Underground Government Declares State Of War On Castro Regime

MIAMI (UPI)—Delegates of 22 anti-Communist groups in Cuba set up an underground government and declared a state of war against the regime of Fidel Castro, according to information received here by private sources from Havana.

The report of the meeting and of Dr. Carlos Marquez Sterling's designation as president of the "republic of Cuba in arms" was confirmed by UPI Friday night in a telephone conversation with Marquez Sterling in New York.

The report coincided with an announcement in Havana that government forces had annihilated three anti-Castro rebel bands oper-

ating in Matanzas Province which lies to the east of Havana.

A Cuban refugee who arrived in Miami from Havana Friday said anti-Castro rebels ambushed and killed 130 members of a militia unit in Las Villas Province last week.

Reports on the secret meeting said the delegates met at a national assembly "in a place of national territory," proclaimed Marquez Sterling president and declared war "against the Communist occupation" of Cuba.

The delegates also said they would abolish the constitution of 1940 once the Castro regime is overthrown. In the meantime, they said, the "people should elect delegates to a constituent assembly."

The delegates then voted approval of a "provisional statute" which would serve as the basis for a provisional government.

In addition to naming Marquez Sterling as president, the delegates selected ministers of foreign affairs, interior, war, public health and finance. But their identities were kept secret.

The delegates said the foreign affairs minister and a delegate would meet with Dr. Jose Miro Cardona, president of the Cuban Revolutionary Council in exile, to conciliate various viewpoints and to negotiate recognition of the underground government with the free world nations.

The negotiations, the delegates said, could lead to a triumph in the war against communism in

Cuba and bring Cuba its second and total independence.

Marquez Sterling said that as soon as his foreign minister arrives from Cuba, a delegate from Mexico will fly up and the meeting will be arranged with Miro Cardona.

Miro Cardona said he had not been told yet of any such meeting but stressed "I am ready to meet with those Cubans who try to liberate our country."

Hemisphere Congress To Be In Brazil

RIO DE JANEIRO (UPI)—Jubilant sponsors Saturday said about 400 "foreign personalities" will attend an anti-United States Communist congress as the result of President Joao Goulart's go-ahead.

It was announced Friday that Goulart "will not interfere in any way" with the week-long hemisphere congress whose theme is peace and freedom from world domination by Yankee imperialism.

Goulart's hands-off decision was made in the face of efforts by a Brazilian economic mission in Washington to convince the United States to give Brazil \$500 million in new aid. The mission also is seeking to win postponement of the repayment of \$1.5 billion already owed the United States.

The congress will be kicked off Monday night with rallies here and in Sao Paulo, the site of the "hemisphere congress."

Keynote Address
Luis Carlos Prestes, 61, secretary general of the still-illegal Communist Party of Brazil, will deliver the keynote address here to what is expected to be the biggest public concentration of Reds in Brazil in recent years.

Prestes, who spent much of the 1930s and 1940s in prison, has headed the Brazilian Communist Party for more than 30 years despite periodic inter-party divisions.

Francisco Juliao, leader of the leftist Peasant League of northeast Brazil, also is expected to attend the rally.

Statewide rallies will be held through Sao Paulo Monday night. Sponsors said about 1,400 Brazilian Communists are expected to be on hand when the foreign delegates arrive for the conference there beginning Thursday.

Congress spokesmen said "fraternal delegates" are expected to come from 34 African, European and Asian nations in addition to those from countries in the Western Hemisphere, including the United States.

To Pay Expenses
A spokesman said the organizing committee will pay expenses for many of the delegates from the other Latin America countries.

Chairman of the "hate-America" conference will be Brazilian army reserves Gen. Luis Gonzaga de Oliveira Leite. The conference program makes no bones about its goal to depict the United States as an imperialist aggressor poised to repress freedom in the Western Hemisphere.

Among other things it says: "Once again Cuba is threatened with armed invasion. Once again we say to invaders that invasion will be aggression against all workers, peasants—men, women and children—in this hemisphere which is being despoiled by Yankee imperialists."

'Criminals' Of The Cookie Set
HOUSTON (UPI)—The safe was safe, but the cookies were missing after a burglary at Grandma's Cookie Co. Friday night.

The gang leader was caught. She said her name was Pat and she was 11. She refused to say more.

Her lieutenant, a 10-year-old boy, sang like a canary.

He said he and two other boys, age 9 and 7, joined Pat in the big cookie job. They hacked at the safe with a knife, but could not open it.

They were throwing cookies out the window when they got caught.

Gang members were lectured and sent home to their parents.

Pampa Firemen Protest Social Security Ousting

SATURDAY NIGHT CRASH — It happened about 9:15 p.m. yesterday in front of the LaVista Theater on W. Foster St. Patrolman Lorin Pigg has just pulled open the door of the car in the rear to begin his investigation and the young lady driver of the car in front looks back to see what's going on. The driver in the rear got a ticket. Total damage, \$400. Nobody hurt. (Daily News Photo)

Macmillan Hopes For Informal Meet With JFK In Spring

LONDON (UPI)—Prime Minister Harold Macmillan hopes to meet President Kennedy for an informal summit in late spring, diplomatic sources indicated Saturday.

Such a meeting probably would take place in London though there is a possibility it would be held somewhere else, the sources said.

No firm arrangements have been made so far. But British diplomats hope a brief Macmillan-Kennedy get-together might be set up within the next few weeks.

The prospects of an Anglo-American summit may be tentatively considered when Foreign Secretary Lord Home meets with U. S. Secretary of State Dean Rusk at a conference of the Southeast Asia Treaty (SEATO) nations in Paris next month. These prospects also may be

taken up at the North Atlantic (NATO) Council in Ottawa in May, the sources suggested.

Diplomats in London apparently are hopeful the President would make an informal stopover in Britain after he visits Rome, Bonn and Berlin in June.

No formal presidential visit to London is anticipated at this stage. But there were unofficial suggestions that Kennedy might interrupt his flight for a few hours or even a stay over-night en route home from his scheduled Europe tour.

This would dispense with heavy protocol and time-consuming receptions.

The only major reason against such stop over as seen here is the possible American consideration that a presidential visit to London could be interpreted as a calculated snub to President Charles De Gaulle. As of now Kennedy has no known plans to meet with the French president, nor apparently has De Gaulle expressed a desire to meet Kennedy in Paris.

If London proves impractical, a Macmillan-Kennedy summit may be sought elsewhere, the sources indicated, though no alternative place has so far been suggested.

The sources said a Macmillan-Kennedy summit in June would have among its aims a fresh review of the state of the Western alliance and of the outlook for the East-West relationship.

Officers Step Up Investigation Of Tax Robberies

Texas Ranger Bill Ba'ten and law enforcement officers in three Panhandle cities stepped up their investigation of the tax office theft who stopped off in Canadian Friday—and added No. 3 to his list of City Hall noonday break-ins in the last ten days.

Sheriff Walter Adams of Hemphill County said the burglar, or burglars, crawled through a transom and jimmied a cash drawer. Loot from the drawer totaled \$167 and officers said an additional \$30 or \$40 in cash was stolen elsewhere in the office.

On March 13 the tax assessor-collector's office in Pampa City Hall was robbed of \$354.39 and a similar theft was committed in the tax office at Memphis last Thursday when a total of \$1,579 in cash and checks was stolen.

Government To Take Over Shops Left In Algeria

ALGIERS (UPI)—The government announced Saturday it is taking over vacant factories, shops, farms and other enterprises abandoned by Frenchmen when they fled Algeria after the nation's independence.

The decree signed by Premier Ahmed Ben Bella followed earlier moves providing for state seizure of property that remained unused or vacant.

Almost 800,000 Europeans, more than three-quarters of the European population before independence, fled to France last year. They ran most of the country's businesses and left behind them shuttered homes and apartments and closed factories. Many deserted their farms.

The following is a copy of the letter mailed late yesterday to President Kennedy, Rep. Walter Rogers, and Texas Senators John Tower and Ralph Yarborough:

"It was called to our attention this week by the City Secretary that the Pampa Fire Department has been excluded from participating in Social Security benefits due to the 'Texas Firemen's Relief and Pension Plan'. The money that we have paid into Social Security is being refunded to us immediately.

"We, as members of the Pampa Fire Department, are very disturbed and dissatisfied with this organization.

Complaints Triggered As Surprise Refund Checks Hit City Hall

Pampa's Fire Chief Ernest Winborne and 32 city firemen Saturday sent letters of protest to President Kennedy for being excluded from participating in Social Security benefits.

Chief Winborne said he had been notified by City Secretary Edwin Vickers that the city had received a check for approximately \$26,000 for social security payments made to the government by the firemen and the matching funds paid in by the city.

The refund, the fire chief stated, affects 24 of the 33 firemen. Nine previously had been excluded from social security, he said, because they had participated in the Texas Firemen's Relief and Pension Fund. However, these nine had dropped out of the state pension fund in 1957, but Social Security would not take them back, Winborne stated.

Twenty-four firemen never participated in the state relief and pension fund, he stated.

"We felt it was not a sound plan and never took part in it," Winborne said. "We think that we have been unjustly excluded from social security and that the nine men who dropped the state pension plan seven years ago should be taken back in, too."

Chief Winborne said his personal refund check totaled \$727. The remaining 23 firemen getting refund checks were listed with the amounts due them.

The chief said he and 23 firemen have been contributing to the government's social security plan since 1956.

The following is a copy of the letter mailed late yesterday to President Kennedy, Rep. Walter Rogers, and Texas Senators John Tower and Ralph Yarborough:

"It was called to our attention this week by the City Secretary that the Pampa Fire Department has been excluded from participating in Social Security benefits due to the 'Texas Firemen's Relief and Pension Plan'. Both Sides Rest In Estes El Paso Trial

EL PASO, Tex. (UPI)—The fate of Billie Sol Estes, who parlayed a silver tongue and worthless paper into a \$150 million farm empire, will be decided this week.

The results of Estes' trial on federal fraud charges could come Monday or Tuesday. Both sides have rested and all that remains before the jury begins deliberations are final arguments and the judge's charge to the jury.

Estes, now 38, is being tried on 12 counts of mail fraud, one count of interstate transportation of fraudulent documents and one count of conspiracy to defraud.

The government claims Estes cheated farmers and finance companies out of some \$22 million in a complicated credit purchase-leaseback scheme on anhydrous ammonia (fertilizer) tanks that never existed.

Lawyers Admit
Estes' lawyers admit the equipment did not exist, but claim fraud could not be involved because all parties to the deals knew it did not exist.

Testimony in the trial lasted two weeks. Both sides rested Friday.

Each side will spend about three and a half hours on closing arguments Monday. U. S. Dist. Judge R. Ewing Thomason, who is hearing the case, indicated he might not read his charge to the jury until Tuesday.

Estes was originally brought to trail on 14 counts of mail fraud, plus the interstate transportation and conspiracy count. But the government dropped two of the mail fraud counts Friday because they had presented no evidence concerning those two counts.

Should he be convicted, Estes could be given a maximum sentence of five years in prison on each of the mail fraud counts, five years on the conspiracy count.

ALC Recognizes Yemin Regime

CAIRO (UPI)—The Arab League Council Saturday recognized the new regime in Yemin and approved a resolution sponsored by the United Arab Republic condemning French nuclear tests in the Sahara.

The Yemini vote was 10-1 with Saudi Arabia the lone dissenter. All Arab League members except Saudi Arabia, Jordan and Libya have recognized the Yemini republic.

The council delegate from Yemini also was invited to Saturday's session, the first meeting attended by Iraq and the UAR since they boycotted the league last year.

The council approved a request by Syria for its complaint be stricken from the records. The charges were brought by the Syrian regime deposed in a coup earlier this month.

Iraq ended its council boycott after the government of Premier Abdul Karim Kassem was overthrown Feb. 8 and Kassem executed.

The UAR walked out when Syria charged six months ago it had interfered in the nation's diplomatic affairs.

BULLETIN

The Type III Sabin Oral Polio Vaccine has been approved by the Top O' Texas County Medical Society, it was announced last night. Dr. Ed Williams and Dr. Raymond Laycock of Pampa, said the vaccine would be administered here Sunday, March 31. No make-up clinic has been scheduled. Details on time and place will be announced later this week, the doctors said.

"Did he say that figure was his new telephone number or next year's budget?"

Groom Making Plans For An Exchange Student

GROOM (Spl) — Definite plans are being made in the Groom community to participate in the foreign student exchange program. The Groom Lions Club is cooperating with other clubs and individuals interested in the project.

In order to be eligible for consideration the Groom Community must first be able to provide a home for the student to live in. Secondly, the community must raise the \$700 fund. Any person desiring to contribute is asked to send or bring their contribution to the State National Bank in Groom.

Candidate Statements

EDITOR'S NOTE — J. Kirk Duncan, Pampa businessman, last week asked candidates for mayor and city commission in the April 2 election to send a statement of their stand on certain issues to The Pampa News for publication. The News is publishing them as received.

Jack Skelly, candidate for commissioner in Ward 1, yesterday brought to The News the following statement:

"The future of any city depends on progress. In the last 4 years Pampa's new Building Program has deteriorated by more than 80 per cent. This erosion of our wealth and talent must be stopped.

"While I do have opinions about the issues now facing our city government, my ultimate judgement in each case would have to be based upon serious study of all information available to the commission, with the best interests of the Citizens of Pampa as a whole always before me.

"A man with seven girls and one boy would just have to have the entire community's interest at heart for self protection.

Signed,
Jack Skelly

How Citizens Bank & Trust Company Can Serve You...

Citizens Bank & Trust Company has two distinct advantages over other financial institutions.

Second, Interest rates on loans at Citizens Bank & Trust Company generally are lower than you'll find elsewhere.

First, Citizens Bank & Trust Company is not confined to making just a few types of loans, and can make loans for practically any legitimate purpose you can name.

This means that when you do business with Citizens Bank & Trust Company, you have one source for all your loans, a source that, more often than not, will save you dollars and cents in interest costs.

For the Correct Time Anytime — MO 5-5701

Citizens Bank & Trust Co.

FRIGID INTERLUDE—Man digging in under subzero conditions near Ft. Churchill, Manitoba, is out of his habitat. He's one of a company of 169 British paratroops, whose natural habitat is in warm climes—Palestine, Cyprus, Egypt, for example. His outfit is the first to train under a new Canadian-British program. Following training and a home leave, it's on to a warmer clime again—Singapore.

U.S. Says Allies Blocked Shipments 'On Their Own'

WASHINGTON (UPI) — The United States declared Saturday that West Germany and other Allies have blocked shipments of strategic oil and natural gas pipe to Russia on "their own responsibility" and not as a result of intervention by Washington.

The State Department formally denied a new Soviet charge that the United States, at the behest of "powerful oil monopolies," had pressured Germany and other free world countries into blocking shipments by private companies.

The statement said that actions such as that taken earlier this week by West Germany, simply showed that the Allies agreed with the U. S. position that large diameter pipe was "of major military and strategic significance to the Soviet bloc."

The denial, read to newsmen by press officer Robert McCloskey, seemed unlikely to quiet debate in West Germany, where opposition Socialists have said the U. S. Embassy made strenuous efforts to keep the Bonn government in line.

No Clarification
Nor did it clarify the situation with regard to Britain where the Board of Trade has refused to accept a NATO resolution of last year which recommended that the sale of steel pipe to Russia be banned.

German businessmen and politicians fear the British will simply pick up orders the German companies were preparing to fill. The U. S. statement was in response to an oral protest made Saturday in Moscow by Soviet Deputy Foreign Minister Vasily Kuznetsov to the minister of the American Embassy there, John McSweeney. Kuznetsov, in addition to claiming the U. S. was trying to protect Western oil monopolies, said it was obvious the United States had directly pressured West Germany and Japan.

Officials of those countries, according to the Soviet version, raised no objections to the deals at the time they were made but only after the U. S. had intervened.

German flareup
The German flareup came when Chancellor Konrad Adenauer last Tuesday, by ordering his Christian Democratic deputies in parliament, to abstain from voting, succeeded in preventing the lifting of his government's ban on steel pipe shipments. The United States contends that the pipe, which Russia is trying to buy in the West or from Japan, is obviously of military and strategic importance because the Communists themselves have said it will help complete a 4,000 kilometer petroleum network linking the Soviet Union, Czechoslovakia, Communist East Germany, Poland and Hungary.

Officials cited a January article in the East Berlin military magazine "Sport and the Technic" which said the proposed petroleum artery would be of greatest value "in case of war" because it would make supplies for mechanized armies much less vulnerable to enemy attack.

Large-diameter pipe, which is anything over 19 inches, is not specifically included on the list of materials classified as strategic by the 15-nation inter-allied Comco "coordinating committee" to regulate Western trade with the Soviet Union.

Firemen
Development and would appreciate very much any assistance you can give us.

The letter carries the signatures of Chief Winborne and 32 city firemen.

City Atty. Bob Gordon said late Saturday there has been a question for some time whether the firemen were "in" or "out" of social security and that several attempts to get a final legal interpretation had failed.

However, the firemen have been paying their social security assessments and the city has matched the funds for nearly seven years.

Apparently the government's contention has been that the relief and pension fund was available for the firemen whether they used it or not and the social security regulations made them ineligible to receive both.

The Pampa firemen claim that 24 of them never participated in the state pension plan.

"We cannot understand why it has taken all of this time to come to the decision to exclude us and why we should be excluded at all, since twenty-four of us never participated in the state pension plan and the other nine dropped it six or seven years ago," Chief Winborne said.

Rep. William C. Cramer, R-Fla., Thursday asked the State Department to urge Mexico to demand that the Cuban Embassy in Mexico City stop issuing visas to U.S. citizens.

Nehru Reveals Red Troop Move To India Border

NEW DELHI (UPI) — Prime Minister Jawaharlal Nehru told parliament Saturday the Chinese Communists have moved 2,000 troops up to the India-Tibet border and said they may be planning new aggression.

Nehru, speaking before the lower house, said Peking had sent a series of notes to the Indian government in the past few weeks and that they "have become sharp and provocative, some actually scurrilous."

While Nehru spoke Chinese Communist Foreign Minister Chen Yi, in a statement broadcast by the Communist New China news agency, renewed the attack on India with a charge India was stepping up its war preparations "with imperialist military aid."

Chen, speaking at a Pakistani national day reception in Peking, said India "has continued to make anti-China clamors, adopted anti-China measures."

Nehru said the Chinese have moved in fresh troops in the Tibetan border areas and "have built up roads with the help of Tibetan villagers right up to the north of our border."

Nehru said the Chinese claimed to have withdrawn 20 kilometers (12 miles) behind their line of actual control as of November 1957 but that the Chinese "concentration continues in this narrow strip and remains unchanged."

Fulbright, chairman of the Senate Foreign Relations Committee, said the conference had raised hopes for the success of President Kennedy's Latin American "Alliance for Progress" program.

"It is well worth our continued interest and effort," he added.

Fulbright was one of six key foreign policy lawmakers who accompanied the President to the San Jose meeting. He took sharp issue with Senator Republican leader Everett M. Dirksen, Ill., for "writing off" the alliance.

Dirksen told a press conference Thursday that the development program had in effect "run out of steam," despite seven-nation agreement in Costa Rica.

Fulbright said he thought Dirksen's remarks were "very unfortunate" because "this thing is just getting started." He said that success cannot come overnight because "this is a 10 or 20-year haul. But the prospects are good enough to make the effort."

The senator said he was particularly impressed by the "common market" development program already underway with Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua as partners and Panama as an associate member.

"They have done far more than I had expected and I think that is encouraging," he said. "The Central American leaders appear very determined to improve conditions in their countries."

He said they also are "concerned—and properly so—about the infiltration of communist agents," largely from Cuba, and that there "is no question about their real desire to isolate Castro."

