TEX'S TOPICS

Only two more days to go... Then Christmas... And after Christmas, what? Well, there are New Year's Eve and New Year's Day, and then 1937...

Here's a tip for Pampa taxi companies... If you are about to leave a party and you suddenly notice that the room is weaving and bobbing about, make your way as best you can to the telephone and say to Central, 'I'm at such-and-such an address out here on E. Francis and I don't want to drive home.'

In a short time a cab will arrive with two drivers (stretchers bearers to you). One will take you home and the other will take your car home.

That's a service now offered by taxi companies in certain eastern cities... And it is to be hoped it will be inaugurated generally throughout the country.

If it is made available to and used by persons who drink not wisely, but too well, it may help abate the terrible drunken driver menace that helps build the nation's casualty toll... As we said before—this is only a tip to Pampa taxi firms.

David Ballou, back from the East to resume duties at KPDN, reports that Panhandle weather has it on anything you can find back there at this time of the year... His report on the weather there is summed up with the very descriptive "nasty."

Comes a Christmas greeting from Miami Beacher Joe Copps, whose pretty bathing girls adorned the new Life magazine a couple of weeks ago... The card reproduces one of the nicest of the girls, a la beach... Joe writes: "If you can pick me out a cow-girl to tie this one, I'll move the whole works to Pampa."

All we will reply to that one is: "Okay, Joe. The assignment is easy. We have in mind one in particular right now and she has a lot of sisters in the same class. We'll be looking for you here in the Panhandle soon."

HOUSE VOTES IMPEACHMENT OF PRESIDENT

PISTOLS ARE DRAWN IN VIOLENT ARGUMENT

By EDMUND A. CHESTER HAVANA, Dec. 22 (AP)—Miguel Mariano Gomez, whose ability to win, then lose, high places is becoming almost traditional, stood ouster trial on impeachment charges before the court of Cuba's Senate today—all but counted out of office.

He was generally conceded the loser in his struggle with the Island's military iron man—Col. Fulgencio Batista, the army chief of staff—on the decisive issue of a sugar tax to open hundreds of rural, soldier-taught schools.

Impeached by the House of Representatives early today by a 3-vote margin, Gomez seemed definitely on his way out of the presidential palace, and quickly, at that.

The Senate was called together at noon to try him on the impeachment charges, accusing him of interfering with legislative prerogatives. He opposed the sugar tax bill because he considered the army school system a "fascistic tumor."

HAVANA, Dec. 22 (AP)—The Cuban House of Representatives, by a margin of three, voted today to impeach President Miguel Mariano Gomez for vetoing the \$1,500,000 sugar tax bill providing funds for army-taught rural schools.

The vote was 111 to 45, three more than the necessary two-thirds majority.

The Senate then met to receive the charges and called a special session for noon today when it will sit as a court to try Gomez.

The House voted its ouster at the close of a session which, lasted most of Monday night, and by its unprecedented action showed its support of Cuba's "strong man," Col. Fulgencio Batista, sponsor of the bill.

Gomez, in fighting the bill all day long, asserted he did so because he thought its passage might result in education of Cuban youth in the "fascist manner."

The impeachment charges alleged specifically that Gomez had threatened reprisals at those who voted against him.

The Marsh Buggy—For Heavy Sea or Rough

These are not pictures of the landing gear for the newest super-super airplane. They merely introduce the Marsh Buggy, which now is bobbing across the bayous and wallowing through the mud of Louisiana lowlands in search of oil.

When engineers of a Pittsburgh oil firm found difficulty negotiating the marshlands by foot and canoe, they devised the vehicle, which, on its 10-foot rubber tires, travels over land, as at left, or through water and swamps, top photo, with equal facility. It carries a marine license, and has automobile lights and horn.

Engineers now carry their heavy equipment with them and conduct tests without regard for the terrain. Treads on the tires are inflated pieces of hose. The Marsh Buggy weighs 7500 pounds over all, yet sinks but two feet in water.

Business Here Will Surpass Ten Millions

Unofficial prediction that retail business in Pampa during this year would exceed \$10,000,000 was made today with the receipt at Board of City Development headquarters from the Bureau of Census, Department of Commerce, that showed retail sales in Pampa in 1935 amounted to \$8,084,000 and in the county \$9,820,000.

All Families On Goodfellows List 'Adopted'

\$4,105 GIVEN FOR NEEDY IN RELIEF DRIVE

GOAL OF \$5,000 MUST BE SURPASSED, SAYS JAKE GARMAN

With an urge for everyone to give a Christmas thought to the city's indigent families, officials of the Pampa Supplementary Relief Fund announced today that \$4,105 had been contributed in cash and pledges in the community-wide drive at noon today.

The goal is \$5,000. "Unless this goal is surpassed there will be many women and children, and men, too, who will go in want in Pampa this winter," J. W. Garman, finance chairman of the fund, said today.

Mr. Garman said the drive will be continued until after Christmas in an effort to reach the goal. He again urged fund solicitors to devote what time they can to the drive and to file their reports at fund headquarters in City Hall.

"The goal is still far short of the needs," the Rev. C. E. Lancaster, general fund chairman said, "and we still have confidence that when the Christmas rush is over, Pampa will not forget those in need. We hope to reach the goal by Jan. 1."

YORK, England, Dec. 22 (AP)—The Archbishop of York broke his silence on the abdication of King Edward VIII today and, in words more outspoken than those which drew the fire of press and parliament on the Archbishop of Canterbury, implied the monarch's decision would not have been made by a man of honor.

OSCAR DOTSON BADLY INJURED AT RED RIVER

AUTO RUNS OFF BRIDGE INTO RIVER AFTER SKIDDING

Death hovered over the steel runway of a bridge across the Red River, about four miles southeast of LeFors, early this morning, when Mrs. Oscar Dotson, 44, was killed instantly and her husband critically injured. Two other occupants of the car received only minor injuries.

The accident occurred about 3 o'clock when Mr. and Mrs. Dotson, Mrs. O. L. Beik, sister of Mrs. Dotson, and Mrs. Marjorie Taylor were returning from Mr. Dotson's highway road house, the Lane Tavern, east of McLean.

Mr. Dotson, at the wheel, drove down an incline on the bridge. Steel runways across the bridge were heavily coated with frost. The car struck the steel and started to skid. The driver apparently started to apply the brake, causing the machine to swerve. It crashed into the guard rail and ripped off about 50 feet before toppling into the dry river bed, 15 feet below, landing on the radiator.

A section of the steel top above Mrs. Dotson's head crushed in and opened, driving part of it into the woman's body. A piece of the bridge railing also pierced the front of the car, driving into the front seat.

Mrs. Dotson's head was badly cut and crushed and her lung was punctured. Other injuries included broken bones and severe lacerations and bruises.

Mr. Dotson, who weighs about 225 pounds, was thrown with terrific force against the top of the car. His head was badly cut and crushed, one arm broken. His condition was so critical at Worley hospital this morning that x-ray pictures had not been taken. Physicians feared that he has a fracture of the skull.

Mrs. Beik and Mrs. Taylor, riding in the rear seat, received severe cuts and bruises but suffered no serious injuries. Mrs. Beik's shoulder was badly bruised but is not believed any bones were broken. Both women were taken to their homes after receiving emergency treatment.

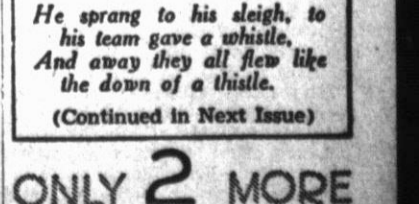

The car was view by hundreds of Pampans this morning. The front was crushed almost flat and the top caved in along one side. An all-steel wheel had to be secured to raise the car from the river bed.

Attendants at Pampa Mortuary and spectators who arrived worked for some time extracting the occupants from the car and getting them up to ambulances and cars on the bridge.

Mrs. Dotson had been a resident of Pampa for 10 years, coming here from Chickasha, Okla. Mr. Dotson was a well-known heavyweight wrestler in his early years. For several years after retiring from the mat, he operated a blacksmith shop here.

'LILIBET', OFTEN A BRIDESMAID, THINKS SHE'S QUITE GROWN UP

By CHARLES NORMAN (AP Feature Service Writer). Princess Elizabeth, heir-apparent to the throne of Great Britain, was christened under prophetic circumstances in the private chapel of Buckingham Palace.

