

VIGOROUS ENFORCEMENT OF DRIVERS' LICENSE LAW ASSURED

ROUTH GIVEN PROMOTION BY STATE CHIEF

MOTOR PATROL WILL BE INCREASED ON PLAINS

H. Routh, former highway patrolman in this area, is now an inspector charged with the duty of enforcing the new state traffic laws. He is a plain-clothes man and will use a car instead of a motorcycle. It is a promotion. Highway Patrolmen will be more numerous on the plains within a short time, and vigorous work will be done to enforce the man-made law.

The new drivers' licenses will be issued here as soon as application forms arrive, but enforcement of the law will not begin until April 2.

Limits Defined.

No person is required to have a license for operating road machinery, farm tractor or implement of husbandry, farm wagon, trailer, or any non-motor propelled vehicle; if he or she has a federal employee's driving permit; if he or she has a license issued by the railroad commission; or if licensed in some other state or county.

Out-of-state guests who hold no licenses can operate their own cars in this state for three months only without buying a Texas drivers' license, but courtless licenses, issued free, should be obtained by such persons. For violation of Texas laws by non-residents, courtesy licenses may be revoked for any stated period. Violation of such conditions after a license has been revoked is a misdemeanor.

Drunkards Barred.

No person under 14 years of age may obtain a driving license and no person under 18 years of age may obtain a chauffeur's license. The county judge, however, is authorized to make exceptions to these regulations. No licenses will be issued to persons whose permits have been suspended. No habitual drunkard or drug addict may obtain a driving license. No person suffering from a physical or mental handicap which would impair driving can be given a license.

License applicants must swear to contents of their statement. No fee

for issuance of licenses may be charged by public officers.

Parents Must Sign.

A special provision applies to applications by minors—persons under 18 years of age. These applications must be accompanied by signature of the parent or guardian of the applicant or, in the case of an orphan, by his employer or the county judge.

Chauffeurs must obtain and wear badges "in plain sight."

The new state law also provides that peace officers shall make reports of traffic accidents on special forms prepared for the purpose. Periodical state traffic accident reports will be compiled by the state highway department. In the past, Texas has been the only state not preparing such data. Every hospital superintendent and ambulance driver are required to report all injuries and deaths found to result from motor vehicle accidents. Any officer or person who fails to make such reports will be guilty of a misdemeanor.

Cause of Suspensions.

No person under 21 years of age may drive a school bus. All convictions for violations of the new law must be certified by court clerks to the state department. Mandatory revocation of licenses will result therefrom:

1. Negligent homicide resulting from operation of a motor vehicle.

2. Driving a motor vehicle while under the influence of intoxicating liquor or narcotic drug.

3. Any offense punishable as a felony under the motor vehicle laws of this state.

4. Conviction of a motorist for failing to stop and render aid and disclose his identity after an accident.

5. Conviction upon two separate charges of aggravated assault upon a person by means of a motor vehicle.

Penalties Grow.

Suspension or revocation of licenses is six months for the first offense and one year for second and additional offenses. Suspensions are automatically extended when the persons involved are convicted for driving while having no permits.

Appeals from verdicts may be made to county court. Suspended licenses must be surrendered. Display of fictitious licenses or badges is unlawful. Similarly, these instruments may not be lent.

Use of fictitious names and addresses in conforming to any section of the law is a misdemeanor. Fines may be assessed up to \$200. For driving while licenses are suspended, however, fines may be up to \$500 and jail terms of 2 days to 6 months.

AMERICANISM MONTH

Americanism and national defense activities will be emphasized during February by American Legion Auxiliary units throughout the country according to Mrs. Ruth Sewell, president of the local unit. Observance of Lincoln's and Washington's birthdays will be carried out by many units with meetings featuring Americanism and national defense subjects. State, district and local conferences on national defenses, in which other women's patriotic organizations will be invited to participate, will be held in many parts of the country. The local unit will take part in the program by giving special attention to Americanism and national defense at its February meetings.

Mrs. Frank Spelman was to be dismissed from Pampa-Jarratt hospital this afternoon.

The STRANGE CASE of JULIA CRAIG

by Nard Jones Copyright NEA 1936

Chapter VI

At the mention of Smith Garland, the best known night club owner in the state, Julia's heart literally skipped a beat. Woodford smiled as her mouth opened slightly and she stared at him unbelievably. He knew perfectly well that to anyone with Julia's ambitions the name of Smith Garland was magic indeed. Once the leader of a nationally known orchestra, he owned two night clubs, on in another city, and had even become a political leader in the state.

"Of course," Woodford went on. "I don't know that Garland can do anything. But it won't hurt to have him hear you. Like to come along?" "I'd like very much to," said Julia quickly.

"Good!" We expect to pull out some time late tonight. But I suggest you go along to the yacht club about 9 o'clock and get aboard. The name of the boat is the Wood Nymph. I'll phone the skipper to expect you."

"Thank you, Mr. Woodford. I can't tell you how much I really appreciate—"

"Forget it, Miss Craig," He smiled up at her. "I need a singer aboard, and you're a good one."

Julia hoped so. She hurried back into her office. Her thoughts in a whirl. For the rest of the afternoon she went through her work like an automaton and got precious little done. She could scarcely wait to get to the apartment and tell the good news to Amy Sanders.

But Amy wasn't at all surprised that Julia was to get her chance. But she was astonished at its source.

"I knew you'd finally bump into a break, Julia. When a girl wants a thing as bad as you want this, she finally gets there. But it does bowl me over that you'd find the rainbow right in your own office. Right in the place you've been trying to get away from."

Julia laughed. "I've found the funny how an evening dress can change a female employe into a woman."

Julia smiled. "You've been seeing too many movies, Amy!" "Laugh if you must at this old gray head," Amy misquoted cheerfully. "But you'll see."

In her rush to be at the yacht club, which was a considerable distance from the apartment building, Julia quite forgot, Amy's well-meant warnings. From the depths of the dressing room she called out, "anything special you should take on a yacht trip, Amy? I've never been on anything but an excursion boat in my life."

"Don't worry," Amy told her from the other room. "Woodford's yacht is probably the size of a hotel. I'd suggest that white evening gown—a sports outfit, with some soft-soled shoes in case he's fussy about the deck paint—and a package of sea-

sick remedy." There was a long silence, and then Amy added: "I saw some collapsible rowboats the other day. They were made out of canvas, and you could probably fold one up and get it into your week-end bag."

A shoe came hurtling out of the dressing room, successfully terminating Amy's advice.

When Julia reached the boat moorings the clubhouse itself was dark except for a dim light at the desk in the lobby. The sleepy night-

Julia said, "Anything special you should take on a yacht trip?"

The surpassing money-saving values of the sensational 1936 line of Norge Home Appliances

Proved by every possible laboratory and home test—approved by the American housewife—improved to give you even more than you expect in practical use value, 1936 Norge appliances represent sounder investments than ever.

The world's most beautiful refrigerator has been made even more beautiful—in design, proportion, finish. The convenient refrigerator has been made even more convenient, with new time and work-saving features. The economical refrigerator has been made even more economical—with increased efficiency in the surplus powered Rollator cold-making mechanism. Every part of the 1936 Norge shows new improvements and refinements.

