

Scranton Has Hopes for '68 Presidential Race

By HARRY FERGUSON
UPI National Reporter
HARRISBURG, Pa. (UPI) — Mrs. William Scranton has told her husband what she wants for Christmas next year, and Republican politicians planning strategy for the 1968 presidential election had better pay attention.

Scranton's term as governor of Pennsylvania expires on Jan. 1, 1967, and under state law he cannot run for re-election. So does that make him available for another try at the GOP presidential nomination, and, if so, is he interested?

"Well," he said, "I'll tell you what my wife said to me. She said that for a Christmas present next year she wanted me to promise that I would come home for dinner every night until she is 60 years old."

Running for President and getting home to dinner every night probably are beyond the reach of a mortal man. But at this date Scranton cannot be written out of the race nor can he be shoved into it. He says with a ring of sincerity in his voice that he hasn't even thought about the possibility. He adds that he doesn't intend to make any decision until he walks out of the governor's office.

At no time during a half hour talk in his office did Scranton evidence any bitterness or frustration over the events in and around San Francisco's Cow Palace when the Republicans assembled to nominate a candidate. That, you will recall, was the occasion when he stood alone in the middle of the road and tried to halt the Goldwater bandwagon. He was run over and badly crushed and bruised.

Scranton still is fighting for his formula for victory: "We must concentrate on 1966. Lots will depend on local and state issues and we must get good candidates at all levels. We must build up the national organization, improve the party's financial situation, but, above all, we have to make sure that the best candidates are running on the Republican ticket."

Asked about the new conservative society led by Barry Goldwater, Scranton said: "I'm against any proliferation of the party. I never have joined any group." He believes the Republicans lost the presidency last year on the basis of "personal feelings." What he means is that too (See SCRANTON, Page 3)

"If ever the free institutions of America are destroyed that event may be attributed to the omnipotence of the majority."
—de Toqueville

Bliss Reveals GOP Hopes for Future

Apollo Ship Set for Flight

WHITE SANDS, N. M. (UPI) — A four-ton space age hot rod built to carry America's Apollo astronauts to safety in an emergency was readied today for a vital workout at White Sands missile range.

The Apollo launch-escape system, weighing in at 8,200 pounds, was set to pack an unmanned Apollo spacecraft one mile into the southern New Mexico sky.

Three giant parachutes were built into the spacecraft to carry it gently to earth 90 seconds later.

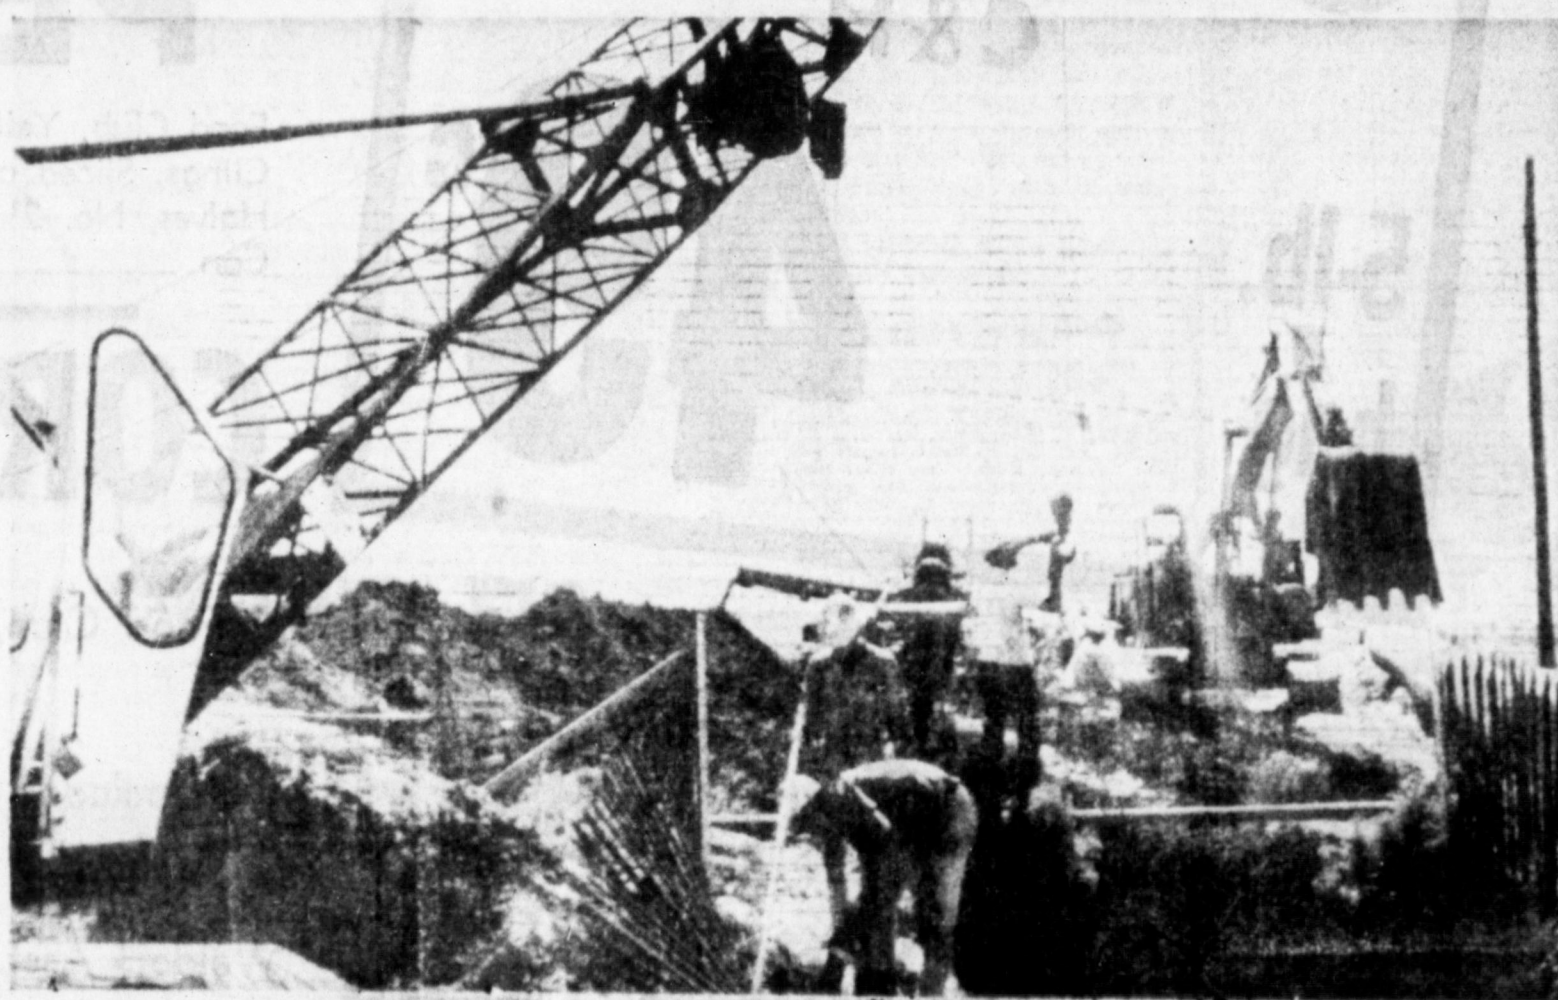

The test hopefully would prove the system can be trusted in the future to yank an Apollo capsule and its three man crew out of danger if trouble develops during a launch to the moon.

Heart of the escape system is a 15-foot long rocket attached to the top of the Apollo by a 10-foot metal tower. For today's test, the Apollo and its attached escape rocket were placed atop a four-foot high metal stand on the launch pad.

By the end of this decade, however, when America tries to fire a man to the moon, the Apollo will set on top of a mighty Saturn booster rocket. If the Saturn explodes or otherwise malfunctions, it will be the escape system's job to pull the Apollo and the astronaut to safety.

Among the viewers at White Sands today were two crewmen with a big interest in the system—astronauts Richard F. Gordon and Donn Eisele.

Today's scheduled test was the fifth in a series of escape system experiments at White Sands. Two more are due before the important lifesaving device gets its final okay.

AQUEDUCT ON MOVE—Construction has picked up this week on the Pampa to Borger leg of the CRMWA aqueduct after rains slowed down the work for about 10 days. Workmen are shown putting in the pipeline at Gwendolen and Price Rd. just west of the city. A tunnel was dug under Price Rd. to allow the pipe to cross the street.

Emphasis on Better Performance in Cities

WASHINGTON (UPI) — Republican National Chairman Ray C. Bliss gave the GOP a blueprint for the future today with emphasis on improved performance in the big cities.

Bliss submitted his proposals at the final session of a Republican National Committee meeting to supplement a review Monday of his first three months in office.

He reeled off figures showing the declining Republican vote in the big cities and suburbs in the last two presidential elections. He also reviewed the recommendations of a "big city committee" which was set up with him as a chairman four years ago.

Bliss said all of those recommendations, which were given little attention in the 1964 campaign, were "important, even urgent."

In his comparison of voting trends in the 1960 and 1964 elections, Bliss said:

—The Democratic presidential vote increased to 68 per cent in 1964 from 59 per cent in 1960 in 45 cities with a population of more than 200,000. The GOP vote fell off proportionately.

—The Democratic majority in the suburbs rose to 59 per cent last year from 47 per cent in 1960.

—In other key voting areas, including smaller towns and the areas around them, Bliss said Republican support fell from 52 per cent of the vote in 1960 to 41 per cent last year.

He proposed a workshop meeting for big city chairman to carry out proposals.

His other proposals included a school for campaign managers, recruitment program for candidates, and strengthening of GOP programs aimed at minorities, farmers, senior citizens and new voters.

