Pampan Sets Self Ablaze in Hospital

Injured Wife Is Second Attempt to Save Miners In Fair Condition

Robert Andrew Drennen of Pampa, was still in critical condition today in Northwest Texas Hospital in Amarillo, after he poured gasoline over himself and set himself on fire in the hospital restroom yesterday.

According to police he was apparently upset over a fight with his 16 year-old wife, Brenda Sue, and an injury she received when she jumped from his moving car.

Hospital authorities said he "was badly burned," over 68 percent of his body. Police said he was apparently upset over a fight with his wife and an injury to her. His wife had left their Pampa home, 928 Dwight, and was moving into an Amarillo house Monday night when Drennen drove up and pulled her into his car.

She jumped from the moving vehicle and suffered from a ruptured spleen, hospital authorities reported. The Northwest Hospital authorities list her in fair condition today.

Drennen had gone with his parents Wednesday to visit his wife. After the visit, when his wife was in the emergency room of the hospital, he left his parents and went into a restroom near the emergency room.

Police found a pint whisky bottle partly filled with gasoline in the restroom. He had apparently doused himself with the gasoline and then set himself on fire.

His parents, Mr. and Mrs. Aubrey Drennen, 1702 McCullough, with the help of hospital employees, Mrs. W. D. Thurman and Mrs. Myrtle Bird, pulled him from the room. By the time they had smothered the fire with sheets from the emergency room, nurses arrived and took charge.

His parents received minor burns on arms and hands in extinguishing the fire.

A few minutes after Drennen

Second Attempt to Save Miners Ends in Failure As Probe Misses

Corn Fed Too?

WICHITA, Kan. (UPI) — Competitors in the Kansas hog queen contest Friday must be between 16 and 21 years old and have been reared on a farm where hogs were raised, according to the Kansas swine improvement association, the sponsors.

UNDER MARTIAL LAW — South Vietnamese soldiers patrol the streets in the provincial city of Hue, South Viet Nam. The city has been under martial law since Aug. 16 following the fifth Buddhist suicide by fire in protest of the religious policies of the Ngo Dinh Diem government. It is reported that all of South Viet Nam has been placed under martial law and that police and soldiers have raided four Buddhist pagodas.

Public Hearing on School Budget Set for Tonight

A public hearing is scheduled at 8 p.m. today on Pampa's estimated \$2,720,480 school budget for the 1963-64 fiscal year beginning Oct. 1.

Tonight's hearing, open to the public, will be held in the regular meeting place of the Pampa Independent School District trustees in Pampa Junior High School, 128 W. Francis.

The estimated budget for the new school year is approximately \$115,500 more than the actual amount of \$2,604,988.25 spent during the year just ending.

A copy of the budget, released today by school officials, lists estimated receipts for the coming year at \$2,382,000.

The school tax rate has been fixed at \$1.45.

Crackdown on Buddhists Brings Wholesale Arrests of Opposition

SAIGON, South Viet Nam (UPI) — Army troops and police, acting under martial law, continued making wholesale arrests of suspected opposition elements in South Viet Nam today in the government's massive crackdown on Buddhists.

The government of President Ngo Dinh Diem accused a "minority" of Buddhist monks of "systematic sabotage" in fomenting the 15-week political-religious crisis at a time when the country is at war with Communist guerrillas.

A declaration issued by the government press agency said the Diem administration would no longer tolerate "exploitation of religions for political ends or the transformation of pagodas into centers for agitation, propaganda, terrorism and plotting."

The armed forces clamped a tight grip on the country to enforce harsh restrictions imposed Wednesday to wipe out Buddhist opposition to Diem's regime. Soldiers and police were stationed throughout Saigon and were rounding up suspects.

None of the 12,000 American troops assigned to help the Vietnamese fight Viet Cong Communist guerrillas was involved in enforcing the martial law. U.S. military personnel were under orders to avoid crowds and carry identification.

American officials advised U.S. civilian dependents in the country to stay in their quarters.

Press censorship proclaimed under the state of siege was in effect.

Complaint Blank Replies Filter In

Suggestions for needed city improvements began to filter into the office of City Manager Harold Schmitzer today as the result of his publication of a "complaint blank" in the Pampa News.

The city manager said 30 more suggestions were received in the early morning mail today.

They dealt mostly, Schmitzer said, with complaints on weeds, stray cats and dogs, trash and street repairs.

"I am glad to see the enthusiasm expressed by the public," Schmitzer said, "and I hope they will continue to send their suggestions to my office at City Hall."

For the convenience of those who wish to send in complaints or suggestions, the blank is being published again today. You'll find it on Page 3.

Many Stores Will Be Open Tonight

Many downtown Pampa stores will again be open till 9 p.m. tonight to benefit those who are unable to shop during regular hours. The opening till 9 on Thursdays project began last Thursday and will continue for an indefinite period.

Parade Winners Are Announced At Performance

Top O' Texas Rodeo parade winners announced during last night's rodeo performance were to receive engraved trophies at rodeo headquarters today.

In the civic and organization division, the Dolphin Swim Team won first place with their replica of a dolphin and team members dressed in their blue and white jackets. Second place Business and Professional Women's Club won with its theme of "Gunsmoke". The Sub Deb club rated third with their covered wagon on a float.

The most typical ranch entry was a surrey driven by George Maul of Pampa.

Commercial division winners were the Southwestern Public Service Company float, first place and Panhandle-Santa Fe Railway Miniature train, second and the Borden Company float won third with a small jersey cow riding in a barn.

Work Stops, Drill Tapping To Be Used

HAZLETON, Pa. (UPI) — A second attempt to drill through to two miners trapped 331 feet underground for 10 days ended in disappointment today when the drill missed the chamber where they are entombed.

The 24-hour drilling attempt, which started at 7 a.m. EDT Wednesday, was halted when the special 12-inch bit dug into rock below the tiny chamber.

"It's apparent we missed the monkey tunnel," Dr. H. Beecher Charnbury, state secretary of mines, said. "All we can do is sit tight for the present, tapping on the drill to see if they (the trapped men) can locate where the hole is."

"Then he can try to get into the hole."

Charnbury was referring to David Fellin, 58, one of the miners trapped Aug. 13 by a roof collapse with Henry Throne, 28, and Louis Bova, 42. Fellin and Throne were separated from

(See MINERS, Page 3)

Near Capacity Crowd Sees First Show of T O' T Rodeo

Thrills and spills came heel on heel last night at Recreation Park as nationally ranked cowboys met with some of the roughest stock in the rodeo circuit today, in the opener of the 19th Annual Top O' Texas Rodeo, with a near capacity crowd.

Guy Andis and Clayton Mathis, both of Pampa carried the colors in the start-off Grand Entry. Some 350 horses and riders performed with the Pampa Harvester Stage Band providing the music. Riding groups that earlier took honors in the downtown street parade were introduced.

Bringing the first place winning group from Shamrock was the Wheeler County Sheriff's Posse. Second place honors went to the Wheeler County 4-H Club group, and third place winner was the Elk City Roundup Club of Elk City, Okla.

The famed ... Troup enter-

tained the crowd with their unusual and daring bareback antics. Fans saw the leading bareback bronc in the nation spill his rider in a short hard bout. Snappy John Beutler Brother's famed bucking horse, voted in 1962 by RCA riders as the top bareback bronc in the nation, proved too much for Ned Londo of Las Vegas.

In the Brahma bull riding, the famed Old 62, National Finals candidate, dumped John Stokes of Evant, Tex. in short order. Old 62 has had one qualified ride in 1963.

Standing high in the first half of the first go-round in bareback bronc riding is Jim Bausch, number 5 in the nation, with 177 points, second is Guy Weeks of Abilene with 167, and third is Walt Mason of Las Vegas, Nev., 166. These events are scored on the performance of the horse and the rider during an electronically timed 10 second ride.

In the girls barrel race, two local and one area girl came in with the top three times. Six Newsum of Mobeetie took the top time with 17.5 seconds, Nancy Stockstill

of Pampa took the second high score with 17.8 seconds, just one-tenth of a second faster than her sister who came in third with a 17.9 second time.

In the calf-roping event, Guy Weeks of Abilene came in first with a time of 13.7 seconds. In second was Jim Daughterty of George West, Tex. with a time of 13.9, and third was Sam Brown of Adrian with a time of 15.0 seconds flat.

Bill Martinelli, number 4 in the nation saddle bronc rider, took high score in the saddle bronc contest, riding "All Alone" to the whistle, and scoring 172 points. Second high score was made by Guy Weeks of Abilene with a 171. Third was Roy Rodewald of Craig, Colo., with 170 points.

The steer wrestling high for the night was Tater Decker of Clayton, Okla. with a 9 seconds flat, second was Bussy Kaul of Here-

Rodeo Schedule

- 7:30 p.m. Pampa High School Band Concert, rodeo arena
- 7:30 p.m. Skydivers and parachute jumpers near rodeo grounds
- 8 p.m. Second Top O' Texas Rodeo performance, rodeo arena
- 9 p.m. Rodeo dance in National Guard Armory building, with Lou Walker and his Western Playboys

LITTLE GIRL OBSERVES ENTIRE RODEO PARADE — Susie Beard, daughter of Mr. and Mrs. Tom Beard of 1152 N. Starkweather, was one of the most faithful observers of the 19th Annual Top O' Texas Rodeo Parade. The parade yesterday was conducted in downtown Pampa at 3 p.m. Susie was present for the beginning of the parade which

included the passing of the flags. When the miniature Santa Fe passenger train passed, Susie was still one of the most interested observers. Still remaining, while thousands scrambled to their cars to avoid the traffic rush, Susie watched the final segment of the parade, the street sweepers. Never let it be said that Susie deserted the parade.

A BUCK'S A BUCK—This neon sign on the front lawn of the home of Billie Sol Estes in Pecos, Tex., announces to sightseers that the home is open for guided tours. (What the sign fails to mention is the \$5 admission charge and \$20 fee for photographing the interior.) The figure of a lamb, Billie Sol's trademark, symbolizes his sudden ranch-to-riches rise as an agricultural financier and just as sudden fall after a conviction for fraud.

Walter Rogers Reports:

Decisions Will Cause History To Remember the 88th Congress

History will remember this First Session of the 88th Congress for decisions it will make in the weeks to come. Up to now, Congress has not acted on any legislation of an unprecedented nature. Measures enacted so far have, in the main, provided for the continuation (or abandonment) of programs established in past Sessions, met the financial obligations of the government, taken care of the government's "housekeeping" responsibilities.

That pattern is changing. Now the focus of Congressional activity is on legislation of a momentous nature—legislation of such scope that decisions made will have a bearing on the Nation's very security and its economic well-being and on the future course of Federal-State relations and personal liberty.

The three most important pending legislative matters—and certainly there are many other vital matters of national importance—are the nuclear test ban treaty, tax code revision and a tax cut, and civil rights.

The test ban hearings are making daily headlines. The Senate, which Constitutionally is the only body of Congress empowered to act in ratifying treaties, will explore the treaty provisions thoroughly. Tax legislation has been the subject of prolonged hearings by the House Ways and Means Committee; a bill is likely to be submitted to the full House in a matter of days. Then the Senate will begin its own work on the tax bill. Meanwhile, both houses of Congress are in the committee stage of considering civil rights legislation.

The Senate will dominate the coming Congressional drama. It alone holds the power of "yea" or "nay" over the test ban treaty. It will be in the spotlight also because Senate rules permit unlimited debate on measures reaching the floor. The debate may continue until each Senator has had his say. It can be cut off only by exercise of that rarely invoked Senate procedure called "cloture," by which two-thirds of the Senate must concur in a motion to end debate.

By contrast, debate is limited on the floor of the House. A major bill coming before the House is presented along with a "rule" adopted by the Rules Committee—a resolution (which the full House may either adopt, amend or reject) establishing in part the number of hours during which debate is to be permitted and whether or not amendments to the bill may be submitted during debate. There can be no filibusters in the House; once a bill has reached the floor a decision on it cannot long be delayed.

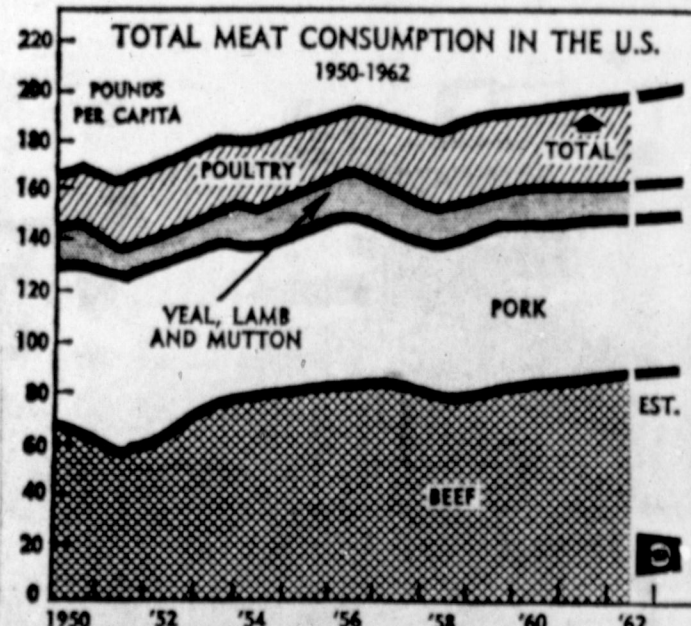

The Senate, on the other hand, can devote weeks to debating the provisions of a bill. Oratory is more common to the Senate, once called "the world's most exclusive debating society," since its rules permit prolonged discussion. Now, it's anyone's guess as to what will happen in the Senate on the nuclear test ban treaty, the tax bill or civil rights. But with the shadow of a bitter civil rights showdown looming over every Senate action, I would say that the country is assured of a very thorough airing of all measures coming before it. Senate opponents of civil rights legislation, with an eye on the calendar, may attempt to forestall action on civil rights by prolonging debate on all controversial issues presented to the floor.