In addition to making many desirable improvements in Rollator Refrigerators, Norge offers a beautiful new line of Concentrator Gas Ranges, improved in beauty, in convenience and in economical operation. Norge Automatic Washers and Norge Ironers have been redesigned, improved in many ways.

The week of February 10th to 15th has been set aside by Norge dealers everywhere as National Norge Show Week. It is your opportunity to inspect the latest developments in modern home equipment. Make the most of it. See the Norge line of distinctive home appliances.

carefaker directed her to the slip at which the Wood Nymph was moored. "She's all lighted up," he said. "You can't miss her. Big white ship." The Wood Nymph was a big white ship, indeed, far larger than any of the other boats which Julia passed as she hurried along the boardwalk of the mooring dock. Its white paint shown eerily in the darkness, and its brass work gleamed in the light from the cabin and the after deck. Her bag in hand, Julia hesitated by the small gangplank which led to the deck. But just then a white uniformed figure appeared from the cabin and touched his cap. "I'm Captain Blakely. Looking for the Wood Nymph?" "Julia told him that she was. "I'm Miss Craig, and I believe Mr. Woodford said I should be here about 9."

"Of course, Miss Craig. Come right aboard and I'll show you to your stateroom. Mr. Woodford and the other guests aren't aboard yet."

When Blakely had taken Julia to her stateroom and deposited her bag on the berth, he paused a moment at the door. "Please make yourself at home, Miss Craig. There are deck chairs aft."

"Thank you, I think I'll just stay here a while."

He nodded. "I'll tell Mr. Woodford when he comes that you're aboard."

When Blakely had gone, Julia looked about her. The stateroom was small but very pleasant, and furnished in quiet taste. She wondered whether she should accept the captain's invitation to sit on the after deck, but at length decided not. Blakely might not know that the owner had invited her as an entertainer rather than a guest. The safest thing, Julia told herself, would be to remain in her stateroom until Woodford arrived.

Taking a magazine from a little table in the corner of the room, she sat down to read. She read through one story, and began another. Then, impatient, she looked at her watch. It was after 10, but he had heard no one come aboard, yet the gangplank was quite close to the portholes of her stateroom. "But he said they wouldn't leave until late," Julia told herself, and resumed her reading.

When another hour passed, however, with no word from Woodford she began to wonder. All she had heard were vague sounds from below her, possibly in the engine compartment—and the occasional soft footfalls of someone on deck above.

She was about to put on her coat and go above when there was a light knock at her door. It was Captain Blakely.

"I've just had word from the clubhouse that Mr. Woodford telephoned and said there'd be some delay in getting the rest of his party aboard. He suggested you needn't wait up unless you wanted to."

Julia thanked him, relieved—and decided that she wouldn't wait up. After all, the day in the office and the ensuing excitement of Woodford's interview hadn't prepared her to be at her best. "I'll get a good night's rest," she told herself, and see what the world holds in the morning."

A moment later she was between the sheets of the berth and the stateroom was in darkness. With the water lapping rhythmically against the hull of the boat, Julia was soon asleep.

She awakened with a start, conscious of a new, yet still rhythmic sound. Unmistakably, it was the sound of the yacht's engine. Julia tossed back the covers of the berth and looked from a porthole. Deck and gangplank were gone! All she could see was an expanse of water which dissolved into the pitch blackness of the sky.

But beyond the soft throbbing of the engine and the wash of the hull driving through the water, there seemed to be not another sound aboard.

POLL TAX PAYMENTS IN THIS AREA ARE HIGHEST IN YEARS

AGED PIONEER DIES OF BURNS AT CLARENDON

INTERESTING NEWS OF TERRITORY IS ASSEMBLED

A total of 2,825 poll taxes was paid in Collingsworth county this year, according to announcements from the office of the tax assessor yesterday. In addition 162 exemption certificates were issued to "unders" bringing the total to 2,987. "Overs" were not required to secure exemptions. Last year a total of 1,741 poll tax receipts was issued, but in 1934 the total reached 3,155.

Burns To Death. Homer Glascoe, 72, prominent pioneer resident of Donley county, died early Wednesday morning of burns received when his clothing caught fire at his home in West Clarendon about 10 o'clock Tuesday night. Mr. Glascoe had gone into the bathroom to prepare to retire for the night. He had changed into his pajamas, when it is believed, he became ignited from the fire of the gas heater. Mrs. Glascoe, upon hearing his cry, rushed into the bathroom and found his clothing ablaze. She extinguished the fire with wet towels, and called a physician who after administering aid rushed Mr. Glascoe to the hospital.

Poll tax payments in Carson county totaled 2,066. This does not include exemptions but covers actual poll taxes paid. Back in the days when this was an open range country in the 90's, Alec Ligertwood was manager of the JA ranch. Occasionally he makes the long journey back from Yorkshire, England, to look over old scenes and renew friendships of other days. Mr. Ligertwood is at Clarendon spending most of the time as a guest in the home of Mr. and Mrs. W. H. Patrick.

Clarendon Beef Show. The first annual Donley county Baby Beef show, to be held at the Harry Blair horse barns at Clarendon March 7, promises to be one of the outstanding stock shows of the Panhandle this year. County Agent H. M. Breedlove announced this week that approximately \$135 in premiums will be awarded to prize winners, this money being donated by organizations, individuals, and business institutions of the county. This is one of the largest premium lists ever to be offered for an event of this type at Clarendon. Twenty-five calves will be entered in the show, Breedlove said, and the following prizes will be awarded to six winners: Grand champion, \$25; reserve champion, \$20; third prize, \$15; fourth prize, \$10; fifth prize, \$7.50; sixth prize, \$5. The remaining 19 entries will be awarded \$2.75 each, to help cover expenses to Amarillo, where the calves will be entered in the Amarillo Fat Stock show.

Canadian district of the Adobe Walls Council of Boy Scouts of America organized Tuesday night, at city hall with six representatives present from Higgins. Fred Cook was elected district chairman. Other officers for the district are: H. S. Wilbur, finance officer; B. C. Hurn, secretary; Leonard Records, training chairman; and J. M. Noble, publicity chairman. Several other officers will be elected later. Another meeting will be held at the Canadian city hall for a court of honor and district meeting Tuesday night, February 25, at 7:30 o'clock. This is an important one for all those in this district who are interested in the welfare of Scouting.

Canadian Scout News. Canadian district of the Adobe Walls Council of Boy Scouts of America organized Tuesday night, at city hall with six representatives present from Higgins. Fred Cook was elected district chairman. Other officers for the district are: H. S. Wilbur, finance officer; B. C. Hurn, secretary; Leonard Records, training chairman; and J. M. Noble, publicity chairman. Several other officers will be elected later. Another meeting will be held at the Canadian city hall for a court of honor and district meeting Tuesday night, February 25, at 7:30 o'clock. This is an important one for all those in this district who are interested in the welfare of Scouting.