Bliss also recommended that a site committee be set up to study the possibility of putting the party's national headquarters in one building, with the senatorial and congressional campaign committees near the U.S. Capitol.

At the two-day session here, a leader in the resurgent southern GOP won a place at the top policymaking levels of the party.

J. Drake Edens, South Carolina state GOP chairman and a supporter of Barry M. Goldwater in last year's presidential election, was one of three vice chairmen elected Monday at a national committee meeting.

The vice chairmanship entitles Edens to a seat on the 27-member Republican Coordinat-

ing Committee, a new policy-making group made up of GOP congressional leaders, the party's national committee, state governors, and past presidential candidates.

In addition to Edens, the other vice chairmen selected at the closed meeting were Donald Ross of Omaha, Neb., and Mrs. Willard Marriott of Washington, D.C. One incumbent vice chairman, Mrs. Collis P. Moore of Moro, Ore., remains in her post.

75 More Rights Demonstrators Taken to Jail

By United Press International
Civil rights demonstrators clogged traffic on a busy Chicago street Monday and police hauled 75 of them to jail. Early this morning demonstrators created a disturbance in a courtroom.

The demonstrators, seeking the removal of controversial public school Supt. Benjamin C. Willis, staged a sit-down during the evening rush hour on a Loop street outside city hall. Earlier, about 600 persons had marched on city hall while a delegation conferred with Mayor Richard J. Daley. The group wants Daley to help out Willis, accused of preserving alleged de facto segregation in Chicago schools. The delegation said it was "totally unsuccessful" in getting Daley's aid.

The demonstrators who sat down in the street blocked traffic for about 10 minutes. Then police vans rolled up and officers began making mass arrests. Fifty-one adults and 21 juveniles were seized, bringing to more than 625 the number of arrests in Chicago during the current demonstrations.

A free-for-all developed between police and demonstrators during the arrests Monday and a clergyman was struck several times. A water bomb was tossed onto a spectator from a nearby building.

Pampa Engineers To Advise Study Group

The City Commission today employed Merriman & Barber, Pampa consultant engineers, to assist the Highway Development Study Committee in arriving at solutions to problems related to drainage programs.

The engineering firm will be requested to update cost estimates and area project needs on a similar program rejected by city voters in 1962.

Wayland Merriman told the commission a complete drainage system for the south part of Pampa and Alcock Street (Borger Highway) was designed in January of 1962.

He said the need now is to bring this work up to date and investigate the possibility of drainage needs to meet requirements of the State Highway Department on State Highways 273, 152, and U.S. 60.

"All estimates will have to be revised," Merriman said.

In other business today: The commission gave final approval to an ordinance setting up traffic controls at the "S" curve on E. Francis St. The legislation calls for parking restrictions and 30 miles per hour speed limit.

The Texas Railroad Commission will be offered a new two-year rental contract on office space on the third floor of City Hall under the same terms of a lease which expires Sept. 1.

The office space is rented to the commission for \$30 a month.

Approval was given on a \$10,000 surety bond for City Secretary Stanley M. Chittenden.

Action to replace on time deposit \$46,500 from the 1948 Water & Sewer bond interest and sink-

ing fund was approved. The commission reappointed five members of the City Traffic Commission whose terms would expire July 1. They are Lee Fraser, Mrs. Jim Terrell, Preston Fowkes, Harold Moore and Mrs. George Scott.

Final approval of the city's contract with Atlas Tank Co. for construction of the new 3-million water storage tank on S. Barnes St. was delayed one week.

City Manager Jim White said rainy weather had halted the finishing touches and the tank would need to undergo a 24-hour inspection period after it is filled with water.

Trapped Campers Taken Out of Palo Duro Canyon

CANYON, Tex. (UPI) — About 150 campers, marooned in Palo Duro Canyon since last Friday, were brought to safety Monday in a day-long rescue effort.

Most of the campers entered the canyon Friday, expecting to spend one night of "roughing it." But their communing with nature expeditions turned into a lengthy affair when heavy rains caused flooding up to 12 feet deep in five crossings into the canyon.

For Gibson, Garriott, Graveline and Schmitt, the first step is to learn how to fly high-performance aircraft. They will report to Williams Air Force Base, Ariz., on July 29 to join an Air Force class of cadets for a year of pilot training.

Six Scientists Named Spacemen

SPACE CENTER, Houston (UPI) — Six of America's healthiest young scientists, doctors and geologists officially take the title of "astronaut" today. Their destination: The moon — in five years.

The new scientist-astronauts—two college professors, a pair of medical doctors, a rocket engineering expert and a geologist—represent the cream of more than 1,500 hopefuls who applied to the U.S. space agency last year for a chance to make the nation's first truly scientific expedition to the moon.

The fledgling spacemen, who join 28 astronauts America already has in training, were formally introduced at a new conference at the agency's Manned Spacecraft Center near Houston today. They were:

Dr. Edward G. Gibson, 29, of San Clemente, Calif., who holds a degree in jet propulsion engineering; Dr. Owen K. Garriott, 34, of Palo Alto, Calif., an associate professor of electrical engineering at Stanford University; Dr. F. Curtis Michel, 31, of Houston, an assistant professor of space science at Rice University; Dr. Duane E. Graveline, 34, of Houston, a medical specialist with the Manned Spacecraft Center; Dr. Joseph P. Kerwin, 33, of Jacksonville, Fla., a Navy flight surgeon and jet pilot; and Dr. Harrison H. Schmitt, 29, of Flagstaff, Ariz., a bachelor geologist.

But the moon is still a long way off. Under present plans, the first scientist-astronaut will ride aboard a three-man Apollo moonship only after the first one or two U.S. manned lunar landings now expected around 1969.

For Gibson, Garriott, Graveline and Schmitt, the first step is to learn how to fly high-performance aircraft. They will report to Williams Air Force Base, Ariz., on July 29 to join an Air Force class of cadets for a year of pilot training.

U.S., Aussies, South Viet Soldiers Launch Attack

SAIGON (UPI) — U.S. planes in their deepest penetration of the war bombed targets only 65 miles from Red China today. On the ground U.S. paratroopers, Australians and South Vietnamese battled the Viet Cong in their first joint combat offensive.

Front dispatches said 2,000 Americans were flown into battle with 1,000 Vietnamese troops. An Australian battalion of about 1,000 troops was flown in today to reinforce the vast sweep against the Viet Cong barely 30 miles from Saigon.

Swarms of U.S. Air Force and carrier-based Navy jets increased the tempo of their attacks against the Communists in North and South Viet Nam to offset the Communists' stepped up monsoon offensive. The Reds launched a series of fierce ground attacks in South Viet Nam.

One group of American planes struck only 60 miles south of the North Vietnamese capital of Hanoi today while bombing and strafing guerrilla positions. Three American planes were lost today, one a B57 bomber. Three American fliers apparently were killed.

The most spectacular attack of the day was against the Thuan Chan barracks and supply depot 155 miles west-northwest of Hanoi and just 65 miles south of the Chinese border. Sixteen planes dumped 30 tons of bombs on the area, destroying 32 buildings and damaging 20 others.

The American jets also returned to the Son La barracks and depot 40 miles southeast of Thuan Chan and 80 miles south of the China border. Sixteen planes dropped 29 tons of bombs there, destroying 15 more buildings and damaging 15 others. Son La has been hit repeatedly.

A U.S. military spokesman disclosed that troops of the U.S. 173rd Airborne Brigade and South Vietnamese were flown into action Monday aboard a fleet of more than 130 helicopters. The fighting area was Zone D, a notorious Viet Cong stronghold 30 miles north-northeast of Saigon.

Australian troops were flown in today to join the giant search and destroy operation.

Zone D was softened up Monday with bombing and strafing raids against the jungles believed to hide Communist headquarters and supply depots. Soon afterwards the helicopters disgorged their cargo of combat troops.

Paratroopers had struck previously against the Viet Cong in a combat operation but a spokesman said these were only "brushes" with the enemy.

'ON A WING AND A PRAYER'

19 Minutes of Terror Ends Happily for 143 on Jet

By DON MULLEN
SAN FRANCISCO (UPI) — Pan American jet flight 843 roared down the runway at San Francisco International Airport shortly after 2 p.m. Monday carrying 143 Hawaii-bound passengers and a crew of 10.

During the next 19 minutes, those 153 persons were the main characters in a fiery drama followed by thousands of Bay area residents to a happy ending 45 miles away, where the damaged plane landed safely—literally "on a wing and a prayer."

The giant Boeing 707 was rocked when a fire apparently ignited a fuel tank in the star-

board wing. In the frightening minutes that followed, the plane scattered burning debris—including one engine and one-third of the wing—across the heavily-populated San Francisco peninsula, developed landing gear trouble, and landed safely at Travis Air Force Base.

There were no injuries either among the persons aboard the plane or on the ground—and all but nine of the passengers continued their flight on a second substitute jet about six hours later, despite the additional unnerving experience of watching the nose wheel of the first substitute plane collapse on landing.

The drama began just seconds after the pilot, Capt. C.H. Kimes of Danville, Calif., lifted the giant airliner from the runway. Witnesses described the action from that point.

UPI correspondent James O. Clifford said he heard an explosion over his home in south San Francisco on the "let path" of nearly constant flights from bustling San Francisco International.

"It sounded like a plane lost an engine—it was a big boom, like a sonic boom," Clifford said. "It sure scared me. . . I thought, here it comes."

Mike McGrath and two fellow workers were repairing a generator at the Calwell Construc-

tion Company in San Bruno. They saw the blazing engine tear loose and fall toward them from nearly directly overhead.

"We watched the engine, but I didn't know which way to go," McGrath said. "When I saw where it was going to hit, I ran as fast as I could."