Those who expect Congress to be in session until the snow flies aren't going to be far wrong, I'd guess. It may happen that the First Session won't end until the Second Session is ready to begin in January, and that this will be the first continuous Congress since World War II. Again, however, predicting coming events on Capitol Hill is like forecasting rain in the Texas Panhandle; you can find yourself all wet when you least expected it.

I don't look for the August 28th civil rights "march" on Washington to have much impact on House or Senate consideration of civil rights legislation. It will be business as usual in my office. While I believe the rank-and-file of those who are coming here to demonstrate believe their action may have an effect on the legislation, their leaders know better. The leaders, I believe, are simply giving their followers a chance to let off steam. I doubt that the demonstration will produce more support for civil rights legislation that it otherwise would have; on the contrary, if the march gets out of hand, if violence occurs in the Capital, votes in the House and Senate will turn against civil rights legislation. While Congress is responsive to public opinion, it has a low regard for pressure tactics and threats.

Recent visitors included the Reverend Calvin Nevels, pastor of Southside Baptist Church in Tell (Childress County) with five young men attending the Royal Ambassador Congress; Larry Browning, Tim Wyatt, LaGene Robertson, Bryan Smith and Dalton Skinner; Mr. and Mrs. James P. Mitchell of Canadian and their son Jimmy; Dean and Mrs. Hardy Stevens of Amarillo; and Mrs. H. L. Teegstrom of Shamrock and her daughter, Julia Anne.

Miners (Continued From Page 1)

Bova by a wall of rock and debris.

Drilling Stops
Charmbury said the drilling had stopped at 315 feet. "We are not going any deeper," he said. "We think we are into bed rock. We thought they were at 330 feet, but apparently they are higher."

Some mining men theorized that a "drift" of the drill, fairly common in drilling, was responsible for the "miss."

"We will drill another hole if we have to," Charmbury said, "but this time to the north. Meanwhile, we will see if they (the trapped men) can pick their way to the hole."

The disappointing news was relayed to Fellin and Throne by state Deputy Secretary of mines Gordon Smith on the infercom system through a six-inch hole drilled earlier.

Fellin, who has remained buoyant through the 10-day ordeal, bantered and joked earlier today with rescuers above ground, asking for his wife and noting: "Nine days. It's nine days we're here." Told he was "close," he added, "I guess when I get home my old woman will give me hell."

In a serious vein, he commented: "If I saw something like this four years ago, I would have been a priest. You can't believe what we went through."

Through a six-inch "contact" hole has been sunk to Bova's chamber, and a microphone on a cord dropped through it, nothing has been heard from Bova for more than 30 hours.

Last Signals
The last sign of life from Bova, according to Fellin, was tapping signals heard late Tuesday. Bova, he said, tapped three times to indicate he was alive, then twice to say that he was not bleeding, then twice more to signal that he was not covered with rock.

But, though food was dropped

Telephone Booth Loses; Thieves Get \$135 In Coins

Thieves broke into a coin box in a pay telephone booth near the entrance to the Pampa Hotel lobby late Tuesday night or early Wednesday morning and emptied it of an estimated \$135 in nickels, dimes and quarters.

George Newberry, manager of the local Southwestern Bell Telephone office, said the theft was discovered yesterday when a repairman answered an "out of order" call.

Four wheels and tires were stolen from a tandem trailer parked at the Construction Equipment & Supply Co., 623 S. Cuyler, according to a report filed with police by Stan C. Organ.

Marshall Johnson, 1901 Coffee, told police someone entered a house at 422 Finley by prying open a back door.

Johnson, who is caring for the house while the owner is away, said the break-in was discovered late yesterday. Investigating police officers said apparently nothing was taken from the house, but this could not definitely be determined until the owner returns.

When the 12-inch hole is completed, it will be plugged with a metal device, and this reinforced with cement, to prevent debris from dropping into the tiny chamber containing Fellin and Throne.

Then will begin the 30-hour chore of enlarging the hole to 7 1/2 inches, on the presumption that a custom-made metal cylinder — under construction today — will be able to lift the two men to the surface.

LONG HAUL ENDS
TUCUMCARI, N.M. (UPI)—William Mase, 20, was charged with stealing a tractor from a Syracuse, Kan., farmer and driving it 300 miles to Tucumcari. The trip took 20 hours.

Rodeo Association Conducts Program For Rotary Club

The Top O' Texas Rodeo Association conducted the program yesterday at the luncheon meeting of the Pampa Rotary Club in the Coronado Inn.

E. O. "Red" Wedgeworth acted as master of ceremonies and introduced Rodeo Association president Wiley Reynolds and past president Jake Osborne.

Lou Walker and his Western Play Boys, who are playing nightly at the Rodeo Dances, provided several western numbers.

Budget (Continued From Page 1)

aries for student body activities. Included in the \$1,718,771 total for instruction salaries is an item for \$25,000 to cover "other salaries for instruction." The budget figures released today show no item of expense under that heading in the 1962-63 budget.

Broken down, the budget shows the following departmental estimates for salaries and other expenses: Administration, \$70,900; instruction, \$1,718,771; Attendance services \$3,390; Health services, \$11,392; Pupil transportation, \$58,000; Operation of plant \$181,500; Maintenance of plant, \$45,000; Fixed charges, \$23,800; Student body activities, \$42,959; Capital outlay \$15,000; Debt service, \$497,768.35, and \$52,000 for library and audio visual teaching supplies and other expense.

PAY TEACHERS WELL
WASHINGTON (UPI)—The National Education Association reported Sunday at least 75 U.S. public school systems will pay salaries of \$11,000 or more to classroom teachers in the next school year.

The NEA said Beverly Hills, Calif., would have the highest salary scale with a \$14,000 maximum for teachers holding doctor's degrees. Wantagh, N.Y., ranks second with a \$13,488 maximum.

Rodeo (Continued From Page 1)

ford with 10.9 seconds, and third was Bob Perkins of Boulder, Colo. with a time of 12.1 seconds.

The Brahma bull riding high score was chalked up by Hank Abble of Rumsey, Alberta, Canada, with 167 points. Taking 2nd-3rd-4th in a three-way tie were Carl Nafzger of Olton, Bob Sheppard of Ysletta, Okla., and Duane Hennigh of Laverne, Okla., all with a 165 scoring. Third high score was tallied by Hank Sproul of Newhal, Calif.

Local competitors entered in the TOT Rodeo are Buddy Cockrell, steer wrestling; Elmer Fisher and Jack Mitchell, calf roping. In the girls barrel racing are Nancy and Mary Ann Stockstill, Janis Kelly; Betty Osborne Bailey, Judy Gerik, and Sue Horton. Many of the top twenty in the nation cowboys are on hand for the rodeo. These cowboys have been to the National Finals in past years or are candidates for this year's National Finals which will be held in Los Angeles, Calif. Nov. 26-Dec. 1.

Entered in steer wrestling are Don Huddleston, of Tallihania, Okla., ranking number 3 in the nation; Bob Perkins of Boulder, Colo., number 9; Billy Jo Deussen of Ponder, Tex., number 12; and Barry Burk of Waggoner, Tex., number 20.

Among the entrants in the calf roping event will be Olin Young of Albuquerque, N. M., number 7; Bud Farris of Las Cruces, N. M., number 10; Lee Cockrell of Panhandle, number 14; Bill Flowers of Aspermont, Tex., number 17; and Eldon Dudley of Perryton, number 18.

In the saddle bronc riding are Guy Weeks of Abilene, Bill Martinelli of Oakdale, Calif., number 4; Larry Kane of Big Sandy, number 5; George Williams of Greeley, Colo., number 8; and Dennis Reinher of Clara City, Mont., number 12.

Other bareback riders in competition here are: Jim Bausch of Rapid City, S. D., number 5; Walt Mason of Las Vegas, Nev., number 7; Clyde Vamvoras of Lake Charles, La., number 8; and Guy Weeks of Abilene, number 18.

Court News

CORPORATION COURT

DISTRICT COURT

Charles and Margrite Crawford vs. Harbert L. Cox suit for damages resulting from an automobile accident, \$1800.

COUNTY COURT

Charles Haskell McCurley of McLean pleaded guilty to driving while license suspended, fined \$25 and costs.

Top bull riders participating are Carl Nafzger of Olton, number 3; Bob Wagner of Ponca City, Okla., number 5; and Joe Green, Sulphur, Okla., number 6.

Wanda Harper Bush of Mason, Tex., currently sitting number 4 in the nation is competing with several local girls in the girls barrel racing contest. She is a many-times winner of the National Finals. Others are: Janet Dudley of Perryton, number 8; Boots Tucker, of Elkhart, Kans., Top 10 in 1962; and Florence Youree, Adlington, Okla., president of the Girls Rodeo Association.

Dennis Hill of Canadian and Ray Roberts of Amarillo will be riding judges. Timekeeper and arena secretary will be Mrs. Joe Decker of Clayton N. M. Also keeping time will be Margaret Beutler of Elk City, Okla.

The American Quarter Horse Show will get underway at 9 a.m. tomorrow with the judging of halter classes in the main arena at the rodeo grounds. A big entry of registered quarter horses is expected to be on hand, according to Elmer Fisher, chairman of the Quarter Horse Show.

'Change Of Place' For Summer Meal

CHEDDAR CHEESE and cognac add a saucy touch to this de luxe beef fillet open-face sandwich.

By GAYNOR MADDOX
Newspaper Enterprise Assn.
We find that "change of place" meals in summer are like little moments of vacation. Last night we had dinner on a card table set before the coolest windows in the house instead of in the dining room. That was a very welcome "change of place."

The menu was on the deluxe sandwich side—two pieces of split and toasted French bread, buttered, on a plate with a large patty of chopped sirloin steak on top. Also on the plate, a large broiled tomato half, iced coffee and a bowl of plump ripe cherries sent to us from friends in the state of Washington completed this relax-

ed meal.
Mrs. H. of Camden, N.J., sent us her recipe for a super de luxe sandwich which would fit perfectly into "a change of place meal." She writes that this is what she serves her husband and his friends when they come to the house for their monthly poker game. Lucky men!

DE LUXE SANDWICH
(Makes 4 servings)
1 can (3-ounces) sliced mushrooms
1 tablespoon butter or margarine
1 can (11-ounces) condensed Cheddar cheese soup
1-3 cup light cream
2 tablespoons cognac (or diluted lemon juice)
4 fillets of beef (about 1 pound)
Salt and pepper
4 toast rounds

In saucepan, brown mushrooms in butter. Add soup; stir until smooth. Gradually blend in cream or cognac or lemon juice. Simmer a few minutes, stirring now and then. Season fillets with salt and pepper; broil to desired doneness. Place on toast rounds; pour sauce over.

Buffet Treat Chicken Mousse

By GAYNOR MADDOX
Newspaper Enterprise Assn.
This handsome chicken mousse is a little on the gourmet side of life. But preparing it is easy for anyone who can read a recipe. We had it at a buffet supper in New York at the home of Mabel Stegner, one of the best-known home economists in the country.

CHICKEN MOUSSE
(9 large or 18 medium servings)
4½ cups chicken broth
3 envelopes unflavored gelatin
1 teaspoon onion powder
1 quart (about 1½ lbs.) finely diced chicken or turkey
1 pint shredded carrots
3 cups heavy cream, whipped
2 cans (6 oz. each) broiled mushroom crowns
½ cup mushroom broth
½ cup cider vinegar
½ cup dark brown sugar
1 tablespoon whole mixed pickling spices

Place 1½ cups chicken broth in a small saucepan and sprinkle in gelatin. Place over low heat and stir until gelatin is dissolved. Remove from heat and stir in remaining 3 cups chicken broth and the onion powder. Pour into a 4-quart bowl and chill mixture to the consistency of unbeaten egg white. Stir in chicken and carrots, then fold in whipped cream. Turn into a lightly oiled 3-quart mold or into two 1½ quart molds and chill until firm, preferably overnight. Meanwhile drain mushrooms. Combine ½ cup mushroom broth with vinegar, brown sugar and pickling spices and bring to boil. Place mushrooms in jar or other suitable container and pour hot vinegar mixture over mushrooms. Cover tightly and place in refrigerator for at least 24 hours. Unmold Chicken Mousse and garnish with pickled broiled mushrooms and carrot rings with parsley or watercress bouquets.

Fifty years ago, it took the motorist 35 days to cross the continent. Compared with six days now, says the American Automobile Association.

SAVOR AN apricot cake roll.

Onion Madrilene Revives Appetites Wilted By Hot Summertime Weather

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Right in the center of hot New York City, there is a former sheepfold and shepherd's house where Southdown sheep grazed a century ago. Today, on smooth lawns shaded by trees, it is the Tavern-on-the-Green in Central Park.

Hungry New Yorkers and visitors enjoy good food there day and night in the green seclusion away from city noises. Ronald Sotelnick, the young director, ordered two dishes for us, promising they would revive our wilted appetite. On the terrace, which was softly illuminated by hundreds of bee-lights strung among plane trees, we found that he was right. You will agree.

