundred men and women chosen for the research were almost all college bred or of college grade, the report says. They came from New York city and its environs.

A third of the men were in professional life, a tenth were engineers, a little more than a quarter were in business. Half of the men had incomes under \$5,000 a year.

Their ages ranged from twenty-three to fifty-nine, the majority were between thirty and forty and had been married from five to fifteen years.

The subjects were considered representative of their class in any large city. "They are a widow's mile of facts under carefully arranged scientific conditions, but a mile is worth dropping in an empty box," the authors explain.

Each of the 200 men and women received cards on which were typewritten questions. There were more than forty cards with nearly 400 questions. The examinees agreed that the questions he talked out in a very free, informal manner.

One of the cards invariably went out sooner than the others. It was known as the "Love Affairs Card."

The one for the women asked them to give a list of all the boys with whom they had been in love, either before or after their own marriage, and to give information about their own age, at the time of the love affair; whether the boy was older or younger; the color of his eyes and hair; whether he was short or tall, thin, plump or fat; if he resembled the girl's father or mother in disposition and appearance; and give the extent of their "spooning."

Given Fair Index. The 200 men and women provide us with a pretty good index of the ages at which human beings are most likely to fall in love," says the article.

"The men began to show amatory enthusiasm sooner than the women. Up to fifteen their amatory was somewhat slight. The women reach the peak of their love affairs earlier than the men. The field of greatest activity runs from sixteen to twenty."

The peak between twenty-one and twenty-two. After the post-adolescence goes down more slowly than the women. There is a slight rebirth of love-making at thirty, then another.

"With the furies comes another peak in the love affairs of the women. Through the thirties the women show a little more activity than the men, and in the next decade they definitely outdistance them. The women show no interest in younger men until the thirties. One man ran up a total of 27 love affairs against one unhappy marriage.

"The women had more affairs that were because they fell in love with somebody else because of family interference, because of the death of the loved one or because one or both of the lovers were already married. The love affairs of the men terminated because of separation, dissatisfaction with the women, and a feeling of inferiority."

The directors of the bureau of social hygiene include John B. Rockwell, Jr., chairman; Charles O. Hoyt, secretary and treasurer; Dr. Katherine B. Davis and Raymond S. Fosdick with Dr. Abraham Flexner as associate.

SPARROWS, SONGBIRDS, INCREASE IN MIDWEST

Washington.—The birds that English sparrows are disappearing in this country is without foundation, according to the United States bureau of biological survey. While there had been a decrease of these birds in the last few years, so that they are no longer the pest they were forty or fifty years after their first importation, nature seems to be settling a balance in regard to them.

In the West and Middle West, they are apparently still on the increase.

American songbirds are in no danger of extinction, like their relatives among the game birds. For the most part they are not in a precarious position, officials of the bureau report.

And in This Age

West Point, N. Y.—Four youngsters out of 400 are being trained to learn to fight the Great War. They have resigned from the cadet class after two weeks.

Mr. and Mrs. J. B. Brockley leave tonight for Rochester, Minn., where Mr. Brockley will undergo treatment at the Mayo Brothers Hospital.

Style Greater Asset Than Beauty

"A woman does not have to be slender to be chic, but she must study herself and determine the lines best suited to her type, then select a model which is smart and correct for her type. Present styles can be adopted by the large woman. There are a great many side drapes used today which are especially good for the stout woman. Surplice lines are kind to the woman of ample proportions, and vertical lines which extend from neck to hem, the use of panels, loose draperies, rows of buttons and plaits are very becoming to the stout woman," so Mrs. Doris R. Barnes, clothing specialist in the A. and M. College Extension Service explains.

The woman with over-developed legs should not wear skirts which are too short. V neck lines and deep back lines are usually becoming to the large figure, and fitted garments which cling but are not too tight tend to reduce one's size. It is very important not to over-tighten. A large arm will look larger if the sleeve is too tight. Tightness at the top of the hip is correct at present but there should be ease everywhere else.

"High waist materials should be avoided by the large woman. She should likewise shun a sharp contrast of color when it breaks the figure horizontally. The short-skirted woman should try to increase the apparent length of this connection; and the narrow-skirted woman should try to get the effect of more breadth by use of flared sleeves, bertha, drop shoulders, etc. By increasing the apparent width of shoulders the apparent size of the hips is reduced."

"All accessories should be selected to bring out the best lines. The person of short neck and double chin should never wear a choker necklace but a long string of beads. All these things are important, for woman's dress affects her progress by giving her self-reliance and self-respect."

Notes From Salem. Sunday school was well attended at this place Sunday.

Mr. and Mrs. Clarence Fryar and family, Mr. and Mrs. A. J. Wilson went to Midland Sunday to visit relatives there.

Uncle J. I. Davis passed away last Thursday night at his home south of Salem, was laid to rest in the cemetery by the side of his deceased wife. A large number of friends and relatives gathered to pay the last tribute of love and friendship to our deceased brother in Christ. Bro. Davis was a charter member of the Baptist Church at Salem. Rev. W. Smith officiated at the funeral services.

A goodly number from our community attended the Harley Sailer's show in Big Spring Saturday night.