Farmers Organize. Meeting in the Wheeler county court house Tuesday evening, the Wheeler County Farmers association elected George Henderson of Kelton as chairman of the organization to succeed J. B. Zybach of Briscoe, who will be out of the county for several months. Chas. R. Plynt, Wheeler, was chosen vice chairman. W. V. Hickerson, Allison, was elected secretary by a large group of members of the association. After hearing reports from five county men who attended the state-wide agricultural meeting at Waco last Saturday, the county organization passed resolutions calling on congress to enact speedy farm legislation to replace the AAA, and express confidence in President Roosevelt, Secretary of Agriculture Wallace, and administration farm leaders.

Hansford Poll Taxes. Not since the days of the old Hansford county court house fight, when Hansford citizens paid poll taxes on their shadows, has the record for payment of poll taxes equalled those paid this year. Nine hundred and sixty citizens stepped up and paid in order that they may participate in what is expected to be the most interesting election, national and county held in Texas. Estimates of the sheriff and tax collector's office places the voting strength of the county at 1,275. Many over and under the exemptions will raise the voting strength of the county.

Johnson To Panhandle. An unusual treat is in store for the people of Panhandle when Miss Esther Johnson, world famous musician, is presented in a lecture con-

rate was used in figuring the statements mailed out February 1. Amarillo will be host to all of West Texas on May 11, 12, and 13—those are the three days that have been chosen for the annual West Texas chamber of commerce convention. **Ochiltree Poll Taxes.** In a last minute rush, the total poll tax payments in Ochiltree county jumped to 1,406, almost 400 more than in 1935. With 93 exemption certificates issued, and with no exemption certificates required for those over the age limit, it is assumed that the total of eligible voters for the July primaries will approximate 1,700. In 1935, 1,029 poll taxes were issued. In 1934, two years ago, a total of 1,420 was issued by the tax collector's office, so Deputy Fred Houston report.

Miss Corina Nichols was to be dismissed from Pampa-Jarratt hospital today.

Dallasite Will Run for Governor

DALLAS, Feb. 8. (AP) — Pierce Brooks, Dallas real estate broker, announced his candidacy for governor tonight on a platform proposing free license plates for passenger automobiles, immediate payment of pensions to persons more than 60 years old, elimination of wasteful sessions of the legislature, and other government reforms.

He argued for free license plates on the contention that existing taxes on small cars amount yearly to 30 per cent of the average car's value. Brooks said that if elected governor his first move for economy would be centralization of "numerous boards and their subsidiary agencies that have been created in past administrations." He proposed reduction of ad val-

New Norge Sales Store Is Opened By Post, Neaves

A. G. (Post) and Jack Neaves, owners of the new Norge sales store here attended a district meeting of Norge dealers in Amarillo last evening. Representatives of the company from over this section saw a showing of new models in the entire Norge line of electrical household appliances. The Post and Neaves store has just been opened in the Combs-Worley building, in the rooms recently vacated by the Central States Power and Light office. Both the proprietors have been well-known residents of Pampa for a number of years.

HALE VOTES DRY

PLAINVIEW, Feb. 8. (AP)—Hale county voted three to two today against legalization of light wines and beer. Returns from all but five small boxes showed a total of 1,513 votes against sale of the beverages and 998 for.

HARVESTERS NOSE OUT SANDIES 22 TO 21 TO SWEEP ROAD TRIP SERIES

PAMPANS WIN FOUR BATTLES IN FOUR DAYS

ALL TEAMS IN LEAGUE ARE BEATEN TWICE BY QUINTET

AMARILLO, Feb. 8. (AP)—With a long, looping pass in the final second of the game, Albert Ayer, guard, won a basketball game here tonight for the Pampa Harvesters that might well have been fashioned in the imaginative mind of a fiction story writer. The Harvesters beat Amarillo 22 to 21. Led by the stellar play of Cochran, center, the Amarillo Golden Standform took the lead in the fourth period of a fairy-tale game, 21 to 20. Behind one point and almost distracted by the din of a nerve-rattled crowd of Sandies fans, the Harvesters gambled in the last second of play when Ayer took a side-line throw and made a flip at the end of the third quarter. The score at that time was 13 to 6, and at the end of the first quarter to 1. The Sandies overtook the Harvesters in the fourth period and were soon leading four points with a minute and a half to go. In that time Roy Lee Jones shot a basket and Ayer made a free shot and a foul shot. Points made as follows: Ayer 6, Junior Strickland 4, Stokes Green 4, Moose Hartman 3. The Harvesters returned triumphantly last night from a four-day road trip in which they played four games against Turkey, Plainview, Lubbock and Amarillo, and captured them, although they won from the Westerners and the Sandies by the skin of their teeth. The amazing Sandies who were almost shut out on the Pampa court 24 to 7 by the Harvesters two weeks ago, were riding their current winning streak like a Pampa handbill last night, but they couldn't quite overcome the three Pampa leads which were 22 to 21. The victory gave the Harvesters a clean sweep of the series of 8 games they played with Panhandle League foes. Pampans who watched the boys play Friday night at Lubbock predicted that they would have a tough time at Amarillo, and reported that the Harvesters were showing the effects of the exacting four-day schedule. It was the most successful road trip ever made by a Harvesters team.

Wrestler Hurt; Purse Held Up But Later Paid

HOUSTON, Feb. 8. (AP)—After a hearing today, Fred E. Nichols, state labor commissioner, ordered Promoter Morris Silver to pay Dan O'Mahony, world champion wrestler, the purse for his match here last night with Whiskers Savage. Nichols last night had held up the purse, pending the inquiry. The commissioner expressed the opinion O'Mahony had deliberately fouled when he threw Savage over the top rope and on his head, the match ending then and there with O'Mahony the winner. At today's hearing, O'Mahony testified he did not realize he was close to the ropes when he applied the back body drop that flipped the 245 pound Savage over O'Mahony's head. Paul Jones, the referee, also testified the foul was not deliberate, in his opinion. Commissioner Nichols said he soon would call a parley to draw new rules for wrestling in Texas, the new rules "to do away with foul tactics." Nichols ordered Jack McGrath, O'Mahony's manager, to sign for a return match with Savage here, the bout to be staged before May 15. Whiskers Savage this afternoon was released from a hospital, where he was treated last night. Dr. L. J. Spivak said the wrestler was suffering from an injury to his back.

Patty Berg Again Wins Golf Title

CORAL GABLES, Fla., Feb. 8. (AP)—The meteoric career of 17-year-old Patty Berg, Minneapolis' red-haired school girl, hit another high point this afternoon as she won the fourth annual Miami Biltmore women's amateur golf tournament. In drizzling rain swirling along on cold, gusty winds, the plucky youngster, one down at the end of the morning 18, paraded through 15 holes of the afternoon round in one stroke under par to defeat Marion Mile, of Lexington, Ky., 4 and 3, in the 38-hole final. It was the second straight victory in Florida for the Minneapolis youngster, who took up golf five years ago and last year she had reached the final of the 1935 national. CAGE SCORES Arkansas 40, Southern Methodist 28, Kansas 43, Oklahoma 36, Washington U. 30, Washburn 42, Nebraska 43, Missouri 33, Purdue 39, Iowa 38, Indiana 42, Chicago 24.