The burning engine plunged through a three-foot-thick roof beam and bounced through a cinder block wall, scattering flaming debris.

Wing Missed House
In south San Francisco, a 12-foot section of the wing fell next to a house in which a family was watching television. Another six-foot chunk crashed in Holy Cross cemetery.

An unidentified witness on Mission Street in Daly City said that after the burning debris ripped loose from the wing, the fire went out and Kimes banked the crippled plane to the left, out over the Pacific and away from the populated residential districts of Daly City and San Francisco.

Kimes said the fire broke out when the plane was about 600 to 800 feet above the runway and then "it blew." He managed to nurse the staggering jet up to 1,400 feet.

"I could have gone higher," he said, "but the integrity of wing was in question."

The pilot turned south toward (See TERROR, Page 3)

GLOVE GLOSSARY
NEW YORK (UPI) — Historical types in the glove industry testify that the hand coverings have gone to all lengths since their beginnings. They've been long, short, longer, shorter. But what you probably didn't know: gloves have been fought over, have symbolized authority in the names of royalty, have conveyed messages of love. The little innocent mitt coverings also have been instruments of revenge and murder, says the glove historians. The 18 national forests in California comprise one-fifth the total area of the state.

Most Pampa Firms To Close Monday

Since the Fourth of July falls on Sunday this year, most Pampa business places will close on Monday, July 5.

Jerald Sims and Mack Hiatt, co-chairmen of the Chamber of Commerce Retail Trade Committee, said an agreement had been reached for stores to close on Monday, the day following Independence Day.

Chamber officials said, however, this will not interfere with Pampa's July 4 celebration and fireworks display at Recreation Park on Sunday night after church services.

The program at the park is scheduled to begin at 8:45 p.m. Sunday with the fireworks display set for 9:15 p.m.

Pampa will be shut down fairly tight Monday with most stores and service establishments closed and city, state, county and federal employes enjoying a holiday.

The Pampa post office will be closed except for box patrons and there will be no regular mail deliveries on Monday.

Thieves Try Church Again

For the second time in as many days, thieves broke into Hobart Street Baptist Church, 1100 Crawford, and apparently left empty handed.

Police said today that the only thing possibly missing from a safe-filing cabinet combination was several rolls of stamps.

Sometime late Saturday night or early Sunday morning the church was entered through a side door, but the thieves left with no loot.

Last night, another attempt was made, but again the efforts were apparently foiled.

The building was entered by breaking a glass and forcing open a door, according to Rev. A. G. Purvis, who reported the break-in.

Terror

(Continued from Page 1) The airport, and the San Francisco fire department was ordered to dispatch units to the scene. However, when Kimes reported that he had the jet under control, he was advised to take it in to Travis Air Force Base, 45 miles to the northeast.

Lowered Wheels Manually
As the smoking airliner made its first approach to the Travis runway, Kimes discovered that the wheels would not lower. He pulled up, circled the field as the wheels were lowered manually, and made a new approach.

Thousands of Bay area residents now followed the drama through a direct telephone conversation between the Travis control tower and a San Francisco radio station.

"The plane is about one mile from the runway," the control tower said, "now about a half mile . . . it should be down in about 10 seconds . . . there is no sign of fire . . . it appears that a tank in the starboard wing blew . . . the plane has now taxied to a stop and is being surrounded by fire equipment."

The passengers, including a group of 54 Pennsylvanians on their way to a special Lions Club tour of Hawaii before the organization's International Convention in Los Angeles next week, slid quickly down canvas escape chutes to the ground in bright orange life jackets.

Smooth Landing
The pilot did a beautiful job of flying," said Larry Goth, of Reading, Pa. "I flew gliders during the war. This landing we had here was smoother than the one we had coming into San Francisco Saturday."

Martin P. Meyers of Media, Pa., said the pilot told the passengers the fire was serious, had them put on life preservers and went through the standard emergency procedure with them over the intercom.

"There were a lot of scared people on that plane," Meyers said, "but no one showed it."

Meredith Water Level at 54.9 Feet

Weekend rains have raised the water level of Lake Meredith to 54.9 feet and backed up for approximately 7 1/2 miles.

The heavy rains in the Channing area, located on the Lake Meredith watershed, was credited for the biggest rise in the lake level.

Lake Meredith now contains some 5,500 acre feet of water, the largest lake in the Panhandle.

On the third weekend of public use, Lake Meredith is expected to attract huge crowds of boaters and sightseers. The first weekend the facility had an estimated 500 boats and 7,500 persons on hand and officials estimate that many or more will probably show up this Saturday and Sunday if the weather cooperates.

City Dump Trucks Kept Busy During Cleanup Drive

Public Works Director R. B. Cooke reported to city commissioners today 550 loads of rubbish were hauled away by city trucks during the six weeks of Pampa's annual cleanup campaign which started May 10.

The fifth week of the drive was the heaviest when 158 loads of trash were hauled. In the second and third weeks, 102 and 106 loads were picked up.

Seventy-five truck loads were moved in the first week and 36 loads in the sixth and final week.

Vandals Miss Jewelry; Ransack Residence

The home of W. A. Gipson, 2213 Williston, was broken into late last night and while the vandals passed up jewelry and radios, the house was ransacked and a hole knocked in the sheet-rock of one room.

The incident was reported by Gipson after he and his wife arrived home and found the break-in.

Scranton

(Continued From Page 1)

many groups were fighting one another inside the party. Any action that fragments Republicans is an invitation to defeat.

On national issues Scranton stands as follows:

—The Johnson administration is guilty of lack of candor about the war in South Viet Nam. It either feeds out misinformation or withholds information. "If you're going to lead a nation in a situation as serious as this, you have to lead."

—The Atlantic alliance is in serious difficulties "and we're not really doing much about it." He regards Western Europe as "the strongest and most important arm" of the United States in the present world situation.

Fire Destroys Barn South of Pampa

A wood-frame barn located on the Fred Vanderburg farm, 12 miles south of Pampa, received heavy damage early this morning when fire swept through it.

When Pampa firemen arrived the blaze had been extinguished by Vanderburg with a water hose.

No estimate of the amount of damage was made.

Gray Harvest Almost Complete

The few remaining acres of what farmers call an "above average" wheat harvest in Gray County is due to be cut today and tomorrow.

The average dry-land yield was 12-14 bushels, while irrigated acreage averaged 32-48 bushels.

Foster Whaley, Gray County Agent, said that at one time it looked as though the county might have a bumper crop, but hail damage and lack of moisture in early spring slashed all hopes of one.

Whaley said hail damage as much as 50 per cent occurred in some areas of the county.

"All in all," Whaley said, "farmers in the county were well pleased with this year's wheat crop."

Rotary to Install Officers Tonight

Loyal Davies will be installed as new president of the Pampa Rotary Club during the annual installation banquet set for 7 p. m. today in the Coronado Inn.

Bob Murphey, attorney from Nacogdoches, will be the principal speaker.

Gordon Lyons, outgoing president, will take over duties as vice-president, replacing Cameron Marsh.

Monza Sport Coupe with up to 140 hp available for more size (180 hp available in Corsa models)

Corvair by Chevrolet

It's stylish, sporty and available with up to 180 frisky horsepower. See below what car experts say about its unique engineering and handling. Then see your dealer and see what a wonderful buy you can get right now!

Car Life

"We'd feed the Corvair into the turn with increasing force on the steering wheel, applying as much power as was available, and come scorching out the other end of the curve without so much as a tailgaw."

Hot Rod
"On tight corners . . . will hold its own with anything on the road."

Sports Illustrated
"On test runs at GM's Michigan proving grounds the Corsa started and stopped with no dipping, and it cornered—even at wild speeds—with smooth intent and no sign of sway."

Sports Illustrated

" . . . a new American sports car that will be eminently acceptable at rallies but that can, in the American manner, double at church picnics."

Car and Driver

"We have to go on record and say that the Corvair is—in our opinion—the most important new car of the entire crop . . . and the most beautiful car to appear in this country since before World War II."

Car and Driver

" . . . the superfluous has been stripped away from a classic form and the result is a clean, beautiful car. The new Corvair's styling is going to attract most people—it's an obvious selling point. Its hidden virtue, handling, will soon become apparent to—and much appreciated by—the enthusiast driver."

SEE THE U.S.A. THE NO. 1 WAY

STORM BREWING — Angry looking storm clouds such as these, roamed over the Panhandle Sunday threatening severe weather for a time. Late Sunday night, most of the clouds had dissipated and stars came out to make a

pretty moonlit night. Moisture from the thunderheads came in limited amount for some parts of the northern and southeastern parts of the Panhandle.

National Laboratory Doing Research on Cancer Project

OAK RIDGE, Tenn. (UPI) — Oak Ridge National Laboratory is conducting a new study which is focusing attention on some prime suspects of lung cancer—a virus infection, radiation and certain chemical aerosols. The program is an attempt to chart the mechanism by which healthy lung tissue becomes tumorous and eventually cancerous. The program, jointly sponsored by the Atomic Energy Commission and the National Institute of Health, is under the direction of biologist D. G. Doherty. SAFETY FIRST WASHINGTON (UPI) — Accidental item from the U. S. Children's Bureau: "Injuries to children under 15 result in 55 million days of restricted activity and 15 million days of bed-disability annually."

Television In Review

By RICK DU BROW United Press International HOLLYWOOD (UPI) — It would be too easy to poke fun at the absurd, monotonous rock 'n' roll music of Monday night's CBS-TV special, "It's What's Happening, Baby!", which also offered advice to school drop-outs and youngsters seeking jobs.

