

HA! HA! MEOW!—This old biddy seems somewhat sobered by reflection on her impetuosity in choosing a family, but not so the kittens. They are enthusiasm itself. The five-year-old hen, kept on the Blue Diamond poultry farm, Redwood Falls, Minn., recently fought the mother cat of the kittens and won. (AP Wirephoto)

Water Meeting At Odessa Is Set For Today

17 Big Springers To Attend Conference On Joint Proposal

To use a phrase employed during a three-year study of a joint city water proposal, Big Spring and Odessa delegates get down to "the nut cracking" today.

Seventeen men, representing the city and other agencies, will go from here for a 7 p.m. meeting in Odessa's Elliott hotel. With an Odessa delegation, they will review the project designed to furnish 26 million gallons of water daily. Then they will turn to the first of a series of steps ahead.

The first will be consideration of a date for a referendum on the district. Under terms of the act (HB 757) signed into law Tuesday, voters in corporate limits of Big Spring and Odessa must ratify the district before they actually become members.

Other elections would become necessary before the district could levy ad valorem taxes. On the agenda today are a welcome by A. P. Brown, mayor of Odessa, R. T. Piner, Big Spring executive committee chairman, will preface discussions. A review of the project is scheduled by J. B. Thomas, Fort Worth, president of Texas Electric Service company, and who originally envisioned the project. It would call for a lake on the upper Colorado river, 25 miles northeast of here.

Marvin Nichols, Fort Worth hydraulic engineer, is to recall engineering data on the proposal. This would include information on pipelines to Big Spring and Odessa. Enabling legislation (HB 757 which created the district, and HB 903, permitting districts and municipalities to do business) will be analyzed by M. G. McDonald, Odessa city attorney.

Problems involved in calling a referendum on the district will be discussed by H. W. Whitney, Big Spring city manager. Educational information details also will be talked. Piner then will conduct a discussion of a probable date of election. Delegation caucuses will precede a final general parity.

Originally, the water district was proposed for five cities when the first meeting was called here June 20, 1946. Snyder dropped out after the state board of water engineers had appropriated water rights for the project. In November 1948 Texas Electric announced plans for a dam on Morgan Creek, four and a half miles south of Colorado City. Since then Colorado City has availed itself of an offer of 2 1/2 million gallons a day from that source. This removed it from the district set-up. Then in March Midland city commissioners announced they were not at this time interested. That left Big Spring and Odessa.

But these two expressed an increased interest in a long-range water supply. Accordingly they pressed legal measures through with help from Rep. R. E. Blount and Sen. Kilmer Corbin. The governor signed the last bill Wednesday evening.

Attending from here will be Piner. See WATER, Pg. 11, Col. 4

UP FROM THE RANKS—Gordon Gray North Carolina lawyer and publisher, is shown at his Pentagon desk in Washington shortly after President Truman nominated him to be Secretary of the Army. 70-Mile Wind Hits At Laredo

By The Associated Press

A 70-mile wind struck the Laredo Tex., area during a brilliant electrical storm early today.

Trees, signs and fences were blown down and at the Laredo airport a plane was overturned. Heavy rain and hail also battered the south plains last night, bringing further damage to wheat and cotton.

A severe electrical storm struck the Plainview area last night and 62 of an inch of rain fell. Some wheat was leveled by heavy winds. Cutting operations will be halted until early next week. Scores of combines are moving into the Plainview area. At Silverton Tex., northwest of Plainview, 67 machines were counted.

Rain fell today at Beaumont, Corpus Christi, Victoria, Galveston, Houston, Wichita Falls, San Angelo, San Antonio, Lubbock, Childress, Brownsville and Palacios.

The weather bureau gave these rainfall totals for the 24-hour period ending at 6:30 a.m. today: San Antonio, 2.78 inches; Houston, 1.74; Beaumont, 1.74; Laredo, 1.63; Childress, 1.42; Lubbock, 2.18; Abilene, .05; Austin, .02; Austin, .14; Corpus Christi, .80; Del Rio, .52; Ozona, .46; Alice, .37; Victoria, .44; Junction, .90; Dabhart, .05 and Galveston, .02.

Showers to heavy rains fell over the north plains last night. Amarillo had 84 of an inch. A heavy downpour and some hail fell in the Hereford area. Kent Creek near Turkey went on the biggest rampage in 10 years. Unconfirmed reports said from three to seven inches of rain fell in the area in 90 minutes.

Don't Drive If Drunk

See Russian Rejection Of Demand Blockade Be Lifted Completely

Trade Accord, However, Set To Go Into Effect

West Tells Soviets To End Strike Of Berlin Rail Workers

PARIS, June 9. (AP)—Russia rejected today an American call for intervention by the Big Four foreign ministers in East-West trade and traffic talks in Berlin.

French sources said Soviet Foreign Minister Andrei Y. Vishinsky told the Foreign Ministers' Council it would not be the fault of the Soviet representatives if the Berlin negotiations fail.

PARIS, June 9. (AP)—Russia was expected to reject today the request of Secretary of State Dean Acheson that the "little blockade" of Berlin be lifted by Monday.

At the same time western authorities who have been conferring with the Russians in Berlin asserted that an East-West trade agreement—virtually concluded—could go into effect almost immediately were it not for the Berlin rail strike.

The western powers have told the Russians to order the Soviet-controlled railway management to meet the strikers' demands and end the walkout or there would be no signatures on the trade agreement.

Western officials in Paris saw Acheson's demand as a move to force the Russians to make up their minds over exactly what they want to achieve in the Berlin said the Russians actually desired a trade agreement with the West and were using the foreign ministers conference in Paris as a smoke screen to hide their eagerness.

One high American official said the Russians, in his opinion, never intended to reach a political agreement in Paris and the meeting they really were interested in was not in Paris but in Berlin. These Berlin sources believed that as soon as the trade pact is concluded the true Soviet position at Paris would be disclosed. They think the Soviet position will be disagreement on political questions with a proposal that the four powers keep the door open for future conversations.

COMMITTEE CONFERENCE—Sen. Bourke B. Hickenlooper (R-Ia) (right) leans over to confer with fellow members of the Joint Congressional Atomic Energy Committee in Washington Senators Eugene D. Millikin (R-Colo) (left) and William F. Knowland (R-Calif), during the hearing into operations of the U. S. Atomic Energy program. (AP Wirephoto)

OPPOSED ATOM SHIPMENTS

AEC Man Hints At Germ War Research

WASHINGTON, June 9. (AP)—Lewis L. Strauss, member of the Atomic Energy Commission, testified today that radio-active isotopes sent to foreign countries could be used in research on germ warfare.

Strauss also said it is his understanding that Russian scientists visiting laboratories where the American-supplied isotopes are used, although no isotopes have been shipped to the Soviets.

The Senate-House Atomic Energy Committee put Strauss in the witness chair in a continuation of its hearings on charges by Senator Hickenlooper (R-Iowa) that there has been "incredible mismanagement" of the Atomic Energy Commission under the chairmanship of David E. Lilienthal. Hickenlooper demands that Lilienthal be fired.

Strauss was opposed when the five-man AEC voted 4-1 in 1947 to permit export of some types of radio-active isotopes to friendly countries. The policy was approved at that time by an advisory committee of scientists and by President Truman and the State Department.

When the committee convened today, Rep. Henry M. Jackson (D-Wash) protested that the whole investigation has become a "carnival of confusion."

He said that neither the committee itself nor the AEC is being advised in advance as to the nature of the accusations Hickenlooper will make that day. Hickenlooper, Jackson declared, should submit "a bill of particulars."

Hickenlooper replied that he had undertaken to present his case in "an orderly fashion" but had been "blocked" by objections to his procedure.

Chairman McMahon (D-Conn) said the committee would meet behind closed doors later in the day to try and settle "troublesome" questions.

Red Officers Beat Back Looting Mob

BERLIN June 9. (AP)—Four fist-swinging Russian officers today beat back a looting mob of 200 railway strikers who had invaded the American sector headquarters of the Soviet-controlled Berlin railway.

Later, on U. S. military government orders Western police guarded the entrance of the five-story building as a result of Soviet Com-mandant Alexander Kotikov's official complaint against the "hoodlum mob."

Meanwhile, rail strikers grimly picketed the buildings. A strike spokesman said they intended to prevent anyone of the headquarters staff from reporting for work today.

The mob invaded and occupied the building late last night, but retreated shortly after midnight when four Russian officers suddenly arrived.

The Russians, angered by the sight of the mob ripping pictures of Prime Minister Stalin and Lenin off the walls, pitched into the strikers with their fists and drove them to the ground floor of the building.

The mob withdrew after the arrival of 100 American sector German police, dispatched to the scene.

New District Judicial Proceedings Lagging

District judicial proceedings appeared to be in a state of suspended animation Thursday.

Howard, together with Martin and Glasscock counties, was in a new district—the 118th.

Created by a bill that severed the three eastern counties from Midland and Ector, which remain in the 70th, the new district apparently became effective at once.

Although Governor Beauford Jester appointed Charles Sullivan to be district judge and Elton Gilliland to be district attorney, neither have yet been commissioned and sworn into office.

Judge Sullivan and Gilliland were of the opinion that their appointments would have to be confirmed by the state Senate, since it is in session.

In addition, neither had received formal commissions.

The Governor had telegraphed formal notice of appointment. It was assumed, however, that citations and other transactions from the clerk's office would bear the new district number in the interim.

Under the bill, introduced by R. E. (Peppy) Blount, Big Spring, Howard county will have four terms of court per year, Martin county three and Glasscock two. However, provision was made for continuous sessions, whereby court could transact most business in any of the three counties most of the time.

Stated terms for Howard are the fourth Monday of August, October, January and June. This would make the remaining terms of this year convene on Aug. 27 and Oct. 24.

Martin county's terms are fixed for the first Monday of October

(Oct. 3), January and June. Those in Glasscock are the first Monday in September (Sept. 5) and February.

Terms of the 70th for Midland Ector also were pegged. Midland's sessions start on the first Monday of February, April, June, Sept. (Sept. 5) and November (Nov. 5). Ector's sessions convene the first Monday of January, March, May, July, (July 4), October (Oct. 3), and December (Dec. 5).

Judge Sullivan will make appointment of a district court reporter for the 118th court after he assumes office. Judge Paul Moss and District Attorney Martelle McDonald both of Odessa continue as officers of the 70th court and L. P. Boone Midland as court reporter. Salary of the judge will be \$6,000 per annum and the state's attorney \$4,000.

See WATER, Pg. 11, Col. 4

Money Bills To Benefit Solons

WASHINGTON, June 9. (AP)—Two bills appropriating money for Congress itself came up for expected House approval today amid some pleas that "economy should begin at home."

One bill carries funds for the operation of Congress and its related activities for the fiscal year starting July 1. Its out-of-the-ordinary items include new carpets for House members and new swivel chairs and refrigerators for Senators.

The \$62,200,705 total is \$686,114 more than Congress had for its activities this year but \$11,697,479 less than budget estimates for the new year. However \$10 million of the budget cut represents failure of the House Appropriations Committee to include that amount for a new Senate office building.

GAIL SURVEY TO START

Road Expansion In Area Given Boost

More progress is being made toward expanding the road network in this area.

Judge J. E. Brown said Thursday that the commissioners courts of Borden and Howard counties had agreed Wednesday to a survey on unimproved sections of the Gail road.

Surveyors will fix a point on the Howard-Borden line to which each county may build. This work will start immediately.

Howard's portion of the Gail road is now under construction to a point within about a mile of the Borden line. Borden commissioners told members of the Howard court they had been given an additional two and a half miles on the road by the state. This would place the paved terminus south of the Colorado River. A gap of only about five miles will remain unpaved when present projects are completed. Judge Brown said he and commissioners were hopeful that this could be closed promptly.

Such action would add another county to a series of links of county seats in this area. Recent completion of the Garden City-Big Lake road joined, Howard, Glasscock and Reagan county seats with a paved road for the first time. Opening of the Gail road as an all-weather project would about halve the distance by present

WHEAT PRICES SOAR

New Grain Program To Benefit Farmers

CHICAGO, June 9. (AP)—A new twist to the government wheat loan program was seen today as highly attractive to farmers.

Grain men here felt the new program, announced late Tuesday by the Agriculture Department, would cause wheat to be held back by farmers. It should prevent markets from slumping sharply below government loan levels, they said.

Wheat prices responded to the announcement of the new program yesterday with wide advances, particularly in the Southwest. Cash wheat rounded up 3 1/4 to 11 cents a bushel at Kansas City. Wheat futures rose 3 1/2 to 5 3/4 cents at Chicago.

In Chicago, traders who were short in wheat futures, expecting prices to drop at harvest time, felt Agriculture Secretary Brannan had pulled a new rabbit out of his hat.

Here is how grain men reason the program will work:

1. The farmer can let his newly harvested wheat lie unprotected in a field for 90 days. During that period he will get a loan from the government equal to 75 per cent of the government price support level. That would amount to around \$1.42 a bushel in the Southwest.

2. The farmer then can build, within the 90-day period, bins on his farm to store the grain. For this, the government will loan him 85 per cent of the building cost. Meanwhile, if the wheat piled on the ground deteriorates the government will foot the bill for that loss.

3. When the farm has the bins built he can take his wheat out of the field and put it in the bins. Then he can borrow the full government price support loan, or about \$1.90 a bushel in the Southwest.

Thus the difference between the temporary 90-day loan and the full loan is about 48 cents a bushel. That, in the opinion of grain men, is more than enough to cover the farmer's cost in building the bins. The result is that it's to the farmer's advantage to build the bins. In effect he gets them for nothing because of the difference between the two loans. Furthermore, he has bins on his farm in case he should need them at some future time.

Finally if wheat prices don't get above the full government loan, the farmer can default. The government then gets the wheat and the farmer gets the money. If prices do advance the farmer can redeem his wheat and sell it at the higher price.

LATEST CLOSEUP STUDIES OF STALIN—These pictures of Marshal Josef Stalin, prime minister of the Soviet Union, were taken from a Russian newsreel which has just become available in the United States—showing the Soviet leader in a variety of expressions as he reviewed Moscow's traditional May Day parade last month. Lewis Move In Ordering Week's Shutdown Arouses Senatorial Ire

WASHINGTON June 9. (AP)—Bitter resentment against John L. Lewis seethed today among senators trying to get rid of the Taft-Hartley law's emergency injunction provision.

Those lawmakers claimed privately that the United Mine Workers' chief, in ordering a week's shutdown of the coal pits, probably killed any chance for scrapping the section which calls for court orders to halt strikes threatening the national welfare.

Some senators who favor the Taft-Hartley law figured Lewis' action strengthened their position all along the line.

Word that Lewis had ordered the miners out of the pits for a week starting Monday reached the capital yesterday while the Senate was debating the administration bill to repeal the T-H Act.