ONION MADRILENE
(About 12 servings)
1 cup thinly sliced onions
6 cups beef stock or 6 beef bouillon cubes and 6 cups boiling water
2 envelopes unflavored gelatin
½ cup water
¼ cup Port wine
½ teaspoon salt
¼ teaspoon ground black pepper
Chopped scallions
Sour cream
1 tablespoon lemon juice
Combine onion and stock. Bring to boiling point and simmer 15 minutes. Soften gelatin in water and add to stock along with wine. Season to taste with salt and ground black pepper. Cool and chill. Serve in chilled sherbet

glasses or cups, sprinkled with chopped scallions and topped with sour cream.
RAW MUSHROOM SALAD
(8 to 10 servings)
1 pound raw mushrooms
¼ cup olive or salad oil
3 tablespoons fresh lemon juice
1 teaspoon salt
¼ teaspoon cracked black pepper
2 teaspoons prepared mustard
1 cup diced celery
1 hard-cooked egg, chopped
Wash mushrooms and slice very thin (caps and stems). Add oil and lemon juice and seasonings. Add celery and mix lightly. Serve on lettuce. Sprinkle with chopped hard-cooked egg. Garnish with fresh tarragon or parsley.

HERO SANDWICH
(Crab meat, Ham, Tomato, Egg)
For each sandwich, split a submarine roll or other long sandwich roll lengthwise. Spread bottom side with butter seasoned to taste with chili powder. Then, top with a layer of each, lettuce, Swiss cheese, sliced tomatoes sprinkled with onion salt, crab meat sandwich filling, sliced cucumbers sprinkled lightly with ground pepper and celery salt, sliced hard-cooked eggs and sliced boiled or baked ham. Spread under side of top of roll with mayonnaise seasoned to taste with powdered mustard.

Make Meals More Inviting With This New Idea, Tangy Apricot Cake Roll

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Here's another reader suggestion on how to make summer meals more inviting. It comes from Lois Ross of Chicago, an old friend whose recipes never fail to be trustworthy and delicious. Lois says this cake roll can be made hours ahead and refrigerated, or can be made days ahead (on a cool day) and then frozen. Apricot is the prevailing flavor.

APRICOT CAKE ROLL
(Makes 8 servings)
Filling:
One 11-oz. package (2 cups) dried apricots
2 cups water
¼ cup sugar
¼ cup slivered almonds.
Cake Roll:
½ teaspoon salt
4 eggs
¾ cup sugar
½ teaspoon lemon extract
¾ cup pancake mix
Sweetened whipped cream

For filling, place apricots and water in saucepan. Cook over low heat, stirring occasionally until thickened, about 25 minutes. Add sugar; cook an additional 5 minutes. Cool, then stir in almonds.
For cake roll, heat oven to hot (400 degree F.). Grease bottom and sides of 10x15-inch jelly roll pan; line with wax paper; grease again and flour. Add salt to eggs; beat until thick and lemon colored. Add sugar, a little at a time, beating well after each addition.

Add lemon extract and pancake mix; stir until smooth. Spread evenly in greased waxed paper-lined pan. Bake in preheated oven (400 degree F.) 8 to 10 minutes. While cake is baking, sprinkle a towel well with confectioners' sugar. Immediately on taking cake from oven, loosen edges and turn out on towel. Peel off waxed paper. Roll cake in towel. Let stand 20 minutes, then unroll. Spread with apricot filling; roll up. Sprinkle lightly with confectioners' sugar. Slice and serve with sweetened whipped cream.

Fish Fillets A La Mayonnaise

¼ cup chopped onion
¼ cup butter
4 cups soft bread crumbs
¾ teaspoon salt
1 teaspoon poultry seasoning
Few grains pepper
1½ cups mayonnaise or salad dressing
1½ lbs. fish fillets
Brown onion in butter; mix with crumbs, salt, poultry seasoning and pepper. Add ½ cup mayonnaise or salad dressing. Mix well. Cut fillets in uniform strips, about 1½ by 8 inches.

Spread fillets with bread stuffing, roll up jelly roll fashion. Place in large, greased muffin pans. Spread each with remaining ¾ cup mayonnaise or salad dressing. Bake in moderate oven, 350 degrees F., 30 minutes.
Serve hot with extra mayonnaise or salad dressing.

A four-line commercial jingle is one that's just twice as silly as a two-line one.

Souffle Tops For Honor Luncheon

By GAYNOR MADDOX
Newspaper Enterprise Assn.
Planning a lunch to honor the new bride? Or a sweet graduate you particularly like? Then look at this Tomato Aspic Souffle recipe. It can be prepared in advance. So can all the items in this well-planned "honor luncheon," — Tomato Aspic Souffle, Party Sandwiches, Vegetable Relishes, Lemon Sherbet, Petits Fours, Tea or Coffee, hot or iced.
TOMATO ASPIC SOUFFLE
(Serves 4 to 6)
2½ cups tomato juice
1 large stalk celery with leaves, cut into pieces
½ small onion
½ teaspoon sugar
¼ teaspoon salt
2 peppercorns
1 bay leaf
1 envelope unflavored gelatin
¼ cup real mayonnaise
1 egg white
Parsley
Celery
Carrot Sticks
Combine 2 cups tomato juice, celery, onion, sugar, salt, peppercorns and bay leaf in saucepan. Bring to boil, then cover and simmer 5 minutes. Meanwhile, sprinkle gelatin in remaining ¼ cup to-

mato juice; let soften 5 minutes. Strain hot juice. Add gelatin and stir until completely dissolved. Chill until mixture mounds slightly when dropped from spoon. Beat mayonnaise into chilled aspic mixture until well blended. Beat egg white until soft-peaks form when beater is raised, fold into aspic mixture. Pour into 1-quart ring mold or a loaf pan. Chill until firm. Cut into serving pieces and serve on lettuce, garnished with parsley, celery and carrot sticks.
To make party sandwiches, remove crusts from thinly sliced sandwich bread. Spread slices with Green Onion Spread or Cheddar Cheese Spread. Roll up to form sandwich rolls or cut in 3 for finger sandwiches.
Green Onion Spread: Cream ½ cup corn oil margarine. Stir in 1½ tablespoons sliced scallions, 1 pimento, chopped and drained, and chopped parsley to taste. Makes enough for 10 rolls or 30 finger sandwiches.
Cheddar Cheese Spread: Cream 1-3 cup margarine. Blend in 1 cup shredded Cheddar cheese, 1 teaspoon mustard with horseradish and ½ teaspoon grated onion. Makes enough for 8 sandwich rolls or 24 finger sandwiches.

Politicians Must Know The Difference Between A Lead and Trial Balloon

By DICK WEST
WASHINGTON (UPI) — In politics, it is important to be able to distinguish between a trial balloon and a lead balloon. Many a politician has turned loose what he thought was a trial balloon only to have it drop on his foot and fracture a couple of toes.

Others have been known to rupture their lungs trying to blow air into the uninflatable variety. Despite such hazards, however, it appears that we are in for a rather active balloon season during the next few months. The 1964 national conventions are still about a year away and already a couple of exploratory gasbags have appeared on the horizon.

When last seen they were losing altitude fast. Apparently the launchers were unable to get all the lead out. Trial balloons have one thing in common — a certain amount of flatulence. Beyond that they may vary widely in shape and size.

Possibly there are a number of children, and maybe a few under-privileged adults, who have never seen a trial balloon.

For their benefit, and for others who may need a refresher course in trial balloon recognition, I shall undertake to list the identifying features of some of the more familiar types.

"Friends of Sen. Lungbuster are quietly working behind the scenes in an effort to obtain the presidential nomination for him next year."

The key word there, the one that stamps it as the work of a trial balloonist, is "quietly."

If his friends thought that Lungbuster really had a chance, they already would have hired a brass band.

Should this balloon produce any sort of reaction other than hysterical laughter, a second one will be sent aloft.

"Some of the prospective candidates for next year's presidential nomination are quietly working behind the scenes in a 'Stop Lungbuster' maneuver."

A balloon of that sort gets its lift from the fact that the person being stopped actually has never started. It presages the launching of still another type.

"Sen. Lungbuster had quietly passed the word that he would not accept second place on the ticket."

Finally we have . . . "Sen Lungbuster, often mentioned as a possible presidential candidate, announced today that he will seek re-election to the Senate instead."

Soviet Troops Leaving Cuba

WASHINGTON (UPI) — Some 2,000 Soviet military personnel, mostly combat troops, appear to have left Cuba in the last three months, sources with access to U.S. intelligence reported today.

President Kennedy told his news conference Tuesday there had been "a decline" in Soviet forces in Cuba in the past two and one-half months. But he did not give the number.

Kennedy said the U.S. military intelligence community believed the troops remaining were mainly concerned with training the Cuban armed forces rather than being "concentrated military units."

"But there are still Russians there," Kennedy said, "and this is still a matter of concern to us."

Asked to estimate how many Soviet troops had been withdrawn, the President replied: "It is difficult for us to say precisely."

The administration has been reluctant to make public its estimates of Soviet troops in Cuba for these reasons: Different intelligence channels vary on how many troops have left and on how many were there in the first place. Officials believe the Russians are likely to remove more troops if they can do so quietly.

It was variously estimated there were 21,000 or 22,000 Soviet military personnel in Cuba at the height of the October crisis. Kennedy said previously that 5,000 left in November and, taking into account some new arrivals, a net of some 4,000 left during March and April.

This would have left some 12,000-13,000 in late April. The departure of 2,000 more would leave 10,000-11,000 Soviet military personnel in Cuba. Most of the 2,000 recent departures were reported to have been combat troops. There have been 5,000 or 6,000 of these.

New Jersey Offers Statue to Texas

WASHINGTON (UPI) — Gov. Richard Hughes of New Jersey has told Vice President Lyndon Johnson the state of New Jersey will present Texas with a bronze statue of David G. Burnet, first provisional president of the Republic of Texas.

Hughes showed Johnson a sketch of the statue Tuesday.

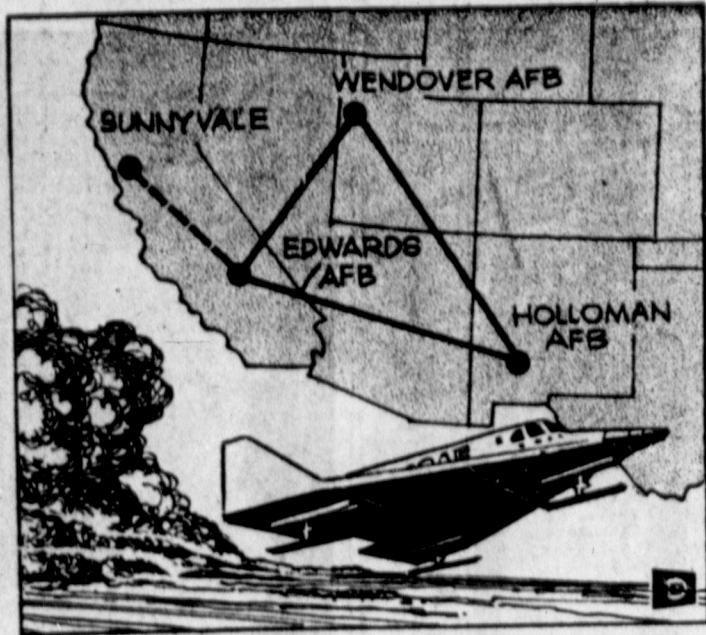

Burnet, who was born in Newark, N.J., took office as president of the Republic of Texas in 1836.

No Trace Found Of Missing Plane

LA PAZ, Bolivia (UPI) — An intensive air search has uncovered no trace of the light plane in which Charles G. Bunch of Amarillo, Tex., left here Friday, it was reported today.

Bunch was on his way to the provincial capital of Apolo, about a half-hour by air from La Paz. The weather Friday was sporadically stormy, and authorities here believe the plane may have crashed in the Colono mountains.

The American, a representative of the U.S. International Development Service, also was active in refugee resettlement work. He came here two months ago to study resettlement activities in Bolivia.

SPACE TRIANGLE—The Air Force has announced that manned spacecraft which it may launch in the future (such as the X-20 Dyna-Soar shown in sketch above) will be recovered at one of three air bases—Edwards AFB, Calif., Wendover AFB, Utah, and Holloman AFB, N.M. Mission control will be at the Satellite Test Center in Sunnyvale, Calif. First air-drop tests of the Dyna-Soar will be made along the Wendover-Edwards leg.

43rd Bomb Wing Moving To Arkansas

FORT WORTH (UPI)—The 43rd Bomb Wing, making up more than one-fourth the military personnel at Carswell Air Force Base, will pack their bags and move to Little Rock, Ark., next spring, a spokesman at Carswell said Tuesday.