To get to the immediate facts, the 90-minute program, which supplemented its suggestions about job chances with a Washington, D.C., address for correspondence, was produced in cooperation with the U.S. Office of Economic Opportunity. Most of the appeals in the show were either made by, or with the assistance of, the host, a disc jockey named Murray The K, in what is presumed to be hip fashion. The best appeal, however, was delivered in the context of a brief comedy routine by Bill Cosby, who recalled his high school shop class.

It would probably seem un-American to frown on such an expensive and apparently decent experiment in national do-gooding. But it only seems fair to also acknowledge that there are many who feel that it is surely pathetic to have to compromise such decent ends with such means. In short, there are some who would question the worth of watushing or monkeying or jerking to a jazz tune, especially with a 200-watt amplifier and a bunch of screamers as the Pied Pipers. I believe in groovy government, the 90 minutes may have equated valhalla. But to others, it may have seemed like the Bowery Boys beating the Nazis and saving us all in World War II. The best thing, then, seems to judge the show on two levels—as the do-gooding experiment, and as entertainment. As for the experiment, I hope it eliminates the problem to the extent that it is not necessary to put on such a sub-common man appeal again.

Public to Get Look at Mars Through Cameras of Mariner 4

WASHINGTON (UPI) — The public will be given a look at pictures of Mars' surface within two days after Mariner 4 flies past the red planet July 14. Space agency officials said Monday they would not arbitrarily withhold from the public any of the 20 pictures the 575-pound spacecraft will take of the planet. The first pictures are expected to be ready for release in 36 to 48 hours after the fly-by. In issuing the announcement, the space agency discounted reports that some pictures might be held indefinitely for study by scientists. The photos will be beamed by radio back to earth from 154 million miles in space. It will take about eight hours for transmission of each frame of magnetic tape on which Mariner 4 will record the pictures. MEETS ITALIAN LEADERS ROME (UPI) — West Berlin Mayor Willy Brandt was in Rome today for informal talks with Italian Social Democratic leaders.

Mariner 4 will pass within 5,600 miles of Mars but television pictures will be taken from a somewhat longer distance. Processing of all the pictures will not be completed at the same time. While some may be ready in a day and a half, others will undergo further processing to improve the quality before they are released. POTOMAC BASIN MEETING WASHINGTON (UPI) — Interior Secretary Stewart L. Udall meets today with the governors of Maryland, Virginia and West Virginia to discuss President Johnson's proposal for making the Potomac River Basin a conservation model for the nation. Wall Street Chatter

NEW YORK (UPI) — Leslie M. Pollack of Reynolds & Co. says the great majority of investors who own their securities on a sound basis should not take rash action and sell what they originally thought to be good long-term investments.

Pollack says that, in fact, when things look the bleakest, it is usually the best time to buy.

P. W. Brooks & Co. says it admits the impossibility of picking the exact low of the present decline but remains convinced the present decline is a secondary correction in a long-term bull market, the highs of which are yet to be seen.

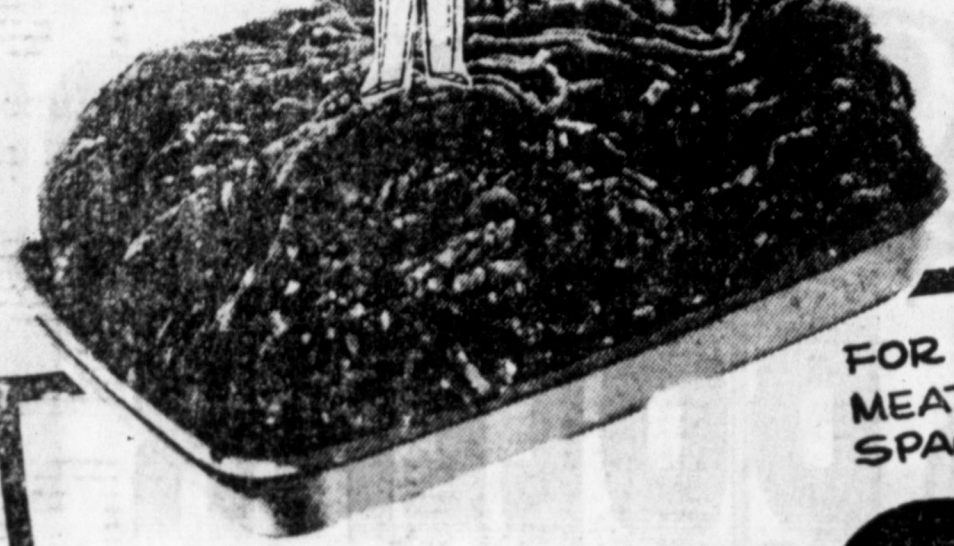

Spear & Staff Inc. says that despite the severity of the recent decline it does not believe there is sufficient evidence to state flatly that a major bear market is in progress.

The Alexander Hamilton Institute says it agrees with the Wall Street consensus that favors the continued holding of best quality issues and a reserve of cash or short-term obligations.

In 1787, English historian Edward Gibbon completed his monumental work, "The Decline and Fall of the Roman Empire."

GRAND ASSEMBLY BOUND — Shown boarding a chartered bus for a trip to Rainbow Girls' Grand Assembly being held through Thursday in Dallas are, left to right, Miss Paulette Brooks, worthy advisor of Canadian Assembly; Miss Barbara Duke, worthy advisor of Skellytown Assembly; Mrs. Tommy Atkins, mother advisor of Skellytown Assembly; Mrs. Arleigh Hoobler, Canadian Assembly mother advisor; Mrs. D. E. Bohlander, mother advisor of Pampa Assembly; Miss Beverly Harlan of Skellytown, member of the Grand Assembly Credentials committee, and Miss Linda Bohlander, worthy advisor of the Pampa Assembly. Other members of the Pampa Rainbow Girls Assembly making the trip to Dallas were Misses Kandy Kelly, Jo Forsha, Jan Osborne, Vicki Elsheimer, Nancy Elsheimer, Debbie Shelton, Vicki Long, Judy Tarrent, Jan Johnson, Debra Roach, Debbie Hoover and Trina Frost.

Senior Center Corner

By MRS. O. A. WAGNER

Fun Foundry: The minister was lecturing a class about keeping their minds as clean as their bodies. To emphasize the point he held up a bar of soap. "Oh, oh," said a young listener, "here comes the commercial." Mrs. Jess Hatcher and this columnist visited Mrs. H. A. Tally and Mrs. Lillian Brunelle in Worley Hospital Thursday afternoon. Mrs. Tally was all smiles due to the arrival of her daughter, Mrs. James Hart of Hilland Park, Ill. Best wishes are extended Mrs. Brunelle, a long-time member of Senior Citizens' Center, who now lives in the Canadian rest home. Friends of Mrs. Bessie Sewell, who left Pampa to enter the Baptist Home at Arlington, will be happy to hear that Mrs. Sewell is now recuperated from her illness and is living in the St. Regis Hotel in El Paso. Mr. and Mrs. D. H. Porter, Ruth and Richard of Shamrock were Sunday dinner guests of Mrs. Porter's mother, Mrs. C. G. Miller and son Bill. Mrs. Lillie Trimble has returned from a week's visit with

relatives in Norman, Altus and Oklahoma City, Okla. Mrs. W. F. Evans and Ralph of Concord, Calif., arrived Tuesday for a visit with Mrs. Evans' mother, Mrs. C. P. Roop and were Thursday visitors at the Center. Mrs. E. B. Smith and daughter, Mrs. Corinne Bell, have returned from Corpus Christi where they vacationed with Mrs. Smith's son and wife. They also visited in Wharton with other relatives and went fishing at Port Arkansas. Mrs. R. L. Bailey and Judy and Kathy of Brownfield visited this week with Mrs. Bailey's mother and mother-in-law, Mrs. K. H. Brannon and Mrs. Elma Bailey. Mr. Towe was missed this week. Center members hope he will soon be able to attend again. Mrs. Edith Mills has returned from Midland where she visited with a daughter and family, Mrs. Betty Hanson. Mrs. Katie Vincent reported that the Dudley Steeles have returned from a combined business and pleasure trip to Europe. Miss Lillian Rogers was missed at this week's meeting. Mrs. Rogers was in Amarillo attending to business and visiting friends. Next Thursday will be birthday party day for all Senior Citizens' having birthdays in July. Members are reminded to mark their calendars and attend the meeting when pictures will be made and gifts given to those being honored. Altrusa Club of Pampa served as hostess club this week. Finger sandwiches, cookies and coffee were served by Mmes. Marie Fitzgerald, Jay Flanagan, Mable Hukill, Louise Sewell and Lillian Snow. The table centerpiece, fashioned of tiger lilies and larkspur, was provided by Mrs. Fitzgerald. Door prizes, provided by the Women of the Moose, were received by Mrs. Wilkie and Mr. Ripple. Gray Ladies providing transportation were Mmes. Jess Hatcher, Cherry Kuhlman, George Benham, John Hessey and A. D. Hills.

Jaycee-Ettes Of Pampa Guests At WD Chapter Meet

Six Pampa Jaycee-Ettes were guests recently of the White Deer Jaycee-Ette Chapter at its annual installation of officers at the First Bank and Trust in White Deer.

Out-going president, Mrs. Linda Russell, was the installing officer. Assuming the roles of leadership for the coming year were Mrs. Eloise Collins, president, and Mrs. Paulette Craig, secretary-treasurer.

White Deer Jaycee-Ettes attending the installation and meeting afterwards were Mmes. Nancy Coffee, Vina Abbott, Linda Germany, Karen Thornburg, Katherine Smith, Linda Russell, Eloise Collins and Paulette Craig.

Pampa guests included Mmes. Nelda Lancaster, Georgia Hay-

Astrological Forecast

By CARROLL RICHTER

FOR WEDNESDAY, JUNE 30
GENERAL TENDENCIES: This is the morning when you can round out a course for the future that will make life easier for you but the afternoon and evening find you with some changing conditions that require that you change others.