Neither that bill as drafted nor a compromise version backed by the Senate's Democratic leadership contains any injunction provision.

The Taft-Hartley law does, and the government has used the provision in the past to halt a Lewis-ordered shutdown. Lewis himself

has demanded repeal of the Taft-Hartley law and he has bitterly denounced the injunction section.

Those circumstances increased the amazement of senators who are plugging for elimination of the T-H injunction section.

Their comments for publication are mild compared to their private remarks about the Lewis move.

One senator told a reporter, "I'm really bitter about this—it couldn't have happened at a worse time."

Another said: "I find it hard to believe. I thought he wanted to get rid of this law."

Jail Food Costs \$363.70 In May

The county was out \$363.70 on food purchased during May for prisoners confined to the county jail, according to a report released by Auditor Chester O'Brien Wednesday.

A total of 934 meals were served during the 31-day period, which averages out to about 40 cents a day per prisoner.

Those in confinement are generally fed two meals a day. The breakfast ordinary consists of sweetbread and coffee. The principal meal is served at noon.

Average daily cost advanced an estimated five cents per prisoner, due to adjustments made in some food lines.

30 PLANES TO HIT PESTS

Task Force Is Mobilized To Meet New 'Hopper' Plague

DENVER, June 9. (AP) — A new grasshopper plague is threatening the grain belt. To keep it from happening, an aerial task force will take off next week from Sheridan, Wyo., loaded with 'hopper poison.'

The target of the 30-plane armada will be a 1,500,000-acre stretch in Wyoming and Montana which the U. S. Department of Agriculture calls the worst grasshopper nesting ground in the country. The job will take about 30 days. The goal will be to wipe out a big, hungry, growing army of migratory 'hoppers. If left alone this army soon could become as formidable as the one that gobbled \$250 million worth of crops in the northern plains states a decade ago.

Grasshopper plagues occur about once every 10 years. 'The hoppers have been growing in numbers the last three years,' says Jim R. Dutton, chief of the USDA grasshopper control division. 'If we didn't do something right now next year would be tough. 'But we're going to do plenty. We don't intend to ever allow grasshoppers to reach plague proportions again.' The USDA doesn't know why the sparsely-vegetated area to be

'bombed' with poison happens to be such a notorious breeding ground. But the worst armies of 'hoppers that ever attacked the grain belt came from there—the big, tough babies who have been responsible for some of the worst agricultural catastrophes in history. When they hatch out, the 'hoppers eat up everything in the immediate neighborhood. Then, when their wings develop, they take off in swarms for croplands where the pickings are better. In plague years, these little Wyoming and Montana monsters have devastated crops from the Canadian border to Texas.

Bolivian Round Up

LA PAZ, Bolivia, June 9. (AP)—The government today announced a country-wide roundup of National Revolutionary Movement (MNR) members. The interior ministry said it acted to prevent 'possible subversive acts.'

SURVIVORS QUESTIONED—A group of survivors from the C-46 plane that crashed about ten minutes after it took off from San Juan, Puerto Rico, for Miami, Fla., June 7, are questioned on the forward deck of the coast guard boat that rescued them as it enters San Juan harbor. (AP Wirephoto).

Three Killed, Seven Hurt In Midwest Storm

BELVIDERE, Neb., June 9. (AP)—This southeastern Nebraska village struggled today to recover from the effects of a tornado which killed three and injured seven. The main part of town was without lights only one telephone was in operation, the water supply was threatened by the power cut-off, and one building was demolished and several others were in shambles. The tornado struck without warning about supertime last night.

Sweeping down the main street of the village of some 300 persons it leveled a cafe and dance hall and partly wrecked a bank, the postoffice, a lumber yard, and a locker plant. The three who were killed were all in the cafe-dance hall, a two story brick building. They were 11-year-old Orville Belle, Jr., son of the operators of the cafe, Dwayne Kilcaid about 22, Marysville, Kas., railroad signalman, and Elmer Poilage, 29, Belvidere railroad section-man. The eight injured were in the same building when the tornado struck. Five of them were hospitalized at nearby Hebron and two others at Hastings Neb. None was critically injured. Two tornadoes were also sighted at Hebron eight miles south of here. Neither struck the town itself but two farms nearby were damaged. No one was injured.

RAN HOME, THEN FORGOT

Ice-Box Deaths Laid To 10-Year-Old Youth

WALNUT RIDGE, Ark., June 8. (AP) — The Arkansas state police reported today a 10-year-old boy said he slammed shut the door of an unused ice box, causing deaths of three other children. Police Lt. H. R. Peterson identified the boy as James (Buddy) Chesser, uncle of one of the victims. The police officer quoted James as saying the children were playing "I-Spy," when all three climbed into the old-fashioned wooden box last Friday. Then Peterson continued the boy related. He shut the door of the box and

was unable to get it open. "My mother called me then to go to the store. I was scared. I ran home and went to the store. Then I forgot." The victims were James Delbert Chastain 2 and Joyce Ann Chastain, 9, children of Mr. and Mrs. Ed Chastain, and Shirley Ann Ramsey, 6, daughter of Mr. and Mrs. Arthur Ramsey. Young Chesser was an uncle of the Ramsey girl. The old ice box was at the home of the Chastain children's parents in a farm community near Walnut Ridge. The other children lived nearby. Mrs. Chastain discovered the children in the box when she returned home from work in the cotton fields. Her son and the Ramsey girl were dead of suffocation. Joyce Ann Chastain died early Saturday. Chesser was held in custody temporarily. Peterson said he doubted there'd be charges. "He's too young to do anything with even if it had been deliberate—and I don't believe it was," Peterson said.

'Luscious' Gal Finds Her Mate

COLORADO SPRINGS, Colo., June 9. (AP) — "Luscious Lucy" appears to have found her man. Lucille Archibque, a Los Angeles accounting clerk, is attending the current convention of the U. S. Chamber of Commerce for the admitted purpose of locating a husband. The 23-year-old brunette, whose extravagant physical architecture has already earned her the name of "Luscious Lucy" among the Jaycee delegates, said last night that 24-year-old Sandy Crews is "just what I'm looking for." "He's got the mo... terrific manners," she said in an interview and he speaks terrific French. I love his French."

Crews, an automobile salesman from St. Catharines, Ontario, Canada, is a convention delegate. His unabashed opinion of Lucille is: "She's really got something." He appears unconcerned over the fact Lucille's husband-hunting expedition is backed by a radio program, Art Linkletter's "People Are Funny." And he isn't especially averse to the idea that she must send periodic "progress reports" to Linkletter. Miss Archibque is pledged to make a second appearance on the air next fall when the Linkletter program is resumed. At that time she will give a detailed summary of her experiences as a huntress. Crews' only worry is that competition may become a little too crowded in this jammed resort town. "I've got to figure a way to scrape off all the other guys hanging around," he said. "You know, this convention ends Sunday. I been thinking. A guy 24 years old ought to be having thoughts about marriage."

Oklahoma Oil Millionaire Dies

PONCA CITY, Okla., June 9. (AP)—Law Wentz, Oklahoma oil millionaire and a Republican leader, died here today. The colorful Republican Party national committeeman had recently returned from a two and a half month stay at Mayo Clinic, Rochester, Minn. He was hospitalized. At that time he was recovering from pneumonia. Wentz, a bachelor, was about 68 years old. He had always kept his age a secret, however.

Houston Man Killed

SEGUIN, June 9. (AP) — A head-on automobile collision west of here yesterday brought death to J. W. Turner, 40, and injury to six others, all of Houston.

HOW TO BUILD AT LOW COST

DALLAS June 9. (AP) — It really was a low-cost housing project. The builder had almost completed his five-room bungalow—at a cost of only \$165. Police wrecked his building plans yesterday. His secret: Materials for the house had been stolen.

O. C. Fisher In Radio Station Bid

WASHINGTON June 9. (AP)—The Communications Commission has authorized Radio Enterprises, Inc., to sell station KVIC, Victoria, to KVIC Broadcasting Co. Inc. for \$190,000. Walter T. McKay and Arthur Stehling asked authority to sell a one-third interest in station KNAF at Fredericksburg, to Rep. O. C. Fisher (D-Tex) for \$7,550.90. The application noted that the same partnership also proposed to sell a one-third interest in station KEVT Kerville, to Fisher for \$10,000.

Falls Out Window

NEWARK, N. J., June 9. (AP)—John Taylor slipped on a rug in his third-floor apartment yesterday. He slid right out a window and landed on the sidewalk. His injuries—bruised arms and legs.

SELF DEFENSE PLEA SEEN

Woodruff Slated To Testify Today

EDINBURG, June 9. (AP) — Delbert G. Woodruff is expected to take the witness stand here today in his trial on a charge of murder in the slaying of Frank Evins. Evins and his brother, Jesse, were slain in an inn two years ago. Woodruff also is charged in the death of Jesse Evins.

A witness testified yesterday he heard shots fired then saw Frank and Jesse Evins mortally wounded.

He was Harry Lankford, Texas A&I student, who attended Edinburg Junior College with Frank Evins.

The defense strategy so far indicated self defense was the basis of its case.

Earlier Mrs. Mary Creason mother of the Evins brothers, broke down on the stand as she testified. She was the first witness. Lankford said he went with Frank to the inn in search of Jesse. He said they found Jesse in Mrs. Evins' room.

He said he heard talk about the custody of the couple's five-year-old daughter, Patricia. Then, said Lankford, this happened:

As he and Frank walked into the hall to leave, Jesse called to them to stay. As they returned Jesse came out the door. They saw Woodruff standing in the doorway of his room across the hall. Lankford said Woodruff had a gun in his hand.

He said Frank thrust the gun upward with both hands saying, "Better put that gun away," and that Jesse rushed to help Frank.

Lankford said he was shoved back into the room and the screen door slammed shut. He said he heard scuffling and three shots.

Lankford went to telephone. He testified that then he saw Woodruff come into the lobby waving a gun.

He said he saw Jesse come to the lobby holding his stomach; that he went back to Woodruff's room and found Frank shot.

Three days before the shooting Mrs. Evins had filed suit for divorce.

STRIKE AVERTED

Atom Workers Win 8-Cent Pay Hike

OAK RIDGE, Tenn., June 9. (AP) — The CIO United Chemical Workers won an eight-cents-an-hour wage increase for 2,000 atomic plant employees here today.

A new contract was agreed upon by officials of the union and of Carbide and Carbon Chemicals Corp. as the old contract expired at midnight last night.

It assured continued production of the vital atomic bomb element — Uranium 235 — in the huge gaseous diffusion production plant here. And it averted a threatened strike which would have been the first in a government atomic plant.

The CIO members were scheduled to vote at two meetings today on ratification of the new agreement. Their average wage under the new contract will be \$1.67 hourly.

The union had sought a 25-cent increase in nearly two months' negotiations. Carbide, which operates all atomic installations here for the government, proposed a six-cent reduction in wages.

The company also is negotiating with the AFL Atomic Trades and Labor Council toward a new contract for 800 employees of Oak Ridge National Laboratory.

The AFL workers receive an average wage of \$1.53 an hour under a contract which expires July 1.

The CIO agreement with Carbide was announced after almost 40 hours of continuous negotiations. A joint company-union statement said the contract is to run for two years with provision for reopening wage discussions after one year.

The statement disclosed that in addition to the wage increases, the agreement provided: Time off for jury duty and for funerals in employees' families, several upward adjustments in representations on committees, a minimum of five cents per hour increase on promotion, and an improved grievance procedure.

Hearing Is Set Today For Dock Workers Leader

SAN FRANCISCO, June 9. (AP) — CIO longshore leader Harry Bridges, who twice before rode out government efforts to deport him, is to be arraigned today on federal charges of perjury and conspiracy in obtaining his citizenship.

Bridges was indicted by a federal grand jury May 25. He was accused of lying when he testified at his 1945 naturalization hearing that he was not then and never had been a Communist.

The Australian-born Bridges is president of the leftwing International Longshoremen's and Warehousemen's Union. One of his top aides ILWU Vice President J. R. Robertson was to be arraigned with him on a charge of aiding in the conspiracy.

Henry Schmidt another top ILWU official now directing the union's waterfront strike in Hawaii, was indicted on the same charges as Robertson. Schmidt's arraignment was postponed a week.

Attend Rites For Miss Maier In Fredericksburg

Dr. A. M. Bowden and others from the Big Spring State hospital staff attended funeral rites for Matilda Maier in Fredericksburg Wednesday.

Miss Maier, who had been social worker at the state hospital here for the past three years, died at her home in Fredericksburg Tuesday afternoon. She had gone there approximately 10 days ago, suffering from a critical and incurable illness.

Until her health broke last year, Miss Maier was active in many affairs outside of her hospital service. She was first secretary of the Friends of the Howard County Free Library, had been active with the university women, as a member of the Hogg Foundation study group, and was associated with local social workers. She had been a veteran employee of state eleemosynary institutions.

Court Division Offers Chance For Freer Movement Of Justice

Counties encompassed in the 70th judicial district are now in line for relief from congested dockets.

The governor has signed a measure which creates the 118th district comprised of Howard, Martin and Glasscock counties. This has the effect of reducing the 70th district to two counties—Midland and Ector counties. Unprecedented growth in the three major cities—Big Spring, Midland and Odessa—had not only produced an almost insurmountable problem for the court serving the counties in which they are situated, but it posed another problem. Martin and Glasscock, being on the small end of the horn, were pinched to provide space for the other three counties.

Now the way has been opened for correcting this condition. Charles Sullivan, Big Spring, whose appointment as district judge was announced by the Governor, and Elton Gilliland, Big Spring, who was made district attorney of the new district, have an opportunity and a challenge to expedite judicial proceedings under the new arrangements for the eastern tier of counties. The bar, too, has its responsibility in helping bring this about.

Under the revised court status, the way is now open for freer movement of the judicial machinery. It is good to see over-loaded court officials relieved of too great burdens. It is better still that the people will stand to benefit by the creation of a new district.

Swimming-Life Saving Classes Should Command Good Interest

The Big Spring YMCA and the Howard-Glasscock chapter of the American Red Cross are combining efforts to offer a sound public service to this area.

Together they are offering free swimming and life saving instructions to all who desire it.

The effort is opportune. This is a season of the year when people from six to 60 are seized with a sort of summer madness which impels them to unconsciously show how carelessly they can be with their lives and those of their loved ones. Some will show off at the wheel of speeding automobiles. Others will unconsciously bid for final lighting in the vital statistics somebody of water that offers swimming and boating opportunities. Thoughtlessly, they will chance disaster in strange waters with a casualness of a man walking across his own lawn.

Most will get by with their action.

Some, unhappily, won't. The result will be sorrow, headlines, and lost breadwinners.