As for the American image in Central America, Fulbright said "I think it is as good as we deserve...the leaders seem genuinely interested in working together and with us."

Seoul
ence would accomplish anything. Many regard it as a stalling tactic by the government or a move to end public outcry against a continuation of military rule.

U. S. Ambassador Samuel D. Berger met today with James S. Killeen, director of the U. S. aid mission here, and Gen. Guy S. Malloy Jr., commander-in-chief of the United Nations Command and U. S. forces in Korea.

They said later they had no comment on the meeting. Sources said the American officials apparently were awaiting word from Washington.

Opponents of the 18-month-old military regime hope that President Kennedy will publicly urge Park to abide by his November, 1961, pledge that civilian rule would be restored in South Korea.

Fulbright Encouraged By C.A. Unity

WASHINGTON (UPI) — Sen. J. William Fulbright, D-Ark., said Saturday he was greatly encouraged by the unity of six Central American nations at the recent Costa Rican conference both in their plans for common economic development and their stand against Cuba's Fidel Castro.

Fulbright, chairman of the Senate Foreign Relations Committee, said the conference had raised hopes for the success of President Kennedy's Latin American "Alliance for Progress" program.

"It is well worth our continued interest and effort," he added.

Fulbright was one of six key foreign policy lawmakers who accompanied the President to the San Jose meeting. He took sharp issue with Senator Republican leader Everett M. Dirksen, Ill., for "writing off" the alliance.

Dirksen told a press conference Thursday that the development program had in effect "run out of steam," despite seven-nation agreement in Costa Rica.

Fulbright said he thought Dirksen's remarks were "very unfortunate" because "this thing is just getting started." He said that success cannot come overnight because "this is a 10 or 20-year haul. But the prospects are good enough to make the effort."

The senator said he was particularly impressed by the "common market" development program already underway with Costa Rica, El Salvador, Guatemala, Honduras and Nicaragua as partners and Panama as an associate member.

"They have done far more than I had expected and I think that is encouraging," he said. "The Central American leaders appear very determined to improve conditions in their countries."

He said they also are "concerned—and properly so—about the infiltration of communist agents," largely from Cuba, and that there "is no question about their real desire to isolate Castro."

Officials Claim No Firm Evidence Of Red Pull-Outs

WASHINGTON (UPI) — The United States has no firm evidence as yet that Russia has pulled any of its estimated 5,000 combat troops out of Cuba, officials said Saturday.

Some may have been among the "approximately 3,000 Russian troops" which President Kennedy reported Thursday had been evacuated since Feb. 18, they said. On the other hand, those pulled out may have been drawn entirely from among the 12,000 military technicians and training personnel which Soviet Premier Nikita Khrushchev had in the islands up to a month ago.

Officials said aerial reconnaissance shows that all installations of the four-battalion combat force has been using are still intact. And none of their heavy equipment has been removed.

They cautioned, however, that aerial intelligence would have to be supplemented by other information coming in by slower means, presumably from agents within the island, before a final determination can be made.

The difficulty in identifying Russians leaving Cuba is that all of them, regardless of their function, have been put into sports shirts and slacks.

Kennedy said Thursday that since Khrushchev — in the wake of the October missile crisis — had promised to withdraw "several thousand" military personnel by mid-March, "approximately 3,000 troops" have been evacuated. He added pointedly that "we are waiting to see whether more will be withdrawn, as we would hope they would be."

The 5,000-man combat force has been regarded as a critical element since it represents Khrushchev's — the spot ability to help Communist Premier Fidel Castro put down a major rebellion, if that should become necessary.

New board members, named at the Friday evening meeting, were Mrs. Frank Culbertson, Mrs. Tom Rose, Mrs. Eben Warner, Mrs. E. L. Henderson, and Jerry Whitten.

In connection with the current membership drive, a contest was conducted in which workers were asked to guess the hour the "sold-out house" would be reached.

Estes already is under an 8-year prison sentence given him last Nov. 7 in a state court for swindling a farmer.

Estes was arrested by the FBI a year ago Friday. Prior to his arrest, he owned 20 businesses, made \$4 million annually in grain storage and ran a multi-million dollar fertilizer distributorship.

But since his arrest, his empire has collapsed amid tales of non-existent equipment, altered serial numbers and inflated financial statements.

The government claims Estes got farmers to purchase the fertilizer equipment on credit, leased it back from them for the exact amounts of their payments, then discounted their notes to finance companies. The catch, the government claims, is that the equipment never existed.

Billie Sol
and 10 years on the interstate transportation count.

Grand Jury Rumored
Persistent rumors have it that another federal grand jury will be convened at the end of the trial—regardless of its outcome—to press for perjury indictments case. Much of the testimony has been conflicting.

INDUSTRIAL WEEK — Governor John Connally signs a proclamation designating the week of April 1-7 as Texas Industrial Week as Richard White, 1963 President of the Texas Manufacturers Association looks on. The Governor urged Texans to show appreciation to Texas industry for its contributions toward the economic development of the state.

'63-'64 Concert Series Sold Out

Pampa Community Concert Association concluded its current drive for 1963-64 memberships Saturday noon with a sold-out house, according to Ted Gikas and Mrs. S. Gene Hall, drive chairman.

A selection meeting was held Friday evening at which time artist availabilities were discussed. As soon as confirmation with outside managers and Columbia Artists is received, the 1963-64 concert series will be announced.

The internationally famous 100-piece Royal Philharmonic Orchestra of London has already been confirmed as a "hold" number and will appear Nov. 9, 1963, in Pampa—the only city in the Panhandle area in which the orchestra is scheduled to appear.

New board members, named at the Friday evening meeting, were Mrs. Frank Culbertson, Mrs. Tom Rose, Mrs. Eben Warner, Mrs. E. L. Henderson, and Jerry Whitten.

In connection with the current membership drive, a contest was conducted in which workers were asked to guess the hour the "sold-out house" would be reached.

Kiwanians Hear Finalists From Oratory Contest

Pampa Kiwanians heard four youthful speakers extol the American way of life and its advantages over Communism at their weekly luncheon in First Methodist Church Friday.

The speakers were four young men, all under 16, who were top orators in the local oratorical contest conducted by the Pampa Optimist Club in cooperation with the International Optimist Clubs.

The youths were selected at the local club's oratorical contest finals on Thursday night. Friday was their first post-contest public speaking appearance. The four boys who spoke on "Youth's Approach Toward World Forces," were Trent Burns, Terry Scoggin, Frank Parrish and Mike Wise.

Wise and Parrish won the honor of representing Pampa at the regional oratorical contest in Amarillo. Winners from there will go to the contest in St. Louis and the winners from there on to the finals to be held this summer in Toronto, Canada.

Lloyd Koontz, Kiwanians, was in charge of the program and the speakers were introduced by Dr. Nicholas Kadango of the Pampa Optimist Club.

Next week's speaker will be J. C. Shewmaker, a missionary in Africa since 1939, serving with the Sincle and Nanwanga missions in Northern Rhodesia.

Cubmaster Resigns At White Deer

WHITE DEER (Sp)—The regular monthly meeting of the White Deer Cub Scouts Pack 81 was held Monday evening in the school cafeteria. Cubmaster J. C. Williams gave his resignation and Olur Bertrand was elected to serve out the remainder of Williams' term.

Jay Leath, Adobe Wall Council Field Executive, commended Pack 81 and its leadership as being one of the best Cub Packs in the Santa Fe District.

An outing was planned for Sunday, March 31, for all the Cubs under the direction of Paul Buchanan and Bertrand.

Bertrand presented the following awards; Mike Williams and Alan Morris received the Bear badge. Gold arrows were earned by Mike and Brian Bertrand, and Nelson Britten and Mike Trantham received one-year attendance pins.

Second Reading Of Paving Rule On Council Agenda

Second reading of an ordinance closing the public hearing on the paving of S. Barnes St. and levying assessments on property owners is scheduled for Tuesday night's City Commission meeting.

The paving covers a project south from the Fort Worth & Denver Ry. underpass to the city limits.

Consideration of bids submitted for the same paving job also is slated on the Tuesday night agenda.

Recommendations of the city manager are included among items on the commission agenda.

Local Men On Committees

—AMARILLO— Numerous Pampa oil men are serving on committees handling the arrangements for the Mid-Continent District Meeting of the American Petroleum Institute's Division of Production to be held in the Holiday Vic-Motel in Amarillo on March 27-29.

M. G. Rogers, Pan American Petroleum Corp., is program chairman. Members of his committee residing in Pampa are W. C. Newlin, Cities Service Petroleum Company and D. G. Stephens, Skelly Oil Company.

Clayton Husted, Clayton Husted Company, is vice chairman of the General Arrangements Committee.

Members of the Registration Committee residing in Pampa are Jack Curtis, Curtis Well Service; W. McArthur, Sun Oil Company, and Ed Woodall, Pan American Petroleum Corp.

George B. Cree Jr., Cree Drilling Company, Inc., is a member of the Entertainment Committee.

M. G. ROGERS
...Program chairman

Ministers Meet
STOCKHOLM (UPI)— West German Economic Minister Ludwig Erhard met Saturday with Swedish Prime Minister Tage Erlander to work toward an economically integrated Europe. Erlander said "we found that we had a common understanding and both parties are interested in the abolishment of tariff barriers."

NACE Sets March Meet
The regular March meeting of the Panhandle Section of NACE will be held tomorrow at Sutphen's Barbecue in Phillips, Texas. There will be a social period at 6:30 p.m. followed by a barbecue dinner at 7 p.m. The charge will be \$2.75 each.

Desk And Derrick Slates Meeting
The Pampa Desk and Derrick Club will hold their regular monthly meeting tomorrow, in the Quivira Room of the Coronado Inn at 7 p.m.

Houston Branch, Mobil Oil Company, will be the guest speaker. Branch has been with Mobil 17 years and is drilling foreman here in Pampa. The topic of his speech will be Completion Practices — Panhandle Area.

All members of the club are requested to call June Allen at MO-4-4471 for reservations. All girls employed in the petroleum industry and allied industries are cordially invited to attend this meeting and get acquainted with "Desk and Derrick."

Forces Parade
VIENTIANE, Laos (UPI)—The neutralist forces of paratroop Gen. Kong Le marched through the streets of Vientiane Saturday for the first time since they were driven out by the right-wing army of Gen. Phoumi Nosavan in 1960. The Communist Pathet Laos refused to participate in the march observing the 13th anniversary of the Laotian army.

The President of the United States should be addressed as Mr. President or Sir.

Don't Prater is program chairman for this meeting and he has arranged for Don Boles to present us with a paper on "Evaluation of Heavy Duty Deep Well Ground Beds." This is the same paper Boles presented at the Southwest Regional NACE Conference last year.

Boles is with Northern Natural Gas Company and has been active in corrosion control since 1937. This will be an excellent opportunity for those people who are interested in this subject and were unable to attend last year's Regional Conference.

Gasoline Division Wins First Place In Safety Contest

The Gasoline Division of Cities Service Oil Co. is the first-place winner in the National Safety Council's 1962 safety competition among the nation's oil companies operating plants where total man-hours exceed 500,000 annually.

The top-ranking record established by Cities Service at its 18 company-operated plants in Oklahoma, Kansas, Texas and Louisiana is expressed in terms of disabling injury frequency per million hours worked by employees. The Cities Service frequency was only 1.36, compared to the 5.52 average for all companies in this category.

"My heartiest congratulations on your top-flight safety accomplishments," Howard Pyle of Chicago, president of the National Safety Council, wrote Fred H. Ramseur, Jr., manager of the Cities Service Gasoline Division, and Jim Chaffin, company safety director.

Employees of the Cities Service gasoline plant near Pampa contributed to the enviable safety record and are being commended by Ramseur for their part.

SPE Speaker To Lecture Oil Engineers

Dr. Folkert Brons, of Los Angeles, Calif., distinguished lecturer for the SPE, will be guest speaker for the Panhandle Chapter of Society of Petroleum Engineers, AIME, on Wednesday at 7 p.m. in the Amarillo Club in Amarillo, according to Jim Hamilton, chapter president.

Dr. Brons is associated with the Shell Oil Co. in Los Angeles.

His tentative topic is "Pitfalls In Reservoir Engineering."

Dr. Brons was born in the Netherlands. He received a PhD degree in physics from the University of Groningen and was employed by Royal Dutch Shell in 1938-1941.

He served in the Netherlands-East Indian Army for five years. Following World War II, he returned to Royal Dutch Shell and in 1950 he was transferred by Shell to Houston, where he was employed in the Exploration, Research and Technical Services Department. Since 1955, he has been area reservoir engineer in the Pacific Coast Area of Shell Oil Co.

Dr. Brons served on the SPE Transactions Editorial Committee and is currently a member of the SP Eprogram committee as technical specialist in the field of Reservoir Fluid-Flow Mechanics.

Reservations for the Wednesday night dinner meeting may be made with Nate Turnbo, Kewanee Oil Co., Pampa; Jim Hamilton, J. M. Huber Corp., Borger and Paul Bennett, Vinson Supply Co., Amarillo.

Evasive Monster
LONDON (UPI)—Film writer Richard Need, 31, said Saturday he would spend Easter week at Loch Ness for the third consecutive year hoping to photograph the Loch Ness monster. He said he found no trace of the monster the last two years but that he was not discouraged.

Legislative Group To Present CoC Lunch Program

The March membership luncheon of the Chamber of Commerce Monday in Coronado Inn will feature a program by the Legislative and National Affairs Committee of the Chamber of Commerce.

A five-man delegation that attended the Aircade meeting in Oklahoma City recently will bring a resume of the issues presented at that time. Roy Sparkman, committee chairman, will moderate the program and discuss federal aid to education. W. A. Morgan will talk on budget and expenditure reduction. Dr. Bob Sybert will discuss agriculture and compulsory medical care. Melvin Jayroe will speak on tax cuts and tax reforms. Jim Sanders will present labor legislation.

The program will give businessmen an opportunity for a resume of main issues confronting the Congress.

Reservations may be made at the Chamber of Commerce office until 10 a.m. Monday. The luncheon will start promptly at 12 noon and will adjourn at 1:15 p.m. The public is invited to attend by reservation. Phone MO 4-3241.

Former Spy Slated For K&F Dinner

Dan T. Moore, a former ranking X-2 counter intelligence officer in Cairo and the Middle East during World War II, author and lecturer who now is an industrial consultant for American manufacturers, will be the guest speaker at the Knife and Fork club, at its meeting Tuesday, at 7:30 p.m. at Robert E. Lee Jr. Hi School.

Moore, whose career in the "cloak and dagger" profession is almost legendary, will give club members a picture of what is going on behind the scenes in the boiling Middle East and what the chances are of a satisfactory peace for both Arabs and Israel. A problem that is puzzling State departments and embassies of the powers of the world, according to Homer D. Johnson, president of the club.

Scout Recounts Experiences

CANADIAN (Sp) — Eddie Snyder of Canadian recounted some of his experiences at the National Jamboree in Colorado in 1960, at the regular troop meeting Tuesday night. The next National Boy Scout Jamboree will be held in August, 1964 at Valley Forge.

Twenty-five reservations from the Adobe Walls Council have already been spoken for, for this jamboree.

Perryton Girl Takes Third

PERRYTON (Sp) — Janis Schwaik won third place in the North Plains Water District essay contest. The subject was, "Why the Importance of Water Conservation?" Entries were sent to Dallas and presentations will be made March 30.

Pampa Couple To Attend Meeting

Mark Buzzard, Allstate agent in Pampa, and his wife are to attend a sales conference of the Allstate Insurance Companies' in Miami, Florida, April 23.

Mr. and Mrs. Buzzard will take part in the 12th annual "Conference of Champions," which will include meetings and round table discussions with top executives of the companies.

Buzzard qualified as a member of Allstate's exclusive "Honor Ring" organization by being among the outstanding sales representatives from the ranks of more than 4,800 Allstate agents. Awards will be presented during the conference by President Judson B. Branch, who began his own career with Allstate in 1934 as one of its first agents.

F. P. Mims, manager of the Allstate regional office in Dallas, said the effort of Mr. Buzzard and others to be honored in Miami played a large part in the companies' success in 1962.

Boats Sink

DIJON, Spain (UPI)—A Spanish fishing boat with 14 men aboard sank without a trace early Saturday off the northern Spanish coast after the captain radioed the ship had been swept onto some coastal rocks. He said they were unable to launch life-boats because of high seas.

APPLE BLOSSOM QUEEN—This year's queen of the Shenandoah Apple Blossom Festival is Miss Brooke Randolph Farland, 20, a native of Morgantown, W.Va. The daughter of U.S. Ambassador to Panama and Mrs. Joseph S. Farland, she'll reign at Winchester, Va., May 2-3-4.

Unlucky Driver

LONDON (UPI)—James Henry Walker, 26, arrested while driving to his own wedding reception, was fined \$28 and banned from driving for a year Saturday for drunk driving and failing to stop after he rammed two parked cars.

— Quotes In The News —

By United Press International OSSINING, N.Y. — Frederick Charles Wood, killer of five, just before his electrocution at Sing Sing Prison:

"I have a speech to make. This is an educational project. You are about to witness the damaging effect electricity will do to Wood. Enjoy yourself."

VIENNA — A Vatican source, doubting that imprisoned Jozsef Cardinal Mindszenty will ask mercy in the current Hungarian amnesty:

"It would not be pride that would keep the cardinal from asking mercy but the fact that he does not in conscience believe he committed crimes."

JERSEY CITY, N.J.—The Rev. James Carey, defending his ban on steady dating at St. Michael's High School:

"We see the results all around us in the growing number of teenage unwed mothers. Can we doubt the cause?"

WASHINGTON—President Kennedy, defending Robert S. McNamara:

"We have a very good, effective secretary of defense, with a great deal of courage who is willing to make hard decisions, and who doesn't mind when they are made that a good many people don't like it."

Decision Coming

MUNICH (UPI)—The Bavarian Interior Ministry may decide Monday whether fugitive former French Premier Georges Bidault can remain in Bavaria, it was reported Saturday. Bidault so far has refused to abandon his political campaign to overthrow President Charles De Gaulle as the price for remaining in Bavaria.

Conservationists Offering Trees

Gray County Soil Conservation officials announced Saturday that Ponderosa Pine trees are available to county farmers and ranchers at low cost.

The trees, officials said, make excellent farmstead and feed lot wind-breaks. Evergreen trees should be planted by April 15 and to be effective should be set in rows five to eight feet apart, according to soil conservationists.

They said the trees in Gray County may be picked up at the Bruce Nursery, north of Alanreed.

Dynamite Found

LONDON (UPI)—Three sticks of dynamite were discovered in a railroad station trash can Saturday while thousands of sports fans were passing through to the annual Oxford-Cambridge boating classic. The station was closed for 15 minutes until firemen removed the explosives.

Meningitis

TURIN, Italy (UPI)—An outbreak of cerebrospinal meningitis in two north Italian cities of Turin and Trieste, has claimed 13 lives since the beginning of the year, health authorities said Saturday. They said 50 cases were reported in Turin and 16 in Trieste.

Census Figures

As counted in the 1960 census, U.S. population living abroad totaled 1,374,421, including 609,720 in the armed forces, 38,010 civilian employees of the Federal government serving overseas, 506,393 dependents of these two groups, 32,464 in crews of merchant vessels in foreign ports or on the high seas and 187,834 other citizens living for extended periods in foreign lands.

Matters Of
The Military

Marine First Lieutenant Marion F. Stone, son of Mr. and Mrs. Hubert M. Stone of Route 2, Pampa, is assigned to the Third Marine Air Wing, a Pacific Marine unit which is participating in a major amphibious exercise being held at the coast of Southern California, March 2 through 10.