ARIES (Mar. 21 to Apr. 19) — Finishing some home duties in a.m. is ideal time, but evening should be spent in quiet reflection. Get others to agree with your ideas early. You can please right people easily.

Taurus (Apr. 20 to May 20) — Getting data you need is easy during a.m. and keeping important appointments on time is wise. Delegate conferences at home until evening. Put ideas to work properly after lunch.

GEMINI (May 21 to June 21) — Spend day lowering expenses and increasing income, so that tonight you are free to go out for enjoyment, with good plans for your future well. Make investments that are right.

es, Nancy Wilson, Nedra Tinney, Patsy Webb and Paula Pool.

The Women's Page

PEGGY JO ORMSON Editor

THE PAMPA DAILY NEWS TUESDAY, JUNE 29, 1965 58TH YEAR

6 MOON CHILDREN (June 22 to July 21) — Any personal affairs should be handled during the morning, but get down to business tonight. Be with friends you have not seen in some time. Merchants can wait until the p.m.

LEO (July 22 to Aug. 21) — Find some unusual way to handle petty problems during the morning, then be sure you do whatever will improve health. Get all in order first. Then out for a good time in early p.m.

VERGO (Aug. 22 to Sept. 22) — Be helpful to fine pals during morning and get parties set up for days, weeks ahead. You know what to do in a social way. Get rid of annoying problems during the p.m.

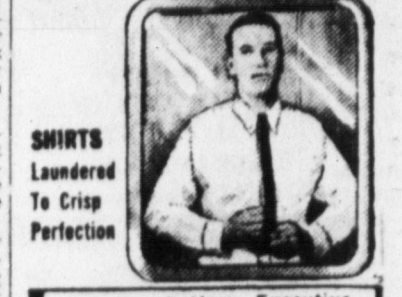

LIBRA (Sept. 23 to Oct. 23) — Showing respect for higher-ups in a.m. is only right and just, but later he with congenials at favorite hobbies. Civic affairs should also be righted. Reach your aims.

SCORPIO (Oct. 23 to Nov. 21) — You are now able to garner information that will bring advancement. Confer later with big-wigs for backing you need. Welcome

new contacts early. Then stick right to business.

Fringe benefits in fall and winter party dresses glitter. Instead of wool fringe, there's fringe made of rhinestones or jet bugle beads. It circles hems, sleeves and decorates necklines, providing plenty of sparkle

the BIGGER we get the easier we DEAL

This has been one of those years. Great. Buickwise, we mean. And no wonder. The 1965 crop of Buicks are all beautiful. They ride well, handle well. Buick engineers, you see, have a way of doing things that please people. So what's this ad for? To brag about Buicks? No, sir.

We have something that'll interest you more. It's called how to get yourself a Buick the easy way. Because we've had such a great sales year, we can make it easy. The easier we make it, the closer we'll come to breaking our all-time Buick sales record.

This goes for any Buick. Riviera, Electra 225, Wildcat, LeSabre, Skylark or Special. You name it — we'll deal. If all adds up to this: if you'd really rather go first class, go Buick. We'll make it worth your while.

Wouldn't you really rather go first class? Go Buick!

There's an authorized Buick dealer near you. See his Double-Checked used cars, too.

Dear Abby... Ignore Talk That Comes From Wagging Tongues

DEAR ABBY: Our 18-year-old daughter, a straight "A" student and faithful church member, has gone with a boy (her age) for over a year. He moved here from another state. The other evening he told our daughter that he wanted to tell her something before somebody else did. His parents own and operate a nudist camp! He told her his mother never did approve of it, but his father is the boss and they make a very good living from it. He said when he was eleven his father took a belt to him and put him in the car and made him go up to this camp. He hated it and hitchhiked back home. I think no less of this boy, but I'm afraid if this gets out our daughter's reputation will be ruined. He says he sometimes goes up there to see his mother, but he always wears shorts. Please advise us. STRICTLY ANONYMOUS.

DEAR STRICTLY: Children are not responsible for their parents' behavior. You are right to judge the lad on his own merits. You can't still wagging tongues, so ignore any talk that occurs, and don't waste your energy worrying about it.

DEAR ABBY: I read with interest the letter on how to propose marriage. May I tell you how I did it?

First I bought a diamond ring. Then I invited the young lady to my apartment, and proceeded to serve her an old-fashioned. I had the diamond ring frozen in an ice cube. The girl almost swallowed the ring before she discovered it. But she put it on her finger and it's been there ever since.

GEORGE: DEAR GEORGE: I would call that a real cool proposal.

DEAR ABBY: I have a small problem but it seems to bother me more every night. My husband is a wonderful father in all ways but one. When our little ones go to kiss him good-night, he turns his cheek for them to kiss, but he never kisses them in return. I have told him many times that a kiss should be mutual — and that he should kiss them in return — but he says he can't see where it matters, and as long as the children are satisfied I shouldn't criticize him. I would like your opinion and am willing to go along with your answer. Thank you.

N. J.: DEAR N. J.: If your husband smokes heavily, chews tobacco or has beer breath, he's going the kids a favor. But if he's a "wonderful father" in all other ways, I say leave him alone.

DEAR ABBY: In regard to the husband who reported that his wife "sweet-talked" her plants and flowers and it made them grow: I understand how it

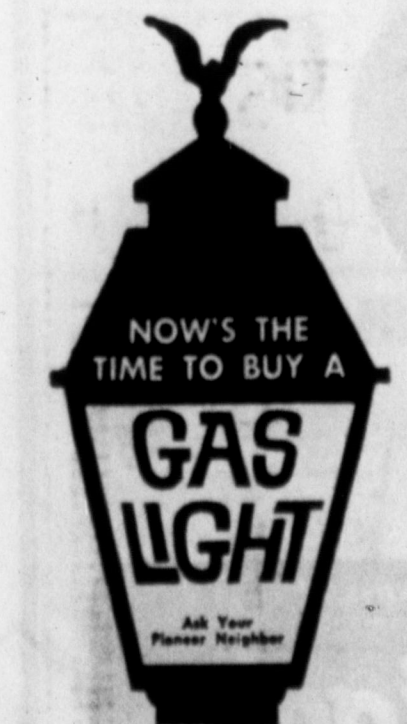

Nightin' Gals Meet In Home of Member

GROOM (Spl) — Nightin' Gals Club met recently in the home of Mrs. Jim Hermesmeier with Mrs. Carl Homer serving as co-hostess.

One guest, Mrs. Paul Homer was present.

Members attending were Mrs. Robert Milton, Ted Friemel, Charley Fields, Lucille West, Joe Davis, Walter Garmon, Glynn D. Harrell, Jim Littlefield, Louie Jones, Ruby Denton, Miss Beulah Shockley and the hostesses.

Games of pinocle were played with Mrs. Walter Garmon winning high score and Mrs. Ted Friemel taking low score.

Classes in Flower Arrangement Slated To Begin Thursday

Flower arrangement classes, sponsored by the Pampa Council of Garden Clubs, will begin at 2 p.m. Thursday in First National Bank's Coffee Room.

The classes are free of charge and are open to anyone interested in receiving basic and detailed instructions in the art of arranging flowers. Workshops and demonstrations will be used as the method of teaching.

SCHEDULE
July 1 — Mechanics and Preparation of Material for Arranging Flowers. Mrs. V. N. Osborn, instructor.
July 8 — Creating Designs. Mmes. Ed Parsons and Thelma Bray, instructors.
July 15 — Color and Texture in Design. Mrs. Myron Dorman Jr., instructor.
July 22 — Creating Dried Arrangements and Use of Driftwood in Design. Mrs. Tom Price, instructor.
July 29 — Oriental Arrangements and Use of Figurines in Design. Mrs. Melvin Stephens, instructor.
Aug. 5 — Flower Arrangements and Table Settings. Mrs. John Sweeney, instructor.

Ruth Millett Who Really Foots Bill For Hubby's Hobbies?

Newspaper Enterprise Assn.

In a recent column I quoted a letter written by a working wife who said she held down a job so that her husband could have the luxuries he had no intention of becoming unaccustomed to just because he had a wife to support.

That reader figured there must be other wives working for

the same reason — to keep their husbands happy.

Well, now I can report that there are others. Husbands, it would seem, often have more extravagant tastes than they can indulge after marriage — unless the family has two pay checks.

Judging from the letters I've received, a new car every year

or two is the No. 1 extravagance of husbands. Motorboats were also mentioned often.

So were faraway hunting and fishing trips — and all sorts of expensive equipment for both. Country club membership was also mentioned as something a husband who likes golf considers important to his happiness.

There was a little different slant to one wife's letter. She said wryly: "Maybe I don't ac-

58TH
YEAR

usually work to provide my husband with luxuries because his luxuries are so important they would come out of his salary — no matter what. Maybe I'm actually working so that the children and I can have a few luxuries, too."

One wife who wrote said she just couldn't believe that a n-

wife would be dumb enough to go to work every day just to enable her husband to have the luxuries he thought he couldn't be happy without. "Only a nut would do that," she claimed.

But she's wrong. Some wives today work hard to provide their husbands with luxuries and keep them content.

Foreign News Commentary

By PHIL NEWSOM
UPI Foreign News Analyst

Outside Portugal the four-line announcement issued by the National Union, the country's only legal political party, attracted little attention.

It said Rear Adm. Americo de Deus Rodrigues Tomas, Portugal's 70-year-old president, had agreed to run for another seven-year term. Since no other party is permitted to exist and because the scattered opposition was unlikely to put up a candidate, any suspense in Portugal's election thereby was removed.