The instruction made possible here without charge (only cost is the nominal pool fees) offers a partial preventative. Those who learn to swim will at least have a chance in the water. Those who get further with lessons will not only become fairly expert, but they will be inculcated with a knowledge of their limitations and of water hazards. The few who take the ultimate step by life saving participation, will learn not only how to act in emergencies, but how they can be of some aid in saving others who do not have this knowledge.

Both agencies have pioneered in this field of service and are qualified to do a good job. The training is available—we hope a large number will take advantage of it for safety's sake.

PREVIEW OF SUMMER

Around The Rim—The Herald Staff

Traffic Problem Can Be Solved By Outlawing The Private Auto

Every American, no matter how quiet and studious his tastes, sooner or later must become conscious of the automobile. It dominates our national life and thinking to a truly amazing extent; in fact, it might almost be said that in America to be without a car is to be a nobody. The youth with a battered flivver invariably wins the girl, even though his rival may be able to give her a home and a checking account.

One of my favorite pastimes of a Sunday evening is to sit in a comfortable glider on the porch, pipe in mouth and book in hand, and watch the cars whizzing past, while I speculate upon the mentality of people whose idea of a good time is to climb into an automobile and drive frenziedly hither and yon the whole live-long day. I have not yet come up with any workable hypothesis; yet it appears to me that the automobile is in no small way responsible for the general restlessness that characterizes modern society.

All of us are familiar with people who seem unable to sit still for more than 15 minutes. When visiting friends, they crawl about the rooms, taking up things, dropping them, fidgeting, watching the clock, grudging every moment that keeps them away from the family car and the open road; to use a humorous phrase:

Incidentally, it cannot be lamented that the advent of the automobile has done away with the joys of tramping country roads, so justly celebrated in immortal song by Walt Whitman and Bliss Carman. There are no country roads now; they are all paved automobile thoroughfares, and it is as much as a hiker's life is worth to get up on the slab.

I am not one of those who yearn for a return to horse-and-buggy days; indeed,

it seems to me that the slaughter which goes on daily on our streets and highways may be the way Providence has chosen to repay us for our brutality to the horse during all the inconceivable ages when that faithful animal was our sole means of transportation. However I do think that certain roads not only should be left unpaved, but kept sacred to the uses of pedestrians. I also believe that cities and highway systems will be more intelligently planned in the Atomic Age, and that future builders will consider the pedestrian as well as the motorist.

It is possible that the very numbers of the automobiles themselves soon will solve the problem. No one will dispute the fact that there are entirely too many cars in America today. In some cities traffic is so congested that a tendency has developed for residents to sell their cars and use the taxicab and bus instead. This is all to the good, and it is to be hoped that eventually the private car will disappear from our city streets. With it, too, will disappear the all-too-familiar scene of horror whenever another life is added to the traffic toll. Regardless of anything else that may be said about taxicab and bus companies, they do not employ drunks, fools and lunatics as drivers.

It will be still better when the federal government takes over all public conveyances, and outlaws the private car. If it should be argued that this would infringe upon individual rights, the one answer is that no human being has a right to jeopardize the lives of his fellows. We do not allow just any citizen to carry a gun and the private automobile, by its very nature, is a far more deadly weapon.

—R. G. MACREADY.

Nation Today—James Marlow

Atlantic Pact Means U. S. Must Give Up Any Idea Of Isolation

WASHINGTON, (AP)—NOBODY PAYS much attention to a sneeze from a man with pneumonia, and—

In the world that's very sick, one of America's most far-reaching steps, the Atlantic Pact, is being taken for granted, too.

So, perhaps better than anything you can point to, the American attitude about the Atlantic Pact is a sign of the times.

There was no excitement when all 13 members of the Senate's Foreign Relations Committee this week approved our joining the pact.

The committee's final decision was never in doubt. Now it goes to the full Senate for debate because, since the pact is a treaty, two-thirds of the Senators must vote for it before we actually join.

BUT THE OUTCOME THERE ISN'T IN doubt, either, at this writing. And within a month or so we can be expected to solemnly join the Atlantic Pact.

Under that pact or agreement, this country and 11 others in the North Atlantic area will stand together in case of attack

by Russia.

Russia, of course, isn't mentioned by name.

But it's aimed solely at Russia and it's a sharp illustration of how this country has changed its mind in only 10 years.

A pact like this was impossible in 1939, when Hitler was getting ready to let war loose and gobble up the terrified Western European Democracies one by one.

This country was confused then, and split down the middle between a desire to stand shoulder to shoulder with western Europe and stay withdrawn in our ancient isolation.

YET, IF THERE HAD BEEN SUCH A pact in 1939 Hitler might have been afraid to start his war. So the war taught us that our isolation had been a booby trap.

The proof that we had learned came just before the war ended when we joined in organizing the United Nations. That was a sensational step for us, all by itself.

But it broke the ice for us in making the decision that henceforth we'd have to be up to our necks in world affairs.

Merry-Go-Round—Drew Pearson

Sen. Douglas' Opinions Have Changed Sharply Since Election Last November

WASHINGTON—Liberal Democrats are doing some frantic missionary work on Illinois' strong-willed Sen. Paul Douglas to steer him away from his right-wing drift.

When Douglas ran for the Senate last fall the charge of pink and left-wing radical was constantly hurled at him by the Chicago Tribune. Friends of Douglas knew this was anything but true. But they did not know that once elected to the Senate he would veer so sharply to the right. Now some of the senators who were elected in the same senatorial turnover last November fear their colleague is actually edging over to the Republicans.

What really worries the Democrats is that Douglas has been conferring privately with Republicans on the Tallantley Law. He also favors more compromises than the administration approves, won't accept a flat 75-cent minimum wage, and is even more vigorous than Republicans in advocating economy.

One liberal senator, listening to Douglas preach economy on the Senate floor, shook his head sadly.

"Douglas came into Congress as a great liberal," the senator flung over his shoulder, "but he'll end up as a great conservative."

Other liberal senators who rode the Democratic tide into the Senate with Douglas last November—such as Humphrey of Minnesota and Anderson of New Mexico, Kefauver of Tennessee—have tried hawking Douglas into a corner and giving him a friendly pep talk.

But one senator complained: "It's no use. He just gets his back up and bristles."

Another liberal colleague tried to explain Douglas's behavior: "He's just knocking a few nails out into right field to prove that he's not a radical and a Communist."

DOUGLAS IS AMUSED

Douglas, himself, chuckled the other day at his colleagues' concern.

"Liberals snuff each other just as dogs do," he twinkled. "Don't worry, I'm still a liberal."

Then with a grave frown, he added: "There's a danger of liberals and conservatives becoming stereotyped."

Explaining his stand on economy, Douglas declared: "I believe in spending less, but I believe in spending it humanely. Some want to economize by eliminating social welfare. I want to economize on other things to make more money available for social welfare."

Instead of the flat 75-cent minimum wage called for by President Truman Douglas wants a 45-cent minimum wage with an escalator clause, permitting it to go up or down depending upon business conditions.

Some of Douglas's worst critics are government economists. Though Douglas was an economics professor at the University of Chicago, government experts claim his economics aren't sound. In reply, Douglas snorts: "It's guilty as association in reverse."

NOTE—Douglas has proved his ability as both a man of letters and a man of action. Though an average professor, he enlisted in the Marines as a private during the last war, worked up to the rank of lieutenant colonel. Twice wounded in action, he was awarded the bronze star for heroism.

are as many as 700 families bunched together. These people are crying for homes of their own and they could afford to pay seven or eight thousand dollars. But they can't afford to pay the \$20,000 and \$30,000 being charged for homes by the big real estate boys."

"I don't think Congressman Church would be interested in coming down to your district," needed Sabath. "He represents a silk-stocking district north of Chicago where they don't have any housing worries to speak of."

At this point Jim Wadsworth grabbed his hat, and the gruff comment: "This discussion is getting too personal for me." Finally placated by colleagues, however, he agreed to remain.

MERRY-GO-ROUND

Mrs. Eneida Anderson of Red Wing will be the next American ambassador to Denmark. She's the Democratic National committee woman from Minnesota.

Henry Kaiser, Jr., has announced the Gary Cooper, who played Lou Gehrig in the movies, has joined the Lou Gehrig Foundation to combat the dread disease, multiple sclerosis. Young Kaiser has fought a valiant battle to recover from this same disease, the ailment that killed Lou Gehrig.

FBI men are investigating the sale of a large section of Brooklyn waterfront to the Coast Guard by the late Joseph P. Day, a big New York real estate operator. The land known as Manhattan Beach was sold to the government during the war. However after the deal—which netted Day \$5,918,000—the government found out that part was under water.

at Indianapolis Memorial day and the footage will be used in the film. It's the story of a kid's rise from hot-rods to the big race.

Today And Tomorrow—Walter Lippmann

Cassandra Adds Voice To Those Of Truman And Gen. Marshall

The celebration of the second anniversary of the Harvard speech, in which Secretary Marshall suggested the European Recovery Program, comes at a time when in Western Europe, the United States, and indeed almost everywhere, trade is declining, profits are falling, and unemployment is rising. As in the months which preceded the Harvard speech, the signs of a crisis in the making are too plain to be disregarded. There is every reason to think that the crisis which is now in the making will require a greater effort on the part of statesmen and people than that which began to develop in the early winter of 1947.

For then the question was how by a revival of production and with American aid, the general standard of life could be raised from the low level to which it had been brought down by the war. But now, with production in Western Europe on the whole above pre-war and with American aid beginning to taper off, the question is how the existing European standard of life can be maintained. Though it is still very low, there is little prospect that in the near future it can be improved. There is the grave question whether it will not have to fall.

Though it is quite true that but for the Marshall plan the condition of Europe and the world would be much worse than it is, there is little ground for complacency and self-congratulation. The problem of European recovery is manifestly deeper and more stubborn than most of the operators of the Marshall plan realized, than any were willing to admit publicly. The economic exhaustion of Western Europe has been greater than the official estimates allowed, and the disruption of the channels of trade and of the media of exchange has been such that only by extremely artificial, and therefore quite temporary devices, has a moderate volume of trade been restored.

The fragile recovery which has been achieved is now threatened by a world wide deflation in which, unlike 1947, the United States is involved. The deflation has set in before, but just before, Germany and Japan are being encouraged to enter the world wide competition for contracting markets.

The signs of the crisis which made the Marshall plan necessary were quite visible at least four months before the Harvard speech. By the end of January it was evident that the American and Canadian credits, which were intended to

see the United Kingdom through 1951, were going to run out much sooner. In fact they were used up by August of 1947.

Not until May did Mr. Acheson, then the Under Secretary of State, make the address to the Delta Council which was in fact the forerunner of Mr. Marshall's Harvard speech a month later. Another half year passed before Congress provided interim aid. A year passed before it appropriated the money for the Marshall plan.

The crisis which is now in the making will call for a better timetable than that. There are experts in all the countries who know it. But if measures are to be conceived, and the extraordinarily difficult decisions are to be taken, before the deflation goes out of control, the statesmen with the highest responsibility in the Western world will have to face up to the problem right away.

For our policies and our political hopes are based upon, and depend upon, the premise that the Western world, including Western Germany, can count upon a rising standard of life amidst conditions of increasing confidence and stability. A world wide deflation, with contracting markets, reduced consumption, rising unemployment—especially if an American deflation aggravates it instead of compensating for it—will soon change, and not for the better, the political and diplomatic climate in which Mr. Acheson administers his policies.

Today's Birthday

June 9, 1883, in Buffalo, N. Y., son of a high school principal and younger brother of Harry Emerson Fosdick, who became pastor of New York's Riverside Church. This president of the Rockefeller Foundation was graduated from Princeton in 1905, got his master's degree a year later and his law degree from New York law school in 1908. He became assistant corporation counsel for the City of New York under Mayor McClellan, later civilian aide to Gen. Pershing, and then first under secretary general of the League of Nations. After a long career in social service he became president of the Rockefeller Foundation in 1936 with \$200,000,000 in assets entrusted to his administration.

Hollywood—Bob Thomas

Red-Headed Star Plans Vacation From Movies

HOLLYWOOD, June 9.—Katharine Hepburn plans to take a prolonged vacation from films. The actress' times in her MGM contract with her current film, "Adam's Rib." In October she begins rehearsals of "As You Like It" for the Theater Guild. If it's a hit, she'll be in the play most of next year, although she may return here for a picture next summer.

"I'm very excited about it," she told me. "It's the first class I've ever done. And I love to tour with a show."

Hepburn is again co-starring with Spencer Tracy in "Adam's Rib" and it's a delight to watch them work. Much kidding goes on between scenes, as when Tracy admired her in an evening gown and commented "she doesn't look a day over 50."

Jack Benny is responsible for getting Phil Harris his straight acting role in "Wabash Ave." When Jack heard producer Bill Perlberg moan that he couldn't get Paul Douglas for the role, he replied, "Harris can do anything Douglas can do."

The comic talked Perlberg into testing Harris for the role and he got the job. "This is the first part I've had that wasn't all teeth and eyes," says the curly-topped band leader.

Newlywed Mickey Rooney is slated to start preparations for "The Big Wheel" this week. His company took reels of the racing

Affairs Of The World—DeWitt MacKenzie

Why The Atlantic Pact Is So Important In World Affairs

THE SENATE FOREIGN RELATIONS committee, having unanimously approved the much debated North Atlantic Pact, advises the Senate to adopt it as the best means of avoiding another world war and warns that failure to ratify "would have disastrous consequences abroad."

Why the emphatic language? What gives this treaty such vast importance?

The value of this historic pact lies in the fact that it is a declaration of determination by the 12 signatories. It is an announcement that they stand together as a unit, one for all and all for one.

The amount of military power which they can muster to back the treaty doesn't matter so much as that exhibition of determination. Actually they represent great military power—but the thing that counts most is their decision to use it collectively in defense. That makes strong medicine for peace—a mighty deterrent to war.

NOW OF COURSE, HAVING TENTATIVELY agreed to this treaty, the signatories—America and Canada, with Britain, France and eight other western European nations—are likely to come a cropper if they don't ratify the treaty. Why? Well proponents give two reasons. One is that it would advertise a great weakness to possible aggressors, and the other is that it would be an almost irreparable shock to the morale of the European signatories who have dared so greatly in making the preliminary agreement.

After all, it has taken great courage for countries like Denmark and Norway to make this stand in face of warnings from

Why The Atlantic Pact Is So Important In World Affairs

Moscow to lay off. A breakdown of the treaty project now would leave things much worse than they were before the pact was proposed at all. It would be wholesale encouragement to the Russian bloc to intensify the cold war.

AS A MATTER OF FACT THERE IS small doubt that a breakdown now would have great repercussions, not only in Europe, but in the Far East.

Testimony Starts In Babich Trial

MILWAUKEE, June 9. (AP)—Milwaukee Babich, 19, went on trial today for the gunshot slaying of Patricia Birmingham, his wife's 16-year-old sister.

Testimony in his first degree murder trial opened in Judge Herbert Steffes' municipal courtroom before a jury of 12 married men and a single girl.