More than 40 ships of the Pacific Fleet and an estimated 24,000 Marines are taking part in the exercise. It is designed to provide training in anti-submarine operations, amphibious landings, replenishment at sea, mine warfare, aerial, surface and sub-surface reconnaissance and Marine operations ashore.

Army 2d Lt. Norman L. Stanley, whose wife, Erma, lives at 217 Tignor, Pampa recently completed a 14-week helicopter pilot course at The Aviation Center, Fort Rucker, Ala.

Stanley was trained in cargo and utility tactics with rotary wing aircraft.

Stanley, son of Mrs. Beula B. Stanley, 2540 Seventeenth Avenue et., Greeley, Colo., is a 1957 graduate of Henryetta (Okla.) High School and a 1962 graduate of the University of Oklahoma in Norman. He is a member of Sigma Delta Chi fraternity.

Airman Second Class Eddie L. Wilson of Redwood City, Calif., is being reassigned to Oxnard AFB, Calif., following his graduation from the United States Air Force technical training course for fuel specialists at Amarillo AFB.

Airman Wilson, son of Jessie T. Wilson of Panhandle, studied navigation, aerodynamics, hydraulics and electronics required in the inspection and maintenance of autopilot and electronic compass systems.

The airman, whose mother, Mrs. A. J. Nelson, resides at 1163 Clinton St., Redwood City, is a graduate of Sequoia High School.

Staff Sergeant C. B. Locke of Denison, Tex., is being reassigned

By RAY FARKAS
United Press International
WASHINGTON (UPI) — Anywhere in the world you drive you must have a license plate on your car.

In Italy they cost about \$60 each. In Egypt they're only about \$1.50.

In the United States you pay anywhere from \$10 to \$25 to register the family car, and sometimes more than \$200 for a big tractor-trailer truck.

A survey published in the "Ford Times" showed the profit margin on making the plates is terrific. Most states make their tags in state prisons for about 25 cent a plate.

Some years ago a few states put out license plates the shape of the state. — Tennessee and Pennsylvania, to name two.

And until recent years West Virginia, Arizona, California, Maine and Vermont sold off-size tags, the survey said.

In 1956, at the behest of the auto makers, the states adopted a standard size — six by 12 inches.

Though the states gave up the right to distinctive sizes, they still hold on to the slogans and emblems which adorn the tags.

For example, Wisconsin, as any of its license plates will tell you, is America's Dairyland; Michigan is the Water Wonderland; Kansas, the Wheat State; Georgia, the Peach State, Nebraska, the Land of Lincoln, etc.

Low license numbers usually mean political prestige. Or may be just political pull.

The governor of a state almost invariably gets number one, the lieutenant governor, two, and so on down the line through the major state offices.

Once past the governor's mansion to Vandenberg AFB, Calif., following his graduation from the United States Air Force technical training course for missile instrument specialists at Lowry AFB, Colo.

Sergeant Locke, son of Mrs. C. C. Whitlock, who resides on Rt. 1, Bells, Tex., received instruction in the use of electrical and electronic equipment in measuring the performance of guided missile systems.

He and his wife, the former Doris L. Richardson of McLean, Tex., have five children. The sergeant's father is C. A. Locke of 1119 W. Chestnut St., Denison.

Airman Third Class Thomas F. Jones of Canadian, Tex., is being reassigned to Amarillo AFB, Tex., following his graduation from the United States Air Force technical training course for jet aircraft mechanics at Amarillo AFB.

Airman Jones was trained in the maintenance and inspection of jet fighter planes currently in use by the Air Force.

The airman attended Canadian High School and entered the service in October, 1962.

tion and the state legislature, scrapping really begins. Some people pull hard on all the strings to get that distinctive number. In one instance a car owner was said to have sold his rights to a low number plate for \$500.

But if you lose out in this numbers game, there is always the chance of getting distinctive lettering.

Former heavyweight boxing champion Rocky Marciano was issued plates by Massachusetts bearing the letters "KO."

Former President Dwight D. Eisenhower, while head of Columbia University, sported tags with his initials — "DDE."

Connecticut issued tags to two teenage friends — "Rock" for one and "Roll" for the other.

During steel - scarce World War II many states merely issued gum stickers to renew old plates. But Illinois brought out a plate of pressed fiber containing, among other things, soybeans.

They looked good, but dogs and cows ate them.

Drivers' Ego
On Car Plates

Honor Rolls
Announced

LEFORS (Spl) — The A and B honor roll list of the Lefors High School and grade school were announced this week by principals G. N. Moulter and Alex Swenn.

The A honor roll consists of students who had a 90 or above average with no grade lower than 85 in their basic subjects. These students were grades seven through twelve: Elaine Nichols, Shirley Vincent, Judy Barnes, Terry Bryant, Ronnie Willis, Candy Cox, Larry Sue Glick, Sue Thacker, Amy Earhart, Neoma Collins, Janie Fugate, Frances Gifford, Sue Stubblefield, Frances Clarke, Dickie Sims, Judy Garrison, Charlsy Gustin.

Students who attain the B honor roll are required to have an 85 or above average with no grade lower than 75 in their basic subjects. They are Archie Fugate, Bennie White, Kathy Gatlin, Mary Duncan, Shelah Harris, Margaret Robison, Linda Tillman, Harold Sims, Peggy Todd, Nita McCool, Mary Kay Lee, Dennis Dunn, Rickiey Cates, Nancy Sims, George Duncan, Charlene Lisenbee, Tony Pittman.

Also D. D. Lofton, Jack Lockwood, Pat McDowell, Vicky Ferguson, Anthony McCool, Rodney Airington, Karen Carruth, Mary Collins, Doris Halley, Kaola Lisenbee, Jo Ann Rash, Danny Ribbins, Wilma Earles, Jerry Lane, Terry Sander, Sharon Harrington, Kay Stanton, Bobby Call, Gene Gee, Shireess Cable, Velda Gifford, Phillip Cates, David Roberts, Angela Atchley, Joy Whit, Johnny Lofton, Lyssa Carruth, Marcia McDonald.

Economical GAS can help you CUT HOUSEKEEPING COSTS
With costs continuing to climb, it's wise to examine every area of your budget for possible economies. You may find some expenditures unnecessary... others which could be trimmed by more careful planning. Two good ways to make substantial savings (and actually achieve superior results) are by cooking and drying with Gas!

A GOLD STAR RANGE... costs less to buy, install, operate & eliminates food and fuel waste; thermostatically-controlled burners prevent boil-overs and burning, measure the precise amount of heat for best results & broils and roasts meat with less shrinkage & keeps entire meals savory and serving-ready for hours in the OVEN-WITH-A-BRAIN!

A GAS CLOTHES DRYER... starts working instantly, shuts off instantly to save you time and fuel & pampers all fabrics... helps clothes last longer & operates nine times more economically than the coil-type kind & saves you as much as \$24.72 a year in utility costs!

See Your Appliance Dealer, Now, and Start to LIVE MODERN FOR LESS... WITH GAS!

Bucks Win Panhandle

Flowers Sets State Record In High Jump

PANHANDLE (Sp) — Powerful Dalhart came up with a rush in the final events to miss upsetting mighty White Deer by one point in the Panhandle Relays Saturday. The Bucks finished with 75 points to Dalhart's 74, mainly by the virtue of Carroll Russell's two hurdles wins, which gave them enough of a lead to withstand Dalhart's winning the last two events on the program, the mile run and mile relay.

None of the other 18 teams were really in the battle as Shamrock was third with 48 and host Panhandle topped the rest of the pack with 37 points. Canyon, expected to be a strong contender, tallied only 30 points. Greater Pampa area teams in the meet besides White Deer, were Miami with 23 points, Canadian with 21½, Lefors with 11 1/4 (there was a four-way tie for sixth place in the high jump), Groom nine and McLean failed to scratch.

Flowers Sets Record
There were four new meet records set, but the biggest one was a new state high jump record in Class B by Jimmy Flowers. Flowers, who last year set the B record with 6'1", broke his own record with a 6'2" leap in the Lefors Relays last week. His 6'3" jump is higher than any recorded this year by anyone in Classes, AAA, AA and A, and equals the 4-A mark shared by Bill Martin of Pampa, Wayne Burke of Odessa and Bill Offill of Abilene.

Another record for the year was set by little Curtis Campbell of White Deer when he was clocked in 9.7 in the 100-yard dash in the semifinals. Best mark that had been run previously this year had been 9.8, shared by Pat Brown of 4-A Odessa Permian, Charles Mitchell of AA Childress and Charles Altman of Class B Smyer. Although there was a strong wind blowing during Saturday's events, at the time of the semifinals, the wind was blowing crossways and gave Campbell no help. The little Buck speedster pulled muscles in both legs in the all-out effort however, and had to scratch from the finals, although he did run on the relay teams. The wind was blowing against the runners in the finals however, and the fastest 100 time was a 10.4 by Sloane

Rainey, Shamrock; Bentley; Panhandle; Wilson, Miami and Smith, Panhandle tied for fourth; Kirkwood, Stratford, Distance 50' 4".

Broad Jump: Taylor, Vega, Lisle, Canyon, Colquitt, Dalhart; Edwards, Panhandle; Thurmond, White Deer; Mitchell, Dalhart, Distance: 20'6".

High Jump: Flowers, Miami; Lewis, Canadian, Bean, Miami, Burke, Price College and Newman, Stratford tied for second; Prather, Canadian, Harrell, Canadian, Miller, Darrouzett, Bromlow, Lefors, Buck, Vega and Jones, Vega tied for sixth. Height: 6'3". (new record).

Pole Vault: Wayne Coleman, Lefors and Tommy Elliott White Deer, tied for first; Brock, Canyon; Thurmond, White Deer and Worst, Sunray, tied for fourth; Ruthardt, Groom and Quirk, Groom, tied for sixth. Height 10'6".

440-yard relay: White Deer and Dalhart tied for first; Stinnett; Wheeler; Friona, Claude. Time: 44.9. (new record).

880-yard run: Ross, Gruver, Ruthardt, Groom; Cusick, Shamrock; Eccles, Booker; Lister, Miami, Hughes, Booker and Stone, Clarendon, tied for sixth. Time: 2:09.1.

120-yard high hurdles: Russell, White Deer; Lewis, Canadian; Reid, Shamrock; Arrington, Miami; Hale, Gruver; Prather, Canadian. Time: 15.3.

100-yard dash: Slovacsek, Booker; Eddleman, Gruver; Lisle, Canyon; Burke, Price College; Dodd, Stinnett; Gee, Friona. Time: 10.4.

440-yard dash: Colquitt, Dalhart; Lollar, Shamrock; Thurmond, White Deer; Taylor, Vega; Walker, Sunray; Hughes, Booker. Time: 51.7. (new record).

180-yard low hurdles: Russell, White Deer; Davids, Panhandle; Hale, Gruver; Lewis, Canadian; Smith, Lefors; Prather, Canadian. Time: 21.5.

220-yard dash: Slovacsek, Booker; Allied, Dalhart; Eddleman, Gruver; Reiner, Stinnett; Burdine, Shamrock; Gee, Friona. Time: 23.2.

Mile run: Bilbay, Dalhart; Pengast, Panhandle; Clark, Claude; Hoover, Booker; Rivers, Canadian; Cooper, White Deer. Time: 4:58.0. Mile relay: Dalhart, White Deer, Shamrock, Stinnett, Booker, Wheeler. Time: 3:33.

JIMMY FLOWERS, MIAMI

Tascosa Wins Again In District 34A Golf

BORGER (Sp) — Amarillo Tascosa added to its lead in District 3-AAAA golf as they won the second round of play yesterday at the Huber Country Club with a team score of 324, coupled with their 334 of last week at Pampa-Lubbock Monterey, although four strokes behind with a 328, still remained in contention as they were three strokes behind the winners last week, and trail Tascosa by seven strokes.

The rest of the district teams could only win by a miracle, as Borger, with a 333, fell 18 strokes behind. Amarillo Palo Duro followed with 329, Amarillo had 330, Pampa 340, Tascosa B 343 and Borger B 344 for the top eight.

The only other race besides that between Tascosa and Monterey is for overall medalist honors. Martin Reeves of Palo Duro took individual medalist honors yesterday with a sparkling 73. Coupled with his 80 last week, Reeves has 153 going into the final round of district play. Buddy Hamilton of Tascosa, last week's medalist with a 79, had a 78 yesterday for a 157

total. Teammate James Herring has an 81-76 to tie with Hamilton for second.

Pampa, although their play picked up considerably from last week's 333, has a 693 total, and with only one round left, has no chance of picking up on Tascosa's 658.

The Harvesters failed to break 80 yesterday, as Bryan Prigmore's 81 was their low. Grover Haskell had 85, Freddie Howard 88, and Bill McKinney and Johnny Weatherly each carded 88.

Pampa's B team failed to break 90, with Chuck Worley shooting a 91. Skip Warren, last week's B medalist, fell to a 93, behind Phil Hall's 92. Jim Thompson had 97 and John Triplehorn 98.

The final round of the 54-hole district tourney will be played April 6 at the Ross Rogers Country Club in Amarillo. Next Saturday the district golfers will compete in the 20-team field of the Amarillo Relays golf matches. The Harvesters are the meet's defending champions.

Providence Friars Top Jesuits In NIT, 81-66

NEW YORK (UPI) — Slim Jim Stone, known to his teammates as "the best one-legged basketball player in America," and deadeye Ray Flynn led Providence to its second National Invitation Tournament championship in three years Saturday with an 81-66 victory over Canisius.

A sellout crowd of 18,499 at Madison Square Garden and a national television audience watched Providence spurt late in the first half to take a 41-32 lead at the intermission and then pull steadily away during the second half with a brilliant 14 for 28 shooting performance.

Stone, a 6-foot-2 Cleveland boy who transferred to Providence from Grambling (La.) College and plays on a gimpy left knee, scored 23 points and Flynn 20, 14 of these in the second half, to help the Friars repeat the N.I.T. championship they scored in 1961.

Two other important men in the Providence triumph were 6-foot-11 center John Thompson, who scored 10 of his 15 points during the first half to keep the Friars ahead, and 5-foot-8 Vinnie Ernst, who made 10 assists.

Flynn, a 6-foot sharpshooter from Boston, was voted the tournament's "most valuable player" award for his superb performance in Providence's victories over Miami (Fla.), Marquette, and Canisius. He scored 83 points in those three games.

Bill O'Connor, gave it a courageous try for Canisius with a 22-point performance and Tom Chester added 21. But in the end, the Friars' height, the effectiveness of their "mixed-up" zone and man-for-man defense, their ballhawking, and better balanced shooting made the difference in the two teams.

The triumph was Providence's 15th straight and closed out its season with a 24-4 record. The Friars from New England, ranked 13th nationally by the United Press International board of coaches, were seeded second behind Wichita in this year's tournament.

In the third-place consolation game which preceded the final, Marquette defeated Villanova 66-58 with the help of 26 points by Ron Glaser.

Battles Back
Marquette battled back from an early 5-point deficit to lead 35-31 at halftime and was in front only by 46-44 after the first five minutes of the second half when it pulled away to stay.

The Warriors from Milwaukee outscored Villanova 18-10 within the next 10 minutes to open a 64-54 lead. Bob Hornak scored seven points during that spurt and Glaser and Dick Nixon each contributed two field goals.

The 5-foot-10 Nixon also did an excellent defensive job in holding Jerry Jones of Villanova to 13 points. Jim McMonagle, like Jones, scored 13 points.

The victory was Marquette's 20th against 9 defeats while Villanova wound up its season with a 19-10 record.

Lunsford Is NRA Teacher

WASHINGTON, D. C. (Sp) — Jerry E. Lunsford of Pampa has been appointed a certified rifle, pistol and shotgun instructor, it was announced here today by the National Rifle Association of America.

The new top-ranked instructor passed a specified series of tests and served a prescribed period of time in training activities before receiving certification. He is now qualified to conduct classes in gun operation, safe gun-handling, and techniques of shooting on the target range and in the field to all interested members of his community.

Mr. Lunsford joins the ranks of selected personnel which the NRA maintains throughout the country in a nation-wide small arms education program. The program has been in operation since 1876, and since that time millions of people have been taught to handle and enjoy firearms safely.

Harvesters, Dumas Split Doubleheader, 15-7, 2-1

DUMAS (Sp) — The Pampa Harvesters and the Dumas Demons split a doubleheader here yesterday, the Harvesters winning a 15-7 opening game slugfest and the Demons taking a 2-1 pitchers' duel.

The Demon starting pitcher, Robbie Robinette, was wild from the beginning of the game, as were relievers Gregory and Calker, as the trio walked 10 men between them, while the team committed four errors, setting up men on base time and again for key extra base blows which drove Pampa runners home.

Glover Wins
Jerry Glover coasted to the win, striking out 14, walking two and hitting a batter, allowing only four earned runs. Glover personally led his own cause as he hit three doubles in four trips to the plate to drive in four runs as Pampa took a 7-0 lead in the first two innings.

Glover was aided by Larry Gregory, Jim Arthur and Ricky Maynard, each of whom sent two runs home with a double.

The only long hit allowed by Glover was a home run over the left field fence by Gary King, with no runners on.

Pitching Duel
The second game was a complete opposite of the first as Arthur and Vern Stafford hooked up in a tremendous pitching duel.

Arthur, who had pitched a four-hit shutout last week, again gave up only four hits, but an error behind him in the bottom of the seventh inning with two out allowed the tying and winning runs to come home. Stafford was even hotter than Arthur as Jim also allowed four bases on balls while striking out nine, while the Demon mound ace also gave up four hits, but walked only one batter and hit two, but came through with 13 strikeouts.

Dumas' only extra-base hit and first threat came in the second inning when Robinette tripled with two out. Robby died there however, as Arthur coaxed Don Samuels into flying out to center field.

Pampa Threat
Pampa threatened in the fourth inning when they loaded the bases with one out, but Stafford blazed his fast ball past the next batter to strike them out and retire the side.

In the fifth inning, Dumas also loaded the bases with one out, but Arthur struck out the next batter and the third out was recorded as Kenneth Collins gobbled up a ground ball and threw to Ricky

Maynard at second for a force-out. The only earned run of the game came in the sixth inning. With one out, Steve Molberg connected with one of Stafford's fast balls right on the nose and sent it screaming to the right center field fence. Glover then hit his fourth double of the day, also to right center, and Molberg walked home.

Loaded Bases
Bill Harvey opened the bottom of the sixth with a single. Julian Miller laid down a sacrifice bunt, which was fielded at first, but the Harvesters tried to get the front man and the throw went wild, with the runners ending up on first and third. Stafford walked to load the bases.

Archer then threw six straight strikes past Phil Moffatt and Robinette, and then threw two more to Samuels. With an 0-and-2 count, Arthur threw a curve ball which hung just a split second too long, and Samuels hit it into the hole between short and third, sending home the tying and winning runs. Pampa went down 12-3 in the seventh inning.

(First Game)

Pampa	4	3	0	4	0	0	15	9
Dumas	0	0	1	5	0	1	7	3

Glover and Gregory; Robinette, Gregory (1), Calker (4), Robinette (5) and Samuels, Sanders (3), Home run-King. Two-base hits—Glover 3, Gregory, Arthur, Maynard. Winning pitcher—Glover. Losing pitcher—Robinette.

(Second Game)

Pampa	0	0	0	0	0	1	0	1
Dumas	0	0	1	5	0	2	2	4

Arthur and Gregory; Stafford and Sanders. Three-base hits—Molberg, Robinette. Winning pitcher—Stafford. Losing pitcher—Arthur.

Skin-Diving Film Shown At YCC

The Pampa Youth and Community Center announces the free showing of skin diving films on March 28 at 8:00 p.m. These films were taken in the Bahamas by Don Beer, noted skin diving artist from Amarillo. The public is cordially invited to attend.