The Portuguese presidency largely is a ceremonial position but what duties he has, President Tomas performs with devotion. More important is the fact he is a man of no political ambition in the pattern required by Premier Antonio de Oliveira Salazar.

Has Firm Rule

Salazar has ruled Portugal with paternal firmness for 37 years and his presidential candidates were handpicked.

Of greater significance in the announcement of the Tomas candidacy was the possibility it may fall to him to name Salazar's successor.

Salazar is 76.

As with Generalissimo Francisco Franco in neighboring Spain, political discussion in Portugal centers not upon any possibility of Salazar's overthrow but on the question of his successor at such a time as he should be removed by death or infirmity. Age is becoming a factor.

Few Recall Others

Comparatively few Portuguese can remember any other rule but Salazar's.

Politically, the last real opposition to Salazar came in 1958 from Gen. Humberto Delgado.

Delgado lost the campaign and took refuge in the Brazilian Embassy, leaving the country later under a safe conduct guarantee. From then on he plotted Salazar's overthrow — until a body buried under a eucalyptus tree just across the line in Spain was identified as Delgado's early this year.

As it has been each year under the Salazar rule, Portugal's budget is balanced. And his adamant refusal to even consider independence for Portugal's African provinces appears to be paying off. Near quiet has returned to Angola and the province is making money from petroleum and coffee.

Mozambique remains a problem because of a threat from nearby Tanzania, but it is a relatively minor one.

SAFE MOWER

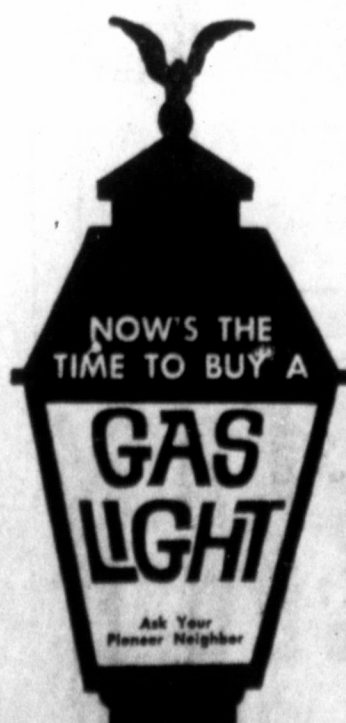

NEW YORK (UPI) — The 50,000 fingers and 100,000 toes lost. That's the National Safety Council estimate on needless amputations of toes and fingers sacrificed through accidents occurring while cutting the grass with a rotary mower.

Now along comes a firm — Dura Corp. — with a mower said to be the first safety blade mower capable of reducing the accidents by 98 per cent. The mower has a blade with comb-like projections. These are said to reduce the chances of cutting off a finger or toe, or of throwing an object with gunlike velocity.

BUSY 4-H

NEW YORK (UPI) — The 4-H club members are busy. They are enrolled in almost 5 million work projects covering home centered endeavors ranging from cooking and sewing to livestock and safety. So says the U.S. Department of Agriculture.

9 Kidney Transplant in Dallas Hospital Successful; Organ of Gunshot Victim Used in Operation

DALLAS (UPI)—Within minutes after a young gunshot victim died, surgeons at Parkland Hospital early Monday wheeled in a patient and gave him one of the slain man's kidneys in a five-hour operation.

The operation was a success. The patient, whose name was withheld at his family's request, was placed in the intensive care unit and was listed in critical condition.

It was the fifth kidney transplant at Parkland, the hospital where President John F. Kennedy was pronounced dead in November, 1963.

Surgeons removed the kidney from the body of David M. Pineda, 21, who died in surgery the day after he was shot in the head and legs.

He had been brought to the hospital by a man who said he heard four pistol shots and found Pineda on the ground. Police were investigating the shooting.

Hospital authorities got permission from both families for the kidney transplant when it became apparent Pineda would not survive.

A team of surgeons from the Southwestern Medical School performed the transplant.

In 1936, President Franklin Roosevelt was renominated a second term in office by a Democratic Convention in Philadelphia.

In 1893, a major economic depression began as prices on the New York Stock Exchange collapsed.

In 1802, the U.S. Military Academy at West Point, New York, was formally opened.

The Lighter Side

By DICK WEST
United Press International
WASHINGTON (UPI)—As U.S. taxpayers we all have a vested interest in Andrew Viglianco's plan to save the Leaning Tower of Pisa by freezing it.

If the plan works, it can perhaps then be used to save us anywhere from \$24. million to \$31. million.

The Italians fear that the famed tower, which has been listing to port ever since it was completed in 1350, may be about to take a header.

Should that happen, its rating as a tourist attraction would be gravely jeopardized.

They could, of course, rename it "The Fallen Tower of Pisa." But chances are it would lose some of its charm in the prone position. So, quite naturally, they are eager to find some way to circumvent the law of gravity.

Freeze Ground
In response to their appeal for help, Viglianco, a Charleston, W. Va., iceman, conceived the idea of using refrigeration coils to freeze the ground around the tower to stabilize its foundation.

He is scheduled to leave for Pisa later this week to confer with Italian authorities about putting the tower on-ice. I feel certain they will buy the plan. They have nothing to lose.

If it doesn't work, they can start advertising the ruins as the world's largest frozen pizza.

We American taxpayers have reason to hope that Viglianco will succeed. Congress might then invite him to try his hand at saving the west front of the U.S. Capitol.

According to a recent engineering study, the original sandstone walls on the west front have begun to crack, arousing fears that they, too, might some day come tumbling down.

Plan New Front
Consequently, a congressional commission in charge of anti-Jericho activities voted last week to start planning the construction of a new marble front to protect the old one.

The extension project would cost between \$24. million and \$31. million. And here is where Viglianco would enter the picture.

It seems that most of the damage is being caused by water seeping into the cracks and then freezing. Viglianco might very well be able to figure out a way to keep the walls permanently frozen, thus halting further wear and tear.

I feel certain the deep-freeze method would be far less expensive than the extension project.

ect, and it also would carry out Vice President Hubert H. Humphrey's suggestion that the west front terrace be turned into a recreation area.

The terrace could be used as an ice skating rink.

Business Highlights

By United Press International
WASHINGTON: Brig. Gen. David Sarnoff suggested Monday that the U.S. private enterprise communications carriers merge their operations into a single firm.

Sarnoff, chairman of Radio Corporation of America, said in a magazine interview that he believes national interests might be better served by such a single company taking over the international carrier business of the Bell System, RCA, ITT, Western Union and smaller companies.

WASHINGTON: The Early Bird satellite started earning its keep Monday. Regular commercial operations including telephone calls, news dispatches and photographs start at 9:30 a.m. CST. An exchange of greetings between Prime Ministers Harold Wilson of Britain and Lester Pearson of Canada and Chancellor Ludwig Erhard of West Germany with President Johnson will kick off the service.

NEW YORK: F. W. Dodge Corp. reports construction awards rose 5 per cent in May from a year earlier, lifting awards for the year so far 2 per cent above a year ago.

TOKYO: Japan's Central Bank increased its discount rate for the third time this year. The new increase was from 5.475 to 5.84 per cent.

PITTSBURGH: Steel companies say their customers have built up big inventories as a hedge against the possibility of an autumn strike. Moreover, the companies said the inventory accumulation is not causing any reduction on their regular production schedules.

They attributed this to the fact little headway has been made so far in the renewed negotiations for a wage contract.

NEW YORK: American Express announced nearly all the creditors of its warehousing subsidiary have agreed to accept its proposed settlement of the losses arising from the New Jersey salad oil scandal.

Jaycees Choose State Contenders

A field of close to 40 boys and girls have been picked to represent Pampa in the state Jaycee track meet July 8-9-10 at College Station, as well as four golfers and four tennis players.

The tennis matches will begin at 1 p.m. Thursday and run for three days. The golf matches will be a two-day affair, starting at 7 a.m. Friday with a practice round Thursday. The track meet will also be a two-day affair, with preliminaries in both track and field events beginning at 9 a.m. Friday and running through 2:30 p.m., and the Saturday finals at approximately the same times.

The track team will have some major changes in the lineup from the qualifiers in the regional meet, due principally to a mixup in the prep division and the addition of a number of non-qualifiers who will be supported by their own Jaycee organizations.

Jaycee president Eddie Polnac explained that a large number of 15-year-old boys had entered the prep division here instead of the intermediate division. "The state rules say that all 15-year-olds should be in the intermediate division. Therefore the boys who were 15 and competed in the prep division are not eligible to enter the state meet, and with every winner and almost every second-and-third-place winner in the prep being too old, we will probably not take any prep boys at all."

"Another complication in the girls division was the fact that many of the winners were from Panhandle, which will be representing a different division in the state meet. Therefore, most of our girl representatives will be from the youngsters running with the Pampa and Skellytown Track Clubs. We feel that those youngsters who have continued to run regularly this summer and shown an interest in track will have the most incentive and also be in far better shape to run."

"A large number of our entries did not qualify in our meet, but are being sponsored by area Jaycee organizations which did not have a local meet, who are sending them to represent Pampa so the youngsters (most of whom have also been running regular summer track) can get a chance to run at state and possibly qualify for the nationals."

The tentative list of entrants and events:

Senior boys
Roy Armstrong-100-yard dash, 220, sprint relay. Keith Yarnold-100, 220, sprint relay. Jimmy Wells-440, sprint relay. Fred Cooper-880, Mark Westbrook-Mile. Bill Flanders-sprint relay. Gary Crossland - broadjump, sprint relay. Randy Elliott-pole vault, low hurdles, broadjump or sprint relay. Waylon Bullard-high hurdles, low hurdles. Teddy Bird-high hurdles, high jump. Bennie Eekles-high jump, shot put, discus. Tommy Smith-broadjump, 880.