The jurors were selected from 32 veniremen in a day-long session yesterday. Four of the panel were excused for cause, eight were struck by the state's peremptory challenges, and 13 by the defense.

Nine of the jury's 11 male members are fathers of from one to four children. A housewife, mother of two children, was picked as an alternate juror.

Judge Steffes told the jury, "we are going to insulate you completely from the outside world. You may not read the newspapers, nor may you listen to the radio."

He cautioned the jurors not to discuss the case—"Not even among yourselves." Then he ordered them locked up for the night.

Babich, in a statement released by the district attorney, admitted the shooting of Patricia, but claimed it was an accident. He said he produced a gun intending to frighten Patricia so she would not reveal that her sister, Kathleen, was pregnant. Babich maintains Patricia was shot during a struggle for the gun. That was on Feb. 10.

On March 17, Babich and Kathleen eloped to Michigan. Three days later, Patricia's body, tied to a concrete building block, was fished from the Milwaukee River.

SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

This is about the last call for planting Chrysanthemums, unless you want to give them extra care in becoming established. They can be planted as late as June, but why wait?

For the practical, busy gardener, we suggest the early flowering hardy varieties that don't have to be disbudded, especially in sections where frost comes early. In most of the South the later varieties are practical. The September varieties are often affected by dry weather in the Upper South unless they can be artificially watered.

Someone asked recently, what is the difference between Azaleamum and Cushion Mum. The way we understand it is that the only difference lies in the name. "Azaleamum" is a trade mark of a firm producing the low, spreading Chrysanthemum. Other dealers offer the same kind of plant under the name "Cushion Mum." They are in no way related to Azaleas. This name was taken from the form of the plant and the profusion of its flowers.

This dealer in "Azaleamums" offers one variety that we are "longing for," but hate to pay the price as we want so many. It is called "Carnation Rose," and from the picture the color is magnificent. If anyone loves deepest rose shades, this will be almost irresistible. Guess we had better go ahead and put it in our order. We talked ourselves into it.

Chrysanthemum Culture
Deeply spaded, good garden soil will grow good Chrysanthemums. They do not need to be fertilized at planting time. After the new growth starts, it is time to fertilize if the soil is not good. Should not be applied in extremely hot or dry weather.

Well rotted compost spread over the beds or around the plants will make a good summer mulch. Chrysanthemums should have plenty of water, but not on the foliage. Always soak the plants, never sprinkle. The roots should be encouraged to go down into the soil. Surface watering causes roots to form on top or near the surface of the ground.

The types of Chrysanthemums that have to be disbudded for large blooms are more trouble than the hardy garden varieties. But many gardeners want them for show purposes. Should be grown from twelve to eighteen inches apart. From two to three blooms can be had from a plant for exhibition.

Chrysanthemums paint the fall garden just as Tulips, Iris and their contemporaries blob our borders with exquisite pastels in the springtime. Plant Chrysanthemums. Plant them profusely in groups, drifts, patches and banks. After the usual siesta of summer, your garden will wake again with a riot of color that will reward your patience and bless your heart until the last blossom falls into the arms of winter frost.

To Attend Convention

Mamie Mayfield, Moore Sawtelle, Ina Deason, Betty Canning, Faye Coltharp and Lina Flewellen will attend the state convention of Business and Professional Women's Clubs to be held in Houston this week. Sessions begin Friday and will continue through Sunday.

FIRE CHIEF, TWO AIDES KILLED AS BRICK RETAINING WALL FALLS

ST. PAUL, Minn., June 9. (AP)—The St. Paul fire chief and two aides were killed early today when they were trapped by a falling brick retaining wall in the Mid-

way industrial district. The victims were: Fire Chief Edward Novak, Assistant Chief Frank McMahon, and Harold Barck, a district chief. Bud

Walters, a fireman, was taken to a hospital in serious condition. The wall collapsed after a comparatively minor fire in a waste-paper stockpile had been extinguished. The blaze started shortly before midnight at the plant of the Waldorf Paper Products Co., located at the western edge of St. Paul near the Minneapolis city

limits. Novak and his aides were directing the placement of hoses to quell the last of the fire when the wall fell without warning. Police said it came down with a crash resembling an explosion. Showers of bricks, sparks, and other debris scattered more than

1,000 spectators. Several suffered minor hurts but did not require hospitalization. Novak and McMahon were dead when firemen tore through the mass of wreckage to them. Barck died in an ambulance on the way to Midway Hospital.

Margaret Christie Is Club Speaker; 4-H Group Welcomes Natalie Newsome

VEALMOOR, June 9. (Sp) — Proper home lighting was discussed by Margaret Christie, county Home Demonstration agent, and the correct and most appealing method of making pimento cheese spread was discussed by Joan Gay and Billie Gene Walker at the meeting of the Vealmoor Home Demonstration club in the home of Mrs. Curtis Zant. Refreshments were served to Mrs. Coker, Joan Gay, Billie Gene Walker, guests and Mrs. John Jackson, Mrs. Gene Crittendon, Mrs. Elton Clanton, Mrs. Ellis Iden, Mrs. Floyd Newsome, Mrs. Porter Hanks, Mrs. Joy Collins, Mrs. Carl Peterson, Margaret Christie, Mrs. Dewey Hanks and the hostess, Mrs. Curtis Zant. Mrs. Gene Crittendon will serve as hostess at the next meeting Friday, June 17.

Wedding Date Set

STANTON, June 9. (Sp) — Mr. and Mrs. L. E. Rowden announce the engagement and approaching marriage of their daughter, Beth, to Joe McDonald Ayres of Houston.

The wedding will occur in the Little Chapel-in-the-Woods at Texas State College for Women in Denton Friday, June 24. The Rev. Phillip Walker of the First Methodist church of Denton will officiate.

Attendants for the bride-elect will include Ruby Smith of Graham, maid of honor; Mary Francis Ayres, of Dallas, sister of the bride-groom-elect and Bobbie Riddle, Weatherford, bridesmaids. James McLane of Houston will serve as best man. Announced ushers are Kenneth Davis of Canadian and Jack Mohler of Long Island, N. Y.

Miss Rowden is a June graduate of Texas State College for Women and will receive her BS degree in Home Economics. Ayres graduated from North Texas State college in January with a BBA in merchandising and is now employed with the T. J. Bettes Co. in Houston.

Dorothy Hamilton Is Named Honoree Of Party Series

STANTON, June 8. — Continuing the series of pre-nuptial parties complimenting Miss Dorothy Hamilton, Mrs. George Wilke and Mrs. Poe Woodard entertained with a coffee Tuesday morning in the Woodard home.

Guests were greeted on arrival by the hostesses, and Miss Lela Hamilton, sister of the honoree, presided at the register. Entertaining rooms were decorated with large fan-shaped bouquets of flame gladiolus.

In the dining room, a cluster of three wedding bells tied with white satin ribbon hung from the chandelier. The table was laid with an imported white linen mosaic cloth. An arrangement of flame carnations in an antique turban formed the centerpiece, which was flanked by tall flame candles in silver holders. Mrs. Jim Tom and Mrs. Edmund Tom presided at the silver coffee service during the morning. Tiny hot rolls, sausages and cookies in silver trays completed the table appointments.

The honoree was presented with an antique cut glass vase by the hostesses. About twenty-five guests called during the morning.

Miss Hamilton's daughter of Mrs. Noye Hamilton of Stanton, will be married Saturday morning to Mr. DeWayne Davis, son of Mr. and Mrs. Cecil Davis, of Midland. The wedding ceremony is to be held at the First Methodist church, in Stanton.

Hartwells Notes

HARTWELLS, June 9. (Sp) — Light showers fell here Sunday and Monday evenings, and last week a high wind blew destroying a large number of crop acreage. Farmers are replanting and others are trying to salvage some of their crops which could not be planted again.

Twenty nine persons, a number of them visitors, attended Sunday School Sunday morning.

Mr. and Mrs. A. L. Herndon and daughters, Barbara and Audrey of Birmingham, Ala. are vacationing throughout the west and are guests here in the home of Mr. and Mrs. Earl McKaskle. Other guests in the McKaskle home are Mattie Head and Mrs. W. B. Rainey and daughter, Flora of Tuscaloosa, Ala.

Mrs. Stella Yates of Big Spring was a Saturday evening guest in the home of her daughter, Mrs. M. G. Burchett.

Mrs. J. T. Gross and Mrs. D. A. Barmore visited Sunday afternoon in the home of Mrs. T. H. Hughes in Big Spring.

Sunday dinner guests in the M. C. Burchett home were Mr. and Mrs. Bill McIlvain and son. Recent guests in the W. E. Burchett home were Pete Hudgins of Cleburne and Alvin Hudgins and Donald Hale of Big Spring and Mr. and Mrs. H. T. Burchett and Melba Burchett of this community.

Elna Wilkinson of Fort Worth is visiting in the Bill McIlvain home while on a business trip here.

Wayne Burchett was a weekend guest of his cousin, Billy Cunningham of Big Spring.

Mr. and Mrs. H. T. Burchett have received word from their daughter that their son-in-law, the Rev. Paul Deal, will undergo surgery in the near future.

Mr. and Mrs. D. A. Barmore and family spent Monday evening with his parents, Mr. and Mrs. N. Barmore of Loreine.

Royal Service Program Is Held By Baptist Group

Mrs. Brandon Curry directed a royal service program for a regular meeting of the Northside Baptist WMS held at the church Tuesday. Theme for the meeting was "Christ, The Answer For Questioning Youth."

After the meeting opened with the singing of "All On The Altar," Mrs. G. T. Palmer lead the opening prayer. Mrs. L. B. Moss presented a devotional entitled "Proud Glory Of Abiding Love."

Mrs. W. L. Richardson discussed "O' Such Is The Kingdom Of Heaven." "Found Faithful" was the theme presented by Mrs. V. T. Connell. "Even A Child Is Known By His Doing" was the subject taken by Mrs. Brandon Curry.

Lua Curry played "Fairest Lord Jesus," which was followed by the reading of a letter from the mother of a missionary by Mrs. R. A. Humble. The group voted to send school supplies to this missionary to help with her work. Mrs. L. B. Moss led the closing prayer.

Mrs. Grady McCrary Entertains Club

Mrs. Grady McCrary entertained the members of the Needle and Thread club in her home, 211 E. Park, Tuesday afternoon, with Mrs. Fred Thompson as co-hostess.

Secret pal gifts were exchanged and refreshments were served. Attending were Mrs. G. M. Burngarner, Mrs. T. J. Clark, Mrs. W. W. Croan, Mrs. Harvey Wooden, Mrs. Marvin Sewell, Mrs. S. R. Morris, Mrs. Curtis Reynolds, Mrs. Fred Thompson and Mrs. McCrary.

Mrs. Jessie Townsend Leads Sorority Program

Mrs. Jessie Townsend discussed "Wedding Etiquette," followed by a round-table discussion at the business meeting of the Nu Phi Mu chapter of the Beta Sigma Phi at the YMCA headquarters Tuesday evening.

Those present were Bobbie Green, Evelyn Anderson, P. D. Hewitt, Muriel Floyd, Betty Robertson, Melba Preston, Delores Lewis, Evva Smith, Patsy Young, Quepha Preston, Billie Sims and Francis West.

Mrs. T. M. Lawson Is Club Hostess

Mrs. T. M. Lawson entertained the Leisure Bridge Club at a meeting held in her home. Mrs. J. D. Caudle won high and Mrs. F. Neill big end.

Those present were: Mrs. J. D. Caudle, Mrs. J. F. Neill, Mrs. Henry Long, Mrs. Gene Nabors, Mrs. Lewis Amano, Mrs. Paul Scherer, Mrs. Don Burnam and the hostess.

RIBBON RAMBLINGS

By MILDRED YOUNG

"In Nottingham, England, is the Wesleyan Chapel where William Booth, founder of the Salvation Army, was converted. A memorial tablet marks the spot where this notable friend of the friendless received his baptism of spiritual power. The Salvation Army leaders from around the world journeyed to that chapel as to a shrine. One day an aged colored man in the uniform of the army was found by the minister of the chapel standing with uplifted eyes before the tablet. 'Can a man say his prayers here?' he asked. 'Of course,' was the reply, 'man can say his prayers here.' And the old Salvation Army colored officer went down on his knees and lifting his hands before the tablet prayed: 'O God, do it again! Do it again!'"

It seems that there are some people who manage to get millions of things done well every day. Others work just as hard or even harder and never get ahead. It's always been our opinion that part of most success is being at the right place at the right time and being able to do the right thing. But some who know say that success not only depends on what one does, but what they are willing not to do. It seems that it is just as bad to be overloaded as to do nothing. If a person wishes to be successful, he is advised to do some things well and to do them without letting them control him. If you can do only one thing well, it is better to devote your time to that rather than to clutter your life with a lot of odds and ends that will never contribute a great deal to your life or anyone else's. Whatever you do, try to do it better. It's something of the old idea of building a better mousetrap. Even if the world doesn't beat a path to your door, you'll be a lot happier over your achievements.

Mrs. Everett M. Ward brought the Bible lesson from the fourth chapter of Romans at the meeting of the Woman's Missionary Auxiliary at the State Street Baptist church Monday afternoon.

Prayers were offered by Mrs. T. J. Mitchell and Mrs. D. O. Worthan. Mrs. L. B. Worthan led the group singing and Arlene Mitchell played the accompaniment.

To Be Hostess

Mrs. Bert Matthews, 704 Douglas, will entertain the Happy Sitchers Club Friday at 2 p.m.

Laverne Martin And Joe Mac Gaskins Exchange Wedding Vows In Ackerly

KNOTT, June 9. (Sp) — Laverne Martin of Ackerly and Joe Mac Gaskins were united in marriage in the Ackerly Methodist church Saturday evening. Miss Martin is the daughter of Mr. and Mrs. G. W. Martin and the bridegroom is the son of Mr. and Mrs. O. B. Gaskins.

The Rev. W. L. Driver, pastor of the church, read the double ring service as the couple knelt on the white satin covered kneeling bench. The altar scene was decorated in white gladioli, palms and ferns and flanked by lighted cathedral tapers in five candelabra which illuminated the chapel.

Mrs. E. J. Turner, pianist, played a prelude of nuptial music including the traditional wedding marches. She also accompanied the soloist, Sue Kellam of Lamesa, cousin of the bride, as she sang, "O Promise Me," and "I Love You Truly."