The farmers are most busy gathering their crops; some have begun to turn the soil.

There will be preaching the fourth Sunday at Salem. Bro. Walter Smith will do the preaching. Everyone has a cordial invitation to come.

Mr. Claud and Cecil Miller left for Dallas Tuesday to drive some Ford's back for the Wolcott Motor Co. of Big Spring.

Little Winnie Dell Robinson is suffering from the sarach at present.

There are a goodly number absent from school on account of sickness.

Mr. and Mrs. Bud Walker's children are reported to be sick at this writing.

Vincent Items.

Our school is progressing nicely. The attendance has not been very large but more are expected soon.

Our county superintendent, Miss Castroll, visited the school Tuesday.

Mr. John Christian of Clyde, Texas, was a visitor here last weekend.

Messrs. Garrett and Hugh Richards visited in the Richland community Sunday.

Mr. G. H. Brahears of Knott visited here Sunday.

Mr. Ted Bishop left this week for Snyder where he will work in the future.

Everyone is busy gathering crops. The gin is doing a rushing business.

Services at Coahoma

Ray, Jess Newman of South Texas will conduct services at the Primitive Baptist Church at Coahoma, Texas, on Thursday and Friday, November 28 and 30.

Services at 8 o'clock Thursday night and at 11 o'clock Friday morning.

Donaldson & Rogers sold to C. B. Harland a fine registered Jersey milk cow, that has made a wonderful record. During 180 days this animal produced 6,120 pounds of milk.

Herald want ads get results.

Resale Right Won By State

The 1925 forfeiture ruling on state lands has been upheld by the Supreme Court. Millions of acres of state land, forfeited in 1925 because purchasers had failed to make payments, can be resold as the result of a supreme court decision upholding the forfeiture under attack.

Sale of the land has been held up pending the outcome of the suit as test cases.

Athletic Council Will Meet Monday

The Athletic Council will hold its regular meeting at the High school Monday evening at 7:30 o'clock, at which time a representative from the board of directors of the Chamber of Commerce and a representative from the town will be elected to fill places on the council, which is to be a permanent high school organization. Members from the faculty, alumni and student body have already been selected.

At this meeting, some definite action for securing a stadium will also be taken. The constitution will be adopted.

It is believed that the Athletic Council will develop into powerful action in promoting athletics in the schools. With representatives concerned working hard and hand, great results are sure to be obtained.

Official Texas & Pacific Watch Inspection. We employ the best watchmaker in West Texas, Wilke's, Jewelers and Opticians Douglas Hotel Bldg.

Miss Oselle Orr and Earl Seagraves marry. Friends in this city will read with interest of the marriage of Miss Oselle Orr, daughter of Mr. and Mrs. John Orr, to Mr. Earl Seagraves. The wedding ceremony was performed at Stanton, Texas, on Tuesday evening, Nov. 20th.

Mr. Seagraves is a member of the sophomore class of the Big Spring High School. She is a popular member of the younger social set.

Mr. Seagraves is a fireman on Texas and Pacific Railway. Congratulations and best wishes are extended the happy couple by their many friends.

Scout Rally To Be Largest One Craft States

F. D. Craft, scout executive of the Buffalo Trail Council states that the Boy Scouts in the three Big Spring troops are planning to attend the big rally to be held in Colorado on Friday, November 20. This will probably be the largest rally held this year, Craft stated.

C. of C. Directors Meet Tomorrow

Every director of the Chamber of Commerce is urged to be present at the regular semi-monthly noon session at the Christian church; as many important subjects are to be up for consideration.

A motion picture of the group will be taken for "The Story of Big Spring" and it is desired that a full attendance be had.

THE STATE OF TEXAS

To the Sheriff or any Constable of Howard county, Greeting: YOU ARE HEREBY COMMANDED TO SUMMON:

R. E. Sweeney by making publication of this citation once in each week for four (4) successive weeks previous to the return day hereof, in some newspaper published in your county (if there be a newspaper published therein, but if not, then in any newspaper published in the said Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said said Judicial District.) To appear at the next regular term of the District Court of Howard county, Texas, to be holden at the courthouse thereof, in the City of Big Spring, on the first Monday in February, 1926, the same being the 4th day of February, 1926, then and there to answer a petition filed in said court on the 29th day of September A. D. 1925, in a suit numbered by the docket of said court No. 1291, wherein the Haren Truck Company, a corporation, is plaintiff, and Otto Chalk and Mary Chalk of Howard county, Texas, and R. E. Sweeney whose residence is unknown are defendants, said petition alleging as follows: That during the year of 1923 and the first quarter of the year 1924 the defendants, Otto Chalk and R. E. Sweeney were partners in drilling and developing the N. E. 1-4 of the N. W. 1-4, and the N. E. 1-4 of the N. W. 1-4 of Section No. 154, Block 29, of the W. & N. W. Ry. Co. lands in Howard county, Texas, for the production, saving and sale of mineral, oil and gas and their products.

### Day Schools

The first winter carnival to be held in Big Spring, sponsored by the City Federation, will be given in this city on Saturday, December 8th. The streets of the business district will be the scene of gaiety and twenty different booths will be provided, where all kinds of good eats will be sold. A popular girl contest, and a baby show will also be conducted in connection with the carnival.