Pampa Beats Lubbock 21-19 To Win League Title Again

3 Harvesters Leave Game on Personal Fouls

Coach Odus Mitchell's Harvesters basketball team won the Panhandle League championship twice in a row Friday night by nosing out Lubbock 21 to 19 in the last second of a hard fought defensive battle. The victory gave the Pampans the League title despite the fact that they still had one game left to play, but the outcome of the Amarillo-Pampa game last night could not have changed the result. The battle with the Westerners was the seventh League win for the Harvesters with no defeats. Coach Mitchell's cagers won the crown last year over the other members, Amarillo, Borger, Plainview and Lubbock. Lubbock was in second place with only two defeats, both at the hands of the Harvesters. Borger has been beaten three and has not yet played either Plainview or Lubbock. Plainview has dropped four games to Pampa and Lubbock, and Amarillo's record before the game last night was marred by six defeats. The Sandies had won one league tilt, crushing Borger in a comeback role 30 to 20. The Harvesters were hard-pressed to win from the Westerners. The officials were obsessed with a foul-calling complex, and Junior Strickland, Stokes Green and Albert Ayer, first-stringers left the tilt on personal fouls. The score at the half was Pampa 10, Lubbock 7. Roy Lee Jones who turned in the outstanding performance for the Harvesters, tied with Stokes Green, for scoring honors. Each was credited with six points. Roy Lee left the crowd gasping by sinking the ball from center. Moose shot the winning basket just as the game ended. The foul, forward, for scoring honors. Each was credited with six points. Roy Lee left the crowd gasping by sinking the ball from center. Moose shot the winning basket just as the game ended. The foul, forward, for scoring honors. Each was credited with six points. Roy Lee left the crowd gasping by sinking the ball from center. Moose shot the winning basket just as the game ended. The foul, forward, for scoring honors. Each was credited with six points.

Wrestler Hurt; Purse Held Up But Later Paid

HOUSTON, Feb. 8. (AP)—After a hearing today, Fred E. Nichols, state labor commissioner, ordered Promoter Morris Silver to pay Dan O'Mahony, world champion wrestler, the purse for his match here last night with Whiskers Savage. Nichols last night had held up the purse, pending the inquiry. The commissioner expressed the opinion O'Mahony had deliberately fouled when he threw Savage over the top rope and on his head, the match ending then and there with O'Mahony the winner. At today's hearing, O'Mahony testified he did not realize he was close to the ropes when he applied the back body drop that flipped the 245 pound Savage over O'Mahony's head. Paul Jones, the referee, also testified the foul was not deliberate, in his opinion. Commissioner Nichols said he soon would call a parley to draw new rules for wrestling in Texas, the new rules "to do away with foul tactics." Nichols ordered Jack McGrath, O'Mahony's manager, to sign for a return match with Savage here, the bout to be staged before May 15. Whiskers Savage this afternoon was released from a hospital, where he was treated last night. Dr. L. J. Spivak said the wrestler was suffering from an injury to his back.

Patty Berg Again Wins Golf Title

CORAL GABLES, Fla., Feb. 8. (AP)—The meteoric career of 17-year-old Patty Berg, Minneapolis' red-haired school girl, hit another high point this afternoon as she won the fourth annual Miami Biltmore women's amateur golf tournament. In drizzling rain swirling along on cold, gusty winds, the plucky youngster, one down at the end of the morning 18, paraded through 15 holes of the afternoon round in one stroke under par to defeat Marion Mile, of Lexington, Ky., 4 and 3, in the 38-hole final. It was the second straight victory in Florida for the Minneapolis youngster, who took up golf five years ago and last year she had reached the final of the 1935 national. WE DRIVERS A Series of Brief Discussions on Driving, Dedicated to the Safety, Comfort and Pleasure of the Motoring Public. Prepared by General Motors. No. 1—CURVES AND TURNS. No MATTER how expert we may be as drivers, we are all apt to fall into habits of driving that don't quite measure up to what we really know is right. For instance, we all know that we ought to be careful about passing cars, especially when another car is approaching from the opposite direction. And yet there are possibly half a dozen of us who haven't, at one time or another, moved over in the road to pass a car, and then wondered if we would get around in time. Now here's an interesting thing about that. When we try to pass a car that's going forty miles an hour, it's just the same as if we tried to pass a car standing in the road, six feet long. In other words, it's like passing eight cars parked bumper-to-bumper in the road. If we try to pass one going sixty, it's like trying to pass a line of more than sixteen cars standing in the road, and sixteen cars in a row will reach half a block. This is probably a new idea to most of us. If we kept it in mind, we would never pass a car unless we were sure that there were no oncoming cars for a road long distance ahead. But turning aside to pass is not the particular kind of turning that we are interested in discussing here. What we are now concerned with is taking curves and corners. From time to time these discussions will find that the same old laws of Nature will be involved. Foremost among them will be the laws of momentum, and momentum plays the major part in going around curves. Because momentum not only wants to keep us going, but going in the same direction. When it is trying to make us go straight instead of curving our course, it operates under an assumed name, if you please. For then we call it "centrifugal force." Now of course we all know what centrifugal force is. We feel it when we go around curves. Highways and railroads are banked at curves to offset centrifugal force. Aviators bank their planes at turns by tipping them with the controls. But even though we all know about centrifugal force, few of us realize how powerful it is, and how much greater it gets the faster we go. A 3000-pound car making a turn of 500-foot radius, has to overcome a centrifugal force of only about 150 pounds at 20 miles an hour. But at 30 miles an hour, that force has grown to 360 pounds, and at 60 it is nine times as great as at 20. . . . over fourteen hundred pounds trying its best to push us off the road! The only thing that keeps us on the road in the first place is the friction between our tires and the road. The minute the centrifugal force gets stronger than the force of that friction, off the road we go. The trouble is that what we often don't realize how fast we're going. On road trips, for instance, after we have driven at a certain speed for a long time, it seems a small matter to increase our speed a few miles an hour. Then after a while we may do the same thing again. In other words, we keep putting forward our basis of comparison till by-and-by we have lost our usual sense of how fast we are going. Then, the first thing we know, we are face-to-face with a turn or even half way around it and we feel Old Man Centrifugal Force trying to push us off the road. So what do we do? We clamp down the brakes. It's the only thing we can do when we find we're going too fast. But just the same, approaching that corner too fast has kept us from taking it as we should have liked to. For if conditions permit, it is often desirable to increase speed as we go around a curve. As long as our rear wheels are not being retarded, but are actually pushing us around the curve, our steering is effective and our car is under control. The long and short of it is that we can't take liberties with the laws of momentum and centrifugal force. Man's speed laws may not always be observed, but Nature's speed laws always are!