Dressed in a long lace robe which had adorned the persons of George V and Edward VIII on a similar solemn occasion, the daughter of the then Duke and Duchess of York was named Elizabeth Alexandra Mary.

"After three queens," whispered the good citizens of London and of the County of Forfarshire, Scotland, ancient seat of the Duchess of York's family, the Earls and Countesses of Strathmore. Guns boomed and beacon fires burned on the hills.

Popularity Rivals Edward's. A decade of swift change saw the death of George V, the accession of the Prince of Wales, his abdication, and the accession to the throne of the mightiest empire in the world of 10-year-old Elizabeth's father and mother.

Thrilled By Pageantry. She is a slender child, thrilled by the pomp and pageantry of her country, and no longer bashful before cheering crowds. Her blue eyes and features reflect the Germanic strain of the royal family, and her resemblance to her father's kin is more marked than it is to her mother.

Hopkins News. By Helen Partridge. HOPKINS, Dec. 22.—R. W. Talley, who was injured last week while at work on a Skelly lease near here, is reported doing as well as can be expected.

Miss Wilma Jarrell was unable to teach today, due to a tooth infection. Mrs. Ralph Erwin, formerly Nan Crouch who taught first grade at Hopkins for several years, substituted for Miss Jarrell.

Martha Orr entertained her eighth grade class with a Christmas party in the home of her parents at the Phillips camp. Everything was decorated for the occasion, mindful of Christmas. The evening was spent in playing games, and exchanging small Christmas toy-gifts.

Fruit cake, cocoa, and cheese sandwiches were served to Mr. and Mrs. Helen Laycock and daughter, Berdine, Fay Kitchens, Bernice Roberts, Gene Cooper, Everett Sparks, Sam Bird, Haughtwout, Rex Lee Jones, Truman Kitchens, Jack Termin, Seth Cox, and Martha Orr.

Gene K. Smith, son of Mr. and Mrs. Emory Smith, has scarlet fever. They are under quarantine at their home at the Phillips Pampa plant.

Mary Elizabeth Porter, daughter of Mr. and Mrs. A. L. Porter, is home for the Christmas holidays. Miss Porter has been attending business college at Oklahoma City.

Mr. and Mrs. Don McCoy and family left Monday for Dallas where they will spend Christmas with Mrs. McCoy's mother.

HARVESTERS TO PLAY FAST GROOM BASKETBALL TEAM HERE TONIGHT

LOCAL CAGERS PRACTICE LONG TIME MONDAY

FRANK MONROE CLAIMS TEAM IS PLENTY CAPABLE

Small but faster than lightning, were the words used by Frank Monroe when he told Coach Odus Mitchell something about the Groom Tigers who will be here tonight for a game with the Pampa five. Game time will be 7:30 o'clock with admission 10 and 25 cents.

Monroe says the Tigers play in the Perryton tournament where he was one of the officials. Although the Tigers went out before the Dalhart Wolves, they showed great promise of becoming a great team, declared Monroe.

Yesterday Coach Mitchell put his youngsters through a long workout which featured fundamentals, especially on defense. Only Albert Ayer has had a thorough training in basketball fundamentals. Ivan Noblitt has also been drilled in basketball for a year. The rest of the squad are newcomers and know little about the game.

The starting lineup for tonight will be Cox and Dewey, forwards; Noblitt, center; Ayer and Heiskell, guards. On fast breaking plays, Heiskell becomes a forward with Cox stepping back to guard. Ayer also takes his turn breaking through on the defense to give the Harvesters a five-man attack and scoring threat.

Practice and more practice will be in order for the Harvesters as they prepare for a heavy season which already sees 12 games scheduled and none of them against Class A opponents. The district tournament will be held in Pampa February 19 and 20. Coach Hendricks will bring his full squad to Pampa tonight. His kids will be much smaller than the Harvesters. Speed, however, will be used to offset height. Accurate passing will also be a factor, it is believed.

COTTON BOWL TICKETS GO ON SALE AT DALLAS

DALLAS, Dec. 22 (AP)—Public sale of tickets to the Texas Christian-Marquette New Year's Day Cotton Bowl grid classic started today, some 35,000 being placed in downtown ticket booths.

J. Curtis Sanford, president of the Cotton Bowl association, said 11,000 mail and telephone reservations had been received prior to actual printing and public sale of tickets.

The Cotton Bowl stadium, in the heart of the Texas Centennial exposition groups, seats approximately 46,500. Jordan Ownby, chairman of the Dallas chamber of commerce athletic group, planned to confer with his committee today regarding reception plans for the Marquette Golden Avalanche, due to arrive here Thursday from their Durant, Okla., training site.

Sanford and Conrad Jennings, athletic director of Marquette, planned to confer at Fort Worth tonight with Head Coach Leo Meyer of Texas Christian regarding officials for the game. It appeared likely two southwest conference and two middle-west officials would be selected.

Hunk Anderson Let Out at N. Carolina

RALEIGH, N. C., Dec. 22 (AP)—Hunk Anderson, head football coach at North Carolina State college for the past three years, was out of a job today but one of his staunchest alumni supporters threatened a court fight over his dismissal.

Soon after Dr. Frank P. Graham, president of the greater University of North Carolina, which was accidentally left in the Southern conference rules and which states that the athletic director and coaches shall be chosen by the president.

"The athletic council was legally credited by the trustees who have authority under the laws of North Carolina, whereas the Southern conference is simply an association of colleges and without legal authority."

The contract of Anderson, former Notre Dame coach, expires on December 31. His terms have had up and down seasons, and this year's record was three won and seven lost.

When President William Henry Harrison died in the White House in 1841, people in Ohio, his own state, didn't learn of it for five days.

HERMAN AND HARTNETT HOLD ON TO FIELD CHAMPIONSHIPS

NEW YORK, Dec. 22 (AP)—It's going to take a lot more than the national league offered this season to move second baseman Billy Herman and Catcher Gabby Hartnett of the Chicago Cubs out of the fielding championships for their respective positions.

Not only did the two Cubs retain their league field titles—Hartnett for the third straight year—but official averages released today showed they turned in two of the half-dozen record-equaling or shattering performances for the season. Herman tied a league mark he set three years ago, by putting out 11 men a game with the Boston Bees August 1. Hartnett, current "iron man" among the catchers, was behind the plate for the Cubs in 114 games, thus stretching his record of catching more than 100 games a season to 11 years.

The all-league fielding team for the season, including those who saw action in 100 or more games, lined up this way: First base—Gus Suhr, Pittsburgh Pirates, 9534. Second base—Herman, 9753. Catcher—Hartnett, 9673. St. Louis Cardinals 971.

Third base—Joe Stripp, Brooklyn Dodgers, 9683. Outfield—John Cooney, Dodgers, 994. Augie Galan, Cubs, 937; Mel Ott, New York Giants, 9854.

Pitcher—Bob Felt, Boston Bees, 1,000 (57 chances, 35 games). Tex Carleton, Cubs, 1,000 (97 chances, 35 games).

VON ELM AGAIN WINS CALIFORNIA TROPHY

GLENDALE, Calif., Dec. 21 (AP)—George Von Elm, once the master amateur golfer of the country, came back into championship glory today with the reacquisition of the Southern California open cup.

Blond Von Elm, looking little older than the day 10 years ago when he beat the great Bobby Jones for the national amateur crown, stroked his way through 72 holes of sub par golf for a total score of 69-68-70-72-279. Par at the Oakmount Country club is 72—and 288 for 72 holes.

The Hollywood pro pocketed \$400 for first prize. He won the Southern California open title as an amateur in 1925.

Harry Bassler, Long Beach, California, edged out Olin Dutra of Los Angeles for second place with 282. Dutra had 283.

Willie Hunter, with 284, took fourth and tied with the leading amateur of the meet, Lieut. Ken Rogers, army aviator from San Antonio, Tex.

(Pinch hitting for Eddie Brietz.) NEW YORK, Dec. 22 (AP)—Sport has reached a new all-time low on 42nd street. . . . A burlesque show just off Times Square is running a pro basketball game between shows.

If that doesn't prove something other about what a well ordered world it is, listen to this: Horton Smith, a clever gent who knows how to make a little white pill game, makes a great comeback and tops all the golf pros in winning prize money in 1936. And what does he get?—\$7,884. . . . Joe Louis swings once on Eddie Simms and gets \$20,000 for 26 seconds of fighting. . . . Connie Mack will be 74 tomorrow. . . . Wonder how he'd look without that four-inch collar.