### Many Seeking Homes

Notwithstanding quite a few rooms and apartments for rent advertised in the Daily Herald, we are informed by apartment hunters that in nine cases out of ten these apartments have been rented before the Herald is on the streets more than ten minutes, of the apartments acceptable. The number seeking rooms and apartments seems to grow greater day by day.

### Mexican Shot In Quarrel Sunday Morn

Gilbert Aleman was arrested Sunday morning on a charge of assault with attempt to murder. He is charged with shooting Jesus Farros as the result of a difficulty in the Mexican section of the city about 10 o'clock Sunday morning. One bullet from a .22 calibre pistol struck Farros in the abdomen. His condition is thought to be serious though it will not be known until further efforts to locate the bullet have been completed.

### A Good Way to Spend Your Time

We can't understand why a fellow will waste his time fighting booze and other frivolities when there are so many other interesting things to occupy his mind. For instance, consider that young astronomer who is attempting to locate the center of the universe, which includes many other similar galaxies revolving in space similar to the earth galaxy, and millions of light years away. He estimates the center of our little universe at 4,700 light years away. Some of the other universe centers are 100,000,000 light years distant.

### John Bradley on Excursion Dies at Plainview

WICHITA FALLS, Texas, Nov. 23 (AP)—John Bradley, a member of the Wichita Falls delegation on an excursion over the new South Plains line, died of acute indigestion at Plainview today. The result of Bradley's death was decided to cut the excursion short, and the special train will bring his body here.

### Rainbow Girls to Meet Tomorrow

The Order of Rainbow Girls will hold their regular meeting tomorrow evening at 7 o'clock in the Masonic Hall. All of the members are urged to be present. The election of Associate Worthy Advisor, will be held. This office has been made vacant by the resignation of Miss Katherine Bettie. A social affair will also be planned. It is hoped a full attendance will be on hand.

### Did You Ever Stop to Think

By Edson R. Walte Shawnee, Oklahoma  
That your home merchants always carry in stock reasonable merchandise and can always quote you interesting prices.  
That you can get quality, price and satisfaction from home merchants, and why buy from a peddler or a catalogue?  
That the amount of money taken away from every community by door-to-door peddlers is surprising.  
That peddlers are usually people who do not live in the community they work in, they pay no taxes, do not help to support the community and are only interested in what they can take out of it.

### Cotton Statistics

Compared with last year stock of cotton at Galveston yesterday 20,000 vs 20,000; at Houston 75,000 vs 77,000; at New Orleans 42,000 vs 38,000. Southern gins yesterday 13 to 20 up except in down at Augusta. Texas market higher. Sales all totaled 64,000 bales vs 47,175 Tuesday and 60,000 last year. Spinner taking 100,000 bales last week vs 45,000 last year. Last week 100,000 bales were sold vs 100,000 last week.

### Christmas

Christmas shopping is in full swing in Big Spring. The streets are thronged with people who are buying gifts for their loved ones. The stores are well stocked with all kinds of goods, and the atmosphere is festive and cheerful.

### Winter Carnival On December 8th

The first winter carnival to be held in Big Spring, sponsored by the City Federation, will be given in this city on Saturday, December 8th. The streets of the business district will be the scene of gaiety and twenty different booths will be provided, where all kinds of good eats will be sold. A popular girl contest, and a baby show will also be conducted in connection with the carnival.

### Work to Start On White Way At Early Date

Thomas Cook, district manager of the Texas Electric Service, who will have the supervision of the installation of the new street lights, stated to a Herald reporter today, that work would be started just as soon as sufficient material was assembled to permit of the work proceeding in an uninterrupted manner.

### 11,320,302 Bales Cotton Ginned Prior to Nov. 14

WASHINGTON, D. C., Nov. 21 (AP)—Cotton of this year's crop ginned prior to November 14th, totaled 11,320,302 bales, including 440,990 round bales counted as half bales, the U. S. Census Bureau Bureau announced today. This was an increase of nearly 500,000 bales over the same period last year.

### Debating Club Holds Meeting

The debating club held an interesting meeting at the High School Tuesday afternoon. The meeting was called to order by the president and those answering to the roll call were: Lucille Halley, Clyde Thomas, Philip Bluser, Evelyn Creath, Miss Wingo, Marie Hawk, Lillian Little, Ben Allen, Carter Whitaker, James Rippe, Paul Scott, Steve Ford, Jr., Jack McCally, Veda Robinson, Lema Rose Bick, Wilburn Johnson, and Mr. Scott. The minutes of the previous meeting were read and then the program was started:

### Better Homes

Architecture, to most people, means expense. As a rule, only people planning a house to cost more than \$10,000 think it worth the money to employ an architect. Indeed, very few feel like paying an architect's fees until the cost gets up around \$20,000, and then they usually grudge it. That, as intelligent home owners are beginning to realize, is a mistake. For a competent architect always puts into a house more value than his services cost. More than that, he puts value into the street, neighborhood and city where the house is built. Conversely, bad architecture—which is poor building—taken value from a house, street, neighborhood and community. Home owners generally do not realize how much this means, but they will eventually. The American Institute of Architects is doing its best to enlighten the public and improve the situation. It points out that it is possible for a house costing less than \$10,000 to be as good architecturally as one costing more, and that general improvement in small house architecture would add immensely to the attractiveness and value of residence streets.