Mr. Beer will be present to discuss skin diving and will answer questions raised by interested persons. Skin Diving Classes will be held at the Center in April and May.

Track Meet Results

LUBBOCK (UPI) — The University of Colorado track team won 14 of 16 first places Saturday in defeating Texas Tech 80½ to 35½.

Tech won first places in the 440-yard dash, won by Norman Donaldson and in the mile relay.

Colorado, making its first outdoor appearance of the season, was led by Bob Griffith in the mile and 880; Jim Miller in the high and intermediate hurdles, Dick Burns in the 100 and 220-yard dashes and Tom Bal Galbos in the shot and discus.

Winds that gusted up to 20 miles an hour gave runners trouble although Miller had a 14.6 in the high hurdles. He turned 37.8 seconds in the intermediates and Burns had a 21.7 in the 220 run on the curve.

Tech's frosh won a freshman-junior college division with 65 points to runner-up Abilene Christian's 63.

SAN MARCOS, Tex. (UPI) — George Wilhite score 14 points today to lead Southwest Texas State College to victory in its own 14th annual All-College Relays.

Wilhite ran on both the winning mile relay team and the winning 440-yard relay team, finished second in the 100 yard dash and won the 220-yard dash.

Southwest Texas had 92½ points; Hardin-Simmons scored 85½. Sam Houston State had 47, St. Edwards University—23 and Texas A&I 8.

Billy Hardage of Hardin-Simmons ran the 440 yard dash in 49.4, compared with the old record of 49.5.

The Southwest Texas 440-yard relay team turned in a time of 42.2, with the old mark 42.3.

Pampa Tenn's Team Seventh At Monterey

LUBBOCK (Sp) — The Pampa tennis team finished seventh in a field of 16 at host Monterey won the Monterey Invitational Tennis Tournament yesterday.

Eugene Eads won his seventh straight match of the year, but finally went down to his first defeat in the second round.

Jerry Thomas won two straight matches, but lost to top-seeded Mike Boens of Odessa Permian in the semi-final round, his second loss of the year against nine wins. In the first round, Jerry downed fourth-seeded Robert Heinerman of Lubbock with little trouble, 6-2, 6-1. Pampa's doubles' team of Charles Ashby and Joe Fisher lost to the second-seeded duo of Jimmy Tate and Keenwin of Monterey, 6-2, 6-1.

In a grueling battle, Eads out-duelled Gary Blackshaw of Snyder in B boys singles, 4-6, 6-2, 9-7. Jerry Edmondson, playing in B girls singles, dropped her opener in Laura Flory of Odessa Permian, 6-0, 6-1.

In the second round, Thomas topped Steve Beauford of Carlsbad, N. Mex., 8-6, 6-0. In the second round of B play, Eads dropped another three-set battle, 3-3, 9-6, 6-3, to Dick Ewing of Wichita Falls. Thomas met Boens in the semi, and was outclassed, 6-1, 6-1.

MAN FROM OUTER SPACE? — Nope. Just a manikin attired in a skin diver's "wet-suit," flippers and face mask at one of the exhibits in the Pampa Boat and Ski Club's show in the First National Bank Annex yesterday. Looking on are M. H. Meeks, 901 E. Browning and his son, Johnny. (Daily News Photo)

Matson Sets Two Lubbock Records

LUBBOCK (Sp) — Despite two more record-breaking performances by Randy Matson, the Pampa track team put on its poorest showing of the season as they finished seventh in the 10-team Lubbock Invitation Tournament yesterday.

Favored Permian of Odessa out-classed the field as they rolled up 115½ points. Odessa High topped the other competitors for second place easily with 79½ points. Monterey was third with 58. Amarillo had 55, Lubbock 52, Lubbock-Dumas 50 and Pampa 46 points. Midland Lee was eighth with 38 points, Plainview garnered 35 tallies, and Borger picked up a solitary point.

Pampa missed a chance to finish third when they blew the 440 relay. Leading all the way, the Harvesters were closed out as they missed the second handoff, failing to place.

Matson broke his own shot put record of 57'7", with a heave of 62'3½". The discus record was smashed to smithereens as the Mighty Matson hurled the platter 174' 6½", breaking the old record by more than 27 feet.

Matson then proceeded to pick up more points as he finished third in the 100-yard dash, running a 10.5. Jackson of Dunbar, one of the fastest men in the state, a consistent 9.9 runner, won the dash in 10.2 as the sprinters were bucking a strong wind.

Randy had not run the 100 since junior high, although he had run on the sprint relay team last year. Coach Norman Phillips had had Randy practicing the dash this week so that he could put Kenny Hebert back in the hurdles, but did not really decide to let Matson run until the last minute.

Bill Martin picked up eight points as he finished second in the high jump with 5'10", as Burke of Odessa leaped 6'0" to win. Curtis Fletcher was fourth in the 440-yard dash in 51.4. Travis Tucker finished fourth in the 220 in 22.3.

Trinity Wins Rice Tourney

HOUSTON (UPI) — Trinity University's Chuck McKinley breezed past Fritz Schunck of Rice, 6-4, 6-0 to take the Rice invitational tennis tournament singles championship Saturday.

McKinley, the nation's top amateur, had an easy time beating Schunck, who surprised many tennis buffs with surprise wins over two of McKinley's top-seeded teammates to reach the finals.

Last year the Rice title eluded McKinley, who had been on his honeymoon at the time. He lost out to teammate Frank Froehling, whom Schunck beat Friday in the semi finals.

McKinley beat Butch Newman, also of Trinity, to reach the finals.

Outside of Schunck, Trinity players dominated the tournament and gave their school the team title by a wide margin over Rice, who placed second, and Corpus Christi University, third.

It was an all-Trinity pairing in the doubles finals with McKinley teaming with Cliff Buchholz to whip Froehling and Newman, 6-4, 7-5.

BULLETIN

Loyola of Chicago won the NCAA basketball championship by upsetting Cincinnati 60-58, last night.

Grapefruit League

CLEARWATER, Fla. (UPI) — The Minnesota Twins broke a six-game exhibition losing streak Saturday when they beat the Philadelphia Phillies 7-3.

Left-hander Jim Kaat became the first major league pitcher in Florida to go the route this spring and he hurled no-hit ball until Bob Oldis singled with two out in the fifth. He allowed five hits in all, three in the seventh when the Phillies scored their three runs, one of which was unearned.

LAKELAND, Fla. (UPI) — The Kansas City A's put together five singles to score all of their runs in the ninth inning Saturday to beat the Detroit Tigers 3-2.

Bill Faul, a 22-year-old right-hander from the University of Cincinnati, had blanked the A's on three hits entering the ninth. But he weakened and was lifted after Dick Howser and Hector Martinez started the inning with successive singles.

FORT MYERS, Fla. (UPI) — Rookie Don Lock crashed a ninth inning home run off Roy Face to give the Washington Senators a 2½ victory Saturday over the Pittsburgh Pirates.

Except for Chuck Hinton losing Don Clendenon's fly ball in the sun in the sixth inning, the Senators would have had a shutout. Clendenon's fluke two-bagger scored the tying run.

Dick Phillips drove in the first Washington run in the first inning with a long two-bagger. Don Rudolph of the Senators and Earl Francis of the Pirates pitched the first seven innings.

ST. PETERSBURG, Fla. (UPI) — St. Louis' defense collapsed Saturday and four errors, including two that broke a 2-2 tie in the ninth inning, gave the Chicago White Sox a 4-2 victory.

The Cardinals' four-game winning streak ended when infield errors by Phil Gagliano and Julian Javier were combined with Pete Ward's single and Camilo Carreon's infield hit for two runs in the ninth off rookie Alan Brice.

TAMPA, Fla. (UPI) — Jim O'Toole and relief ace Jim Bronson teamed up to shut out the Milwaukee Braves with four hits Saturday as the Cincinnati Reds registered a 1-0 victory.

Seventh-inning singles by Tommy Harper and Leo Cardenas and a sacrifice fly by Ken Walters gave the Reds their one run. O'Toole, flashing mid-season form, worked the first eight innings, striking out seven and walking none. Bronson set the Braves down in order in the ninth. Lew Burdette and southpaw Bob Hendley shared the Braves' pitching, the former blanking the Reds the first five innings with five hits.

Carroll Russell Wins
Carroll Russell finally won both ends of his eternal hurdles duel with Robert Lewis of Canadian. Russell won the high hurdles in 15.3, with Lewis right behind in 15.4, exactly the same clocking the pair had at Lefors. In the high hurdles through, Russell won with 21.5 while Lewis was upset as he finished fourth in the event.

Russell's two wins gave the Bucks the edge that withstood Dalhart's final rush. His two triumphs led White Deer to a 29 point lead and apparently wrapped up the meet. Dalhart, however proceeded to win the 440- and the mile and placed second in the 220 while the best the Bucks could do in the three events was a sixth in the mile, and it was White Deer 58, Dalhart 55, going into the last event on the program, the mile relay. The Wolves edged the Bucks for first place, picking up 20 points for a total of 74, but White Deer's second-place finish gave them 18 points and a total of 75.

CARROLL RUSSELL

Slovjek of Booker, who also won the event at Lefors last week.

A new meet mark of 44.9 was shared by White Deer and Dalhart as they tied for first in the sprint relay. The other meet mark set was 51.7 440 mark by Colquitt of Dalhart.

Russell Wins
Carroll Russell finally won both ends of his eternal hurdles duel with Robert Lewis of Canadian. Russell won the high hurdles in 15.3, with Lewis right behind in 15.4, exactly the same clocking the pair had at Lefors. In the high hurdles through, Russell won with 21.5 while Lewis was upset as he finished fourth in the event.

Russell's two wins gave the Bucks the edge that withstood Dalhart's final rush. His two triumphs led White Deer to a 29 point lead and apparently wrapped up the meet. Dalhart, however proceeded to win the 440- and the mile and placed second in the 220 while the best the Bucks could do in the three events was a sixth in the mile, and it was White Deer 58, Dalhart 55, going into the last event on the program, the mile relay. The Wolves edged the Bucks for first place, picking up 20 points for a total of 74, but White Deer's second-place finish gave them 18 points and a total of 75.

Area HS Baseball

DUMAS — Palo Duro came up with two runs in the seventh inning and then held Dumas in check to win, 3-1, in a windy ball game. The Dons are now 5-2 for the year. They were scheduled to play Mangum on the Dons' field in a doubleheader yesterday.

Phillip Walker pitched a four-hitter in going all the way for the Dons. The wind was a big factor in the hitting by both teams. Six of the nine combined hits of Palo Duro and Dumas were for extra bases.

Palo Duro 000 01-2-3 5 0
Dumas 000 001-0-1 2 0

Phillip Walker, and Allen McNeil, Joe Ballard, and Joe Sanders.

KANSAS STATE COACH TEX WINTER

Kansas State Coach Tex Winter At Cage Banquet

MANHATTAN, KANS. (Sp) — Basketball coach Tex Winter, who has won six Big Eight Conference cage titles since 1953, five of them in the last six years, will be the principal speaker at the Pampa, Tex., annual Basketball Banquet on March 28.

Tex Winter — basketball coach, organizer, "psychologist," lecturer and now author. This is the man who has led Kansas State to five Big Eight Conference championships.

Last year, K-State's string of four straight titles was broken. Tex never has had a losing season while at K-State in guiding the 'Cats to 162 victories against only 60 losses. Tex took over the K-State reins in 1953.

With this outstanding record, it is small wonder why Tex is in such great demand at clinics and other guest appearances. Also included in his extra-curricular activities is flying; he is a licensed pilot and has logged many hours of flight time. And he has helped direct a camp for boys in the

Colorado Rockies. Coach Winter always is looking for new ideas and "gadgets" to promote basketball at K-State. This season, he purchased a "tipping machine" for his drills. When the ball goes into the basket, the machine kicks it out in all directions. "It teaches them to react to the angle of the rebound," Winter pointed out. Other innovations have been the "explosive-power chart" and the "triple post offense."

Coach Winter has completed a book "Triple Post Offense" which is now on sale. The book, published by Prentice-Hall, explains in detail the offense which has brought so much success to K-State. There are diagrams and such helpful hints as developing the tall boy. While it is directed mainly at the young coach, it should be of benefit to all those concerned with basketball.

Tex has won a long list of honors in his 11 years as head coach, but uppermost among them was (See COACH, Page 11)

Sporting Sidelines

By JEFF COHANE

PAMPA coach Ray Howard and the Harvester baseball team returned from Friday's baseball game at Hereford in stunned silence due to the attitude of one of the officials in the game.

Howard stated clearly that his feelings concerning the official were not due in any way to the Harvester's losing the game; as he felt that the Hereford team, especially the pitcher, played an outstanding game, but due to the attitude and the language used by an umpire to Coach Howard and one of his players.

DURING the Hereford game, a situation occurred which was similar to one in a recent game, and which the baseball rule book, George Smith's case book, and several officials had decided was interference. Coach Howard called time and approached one of the umpires with the rule book, asking him to look at it before making his decision. The umpire informed him, in no uncertain terms, and in language that Howard felt was definitely uncalled for, that he, the umpire, was running the game, that he did not care to look at the rule book, and

Howard did not stop complaining; he would throw him off the field. The umpire added that the same went for the Pampa catcher, Howard said.

AT THE end of the inning, Coach Howard said he asked the catcher what he had said, and the boy explained that he had not heard the call on a pitch and asked the ump whether it was a ball or strike. He was also told, the catcher stated, to shut his mouth or he would be thrown out of the game.

FOLLOWING the game, coach Howard said: "I have never before, as an athlete or a coach, heard such language used by an official to or in front of high school boys. I hope I never hear it again."

HOWARD added, "if this were a district game, I would definitely protest it, but all I can do now is decline to allow that man to officiate at any of my games. I feel the idea of high school sports is to teach the boys sportsmanship and respect for authority. I definitely do not feel that such an example furthers the teaching of either of these practices."

Harvesters Drop 11-6 Slugfest At Hereford

By JEFF COHANE

Pampa News Sports Editor
 HEREFOR — The Hereford Brahmas took revenge for an earlier defeat Friday as they out-slugged the Pampa Harvesters, 11-6, in a free-swinging baseball game.

Portly Lupe Ramirez, who had looked relatively unimpressive in one inning of relief against Pampa last Tuesday, had his fast ball blazing as he struck our seven batters and walked only one as he held the Harvesters to only one run in the first five innings. Meanwhile, his teammates picked up six tallies off the slants of Carl Harnsberger and lefty Jerry Garrison.

Pampa finally got to Ramirez in the sixth inning with a two-run homer over the center field fence by Jerry Glover. The Brahmas apparently wrapped up the game in their half of the inning as they picked up five runs on only two hits. Garrison and relief pitcher Dee Wright lost their control and hit three batters and walked two to give Hereford an 11-4 lead.

Pampa rallied again in the final frame and scored two more runs,

Pampa	1000032660
Hereford	131150x11104

Harnsberger, Garrison 3, Wright 5 and Gregory; Ramirez, Bybee 7 and Green. Winning pitcher — Ramirez. Losing pitcher—Garrison. Struck out-by Ramirez 7, Bybee 2, Harnsberger 4, Garrison 2, Wright 1. Bases on balls-by Ramirez 1, Harnsberger 1, Garrison 1, Wright 3. Hit by pitcher—Garrison, Wright 2. Wild pitch—Garrison. Passed ball—Gregory. Home run — Glover, Three-base hit—Molberg. Two-base hits — Arthur, Gregory, Mareno, Baynton, Coffman. Sacrifice — Green, Ramirez. Stolen bases — Stewart, Glover, Hebert, Garrison, Duncan.

Judo Classes For Women At Center

The Pampa Youth and Community Center has scheduled a Judo Class for women. The class will meet on Tuesday, March 26 at 1:30 to organize. All women, 18 years of age and up, are invited to enroll in the class and should attend this organizational meeting. You do not have to be a member of the Center to enroll. Mr. A. C. Higgins will instruct. George Smith, Center Director, has commented that the men's Judo Classes meeting on Monday and Thursday nights have met with great success. So great that the women want to take it. Some 30 men enrolled in the Judo classes and are in their third week of lessons.

...BIG REASON FOR ELECTRIC CLOTHES DRYING

Tiny tots are lots of fun as they take their first steps or say their first words. But, there's a "catch" — just as in all good things — and the catch is hard work. It's hard work to wash and dry diapers and baby's clothes but not if you have an electric clothes washer and dryer.

Reddy does the hard work of washing and drying. And baby's clothes and diapers come out of the electric dryer so-o-o-o clean that they're a delight to hold against your skin.

Yes, baby IS a big reason for an electric clothes dryer — a most delightful reason to be sure.

Buy your electric clothes dryer now and get both — the Toastmaster steam and dry iron and the ironing board that folds flat — fits in a suitcase. At your participating Reddy Kilowatt dealer! Available to Southwestern Public Service Company customers.

Monterey Heavy Choice To Repeat As Loop Titlist

(Editor's note: First in a series of articles on District 3-AAAA baseball teams.)

Catcher Buddy Hampton and outfielder Al Ayers are setting the hitting pace for Coach Bobby Moegle's Monterey Plainsmen, who are currently clipping along at an 11-1 pace for the season and riding an eight-game winning streak.

Hampton is the leading hitter on the team, boasting a .514 percentage, and is runnerup in home runs with three. Ayers is leading in homers with four and is second in average with a .472.

Each of the two sparkplugs have batted in 15 runs for the season.

Shortstop Gary Huey is the leading scorer on the team, having crossed home plate 18 times in 12 games. Outfielder Eldon Frost leads Huey in stolen bases, 9-8, and is the third leading hitter. He is batting at a .429 clip.

Randy Humphrey, who has beaten Danny MacDougall—the No. 1 moundsman—for the first base post, is tied with Frost in

batting but has considerable fewer trips to the plate.

Humphrey won his spurs against Abilene High when he appeared as a pinch-hitter and slapped the game-winning home run. His discovery has worked out well for the Plainsmen, allowing MacDougall to get more rest between pitching assignments.

It was MacDougall who carried the Plainsmen to a bi-district championship in 1962 with his consistency on the mound, and the pace he is currently following suggests that he again could be one of the very top chunkers in District 3-AAAA.

The lanky curve-ball artist has picked up three wins against no defeats this season and boasts a 1.51 earned run average for 23 innings of action.

Eldon Fox, a fast-ball throwing lefthander, is leading the team in strikeouts with 38 and also has struck out three victories. However, he was charged with Monterey's only loss of the season (to Odessa Permian) and has let his E. R. A. build up to 10.43.

All of Monterey's eight regulars except one are hitting .300, and the overall team batting average is .366. The Plainsmen, unanimous favorites in a poll of coaches to top their third consecutive district title, have stolen 31 bases.

Chris Galanos, a senior who was used frequently as a pinch runner during his sophomore year when Monterey went to the state finals, has proved valuable as a spot starter on the mound. With a 2-0 record, he—along with Gary Hughes (1-0), Gary White (1-0) and Hampton (0-0)—gave Coach Moegle one of the deepest pitching staves in the league.

Monterey traveled to Abilene this week-end for three games with Cooper High School after taking a rest on Tuesday. The Plainsmen and Cougars played a single game Friday and a twin bill yesterday.

The next Monterey home appearance will be against Snyder in Lowrey Field Tuesday.

Tickets are \$2.50 each and can be obtained at the Chamber of Commerce office, the Daily News office, the Coronado Inn, Wilson-Bell Drug, Richard Drug and Malone Pharmacy.

TEXAS OUTDOORS

By WILLIAM CLAYTON United Press International

A. R. Long, the information and education officer for Region III of the Texas Game and Fish Commission, has come up with a well-timed primer for sportsmen and just-plain-adventurers in the outdoors—a look at Texas snakes, their dangers and how to avoid their bites.