Intermediate boys
Kenneth Steinie-100, 220, sprint relay. Howard Sanders-100, sprint relay. Harold Thrasher-440, sprint relay. Otto Wheeler-high hurdles, low hurdles, sprint relay. Butch Nicholson-110 hurdles, sprint relay, high jump or broad jump. Johnny Walker-low hurdles, sprint relay, high jump or broad jump. Jerold Norris-pole vault. Ronnie Sargent-pole vault, sprint relay. Vernon Marlar-220, sprint relay, senior shot put. Butch Bowen-discus, sprint relay. John Hasler-high jump, broadjump. Ricky Allen-pole vault. Virgil Armstrong-880, 440, sprint relay. Doc Cornutt-shot put, discus. Larry Bates-shot put.

Senior girls
Marolyn Young-220, 440, sprint relay. Carolyn Young-shot put, broadjump, high jump.

Intermediate girls
Connie Jarvis-220, 440, senior sprint relay. Linda Stump-100, 220, senior sprint relay. Barbara Powers-220, 440, senior sprint relay. Sandy Oler-440, high jump, broadjump or senior sprint relay.

Prep girls
Linda Stevenson-100, 220, sprint relay. Peggy Cornelison-broadjump, high jump, sprint relay. La Donna Russell-high jump, broadjump, sprint relay. Nancy Mathews-sprint relay. Regina Barnett-100, broadjump, high jump. Billie Woodward-senior girls shot put.

All contestants must bring proof of age.

PAMPA DAILY NEWS Sports

Ralston Takes On Emerson

WIMBLEDON, England (UPI) — Four American women entered the quarterfinals of the Wimbledon tennis championship today with an outside chance of producing the first all-American semifinal round in the history of the classic.

Dennis Ralston, the lone U.S. survivor in the men's singles, meets top-seeded Roy Emerson of Australia in a semifinal match Wednesday billed as the feature event of the 79th annual tournament. Emerson was a 7-5 favorite.

Nancy Richey of Dallas, Tex.; Billie Jean Moffitt of Long Beach, Calif.; Jane Albert of Pebble Beach, Calif.; and Justina Bricka of St. Louis all swept to victory Monday, with only Miss Bricka, who was burdened with blisters on her racket hand, requiring three sets in the impressive U.S. showing.

Miss Richey, the top-ranking women's player in the U.S. and seeded fourth here, was the best American hope to reach the semifinals against Christine Truman of Britain. The other three American girls entered the round as underdogs.

Chisox Move Into 1st-Place Tie

By United Press International — Just when the Chicago White Sox figured they'd been taken to the cleaners in the winter trading market, John Romano begins returning dividends.

The White Sox gave up four players in a three-team trade last January to obtain the power-hitting catcher from the Cleveland Indians and until four games ago he ranked as the biggest disappointment in the Chicago pennant push.

Romano, out almost half the season with a series of injuries and an anemic bat, suddenly has started displaying his advertised power. In the last four games, Romano has slugged three doubles, two home runs and raised his batting average 46 points to .256, batting a torrid .563.

Hit Sixth homer
Romano slapped a home run (his sixth) and two singles Monday night, as the White Sox bombarded Minnesota 17-4 to move into a first-place tie in the American League with Cleveland.

The Indians won their 15th in the last 17 games, dribbling Boston 9-2. Detroit moved into fourth place by stopping Baltimore 4-3 and the New York Yankees ran their winning streak to five by defeating Washington twice, 3-0 and 4-3.

Danny Cater, another winter acquisition of the White Sox who has been slumping lately, broke a 4-4 tie with a home run (his 10th) to ignite a seven-run Chicago outburst in the sixth off loser Dave Boswell, who had pitched no-hit ball until the fifth. Tom McCraw had tied the score in the fifth with a grand slam home run. Don Buford added two hits, scored three times and drove in three runs for the Sox.

Strong Relief Stint
Reliever Eddie Fisher allowed only one hit and one walk in 4 1/3 innings to record his ninth triumph in 11 decisions for Chicago.

Fred Whitfield smashed his ninth homer with two on in the second off loser Bill Monbouquette of the Red Sox and Vic Davallito contributed a solo blast in the third for Cleveland. Luis Tiant worked the first five innings to earn his seventh win and Floyd Weaver finished up, yielding only three hits including Tony Conigliaro's 15th homer in the ninth. Rocky Colavito and Leon Wagner each contributed three hits and an RBI to the Indians attack.

The Yankees, extending their longest winning streak of the season crept to within nine games of the top on the two-hit pitching of Mel Stottlemyre in the opener and excellent relief work in the nightcap by Bob Tienauer, Steve Hamilton, and Pedro Ramos.

The Yankees scored the decisive run in the nightcap on a passed ball. Hector Lopez homered for the Yanks and Bobby Richardson collected two hits and an RBI, to stretch his batting streak to 13 games. Bill Stafford was the winner. Peter Richert lost the first game duel and Mike McCormick was saddened with the second game loss.

DOLPHINS — Members of the Pampa Dolphin Swim Club work out for their next meet in Amarillo. In front, from left are Scott Rader, Barry George, Butch Wilkerson. Second row: Don Coie, Joan Parsley, Charlie Jackson. Third row: Naomi Elwess, Alan Pitts, Buddy Wilkerson. In rear is Connie Ladd.

Rifle & Pistol Club Notes

Sunday, July 4th at 1 p.m. is the starting time for the first bench rest rifle competition to be held by the Pampa Rifle & Pistol Club. The shoot will be held at the Big Bend range 10 miles east of Pampa on highway 60. Direction signs will be up.

This will be shooting from a sand bag rest for the smallest composite group of three, five shot groups at 100 yards, and three, five shot groups at 200 yards. Trophies and medals will be given for the first and second place winners of four classes: Sporting, light varmint, heavy varmint, and open. The public is invited to attend.

Monday, June 29th was pistol practice night at the indoor range located at Recreation Park. Scores fired were: Rim Fire, Ralph Day 253, Fred Carothers 260, Ron Earnest 256, Albe Phillips 223, Tiney Williams 262, Fred Brown 283, Paul Geiser 243, James Lamer 223, Caliber 45—Carl Lofin 140, Ron Earnest 218, Jesse Goad 251, Ralph Day 195.

Marichal Bests Drysdale To Slice Dodger Margin

By United Press International — Check no further than Juan Marichal's man-to-man record against Don Drysdale to see why the San Francisco Giants rate the 27-year-old flame-thrower the best right-handed pitcher in baseball.

Marichal's lifetime record against the Los Angeles Dodgers' "Big D" is five victories and three losses. That includes a 2-1 edge this season and five wins in their most recent seven decisions. Drysdale topped Marichal the first time they met in 1961.

Marichal scored a "big one" — bigger even than most victories over Drysdale — when he pitched the Giants to a 5-0 victory over "Big D" and the National League leading Dodgers Monday night. The loss was the fourth in five games of the Dodgers while the triumph moved the Giants to within 2 1/2 games of first place and a game and a half of the second-place Cincinnati Reds.

Allows Six Hits
Marichal, who lost to Drysdale April 29 and beat him June 15 in their previous meetings this year, allowed six hits, walked one batter and struck out five. It was his fifth shut-out of the season and raised his 1965 mark against the league to 12-6. Drysdale suffered his seventh loss against 11 victories.

Willie Mays singled home Dick Schofield to give the Giants a 1-0 lead in the first inning and the Giants broke open the game with a four-run fifth that began when Drysdale committed errors on the first two batters.

With Hal Lanier on third base and Randy Hundley on first as a result of the errors, Dick Schofield hit to third baseman Jim Gilliam who started a rundown play between third and home. Umpire Al Barlick waved Lanier across the plate when catcher John Roseboro was guilty of obstruction and Matty Alou and Jim Hart followed with singles producing three more runs.

Other Games
The Pittsburgh Pirates dealt the Reds a 5-4 defeat, the Philadelphia Phillies blanked the St. Louis Cardinals 3-0. The New York Yankees whipped the Milwaukee Braves 5-2 and 6-3, and the

NO EXTRA COST

WHAT DO YOU GET WHEN YOU BUY A 1965 FORD? PLENTY. YOU GET A CAR THAT RIDES QUIETER THAN A ROLLING ROYCE. (AND QUIET MEANS QUALITY... DEEP-DOWN QUALITY.) BUT THAT'S ONLY THE BEGINNING. NOW CHECK THE MANY SPECIAL COMFORTS AND CONVENIENCES THAT ARE STANDARD EQUIPMENT ON EACH FORD MODEL...

With any '65 Ford you get—the strongest Ford body ever... a new frame that "tunes out" vibrations... new coil spring suspension. And every Ford gives you extra knee room... extra foot room... and a trunk that holds four 2-suiters upright. And there's more...

FORD GALAXIE 500 LTD
EXTRAS AT NO EXTRA COST:
LTD's are the most luxurious Fords ever built—with styling that was cited by the American Institute of Interior Designers. You get: Big, new 289 V-8 • Cruise-O-Matic transmission with three speeds. • Decorator-styled interior. Thick nylon carpeting. • Rear-seat pull-down arm rest, padded dash. • Choice of six nylon quilted seat upholstery fabrics. • Walnut-like vinyl inserts on doors and dash. • Silent-Flo ventilation (in 4-door hardtops) for fresh air with windows up. • Full wheel covers. Much more.

FORD GALAXIE 500/XL
EXTRAS AT NO EXTRA COST:
The ultimate in bucket-seat luxury. You get: Big, new 289 V-8 (200 hp). • 3-speed Cruise-O-Matic with "bar stick." • Full-length console. • Individually adjustable front bucket seats. • Bucket-styled, foam-cushioned rear seats. • Automatic courtesy and safety lights on door panels. • Full-chrome dash controls. • All-vinyl upholstery trim. • Loop-pile carpeting. • Full wheel covers.