### Legion Head Asks Labor to Aid in Universal Draft

NEW ORLEANS, Nov. 23—Declaring that a new millionaire's mansion could be checked against every white cross on the battlefield, Paul V. McNutt, national commander of the American Legion, urged the convention of the American Federation of Labor to endorse legislation to prevent war profiteering and provide a universal draft.

### Lifting Worm Ban in Dawson, Howard, Unlikely

AUSTIN, Nov. 21.—Release of the Dawson-Howard County area from the pink bollworm quarantine this season would be against his recommendations, R. E. McDonald, entomologist for the state department of agriculture said today.

### Attends Meeting in Dallas and Denton

Mrs. L. S. McDowell returned last night from a several days visit in Dallas and Denton. Mrs. McDowell was a delegate from the Home Garden Flower Club of Big Spring, and she attended the Annual Flower Show in Dallas last week. Mrs. McDowell reports a wonderful display of fall flowers and a splendid meeting. Mrs. McDowell spent two days in Denton attending the annual meeting of the Texas Federation of Women's Clubs of Texas.

### Improving Oil Field Road

They have a force of men digging the rocks out of the road to the oil field. About the only practical plan is to gravel and on this road as chug holes will soon appear.

### Pecos Oil Curb Extension Urged

Recommendation that the provision of production in Pecos county be extended for another six months when the present order expires on Jan. 1 is to be made to the Texas Railroad Commission, Pecos county operators meeting here Tuesday morning unanimously decided.

### Hoover Boards Warship Home As Guns Roar

SAN PEDRO, Calif., Nov. 19 (AP)—Herbert Hoover arrived here this morning from Palo Alto and went immediately on board of the battleship Maryland for his "good will" trip to South America. The president-elect was met at his train by Admiral William F. Frail, commander-in-chief of the Pacific coast battle fleet and a group of other naval officers, who escorted him to the admiral's launch but off immediately down the bay to the battleship. Five minutes later the hills were echoing to booming blasts as the various warships in the harbor fired a presidential salute of 21 guns.

### National Cash Register Co., Opens Office

The National Cash Register Company now has an office in Big Spring, located in the New Allen building on East Third street, in the space with the Frigidaire Agency, and the D. & H. Electric Shop.

### Enjoy Big Deer Hunt in N. M.

Selman J. Loomis of Wichita Falls, brother of Mrs. J. R. Copeland of this city, enroute from a big deer hunt in New Mexico, spent last night in this city visiting his sister. Mr. Loomis was an invited guest at a big deer hunt in the Gila river country in New Mexico, given by Pearce brothers, big oil operators of Electra, Texas. This treat was given and financed by Pearce brothers for their employees, and it proved to be a most enjoyable outing.

### Triangle Bridge Club Guests of Mrs. Pittman

The members of the Triangle Bridge Club were delightfully entertained in the pretty home of Mr. and Mrs. Omar Pittman, in Fairview Heights yesterday afternoon. Mrs. Pittman entertaining three tables of players. Around the daintily appointed tables the guests found interest in the afternoon play. Mrs. Roger Galtemore was successful in making high score, among the club members, Mrs. J. Y. Robb made visitors high score.

### Fire at Tourist Camp Yesterday

The Fire Department was called out yesterday morning at 10 o'clock in answer to a call at a tourist camp about one-half mile west of the city. Little damage resulted from the fire.

### Estimate of Ginning

The Garfield Bureau gives their estimate of cotton ginned in the United States prior to November 14th at 11,300,000 bales. The government census of ginning will be made public at 9 a. m. Wednesday.

### Mail in Your Vote for Directors

If you have not filled out your ballot for twenty directors, do so at once, and mail to the secretary of the Chamber of Commerce.

### Abilene Eagles To Play at Angelo, Fri.

San Angelo, Nov. 21.—Although coach and fans here could find little to be optimistic over the Saturday game with Abilene, the San Angelo High Angoras were doggedly pointing for the heavier and more experienced Eagles, who arrive here the last day this week for what to San Angelo is the crucial game of the season.

### No Pinkworm In West Texas

Washington, Nov. 17.—The \$5,000,000 Federal fund for establishment of non cotton zones in the Government fight to stamp out the pink bollworm, will not be available unless the state in which the live worm is found contributes one-half.

### Modern Apartment Building Needed

Big Spring could certainly utilize a modern, fireproof apartment building and we fail to understand why some one has not realized that this would prove a profitable investment. With the many new people coming here because of oil development and the resultant growth of our city a modern apartment building is as great a necessity as is an office building. After one is erected and proves its worth we expect to see a number of these needed conveniences provided.

### Oil Production Remains Steady

The daily average of crude oil production in the week ending November 1 was 2,505,229 barrels, a decrease of 616 daily from the preceding week, according to the Oil and Gas Journal.