Springtime brings the snakes crawling sleepily from their winter dens, to begin sunning and wandering a bit. They are not yet liable to be around in large numbers in the woods, but some rocky mountainous country probably has plenty of snakes beginning to pick out proper sunning places on flat rocks.

Maps by Long show Texas' snakes with a variety of stomping grounds. The poisonous ones are the canebrake rattlesnake, western diamondback rattlesnake, ground rattler, northern copperhead, cottonmouth moccasin, southern copperhead, Texas coral.

Keeton Quits Sundown Grid Coach Post

SUNDOWN (Spl) — C. H. Keeton, coach in the Sundown system for the past seven years, including the last two as head coach, has resigned his post.

Keeton's plan for the future are uncertain, although he plans to stay in coaching and he hopes to stay on the South Plains.

Under Keeton, the Roughnecks won 11 and lost nine, finishing second two years ago in the District 5-A race and they tied for third this past season.

Before taking over as head coach, Keeton was line coach for five years and the Roughnecks were famous for their tough defense all seven years.

During those seven years, Sundown won 61, lost 19 and tied one. In 1959, the Roughnecks went to the Class A finals before losing, and in 1957, they reached the semifinals only to lose on penalties.

Keeton graduated from West Texas State in 1951 and got his master's degree from the same school in 1959. He coached the line at Lefors for four years before going to Sundown.

Keeton is a director for Region One in the Texas High School Coaches Assn.

TO BE HONORED

Randy Matson, one of the greatest all-around athletes in Pampa history, will be honored at the annual Basketball Banquet Mar. 28. Coach Terry Culley has reported that Matson, named first team All-State and two-time unanimous All-District, has been invited to play in the annual North-South basketball game in Houston this summer.

St. Louis Cardinals Are Hurting For Mound Staff

ST. PETERSBURG, Fla. (UPI) — The St. Louis Cardinals gave until it hurt and now are hoping the pain of giving up so much pitching last winter will somehow

disappear this summer. Manager Johnny Keane patiently explains the Cards had to give up pitchers like Larry Jackson, Lindy McDaniel and Don Cardwell to get fellows like shortstop Dick Groat and outfielder George Altman.

also will be in the starting rotation although he's going on 34 and may require some extra rest between starts.

That leaves fellows like Diomedes Olivo, obtained from the Pirates; Bobby Shantz and possibly Bob Driaba and Ed Bauta in the bullpen. Rookie Harry Fanok, who was 12-10 at Atlanta, also could make the staff.

Strong In Power

The one place the Cards are particularly strong is in the power department with such sluggers as Ken Boyer, Stan Musial, Bill White and Altman.

Even catcher Gene Oliver can reach the fences frequently. He hit 14 homers last year and should top that total this season. He'll be the first string receiver with Carl Sawatski, another long-ball hitter, behind him and young Tim McCarver in the third catching spot.

"Groat should make a tremendous difference in our infield," Keane claims. "We've had a shortstop problem for a long, long time and now we have it solved."

That doesn't alter the fact that the Cardinals may find themselves hard pressed for pitchers during the next eight months.

Gibson Most Important

Right now, the most important man in the Cardinals' scheme of things is right-hander Bob Gibson, owner of one of the best fast-balls in the National League.

Gibson, a 15-game winner last season, was breaking in a new pair of baseball spikes late last September when they caught in the dirt as he was taking batting practice. The result was a broken right leg which took all winter to heal.

He is almost completely sound now but the Cardinal brass is watching him anxiously since he is the key man on the pitching staff.

The other regular starters should be Ernie Broglio and Ray Washburn, a pair of right-handers who had identical 12-9 records; left-hander Ray Sadecki, who won six games for St. Louis, seven for Atlanta and was something of a problem child for Keane; and right-hander Ron Taylor, obtained from the Cleveland Indians in exchange for first baseman Fred Whitfield.

Veteran southpaw Curt Simmons, who won 10 games and lost the same number last year,

A COMPLETE BUILDING SERVICE

Here's how easy it is to apply Spencer Anhydrous Ammonia to your sorghum land before plowing. And, this 82% nitrogen fertilizer is the lowest-cost nitrogen you can use. See us for complete facts.

Before You Plant, Apply Spencer Anhydrous Ammonia

Authorized Distributor For

82% Anhydrous Ammonia

- Apply it yourself — use your own equipment, rent ours or let us apply it for you.
- Apply to apply — you can cover up to 50 acres per day.

This 82% Nitrogen Can More Than Double Your Sorghum Yields! Here's how:

Sorghums have about the biggest appetite for nitrogen of any crop you can grow. That's why it's so important to make sure that your sorghum has all the nitrogen it needs, as soon as it needs it!

The easy, low cost way to supply this nitrogen is to apply Spencer Anhydrous Ammonia before you plow. This puts the nitrogen right in the root zone, and helps speed up decomposition of stalks and stubble.

By applying it now you get a big job out of the way. So don't wait. See us now for Spencer Anhydrous Ammonia.

The public is cordially invited to attend.

Evelyn Price
Guest artist appearing on the program will be Mrs. Evelyn Thoma Price, violinist, who will play "Romance" by Wieniawski and the Larghetto and "Allegro Movements" from "Sonata IV for Violin and Organ" by George Frederick Handel. She will be accompanied at the organ by Tracy D. Cary.

Mrs. Price, a native of Boston, Mass., is a graduate of the Institute of Musical Art of the Juilliard School of Music, New York, where she received the B.S. degree in public school music, majoring in violin. She was a charter member of the Berkshire Music Festival at Tanglewood, Lenox, Mass. and studied with Franz Kneisel and Hugo Kortschalk of Yale University.

A former music teacher in the Pampa schools, Mrs. Price taught last year at Boise City, Okla. She will be performing on a violin made in 1930 especially for her by her late father Alexander Thoma, outstanding violin maker of Vienna, Austria. He also made violins for the Boston Symphony Orchestra. Active in all music circles, Mrs. Price is also a member of the choir of St. Vincent's Catholic Church.

Tracy Cary
Tracy D. Cary, president of the Pampa Music Teacher's Association and choirmaster-organist of St. Vincent de Paul Catholic Church, will play "Fountain Reverie at the Pool of Siloam" by Fletcher and "Litanies" by Jehan

Mrs. Lois Fagan

Alain. Cary was the founder of the Pampa Chapter of the American Guild of Organists and has been active in Pampa Music circles since the age of 12 when he became pianist for the First Church of Christ, Scientist. His education was received primarily at Texas Christian University where he studied piano with Jeanette Tillett and Katherine McKee Bailey, and summer sessions with Ernst Von Dohanyi, famous Hungarian pianist-composer and a pupil of Brahms.

His organ study was with William Barclay, Southwestern Seminary, Ft. Worth; Gordon Young, First Presbyterian Church; Detroit, Mich.; William J. Marsh, T.C.U.; Dr. Horace Whitehouse, Northwestern University, Chicago. Master classes were with Fernando Germani, organist of the Vatican and St. Cecilia Academy in Rome; Frederick Mariott, Rockefeller Center Chapel, Chicago; and Carl Weinrich of Princeton University.

In 1953, while president of the Lawton branch of the Oklahoma Music Teachers Association, Cary was appointed a special state member by the Board of the Oklahoma Federation of Music Clubs, and Music-Consultant for the Wichita Mountains Easter Pageant which annually draws an audience of 60,000 to 80,000 persons. Until returning to Pampa in 1958, Cary was a member of the Fort Worth Teachers Forum, which last year organized and sponsored the Van Cliburn International Piano Competition which focused the eyes of the musical world upon Texas by presenting the largest prize ever offered in piano history—\$10,000.

A member of Phi Mu Alpha, national honorary music fraterni-

Mrs. Athene Weddington

ty, Cary recently had five of his own choral compositions accepted for publication by McLaughlin & Reilly Co., Boston, world's largest publishers of Catholic Church music. Included in these was "Hodie Christus Natus Est" written especially for the choirs of St. Vincent's and performed for the last two years at the Christmas Midnight Mass.

Fidelia Yoder
Mrs. Fidelia Yoder, organist at the First Presbyterian Church for the last 22 years, will play "Meditation Serieuse" by Bartlett and Chorale: "My Heart is Filled With Longing" by Bach - Schreiner. Local chairman for the National Guild of Piano Teachers annual auditions in Pampa, Mrs. Yoder studied organ at Colorado State College at Ft. Collins, and has taught piano and organ here for several years, and is a member of the local, state, and national Music Teacher's Associations.

Lois Fagan
Mrs. Lois-Fagan, organist of St. Paul's Methodist Church, will perform "Lenten Devotions" by Nolte and "An Easter Flower" by Worrell. A member of Treble Clef Club and the National Guild of Piano Teachers, Mrs. Fagan has attended, for the last three years, the Repertoire Class at the Musical Arts Conservatory, Amarillo, under Virgeen Estes Latson and played in the mass ensemble of 25 pianos. She has taught piano in Pampa for 26 years.

Athene Weddington
Mrs. Athene (W. R.) Weddington, Borger keyboard teacher for 17 years, will play "Morning in the Garden" by Wilson, and "Alleluiah, Christ is Risen" by Rasley. She is Charter Organist for the Adobe Walls Eastern Star Chapter, secretary of Tri-City Music Club of Borger and report-

Tracy D. Cary

er for the Borger Creative Arts Club. A church organist for many years, Mrs. Weddington formerly held positions at First and Calvary Baptist Churches, and St. Peter's Episcopal Church in Borger, and is currently assistant at Phillips Methodist and Wesley Methodist Churches there.

Juanita Haynes
Miss Jaunita Haynes, piano and organ teacher of Miami, and organist of the First Baptist Church there for 12 years, will present "Alleluiah" by Armstrong. A graduate of Texas Tech with the B.S. degree, she did further graduate work at Sherwood Music Schools in Chicago, and played several years with the Pampa Piano Symphonies.

Special guests of honor will be patrons which each year sponsor the yearbook of the Pampa Music Teachers Association, whose members are affiliated with the Texas Music Teachers Association and the Music Teachers National Association. These include, Tarpley's Music, Myers Music Co., Citizens Bank & Trust Co., Richard Drug, Call's Studio, Beaux Arts Dance (See ORGANIST, Page 14)

Coffee Break... ...with d. e. w.

MONDAY WAS THE DAY OF THE WIND when it was unsafe to try to mail a letter in those Mail-Box Islands in front of the post office... wear anything but a sheath skirt... or venture outside unless weighted down no matter what tidy sum you weigh. Bet that howling, screeching wind on Monday upped the sale on end for those aspirin-type tablets which make having a headache a gay experience (or so the television commercials would lead us to believe.) It must be hastily added for the benefit of newcomers that Monday's wind and dust are rare indeed since the rains and snows have come to the Panhandle. First one of those kind we've had in a long time.

Poetry is the spontaneous overflow of powerful feelings; it takes its origin from emotion recollected in tranquility. — Wordsworth.

Twentieth Century Allegro Study Club had a perfect antidote for Monday though. Members had planned their annual Guest Day Tea for Tuesday and the morning's dawn led into a perfectly beautiful Spring day... calm, warm and sunny. The program was a soothing antidote for the previous nerve-racking day. An afternoon of poetry recited as only a "caring person" as Dr. James P. Cornette, president of West Texas State College, can recite it.

Whether or not you are a reader of poetry... or now and then try your hand at expressing yourself with it, Dr. Cornette instilled a new meaning and appreciation of this form of artistic expression. To illustrate his meanings, he quoted in length and detail from the works of his favorite poet, Robert Frost and, also, listed Emily Dickinson as one of his favorites. (Wonder what he thinks of Edgar A. Guest... didn't have the opportunity to ask.)

Dr. Cornette described poetry as "the great thoughts of the world recorded so that we can all understand them. Any form of art which the critics approve and make popular is probably not going to last very long. The critics are people who are so concerned with details they're often so close to the forest they can't see the trees. Often they overlook and bypass truly lasting art forms that contain human appeal."

"It is generally thought that poetry has to have a tinkling sound," the college president said. "And it is true that sound is a part of it, but that is still not entirely all that poetry is." "Poetry," Dr. Cornette said, "is an effort on the part of human beings to see and understand man and his position in this universe. To see it so artfully and clearly that he can express it so that others may see and understand something of it even though they may not have had a similar experience that the poet has had."

"It's like expressing the feeling of a first flake of snow against your cheek; or the sting in the corner of your eye as a tree branch brushes against it; a snowy field on a winter's evening; or swinging on birches in the spring."

Poetry lifts the veil from the hidden beauty of the world. — Shelley.

WE WERE SO delighted with the turn-out for the Press Coffee Tuesday morning in the Pampa Country Club. So nice to see and greet so many of the presidents of the women's clubs in town and repay in a small way the hospitality we have received from them in the past at their coffees, teas, luncheons and parties. Our hostess duties were made pleasanter with the assistance of Bill Powers, the News' General Manager, who assisted with coats in the check-room... by Bill's wife, Jean and the News' office manager, Louise Fletcher, who registered guests and by our daughter, Shirley, who pinned "Press Coffee" nametags on each guest. But now that the party is over, we are anxious to get busy writing articles for the special edition of "It's A Woman's World", which will be dedicated to the women of the community... chronicling their many worthwhile activities that make Pampa a nicer place in which to live.

A poet is, before anything else, a person who is passionately in love with language. — W. H. Auden.

THERE'S NEVER A dull moment at Doris Gastineau's home on North Zimmers Doris has an answering service for oil companies, which means she has to keep track of crews and equipment after hours and dispatch their services where needed when the main offices are closed. She has eight telephones (at last count) and two two-way radios that keep her busy into the wee sma' hours of every morning. And to fill her "leisure" time, she has two chiquaques named "Quita" and "Cola"; one Sealym named "Bitzy Jane"; one Pekinese named "Corky"; a blondish red Angoria named "Pussy Cat"; and a talking Mynah Bird named "Tim", who can say "Hello d'ere", "Call the dogs", "Where did Doris go?", "Whadda ya'll want?"... and it can give the most provocative wolf whistle you ever heard... no things are never dull around Doris' home.

TELEVISION FANS were happily surprised to see the familiar face of a former Pampan on Garry Moore's show, "I've Got A Secret", Monday night. Peering out on local screens was the face of Jimmy Goff, son of Mr. and Mrs. Jim Goff, 1109 Willow. Jimmy was graduated from Pampa High School in 1957 and is stationed with the United States Army at Fort Myer in Arlington, Va. Jimmy's secret was he is a member of the Presidential Honor Guard. "The Old Guard Fife and Drum Corps." Well, it's no secret that I am out of space. — d.e.w.

Kohler-Faulkner Nuptials Are Planned For June

The betrothal of Miss Susan Lossen Kohler, daughter of Charles Edward Kohler of Iola, Kan. and the late Mrs. Kohler, to Siler Faulkner III is being announced by the bride-elect's father.

Her fiancé is the son of Mr. and Mrs. Siler Faulkner of Denton and the grandson of Mrs. Siler Faulkner, 1029 Mary Ellen.

The wedding is planned for June 3 in the Danforth Chapel on the campus of University of Kansas, Lawrence, Kan. The Rev. John G. Marvin, formerly pastor of Denton's St. Andrew Church and now executive of Kansas City and Topeka-Highland Presbyteries, will officiate.

The bride-elect was graduated

from the Barstow School in Kansas City, Mo.; attended Lake Forest College in Lake Forest, Ill.; was graduated from the University of Kansas in Lawrence and is currently enrolled in the Graduate School at the University of Kansas. She is a member of Alpha Phi social sorority.

Mr. Faulkner attended Allen Military Academy in Bryan; was graduated from Denton High School; attended North Texas State University in Denton and is currently a senior at the University of Kansas. He is affiliated with Pi Kappa Alpha, social fraternity; Alpha Rho Gamma, professional silversmithing fraternity; Air Force Association; Arnold Air Society, Scabbard and Blade.

Miss Susan Lossen Kohler

BSP Goes Calling

IMPORTANT ERRAND — Members of Beta Sigma Phi Sorority made an important call recently to the home of the lady who they have chosen as the Woman of the Year for 1963 and who will be formally honored at a Yellow Rose Tea to be held April 21 in the Coronado Inn. Representatives from each of BSP's four chapters will participate in the tea arrangements. Pictured above as they left the home of Mrs. Charles O. Duenkel Jr., 321 N. Frost, to call upon the lady of their choice are, left to right, Mrs. Ray Jordan of Xi Theta Iota; Mrs. Jim Meredith of Xi Beta Chi; Mrs. Duenkel of Xi Theta Iota and tea chairman; Mrs. Ernest B. Fletcher of Upsilon Chapter; Mrs. Dick Wilson of Rho Eta Chapter was unable to be present. (Daily News Photo)

Provisional Panhellenic Names Officers At Meet

Delegates from 13 sororities met recently in the home of Mrs. Richard Stowers, 2015 Charles, to form a provisional Panhellenic organization in Pampa. The organizational meeting was an outgrowth of a need verified at a Tea given recently in the Citizens' Hospitality Room attended by sorority alumnae members living in Pampa.

Provisional officers were elected at the Sunday-afternoon meeting with Mrs. Bruce Pratt named president; Mrs. Malcolm Douglass, vice president; Mrs. Richard Stowers, secretary; Mrs. A. L. Wagner, treasurer; Mmes. David Gantz and David Fatheree, publicity co-chairmen; Mrs. E. L. Henderson and Mrs. Douglass were named to be in charge of distributing literature to graduating senior girls.

Plans for an Informational Tea were discussed to be given for senior girls and their mothers. Mrs. J. G. Morrison was named chairman and will be assisted by

Mmes. Tom Snow, T. O. Trout and Gene Imel.

The next meeting for the provisional group will be held April 21 in the home of Mrs. Bruce Pratt at 3 p.m. All national sorority alumnae are invited to join the Pampa Panhellenic and participate in its activities. Those interested in becoming members will be required to pay a fee of one dollar by April 15 to the sorority representatives listed below. This enables the member to participate in the permanent formation of a Panhellenic in October.

Representatives to contact re-

garding Panhellenic membership are: Alpha Chi Omega - Mrs. T. O. Trout; Alpha Delta Pi - Mrs. Bruce Pratt; Alpha Gamma Delta - Mrs. Jack W. White; Alpha Phi - Mrs. Tom Snow; Chi Omega - Mrs. Gene Imel; Delta Delta Delta - Mrs. E. L. Henderson; Delta Gamma - Mrs. Richard Stowers; Delta Zeta - Mrs. Bill Roots; Gamma Phi Beta - Mrs. Melvin Dennis; Kappa Delta - Mrs. James Schuneman; Pi Phi - Mrs. Ed Watts; Sigma Sigma Sigma - Mrs. A. L. Wagner; Zeta Tau Alpha - Mrs. Malcolm Douglass; and Sigma Kappa - Mrs. N. G. Kadingo.

Mrs. Kessinger Is Hostess To DMF

The DMF Auxiliary of Cities Service Gas Co. were entertained at a party on Tuesday at 7:30 p.m. in the home of Mrs. Homer Kessinger, 1020 E. Fisher.

Following a series of party games, prizes were won by Mrs. Orval Smith and Mrs. E. D. Wiens. Refreshments were served from a table appointed in a St. Patrick's theme. Small pipes and shamrocks were given as favors. Assisting hostesses were Mmes. Jerry Blanton, Ed Wiens and Carl D. Anderson Jr.

Members attending, not previously mentioned were, Mmes. W. H. Scherer, Glenn Giblin, Ray Sutton, Dave Kerns, J. W. Gambill, Bob Brandon, Sam Goodan, C. D. Anderson, R. E. Paxson, Charles Tate, James Bowen, Leon Brown and Ernie Mesneak.