Pampa Calculated To Have Hard Fight To Win Tourney

Yet Statistics Give Boys Distinct Edge

It would be a shocking upset if Pampa's Harvesters do not win the district basketball tournament here next week-end. It would be a surprise indeed, if they do not win it. The Pampa Harvesters have not been defeated in the district, and they have trounced every team in the district or have whipped teams that have beaten the other teams they have not played. They have recorded victories over quintets regarded as their most formidable foes — Borger, Mobeetie, Groom, Plainview, Perryton, and they have beaten teams that have beaten Wheeler, now rated one of the strongest clubs in the district. Tough Foes Loom Yet, the Harvesters stand a good chance to lose next week. Their toughest district foe, if the Tigers play anything like they did at Mobeetie and Groom, will be Groom. Borger's Bulldogs are traveling the comeback trail at a rapid pace. They won a 23 to 19 decision over Whittsburg (Phillips) Friday night at Borger, and are laying determined plans to cop the third and deciding game before Thursday. Borger lost the first game to the Phillips boys at Whittsburg. Either Groom or Borger, playing at their best, could beat the Harvesters if the hometown boys were stumbling along in an off-key as they sometimes do. Wheeler's Mustangs which will likely represent Wheeler county have won 28 out of 33 games, and will, if given the opportunity to meet Pampa, try to stage a giant-killing act. Perryton's taller-than-Harvesters Rangers have also improved about 700 per cent since the Harvesters annihilated them in the Perryton tournament and on the local court. Spearman's Lynx which led the Harvesters until the final quarter in games at Spearman and at Perryton, have an amazing defense. They rate their defense as the most baffling in the Panhandle. No team in the last months has scored more than a dozen points on them, including Borger and Perryton. Spearman will likely represent Hansford county. The Lynx are hoping they will get a chance at the Harvesters and wipe out the stain of three previous defeats. If Mobeetie wallops Wheeler for the right to represent Wheeler county, the Hornets will undoubtedly prove dangerous. Ows First Foe Hedley will likely represent Donley county, and as a consequence

Wrestler Hurt; Purse Held Up But Later Paid

HOUSTON, Feb. 8. (AP)—After a hearing today, Fred E. LeFors Teachers Beat Borger Gulf Refiners 39 to 37

The Pirate Profs from the LeFors school gave warning to other teams in this section that they are on the trail back to being the toughest aggregation in the loop in taking a 39 to 37 game from the Borger Gulf Refiners in a tussle in the Panhandle high school gymnasium last night.

Francis Smith came out of a scoring slump to lead the Pirate Profs as he looped 17 points. Frank Monroe added 10 points and Bill Bronson followed with nine. Fonberg looped a field goal and Hill made a single point. Duncen and Brown also worked for the Profs.

Junior Cagers Win Wheeler's Hoop Tourney

Winning basketball tournaments has become a habit with Pampa teams. The Junior high team, coached by Tom Herod, followed in the tracks of the Harvesters in winning first honors in the Wheeler Junior Invitation tournament yesterday.

The Pampa quintet played and won four games yesterday, taking the final last night from the crack Miami five, 20 to 16. Pete Dunaway, Pampa guard, got "hot" and his teammates passed unselfishly to him as he looped 14 of the points made by his team.

Fampa's juniors opened the tournament by defeating LeFors, 20 to 8. In a stellar defensive battle, the local quintet downed Mobeetie, 9 to 5. To enter the finals, the Juniors defeated Shamrock, 15 to 12, in another titanic struggle.

The Keltin girls' team took that division, defeating Wheeler in the final game. Coach Herod took with him the following players: Miller, McDaniels, Junior Williams, George Williams, Grover Heiskell, Pete Dunaway, Robert Bowe, man, and Doug Keyser.

Amphibian Ship Takes Gas Here

A Sikorski amphibian plane landed at the local airport at noon Friday to take on gas before continuing its flight against dust and wind en route to California. The ship drew hundreds of Pampans to the airport.

Piloted by Marion McKean and Felix Brewer, the ship was en route from New York to California. It will be placed on a boat from the Hawaiian Islands, where it will be placed in service. The plane was powered with a Pratt-Whitney 300 h. p. Wasp motor. Only 100 miles an hour could be made against the terrific headwind.

The plane was equipped with both landing wheels and pontoons, on the wings. The motor was perched above and in front of the cabin which was shaped like a large size motor boat.

LeFors Scouts Observing Week

Boy Scout troop 19 of LeFors is carrying out a full program during National Scout week.

Yesterday, the boys heard President Roosevelt address the Scouts of the nation, at the LeFors high school. This morning they will attend the Methodist church in a body, and in the evening the Baptist church.

Monday night they will attend a ball game which they will sponsor. Tuesday noon they will furnish the program for the Kiwanis club. Wednesday evening will be parents' night at the Scout headquarters.

WOULD IMITATE 'FRISCO

SEATTLE, Feb. 8 (AP)—Former Mayor John F. Dore promised tonight "Seattle will be no Sunday school town if I am its next mayor. Opening his campaign for re-election to the office he left two years ago, he said: "You can't attract tourists to a Sunday school town to spend their money and Seattle will be no Sunday school if I am its next mayor. I'll make a San Francisco out of it."

PLANE IN DISTRESS

IRONWOOD, Mich., Feb. 8 (AP)—Powerful lights were set up and stacks of hay were burned in fields tonight to guide to a safe landing place an airplane police said had been scaring over the city for two hours. The ship last was reported near Wakefield, Mich., ten miles away, where similar methods were being used to attract the pilot's attention as he fought through "a blinding snowstorm."

LITTLE LINDY?

AKRON, O., Feb. 8 (AP)—Police Chief Frank Boss said he received a letter today from a gardener living in Schleswig-Holstein, Germany, suggesting a boy placed in his custody by a "bum" June 15, 1932, might be Charles A. Lindbergh Jr. Boss displayed a picture of a blond, curly-haired child which he said Johann Kling, the gardener, enclosed.

ITALIANS WIN BITTER HOCKEY BATTLE FROM UNITED STATES

By GAYLE TALBOT GARMISCH-PARTENKIRCHHEEN Germany, Feb. 8 (AP)—The United States suffered two major reverses in the fourth winter Olympics today as the hockey team, bowled to Italy in a stunning upset, and Donna Fox, pilot of the leading four-man bobsledding team, narrowly escaped serious injury in a spectacular crash-up on the Olympic chute.

These developments overshadowed such other competitive results—as Canada's third successive victory in defense of its hockey crown and the smashing triumph of Germany's Christel Czanz in the slalom and the combined downhill-slamol skiing championships for women.

America's hockey defeat, a shock to the experts, came in a wildly exciting, bruising game that went to two extra ten-minute periods before Giovanni Scotti scored the goal that gave the Italians a 2-1 victory.

For the first time, the Americans found their unpopular but highly effective body-checking matched by the opposition and as a result tempers were on hair-triggers throughout the game. Ill-feeling cropped out early and stayed late while partisans in the crowd, biggest that has yet turned out for the hockey, alternately jeered and cheered.

American Olympic officials to-

night over-ruled the desire of Fox to participate tomorrow in the final practice runs for the four-man competition, now scheduled for Tuesday.

"I expect to be all right," Fox said. "It was a painful tumble but I'll get over it."

The defeat, first for the United States in three matches, left in doubt the final standing for the first round-robin series.

Fox, suffered minor injuries to his hand and knee and his three American team-mates were badly shaken up when their sled overturned on the final curve of the hazardous Olympic bob run during a practice spin.

Knudsen, who came here today from the Pacific coast, said the exact nature of the exhibition and entertainment had not been determined, but a weekly series of entertainments and spectacles was being considered. This, he said, would give the exposition a \$1,000,000 musical and entertainment program.