Janelle Martin, sister of the bride, and Joy Preston of Ackerly lighted the candles. Miss Martin wore a dress of pink chambray and Miss Preston wore a gown of yellow chambray. Both girls wore wristlets of pink carnations. Given in marriage by her father, the bride wore a dress of white shadow organdy over white taffeta. The fitted bodice featured a dainty yoke of tucks and tiny buttons with a Peter Pan collar. The sleeves were short and puffed. She wore white organdy mitts and an off-the-face hat featuring a short veil. She carried an arm bouquet of white carnations and gardenias and wore a strand of pearls, a gift of the bridegroom. Carrying out the tradition, she wore a wedding band belonging to her grandmother as something old. Something new was her wedding attire; borrowed was a bracelet belong to her aunt, Mrs. Angus Sandell of Las Cruces, N. M.; something blue, a garter; and she had a penny in her shoe for luck.

Mrs. Royce Smith of Abilene was the bride's only attendant. She wore an orchid eyelet embroidery dress with white and orchid accessories. She carried a Colonial arm bouquet of summer flowers.

Larry Shaw served as best man. Ushers were G. W. Martin of Ackerly, brother of the bride, and Edwin Thomas of Key, cousin of the bridegroom. Corley Kellam, cousin of the bride, of Lamesa was the ring bearer.

Mrs. Martin, mother of the bride, chose a green chambray dress, with brown accessories and a yellow rosebud corsage. Mrs. Gaskins, mother of the bride-

groom, wore navy blue with matching accessories and a pink rosebud corsage.

Immediately following the ceremony, a reception was held in the church parlor with relatives and close friends of the families attending. The bride and bridegroom were assisted in receiving by their parents and members of the wedding party.

The bride's table was covered with a lace cloth and centered with a crystal basket filled with garden flowers and flanked by lighted white tapers. Crystal and silver appointments completed the table setting. Miss Dudley Coleman of Ackerly and Virginia Trice of Sparenberg presided at the refreshment table.

Guests were present from Las Cruces, N. M., Abilene, Big Spring, Lubbock, Lamesa, Corpus Christi, Robstown and Sparenberg. Mr. and Mrs. J. B. Martin, grandparents of the bride, of Sparenberg were among the special guests present.

The bride graduated from Ackerly high school and attended McMurry college in Abilene, where she was a member of Gamma Sigma and Wah Wahlayesse. For the past year, she has taught in the public schools in Ackerly. The bridegroom graduated from the local high school and from Draughon's Business college.

For travelling, Mrs. Gaskins chose a two piece brown chambray dress with white accessories. She wore a white gardenia corsage. When the couple returns from the wedding trip, they will make their home near Knott, where Gaskins is engaged in the farming industry.

EAT PLENTY AND TAKE OFF UGLY FAT

When you buy Barometra, you buy a prescription diet. You do not pay for any printed diet or for vitamins to fortify you against weakness while on a starvation diet. You need never know a hungry moment while taking this prescription. Barometra is the original grapefruit juice recipe for weight reduction.

Just go to your drugstore and ask for four ounces of liquid Barometra. Put this into a pint bottle and add enough grapefruit juice to fill bottle. Then take just two tablespoons twice a day. That's all there is to it.

If the very first bottle doesn't show you the simple, easy way to take off ugly fat, return the empty bottle for your money back.

Lost 56 pounds

Here is what Mrs. L. J. Bryant, P. O. Box 66, Wauwatosa, Wis., wrote me: "I want to tell you what Barometra has done for me. I weighed 160 pounds when I started taking it. I now weigh 112. 'I have taken my dress size down from size 40 to 14 and never felt better in my life and everybody tells me how much love I look like I did. 'I am still taking Barometra as I want to get my weight down to 100 or 104 pounds.'"

Steeds Play Swatter Contingent Tonight

Locals Split With Roswell

The Big Spring Broncs move to Sweetwater tonight to open a game with the torrid Swatters after splitting a Wednesday twin bill with Roswell's Rockets before some 1,100 fans in Roswell.

The Hosses won the opening game, 3-1, behind the expert elbowing of Lefty Gumbo Helba, then dropped the second, 5-4. Louis Gonzales, a former team mate received credit for the second game win.

Pat Proulx's fourth inning home run with a man on decided the second game.

Big Spring scored all its runs in the sixth inning of the first game. Carlos Pascual drove in two of the markers.

FIRST GAME:

Looking 'Em Over

by Tommy Hart

Obie Bristow, the local man mountain, will captain the visiting team for the annual Kattmann Cup play, which precedes the Lubbock invitational golf tournament. The matches will be unreeled there Aug. 17. Qualifying rounds played the day following while match play continues through Aug. 21.

The Lubbock course, by the way, will be the scene of qualification of United States Amateur tournament sectional play. That will be held Aug. 16, or the day before the Kattmann matches.

CAYUSES TOUGH TO BEAT IN OWN ORCHARD

If the Big Spring Broncs win the full-season championship in the Longhorn league again this year, they'll no doubt do it because of their sensational play at home.

The Hosses have been little better than ordinary on the road. At home, it's been next to impossible to beat them. They've copied 18 decisions while losing only once in the friendly orchard.

Midland's Indians managed to cool off the Hosses in the one of three games here and it took a one-hit pitching job and 11 innings to turn the trick. Glenn Patton happened to be particularly hot that evening and halted the Steeds, 1-0.

Roswell has fallen victim to the Hosses twice here. Odessa has lost four games in Steer park. Ballinger has been beaten once. San Angelo twice, Midland twice, Sweetwater five times and Vernon twice.

ENSLLEY: CREATOR ENDOWED CUBANS WITH WILL TO WIN
One fellow who has a great deal of respect for the Cuban ball players is A. D. (Shadow) Ensey, president of the Odessa club. Ensey said the Creator endowed the Cuban athlete with a number of good qualities, among them a great throwing arm, speed and the will to win.

They don't own the batting power the continentals have. The Shadow adds, but their good points more than make up for their shortcomings with the mace.

Ensey opines Big Spring will be at or near the top in league standings, as long as they build their club around the Havana lads.

As for individual players, Ensey thinks the Odessa team has the best player in the league in Frank Mormino, their big catcher who recently returned to the lineup.

Mormino and older Manager Alex Monchak, by the way, played ball together down in Panama.

Brownwood Golf Play Underway

BROWNWOOD, June 9. (AP) — A field of 150 moves out today in qualifying rounds of the annual West Texas Golf Tournament.

The linksmen were shooting at spots in the eight flights, including a senior flight for men over 50. Match play starts tomorrow.

Don Cherry of Odessa, who passed up the National Open for a third try at the West Texas crown, was a top favorite. He recently defeated Billy Maxwell of Abilene, the defending champion here, in the Hobbs, N. M. Tournament.

Cherry, however, lost to Jack Williams of Plainview in the San Angelo Invitational. Williams is an entry here.

Bowie Crowned AA Champions In State Meet

AUSTIN, June 9. (AP) — Bowie of El Paso held the Class AA school-boy baseball championship of Texas today—surprise winner over the highly favored Austin Maroons in the finals.

The fighting youngsters from the far west edged Austin 3-2 in the first Interscholastic League diamond tournament ever held last night to take home the big cup.

Bowie scored an unearned run in the first inning and didn't get a hit until the sixth inning. However, it was a triple by Ernesto Guzman and a fielder's choice and two wild throws later Bowie had its winning margin.

Denison took third place in edging Waco 6-5. Robert Leach pitched a seven-hitter and collected a couple of doubles to drive in two runs. Leach, who had pitched a ten-inning, no-hitter to beat Marshall in the first round, fanned ten.

Junior Tourney Slated June 24

Local and area junior golfers are eligible to compete in the Texas JayCee Junior Amateur golf tournament, which will be held at the Municipal course, Austin, June 24.

The Austin Junior chamber of commerce will serve as host to an estimated field of 400 young linksmen and will provide free housing and some of the meals during the meet.

All male golfers who have not attained their 19th birthday by July 15 of this year will be eligible to compete in the meet.

Snead, Nelson And Britisher Open Favorites

CHICAGO, June 9. (AP) — Golf's most coveted prize, the U. S. Open championship, comes up for grabs today with three seasoned campaigners — Sam Snead, Bobby Locke and Byron Nelson—in featured roles.

The 6-1 betting favorite is Snead, who already this year has won the Masters and PGA.

A triumph in the open would give the 37-year-old White Sulphur Springs tourist a professional sweep comparable with amateur Bobby Jones' grand slam of 1930.

But Slamming Sam, after a few days of looking over Medinah's treacherous acres says "Bobby

Locke has the game to win this tournament. No man is straighter of the tee and he's a wonderful putter. That's what will win it."

A number of tourney-tough lads give Byron Nelson the "man to beat" tag by the same reasoning.

"From tee to green no man is more accurate than Byron" declared Jimmy Demaret with a chorus of amens from the side.

Medinah's No. 3 course scene of the 72-hole medal grind the next three days is one to test a man's accuracy and his patience.

Trouble in the form of closely bunched trees and heavy rough glares down gun-barrel fairways. Tiny, lightning-fast greens offer a poor target for approaches.

The course at its present length is 6,981 yards and will be made to play longer for the latter rounds.

Par is an exacting 36-35-71. A field of 162 amateurs and pros was scheduled to start one 18-hole round at 7 a.m. (CST) today and another tomorrow. The low 90 shooters will go 36 holes Saturday for the championship which the convalescent Ben Hogan couldn't defend.

Nels Potter Keeps Braves In Race With Fireman Act

Reds Beaten In Long One

By The Associated Press
Nels Potter, the pitcher Connie Mack "fired" a year ago, is keeping the Boston Braves in the National League pennant race.

Five important wins by the 37-year-old American League castoff put him out front of ace Johnny Sain in the victory column. If the Braves had lost those five games, they'd be wrestling with Cincinnati for sixth place instead of crowding Brooklyn. A half game out of first place.

It took the Braves 15 innings and four hours and nine minutes to knock off the persistent Reds early this morning, 8-7, and Potter was the man who did the trick.

Taking over for Sain who was reached for 13 of Cincy's 21 hits in his 5 2-3 inning stay, Potter worked 9 1-3 relief innings in fine style. Errors by Phil Masi and Al Dark helped the Reds send the game into overtime.

Finally in the 13th after Potter had struck out seven men the Braves won on Jim Russell's single with the bases loaded.

Brooklyn protected its half game edge on St. Louis and Boston by topping Chicago, 3-1, behind Rex Barney's two-hit pitching. Big Rex, whose early season troubles have put an unexpected burden on other Dodger staffers, finally hit his stride. It was the third complete pitching job by a Brooklyn pitcher and Barney's first road-going performance of the season.

During the three-game win streak Dodger pitching allowed a total of 12 hits and Barney's six strikeouts made it 27 in the same span.

The St. Louis Cards continued to pressure the Brooks, sweeping their fifth straight and 14th out of 16 by shutting out New York 2-0. Gerry Staley made his first complete game, a fine three-hitter on the heels of Harry Breechen's five-hit shutout of the Giants Tuesday night.

The Phillies' bonus players did the trick in a 2-0 whitewash the lowly Pittsburgh Pirates. Stan Hollmig, the former Texas Aggies football star, hit his second homer in two days after Del Ennis walked in the sixth. Robin Roberts, another ex-collegiate, with a bonus contract, pitched the Blues with six hits for his sixth win to three setbacks.

Detroit clipped the New York Yankees' lead to a 4-1-2 games by winning an 11-inning American League night game, 3-2, on Tommy Byrne's wildness. Byrne, who gave up 13 bases on balls, walked three in a row in the 11th. Then Vic Wertz, after working the count 2-2, singled to right field to give Virgil Trucks win No. 8.

Trucks allowed only three hits and boosted his league-leading strikeout total to 67 with six additions. Byrne yielded only four singles.

Bob Lemon, knocked out in the fourth inning Tuesday night, came right back against Washington and pitched Cleveland to an 8-3 victory. Lemon helped boost the Tribe up to the 500 mark again with his first homer of the year.

Philadelphia's Athletics took over third place by drubbing the sliding Chicago White Sox, 5-2. Alex Kellner, Mack's surpassing rookie lefthander, earned his seventh win with a six hitter after a wobbly start. The A's got theirs early off Marino Pieretti but Walt Pierce pitched hitless ball in the last five innings.

After losing 11 straight the St. Louis Browns ran their win streak to three by dumping the Boston Red Sox, 5-2. It was Boston's sixth loss in nine starts on the Western swing.

Three Given Death
WARSAW, June 9 (AP)—A military court in Wroclaw sentenced three high ranking officials of the coal industry to death today. They were convicted of "economic sabotage."

MARKETS
WALL STREET
NEW YORK, June 9 (AP)—The stock market developed a wobbly streak today after a steady opening. Some initial gains were either trimmed or even eliminated entirely but numerous losses still eluded to small advances. Changes either way were fractional, with losses showing a slight majority.

COTTON
NEW YORK, June 9 (AP)—Now cotton prices were 3 to 40 cents a bale higher than the previous close. July 32 1/4, Oct. 28 1/2, and Dec. 28 1/2.

LIVESTOCK
FORT WORTH, June 9 (AP)—Cattle 1,500; calves 400; cattle and calves slow and weak with most classes unevenly low; cows 1.00-1.10 down for week to date; few medium to good slaughter veal calves 20.00-25.00; piglets 15.00-18.00; hogs 15.00-18.00; sheep 14-21; good and choice 21-25; 24.00-27.00; plain and medium grades 14.00-21.00; stocker calves 11.00-25.00; stock of veal calves 17.00-21.00.

WHEAT
NEW YORK, June 9 (AP)—Wheat steady to 15 cents lower; short slaughter lambs and yearlings 1.50-1.60; lower and some off more; good and choice ewes lambs 30-35; common and medium springers 21.00-27.00; short 10-15; and yearlings 14.00-20.00; common 1-1 1/2; and yearlings 14.00-20.00; short feed to good slaughter 8.00-10.75; short feeder or 10-15; 10.00-21.00.

MAN TO WATCH—One of the favorites in the National Open golf tournament beginning today is Dr. Cary Middlecoff (above) of Memphis, Tenn., shown on a putting here. Middlecoff was especially warm in winter tournaments.

FLOCK'S LOOP LEAD CUT TO HALF GAME

By The Associated Press
If the league-leading Dallas Eagles never see cocky little Procopio Herrera of the San Antonio Missions again in the Texas League baseball race it'll be too soon.

Herrera who had already won two victories over the Eagles in two starts this season took the mound in the eighth inning last night and cooled off a Dallas rally to give the Missions a 7-4 victory.

The loss sliced to a bare half a game Dallas' lead over the second-place Shreveport Sports. The Sports edged Oklahoma City, 8-7, in ten innings.

Third-place Fort Worth defeated last-place Houston, 5-11. And Beaumont won, in ten innings, over Tulsa, 10-9. The win pushed Beaumont into sixth place, ahead of Tulsa.

San Antonio got eleven hits off three Dallas hurlers. The big blow was Ed Levy's fifth homer of the year in the fourth with one on. Shreveport shaded Oklahoma City when George Brown singled with the bags loaded in the tenth frame.

Fort Worth's Chris Van Cuyk scattered three hits as the Cats won an easy victory over Houston. Beaumont squeezed past Tulsa when Bill White scored the winning run in the tenth frame on an error by Gino Marionetti.