### Heavy Traffic on Highway No. 9

Very few of our folks realize the amount of traffic that uses State Highway No. 9 northward from Big Spring, but a count will prove it is not far behind the Bankhead Highway in number of vehicles passing a given point. On Wednesday afternoon a train blocked the crossing at Gregg Street for just about three minutes and during that short period forty-two north-bound automobiles and trucks were lined up awaiting an opportunity to cross the railroad. And it was quite a bunch of cars that lined up on the northside of the tracks while the blockade was on.

### Packard Agency Opens on E. Third

The Packard Agency, known as Carter Motor Company, has opened for business in the new Wood building, at 214 East Third street, between the Chevrolet and Buick salesrooms.

### Arrest Man for Mineola Officers

Upon advice from Mineola the sheriff's department here arrested C. H. Evans. He was wanted on a charge of stealing a diamond ring, and is also wanted on a charge of desertion from the Army.

### Phillip's Test

The Phillips Petroleum Company have reached a depth of 1430 feet in their test well in the southeastern portion of section 13, block 37 township 1-north, about eight miles northwest of Big Spring.

### GASOLINE PRICE LOWER AT FORT WORTH

Five major oil companies had announced a 2-cent cut in service station and tank wagon gasoline prices at noon Wednesday and independent distributors were expected to follow suit.

### Ray Wilcox is in Temple this week transacting business

Ray Wilcox is in Temple this week transacting business.

### Advertising Dalls Is Successful

DALLAS, Nov. 22 (SpI)—Five months of national advertising for industrial development of the Southwest have demonstrated the success of the enterprise beyond doubt, according to officials of Industrial Dallas, Inc., a subsidiary of the Dallas Chamber of Commerce, in a summary of results issued here today.

### Money for Noncotton Zone Rests on State Paying Half

Washington, Nov. 17.—The \$5,000,000 Federal fund for establishment of non cotton zones in the Government fight to stamp out the pink bollworm, will not be available unless the state in which the live worm is found contributes one-half.

### National Cash Register Co., Opens Office

The National Cash Register Company now has an office in Big Spring, located in the New Allen building on East Third street, in the space with the Frigidaire Agency, and the D. & H. Electric Shop.

The members of the Triangle Bridge Club were delightfully entertained in the pretty home of Mr. and Mrs. Omar Pittman, in Fairview Heights yesterday afternoon. Mrs. Pittman entertaining three tables of players. Around the daintily appointed tables the guests found interest in the afternoon play. Mrs. Roger Galtemore was successful in making high score, among the club members, Mrs. J. Y. Robb made visitors high score.

### Fire at Tourist Camp Yesterday

The Fire Department was called out yesterday morning at 10 o'clock in answer to a call at a tourist camp about one-half mile west of the city. Little damage resulted from the fire.

### Estimate of Ginning

The Garfield Bureau gives their estimate of cotton ginned in the United States prior to November 14th at 11,300,000 bales. The government census of ginning will be made public at 9 a. m. Wednesday.

### Mail in Your Vote for Directors

If you have not filled out your ballot for twenty directors, do so at once, and mail to the secretary of the Chamber of Commerce.

### Abilene Eagles To Play at Angelo, Fri.

San Angelo, Nov. 21.—Although coach and fans here could find little to be optimistic over the Saturday game with Abilene, the San Angelo High Angoras were doggedly pointing for the heavier and more experienced Eagles, who arrive here the last day this week for what to San Angelo is the crucial game of the season.

### Fireworks, As Seen From Air

Donald Griffith Has First Experience With Night Flying. Writes Account of Blinding Lights.

Donald Griffith, who with W. L. Mitchell, pilot, gave a special night flying stunt about 9:15 o'clock

light advertising the motion picture "Wings." R. & R. Fitz, experienced his first flight at night on this trip.

"We arrived at the airport about 8:15 and after warming up the motor connected our wires to shoot the fireworks. Next, we taxied up the runways for the take off.

About 9 o'clock we took flight into a north wind.

"After clearing the highway, by 75 feet we circled and came back over the field, seven hundred feet high.

"We circled the second time, then came back over the field 800 feet high. This time, Pilot W. L. Mitchell turned on the sirens, and it sounded plenty mournful on this cold night 2,000 feet up in the air.

"As soon as the fireworks started, it seemed as bright as day. Red stars, then a silver trail—that was the prettiest sight that I have ever seen in my life.

"I waved for Mitchell to look back. As far as we could see, it looked like two walls of fire, and we were flying between them.

"The red rockets started and they came so fast I twisted my neck trying to watch both sides. Next came two bright fires. In a short while we were over the field again, and I felt the ship going down. We could see the car lights below.

"The plane rolled up to the middle of the field and stopped. It felt much colder on earth than it did up in the air."

Between 150 and 200 cars were out at the landing field, each one filled with interested people, who wanted to see the daring night flight. Thrills galore await you at the R. & R. Fitz in "Wings" just as you saw them in action last night.

### 4 STATES VOTE FOR GOOD ROADS

Washington, D. C., Nov. 17.—Highway bond issues totaling \$240,000,000 were passed in four states on election day, while two bond issues amounting to 110,000,000 were defeated.

This statement was issued Saturday by National Headquarters of the American Automobile Association, along with the announcement that in every instance, with the exception of one, the attitude of the voters was in strict accord with that of affiliated A. A. A. motor clubs in the states where the bond issues were up.