General Motors To Present Show At Centennial

DALLAS, Feb. 8 (AP)—General Motors will present outstanding stars of radio and the show world in a series of entertainments at the Texas Centennial exposition this summer.

W. S. Knudsen, executive vice president, announced today the corporation will take over the 4,444-seat Centennial auditorium for the duration of the exposition. The seats on the ground floor will be torn out, and the floor made level with the stage, he said. The auditorium will be air-conditioned. The 1,800 balcony seats will not be disturbed.

Knudsen, who came here today from the Pacific coast, said the exact nature of the exhibition and entertainment had not been determined, but a weekly series of entertainments and spectacles was being considered. This, he said, would give the exposition a \$1,000,000 musical and entertainment program.

Municipal Light Issue Defeated

WICHITA FALLS, Feb. 8 (AP)—For the second time Wichita Falls today rejected the offer of the federal government to finance the building of a municipal light plant. The federal government through the PWA offered a grant of \$90,000 and the purchase of \$1,200,000 in bonds. The proposal was defeated today by a vote of 3,173 to 2,803. A majority of 370 ruled against the bonds.

Several weeks ago a similar proposal was defeated by a vote of 1,968 to 1,573. In the first election the proposal involved the pledge of the light plant and water plant revenues. Upon the defeat of the proposal the PWA proposed only the revenue of the light plant as security.

WEATHER

(Continued from page 1)

was delayed by storms and New York was awaiting a blizzard predicted for Sunday, unless conditions changed.

A half dozen freight trains were buried in Iowa snowdrifts and as many or more through passenger trains were held up at stations while the storm raged. Only through trains moved in Nebraska, and rail service was seriously affected in Southern Minnesota, and South Dakota.

The Texas Panhandle varied the day's weather picture with a report of a dust storm as the coldest weather gripped that state. Dodge City, Kan., saw cocoa colored snow follow the worst "black blizzard" since last spring.

Mrs. R. J. Kiser and daughter, Helen Ann, have returned from Fredonia, Kan., where they attended the funeral of Miss Maurine Walker, sister of Mrs. Kiser. Miss Walker, who had visited in Pampa frequently, died of a heart ailment in a hospital at Wichita, Kan.

GUARD WELL YOUR LIPS: For he that will love life, and see good days, let him refrain his tongue from evil, and his lips that they speak no guile.—1 Peter 3:10.

A Long-Needed Traffic Law

In the discussions of the new state drivers' license law, many of its provisions have been overlooked. While the licenses, based on sworn statements of applicants, are not as rigid as might be desired, the law has many desirable features. And the time and expense of rigidly examining 20,000 motorists in this area would have been huge. Every car is driven by from one to half a dozen persons.

The new law attempts, for the first time, to provide the State with the facts necessary to compile accident statistics. Texas has long been the only state not having such data. When the law becomes effective, peace officers, ambulance drivers, and hospitals will be required to report all traffic accidents in which they have data. Persons involved in accidents must report the facts and their identity to peace officers.

The strength of the new law is not that it will clear the highways of defective drivers at once, but that it will require drivers to have in their possession at all times a license which may be canceled or suspended. The fear of losing the right to drive should be helpful.

Although in some of its workings the new law provides the penalty only after the accidents which it is supposed to prevent, it is probably as good a law as could have been pushed through at the time of its passage. Texans do not lightly accept regimentation, even in the name of safety. If this law is not effective in reducing accidents, it can be strengthened. It is not likely to be repealed.

BEHIND THE SCENES IN WASHINGTON

BY RODNEY DUTCHER

NEA Service Staff Correspondent

WASHINGTON. — Washington lives from one U. S. Supreme Court decision to the next.

The court and the Constitution are on every mind and every tongue. Much of the talking is done in whispers.

Most persons here sense a dull, lethargic atmosphere which doubtless comes from the general belief that the court will go right on killing legislation until there's next to nothing left of the New Deal.

Anti-New Dealers are tensely alert for every possible political advantage. Old men mumble to their wives at night. Government employes go around asking one another, "Are you unconstitutional yet?" The whole tempo of the Capital has slowed down.

In the White House, Roosevelt discusses the court and the Constitution with his advisers and many visitors, again and again. He has little hope that much but fragments will be left of the New Deal.

His congressional leaders have told him that any immediate attempt to pass legislation curbing the courts would be too great a risk. He just waits, while many of his supporters take occasional cracks at the court and strain their ears for the popular reaction.

Everybody agrees that popular reverence for the court tradition of infallibility will die hard, if ever.

Out of all the huddling and buzzing and plotting come certain fundamental implications which are now thoroughly appreciated by both sides, but which thus far have been little publicized.

If Roosevelt is re-elected, the nation is likely to see a "second New Deal."

In other words, as some of the New Dealers already are predicting, the legislation killed by the court—or laws of the same type—may be enacted all over again in Roosevelt's second term, with the likelihood that nearly all of them would be validated by the court.

Of course the idea is that Roosevelt might get the opportunity of appointing two new justices of liberal trend. Because the average age of justices is 71, and for other reasons, it is generally believed F. D. R. will have such a chance to "re-make" the court if he stays in the White House.

Conservative Justice Van Devanter's health is none too good and it is rumored that he—as well as Conservative Justice McReynolds—would have retired ere this if he could have been sure of being replaced by a conservative.

Whether either would try to stick another four years after inauguration in January, 1937, is questionable.

Certain Liberty League orators already have warned the voters that Roosevelt will "pack" the court if he gets back in. Any such choice of words is also questionable.

Presidents have the constitutional prerogative of appointing supreme court justices. If the voters are afraid of the type of jurists Roosevelt will name if he gets the chance, they can head him off next November.

The voters might as well know that Roosevelt probably will appoint liberals of the Brandeis-Stone-Cardozo type if he can and the Liberty League might as well prepare to pipe down in case it can't beat him this year.

BARBS

The question asked most frequently at the New York public library is "Can the Prince of Wales be crowned before he is married?" Men usually aren't.

About the only one who can face the music these days, judging by that new song hit, is a dervish.

Mussolini has announced that Italy will fight to the last man. But when can Il Duce do then, alone?

Church Banquet For Fathers and Scouts Planned

A Boy Scout week banquet which will include all boys in First Christian church and their fathers, is announced for Tuesday evening in the church basement. The church's Scout troop and Cub troop will be special guests.

C. H. Walker will be the main speaker, and the program will include music and other entertainment. It is in charge of the scouting committee of the church: Chris Martin, G. L. Thomas, J. B. Townsend, Billy Taylor, Paul Hill, E. C. Wilson, and John S. Mullen.

Dinner will be served at 7 o'clock. Every boy in the church is being invited to attend and bring his father.

Schools Are to Close for Meeting

CANYON, Feb. 8.—George A. Heath, superintendent of the White public schools, is a member of the executive committee of the Northwest Texas Conference for Education which will hold its third annual meeting in Canyon at the West Texas State Teachers college on March 6 and 7.