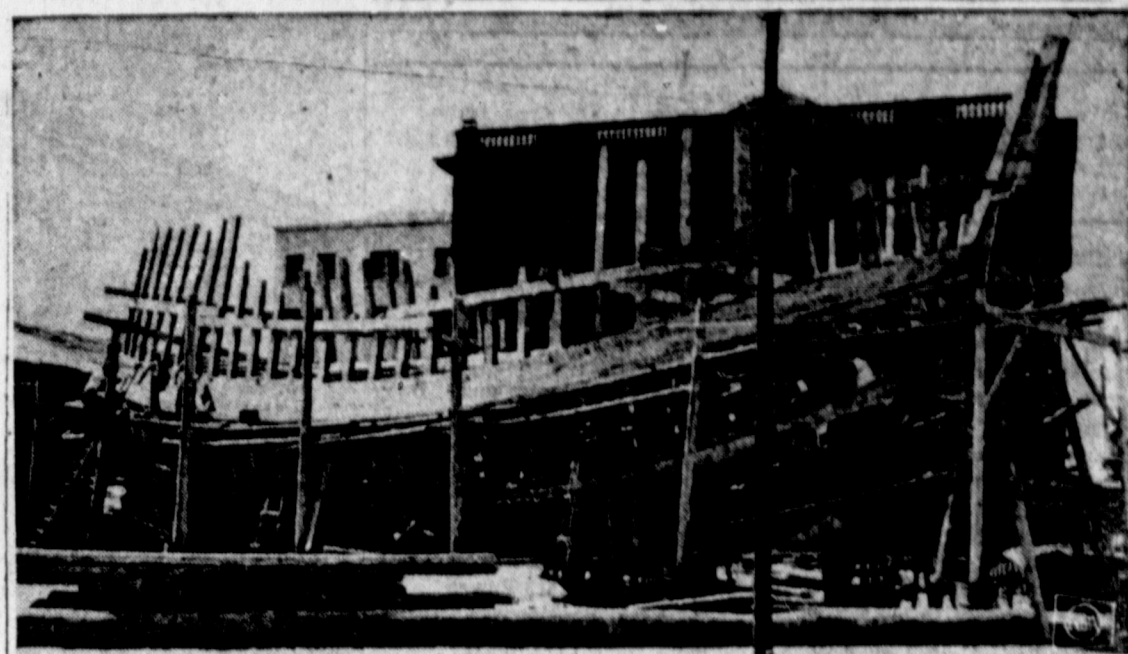

The shift in bomb wing headquarters will involve an estimated 1,720 persons.

When the bomb wing moves out, the Seventh Air Refueling Squadron is scheduled to move into Carswell. The squadron will bring KC135 jet tankers to their new home.

If Carswell becomes the home base of the TFX fighter plane, as some speculation has suggested, it would take up some of the personnel slack caused by the Bomb Wing move to Little Rock. The TFX is being developed at General Dynamics in Fort Worth.

A custom among the Bari people of Sudan demands that a man kill his favorite ox when it grows old.

56TH YEAR THE PAMPA DAILY NEWS THURSDAY, AUGUST 22, 1963

HISTORY IN THE (RE)MAKING—Cristobal Colon is preparing a boat in Spain to go to the New World. What sounds like a 15th-century news flash describes the activities of a shipbuilder of that name who is constructing a replica of the "Santa Maria" in Barcelona. Unlike the flagship of the original Cristobal Colon—or Christopher Columbus—Santa Maria II will make the crossing in a floating dry dock. Its destination is New York, where it will confine its sailing to an artificial lake at the 1964 World's Fair.

Mobeetie Sets Registration Date for School

MOBEETIE (Spl.) — Registration for all students of Mobeetie school will be from 8:30 to 10 a.m. Aug. 31. A general assembly will begin at 8:20 in the gym. Classes start at 8:15 a.m. Sept. 3.

The first football game will be at 8 p.m. Sept. 6 with Mobeetie playing Darrouzett at Darrouzett.

Faculty members are Paul J. Morris, superintendent; Jim Jackson, principal, social studies and science; Marie Wright, English; Cecil Reynolds, coach and mathematics; Elaine McCasland, business and home economics; Pat Bradley, vocational, agriculture; Mrs. Iris Pennington, grades five to six; Mrs. Roberta Adams, grades three to four; Mrs. Ann Trimble, one and two; Mrs. Pauline Morris, librarian.

PLANS CAPE VISIT

WASHINGTON (UPI) — President Kennedy planned to fly to Cape Cod today for an overnight visit with his family.

Press Secretary Pierre Salinger said the President planned to return to Washington Thursday morning, but would go back to Cape Cod Friday to spend the weekend.

OLD SETTLERS TO 'CONFINE' THEMSELVES — The annual old settlers reunion in Mobeetie will be held in the oldest jail in the Panhandle, a two-floor, brick building, fenced by barb wire and landscaped by a single tree.

Sam Houston Shrine Is Worth Family Visit

For those who are fascinated with Texas history — and who isn't — nothing could be more rewarding than a visit to the Sam Houston Shrine at Huntsville.

The former home of Sam Houston, winner of Texas independence at San Jacinto and first elected president of the Texas Republic, the shrine attracts thousands of visitors each year.

The shrine is open free to the public from 9 a.m. to 5 p.m. every day except Thanksgiving and Christmas.

Here you will see the Houston residence, built in 1847, with the original Houston law office and restored log kitchen.

The Sam Houston Museum is a modern building with excellent exhibits, including Houston's famous leopardskin vest which he wore while a Senator, his favorite rocking chair, hat and pipe, and the cane with which he once thrashed a political enemy.

General Santa Anna's saddle and bridle are here, as are many other relics of the Texas Revolution. The Pioneer Room tells vividly the story of the Texas Revolution and of the final heroic stand at the Alamo in San Antonio, and also shows much of what life was like in early Texas.

Steamboat House, where Houston died, was built by Dr. Rufus W. Bailey in 1884. This is modeled

Old Settlers Day Set in Mobeetie

MOBEETIE (Spl.) — Plans are progressing under the direction of Chairman, Dick Wright, for the annual Old Settlers Reunion to be held Labor Day, at the Old Jail in Mobeetie.

Some 1000 attended the event last year and a good turnout of old-timers is expected this Sept. 2 to enjoy the fellowship, and renew old acquaintances of yester-years.

Harry Wofford of Wheeler, will act as master of ceremonies. The usual old fiddlers contest, directed by Henry Johnston, will be held.

Old fashioned pit bar-b-que, bread, beans and coffee will be served by the committee in charge and visitors are asked to bring a basket lunch to add to the noon-day meal.

Maurita Stribling is chairman of the registration committee and asks that each one present come by the registration desk and pick up their name card.

An invitation is extended to everyone in the area and to those who have moved away.

Mineral Wells Hotel to Sell

FORT WORTH (UPI) — San Antonio hotel owner Earl Baker said yesterday he has reconsidered and is willing to sell his Baker Hotel in Mineral Wells to Fort Worth furniture dealer Frank Crumble for \$825,000.

Baker told hotel manager Gary Ledbetter that the sale would include the 117-acre Holiday Acres golf course, including the club house and furnishings.

Baker who closed his hotel several months ago when he could find no one to meet his \$1,300,000 asking price, said he confirmed the sale Thursday night in a wire to Crumble.

Crumble was high bidder in an auction Monday night, but the deal was threatened when Baker refused to include the golf course as originally included in the package for auction.

Crumble told Baker that an anonymous backer of the purchase of the 12 story hotel would back out unless the golf course were included in the sale.

After a day in which the sale appeared to be off, Baker decided to include the golf course in the purchase.

Crumble could not be reached for comment on the sale and had not answered Bakers telegram today.

Baker said that unless he hears from Crumble to the contrary he will assume the hotel sold.

J. N. Nutt Named Insurance Head

AUSTIN (UPI) — J. N. Nutt of Dallas Tuesday was named Texas insurance commissioner, effective Sept. 1.

He succeeds William A. Harrison, who resigned.

State Insurance board chairman William Hunter McLean said Nutt was the unanimous choice of the Insurance Board.

Nutt was an examiner for the Texas Board of Insurance Commissioners from 1935 to 1952. He left that post to help create the Mercantile Security Life Insurance Co. of Dallas.

In 1962, he became a consultant to a number of life insurance companies.

Nutt, a native of Granbury, has ranching interests in that area. He attended Thorp Springs Christian College and Baylor University.

McLean said Nutt has agreed to dispose of all his insurance investments and connections before he takes the job Sept. 1.

ONCE IS TOO OFTEN
CISCO GROVE, Calif. (UPI) — Two construction men made a slight error in setting off dynamite for a highway job.

The blast showered tons of rock down on eight drills valued at more than \$100,000. The men were fired.

RENT-A-DRESS — Elegance for the evening, in the latest fashion, is represented in a rental collection shown in London, England. Gown, above, is of French chiffon.

Designer's Craft Crashes On Landing

FORT WORTH (UPI) — It's back to the drawing board for David Mason of Houston and the plane he spent two years building but cracked up landing.

Mason was flying from Houston to visit his parents, Mr. and Mrs. Whit Mason in Fort Worth Tuesday. He ran out of gas and crash-landed the experimental craft in a pasture.

"I may use the salvage to work on a new design I've been thinking about," Mason said.

500 File in Paris To Support Civil Rights Marchers

PARIS (UPI) — More than 500 Americans filed petitions at the U.S. Embassy here yesterday in a peaceful demonstration of support for the civil rights march in Washington Aug. 28.

Despite downpours of rain, about 515 petitions clipped from American newspapers published in Paris, were brought in by tourists, students and Americans living and working in Paris, white and Negro, both young and old.

Negro author James Baldwin and 80 supporters opened the event by staging a "walk" down the tree-lined streets of Paris to the embassy.

(In Switzerland, a deputation presented E. McQuaid, U.S. consul general in Geneva, with a list of about 100 signatures of Americans in Geneva registering their support for the Washington march. Spokesmen for the group said more Americans living in the area had promised to add their signatures in person during the day.)

128 million people (72 per cent of the total U.S. population) are covered by health insurance.

Quiz Shows Return, Beware

Television In Review
By RICK DU BROW
United Press International
HOLLYWOOD (UPI) — Every so, often in the course of human events, there comes along a public document whose great univer-

sality is overlooked until years later. I am privileged today to bring you news of such a document only several weeks after its issuance by the ABC television network in connection with its upcoming quiz show, "100 Grand."

The universal message of the manifesto, which runs to five-and-a-half pages, may be summed up thus: The human race is not to be entirely trusted. Now this may be old hat to you, but what ABC had in mind, of course, is that this will be the first big money quiz program — \$100,000 top prize — since the video "fix" scandals of a few years back, and the network is taking security precautions.

Did I say precautions? Well, the five-and-a-half pages are hysterically funny in their unbelievable contrivance of rules and format to keep everyone honest, the object apparently being to occupy those concerned so completely figuring how to play the game and how to keep out of jail that they just don't have the time to cheat. I must add here that perhaps the funniest aspect of the rules is that they are so intricate that seemingly a large number of persons has contact with the outcome — which would appear to avoid.

Here, at any rate, are some security details — and it is worth bearing in mind at all times that all this is done in the name of entertainment:

In the show, an amateur expert meets a professional authority on a given subject. They each make up some questions. "Just before air time," says the document, "... (they) leave their quarters for the studio. They have not met before this moment." This last sentence is underlined.

"The program's producers," adds the document, "never know the questions or the answers until the contestants confront each other on the air. . . . At no time does anyone other than the examiner know the extent or areas of the (amateur) candidate's knowledge. . . . The producers have no contact with either the amateur or professional until both contestants enter the studio for a few moments before air time. . . . Professional authorities are selected by the chamber of commerce of participating cities. These chambers are advised not to reveal the name of their selection to anyone including the network, sponsors, producers, the press, etc."

An add to the manifesto begins ominously: "Section 509 of the Communications Act will play an important role in (100 Grand). . . . Section 509 of the Communications Act of 1934 was made law on Sept. 13, 1960. Section 509 makes it unlawful for any persons, with intent to deceive the listening or viewing public, to participate. . . ." etc., etc. etc.

HOT FEAT, COOL FEET—Nancy Gurtner took steps to beat the heat problem in Bradenton, Fla. She just took her beach chair and umbrella into the water with her to read comfortably in water just above the ankles.

'Pennsylvania Kid' Is Reigning Hobo King

BRITT, Iowa (UPI) — Proclaiming "a smiling face always wins the race," Richard Wilson, the Pennsylvania Kid from somewhere in New Mexico, reigned yesterday as the new "King of the Hoboes."

Wilson, 55, a native of Franklin, Pa., a knight of the open road for 39 years, a jack-of-all-trades and the thankful recipient of any hand-out he can get, beat out 90-year-old "Scoopshovel" Scotty McDougall for the crown Tuesday.

"When you're down and out," the new monarch said, "you appreciate things more than when you have everything. . . . The secret of life is getting along with people. A smiling face always wins the race."

The bearded, denim-clad Wilson beat out a formidable array of candidates at the 43rd annual Hobo Day and National Hobo Convention at this wee town on U.S. 18 in the heart of Iowa's golden corn country.

As usual, the folks served up mountainous portions of mulligan stew. More than 4,000 persons gobbled up 18 kettles of the hoboes' traditional dish.

Other contenders for the throne included James (Big Town) Gorman, East St. Louis, Ill., and hoboes who called themselves "The Fat Man" and "Connecticut Slim."

Scotty, unlike other years when he showed up in ragged clothing and with a generally seedy appearance, was attired this year in a freshly washed shirt, clean

United Airlines Hit By Strike

NEW YORK (UPI) — Mechanics and ground crew personnel of United Air Lines struck in major cities across the country early today. The airline said no flights have been curtailed.

Members of the International Association of Machinists, which has locals in 31 cities, walked off their jobs in New York, Newark, N.J.; Los Angeles, Cleveland, Philadelphia, Seattle and Portland, Ore.