Hunk Anderson's record as a head football coach gets worse each Christmas, but they'll tell you anywhere in the country he's the best assistant any head coach ever had.

Note to Col. Eddie Brietz: Better get out of that egg and come back up here. They're making tracks to close your newsreel theater. Ace Hudkins, weighing 240 now, will run a couple of ponies at Santa Anita this year. . . . Mike Jacobs is on the pan over here. . . . Critics says he rushed Harry Balsamo into the top flight too fast.

Louisiana State doesn't mind advertising for athletes. . . . Their publicity department has just issued a come to L. S. U. and see the world."

NEW YORK, Dec. 22 (AP)—The New York Giants should have an international league club in Jersey City by tomorrow night. . . . In fact, it would surprise nobody to hear that young Horace Stoneham already has bought the Albany franchise from Sam Breadon who had frowncd on the franchise was worth \$30,000.

Prosperity note: Ticket sellers, almost human during the great sag, are beginning to look haughty again when the customers come around. . . . Sam Breadon has invited the New York baseball writers to play their annual game at St. Louis next season under the lights. . . . Sam said he'd pay the \$400 it would take to run the lights for a night. . . . MARQUETTE GIVEN IMPRESSIVE WELCOME ON ARRIVAL AT DURANT

NEW YORK, Dec. 22 (AP)—The tennis "tourists" from Kenyon College are coming east again. This time, instead of unknown racket wielders, they're seeded Nos. 1 and 2 in the national indoor junior championships which get under way Saturday at the seventh regiment armory.

The "tourists" are Don McNeil of Oklahoma City and Mory Lewis of Texarkana, Ark.—last spring they turned up in New York with a couple of college teammates just to see what they could do. McNeil won the eastern junior title with Lewis as runner up; they were among the last few to be eliminated in other tournaments, and they performed expertly as a doubles team.

They cut another wide swath in the national junior outdoor championships in the west but were not heard of in the east again until yesterday. Their best placed at the top of the list of 95 entries although neither has competed before on the board courts.

They are seeking the title won last year by Alfred Jarvis of Tenafly, N. J., and Williams college. The boys' championship, running concurrently with the junior event, drew 56 entries with Arthur H. Ink, Jr., of San Diego, Calif., and William Umstaedter of Milburn, N. J., heading the seeded list.

FREDDIE STEELE WILL FIGHT GORILLA JONES

CHICAGO, Dec. 22 (AP)—Freddie Steele, world middleweight champion, boxing for the first time away from his native Pacific coast, will get \$20,000 for defending his title against the Akron, O. negro, Gorilla Jones in a 10-round afternoon bout in Milwaukee New Year's Day.

It will be the richest purse this gifted, two fisted youngster from Tacoma, Wash., ever received since they first pulled the boxing gloves on him when he was a lad of 14. That was nine years ago.

Milwaukee, scene of some stirring middleweight fights in the days of the late Stanley Ketchell and Billy Papke, is all "steamed up" over the battle—its first championship affair in years.

So enthusiastic were promoters that they asserted they would go through with the fight despite any protests from the National Boxing Association which had frowned on the match because of Jones' suspension in 1933. Victor Manhardt, chairman of the Wisconsin commission, announced last night, however, that the N. B. A. will approve the bout.

It will be Steele's first defense of his title since he won it from Babe Risko in Seattle last July.

CLOSE GAME.

BROWNWOOD, Dec. 22 (AP)—Baylor's quintet nosed out Daniel Baker, 29 to 28, last night in a nip and tuck game in which the lead changed frequently. Seventeen of the 26 fouls called were against Baylor. Jake McCulley of Daniel Baker was high scorer with 18 points.

TINKER IMPROVED.

ORLANDO, Fla., Dec. 22 (AP)—Joe Tinker, former baseball star, seemed on the road to recovery today after being gravely ill for weeks. He was removed from a hospital to a physician's private sanitarium.

TROJANS BEAT OWLS

HOUSTON, Dec. 22 (AP)—Southern California's tour basketball team remained undefeated today in its Texas practice jaunt after a 40 to 31 victory over the Rice Owls, fourth southwest conference quintet to fall before the Trojans. The Trojans grabbed an early lead and held it throughout. Willis Orr, Rice center, took scoring honors with 15 points. Wayne Garrison paced the visitors with 11.

LET'S NOT FORGET THOSE WHO MADE YEAR MERRY
From all indications, this is one of the busiest holiday seasons in years. Everybody by now has been reminded that it is more or less of a public duty to shop early and, undoubtedly, has been eagerly scanning lists of Christmas gift suggestions.

In this regard, maybe it would not be amiss to suggest that we do not overlook public and private individuals who have contributed so generously to the gaiety of the nation, during this eventful year.

It would be sad, indeed, if Christmas's setting sun would find no good deed done, or gifts provided, for these celebrities. Such a lack of public appreciation could not be due to difficulty in choosing proper gifts, since no task could be simpler.

For Adolf Hitler, for instance, there must have been considerable wear and tear involved in ripping up the Versailles Treaty. So what could be more suitable for him than a new, be-ribboned treaty, already perforated?

For James J. Farley, peer of postmasters and postmaster at prophecy, nothing seems more apt than a turban, robes, and a crystal ball, though it is doubted if he would need the last-named item.

There is no need to remember the Duke of York or Mrs. Simpson. Each has already received a splendid gift, one getting a kingdom, the other an ex-king.

For both CIO's John Lewis and A. F. of L's William Green, nothing seems more appropriate than a pair of heavy-duty boxing gloves.

A can of talc would seem the serviceable thing to present to the Literary Digest, the face of which, at last accounts, was very red.

To the Liberty League and Haile Selassie might be sent the very latest in wailing walls.

Among the choicest of Christmas gifts are certain books. Of the best sellers, "Gone With the Wind" seems suitable for politicians of the late campaign, and "Live Alone and Like It," for the American envoys forbidden to wed foreigners.

These are just a few suggestions that come to mind, and there are others undoubtedly far more appropriate. But it would seem base, indeed, if we were to let the season of cheer and good will pass away without remembering those who, during the past year, helped keep our minds off life's stark realities.

ARTISTIC CLASS ROOMS

Dean Virginia C. Gildersleve of Barnard College pleads for "beauty in class rooms." She does not mean pretty teachers, handsome professors, or even good-looking students. She means class rooms attractive enough to offer "food for the spirit and a greater stimulus to learning."

It is curious, as she points out, that college courses have been enlarged to include beauty—modeling, sketching, dancing, music, etc.—buildings and campuses have been designed for beauty and esthetic value. Even administration offices and dormitories receive decorative attention. Only class rooms have remained ugly, cold and cheerless.

There doesn't seem to be any real objection to her proposal that they, too, embody the best in architecture and decoration. Beautiful rooms are an inspiration anywhere.

DAILY WASHINGTON LETTER

By Rodney Dutcher

WASHINGTON.—Ever since election, the Spanish war has been receiving increasing attention from all groups in Washington.

From day to day new angles appear which compel such attention. There is now little doubt that the floor of Congress will be the scene for some bitter debate over Spain, with partisans of both sides in the conflict springing up to air their views.

Most important of all considerations is the danger of a general European war, which peril, diplomats believe, has grown since Franco's Fascist army was stopped outside Madrid.

A quick victory for Franco and the German-Italian-Portuguese bloc whose active aid made his previous progress might have minimized that danger for the time being.

But the entry of foreign troops, including thousands of Germans and Italians, with the obvious co-operation of their governments, has created a situation where only foreign invasion in force seems likely to tip the balance against the Spanish government.

Franco's failure to capture Madrid has at least staved off pressure on this government to recognize his proposed military dictatorship. At one time State Department officials felt they might soon have to face the issue.

They were, however, more concerned with the attitude of the Latin American republics—and still are. If those nations would follow the German-Italian lead and recognize Franco, it would be a blow to the neutrality aims of the Buenos Aires conference and the Roosevelt administration's strong desire to keep this hemisphere out of war.

While maintaining strict neutrality, the Roosevelt-Hull policies and this government's course at Buenos Aires have tended to discourage recognition of the insurgent regime. And State Department officials privately express belief that if there had been no United States to consider, most Latin American governments would by now have recognized Franco.