The national motoring body declares that decisive victories were registered for a bond issue of \$30,000,000 in Louisiana; 100,000,000 in Iowa; \$75,000,000 in Missouri and \$35,000,000 in West Virginia.

Mr. and Mrs. J. L. Harrington are making their home in Big Spring at 1301 Scurry street. Mr. Harrington has business connections with the Cosden Refinery Company.

You can tell freezing weather has struck in the Plains section as Mexican cotton pickers are beginning to drift southward. They begin to seek a warmer climate when cold weather puts in an appearance.

Mr. and Mrs. Herbert Keaton left this afternoon for Weatherford, Texas, called there by the death of Mr. Keaton's father, who was killed by a train in Weatherford, shortly after noon today. The message did not state just how the accident happened.

Mr. and Mrs. J. L. Harrington are making their home in Big Spring at 1301 Scurry street. Mr. Harrington has business connections with the Cosden Refinery Company.

### First Christian Church Great Day Sunday

Dr. T. T. Roberts preached a wonderful sermon on Christian Education. The Randolph College orchestra did some splendid music. The dinner was grand, the fellowship fine.

The afternoon program was a great feast of music, reminiscences, good fellowship, and sermon.

Thanks to the ladies who prepared the good things to eat. There was an abundance and the quality was 100 per cent.

The church was decorated with lovely flowers arranged in a most pleasing manner.

Thanks to those who did this splendid work.

Our birthday celebration was all that one could hope for in one day. Four took membership during the day. Two came forward in the morning: Mrs. W. B. Clark and son, Joe. Two came forward at the evening service: Mr. and Mrs. W. C. Garner.

As the climax of the day the lights were turned out in the auditorium and in the dim light of the baptistry with its beautiful background tinted with a red glow, Mr. W. C. Garner was baptized.

Willis R. King has awarded to Taylor & Easterwood, contractors, the contract for the erection of a fire proof structure, 60x100 feet, just south of the King Chevrolet building at the corner of East Third and Johnson streets.

An apartment of six rooms, 3x20 feet will be erected as a second story at the front of the building. The lower floor 60x100 feet, be utilized as an automobile work room.

W. H. Dooley & Company, architects of Big Spring, prepared the plans for this modern building. Work is to be started this week. This building will cost in the neighborhood of \$15,000.

I. D. Eddins Donates To Cemetery Ass'n

I. D. Eddins has donated \$500 to the cemetery association. This and all other donations are gratefully received. If you have not paid your cemetery dues for 1929, better hurry up and do so, the year will soon be gone. Send in a donation. All amounts are needed to keep the good work going. Do your part. Mail your money or check to J. F. Wolcott, chairman.

Join the Tree Planters

Many home owners are now setting out trees and they will be well repaid in future years for this work. Shade and fruit trees about a home add a big value to the property as well as improve the appearance thereof. You can't go wrong on planting trees and shrubs about the home.

Mr. and Mrs. J. L. Harrington are making their home in Big Spring at 1301 Scurry street. Mr. Harrington has business connections with the Cosden Refinery Company.

### Mr. and Mrs. T. S. Currie Celebrate 25th Anniversary.

Mr. and Mrs. T. S. Currie were the honorees at a delightfully planned party, last evening, which celebrated their twenty-fifth wedding anniversary. This was a surprise affair to Mr. and Mrs. Currie, and while they were at the Presbyterian church, the guests

gathered at the home were decorated, in keeping with the bridal theme, and the dining table was centered with a tiered wedding cake. Across the top of the cake, "25th Anniversary" was written, a pink and white color theme being featured. Pink tapers, in silver candle holders, were placed around the cake, at vantage points on the lace covered table.

As the couple entered the living room, this pretty scene met their eyes, and the gathering of friends were there to greet and congratulate them. As they made their approach, the wedding march was softly played by Mrs. R. L. Owen at the piano. Mrs. J. I. McDowell made the presentation speech, and the honorees were given a beautiful gift of silver, on this their wedding anniversary.

After an enjoyable hour, a lovely ice course, was served. Ice molded as wedding bells were served with the wedding cake, which was cut by Mrs. Currie.

Those celebrating with Mr. and Mrs. Currie were: Mr. and Mrs. J. M. Fisher, Mr. and Mrs. J. O. Tommitt, Mrs. B. C. Mann, W. T. Mann, Mrs. R. L. Owen and sister, Mrs. C. W. Cunningham, Mr. and Mrs. Andrew Walker, Miss Andrew Walker, Mr. and Mrs. James Currie, Mr. and Mrs. Bernard Fisher, Mr. and Mrs. Julian Eckhaus, Mr. and Mrs. Chas. Eberley, Mr. and Mrs. Bob Eberley, Mrs. Jack Stephens, Mr. and Mrs. Robert Currie, Mr. and Mrs. H. W. Cayler, Mr. and Mrs. S. A. Hathcock, Mr. and Mrs. J. B. Litter, John Currie, and Temp Currie, Jr.