A company spokesman said supervisory employees were "filling in" and that there have been no interruptions in service.

The union, which has about 12,000 members, includes mechanics, ground service employees, guards and food service workers. They have been without a contract since June, 1962, when the old pact expired.

A union spokesman said the walkout was touched off by an incident at New York's International Airport when the company turned over the function of refueling the huge Boeing 720 airliners to an outside agency. The refueling had been performed by the IAM.

"This was just another straw on the camel's back," a union spokesman said. "We have been without a contract for more than a year and we refuse to accept unwarranted changes affecting union personnel."

United and the IAM have been meeting on and off in Chicago in an effort to forge a new agreement. The union said 83 per cent of its members voted "no" to the company's second contract offer earlier this month.

slacks, a new sweater and a brightly colored tie.

Started Hoboing Young
Wilson said he began hoboeing when he was 16. He spends his winters in the West and Southwest and his summers in the Midwest. He came here from New Mexico and planned to leave Thursday for Sioux Falls and Aberdeen, S. D., then go to the West Coast and finally back to New Mexico.

He always travels by freight train and has been sleeping here in a boxcar.

A bevy of beauties, including two "Miss Iowa's" and "a favorite farmer's daughter," was on hand. But alas, one member of the royalty was absent.

Bonnie Schwab of Garden City, Mich., last year's "Queen of the Hoboes," didn't show up.

PICTURE NEWS

AROUND THE WORLD

RAINCOAT FOR A MOON MISSILE—The giant Douglas Saturn S-IV booster, slated to see service in the U. S. quest for the moon, is successfully protected from the elements by this rubberized cover at Huntsville, Ala. Designed by the Garrett Corp., the cover has inflatable tubes that hold it two to three inches away from the missile skin. The center section measures 26 feet long and 60 feet in circumference. End sections, already inflated, are each 10 feet long.

YEMEN MORTARS—The Yemen Royalists led by the ousted Imam, are being trained in the uses of a mortar by a United Arab Republic soldier at Sada. Such use is objected to by the Saudi Arabia government and a United Nations investigation is being requested.

SHE'S THE MOST — Alaska, being the biggest state, crowned Gloria Kristy, the tallest showgirl in the world (6 feet 4), "Miss Glamour of 1963." She is wearing 10 pounds of the largest jewelry designed by Sarah Coventry which includes some 3,000 hand-set rhinestones valued at \$2,500.

TWINKLE OF A LITTLE STAR — Burt Lancaster greets the newest performer in his family, his daughter Sighle, on the set of "A Child Is Waiting," where she makes her debut.

SERVING SCIENCE—Observing the strictest surgical procedures, this medical research team at Hanover, N. H., operates on a pregnant armadillo in order to solve some basic problems of human childbearing. The armor-plated animal normally gives birth to quads.

MANHATTAN GETS RID OF A BURRO—Dinky, a Sardinian burro, is assisted by New York's Central Park Zoo keeper as time comes for her to leave. The 2-year-old animal was bought at auction by a Tarrytown, N. Y., resident who had the highest bid.

WINTER PATTERNS — Snow-covered fields of West Germany provide the background for the dancing stripes of a zebra. Scene took place at the Georg von Opel Zoo near Frankfurt.

SOMETHING HAS BEEN ADDED—While the rest of the Army has been outfitted for an atomic war in jet-age equipment, the Fort Benning, Ga., mess halls have new gas ranges to replace coal-burning equipment used for a generation.

REALISTIC TOYS—According to the Child Study Assn. of America, realistic reproductions of things grown-ups use, like this steel firetruck, are much more likely to stimulate a youngster's imagination than more abstract copies.

FINAL APPROVAL—Italian artist Sinisca admires his work after completing the finishing touches before shipment to Florida for an exhibition. The artist will show it in Geneva this spring before returning to Italy to do a mural.

HOLIDAY FUN WITHOUT FUSS—Today's busy hostess sets a smart table in colorful Santa pattern party goods for Christmas entertaining. The matching set adds new sparkle to the holiday season.

TEMPLE OF FLIGHT—Shown in a night photograph, the Terminal Building at newly dedicated Memphis (Tenn.) Metropolitan Airport combines simplicity of classical lines with a flair appropriate to the air age. The building is functional, also. Passengers using the airport may move from ground transportation to air without changing levels

or be subjected to weather, noise, fumes or blast. A three-lane covered automobile ramp permits travelers to arrive at the second level of the building, walk through lobby and concourse to waiting lounges at their gate positions. They then go through enclosed monorail "Jetways" into the jetliners which then taxi onto the runway.

Goldwater 'Inclined' To Bypass Primaries

WASHINGTON (UPI) — Sen. Barry Goldwater, R-Ariz., has said he would be "inclined" to stay out of state primary races, if he decided to make a bid for the GOP presidential nomination.

However, Goldwater said he was not trying to capture the Republican nomination.

"At this moment I have no intention of running," Goldwater said.

In a question and answer session before a group of college students, Goldwater said he liked his Senate job.

The real challenge of government was in Congress where the will of the people could best be expressed, Goldwater said.

Favors Demonstration
Queried on the civil rights march scheduled for Aug. 28, Goldwater said he was in favor of the Negro demonstration.

"I think it's wise if they can control it," he said.

He noted that there have been other marches on the capital, admitting, however, that some had been "disastrous." But he said the Negro demonstration was going to be controlled by "intelligent, dedicated Negroes who are determined it will not get out of hand."

One of the students asked Goldwater if he had any objections to plans for the marchers to use facilities in government buildings, including cots to be set up at Ft. Myer.

"No," Goldwater said, "these people are taxpayers."

Many GOP Southern Votes
The Arizona lawmaker also said he didn't think it was necessary for Republicans to appeal

to the "segregation vote" in the South to win elections, and he predicted the Republican party would get six million votes from the Southern states in 1964.

On the subject of communism, Goldwater said he did not believe the nation could co-exist with a philosophy that is dedicated to its destruction.

On the progressive income tax, Goldwater said: "I see no fairness in taxing success . . . it denies incentive and destroys ambition."

Asked for his opinion of the John Birch Society, Goldwater said he could not condemn a group working within constitutional grounds. He said he had seen no proof that the society had done anything wrong.

MOTORIST GIVES UP

MOVELY, Mo. (UPI)—William Houston gave up trying to start his car stalled on a railroad crossing Tuesday.

He lit a cigarette, stood back and watched his car destroyed as a freight train dragged it 150 yards down the track.

LITTLE LIZ

A genius is a crackpot who made a screwball idea work.

RECOGNIZES REBELS
RABAT, Morocco (UPI) — Morocco announced Tuesday it has officially recognized the "government in exile" of Angola, headed by rebel premier Holden Roberto.

The year-old exile government is headquartered in Leopoldville, The Congo. Angola is a Portuguese colony in southwest Africa.

Radio Free Europe Broadcasts Racial News Under Iron Curtain

By AL KUETTNER
United Press International
Radio Free Europe is a privately-supported organization that transmits Western "truth" behind the Iron Curtain into Czechoslovakia, Hungary, Poland, Bulgaria and Romania.

In the course of attempting to answer Communist attacks with what it calls an "unvarnished picture" of the racial situation in the U.S. South, RFE sent two newsmen into Dixie for three weeks. Their interviews, and RFE "Commentary" are being broadcast for four half-hour programs in West Germany and one in Portugal.

A striking note about the complete 500 page transcript is that it skips reactions that are more conservative than middle-of-the-road. The agency's news chief, Horst Pezall, a native of Berlin, Germany, explains this way: "Members of extremist groups, such as the Black Muslims and

the White Citizens Council, were not interviewed. The people of the countries we reach were getting plenty of the extremist point of view from the Communist propagandists."

Here are samples of how the racial situation was reported by Radio Free Europe:

RFE Commentary: "There is a very real sense of optimism among Negro leaders and complete consensus among whites. . . that the racial barriers that exist today are certain to fall."

Gov. Terry Sanford of North Carolina: "What is needed is a new emancipation proclamation from the bigotry of the past. . . the people of North Carolina are realizing it is simply not right and moral to deprive people of a chance to make the most of their abilities."

Mayor Stanley R. Brookshire of Charlotte, N.C.: "The choice should not be too difficult if we admit in all honesty that discrimination based on the color of a

man's skin is legally and morally wrong and economically unsound."

RFE Commentary: "Most whites are bewildered by the suddenness and the force of the Negro drive for his civil rights. In general, it is the lower middle class and poor whites that are most bitterly opposed to granting the Negro equal status as an American citizen. . . Negro leaders. . . deplore but accept the fact that these (Southern businessmen) are agreeing to the lifting of racial barriers for economic, not moral motives."

Mayor Ivan Allen of Atlanta: "There is no question but that the acuteness (of racial demonstrations) brought more forcefully to the attention of the American public the necessity for the elimination of some of the discriminatory practices that were being exercised."

Mayor William O. Cowder of Louisville, Ky.: "If you were to take a poll of the man in the street in most Southern cities I know of, you would find a lot more moderates than you will strong segregationists."

RFE Commentary: "The assassination of Medgar Evers (the Jackson Negro civil rights leader) so unified and hardened the Negro position that now there remains no real middle ground between the two races. There seems to be a fatalistic belief on both sides that a violent showdown is inevitable."

Running Gun Battle Ends In Capture

STANTON, Tex. (UPI)—Police waged a high-speed chase and gun battle with two robbery suspects yesterday through downtown Stanton before wounding one man and making the capture.

The suspects crashed through two roadblocks at speeds up to 105 miles per hour before a police bullet ripped through a tire and stopped the pair seven miles west of Stanton.

The men will be charged with armed robbery in Big Spring in connection with the theft of \$113 from a service station. The two also took the service station attendant's car.

Big Spring police chased the two until their patrol car's motor burned up. Martin County Sheriff Dan Saunders spotted them east of Stanton and chased them through town.

In Stanton, the two men crashed through a roadblock set up by highway patrolman Bobby Papan and Stanton Police Chief John Murdock.

One of the officers' bullets hit one of the suspects in the shoulder. The men did not resist arrest after they finally were stopped. The suspects were not identified.

The earth actually is nearest to the sun in January and farthest from it in July, according to the Encyclopedia Americana.

Police Stumped In Trailer Case

DALLAS (UPI)—The case of the missing house trailer has police stumped and the Norman Morrow family homeless.

When the Morrrows went home Aug. 6, it was gone. With it went most of their belongings.

Police said they cannot figure out how the thieves got it out of town—if they did.

For one thing, the trailer is 10 feet wide and 54 feet long. It would require more than an automobile or an ordinary pickup truck to move it.

And the big trailer, valued at \$5,000, was so large it requires a special permit to be moved on Texas highways.

"Under no circumstances could the trailer legally be transported after dark," a highway patrolman said.

Closed Sundays So That Our Employees May attend the Church of Their Choice.

THIS IS REAL FREIGHT—Most people have watched heavily laden freight trains go by, but it is doubtful if many have seen one carrying a gigantic load like this. You would have to be an aeronautical engineer or a worker for the Southern Pacific to recognize that the eerie caravan is a dismantled wind tunnel, spread over six flatcars. Great size of the pieces is indicated by figure of a man (arrow).

SCOFFS AT BOMB IDEA

WASHINGTON (UPI) — Assistant Defense Secretary Eugene G. Fubini has scoffed at the idea that orbiting bombs could greatly damage the earth.

Fubini, deputy director of research, said Tuesday it would take a bomb equal to 2,000 megatons of TNT to burn a frame house from an altitude of 150 miles.

ATHLETE'S FOOT

HOW TO TREAT IT—Apply instant-drying T-4-L. You feel it take hold to check itching, burning, in minutes. Then in 3 to 5 days, watch infected skin slough off. Watch healthy skin replace it. If not passed in ONE HOUR, your doctor back at any drug store. NOW at Hi-Land Pharmacy.

Armed Motorboats Attack Cuban Plant

HAVANA (UPI) — The Castro regime charged yesterday that two heavily armed motorboats operating from a mother ship at sea attacked a big industrial plant at Santa Lucia in Pinar del Rio Province early Monday.

The government admitted damage to oil storage installations and sulphuric acid tanks and tubes and said the attackers, in unknown number, escaped under protective heavy machinegun

fire from the mother ship. It said one of the motorboats, a bazooka and two tommyguns were captured.

It was the third armed attack on Cuba in 72 hours and the government accused the United States of main responsibility. It also accused what it described as "certain puppet central American governments" of complicity.

Use Bazookas

According to the government, the two landing boats pushed up a channel from the sea after being released from a mother ship offshore and opened fire on the so-called Patricio Lumumba plant with machinegun and bazooka fire.

"Some oil and sulphuric acid tanks and tubes were perforated (by machinegun fire)," the government said. It claimed no damage from the bazooka fire which, it said, "passed over the installations without any hits."

The government said militia units "repelled" the attack and the raiders fled under cover of heavy machinegun fire from the mother ship. It described the landing boat seized as having an outboard motor and being equipped with a bazooka and two .30-calibre machineguns.

Bomb Storage Tanks

Early Sunday morning an unidentified bomber attacked fuel storage tanks in central Cuba and caused heavy damage with rocket fire. Previously, another unidentified aircraft dropped two bombs on a sugar mill in central Cuba with slight damage.

"The costly methods (of attack) employed by the aggressors can only be met by the CIA (Central Intelligence Agency) of the North American government," the government charged.

It warned the Cuban government "of necessity must consider methods of assuring the defense of our country against the new aggressive plans of the United States."