Practically every school in the Panhandle will be closed on March 6 so that school board members, superintendents, teachers and friends of education can attend the meeting. Last year there were 3,000 present and an even larger number is expected this year, for the program is featuring Willard Beatty of Bronxville, N. Y., and Frank W. Hart of the University of California, Berkeley.

These two men are internationally known leaders in the field of education.

Mr. Heath is also a member of the resolution committee of the conference.

Glass Bead Is Headache Cause

Troubled recently with carache, Irene Wallin, junior high school girl, had an examination by Dr. R. A. Webb, who found deeply lodged in her ear a large glass bead. The patient of her family had never suspected its presence and had no idea how long it had been there.

This examination was made by Dr. Webb, city and county health officer.

OUT OUR WAY

By WILLIAMS

WELL, SO LONG— I SEE YOU TOMORROW HAVE TO STOP IN AND COLLECT SOME RENTS

YEAH, HE OWNS FIVE OR SIX HOUSES— BEEN VERY CAREFUL ALL HIS LIFE

HE GIMME A LECTURE, ONCE HE SAID, "WHEN YOU GUYS GET A RAISE, YOU SPEND IT— WHEN I GET A RAISE, I SAVE IT, BECAUSE I GOT ALONG BEFORE I GOT A "ALY RAISE"

YEAH, BUT DID HE SAY WHAT HE DID WHEN HE GOT A JOBT, ER GOT LAID OFF? I SAVE, TOO, FER RAINY DAYS, BUT MY BANK HAD A RAINY DAY

NO WONDER 'EM OLD BOYS COULD SAVE THEIR TIME— INVENTING STUFF FER THE NEXT GENERATION TO BUY RADIOS, AUTOS, BUNGALOWS, SILK STOCKINGS AN'

THE OLD SCHOOL © 1936 BY NEA SERVICE, INC. T. M. REG. U. S. PAT. OFF.

BOOTS AND HER BUDDIES

DYA SEE ER? YEAH! SHE KNOWS DERN WELL WERE FOLLOWIN' ER, TOO

SURE! SHE'S FIXIN' HER HAT AN' HAIR EVERY TEN STEPS! THAT MEANS SHE'S WATCHIN' US IN TH' MIRROR IN HER VANITY CASE

YEAH! I'VE BEEN CHECKIN' UP ON 'ER! EVERY AFTERNOON SHE BUZZES OVER THIS WAY— THEN I LOSE 'ER LIKE CAREFARE IN A CRAP GAME

CAREFUL, MISTER X! TWO WALKING QUESTION MARKS ARE BRINGING UP THE REAR! I'LL BE SEEING YOU— IN A JIFFY

I'M SPRICKED SHE'D LET US CORNER 'ER LIKE THIS

OH, I GUESS SHE SAW IT JUST WAGNT ANY USE 'RYIN' TENE US TH' SLIP

NEW MATERIAL

By BLOSSER

LET'S LEAVE FRECKLES AND TAG, AND GO TO ANOTHER SECTION OF THE COUNTY....

JOE, WE'VE GOT TO GET A NEW COLT FOR THE SHOW! I WANT YOU TO SCOUT AROUND AND FIND ME SOMETHING WITH SOME LIFE IN IT!!

WHAT'S THE MATTER WITH PAPRIKA, MR. FARLEY?

CANT USE HER ANYMORE... TOO FAT AND LAZY! I WANT SOMETHING THAT WILL BUCK! I DONT CARE IF YOU PAY AS MUCH AS \$500, BUT I WANT SOMETHING LIVELY!

HOW ABOUT THAT LITTLE BURRO I BOUGHT LAST WEEK?

NOPE! IF PEOPLE ARE PAID BY US TO RIDE A BUCKING ANIMAL, WE'VE GOT TO SEE THAT THEY'RE BUCKED OFF!

WE CANT OFFER A PRIZE TO PEOPLE FOR RIDING A BUCKER, AND THEN HAVE THE BUCKER LAY DOWN ON US....

BUT THAT BURRO IS PEPPY WHEN HE WANTS TO BE!

SURE, BUT AS A RULE, HE'S SO DANGED AFRAID YOU'LL SAY "WHOA", AND HE WON'T HEAR YOU, THAT HE STOPS EVERY ONCE IN A WHILE TO LISTEN!!

OIL NEWS -- From Panhandle and Other Southwest Fields

TEXAS LEADS UPON MARKETS IN BIG AREA

HUGE SURPLUSES ARE SENT ELSEWHERE EACH YEAR

BY ELMER H. JOHNSON, Regional Economist, University of Texas Bureau of Business Research.

It is common knowledge that Texas is the nation's leading producer of oil and gas, petroleum products, carbon black, sulphur, cotton, cotton seed, cattle, sheep, and wool.

For the most, if not all of these groups of industries, Texas possesses absolute advantages for their continued growth. The growth of these industries as enterprises in Texas has been built upon markets outside the state.

The continued growth of the already important home market in Texas, and other states of the Gulf Southwest is obviously dependent upon the continued economic growth in Texas, and the southwest, and it is particularly dependent upon the growth and extension of manufacturing industries in the state.

This is but another way of stating the proposition that any real increase in Texas' prosperity is fundamentally dependent upon the growth and prosperity of Texas industries—manufacturing, agriculture, and ranching, transportation—not only build up a larger regional market for home industries, but also increase the demand for commodities produced elsewhere that is, commodities which other regions produce with at least relative advantage.

Economic interdependence—regional activities tied together by trade is the basis of modern economic growth, whether one considers the United States, the United Kingdom, Germany, or Japan. The basis of this economic interdependence is nature: The physical capacity of regions, the absolute advantages of a region due to its inherent natural potentialities, and the possibilities for effective transportation—in which the natural factors always play a prominent part.

New industries develop in Texas only as plants are established to sell in the growing home market, or as enterprises come into Texas because of the absolute advantages Texas has to offer in the form of vast raw material resources, which the state possesses large and adequate supplies. Of particular importance in this regard are the vast fuel and power resources of the state—the available oil and natural gas supplies, which easily exceed those of any other state. The factor of geographic location of the state is also of marked significance.

PROGRAM FOR RESESSIONS TAKES FORM

Wichita, Kans., Making Big Plans for Spring Meeting On Feb. 20, 21.

The Mid-Continent spring A. P. I. meeting to be held in Wichita, Kan., February 20 and 21 promises to be one of the finest ever held from the standpoint of interesting subjects which are to be discussed and from the caliber of the authors of the papers.

It is anticipated that 2,000 members from Oklahoma, Texas, Arkansas, and Kansas will attend this meeting. Some of the papers dealing with matters of great importance to the oil industry which have been selected are:

"Trends of Surface Pumping Equipment in Mid-Continent Fields"—by J. S. Montgomery, Phillips Petroleum Company, Bartlesville, Okla.

"Dynamometer Tests Indicate Present Pumping Methods Subject Sucker Rods to Unnecessary Loads"—by P. Eaton, Javelin Mfg. Company, Tulsa, Okla., and H. D. Collins, Gypsy Oil Company, Tulsa, Okla.

"Gas Repressuring in Eastern Kansas"—by N. M. Hutchinson, Empire Oil Gas Company, Oil Hill, Kan.