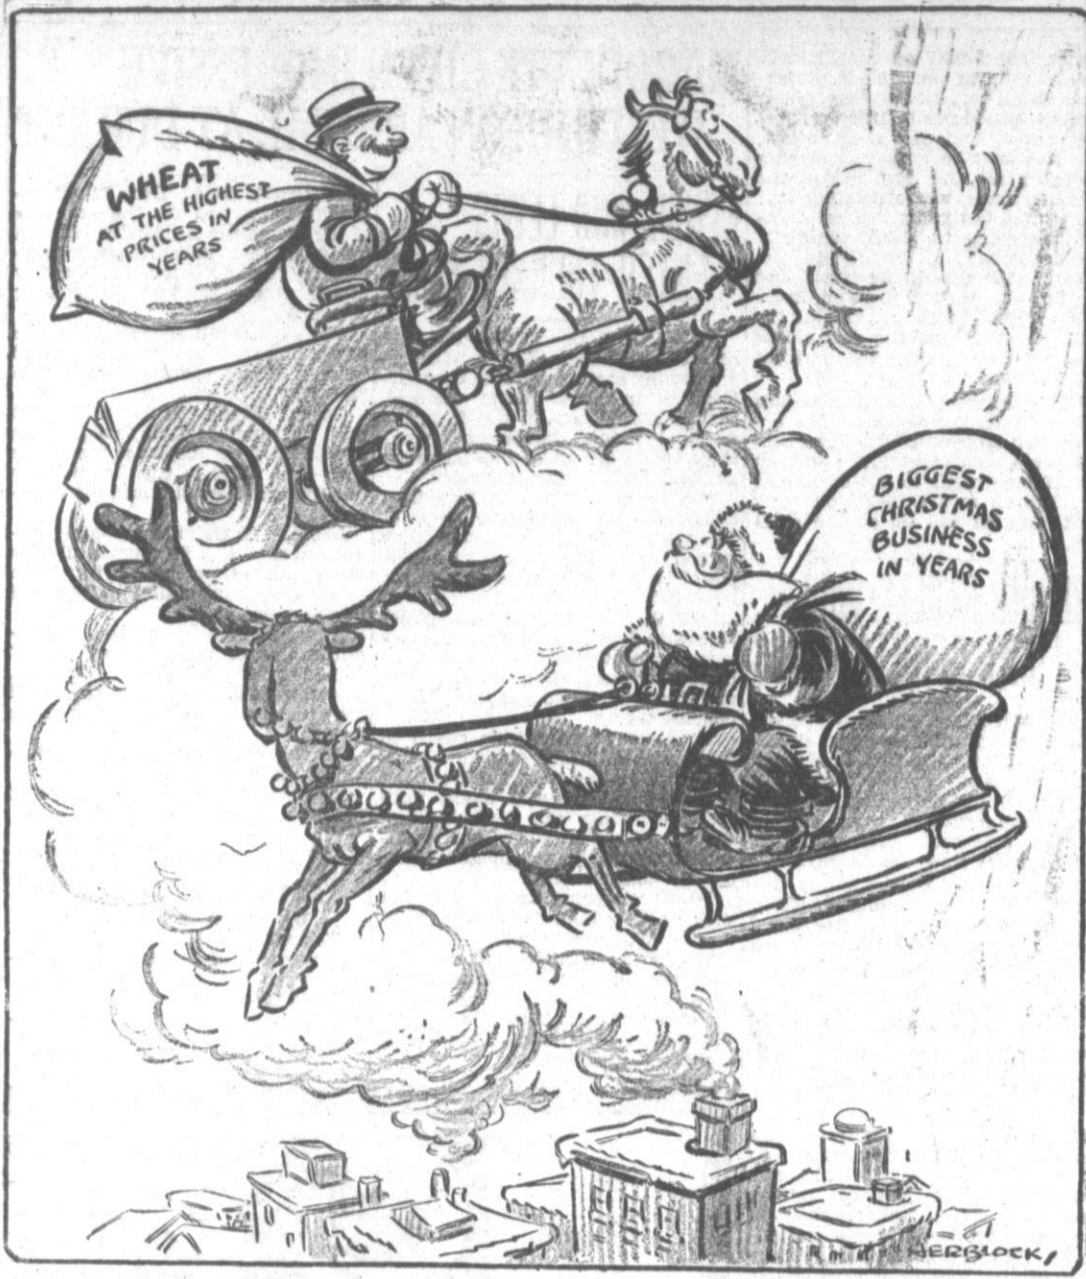

Officials point out that these countries are usually semi-feudal in character, their governments dominated by military cliques, wealthy landowners, and other groups such as supported the rebellion in Spain.

Army men, including foreign military and naval attaches, naturally are devoting constant attention to the Spanish warfare, especially to the armaments imported from other nations, which they believe virtually have made Spain a proving ground for the newest wrinkles in modern warfare.

Our own military experts attribute the unexpected setbacks to the Franco army primarily to failure of the anti-government leaders to anticipate the relative solidarity with which the Spanish people have supported the government, the difficulty of recruiting Spaniards for the rebel army, and the entirely unforeseen ability of the population of such a large modern city as Madrid to preserve its morale under terrific aerial bombardment.

MAN ABOUT MANHATTAN

NEW YORK.—Recently John Barbirolli had a birthday. He was 37 years old, and now he has things to look back on, as well as to look forward to.

He has an orchestra of his own in Glasgow, the "Scottish." He was released for half the season by that bra band to conduct the Philharmonic-Symphony of New York. This he has done so well that the management recently called this tersely to Glasgow: "Thanks for Barbirolli. New York Philharmonic-Symphony."

He has also conducted Richard Strauss' "Don Quixote" so beautifully that Messrs. Piastro, Schuster and Kurthy of the orchestra waylaid him in the wings and embraced him.

Barbirolli, whose blood is Latin though his nationality is British, embraced right back.

Discovered The Doughnut
He has been taken to a prize-fight by Fiorello LaGuardia in person, and had the experience of being greeted on all sides by whistles from the various symphonies. Beethoven's Fifth, Tschalkowsky's Fifth and others.

This was because a large delegation from the Philharmonic was present to see Barney Ross while the doughnuts out of one Janzner. On this occasion Barbirolli met also Jack Dempsey, the catering referee.

And Barbirolli, after unprece-

dent fasting, has discovered the doughnut.

Recently Barbirolli conducted the afternoon concert as per schedule. He had nothing before conducting but a cup of coffee. After conducting he went directly to a tea at Lady Norton-Griffith's. Tea, the shuddering Mr. Barbirolli found, was cocktails accompanied by all sorts of odd edibles, none that the management recently called this tersely to Glasgow: "Thanks for Barbirolli. New York Philharmonic-Symphony."

AROUND HOLLYWOOD

HOLLYWOOD.—Along the local grapevine one hears that James Stewart, the pride of Indiana, Pa., is not so greatly appreciated on his home studio lot as he might be, considering the excellent impression he has made in the various roles assigned to him.

This may be because that lot is the studio domicile of the year's outstanding comet, Robert Taylor, in whose glittering wake less meteoric box office attainments might be alighted.

Whatever the cause, Stewart now is in a fair way to remedy this. He is on loan to play the role of Chico in "Seventh Heaven" opposite Simone Simon. And movie history has only to repeat itself, so well Stewart to the top—"Born to Dance" does not turn that trick for him in advance.

Skyrocketed Janet Gaynor
Ten years ago this picture in silent form took two practically unknown young people, Janet Gaynor and Charlie Farrell, and made them the screen's foremost romantic team for the next six years at least.

Frank Borzage directed then. The other day Henry King put the talkie version to work in cramped quarters: a mouldy, damp, crawly sewer in Paris.

Here the Sewer Rat (John Qualen) and Chico, son of the streets, are introduced to the camera. Between takes, they sun themselves outside the enclosed set, and compare notes on costumes and make-up. And a fine pair they are, ragged and begrimed, Qualen especially, with his red nose and pink-grained eyelids.

"It isn't how long it takes to put it on," says Stewart, "but how long to get clean again. I feel sorry, especially when I go to the dining room. My dirt rubs off on the tablecloth."

"I don't go to the dining room," says Qualen. "I live close enough to go home for lunch—and I eat in the backyard."

They, however, sanitarily new, have been run through the studio dirt mill. Wrinkled and tattered, the garments are sprayed with Fuller's earth, grease, paint, and discoloring acids. Stewart and Qualen will feel "scrimy" for several weeks.