SEEK NEW LIFE

LONDON (UPI) — William Kinsella left Tuesday night for Sydney, Australia, with his wife and their 12 children, ranging in age from one to 20.

Kinsella plans to live in Australia. As "assisted immigrants" the family paid a total fare of only \$84.

Dear Abby.... Says Hands-Off Policy Is Still The Best Bet By Far

By ABIGAIL VAN BUREN

DEAR ABBY: I usually agree with your answers, but I think you were wrong to tell that 14-year-old girl who was only holding hands with a boy at the baseball game that "any show of affection was out of place in public." What's wrong with holding hands in public, Abby? Isn't it a lot better than doing other things on the sneak? Are you getting to be an old fogey or something? You sure let us kids down this time.

DEAR DISAPPOINTED: I'm sorry if I let you down, but if it's any consolation, you have lots of company. There is NOTHING wrong with holding hands. But it leads to other displays of affection, such as slipping the arm around the waist. Then a big controversy develops over WHERE the waist begins and where it ends. Honest affection is beautiful, but a hands-off policy in public is a good safe-guard for a girl's reputation. And a boy's, too.

a friend, and may even be a liar. So, ignore the report and enjoy your visit, P. S. With a "best friend" like her, your daughter-in-law doesn't need any enemies.

DEAR ABBY: I am a girl of 11, but I am very big for my age. My problem is I don't know how to ask my mother for a bra. But that isn't the hardest part. She is handicapped with "M.S." and even if she said yes my Dad would have to buy it for me, and that would be very embarrassing.

Please tell me what to do because I am getting ashamed.

DEAR "ME": Confide in an aunt, a grown girl cousin or even a friendly neighbor lady, and I'm sure one of them will be glad to take you shopping. And it is nothing to be ashamed of, honey, so don't be timid.

DEAR ABBY: I visited my son recently and never was I hurt more in my life. My daughter-in-law works part-time for a doctor, and all the time I was there she worked, which was all right with me because it gave me a chance to cook, sew, keep her house and take care of her two adorable children. The killing blow came when her best friend called me up and told me that my daughter-in-law ASKED the doctor to let her work full time during my visit there because she hated me and did not care to be at home while I was there. Do you think I should talk to my son about this?

HURT MOTHER
DEAR MOTHER: First, your informant is more of a fool than

CONFIDENTIAL TO S. G.: We do not count a man's years until he has nothing else to count.

Tell your troubles to Abby. For a personal, unpublished reply, please send a stamped, self-addressed envelope.

Getting married? For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby.

FLYING LOW
NEW YORK (UPI) — The travel agency industry estimates 30 per cent of all air travelers to Europe this year will fly under low-price charters or group fares, more than double the number last year.

MATURE PARENT

Dear Mrs. Lawrence: My sister is in trouble. Her 15 year-old girl has been getting home so late from dates that her father forbade her to go out with her boyfriend again unless she promised to be home by midnight. She promised this. Two nights ago, she never came home. It turned out that she spent the night at a girlfriend's house. She shows no remorse for the worry she caused her parents. They had called the police.

ANSWER: Your niece has her parents on the Adolescent Hook, my friend — that hook of defiance by which unwary parents are caught into a contest of "who's going to win?" with the child. Now they have to start behaving like real grownups — and sidestep the power battle into which they have been tricked. To do this, they will need help. My counsel is that they ask their family doctor to enlighten their daughter on the effects of late hours on her health as well as the effects of necking's overstimulation on her nervous organization. For what has happened is that they have allowed hurt and outrage to so overwhelm their proper interest in her safety that she is able to defy it as "domination." Their family doctor may be able to pull that proper interest clear of all the violent feeling that blinds everyone to its existence.

If she sees it as reasonable concern instead of domination, she can be asked to work out a date schedule that will protect her health. It is not defeat for your sister and your brother-in-law to ask for their doctor's support. In America where everyone has to be an Individual, our demands

Joycee-Ettes Hold Backyard Supper

The Pampa Joycee-Ettes met recently with their husbands as guests for a covered dish supper in the backyard of Mr. and Mrs. Frank Smith Sr., on Grape St. Hostesses for the meeting were Mrs. Duggan Smith, Mrs. Lynn Thames, and Mrs. Gene Hollar.

The group ate at card tables placed on the patio surrounded by flowers.

A short business meeting was conducted by the president, Mrs. Richard Cooke.

The following Joycee-Ettes and their husbands attended: Messrs. and Mrs. Gary Griffin, Morris Wilson, John Warner, R. F. MacDonald, Lee Jackson, Jim Hayes, Jerry Hopkins, T. J. Vickery, Lynn Thames, Richard Cooke, Gene Hollar, Duggan Smith, Ted Everhart, Gary Frasier, Jake Webb, Eddie Polnac, Charles Wilkerson and Jim Osborne. Guests attending were: Mr. and Mrs. Jim Jones, Mr. and Mrs. Jim Morris and Mrs. Phoebe Swift.

Quilting Club Resumes Meets

The Metanet Quilting Club met recently at Hobart Street Park. Mrs. Edna Faye O'Neal, president was hostess for the called meeting.

New officers for the coming year were elected during the business meeting. Incoming officers include: Mrs. Forrest Cloyd, president; Mrs. O. L. Johnson, secretary-treasurer; and Mrs. Margie Hausman, reporter.

Secret pals were revealed as gifts were exchanged, and new secret pals' names were drawn. Numbers were drawn for handmade cook aprons made by club members.

Refreshments were served to Mmes. J. T. Lamberson, Earl O'Neal, Gene Tollison, George Hamlin, J. C. Longan, Forrest Cloyd, J. B. Jones, O. L. Johnson, Margie Hausman and 17 children.

The next meeting will be held in the home of Mrs. Margie Hausman the first week in September.

The 63,000-ton passenger ship France is the longest luxury liner in the world.

Credit Women Club Holds Discussion

The Pampa Credit Women's Club met recently in the home of Mrs. Elizabeth Lewis, 1113 Terrace.

Mrs. Lewis, president, presided over the general business meeting.

The program chairman, Mrs. Marion George, led the lesson, "Un-tapped Resources", and "Grammar Glamour". A general discussion followed.

The door prize was won by Mrs. George.

The meeting was adjourned by reading the club creed in unison.

Refreshments of punch and cookies were served to Mmes. Virginia McDonald, Ruth McQuery, Lyda Gilchrist, Bobbie Petty, Ruby Crodser, Marion George Elizabeth Lewis, Miss Sharon Johnson, Miss Jerry Hodges, and two guests, Miss Pattie McQuery and Miss Gayle McDonald.

The next meeting will be held Sept. 20 in the home of Mrs. Jerry Hodges.

The Clothes Poll

By HELEN HENNESSY
Newspaper Enterprise Ass'n

Why, I wonder, is there so much interest in having professional photographs taken now? Graduation and June weddings are over, yet in the last week I've had four requests for advice about the kind of clothes to wear before the camera.

The last portrait photo I had taken showed clearly that I could use some advice on the subject myself. So, for all of us, I talked to a few professional photographers.

Here's the experts' word on correct attire for "birdie watching." Avoid strong patterns. They, not you, will dominate the portrait. And don't wear linen. It wrinkles easily and the smallest wrinkle can look gigantic in a close-up. Brocades, satins, lace, net, pique jersey, wool fur knits and twills are excellent. Their textures provide interest but don't detract from your face.

A simple necklace can be effective but an over-abundance of jewelry will take attention away from your features.

The professional shutter-clickers I queried consider earrings the most useful pieces of jewelry. Small pearls worn with daytime dresses are fine for all faces. As to other earring types, just let common sense dictate your choice. If your face is slender, don't wear huge earrings; if it's round, long drops are right.

Photographers like the basic dress in fairly heavy, dark-colored fabric, with a plain-V or oval neckline. A suit which may be worn with blouse, scarf or pearls is good, too.

Don't wear a severe, high neckline because if a darkish background is used, your head may seem to float above your body.

And now for that nasty reminder that the camera adds the appearance of extra pounds. Wear the tightest girdle you have. The smaller the waistline the more supple and young you appear.

Some studios have cinches for use under garments to draw the waist in further. But if you are too ample for this trick to work,

an ingenious photographer can slim you by using a prop such as flowers, or he can drape fabric over one side of your waist.

That's it, girls. A successful shooting to you all. Chic Chat

Q — I love the convenience of drip-dry Arnel or Banel sheaths for summer, but I've never found one that didn't slide up above my knees whenever I sit. Is there any solution to this problem? The dresses are the right length when I stand up.—A. W.

A—Dear A. W.: I've had the same trouble. Two things can help. Try to find a sheath that has a pleat in the back. These are roomier and not so likely to climb. If you can't find this type, try wearing a cotton slip. Very often the sliding is caused because both your nylon slip and your dress are of slippery fabric and the dress won't adhere to the slip. Since the skirt is slim and tight, it has nowhere to go but up.

MUSICAL

HOLLYWOOD (UPI) — Negro Shakespearean actor Edric Connor, who appears in the movie "Four for Texas" will present a "Calypso to Opera" concert next September at the Croyden Festival in London where he makes his home.

VISITS TRADE FAIRS

WASHINGTON (UPI) — Commerce Secretary Luther H. Hodges will be the U.S. representative at three international trade fairs in Europe next month. Hodges will visit trade fairs at Zagreb, Yugoslavia, on Sept. 7, a Brno, Czechoslovakia, on Sept. 10 and at Bari, Italy on Sept. 10.

Lefors Pirates Juggle Last Year's Grid Lineup

Eight Starters Back From District Champ

By JEFF COHANE
Pampa News Sports Editor

LEFORS — End to quarterback, guard to fullback, tackle to guard . . . for a team that lost only three starters from a district champion, the Lefors Pirates are going to look like a strange outfit to Buc fans this year, with the familiar faces in strange positions.

Although coach Donnie Goode and his staff lost only three starters from last year's team which posted a 7-3-1 record and won district 2-A with a 4-1 mark, the three graduates were all backs and carried much of Lefors' offensive load. To make up for it, the Pirates are going to gamble with a new quarterback, and make several other vital position changes.

Goode, like rival Darrel Davis of McLean, insists that the Wellington Skyrockets, not Lefors or the Tigers, are the powerhouse of the loop. "Doleful Dunny" bases his gloomy predictions on comparative school size.

"I'm picking Wellington to win and McLean to finish second," said Goode, seconded by assistant Dale Prescott, Eddie Clemens and Harley Lewis. "I'll take McLean to finish second over us. The reason why? Sheer size! We are the smallest school in the biggest district in Class A. We just can't go on, year in and year out, competing with schools twice our size."

"Lefors will drop to a B classification next year and Wellington and Memphis will be AA. They have over 220 boys in their schools, Clarendon has 200, Canadian 180, McLean 160 and Lefors? . . . 104! We have 51 boys in our school and 38 out for football. . . they have 80 and better. They just wear us down on sheer size."

Luck? Reminder that Lefors had won the loop title last year, Goode insisted it was luck and spirit, but that spirit couldn't match size forever. Besides, pointed out the "Doleful One," Lefors was everyone's target-four of the schools on this year's schedule had picked the Lefors game as Homecoming.

Goode grudgingly admitted that the Pirates' pride, spirit, good ball-playing and winning record might have a little more to do with it than size.

Lefors opened last year with a 31-0 sweep of Groom, lost a tough one to powerful White Deer, 26-22, and took a 22-8 win over Stratford. They battled to a scoreless tie with strong Stinnett, shut out Gruver, 13-0, and then went into district play with a 21-0 blanking of Canadian.

Wellington, 18-6, Clarendon, 35-0 and Memphis, 57-12, continued the massacre of loop teams, with McLean pulling out a 6-3 verdict in the traditional to mar the Pirate win streak. Lefors then met powerful Sunray in bi-district and went down to a 40-14 defeat.

Graduating from the squad were three two-way starters, quarterback Tony "Punkin" McCool, center Lefors

halfback Tom Smith and fullback Rod Airington, the team's leading ballcarrier, as well as defensive starter "Shotgun" Roberts, leaving 13 lettermen coming back to this year's grid wars.

Big Gamble

Moving up in the big gamble is senior letterman Terry Bromlow. The 5-11, 155-pounder was a starting end last year, and moves to the quarterback slot in the Pirates' split-T on the basis of being a good leader, ballhandler and runner and a fair passer in Lefors' primarily ground offense.

Bill Nichols, 165-pound junior who was alternate quarterback last year, moves into Smith's left halfback spot, but will also see action behind the center. Taking over when he shifts will be James Todd, a 140-pound freshman who has impressed with his toughness, desire and hitting ability.

At the other halfback will be two-letter senior Neil Cates. Despite his comparative lack of size at 5-9 and 140, Cates was the second leading ground-gainer last year, averaging better than five yards a carry, is a good runner and blocker and tough on defense as well.

The other gamble Goode and his assistants have taken is to move an all-district lineman to the fullback spot. Don McCool, 175, two-letterman starter, was an outstanding defensible man and was one of the few district players to make both offensive and defensive all-loop teams. His size, speed and toughness are expected to provide plenty of yardage and blocking. His understudy will be senior Wayne Steele, 140. Also expected to see backfield action is a freshman flash, 130-pound Jack Hatchler.

Moving from starting left guard to left end is 6-2, 200-pound senior Bill McMinn, an outstanding blocker and defensible man, who will be followed by letterman Dickie Archer, 6-0, 140.