IT PAYS TO CO-OPERATE

Even a Napoleon cannot win a battle without the complete co-operation of his generals and his army. Our Chamber of Commerce is in the same position. It is an organization working for the good of all and no selfish interests are considered. Our entire community is the winner if we all get in harness and pull; we all lose where co-operation is lacking. With the co-operation of all, the undertaking is assured of success and the beneficent results which will result will be incalculable. True co-operation is expressed in the following verses:

You have a dollar, I have a dollar. We swap. Now you have my dollar, And I have your dollar. We are no better off. You have an idea, I have an idea. We swap. Now you have two ideas, And I have two ideas. Both are richer. What you gave you have. What you got I did not lose. This is Co-operation.

MISS MILDRED FLETCHER AND SAM E. BROWN MARRIED

The wedding ceremony which united in marriage Miss Mildred Lee Fletcher and Sam E. Brown was performed by Rev. W. G. Bailey, pastor of the First Methodist church, in his study yesterday evening at 6:15 o'clock. Immediately following the ceremony, the happy couple left on a brief honeymoon trip to San Antonio and other points in South Texas, before going to Luling where they will make their future home.

Mrs. Brown is the daughter of Mrs. John R. Williams of this city, and has made her home in Big Spring the past year, moving here from Post. Mrs. Brown is a graduate of the Post High school and also attended college at the Texas Tech. Since the opening of the Crawford hotel, Mrs. Brown has served as efficient telephone operator.

Mr. Brown is the son of F. E. Brown of Electra, Texas. He was educated in the Electra Public Schools, later attending State University at Austin. For the past eight months Mr. Brown has been manager of the Frick-Reid Supply Company in Big Spring. He has recently been promoted to the Luling office of this company, and it is here the couple will make their home.

Congratulations and best wishes for a full measure of happiness and prosperity are extended by the many friends in this city.

NO MORE SUMMER

Those who had feared that winter never would arrive need not worry anymore. There is every chance that we will be treated to plenty of wintry weather during the coming months.

Mr. and Mrs. G. A. Knight are the happy parents of a fine baby daughter, who arrived to brighten their home on Monday, November 10th.

William Hammet of Tyler, Texas, has accepted a position with the Sweet Shop on East Third street. Mr. Hammet is a high-class chef.

Mr. and Mrs. T. H. Johnson and daughter, Mrs. Pearl Lowe, have returned from an auto trip to San Antonio, Kennedy and other points in South Texas.

Mr. and Mrs. T. H. Johnson and daughter, Mrs. Pearl Lowe, have returned from an auto trip to San Antonio, Kennedy and other points in South Texas.

### Gas Shortage and Cemetery Needs Discussed

At the regular meeting of the Wednesday Luncheon Club today our gas shortage came up for discussion, a topic which the needs of the Cemetery Association were outlined.

Dr. J. E. Bristow discussed the gas situation and while he admitted no one knew just how much gas the local field would supply, he gave it as his opinion that a year's supply would likely be the limit unless a greater supply was tapped in some of the new wells to be drilled.

He stated that companies furnishing the gas company might find occasion to use more and more of the gas in drilling operations and this would tend to curtail the amount available for use here. He stated that it was quite likely that the gas company would be compelled eventually to pipe gas here from some other field.

W. V. Martin, city manager, told of the conference with officials of the gas company and their explanation of the present gas shortage and their effort to correct same by installing a larger gathering system in the field. He stated they had a force of men working night and day to have an adequate gas supply available by Saturday.

J. F. Walcott discussed the needs of the Cemetery Association and pleaded for a better support on the part of the citizenship. He called on Mrs. John Notestine who has worked so hard and faithfully for years past to keep Mount Olive cemetery neat and clean, and make it possible to have flowers, shrubs and trees around the graves of our loved ones. Mrs. Notestine told of what had been accomplished, how the money had been spent on improvements and told of the need of a new water distribution system. She also stated the services of another man was needed part of the time to help keep the cemetery clean. Funds were needed to keep the sexton on the job and carry out the work absolutely necessary. She urged all to help this association continue its improvements at Mt. Olive cemetery.

Fox Striplin made a brief talk in which he praised the members of the Cemetery Association who had worked so faithfully to keep Mt. Olive from being a neglected spot and declared that every citizen should donate generously to the support of the association.

R. L. Cook in discussing the proposition of a band for our city stated that if it was operated through the school the proposition could be put on for \$1200 for next six months. He stated that the first five men he tackled subscribed \$200 toward a band.

The following were named to be in charge of the next program, Victor Mellinger, Dr. E. O. Ellington and Omar Pittman.

WE MUST HAVE AN UP-TO-DATE AIRPORT

In order to have an airport the government approves it is necessary to comply with a number of conditions and Big Spring should work to this end. Here are some of the requirements:

Cities preparing their airports to get into the AIA rating class must have 2,500 feet of landing area in all directions, with clear approaches, and in good condition at all times; an airport beacon light of an approved type, one or more hangars at least 50x100 feet, sufficiently heated and kept in condition; repair equipment sufficient to permit changing of engines and landing gear; weather instruments, including an anemometer, barometer and a thermometer.