Tops in Squallid Sets
Squallid more dismal is rampant on another outdoor set, at the moment, where Mark Twain's "The Prince and the Pauper" is in work. Water stands in the cobblestoned streets of London's 16th century slums, and the ill-shod poor, gaunt and lean, pursue their separate

ANSWERS TO QUESTIONS

A reader can get the answer to any question of fact by writing The Pampa Daily News Information Bureau, Frederic J. Haskin, director, Washington, D. C. Please enclose three (3) cents for reply.

Q. At what age do people do the most buying? T. T.
A. Between the ages of 25 and 35. This is the time of accumulation. Young people have married and are acquiring material possessions.

Q. Do orchids grow wild in Mexico? H. J.
A. During fall and late winter orchids grow in profusion there. Most of them bloom from October to February. They grow, usually three to six feet from the ground, on a variety of rough-barked trees such as the palm and mesquite, the roots adhering closely to the bark. Between Mexico City and Orizaba there are stretches which are literally paths of orchids. Some of the plants bear from twenty to fifty blooms, each flower about four inches across.

Q. Are movie admission prices in Europe higher than those here? E. W.
A. In London an ordinary seat in a good theater showing a new production costs from 60 cents to \$1.80. Prices on the Continent are similar.

Q. What became of Joseph Wendling, the janitor, who was accused of murdering Alma Kellner, an 8-year-old girl, in Louisville many years ago? H. W.
A. Wendling was imprisoned in the penitentiary at Frankfort, Ky. After one escape and an attempted one, he was transferred to Eddyville penitentiary. Wendling pleaded his innocence and declared he could clear up the case if he could be paroled and deported to France. Gov. Ruby Laffoon granted a parole, on recommendation of an uncle of the murdered child's, and the prisoner returned to his home in France where he is now living.

Q. Has New Haven, Conn., always had the same name? W. J.
A. The first settlement in 1638 was known as Quinnipiac, but in 1640 it was renamed New Haven.

Q. What are the largest candy-making centers? H. W.
A. Most of the large establishments are located in and around Chicago. This centralization of the industry has come about because of the growing use of corn syrup in the industry and the fact that Chicago is close to the source of supply. New England, especially the section around Boston and Cambridge, is the second largest candy-making center. New York ranks third.

Q. What is the meaning of the term, distemper, in art? J. K. G.
A. This is a method of coloring surfaces, such as walls and panels. The colors for the process are mixed with a solution of water and size, or for small surfaces, of water and gum or the albuminous matter of eggs.

Q. How much does Gov. George Earle of Pennsylvania weigh? E. R.
A. The governor weighs 230 pounds.

Q. Did the United States ever consider the purchase of Cuba? M. B.
A. As early as 1845 diplomatic negotiations with this objective were instituted.

Q. What was the first city to adopt a zoning plan? How many cities now use this plan? E. J.
A. New York was the first American city to adopt a zoning plan in July, 1916. More than 1,200 municipalities now have zoning plans.

Q. What are the chances of being killed in a railroad accident? G. R. S.
A. The chances are but one in 24,000,000 that any railroad passenger will be fatally injured by an accident.

Q. At a birthday party should the presents be opened or kept until the party is over? H. B. W.
A. It is customary to open any gift immediately upon its receipt.

Q. How much money is invested in South America by people in the United States? O. E.
A. It is estimated that the amount may run to five billion dollars. British investments in South America are greater—probably more than six billion dollars.

The HOLIDAY MYSTERY

Chapter VI
Whenever Bob tried to remember just what had happened in the next few hours, he was always conscious of the utter confusion that gripped the household. People hurried up and down halls, and in and out of littered rooms, aimlessly doing unnecessary things, as though to ease the horror that held them.

Pearl Pierre, now head of the family, took chair of affairs and issued orders to have the house chapel put in order to receive his brother's body. A careful examination showed that Pearl Sam had been dead for some time there under the Christmas tree. A candle, just above him, had burned itself out and dripped on the golden signet ring on his outspread hand.

"They shouldn't move the body until we send down for the sheriff," Bob protested to Ramon as they stood, watching the servants lift the limp form. "Think we ought to remind Pearl Pierre of that?"

"He may have forgotten," agreed Ramon. "These sudden cases are hard to handle, you know."

Accordingly they moved over to Pearl Pierre's side. He was standing, glowering down at the floor, as tho he held the solution to the mystery. He looked up with a nervous jerk and heard them through without a word. Then a sneer came over his face and he declared he would not clear up the case if he could be paroled and deported to France. Gov. Ruby Laffoon granted a parole, on recommendation of an uncle of the murdered child's, and the prisoner returned to his home in France where he is now living.

Q. Has New Haven, Conn., always had the same name? W. J.
A. The first settlement in 1638 was known as Quinnipiac, but in 1640 it was renamed New Haven.

Q. What are the largest candy-making centers? H. W.
A. Most of the large establishments are located in and around Chicago. This centralization of the industry has come about because of the growing use of corn syrup in the industry and the fact that Chicago is close to the source of supply. New England, especially the section around Boston and Cambridge, is the second largest candy-making center. New York ranks third.

Q. What is the meaning of the term, distemper, in art? J. K. G.
A. This is a method of coloring surfaces, such as walls and panels. The colors for the process are mixed with a solution of water and size, or for small surfaces, of water and gum or the albuminous matter of eggs.

Q. How much does Gov. George Earle of Pennsylvania weigh? E. R.
A. The governor weighs 230 pounds.

Q. Did the United States ever consider the purchase of Cuba? M. B.
A. As early as 1845 diplomatic negotiations with this objective were instituted.

Q. What was the first city to adopt a zoning plan? How many cities now use this plan? E. J.
A. New York was the first American city to adopt a zoning plan in July, 1916. More than 1,200 municipalities now have zoning plans.

Q. What are the chances of being killed in a railroad accident? G. R. S.
A. The chances are but one in 24,000,000 that any railroad passenger will be fatally injured by an accident.

Q. At a birthday party should the presents be opened or kept until the party is over? H. B. W.
A. It is customary to open any gift immediately upon its receipt.

Q. How much money is invested in South America by people in the United States? O. E.
A. It is estimated that the amount may run to five billion dollars. British investments in South America are greater—probably more than six billion dollars.

EDWARD GETS XMAS PACKAGE FROM CANNES

AMERICAN-BORN HOSTESS TO GIVE HER PHOTOGRAPH

ENZESFELD, Austria, Dec. 22. (AP)—The Duke of Windsor's first Christmas present arrived today—a small, heavily insured package from Cannes, where Wallis Simpson is waiting until they can be wed.

What present he might have received from the woman for whom he gave up the throne of England was not learned, but its size and shape suggested it was a ring or other jewelry.

Another gift will be a photograph of the Baroness de Rothschild, his American-born hostess who has been "Kitty" to "Eddie" since they pledged everlasting friendship in "bruderschiid" drinks.

The portrait of the baroness, however, will be no surprise as Windsor asked it be taken especially for him. Christmas on a baronial scale was already in full swing at the chateau. Huge loads of flowers, laurel, mistletoe and evergreen trees have arrived.

The great hall of the chateau was lavished with the decorations, many of which Edward, posed on a teap-ladder, helped the baroness put up. Windsor finished unpacking the cartload of luggage that arrived for him on Monday. The first item he delved for was a battered grey fedora hat, and the second was a quantity of English whiskey.

DEATH AT CHRISTMAS
WOODBURY, N. Y. (AP)—Mrs. Lena Stooke, 74, could not afford a Christmas tree this year for the first time in her life. So she went into the woods near her home with a hatchet.

More than 150 police and firemen searched all night for her. They found her, dead of exhaustion, at daybreak. A small, neatly cut fir tree was in her arms.

WILL THE GIRLS WAIT?
OKLAHOMA CITY (AP)—Bashful swains who waited all year to catch their girls beneath Christmas mistletoe are desolated. Their Christmas kissing must be postponed.

A survey showed this year's mistletoe crop was held up by severe drought. Oklahoma's official state flower won't be ripe for picking before February.

PAT MAGUIRE SLEEPING THRU 5TH CHRISTMAS

Mother's Care Keeps Girl Alive and Well

OAK PARK, Ill., Dec. 22. (AP)—Christmas, like every other day since Patricia Maguire fell a victim of sleeping sickness almost five years ago, will be a working day for Mrs. Peter Miley.