Left tackle has developed into a fight between two lettermen, Edgar Brown, 195-pound junior, is finding little (150) senior Ken Minter giving him a battle for his job, and line coach Prescott reports that the one with the most desire will probably play.

Another tossup is the left guard spot, where two lettermen, soph Keith Jernigan, 150, and junior Danny Robbins, 145, are tangling.

All-Districts

The center and right side of the line show a return to stability, with all-district players in three of the four spots. The man under is senior Wayne "Lightning" Coleman, the towering state pole vault champ, whose 175 pounds have brought him two letters and a spot on the all-loop offensive team. Lightning is also a terrific defensive linebacker.

At right guard is rugged Marvin Todd, 190-pound two-letter senior, the only lineman in the district to be unanimous choice on both offense and defense, playing tackle last year.

Coming up from the B team to man the right tackle spot is "Mr. Five-by-five," Gene Gee, a 5'3", 200-pound senior who moves with surprising speed for his bulk.

At right end is another two-letter, all-district senior, 6-1, 175-pound Phil Woodring, who made the offensive team on his pass receiving and blocking, and is better than a fair hand on defense as well. Richard Bull and Richard Lockwood are also end candidates.

Despite Goode's gloomy predictions, the Lefors Pirates may not have the size, number-wise, of the other 2-A schools, but they certainly have the size . . . and the desire, on the gridiron!

JUMBO PROGRAM

BALTIMORE (UPI) — The greatest stakes program ever staged at an American track was held at Pimlico on June 16, 1945, with the running of the Preakness, Dixie Handicap, Pimlico Oaks, Jennings Handicap and the Pimlico Nursery. Wartime conditions forced the track to present the five races on the same day.

FOUR ACES — Offensive and defensive power for the Lefors Pirates this season will be spearheaded by a quartet of returning all-district players: from left, linemen Phil Woodring, Lightning Coleman and Marvin Todd, with Don McCool carrying the mail.

Brawling Yankees Battle With Cleveland Indians

By MARTIN LADER
UPI Sports Writer

The New York Yankees are having a brawl as they merrily dance their way to another American League pennant.

As for those skeptics who have protested the lack of fight in the junior circuit, they would have had a ball themselves had they been at Yankee Stadium Wednesday night.

In the best extra-mural scuffle of the season, New York first baseman Joe Pepitone precipitated a general melee between members of the Yankees and Cleveland Indians after being hit by a pitch thrown by Gary Bell in the eighth inning of the second game of a two-night doubleheader. The ensuing scene somewhat resembled a baryard dance as players grappled with anyone in reach.

Pepitone, who earlier in the game had been hit by starter Barry Latman and then was bashed back by Bell before being hit again, was tossed out of the game when the umpires finally restored order. Bell received a warning from plate umpire Lou Dimuro, which automatically calls for a \$50 fine.

Yanks Win Two

Regarding the fight the Yankees are paid to win, they took both ends of the doubleheader by identical 3-1 scores. The sweep, engineered behind the fine pitching of Al Downing and Stan Williams, boosted New York into a 10-game lead over the second-place Chicago White Sox.

In other American League contests, the Los Angeles Angels edged Baltimore, 3-2, in the second game of a two-night doubleheader after the Orioles had taken the opener, 7-4; the White Sox topped the Boston Red Sox, 7-1; the Washington Senators beat the Kansas City Athletics 5-1; and in a day contest the Minnesota Twins routed the Detroit Tigers, 12-1.

Provides Winning Margin

Pepitone had better luck with his bat than with his fists since it was his two-run double in the first inning of the nightcap that provided Williams with his winning margin. Tom Tresh banged two doubles to figure in all the Yankee scoring in the opener.

Steve Barber went only 3-2-3 in the first game for Baltimore but still received credit for his 18th victory, top figure in the league. The Orioles broke the game open with six runs in the second inning.

SPEEDBOY — Starting right halfback for the Lefors Pirates again this year will be speedy Neil Cates, a two-letter senior.

Pittsburgh Pinch Hit Slugger Sets Record

By Ed Sainsbury
UPI Sports Writer

CHICAGO (UPI) — Pittsburgh's Jerry Lynch had no instructions to hit a home run to win a game for the Pirates over the Chicago Cubs, but he did, and set a major league record in the process because it was the 15th pinch homer of his career.

"All (Danny) Murtaugh said to me was 'Lynch, you're the hitter,'" Lynch said, describing the situation when he went to bat for pitcher Al McBean to open the Pirates' ninth.

"He didn't say anything like 'Hit a home run' or 'Get on base,' or anything else."

But Lynch specializes in pinch home runs, and his drive went deep into the right field bleachers to give the Pirates a 7-6 win.

It was his fourth pinch homer this season — two of them with Cincinnati before he was traded to Pittsburgh in late May, and now two of them with the Pirates.

Breaks Old Mark

The total of 15 moved him ahead of the old record holder, George Crowe, who amassed 14 with three National League teams, Boston-Milwaukee, Cincinnati and St. Louis. The American League record is 12 by Bob Cerv with New York and Kansas City.

"Of all of them," Lynch said, "this one felt the best. It was a high strike, a fast ball and I hit it good. It was a good pitch."

Lynch, luckily, obtained the home run ball in the dressing room from the bleacher fan who caught it, a Lake Michigan life-guard, Bobby Franklin. He responded to a public address system appeal, brought the ball to

Dodgers Close In On Loop Pennant

By MILTON RICHMAN
UPI Sports Writer

Start icing up that champagne because the pennant-bound Dodgers should be putting in their order any day now.

They had to drown their sorrow in beer a year ago but times have changed and barring some unforeseen catastrophe they should appear in their first World Series since 1959 six weeks from now.

To all intents and purposes, the Dodgers disposed of their last serious challengers Wednesday night when they beat the St. Louis Cardinals, 2-1, in a 16-inning thriller for their seventh straight victory.

The triumph took them three hours and 43 minutes to achieve but it was worth it because they are now 7 1/2 games in front with little chance of being headed off again.

A crowd of 54,125, largest of the year at Chavez Ravine, saw the Dodgers prevail when rookie Ken McMullen doubled off Ron Taylor in the 16th and came home on John Roseboro's single along the left field line.

Misses 20th Win

Southpaw Sandy Koufax failed

in his bid to become the major's first 20-game winner when he left after 12 innings with the score tied at 1-1. But he struck out 10 batters to raise his season total to 233, tops in the major leagues. St. Louis starter Curt Simmons departed after pitching 13 innings.

Elsewhere in the National League, the skidding San Francisco Giants dropped their fifth straight and tumbled to within a half game of fourth place when they were beaten by the Milwaukee Braves, 6-2, Houston blanked Cincinnati, 1-0, and Pittsburgh topped Chicago, 7-6.

The game between the Phillies and Mets was rained out.

Mathews Hits Two

Eddie Mathews' 17th and 18th homers off Giant starter Gaylord Perry paced a 14-hit attack that brought the Braves their fifth straight victory.

Don Nottebart tossed the first shutout of his major league career and held the Reds to four hits in registering his eighth victory for the Colts.

Jerry Lynch set a major league record for pinch homers with the 15th of his career in the ninth inning to break a 6-all tie between the Pirates and Cubs.

PLANS - NO MONEY DOWN!

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities. We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself, no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Money Crisis Coming Soon?

The last bit of stability to the United States currency is about to be eliminated. Apparently the U.S. Senate will approve the House-passed bill to remove the silver backing for silver certificates and replace them with federal reserve notes. The price of silver in the United States has climbed to \$1.23. When it reaches \$1.29, the amount of silver in the United States will be worth a dollar, and if government inflation continues, the supply of silver dollars will be at the vanishing point. Administration and congressional supporters of the bill to eliminate silver backing for money are contending that they need the silver now held to make dimes, quarters and halves. They bemoan the fact that silver is rapidly disappearing on the scene, but have done nothing to eliminate the cause of the disappearance — inflation, which is caused largely by government spending in excess of income. If the Senate approves the House-passed measure, the Treasury will start retiring the silver certificates and replace them with federal reserve notes, which theoretically are backed by gold.

Getting Your Share?

Having troubles? Don't worry — maybe government will take care of them. To make things all hunky-dory down on the farm, the federal government has put up tens of billions of dollars to keep prices up and is still kicking in to the tune of \$5 billion a year of the taxpayer's money. The mess is worse than ever, but no one can say agriculture is neglected. Due to changing needs, times and habits many of our city transit systems are finding the going hard. So, as a start, it is proposed that, over a three-year period, the various units of government kick in with more than \$500 million in grants and low-interest loans. Representative Taft estimates the ultimate total at \$20 billion. Representative Derwinski thinks that "Handing out government grants will discourage initiative among transit operators who might otherwise solve their own problems; drive financing out of the field, and subsidize inefficiency." They sure would — but never mind little things like that.

TRUTH FORUM Congressman Raises Pointed Cuba Questions By ED DELANEY

For reasons that are understandable, the Kennedy kingdom in Washington finds it expedient to omit reference to Cuba, in their various announcements about this and that. And well they may. But Rep. William C. Cramer (Fla.) has been asking some pointed questions on the floor of the House which bring Cuba into focus very sharply. He wants to know what the administration and particularly our attorney general, intends to do about the scores of persons who travel to Cuba in violation of specific prohibition against such traveling. One group of 39 American students under the leadership of Levi Laub of Columbia University, set off presumably for a trip to Western Europe. The tab for the plane fare from Canada to the continent, amounting to a trifling \$30,000, was picked up by someone of dubious background in Canada. From Holland the students were flown to Prague and from there one of Castro's airplanes brought them back across the Atlantic for a reception that had been arranged for them in Havana. The students were taken to the collectivized agriculture project which Castro has copied from the other communist countries and to various other show-places. Of course the students will be prevented from seeing the poverty that has been brought about by the dictatorial edicts of Castro. They will not see the political prisoners herded in grim-walled buildings or in compounds encircled with barbed wire which are added sentries with machine

Pull Up A Chair By Frank J. Markey

One of the most unique conservationists we have heard about is Rev. Sister Juliana Berners, a Benedictine nun of Hertfordshire, England, who lived in the last half of the 18th Century. She loved the sport of fishing and her "Treatise on Fysshynge with an Angle", published in 1496 ante-dated Isaac Walton's work by 150 years. According to our informant she wrote with zest and zeal about the joys of angling for trout, carp, pike, salmon, and other species. In addition, she devoted a good part of her book to a do-it-yourself bit, telling how to select and fashion a fish pole, how to make hooks and lines, and even gave advice in the proper bait. If she were alive to day some brewery or cigarette manufacturer would try to sign her for TV commercials.

The newest development in airplane design is the "slit wing" plane that features a revolutionary air-inhalation system. Called the X-21A, this new plane is now being tested by the U.S. Air Force. The so-called "breathing wings" increases the plane's range and cargo capacity. Actually, they achieve something called "laminar flow", which cuts the burdens on the aircraft's engines by inhaling a very thin layer of air through razor-thin slots in the wing surfaces. Aeronautical engineers say this new design will permit planes of the future to make non-stop flights over greater distances without refueling. And we can remember when everyone was impressed with Lindberghs flight! Advances in surgery continue to amaze us. The latest comes from California where a surgeon reports two patients have regrown lost nerve sections following surgery, by using irradiated grafts of nerves from another persons amputated leg. He added both operations were performed without encasing the nerve segments in plastic sheaths.

Country Editor speaking: "The summer camps are taking care of all the little boys and girls who are away while their parents vacation at home. Just heard of a TV physical culture instructor who advocates standing on your head every morning upon arising to insure good health. Most mornings we find it difficult enough to stand on our feet. The Romans had those fishy tales too, about the big one that got away. Martial, who lived 2000 years ago, wrote about fly casting. More than 12,000 Boy Scouts from all over the world attended the International Jamboree at Marathon, Greece, last month. The camp grounds were the actual site of the battle of Marathon, fought in 490 B.C. Pan-American airlined 222 American scouts there. Still speaking of airlifts we heard of a Los Angeles mens club that enjoys a New England clam bake every year. A Boston fish dealer shipped 4000 pounds of clams and lobsters for the affair. The seafood left Boston at 11:15 A.M., Eastern Daylight Time, and arrived in California at 1:40 P.M., Pacific Coast Time. Memory Lane: Fenny candy at the corner store. The only place we know where you can get it now is at the Old Country Store in Sudbury, Mass. Celebrities from all over the country write their regularly for licorice sticks, corn cakes, old-fashioned nut bars, and the rest.

U.S. Fish and Wildlife Service plans to use two-man submarines off the California coast for underwater studies. We remember interviewing Simon Lake about such craft when the Japs started using them in World War II. Lake said they were okay for undersea travel, but had no long range because the size prohibited carrying much fuel. The first crossword puzzle was published in the New York WORLD in 1913. Today's smile: The youngster next door asked if we put an apple in a bucket of water overnight what we would get the next morning. Not knowing what we'd get, he told us: "A wet apple."