Test In Borden County Awaits Cement-Setting
Sinclair Prairie No. 1 Sterling Williams, northwest Borden exploration bidding for production from the Mississippian and Devonian, waited Thursday for cement to set.

Seven-inch string was run to bottom at 10,035 feet in dolomite, possibly the Ellenburger. Prospector probably will test through perforations from the bottom up through 9,830 where first free oil was recovered. Location is 660 feet from the north and east lines of section 45-32-6n, EL&RR.

Caraway Drilling company of Big Spring No. 1 Cantrell, 60 feet from the north and east lines of section 22-32-6n, EL&RR was shut down for repairs at 8,484 feet in shale. This venture is being deepened from 5,024 feet where it was abandoned by Thomas Doswell in 1945. It is projected for 9,010 feet.

Seaboard No. 1 Clayton & Johnson, 60 feet from the south and west lines of section 37-31-6n, T&P, was at 7,715 feet in lime. This venture is six miles northwest of Gall.

Seaboard No. 1 Jerry B. Clayton, five miles east of the Seaboard-Pan-American No. 1 T. J. Good Borden's first flowing well and six miles of the flowing Vealmoor pool of northern Howard county, was at 2,954 feet in lime. It is located 662.5 feet from the east and 660.5 from the south lines of the southwest quarter of section 47-32-4n, T&P.

In northern Glasscock county, 12 miles west of the Howard-Glasscock pool, Southern Minerals No. 1, S. C. Houston, 660 feet from the north and west lines of the southwest quarter of section 13-35-28 T&P, was at 2,567 feet in sandy lime. This test, projected for 6,000 feet, is six miles south of Stanton.

Model Plane Building Meet Set Today at 'Y'

A meeting of all youngsters interested in model airplane building has been called for 7:30 p. m. today at the YMCA.

Purpose of the meeting is to organize a model airplane hobby club. Officers may be elected and plans developed for model construction and instruction.

There is no age limit and all boys interested are invited to participate.

WEATHER

BIG SPRING AND VICINITY: Partly cloudy, scattered thundershowers this afternoon, tonight and Friday. Rain much change in temperature. High today 86, low tonight 62, high tomorrow 90.

Truman Signs Bill To End Water Feud

WASHINGTON, June 9 (AP)—President Truman signed today legislation enabling Texas and New Mexico to end their old feud over Pecos River waters.

The bill he signed, using 18 pens, grants the consent of Congress to the two states to enter into a compact for a division of the waters of the Pecos. The river heads in New Mexico and crosses into Texas before emptying into the Rio Grande.

Officials from the two states witnessed the bill-signing ceremony. Among them were Rep. Regan (D-Tex.), author of the bill, Senators Connally and Johnson of Texas and Senator Anderson and Reps. Fernandez and Mills of New Mexico.

Others there were Charles Miller of Barstow the Texas member of the Texas-New Mexico Pecos River Compact Commission; J. E. Sturrock, Austin, manager, Texas Water Conservation Association;

John T. Smith Midland Texas, lawyer and Mrs. Smith, J. C. Wilson, Pecos farmer, and John Bliss, New Mexico state engineer. President Truman gave each of them one of the pens he used in signing the bill. Another will go to Senator Chavez of New Mexico who was unable to attend the ceremony.

Now that Congress has okayed a compact between the two states, Texas and New Mexico congressional delegations are expected to work together on developments of the river's watershed.

In the past they have opposed each other, blocking appropriations to build irrigation projects in the other's state.

Representatives of the two states have negotiated terms of the compact. Its provisions are set forth in the act signed today by President Truman.

Yangtze Shut To Navigation By Communists

SHANGHAI, June 9 (AP)—The mouth of the Yangtze River was closed to navigation today by the Communists who feared it had been mined by Chinese Nationalists.

A pilot said as he proceeded up the river today he saw a medium sized Nationalist landing ship rigging across the river's mouth as if mines were being avoided. He said a Nationalist gunboat warned him the area was dangerous.

Customs officials said if mines were laid it was in violation of international law which requires that any area mined first must formally be declared a war zone.

Two foreign ships were caught in port by the navigation closing order. They are the British ship Shenking, which was to sail for Hong Kong, and the United States Lines' China Victory. The United States Lines President Polk is due here tomorrow but customs officials said they understood it had been diverted.

Seven foreigners who tried to enter Shanghai were compelled to remain aboard the Shenking. Two of them are Americans.

The seven were among 21 foreigners who arrived from Hong Kong. Fourteen members of families of employees of the steamship company, Butterfield and Swire, were allowed to enter under special provisions.

House Backs AMA In Health Plan Fight

AUSTIN, June 9 (AP)—The House today approved a resolution commending report on a revolution concerning socialized medicine and compulsory health insurance.

The vote was 74-1. Rep. Otis Lee of Port Arthur casting the dissenting vote.

Four Children Die

SOMERSET, Pa., June 9 (AP)—A fire killed four children, 1 to 6 years old, today at their home near here. Cause of the fire was unknown.

Pioneer Pilot Quits

CHICAGO, June 9 (AP)—Capt. E. Hamilton (Ham) Lee, 57, of United Air Lines, one of the nation's pioneer pilots, today retired from active flying with a record of more than 30 years and approximately 4,400,000 miles of flying.

Five Die In Fire

NORTHVILLE, Mich., June 9 (AP)—A 34-year-old mother and four of her seven children perished here early today in a fire that destroyed their two-story frame home.

BROWN IS WARM

Hawks Upset By Coahoma Bulldog Nine, 3 To 1

COAHOMA, June 9.—Coahoma's Bulldogs, staging a strong comeback in Tri-County baseball league play, upset the Howard County Junior college Jayhawks in a makeup contest here Wednesday afternoon, 3-1.

Bill Brown hurled the Bulldogs to victory, setting the Hawks down with four hits. His mates managed but less off Howard Jones but HCJC misplays betrayed Jones.

Wayne Devaney scored all three Coahoma runs. He counted on an error in the first frame, gained first on a miscue in the third and dashed to the plate on Raymond Morrison's hit and walked in the fifth, stole second, went to third on an error and came home on an outfield fly.

Conn Isaacs tallied the college's only run in the seventh when he led off with a double and came all the way home on a wild throw by the Coahoma second sacker.

Coahoma had beaten Cosden last Sunday, 16-4.

Schools Which Offend Code May Be Expelled

CHICAGO, June 9 (AP)—A report on member school violations of the National Collegiate Athletic Association's controversial sanity code was slated to be given to the group's executive committee today by Clarence P. Houston, of Buff College.

Houston is chairman of the NCAA's committee. A spokesman said no list of schools under scrutiny will be disclosed at this meeting.

Some guests complain...

Some people are born complaining. Take my friend, F. W., for instance. He's fussy about fine foods... and when it comes to beer--well, it's got to be the best.

You should have heard old F. W. go to town with paens of praise for NEW Grand Prize... sparkling ambrosia, deep mellowness, and a thirst-quenching treat were only a few of his descriptive ejaculations.

That's why, during a recent visit, without a word I served him NEW Grand Prize Beer... and oh boy!

Try a bottle or can today... see if you don't agree Grand Prize is one of the finest beers you've ever tasted.

Funeral Rites For William I. Meek Are Held Thursday

Services were held here Thursday for William I. Meek, 68, Big Spring State Hospital attendant. Meek succumbed here Wednesday morning. Following rites at the McDaniel-Boullouin chapel, the body was taken overland to Winnboro for interment.

Mr. Meek had been a resident of Big Spring for the past five years. Prior to that time Winnboro had been his home for a number of years. He was a native of Georgia.

Survivors include four daughters, Golda Meek, Sattilo, Mrs. Rosie Webb, Sattilo, Bonnie Meek, Dallas, and Ruby Meek, Big Sandy; three sons, Earl Meek and J. T. Meek, Winnboro, and Claude Meek, Oregon. He also leaves three brothers, Dave Meek, Big Spring, John Meek, Winnboro, and Sam Meek, Mineola.

UNEQUAL BATTLE—William P. Kiser vainly tries with a garden hose to halt the spread of flames sweeping through the roof and upper floor of his home in Pasadena, Cal. The fire was started by a spark from burning rubbish and caused damage estimated at \$5,000 before the fire department put it out. A commercial photographer, J. Allen Hawkins, happened by a few minutes after the fire started and made this unusual picture. (AP Wirephoto).

WILL BOSS PRR LINES

New Rail President Isn't Scared Of Job

PHILADELPHIA, June 9. — Walter S. Franklin, six-foot-six and partially bald, isn't scared at the prospect of running America's largest railroad.

"Why should I be?" he asks. Franklin assumes the presidency of the Pennsylvania Railroad next Thursday. The giant PRR sprawls 12,000 miles across the U. S. country side, employs some 135,000.

It's a big job—and physically the towering Franklin is a big enough man to handle it. He tips the scale at 225. Beneath his grey business suit there's plenty of muscle. You'd never know he was 65. Mentally, too, Franklin is capable of running the Pennsy, biggest privately-owned railroad in the world. He's been in the railroad business 43 years, ever since graduation from Harvard University.

Twice before he's been president of a railroad. In 1929 it was the Detroit, Toledo and Ironton; two years later the Wabash. "They might have been smaller than the Pennsylvania," Franklin told a reporter, "but they were railroads." Franklin succeeds M. W. Clement who takes over the newly-created post of chairman of the board of directors. Clement was PRR loss-man for 14 years.

"I hope to do as well as Mr. Clement" the president-elect said "but come around in three months and I'll let you know how I'm making out."

Franklin however is kidding—really! He knows he can do the job. So does the PRR board that picked him to run the billion-dollar business.

And how is business? "Okay," he says, "but it could be better."

Right now Franklin is executive vice president and sits behind a nine-foot-wide, glass-topped desk in a walnut-paneled room.

Franklin admits that America's railroads face a difficult problem today. "We have a declining volume and an increasing expense," he declared, "but some of the labor-saving devices we've put into operation the past few years may get us by."

"Of course we'll need to have freight and passenger rate increases," Franklin predicted the PRR would round out the first half of

Big Spring Area Flowing With Milk

June — proclaimed as a dairy month for Texas—finds the Big Spring shed flowing with milk.

Lush pastures, plus a penchant for spring calving, has contributed to a record volume of milk. J. D. Merrifield, manager for Banner, principal purchaser, said that the surplus output now was about 650 gallons per day.

What to do with the milk has become a problem. But with emphasis on dairy month, steps are being taken to encourage better production, both in volume and quality. This is because that extraordinary circumstances contribute to present conditions.

Tentatively, June 27 has been set as the date for a dairy producers rally, said Merrifield. Plans are for presentation of a technicolor movie on methods for increasing volume and more particularly for turning a higher quality.

Families of dairymen will be invited, and there will be a motion picture comedy for the kiddies. A cake and ice cream supper is in prospect. Merrifield said that about 100 people would attend.

In addition to supplying local demand, Banner is also supplying 1,000 gallons daily for Midland from this point and half a dozen producers at Colorado City. Considerable butterfat is being marketed at a loss to cheese plants and condensation is salvaging the solids and fats out of most of the remainder.

Since February, production has been on a steady increase. Winter grass came along about that time, and since then grazing has improved. Green forage is falling the tale. Coupled with this, herds have been bred perhaps too uniformly for spring delivery, meaning the greater proportion of cows are now at their peak.

Hawaii Struck To Vitals By Dock Walkout

HONOLULU, June 9. (AP)—Thirty nine days of waterfront strike squeezed virtually every business and home in Hawaii today. The end was not in sight.

CIO longshoremen struck the islands' six ports May 1. They wanted to boost their pay 32 cents an hour to \$1.72. This would restore the old differential—10 cents under the Pacific coast scale. Waterfront employers offered a 12-cent raise.

Two U. S. Government mediators, the territorial governor, and mounting public pressure have failed to narrow this gap. Both sides have quit talking. Each is out to wear down the other.

Meanwhile: Businesses—Big and little falter. Employment drops. Bank clearings plummet. The strike of 2,000 men reaches into practically every home.

Propaganda barrages come from all sides, but the big fleet of merchant ships doesn't come and go. And ocean-borne commerce is the life of Hawaii.

What pyramids the impact of a strike like this?

1. Hawaii's isolation. It depends on the dollars it gets from sugar and pineapple to support its economy. Sixty per cent of its food is imported. It's too far from the mainland—2,400 miles—for a commercial airlift to fill the need.

2. Dominance by one big union—Harry Bridges' militant, left-wing International Longshoremen's and Warehousemen's Union (ILWU).

3. Close-knit control of Hawaii's business. A few firms control all plantations, most suppliers of plantations and shipping. Their financial tentacles stretch into scores of smaller firms. A decision within this small group—known as the Big Five—practically binds the business community.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

When disorder of kidney function persists it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or noisy passages with smearing and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Add your strength for Doan's Pills, a stimulant diuretic, used successfully for millions for over 50 years. Doan's gives speedy relief and will help the 15 million kidneys that flush out poisonous waste from your blood. Get Doan's Pills.

ANNUAL MEETING WELL-ATTENDED Christian Science Board Says Nations Seek Durable Union

BOSTON, Mass., June 9. (AP)—The postwar world is reaching out in an unprecedented effort for something better upon which to found a union of nations, the Christian Science Board of Directors declared at the annual meeting of the Mother Church in Boston Monday.

Thousands of Christian Scientists from over the country attended the meeting. Directors viewed with satisfaction the worldwide stir in human consciousness to discard the material for the spiritual.

Physicians, they said, are giving more importance to thought in relation to disease. Natural scientists, they added, are gaining in recognition of the insubstantiality of matter. Religious leaders everywhere, they pointed out, have developed a widespread sense of need and reasonable

ness of greater and more direct evidence of spiritual power.

In various other directions, the directors continued, there is a strong urge to look beyond mere human means for the establishment of stable government.

Slaying Angers Valley Of Moon

SONOMA, Calif., June 9. (AP)—Aroused by the slaying of a 67-year-old man and the wounding of his wife, Valley of the Moon residents today asked that incorrigible cases be removed from the Sonoma State Hospital to some other institution.

Some fifty residents met last night at Boyes Springs and requested action after the fatal shooting Tuesday night of Paul Zimmerman.

Rudolph Wright, 19-year-old Negro fugitive from the incorrigible ward at the home, was arrested early yesterday and booked on a charge of murder. Further action awaited results of a psychiatric examination.

Britain Declares Eisler's Arrest Perfectly Legal

LONDON, June 9. (AP)—Britain told Poland yesterday that the arrest of Gerhart Eisler aboard a Polish ship was legal while the ship was in British waters.

The British note was in answer to a Polish protest claiming Eisler's arrest violated international law. Eisler, who stowed away in the Batory at New York while free on bail, was en route to Russian-occupied Germany when arrested at Southampton, England, at the request of the United States.