"Power Equipment for Drilling Operations"—by W. C. Dryer, Westinghouse, Electric & Mfg. Company, Dallas.

"Present Producing Methods in the Oklahoma City Field"—by Fred Lichtenheld, I. T. I. O., Oklahoma City.

LOCATIONS ARE SLOWER—GRAY COUNTY LEADS

NINE ANNOUNCEMENTS ARE MADE FOR LAST WEEK

Gray county had five of nine new locations in the Panhandle during the last week.

Wheeler had two and Hutchinson and Carson one each.

Intentions to drill were filed with the Railroad commission's Pampa office as follows:

Valley Oase Oil company Jameson No. 2, 330 feet from the north line and 850 feet from the south line and 330 feet from the west line of NW corner of the 62.8 acres of section 12, block M-21, T&C&R, Hutchinson county.

Champion Refining company M. M. Binkley No. 1, 330 feet from the north and west lines of the SE 1-4 and 5/8 of W 1/2 of NE 1-4 of section 35, block 24, H&G&N survey, Wheeler county.

Shells Petroleum corporation C. H. Shells "A" No. A-2, 330 feet from the east line and 990 feet from the north line of the E 1/2 SW 1-4 of section 3, block 1, BS&F survey, Gray county.

W. J. and John J. Moran L. Holmes No. 2, 990 feet from the west line and 330 feet from the north line of S 1/2 SW 1-4 of section 36, block 3, I&G&N survey, Gray county.

Empire Gas and Fuel company G. W. Deahl No. 3, 330 feet south and 330 feet east from center of section 15, block 3, AM&B survey, Carson county.

'MY, HOW YOU'VE CHANGED'

OIL WARNINGS SOUNDED IN FRANCE AND ENGLAND AS EACH SCANS SOURCES

GRENOBLE, France, Feb. 8 (AP)—France, hard-pressed for an oil supply of her own, is making an effort to squeeze enough "black-gold" out of the hilly soil of Haute-Savoie to make production economically feasible.

It has long been known that petroleum underlies many parts of France, but the deposits are so sparse that production has been found possible only in a few spots and the total domestic output has been trifling.

Parisians' Discount Debts. Last spring the government began a survey of the Haute-Savoie region as a possible oil source and a company engaged in oil production in Alsace has been brought into the region to construct an experimental well.

Engineers plan to drill 1,200 feet. They have stressed that the work is wholly experimental—they are making no predictions of success.

COMMUNISM IN MEXICO HITS BIG OIL FIRM

Such Is Claim When 600 Employees Walk Out Recently

MEXICO CITY, Feb. 8 (AP)—Despite reassuring official statements and denials from leftist leaders they are engaged in subversive activities, new charges that communists are working against the Mexican government created increasing concern throughout the country in the past week.

No concrete proofs have been produced to substantiate charges that the Third Internationale was financing from Moscow an attempt to overthrow the Mexican government.

The Italian tanker Oltrea, under Italian government charter, took 50,000 barrels of crude from the Samfordy field. It was the third Italian tanker to call here for oil.

SEVEN MORE COMPLETIONS IN PANHANDLE FIELD ADD TOTAL OF 3,852 BARRELS POTENTIAL

HUTCHINSON AND GRAY HAVE THREE EACH LAST WEEK

A total of seven completions in the Panhandle oil field added 3,852 barrels to the daily potential production last week.

Three tests in Gray county were good for 1,795 barrels, and three in Hutchinson for 1,674 barrels daily. One in Carson was completed for 483 barrels.

Gray county took the lead in first announcements, with 5 out of a total of 9 for the week. Wheeler had 2 locations and Hutchinson and Carson one each.

Christie-Hickman No. 1-B Gething survey, section 48, block A-9, H&G&N survey, tested 628 barrels daily. Pay was from 2,976-90 feet, and total depth was 2,715 feet.

Empire Gas & Fuel company No. 10 Culler, section 164, block 3, I&G&N survey, tested 862 barrels daily. Pay was 3,155-75 feet. Total depth was 3,240 feet.

Phillips Petroleum company No. 2 Pontier, section 6, block M-21, TCR survey, tested 568 barrels daily. Pay was at 2,930 feet to the total depth of 3,050 feet.

Huber Petroleum company No. 3 Wetherly, section 34, block Y. A&B survey, tested 776 barrels daily.

Valley Oase Oil company No. 1 Jameson, section 12, block M-21, TCR survey, tested 230 barrels daily. Pay at 2,847-88 feet. Total depth was 2,888 feet.

Welding School Will Be Free

LUBBOCK, Feb. 8.—Manufacturers and users of welding equipment will cooperate with the Texas Technological college department of mechanical engineering in sponsoring the second annual welding conference at the college February 13 and 14.

Five hundred guests are expected. The program will feature lectures by welding experts and representatives of welding companies, motion pictures, slides, exhibits, and demonstrations of various processes by factory welders.

Addresses and discussions the first day will deal with multiple flame welding, economy and equality in welding through personal training, fusion welding as practiced on the Santa Fe railroad, arc welding as a fabrication tool, and general welding applications.

The second-day program will include addresses and recent development in low temperature brazing, hard surfacing, welding of farm implements, and identification of metals to be welded.

BECHTEL OIL OUTPUT GROWS

BERLIN, Feb. 8 (AP)—Petroleum production in Germany increased in 1935 to 429,673 tons as compared with 314,602 tons in 1934. This was an increase of 36.6 per cent, due largely to energetic Nazi measures to develop the country's scanty oil resources.

In 1934 they included 1,127,000,000 gallons of gasoline, 667,302,000 gallons of crude, 222,092,000 gallons of kerosene and 108,445,000 gallons of lubricating.

Home Product Trifling. Much has been said here about producing oil from coal, as "making it technically possible to render this country independent of imported oil."

In war this home-produced gasoline would "suffice only for the air force," estimates Herbert A. Humphrey, fellow of the Imperial College of Technology and Science.

Continental Has New Oil "Alloy"

PONCA CITY, Okla., Feb. 8.—Raising the safety factor of motor car operation as well as making possible important basic changes in motor engine design, was forecasted pany today as the outcome of untraced field tests of passenger cars and trucks made with a new "alloy" lubricating oil developed by the Continental company's research chemists, working in association with Professor G. L. Clark of the University of Illinois.

Another "alloy" oil subsequently developed by Atlantic Refining Company, for which similar fielding claims are made, indicates that revolutionary changes are not unlikely in the manufacture of motor oils.

Italian Tankers Get Texas Oil

PORT ISABEL, Feb. 8 (AP)—Oil shipments to Italy through this new seaport were resumed recently after discontinuance when the state department frowned on the traffic.

The Italian tanker Oltrea, under Italian government charter, took 50,000 barrels of crude from the Samfordy field. It was the third Italian tanker to call here for oil.

SPRING'S AWAKENING. TULSA, Okla.—Slowly and ponderously, old Methusalem's tall swing to the left, paused, inched back to the right.

"Spring" said zoo keeper Hugh Davis as he watched the sleepy alligator, "is just around the corner. Ground hogs come and go, sometimes right, sometimes wrong. Old Methusalem's first tall wagging is always right."