Powell-Collins Repeat Vows In Chapel Rites

Miss Wanda Powell became the bride of Jackie L. Collins with wedding vows repeated on March 8 at 7:30 p.m. in the First Methodist Chapel with the Rev. Jack Riley, pastor of St. Paul Methodist Church, officiating.

Miss Powell is the daughter of Mr. and Mrs. James Powell, 1129 Terry Road. Mr. Collins is the son of Mr. and Mrs. A. J. Collins, southeast of the city.

Arrangements of white carnations flanked by palms decorated the chapel altar.

BRIDE
Given in marriage by her father, the bride wore a street-length dress of white Chantilly lace over pale blue wedding satin designed with a Sabrina neckline and long sleeves, which tapered to points over the hands. The gathered skirt featured a scalloped hemline of lace. Her shoulder-length veil of light blue Bridal Illusion was held to a crown of white orange blossoms.

She carried an arrangement of white roses showered with pale blue ribbons.

ATTENDANTS
Miss Joyce Collins, as maid of honor, wore a white dress designed with a satin bodice and white chiffon overskirt over white satin. She carried an arrangement of white and blue carnations.

Jackie Collum served as best man, Ushers were David Dean Lewis and Adell Myers.

Candles were lighted by Jimmy Powell and Jimmy Campbell.

Miss Mitzi McCoy carried the rings to the bridal pair wearing a pale blue tiered dress with white accessories.

Mrs. Hubert Carson, organist for the First Methodist Church, provided the traditional wedding

music and served as accompanist for Miss Ruth Ann and Sue Guthrie as they sang "True Love" and "O, Promise Me."

For her daughter's wedding, Mrs. Powell wore a two-piece beige dress-suit with matching accessories. The bridegroom's mother, Mrs. Collins wore a taupe complemented with matching accessories. Their corsages were fashioned from orchids.

RECEPTION
Immediately following the cere-

mony, a reception was held in the church parlor. Miss Judy Costner and Miss Beverly Macha presided at the cake and punch service. Miss Jerry Biehnel was guest registrar.

For a brief wedding trip, the bride traveled in a three-piece light blue linen suit complemented with the white roses corsage lifted from her bridal bouquet.

The bride was graduated from the Pampa College of Hairdressing (See Powell-Collins, Page 14)

ALLEGRO GUEST DAY Dr. James P. Cornette, president of West Texas State College, Canyon, as guest speaker for Twentieth Century Allegro Club's Guest Day Tuesday afternoon in Lovett Memorial Library chats before the program with Mrs. Will Graham, president-elect, center, and with Mrs. Jack Reeve, current president. New Officers For Hep Cats Elected

New officers for the Hep Cats Club, a young girls' social club, were elected at a recent meeting. Named to serve for the ensuing six months are Miss Betsy Goodwyn, president; Miss Sherry Warner, vice president; Miss Judy Abernathy, secretary; Miss Ann Monroe, treasurer; Miss Lysa Bossay, parliamentarian and Miss Linda Watson, reporter-historian.

"Two Bits"
Bits (meaning 25 cents in U.S. coin) came from the West Indies, where they used Spanish dollars. These dollars were cut into eight parts, or "bits," each worth 12½ cents in exchange for American money.

GARDEN CLUB WEEK — Mayor E. C. Sidwell has officially proclaimed the week of March 24-30 as Garden Club Week in Pampa. Pictured above watching the mayor make the proclamation official are, left to right, Mrs. Thelma Bray, Pampa Garden Club Civic Beautification chairman; Mrs. Kenneth Osborn, president of the Pampa Council of Garden Clubs and Mrs. L. B. Robertson, president of the Top of Texas Garden Club. The mayor's official proclamation reads "the garden clubs of Pampa have made outstanding contributions to the welfare of our city in addition to civic beautification and other programs devoted to gardening. Pampa clubs have cooperated to the fullest degree in the state-wide traffic safety crusade and a number of other projects in which their organized support has been important. Gardening instills that love of the soil in which democracy flourishes, provides wholesome outdoor recreation for all ages; is a training grounds for the young and means of rehabilitation for the handicapped. It is appropriate that a time be set aside each year in recognition of the value of all garden clubs in our city and the work they are doing to enhance the beauty of our city and the furtherance of worthwhile programs. Therefore, I, mayor of Pampa hereby designate the week of March 24-30 as Garden Club Week in Pampa. (Daily News Photo)

Pampa Deanery Meet Scheduled In Borger

BORGER — "The Christian in a Changing World" is the theme chosen for the ninth annual Pampa Deanery meeting of the Amarillo Diocesan Council of Catholic Women to be held next Monday in Borger. St. John's Altar Society will host the meeting which will open with 8 a.m. Mass in St. John's Church, followed by registration and coffee in the ballroom of Hotel Borger. The opening session will begin at 9:30 a.m. Mrs. D. M. Poundstone, Deanery Organization and Development chairman, will conduct the meeting in the absence of Mrs. J. R. Carney of Groom, deanery president. Workshops during the day will be on the theme of Christian Development: Personal Development, conducted by Mrs. Albert Britten of Groom; the Family Apostolate, by Mrs. Arthur Britten of Groom; Community Apostolate, by Mrs. R. M. Tweed of Borger; and world Apostolates by Mrs. Charles Warminsky of White Deer. His Excellency, Bishop John L. Morkovsky of Amarillo, will address the group during luncheon. Mrs. Walter Kale of Borger, Diocesan President, will bring a message from the Diocesan Council, and Mrs. Fred Haiduk of White Deer, member of the Board of Directors of the National Council of Catholic Women, will report for the National Council. In attendance will be delegates and visitors from the parishes of the Pampa Deanery, which include: Pampa, Borger, Panhandle, Groom; White Deer; Canadian, Childress, Claude, Clarendon, Morton, St. Francis, Shamrock, Spearman and Wellington.

Breakfast Meeting Held By SS Class

The Bethany Sunday School Class met Friday in the Pampa Hotel for breakfast. Devotion was given by Miss Edna King titled "Your Own Testimony." Mrs. Hutton gave the invocation.

Members attending were Mmes. Mabel Winter, Carrie Austin, P.G. Turner, O. T. Egerton, O. J. Moore, O. A. Davis, L. H. Greene, Cora Patterson, Lida Ramsay, Rachel Hutton, Winnie Young, Ethel Evans, Maude Smith and Miss Edna King. Mrs. Davis dismissed the group with prayer.

Highland Circles Meet For Study

Women's Missionary Circles of Highland Baptist Church met recently in the homes of members with the following reports:

ELIZABETH GARRETT CIRCLE met at 9:30 a.m. in the home of Mrs. Joe Bob Hudson, 617 Magnolia with opening prayer by Mrs. Morris Belote. A short business meeting and program were conducted by the circle chairman, Mrs. Donald Lea, who gave four chapters of the mission book, "The Chains Are Strong."

Mrs. Hudson read the prayer calendar. Four members and one visitor were present.

ANNE DUDLEY CIRCLE met at 9:30 a.m. in the home of Mrs. H. E. Winegeart, 704 N. Nelson with opening prayer by Mrs. Eunice Hunt. A short business meeting and program was conducted by the circle chairman, Mrs. Carl Laffin, who reviewed several chapters of the mission book, "The Chains Are Strong." Closing prayer was given by Mrs. Winegeart.

Take It From Kathy

... by Kathy Peterson

Dear Kathy: All last summer, I dated one of the most popular boys in town. He told me he loved me and I feel sure that I love him. My problem began when he went to college. Only one letter arrived during all the months from September to now. He called me every couple of weeks but that's all.

He tells me that he still loves me and claims he doesn't go out with other girls. I feel if he really did love me, he would write more often. Please give me some advice. — B. R.

Dear B. R.: Many dread writing letters. This could be his prob-

lem. Some things can be postponed and some can't. Homework means definite deadlines, but a letter can usually be put off until tomorrow. I will agree that your boy friend should write more often but can understand the reasons why he might not. The calls indicate that he hasn't forgotten completely.

You'll have to judge his feelings by his behavior. Did he have a reputation for running around in high school, or was he stable? During vacations, are you the only girl he ever cares to see? — You can arrive at a lot of conclusions by adding up his behavior when he is home. And until you are a lot surer of his feelings, it is silly to go steady.

The next time the subject of writing arises, why don't you tell him that the thought counts a great deal more than the length of the letter? Suggest a note or even a card with a frisky "Hi." He might shock both you and himself by writing more often.

Before you attempt any form of self-dry cleaning of a treasured dress, skirt or blouse, be certain — and be sure of your information — as to the proper way to clean it. Otherwise, leave the determination to an expert dry cleaner.

STUNNER for summer is our exciting three-piece of fashion-new woven seersucker tattersall check in drip-dry cotton-and-arnel, with white over-blouse. Fashion-new colors in 12½-22½ and 10-20.

Preparations For Emergencies Topic For Worthwhile Home Demonstration

Worthwhile Home Demonstration Club met Friday afternoon in the home of Mrs. N. L. Welton, east of the city, for a program from the "Handbook of Emergencies"

presented by Mrs. J. L. Carlton. Mrs. Carlton outlined preparations for such emergencies as fires, floods and tornadoes. "Poisoning should be given attention immediately. Artificial respiration should be given for shocks and first degree burns should be treated with cold water, vinegar or cold tea."

Mrs. W. G. Kinzer gave a part of the program on "Food Supplies For Survival." She stated, "Food for your family should be stored in a safe place. Two weeks supply should be used. Cans should be labeled and dated. Water is the main thing needed, as people can survive longer without food than they can without water."

Refreshments were served during the social hour. Members attending were Mmes. Joe Looper, P. G. Turner, O. A. Wagner, Boyd Brown, Matilda Smith, Mrs. J. L. Allen was welcomed as a guest.

It was announced the next meeting will be with Mrs. C. R. Mullen, 1221 E. Francis on April 5 at 2:30 p.m.

"Do Unto..."

NEW YORK (UPI) — The following verbal prescription, cited in the "Professional Nursing Home" journal, shows the way to get along with your elders: "Treat elderly people as you would like to be treated when you become old. Be understanding, have feeling, show sympathy, accept resentment, be sympathetic and accept preoccupation."

CLASSIFIED ADS GET RESULTS

To Hold Auditions

Dallas Civic Opera will hold auditions for its chorus and for roles in its 1963 season productions from 3 p.m. to 7 p.m. Sunday, April 28, in State Fair Music Hall, Dallas.

Any singer is eligible to attend the auditions. Auditionees are requested to prepare at least one operatic aria, preferably in Italian.

Singers interested in auditioning should write or telephone Dallas Civic Opera, 309 Browder, telephone RI - 8-9329. A formal application blank will then be sent.

Positions are open in the DCO chorus for all vocal positions, and a number of small-roles also are to be filled, said Lawrence Kelly, general manager.

Beginning chorus members are paid \$1.50 per rehearsal hour and \$20 per performance. Chorus rehearsals begin the day after Labor Day. The Dallas Civic Opera season will be in mid-November this year.

Painted by Father

Murals in the Mural Room of the St. Francis Hotel, in San Francisco, Calif., were painted by Albert Herter, father of former Secretary of State Christian Herter.

Merten Home Demonstration Club Has Program On "Civil Defense"

Mrs. Robert Sailor, southeast of the city, was hostess to the Merten Home Demonstration Club at

Lt. Andrea R. Jackson CANADIAN (Spl) — Mr. and Mrs. Alred S. Jackson announce the engagement of their daughter, Lt. Andrea R. Jackson, USAF, to Lt. John P. Green USAF, Lt. Green, son of Mrs. Beatrice Davis Green and the late Colonel John C. Green, was graduated in 1961 from the United States Military Academy and is with the 578th Strategic Missile Squadron. The betrothed couple have permanent assignments to Dyess Air Force Base. The wedding is planned for late Spring.

Miss Eulalia Victoria Sullivan CANADIAN (Spl) — Mr. Mrs. Red R. Sullivan announce the engagement of their daughter, Eulalia Victoria to Max M. Satterwhite, son of Mrs. Carl Satterwhite of Higgins. Wedding vows will be solemnized in May.

Miss Phyllis Brock CANADIAN (Spl) — Mr. and Mrs. Virgil Brock announce the betrothal of their daughter, Phyllis Jolene to Roy Thomas Catwell, 3512 Meadow in Amarillo. A late April wedding is being planned. Miss Brock is employed by Musco Corporation and Mr. Catwell is associated with the Coca Cola Bottling Co. in Amarillo.

Pupils Participate In Piano Workshop

Mrs. D. W. Bond and Mrs. Buster Higdon were hostesses for a Piano Workshop Party Friday evening when a group of the younger students from Mrs. Fidelity Yoder's piano class met in her home, 1215 Williston.

The qualities of good piano playing were observed by the group as the students performed, Sonatinas, with Mrs. Yoder playing second piano parts, were played by Kay Upshaw, Brenda Terry and Diane Graham. A piano duo, Lorelei, was played by John Skelly and Daniel Bond. Other pupils performing were Gail Duncan, Glenna Hudgins, Steve Higdon, Mackie Hudgins, and Cathy Altman.

Mothers attending besides the hostesses included Mmes. John Skelly, Jimmy Terry, Jack Graham, Elmo Hudgins, and Therman Upshaw.

At the conclusion of the musical program, Mrs. Yoder conducted a musical contest among the students, after which refreshments of punch and cookies were served by the hostesses.

Dear Kathy

By KATHY PETERSON

Dear Kathy: I like a boy who lives on the same street very much. He will get his driver's license in a couple of months. I'd like to be able to go out with him in the car, but my parents say absolutely no. They know him well, but still won't change their minds. They think I'm too young. What can I do?—P.B.

Dear P. B.: You can abide by their rules for the time being. It won't be forever.

When you are growing up, parents try as hard as they can to give you the best of standards and to teach you to take care of yourself. When teens approach, wise parents realize you are proceeding on to a new plateau and see the day coming when you will be making all your own decisions. Gradually, they give you the right to be independent and make choices.

Each time you are given a privilege, they watch how you handle it. The more good judgment you show in little things, the more confident they are about letting you move on.

A car can be a deadly weapon in the wrong hands and it can take you and a date to new places and new activities. They don't feel you're quite ready to make this advance. After all the years of understanding and love they have invested, it's easy to see why parents choose to be cautious.

Mrs. Tom Rose Named Tri Delta Chapter Prexy

New officers for the Pampa Alumnae Chapter of Delta Delta Delta Sorority were elected at a meeting held Thursday morning at ten in the home of Mrs. Warren Fatheree, 1939 Evergreen.

Named for the ensuing term are Mmes. Tom Rose, president; William Easley, vice president; John Bird, secretary; Richard Swright, treasurer; Warren Fatheree, reporter.

During the business meeting, conducted by Mrs. George B. Cree Jr., Mrs. E. L. Henderson reported on the formation of a Panhellenic organization in Pampa.

Final arrangements were made for the chapter to attend the State Day convention to be held in Lubbock on April 20.

Members attending, not previously mentioned, were Mmes. Ralph Thomas, Ed Knox, Myron Marx, J. L. Chase and Robert Neely.

STONE-GLENN

CANADIAN (Spl) — Mr. and Mrs. Vestal W. Stone of Preston, Kan. announce the engagement of their daughter, Janette Lou, to J. R. Glenn, son of Mr. and Mrs. Ellis Glenn of Mannville, Okla. Miss Stone is employed by the Hemphill County Hospital. Mr. Glenn is employed by Humble Seismograph.

The wedding date has been set for April 12.

Dear Abby....

Hot-Cold Customer
Is Always Right!

By ABIGAIL VAN BUREN

DEAR ABBY: I have a complaint to air. My husband and I eat out a lot. Twice this week, when we were comfortable, they turned the air-conditioning on and I had to put my coat back on. I told the waitress that I was chilly, and she said the temperature was just fine FOR HER! I think it is very inconsiderate of the management to turn on the air-conditioning just to keep the help cool. Their customers cannot enjoy eating in a deep freeze. What would you have done?

ess to any extra trouble. Sometimes a hostess who knows I am diabetic will serve foods I dare not eat. Will you print this, together with your reply, as a subtle reminder to thoughtless hostesses? Thank you.

PHILADELPHIAN
DEAR PHILADELPHIAN: It is perfectly proper to tell one's hostess (on accepting the invitation) that certain foods are off limits for you. Offer a few simple suggestions. And don't be embarrassed.

CHILLED

DEAR CHILLED: Your "problem" will puzzle millions who live in the snow belt. Air-conditioning? Brrr! But whether it's the latter, or turning down the heat, you have a right to squawk. The customer, hot or cold, is always right.

DEAR ABBY: I am in the eighth grade. It all started when I took my record player to school and a bunch of us kids started to dance at recess on the school grounds. I don't see anything wrong with that, do you? My teacher made me take my record player home. My mother called up the principal and asked her what was wrong with kids dancing at recess, and the principal said nothing was wrong with it but she would just rather we didn't do it. Now some of the kids have started to bring transistor radios to school and we still dance at recess. Whose side are you on?

LOVES TO DANCE
DEAR LOVES: We all have to abide by certain rules and regulations. If there is a rule at your school against dancing at recess, I think you should obey it.

CONFIDENTIAL TO THE DENTIST FROM MARYLAND: Your letter about the cost of dentistry today was indeed "food for thought" — but I am still hungry. Please feed me some more information.

The Pampa Daily News

AN INDEPENDENT FREEDOM NEWSPAPER

We believe that all men are equally endowed by their Creator, and not by any government, with the gift of freedom, and that it is every man's duty to God to preserve his own liberty and respect the liberty of others. Freedom is self-control, no more, no less.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the great moral guides expressed in the Ten Commandments, the Golden Rule and the Declaration of Independence.

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessings. For only when man understands Freedom and is free to control himself and all he produces, can he develop to his utmost capabilities in harmony with the above moral principles.

SUBSCRIPTION RATES

By carrier in Pampa, 25¢ per week, \$1.50 per 3 months, \$5.00 per 6 months, \$18.00 per year. By mail paid in advance at office, \$10.00 per 6 months, \$30.00 per year. Single copy 5¢. No mail orders accepted in localities served by carrier. Published daily except Saturday by The Pampa Daily News, Atchison at Somerville, Pampa, Texas. Phone MO 4-2325; all departments. Entered as second class matter under the act of March 3, 1879.

Free Inquiry

Have you ever held to an opinion in ANY area of thought which differed from the general view?

If you answer, "Yes," don't be alarmed. Most people have. Nearly all of us, at least somewhere in our consciousness, harbor an opinion or a viewpoint which is out-of-step with the times.

Now, let's approach it the other way. Have you ever heard or read an opinion that differed profoundly from a view you hold, which view is the "established" opinion of most?

You have? Don't be surprised. Every now and again, even in the midst of the great conformity encouraged on every hand, someone gets up enough nerve to speak up with courage in a way which runs counter to the majority opinion.

Now, the important point is this: If you hold to an opinion which is "off-beat," "unique," possibly disturbing to the status quo, do you think you should be punished for having the view? No? Then are you able to control your temper when you hear someone else voicing an idea which is strange or "different" from your own?

What are we talking about is freedom of inquiry. Sometimes, it is called freedom of the press. Sometimes, it is just freedom of speech. But it all adds up to your right, your freedom, to believe as you please and to express yourself as you will.

We are greatly disturbed by the almost constant fear expressed in some quarters wherever or whenever some opinion is voiced which contradicts accepted conformity. Almost always one can find a group of self-righteous conformists who want to "pass a law" to compel everyone to read what they approve; to worship as they worship; to believe as they believe.

This hint of totalitarianism in the area of free inquiry is a blot on free America.