Behind the often told story of Patricia's strange sleep—one of the longest of its kind in medical records—is a saga of solicitude that has few equals.

Jovial, gray-haired Mrs. Miley has kept up her courage in the face of this misfortune and others that have visited her modest home since that February day in 1932 when Pat, now 31, lapsed into slumber.

Mrs. Miley's day begins at 6 a. m., when she arises to prepare breakfast for her husband, an iron worker, her granddaughter, Rhea, 13, and her sister, Mrs. Grace Dugan. Every day Mrs. Miley prepares special foods for Pat. Six times a day she feeds her by spoon, coaxing her to eat.

For two hours each day Mrs. Miley exercises and massages Pat's legs, arms and body. Doctors credit her care with keeping Pat's muscles exceptionally firm.

Mrs. Miley does her own housework, mends, orders groceries, answers the telephone and the doorbell.

X-Ray Finds Bolt In One of 13 Cakes

GRAND RAPIDS, Mich., Dec. 22. (AP)—The mystery of which Christmas fruit cake had a metal bolt in it was solved today, with the aid of a physician and his X-ray machine. Mrs. Louis H. Hake, who baked 13 cakes, discovered that a quarter-inch bolt from her electric mixer was missing after she mailed one cake to a sister and had the others wrapped for mailing.

A thorough search convinced her the bolt was in one of the cakes. Telephoning Dr. G. G. Stonehouse, she asked:

"How would you like to X-ray a dozen cakes?"

"I'll try anything once," the surprised doctor replied.

As a nurse and Miss Hake watched anxiously, Dr. Stonehouse lined up the cakes for X-ray treatment. The current was turned on and in cake No. 3 was the missing bolt.

The physician declined a fee, but he will have one of Mrs. Hake's best cakes for Christmas.

Treasury Begins Action to Freeze Inflows of Gold

WASHINGTON, Dec. 22 (AP)—

The treasury began action today to "freeze" gold inflows and wipe out their double-edged threat to domestic economy.

The broad program, similar in some respects to that of the British equalization fund, provides for:

1. The purchase of all imported and domestic gold with treasury receipts from the sale of discount bills.
2. Deposit of future gold acquisitions in an "inactive" treasury account.
3. The purchase or redemption of outstanding bills by the treasury when gold flows out.

"This balance wheel" plan has the effect of removing loanable funds from the money market when gold flows in and returning the funds when it goes out.

Gold imports formerly were paid for by issuance of gold certificates to federal reserve banks. This operation had the effect of putting new funds from an outside source into the money market, swelling the

reservoir of credit and laying the basis for potential "runaway inflation."

Mr. and Mrs. D. E. Blacksten are the parents of a daughter, born Sunday at Worley hospital.

GAS AND WATER DISCONTINUED, SUITS ALLEGE

Suffering Caused By Lack of Utilities, Say Plaintiffs

Two lawsuits involving alleged suffering caused when gas and water were turned off in two lease homes near Pampa were filed in district court today in which damages totaling \$7,500 are sought.

The suits were filed by Mr. and Mrs. Clint Spivey, their two children, Enda, 13, and Billy, 12, against the Phillips Petroleum Co., and by Mr. and Mrs. Burns Moore against the Sinclair-Prairie Oil Co.

In one paragraph of the citation, Mr. Spivey alleges that in an effort to keep warm members of the family had to resort to building a fire in a tub and that they were made ill by the smoke from the fire.

The Old Woman In Shoe Would Cackle at This

KANSAS CITY, Dec. 22 (AP)—The old woman in the shoe would cackle at this:

Santa Claus has so many orders of babies he doesn't know what to do.

From many hospitals, founding homes and "cradles" of the nation came word today the supply of adoptable infants on hand couldn't begin to satisfy the demands of thousands of couples.

Typical of Santa's predicament was a report from Mrs. Sam Gladney, superintendent of the Texas Children's Home Aid Society at Fort Worth. She has received 2,000 applications from would-be parents without being able to fill a single one.

Returning prosperity, and the decline of the jazz age are among the explanations given for the upswing in adoptions.

FRANTIC NEW YEAR ON BROADWAY IS FORESEEN

NEW YORK, Dec. 22 (AP)—Announcement that the curfew would not ring during the early hours of the New Year sent shivers of delight along Broadway and Park Avenue tonight.

Hotel and night club operators promptly posted prices for what they predicted would be the biggest and glizest New Year's eve celebration since the beginning of time, and let it be known that reservations were in order.

Encouraged by the recent flurry of dividend checks and other bullish news, at least eight spots decided that \$15 per person would be about right.

For this nominal sum, the lucky patron will be permitted to sit at a table in a chair all his own, eat his supper, watch the entertainment and yell his head off when the zero hour approaches. In case he can't yell, he will find beside his plate an infernal machine that will make all the noise he wants when agitated in the proper manner.

Doubtless, he will be showered with confetti, at no extra charge. Of course, if he should thirst for anything stronger than water he may have it, at the usual rates, over and above the initial \$15.

The more ravenous citizens should be attracted by the offer of one restaurant in the "frontic fifties" to serve supper and all-you-can-drink for \$10.

SPANISH TROOPS TOLD NOT TO EAT AT HOME

MADRID, Dec. 22 (AP)—Madrid's war chiefs warned their army today to quit going home for dinner, and they forbade Christmas merry-making at the front.

As communist leaders issued new demands for a unified command of the city's defense, militiamen were told they would face severe discipline henceforth if caught leaving the front line to go home during the dinner hour.

The order against Christmas festivities apparently was to prevent any chance of a surprise attack.

The communist demands for a "real single command" were supported by a majority of other members of the popular front government who held that "ridiculous decentralization schemes such as self-appointed juntas" must cease.

Madrid newspapers gave much favorable mention today to a suggestion that former president Hoover of the United States take charge of evacuating women and children from the capital, pointing out that his work as relief director during the world war had provided him with suitable experience for the task.

Airplanes Will Be Used to Trap Wild Mustangs in Idaho

TWIN FALLS, Idaho, Dec. 22 (AP)—Flying cowboys dusted off their chaps today for an aerial roundup of one of the largest remaining herds of wild horses.

Too fleet and cunning for pursuit by domesticated horses, the wilderness-bred cayuses will be harried by plane until they tire sufficiently to permit themselves to be trapped in corrals.

Government estimates place their number at between 2,000 and 3,000. They roam the canyons south from here through the Goose Creek mountain into the remote Gollier mountain district west of Ely, Nev.

Airmen, with several cowboys as observers, will fly over the bands and "herd" them toward corrals. Men on horseback will undertake to steer the winded animals into captivity.

A Beard for Santa? Japan Has 'em to Spare

If there's any shortage of whiskers for Santa Claus makeups this year, a cable to Japan will take care of the matter nicely. Proof is shown above, during a few light moments of frolic at the contest held to determine who boasted the most luxuriant set of foliage in Nippon. Mr. Naojiro Kato, 72, center, was winner, with shrubbery to spare, his beard stretching nearly 80 inches.

CALIFORNIAN MISSES FDR'S TOTAL VOTE BY 111 BALLOTS

A Los Angeles WPA worker guessed President Roosevelt's reelection vote within 1/4 of 1,000 of 1 per cent and thereby won a Studebaker President sedan. This was announced last night by Paul G. Hoffman, president of the Studebaker corporation.

Houston W. Glasgow, 55 years old, is the man. He estimated that President Roosevelt would receive 27,752,420 votes. The President actually received 27,752,309 votes—only 111 less than Glasgow's prediction. His prediction is considered far more remarkable than the famous "Maine and Vermont" forecast of Postmaster General Farley. The Studebaker Corporation, in a pre-election contest, offered five President sedans to those who could most accurately forecast the presidential election winner and his popular vote. Not only was Glasgow's guess uncannily close, but all five prize winners were within 1,173 votes of the final official total.

Almost a quarter of a million men and women entered the contest. Of these 69.6 per cent picked Roosevelt to win. Thirty and four-tenths per cent chose London. Of the 44,434,833 people who voted in the actual election, 62 1/2 per cent voted for Roosevelt and 37 1/2 per cent voted for London. The majority of Studebaker contestants in every state except Maine expected Roosevelt to win. Each state showed percentages that were remarkably accurate.