FORD GALAXIE 500
EXTRAS AT NO EXTRA COST:
A great family car, the Galaxie 500 has the same solid construction and spaciousness as XL's and LTD's. You get: A thrifty new 240 cu. in. Big Six (150 hp). • Fully synchro-

nized manual transmission. • As in all '65 Fords—you get more luggage space than in major competitors' cars.

The Galaxie 500 also shares these standard features with the LTD and XL:
• Electric clock... backup lights. • Illuminated glove box and ash tray. • Constant-speed electric windshield wipers. • Fully aluminum muffler and galvanized underbody members. • Handy reversible keys. • Keyless door locking. • Minimum routine maintenance schedule. • Self-adjusting brakes. • Long-life battery. • Safety-Yoke door latches. • Heater-defroster. • Front seat belts. And more.

There's no extra charge for any of these features—and no obligation for test-driving any of the hot-selling 17 full-size Fords for '65. Visit your Ford Dealer soon.

*Leading acoustical consultants conducted tests in which 1965 Fords (Galaxie 500 Sedan, XL and LTD Hardtops) with 289-cu. in. V-8 engines and automatic transmissions rode quieter than a new Rolls-Royce. These tests were certified by the U.S. Auto Club.

EXTRA SAVINGS

Top all of Ford's extras with even more savings. Right now most Ford Dealers are holding special Summer Sales with excellent buys on a wide range of models. Another saving—the new excise tax cut. Save at your Ford Dealer's soon.

1965 Ford Galaxie 500/XL 2-Door Hardtop

Try the Quiet One for yourself at your Ford Dealer's now!

The Pampa Daily News

A Watchful Newspaper

EVER STRIVING FOR THE TOP O' TEXAS TO BE AN EVEN BETTER PLACE TO LIVE

The Pampa News is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. Only when man is free to control himself and all he produces, can he develop to his utmost capabilities.

We believe that freedom is a gift from God and not a political grant from government. Freedom is neither license nor anarchy. It is control and sovereignty of oneself no more, no less. It is thus consistent with the Human Relations Commandments, the Golden Rule and the Declaration of Independence.

Unions Could Be Beneficial

It might be well for us to give the public a little clarification of our ideas of labor unions. We are of the opinion that there could be good labor unions that benefit everybody.

A union that tries to inform its workers as to where they can get better jobs, and tries to inform the employer that he is foolish not to pay his employee the full value of his work as measured by a free market could be a good union.

The workers must have the right to hire an outside man to bargain for them, because it is very difficult to get an employe to negotiate for them who has the experience in negotiating.

Our objection to labor unions is that they want to make a bargain for those who want to have another agent bargain for them or who want to make their own bargain. Since every man is different from every other person and thus each man's services have a different value, each person should receive the full value of his service, no matter how much the difference.

John W. Scoville former economist for Chrysler Corporation made an address before the Detroit Kiwanis Club on "The Theory of Collective Bargaining."

He closes his address with these statements:

"We must abandon any ideas that collective bargaining is a moral or humanitarian scheme. It is only by freeing workmen from the shackles of collective bargaining that they will be able to have more abundant life and greater justice. Justice and morality are with those who would expend — not with those who would deny individual liberty."

Then he says, "In conclusion, these are the steps that we should take:

1. All federal labor laws should be repealed;
2. There should be no state laws on wage rates or hours;
3. Collective bargaining and all other monopolistic practice should be made illegal by state laws.

"No one should be compelled to get permission or pay money for the privilege of marketing his labor. No man should have the right to put several thousand workers on the auction block — and bargain with an employer for their services. It is an affront to human dignity to sell a drove of workmen as if they were cattle, hogs or sheep."

That puts the labor unions on record as regarding human beings as property that they control whether they are members or non-members.

Rhythm on the Road

If a needle moving over bumps in a plastic disk can make music, why can't automobile tires whirling over a highway do the same?

That is apparently the analogy that has inspired Robert Latus, a resourceful post office clerk in Hartford, Mich., to write to the Michigan Highway Department suggesting that engineer build roads that would play simple melodies.

One way to do it, he thinks, would be to use steel mesh close to the surface, but designed so that it produced harmony instead of an annoying hum. As for music, he suggests the National Anthem at state boundaries and school songs near colleges.

The idea opens up a whole realm of possibilities, both frightening and hopeful.

It is frightening to think that it would be like if the composers of musical commercials were ever let loose to permeate the pavement. Our worries over the billboard blight would pale into insignificance in comparison.

On the other hand, consider the boon it could mean to safety. Handel's "Largo," might be much more effective in slowing traffic at curves than any number of warning signs. "The Dead March from Saul" could be used to alert drivers to a dangerous intersection.

On the straightaway, something like the "Light Cavalry Overture" would help maintain the pace of traffic. Speeders could still speed, but they would have to put up with a lot of glib-gabble from highway — not to mention the wail of a police siren as a finale.

There Must Be A Limit

Now that we know that healthy humans, properly indoctrinated and physically prepared, can orbit the earth performing navigational and housekeeping functions, eating and sleeping for four gravityless days and without the tension and shock of re-entry without harm, NASA's next experiments may throw some light on how much we who follow the astronauts from the ground can stand.

The Gemini 5 spacecraft is already at Cape Kennedy under testing for a seven day orbital cruise in August (probably) which will involve maneuvers to close in on a target vehicle to be released from the capsule. Actuations, eating and sleeping for four gravityless days and without the tension and shock of re-entry without harm, NASA's next experiments may throw some light on how much we who follow the astronauts from the ground can stand.

We have planned trips of our own for those periods — but we don't know where. Perhaps we could rent an abandoned mine?

"We're in Trouble if the President's Beautification Program Goes Through!"

Backstage Washington

Humphrey to Dedicate Children's Research Hospital in Poland, As (Explosive?) Poies Prepare for Millennium of Christianity

PAUL SCOTT

WASHINGTON — President Johnson is so pleased with Vice President Humphrey's pow-wow with President de Gaulle that he is giving him another foreign assignment.

This new mission will take the Vice President behind the Iron Curtain into Eastern Europe.

The President is sending him to Poland in September to dedicate the U.S.-financed American Children's Research Hospital at Krakow.

The unpredictable impact these visits could have on U.S. relations with Poland and other Eastern European nations has touched off a sharp dispute within the Johnson administration over Humphrey's dedication speech and whom he should see during his trip.

PRO AND CONS — The State Department wants Humphrey to limit his visit to official functions and not meet Cardinal Wysynski. They also want the hospital dedication address to be non-controversial.

This advice is similar to that given Vice President Nixon by the State Department when he visited Poland in 1959 enroute from Moscow.

Congressional Democrats headed by Speaker John McCormack, Mass., take a different view. They are encouraging Humphrey to make a direct appeal to the Polish people (90 per cent Catholic) similar to the one President Johnson recently made to the Russians.

If arrangements can be made, they favor Humphrey's meeting with Cardinal Wysynski to indicate that the U.S. is interested in the latter's fight to restore freedom of his nation.

President Johnson is expected to make the final decision on what Humphrey does.

The President also will determine how many members of Congress will accompany Humphrey. Already, more than 30 have asked Representative John Rooney, D-N.Y., one of the key supporters of the hospital, to arrange their inclusion in the official party.

NO SECRECY — It is very doubtful that in the future Vice President Humphrey will report to the State Department on his trips before briefing congressional leaders.

He told the legislative leaders that details of his meeting with De Gaulle were "leaked" to a New York paper within 24 hours after he had turned the information over to the State Department.

Briefing the legislators at their regular White House meeting with the President Humphrey apologized:

"I was shocked to read a very accurate account of my meeting with De Gaulle in a New York paper this morning. There is every indication that somebody in the State Department leaked the information. The story appears to be based on a report I submitted less than 24 hours ago."

President Johnson then spoke up: "I want to assure you that a full investigation is underway to determine who leaked Huber's memorandum to the press."

In his briefing, Humphrey said

BY M. L. HUNT

Hunt for Truth

COMMUNIST POPULARITY

Apparently, tolerance of communism is on the rise, while resistance to communism is ebbing. In fact, the popularity of communism is rising in the United States.

More than coincidence attends the fact that crime is also on the rise in America, for there is now a recognition that communism plays an important part in the current crime wave. With Marxists in the vanguard of militant agitation aimed at destruction of our institutions and our laws, we can expect popularity of Bolshevism to go hand-in-hand with the weakening of the moral code and the erosion of law and order.

When people claim a right to disobey laws which they disagree, they tear down the foundations of all laws. When they take the path of anarchy to flout their defiance, rather than working through the constitutional system to secure legislative repeal of an unjust or unpopular law, they take a giant step toward the complete mobile rule which is communism.

It is ironic that the rise in tolerance of communism in America comes at a time when some political interpreters envision the Russians converting their own communism into a "liberal" socialism.

Socialism is more dangerous in its "liberal" form than in its communistic state. There is little question about the total force behind a communist government, but "liberal" socialism is more likely to produce new converts and strengthen the Kremlin's stranglehold.

In our own country, liberal socialism has made far greater inroads than has the straight communist approach. The Communist Party, USA, is aware of this fact and has, in recent years, taken a lesson from the success of Fabian socialists. Now the Communist Party stays behind the scenes of "popular" revolts which it helps to create, and chides its Trotskyite brethren for being "too militant."

his 80-minute conference with De Gaulle was devoted largely to a discussion of U.S. actions in the Dominican Republic, and the French President's views on the ouster of Algerian President Ben Bella.

While Viet Nam was discussed, Humphrey stressed that De Gaulle made no new proposals and that he briefly outlined the U.S. position to the French leader.