Do you know, by this attitude, lots of people miss out on some of the most fun they could have? Also, they miss out on some of the most enlightening experiences possible to them. Additionally, their

own fear of non-conformity tends to emphasize and bring into existence the very kind of thing they don't really want. . . more government control of what Americans can think, say and do.

One of the most enjoyable experiences available to anyone at a price so low all of us can afford it, is the opportunity of discussing a new idea; an out-of-the-u-s-a-i concept; a strange philosophy.

This is not to suggest that just because something is new or strange, it is automatically good. On the contrary, many ideas offered as "new" are not new at all. They are simply old, discarded theories which experience has disproved. And they can range from bad to downright silly.

All the more reason such theories or ideas should be freely discussed. There is nothing to fear from such discussion. But there is a great deal to fear from suppression of discussion.

Somewhat, there seems to be something in the human personality which is terrified when a new idea is offered. It is as though the understanding and faith in his own convictions is so shallow and so weakly moored that the slightest challenge brings on panic. Yet, it would not be true that you will be stronger in your own convictions if they are subjected to challenge?

And isn't it true that any of us may be in error some place? How will we learn of that error, especially when the error is widely believed, if all change is made illegal or reprehensible?

Remember, you don't have to agree with an idea just because it is offered. And if you cherish your own secret convictions even slightly, you must grant to others an equal right to cherish what they believe, even if you are sure they are wrong.

It is not important that we all think alike and act alike. In fact, it is quite important that we differ. The fact that we can differ helps to establish that we are free; also, that we can't all be wrong.

The Magician

It's like the magician's ability to get you to focus your attention where he wants it, so that he can practice sleight of hand. The politician does the same thing, focusing your attention on the "benefit" he says he will provide you, while at the same time, removing your money without your awareness of his intention and purpose.

Guns Don't Commit Crime

Throughout the nation there has been a marked increase in editorial demands for more stringent firearms control legislation on all government levels — federal, state and local.

The superintendent of police in Pittsburgh recently asked for authority to screen shipments of mail-order firearms to prevent guns falling into the hands of minors and criminals.

This case is like so many where law - enforcement agencies seek to reduce crimes by making firearms unavailable to those who commit crimes; seek to solve crimes by tracing a weapon to its owner; or seek to keep guns out of the hands of minors, criminals, addicts and drunks.

The classic replies to such attempts by law-enforcement agencies are still valid in spite of the many times sportsmen have to state them. They go something like this:

No legislation can prevent the criminal from getting a gun if he really wants one.

Trace a criminal's gun and usually you'll find a stolen weapon. Existing laws concerning the sale of firearms for minors and criminals have not been notably effective. How can additional laws solve the problem?

Sportsmen have long been ridiculed for their stand on the right to own and bear arms.

Yet it is a constitutional right, and however far removed from the precise interpretation of the

clause in terms of the frontier of the 18th century, the clause is still there.

Those who advocate rigid control and registration of firearms, ownership and sale, generally end up legislating against the gun.

Nothing could be more illogical. The gun itself can do no harm. Crime is committed by people, not guns. The human being must be held accountable, not the firearm.

Legislation, no matter how well intentioned, will seriously cripple the rights of the citizen under the intended purpose or guise of crime control.

Abolition of crime begins with the criminal and proceeds through all of society. A return to the moral code is the only true way to combat crime.

The shooting sportsmen of America have done much to devise safe firearms activity. They have taught youngsters to shoot well and safely. They have provided thousands with a great sport that has risen to Olympic Game level. They are the hunters, target shooters, gun collectors and basic gun enthusiasts who have descended from the frontiersman whose rifle was one of his working tools.

Arms ownership by private, law-abiding citizens would be drastically curtailed by arms legislation and eventually would lead to confiscation by power-seeking authorities as it did in France and Norway under the Nazis.

Pull Up A Chair

By Frank J. Markey

In the near future our astroscintists will have plenty of reading matter for their prolonged orbits about the earth. Right inside the main entrance of the American Museum of Natural History in New York is an aluminum cylinder, the size of a four-room house and known officially as Project Aries. In this replica of a satellite cabin there is a 90-pound microfilm space library designed by Recordak. The library is the equivalent of more than eight tons of books and other reading material, ranging from scientific volumes and literary classics to best sellers, comics and even radio and TV tapes. Reading matter is encased in microfilm cartridges which are part of an automatic console. The astronaut, seated beside this board, can check the index to locate the code number for the item desired and insert the microfilm magazine into the Recordak reader. Then by pushing a button he has his reading. The console also has facilities to tape notes, diagrams and even letters which can be transmitted to earth.

The wooden cigar store Indian is a collector's item today and rarely can you locate one. But as this is being written, one is up for sale in Haverhill, Mass. . . Many United States TV and radio advertisers get a bonus for their dollars because there is a considerable spill-over from some of our transmitters into Canada. . . Railroad officials blame their continued passenger and freight losses since 1945 on the thousands of miles of new highways and turnpikes, many of which parallel their routes.

Country Editor Speaking: Don't tell a soul! is usually an excellent way to put a rumor or story into circulation, unless you are talking to a canary bird. . . The Big Three credit card organizations — which permit members to charge bills in hotels, restaurants and stores for a period of 30 days, discount the bills up to 7 per cent against these concerns. Now we have a new anti-credit card company, Travelers Discount International, which reports that it has signed up 6,000 establishments which grant a discount up to 10 per cent to its 25,000 members for paying cash.

"Guerrilla War At Sea" is an excellent story about a new kind of conflict which the United States may face in the Southeast Asia area. It appeared in the February issue of "Navy," the magazine of Sea Power, official publication of the Navy League. . . The Communists would have no chance in a direct naval fight but hit and run raids from small boats in support of terrorists would be a difficult problem for Uncle Sam.

Observation: It only takes 50 seconds for a train to pass over a crossing—whether your car is on it or not. . . A preliminary investigation by a Senate Committee reveals that 75 per cent of those receiving public assistance in the District of Columbia are not legally eligible to receive benefits.

Today's favorite gag: "I need your advice desperately," said the patient to the psychiatrist, "because I've developed the habit of calling myself on long distance."

It sounds like a housewife's dream, but one manufacturer predicts that a vacuum cleaner of the future will be self-operating, atomic - powered, and equipped with a magnetic memory to guide itself around a room.

"So It Flies Faster Than Light, Never Needs Refueling, And Can Wipe Out Mankind, But—Can We Be Sure It Isn't Obsolete?"

Edson In Washington Carriers' Ills Indicate Need For Potent 'Panacea'

By PETER EDSON

WASHINGTON (NEA) — It is both sheer coincidence and inevitable fate that half-a-dozen important matters affecting the U.S. transportation policy have come to a head at one time. They illustrate better than anything else the mess this policy is in.

President Kennedy has again sent to Congress recommendations for new transportation legislation which Congress last year did nothing about.

The U. S. Supreme Court has held in effect that railroads have the right to change work rules which would eliminate what the employers call "featherbedding" and the employees call "job security."

This decision would become effective March 29 after more than a decade of bickering between management and labor and two years of presidential commission investigation and court litigation. Railroad management now has invited the four "on-train" brotherhoods, with 200,000 members, to resume talks on this subject in Chicago March 13.

If either side or both of them decide at that time they have nothing further to discuss, the issue becomes a National Mediation Board case, headed for settlement or a strike about June 1.

Before this crisis date, the 11 off-train brotherhoods with 450,000 members are scheduled to begin negotiations with Class I railroads for a new wage agreement.

A complete railway tie-up by early summer is possible.

A Senate Antitrust and monopoly subcommittee under Sen. Estes Kefauver, D-Tenn., has just reported favorably on his proposal to defer until 1964 all action on railroad merger applications now

before the Interstate Commerce Commission.

Legislation to provide more federal aid for mass transportation facilities in metropolitan areas does at last seem likely to pass in this session of Congress.

Repeated delays to which the handling of vital transportation issues have been subjected are viewed by many authorities as precisely what's wrong with the transportation picture today.

Nothing was done about transportation problems while they were small and manageable. In decision has allowed them to grow until they are almost unsolvable.

The Big Bottleneck is resistance to change.

Unless all forms of transportation can modernize to take advantage of new technologies, unless they can be regulated and allowed to compete on more even terms, some of them appear to be headed for bankruptcy, nationalization or extinction.

This is the gist of "Quest for Crisis," a new study of world transportation problems made by James N. Sites of the American Association of Railroads.

On an Eisenhower fellowship last year, Sites found that wherever sound economic practices govern transportation policy — as in Switzerland, Germany and the Netherlands — the railroads give good service.

Where politics and resistance to change have determined transportation policy — as in Britain and Italy — the railroads are in a mess.

Present soundings indicate that the Kennedy administration exerts the right kind of pressure, it can get action in this session of Congress on the President's transportation reform program, which includes two principal bills.

The first would give the railroads exemption from the minimum freight rate regulation such as now enjoyed by waterways in carrying bulk cargo and by motor trucks in carrying farm products.

If Congress does not approve this, the President proposes as an alternative that waterway and highway carriers be brought under the same regulation as the railroads.

The second bill is a catch - all which would in effect make air, rail, truck and water carriers more truly competitive by equalization of rates and regulation, elimination of subsidies and approval of experimental and joint tariffs aimed to give shippers better and lower cost services.

The Doctor Says:

Anxiety Is Common Cause Of Heart Area Pain

By DR. WAYNE BRANDSTADT

Q — For at least 10 years I have been getting a dull aching pain in my heart, usually after a headache or when I have overworked. Then I have to slow down and it improves. What can you tell me about this condition?

A — Most pains in the region of the heart, especially of the type you describe, are not associated with any disorder of the heart. There are many causes of pain in this area. Anxiety, particularly anxiety over the state of the heart, is one of the commonest.

This type of pain is characteristically aggravated by exertion. Conditions that involve the lungs or the digestive organs often cause this kind of pain. A checkup by your doctor, including an x-ray of your chest should reveal the source of the trouble.

Q — I have a growth on the upper and lower lid of my left eye. I have been told that I have xanthomas. Can they be treated and new ones prevented from forming?

A — Xanthoma (pronounced zanthoma) is a yellow discoloration of the eyelids that may be slightly raised above the adjacent tissues. It is usually found near the inner corner of the eye and there are usually more than one. They may be removed by surgery or an electric needle. But, because they do not affect one's health, it is better in most cases to let them alone.

Q — What would cause my lower eyelids to puff up during the night? The swelling gradually disappears by noon.

A — Puffiness of the lower lids is the result of a loss of the elasticity of the skin. It appears to run in families, and is aggravated by fatigue. This type of localized swelling is not a sign of any serious ailment. No treatment is required but if the condition is considered unsightly a plastic surgeon may be able to help.

Q — When you give blood through a blood bank what do they check the blood for? If anything is found wrong, is the donor told?

A — The blood is checked for anemia and blood type before it is drawn. The donor's pulse and blood pressure are also taken as these should be within normal limits. Questions are asked about a prospective donor's general health and past illnesses. If a donor is rejected he would surely be told the reason for the rejection.

Q — What can I do about my burning, itching scalp? It keeps me from sleeping.

A — By far the commonest cause of itching of the scalp is dandruff. Once a condition for which there was no effective remedy, there are now many preparations that will control it but there is still no permanent cure. Remedies are available with a physician's prescription.

You may have to try more than one before you find the one best suited to you because the degree of oiliness of the scalp is often a determining factor. Shampooing with tincture of green soap, or a tar soap twice a week may be helpful but this is only one part of the treatment.

Allen-Scott Report

Russians Rotating — Not Reducing — Troops In Cuba, Best Intelligence Indicates

ROBERT ALLEN

PAUL SCOTT

WASHINGTON — The Kennedy Administration is either kidding itself, the American people or both on the withdrawal of Russian fighting forces from Cuba.

Absolutely no firm evidence exists that any combat elements have been removed.

This is particularly true as regards the four mobile (armored) battalions, numbering approximately 5,000 elite troops, and the numerous anti-aircraft and coastal missile batteries that ring Cuba. These powerful units are still there, with no sign of any reduction in size or weapons.

In other words, Russian military strength is the same today as it was last fall, following the loudly-acclaimed removal of the nuclear-armed ballistic missiles and the IL-28 bombers.

On the other hand, there are numerous indications that Khrushchev's ambiguous promise to withdraw "several thousand" by March 15 is a characteristic Communist fraud.

Intelligence authorities have increasing reasons to believe that what the Soviet actually is doing is rotating its large garrison instead of cutting it; in effect, playing a covert put-and-take game.

Following is the basis of this disquieting intelligence belief: —Of the five Red bloc ships that docked in Havana in recent weeks to transport Russians home, three disembarked an estimated 2,000 new arrivals. That is approximately two-thirds of the number reportedly withdrawn as Khrushchev pledged.

—The Baltika, with 1,400 - passenger capacity, is scheduled to reach Cuba this week. It is positively known to be carrying around 500 "technicians." Naval surveillance planes and other sources that have observed these men on the ship's deck report them as having a distinct military appearance.

All new arrivals are being billeted in the barracks built for Soviet combat units. It is not Red army practice to mix military and civilian personnel.

—Very little Soviet fighting equipment has been withdrawn. Air photos reveal a few "Frog" missiles on the docks, apparently to be loaded on the departing ship as well as some jeeps and trucks. And that's all. No tanks, artillery or other heavy weapons.

SECRET KREMLIN MESSAGE —One highly significant fact so far not disclosed by the White House or State Department is a blunt statement Ambassador Dobrynin made to Secretary Rusk.

In a conversation between them, the Russian diplomat flatly declared his country proposes to keep a considerable number of military "technicians and advisers" in Cuba as long as the U.S. does that in South Vietnam.

Dobrynin blandly contended there is no difference between these two situations.

The Red envoy admitted some Soviet arrivals in Cuba. But he claimed they are "agricultural technicians" needed to bolster Castro's steadily worsening economy.

According to Dobrynin, no new Russian troops are being sent to Cuba, and all combat forces are being slowly removed. This assertion is flatly denied by the Defense Intelligence Agency and Central Intelligence Agency. Their evidence wholly contradicts Dobrynin.

The DIA reports not only large numbers of Russians being brought to Cuba by ship, but between 100 and 200 flown in weekly. The Soviet now has a weekly giant TU-114 jetliner flight between Minsk and Havana.

Astonishingly, the U.S. supplies weather information to the Russians for these non-stop 5,600-mile flights.

It will be several weeks before intelligence authorities can fully reassess Soviet military strength in Cuba. DIA experts believe the new compilation will reveal no diminution in these forces; that is, that the sum total of all the coming and going will add up to 17,000 combat troops that have been there for months.

Secretary Rusk and Defense Secretary McNamara don't agree with this opinion. Privately they are saying they expect Moscow to reduce its Cuban fighting garrison to around 10,000.

PIPE DREAMS — On the basis of the record, such optimistic hopes are wish-thinking.

Troop estimates by high Kennedy administration officials invariably have been unrealistic — to put it mildly. Without exception, they have been heavily on the cheerio-side.

Just how far off their calculations have been was strikingly disclosed by Lieutenant General Joseph Carroll, head of the Defense

Intelligence Agency, during his closed-door testimony before the House Foreign Affairs Committee. Following are significant highlights:

Representative F. Bradford Morse, R-Mass., asked, "How did your intelligence estimates as to the Russian troop build-up from July through November compare with the actual facts as later intelligence confirmed them?"

General Carroll: "They lagged considerably behind."

Representative Morse: "Can you make a quantitative estimate of this lag?"

Carroll: "Prior to August (1962) we were estimating there were about 350 military advisers in Cuba. Beginning in August we estimated there were up to around 4,000 to 5,000 troops in Cuba. In the first part of October, we had jumped that estimate up to around 6,000."

"Shortly after that we were up to 8,000 to 9,000. Around that time, we observed the medium - range ballistic missiles and all our priority attention was then devoted to trying to locate all the offensive missile systems in Cuba to determine their status of readiness."

"Although we knew that the troops associated with the equipment materially raised the figure that we had previously established, we did not undertake to form a new estimate as to the total number of personnel until sometime after the 22nd of October. On the basis of all our information, particularly Soviet encampment, we came to the conclusion that there were about 22,000 personnel in Cuba."

Representative Robert Barry, D-N.Y.: "How many Russian civilians do you estimate are in Cuba in addition to the military personnel, or do you have any knowledge of this?"

Carroll: "Not particularly. We have endeavored to formulate a judgment relative to those who are in the category of Soviet troops as distinguished from those who might be technical advisers. In addition to military advisers, we think there are about 500 civilian advisers with the Cuban army. There is undoubtedly a substantial number of Soviet technicians and other civilians associated with civilian enterprises and aid programs in Cuba."

INEXPLICABLE CRACKDOWN —Federal agents are getting ready to squelch Cuban refugee efforts to train commando and guerrilla forces for raids and underground operations in Cuba.

McGeorge Bundy, high - powered special assistant to the President on foreign policy, has sent a directive to Attorney General Robert Kennedy ordering this crackdown. According to Bundy's backstage edict, all Cuban refugee anti-Castro activities not approved by the Central Intelligence Agency are to be barred.

Question Box

(We invite questions on economic and the proper functions of government which will not injure anyone.)

Question: "Did Thomas Paine help write our Declaration of Independence?"

Answer: While Thomas Jefferson actually wrote the Declaration, it generally is conceded that Thomas Paine's "Common Sense" letters which preceded the Declaration had a great deal to do with influencing the thinking of Jefferson and a great many others of the founding fathers of this nation.

Some of the wording of the Declaration appears to have been copied after the Virginia Declaration of Rights, which was adopted June 12, 1776. This Virginia Declaration was drawn originally by George Mason, who is credited with considerable responsibility for the Bill of Rights, the first 10 amendments to the U.S. Constitution.

Here is the first paragraph of the Virginia Declaration of Rights: "That all Men are by Nature equally free and independent, and have certain inherent Rights of which, when they enter into a State of Society, they cannot, by any Compact, deprive or divest their Posterity; namely, the Enjoyment of Life and Liberty, with the Means of acquiring and possessing Property, and pursuing and obtaining Happiness and Safety."

Since Payne's "Common Sense" letters were written first, a great many historians contend that his influence helped men like Thomas Jefferson, John Adams, George Mason and Patrick Henry to take roles of leadership in the revolt against England.

The Weekly Message Of Inspiration

Attend The Church Of Your Choice

GUY V. CASKEY

THE BIBLE IS THE WORD OF GOD

Without question on controversy, the Bible is the greatest and best book to which man has ever had access. Abraham Lincoln once said: "In regard to the great book, I have only to say that it is the best gift which God has given to man." Martin Luther, upon seeing for the first time a complete copy of the printed Bible, exclaimed: "O God, could I have one of these, I should ask no other earthly possession." The encomium paid to this Sacred Volume through the centuries by men of every walk of life is not light and empty praise. There is reason for it all; and here are some of the reasons:

The Bible is the **INSPIRED** word of God. "All scripture is given by the inspiration of God..." 2 Timothy 3:16, 17. Literally, they are "God-breathed". Inspiration is that supernatural divine influence God has exerted upon the prophets, apostles, and other God-appointed speakers and writers, by which they were qualified to communicate truth without error. The inspired record declares: "God, who at sundry times and in divers manners, spake in time past to the fathers by the prophets, hath in these last days spoken unto us by his Son..." Heb. 1:1. The Bible is the communication of God and His will to man.

The Bible is **AUTHORITATIVE**. It proceeds from the proper authority. Coming from God, they (the scriptures) are entitled, therefore, to credit, acceptance and obedience. "Holy men of God spake as they were moved (borne along) by the Holy Spirit." 2 Pet. 1:21. Inasmuch as God is our Creator and Preserver, and the Upholder of "all things by the words of His power", what he says carries authority. While Jesus lived on earth, he spoke "as one having authority and not as the scribes". Matt. 7:28, 29. God acknowledged Him as "My beloved Son, in whom I am well pleased; hear ye Him". Matt. 17:5. All authority belongs to Him in heaven and on earth. Matt. 28:18. It behooves us to listen.