A British Court later refused a U. S. request to extradite the Communist leader on the grounds that his offense, making false statements on a passport application, was not extraditable. Eisler now is reported in the Soviet sector of Berlin.

FIRST CHURCH, CHRIST SCIENISTS

globe. Miss Shipman observed that "if Mary Baker Eddy, discoverer and founder of Christian Science were here today, she would see signs of the growth she most desired." Signs of a more steadfast consciousness of the all-power and all presence of God.

Among them she cited changes in concept in major fields of science, theology and medicine. She also noted a growing respect for Christian Science and the spiritual healing for which it stands.

She added that the concept of government was being enlightened with a recognition that it had to be built not merely by human means but upon spirituality. Reports from various departments reflected growth. Publications and periodicals have enjoyed the widest circulation since the war.

Directors said they deplored increasing radio time given to disease, declaring that "publicity is one of the most prolific sources of disease." Similarly the board deplored "fear campaigns staged to influence another" and urged radio listener vigilance. Other reports included those from the board of lectureship and charitable institutions. They reflected progress on a global basis.

Bus Strike Still In Deadlocked Condition

BEAUMONT, June 9. (AP)—A bus strike in the Beaumont and Port Arthur areas entered its twenty-second day with officials attempting to work out some local transportation system to relieve the tie-up.

Third Strike In Capital Looms

WASHINGTON, June 9. (AP)—The construction industry of the nation's capital, crippled by a seven-day strike of carpenters and a six-day walkout of building laborers, now faces a third strike by AFL Craftsmen.

The reinforced steel workers are reported to have voted to ask international headquarters for permission to strike to get a 25-cent-an-hour wage boost. The group includes about 200 workers.

Approximately 5,000 carpenters are still holding out for a 10-cent-an-hour raise on their former pay of \$2.40 an hour. A union official said that 100 builders have signed the new agreement.

The 2,400 building laborers who walked out a day after the carpenters said about 14 builders have agreed to a 15 cent an hour wage increase and the union had accepted. They had asked for a 40 cent hike of their former \$1.35 an hour wage.

PERFORMANCE IN LINE OF DUTY

LOS ANGELES, June 9. (AP)—What a salesman! Traffic Officer Robert B. Noville gave Insurance Agent Bill Carmichael a ticket Tuesday for driving through a pedestrian crosswalk. As Neville dealt out the ticket Carmichael commented: "Your job must be very hazardous." Noville agreed. Carmichael sold the officer an insurance policy.

COLLEGE PRESIDENT—Miss Margaret Clapp, 33, Brooklyn College historian and Pulitzer Prize winning biographer, has been named the new president of Wellesley College, her alma mater, class of 1930. (AP Wire-photo).

Equality Plan To Go Into Effect In U. S. Navy

WASHINGTON, June 9. (AP)—The Navy was free Wednesday to put into effect its plan for assuring "equality of treatment and opportunity" for all its personnel, regardless of race, religion or color.

That policy was approved yesterday by Secretary of Defense Johnson.

It was submitted following Johnson's order to comply with President Truman's directive aimed at abolishing discrimination in the three armed services.

The Air Force plan was approved last month, but Johnson said he turned down a proposal submitted by the Army and asked for a new one by June 20.

The Navy policy says: "All personnel will be enlisted or appointed, trained, advanced or promoted, assigned to duty and administered in all respects without regard to race, color, religion, or national origin."

"In the utilization of housing, messing, berthing, and other facilities, no special or unusual provisions will be made for the accommodation of any minority race."

Officials would not say whether this means an end to segregation of Negroes.

The policy applies to the Marine Corps as well as the Navy. In his memorandum directing the Army to submit a new plan, Johnson said considerable progress has been made by the ground forces in recent years toward ending segregation. He said the problem "is of greater magnitude in the Army than in either the Navy or Air Force."

The Sullivan Award to the outstanding amateur athlete was first awarded in 1930, when Bobby Jones was the winner.

Big Spring Herald Woman Treasurer Of U. S. Honored

RICHLAND Kan., June 9. (AP)—Georgia Neese Clark, actress turned banker, took all the bows in this little eastern Kansas town last night.

And to attractive Mrs. Clark, President Truman's nominee for U. S. Treasurer, it was one of her finest audiences.

Richland is her home town. Practically the entire population of 225, plus a couple of hundred outsiders, turned out to welcome her home from Washington.

The program went off with only one hitch. There was so much excitement, the master of ceremonies forgot to call on Mrs. Clark for her formal reply to the welcome until the town preacher had started his benediction.

Richland knows Mrs. Clark well. They call her Georgia. She was born here 49 years ago and her neighbors have closely followed her career as an actress, a farmer, a grain operator, general store owner, and bank president.

As U. S. Treasurer her signature probably would be the most widely circulated in the world. It would appear on all U. S. paper currency.

ARCTIC BEATS PENTAGON BLDG.

WASHINGTON, June 9. (AP)—An Arctic explorer claims it's a lot easier to get lost in the Pentagon Building than in the frozen wastes of the Polar regions.

Charles A. K. Innes-Taylor, 49-year-old former British subject who apparently has had trouble finding his way around the Pentagon, made the comparison to reporters Thursday as he became an American citizen at naturalization ceremonies here.

FIRST TURNOUT IS SMALL RC-'Y' Swimming Classes Begin Here

Cool weather cut down attendance at the first sessions of the Red Cross—YMCA swimming classes Wednesday.

But with return of summer temperatures, enrollment is expected to rise with the thermometer, said Bobo Hardy, in charge for the YMCA.

Only 27 youngsters turned out Wednesday morning for the initial session. Only bank instruction was given at the first meeting. Others interested in learning to swim or to improve swimming abilities were urged to report at the pool when classes meet.

Beginners, those unable to swim or who can negotiate less than approximately 15 yards, will get their lessons at 9 a.m. on Monday, Wednesday and Friday until June 29. Intermediates (those who can swim from 15 to 40 yards) and advanced swimmers will get instruction at 10:30 a.m. on these days.

Red Cross life saving classes are being organized and will run consecutively under direction of Olen Puckett and Burl Haynie for the Red Cross. First session was held Wednesday.

Adults, particularly women, who wish swimming lessons are asked to report on Monday and Thursday at 6 p.m. for instruction. If there is a sufficient number of mothers of youngsters in beginners classes, a class for the mothers will be organized to operate concurrently during the mornings, said Hardy.

Instruction will be suspended from June 29 to July 16, when intermediate and advanced instruction will again be offered. At this time, the June class is the only one contemplated for beginners.

There is no instruction cost. Only pool fees will be charged. Swimming instructors assisting are Susan Houser, Kitty Roberts, Buddy Blankenship, Gordon Madison, Joan Smith, and Corky McDonald, said Hardy.

Joe T. Cook (above), is editor of the Mission, Texas, Times. (AP Photo)

Truman Calls For \$150 Million To Aid Korea Republic

WASHINGTON, June 9.—President Truman asked Congress Tuesday for \$150 million to continue economic aid to the republic of Korea in the year beginning July 1.

The President said in a special message such a program "is not only the soundest course economically, but also the most effective from the standpoint of helping to achieve the objectives of peaceful and democratic conditions in the Far East."

The Republic of Korea is the American-occupied southern portion of Korea.

The President said the people there and the freedom-seeking people of North Korea, "held under Soviet domination", seek for themselves a "united, self governing and sovereign country, independent of foreign control and support and with membership in the United Nations."

"In their desire for unity and independence, they are supported by the United Nations," Mr. Truman added.

The \$150 million, if granted by Congress, would go to the Economic Co-operation Administration which has been handling relief and recovery work in southern Korea since Jan. 1.

Prior to that time, Army occupation forces handled the program.

Irene Rich Is Mentioned In Garnier Trial

RIVERSIDE Calif., June 9.—The name of actress Irene Rich has turned up in the trial of Mrs. Agnes Garnier charged with murdering her wealthy boss, John E. Owen, 68.

Mrs. Garnier, handsome 53-year-old divorcee, is accused of shooting Owen at his lavish ranch near here April 22 following an argument over a set of cocktail glasses the actress gave him. At the time of his death Owen was president of the National Association of Apartment House Owners.

Pete Corales, ranch caretaker, testified yesterday that three weeks before the slaying "Irene Owen was in Washington D. C. fighting for rent decontrol Mrs. Garnier stopped by the ranch to talk with him.

Corales told the all-woman jury: "She said she wouldn't be working much longer for Mr. Owen. I asked her why and she said she had traced some telephone bills and telephone calls from Washington to New York."

"I asked her where they would up. She said all of them went to the Waldorf Astoria Hotel" and she mentioned this Irene Rich's name and said she was the one the calls were made to."

Corales added that in another conversation with Mrs. Garnier she said she had given Owen 15 years of her life and that "Mr. Owens was a damned old drunk. She said if I can't have him nobody else can."

Owen's estranged widow Mrs. Florence Owen of Beverly Hills, was a surprise witness. She said she married Owen in 1929, first met Mrs. Garnier in 1937, last saw her husband alive April 4, and hadn't seen him before that "for a couple of months."

Kids Lost In Woods Live On Cold Water And Sassafras Leaves

JOHNSTON, Pa., June 8.—Lillian Bobak, 12, and her nine-year-old brother, Jimmy, are back home after spending a night lost in the woods drinking spring water and eating sassafras leaves.

Volunteer searchers found the two children yesterday and were given two versions of what caused their disappearance from their farm home.

"We ran away," reported Lillian. "We got tired tending cows and planting corn and hoeing."

"We got lost and couldn't find our way out of the woods," said Jimmy.

Lillian added that she and her brother kept warm by means of a coat they took with them. They quenched their thirst at a spring and ate sassafras leaves when they got hungry.

Meeting For Vets, ERC Members Is Set For Saturday

An important meeting for all veterans and Enlisted Reserve Corps members has been set for Saturday.

Lt. Col. John H. Hilsber, Austin, Texas State ERC recruiting officer from the Texas military district, will be on hand. The meeting will be held in the recruiting offices in the postoffice basement at 7 p.m.

Col. Hilsber will explain benefits of the new ERC program. Veterans are urged to bring discharge certificates. High school graduates also are invited to participate in the meeting.

Martin-Howard Soil Supervisors Hold Conference

The supervisors of the Martin-Howard Soil Conservation District held an all day meeting Tuesday at Stanton, Warren Skaggs, chairman of the board, announced.

Attending the meeting were supervisors Frank Loveless, Edgar Phillips, Joe Carter, Edmund Tom and Warren Skaggs.

The morning session was devoted to approving plans on fifteen farms and ranches including John Schaefer, William Schaefer, A. L. Wasson, Joe Carter, Temp Carter, Kyle Miller, L. N. Davis, Doris Blissard, W. J. Gibson, Clyde Berry, L. O. Free, C. S. Anderson, Harry Echols, and Loyd Hastings. Applications for district assistance were approved on eight farms and ranches.

The afternoon was spent in the district observing conservation programs being applied on both dry land and irrigated farms. The board made a study of irrigation problems which included planning assistance and efficient water application.

E. J. Hughes, district conservationist with the Soil Conservation Service, discussed the need for lining irrigation ditches on sandy soils to prevent excessive loss of water. In an effort to find a practical method of lining ditches the asphalt division of the Col-Tex Refining Company is going to put in two test sections of ditch lining under the direction of Hoyt Mays, Edmund Tom stated.

The board observed other phases of the district program such as cover crop plantings of rye and vetch, sweet clover, Dixie Wonder winter peas, and improved irrigated pastures.

SHELLACKING PARTS MATES

BOSTON June 9.—A wife won a divorce Tuesday after testifying that her husband shellacked her.

Mrs. Grace Hoar told a judge her husband came home drunk and found her shellacking the floor.

Mrs. Hoar said he picked up the can of the sticky stuff and poured it on her head.

War Scrap Feeds Peacetime Fires

BALTIMORE, Md. (AP)—An army of men with oxy-acetylene torches is accomplishing what Japanese dive-bombers and Nazi anti-tank units tried to do and couldn't—reducing Navy ships and Army tanks to scrap steel.

In the historic Patapsco River, where once Francis Scott Key watched the British bombard Fort M'Henry, a steady stream of battlefield relics—everything from cruisers to GI helmets—is being broken up into scrap steel to feed peacetime steel furnaces.

One of the ships at the Patapsco Scrap Corporation's yard is the light cruiser Memphis, which once took President Roosevelt to the Casablanca conference. Others are the Detroit, a survivor of Pearl Harbor, and the Richmond and Concord which, like the Detroit, are veterans of Pacific battles.

There's the HMS Emperor, which chased the German pocket battleship Von Tirpitz along the Norwegian coast.

And there are even two ferryboats which once plodded back and forth between Staten Island and Manhattan in New York Bay.

During the war, this yard was the site of the Bethlehem-Fairfield shipyard where more than 500 Liberty and Victory ships and LSTs were built. Now the process is reversed and the workmen are ripping the vessels into hunks of scrap.

Besides ships, there are acres of obsolete tanks, several thousand of them piled sometimes five high. Many still have caked mud from rain-drenched battlefields; others have shell holes; a few have blood stains. There are enemy tanks, too, since the steel

furnaces know no nationality.

For the first three years after the war, the supply of scrap was critically short. Steel production, tied directly to scrap supply, was short, too. But now scrap yards like Patapsco are in full production, and the steel mills are turning the scrap from tanks and ships into such things as bird cage wire, knitting needles, tin cans, sheets for pleasure cars or new merchant ships.

Shipbreaking, as the reduction of ships into scrap is called is a highly skilled task requiring careful planning and good judgment by the supervisor and his crew. The vessel, warped to a pier, is worked over by men armed with torches, hacksaws, sledges and cold chisels.

First to come down is the radio aerial, permitting the big cranes to slide freely over the ship. Then, bit by bit, masts and superstructure are removed, decks torn away and the interior fittings taken out. The work proceeds cautiously, lest the ship become unbalanced and capsize. When the vessel has been reduced to a waterline bulk, it is drawn up on shore.

Objects like tanks are often broken up by the simple process of dropping a 10-ton steel ball on them.

No matter what the steel has been used for in the past, it can be remelted and used over and over again. Little is lost per usage. Even rust-oxidized steel—is gathered and melted down in some scrap yards.

Fined In Assault

Jose Hinojos entered a plea of guilty in county court Tuesday to the charge of creating a disturbance and assault and was fined \$50 and costs by Judge J. E. Brown.

The Father Of Texas Inspires Cake For Dad To Honor Him On His Day

On Father's Day, June 19, surprise Dad with a cake baked especially for him a cake which, according to legend, was a favorite of Sam Houston, father of Texas.

Sam Houston, great Texas patriot, hero of San Jacinto president of the Texas Republic and first governor of Texas, like most Texans of today was fond of good cake. According to legend he had a favorite recipe.