In addition to Glasgow, Studebaker President sedans were won by Louis Silverman, constable of St. Joseph, Mo.; Charles Mixon Stewart, painter of Monroe, La.; Perry L. Wilburn, cotton mill worker of Clinton, S. C.; R. E. McGee, 22 years old, South Langhorne, Pa.

The small son and daughter of Mr. and Mrs. B. L. Adams left Pampa-Jarratt hospital Sunday after treatment for pneumonia.

CAPITOL JIGSAW

By HOWARD C. MARSHALL

AUSTIN, Dec. 22 (AP)—Two counties of Texas' 254, Upshur and Montague, never did file general election returns with the secretary of state. Therefore the official count did not include their vote.

Edward Clark, Gov. Allred's secretary, commented that the governor was born in Montague county. The governor retorted that Clark was a native of San Augustine county, which was the last county to file.

"Maybe," a friend observed, "that was the reason the governor appointed Clark secretary of state: to see if he could do something about it."

Odis A. Weldon, representative-elect from Van Zandt county, opines he spent about as little running for office as any other candidate.

The total was \$46, most of it for newspaper advertising, and the remainder for stationery and postage. He got about over the county by hitch-hiking.

Weldon advocated abolition of the poll tax and liberal old age pension law and pledged he would not be "bought off on any matter for any amount of money."

He is 22 years old.

The banquet at Dallas on Democratic Jubilee Day was one of the most enjoyable he attended this year, Gov. Allred said.

The reason was that the preliminary speakers "all seemed to know there would be a principal address by Senator Joe Robinson of Arkansas and cut their remarks short."

"They mostly took a bow," the governor said, "which is a thing very difficult for introductory speakers to do. Usually such speeches are interminable."

Deputy Sheriff Sam Rogers of Austin claims the record for bagging a deer in short time this season. He got one 20 minutes after leaving the courthouse.

This is how it happened: The game department telephoned the sheriff's office a small deer had fallen over the municipal dam a mile from town and broken a leg. The department requested someone to shoot the animal.

The old age assistance commission soon will have an extensive autograph collection. Ultimately it will total approximately 88,000 signatures.

On request of the Federal government, the commission is gathering signatures of pension recipients in Texas to be used in verifying need-conditions on warrants and eligibility statements.

It was estimated the requirement would necessitate 300,000 extra hours of labor by investigators.

AUSTIN, Dec. 22 (AP)—Most appointments by the governor do not surprise persons about the capital, especially the press correspondents. Governors Allred surprised nearly everyone the other day, however, when he named Elliott Roosevelt, son of the President, to the board of directors of A. & M. college. The appointment was not looked for.

Roosevelt probably is one of the youngest men ever to be appointed to the directing board of a major Texas college. The governor said he long had been interested in animal husbandry and was raising some fine cattle at his ranch near Fort Worth.

Like all governors and many executives, Gov. Allred frequently has to turn over detail to assistants. He doesn't have time to examine every paper placed before him for signature.

Some days ago the state mineral

board met in the governor's office, dealt with matters of general policy, and then an assistant of the board submitted some documents to the governor.

Allred grabbed a pen and dashed off his signature, remarking fiercely to the board assistant:

"You'd better be right about these things."

"They're right," laughed the assistant.

Former Governor James E. Ferguson and Senator Tom DeBerry of Bogata are good friends, although the latter said recently when acting as governor they usually have been "on opposite sides of the fence politically."

At a banquet for DeBerry, "Gov. Jim" expressed regret DeBerry was retiring from the legislature after 14 years in the House and Senate, and suggested Governor Allred ought to appoint him to some office "so his valuable services won't be lost to the state."

The next day DeBerry expressed regard for Ferguson but said he never had sought out the former governor.

"My daddy," he said, "told me never to trade horses with a man who makes a business of it."

A question that probably never will be answered accurately is who obtained the most votes for Governor

nor Allred in the primary last summer.

A number of persons have laid claim to the distinction, the governor's secretaries say. It was suggested that a joint debate be held on the matter with the governor, press correspondents, and a few chosen others to act as judges.

"I'll wager the rebuttals would be the most interesting part of such a debate," said one.

WPA CHARGES TENANTS OF SOUTH GET ONLY STARVATION INCOME

WASHINGTON, Dec. 22 (AP)—Hoping to spur the new congress to aid tenant farmers, the Works Progress administration today made public a report which it said showed "starvation incomes" and "exorbitant" interest rates among southern plantation tenants in 1934.

Dr. T. J. Woffler, Jr., a southern educator and professor at the University of North Carolina, said he based the report upon a study of plantations worked by five families, or more, in Arkansas, Mississippi, Louisiana, Alabama, Georgia and the Carolinas.

He concluded that the average

income in 1934 of \$304, including what it raised for its own use, and that it was charged 37 per cent interest for credit to meet living expenses. High interest rates were termed a major stumbling block to independent farm ownership.

LET'S KNOW TEXAS AND TEXANS

BY WILL H. MAYES.

In this column answers will be given to inquiries as to Texas history and other matters pertaining to the State and its people. As evidence of good faith inquiries must give their names and addresses, but only their initials will be printed. Address inquiries to Will H. Mayes, Austin, Texas.

Q For whom were the county and city of Lubbock named? P. R. T.
A For Col. Tom S. Lubbock, brother of Gov. Francis R. Lubbock, who came to Texas with the New Orleans Greys and took part in the storming and capture of San Antonio, Dec. 5-10, 1835; was Lieut. Col. of Terry's Texas Rangers in the civil war, and when Col. Terry was killed in action, Dec. 14, 1861, succeeded him in command; died at Nashville, Tenn., in January 1862.

Q By what name was the present city of El Paso first known? H. F. E.
A The first postoffice, established in 1857, was named Franklin, for the postmaster, Franklin Coanta. The name was changed to El Paso in 1858, when the townsite was surveyed. The county was not organized until 1871, and in 1872 the city was incorporated. San Elizario and then Ysleta were county sites, until 1883, when the county government was moved to El Paso.

Q Where was Bevilport, for whom was it named and what became of it? T. E.
A In western part of Jasper county, named for John Bevil, who located there in 1828 and built Bevil's Mill. It was the seat of government of the municipality of Bevil (afterward Jasper) created in 1834. When Jasper county was organized in 1837, the county site and postoffice was changed to Jasper.

Q What early short line of railway was known as the "Southern Pacific"? K. L.
A It was part of the road from Marshall to Shreveport (now part of the Texas Pacific) and under the name of "Southern Pacific" was built from Marshall to Swanson's Landing on Caddo Lake about 1859. It was operated with the two small wood-burning engines, one of which was known as "Bull of the Woods" because of its habit of leaving the track and lunging through the woods.

CENTENNIAL SONG BOOK
In the homes, in the schools, in public gatherings of all kinds, Texans are singing the best known typical songs of Texas—songs of the range, songs of the Texas home, patriotic songs—songs every Texan should know and delight in singing. Twenty-eight of the best songs sung in Texas have been carefully selected by competent musicians, set to music, and published in a 36 page, 6 by 8, booklet on heavy coated paper with covers in colors. The booklet will be mailed postpaid for 25 cents. Send all orders to Will H. Mayes, Austin, Texas.

REPORTS ARE THAT:

Conservative trading interests worried about bad market action of former leaders. Humble Oil's private estimate of 1936 earnings lifted from \$4 to \$4.25 a share. Glidden liked by long-pull buyers. S. S. Kresge \$7 preferred being avoided—to be redeemed. Chase National Bank of New York liquidating—slowly its holdings of 20th Century-Fox Film common and preferred shares. Due to possibility of better 1937 earnings New Haven Railroad \$7 preferred holdings being retained but with no new commitments being made. Canada Dry Ginger Ale's market action attributed to increased revenues brought about by house-cleaning—high-priced officials were removed. North American Rayon to show \$3.50 a share this year.

Insiders estimate Standard Oil of New Jersey's 1936 net at \$3.75 a share. Goodyear's new \$5 convertible preferred has speculative possibilities. Informed quarters say that Air-Way Electric is operating in the red. Retail radio sales at a new high. Speculative buying evident in Granite City Steel. Simmons Company sales volume for 1936 will show \$41,000,000—means \$3.50 a share for year. Foster Wheeler's backlog of orders swelled by navy contracts. United Carbon's 1937 dividend prospects bright. And, that labor difficulties are offering for the motor accessory industry.