They also must have adequate equipment for removing snow from landing areas or strips, sufficient first-aid equipment, including an ambulance or suitable vehicle; an aircraft register listing all planes arriving and leaving the field; adequate fire-fighting equipment; sleeping quarters for at least three men; waiting and restrooms; a restaurant within one-half mile; an approved type wind indicator; electric marker; site on a good highway and sufficient facilities for fuel, communication and transportation.

The meanest man in the world is that auto driver who hit the poor boob who was rolling a post-out with his nose in order to pay an election bet.

Mr. and Mrs. T. H. Johnson and daughter, Mrs. Pearl Lowe, have returned from an auto trip to San Antonio, Kennedy and other points in South Texas.

### Election Fight Looms as Votes Thrown Out

Edinburg, Nov. 19 (UP).—An election contest loomed up today in Hidalgo County, following the throwing out of the Weslaco box by the county commissioners on the discovery of alleged irregularities in the election on November 6.

As a result of this action, J. E. Leslie, Democrat, seeking re-election to the office of district judge, would be declared winner over Gordon Griffin, who ran on the Citizens Republican ticket, and who previously had been regarded as the winner by a plurality of fourteen votes.

Foreign Countries Represented at T. U.

AUSTIN, Tex., Nov. 19.—Enrolled in the University of Texas are 271 students from other states than Texas and from foreign countries, a recent survey shows. Louisiana leads the list of states, with 57 representatives, while Arkansas and New Mexico vie for second place, with Arkansas sending 23 to New Mexico's 20. Thirty-three of the 46 states are represented. Mexico heads the list of foreign countries, with 17 representatives. The campus is represented by three students, while Cuba sends two, Japan, China, France, Peru, Canada and Poland send one each.

10 Pound Boy at Brooks Home

Mr. and Mrs. James T. Brooks are rejoicing over the arrival of a 10 pound baby boy, who arrived to brighten their home, on Sunday, November 18th. Mother and babe are doing nicely, but James T. has a hard time keeping his feet on the sod, he's so hilarious. The young man has been christened James

POULTRY SHOW TO BE HELD IN JANUARY

January 29 and 30, set as date for poultry school and show by the agricultural committee of the Big Spring Chamber of Commerce. E. W. Holmgren, director of poultry department extension service of A. & M. College will direct the school. Judges will be appointed thus giving more time to Mr. Holmgren for instruction. The Chamber of Commerce has purchased wire poultry display coops in which the poultry will be exhibited. Neighboring towns will be asked to join in the show.

Mr. Inez Knight is on the sick list this week.

Steam Engine Takes a Jump

The big steam engine at the Big Spring Laundry Company had the "Hops," Saturday afternoon. While in operation, some bolts worked loose, it jumped from its foundation, and brought the work in the laundry to a standstill, for a brief period of time. L. C. Holdaway, realizing that something had to be done, and at once, immediately began installing a big electric motor. Within two hours, this expert mechanic, had the electric motor installed and the machinery was going again.

Today, a new foundation is being built.

ON EDGE Worried A Lot

"I took Cardui at intervals for three years, and have been in good health since last fall," says Mrs. Noble J. Hayes, of Waterloo, S. C. "My improvement after taking a course of this medicine was really remarkable."

"I am much stronger and can accomplish so much more work now. My weight increased twenty pounds, and my color is good."

"For a long time I had been feeling poorly. Some days I dragged around the house and had not enough energy to do my housework."

"I worried a lot about myself. I did not seem like myself, and my nerves were all on edge. I did not sleep well, and my appetite left me."

"I found Cardui to be an excellent tonic. After I had taken it a few weeks, I began to pick up and to gain in weight and strength."

Gas Supply Is Vexing Problem; Many Protests

Reply to Herald Story is Whole Volley of Kicks From Indignant Household and Business Men Deprived of Fuel Supply.

### Gas Supply Is Vexing Problem; Many Protests

Seldom has a story aroused so much local interest as the tale of the "missing gas" which appeared in the Herald yesterday. Our telephone has rung an endless number of times, our callers all desiring to add their painful experience to our story.

Business men, housewives, homeowners and mercantile establishments have all added their quotas to the accumulated experiences of the citizens of Big Spring with the fading gas pressure.

Today our representatives have interviewed scores of business houses and everywhere we have been the cry has gone up, "when will we have sufficient gas?"

Other inquiries pursued by the Herald reporters tend to show that the trouble has been, inadequate pipeline facilities provided by the Big Spring Public Service. The company have a six-inch main coming into the city from their booster station, but to feed this they had only a two and one-half inch gathering line. It is plainly apparent that this equipment was totally inadequate and in an interview this morning with Pat Kinney, local manager for the public utility, he stated that he had already laid and in operation, an additional three-inch line to one of the leases hitherto connected with the 2 1/2 inch feeder. This arrangement he stated, was only temporary, pending the arrival and laying of a 6 1/2 inch gathering line. He told a Herald reporter that he believed that the new line would provide ample gas into the city to take care of all requirements.

Mr. Kinney told our reporter that he hoped to have the new line in operation by the end of this week and that the gas would be turned into it immediately, thus holding out the hope to the public that they will all have hot coffee for Sunday morning breakfast.

Miss Constance Cushing who has been ill, is reported to be getting along nicely.