The Bible is **INTELLIGIBLE**. It is capable of being understood and comprehended. The Bible is the plainest, most unequivocal, most easily understood book that has ever been written upon the subject of religion. Paul said that "God hath revealed these things to us by His Spirit." 1 Cor. 2:10. The very purpose of it being revealed is that "all men may see" the "manifest wisdom of God". Eph. 3:9, 10. It is not true that the Bible can be understood by a certain few only. It is His desire that "all men be saved and come to a knowledge of the truth." 1 Tim. 2:4.

The Bible is **PERPETUAL**. It continues forever; it is eternal, unceasing. Other books are written and for a time enjoy wide and enthusiastic reception. Having served their purpose, they pass into oblivion. Not so the word of God. It "liveth and abideth forever". 1 Pet. 1:23-25. "Heaven and earth shall pass away." Matt. 24:35. It is the everlasting gospel. Rev. 14:6. Someone has said:

Burns on forever that quenchless flame;
Steadfast, serene, immovable the same
Shines on that inextinguishable light.

The Bible is **PERFECT**. That is, it is complete, full grown, completely developed, lacking no essential detail. "The law of the Lord is perfect converting the soul." Ps. 19:7. It is called the "perfect law of liberty". Jas. 1:25. We are not at liberty to make any change, addition, subtraction, alteration or contamination, for it is God's perfect, complete, finished, revelation of himself and of His will to the human race. Rom. 12:2.

The Bible is **POWERFUL**. It is capable of producing the effects God intends. The word of God will accomplish the purpose for which it was given. It has the power to cleanse our lives. Jno. 17:17. It has the power to give life. Jno. 20:30, 31. Salvation is provided by the Lord through it. Jas. 1:21; Rom 1:16. It will purify the soul. 1 Pet. 1:22. In one blinding flash of creative power, God, by His word, spoke the worlds into existence. By this same word, nations can be called back from the brink of catastrophe, and turned to the course of peace and liberty. This is the hope of the world.

UNITED PENTECOSTAL CHURCH

SHOW BEAT

By ERSKINE JOHNSON
Hollywood Correspondent
Newspaper Enterprise Assn.
HOLLYWOOD (NEA) — Let's see, now.

The "Love Song from Mutiny on the Bounty (Follow Me)" should win an Oscar as the "best song first used in an eligible motion picture."

But "Auld Lang Syne," I'd say, is the song most eligible as unofficial theme for the 35th annual Academy Awards to be announced via television and radio Monday, April 8.

Old pros face first-time challenges for all of the top acting awards and I suspect memories of days gone by will influence the voting.

Like old movies giving television new zest, old movie stars Bette Davis and Katharine Hepburn give this year's Oscar race a nostalgic slice of the "old Hollywood." This is Bette's 10th nomination, the most of any performer, male or female. She is a two-time (1935-38) winner. For Miss Hepburn, it is her ninth nomination since she won an Oscar way back in 1933 for the film, "Morning Glory."

Old acquaintances are not "forgot" in four other best acting and best acting nominations. Geraldine Page's nomination is her third and second in a row. It is Gregory Peck's third. It is Gregory Peck's fifth, Jack Lemmon's fourth and Burt Lancaster's third.

But while humming "Thanks for the Memories," Academy members are keenly aware and impressed by the number of first nominations. They are a healthy sign that new faces with Academy Award talent are being groomed for stardom.

In the best acting race nominations are firsts for Marcello Mastroianni, the Italian actor of "Diva" — "Italian Style"; Peter O'Toole, "Lawrence of Arabia"; Anne Bancroft, "The Miracle Worker," and Lee Remick, "Days of Wine and Roses."

All five actors in the supporting role category were nominated for the first time. For best supporting role, actress, the old pros again meet the new challengers. It is Thelma Ritter's sixth nomination, Angela Lansbury's third and Shirley Knight's second.

Competing for the first time are two youngsters, Mary Badham, "To Kill a Mockingbird," and Patty Duke, "The Miracle Worker." They also are the first two child performers to be nominated in the same year.

For directing, the nominations are firsts for all but David Lean, a previous five-time nominee who won a directing Oscar in 1957 for "The Bridge on the River Kwai."

With Marcello Mastroianni and Omar Sharif in the best actor and best supporting actor race, the Academy acquires an international flavor. Mastroianni, the Italian, speaks very little English. Sharif is an educated-in-England Egyptian, the first of his race to be nominated.

Not being one to ignore emotionalism generated by "Auld Lang Syne," I see (see box) the old timers dominating the Oscar awards but with the youngsters as serious threats.

With 10 nominations, "Lawrence of Arabia" should win the best film award and also give David Lean his second directing Oscar. With eight nominations, "To Kill a Mockingbird" is a threat.

"The Four Days of Naples" appears to be the best foreign language movie winner.

OSCAR SELECTIONS BY JOHNSON
Best Motion Picture: "Lawrence of Arabia." (Could be: "To Kill a Mockingbird.")
Best Actor: Jack Lemmon ("Days of Wine and Roses.") Could be: Peter O'Toole in "Lawrence of Arabia."
Best Actress: Anne Bancroft in "The Miracle Worker." (Could be: Bette Davis in "What Ever Happened to Baby Jane?")
Best Supporting Actor: Omar Sharif in "Lawrence of Arabia." (Could be: Victor Buono in "What Ever Happened to Baby Jane?")
Best Supporting Actress: Thelma Ritter in "Bird Man of Alcatraz." (Could be: Patty Duke in "The Miracle Worker.")
Best Direction: David Lean for "Lawrence of Arabia." (Could be: Robert Mulligan for "To Kill a Mockingbird.")
Best Motion Picture: Foreign Language: "The Four Days of Naples," Italy. (Could be: "Sundays and Cybele," France.)
Best Movie Song: "Love Song From Mutiny on the Bounty (Follow Me)." (Could be: "Days of Wine and Roses" from the movie with the same title.)

Charlton Heston Back In Biblical Garments

By VERNON SCOTT
UPI Hollywood Correspondent
HOLLYWOOD (UPI) — For a guy who swore he'd never play another Biblical role Charlton Heston looks mighty familiar wandering around in flowing robes, a scraggly beard and a bramble bush haircut.

For a time Heston kept his pledge and actually was seen by reliable witnesses on one occasion wearing a sports shirt, slacks and loafer, although there are those who claim it was a mirage.

Uncounted millions of movie-goers around the world would fail to recognize the actor in modern dress. But he is his old self these days, looking unkempt and liking it.

The truth of the matter is that Big Chuck has gone back on his promise and currently is playing John the Baptist in George Stevens' mighty "Greatest Story Ever Told," shooting in Wahweap, Utah.

In the winter months Wahweap is only a fraction of a degree warmer than the inside of a glacier.

And Heston recalls his adventures in Utah with a shiver. "As John the Baptist I was required to stand in the Colorado River baptizing a bunch of actors," Heston said. "Because Mr. Stevens is a perfectionist the scene required many hours and many days."

"Need I tell you that the Colorado in December is about as cold as water can get? For three weeks I wore as much wool underwear as possible to keep from freezing to death. I also wore several million goose-pimples."

"I'm sure the Jordan River of old was much kinder." Heston's broken nose and noble jaw, his magnificent carriage and high cheek bones make him a natural for Biblical epics. After "The Ten Commandments" and such non-Biblical but ornate historical films as "Ben-Hur" and "El Cid," the star vowed never to play in another costume picture.

Why, then, "The Greatest Story Ever Told"?

"Because George Stevens asked

me to play the role," Heston said. "He asked me to lunch and began extolling the part. I stopped him after a minute and said, 'I'm already sold, George.' Movies are a director's medium and Mr. Stevens has few equals and no peers as a director."

Heston now is resigned to starring in at least one costume picture every two years or so, preferably set in an era that will allow him to wear trousers.

His latest released film is "Diamond Head," a modern picture in which Heston is clean-shaven and wardrobe in 20th century duds. In "55 Days to Peking," another new one, he is at the turn of the century.

"It's really been a change of pace for me," he grinned through his beard. "Maybe it will make a difference in public attitude toward me."

"An actor can become pretty rote playing Biblical and historical figures. When fans approach me they invariably call me 'Mr. Heston.' It's not like Elvis or other performers who stick with contemporary stories."

"I guess my face is responsible for all these epic pictures. I just happen to look like everyone's conception of historical characters."

Heston's observation moves one to ponder the course his career might have taken had he looked like Mickey Rooney. But then we'd never have learned what actors wear under their long woolen robes.

Bud Collyer, "To Tell the Truth" host, worked for \$15 a week and a desk space as a law clerk, before he began his acting career.

"A PRETTY GIRL . . ." — Mary Tyler Moore, dissatisfied with her chorus girl lot, climbed the show business ladder of success to the starring role of Laurie on television's Dick Van Dyke Show. Endowed with beauty of face and figure, Mary has become a first-rate comedienne.

Lenten Lifelines

Costly Discipleship

By Ralph W. Loew, D.D. Newspaper Enterprise Assn. Every man lives for something. He gives himself to success, to his job, to his pleasure or to his security.

made certain that she stayed within bounds. Now this child had become a young lady, was confronting certain decisions and making certain choices.

All of this is foreign to what Jesus discusses. His demand of his disciples was for an inner discipline. They were to be changed persons. They were to have new sets of values.

We live for something, and thus we die to something. We thus leave something. Discipleship is costly, as the great martyr-theologian Bonhoeffer said.

As Barbara Ward once wrote, "Faith is not a matter of convenience nor even - save indirectly - a matter of sociology. Faith will not be restored in the West because people believe it to be useful. It will return only when they find that it is true."

GROOM (Spl) - Kenneth Black received a letter Friday from Congressman Walter Rogers in Washington, D. C., informing him that his name had been submitted to Postmaster General Day for confirmation as rural carrier for the Groom Post Office.

And Joseph Sittler adds, "When men are urged to renounce their religious value; in order that the Republic may be more firmly glued together this covert idolatry reaches a peculiarly pernicious and untruthful pitch."

Black has been serving as substitute mail carrier since 1951 and became temporary carrier, Oct. 27, 1961 when Bert Bural, rural carrier for 35 years, resigned.

It becomes clear that we cannot just believe in God in general. A man's faith in this God will cause him to make certain decisions, require necessary sacrifices. In short - "Taking up a cross." This is far more than putting up with some petty annoyance or irritation.

He is married to the former Miss Nadine Keahy. The couple has five children. Twelve men took the civil service examination for the rural mail carrier job in June, 1962. The choice was made from the three men making the highest grades. Veterans are given 5 point credits.

CROP Elects 1963 Officers

The Gray County Christian Rural Overseas Program, (CROP) met last Monday evening. Highlights of the meeting was organization of the 1963 Campaign. Rev. Norman A. Sundwall, State Director of CROP, presented the purpose of this organization. Stan Friend led the discussion in making plans to collect and distribute commodities.

Republican conservatives have not since 1924 nominated their conservative candidate for President. Their man in 1924 was Calvin Coolidge, already President by succession to Warren G. Harding who died in office Aug. 2, 1923.

State To Purchase 273 Right-of-Way

The Texas Highway Commission at Austin Friday authorized purchase of right of way for a 3.5-mile section of State Highway 273 in Gray County.

Republican conservatives believe that they have the answer to this problem. It is for the Republican Party to forget the liberal bloc voters in the North—the Negro, labor, ethnic bloc—and to go after the conservative, white southern voters. Some Goldwater enthusiasts believe their man could be elected without electoral votes from New York, Pennsylvania, New Jersey, New England, Michigan, Missouri, Washington, Oregon and California.

Earthquakes

NICOSIA, Cyprus (UPI) - A series of nine earth tremors sent scores of families scurrying out of their homes into the streets in their night clothes early Saturday but no casualties or damages were reported.

The argument against nominating for President a conservative Republican or a conservative Democrat is both simple and effective. The argument is that a conservative cannot win the electoral votes of the populous industrial states whose politics is dominated by big cities such as Chicago, Detroit, Buffalo, Pittsburgh, Philadelphia, New York, Boston, Los Angeles, St. Louis.

Texas Population Growth Forecast In Next 7 Years

Two West South Central states - Texas and Louisiana - will move ahead, Arkansas will suffer a population decrease and Oklahoma will be unaffected by the shifting tides of population trends.

California recently became the most populous of the United States, and 15 other states - scattered across the nation - also are expected to move ahead in the population sweepstakes by 1970.

Stewart keeps his finger on the nation's economic pulse and his interest in residential and commercial construction keeps him abreast of all significant trends of his industry.

Stewart bases his projection on 1960 census statistics and a study recently prepared for the census bureau, targeted at 1970.

West South-Central population for 1960 and anticipated for 1970.

Washington Window

By LYLE C. WILSON WASHINGTON (UPI) - Conservatives are becoming impatient for Sen. Barry Goldwater, R-Ariz., to announce his candidacy for the Republican presidential nomination.

Troop 71 Takes Trip To Red River

CANADIAN (Spl) - Boy Scout Troop 71 spent the weekend of March 8-10 at the Bartlett Cabin at Red River, New Mexico. Scouts on the trip were Kevin Koch, Randy Pennington, K. C. Rudy, Gary Keim, Jim Bill Anderson, Mike Smith, Mike Hollie, Johnny Jones, Buddy Wood, Gene Picketts, Billy Senor and Eddie Snyder.

Card of Thanks ELMORE E. SEARLE You are not forgotten. The one we love so well. The loneliness that has been ours no longer can ever tell. Come winter time, come summer time.

Mrs. Nancy Gifford We wish to express our sincere thanks to all who sent flowers, cards, and letters during the death of our loving Mother. We also wish to thank the doctor and nurses at Wesley Hospital and Brother See for his wonderful service, and the choir for singing at the music, and the Rev. Carmichael for their services. May God bless them all.

The Great Fire of London started early on the morning of Sept. 2, 1666, in Pudding Lane at the home of John Farynor, the King's baker, according to the Encyclopedia Britannica.

Soviets Fired For Swindling

MOSCOW (UPI) — More than 16,000 Soviet officials have been fired for undercutting Premier Nikita Khrushchev's pet "virgin lands" farm program by more than \$15.4 million through theft, embezzlement and gross inefficiency, it has been learned.

Kazakhstan Communist party chief I. Yusopov said \$1,644,900 was swindled and \$14.3 million was lost by consumer cooperatives through "mismanagement" in the republic last year.

"All in all last year, 16,139 persons in the trade system were fired," Yusopov said in a Kazakhstan report on 1962 in the newspaper Pravda.

He said 2,340 officials and employees of the Trade Ministry were fired for "theft and embezzlement, violation of trade rules and incompatibility with their positions."

Khrushchev introduced the virgin lands program in the early 1950s in an effort to increase the nation's agriculture and particularly to utilize the vast desert-like central Asian lands.

Sir Gordon Richards, English jockey, holds the world's record for winners.

New On The Shelves Of Lovett Memorial Library

Now on the shelves at the Lovett Memorial Library are the following new books. Novels: Where's Daddy? by William Ross; the riotous adventures of a Madison Avenue man who quits his job to write the great American novel.

I Take This Land by Richard Powell: a novel of the conquest and development of Southwest Florida; set in the Everglades country from 1895 to 1946.

Martha in Paris by Margery Sharp: a beguiling story of an extraordinary young lady artist who was sent to Paris to learn to paint.

The Day Khrushchev Panicked by George Mair: an imaginary event sets the scene for this fascinating novel.

The Moon-Spinners by Mary Stewart: the popular author of "The Ivy Tree" has set her latest novel in Crete with her usual blend of mystery and romance.

Non-fiction: The Good New Days by A. Merriman Smith: a not entirely reverent study of native habits and customs in modern Washington.

The Chinese Ginger Jars by Myra Scovel: the courageous human story of an American missionary family in China during the Japanese occupation and under the Communist regime.

Too Hot to Handle by Desmond Barry: how one American, the owner of a small trucking company in Houston, battled a union to win a tough fight for principle.

Men of Space by Shirley Thomas: profiles of the leaders in space research, development and exploration.

The Unregimented General by Virginia Johnson: the biography of a great frontier general, Nelson Miles, who was as distinguished as he was controversial.

Marine by Burke Davis: the biography of Lt. Gen. Lewis B. "Chesty" Puller, Commandant of the Marine Corps.

Fighter Pilot by Stanley Ulanoff: the exciting accounts of the men who flew the fighter planes from World War I to the Formosa Straits.

Remember Me to Tom by Edwin Dakin Williams: Tennessee Williams' mother writes of her son and the forces that shaped his life and work.

Mysteries: the Case of the Mischiefous Doll by Erle Stanley Gardner: Perry Mason is presented with a strange bag of tricks in this latest mystery.

Hatchet Man by Winifred Vantatta: a traveling auditor uncovers bribery and soon his own life is threatened.

Born Victim by Hillary Waugh: a Crime Club selection about a young girl's disappearance.

Foreign News Commentary

By K. C. THALER

United Press International LONDON (UPI) — Things are not going well for the Kremlin in the Middle East, one of the major infiltration targets of Soviet strategy.

Having built up its influence in Iraq with considerable military and economic investments, Moscow is currently witnessing the fact that the new Iraq regime clamped down with severity on Communists and shot some of their leaders.

The new Syrian regime also has tightened its grip on Communists and is tracking them down. After accepting quietly an anti-Communist policy of President Abdel Gamal Nasser in Egypt, Russia now finds things are getting out of hand.

One Eye on China This development has come at a time when Moscow has become ostensibly more sensitive to anti-Communist policies of the countries with whom it is doing business, for fear of Red China's reaction. One of Peking's arguments is that Russia is doing too much business with the so-called bourgeois circles in developing countries and ignoring the proper revolutionary movements.

But there is a lot more at stake for the Kremlin in the Middle East presently than the future of the local Communist movements.

The Kremlin has been working hard to gain and to extend a foothold in the Middle East. It forced its way into the oil-rich and strategically important area by supplying Nasser with arms back in the late 1950s, to help undermine Western influence there.

But Nasser after accepting aid on a sizable scale from the Russians clamped down on the Communists and outlawed the party. Moscow did not like it but swallowed the blow for the sake of political considerations.

But when Abdel Karim-Kassem's revolution ousted King Faisal in Iraq the Kremlin at once approached the new regime in Baghdad and has since poured into Iraq large quantities of modern arms and economic aid.

Maneuver Failed There were very strong indications that Moscow was in effect seeking to build up Kassem as a counter-weight to Nasser. This game has come to naught. Kassem is dead and the new regime looks to Cairo for cooperation.

"Spontaneous" demonstrations against Iraq in Moscow last week are a measure of the anger of the Kremlin leadership.

The setback in the Middle East comes after a series of failures in Africa, where Russian infiltration strategy has not paid off either. In the Congo, in Guinea and in some of the other newly emerging African nations Moscow has to pull out or at least to pull back.

With Peking watching, the Kremlin's embarrassment must be all the greater.

BONE CHAIN

NEW YORK (UPI) — Dine-O-Mat Associates, a limited partnership, has been formed to operate a chain of 12 Pat Boone self-service highway snack restaurants in New Jersey. The first is to be opened on Route 46 near Teeterboro Airport. The leases are set up on a basis expected to yield 10 per cent annual distributions from a tax sheltered cash flow of about 13 per cent.

Now You Know

By United Press International. The principle of the aeolian harp, a stringed instrument which produces full chords when placed in an air current was known in ancient times. The Old Testament makes note of similar devices, according to the Universal Standard Encyclopedia.