Allen-Scott Report Rustin's Record No Bar to His Direction of Civil Rights March, Randolph and Rustin Insist

WASHINGTON — The "brains" of the forthcoming giant civil rights rally in the nation's capital is a one-time member of a Communist organization, a wartime conscientious objector, and served a jail term on a morals conviction. That's the record Senate authorities have turned over to Washington police on Bayard Rustin, deputy director of the massive August 28 demonstration. This record, based on FBI and police reports, is as follows: —As a student at the College of the City of New York in 1936, Rustin joined the Young Communist League and was active in its operations on the campus and elsewhere. —In World War II, he was arrested several times for making speeches advocating resistance to the conflict against Hitler and Mussolini. As a professed conscientious objector, he served 28 months in the federal prisons at Asland, Ky., and Lewisburg, Pa. —With two other men, Rustin was convicted in 1953 in Pasadena, Calif., on a morals charge, and served 60 days. While Rustin has no college degree, he spent seven years studying at Wilberforce, O., and Cheyney, Pa., colleges, the College of the City of New York, and the London School of Economics. A. Philip Randolph, president of the Sleeping Car Porters and chairman of the huge march on Washington, personally designated Rustin as deputy. Asked if in view of the Senate report to Washington police on Rustin's Communist and prison record he would be asked to give up this key post, Randolph emphatically replied, "Of course not. He's 'Mr. March' himself. We couldn't do without him. His outstanding ability and experience are invaluable." This column put the question direct to Rustin if he proposed continuing his connection with the demonstration. "I certainly do," he said. "I've been meeting with high Justice Department officials on our plans, and I will have other conferences with them as we progress." "Who are these officials?" "One of them is Assistant Attorney General Burke Marshall (head of the Civil Rights Division)," said Rustin. UNEXPECTED PLAIN TALK — Senator Abraham Ribicoff, D-Conn., former head of the Department of Health, Education & Welfare, favors the administration's civil rights bill, but that's not keeping him from doing some blunt talking — particularly about the need for law observance by advocates of the legislation. It is Ribicoff's forthright contention that such responsibility comes before enactment of the measure. "I firmly believe," declares Ribicoff, "that those who urge the need for law have a responsibility to insist that law be observed. Many who decry discrimination have practiced or condoned it. Many who point a condemning finger at the South are unaware, for example, that in no Northern city can be found the extent and qual-

ized public opinion against them. Candid He discusses with unusual candor and clear vision the many mistakes of the Roosevelt and Truman Administrations with regard to the Far East. The disastrous diplomacy of Roosevelt and Truman themselves, augmented by the strange actions of General George Marshall in China and his blind policy chief Secretary of State, were the chief factors in the loss of China to the Communists. Kubek traces in damning detail the tragic role that Marshall played in the fall of Nationalist China. If any American wants to know why the present Russian ruler can insult the United States with impunity, threaten to bury us, and take bold steps in that very direction, he needs only to read "How The Far East Was Lost." In it he will learn that present Soviet military might is the direct product of billions of dollars in Lend-Lease aid, coddling the Communists in high places in the American government, and failure to understand the basic drives of world Communism.

Question Box (We invite questions on economic and the proper functions of government which will not injure anyone.) Question: "What is your definition of a 'civil right,' 'property right,' and a 'social privilege'?" Answer: We would have a difficult time describing what a civil right is, as the term is currently being used by the politicians. To us a right is a right which comes from nature or from God, and not something granted by government.

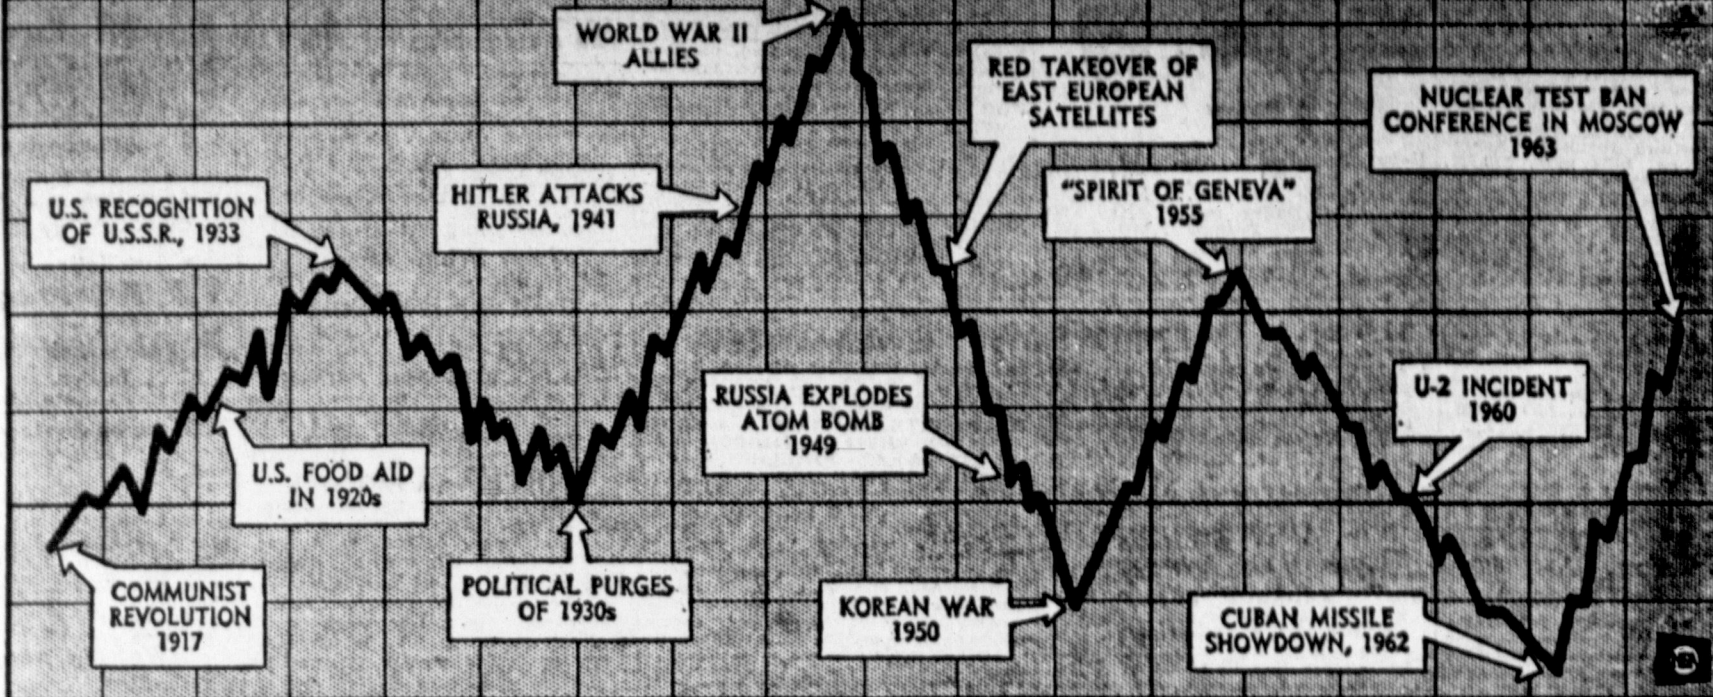

The Almanac By United Press International Today is Thursday, Aug. 22, the 234th day of 1963 with 131 to follow. The moon is approaching its first phase. The morning stars are Jupiter and Saturn. The evening stars are Mars and Saturn. Those born today include French composer Claude Debussy, in 1862. On this day in history: In 1851, the United States yacht "America" beat the British yacht Aurora off Cowes, England, and won the silver trophy which has since borne its name. In 1911, the Mona Lisa was stolen from the Louvre museum in Paris. In 1941, Nazi troops advanced to the outskirts of Leningrad, Russia. In 1958, President Eisenhower offered to halt U. S. nuclear testing for one year if Russia would do the same. A thought for the day — American journalist H. L. Mencken said: "It is a dull man who is always sure, and the sure man who is always dull."

MENU CENSUS NEW YORK (UPI) — Ask any question about the use of any food product and the answer will most likely be found in the "Menu Census." This is the result of a year-long study of food preparation and consumption in the American home recently completed by Market Research Corp. General Foods General Mills, Pillsbury and Kraft Foods were prominent subscribers.

Answer to Previous Puzzle CROSSWORD puzzle grid with numbers in squares.

Fever Chart of Four Decades of U.S.-Soviet Relations

THE EAGLE AND THE BEAR—Since the Bolshevik Revolution (or counter-revolution) of 1917, U.S.-Russian relations have varied from cool to very warm to very chilly and all the degrees between. Chart above visualizes this changeable international temperature. Cold and warm readings are arbitrary and differ between observers. Things got off to a bad start with Lenin's takeover of the Russian Revolution. American troops actually fought Red soldiers on Russian soil during the ensuing civil war. In the 1920s, much American economic and technical aid was extended to the Soviets. A high point was reached in 1933 when the United States granted diplomatic recognition to the Communist regime. Interestingly, this was partly at the urging of capitalists who hoped for increased business be-

tween the two nations. Feelings took another dip with the purge trials of the 1930s and the Nazi-Soviet nonaggression pact of 1939. But Hitler's invasion of Russia heated Russo-American friendship to its highest point. This was shortlived, however, being chilled by Red coups in Europe and obstructionism in the United Nations. The Cold War has, for the most part, lived up to its name with only a few warming periods. There was a sudden plunge in the fall of 1962, but the recovery has been quick. Cordiality appears to be approaching another high with the current nuclear test ban talks in Moscow, at the same time as Russia's relations with Communist ally China are dropping to the freezing level. In spite of the warmth directed toward the West, diplomats are not discarding their overcoats.

STAND-IN FOR JACKIE
WASHINGTON (UPI) — President Kennedy's sister, Eunice, will stand-in for Mrs. Jacqueline Kennedy as the White House hostess during the visit of the king and queen of Afghanistan.

Eunice is the wife of Sargent Schriver, the director of the Peace Corps.

VALUABLE
CHICAGO (UPI) — Employee suggestions adopted by management in 1962 saved industry more than \$100 million, according to Wyatt & Morse, a management consulting firm.

Coastal Civil War Brewing in Houston

HOUSTON (UPI)—A suggestion that Port Arthur can give Confederate hero Dick Dowling a more gracious resting place than Houston had historians, Sons of Confederate Veterans and Dowling descendants here ready to fight a coastal civil war yesterday.

Mrs. William Fredeman of Port Arthur started the squabble when she said Dowling's resting place in Houston is being neglected, the public cannot get into the cemetery to see it, and generally Dowling is not getting the attention he deserves.

Dowling led 44 members of the Davis guard to Sabine Pass and whipped 1,500 Yankees in 21 gunboats and ships in the Civil War battle nearly 100 years ago. He died after the war, of yellow fever, at the age of 29.

Buried in Houston
He was buried at St. Vincent's

Cemetery on Navigation Street in Houston.

The Port Arthur group, who commemorated the Dowling battle Aug. 7, want Dowling's remains moved nearer the battle site, 11 miles south of Port Arthur.

Their suggestions marshalled Dowling supporters in Houston to a pledge to do anything to keep him here.

"We are flattered that folks in Port Arthur love him but we feel he is a Houston man and we would like him to stay right where he is," said Joseph A. Collerain, 77, a grand nephew of Dowling's.

Can Do Nothing
J. G. Ginn, commander of the Albert Sidney Johnston Camp No. 67 of the Sons of Confederate Veterans, said neither Port Arthur nor Houston can do anything about Dowling's resting place.

"Port Arthur can't do it and neither can the city of Houston," Ginn said. "They have absolutely nothing to decide because Dick Dowling lies on private property."
The city of Houston is investigating.

Estes Loses His Abilene Office

ABILENE (UPI)—Billie Sol Estes found himself without an office in Abilene today.

Joe Reed, manager of the Petroleum Building in Abilene where Estes had planned to sublease an office, personally yanked down a sign with Estes' name on it from the office door.

The now defunct farm tycoon, who is under state and federal sentences totaling 23 years, had planned to sublease the office from the Jameson Drilling Co. Reed said the company was subletting the office without authorization.

Jack Bryant, an Abilene attorney and director of the company, holds the lease on the office. He said he "did not feel in a position to make a statement."

RUSK COMMENTS ON TV

WASHINGTON (UPI) — Secretary of State Dean Rusk wants a wider exchange of television programs between nations, and favors an increase in U.S. programs on international events.

Rusk, in remarks published in TV Guide magazine Sunday, called for more programs "devoted to the basic forces and issues which dominate the course of international events today."

Robbery-Slaying Suspects Jailed

WAXAHACHIE (UPI) — Three suspects were in the Ellis County jail today pending filing of charges in Tuesday's robbery-slaying of a Rocket, Tex., grocery clerk.

The suspects, a Latin American man and a Negro man and wife, were arrested shortly after the incident occurred.

According to Mrs. C. E. Spain, proprietor of Spain's grocery, the two men entered the store and robbed the cash register while holding a gun on her.

After the men left the store, Mrs. Spain heard shots and rushed out to find H. C. Humphreys, a store employe shot in the head. Humphreys died a short time later in a Waxahachie hospital.

Lee Hunsucker, a bystander, was wounded in the arm.

WAR HERO IMPROVES

NASHVILLE, Tenn. (UPI)—World War I hero Sgt. Alvin C. York, hospitalized here last week after developing a fever, was taken off the serious list at Veterans Hospital Sunday night.

Hospital officials said they could not pinpoint the cause of the rise in York's temperature. He was brought here last week from his home at Pail Mall, Tenn.

matter of fact

The Association of Comics Magazine Publishers was formed in 1948, and members adopted a code banning sexy, wanton comics, sadistic torture and other offensive material. In 1954 the Comics Magazine Association of America was formed. Its code prohibited torture, glorification of crime, salaciousness and insisted that the stories should show the triumph of virtue over vice.