WORRIED

As a result of the strike called last week in the Libby-Owens-Ford Glass works about ninety per cent of the nation's plate glass output is stopped. This because the Pittsburgh Plate Glass employees are also on strike. Combined these two companies control that much of the country's glass production.

The situation has automobile manufacturers worried. Motor makers know how badly they can be affected. When the Midland Steel Products' employees went on strike the Chrysler output was stopped. But with the glass makers out it is feared that the entire automobile industry will be closed down. That is why the motor industry is urging glass manufacturers to settle their labor difficulties as quickly as possible.

SOON

Reports are current that the Standard Gas & Electric reorganization arrangement has been completed. It can be officially stated that such reports are unfounded. Insiders say that considerable progress has been made on the preparation of a reorganization plan but that nothing is definite as yet. The various committees representing owners, stocks and bonds are now more friendly. For that reason an agreeable reorganization plan is expected to be completed within the next few weeks.

BENEFIT

The market price of the Federal Light & Traction shares have taken a decided turn for the better. The inside story is that the company's earnings have shown remarkable improvement over the past twelve months. In addition, officials of the company have sharply reduced the bank loans. This helps to strengthen the capital structure of the organization. And to top it off, the conservative management is to place the shares on a dividend paying basis early next year.

The largest beneficiary of the advance in the price of the Federal Light & Traction shares is Cities Service. It would also benefit most from a dividend payment. Here's the setup: Cities Service owns outright Cities Service Power which in turn owns 65 per cent of the outstanding Federal Light & Traction capital stock.

WHEAT

A thumbnail picture of wheat suggests higher prices. World grain supplies are considerably lower than in past normal years. The United States is entirely out of the export market. Canadian and Argentine crops are much below peak levels. European needs for this season are estimated at 540,000,000 bushels. As a result a tight situation is slated for the new crop season next summer—war or no war. With heavy storing of grain supplies for possible conflict, further price appreciation for wheat is indicated. Should war actually break out on a large scale the belligerents will bid desperately for Western Hemisphere supplies.

DISCOUNT

Speculative interests are always on the alert for so-called "sleepers." Last week they caught hold of the Seaboard Air Line shares. Being a low-priced issue the trading public followed—in volume. But why did professionals choose Seaboard Air Line for a play? Here's the answer: General business conditions have been much better this year. That means larger spending. As a result a Florida resort boom is certain. Seaboard Air Lines will therefore benefit.

Conservative interests say that buying of the common shares isn't wise. They say that if one must speculate on such beliefs it would be wiser to purchase the bonds which are currently priced at enormous discounts.

DOUBT

Belief had been current for some weeks that United States Industrial Alcohol would show a net profit of about fifty cents a share for the last half of this year. That would permit a net income of 73 cents a share for 1936. When the alcohol price increase was announced the dope was spread that earnings might even run higher.

One close to the picture answered both situations. The first is that profits for the second half will not run at fifty cents a share. In fact, while sales were seasonally larger the profit margins were smaller due to more severe competition. As for the increased prices—they will not

GREETING CARD DELUGE SWAMPS POSTAL CLERKS

Everybody Is Sending Cards This Year, It Seems

The Christmas greeting card deluge hit the Pampa postoffice in full blast today, postal officials reported.

With only two days left until Christmas, it appeared that most everybody was sending most everybody some kind of a Christmas card.

Then, too, many cards already have reached their destination with evidence that—in keeping with a high-stepping nation—the Christmas card of 1936 has gone modern.

This year you could pick your Yule greeting according to the mood you were in. If "flapperish" you selected a doggie card, one of Popeye, Mickey Mouse, or perhaps a foolish looking penguin.

If romantic, your choice probably leaned to a stagecoach scene. On the other hand, the majority seemed to go for the scenic landscape and highly adorned.

Art stepped into the life of the Yuletide card as the old favorite symbols—Christmas trees and bells, holly and poinsettia, flickering candles and shining stars, stage coaches and the winding snow-covered roads—have taken a firm grip on the designing.

Cards "catchy to the eye" predominate this year. For example, across a white booklet slant two formalized Christmas trees in triangles of blue, star-spangled in darker blue and scalloped in white. Two reindeer in black are silhouetted against a suggestion of silver trees with curving lines of red to suggest the undulating hills. A sleigh stands out in daring planes of silver and black against red.

Incidentally, this is the first year reindeer and sleighs appeared on Christmas cards to any extent. Old Kris Kringle also appears on this year's cards as he skims over the rooftops and climbs down chimneys.

Old Faithful Remain Included in the new cards are any number of stage coaches and "down on the farm" scenes reminiscent of the country Christmas doings "in the days of old."

Not all the cards have gone modern, numerous offerings striking the religious note. Most prominent are the Madonna and the Holy Babe, cathedral spires, scenes in the Holy Land, and the Three Wise Men.

The religious trend is also noticed in the sincerely friendly expression of "good will to men." Most outstanding in the changes is the abandonment of the abbreviated "Xmas." Sentiments are uniformly in the true spirit of "Merry Christmas."

OKLAHOMA CITY—Bashful swains who waited all year to catch their girls beneath Christmas mistletoe are desolated. Their Christmas kissing must be postponed.

A survey showed this year mistletoe crop was held up by severe drought. Oklahoma's official state flower won't be ripe for picking before February.

FDR SHOWN AS SERVING NINTH TERM IN 1963

PRESS BANQUET SEARS BOTH DEMOCRATS, REPUBLICANS

WASHINGTON, Dec. 22 (AP)—The Gridiron club's satirical review of the 1936 election and the general political scene, witnessed by four of the presidential candidates, left some red faced today but most of them bore broad grins in recollection of the lampooning.

At the club's semi-annual dinner last night, President Roosevelt saw himself depicted as running for a

ninth term in 1968, and predicting a balanced budget soon. A scene of ancient Rome, showed him as "P. D. R. Imp." while in the Ziegfeldian finale he was portrayed as a master showman.

Governor Alf M. Landon of Kansas, the defeated Republican candidate, witnessed theatrical autopsy on the rigid form of the G. O. P., which disclosed an appendix "tied in Knox," a full dinner pail in the stomach, and a "ham fish bone" in the larynx.

After these objects were removed, the G. O. P. arose and announced he would be able to run in 1940.

Norman Thomas and Earl Browder, the Socialist and Communist candidates, were among the 400 guests of the organization of Washington newspaper men. The President and Landon spoke "off the record."

learned to say "Yes, sir," with a promise that if they supported all his bills, Mr. Roosevelt would call them by their first names.

To Wagnerian music, Al Smith was borne in on a stretcher. Restoration of his brown derby revived him, and he sang "They Turned the Tables On Me."

At a meeting of the Prophets' Union, Eliza related how he fed 100 men with 20 loaves, but Isaiah replied, "We now have a fellow named Harry Hopkins who feeds 20 men with 100 loaves."

James A. Farley couldn't qualify as a major prophet, Isaiah said, because all he did "was count the names on the payroll." Another skit included a "good feeling" duet—by proxy—by Farley and John D. Rockefeller Jr.

PUT HER ON THE FORCE. LOS ANGELES—Embarrassed policemen came home largely empty handed from their annual turkey shoot.

The reason was Mrs. Bobby Ruth-erford, a housewife. Shooting on the men's pistol event, she won a turkey, a ham and three boxes of candy.

Sergeant Ivan Johnson, crack shot of the force, also won a turkey—in a raffle.

Here's us Wilkens taking our Christmas bundles around! Our neighbors grin all over when the Wilken Family pulls up with the old sleigh full of Christmas bundles. It's me driving, and my brother William handing over the bundle and Tom holding on to the bundle for the next stop. Here you see us at Larry Burke's place and that's Larry with the big mittens on him. Harry E. Wilken

You'll tickle your neighbors pink if you give them our Family's Whiskey for Christmas!

The personal recipe of The Wilken Family that's been distillers since away back

With all your orders, you've made us put in a lot of late hours over to the distillery—watching out to make sure that never a single batch of our Family's Whiskey goes off our place but what it's just so. Tastier and milder than you ever had a idea whiskey could be. That's the way our Family has been doing ever since it started making whiskey.

This is our own Family's Recipe—and of course I'm interested in you buying it. But even if I wasn't, I want to say I don't know of anywhere that you could find a nicer gift for anybody than the very same whiskey enjoyed by us distillers ourselves!