So this June, and especially for Father's Day, we are naming Sam Houston White Cake the cake of the month. The recipe is reprinted from "Aunt Cora's Book of Unusual Cakes and Cookies" compiled by the folks in Sugar Land, Texas, who refine pure cane sugar.

SPECIAL FOR DAD'S DAY — His very own cake

The recipe was brought South when Texas was struggling for independence. It has been handed down from generation to generation and today it lives up to its glamorous past. It is truly a cake you'll be proud to serve. Here's the recipe:

SAM HOUSTON WHITE CAKE
 1/2 cup butter, 2 cups granulated sugar, 1/2 cup milk, 1/2 cup water, 3 cups sifted flour, 3 teaspoons baking powder, 6 egg whites, beaten until stiff but not dry, 1-3 teaspoon lemon, rose, or almond extract.

Cream shortening until soft and light. Add granulated sugar gradually and continue creaming for several minutes to incorporate as much air as possible. Mix flour and baking powder and sift three times. Add extract to milk and water. Add flour alternately with liquid to creamed mixture, beating well after each addition. Beat egg whites until stiff but not dry and fold immediately into batter, blending thoroughly but quickly. Avoid beating. Pour batter into three greased and floured 9-inch layer cake pans. Bake in moderately hot oven (375 F.) for 30 minutes. Cool for 5 minutes and remove from pans onto wire rack.

For a pure white cake, put White Mountain Frosting or Fluffy Uncooked Icing between and on top of layers. For a different flavor, add chopped candied orange peel to frosting instead of extract or decorate top with candied or colored icing.

WHITE MOUNTAIN FROSTING
 2 cups granulated sugar, 2 teaspoons white syrup, 2-3 cup hot water, 3 egg whites, 1/2 teaspoon cream of tartar, 10 or 12 marshmallows.

Put granulated sugar, water and syrup over slow fire and stir until sugar is dissolved and mixture begins to boil. Cover for 2 or 3 minutes to wash down crystals. Allow syrup to boil vigorously until it spins a thread (soft ball stage). Add marshmallows

and remove from fire. Beat eggs and cream of tartar until stiff. Pour syrup very slowly into eggs. Be sure that syrup goes into the eggs and not on sides of bowl. After 1/2 of the syrup has been added it may be poured more rapidly. Beat until cool. Frosting should hold its shape when

dropped from a spoon. Keep over hot water while frosting a cake to prevent its becoming hard.

Yield: Sufficient for top and sides of a three-layer cake and for a colorful Texas touch you can mold your top decoration into a Star and garnish with Texas Pecans.

Good Start For Pop Is A Good Breakfast

By CECILY BROWNSTONE
 Associated Press Food Editor

One thing you can do for Dad on Father's Day and all the year round is to start him off right with a really good breakfast. A breakfast that comes up to high nutritional standards includes fruit cereal, milk, bread and butter, and is called a basic meal because it furnishes from one-quarter to one-third of daily food needs. On Dad's Day let the "bread" be a homemade coffee cake.

HOMEMADE COFFEE CAKE
 Ingredients: For Topping—1/4 cup firmly packed brown sugar, 1/4 teaspoon cinnamon, 1/4 teaspoon nutmeg, 3 tablespoons butter or margarine (melted), 1/2 cup bran or wheat flakes, 1/2 cup chopped nuts. For Coffee Cake—1/2 cup sifted all-purpose flour, 2 teaspoons baking powder, 1/2 cup sugar, 1/2 teaspoon salt, 1 1/2 cups bran or wheat flakes, 1 egg, 1/2 cup milk, 3 tablespoons butter or margarine (melted).

Method: For Topping—Mix together brown sugar, cinnamon, nutmeg, melted butter or margarine, bran or wheat flakes, and nuts; set aside for use on

Baked Rice And Chicken Broth Is Flavorful

During the warm weather days many smart homemakers try to keep a chicken in the refrigerator for salads, sandwiches and creamed dishes with vegetables. For this convenient purpose, the fowl is usually steamed or boiled and so there is the broth. In the winter time chicken broth makes wonderful chicken rice soup, but in the summer time, soup isn't used quite so much. But during hot weather, this by-product, broth, can be used to enhance this delightful rice dish to perfection. You'll find it is a perfect dish to give substance to an economical, vegetable-plentiful meal.

Ingredients: 2 tablespoons butter or margarine or chicken fat, 1/2 cup raw rice, 2 cups chicken broth, 1/4 cup grated cheese, 1/4 teaspoon paprika, 1/4 teaspoon pepper, Salt to taste.

Method: Melt butter or margarine in a skillet and add rice. Stir and cook rice in the fat for one minute. Heat to boiling the two cups of chicken broth and pour over the rice. Add grated cheese, paprika, and pepper and salt according to the amount used in cooking the chicken. Pour into a greased baking dish and bake one hour at 350 degree temperature, covering the baking dish during the last 30 minutes if it seems to be drying out too fast. Serves four. Of course, the chicken broth can be readily purchased in canned form if you don't have any left over from cooking your own chicken.

1/2 teaspoon nutmeg, 1/4 cup honey, 3 tablespoons melted butter or margarine.

Method: For Coffee Cake—Rinse raisins under hot running water and allow to drain in strainer or colander. Sift together flour, sugar, baking powder, salt, cinnamon, and nutmeg; cut in butter or margarine with a pastry blender (or work with your fingers) until no more fat particles show. Add 1/2 cup of the well-drained raisins. Beat egg until it is beginning to get pale and thick with a rotary beater or electric mixer; add milk and beat again to combine; add to dry mixture. Stir only until dry ingredients are moistened. Turn into a greased 8-inch square baking dish. For Topping—mix the remaining 1/2 cup of raisins with the wheat or bran flakes, nutmeg, honey and melted butter or margarine. Spread evenly over top of batter. Bake in a moderate (350 F.) oven about 30 minutes. Allow to stand for about 5 minutes in pan on cake rack so it will cut without crumbling; then cut in squares on baking dish. Serve warm.

Note: Have honey for topping at room temperature for easy mixing.

TIMELY TIPS
 Canned lemon juice blended with melted table fat is a taste appealing addition for cooked cabbage.
 spinach, beets, or carrots.
 Peanut butter gives a novel flavor to well-liked salad dressing made with egg, sugar, vinegar.

GAS STATIONS OBSERVE "BLACK TUESDAY"—Phil Geraci, left, and Frank Galla, right, New Orleans service station attendants drape their gas pumps with black crepe paper and signs as they mark "Black Tuesday," the first anniversary of Louisiana's current gasoline tax rate. Stations throughout the state were draped in black to mourn the tax which was raised from seven to nine cents by the state legislature a year ago. June 7. Retail gasoline prices in the state now range from 30 1/2 cents a gallon for regular to 32 1/2 cents a gallon for premium. (AP Wirephoto).

Officials Worried Over Five-Year British-Argentina Trade Pact

WASHINGTON, June 9 (AP)—Some American officials were reported concerned today over the negotiation of a five-year trade agreement between Britain and Argentina.

The State Department may file a mild protest against Britain's signing the pact as it now stands and urge that it be limited to a shorter period than five years.

Officials cited two main objections from the American point of view:

1. It would have the effect of sharply reducing, if not excluding, United States sales of some important commodities in the Argentine market because Argentine trade would be channeled to England.
2. It would be contrary to the principle of developing freely competitive international trade — to which both Britain and the United States have subscribed—in favor of a virtual barter arrangement.

The British would get mostly meat, plus some other foodstuffs, from Argentina.

From Britain, Argentina would obtain oil, farm machinery, automobiles, and other manufactured goods. It is in these fields that the State Department's experts believe the agreement would give British producers an unobtainable advantage over their American competitors.

Mrs. Nora Harding, Ollie and Martha Ann Harding accompanied by Mr. and Mrs. Fay W. Harding of Tazan have returned from a ten day visit in Kentucky and Tennessee.

'CAVE OF WINDS' DRAWS FIRE
81st Congress Is Running Up Government Printing Bills

WASHINGTON, June 9. — This is the talkiest, question askingest, bill introducing Congress of all time.

This is no, snap judgment handed down by ear weary reporters. It has been proved—by statistics—in testimony before the House Appropriations Committee.

Take congressional conversation. John J. Deviny, public printer, had come up to Capitol Hill to explain why it took so much money to run the government printing office.

One reason, he said, is because Congress talks so much. Normally, he said, during the first two months of a session of Congress, the "Congressional Record" will average 75 pages a day.

"The first 65 issues of the 81st Congress," said Deviny sadly, "Have averaged 116.9 pages."

Take the appropriations committee. It talks so much about saving the taxpayers money that it costs the taxpayers money.

So far, Deviny said, testimony before the various appropriations subcommittees has filled 17,646 pages. (This does not include the 28 pages needed for Deviny's testimony on why the printing cost is so high.)

Now about the bills.

So far Congress had had 10,588 bills introduced. That's more, Deviny said, than the last Congress introduced in six months. It has taken 48,263 pages just to print them.

But Congress isn't merely talking. It's also asking questions.

If there is anything a congressman wants to know, he can call the legislative reference service of the Library of Congress.

Dr. Luther H. Evans, librarian of Congress, estimates that this year the service will try to answer 22,000 congressional questions. That, on the average, is around 40 questions for each senator and representative.

that far off, non-questioning time, Congress apparently didn't need to know nearly as much.

In the whole year, it asked only 22,000 queries up against 1925's. In 850 questions.

Air Forces Plane Discovered In Sea

MERIDA, Mexico, June 9. (AP)—A nine-foot long plane, marked in English "Property of Army Air Forces," was recovered from the sea yesterday by a fishing boat. A gasoline-powered craft, it was found in the water about two miles off Cozumel Island, on the east coast of the Yucatan Peninsula. The plane had a wingspread of only six feet. There was no evidence it carried a pilot. It apparently had been guided by radio. The Philadelphia Phillies won their only National League pennant in 1915.

GNU GNORES GIRL FRIEND

LOS ANGELES, June 9. (AP)—Yes, there are bad gnus. Take Nefarious Ned for instance. Noting that Ned was becoming gnuotic, Chief Keeper Charles Allen coaxed into his pen at Griffith Park Zoo a lovely lady gnu, which arrived yesterday from San Diego. After proper introductions, Allen left the gnusome to themselves. Ned pawed the ground in welcome. His gnu girl friend pranced coyly around the pen. Suddenly she stopped and sniffed at a Brahman bull in an adjoining cage. Ned apparently considered this a violation of his gnu-trality. He charged and gored her twice, luckily not seriously. Allen placed them in separate pens, opining that in a couple of days they'll be rubbing gnoses like any gnuormal gnuilyweds.

Registration For Summer School Is Nearing Completion

Emphasis is being placed on completion of registration for summer school this week. Roy D. Worley, in charge of the short session for high school and eighth grade work said that he hoped to get all enrollments in by the end of the week. However, where circumstances prevent return to the United States to testify at the trial of Communist Party officials in New York. He said the men were being judged for their faithfulness to the American working class. The Negro baritone addressed the academy at a meeting commemorating the 150th anniversary of the death of writer, Alexander Pushkin. Irvestia, official government newspaper, called his address a "moving speech."

Robeson To Testify In Communist Trial

MOSCOW June 9. (AP)—Singer Paul Robeson told the Soviet Academy of Science yesterday he would return to the United States to testify at the trial of Communist Party officials in New York. He said the men were being judged for their faithfulness to the American working class. The Negro baritone addressed the academy at a meeting commemorating the 150th anniversary of the death of writer, Alexander Pushkin. Irvestia, official government newspaper, called his address a "moving speech."

AMA Open To Suggestions On Own National Health Program

By FRANK CAREY

Associated Press Science Reporter ATLANTIC CITY, June 9. — The American Medical Association is open to suggestions for elaboration of its own program to meet the nation's health problems—but will not compromise on its stand against compulsory health insurance. This was made clear today in a statement by the AMA's board of trustees and a subsequent interview with the organization's new president, Dr. Ernest Irons of Chicago. The board announced its intention to call a conference of "interested groups"—such as labor and farm organizations—to consider the AMA's official stand on the "advancement of medicine and public health." Dr. Irons told a reporter invitations would be sent out to get the views of a cross section of the representatives of government, labor, education, agriculture, industry, and social service. Irons, who took office at the AMA's 98th meeting here, emphasized he was speaking as an individual, but expressed confidence he reflected the board of trustees' view when he said: "No matter what develops at the projected conference, the AMA will steadfastly hold out against any yielding on the real hot-potato issue of the national health subject—compulsory sickness insurance. "There will be no compromise," said Irons, "on the general principle of our opposition to compulsory insurance which involved freedom of medicine and also freedom of the American people." The AMA's previously announced 12-point-plan for the advancement of medicine and public health calls for "rapid extension of voluntary hospital and medical care insurance" as opposed to President Truman's proposal for pay-roll deductions to meet compulsory insurance costs. The AMA's program also calls for: "Establishment of an 'independent' national health agency with a physician in charge; a National Science Foundation to promote research; state and local administration of federal funds to assist in medical care; provision for 'establishment of complete public health coverage for the country, with federal aid where the need can be shown.'" Irons said the AMA would not go into the proposed conference with the attitude that its program was perfect in all details. "It will be a conference," he said, "to get points of view, and it is our hope that out of it there will develop areas of agreement among opposing viewpoints that might make it possible for legislation acceptable to all to be written." The board of trustees, in its statement recorded the AMA's "opposition to any plan of government-controlled medical care compulsory in nature and supported by payroll taxation with inevitable deterioration of the quality of medical care." The House of Delegates, policymaking body of the AMA—was to get the board's conference-calling suggestion officially today for consideration. High on the agenda of the same meeting was the election of officers of the association.

'Miss Pigtails,' Mother Planning Long Vacation

HOLLYWOOD June 9. (AP)—Margaret O'Brien and her mother are planning a vacation today, following the child star's reinstatement on the MGM payroll and the mother's filing of a suit for divorce from her husband of three months. "Little Miss Pigtails" and her studio made up yesterday following a mutual agreement June 1 that her \$3,000-a-week contract be terminated. Her mother, Mrs. Gladys O'Brien Sylvio, in her divorce action filed yesterday, charged bandleader Don Sylvio with extreme cruelty. She accused him of "numerous separate, independent acts" of cruelty, but did not specify them. Twelve-year-old Margaret and her mother made plans for a six to eight-week vacation before the youngster resumes her screen career. Meantime, Sylvio through attorney Leonard Wilson, said he will file a demurrer demanding that the divorce suit be explicit. He also threatened to contest the suit. "I don't see how he had time to be cruel to her," Wilson said. "According to her, he's only been with her three times, with Margaret present on all occasions." Sylvio contends the marriage was consummated. The wedding was in Palm Beach Fla. last Feb. 22 at which time the young actress wept clenched her fist and refused to kiss her new stepfather.
